Pricking heat and numbness of skin of face, arms, breasts and vesicular eruption, followed later by desquamation. Whole face puffed and edematous, eyes, nose, ears, lips.

Clinical

Breast-feeding, disorders. Nettle-rash. Urine, suppression.

Symptoms

MIND

Extreme anxiety with difficult speech.

Breasts

The secretion of milk was established after lack of it in all previous confinements.

Marked action on milk glands.

Eyes

Eyes puffed and edematous.

Face

Face, eyes, ears, nose are puffed and edematous.

Female

Secretion of milk re-established in a woman's breasts three years after birth of last child, she had twelve children and had not suckled any of them, having had no milk, (effect from two cupfuls of a decoction).

Kidneys

Retention of urine.

Skin

Numbness, burning, pricking heat. Vesicular eruption, especially on face, arms, shoulders and breasts. Nettle rash. (Apis., Chlor., Dulc.). Desquamation. Burning sensation very soon after contact. Vesicular eruption.

Pricking heat, numbness and burning of skin of face, arms, shoulders and breasts.

Mel cum sale

(honey with salt)

Pharmacy

Mel-cum. Mel Cum Sale. Honey with Salt. Historical dose: Tincture and all potencies, third to sixth potency.

History

Mel Cum Sale has been used for prolapse uterus and chronic metritis, when associated with subinvolution and inflammation of the cervix. Uterine displacements and in the commencement of metritis. Honey for itching of anus and worms. **Planets:** Venus, Moon.
Homeopathic

The special symptoms leading to Mel-cum. is a feeling of soreness across the hypogastrium from ileum to ileum. Sensation as if bladder were too full. Pain from sacrum towards pubes. Pain as if in ureters.

Clinical

Uterus, prolapsed.

SOURCES

Boericke.

Melaleuca alternifolia

(tea tree oil)

Pharmacy

Oil of Melaleuca alternifolia. Tea tree oil. New South Wales, Australia. Do not store in plastic containers. Historical dose: The colorless to pale yellow Oil, tincture and all potencies. One part Tea tree oil to ten parts olive oil, (also almond or avocado oil). Add ten drops to an 8 oz. bottle of shampoo. Add ten drops to a bath, humidifier or vaporizer. Avoid eye contact.

Herbal

The Tea tree grows in the swampy areas of New South Wales, Australia. The oil contains terpenes and terpineol which gives it a nutmeg-like odor. It contains viridiflorene. Tea tree oil is has been used as a non-irritant anti-septic, fungicide and disinfectant of great repute.

PAGE 1080

Skin emollient. Creams for dry and cracked skin. Hand and body lotions. Used as a mouthwash or gargle for sore throats. Also in a vaporizer for congestions and colds. Use the shamoo for head lice, ticks, scabies and cradle cap. **Planets:** Saturn, Venus.

Homeopathic

Tea tree oil when applied to pus filled infections will clean and dissolve the pus without irritating the tissues. Dental treatment for pyorrhea and gingivitis. Infected finger-nails or toe-nails. Skin fungus. Tinea versicolor. Bad breath. Diabetic gangrene. Yeast infections and vaginitis. Sprains and muscle aches. Dermatitis. Poison oak or ivy.

Clinical

Abscess. Athlete's foot. Arthritis. Boils. Cervicitis. Cold sores. Corns. Cradle Cap. Cuts. Hemorrhoids. Herpes zoster. Insect bites. Sore throat. Sunburn. Thrush. Trichomonal infections. Ulcers. Warts.

Melastoma ackermanni

Pharmacy

Mela. Melasto. ackermanni. N. O. Melastomaceae. Tincture of leaves. Historical dose: Tincture and all potencies.

History

Mure figures and describes this plant. He made a proving of the leaves. On the second day of the proving the prover lost an inveterate diarrhea with colic. **Planets:** Venus.

Homeopathic

The most notable Mela. symptoms were a pain in the perineum and testicles and shuddering followed by heat without sweat. Prostration. Pains in perineum. Diarrhea. Prostatic disorders.

SOURCES

Clarke.

Melilotus officinalis

(yellow clover, sweet clover)

Pharmacy

Meli. Melilotus officinalis. Yellow clover. Sweet clover. Melilotus alba. White and yellow varieties. N. O. Leguminosae. Tincture of whole fresh plant in flower. It would be well to include a specimen of both plants in the tincture. Historical dose: Tincture and all potencies, lower potencies.

History

Meli. was first proved by Bowen in 1851. A second proving was made by him fifteen years later. He used both the yellow and the white varieties. H. C. Allen published a further proving of Meli. Alb. with the symptoms of Bowen. Allen used the entire plant. His proving entirely confirmed Bowen's and added many symptoms thereto.

According to H. C. Allen the action of Melilotus lasted about thirty days, the indolence and prostration being the first symptom to appear and the last to disappear.

Bowen removed these symptoms in different cases: (1) Wants to run away. Wants to kill himself. Vicious. Threatens to kill those who approach. Thinks there is a devil in his stomach contradicting all he says.

(2) Wants to run away and hide as she insists that every one is looking at her. Very nervous and timid. Says she dares not talk loud as it would kill her, she whispers.

(3) Mania to escape and kill himself with insomnia. In this last case Meli. produced so much improvement that the friends discontinued treatment and neglected precautions and the patient finally shot himself. Cases 1 and 2 were permanently cured. **Planets:** Moon, Mars.

Homeopathic

Melilotus produces congestions especially to the head and profuse, bright red, hemorrhage which gives relief. Congestions and hemorrhages seem to be the special manifestations of this drug. Violent congestive and nervous headaches.

Tired, bruised, listless, sleepy, chilly. Hemorrhages. Engorgements of any part or organ. Spasms, eclampsia, convulsions, epilepsy.

PAGE 1081

Epilepsy from blow on head. Infantile spasms. Pain and debility point to it. Coldness but also increase of temperature, tenderness and pain. Muscular system depressed. Dreams and emissions. Feeling of rawness.

Clinical

Blushing. Congestion. Coughs. Debility. Delusions. Dysmenorrhea. Epilepsy. Fears. Hemoptysis. Headaches. Insanity. Leucorrhea. Nosebleeds. Ovaries, neuralgia. Pneumonia. Rheumatic pain. Shyness.

Modalities

Better from bleeding, profuse urination, vinegar application. Worse rainy, changeable weather, approach of storm, motion, 4 p.m. Worse menopause, walking.

Symptoms

MIND

Irritable, impatient, discontented, fault-finding. Furious, had to lock him in room. Indolent. Unable to fix mind, stupid indifferent. Total inability to study, memory will not retain anything. Omits words and letters in writing. Shyness and blushing. Weeping. Religious melancholy with intensely red face.

Delusions, thinks everyone is looking at her, fears to talk loud. Wants to go home. Wants to run away and hide. Fear of danger. Fear of being arrested. Panic and fear. Suspicious. Attacks of weeping without much depression. Fear of talking loudly, she whispers. Wants to kill himself or threatens to kill who approach. Loss of consciousness.

Abdomen

Much distention, flatulent, worse during menses.

Back

Broken sensation in lumbo-sacral joint, on sitting and especially sitting upright, constantly changes position to get relief, wants to strike the part or press it, better standing or walking.

Chest

Weight on chest causing difficult breathing, sensation of smothering, frequently examined clothes to see if they were not too tight.

Ears

Sensation of puffing of wind from ears. Each act of swallowing caused the wind to puff from both ears.

Eyes

Hot, heavy, blurred sight, wants to close them tightly for relief. As if they were too large. **Eyes** as if pressed outward. Eyelids very heavy. Vision dim, blurred, rubs eyes. Unable to focus. Floating bodies before eyes when studying.

Face

Intensely red and flushed with throbbing carotids and headache. (Bell.) Very red before hemorrhages from nose, lungs, uterus. Face hot, flushed, all day, feverish.

Female

Menses scanty intermit with nausea and bearing-down. Menses thin, watery, pale offensive. Sticking pain in external parts. Dysmenorrhea. Ovarian neuralgia. Recurring sharp darting pain in vagina and vulva at close of menses. Leucorrhoea, pain and soreness in back and pelvic region, excited by walking. During menses: headache, bearing-down pain in pelvis. Severe stitches or cutting pains through uterus.

Food

Ravenous about 10 a.m. with onset of frontal headache. Appetite capricious, especially in morning, impaired.

Head

Rushes of blood to head. Violent, throbbing, congestive, nervous and periodical headaches. Headaches are better nosebleed, menstrual flow, application of vinegar. Sick headache, relieved by nosebleed or menstrual flow. Headache with retching, vomiting, black spots before eyes. Fullness all over head. Neuralgia around and over right side of head and neck. Scalp sore and tender to touch. Headache alternating with backache.

Kidneys

Frequent and profuse urination. Urine profuse watery and relieving the dull, congestive headache.

Limbs

Pain in knee, wants to stretch leg, but does not relieve. Joints sore. Skin and limbs cold. Numbness and aching in knee-joints. Uneasy sensation in large joints. Stiff and sore on rising, better by careful movement. Rheumatic pains in joints on approach of rain-storm or in rainy, changeable weather.

Arms heavy too much prostrated to lift them without effort. Numbness and aching in knee-joints, right then left. Gnawing throbbing in right knee-joint, wants to stretch it but stretching does not better. Limbs are cold.

PAGE 1082

Lungs

Smothering sensations, cannot get air enough. Feels as if smothering, from rapid walking. Hemoptysis. Cough harsh, dry, spasmodic, horribly distressing. Cough from fullness of chest better by nosebleed. Hemoptysis, blood bright red.

Nose

Profuse and frequent nosebleed, bright red blood with general relief. Stopped up, dry, must breathe through mouth. Dry, hard clinkers in nose. Excessive dryness of nose, obstructed. Nosebleed with high fever and violent congestion of head and face.

Rectum

Difficult, painful, constipated. Anus feels constricted, full, throbs. No desire until there is a large accumulation. (Bry., Alum.). Very difficult, painful stool with constriction in rectum and discharge of stringy, glassy, milk-white mucus. Heavy throbbing and fullness in rectum from internal hemorrhoids. Severe shooting cutting in rectum while walking, better sitting down.

Skin

Dry.

Sleep

Drowsy, sleepy, stupid. Alternate sleep and wakefulness through night. Dreams: unpleasant of bickering. Insomnia cannot sleep after 3 a.m. Awakes regularly a few

minutes before 3 a.m. Head seemed too high (although he had no pillow). Sleep prevented by unpleasant thoughts coursing through brain.

Stomach

Gastric discomfort, flatulence, fullness and other symptoms appear when constipated. Acid belchings all day, causing burning and smarting.

Temperature

Chilly 10 a.m. , begins in back, loins or occiput, passing in waves up to vertex. Chilly 12-1 p.m. with sharp pains in cardiac region of stomach and much flatulence. Chilly all forenoon. Uncomfortably chilly, feet and hands colds.

Throat

Throat sore left side, swallowing difficult, painful. Tickling in throat with cough.

Comments

The great feature of the Meli. action is engorgement. The headaches and other disorders are all attended with the blood engorgement. Tending to hemorrhages, profuse, bright red, which give relief.

An intensely red or even purple face attending any disorder should call Meli. to mind. In a schoolboy Clarke cured with Meli. 30c very distressing recurrent headache, accompanied by an intensely red face while the pain was on and with the same potency.

Clarke gave great relief in a case of melancholia in a young woman.

H. C. Allen has relieved with Meli.: Fear of danger, fear of being arrested in mental cases.

Here is a typical case of Melilotus headache reported by C. F. Barker. Miss X, 19, tall, blonde, for several years had severe, nervous and congestive headaches.

The attacks recurred two to four times a month and were so severe that they compelled her to keep her bed twenty-four hours. The pain, mostly in temples and forehead, was a congested, full sensation with flushed face, drowsy, stupid feeling and sometimes much nausea.

Trivial things seemed to provoke the attacks. Spectacles had been supplied by oculists and teeth freshly stopped by dentists, diet, rest from study and outdoor exercise had all failed to relieve. Meli. 4x was given and she had only two attacks in six months and those very slight.

A writer in Hom. News tells of a Frenchman who came to him complaining of an incessant headache so bad that he thought he would die. A dose of Meli. was given on the spot and the doctor, thinking Nux vomica indicated, went into the next room to get it. He returned in five minutes and found the patient on his hands and knees shaking his head. The doctor, thinking him crazy, asked what he was doing.

PAGE 1083

He replied that the pain was entirely gone and he was only trying various attitudes and motions to make sure.

Bowen has used Meli. successfully in all kinds of congestive or nervous headaches, nasal and pulmonary hemorrhages, congestion of spinal cord, pleura, lungs, ovaries, menstrual colic, palpitation and nervousness, cramps in stomach, spasms, convulsions and for relieving brain-pressure and irritation in insanity. He always gives it in pellets medicated with the 1c dilution.

In addition to the blushing and nosebleed as accompaniment the headaches have other features. They are better by profuse urination, better by lying down, better by application

of vinegar. One prover had a sensation of waving in the brain. As well as the relief by discharges, there is an alternation of pains with Meli.: from right temple to right knee, pains in head alternating with pains in back.

A periodicity is noticeable. Walking worse most symptoms and sitting Better but a pain in the sacral region has the opposite. Many symptoms appear in forenoon and wear off during day. The headaches are apt to be more frequent in hot weather, but there is worse after exposure or getting feet wet, on approach of storm in rainy, changeable weather. Better by hemorrhages, by flow of urine.

Compare

(1) Melilots alba, the White Clover - has practically the same action. Hemorrhages, congestive headaches, engorged blood vessels.

(2) spasms: Bell., Amyl, Glon. and Sang. in congestive headaches (but Bell. has worse lying down and worse from application of vinegar cloths).

(3) In nosebleed after headache, Ant-c. (but with Ant-c. the nosebleed does not necessarily relieve).

(4) Waving in brain, Cimic.

(5) Rheumatic pains better moving, Rhus-t.

(6) Hemoptysis, bright blood, Ip., Mill.

(7) Discomfort from constipation, Op.

(8) Congested head and nosebleed, Erig.

(9) Red face with throbbing carotids, Bell.

Menispermum canadense

(moonseed)

Pharmacy

Menis. Menispermum canadense. Moonseed. Yellow Parilla. N. O. Menispermaceae.

Tincture of root. Trituration of Menispermum. Historical dose: Tincture, trituration and all potencies, third potency.

Herbal

Menispermum is botanically related to Cocculus and the backache recalls the spinal action of the latter. But the Cocculus vertigo and intoxication were not elicited.

Very considerable doses were taken in the proving of Menispermum. The most notable symptom was an intense headache combined with aching all down the back. Yawning and stretching were also a marked and frequent concomitant of headache and backache.

Planets: Moon.

Homeopathic

Menis. is a remedy for megrim, associated with restlessness and dreams. Pain in spine. Dryness, itching all over. Dry mouth and throat. Stretching and yawning. The pains were like those caused by large doses of Quinine and were better by China.

Dryness was a common feature in the mouth, throat and skin. Itching was very intense, as with Cocculus. Legs sore as if bruised with pain in bones. Restless, troubled and confused dreams, sudden starting from sleep.

Clinical

Backache. Headache. Itching. Spine, pain. Tongue, swelling.

Modalities

Better walking in open air. Worse at night. Worse by warmth of bed.

Symptoms

MIND

Laziness. Low-spirited, but attends to business rapidly. Low-spirited but absent-minded.

Quick-tempered.

Abdomen

Pain in umbilical region.

Back

Pain whole length of back with intense headache with yawning and stretching.

Eyes

Eyes feel dry and swollen during the night.

Face

Pimples on face. Face hot and the pimples bleed easily.

Head

Pressure from within outward with stretching and yawning and pain down back. Sick headache, pain in forehead and temples, moving to occiput.

Kidneys

Urine is high-colored and scanty, yellow, white thready clouds floating through.

Limbs

Pain in back, thighs, elbows, shoulders. Legs sore, as if bruised. Aching in thighs, elbows and shoulders in external muscles of thigh and upper arm, also under left scapula.

Lungs

Morning expectoration less and of lighter color. Hurried respiration during the night.

Mouth

Tongue swollen and much saliva. Tongue coated (yellow), thicker at back with raised papilla, dry and parched, swollen, as if burnt. Mouth and throat dry during night.

Nose

Much sneezing. Discharge of nasal mucus, excoriating. Nostrils: dry, especially the left, itch painfully, are sore.

Rectum

Tenesmus with regular stool.

Skin

Itching all over body, especially buttocks, worse warmth of bed. Chilly. Skin cold and dry with some itching.

Sleep

Yawning and stretching with backache and headache. Sleeps late and heavy in morning, disinclined to rise. Dreams of innumerable rats which creep under clothes. Dreams of cannonading.

Stomach

Appetite and thirst increased. Some nausea on waking.

Throat

Throat dry and parched without soreness.

PAGE 1085

Mentha piperita

(peppermint)
Pharmacy

Menth. *Mentha piperita*. Peppermint. N. O. Labiate. Tincture of whole plant. Dilutions of the essence. Historical dose: Tincture and all potencies.

Herbal

A remarkable proving of Menth. was made by Demeures, who took a single drop of the tincture, the effects of which lasted into the third month.

Given to a singer a few hours before he is to sing, this remedy will certainly enable him to hold out to the end without straining his voice. Demeures gave it to singers a short time before singing and it greatly helped them to hold the voice. After the proving Demeures found that he could rise earlier than usual and yet feel bright and fresh, whereas before it he could not.

Demeures says he cured with Menth. every case of influenza that came under his care in the winter of 1847-8. "It is to dry cough, however caused, what Arn. is to injuries and Acon. to inflammatory complaints. It relieves even the cough of tuberculosis patients." A single globule of the 30c sufficed.

A case of fatal poisoning with the essence is on record. The patient, a boy of six took between 1 and 2 ounces and died in two hours. When seen he was insensible, eyes fixed, pupils were fixed, stertorous breathing, cold skin and the lips were livid. **Planets:**

Mercury.

Homeopathic

Menth. Marked action on respiratory organs and skin. Useful in stomach pain and flatulence. The most remarkable symptom of the proving was the cough and this has been fully confirmed. It was a dry cough, excited by air entering larynx, by reading aloud, by exposure to cold, by shocks of any kind.

Menth. stimulates the cold perceiving nerves so just after taking it a current of air at the ordinary temperature seems cold.

Clinical

Colds. Coughs, dry. Headache. Hoarseness. Indigestion. Influenza. Itching. Throat, sore. Voice, weakness.

Modalities

Better lying down in bed. Better while eating. Worse early rising. Worse cold air, smoke. Worse reading aloud, stooping. Worse turning head, writing.

Symptoms

MIND

Eager for work, despatches it quickly. Mental dullness, which follows early morning rising. Insensible. Confusion of mind.

Back

Muscles around neck are painful to touch.

Ears

All day when walking, shooting from one ear to the other, as if abscesses were forming, worse left. When writing sharp lancinations extend from left ear to all left teeth.

Eyes

Flashes before eyes when writing.

Head

Headache with tension towards both ears, worse on rising, better returning to bed. Acute lancinations from ear to head, on stooping or turning head. Frontal headache from one temple to the other. (Hair ceases to fall out.)

Limbs

Sensation under right foot at extremity of metatarsus, as if shoe sole was too tight there.

Lungs

Entire trachea from larynx to pit of throat painful to touch. Husky voice from reading aloud. Frequent cough. Dry cough, excited by merely speaking, expectoration every morning of thick mucus like the core of a boil. Dry cough continues, it is not caused by titillation, nor by mucous accumulations in the bronchi, but merely by the passage of air into the larynx. Least feeling of cold excites a cough, reading aloud tobacco smoke and smoke of all kinds excites it.

Mouth

Very severe toothache in lower molars when chewing a bit of sugar.

Nose

Tip of nose sore to touch, swollen but not painful.

Skin

Every scratch becomes a sore. Pimples with much itching near left ear with heat in part. Frequent itching behind right ear. Formication in arm and hand when writing.

Sleep

Sleep good, refreshing. Waking early.

PAGE 1086

Stomach

Indigestion. In evening two hours after dinner, weight in stomach which seems to extend to ears.

Throat

Throat dry and painful on swallowing, as if a pin stuck crosswise in pharynx. Momentary lancinations in parotids, better during breakfast and dinner. Throat externally painfully sensitive to touch.

Comments

Gibson Miller relates this case: Teacher, 43, since whooping cough in boyhood had a dry, spasmodic cough, worse in cold weather. The inhalation of the smallest quantity of smoke, either of coal, wood or tobacco, at once induced a most distressing paroxysm. Worse by the least breath of air or any fog.

Scarcely any expectoration. Husky on attempting to sing. Menth. 30c completely removed the cough and enabled him to sit in a room full of tobacco smoke and sing with clearness.

Hansen commends it in bilious colic with great accumulation of gas, severe pain of shingles and as an external remedy in itching of the vagina.

Compare

- (1) The Labiates.
- (2) worse from smoke, Ign.
- (3) worse fog, Hyper.

Mentha pulegium

(english pennyroyal)

Pharmacy

Menth-pu. Pennyroyal. Mentha pulegium. N. O. Labiate. Tincture of plant. Historical dose: Tincture and all potencies.

Herbal

Pennyroyal is a common herbal remedy for menstrual disorders. Berridge's provings with the 40th potency were all made on men, so its properties in the female sexual sphere remain untested. **Planets:** Venus.

Homeopathic

In Berridge's proving of Menth-pu. brought out an affinity for the right side of the head, right eye and left kidney, shoulder and hand.

Jerkings of whole body directly after waking. Rheumatic pains flying about, chiefly right side. Sensation as of blood circulating quicker than usual. The symptoms were all worse when thinking of them.

Clinical

Headaches. Salivation, nocturnal.

Symptoms

Abdomen

Severe cutting stitches in left groin and side while sitting. Stitches in the right hypochondrium, sometimes in middle of sternal region.

Back

Bruised, stiff feeling in small spot, upper part of right scapula with aching and empty feeling right side of head. Sharp cutting in region of left kidney, shooting up left side to left chest, better getting up.

Chest

Woke on right side and as soon as he had turned to left sharp cutting pain in right chest for two minutes.

Female

Menth. pu. is a popular echolic? and acts painlessly and without much irritation or forcing down. If often causes faintness. (Cooper).

Head

Aching in bones of forehead and sides of head, worse right after sunset. Headache: right lower forehead, forcing tears from right eye, right temple with pressing behind eyes, first right then both, worse towards evening and in night. Empty feeling in right side of head. Itching all round base of skull and roots of hair.

Limbs

Pinching pain in bones of legs and arms, chiefly right, better by a night's rest. Two sudden successive jerks upward of left shoulder and upper arm while lying on left side. Unable to hold a jug with left hand when pouring out water, hand trembles.

Mouth

Flow of saliva from left (side lain on) corner of mouth in night, waking him.

Sleep

Veins swollen at night, troublesome dreams.

Temperature

General creeping chilliness over back and half-way down front of left thigh.

PAGE 1087

Throat

Stitches down left Eustachian tube into left side of throat, better pressing under left ear.

Mentholum

Pharmacy

Mentho. Mentholum. Menthol. The stearopten from the essential oil of Mentha.

Historical dose: Tincture and all potencies, sixth potency. Externally for itching, use 1 per cent. solution or ointment.

Herbal

Menthol has proved curative in acute nasal catarrh in acute eustachian catarrh, pharyngitis, laryngitis, neuralgias. **Planets:** Mercury.

Homeopathic

Mentholum affects the mucous membrane of naso-pharynx and spinal nerve plexus. It produces neuritic pains and paresthesias. Itching, especially pruritus vulvae.

Clinical

Laryngitis. Neuralgias. Pharyngitis.

Symptoms

Head

Frontal headache, pain over frontal sinus, descends to eyeballs. Mental confusion. Supra orbital pain over left eye. Pain in face above zygoma with numbness. Pain in eyeballs.

Coryza with post-nasal dripping. Cold sensation in nose. Eustachian tubes feel blocked and some deafness.

Limbs

Muscular pain in cervical region. Soreness of lumbar muscles.

Lungs

Tickling in the fauces. Stabbing pains in the precordia, radiating over entire chest. Short, dry cough, worse smoking. Asthmatic breathing with congestive headache.

Compare

Menyanthes trifoliata

(buckbean)

Pharmacy

Meny. Buckbean. Bitterklee. *Menyanthes trifoliata*. N. O. gentianaceae. Tincture of whole plant. Historical dose: Tincture and all potencies, third to thirtieth potency.

History

The Buck-bean or "Bog-bean," as it is also called in Ireland and in Lincolnshire is a water plant and abounds in the fen districts, where it is in great local repute as a remedy for ague. Hahnemann proved it and well defined its sphere of action.

Teste, who also proved it, found it very similar to *Drosera*. Both these drugs caused in him, as one of the first symptoms, obscuration of sight, a sort of white mist or vibrations, worse in open air or during a walk. This was so intense that he did not dare to cross a street.

The pains of *Dros.* and *Meny.* were the same in character, but those of *Dros.* were more intense. This analogy has not proved as close in other respects as Teste imagined it would. **Planets:** Moon.

Homeopathic

The major features of *Meny.* are chill, sensations and pains of tension and compression and spasmodic jerkings and visible twitchings, these are worse during rest and may be associated with neuralgia.

Meny. is a remedy for certain headaches intermittent fever. Coldness predominates, felt most acutely in abdomen and legs and tip of nose. Twitchings. Sensation of tension and compression. Fidgets and urinary difficulties in women. Diabetes.

Meny. produces an icy coldness of prominent, single or affected parts, nose, ears, fingers, knees, abdomen etc. Tensive and compressive pains. Spasmodic jerking and visible twitchings with neuralgia. Jumpy, fidgety women with urinary troubles.

Great general debility, on walking often accompanied by shivering. Jerking pain in outer parts, also pinching pain in outer parts.

PAGE 1088

Tension in skin, as if it was several sizes too small and he was crowded into it. Shooting pains and pinching in limbs and joints, (arthritic disorders).

Clinical

Amaurosis. Chest disorders. Cramps. Fidgets. Headache. **Heart**, pains. Intermittent fever. Jerkings. Paralysis.

Causations

Injuries to nerves (tooth broken in). Quinine.

Modalities

Better hard pressure on affected part, stooping. Better motion, twilight, laying on hand, worse light, noise, walking, even lightly, jar. Worse during rest, ascending.

Symptoms

MIND

Anxiety and apprehension. Anxiety about the heart, as if something evil were going to happen. Indifference to everything. Tearful sadness. Taciturn and self-reflecting.

Buffoonery and excessive gaiety.

Abdomen

Distended and full increased by smoking tobacco. Coldness, worse pressing upon it with hand. Pain, as from excoriation in abdominal tissues. Distention of abdomen by abundant flatus. Pinchings in abdomen.

Back

Boring at scapula, (left). Bruised pain in sacrum worse stooping, walking. Rigidity and heaviness in muscles of neck, (throat) and of nape. Extremely painful tearing between the scapula, extending downwards.

Chest

Shooting compression on both sides of chest. The stitches in chest are worse during motion and when breathing. Aching in chest after dinner.

Ears

Tinnitus, when chewing. Tinkling in ears. Cracking in ear, when chewing. Discharge from ears (after exanthemata). Shootings in ears. Feeling of coldness in ear.

Eyes

Misty Vision. Mist *and flickerings before eyes*. *Cloudiness of eyes*, when reading.

Frequent spasmodic stiffness of eyelids. Pressing in eyes.

Face

Cracking in jaw and twitching of facial muscles. Visible twitching of the facial muscles, worse rest. Redness and heat of face during sleep. Heat in face with coldness of feet.

Pain and cracking in the articulation of jaw when chewing.

Food

Aversion to bread and butter. No thirst at any time. Ravenous hunger, passing away after eating a little. Desire for meat. Troublesome confusion in head after a meal.

Head

Bursting headache, pain ascends from nape, better stooping, sitting bent. Heavy, pressing pain in vertex, better hard pressure with hand. Sensation as of weight in nape. As if cold wind blowing on it. Weight pressing on brain with every step on ascending.

Heart

Anxiety about, as if some evil was going to happen. Slightest exertion causes irregular action. Stitches in region of heart. Drawing pain in precordia, worse after eating.

Kidneys

Frequent desire to urinate with scanty urine.

Limbs

Cramp-like pains in all limbs. Cramps in posterior thighs worse sitting. Cramps from ankles to calf, (right). Icy coldness of hands and feet. Paralytic tearing and spasmodic drawings in arms, hands and fingers. Legs jerk and twitch, worse lying down. Shocks and convulsive movements in thighs.

Lungs

When speaking hoarse and rough voice with obstruction of ears, as if something had been introduced into them. Stitch in anterior regions of larynx, impeding the swallowing. Dyspnea. Spasmodic contraction of larynx with excitation to cough, when drawing breath.

Male

Increase of sexual desire without excitement of the imagination or erection. Both testicles drawn up, right more than left. Spermatic cord painful to touch.

Mouth

Sweetish bitterness in mouth. Sensation of paralysis on left side of palate, when yawning and coughing.

Nose

Cold. Nauseous smell before nose like that of rotten eggs. Tension in root of nose.

Rectum

Constipation. Hard feces with pinchings in the abdomen. Bleeding, hemorrhoids.

PAGE 1089

Skin

Feels tight.

Sleep

Agitated sleep with vivid, doesn't remembered dreams.

Stomach

Frequent empty belchings. Sensation of coldness extending up to esophagus. Contractive cramps in stomach. Continual rumbling in stomach, as if it were empty. Heat in stomach, followed by excessive hunger. Sensation of coldness extending up esophagus with great nausea, following pressure in stomach.

Temperature

Predominance of cold. Icy coldness of hands and feet. Shivering with yawning. Quartan malaria. Pulse slow during cold stage and accelerated during fever. Chill, which is better by heat of stove and only remains in back. Intermittent fever with coldness in abdomen. Heat in evening, mostly on head with cold feet. Perspiration in evening as soon as he lies down, continuing all night.

Throat

Great dryness of throat without thirst. Dryness of palate, causing a stinging when swallowing. Dryness and roughness in throat, which impede swallowing of saliva.

Comments

As soon as the patient lies down the legs jerk and twitch so that he cannot rest. "When sitting, the outstretched thigh and leg are four times spasmodically jerked up, but when standing or in drawing up the knees towards him, this is not perceptible."

Meny. has cured many cases of fidgets. "Jumps," "fidgets," and "urinary difficulties in women" are Burnett's leading indications for Meny. The twitching may appear in any part. Stitches, numbness, tension and especially cramp-like and paralyzing pains are very distinctive.

The pressure is severely felt in the head. Headache: pressing in vertex from above downwards, better during hard pressure with the hand, when ascending stairs, as of a heavy weight pressing on the head and brain at every step.

With the headache there is often associated icy coldness of hands and feet. The tension culminates in a sensation as if the skin were several sizes too small and he was being crowded into it.

R. Farley reports this case: Miss D. W., long a sufferer from spinal irritation, had terrible attacks of bursting headache, a terrible tension in membranes of brain in paroxysms, which caused her to scream. Began in right side of nape, ascended to forehead and then spread over whole brain.

Terrible sensation of loneliness with the pain, begged her mother to stay with her. Worse from light, noise, jar, even if one walked lightly across the room. Better from sitting bent and by hard pressure on nape and vertex. Meny. 30c every ten minutes relieved immediately and completely removed everything in two hours.

Mephitis putorius

(skunk secretion)

Pharmacy

Meph. Mephitis putorius. Skunk secretions. N. O. Mustelide. Alcoholic dilution of the liquid contained in the anal glands. Historical dose: Tincture and all potencies, first to 30th potency.

PAGE 1090

History

The dilutions of this medicine are prepared from the liquid contained in the anal glands of skunk. Mephitis was proved by Hering in the 30c. It is a great medicine for whooping cough. **Planets:** Mercury.

Homeopathic

Mephitis has produced a suffocative feeling and spasmodic cough. Cough so violent, seems as if each spell would terminate life. Whooping cough. Child must be raised up, gets blue in face, cannot exhale. Mucous rales through upper part of chest. Asthmatic attacks. Patient wants to bathe in ice-cold water.

Meph. produces spasmodic effects and is a very great remedy for whooping cough. Should be given in the lower dilutions. Nervous exhaustion. Debility after severe illness. Wants to bathe in ice cold water. Trembling and choking with exophthalmos. Fine vibrations causing great uneasiness.

Rheumatic pains. Shifting pains with want to urinate. Convulsions. Sensation of paralysis during the pains. Great dejection and lassitude during which the muscles are painful when touched or exercised. Indolence with desire to stretch and stretching. Internal agitation of whole body with sensation of uneasiness.

Clinical

Asthma. Blindness. Choking, easy. Cold, sensitiveness. **Eyes** disorders. Laryngismus. Sight, weak. Whooping cough.

Modalities

Better from cold, bath. Better icy or weather. Sitting up and motion better. Worse lying, night touch after menses. Worse in morning. Rest and lying down aggravate. Worse night and daybreak.

Symptoms

MIND

Excitable, full of fancies. Talkative. Disinclination to work with inclination to stretch. Can neither sleep nor work. Ill-humor about trifles or imaginary troubles.

Unfitness for intellectual labor, caused by too lively an imagination, excessive loquacity, as from drinking too much. Excitement with heat in head. Dejection with painful muscles.

Abdomen

Pains in hypochondria. Pains as from flatulency in left side. Aching in region of liver in with colic. Colic, as from diarrhea, but without evacuation. Aching and movements in abdomen, as if caused by a chill. Pains in abdomen in evening.

Back

Pains in right side of neck. Tension in muscles of nape. Pain and a sort of paralysis in back and in all limbs. Lancination in spine during motion. Contusive pains in loins in morning.

Ears

Tearing in the ears or in the jaw and teeth. Otagia. Itching heat, redness, blisters and erysipelas in the external part of the (r.) ear.

Eyes

Heat, burning and aching in eyes, morning and evening. As if fire in eyes. Conjunctiva red, eyes hot and painful. Inability to read fine print. Pain from overexertion, blur, unable to distinguish letters. Lancination in eyes like the pricking of needles. Injection of veins in sclerotica. Myopia. Nocturnal blindness.

Face

Bloated.

Female

Excoriation of genital organs in females and swelling of labia majora.

Food

Desire for salted food. Hunger, alternating with absence of appetite. Absence of appetite in morning and also repugnance to tobacco-smoke. Painful weariness and desire to sleep after a meal.

Head

Violent pain in head as if a fullness were pressing upwards. As of a finger pressing on occiput. Headache from motion of carriage. Violent headache with sensation of fullness, as if caused by a weight or by pressure, especially in the occiput. Pain above eyes.

Kidneys

Frequent want to make water, especially at night with emission of clear urine. The urine becomes turbid, (in morning) and deposits a sediment in evening after an attack of fever.

PAGE 1091

Limbs

Rheumatic pains in arms with paralytic drawings, better by movement. Uneasiness in arm, as it were insensible. Trembling in arm on resting upon it. Jerking in hand. Drawing and rheumatic pains in thighs, hip and foot, but chiefly in leg. Contusive pains in knee.

Lungs

Dyspnea and cannot exhale. Spasmodic coughs or whooping cough. Few paroxysms during the daytime but many at night. Cough, violent suffocative, spasmodic, nervous worse talking or drinking. Foul expectoration. False croup and cannot exhale. Sudden contraction of glottis, when drinking or talking. Asthma of consumptives or alcoholics. Asthma, as if inhaling sulphur, cough from talking, hollow, deep with rawness, hoarseness and pains through chest. Asthma, worse ice water.

Male

Itching in scrotum. Heat in genital organs.

Mouth

Metallic, coppery taste. Coppery taste, as after eating onions. Foul breath. Painful jerks in root of teeth. Bloated face.

Nose

Dryness of the nose. Nosebleeds. Prolonged inclination to sneeze. Fluent coryza with pain, as from excoriation in the chest.

Rectum

Evacuations infrequent, but liquid. Diarrhea.

Sleep

Awakes at night with rush of blood to lower legs. Vivid dream of water, fire, etc. Short, seems to refresh.

Stomach

Belchings, better by discharge of flatus. Vomits food, hours after eating. Sensation of emptiness in stomach and nausea.

Teeth

Pains in teeth which are carious (molars) in lower jaw. Sudden shocks in roots of teeth. Drawing and tearing in teeth.

Throat

Tendency to choke, when drinking and speaking. Food goes the wrong way. Chokes easily, when drinking and speaking. Nausea with scraping in throat.

Vertigo

Violent vertigo, worse sitting, turning in bed. Vertigo on stooping suddenly, when seated, when moving the head, when turning in bed or in the evening.

Comments

Among the Meph. symptoms he developed was "choking while eating or drinking," and "cough on reading aloud, while talking and after drinking, caused by choking." Lower ribs painful to touch or pressure, especially worse on coughing or sneezing.

Neidhard gave Meph. to "a young man affected with symptoms of tuberculosis," in whom it produced "a spasmodic cough with a crowing sound, lasting all night and returning several times." This homeopathic aggravation suggested to Neidhard to use Meph. in whooping cough and this is his conclusion, quoted by Hering:

"If the facts collected since 1851, which are numerous, do not prove that Meph. will supersede all other remedies in whooping cough, it certainly may be considered a valuable specific. In order to ensure its full success, it should be exhibited in the lower dilutions from one to three, at least in severe cases."

Guernsey gives it as: "Whooping or any other kind of cough which is very violent, coming on spasmodically and seeming as though each spell would terminate life."

Farrington says the note of Meph. is nervous exhaustion. In whooping cough the catarrh is slight, whoop decided, worse at night and after lying down. Suffocative feeling, cannot exhale, vomits food sometimes hours after eating. Asthma of alcoholics of tuberculosis patients, (after Dros.).

T. M. Stewart reports the case of a man, 47, who had a constant hacking cough coming on during conversation. For this the uvula was amputated. As soon as he recovered from the operation the condition was this:

"Coughs after reading aloud or drinking any fluid, cough spasmodic, hollow, hoarse, worse at night and on lying down, loose in mornings." Amb., Cham., Kali-bi., Rumex, Phos., failed to relieve, Meph. 1,000c. cured promptly.

PAGE 1092

Another point about Meph. is the rush of warmth it causes to various parts. It enables patients to endure extreme cold, makes them less chilly in cold weather. Washing in ice-water is pleasant. Awakens at night with congestion of legs. Legs uneasy as if they would become insensible. Fidgety feet. A short sleep seems to refresh.

A. M. Cushing calls attention to the possibilities of the remedy in weak sight and tells of a friend of his who had a dose direct from the skunk injected into his eyes: "It was as though fire had entered his eyes." For a time he was totally blind, but when his sight returned it was so keen that he could count the panes in a window said to be two miles distant.

In another case after getting the poison out of the eye, there was for weeks after a sensation on opening the lids as of breaking glass. On Farrington's advice it was antidoted by Crot-h.

Compare

- (1) Dros., Cor-r., Sticta.
- (2) Whooping cough, Cor-r. has smothering before the cough and great exhaustion after.
- (3) Dros. has frequent spells of barking cough, worse after twelve midnight, holds sides, vomits if cannot raise sputa.
- (4) Cough worse from reading or writing, Aur., Nux-v., Plat.
- (5) Rumex - cough at night, worse 2 a.m. , Sticta with splitting headache. Aur. - awakes at night with congestion to legs.
- (6) Short sleep seems to refresh, Fl-ac., Menth.

Mercurialis perennis

(dog mercury)

Pharmacy

Merl. Mercurialis perennis. Dog mercury. N. O. Euphorbiaceae. Tincture of whole fresh plant in flower. Historical dose: Tincture and all potencies.

History

Dog's Mercury is a common plant with poisonous properties, on account of which it is avoided by cattle. It was proved by Hesse. Like other Euphorbians, it has exceedingly acrid properties and many of its symptoms resemble closely those of the more corrosive salts of Mercury.

Cooper says, "Compared with other Euphorbians, it dries up the mucous surfaces, causing burning locally and a general drowsiness, while the other Euphorbians set up violent irritation and diarrhea from the first. Moreover, its action is not expended on the skin so soon as that of the others." **Planets:** Moon, Mars.

Homeopathic

Mercurialis perennis has disorders of the muscular tissues, stomach and intestines, bladder. Great exhaustion and drowsiness. Feeling of emptiness and weariness in whole body. Persistent pains in muscles on motion. Prevalence of burning symptoms, irritation of eyes and nose, tenesmus after stool. Tumor at ensiform appendix, very sensitive.

Clinical

Amblyopia. Breast disorders. Conjunctivitis. Dysmenorrhea. Epiphora?. Flatulence. Menses, late. Pannus. Ptosis. Rheumatic disorders. Spleen disorders. Tongue, paralysis. Trachoma. Vertigo.

Causations

Blow on the head.

Modalities

Better by cold. Touch aggravates. Headache worse indoors. Sunlight aggravates the eyes. Open air causes blinking.

PAGE 1093

Symptoms

MIND

Excited mood like intoxication. Morose, quarrelsome. Fretful, ill-humored. Difficulty in collection his senses. Coma.

Abdomen

Abdominal pulsation. Violent twanging in left hypochondrium. Pressure in liver region extending to spleen. In spleen: warmth, gnawing, pressure worse lying down. Sticking in liver. Gnawing from pit of stomach to gall-bladder. Rumbling, movings and workings in abdomen, emission of much flatus.

Back

Aching in nape. Flushes of heat in back. Drawing tearing along right scapula, extending into upper arm. Tensive dragging and dragging tearing in small of back, (with anal symptoms).

Chest

Pressure and painfulness on chest in forepart and in stomach with dyspnea. Sticking in left, throbbing in right chest. Orgasm with dysmenorrhea.

Eyes

Eyelids feel heavy and dry, it is difficult to move them. Pain, burning, forcing-out sensation in eyes. Weakness of upper lids. Trembling and twitching of upper lids. Blinking of eyes. Dilated pupils with great sensitiveness of eyes to light. Asthenopia, as of a cloud, veil or cobweb before sight. Watery eyes.

Face

Feeling of coldness in face. Feeling of tension in face and head. Great redness of cheeks. Lips dry and parched with increased thirst.

Female

Menses shorter with abdominal cramp too late. Menses profuse, violent orgasm of blood, great anxiety so that she nearly fainted, oppressed breathing, heat over whole body, especially head and face, anxious sweat.

Food

Increased thirst with dry lips and mouth. Great dryness in mouth while eating. After eating: biting burning on tongue, nausea, vomiting.

Head

Head confused as if inflated. Scalp feels tense and numb is moved with difficulty. Tension and heaviness of head with sensation of heat. Burning on vertex. Shooting in left forehead and temple, worse coming indoors. Aching in forehead better by cold and pressure.

Numbness of occiput and vertex after a blow on head.

Heart

Orgasm in the heart region. Constriction. Whirling and rushing, throbbing in heart, stomach and upper abdomen. Palpitations with oppression, as if chest would be constricted after stooping.

Kidneys

Burning, prickly burning in urethra. Crawling in urethra and prepuce with crawling in anus and tearing and dragging in small of back. Frequent urging with burning, urination somewhat increased.

Limbs

Tearing, stitching, burning and smarting pains in limbs, almost in the skin, especially of hands and feet. Tired and weary. Weakness of arms and legs as if she would fall to left without vertigo. Jerking, sticking, drawing tearings throughout upper limbs. Jerking tearing in left patella. Painful ache in knees. Pressive tearing pain in tibia.

Lungs

Breath hot, almost burning, lips almost made sore by it. Breathing: stertorous, difficult, especially right side.

Male

Dragging in inguinal region, at times sticking pain, worse walking, at times extending down into spermatic cord, sometimes one, sometimes both.

Mouth

Dryness of mouth, it is difficult to move tongue and impedes chewing. Burning in mouth and tongue.

Nose

The breath from nose is cold. Crawling and burning of nose. Sensation of heat rising from stomach into nose. Conscious of having a nose, nostrils feel sore. Feels as if she had two noses.

Rectum

Dragging pressing in rectum (and burning and smarting in anus) with pressure and tension in small of back. Dragging, burning, crawling, itching in anus. Diarrhea with constant colic. Thin stools. Profuse soft stool followed by some straining.

Sensations

Heaviness in head as if pressed on pillow with a weight.

Skin

Pimples on chin with biting itching. Burning, itching, tearing on skin.

Sleep

Frequent yawning and weariness. Dizzy sleepiness. Sleep unrefreshing, full of dreams. Dreams of animals.

PAGE 1094

Stomach

Chilly feeling or burning in stomach. Belching better. Vomits food as soon as eaten. Tumor inside pit of stomach size of hen's egg, worse pressure, cannot bear clothing.

Temperature

Cold over the whole body with hot flush in face. Goosebumps on the cold right arm, extending over whole body. On going to bed in evening chill. Heat with intense thirst, perspiration in morning.

Throat

Burning dryness in throat. Ulcers on palate tonsils and back of pharynx.

Tongue

Tongue feels heavy and dry, numb insensible with loss of taste. Burning blisters on tongue inside of lips and cheeks, they form very painful spreading ulcers. Tongue painful if it touches palate as if there were blisters on it.

Vertigo

Giddiness on descending stairs. Whirling vertigo.

Comments

Among the characteristic symptoms of Merl. is "vertigo by going downstairs." The dryness of the mouth and throat is more remarkable than in any other remedy, even sugar refuses to melt in the mouth. Eating worse the dryness. The breath from the mouth is hot and dries the lips.

There is a hot breath in the nose, but cold breath in the nose is more characteristic. "Tension" is a leading note of the remedy running through the symptoms ("pain as of a band tied tightly across the forehead" is a characteristic of David Wilson's), also dragging and especially dragging down in small of back with rectal pains in groins and thigh as if a hernia might appear.

A very remarkable action is that on the female generative organs and puts Merl. in the front rank of remedies for amenorrhoea, also scanty and delayed menses and dysmenorrhoea, accompanied with orgasm, pains and swelling of breasts. Numbness of head and dullness of mind.

Conscious of having a nose, also, "She feels as if she has two noses." Head confused as if inflated. As if intoxicated.

Rolling, throbbing, trembling and orgasm in all the veins. The liver and spleen are influenced, "warmth in spleen" is one symptom. Tension in rectum and back.

Mercurius aceticus

(mercury acetate)

Pharmacy

Merc-a. Mercurius aceticus. Subacetate of Mercury. Mercury acetate. Trituration.
Historical dose: All potencies.

History

Hahnemann made a separate proving of Merc-a., which has furnished a few symptoms, not greatly differing from those of Merc. Hahnemann was bracketed a symptom referring to the menses which came on at the new moon, four days before their proper time. The medicines whose action is influenced by the moon's phases are not numerous and this is worth remembering. **Planets:** Mercury.

Homeopathic

Merc-a. has congestion with stiffness, dryness and heat of parts affected.

Eyes inflamed, burn and itch.

Lack of moisture. Throat dry, talking difficult. Chancre in urethra, tinea capitis favosa margin of ulcers painful.

The throat lacerations were worse by coughing rather than by swallowing. Cold water worse the inflammation of the penis, bathing with tepid water better. Pressure in lower sternum and dyspnea on standing erect is a noteworthy symptom. Margins of ulcers become painful.

PAGE 1095

Hansen says that burning in the urethra during urination and at other times has been confirmed in practice.

That Donner of Stuttgart has cured with Merc-a. a very painful syphilitic ulcer in urethra. Hansen commends it in tinea favosa on a syphilitic base and for sharp pains in tabes syphilitica.

Clinical

Chancre. **Eyes**, disorders. Dyspnea. Dysuria. Favus. Sternum, pressure. Syphilitic ulcer. Throat, sore. Tinea favosa. Ulcers.

Compare

(1) Merc., Luna.

Mercurius corrosivus

(corrosive sublimate)

Pharmacy

Merc-c. Mercuric chloride. Mercurius corrosivus. Corrosive sublimate. Mercurius sublimatus. Triturations. Solution. Historical dose: All potencies, sixth potency.

History

Mercuric chloride is a powerful disinfectant and has much greater rapidity of action, causing violent effects. This salt leads all other remedies in tenesmus of the rectum. The chief effect of the Chlorine element in this salt appears to be to intensify the mercurial action.

Merc-c. is Merc. viv. with a much greater rapidity of action. Phagedena is the type of Merc-c. ulceration. Chancres spread with great rapidity. The burning of Merc-c. is more intense. The dysenteric straining is more excessive. For this reason Merc-c. is more generally prescribed in dysentery than Merc. viv. and it has even become a recognized remedy in the old school. **Planets:** Mercury.

Homeopathic

Merc-c. has severe tenesmus of the rectum, which is incessant and is not relieved by the stool. The tenesmus often involves the bladder as well. Bright's disease. Gonorrhoea, in the second stage with continuous tenesmus. Albuminuria in early pregnancy. (Phos. later and at full term). Destroys the secreting portions of the kidneys.

Inflammation with swelling and feelings of constriction. Internal burning in the throat, stomach rectum, neck of bladder and kidneys. Constriction of throat, rectum, bladder. Discharges acrid, tears, nasal discharge. Cracks on palms, soles, corners of mouth. Phagedenic ulcers. Syphilis. Gonorrhoea. Lies on back with knees drawn up. Notable concomitants are bladder tenesmus and tibial pains.

Clinical

Aphthae. Appendicitis. Bones disorders. Bright's disease. Cancrum oris. Chancre. Diarrhea. Dysentery. Eczema. Esophagus, stricture. **Eyes** disorders. Gums disorders. Intestinal fever. Intestines, ulcerated. Intussusception. Iritis. Jaundice. Kidneys inflammation. Labor, puerperal fever. Measles. Miscarriage. Mouth disorders. Mumps. Paralysis. Paraphimosis. Pemphigus. Perimetritis. Peritonitis. Prosopalgia. Rigg's disease. Supra-orbital neuralgia. Syphilis. Tabes mesenterica. Taste, disordered. Tenesmus. Throat inflamed. Tongue disorders. Uvula, elongated.

Modalities

Better while at rest. Motion better pain in hip-joints. Worse after urination and stool, swallowing, night, worse cold, autumn, hot days, cool nights, worse acids. Worse from sex. Dysentery and summer complaints from May to November.

Symptoms

MIND

Delirium, stupor. Anxious and restless, rocks hard. Stares at persons who talk to him and does not understand them. Difficult thinking. Disturbed speech. Stupid.

Abdomen

Bloated, very painful to least touch. Painful flatulence. Appendicitis. Bruised sensation, cecal region and transverse colon painful. Cutting colic, below navel.

Back

Pott's disease, lies on back with knees drawn up.

Breasts

Glandular swellings about the nipples. Nipples crack and bleed, pain worse when nursing.

Chest

All glands about thorax swollen. Stitches through side of chest.

PAGE 1096

Ears

Violent pulsation in ears. Fetid pus.

Eyes

Burning, soreness of the eyes. Pain behind eyeballs, as if forced out. Deep ulcers on cornea. Excessive photophobia and acrid lachrymation. Pain severe at night, burning, shooting, tearing. Little tendency to pus formation. Iritis ordinary or syphilitic. Iris muddy in color, **thick** and neither contracts nor dilates. Retinitis albuminuria, ophthalmia neonatorum. **Lids edematous** red, excoriated. Objects appear smaller or double vision.

Face

Swollen. Red, puffy. Facial neuralgia within the bones. Pale about mouth. Cracks in angles of the mouth. Edematous swelling of the face. Lips, black, dark red, swollen. Upper lip swollen and turned up. Jaws stiff.

Female

Leucorrhea, pale yellow with sweetish nauseous smell. Menses too early and too profuse.

Food

Insatiable thirst, for cold drinks. Great desire for cold food.

Head

Frontal pain, congestion of head with burning in cheeks. Drawing pain in periosteum of skull. Pain in temples worse looking sideways.

Heart

Palpitation during sleep. Pulse rapid and intermittent.

Kidneys

Intense burning in urethra. Tenesmus of bladder. Stabbing pain extending up urethra into bladder. Perspiration after urinating. Urine, hot, burning, passed drop by drop, scanty or suppressed, bloody, greenish discharge. Albuminous. Frequent, dribbling, worse sitting. Urethra bleeds after urinating. Tenesmus, bladder, rectum. Nephritis. Albuminuria, pregnancy. Cystitis. Gonorrhoea. Paraphimosis. Bleeding kidneys. Sweats after urination.

Limbs

Deltoid feels relaxed. As if legs had gone to sleep. Cramps in calves in dysentery. Paralysis of limbs, trembling. Feet icy cold. Exostoses, on shin, sternum, ribs.

Lungs

Breathes as through a metallic tube. Constriction of the chest, breathes through pectoral muscles. Cutting pain in larynx. Frequent stitches shoot through thorax. Cough with bloody expectoration.

Male

Penis and testes enormously swollen. Hard chancres. Chancres assume phagedenic appearance. Gonorrhoea, discharge thick greenish. Urethra orifice red, swollen, glans sore and hot. Discharge greenish, thick. Chordee, worse sleep.

Mouth

Tongue, patchy, swollen and inflamed. Could not be protruded. Salivation with salty taste. Pyorrhoea, Gums, purple, swollen, spongy with toothache. Aphthae, ulcers. Burning, scalding sensation in mouth. Teeth loose, nightly toothache. Taste, astringent, salty, bitter. Necrosis of lower jaw.

Nose

Swollen, red, nose. Fluent, acrid coryza. Ozaena with perforation of septum nasi. (Kali-bi.) Rawness and smarting in nostrils. Post-nasal swelling, mucous membrane dry, red and covered with bloody mucus. A gluey nasal discharge.

Rectum

Continuous urging to stool and urine, a never get done feeling. Passes pure blood or bloody water. Dysentery. Sweats before and after stool. Spasms of rectum during sex. Stools, hot, bloody, slimy offensive with cutting pains and shreds of mucous membranes.

Skin

Cold. Ulcers, perforating, spreading, serpiginous. Nails gray colored.

Sleep

Violent hiccough during sleep.

Stomach

Incessant, green, bilious vomiting. Epigastrium very sensitive. Distention and soreness of the pit of stomach. Cramp in epigastrium worse least touch. Vomits mucus and blood. Gastritis. Regurgitation, astringent.

Temperature

Chilly from slightest exposure. Profuse perspiration, surfaces cold. Chilly after stools. Sweats from every motion, partial worse forehead and lower parts, foul, at night. Heat when stooping and coldness when rising.

PAGE 1097

Throat

All glands about the throat swollen. Burning, sore, red, painful swelling, worse heat, sharp pains into ears, worse pressure. Uvula, red, swollen, elongated. Pain is post-nasal with sharp pains to ears. Pain in larynx as cut with knife. Aphonia. Tonsils swollen, covered with ulcers. Swallowing painful. Spasmodic constriction, on attempting to swallow a drop of liquid.

Vertigo

Vertigo with deafness when stooping.

Comments

As with other ulcerating remedies, Merc-c. was a powerful anti-septic and disinfectant. Being much less irritating than Carbolic acid, it has taken the place of the latter as the leading anti-septic. Before the proper degree of dilution had been ascertained many patients were poisoned by its external use.

Merc-c. has some of its characteristic symptoms in the urinary sphere. The urine is albuminous, scanty, hot, bloody, may be retained or suppressed. There is intense bladder tenesmus. In some of the poisoning cases the bladder was found after death firmly contracted into a small hard lump.

"Tenesmus of bladder with intense burning in urethra and discharge of mucus and blood with the urine or after it," is a keynote for Merc-c. When this accompanies dysentery Merc-c. is the remedy. In such cases the rectal and bladder tenesmus will go together.

A patient of Clarke's who was treated under allopathic treatment with an injection of a solution of Merc-c. injected into his urethra for gonorrhoea, not only suffered intensely in the urethra at the time, but for years afterwards had a painful spasm of the rectum every time he had sex. The tenesmus is worse or not relieved after the stool. This is the keynote of Merc-c.

In the diarrhea calling for Merc-c. there is the "never-get-done feeling" long after all has passed that there is to come. This is also the indication in intussusception. Membranous threads in stool, much pure blood, weakness, faintness, shuddering.

Merc-c. is a true gonorrhoea remedy, but local injections of it are not the right form of administration. The indications are greenish-yellow or bloody and watery discharge with violent burning, urging and painful erections, dark purplish swelling, glans has a dark red or gangrenous appearance, phimosis or paraphimosis.

The chancres of Merc-c. spread with great rapidity. Serpiginous ulcers, ulcers with ragged edges which will eat away half the penis in a few days. The sore throat of Merc-c. is also characterized by the rapid spread of the infection and by the intensity of the burning pains. The mouth is specifically affected.

Clarke learned from Dr. McKechnie that long uvulas sometimes give rise to irritating coughs. If to the uvula is applied on a brush a little of a low trituration of Merc-c. it will in many cases immediately and often permanently, relieve the trouble. In syphilitic eye disorders Merc-c. is a leading remedy.

The inflammatory symptoms are of the most violent character. Burning, agonizing pains with excessive photophobia, causing excoriation of cheeks. Tearing pains in bones and around eyes. Scrofulous no less than syphilitic ophthalmias with these characters yield to Merc-c. Near to the eyes are the superior maxillary bones. These are affected by Merc-c.

The nasal catarrh is thick and glue-like, acrid excoriating. The gullet is very markedly affected. Constriction is a leading note of the remedy. Any attempt to swallow solids or liquids causes violent spasms and immediate ejection. Cutting pain, as from a knife in throat. There is raging thirst for cold things. Desire for cold food and intolerance of hot things.

Skin disorders of many kinds are met by Merc-c. including syphilitic roseola and small-pox and condylomata. In addition to the upper jaw and cranium, the sternum, ribs and tibia are prominently affected.

PAGE 1098

When present in cases of enteric fever, pains in the tibia may form an indication for Merc-c. along with the symptoms of intestinal ulceration, also disorders of the tibia occurring as sequel of enteric. Like Merc. viv., Merc-c. has a distinct place in rheumatism and rheumatic fever.

Unna reports two cases in elderly women of poisoning by sublimate lotion, lint and gauze after ablation of the breast. The dressings were removed the second day in each case. The first symptoms were intense irritation of the skin and diffused redness of the part. The wounds failed to heal by first intention. Widespread dermatitis followed and in the course of a few days a diffuse erythema spread over the whole body, creeping onwards like "water on blotting paper." Some fever, general malaise, nausea, restlessness.

In one case the eruption lasted three weeks and changed its type, "scattered urticarial and erythematous itching spots on all parts of the body suggested that there was at that period a poisoning of the more central nervous system".

R. C. Markham records a cure with Merc-c. after the failure of Merc. viv. in a case of dysentery. The symptoms were: (1) Stool: bloody mucus.

(2) Tenesmus after stool.

(3) Cutting colic below umbilicus.

(4) Nausea.

(5) Perspiration before and after stool, most pronounced on lower part of body and thigh. Symptoms 3 and 5 were not found under Merc. viv., but were under Merc-c. The patient felt better within ten minutes of receiving a dose of Merc-c. 1,000c.

Compare

(1) Ars., Lach.

(2) Leonurus, monsonia - an African plant belonging to the germaniaceae used for dysentery in material doses.

Boericke. Clarke. Phatak.

Mercurius cyanatus

(cyanide of mercury)

Pharmacy

Merc-cy. Bicyanide of Mercury. Mercurius cyanatus. Mercuric Cyanide. Solution. Trituration. Historical dose: All potencies, sixth to thirtieth potency.

History

Mercurius cyanatus is a valuable remedy for toxemia of acute infections, diseases especially diphtheria when there is early rapid and extreme prostration with cyanosis, coldness and tremors. Its action is similar to that of the toxins of infectious diseases.

Planets: Mercury, Mars.

Homeopathic

Merc-cy. has helped acute infections, pneumonia, nephritis. Great and rapid prostration, with a tendency toward hemorrhages from the different orifices of dark fluid blood, cyanosis, rapid respiration and heart action, albuminuria and twitching and jerking of the muscles. Typhoid pneumonia.

Merc-cy. affects most prominently mouth, throat and larynx. This together with marked prostration, gives it a place in the treatment of diphtheria, where it has achieved unquestioned great results. Malignant diphtheria with prostration. Coldness and nausea.

Livid states from great struggling, where suffocation is imminent and paralysis of lung threatening, great sweat. Rapid local destruction. Syphilitic ulcers when a perforation is threatening. Hemorrhages of dark fluid blood. Twitching and jerking of muscles.

Putridity. Efficient prophylactic in diphtheria.

Clinical

Diphtheria. Dysentery. Enteric fever. Hemorrhages. Keratitis syphilitica. Phlebitis. Throat, sore. Varicosis.

Modalities

Worse from swallowing, speaking. Symptoms are worse after eating.

Symptoms

MIND

Great excitement, fits of passion. Fury. Talkativeness.

Abdomen

Painful, tender to pressure.

Eyes

Sunken, fixed.

Food

Thought of food causes retching. Milk relieves in general.

PAGE 1099

Head

Atrocious headaches worse night. Great excitement, fits of passion, fury, talkativeness.

Eyes sunken, face pale.

Heart

Weak.

Kidneys

Amber color, very painful, albuminous, scanty. Nephritis with great debility and chilliness. Suppression of urine.

Limbs

Varicose veins with great tenderness of leg (left). Cold limbs.

Lungs

Cutting pain in larynx. Hoarseness, talking painful. Croupy cough, causes suffocation.

Mouth

Covered with ulcerations. Tongue pale. Free salivation. Fetor of breath. Pain and swelling of salivary glands. Astringent taste. Ulcerations of mouth have a gray membrane.

Nose

Profuse nosebleed several times a day.

Rectum

Intolerable pain. Redness around anus. Frequent diarrhea preceded by severe colic. Stools are offensive, green, slimy, bloody and black. Frequent hemorrhage, stools with tenesmus. Discharge of fetid liquid with gangrenous odor. Black stools.

Skin

Moist and cold. Sweatiness.

Stomach

Early and complete anorexia. Incessant hiccough. Thought of food causes retching.

Nausea, vomiting, bilious, bloody.

Throat

Feels raw and sore. Mucous membranes broken down, ulcerated. Tonsils enlarged. Looks raw in spots, especially in public speakers. Hoarseness and talking is very painful.

Necrotic destruction of soft parts of palate and fauces. Intense redness of fauces.

Swallowing very difficult. Cutting pain, on swallowing. Dark blood from nose. Septic diphtheria. Diphtheria of the larynx and nose. (Kali-bi.) Much thick grayish membrane in the throat.

Comments

The history of Merc-cy. is a romantic one. When Dr. Alexander Villers was an infant he had diphtheria. Known remedies had failed to arrest the disease.

His father, Dr. Dominic von Villers, was in despair. Taking counsel with his friend, Dr. Beck (of Monthly in Switzerland), the latter was struck with the likeness of the case to the effects of Merc-cy. In some poisoning cases, reports of which he had just been reading. He suggested the remedy.

A small quantity of the salt was procured and an potency was rapidly made and administered. Improvement soon set in and recovered happily followed.

The patient, saved by Merc-cy., lived to do most brilliant work with the same remedy when practicing in St. Petersburg and Merc-cy. has taken a sure place at the head of remedies for this disorders.

The local symptoms are very clearly defined and among the general symptoms profound prostration, coldness and cyanosis are leading indications. Villers had better results with the 30c than with any lower potency.

Merc-cy. is also a very efficient prophylactic in diphtheria cases. In the sensational New York poisoning case of February, 1899, Mr. Henry C. Barnett, the victim, was treated for diphtheria by his doctors before the cause of the illness was discovered.

Beck mentions among the leading symptoms: extreme feebleness, trembling, syncope. Icy coldness: general coldness with nausea. Diphtheria membrane in throat, mouth and at anus.

Nash reports as particularly indicating it a chronic sore throat of public speakers with rawness in spots and a broken-down appearance, as if about to ulcerate and this additional condition, "it hurts the patient to speak."

Hemorrhages occur, dark and persistent. Swallowing is impossible or causes severe cutting pains. Thought of food causes retching. There are varicose veins with great tenderness on left leg.

PAGE 1100

Mercurius dulcis

(calomel)

Pharmacy

Merc-d. Mercurius dulcis. Calomel. Mercurous chloride. Subchloride of Mercury.

Trituration. Historical dose: All potencies, third to sixth trituration.

History

Merc-d. is responsible for a large amount of the mercury treatments of the past and for some of the present. As a comparatively mild and slow-aching form of mercurial, it has none of the corrosive effects of the per chloride, but it has all the power of the metal in it nevertheless and it has had its own share of disasters.

For constipation and any affection which could be ascribed to the liver, blue pill was at one time about the only recognized remedy. Some homeopaths have adopted a modification of this by prescribing Merc-d. 1x in two-or three-grain doses as a direct purgative. But as Merc-d. has caused both constipation and diarrhea, it is probable that the action is roughly homeopathic.

Calomel produces catarrhal inflammation of the ear and is useful in eustachian catarrh and deafness. **Planets:** Mercury.

Homeopathic

Mercurius dulcis is especially indicated in remittent bilious fevers in peritonitis and meningitis. Dropsies due to combined kidney and cardiac diseases, especially with jaundice. (Hale). Cirrhosis of the liver, especially in the hypertrophic form.

Merc-d. has marked effect on catarrhal inflammation of ear. Diarrhea with soreness of anus. Prostatitis. Remittent bilious attacks. Pallor, flabby bloated and turgid flaccidity.

Pale mucous membranes. Inflammation with peritonitis, meningitis, pleurisy. Biliousness, remittent bilious fevers. Pallor, and bloatedness. Pale scrofulous children, who have swelling of cervical and other glands. Dropsies due to combined kidney and cardiac diseases especially with jaundice. Biliary stasis.

Clinical

Catarrh. Condylomata. Conjunctivitis. Deafness. Diarrhea. Eustachian tubes. Gastro-malacia. Meningitis. Peritonitis, plastic. Prostatitis. Throat, sore.

Modalities

Better from cold drinks. Worse from acids.

Symptoms

MIND

Nervous, agitated. Apprehensive.

Abdomen

Violent pain in abdomen, griping, tenderness. Bloated, hot, painful abdomen.

Chest

Great oppression in chest and in region of heart.

Ears

Otitis media. Closure of eustachian tubes. Sudden fluttering. Ear troubles of scrofulous children. Eardrum retracted, thickened and immovable. Deafness from every cold of old age. Deafness of old age. Deafness, occasioned by a swelling, which compresses Eustachian tube. Scrofulous otitis. Itching in external meatus.

Eyes

Rapid winking. Closure of lachrymal duct. **Eyes**, red, dry, gummy. **Gummy secretion** on edges of lids, later, smarting and indistinct vision. Symptoms worse after exercise and when heated from exercise. **Scrofulous** ophthalmia. Ciliary blepharitis.

Face

pale. Face flushed. pale as a corpse. Swelling of cheeks. Exfoliation of lower jaw and death.

Female

Broad, moist and burning condylomata around external genitals, perineum and anus of exceedingly offensive smell.

Head

Painful scalp. Heaviness across forehead. Falling off of hair.

Limbs

Trembling of hands and feet. Rheumatic stiffness and catching pain in muscles of legs and knee-joints. Cramps in calves at night.

Male

Acute inflammation of prostate after suppressed gonorrhoea, burning, pressing pains intense dysuria, urine scanty. Stinging and itching just back of corona glandis.

PAGE 1101

Mouth

Aphthae on tongue. Offensive breath, salivation, sore gums. Constant flow of dark, putrid saliva, very offensive. Ulceration of throat with dysphagia. Granular pharyngitis. Tongue indented indurated, black. Difficulty to open mouth. Ulcers in mouth, bleeding throughout night. Flow of horribly fetid, dark saliva.

Nose

Blows lumps of mucus from nose. Violent nosebleed. Dry, crusted nostrils. Sore right nostril.

Rectum

Burning, tenesmus. Soreness round anus. Scanty, bloody mucus with bile and constant desire without tenesmus. Dark-green, watery with griping. The anus is sore and burning. Dysentery, small stools of mucus and blood, covered with bile. Diarrhoea with vomiting. Constant disposition to stool. Obstinate constipation. Condylomata round anus.

Skin

Copper-colored eruptions. Flabby and ill nourished. Swollen glands. Desquamation of skin, especially of hands and feet. Phagedenic ulcers with white bases and painful and inflamed margins in mouth, palate, face, genital and other parts.

Stomach

Nausea and vomiting. Cyclic vomiting of infants. (Cupr-ar., Iris.). No appetite. Urgent thirst. Vomiting. Weight and pain at epigastrium.

Stool

Stools watery, greenish, coppery green like chopped eggs, grass-green, stringy, mucous, bloody, dysenteric, black with great epigastric oppression, sinking.

Teeth

Violent burning in teeth, teeth become bare, shake and fall out, gums swollen and bleeding when touched.

Temperature

Feverish heat, profuse nocturnal sweat, tearing pains in limbs, prostration of strength and trembling. Fever, sometimes hot, putrid.

Throat

Excessive ulceration of throat. Difficulty of swallowing.

Comments

Merc-d. is for scrofulous children who are liable to remittent bilious attacks. The keynote of Merc-d. in this as in other complaints is pallor:

"Pale as a corpse," and with this a flabby bloated appearance. Pale, scrofulous children who have swelling of cervical and other glands. Skin flabby and ill nourished.

Another leading feature of Merc-d. is inflammation with plastic exudation. Calomel in old-school practice rapidly resolved and cured a violent meningitis with wild delirium in a girl of five. In this case there was probably plastic exudation on the membranes.

Gluing up of Eustachian tube with catarrh. Scrofulous inflammation in general and particularly of the eyes. Peritonitis. Soreness round anus is a leading indication in many disorders when it occurs as a concomitant.

Compare

(1) Kali-m., Hydr.

(2) In stringy stools, Sul-ac.

(3) Catarrhal inflammation of middle ear, Eustachian tube closed, deafness of old age, Kali-m.

Relations

Antidoted by: Hep.

SOURCES

Boericke. Clarke. Phatak.

Mercurius iodatus flavus

(proto-iodide of mercury)

Pharmacy

Merc-i-f. Mercurius iodatus flavus. Mercurius protoiodatus. Green Iodide of Mercury.

Mercurius iodide. Trituration. Historical dose: All potencies, second trituration.

History

Merc-i-f. has had a valuable proving, which has developed a distinct individuality based on the general Merc. characteristics. Lyc. is strongly reminded by some symptoms of Merc-i-f., and Lyc. relieved some of the symptoms of the proving.

The right-to-left direction was manifested in the throat and chest symptoms, but unlike those of Lyc., the throat symptoms were worse by warm drinks.

PAGE 1102

Homeopathic

Merc-i-f. has a strong affinity for glands of the throat, Lymphatic and breasts. Throat disorders with greatly swollen glands and characteristic coating of tongue. Worse right side. Chancre induration remains long time.

Cervical and parotid glands enormously swollen. Swollen inguinal glands, large and hard. Breasts tumors with tendency to much warm perspiration and gastric disturbances. There are many pains in the eyes and orbits. Farrington mentions "corneal ulcers looking as if they had been chipped out by finger-nail."

Much accumulation of tenacious mucus in the throat. Merc-i-f. has a strong characteristic in the tongue a thick yellow coat at the base, anterior part clean and red. Syphilis. Deep bone pains especially at night. Right side is usually affected and like Lyc. symptoms go from right to left.

Clinical

Blepharitis. Breast, tumors. Catarrh. Chancre. Crusta lactea. Diphtheria. **Eyes**, disorders. Goiter. Intraocular disorders. Leucorrhoea, children. Ozaena. Pregnancy, vomiting. Scabies. Syphilis. Throat, sore. Tonsillitis. Toothache. Writer's cramp.

Causations

Cold draft when perspiring. Cold, damp weather. Spring.

Constitutions

Merc-i-f. is suited to scrofulous and syphilitic patients to mucous surfaces covered with squamous epithelium to effects of drafts while perspiring. **Planets:** Mercury, Moon.

Modalities

Better from open air. Better lying on right side, (tired feeling in all limbs). Worse odors, raising up. Worse warm room, warmth of bed, warm drinks. Worse lying on left side, worse cold and damp weather. Touch and pressure worse. Worse night, before 1 a.m. , on waking. Worse rest. Worse lying of left side. Worse at church (faint feeling). Worse in spring.

Symptoms

MIND

Lively, merry, talkative.

Abdomen

Pain in abdomen with pain in heart. Faint sick feeling in hypogastrium before stools.

Breasts

Mammary tumors with knots in axilla, blueness of the part, warm perspiration and gastric disturbances.

Ears

Sudden sharp pain in ears worse touch.

Eyes

Keratitis, *cornea looks scratched or chipped out by finger nail*. Photophobia. Dark circles around the eyes. Swelling below right eye.

Female

Yellow leucorrhoea of very young girls.

Head

Dull frontal headache with pain at the root of nose. Headache better when mind and body actively engaged. Head pain follows heart pain.

Heart

Pain preceded by head pain. Palpitation with dyspnea worse lying on back. Feeling as if heart had jumped out of its place.

Kidneys

Urine, copious, dark red scanty.

Limbs

Knees numb. Laming pain in right arm worse writing. Pain in right forearm with pain in left hip.

Male

Hard chancres, painless with enlarged inguinal glands, not disposed to suppuration.

Dreams of urination followed by seminal emission of which he knew nothing.

Mouth

Desire to clench the teeth, jaw is stiff and tired from grinding pain in teeth during sleep. Teeth sensitive, worse heat, cold and sweets. Teeth feel too long, cannot eat. Pyorrhoea. Tongue coated moist filmy or thick yellow at base, tip and edges red. Toothache after filling.

Nose

Mucus descends through posterior sinuses into the throat, causing hawking.

Rectum

Black discharges with or without stools.

Skin

Flat warts.

Stomach

Weak empty feeling in stomach. Nausea at the sight or odor of food. Thirst for sour drinks.

Throat

Sore throat, goes from right then left. Swelling begins on right side. Tonsillitis. Tonsils swollen, better cold drinks. When only the superficial part of the tonsils is involved.

Cheesy exudates with offensive breath. Small ulcers on posterior pharynx.

Easily detached patches on inflamed pharynx and fauces, worse on right tonsil, much tenacious mucus. Sensation of a lump. Constant inclination to swallow. Goiter with suffocation.

PAGE 1103

Tongue

Coated thickly, yellow at the base. Tip and edges may be red and take imprint of teeth.

Vertigo

Faint or dizzy on rising from a chair or when reading.

Comments

Merc-i-f. is a medicine of concomitants: There is a head pain following immediately a heart pain, pain in right forearm and left hip simultaneously, pain in heart with pain in abdomen.

The teeth feel too long, worse by closing the jaws. There is also irresistible desire to clench teeth and the jaw is stiff and muscles tired from clenching teeth in sleep. Nausea at sight of food. Faint, stick feeling in hypogastrium. Black stools. A cough worse by laughing.

Kent mentions the cure of "an ulcerated indurated lump in breast, as large as a goose's egg with knots in axilla, blueness of the part and no hope." Merc-i-f. 100c, given as often as the pains were severe, cured.

Compare

(1) Plb. iod. - in breast tumors.

(2) Right to left, Lyc. (Merc. bin. l. to right).

(3) Nausea in hypogastrium, Puls.

(4) Black stools, Lept.

(5) Cough worse laughing, Arg-n.

(6) Pains all round orbit, Cinnab.

(7) Worse warm drinks and empty swallowing, Lach. Thick yellow coating at base of tongue, Kali-bi. (Nat-p. golden yellow, Nat-s. dirty or greenish gray).

(8) worse lying left side, Phos., Arn., Spig. - opposite Merc., which has worse lying right side.

Relations

Antidoted by: Hep., palpitation, Lyc. Follows well: Lach. (scarlatina).

SOURCES

Boericke. Clarke. Phatak.

Mercurius iodatus ruber

(bin-iodide of mercury)

Pharmacy

Merc-i-r. Mercurius iodatus ruber. Mercurius biniodatus. Mercuric Bin-iodide.

Trituration. Historical dose: All potencies, third trituration.

History

Merc-i-r. acts on cellular tissue also, has wandering rheumatic pains with weariness.

Much hard glandular swelling. Chronic suppurating buboes. Swellings.

Cases have been recorded in which small doses of Merc-i-r. 3x or 2x have cut short an attack of asthma or, if taken at bed-time, have prevented an expected attack from developing during the night. But the pathogenesis of Merc-i-r. has oppressed breathing and if the general Merc. conditions are present it is quite capable of acting dynamically. Early cases of cold especially in children. Cuts short, attacks of asthma when given in 2x or 3x potencies or prevents it developing during the night if given at bedtime. **Planets:**

Mercury.

Homeopathic

Merc-i-r. like Merc-i-f this salt also affects the Lymphatic glands, throat, but on the left side. Early stages of cold, especially in children. Diphtheria and ulcerated sore throats, especially on left side with much glandular swelling. Chronic suppurating buboes. Hard chancres. Old cases of syphilis in scrofulous patients.

Clinical

Antrum, pain. Asthma. Coryza. Diphtheria. Eczema. Eye inflammation. Hemorrhoids. Laryngitis. Liver, syphilis. Malaria. Nose, polyps, diseased bones. Parotiditis. Post-nasal catarrh. Quinsy. Rheumatism. Spleen, enlarged. Syphilis. Testicles, enlargement. Typhus fever.

Causations

Exposure to wet. Washing floor. Weather changes.

Modalities

Open air ameliorates the head symptoms. Getting warm walking ameliorates deafness. Worse empty swallowing or swallowing food. Worse after sleep, weather changes. Worse washing floor, getting wet. Worse from touch and pressure. Worse after dinner. Worse afternoon and evening. Cold air, cold washing, getting wet aggravates. Touch and pressure aggravate.

PAGE 1104

Symptoms

MIND

Ill humor. Disposed to cry.

Ears

Closure of eustachian tube, opens with a pop. Deafness better after becoming warm on walking.

Eyes

Granular eyelids. Trachoma.

Face

Aching sore malar bones. Slimy sticky lips on waking. Eczema on chin.

Female

Profuse acrid green leucorrhoea. Fibroids stony hard.

Head

Painfully heavy occiput. Frontal region as if bound by the cord.

Kidneys

Urethra indurated.

Limbs

Wandering rheumatic pains especially muscular. Middle humerus as if about to break.

Pain from calf up to sacrum.

Lungs

Asthma. Hoarseness on getting little wet. Catching pain under right breast, oppressing breathing. Cough from elongated uvula with sore throat.

Male

Stubborn suppurating buboes. Hard chancres. Sarcocoele of (left) testicles.

Mouth

Gums swollen toothache, glands swollen. Scalded feeling on tongue. Aphthae. Profuse saliva. Tongue, wrinkled stiff at base, pains when moving.

Neck

Stiff. Cervical adenitis.

Nose

Coryza with right side of nose hot and swollen. Hawks mucus from posterior sinuses. Turbinate bones swollen. Boggy mucous membrane of nose and throat, closure of Eustachian tube, opening with a pop.

Skin

Small fissures and cracks, hard papules, syphilitic chancre and ulcers. Bubo. Sarcocoele. Moist cracks on palms.

Stomach

Desires food more salted.

Temperature

Intense shivering followed by fever. Night sweat, hot.

Throat

Fauces dark red, swallowing painful. Sore throat, (left to right). Tonsils and the glands are greatly swollen. Parenchymatous tonsillitis. (Will often abort peri-tonsillitis if given frequently.) Phlegm in nose and throat. Disposition to hawk with sensation of a lump in throat. Stiffness of muscles of throat and neck. Sensation of a lump in throat. Hawks much mucus from posterior sinuses. Uvula elongated.

Diphtheria, submaxillary glands painfully engorged, fauces dark red, worse on left tonsil. Cough with sore throat. Laryngeal troubles with aphonia.

Comments

Merc-i-r. the headache is worse in open air.

Eyes worse by bright light, *psoric* eye disorders. Right side of nose is inflamed.

The liver, spleen and pancreas are affected and also the bladder and male sexual organs. Wandering rheumatism. Troublesome dreams. It acts well in old cases of syphilis, particularly in persons of lax tissue, scrofulous and those who have taken much Mercury.

Compare

- (1) In syphilitic eruptions, Bad., Carb-an., Nit-ac.
- (2) Ophthalmia Jequirity.
- (3) Wandering rheumatism, Kali-bi.
- (4) worse after sleep, left to right, Lach.
- (5) Dreams of water, Merc. Proto Iod.

Mercurius nitrosus

(mercury nitrate)

Pharmacy

Merc-ns. Mercurius nitrosus. Mercurius nitricus oxydulatus. Mercuric nitrate. Nitrate of Mercury. In the form of Liquor Hydrargyria, Nitratis acidus and Unguentum Hydrargyria Nitratis of the old school. Trituration. Historical dose: All potencies.

History

The homeopathic authority for it is Hansen, who considers that sticking pains are its special indication and also sticking itching.

Hansen says Donner commends it in syphilis of the nerves and of the bones. The symptoms are compiled from poisoning cases. Among the symptoms are cachexia, tremors, frequent fainting, pains so intolerable he calls for a knife to kill himself.

Coldness predominates, but there is the nitric acid flush of the face. **Planets:** Saturn, Venus.

PAGE 1105

Homeopathic

Merc-ns. has achieved a reputation as "a stimulating application" to indolent ulcers to the eyelids in ophthalmia and in a variety of skin diseases such as herpes, ringworm, impetigo, leprosy, psoriasis, rupia.

Eye disorders with burning, sticking pains, photophobia and epiphora. Mucous patches with sticking pains. Gonorrhoea with frequent burning, sticking itch on corona glandis and in the sulcus coronarius. Vegetations.

Clinical

Condylomata, Eyes disorders. Gonorrhoea. Malaria. Mucous patches. Syphilis of nerves. Vegetations.

Symptoms

MIND

Delirious. Extreme anxiety. Rolled on the ground with excessive pain and called for a knife to kill himself. Memory poor. Stupor approaching a narcotic state.

Compare

(1) Merc-d. in stinging and itching behind corona glandis.

SOURCES

Clarke.

Mercurius praecipitatus albus

(mercuric ammonium chloride)

Pharmacy

Merc-pr-a. Mercurius praecipitatus albus. Mercuric ammonium chloride. White Precipitate. Trituration. Historical dose: All potencies.

History

Mossa relates a case of chronic eczema of the face in an elderly man, a moistening eruption worse in winter and from exposure to cold, vesicles on a reddened, swollen skin dry into scales which exfoliate, eyelids, especially the lower, edematous, the corners are reddened, lachrymation. Ears involved, itching and burning on head preventing sleep.

Merc-pr-a. 3 grains every third day. First the burning itching ceased. Then formation of blisters abated. Exfoliation continued a long time, but the skin finally became normal.

A girl, 2, eruption on face and large part of scalp, covered with thick yellow crust, matter exuding from cracks. Offensive odor, swollen cervical glands.

Merc. precip. alb. 3 grains once in three days cured in four weeks. **Planets:** Saturn.

Homeopathic

The symptoms of Merc-pr-a. are taken entirely from poisonings. The most peculiar symptoms are: Green tongue, bilious stools scalding anus. Slight subsultus. Collapse.

In one night a child, (poisoned with 20 grains) has undergone a remarkable change in the morning the child has changed to the appearance of an old man. During the night the child shrieked as from great pain.

Clinical

Dwarfism. Eczema facial.

Symptoms

Abdomen

After half an hour pain began in epigastrium, gradually spreading over whole abdomen. Great pain in abdomen, continuing after taking any, even liquid, food, for more than a week. Constant griping. Whole abdomen painful to pressure.

Face

Very flushed, greatly swollen.

Mouth

Gums much swollen. Tongue: much coated, thick greenish fur.

Rectum

One copious stool with mucous shreds in some quantities, much dark blood. Numerous scanty stools with much blood. Almost pure bile causing great scalding of anus.

Sleep

Drowsy, semi-comatose.

Stomach

Thirst urgent. Nausea and vomiting. Vomits deeply blood-stained fluid. Much pain at stomach.

Temperature

Cold, clammy skin, much congestion of cutaneous vessels. General perspiration.

Compare

(1) Dwarfish children, Bar-c., Carc. Syph.

(2) Eczema, Mez., Aethiops. ant.

SOURCES

Boericke. Clarke.

Mercurius praecipitatus ruber

(red oxide of mercury)

Pharmacy

Merc-pr-r. Mercurius praecipitatus ruber. Mercurius oxydatus. Red Precipitate. Red Oxide of Mercury. Trituration. Historical dose: All potencies.

PAGE 1106

History

This intensely irritating mercurial was investigated by Hahnemann. All the usual mercurial symptoms were intensified. **Planets:** Mercury.

Homeopathic

Merc-pr-r. has produced suffocative attacks at night on lying down at the point of falling asleep. patient is obliged to jump up suddenly which relieves. Gonorrhoea, urethra felt as a hard string. Chancroid, phagedenic ulcer and bubo. Pemphigus, mucous patches.

Eczema with cracks and fissures. Barber's itch. Blepharitis internally and externally. Leadens heaviness in occiput with otorrhea, General trembling. Convulsions. Cramps of internal organs and in legs. Spasmodic contraction of limbs.

Clinical

Anus, burning. Chancroid. Gonorrhoea. Mucous patches. Pemphigus neonatorum.

Symptoms

MIND

Apprehension.

Abdomen

Occasional pain in left hypochondrium. Abdomen distended and painful to contact.

Agonizing colic.

Eyes

Fierce intent look. **Chemosis.** Blepharitis (cured in a prover).

Face

Remarkable redness of face and eyes. Dropsical condition of face. Cheeks and lips enormously swollen.

Heart

Violent palpitations that seemed as if it would burst the chest. Small, hard pulse.

Lungs

Larynx inflamed and swollen, even outside. Paroxysms of suffocation at night on lying down and while falling asleep, obliged to jump up suddenly, when it disappeared.

Oppression of chest.

Mouth

Tongue enormously swollen and protruding. Inflamed gums. Two holes in tongue. Anterior portion of mucous membrane of cheeks, gums and under the tongue sloughed away and four teeth were lost in the process.

As the parts healed the jaws became completely closed by contracting scars. Tongue was reduced and firmly adherent to floor of mouth and cheeks. Strong mercurial odor. Inside of mouth coated with a substance like decayed cheese. Burning in mouth and throat, pains prevent sleep. Mouth very sore, flakes of epithelium separate. Itching over whole mouth without salivation. Profuse salivation. Blood and saliva of the most fetid odor flowed constantly from mouth.

Rectum

Constant urging, gradually became worse and spread over whole intestinal canal with constant sensation in anus as of a glowing hot iron moving up and down. Most excessive tenesmus with scanty discharge of blood with cutting and burning pains. Diarrhea: excessively violent with violent cramps. Stools: mainly blood involuntary, greenish and offensive.

Stomach

Unquenchable thirst. Nausea, vomiting. Vomit: with cutting in abdomen, black blood, bloody mucus, followed by diarrhea. Pains in stomach and whole abdomen. Agonizing pain in stomach with burning heat and nausea.

Temperature

Cold, perspiring skin. Cold sweat.

Throat

Throat inflamed. Burning like hot ashes on swallowing the powder.

Comments

Hansen has used Merc-pr-r. in practice and gives these as indications: Gonorrhoea when the urethra is felt as a hard string. Phagadenic ulcer and bubo. Indurated ulcer, deep with red, hard edges and especially when spreading. Syphilitic iritis when the pains have ceased. Pemphigus neonatorum and intertrigo syphilitica.

Mucous patches on scrotum and by anus with or without fissures. Eczema, acute or chronic, much sero-purulent or purulent exudation, also externally (in ointment 1 to 40 of prepared lard). Tinea tonsurans, circinata and sycosis. Folliculitis.

These are Hansen's own observations. In the symptoms of the proving a sensation "as of a hot iron in anus moving up and down" looks like a possible keynote.

Compare

Historical dose: All potencies.

History

The well-known scientific toy called "Pharaoh's serpents" is composed of the sulphocyanide of mercury. A boy ate one "serpent," and a man took one in water. The symptoms were observed on these two. **Planets:** Mercury.

Homeopathic

Merc-s-cy. has general prostration for some days. Heat and constriction in esophagus with difficulty in swallowing and burning in epigastric region and nausea.

Symptoms

MIND

Excessive anxiety.

Clinical

Diphtheria. Esophagus, stricture.

Face

Pallor, great weakness, cold skin and frequent shivering.

Limbs

Pain in shoulder-joint.

Lungs

Voice rough and hoarse. Tenacious expectoration.

Mouth

Constant salivation. Disgusting metallic taste.

Pulse

Pulse intermitting every three beats.

Rectum

Bloody stools.

Stomach

Vomiting. Epigastrium painful to pressure.

Throat

Extreme redness of throat with white membrane on tonsils. Most violent burning in fauces.

Vertigo

Vertigo on attempting to rise.

SOURCES

Clarke.

Mercurius sulphuricus

(yellow sulphate of mercury)

Pharmacy

Merc-sul. Mercurius sulphuricus. Hydrargyrum oxydatum sub-sulphuricum. Turpethum minerale. Yellow precipitate. Turpeth mineral. Trituration. Historical dose: All potencies.
History

There is a little confusion about the identity of this drug in the books. Turpeth is correctly given by Allen. Hering, who proved and introduced it, calls it Turpethum and Turpeth mineral.

The Pharmacopeia of the American Institute of Homeopathy describes the white sulphate, HgSO₄, under the heading Mercurius sulphuricus, but says it is mentioned in Allen's Encyclopedia, vol. 6. , p. 325, whereas it is Turpeth, the yellow precipitate, which is there spoken. **Planets:** Mercury.

Homeopathic

Merc-sul. has intense dyspnea, must sit up. Respiration rapid, short, burning in chest. Hydrothorax. (Ars.) Cardiac pain and weakness. Watery stools, burning in anus. Sore tip of tongue. Edema of legs. Sneezing from direct rays of sun. Diarrhea early in the morning, stool bursts out in a hot stream of yellow matter. Intense evacuations like rice-water. Scanty, clear, scalding urine.

Most pains feel as if a dull stick pressed on the parts and were moving in diverse curved lines, feels as if this pain were in the bones. Debility with sleepiness. Rheumatic pains.

Clinical

Dropsy. Dysuria. Hydrothorax.

Symptoms

MIND

Low-spirited with chilliness and yawning. Ill-humor after eating.

Abdomen

Coldness or burning in abdomen. Wakes at 1 a.m. with severe pains along duodenum to umbilical region. Soreness in inguinal glands.

Chest

Burning in chest. Pain in chest prevents him from breathing. Pain in right side of chest, extending to scapula, can scarcely breathe, worse from 4 to 5 p.m. Pressure on chest.

Dyspnea in children, hydrothorax.

Ears

Burning in ears and in face after a chill.

Eyes

Oppression over eyes. **Eyes** worse from sunlight.

Face

Pale, anxious countenance. Swelling of parotid gland.

PAGE 1108

Head

Sensation of giddiness while standing after headache. Fullness in head with occasional stitches. Soreness and heaviness through head (after breakfast and when walking about.)

Violent itching of hairy scalp throughout the proving.

Kidneys

Diminished secretion of urine, does not urinate frequently, but has constant pressure, urine dark, becoming turbid with a scum on it. Increased secretion of urine without a sediment. Urine scanty and scalding, but clear.

Limbs

Numbness in left forearm and hand, later numbness in right hand. Hands icy cold with blue nails. Stiffness in arms. Pain in knees and lameness, especially when walking. Foot-sweat with soreness at ends of the nails. Ulcers on ankles.

Lungs

Roughness in the throat and hoarseness. Sensation of heat in larynx. Increased expectoration of mucus from larynx and trachea.

Male

Gonorrhoea and syphilitic diseases with great congestions to the parts. Swelling of testicles. Involuntary emission and lascivious dreams.

Mouth

Gums and palate dark bluish (black), ulcerated margins. Mouth clammy and full of mucus in morning. Burning, smarting, stinging pain on tip of tongue (l. side in evening). Tongue: Greenish yellow down middle, coated white heavily, yellowish at root, the enlarged papilla stand up like red points with flat taste in mouth and a reduced pulse. Lips, gums, fauces, mouth and tongue swollen, look dry and black. Salivation.

Nose

Sneezing in sunshine with fluent coryza. Swelling and soreness of tip of nose. Itching of nose.

Rectum

After drinking coffee, pain in abdomen as if diarrhoea would set in. Stools soft and earlier in morning than usual. Sudden and violent pressing to stool while walking compelling him to stand still. This causing an anxious perspiration, later the stools are forcibly gushing out in a hot, burning stream of yellow water, followed by great debility, hiccough and belching. After the diarrhoea stools sensation of fullness as from congestion to legs, especially feet, they feel numb when standing. Violent purging, rice-water motions, some yellow.

Skin

Induration of the glands. Psoriasis, leprosy.

Sleep

Frequent yawning and great sleepiness in afternoon. Sleeplessness after midnight.

Awakens with headache in morning.

Stomach

Violent yellow vomiting. Stomach so irritated nothing would stay on it an instant. Pain, weight in stomach, tenderness. Vomiting and diarrhoea.

Temperature

Chilliness running up back with yawning and depression of spirit is followed by dull pain in forehead, burning in face and ears and slight fever. Chilliness, restlessness and heaviness in upper part of abdomen, frequent yawning and diminished secretion of urine (afternoon).

Throat

Heat and sensation of constriction in throat. Dryness of tongue and throat. Burning in mouth and throat.

Comments

Lippe is the chief clinical authority for Merc-sul. He considers it as important as Ars. in dropsies of the chest. The symptoms on which it has been prescribed are clinical and have been well confirmed. Among them is this: "Pain in right chest extending to scapula, he can scarcely breathe, worse 4 to 5 p.m. "

When Merc-sul. acts well, says Lippe, "it produces a profuse watery diarrhea with great relief to the patient." It is particularly suited to hydrothorax depending on liver or heart disorders.

PAGE 1109

Other confirmed symptoms are: Soreness of tip of tongue. Edema of legs. Scanty and scalding urine, but clear. Among the most peculiar is, worse in afternoon, 4-5 p.m.

Better by profuse diarrhea (dyspnea). After diarrhea stools there is numbness of legs.

Compare

- (1) Merc. acet. - cutting in urethra when last drop is flowing out.
- (2) Cinnabar, Aethiops antimonialis and other Mercuries.
- (3) in hydrothorax, Ars.
- (4) worse afternoon, Lyc.
- (5) Dropsy, Dig.

SOURCES

Boericke. Clarke. Phatak.

Mercurius solubilis

(mercury, quicksilver)

Pharmacy

Merc. Hydrargyrum. Mercurius vivus. Argentum vivum. Mercurius Solubilis

Hahnemanni. Metallic Mercury. Quicksilver. Triturations. Historical dose: All potencies.

History

There was a fitness in naming this metal after the mutable planet, Mercury. It provides us with weather-glasses and thermometers and it turns those who are under its influence into weather-glasses and thermometers likewise.

Although Hahnemann proved Mercurius solubilis, he recommended the use of triturations of the pure metal in practice as being the simplest mercurial preparation and more easily obtained and equally available with Merc. sol. for prescribing on the symptoms of the latter. The potencies are prepared from soluble black oxide of Mercury was prepared originally by Hahnemann from pure metallic Mercury.

There is no difference between the symptoms of these preparations, but it seems that when Merc-s. fails, when indicated, Merc-v. acts. Merc. affects more or less every organ and tissue of the body. No pains have been taken to keep distinct Merc. sol. and Merc. vivus.

Though Merc. sol. was the preparation Hahnemann proved, he recommended Merc. viv. as a superior preparation for homeopathic prescribing in his preface to the proving.

Mercurius solubilis Hahnemann was invented by him in his pre-homeopathic days in response to a general desire for a mercurial preparation which should be at once soluble and non-corrosive and it at once took its place in pharmacy, a place it has never lost.

The method of developing the medicinal power of metallic mercury by graduated trituration was a later discovery, through there was a suggestion of it in the well-known Hydrargyrum cum creta.

Homeopathic

Merc. is Hahnemann's typical anti-syphilitic remedy, as Sulph. is the typical anti-psoric and Thuja the typical anti sycotic. Every organ and tissue of the body is more or less affected by this powerful drug, it transforms healthy cells into decrepit inflamed and necrotic wrecks, decomposes the blood, producing a profound anemia. This malignant medicinal force is converted into useful life saving and life preserving service if employed homeopathically, guided by its clear cut symptoms.

The lymphatic system is especially affected with all the membranes and glands and internal organs, bones, etc. A human thermometer. Sensitive to heat and cold. Lesions produced by mercury very similar to those of syphilis. Very often indicated in the secondary stage of syphilis when there is a febrile anemia, rheumatoid pains behind sternum, around joints, etc., ulceration of mouth and throat, etc.

Again, hereditary syphilis manifestations, are within its range. Also it has bullae, abscesses, snuffles, marasmus, stomatitis or destructive inflammations. Tremors everywhere. Weakness with ebullitions and tremblings from least exertion.

PAGE 1110

Complaints increase with the sweat and rest, all associated with a great deal of weariness, prostration and trembling. Parts are much swollen with raw, sore feeling, the profuse, oily perspiration does not relieve. Breath, discharges of the body smell foul. Tendency to formation of pus, which is thin, greenish, putrid, streaked with blood.

Blood decomposes producing profound anemia, lymphatic glands are enlarged, glandular activity especially of salivary and mucous glands increases. Secretions are free, thin, slimy, acrid, burning, foul or thick greenish-yellow. Ulcerations of the mucous membranes especially of mouth and throat.

Manifestations of hereditary syphilis, bullae, abscesses, marasmus, snuffles or destructive inflammations of bones, cellular tissues, joints come under its range. Uncertain in his mental and physical behavior, tremulous, weak and sweaty. Swellings, edema, continued exudations. Redness.

Livid congestions. Suppurations, pus, bloody, thin, greenish. Offensiveness of secretions of breath of body. Yellowness of eyes, teeth, nasal discharges, biliousness, jaundice. Parts are much swollen with raw sore feeling. Sensitive to heat and cold, human barometer. Everything seems too short. Weak, exhausted and ready to sink down, worse after stools. Rheumatism. Emaciation. Salt-lips, taste, expectoration etc.

Merc. has oily perspiration. Restless and sweaty. Syphilis, sycosis, scrofula. Convulsions. Cataleptic rigidity of the body. Parkinson's disease, paraplegia. Contraction of joints. Burning, stinging pains. Tremblings, twitchings, disorderly motions of paralyzed parts.

Exostoses, painful. Softening of the bones. Indurations. Strictures after inflammation.

Clinical

Abscess. Anemia. Aphthae. Appendicitis. Balanitis. Bone, disorders. Brain inflammation. Breath offensive. Bronchitis. Bubo. Cancrum oris. Catarrh. Chancre. Chicken-pox. Colds.

Condylomata. Congestion. Coughs. Dentition, abnormal. Diarrhea. Dysentery. Dyspepsia. Ecthyma. Ear infections. Eczema. Emaciation. Excoriation. **Eyes**, disorders. Fainting. Fevers. Fissures. Glandular swellings. Gout. Gum-boil. Gums, unhealthy.

Heart, disorders. Herpes. Hydrophobia. Jaundice. Joints, disorders. Leucorrhoea. Liver, disorders. Lumbago. Mania. Measles. Melancholia. Meningitis. Mucous patches. Mumps. Odor offensive. Osteomalacia. Ovaries disorders. Pancreatitis. Parotiditis. Peritonitis. Perspiration, abnormal. Phimosi. Pregnancy, disorders. Prostate, disorders. Purpura. Pyemia. Ranula. Rheumatism. Rickets. Rigg's disease. Salivation. Scurvy. Small-pox. Stomatitis. Suppuration. Surgical fever. Syphilis. Taste, disordered. Teeth, disorders. Throat-deafness. Throat, soreness. Tongue, affections, mapped. Toothache. Tremors. Typhus fever. Ulcers. Vaccination. Vomiting.

Causations

Ill effects of fright, suppressed gonorrhoea, foot sweat.

Constitutions

Merc. is more particularly suited to: Light-haired persons with lax skin and muscle, women and children. Scrofulous children. Merc. has relation to psora and sycosis as well as syphilis. **Planets**: Mercury.

Modalities

Better from moderate temperature, sex, rest. Worse at night. Worse from sweating, lying on right side. Worse when heated, by bed or fire. to head. Worse from heat and cold, changing weather, cloudy, damp cold. Worse drafts, taking cold. Worse from wet feet, before stool during and after urination. Worse touching anything cold. Worse from warmth of bed. Worse from damp, cold, rainy weather.

PAGE 1111

Symptoms

MIND

Hurried in speech. Stammering, nervous with tremors. Great anguish, restlessness is constantly changing from place to place. Irresolution. Instability of ideas, which constantly drive away each other. Changes their mind constantly. Fear with desire to escape. Uncontrollable desire to travel far away. Thinks he is losing his reason. Poor self-confidence. Memory weak, forgets everything.

Loss of will power. Slow in answering questions. Bad effects from fright, leaving one in a state of great anxiety and worse at night.

Moral dejection, with great listlessness, discouragement, dread of labor, and disgust to life. Postpartum mania, wants to throw child on fire. Agitation with excessive internal torment, as if conscious of having committed some crime. Apprehensions. Ill-humor, disposition to be angry, and to fly into a passion, great susceptibility, humor quarrelsome, mistrustful, and suspicious.

Weary of life. Indifference to everything, does not even care to eat. Suicidal thoughts during menses better weeping. Senses impending evil. Precocious. Groaning and moaning. Suspicious. Time passes slowly. Violent, horrid impulses, homicidal, suicidal. Raving. Fury, with dread of liquids. Filthy in mind and body, does foolish, mischievous, disgusting actions. Inclination to catch passing strangers by the nose. Continuous

moaning and groaning. Delirium, mental derangement of alcoholics. Loss of consciousness and of speech.

Abdomen

Appendicitis, better lying on back. Stabbing pain with chilliness. Boring pain in right groin. Flatulent distention with pain. Bowels feel weak, holds them. Intestines feel bruised when lying on right side or as if they fall to side on which one is lying. Buboec. Inguinal glands swollen or suppurating. External abdomen cold to touch.

Back

Neck stiff cervical glands enlarged. Bruised pain in small of back, especially when sitting.

Burning pain in back, worse emission. Tearing pain in coccyx, better pressing on abdomen. Pain forward from right scapula.

Breasts

Breasts swollen, become hard with ulcerative pain during menses. Cancer of breasts. Milk spoiled. Milk in breast of boys. Breasts painful and full of milk at menses.

Chest

Pain below (right) breasts through to scapula, worse sneezing or coughing. Sensation of bubbles or as of a hot steam in chest. Soreness from fauces to sternum. Stitches from lower lobe of right lung to back.

Ears

Pains, worse warmth of bed, at night. Sticking pains. Pains extend to ear from teeth, throat etc. Otorrhea, thick yellow discharge, fetid and bloody. Deafness on becoming heated, better on swallowing and blowing nose. As if cold water running from the ear. Sensation of coldness in ears during pregnancy. Boils in external canal. (Calc. pic.)

Eyes

Conjunctivitis from taking cold. Lids, red, thick, swollen, scurfy and swollen. Lids spasmodically closed. Scanty or profuse, burning acrid discharge. Arcus senilis. Iritis with hypopion. Keratitis of syphilitic origin with burning pain. Optic nerve and eye disorder in those who work in foundries. **Eyes** draw together. Periodical loss of sight. Foggy vision. Black spots, flames, sparks before the eyes. Photophobia, worse heat and glare of fire of foundry men.

Face

Pale, earthy, yellow, dirty looking, puffy, under eyes. Cheeks, swollen, red, hot. Aching in facial bones. Syphilitic pustules on face. Aching in jaws. Mumps. Lips, salty, dry, cracked in angles (right), burn when touched. Masseter muscles contracted. Facial paralysis from cold.

Female

Collapse and fainting at start of menses. Menses, profuse with abdominal pains. Genitals feel raw. Leucorrhoea, thick, white with itching, worse urinating and washing with cold water.

Leucorrhoea excoriating, greenish and bloody, sensation of rawness in parts. Leucorrhoea in small girls causing prostration. Stinging pain in ovaries. (Apis) Infertility with too profuse menses. Morning sickness with a profuse salivation. Tendency to miscarriage from sheer weakness. Prolapse of uterus with vagina, better from sex. Cancer of uterus. Abscesses appear anywhere on body during menses and disappear after menses.

Food

Intense thirst for cold drink and beer. Weak digestion with continuous hunger. Aversion to meat, coffee, butter and oily things. Sweet things and milk disagree, though he craves them.

Head

Catarrhal headaches, much heat in head. Band feeling about the head. Tension about scalp, as if bandaged. Headache with ear and toothache. One-sided, tearing pains. Exostosis with soreness. Meningitis. Hydrocephalus. Child turns head from side to side and moans. External head painful to touch. Cephalhematoma. Falling of hair from sides and temples. Scalp tense, oily sweat on head. Stinging, burning, fetid eruptions on scalp.

Heart

Palpitations on slight exertion. Awakes with cardiac tremor. Pulse irregular, quick strong and intermittent or soft and trembling.

Kidneys

Urinate more than drinks. Frequent urging to urinate day and night with copious or scanty urine. Urine causes itching. Burning after urination. Stream of urine very small. Dysuria. Hematuria, painless. Greenish discharge from urethra, burning in urethra on beginning to urinate. Urine dark, scanty, bloody, albuminous.

Limbs

Oily perspiration. Cold, clammy sweat on legs at night. Patient very sensitive to cold. Bone pains, deep or near the surface worse at night, must get up and walk about. Trembling limbs, especially hands, Parkinson's disease. Bone-pains and in limbs, worse night. Lacerating pain in joints. Fingers numb.

Dropsical swelling of feet and legs. Phlegmasia alba dolens. Icy cold hands after emission. Cold heels. Sensation as if knees were larger.

Liver

Liver, enlarged, sore indurated. jaundice. Lack of bile secreted.

Lungs

Cough in double bouts, dry at night, yellow green sputum by day. Shortness of breath on going upstairs or walking quickly. Breathing difficult, worse lying on left side, but cough worse lying on right side. Nosebleed during whooping cough. Jaundice in pneumonia. Cough Worse tobacco smoke. Asthma better tobacco smoke and cold air. Catarrh with chilliness, dread of air. Whooping cough with nosebleed. (Arn.)

Male

Cold genitals. Glans and prepuce inflamed and swollen, phimosis. Prepuce irritated, itches. Orchitis. (Clem., Ham., Puls.) Testicles, swollen, hard with shiny, red scrotum. Children or adults pull and scratch at the genitals from a kind of itching which makes them do so. Nocturnal emissions, stained with blood. Gonorrhea. Red meatus. Vesicles and ulcers, soft chancre. Herpes preputialis. Swelling of Lymphatic vessels along penis.

Mouth

Whole mouth moist. Saliva increased, flows during sleep, yellow, bloody, bad tasting offensive. Aphthae. Offensive, putrid odor from mouth. Painful ragged, swollen, bleeding gums. Gums spongy, recede, bleed easily. Sore pain on touch and from chewing. Gumboil. Teeth, hollow, black, pain worse heat and cold, night, feel tender and elongated. Tongue, broad, flabby, yellow indented, needle pricks at tip. Furrow across upper portion

of the tongue with pricking. Sweetish, metallic taste. Speech difficult from trembling of tongue. Loss of speech, replies by signs and grimaces Stammering. Ranula with salivation and sore gums. Itching palate. Ulcers behind the tongue. Taste sweetish: bread tastes sweet. Stomatitis from chewing-gum.

Fetid odor from mouth, can smell it all over room. Great thirst with moist mouth.

PAGE 1113

Nose

Sinusitis and colds. Coryza, acrid discharge, but too thick to run down the lip, worse warm room. Coryza with sneezing, sore, raw, smarting sensation, worse damp weather, profuse, fluent. Colds travel to attack eyes, ears or throat. Frequent sneezing with coryza. Sneezing in sunshine. Nosebleed, when coughing during sleep, blood hangs in dark coagulated strings. Nostrils are raw, ulcerated. Nasal bones swollen. Yellow-green, fetid, pus-like discharge. Pain and swelling of nasal bones and decay with greenish fetid ulceration. Nosebleed at night. Copious discharge of corroding mucus.

Rectum

Rectal tenesmus with tenesmus of bladder. Prolapse anus after stool. Dysentery. Stools, painful, scanty, bloody, greenish slimy, ashen white, acrid, then tenesmus or chill, never get done feeling. Discharge accompanied by chilliness, sick stomach, cutting colic and tenesmus. Whitish-gray stools.

Sensations

Vibration in forehead. Head as if in a vice, as if growing large. As of sparks being emitted from eyes, as of a body underneath lids, as if feathers came from corners of eyes. As if a wedge driven in ear, as if ice in it, as if cold water running out of it. Crackling in head as from metal plates. As if weight on forehead, as if weight hanging on to nose. As if teeth were loose, were fixed in a mass of pap. As if hot vapors rising into throat of worm rising into throat, must swallow it down of apple core sticking in throat. As if breasts would ulcerate. As if everything in chest was dry.

Skin

Constantly moist. Excessive odorous viscid perspiration, worse night. General tendency to easy perspiration, but patient is not relieved from it. Vesicular and pustular eruptions. Yellow skin, tender, excoriated like raw meat. Pimples around the main eruption.

Itching, worse from warmth of bed. Moist eczema. Crusta lactea, with yellowish-brown crusts, considerable suppuration. Yellow. Jaundice with itching on abdomen. Ulcers, irregular, spreading, shallow, bleeding with cutting and proud flesh. Boils and abscesses form at the time of menses.

Sleep

Sleepless at night from ebullitions of blood (to chest and head) from nervous excitability from pain or other troubles.

Stomach

Feels constricted. Rancid belchings. Frequent hiccough. **Heart**burn. Stomach sensitive to touch. Hiccough and regurgitation.

Teeth

Crown of teeth decay. Teeth loose, feel tender and elongated. Alveolar abscess, worse at night.

Temperature

Catarrhal, gastric, bilious fevers. Patient very sensitive to cold. Measles. Profuse perspiration without relief during sleep with pains. Sweat, oily, foul, sour or with strong sweetish penetrating odor, on head, on chest, stains indelibly yellow. Heat and shuddering alternately. Easily chilled or overheated. Creeping chilliness, worse in the evening and into night. Chilly within abscesses. Debility and weakness. Cold, clammy sweat on legs at night.

Throat

Sore, raw, smarting, burning throat. Hoarse rough voice, loss of voice. Quinsy with difficult swallowing after pus has formed. Glands swell every time patient takes cold. Tonsils enlarged. Ulcers on tonsils, on pharynx. Bluish-red swelling. Constant desire to swallow. Putrid sore throat, worse right side. Stitches into ear on swallowing, fluids return through nose. As of an apple core, choke pear or something hanging in. Ulcers and inflammation appearing at every change in weather. Hawks large lumps from throat.

Tongue

Furrow in upper surface of tongue lengthwise. Tongue heavy, thick, Moist coating, yellow, flabby, teeth-indented, feels as if burnt with ulcers.

Vertigo

Vertigo, worse lying on back, as if on a swing.

PAGE 1114

Comments

To the symptoms of Hahnemann's pathogenesis of Merc. sol. are added observed effects of Mercury in those engaged in working with the metal in patients taking Mercury. Also the effects on those applying mercurial inunctions to patients. Many having been severely affected by absorbing it through their hands.

There is no difference between these effects and the symptoms of the proving so far as the general characteristics are concerned. In the finer characteristics there must be differences. The symptoms of the proving are in general more particularly characterized than the effects of Merc. viv.

The symptoms of nosebleed and the more finely characterized throat symptoms were produced by Merc. sol., so were the majority of the symptoms in the male and female sexual organs. Stitches on tonsils, stitches into ear on swallowing, something hot rises into throat.

But this is not to say that Merc. viv. will not answer equally well or even Better for curing them. The only bit of comparative experience I have in the action of the two is this: in a case of cold in which Merc. seemed indicated, Merc. sol. 30c was given and failed and Merc. viv. 30c promptly cured.

We of the present generation can hardly form a conception of the havoc wrought by Mercury in the days when it was considered necessary to "touch the gums" in all cases for which Mercury was prescribed before any good could be hoped for.

An electrician, who at one time was required to work with his hands frequently in a trough filled with quicksilver, thereafter could not bear the slightest shock of electricity, though before he could stand very strong ones.

This is keynote (1) Herein lies one of the grand characteristics of the remedy: as the thermometer is sensitive to changes either to hot or cold, so is the Merc. patient.

Other remedies are predominantly one or the other: Merc. is both - worse by heat and worse by cold.

(2) is "Worse at night." This is a strong point of correspondence with syphilis. Especially is this noticeable in the bone pains. (3) is: Profuse sweat accompanying nearly all complaints and which does not relieve, it may even aggravate. Guided chiefly by these two indications: "Profuse sweat with no relief" and "Worse at night." Clarke had cured many cases of rheumatic fever with Merc. viv. 12c without any other remedy.

(4) is: The mercurial odor. The mercurial patient is offensive, breath excessively fetid, sweat offensive, mawkish, sweetish.

(5) is tremor. This symptom is so pronounced and universal that it renders Merc. The best general remedy in Parkinson's disease. There is tremor of head of hands of tongue. Tremors commencing in the finger.

It is the tremor of weakness and paralysis and as described by B. Cooper it may attack the heart and cause sudden death on the smallest effort. Short of this there is great tendency to fainting, extreme exhaustion after a stool. The tremors may become jerkings and even convulsions.

Extreme restlessness. The mind is as weak and tremulous as the body, everything is done hastily. Hurried and rapid talking. On the other hand: slow in answering questions, loss of memory of will power. Imbecility. Embarrassment. Absent-minded. Time seems to pass slowly. Desire to flee. Homesick. Suicidal. Murderous.

Merc. is Hahnemann's typical anti-syphilitic remedy. Merc. so far corresponds to syphilis that many undoubted cases of mercurial poisoning have been diagnosed by experts as syphilis. Bones, glands and skin are affected. Inflammation leads to induration to ulceration. Merc. corresponds accurately to the true Hunterian chancre. Merc. ulcers have a gray, ashy, lard or cheesy base. There are burning or stinging pains in them.

PAGE 1115

Another great feature of Merc., almost constituting a keynote is the tendency to the formation of pus. In the suppurative stage of small-pox it is specific. Flow of pus and particularly bloody pus from any orifice calls for Merc. Pus forms in cavities in abscesses, which burn and sting. Discharges are yellow-green in color. Gonorrhoea. Fetid ear discharge.

Merc. is a great solvent, it dissolves metals out of their ores and it dissolves the living tissues by inducing emaciation. Lowly organized tissues as indurations, exostoses and some tumors are melted first. Edema and dropsies are absorbed, rheumatic swellings. If the doses of Merc. are large and dropsies disappear rapidly under them, the tissues themselves may disappear also in offensive rapidly decomposing ulcers. The bones soften so that they will bend.

While Merc. intensifies the action of the absorbents, it may also paralyze them, hence enlargement of glands with pricking pains inflammation, suppuration.

Next to syphilis, the liver has been the chief excuse for mercurialism in the past and Merc. certainly has a powerful liver action. The liver is congested, enlarged inflamed, stitches in the liver, sensitiveness in the liver and inability to lie on right side. This "Worse lying on right side" is a very characteristic condition of Merc. and when present Merc. should always be considered.

Along with the liver the stomach is disordered. Sweets disagree, aversion to meat, wine, brandy, beer, coffee, greasy food, butter. There is the characteristic flabby, coated, teeth-indented tongue, foul breath and intense thirst. Throat dry and forepart of tongue moist. Merc. is rarely indicated when the tongue is dry.

Sliminess is a general characteristic. Slimy stools, acrid, knotty, containing pus, viscid. Just before stool a sick, painful, faint feeling comes on. During stool there is tenesmus or tenesmus and no stool. Dysentery with much straining, never-get-done feeling when there is no more to come.

Diarrhea with slime. "Merc. is rarely indicated in these troubles where there is no slime" (Guernsey).

Merc. affects profoundly the generative organs of both sexes. It has stinging, cutting pains in ovaries, cutting pains from left to right in lower abdomen. "Stinging" is very frequent in mercurial pains and "stinging pain in ovaries is just as likely to need Merc. as Apis" (Kent).

Almost all kinds of eruptions are produced by Merc. Scurfy, syphilitic, pustular, moist, oozing offensive eczema. Shingles. Small-pox. They are all worse by warmth and at night and worse by cold. In olden times it was recognized that a patient under a "course" of Mercury must be very careful not to catch cold.

This gives one indication for Merc. in abnormal tendency to catch cold. But for this condition it must not be too frequently repeated, as it will aggravate it. The patient needing Merc. is sensitive to every draft and yet worse by warmth, the nasal secretion is acrid and the nose red and excoriated, "dirty-nosed children" (Guernsey).

Old catarrhal smell in the nose inside nostrils smarting and burning. Aching, tearing and out-pressing in the bones. "Kali-i. is better for the same bursting in the face, running coryza and Worse from heat and warmth of the bed" (Kent).

In chronic colds Clarke thinks first of Psor. The eyes are very markedly influenced by Merc., also the bones round the eye: "Whenever cold settles in the eye is gouty and rheumatic patients" (Kent). Every degree and kind of inflammation and ulceration is produced by Merc. and its salts.

Hirsch of Prague, relates some striking experiences with a preparation of Merc. viv. which he learned from an old allopath. Quicksilver is boiled in water for half an hour, two teaspoonfuls being given every two hours.

PAGE 1116

Hirsch's cases were those of acute inflammation of the brain in which Bell. was indicated and in one of which Merc. had already been administered in vain.

This is the case: A black-haired girl, age 9, had a malignant scarlatina, which commenced six days before Hirsch (who came as consultant) saw the case, signs of brain inflammation having set in on the third day.

Hirsch found her unconscious, sharply defined redness of cheeks, pulse 120, hot skin. Piercing screams were emitted from time to time, boring head in pillows, chewing motion of jaws, gnashing teeth.

Lips brown and dry, not much thirst, water not accepted readily, but milk seemed to be relished. Reddened patches here and there, especially along neck. Under the "decoction," which was given to the girl on Hirsch's suggestion, she slowly but steadily improved and in a week was convalescent.

Stabbing pains and stitches, burning, boring, digging, stinging and dragging pains. Soreness and sensitiveness. Itching, voluptuous itching.

Compare

(1) Bell. - very close analog, often complementary, commencing of abscess, difficult swallowing fluids, sharp pain through tonsils, pains come suddenly.

- (2) Hep. - chilliness, something sticking in fauces.
- (3) Meny. - coldness in ears.
- (4) Puls. - thick yellow nasal discharge, but that of Puls., is bland, otitis.
- (5) Nux-v. - coryza and sore throat, Nux-v. has scraped feeling, Merc. is always smarting, raw, or sore. Dysentery with Nux-v. tenesmus ceases after stool, with Merc. not, there is the never-get-done feeling.
- (6) Acon. - dysentery of hot days and cold nights.
- (7) Lept. - bilious troubles, horribly offensive stools, the griping of Lept. continues after stool but not tenesmus.
- (8) Ars. - Merc. worse by heat of, but better by rest in bed, Ars. better by heat of, but worse by rest in bed.
- (9) Ant-c. - dirty tongue, inflammation of eyes worse glare of fire or sunshine.

Methylenum coeruleum

(one of the aniline dyes)

Pharmacy

Meth-b. Methylene blue. Telemethylthionine chloride. A diphenyl amine compound, also classed as an aniline color. Trituration. Solution. Historical dose: All potencies, 3x potency.

History

Methylene blue consists of small indigo-colored scaly crystals with a bronze-like tinge and dark green in transverse fracture. Slightly soluble in water, forming a deep blue solution. It has been used in old-school practice in doses of about three grains in capsules or pills in rheumatism of joints and muscles and in rheumatoid arthritis.

The dyes are all cancer-producing agents. A man, 50, suffered from cancer of the femur. Mosetig injected into the groin a 1 per cent. solution of "Trichlorate of Aniline," increasing the strength, until four grams were used at one injection. Almost an hour after the first injection the patient became dark blue, the next morning the discoloration was gone.

After the four-gram doses poisoning symptoms appeared unconsciousness, stertorous breathing, feeble pulse, the whole body becoming dark blue. Artificial breathing and stimulants brought the patient round in four hours.

PAGE 1117

Smaller doses were used after that. In eight weeks he came home, cured to follow his ordinary work. Methyl-violet 1 to 500 and 1 to 1,000 produced equally good results.

Planets: Moon.

Homeopathic

Meth-b. is a remedy for neuralgia, neurasthenia, malaria, typhoid, here it diminishes the tympanites, delirium and fever, pus infection. Tendency to tremor, chorea and epilepsy. Nephritis (acute parenchymatous), scarlatinal nephritis. Urine acquires a green color.

Bladder irritation from its use is antidoted by a little nutmeg. Surgical kidney with large amount of pus in urine. Gonorrheal rheumatism and cystitis. Backache, sciatica. Later states of a stroke.

Cancerous ulcerations on the skin and mucous membrane and on internal organs such as uterus, lungs and the gastrointestinal tract have been mitigated and cured by this remedy, the hemorrhages are mostly bright red with few clots, cough with blood-streaked expectoration and difficult breathing may be cured with Meth-b.

Clinical

Albuminuria. Arthritis. Cancer. Coma. Cystitis. Epithelioma. Gonorrhea. Hemicrania. Kidneys disorders. Malarial fevers. Neuralgias. Neurasthenia. Pleurisy. Rheumatism. Spasms. Spinal irritation. Suppuration.

Symptoms

MIND

Neurasthenia. Unconsciousness.

Back

Backache with sciatica.

Bladder

Irritation of the bladder. Cystitis. Gonorrhea. Urine greenish.

Chest

Causes absorption of pleural effusion.

Head

Hemicrania. Habitual headache.

Limbs

Tremors. Spastic hysterical contractions.

Lungs

Stertorous breathing.

Skin

Turns the patient dark blue. Pus infection.

Temperature

Typhoid fever. Malarial fever. Fever from pus absorption.

Comments

The kidneys have a distinct attraction for Meth-b., as it appears in the urine within half an hour of the dose and if the kidneys have their normal permeability the whole is eliminated in thirty-six hours. If there is delay beyond this it indicates that the urea is not

being perfectly eliminated and that a tendency to uremia exists. The aniline products have been used as remedies for malignant growths.

Mosetig of Moorhof published a case treated with Trichlorate of Aniline, "an aniline dye." The terminology of the aniline products has not always been accurately observed and I am not sure that this is not identical with Methylene blue. At any rate, it was an "aniline blue" that Mosetig used.

E. Thomson, states that Meth.-b. in 1-5 grains doses, "with equal parts powdered nutmeg to prevent irritation of the bladder" (a useful item in view of the homeopathic employment) is valuable in habitual headache and hemicrania.

Cardamantes of Athens gives 10 to 12 grs. ten hours before an expected malarial attack. He says it is useful in combination with Quinine or when Quinine has failed. Immunity from malaria seems to follow its continued use. It is apt to cause cystitis.

In this connection another experience is important: A gentleman who suffered excruciating pains from calculus in the kidney, giving rise to pyelitis and cystitis, derived no benefit from any treatment until his doctor gave him Meth.-b. with occasional doses of Eucalyptus.

L' Art Medical gives an account of the use of Meth.-b. injection in pleurisy with serous effusion. C. H. Lewis of New York, first drew off by aspiration 100 cubic centimeters of the liquid, dissolved in this one grain of Meth.-b. and reinjected it into the pleural cavity. The patient soon began to pass greenish urine and then the exudation quickly disappeared, partly from the diuretic effect of Meth.-b., partly from its stimulating action on the pleura. A watery solution is not borne, causing pain and irritation of the pleura.

PAGE 1118

The most homeopathic experience is that of Halbert. Utilizing the affinity of Meth.-b. for nerve tissues and nerve cells, Halbert has given it in 3x trituration with success in: Neuralgias of neurasthenia, tremor in neurasthenia, spasticity of hysterical contraction, trophic disturbances, the result of nerve-exhaustion, spinal irritation.

Halbert confirms its anti-malarial powers and commends it in typhoid as an intestinal anti-septic. An apparently hopeless case of typhoid was signally benefited by it, the tympanites disappearing as if by magic. Wherever there is pus infection it is indicated and it has "made a record" with him in gonorrhoea and cystitis.

SOURCES

Boericke. Clarke. Grimmer.

Mezereum

(spurge olive)

Pharmacy

Mez. Mezereum. Daphne mezereum. Spurge olive. Chameleons germanica. Mezereon. N. O. Thymelaceae. Hilly woods over nearly whole of Europe and Russian Asia. Tincture of fresh bark gathered just before the plant flowers in February and March. Historical dose: All potencies, sixth to thirtieth potency.

History

The plant flowers in very early spring, even when snow is on the ground and it is suited to complaints which come on in the earliest months of the year. Worse from cold, damp,

cold winds, sudden changes of weather, heat, warm food. Affections go from above downward from within outward and from right to left.

Hahnemann records this: A robust man took Mezereum bark for some ailment and continued it after the ailment disappeared. Soon, unbearable itching set in all over body, could not sleep a moment. Thirty-six hours after discontinuing it the itching was still increasing, then a few grains of Camphor removed it.

Mezereum is the vegetable analog of and is one of the most important antidotes to,

MIND

Mercurius. Merc. and Mez. antidote one another. , skin, eyes, mucous

membranes and bones are affected in much the same way by both, they have the same sensitiveness to damp, cold and warmth and the same nightly aggravations.

Nash mentions an exception to the worse by warmth. In a man whom he cured with Mez. of obstinate facial neuralgia, the pains were brought on or greatly worse by eating and the only relief the man could get was by holding the painful side close to a hot stove. Only radiated heat was of any use, hot cloths, wet or dry, gave no relief whatever.

Homeopathic

Mezereum affects skin, bones, nerves and mucous membranes of the mouth and stomach. Patient is very sensitive to cold air. Skin symptoms, disorders of bones and neuralgias most important, especially about teeth and face.

Bruised, weary feeling in joints with drawing and stiffness. Pains of various kinds with chilliness and sensitiveness to cold air. Bone pains. Eruptions after vaccination. Burning, darting sensation in the muscles, subsultus tendinum. Pains shoot upward and seem to draw patient up out of bed.

Mezereum produces violent, burning, darting like fire in the muscles. Irritation, burning itching or burning smarting on the skin, burning boring pains in bones especially long and neuralgia of the teeth and face and after shingles. Sudden pains of various kinds followed by chilliness, numbness and soreness.

Affected parts become cold or emaciate. One sided symptoms, whole or partial.

Excessive sensitiveness to air, even of a fan. As of a cool breeze blowing on the part.

Internal burning with external violent itching in small areas or in single parts.

PAGE 1119

Decay, exostosis of bones. Periostitis. Bones seem enlarged. Acrid secretions, pus, leucorrhoea etc. Ulcers. Twitchings, eyelids, right side face etc. Convulsions better by tight grasping. Cystic osteoma. Abscesses of fibrous parts or tendons. Body feels light.

Clinical

Anus prolapsed. Bones disorders. Coccyx, pain. Constipation. Contraction of tendons.

Crusta lactea. Ear, affection of, sensitive to air. Erythema. Exostoses. **Eyes** disorders.

Glands enlarged. Gleet. Gonorrhoea. Hematuria. Hernia. Herpes zoster. impetigo.

Leucorrhoea. Lice. Mercury, effects. Neuralgia. Osteoma. Pityriasis. Pruritus senilis.

Rheumatism. Scrofula. Syphilis. Teeth, affection. Tinea capitis. Tinea versicolor. Tongue, disorders. Ulcers. Vaccination.

Causations

Ill effects of suppressed eczema capitis, vaccination and mercury.

Constitutions

Mez. is suited to light-haired persons, phlegmatic temperament, irresolute. Gouty, rheumatic, syphilitic miasm. **Planets:** Saturn.

Modalities

Better open air, wrapping up, Better heat of stove, (facial pain). Better from eating. Stooping better headache. Worse at night, suppressions. Worse warmth of bed of fire. Worse from cold, air, drafts, damp. Worse from mercury, vaccination. Worse night, evening until midnight. Worse warm food, touch, motion. Worse during menses.

Symptoms

MIND

Indifference to everything and everybody, looks through a window for hours without being conscious of objects around. Apprehensive at the pit of the stomach when expecting some very unpleasant intelligence or pain or shock. Religious and financial melancholy. Forgetful. Aversion to talk, it seems to him to be hard work to utter a word. Reproaches or quarrels with others.

Abdomen

Flatulent colic with shivering and difficult respiration. Swelling of glands with large abdomen in children. Pressure in inguinal ring. Contraction of diaphragm.

Back

Coccyx painful after a fall. Pain in neck and back, worse motion and at night intolerant of all touch.

Chest

Soreness and burning in bones of thorax. Constriction across chest. Chest feels too tight on stooping.

Ears

Thickening of tympanum. Ears feel too open, as if tympanum was exposed to the cold air and it blew into the ear. Deafness after suppression of head eruptions. Desire to bore fingers into them.

Eyes

Lachrymation with any pains. Dryness of the eyes, **they feel too large**. Ciliary neuralgia after operations, especially after removal of eyeball. Pains radiate and shoot downward with cold feeling and stiffness of bone. Pain outward along the brows. Inclination to wink, jerking of eyelids.

Face

Red. Eruptions around the mouth with coryza. Cracks in corners of mouth. Neuralgic pains come and go quickly and leave part numb, worse eating better near hot stove. Twitching of muscles (right).

Female

Menses, scanty, frequent, profuse, long lasting with face-ache. Leucorrhoea like albumen, very corroding. Obstinate ulceration of vagina and cervix.

Food

Constant longing for food. Craving for ham, fat, coffee, wine. Desire for ham-fat.

Head

Headache, worse from talking. Stupefying headache in right side. Violent neuralgia about face and teeth, running towards ear, at night, worse eating, better near hot stove. Numbness of one side of scalp or top of head. Affections of external head, scaly eruption,

white scabs. Head covered with thick, leathery crusts, under which pus collects. Milk crusts. Skull painful. White scabs. Hair falls in handfuls, dandruff, white, dry.

Kidneys

Red flakes float on top of urine. Hot, bloody. Biting, burning in forepart of urethra at the close of urination. Hematuria, hot, preceded by cramps in bladder. After urinating, a few drops of blood are passed.

PAGE 1120

Limbs

Bones, especially long bones inflamed and swollen, decay, exostosis. Pain, worse night touch, damp weather. (Merc., Syph.) Burning in tibia and long bones. Aching, itching in knee. One hand hot. Limbs feel cold, as if shortened. Paralysis of flexors of fingers, cannot hold anything. Legs and feet go to sleep. Pain in hip and knee.

Lungs

Cough, worse eating, irritation lower than can be reached, on taking a warm drink. Dry tickling cough, unto vomiting. Snoring in children.

Male

Testicles enlarged. Violent sexual desire. Painless swelling of the penis and scrotum. Gonorrhoea with hematuria. Itching glans penis.

Mouth

Taste bitter, sour, beer tastes bitter, which is vomited. Breath smells like rotten cheese. Burning in tongue, extending to stomach. Mouth waters. Roots of teeth decay. Toothache into temples, better with mouth open and from drawing in air. Teeth feel dull and elongated. Dry, dark red mouth. Middle of the tongue fissured. Watering of the mouth. Tongue coated along one side only. Ranula worse talking and chewing, ejects a watery fluid.

Nose

Sneezing, coryza interior of nose, excoriated. Frequent sneezing with pain of excoriation in chest. Visible twitching at the root of nose. Post nasal adenoids.

Rectum

Constipation after confinement. Prolapse of rectum. Diarrhea with small, white glistening particles. Green discharges. Constipation with hepatic and uterine inertia. Constriction of anus, stitches and prolapse of rectum. Stools, hard, large as if they would split the anus.

Sensations

Head as if drunk, as if everything in the head would press asunder, as if skull would split, as if top of head gone, as if head bruised, as if head was in an ants' nest. Eyes as if too large, as if drawn back into head. Throat as if narrowing. As if food remained long time in stomach. Stools feel as if they would split anus.

Limbs feel shortened. As if fire darting through muscles. Sensation of lightness of body. Bones are very sore and feel distended. Diseased parts wither.

Skin

Eruptions, ooze, acrid, gluey moisture, form thick crusts, scabs with pus beneath or chalky white. Deep hard, painful ulcers worse touch and warmth. Eczema. Intolerable, itching, worse by warm bath, worse in bed. As if millions of insects were crawling on him. Pruritus senilis. Itching changes place on scratching, coldness after. Ulcers itch and

burn, surrounded by vesicles and shining, fiery-red areola. Herpes zoster with burning pain.

Stomach

Chronic gastritis, burning, corroding pain. Stomach ulcer with much burning, corroding, better milk and eating. Vomiting of chocolate colored substance with nausea. Waterbrash. Induration of stomach.

Temperature

Chill of single parts as if dashed with cold water.

Throat

Dark, red, burning, sore worse winter. Nausea felt in throat, better eating.

Comments

An idea of the virulence of Mez. may be gathered from a case reported in Allen's Appendix: A pale girl, 14, having been advised to use Mezereum leaves to make her fat and rosy, went into the woods and used them freely on her cheeks and surrounding parts. Burning soon set in, the whole face swollen enormously, especially nose, eyelids and hairy scalp. Severe and painful sneezing set in, delirium, dull, unbearable, pressing pains in forehead, a nauseous dryness in throat and constant irritation to dry cough.

The face soon showed the appearance of erysipelas bullosum, nostrils closed, she could only breathe through mouth, febrile pulse, burning urine. Oil and compresses were applied and after the second day desquamation occurred in large pieces. But health did not return. Debility, with loss of vitality, mental depression bordering on idiocy.

PAGE 1121

Followed, then typhoid fever, lasting fully for three months to which she finally succumbed.

Poisoning has also been observed from the effects of the berries: dryness and burning of throat and stomach intense thirst, narcotic state, coma, convulsions of eyes and upper limbs were observed. In a child of four, poisoned with the berries, these symptoms occurred: Swollen lips tongue furred and swollen, protruding, swallowing difficulty. The tongue remained quite raw when other symptoms had passed away.

Mez. affects the long bones more markedly than others and the least touch is intolerable, but it has like Merc., a strong affinity for the facial bones and teeth. With Mez. the decay attacks the roots or sides rather than the crowns (which Merc. attacks). The toothache is worse at night, worse by touch, even with the tongue and is better by holding the mouth open and drawing in air.

Neuralgia about the eyes, the pains radiate and shoot downward and if there is in addition a sensation in the eye itself as if a cold wind were blowing in it the indications will be very strong. Mez. is one of Hahnemann's anti-psoric and it meets many psoric manifestations.

Carroll Dunham has recorded a notable case of deafness, due to suppressed psora. A youth, age 17, deaf since four and incapacitated thereby, secludes himself and broods over his trouble. Membranes thickened. At the age of three he had an eruption of thick, whitish scabs, hard, almost horny, covering the whole scalp.

There were fissures through which exuded on pressure a thick, yellowish pus often very offensive. Much itching and disposition to tear off the scabs with the finger-nails, worse at night.

The treatment (allopathic) was vigorous: A tar cap was placed on the head and when firmly adherent to the scabs was violently torn off, scabs and all, leaving the whole scalp raw. This was painted with a saturated solution of Arg-n.

The eruption did not reappear, but from that time the child was deaf. The eruption was the very counterpart of an eruption observed in a proving by Wehle. Mez. 30c, three globules in a power of sugar of milk, was given on each of these dates.

February 3, March 1 and September 28, 1857 and January 26, 1858. Improvement set in slowly after the first dose, which was only repeated when the effect of each preceding dose seemed to be exhausted. Finally the hearing was for all practical purposes completely restored.

The action of Mez. in catarrhal cases is illustrated in another case. Miss M. R., 39, brunette, had chronic catarrh. The left ear had long been deaf and the right had begun to fail. There were noises in the ears. Drum membranes retracted and scarred.

The symptoms were: Mucous membrane of naso-pharynx granular and irritable. Excessive sensitiveness to the air, even of a fan and occasionally a sensation as if air went through to the throat. A dose of Mez. given before each meal entirely relieved the symptoms.

The ulcers of Mez. have thick, yellowish, white scabs. Vesicles appear now and then and itch and burn. Lint dressings stick to them and when they are torn away bleeding occurs. Burning vesicles on the sides of the fingers and ulcers on finger-joints.

With eczema there is intolerable itching, worse in bed and from touch. Vaccination eczemas are frequently of the Mez. type. Mez. is often of great service in herpes zoster, both during the eruption and for the neuralgia remaining after, especially if the pains are burning.

In a lecture on Mez. by T. S. Hoyne are collected many cases illustrating the action of the remedy.

Here is a mental case (in a woman) treated by W. E. Payne:

No rest when alone, wants company. Ideas vanish while talking, cannot repeat what has been learned by heart. Looks through the window for hours without being conscious of objects around.

Does not know what she is about doing, forgets what she is about to utter, looks ill-humored pale, wretched, fallen away. Apprehensiveness at pit of stomach, as when expecting some very unpleasant intelligence. All symptoms relieved in a single night by Mez. 20 c.

Among neuralgic cases are the following: (1) Man, 28, violent neuralgia, boring pain in left lower jaw-bone, extending to temple and ear. worse Night, better from pressure. Mez. 3c relieved in two hours (S. R. Geiser).

(2) H. G., stout, healthy-looking, left supra-orbital neuralgia recurring daily at 9 a.m. increasing until noon, declining until 4 p.m. , when it entirely departed leaving no soreness behind. Pain causes flow of tears. Mez. 1c cured permanently after other remedies had failed (J. W. Vance).

(3) Mrs. X. had pain in right eye-tooth, daily increasing. Felt too long. Pains much worse by pressure on crown and outside root. Mez. 2c cured (Oehme). (4) Toothache in incisor tooth in lady. Tooth feels elongated, loose, excessively sensitive with sensation as if being raised out of its socket. Upper part of tooth excessively painful. Mez. 200c cured in a few hours (Hempel).

(5) The fastenings of a hammock broke and a lady on it fell, striking the sacrum and coccyx on the stump of a tree. She suffered excruciating pain. Arn. was applied locally. In a few weeks she came home and the coccyx was still so tender she could not sit, only lie or stand. Arn. internally and externally for two weeks had no influence. Mez. 2c cured in five days, (Oehme).

"Constipation after confinement" has proved a good indication for Mez.: "My stools are as hard as stone and as large as my arm. I feel as if they would split me open. They come in sections like mouthfuls and I become much exhausted and tremble with weakness. Every stool is immediately preceded by chills and followed by long stitches up rectum." Mez. 12c produced a natural stool in twelve hours (H. Noah Martin).

Green discharges according to Cooper strongly indicate Mez.

It has cured a case of dry crust on scalp and falling out of hair, accompanied with short sight.

Daphne laureola, British representative of the genus, it has cured scald-head when Mez. failed to work. The symptoms in this case were worse by day, whereas Mez. has worse at night. The pains of D. laureola come on in the morning and affect the entire head or whole left side: Guaiac. pains are also worse by day and better by warmth (Cooper).

Cooper gives me the following cases: (1) Woman, 48, had rheumatism which came on ten years before in hands from wearing wet gloves and extended later to arms and knees, stiffness on walking with loss of muscular power, worse in hot weather, "pins and needles" in fingers on elevating arms, cannot grasp things, sometimes one hand burns when other is cold, menopausal flushings. Great relief from Mez. tincture.

(2) Girl, 18, getting thin with headache across forehead, temples and eyes a throbbing with sickness of stomach and water-brash, always worse by movement, bowels very confined, menses never appeared. Mez. cured,

(3) Pimples on ankles and backs of feet, horrid taste and clamminess of mouth in morning, pimples better by hard scratching, sluggish bowels. Mez. cured.

H. B. Esmond cured with Mez. 3x a youth, 17, who had been afflicted with "salt rheum" as long as he could remember. It was absent in summer, but every autumn, as soon as cold weather came, face, neck, hands and forearms would break out and continue sore until warm weather returned.

Mez. has a hypersensitiveness of the ear to air. It has cured a case in which there was a feeling as if air went through the ear to the throat. The rectum and anus are the seat of many characteristic symptoms, stitches, burning itching. During stool the rectum prolapsed and the sphincter closes upon the protruded part.

PAGE 1123

This constricting tendency is noticed in the throat and stomach and also in the tendons. The leg is shortened with pain in hip. Tension in muscles of chest. Pain and stiffness in muscles of neck. Cramp-like contraction over chest and back and across front of chest.

SOURCES

Boericke. Clarke. Phatak.

Micromeria douglasii

(yerba buena)

Pharmacy

Micr. *Micromeria douglasii*. Yerba buena. Historical dose: Tincture and all potencies.

Herbal

A California mint-like plant acting on stomach and bowels. It is a pleasant beverage and febrifuge, blood purifier and tonic. Yerba buena is used as a tea for colic and to relieve flatulence. **Planets:** Moon, Jupiter.

Homeopathic

Nausea with pain in the stomach and bowels, flatulence.

Clinical

Colic. Flatulence.

SOURCES

Boericke.

Millefolium

(yarrow)

Pharmacy

Mill. *Millefolium Achillea*. Yarrow. *Achillea millefolium*. N. O. Composite. Tincture of whole fresh plant. Historical dose: Tincture and all potencies, tincture to third potency.

Herbal

Yarrow was named *Achillea* by Linneus because the plant is mentioned in the Iliad as having been used by Achilles, on the instruction of Chiron to heal the wounds of his soldiers. The knowledge of the wound healing powers of Mill. is thus of great antiquity.

Millefolium received its popular name, "Nosebleed," because nosebleed comes on if the leaves are inserted into the nostrils.

There is another species of *Achillea*, besides *Millefolium* indigenous to Great Britain, *Achillea ptarmic*, called "sneeze-wort" from its allergic properties.

Homeopathic

Millefolium affects, the capillaries of lungs, nose and uterus. Bad effects from fall from a height, overlifting. It is suited to all wounds which bleed profusely. Sprains and over-lifting. An invaluable remedy for various types of hemorrhages, blood bright red. Incarcerated hernia, small-pox with great pain in pit of stomach. After operations for stone. Continued high temperature. Hemoptysis.

Millefolium is very valuable remedy for profuse, painless, bright, red, fluid hemorrhages, nosebleed, hemoptysis, oozing of blood from the edges of closed wounds from over exertion. Bruised soreness and congestions. Profuse mucus discharges. Spasms or convulsions especially after the suppression of hemorrhages, menses, lochia, milk etc. Varicose veins in pregnancy. Piercing thrusts of pain.

Clinical

Anemia. Asthma. Bedwetting. Blows. Bruises. Cancer. Chlorosis. Colic. Dentition. Diarrhea. Dysmenorrhea. Epilepsy. Fistula lachrymalis. Hematemesis. Hematuria. Hemoptysis. Hemorrhages. Hypochondriasis. Hysteria. Infertility. Injuries. Leucorrhoea, children. Lochia too profuse, suppressed. Milk, absence. Nipples, sore. Nosebleeds. Puerperal convulsions. Puerperal fever. Rodent ulcers. Sycosis. Tetanus. Tuberculosis. Varicose veins.

Causations

Ill effects from operations for stones, gallstones, kidney. Bad effects from fall from a height, injuries, overlifting, sprains. Over-exertion. Suppressed lochia. Suppressed menses. Suppressed milk.

Constitutions

Mill. is suited to the aged, atonic, anemic women and children. **Planets:** Mars, Moon.

PAGE 1124

Modalities

Better from bleeding, discharges. Better by wine. Worse injury, violent exertion, coffee. Worse by stooping. Worse doubling the body. Worse exertion, by lifting. Worse lying down, hemoptysis. Worse by coffee.

Symptoms

MIND

Seems to have forgotten something. Does not know what he is doing or wants to do. Aversion to work. Sadness. Violent, irritable. Very excited with pain in pit of stomach. Moaning children. Sighing and groaning of children.

Abdomen

Wind colic. Hemorrhage from bowels. Pain in region of the liver. Congestions to portal system. Colic during the menstruation. Ascites. Incarcerated hernia. Frequent emission of fetid flatulence. Violent colic with bloody diarrhea during pregnancy. Dysentery.

Abdomen distended.

Breasts

Sore nipples. Suppressed secretion of milk or convulsions, convulsive motion of all limbs and violent pain.

Chest

Oppression of chest with bloody expectoration or palpitations.

Ears

Sense of cool air passing through the ears. Sensation of stoppage in ears.

Eyes

Agglutination of eyes in morning. Sensation of too much blood in eyes. Glistening, brilliant eyes. Inward piercing, pressing to the root of the nose. Vision nebulous with contortions of facial muscles. Lachrymation and discharges from eyes. **Fistula lachrymalis.** Clear, bright vision. Fog, not near eyes, but at a distance.

Face

Sensation of heat, as if blood was rising to head. Redness of face without internal heat. Tearing in face to temples, right lower jaw to ears, then teeth.

Female

Useful for the prolonged bleeding of a hard labor. Curative of post-partum hemorrhage. Menses early, profuse, protracted. Infertility from profuse menses. Uterine hemorrhages,

bright red, fluid. Painful varicose veins during pregnancy. Suppressed menstruation with epileptic attacks.

Infertility with too profuse menstruation or tendency to miscarry. Suppressed lochia with violent fever, lochia too profuse.

Head

The head is dull and confused in evening, worse after coffee. The head seems full of blood. Convulsions and epilepsy from suppressed menses. Piercing thrusts of pain, beats the head against the wall. Headache worse stooping.

Heart

Palpitations with bloody sputum. Violent palpitations. Ebullitions from coughing blood. Anxiousness with pain at heart. Pulse accelerated and contracted.

Kidneys

Stone in bladder with retention of urine. Pus-like discharge after surgery. Urine bloody. (Senec.) Involuntary urination of children. Catarrh of bladder from atony.

Lungs

Hemoptysis with incipient tuberculosis. Cough with bloody sputum in suppressed menses or hemorrhoids. Very difficult breathing with tetanic spasms.

Male

The semen is not discharged during an embrace. Wounds and injuries of penis. Swelling of the penis or testicles. Spermatorrhea. Sycotic excrescences. Gonorrhoea, gleet.

Mouth

Stomachache. Tongue swollen and coated. Thirst, mouth dry.

Nose

Nosebleed (Erecht.) with congestion to head and chest. Piercing pain from eyes to root of nose. Nosebleed with congestions to head and chest. Stuffed nose.

Rectum

Ascarides. Hemorrhages from bowels after much exertion. Bloody dysentery. Bleeding hemorrhoids. Diarrhea, preceded by rattling of fluids in abdomen. Mucous diarrhea, bloody, dysentery.

Sensations

As if he had forgotten something. As if all blood ascended to head. Right side of head as if screwed together. As if too much blood in eyes. As if cold air passing out of ear. As of a liquid moving from stomach to intestines.

Pain as from a blow or sprain in right Achilles tendon. Mill. is suited to all wounds which bleed profusely, sprains and over-lifting.

PAGE 1125

Skin

Wounds after operation for stone in the bladder. Bruises and bleeding from wounds. Bad effects from a fall and sprains. Suppressed itch and from it fever. Painless Varicose veins of pregnant women. Fistulous ulcers. Ulceration of internal organs. Cancerous ulcers.

Sleep

Violent yawning without being tired. Goes to sleep late and does not feel refreshed in morning.

Stomach

Hematemesis. Cramps in stomach with sensation as of a liquid flowing in intestines to anus. Painful gnawing and digging in stomach as from hunger. Burning in stomach, extending to chest. Vomiting when coughing. Nausea with vertigo.

Teeth

Toothache from eating things. Rheumatic pain with diseased gums. Gumboil. Ulcers on gums.

Temperature

Continuous high fever. Pulse accelerated and contracted. Chilliness with pain in (left) kidney. Fever heat with thirst. Heat in hands and feet. Colliquative perspirations.

Throat

Rough voice. Elongation of palate. Uvula relaxed. Ulceration of throat, pain in left side when swallowing.

Vertigo

Vertigo when moving slowly. Vertigo, falls to right side and backward. Vertigo with nausea when stooping, not when lying down.

Comments

Millefolium with its hemorrhages and wounds action is closely allied to Arn. and it has another action common to many Composite, that of a anti-convulsive. But this action is again allied to its hemorrhagic power, for it is chiefly (but not exclusively) in relation to suppressed hemorrhages (menses) or other secretions as the lochia or milk that the convulsions occur. The hemorrhages are chiefly florid.

As well as hemorrhages, there are copious mucus discharges, especially when these are due to atony. Mill. has a very pronounced relation to pregnancy and the puerperal state. Varicose veins in pregnant women have been cured with it.

C. W. relates an interesting experience. A man had sever diarrhea, profuse dark chocolate-colored stools, verging on black and slightly tinged with blood. A club doctor had failed to relieve, but an old woman cured the man with "Yarrow tea."

C. W. had a collie dog which, when excited, would pull up grass or weeds and swallow them. When it happened to be Millefol. this invariably caused: First, rattling of fluid in the bowels, then dark chocolate diarrhea, changing to black, very offensive, finally blood-tinged.

This lasted a day or two. It was at length found that Ars-i. 3x in solution was a complete antidote. Given every ten minutes, as soon as rattling came on, it effectually stopped it. The dog also had fissured pads. Ars-i. did nothing for these, but Ars. 30c cured.

Mimosa humilis

(sensitive plant)

Pharmacy

Mim-h. Mimosa humilis. Sensitive Plant. N. O. Leguminose. Tincture of leaves.

Historical dose: Tincture and all potencies.

Herbal

Mimosa is one of the remedies introduced and proved by Mure. The "sensitive plant" of our hothouses is Mimosa pudica, but the leaves of Mimosa humilis, says Mure, "close at the least contact." **Planets:** Saturn.

Homeopathic

The most notable Mim-h. symptoms were lancinations in the back and limbs and swelling and redness of left ankle with tension and lancination. Prostration. Pressure in nape and right temple. Smarting pain in legs with paralysis of knee. Stiffness of bends of knees.

Symptoms

MIND

Indolent indifference.

Clinical

Ankle swelling. Conjunctivitis, rheumatic. Rheumatism.

Abdomen

Borborygmi. Flatulent colic.

Back

Violent lancinations in back.

Ears

Whizzing in ears.

Eyes

Inflammation of eyes of left eye. Itching. Vision dim halo round candle.

Head

Sensation: of heat in head, as if enlarged.

Limbs

Lancinations in legs and hands, now in arm, now in leg. Twitching of arm, extending to chest. Numbness of arm and right hand, ceasing on movement. Inflammatory swelling of left hand. Numbness of hands. Trembling of legs. Swelling of left ankle with redness, tension and lancination.

Lungs

Dry cough in morning. Difficult breathing.

Male

Inflammatory swelling of scrotum.

Mouth

Bleeding of gums. Salivation.

Nose

Sneezing and coryza.

Rectum

Diarrhea. Frequent stools, colic.

Skin

Pimples and pimply excrescences about legs and arms. Goose bumps.

Sleep

Yawning. Drowsy in evening with frequent waking at night.

Stomach

Stomach-ache.

SOURCES

Clarke.

Mimosa pudica

Pharmacy

Mim-p. *Mimosa pudica*. Leguminosae family. Brazil. The mother tincture is prepared from the root and the flowers. Historical dose: Tincture and all potencies, 3x to 30x.

Herbal

Mimosa Pudica is ligneous with regular flowers in clusters with reduced corolla, meristenuous androecium and albuminous seeds. It is a tropical plant originating from Brazil and in the warm parts of India. The root contains 10% tannin and its common usage suggests that it is an aphrodisiac.

Willmar Schwabe of Germany prepared the mother tincture for the proving. The Homeopathic proving is the work of Sankaran (Bombay), who experimented with it on six young provers, for three weeks, using the potencies 3x and 6x in 1968-69.

Mimosa pudica has been used as: 1) Decoction (1:10) of the root: to be prescribed for gravel and all urinary complaints. 2) Infusion of the leaves: blood cleanser. 3) Powder of the leaves and root: fistulae and hemorrhoids. 4) The juice: application for insect and scorpion bites, hemorrhoids and fistulae. 5) A paste made from the leaves: application for hydrocele. 6) The leaves: used in the bath for cases of lumbar and hip pains.

Homeopathic

Mimosa pudica has sensitiveness and headache above the eyes, aggravated by movement, ameliorated by closing the eyes. Irritation of the conjunctiva and nasal mucous membranes. Pains in the shoulders. Diarrhea with abdominal colic and irritating stools. Feeling that the body is too big.

Clinical

Blepharitis. Conjunctivitis. Coryza. Enterocolitis. Hypersensitivity. Influenza. Otitis. Sinusitis.

Constitutions

Allergic and psoric constitutions. Tubercular, nervous types, predominantly phosphoric.

Planets: Moon.

PAGE 1127

Modalities

Better by friction. Better by a hot bath. Better by a tight bandage. Worse from a draft.

Worse from bright light. Worse from movement.

Symptoms

MIND

General irritability. Annoyed, irritated, by the thought of taking medicine. Sensitivity, impression that the body is too large. Easily angered, it takes a long time to forgive.

Abdomen

Pain in the epigastric region, worse when coughing.

Back

Dorsal pain. Sharp pain in both shoulders.

Chest

Thoracic pain, especially around the lower part of the large pectoral muscle. Better by a hot bath and by abduction movement of the arm. Worse by fresh air.

Ears

Sudden, acute stinging pain, especially in the right ear. Pain coming in the evening, lasting through the night. Pain worse when lying on the right side with pressure and draft of air. Pain ameliorated by lightly covering the ear. Buzzing in the ears. Hears less well against a noisy background.

Eyes

Eyelids stuck together in the morning on waking. Eyelids secrete a yellowish pus, which forms in the corner of the corner of the eye. *Vision slightly blurred.* Burning in the eyes, worse from a draft of air. Photophobia with headaches, aggravated by the sun.

Blepharitis. Conjunctivitis.

Head

Headache aggravated by straining the eyes, by quarreling, ameliorated by closing the eyes or by a tight bandage. Headache above the eyes, especially at the left eyebrow.

Headache aggravated by movement, ameliorated by closing the eyes.

Lungs

Dry cough.

Male

Increase of sexual desire in the male.

Mouth

Abundant ptyalism throughout the body. Nocturnal salivation when lying on the right side. Loss of sense of taste.

Nose

Coryza. Irritation of the nasal mucous membranes. Constant discharge of a watery secretion.

Rectum

Stools irritating with abdominal colic. Stools frequent, as often as ten times a day. Better after evacuation. Ameliorated by rubbing the abdomen.

Throat

Pain and tickling in the throat, ameliorated by a hot drink, aggravated by speaking and by coughing.

Compare

(1) Euphr. - Inflammation of the nose and eyes. Aggravated by light and air, ameliorated in darkness when lying down.

(2) Sabad. - Senses: irritation of the mucous membranes in the nose and the throat. Ameliorated by hot drinks.

(3) Psor. - Periodic migraines, worse from the slightest draught, hypersensitive to the cold, sudden nocturnal diarrhea with a fetid odor.

SOURCES

Julian.

Mimulus guttatus

(bach flower remedy)

Pharmacy

Mimulus. *Mimulus guttatus*. Flowers are picked, placed in a bowl of water and left to the sun's action for several hours. The water imbued with healing power is then prepared as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

Mimulus belongs to Bach's group For Those who have Fear, along with the remedies of Rock Rose, Cherry Plum, Aspen and Red Chestnut. **Planets:** Moon.

Homeopathic

Mimulus treats concrete fears of a known origin. Nervousness, not of a severe nature, lowered stamina and decrease in vitality are possible side-effects of the Mimulus state. Hypochondriacal, obsessive anxieties can develop in regard to the manifestations of minor symptoms and intensify them.

PAGE 1128

This remedy is invaluable in all forms of anxiety disorders and phobias when there are concrete objects, persons, or situations of fear (Rock Rose). Fear lodges in the stomach region and creates disturbance, there are frequent loose bowels and intestinal griping pains during acute states of anxiety, in long standing states of fearfulness, chronic diarrhea may develop. In severe states of dread, there can be a sense of internal agony or a slumping of vitality.

In cardiac neurosis, duodenal ulcers in the passive-dependent patient, emotional diarrhea, urticaria and atopic dermatitis. Anxiety, excessive self-observation and fear of being rejected. During physical rehabilitation after accidents or surgery, or during sickness or old-age infirmities, when every move frightens and small pains intimidate.

Symptoms

MIND

In the Mimulus state, the mind always knows exactly what is feared, what is the object of dread. Dreaded things, persons, or events are seen as a hurdle, or as a dangerous deterrence that one seeks to avoid and retreats from.

In the Mimulus state, one lives in a constant state of fear. Shyness and nervousness. Mimulus treats anticipatory fears which may even subside as the dreaded situation is encountered. This would apply to concrete events, such as exams, surgery, a public appearance.

Phobias of a chronic nature which repeat occasionally. These are fixations or obsessions of the mind from fearful experiences. Mimulus also treats fear of death, of poverty, of accidents, of loneliness. Fear other kinds of misfortunes. Hypochondriasis, (Chicory, Heather) and excessive self-observation (Cerato, Larch).

Mimulus treats chronically shy people. A common emotion accompanying this state is regret or sadness about such internal hindrances which they often feel powerless to rise above. Shyness may also manifest physically and lead to easily aroused nervousness.

Usually responded to by the individual with attempts to hide this state from others, Mimulus successfully treats this state as well.

SOURCES

Bach.

Mitchella repens

(partridge-berry)

Pharmacy

Mit. *Mitchella repens*. Partridge berry. N. O. Rubiaceae. Tincture of whole plant.

Historical dose: Tincture and all potencies.

Herbal

Mitchella is a small trailing evergreen bearing a scarlet bean and is common throughout the United States. It belongs to the same order as China, Coffea and Ipecac. and shows its affinity with these in its power over hemorrhages.

Indian women drink a decoction of it before confinements to make labor safe and easy.

Eclectics use a concentrated decoction as an application to sore nipple.

Duncan in his proving induced pains and burning in the kidneys and Hale, who observed the effect on a woman, has recorded some characteristic symptoms in the urinary and uterine sphere. **Planets:** Moon, Venus.

Homeopathic

A leading indication of Mit. is congestion of the uterus with bladder irritation as a concomitant. Irritation at neck of bladder with urging to urinate, (Eupat-pur., Apis) Engorged uterus, hemorrhage, bright with dysuria. Lassitude. All muscles feel sore. Whole digestive tract feels cold, transverse colon tender to pressure.

Clinical

Bladder irritation. Depression. Dysmenorrhea. Dysuria. Hemorrhages. Kidneys, pain. Menorrhagia. Metritis.

Symptoms

MIND

Inability to concentrate mind. Depression, followed by buoyant spirits.

Abdomen

Rumbling. Distention with flatus. Gripping.

Back

Aching pains running down back. Dull pain: between shoulders in kidney region.

PAGE 1129

Bladder

Uneasiness in neck of bladder, urging to urinate, burning, 11 a.m. Catarrh of bladder. Urethra, (female) and neck of bladder swollen and irritated.

Ears

Burning in left pinna. Dull aching in right ear.

Eyes

Eyes dull and heavy.

Female

Cervix engorged, dark red, swollen. Dysmenorrhea and uterine hemorrhage, blood bright red. Uterus irritated, severe pain in it. Amenorrhea, dysmenorrhea, menorrhagia, menses delayed. Slow, feeble ineffective labor pains. False pains in last month of pregnancy.

Food

Appetite impaired.

Head

Severe frontal headache on waking. Burning in vertex. Throbbing in occiput. Scalp sensitive to touch.

Heart

At heart: burning pains, uneasy feeling as if its action was being interfered with. Beats irregular.

Kidneys

Dysuria. Heat in kidneys with dull pain. Increased quantity of urine, acid. Urine high-colored, white sediment. Dysuria accompanying the uterine complaints.

Limbs

Aching and burning sensation in right upper limbs. Walk unsteady inclines to fall to right. Aching in lower limbs in knee-joint.

Lungs

Much mucus in bronchi. Dry, backing cough in morning. Breathing difficult 11 a.m.

Male

Pain, drawing in right, testicle.

Mouth

Burring and prickling on tongue.

Rectum

Urging, thin stools. Constipation, feces small, difficult, tenesmus.

Sleep

Yawning, drowsy. Woke in a fright, frightful dreams.

Stomach

Belchings, acid. Burning in stomach extending whole length of esophagus.

Temperature

Chill over whole body with flushes of heat, very sensitive to cold air.

Throat

Swallowing difficult. Tonsils enlarged, painless, especially the left. Fauces dry.

Pharynx feels constricted, impeding swallowing. Some enlargement of left submaxillary gland.

Compare

(1) Chim., Senec., Uva ursi, Geran., Goss.

(2) In congested cervix associated with irritation of neck of bladder, Sep. - Mitch has no general resemblance to Sep.,

(3) Eupat-pur. - bladder irritation in women.

(4) Hydr. has in addition heat and itching in vagina.

(5) Apis, Vespa - has ulcer round os.

(6) Caul., Chim., Cimic., Helon., Puls., Senec.

Momordica balsamica

(balsam apple)

Pharmacy

Mom-b. Balsam apple. *Momordica balsamica*. N. O. Cucurbitaceae. Tincture of fresh ripe fruit. Historical dose: Tincture and all potencies, externally used as a liniment and poultice for burns, chapped hands, etc.

History

Momordica was introduced by Dr. Mercer, whose wife made the proving with twenty-four drops of the tincture, producing some very well characterized symptoms.

Griping and colic declared its relationship to *Coloc.* and *Elate.*, as also severe pains in back and hypogastrium with painful and excessive menses. **Planets:** Jupiter.

Homeopathic

Momordica produced has a griping, colic, pain in back and hypogastrium with painful and excessive menses. Accumulation of flatus in splenic flexure of colon. Dropsy.

A peculiar sensation is: As if the whole contents of the head had greatly diminished in weight. Farrington gives as a keynote: distention and rumbling in splenic flexure of colon, which he compares with the effects of *Lyc.*

Clinical

Colic. Dysmenorrhea. Flatus. Leucorrhea. Menorrhagia.

Symptoms

Abdomen

Rumbling, griping, colicky pains, starting from back, spreading over abdomen.

PAGE 1130

Female

Painful and profuse menses, labor-like pains, followed by gushes of blood, pain at small of back coming towards front of pelvis.

Head

Dizzy, contents of head feel lighter, mist before eyes.

Compare

Momordica charantia

Pharmacy

Mom-ch. Momordica charantia. Indian variety. Historical dose: Tincture and all potencies, 3x or higher potencies.

History

This remedy has more severe symptoms than the Momordica balsamina. **Planets:** Jupiter.

Homeopathic

Momordica charantia has gallbladder symptoms. The intestines full of yellow watery fluid, discharged explosively, cramps, thirst, prostration.

Compare

(1) Similar to Crot-t., Elat.

SOURCES

Boericke.

Morbillinum

(measles nosode)

Pharmacy

Morb. Morbillinum. The nosode of Measles. Historical dose: All potencies, 6c to 30c and higher.

History

This nosode was prepared by Gross, a contemporary of Hering. Gross used to soak some globules by the blood of the patient suffering from measles, dynamised and used via olfaction. According to another version he used to give some natural globules to the patient suffering from measles who used to keep him in his hands firmly closed and afterwards he used to make dilutions from these globules.

As a prophylactic given to those who are or may be exposed to infection, Clarke would prescribe a dose of the Morb. 30c twice or thrice daily.

For an attack of the disease He found nothing better than Morb. 30c, eight or ten globules in six ounces of water, a dessert spoonful every two hours. The effect of this is heightened by giving alternately Bell. 30c in the same way. These two medicines will be sufficient to carry through any uncomplicated case and in my experience do even better than Pulsatilla. **Planets:** Mercury.

Homeopathic

The well-known symptoms which characterize an attack of measles may all be taken as guides for its homeopathic use. Its chief use hitherto has been as a prophylactic against infection and to clear up after-effects of an attack.

As the measles poison has a great affinity for the mucous passages, the eyes, the ears and the respiratory mucous membranes, Morb. may be used in such cases like any other homeopathic remedy, when the symptoms correspond.

Morb. has fevers, nasal and eye catarrh. Nasal voice, rough cough, lachrymation. Grumbling child, koplik spots. Diffused bronchial rales. Followed by a macular

exanthema, beginning on the face and behind the ears. Fine scaly desquamation. Aggravation of a first infection of measles. Troubles of the perception. General convulsions.

Clinical

Catarrh. Coryza. Cough. Ear disorders. Eye, disorders. Erythematous lupus. Measles. Otitis. Skin disorders. Spontaneous abortion.

Symptoms

Abdomen

Abdominal pain, localized at the appendix region. Acute mesenteric adenitis.

Splenomegaly. Swollen lymph glands.

Ears

Acute otitis.

Eyes

Lachrymation, photophobia. Optic neuritis.

Female

Spontaneous abortion.

Heart

Tachycardia.

Lungs

Cough. Paroxysmal respiratory dyspnea. Purulent pleurisy.

PAGE 1131

Mouth

Koptic symptoms. Small white patches, surrounded by a red areola, slightly raised seen on the internal walls of the cheeks and on the mucosa of the gums.

Nose

Flapping of the nasal wings, snoring. Catarrh of the nose.

Skin

Rosy maculae, round and oval, of different shapes separated by healthy skin disappearing by pressure. Papulous eruption. Miliary, confluent, scarlatina-like eruptions.

Ecchymotic spots.

Throat

Hypertrophy of the superficial glands of the neck. Throat red, irritated. Striduous laryngitis.

Clarke. Julian.

Bacillus morgani (bach)

Pharmacy

Morg. Morgan bacillus. A Bowel nosode. Historical dose: All potencies.

History

There are two sub-types of the nosode Morgan Pure, which is closest to Sulphur and particularly good in skin conditions and Morgan Gaertner, which is like Lycopodium and is helpful in cholecystitis adrenal colic. It is often useful in hiatal hernia and diverticular disease.

Sometimes giving the nosode in 30c potency, followed by Sulphur in 3x or 6x tablets twice daily, can help the acute itching in bad eczema or dermatitis.

Homeopathic

The keynote of Morg. is congestion. It is selective on skin and liver in headaches with flushed face, aggravation from heat and raised blood pressure. The congestive features are seen in broncho-pneumonia, where the indicated remedy fails to act even in the acute state or to clear up a residual infection.

In pelvic congestion and dysmenorrhea, hot flashes of menopause. Circulatory disturbances of the limbs, blueness, chilblains, varicose veins, edema and hot feet, etc.

Morg. has skin ailments with heat and itching. Eczema, red raw with exudate, itching and bleeding. Hence the relationship to Sulphur with its hyperemia of the surface circulation, Carbon with its deep internal venous stasis, Graph., Petr. and Psor.

In the digestive sphere Morg. has congestion of the stomach lining and the liver with dirty mouth indigestion and bilious vomiting. A great remedy in gallbladder conditions, constipation and hemorrhoids. It can be helpful in the congestion around the joints in arthritis. History of rheumatic fever.

Clinical

Arthritis. Bartholinitis. Catarrh. Cystitis. Eczema. Gallbladder. Hemorrhoids. Herpes zoster. High blood pressure. Jaundice. Liver. Lumbago. Pneumonia. Rheumatic fever. Ulcers. Varicose veins.

Constitutions

These patients have a red coarse blotchy appearance, are often introspective, anxious about their health and irritable with a tendency to depression. **Planets:** Saturn, Jupiter.

Symptoms

MIND

Apprehensive about state of health. Introspective and anxious. Tense, active, weepy, depressed, irritable. Avoids, company, fears crowds but often shows mental anxiety if left alone. Mental depression often with suicidal tendency by jumping.

Abdomen

Epigastric pain or discomfort. Tenderness epigastrium. Pain right and left hypochondrium. Pain right and left iliac fossae. Flatus. Redness and moisture at umbilicus: bad odor.

Back

Lumbago, acute or chronic. Pain generally worse heat, better moving, worse on beginning to move. Arthritis spine, sacro-iliac joints.

Blood

High blood pressure. Sluggish circulation. Varicose veins. Varicose ulcer. Cerebral thrombosis. Phlebitis. Easy bruising. Tendency to hemorrhoids.

Chest

Pleurodynia. Fibrositis of chest wall. Emphysema. Angina. Pain since shingles.

PAGE 1132

Ears

Catarrhal deafness. Otorrhea. Noises ears. Boils on meatus. Meniere's disease. Sinus and deafness.

Eyes

Lids granular. Conjunctivitis. Tarsal cysts. Styes. Iritis, keratitis. *Spots before eyes.*

Face

Acne rosacea. Eczema on chin and forehead. Eruption pustular, weeping, scalding and very itchy. Hot, red, dry and fissured. Cracks and eruption behind ears. Eruption on margins of scalp, pustular, itchy and scaling. Eczema of ear passages. Erysipelas face.

Female

Pruritis vulvae and vagina. Menorrhagia and metrorrhagia. Fibroids of uterus. Leucorrhoea, corrosive offensive, brown, green, yellow. Boils vulva. Urethral caruncle. Bartholinitis. Pain on sexual intercourse.

Food

Desires fats, sweets, eggs and butter, more than averse. Worse from fats and eggs or avoids fats and eggs.

Head

Congestive headaches with flushed face. Headaches: frontal, occipital and headache on vertex. Migraines. Weekly sick headache. Headaches worse from hot atmosphere, thunderstorm weather, excitement, traveling in bus or train. Scalp sensitive. Hair falling out. Complete alopecia.

Kidneys

Cystitis with frequency and pain. Urine of strong smell and corrosive. Urine contains sugar.

Limbs

Rheumatic shoulders. Neuritis arms. Numbness and tingling arms. Hands puffy, stiff and grip poor. Fingers stiff in morning. Rheumatoid arthritis of wrists, thumb. Osteoporosis. Finger joints swollen and painful. Nodules on fingers. Lack of power in legs. Tingling legs. Growing pains in legs. Knee joints are large and stiff. Pain in soles of feet. Pain in heels. Thick skin soles of feet with cracks heels. Pes Planus. Feet too hot, offensive foot sweat. Chilblains.

Liver

Pain in liver and gall bladder. Gall-stones. Attacks of jaundice. Congestion of liver. Bilious attacks with severe headache which is relieved by vomiting large quantities of bile stained mucus.

Lungs

Emphysema. Bronchitis and asthma. Infantile asthma. Congestion of nasal and bronchial membrane, especially in children, bronchi and lobar pneumonia. Bronchitis each winter. History of pneumonia or bronchopneumonia and never well since. Suffocative attacks. Shortness of breath. Morning cough, dry tickling cough, loose or sticky.

Mouth

Mouth and lips dry-lips stiff in the morning. Ulcers. Salivation. Angles of mouth cracked, lips very red. Jaw bones ache. Periostitis jaw. Bad taste in the mouth, taste deficient or lost.

Neck

Adenitis neck. Fibrositis neck and shoulders.

Nose

Catarrh. Post nasal catarrh. Sinus and antrum infection. Dry mucous membrane. Cracks angle nose. Sense of smell lost. Nosebleeds.

Perspiration

Profuse in axilla.

Rectum

Constipation. Itching of anus. Hemorrhoids, bleeding itching or painful. Anal fissures. Bowel motion without help, loose, urgent in the morning. Bowel motion immediately after food. Stool may be pasty, foul and contain blood and mucus.

Skin

Eczema. Raw, red eczema exuding freely with itch and heat, bleeding from scratching. Eruptions dry, cracked, fissured, weepy, itchy and burning. Tremendous thickening and congestions of skin with deep cracks. Itching eruption, worse from heat. Callosities. Herpes zoster. Cannot wear wool next to skin. Skin sensitive to sun, prickly heat.

Sleep

Insomnia, light and restless.

Stomach

Waterbrash, heartburn. Sour, acid, bitter, mouthfuls. Belching and heartburn. Burning in throat and stomach. Pain and acid, worse with food. Nausea, vomiting, hematemesia. Duodenal and peptic ulcer. Biliary attacks.

PAGE 1133

Throat

Thyroid enlarged. Throat dry and burning. Throat parched, raw and granular. Recurring tonsillitis: cheesy pieces come out. Pharyngitis, laryngitis, tracheitis. Apple core sensation: easy choking.

Tongue

Burning in tongue. Tongue raw and dry, coated, slimy, swollen. Tongue stiff in the morning. Warts on tongue, Pain in the root of tongue.

Vertigo

Vertigo from high blood pressure.

Comments

A history of repeated attacks of congestion of the lungs or bronchi pneumonia in children is indicative for the use of the nosode Morgan or one of the subtypes: Morgan-Pure or Morgan-Gaertner.

Dr. Sargunar who used this nosode in 5300 cases reported that Morgan relieved the attacks of bronchial asthma as quickly as Adrenaline. This is also a remedy of value in chest infection where the indicated remedy fails to act or in cleaning up residual infection after a bronchi pneumonia especially in cases following Sulph. or Nat-s.

Dr. William B. Griggs says that he has used Morgan from 200c to the 100,000c and in cases of asthmatic children where Natrum Sulph., Arsenic and the various asthmatic remedies failed completely. Dr. William B. Griggs says, "Morgan Bacillus has been one

of my most successful remedies in eczema of young children. You take the moist type of eczema where the child scratches and has the exudate on its face and bleeds. Clarke has seen Morgan clears that up after failure of Graph., Psor. and Med."

The type of eruption which characterize this can be ascertained from a study of the provings of well known skin remedies found among the list of remedies associated with the Bacillus Morgan e.g. , Sulph., Graph., Petr. There are few eczema of the infants at the teething stage or later life, which do not require a dose of this nosode.

Congestion of gastric mucosa and liver, heartburn and a dirty tongue, bitter taste in mouth in the morning with accumulation of mucus causing gagging as soon as rises from bed.

A history of bilious attacks especially occurring at the menopause in women should lead one to consider the use of the nosode, Morgan. Appetite is frequently absent in the morning but by 11 a.m. the child suffers from sinking feeling relieved by eating. There are recurrent bouts of indigestion even with vomiting of mucus and occasionally blood but ulceration is not found.

Compare

(1) Sulph., Calc. and Lyc. and also many carbonates.

Relations

Miasmatic Relation: Morgan has deep range of action covering the field of a number of anti-psoric remedies.

SOURCES

Bach. Paterson.

Morphinum muriaticum

(an alkaloid of opium)

Pharmacy

Morph. Morph. muriaticum. Morphine. Morphinum sulphuricum. Morphinum aceticum. An alkaloid of Opium. Trituration. Solutions. Historical dose: All potencies, third to sixth trituration.

History

Morphine is the alkaloid of Opium plant, which contains the most characteristic properties of the drug. The alkaloid itself, the Acetate, the Muriate and the Sulphate have all been used as pain-killer and sleep inducers.

Homeopathic

Morphine bears the same relation to Opium as Atropine is to Belladonna, i.e. , represents its nervous side. It is less stimulating, less convulsant and more decidedly hypnotic. Constipates less and affects contractility of the bladder more. It is less diaphoretic and more itching. Multiple neuritis. Neuralgia after herpes zoster. (Mez.)

PAGE 1134

Morph. has restlessness, hyperesthesia, trembling, twitching, jerking, convulsions. Extremely susceptible to pain. Pain causes twitching and jerking of limbs. Sore feeling all over. Bed feels too hard. Violent and sudden neuralgic pains and sudden fainting.

Clinical

Chorea. Colic. Constipation. Convulsions. Delusions. **Eyes** disorders. Headache. Irritation. Jaws, clenched. Lightning-stroke. Neuralgia. Palpitations. Sleep, disordered. Strabismus, divergent. Trismus Tympanitis. Vertigo. Vision, illusions.

Causations

Drug overdose. Electric shock. Lightning-stroke. Thunderstorms.

Constitutions

Nervous constitutions. **Planets**: Moon.

Modalities

Better by coffee. Worse by eating. Worse by movement. Worse by slightest movement of head. Worse after sleep. Worse in morning, by vinegar.

Symptoms

MIND

Incapable of thinking or fixing mind. Stupor, coma. Emotions very easily excited. Great anxiety, thought she was going to die. Profound depression. Sad, melancholy, despair. Fault-finding, hysterical. Ill-humor. Irritable, wants to be alone. Shock induced by terror. Terror, cried out in great alarm. Dream-like state. Flow of ideas rapid and pleasant, but without control of the will, like the condition of dreaming. Anxious, restless, ran about the room. Delirium like delirium tremens. Delirium, melancholic in character. Could not describe her symptoms for tears and sobs. Delusions, hears voices, perceives various odors.

Abdomen

Distended. Acute pain in abdomen and along spinal column. Tympanitis. Pain in umbilical region. Colic better turning on back in morning.

Back

Pain extending along spine. Aching across lumbo-sacral region, cannot walk erect. (Cimic.) Stiff-neck. Great pain in back. Pain and twitchings all down spine. Weakness of the loins.

Chest

Chest tight. Pain in middle of sternum. Ill with an indescribable sensation, worse than any pain, behind lower half of sternum. Neuralgia after herpes zoster. (Mez.)

Ears

Left ear throbs painfully, better heat. Seems to hear circulation all over body. Severe pain in left ear with pain at side of left eye all day. Ringing, surring, roaring, tinnitus.

Eyes

Bluish, drooping eyelids. Ptosis. Look becomes unsteady. Eyeballs protrude. Nystagmus. Itching of eyes. Delusion of vision on closing eyes. Staring injected, diverging strabismus. Pupils unequally contracted. Look unsteady. Ptosis. Paresis of recti internal.

Double vision with disturbed accommodation. **Eyes** feel too small for sockets. Sight blurred, obscured by fogs.

Face

Intensely flushed face, puffed, livid, cyanotic. Dusky red or pale face, lips tongue, mouth or throat. Heavy, confused, wild, haggard expression. Trismus, teeth clenched.

Female

Amenorrhea. Menses too profuse, and too early. Infertility. Sexual desire at first increased, afterwards abrogated.

Food

Loss of appetite. Aversion to meat, pastry. Thirst. Great thirst, burning.

Head

Headache with drowsiness. Head drawn backward. Head dull, heavy as lead, hot.

Bursting pain, head drawn back. Brain feels tense as though wound up tightly.

Congestions of head, palpitations of heart, starts in fright if approached, touch causes cramp and twitchings.

Heart

Violent throbbing in heart and carotids. Alternation of tachycardia and bradycardia.

Cardiac muscular tissue is intact, even if severely exhausted. Palpitations. Pulse small, weak, dicrotic.

Kidneys

Paresis of bladder. Strangury. Slow and difficult urination. Retention of prostate enlarged. Uremia, acute and chronic. Suppression of stool and urine. Urine is turbid and slimy. Diabetes. Albuminuria.

PAGE 1135

Limbs

Tremors, twitchings, contractions, stiffness of limbs. Violent pain in joints. Staggering gait. Numbness. Stiffness and pain in arms after sleep. Legs swollen. Cramps in several muscles. Wandering, sharp pains in legs and feet. Icy coldness of left sole as if standing on oil-cloth.

Lungs

Faint and struggling for breath, diaphragmatic paralysis, hiccough, dyspnea, paroxysmal, on first falling asleep. (Lach., Grind.) Cheyne-Stokes respiration. A dry, hard, teasing, exhausting cough, worse at night. Strangling cough with viscid mucus sputum, thin, scanty, but sounds loose and abundant. Breathing is stertorous, difficult, slow. Struggling for breath.

Male

Pain in right spermatic cord. (Ox-ac.) Impotency. The sexual excitement, voluptuous sensations and erections are incomplete or do not occur. Diminished desire.

Mouth

Discharge of watery saliva from mouth. Very dry mouth. Speech is hasty, stammering, embarrassed and feeble. Mouth dry with thirst, nausea, vomiting, bitter, sticky. Palate scarlet.

Nose

Sneezing, in paroxysms, coryza. Tickling in nose and larynx as before a sneeze. Intense itching, tingling, numb feeling on end of nose, rubs it constantly.

Rectum

Diarrhea watery, brown or black with horrible tenesmus. Constipation, stools large, dry, knotty with tendency to bruise and fissure. Constipation for a long time. Stool retained.

Sensations

Tight sensations in head as if skull too small for the brain. As if brain wound up.

Something shot to head like lightning the instant the injection took place. Sight as if obscured by a fog. Ticking of nose and tip of nose. Tongue as if thick. Teeth as if clenched. As if worms in legs.

Skin

Livid, purple spots. Skin lost its elasticity. Urticaria appearing at the menopause. Skin deathly pale. Purple spots on body. Eruption like herpes zoster, but without pain.

Itching is constant, violent, all over, nose, neck, loins, inside thighs.

Sleep

Aggravation after sleep. (Lach.) Yawning, drowsy, prolonged, deep sleep. Sleepless, restless sleep with frequent startings. Sleepy, but cannot sleep. Heaviness, drowsiness. Half waking, half stupid condition. Dreams are pleasant, frightful.

Stomach

Belchings, violent, with much acid mucus. Nausea incessant and deathly, faintness, constant retching. Vomiting of green fluid. Nausea and vomiting on rising up. Nausea with drowsiness. Vomiting of green matter, sour, bright green fluid, bitter, greenish water. Pain in stomach, worse by eating. Constriction, pressure, cramps. Colic, crawling in stomach.

Temperature

Chills and rigors. Icy coldness. Burning heat, profuse sweat. Heat, burning, itching, cheeks hot and flushed. Sweat, profuse, cold, clammy, viscid, colliquative.

Throat

Dry and constricted. Hoarseness. Pharynx paralyzed, swallowing almost impossible, better hot drinks, worse solids. Burning back of fauces. Paralysis of the pharynx, swallowing almost impossible. Jugular veins swollen, carotid arteries pulsating.

Tongue

Tongue is dry, brown, red, tip, margins. Tongue violet in middle, at times trembles on putting in out.

Vertigo

Vertigo from the least movement of the head. Giddiness and drowsiness, everything turns around.

Comments

Rufus Thaurston records a short but very important proving of Morphinum on a patient who took a grain for sleeplessness. Among the symptoms was this, which he italicized: "Vertigo from least movement of the head."

Not long after, Skinner had a case of vertigo with tendency to fall forward and with this symptoms: "Becomes unconscious and all becomes worse by movement of any kind, especially of the head and by eating and drinking. Morph-m. 500c cured the case.

PAGE 1136

Boger cured with Morph-s. 100,000c this case: Miss M., 22, dark, spare. Headache with sensation of being wound up tight. Sleepiness and numbness of lower limbs. Intense vertigo on least motions of head. Thus both the Muriate and the Sulphate availed to cure a symptom produced by the plain alkaloid.

In Thurston's case there was also the "wound-up" headache, which is confirmed by Boger's cure as another note of Morph. Another feature of Thurston's case was sudden faintness.

The same symptom was produced, by one-eighth of a grain of the Sulphate in a case reported by E. V. Ross: "Spells of feeling faint come on suddenly with great anxiety, through the was going to die." In the same case this peculiar symptom appeared:

"Delusion of vision on closing eyes, sees a man standing at foot of bed. The room seems full of white and colored babies."

In Clarke's experience the Acetate has produced much more violent gastric symptoms than the muriate, but not different in kind. Green vomit is a constant effect. Restlessness and hyperesthesia are prominent symptoms: restlessness of legs, wants them held, feels as if worms in them. Tremblings, twitching, jerking and convulsions, even tetanus. This is marked in the clenching of the jaws.

Morphine has extreme susceptibility to pain and Morph. is indicated in neuralgia where the pains are so violent as to threaten convulsions, pain causing twitching for jerking of limbs. Violent and sudden neuralgic pains (as well as sudden fainting). Morph. is just as susceptible emotionally as to pain, "Cannot describe symptoms for tears and sobs." The head is very heavy and hot, drowsiness.

The sleep symptoms of Morph. are not distinguishable from those of Opium. Intense drowsiness. Deep sleep. Half sleeping state:

"He lay in a half-waking, half-stupid state, but with perfect ability to think of different things, though at the same time he was busy with confused fantasies, limbs stiff."

On the other hand there is sleeplessness and restless sleep with starting up. Dreams may be pleasant or frightful.

Morph. cured nervous spasms brought on by lightning-stroke, the spasms being worse by any exposure to heat, better by cold, was compelled to go to a cool place.

SOURCES

Boericke. Clarke.

Moschus

(deer musk)

Pharmacy

Mosch. Moschus. Musk. Moschus moschiferous. Deer Musk. N. O. Mammalia.

Trituration of inspissated secretion contained in preputial follicles. Historical dose: All potencies, first to third potency.

History

Musk is a well known perfume, which produces fainting in some by mere smelling of it, hence easy fainting in any diseased condition is its chief indication. Faints easily, faints dead away from the least excitement, scolds and rages until she falls unconscious, globus hystericus ending in unconsciousness, faints while eating during menses, faints from heart disease.

Homeopathic

All complaints which have easy fainting as a leading symptom may require Mosch. A remedy for hysteria and nervous paroxysms, fainting fits and convulsions, catalepsy. The characteristic condition begin aggravation by cold, there is great sensitiveness to air. Much nervous trembling and frequent fainting. Great flatulence.

Diseases do not follow a normal course. Coldness. Tension in muscles, skin and mind.

Mosch. has a spasmodic, nervous effects with a feeling of coldness. Faints easily, while eating during menses from heart disease etc. Twitching, choking, globus hystericus, ending in unconsciousness.

PAGE 1137

As of a cool wind blowing on part. Tension in muscles, skin, mind. Nervous, shuddering, laughter, hiccough etc. Buzzing, squeezing, plug like sensation.

Poor reaction, diseases do not follow the normal course. Complains without knowing what ails him. Epilepsy with shuddering as from a rigor or chilliness. Catalepsy.

Imaginary diseases. Coldness, general or of single parts. Parts lain on feel dislocated or sprained. Wants to uncover.

Clinical

Angina pectoris. Catalepsy. Croup. Diabetes. Dyspnea. Epilepsy. Fainting. **Heart**, failure. Herpes. Hiccough. Hypochondriasis. Hysteria. Impotence. Laryngismus. Lungs, paralysis. Pregnancy, complaints. Rage, fits. Stings. Typhoid. Vertigo. Whooping cough.

Causations

Chill.

Constitutions

Moschus is suited to spoiled, sensitive natures and hysterical women and men. Girls who are selfish, obstinate, self-willed and much pampered, resort to all kinds of cunning to have their whims gratified. **Planets:** Moon.

Modalities

Better in open air, rubbing, smell of musk. Worse cold, excitement, suppressions, menses. Worse open air, which is felt very cold. Worse from pressure. Worse motion, must lie down and lie still. Worse after sex, (vomiting). Worse after a meal during a meal. Worse on side lain on.

Symptoms

MIND

Hurried, tremulous and awkward, bursting activity with weakness, so that everything falls from the hands. Violent anger, talks excitedly, raves, scolds, until mouth becomes dry, lips blue, eyes staring and she falls unconscious.

Fears noise, dying, fears to lie down, lest one die. Sudden loss of memory. Imaginary sufferings. Uncontrollable laughter. Sexual hypochondriasis. One feels as if being rapidly turned around. Talks to himself and gesticulates.

Abdomen

Greatly distended. Tension in abdomen as if clothes were too tight. Incarceration of flatus.

Back

Tension in back, before menses.

Chest

Chest oppressed, hysterical spasms of the chest. Tightness of chest is obliged to take a deeper breath. Hysterical spasm of chest.

Ears

Sounds as from report of a cannon. Rushing, fleeting sound. Nervous deafness.

Eyes

Turned upwards, fixed and glistening.

Face

One cheek red but cold, other pale and hot. Lips blue. Chewing motion of the lower jaw.

Female

Menses too early too profuse with disposition to faint. (Nux-m., Veratrum) Sexual desire with intolerable titillation in parts. Drawing and pushing in the direction of the genitals, sensation as if menses appear. Dysmenorrhea with fainting.

Food

Desire for black coffee, beer and brandy. Desire for stimulants. Aversion to food. Everything tastes flat. Aversion to food. Faints while eating.

Head

Compressive pain over root of nose. Pressure on top of head. Headache with coldness, faintings involuntary stools and polyuria. Shivering in scalp. Scalp sensitive.

Heart

Anxious palpitation with fear of death, says I shall die. Hysterical palpitations. Trembling around heart. Weak pulse and fainting.

Kidneys

Copious watery urine. Diabetes. Urine normal during day, but dark red offensive at night.

Limbs

One hand hot and pale, the other cold and red. Limbs, tense, feel too short. Coldness in tibia. Painful, restless.

Lungs

Sudden nervous suffocation, wants to take deep breath, worse from becoming cold, better after belching. Difficult respiration, chest oppressed. Spasm of glottis. Impending paralysis of lungs.

Asthma with intense anxiety, fear and smothering sensation. Hysterical asthma. Cough ceases, mucus cannot be expectorated. Globus hystericus. Cough with pain under left breast.

PAGE 1138

Male

Sexual desire increased with insupportable tickling in the parts and tensive pain in penis. Impotence with diabetes. (Coca) Involuntary emissions without erections. Erection with desire to urinate. Premature senility. Nausea and vomiting after sex.

Nose

Bleed with spasmodic jerking of muscles.

Rectum

Stools of sweetish odor. Stools are passed involuntarily in sleep.

Sensations

As if falling from a height. As of being turned about so rapidly he perceived the current of air produced by the motion. As if cold, wet poultices on head. Headache as if from a heavy weight. As if larynx closed on breath. As if cold air blowing on him.

Sleep

Sleepy by day, sleepless at night, awakes frequently.

Stomach

Violent belchings. Spasmodic nervous hiccough. Nausea, on seeing or thought of food. With stomach symptoms, anxiety in chest. Distended. Faints when eating. Spasmodic, nervous hiccough. (Hydr-ac., Sul-ac., Ign., Caj.)

Temperature

Sensitive to cold air, which makes him shudder. Skin cold. Burning heat with restlessness. Sweat smelling like musk.

Throat

Sudden constriction of larynx and trachea.

Vertigo

Vertigo with fainting, as if falling from a height, worse stooping, better rising. Vertigo on least motion.

Comments

Coldness in another keynote of Mosch. "In nervous or spasmodic complaints where the patient feels very cold: in epileptic fits where there is rigor or chilliness or shuddering as though the patient was very cold " (H. N. G.).

The coldness may be general or it may affect single parts as one cheek or one foot.

Pallor accompanies it. Sensation as if cool wind blowing on parts. Coldness in tibia. Allied to the chill is another feature in Mosch.

Tension in muscles in skin in mind. Tension in back or before menses, tension in limbs, they feel too short. Pressure outward in heart. Spasms and twitches. Subsultus tendinum of fever. Laryngeal spasm. Spasm of chest of heart, general convulsions.

Sexual desire is much excited in both sexes, even in the aged. Diabetes with impotence has been cured by Mosch., which has excessive thirst and other symptoms of diabetes.

Mucuna urens

(horse-eye)

Pharmacy

Muc-u. Mucuna urens. Horse-Eye. N. O. Leguminose. Found in hot regions of Venezuela. The pulverized bean is macerated five times its weight of alcohol. Historical dose: Tincture and all potencies.

History

In New, Old and Forgotten Remedies is a letter by Delgado Palacios of Venezuela, pointing out that the name Dolichos, given to Cowhage of Cow-itch in homeopathic literature is not in accordance with botanical terminology.

Cowhage is really a Mucuna, Mucuna and Dolichos being separate genera of the Leguminose. They are so described in the Treasury of Botany. Allen given Linneus as the authority for the name Dolichos pruriens. There is no pathogenesis.

Palacios has used M. urens with which, he says, modern botanists consider Cowhage identical, but he does not name his plant M. pruriens, an alternative name of Cowhage.

As he says, further, that *M. urens* is a "special plant which grows in the calid regions of Venezuela," and that the beans are "very difficult to obtain,"

Palacios uses the pulverized bean for making his tincture. He gives one drop daily of the tincture and sometimes makes an ointment of it as well, He places more reliance in it than in *Hamamelis* and *Aesculus*. In *Dolichos* the entire pod is used, the stinging hairs being the most important part of it. **Planets:** Moon, Venus.

Homeopathic

Muc-u. is used for hemorrhoids and problems arising from the hemorrhoidal diathesis.

The keynote symptom is burning. There may or may not be bleeding.

Affections of liver, uterus, bladder and the testicles, when accompanied by hemorrhoids, are likely to be cured by *M. urens*.

Clinical

Hemorrhoidal discharges. Hemorrhoids.

SOURCES

Clarke.

Murex purpurea

(purple fish)

Pharmacy

Murx. *Murex purpureus*. Purple fish. N. O. Gasteropoda. Trituration of desiccated juice. Trituration or tincture of fresh juice. The fresh preparation is to be preferred, though the dried is the usual one. Historical dose: All potencies, third to thirtieth potency.

History

Petroz first proved the Purple-fish, *Murex*, which like the Ink-fish, *Sepia*, produces the chief intensity of its action in the female generative sphere. They are chiefly distinguished in that *Murex* produces frantic sexual desire and tends to have excessive hemorrhage with large clots, *Sepia* having in general, scanty flow.

Homeopathic

Murex purpureus is for sensitive, nervous, lively, affectionate women. Those who are very tired, weak and run down, must lie down which worse. Walking is difficult, all joints are weak during pregnancy.

Patient weak and run down. Pains are diagonal, ovary to opposite breast. Menopausal sufferings.

Clinical

Breasts, pains. Cervix uterus disorders. Diabetes. Dysmenorrhea. Leucorrhoea.

Menopausal sufferings. Menorrhagia. Metrorrhagia. Miscarriage. Nymphomania.

Pregnancy disorders. Uterus, prolapse.

Constitutions

Murex is suited to the melancholic or sanguine, lymphatic temperament to menopausal sufferings. Especially adapted to nervous, lively, affectionate women. **Planets:** Moon, Venus.

Modalities

Better before menses, eating. Better pressure and support. Better putting head back. Worse least touch in sun. Worse sitting, lying down. Worse by exertion. Worse night. Worse after sleep.

Symptoms

MIND

Great depression of spirits, a sort of deep hypochondriacal state. Anxious, apprehensive, better leucorrhoea. Memory weak, cannot find correct words to express himself.

Abdomen

Painful weariness of loins. As if a weight in hypogastrium.

Back

Lumbago, sometimes burning and with pain like excoriation. On extending the body, pain in hips and lumbar region. Pains in pelvic region. Sensation as if bones of pelvis getting loose.

Breasts

Benign tumors in breasts. Pain in them during menstrual period. Pain from right side of womb to right or left breast.

Chest

Wheezing in chest. Pain in chest, as if it had been bruised. Sharp and burning pains below false ribs on left side. Sensation as of a snake creeping over entire region of short ribs.

Ears

Cramp-like squeezing behind ears. Noise in ears with aggravation of heaviness of head.

Face

Burning sensation of one cheek, right in evening, left in morning.

Female

Conscious of a womb. (Helon.) Pulsation in neck of womb. Desire easily excited.

Feeling as if something was pressing on a sore spot in the pelvis, worse sitting.

Nymphomania. Least contact of parts causes violent sexual excitement. Sore pain in uterus. Menses irregular, profuse, frequent, large clots. Feeling of protrusion. Prolapsed, enlargement of uterus with pelvic tenesmus and sharp pains. Dysmenorrhoea and chronic endometritis. Must keep legs tightly crossed. Leucorrhoea green or bloody, alternate with mental symptoms and aching in sacrum.

PAGE 1140

Food

Hunger, sometimes in morning only and unfelt during a meal. Awful hunger and emptiness, even after a meal.

Head

Squeezing at the back of head better putting hand on it or by throwing head backwards.

Heart

Palpitations of heart and throbbing of arteries.

Kidneys

Urine frequent at night, smells like Valerian, constant urging. (Kreos.) Slight discharge of blood while urinating.

Lungs

Cough in morning while fasting, dry, hard with oppression of chest.

Nose

Distressing coldness of the nose all day.

Rectum

Pressure in anus like painful lancinations. Difficult evacuations, constipation. Swelling of hemorrhoids. Sensation of heavy weight pressing on rectum. During stool: bloody leucorrhoea, discharge of pure blood by vulva.

Skin

Dry, as if about to crack. Hives.

Sleep

Drowsiness, sometimes with sadness. Urgent inclination to sleep. Sleep interrupted by pains. Awakening with fright. Distressing dreams.

Stomach

Sinking, all-gone sensation in stomach. (Sep.) Hungry, must eat. Violent hunger even after eating.

Throat

Voice changed, hoarse.

Comments

Another leading feature of Murex is: Consciousness of the womb, sore pain in uterus. In addition there are cutting pains confined to the cervix and os.

The sinking, all-gone sensation is very well marked in both remedies and also the feeling of bearing down and prolapse. Murex has a sensation of dryness and constriction in the womb. The pains are frequently diagonal and shoot from ovary to opposite breast.

Another peculiar symptom of Murex is: A feeling as if something were pressing on a sore spot in the pelvis. This is analogous to a general sensitiveness to touch. The least contact with the parts causes violent sexual excitement. The cervix is sensitive to the examining finger. The slightest touch causes bleeding of excoriation on cervix. Cauliflower excrescences.

There is excessive secretion of urine and frequent necessity to rise at night to urinate. This nightly polyuria with the hungry craving of Murex and other symptoms, has led to its successful use in diabetes. There is very great depression of spirits, a sort of deep hypochondriacal state. If there is leucorrhoea, the spirits are better when leucorrhoea is worse and vice versa. Must lie down from weakness, but lying down worse all symptoms.

Compare

(1) Plat., Lil-t., Sep. the latter lacks sexual weakness of Murex.

(2) Uterine congestion, cervix affected, Sep. is passive, Murex feels disgust and despair at her sexual desires.

(3) Shooting pains in uterus, prolapse, melancholy, Aur. has induration.

(4) Nocturnal polyuria, Kreos.

(5) Sexual weakness, Lil-t., Plat. Orig.

(6) Dragging down, Bell.

(7) Prolapsed uterus, Sec., Plat., Bell., Lil-t., Nux-v., Nux-m., Podo., Puls., Sep.

(8) Consciousness of womb, Helon., Lyssin.

(9) Menopausal, Lach., Sep., Sulph.

(10) Better throwing the head back, Seneg.

SOURCES

Boericke. Clarke. Phatak.

Muriaticum acidum

(hydrochloric acid)

Pharmacy

Mur-ac. Muriaticum acidum. Hydrochloric acid. Muriatic acid. First dilutions with distilled water. Historical dose: Tincture and all potencies.

PAGE 1141

History

The alchemist's name of Hydrochloric acid is the, "Spirit of Salt," describes at once its nature and origin. It is a colorless gas with a pungent, suffocating odor and acid, taste and it is manufactured from Salt (Nat-m.) by the action of sulphuric acid. It is freely soluble in water and the saturated solution contains 43 per cent of the Hydrochloric gas.

Mur-ac. is a constituent of the gastric juice and must therefore be considered as allied to the Sarcodes and proximate principles of the tissues, e.g. , Cholesterine.

Teste, who did much to define the powers of Mur-ac., groups with it Agnus castus and Hyos. and he considers its action corresponds perfectly to a typical case of typhus.

Homeopathic

Muriaticum acidum has an elective affinity for blood, producing septic conditions similar to that found in low fevers with high temperature and great prostration. Muscles are affected especially of heart of bladder, anus tongue etc., causing paresis. Mouth and anus chiefly affected.

Similar to septic fevers with high temperature and great prostration. Patient becomes so weak she slides down the bed. Decomposition of fluids. Involuntary stools while passing urine. Hemorrhages.

Mucous membranes of the mouth and digestive tract, are dry, bleeding, cracked and deeply ulcerated. Soreness of the body causing restlessness, frequently changes position, but soon grows weak and very debilitated. Wants to lie down, slides down in bed, eyes fall shut, lower jaw drops.

Bluish tongue, hemorrhoids, ulcers. Burnings and tearing pains. Violent hemorrhages. Scorbutic states.

Pulsations in single parts. Parts are dry, deeply ulcerated, bleeding or cracked. Bloody mucous membranes. Muscular exhaustion. Dropsical swelling. The itching of anus and scrotum is not better by scratching.

Clinical

Achilles tendon, disorders. Anus, prolapse. Chilblains, Chorea. Deafness (cerebral). Diphtheria. Feet, pains. Gastric disorders. Hemiopia. Hemorrhoids. Impotence. Intestinal fever. Measles. Mercurial ulceration, Mouth, aphthae, ulcers. Septic fever. Scarletina. Scurvy. Tongue, disorders. Typhoid. Typhus. Varicose veins. Whooping cough.

Constitutions

Mur-ac. is suited to persons of black hair and dark eyes. **Planets:** Mars, Saturn.

Modalities

Better from motion. Better warmth, lying on left side. Better after drinking. Better uncovering during fever. Worse from touch, walking. Worse cold, drinks, bathing. Worse from sitting, human voice, sun. Worse in damp weather, before midnight. Rest aggravates most symptoms. Worse after sleep. Worse after eating (diarrhea).

Symptoms

MIND

Introverted. Sad and taciturn. Sad, taciturn, suffers in silence. Irritable and peevish, fretful. Muttering. Loud moaning. Great restlessness.

Abdomen

Fullness and distention in abdomen from small quantity of food. An empty sense in the stomach, also in the abdomen after stool and in a.m. Ascites from cirrhosis of liver.

Back

Aching pain in back, as from having been having bent double for a long time or from a strain. Shootings in shoulder-blades. Furunculi in back.

Chest

Deep respiration with groans. Sharp pains in chest. Tensive pain in sternum. Incisive shocks in chest. Oppression across chest.

Ears

Deafness. Distant voice, (talking) causes headache. Cuffing from mastoid to nape. Tingling, creeping, cold pain running up to vertex.

Eyes

Vertical hemiopia. *Eyes close on sitting from exhaustion.*

Face

Dark or glowing red face with cold hands, but no thirst. Lips sore, cracked and scabby. Lower jaw fallen. Pimples and freckles. Freckles due to exposure to sun.

Female

Leucorrhoea with backache. Pricking in vagina. Genitals very sensitive, cannot bear least touch. Menses appear too soon. Leucorrhoea during menses, soreness of anus. Ulcer in genitals.

PAGE 1142

Food

Aversion to meat. Cannot bear sight or thought of meat. At times, ravenous appetite and constant desire to drink.

Head

Sound of voice is intolerable. Pain as if brain were crushed. Periodical pain over left eye with numbness down right arm and aphasia. Occipital pains, leaden heaviness, worse looking intently at any object. Hair as if standing on head.

Heart

Palpitations felt in face. Large full and soft pulse. Pulse, drops every third beat. Pulse rapid, feeble and small. Shootings in region of heart. Shock in heart at night.

Kidneys

Atony of bladder, must wait a long time, before urine will pass or has to press so hard that anus protrudes. Cannot urinate without having bowels move at same time. Urine, red, violet, milky, copious, night and day, escapes from passing wind.

Limbs

Heavy, painful and weak. Tottering gait. Pain in Achilles tendon. Red swollen burning fingers and toes. Weak thighs. Stagger when walking from weakness of thighs and knees. Eczema of dorsum of hands. Cramps in the ball of thumb (right) when writing, goes off when moving it. Forearms heavy.

Liver

Ascites from cirrhosis of liver. Liver enlarged, sore.

Mouth

Aphthous mouth. Gums and glands swollen. Fetid breath. Sordes on teeth. Gums are swollen, bleeding, ulcerating. Dry. Tongue, bluish, heavy, stiff, hinders talking, shrunken or burnt looking. Deep ulcers on tongue.

Hard lumps in tongue. Teeth, worse acids and sweets. Lips, burn, heavy, bloated. Everything tastes sweet. Beer tastes like honey. Cancer of tongue, epithelioma, edges bluish-red. (Carb-ac.) Tongue, pale, swollen, dry, leathery, paralyzed.

Nose

Nosebleed with much sneezing.

Rectum

Involuntary stools or prolapse of rectum, on urinating or passing, flatus. Hemorrhoids most sensitive to all touch, even sheet of toilet paper is painful. Hemorrhoids during pregnancy, bluish, hot with violent stitches. Very sore hemorrhoids, better heat, protruding like a bunch of grapes. Anus sore during menses. Anal itching and prolapsed anus while urinating.

Sensations

Hair, as if drawn Upwards, as if standing on end. Brain: as if loose, beaten or torn to pieces, brain clasped by a hand and bruised and torn. Occiput as if filled with lead. Mouth as if glued up with mucus. As if some obstruction must be pulled out of throat. Burning as if under skin of coccyx. As if place was jammed in Achilles tendon. Deadness and numbness in forehead in fingers.

Skin

Papular and vesicular eruptions with great itching. (Rhus-t.) Bed-sores. Carbuncles. Foul-smelling ulcers on lower limbs. Eczema on back of hands. Ulcers throb on walking. Scarlet fever, livid with petechia, scanty eruption.

Sleep

Great drowsiness during day, which disappears with exercise. Sleeplessness before midnight. Before midnight, continued snoring, groaning tossing, talking and tendency to slide downwards in bed. Frequent and early waking, caused by a coldness that is felt in bed. Anxious dreams.

Stomach

Lack of stomach acids and fermentation of food. Stomach will neither tolerate nor digest food.

Temperature

Typhoid types of fever, septic fevers. Cold in bed in early morning. Cold limbs. Intense burning heat with aversion to covers. Heat without thirst. Hemorrhages. Restlessness. Involuntary discharges. Pulse rapid and feeble. Excessive prostration.

Throat

Dry with burning in chest. Attempt to swallow produces spasms and choking. Involuntary swallowing. Uvula swollen. Ulcers and false membrane. Edematous, dark, raw.

PAGE 1143

Vertigo

Vertigo, worse lying on right side, occiput heavy as if filled with lead. Vertigo worse moving eyes, slightly, lying on right side or on back.

Comments

Among the common features of the group Teste gives, Stupefying headache. Obscuration of sight and optical illusions. Whizzing noises in the ears and hardness of hearing. Nosebleed and loss of smell. Rough, cracked lips and foul breath. Scurvy of mouth. Paralysis of tongue. Loss of taste. Distended, sensitive abdomen, pricking, bruised pain in abdominal walls.

Serous, fetid diarrhea, not very painful. Involuntary stool. Throat pains. Paralysis of bladder. Excited sexual desires. Impotence. Hoarseness, spasmodic cough. Stitches about heart. Fever with stinging heat, frequent, small intermittent pulse, earthy or livid skin.

Like Nit-ac., Mur-ac. is a powerful antidote to Merc. and it meets conditions caused by Mercury and also similar conditions otherwise arising. Like other disinfectants, it causes as well as remedies rapid decomposition of tissues and dynamically cures low putrid conditions met with in disease.

The distinctive features of Mur-ac. are, Muscular prostration from blood-poisoning going on to paralysis, finally of brain or heart. Burning is a great feature in its symptomatology, as its escharotic powers might suggest ulcers, (especially their margins). Eruptions and hemorrhoids. Varicose veins, stomach and abdomen.

It sours the excretions and makes them acrid. Offensive secretions offensive breath and body smell. It is indicated in fevers of all kinds, exanthematous, typhoid, puerperal as well as diphtheria.

When these symptoms with the mental and parietic state are present. The mucous membranes are very dry, bleeding, cracked and ulcerated. Sordes on teeth. Burning and burning eruptions on lips. Hemorrhoids like a bunch of grapes which look purple and burn when touched.

Prolapse of rectum, while straining to pass water. Urination involuntary or difficult, there is straining and dribbling and the straining causes the rectum to prolapse, it may also cause involuntary stool.

This may be due to local conditions or it may be a consequence of a low state of health. Mur-ac. not only corresponds to low febrile states, it also meets many of their sequel. Deafness, otitis and glandular swellings about the ears often require Mur-ac. The tongue is shrunken and paralyzed. The parched, shrunken tongue is an indication in typhoid or other fevers. Mur-ac. has a marked action on the tongue. Cooper cured with it these cases:

(1) Man, 52, whose sister had died of cancer, had a hard, deep, warty ulcer, size of a small bean on under surface of tongue, left side with much surrounding hardness and little discharge.

(2) Tongue swollen, makes him talk thick, much ulcerated, especially right side is hard with swelling followed by lupoid ulcer on corresponding side of nose, had been going on ten months.)

Tendency "to slide down to the foot of the bed" was noted by Hahnemann and has been amply confirmed. It indicates an extremely low vital condition. The skin is much affected and is sensitive to the sun's rays, eczema solare and freckles. Black pocks. Blind boils frothy when touched.

Compare

- (1) Ph-ac., Ars., Bact.
- (2) In typhoid state Bry. has worse motion.
- (3) Rhus-t. - restlessness, better by motion, Rhus-t. has less debility.
- (4) Ph-ac. has less prostration is apathetic indifferent.
- (5) Mur-ac. taciturn.
- (6) Apis has blisters on tongue and it catches teeth when attempt is made to protrude it.
- (7) Ars. has scanty evacuations.
- (8) Bact. has besotted look tongue red on edges.
- (9) Bell. more active, hyperemia.
- (10) Kali-permang. - throat symptoms, edematous uvula.

PAGE 1144

Relations

Antidoted by: Carbonates of alkalies and earths in poisoning cases, to small doses: Camph., Bry. Teste says the surest antidote is Ip. It antidotes: Merc., Op. It cures the muscular weakness following the excessive use of Opium, (Hering). Follows well after: Bry. and Rhus-t. It follows well: Bry., Merc. Rhus-t.

SOURCES

Musa sapientum

(banana)

Pharmacy

Musa. Musa sapientum. Banana. N. O. Palmaceae. Tincture of the flowers. Historical dose: Tincture and all potencies.

Herbal

C. Campbell commends bananas baked in their skins as an ideal food or even a "cure," for brain workers, nervous persons and anemic. A syrup made with the juice of bananas extracted by heat is commended as a remedy in chronic bronchitis with insufficient expectoration and marked dyspnea.

Improvement and ultimate cure of profusely bleeding hemorrhoids in a case of Clarke's which had resisted every kind of treatment. **Planets:** Venus.

Homeopathic

Jenner proved the tincture of Banana flowers and produced costiveness and sensation of fullness about anus in a person of regular habits and he cured with it a bad case of bleeding hemorrhoids. Musa also produced pain in the bladder and passage of mucus with urine.

Clinical

Constipation. Cystitis. Hemorrhoids (bleeding).

Symptoms

Abdomen

Rumbling in stomach and bowels with expulsion of flatus.

Head

Dull, heavy, frontal headache.

Kidneys

Discharge of large quantities of mucus with the urine with dull, aching pain in bladder region.

Mouth

Dry, rough and extremely astringent taste and feeling in mouth tongue and fauces, but afterwards an increase of saliva.

Rectum

Constipation (in a person of very regular habits) with feeling of fullness about anus.

SOURCES

Clarke.

Muscarinum

Pharmacy

Muscin. Muscarinum. Muscarine is the alkaloid of *Agaricus muscarius*. Historical dose: All potencies.

History

Muscarinum has much power over secretions. **Planets:** Mercury.

Homeopathic

Increasing the lachrymal, salivary, hepatic, secretions etc., but diminishing kidney, probably neurotic in origin, stimulating the terminal tissues of the secretory nerves of all these structures. Hence salivation, lachrymation and excessive perspiration.

Clinical

Lachrymation. Perspiration. Salivation.

SOURCES

Boericke.

Brassica campestris

Mustard

(bach flower remedy)

Pharmacy

Mustard. *Sinapis arvensis*. The flower heads are picked above any seed pods and boiled for half an hour. The water is strained and prepared as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

The remedy Mustard belongs to Bach's group Lack of Interest in Present Circumstances, along with the remedies of Clematis, Honeysuckle, Wild Rose, Olive, White Chestnut and Chestnut Bud. **Planets:** Moon.

Homeopathic

Mustard treats states of depression and gloom. Depression may lead to lowered vitality, lethargy.

PAGE 1145

Chronic fatigue and appetite disturbances (Chicory, Crab Apple), resulting in either weight loss or weight gain, should solace be found in eating and constipation (Chicory, Willow). There may also be sleeping disturbances (Pine, White Chestnut), disinterest in physical recreation and general decline in healthful interests and habits (see Wild Oat).

A head injury can be a mechanical reason for the appearance of the Mustard state. Nerve damage or misalignment of the skull plates along fissures. This may dampen consciousness which may not be able to receive as much brightness and light since the accident, (Hornbeam, Scleranthus, Wild Oat).

Symptoms

MIND

In the Mustard state, the mind is overshadowed by darkness and gloom and there may be the sensation of a weight or downward pull that depresses the person as whole. Bach describes this state as a sensation of a dark cloud which descends, sometimes for inexplicable reasons. The mind actually appears gloomy and the person cheers up in the warm, bright rays of the sun. People who crave light and sunshine are often in need of this remedy.

The depressive character of this state makes the person turn inward. It takes effort to perk up and lift oneself out of this state. One may appear as absent-minded, introverted, or disinterested in present circumstances. Life does not appeal, tasks and interaction with people seem to give no incentive or joy.

In depressive disorders, this remedy helps to bring about cure. In retardation, Mustard can help alleviate withdrawal and joyless, (Hornbeam, Wild Oat). Depression and gloom may bring the emotions of sadness, regret, boredom, self-pity, weepy and a sense of meaninglessness. One may be morose and ill-tempered. In severe cases, there may a sense of desolation, of loneliness.

SOURCES

Bach.

Bacillus mutabile (bach)

Pharmacy

Mut. Mutabile bacillus. A Bowel nosode. Historical dose: All potencies.

History

This Mutabile bacillus is so named because it mutates almost as soon as it is sub-cultured from a non-lactose to a lactose fermenter and is of interest mainly from a bacteriological point of view as the Bacillus Mutabile is an intermediary form between the B. Coli and the true non-lactose fermenting type. **Planets:** Mercury.

Homeopathic

This nosode is likely to be of value in treatment where there is alternation of symptoms. When the skin eruptions, alternate with asthmatic symptoms, (Calad.) It has also been found very useful in treatment of cases of cystitis and malnutrition. Skin has a sallow color.

Its associated remedy is Pulsatilla and this nosode Mutabile (Bach) is likely to be of value in treatment where skin eruption alternates with asthmatic symptoms. (Calad.)

Clinical

Asthma. Cystitis. Eruptions. Malnutrition.

Compare

(1) Puls. Calad.

Mygale lasiodora

(black cuban spider)

Pharmacy

Mygal. Mygale lasiodora. Mygale avicularia. Aranea avicularia. Black Cuban spider. N. O. Arachnida. Tincture of living spider. Historical dose: All potencies, third to thirtieth potency.

History

The chief clinical use of this spider poison is in chorea. The pathogenetic data of Mygale consist of a proving by a young lady and the effect of a bite on a man. In the latter case inflammation ensued which spread along the lymphatics, violet and afterwards green discoloration, chill followed by fever, dry mouth and great thirst, trembling, dyspnea, despondency and fear of death.

PAGE 1146

The prover developed sadness, dry mouth, nausea with great palpitation, trembling, dim sight and great general weakness increased flow of urine, hot, scalding with stinging in urethra. This last symptom has led to the successful use of Myg. in gonorrhoea, chordee and syphilis.

The "trembling" observed in the man suggests its use in nervous cases, but the sphere of Myg. in chorea has been developed from the clinical side. In the cases cured with it, twitching and contractions of facial muscles have been very prominent, convulsive movements of head to right side, twitching of one side of body, mostly right. The twitchings may be so violent as to prevent walking. **Planets:** Moon.

Homeopathic

Mygale is for chorea, especially of the upper parts. Constant motion of whole body. Limbs are quiet during sleep, movements worse in morning. Twitchings and contraction of facial muscles and head, which is jerked to the right side. Convulsive uncontrollable movements of arms and legs. Sexual symptoms are important. Violent erections, chordee.

Weakness, palpitations, nervousness, fear like other spider preparations. Mouth and eyes open in rapid succession. Words are jerked out in the effort to talk. Nausea with palpitations and dim vision. Unsteady gait, limbs drag while walking. Intense red streaks along Lymphatics. Nausea with strong palpitation should be an indication.

Clinical

Chordee. Chorea. Gonorrhoea.

Modalities

Better during sleep. Worse in morning. Worse by eating. Worse sitting, (legs in constant motion).

Symptoms

MIND

Delirious, talking about his business and was restless all night. Sad, despondent with anxious expression. Fear of death.

Back

Pain in back extending around to front.

Ears

Acute aching in right ear.

Eyes

Nausea with dimness of sight, weakness, palpitation.

Face

Face flushed. Twitching of facial muscles. Mouth and eyes open in rapid succession. Hot and flushed.

Food

Excessive thirst. Aversion to food, no appetite whatever for dinner took nothing until tea-time. Better after eating.

Head

Head jerked to one side.

Heart

Strong palpitation, accompanying nausea and dimness of sight and general weakness.

Pulse 130.

Limbs

Unsteady gait. Constant motion of whole body. Tremulous. Intense redness in streaks, following course of lymphatics. Twitching of limbs. Restless hands. Convulsive, uncontrollable movements of arms and legs. Limbs drag while walking.

Lungs

Difficult breathing. Words jerked out when effort is made to talk.

Male

Violent erections. Chordee. (Kali brom., Camph.) Protracted gonorrhoea. Syphilis.

Mouth

Tongue dry and parched, put out with difficulty. Grating of teeth at night.

Sleep

Restless all night with ridiculous dreams.

Stomach

Nausea with strong palpitations, dim sight.

Temperature

Severe chill lasting thirty minutes, then fever with excessive thirst and trembling of limbs.

Urine

Urine is increased, stinging in urethra, burning hot, scalding.

Myosotis arvensis

(forget-me-not)

Pharmacy

Myos-s. Forget-me-not. Myosotis symphytifolia. Black-root. N. O. Boraginaceae. Marshy places in Indiana. Tincture of fresh plant. Historical dose: Tincture and all potencies, tincture to second potency.

PAGE 1147

History

Hale has collected some clinical experiences with Myosotis which differs from Myosotis Palustris in having large Symphytum-like leaves, showing it to have a strong affinity for the respiratory organs. **Planets:** Mercury.

Homeopathic

Myos-s. affects the left lower lung. Copious expectoration, emaciation, night-sweat. During the cough there was gagging or vomiting, cough worse during or immediately after eating, pain in left side (lower lung) not worse any position, but worse while coughing and sensitive to percussion. Profuse sweat day and night.

Chronic bronchitis and tuberculosis. Night-sweats. Cough with profuse muco-purulent expectoration, gagging and vomiting during cough, worse while or after eating. Bronchorrhea. Pain in left lung (lower), painful while coughing and sensitive to percussion.

Clinical

Bronchitis, chronic. Coughs. Lung disorders.

Compare

Myrica cerifera

(bayberry)

Pharmacy

Myric. Myrica cerifera. Bayberry. Wax Myrtle. Candleberry. N. O. Myricaceae. Tincture of fresh bark of root. Historical dose: Tincture and all potencies, tincture to third potency.

Herbal

According to Hale, though Myrica was known to old herbalist, it was Samuel Thomson of the Lobelia fame, who established its reputation. Thomson had a crude pathology of his own which served him to some extent.

Myrica, formed the chief ingredient in Thomson's once famous "Composition powder." One of his ideas was that the digestive tract was liable to become fouled with a copious mucous lining.

This he called "canker" and he stated of Myrica that it "has the power of disengaging the thick, viscid secretions of the mucous membrane of the stomach." **Planets:** Jupiter.

Homeopathic

The provings of Myric. confirm Thomson's observation, that it produced abundant secretion of tenacious mucus in the throat, difficult to detach. This may be considered one of the keynote of the remedy.

Myric. has a marked action on the liver and heart. Liver disorders with jaundice and mucous membranes. Combined liver and heart disorders. Mucous discharges are offensive, tenacious and difficult to detach. Persistent sleeplessness.

Clinical

Achilles tendon, pain. Catarrh. Conjunctivitis. **Heart** disorders. Jaundice.

Leucorrhoea. Liver, disorders. Pharynx disorders. Throat, sore, Urticaria.

Modalities

Better from open air. Better eating, breakfast. Worse from warmth of bed. Worse after sleep. Worse by motion. Worse in morning. Worse after breakfast.

Symptoms

MIND

Gloomy, despondent and dejected. Irritable, indifferent. Cannot concentrate mind on any subject. Dull and drowsy state. Exhilaration, then depression. Exhilaration, then excitement preventing sleep with restlessness.

Abdomen

Dull pain in the liver with pain under either scapulae. Fullness in the stomach and abdomen. Fullness and burning in gall-bladder. Flatus is passed continuously while walking.

Back

Pain under scapulae with liver complaints.

Eyes

Very red eyelids. Yellow sclerotica.

Face

Yellow, jaundiced. Itching and stinging. Creeping sensation.

Female

Leucorrhoea, acrid, fetid, thick, yellow, long lasting.

Food

Desire for sour things. Strong desire for acids. Imagines he cannot eat, the taste is so foul. Loss of appetite, loathing of food.

PAGE 1148

Head

Scalp feels tight. Headache with drowsiness, yellow sclerotica, aching in eyeballs. Pressure in vertex and forehead. Dull, heavy aching in temples and forehead on waking in the morning. Pain and stiffness in nape of neck.

Heart

Pulse, slow, feeble, irregular

Kidneys

Beer colored urine with yellowish froth. Dark, frothy, scanty, high-colored, biliary.

Limbs

Staggering gait. Pain under shoulder-blades and back of neck in all muscles in hollow of right foot.

Liver

Liver disorders with heart complaints with urticaria with jaundice. Jaundice of infants. Cancer of the liver with bronze-yellow skin.

Mouth

Dry, water relieves only partially. Tenacious, thick nauseous mucus in mouth and throat. Taste bitter and nauseous with offensive breath. Tongue, thick yellowish, dark. Tongue furred with bad taste in mouth and nausea. Tender, spongy and bleeding gums. (Merc.)

Rectum

Urging to stools but passes only great amount of flatus. Stools, foul, pasty of gray color. Adhesive mucus in stools. Scanty, yellow, frothy urine. Constant discharge of flatus when walking. Loose, light-colored stool, ash-colored and destitute of bile.

Skin

Yellow and itching. Jaundice. Creeping sensation, as of insects.

Sleep

Disturbed, bad dreams and frequent waking insomnia. Drowsiness. Ugly dreams.

Stomach

Sinking in epigastrium, worse eating, better fast walking. Complete loss of appetite, but with a feeling of fullness in the stomach after a hearty meal. Weak, sinking feeling in the epigastrium, approaching nausea increased after eating, relieved by rapid walking.

Throat

Constricted and rough feeling with a constant desire to swallow. Stringy mucus, detached with difficulty.

Comments

Profuse catarrhal discharges of old standing of all kinds may require Myrica, especially if offensive, tenacious and difficult to detach. Leucorrhoea, bronchorrhea intestinal catarrh, pharyngeal catarrh, stomatitis. Hale says as a local application in diphtheria it rivals Guaiacum. Perhaps allied to the catarrhal state of the intestinal tract is the liver disorder set up by the drug.

These are the distinctive features: Aching pain in liver, fullness, drowsiness, despondency, dull, heavy headache, worse in morning, dirty, lids abnormally red, weakness, ash-colored stools, slow pulse, pains under scapula (worse left), muscular soreness, aching in limbs.

Jaundice of all degrees. Dirty, yellow tongue. Yellowish, white of eyes. There is also the nasal obstruction, post-nasal catarrh which often accompanies disordered liver. It is in

cases attended with jaundice that Myrica has had the greatest success, cases of black jaundice having been cured with it and it meet the itching of jaundice as well.

Urticaria is not infrequently found associated with liver disorders and Douglass cured with it this case: Miss O., 18, complained of itching and stinging on face, neck, right forearm and leg. Sensation as if insects crawling on face, must brush them away. Skin yellowish tongue, thickly coated yellow. Felt sick all over and rather irritable.

Myric. 6x every two hours improved at once and cured in ten days.

Burnett has used Myrica with excellent effect When in attended with jaundice. He has given material doses. It has generally been given in the lower potencies.

Myric. has also an action on the heart and is thus closely related to Digitalis in several points. There are sharp pains about the heart with increased, audible pulsations, but slow pulse. The heart pains are worse lying on left side. Pains in left chest and under scapula (especially left) and pain in middle lobe of right lung.

Myristica sebifera

(brazilian ucuba)

Pharmacy

Myris. Myristica sebifera. Brazilian ucuba. N. O. Myristicaceae. Trituration of red, acrid, very poisonous gum obtained by incising bark. Historical dose: Tincture and all potencies.

History

Myristica sebifera belongs to the same order as the nutmeg-tree, Nux moschata. Our preparation of the latter is made from the powdered nut. Mure proved and introduced Myris. and in the proving occurs this symptoms: "Pain in the finger-nails with swelling of the phalanges." This, apparently, led to its use in whitlow in which many successes have been reported by Chancerel Pere and others.

Spanish homeopaths have used Myris. extensively. Olive of Gros, has reported cures of scrofulous osteitis, callous ulcers, phlegmonous erysipelas. **Planets:** Mars, Saturn.

Homeopathic

Myris. is a remedy of great anti-septic powers. Inflammation of skin, cellular tissue and periosteum. Traumatic infections. Parotiditis. Fistulas. Carbuncles. Specific action in

panaritium. Pain in the finger nails with swelling of the phalanges. Hands are stiff, as if from squeezing something a long time.

Coppery taste and burning in throat. Tongue white and cracked. Phlegmonous inflammations.

Hastens suppuration and shortens its duration. Often does away with use of the knife. Inflammation of middle ear, suppurative stage. Fistula in ano. Acts more powerfully often than Hepar or Silica.

Clinical

Elephantiasis Arabum. Joints, disorders. Suppuration. Ulceration. Whitlow.

Symptoms

MIND

Indifferent and careless. Cannot concentrate his thoughts. Vexed by a song which keeps running in his head.

Abdomen

Sensation as if a foreign body, as large as a walnut, has lodged in left inguinal region, all forenoon.

Back

Pinching, right side of neck.

Chest

Hard pressure during night on both sides of chest, not affecting breathing.

Face

Very red face.

Food

Thirst.

Head

Head heavy. Pain with pressure outwards. Headache in frontal eminence, at noon, better in open air.

Kidneys

Less frequent urination, urine scanty although he drinks much, reddish yellow.

Limbs

Hands stiff as if from squeezing something for long time. Pain in left hand. Pain in hands worse when they touch each other. Formication on left thumb-joint. Pain in finger-nails with swelling of phalanges. Pinching pain in right calf.

Mouth

Tongue white and cracked. Whole mouth with tonsils and upper pharynx painful and sensitive to contact, every mouthful seems to wound the parts when chewed or swallowed. Palate insensible with loss of taste. Taste bitter of copper, which excites spitting of blood.

Rectum

Stools mixed with yellow mucus.

Skin

Two pimples on left cheek, quickly disappearing.

Sleep

Cannot get to sleep, evening in bed. Restless sleep with dreams about business, about disputes, unconnected, about houses being built commencing with top stories. Violent starting in sleep.

PAGE 1150

Throat

Burning at bottom of throat. Constriction at isthmus of pharynx, this pain increases progressively. Difficulty in swallowing saliva.

Vertigo

Dizziness in morning. Vertigo, right to left on waking in morning.

Comments

Cartier gives his two experiences of his own with Myris. (I) A young girl has been three months with her leg in a splint for inflammation of the knee and doughy swelling of entire limb.

Cartier came to the conclusion that there was pus in the joint. Myris. 3c, five drops three times a day, was given for three months. Five months later the swelling and inflammation were all gone, walking gave no pain, but the joint was ankylosed.

(2) An old man, 87, was seized with sudden arthritis of the shoulder with intense fever. Allopaths first diagnosed it as osteomyelitis, but later a surgeon was called in who pronounced it an hands of eminent old-school authorities in Paris, who said nothing could be done, Cartier was sent for and found, the shoulder quite full of pus and a particularly painful spot on the scapula, at a point where the bone was said by one authority to be attacked.

Myris. 3c, five drops three times a day, was given in ten days there was no longer suppuration, the size of the joint has become normal and the tender spot was gone. Myris. has evidently great power over the suppurative process as affecting joints. Hansen says Kippax regards it as the principal remedy in elephantiasis arabum.

Myrrha

(gum myrrh)

Pharmacy

Myrrh. Commiphora myrrha. Commiphora molmol. N. O. Burseraceae. Middle East and Africa. Tincture from bush or small tree. Historical dose: Tincture and all potencies, third potency.

Herbal

Myrrh, highly prized for its bitter cleansing perfume. It was also part of the emballing mixtures of the ancient Egyptians. The aromatic pale yellow, gum resin seeps out from fissures. The dry powdered resin is often added to tooth formulas. **Planets:** Mercury.

Homeopathic

Myrrh is a stimulant, tonic and anti-septic. The tincture is used for sore throats, ulcers and thrush. Mouthwash for infected gums or ulcerated tongue. Tonsillitis with large and infected glands. Difficult expectoration. Dragging and weight sensation in the female pelvis. Leucorrhoea. Suppressed menses in anemic young girls.

Myrrh is a remedy for enfeebled states with excessive mucus discharges. Chronic gastritis and dyspepsia. Muscular debility. Respiratory weakness with difficult expectoration. Gas and frequent mucous stools.

Clinical

Abscess. Amenorrhea. Asthma. Bronchitis. Colds. Constipation. Coughs. Gum disease. Mouth disorders. Pharyngitis. Throat, sore. Thrush. Tonsillitis. Ulcers.

Symptoms

Mouth

Abscess. pyorrhea. Spongy and bleeding gums. Salivation. Sores in the mouth. Inflamed and sore gums. Pale tongue.

Throat

Sore throats. Pharyngitis. Infected and enlarged tonsils. Abscess glands.

Comments

Large doses of Myrrh quicken the pulse, raise the temperature, cause gastric burning, great sweating, prostration, vomiting and purgation may follow.

SOURCES

Clarke.

Myrtus cheken

Pharmacy

Myrt-ch. Myrtus cheken. Eugenia cheken. Historical dose: Tincture and all potencies.

History

Planets: Mercury.

PAGE 1151

Homeopathic

Myrtus cheken has chronic bronchitis with dense, yellowish sputum, difficult to detach. Copious expectoration keeps patient distressed and coughing.

SOURCES

Boericke.

Myrtus communis

(myrtle)

Pharmacy

Myrt-c. Myrtus communis. Myrtle. Closely allied to Granatum, the Pomegranate tree. N. O. Myrtaceae. Tincture of fresh shoots and leaves. Tincture of fresh flowering shoots and leaves. Historical dose: Tincture and all potencies, third potency.

Herbal

The leaves contain Myrtol and active anti-septic. Myrt-c. is an unproved remedy, the symptoms being entirely clinical, Hering gives an account of it. **Planets:** Mercury.

Homeopathic

Myrtus communis has a very powerful action on the left lung, especially the upper part. It is to the upper left lung what Ox-ac. is to the lower. Chest pains, as found often in

tuberculosis patients, call for this remedy. Incipient tuberculosis. Nerve sedative and stimulant to mucous membranes, bronchitis, cystitis and pyelitis.

Clinical

Catarrhal fevers. Chest, pain. Coryza. Cough. Tuberculosis.

Modalities

Worse from changes of atmosphere.

Symptoms

Breasts

Stitching pain in left breast, running through to scapula. (Anis., Ther., Pix.) Dry, hollow cough with tickling in chest. Worse in the morning.

Chest

Pain in chest, acute, pressing, cough with tightness. Pain in upper part of left chest, through to shoulder, worse taking a deep breath and making a strong motion. Stitching in left apex straight through to scapula, worse breathing, yawning, coughing. Burning in left chest with throbbing, aching, tickling. Hepatization of lungs. Hemoptysis. Tuberculosis from maltreated syphilis.

Lungs

Dry, hollow cough from tickling in upper anterior lobes of lungs, worse morning, better evening, great lassitude in afternoon. Cough, coryza and catarrhal fever setting in with every atmospheric change.

Nose

Coryza with cough.

Temperature

Catarrhal fevers with pain in elbow and knee-joints with dry, hollow cough, caused by tickling in upper and front part of lungs, especially in morning, better evening, accompanied by lassitude in afternoon.

Throat

Dryness in throat, pains in throat and chest with expectoration of blood.

Comments

This is a Myrt-c. keynote: Pain in upper left lung going right through from the front to the left scapula. Cases of tuberculosis, hemoptysis, hepatization, lung syphilis having this symptom present have been cured with Myrt-c. The pain is mostly stitching, but may be throbbing, aching or burning. It is worse in morning, better evening, worse by breathing, yawning, coughing. The cough is dry, hollow, excited by a tickling in upper anterior lobes.

Hering has cured catarrhal fever with tickling cough worse morning and better evening with great lassitude in afternoon. This last symptom is important. So is evening better of cough and of tickling in lungs. Worse from changes of atmosphere. Every atmospheric change causes cough, coryza and catarrhal fever.

PAGE 1152

Nabalus serpentarius

(white lettuce)

Pharmacy

Nabal. Nabalus serpentaria. Prenanthes serpentaria. White Lettuce. Rattlesnake Root. N. O. Composite, (suborder chicoraceae). Tincture of whole fresh plant. Historical dose: Tincture and all potencies.

Herbal

Nabalus is a Native American plant much used in domestic practice as a remedy for diarrhea and dysentery. There is only one proving with 1c and 3c dilutions by a married woman, age 19. The symptoms resemble somewhat those of its botanical relative, Lactuca Sativa, especially in constipation and somnolence.

Some curious symptoms were the susceptibility to magnetism and to the personal aura of others. Susceptibility to magnetic contact and to the personal aura of her friends. **Planets:** Moon.

Homeopathic

Nabalus is similar to Lactuca with chronic diarrhea, worse after eating, at nights and towards the morning. Pain in the abdomen and rectum, with emaciation. Constipation and somnolence, susceptible to aura of others.

Dyspepsia with acid burning eructation. craving for acid food. Leucorrhoea with throbbing in uterus. Heaviness, as if blood-vessels filled with lead, body heavy, she leans about. Constipation. Ophthalmia. Irritability of temper and occipital pain, worse in the evening. Dull pains in joints and numbness on waking.

Symptoms

MIND

Continued melancholy. Depression followed by unusual buoyancy. Irritability of temper and occipital pain.

Eyes

Great and lasting irritation of eyelids and margins, the margins sting and smart and are slightly swollen. *Sight weak*.

Female

Sharp throbbing in uterus. White, jelly-like discharge from vagina with weakness.

Menses delayed.

Food

Appetite and thirst diminished. Desire for lemons.

Head

Tipsy sensation. Deep-seated frontal pains behind right eye-ball and over eye. Headache with irritability and irritation of eyes, throat and skin. Occipital pains with stiffness in neck, worse evenings.

Kidneys

Sharp pain (transient) in right kidney. Urine diminished.

Nose

Right nostril sore. Smell and taste slightly impaired.

Rectum

Constipation, only three stools in twelve days, hard, painful, followed by prostration.

Skin

Subcutaneous glands irritated and swollen, esp., behind right ear and in neck. Prickling as from suppressed perspiration, itching, general.

Sleep

Somnolence. Night sleep prolonged afterwards lighter and more broken.

Stomach

Burning belchings.

Temperature

Chilliness not better by heat of fire. No febrile reaction except occasional flushes over head and face.

Throat

Throat sore, tickling and scraping (left), worse lying down and swallowing saliva, then both eyes, worse left.

SOURCES

Clarke.

Naja tripudians

(cobra venom)

Pharmacy

Naja. Naja tripudians. Cobra. Cobra di Capello. N. O. Elapide. The hooded snake of Hindustan. Tincture of the fresh virus. Trituration of sugar of milk saturated with fresh virus. Historical dose: All potencies, sixth to thirtieth potency.

History

The poison of the deadly cobra has been used from ancient times, says P. C. Majumdar, by Indian practitioners in many nervous and blood diseases. Naja is not a hemorrhagic or septic, medicine like Lachesis and Crotalus.

Naja produces a typical bulbar paralysis. Causes no hemorrhage but only edema, hence the victims of this reptile frequently bear very little sign of external injury, a small scratch or puncture being the only indication where the fangs have worked their havoc.

PAGE 1153

The tissue lying beneath the wound is colored dark purple and a large quantity of viscid blood-like fluid collects in the vicinity of the wound. An intense burning pain at the spot bitten is the first symptom.

In man there follows an interval before fresh symptoms occur. The average is about an hour. Once developed, the symptoms follow a rapid course. A feeling of intoxication is produced, followed by a loss of power over the limbs.

The patient is loss of speech, swallowing and the control over the movement of the lips. The saliva is ejected in large quantities, the respiration gradually becomes slower and slower and at length ceases. Conscious all time. **Planets:** Sun, Moon.

Homeopathic

The action of *Naja tripudians* settles around the heart, hypertrophy and valvular diseases. Affects medulla and cerebellum, respiration, throat, ovary. Marked surging of blood upwards, marked dyspnea inability to lie on left side.

Heart enlarged. Organs seem to be drawn together. Very susceptible to cold.

Concomitant with the heart symptoms are pain in forehead and temples. Diseases primarily depending upon degeneration of motor cells. Control of sphincters lost. Affections of heart with paucity of symptoms.

Nervous, excited and tremulous with heart disorders often reflex. Feeling of intoxication, loss of power over limbs, over sphincters, unable to speak. Swooning fits. Sensation of wasting away. Parts seem drawn together. Constrictions in chest, throat etc. Burnings as of hot irons. Screwed up sensation. Collapse. Sepsis. Insensible right side. Left sided symptoms.

Clinical

Angina pectoris. Asthma. Dysmenorrhea. Esophagus, stricture. Hay fever. Headache.

Heart disorders. Ovaries disorders. Plague. Spinal irritation. Throat, sore.

Causations

Ill effects of grief.

Modalities

Better from walking or riding in open air, sneezing, smoking. Worse from use of stimulants after sleep. Great relief of pain and breathing by lying on right side. Worse after menses, cold air, drafts. Worse from pressure of clothes, alcohol touch. Worse by riding in carriage, at 3 p.m. (headache).

Symptoms

MIND

Wandering of the mind. Broods constantly over imaginary troubles and makes himself wretched. Depressed with distress about sexual organs, better in the evening. As if everything were done wrong and could not be rectified. Stupid and confused feeling.

Suicidal insanity, (Aur.) Aversion to talking. Dreads to be left alone. Fear of rain. Blurred speech. Melancholy. Very forgetful, absent-minded. Affected easily by wine or alcoholic drinks. Consciousness almost lost. Insensible and speechless. Comatose.

Abdomen

Aching in loins. Cutting, twisting, griping pains. Much flatulence with rumbling and colicky pains. Flatulence during day, at night with pain. Frequent cutting in umbilical region and small of back in afternoon, then profuse and sudden leucorrhoea.

Back

Rheumatic pains in neck and back. Cutting, aching in nape. Shooting from inner and upper angle of left scapula to front of chest. Tired feeling in thoracic vertebra all day with burning and exhaustion. Pain between the shoulders as if in spine afterwards involving scapula in morning on waking, worse moving arms. Dragging sensation in spine between shoulders. Acute pain in small of back, gnawing pain.

Breasts

Milk decreased, next day returned freely afterwards scanty. Occasional pain top of both breasts.

Chest

Dry or empty feeling in left lung. Ribs feel broken. Oppressive weight on chest, as if a hot iron had been run in. Uneasiness and dull, heavy pain in chest. Sharp pains, worse on deep inspiration.

Asthmatic constriction of chest, cannot expand lungs, followed by mucous expectoration. Heavy pain over lower half of right chest with stabbing on deep inspiration, cannot cough for the stabbing, worse lying left side, better lying on affected side. Tenderness over sternum and in throat.

PAGE 1154

Ears

Illusions of hearing, otalgia. Chronic otorrhea, black discharges, smells like herring brine. Noises in ears. Whizzing in left, ear with insipid, almost nauseous taste in mouth. Noise as of a mill, waking him in morning.

Eyes

Fixed and staring, wide open and insensible to light. Ptosis of both lids. Heaviness in eyelids. Loss of the sense of vision. Hot pains at back of eyeballs. Pupils dilated. Lids swollen in morning.

Female

Pain in left groin, especially in post-operative cases, seems to be drawn to heart. Neuralgia of left ovary. Crampy pain in left ovary. Aching in left ovary with pains in heart, come on a week before menses, grow worse until menses appear, then easier until next month.

Food

Thirsty. Craving for stimulants. Loss of appetite. Stimulants aggravates the sufferings.

Head

Pain in forehead and temples with heart symptoms. Pain in left temple and in left orbital region, extending to occiput with nausea and vomiting. Entire head feels hollow. As of a blow on occiput. Vertex sensitive to cold. Headaches after cessation of menses. Confusion and dullness in head in morning. Very severe headache with intense depression. Constriction across forehead. Sensation as if brain of forehead was loose. Severe throbbing and aching in temples. Headache supervening on cessation of menses. Neuralgic headache extending backwards from orbital region. Aching in vertex with cold feet. Shooting up occiput. Feeling as of a blow from behind on head and neck. Sensitiveness of scalp. Hair falls off the vertex.

Heart

Heart lesions. (Spong., Laur.) Hypertrophy, weakness. Valvular disorders. Visible palpitations. Dragging and anxiety in precordia. Feeling of weight on heart. Stitching pain in region of heart. Angina pains extending to nape of neck, left shoulder and arm with anxiety and fear of death. With the heart symptoms pain in forehead and temples. Acute and chronic septic endocarditis. Damaged heart after infectious diseases. Marked symptoms of low tension. (Elaps, Vip.) Chronic nervous palpitations, worse after preaching. Blood pressure low. Threatened paralysis of heart, body cold.

Kidneys

Uneasiness and pressure in bladder. Urine deposits red sediment, mixed with mucus. Urine of deep straw color. Urine loaded with gravel and mucus.

Limbs

Sudden loss of strength in limbs. Rheumatic pains in limbs. Cramps in shoulders, nape or thighs. Numb left arm. Violent racking in marrow of thighs. Puffy or sweating hands and feet with cough. Acute pain under the left thumb nail running up the arm. Drawing, lacerating, worse motion. Aching in ankles, lower part of thighs, wrists and shoulder-joints, on waking.

Lungs

Breathing very slow, shallow and scarcely perceptible, labored and difficult, gasping for breath. Cardiac asthma or cough. Puffing breathing. Asthma preceded by coryza worse lying, better sitting up. Asthmatic constriction in chest, evenings. Suffocative spells after sleeping. (Lach.) Irritating, dry cough from sticky mucus and saliva. Cough with tightness and fullness in larynx. Hoarseness, short, hoarse cough. Dry, hacking cough with blood-spitting. Expectoration of whitish viscid mucus in morning on waking. Spitting of blood, which had no tendency to coagulate.

Male

Increased sexual desire. Nocturnal emissions. Peculiar distress, great desire, but no physical power with depression of mind.

Stinging, somewhat burning pain along right side of penis, immediately under skin, at night in bed and in morning after rising. Instinct and power excited. Desire on going to bed with little physical power with frequent waking, vivid imaginations, painful state of mind involuntary emissions, then prostration and distress.

PAGE 1155

Mouth

Wide open, flow of saliva. Tongue cold. Loss of speech. Tongue coated thick yellow, white, dry, no thirst. Ulcers on frenum. Great dryness of the mouth. Foaming at mouth. Taste insipid, bitter, sour, metallic.

Nose

Hay fever with dry larynx. Hay-asthma. Flow of water from nose, then intense sneezing which better the breathing.

Pulse

Irregular in force. Pulse slow, up to 45, irregular, weak, tremulous, Pulse changes force.

Rectum

Sudden urging to stool. Bilious diarrhea. Constipation. Feeling of a large stool which when voided was small. Urging always sudden, whether followed by diarrhea or not. Sudden urging, then small bilious stool. Heat in anal region with itching smarting at anus. Diarrhea with pain in abdomen, profuse, sudden, slimy, white or green, bilious.

Sensations

Screwed-up sensations and crampy pains. As if head screwed together, as if heart and ovary were drawn up together, crampy pains in left ovary, pains in temple and ovarian regions. Pain from heart to scapula. Sensation as of a hair in larynx, pain as from needles in tonsil. The left side is predominantly affected.

Skin

Itching scars. Creeping, itching and tingling sensation in skin. Skin swollen, mottled and of dark purple, livid color. Large pimples on inflamed base. Small white blisters on inflamed base with much itching. Gangrene. Boil-like swelling on back of middle phalanx of right little finger. Painful chilblains on feet.

Pimple: on upper lip, on left ala nasi, on inflamed base, on tip of nose sore in consequence, painful on brow. White itching blisters on inflamed base, on neck, nose and body in afternoon.

Sleep

Deep comatose with stertorous breathing. Profound like a log, a typical reptilian state. Yawning, great sleepiness. Restless, disturbed sleep. Sleepiness in evening and weakness. Dozing and moaning. Vivid dreams. Long and vivid dreams, little recollection of the subjects. A vivid dreamy night, affairs of the day recalled with additions and new plans for the morrow. Dreams of murders, suicides, fires, etc.

Stomach

Acidity in stomach. Belchings tasting like barley water or hot, foul. Belchings, heartburn. Nausea with faint feeling, vomiting. Uneasy, disagreeable feeling in stomach, as from indigestion, pressure as from stones after a meal.

Temperature

Body cold and collapsed. Limbs very cold, icy coldness of feet. Burning heat in face. Feels very uncomfortable, hot and feverish. Free perspiration. Heat, but he refused water, heat with prostration with discomfort, dry lips and tender, hot mouth. Burning of ear. Flushes of heat in face at different times of day, worse left side. Head hot and full of blood and much sweat in palms. General sweat, cold, clammy.

Throat

Dryness and constriction of throat and fauces. Dark red color of the fauces. Redness of left side in morning with pain on swallowing. Irritation and tickling in larynx and trachea. Much mucus in throat. Grasping at throat with sense of choking. Stricture of esophagus, swallowing difficult or impossible. As a lump in throat. Roughness and scraping in throat. Soreness and pricking in left side of throat. Shooting in left tonsil.

Vertigo

Vertigo, lasting a short time, followed by astounding pain in right side of head.

Comments

Naja was introduced into homeopathy by Russell and Stokes, who made the first provings along with some forty other provers including Gillow, Pope and Drysdale.

PAGE 1156

It is rather remarkable that with so many able provers Naja should not have attained anything approaching the importance occupied by Lachesis. Nash suggests this may be due to the fact that many of the provings of Lach. were made with the 30c potency, while those of Naja were with low potencies.

Majumdar had no success with Naja until he obtained fresh virus from the snake charmers and made potencies of that. The cobras are the snake they charm. Previously the Naja used by Indian homeopaths had been re-imported into India from England in the form of potencies.

Deane in his experience in the plague epidemic of 1899-1900 found Naja prepared from the fresh venom more efficacious than Lachesis.

The affinity of Naja is for the medulla oblongata and cerebellum. The "hot-iron" symptom and weight on the chest should be especially noted.

Majumdar relates this case: A young woman suffering from a heart affection had oppression of chest amounting almost to suffocation, feeble, irregular, almost imperceptible pulse, anemic appearance inability to speak.

One dose of Naja was given, followed in four hours by a second. These sufficed for the cure. The next day, when the doctor called, his patient addressed him in a loud voice, "Doctor, you gave me a poison last night."

When asked to explain, she said that after the first dose she "felt awful heat in her system."

This must be a Naja indication. Majumdar has saved a number of apparently hopeless cases of cholera with Naja in the collapse stage with pulselessness and difficulty of breathing.

In addition to the symptoms of heart failure and distress, the following will be found to be leading symptoms in heart cases: "Depression and weakness about the heart. Inability to speak with choking, nervous chronic palpitations. Severe pains in left temple, cardiac and ovarian region.

Sensation as if heart and ovary were drawn together. Pains about heart extending to nape of neck, left shoulder and arm with anxiety and fear of death."

Pulse slow, irregular. Symptoms worse at night, on walking, by lying on left side. In a case cured by Russell there was dragging and anxiety in the precordia occurring in great grief.

According to Hering, nervous phenomena predominate in Naja over other serpent poisons. It acts primarily upon nervous system, especially on respiratory nerves, pneumogastric and glossopharyngeal. The last gives the characteristic choking of Naja and other serpents.

Andrew M. Neatby relates a cure with Naja 6c which had nervous palpitations and faintness, frequent sensation of swelling of "choking" in the throat with dyspnea and occasionally of anesthesia down right side.

Another characteristic is grasping at throat with the choking sensations. Esophageal spasms. Diphtheria with impending paralysis of heart indicates Naja, but the characteristic left to right direction of Lach. does not appear in the Naja provings. Naja has, however, worse at night, patient awakens gasping, surface blue. Naja has somewhat marked neuralgias and headaches:

Neuralgic pain in head, preceded or followed by nausea or vomiting, severe, throbbing in left orbital region drawing from thence back to occiput from over-eating from mental or physical exertion. Headache after cessation of menses. Dull, heavy constriction in forehead on waking. Dull shoots up occiput.

Mahlon Preston cured himself with Naja 30c of asthma with difficult breathing, worse lying down, better sitting up.

He cured many cases of hay fever and autumnal catarrh, the symptoms being:

Flow of water from nose for a few minutes, then intense sneezing, which better the breathing.

PAGE 1157

After recurring for a few days there is dryness in the lungs with great difficulty of breathing, worse on lying down.

The following case was cured by Bunn: Miss S., 22, dysmenorrhea since the function was established. Dilatation, galvanism., etc., had been tried in vain. She had shooting in region of left ovary Faintness. Hypogastrium revealed nothing abnormal except sensitiveness of ovarian region.

Extreme restlessness with the pain. During the menses the pains suddenly became very severe. The flow stopped when the pain was at its worst and returned next day with relief from pain. Naja 30c was given and the returned next period passed absolutely free from discomfort.

Boericke. Clarke. Phatak.

Naphthalinum

(tar camphor)

Pharmacy

Naph. Naphthalinum. Tar camphor. Naphthalene. A Chemical compound from coal tar. Trituration. Historical dose: All potencies.

History

Naphthalene is a hydrocarbon obtained by distillation from coal-tar.

It consists of colorless, transparent, lustrous scales or, when crystallized of rhombic tables or prisms. Naph. is an unproved remedy and has been used in old-school practice as an intestinal anti-septic and vermifuge, as an expectorant, as a remedy for eczema and psoriasis, as an anti-septic application to wounds.

Naphthalinum is for the expulsion of thread worms after the bowels have been freely opened by a cathartic, Naph. is given in doses of grains 1/4 to grains 1/2 four times a day for two days. The dose should not be given after a meal and all fats and oils should be abstained from during the treatment, which may be repeated once or twice after leaving a week's interValer.

J. Meredith cured with the Naphthalinum 6x incarcerated flatus in transverse colon causing cardiac distress. **Planets:** Sun, Saturn.

Homeopathic

Naphthalinum is a product from coal tar has a special affinity for eyes. It produces detachment of retina, deposits an exudation in the retina. Opacity of cornea, cataract, amblyopia.

The grand characteristic of this remedy is long and continued attacks of coughing, unable to get a breath sometimes so violent as to cause perspiration. This remedy is not only good in whooping cough, but in any condition where you get the above symptoms.

Clinical

Albuminuria. Amblyopia, Asthma. Bronchitis. Cataract. Diarrhea. Eczema, Flatulence. Glee. Gonorrhoea Hay-asthma. Psoriasis. Retina, detached. Tuberculosis. Typhoid fever. Whooping cough. Worms.

Symptoms

Abdomen

Incarcerated flatus in the transverse colon causing cardiac distress (removed with 6x).

Eyes

Eyes inflamed, painful, bloodshot (hay fever). Cataract. Amblyopia. Detached retina. Shiny bodies in vitreous. **White patches** on retina of oxalate, sulphate and carbonate of calcium.

Face

Lips and face cyanotic. Face pale yellow. Twitching of facial muscles.

PAGE 1158

Food

Loss of appetite.

Head

Headache with fever, drowsiness and loss of appetite.

Head

Saliva flows from the mouth.

Kidneys

Incontinence of urine. Gleet. Sudden, violent desire to urinate, urethra meatus red and swollen, prepuce edematous. Gonorrhoea. Urine is dark brown, becoming black after standing, albuminous.

Lungs

Breathing is labored and irregular, asthmatic. Cough in incessant paroxysms almost arresting breath. Night cough preventing sleep. Cough with blue or purple face.

Expectoration: free, thick, tenacious, almost absent. Cough in violent paroxysms compelling the patient to hold his head for the pain.

Male

Edema of prepuce.

Nose

Coryza, thin, excoriating discharge, much sneezing. Hay fever. Irritation of nose. Rubs his nose to remove the irritation. Attacks of sneezing.

Rectum

Incontinence of urine and feces. Thin offensive diarrhea of tuberculosis.

Skin

Eczema. Psoriasis.

Sleep

Very great drowsiness lasting some days.

Temperature

Sudden onset of a fever, with headache and loss of appetite. Temperature reduced in typhoid.

Comments

Some cases of Naph. poisoning have been reported. A boy, 12, came home one evening apparently drunk: semi-conscious, staggering, unable to answer questions. He had eaten two candies which were really moth-destroyers, each tablet containing two grams of pure Naphthalin.

An emetic was promptly administered and the next day the boy was still drowsy but quite conscious. The drowsiness lasted four days.

Attacks of sneezing from nasal irritation, frequently attempting to remove the irritation by rubbing his nose. In two hours incoordination had increased. Twitching of facial muscles. Saliva flowed freely from the mouth. This is important as bearing on the use of the remedy in hay fever.

Lippincott was the first to use Naph. in cases of hay fever, having heard that hay fever sufferers who went into factories where Naphtha was much used were always cured. His experience of its value was speedily confirmed by other observers. Naph. 1x and 2x were used in the first trials.

W. Louis Hartmann of Syracuse. is the chief homeopathic authority for this remedy. His leading indications for it are: Acute coryza with fluent excoriating discharge and much sneezing. Paroxysms of coughing following each other in rapid succession so that the patient is unable to take his breath (as in asthma and whooping cough).

He has found it more often indicated than any other drug in whooping cough.

The spasmodic action and the cyanosis of the drug are good indications here, though it is not necessary to wait until the child is blue before prescribing Naph. If any remedy is needed after Naph., Drosera follows admirably.

In a case of tuberculosis of left lung, Naph. removed these symptoms: unable to sleep for cough, if he dozed off it was sure to wake him. Exhausting night-sweats and during the day thin offensive diarrhea.

Evers records chronic illness, loss of appetite, headache and eczema over both legs as due to Naph. which was used as a moth powder and sprinkled on bedding.

In three cases in which Naph. had been applied to wounds there was sudden onset of fever, headache, loss of appetite. In one of them there was temporary mania with incontinence of urine and feces.

In two of them albuminuria. All symptoms rapidly disappeared when Naph. was discontinued.

Hartmann uses the 1x trituration, having been disappointed with higher potencies.

Another action of Naph. is on the eye, cases of opacity of the lens having been traced to its action.

Narcissus pseudonarcissus

(daffodil)

Pharmacy

Narc-po. *Narcissus poeticus*. Daffodil. N. O. Amaryllidaceae. Tincture of unexpanded blossom-buds, stem, leaf and flower. The young buds, stems and leaves are macerated in two times their weight of alcohol. Historical dose: Tincture and all potencies, First potency.

Herbal

The name of the plant, *Narcissus* is not from that of the fabled youth who fell in love with his own image reflected in the water, but is from the Greek *Narkao*, "to be numb", on account of the narcotic properties of the drug. The classic *Asphodel* and the *Narcissus* are the same from which it may be seen that the plant dates back as far as man's records go.

Dr. Charge's work, *Maladies de la Respiration*, quotes the great *Laennec*, as an authority in regards *Narcissus*. *Fernie* in his excellent *Herbal simples* from which we gather the preceding, also says:

"An extract of the bulbs applied to open wounds has produced staggering numbness of the whole nervous system and paralysis of the heart. *Socrates* called this plant the *Chaplet of the Infernal Gods*, because of its narcotic effects."

Fernie also says that a decoction of the dried flowers is emetic and when sweetened will, as an emetic, serve most usefully for relieving the congestive bronchial catarrh of children.

Narc-po. is peculiarly homeopathic to long-continued coughs, especially of nervous origin, The concluding paragraph in *Fernie's* section on the *Narcissus* states:

"The medicinal influence of the daffodil on the nervous system has led to giving its flowers and its bulb for hysterical states and even epilepsy with benefit."

One use of *Narcissus* on record is that of *J. Meredith*. He made a conserve of flowers, buds and stems by mashing them with six to ten times their weight of sugar in a *Wedgwood* mortar with a wooden pestle. Counting this as *Ix*, he made sugar potencies to *4x* and with these he cured a case of bronchitis with continuous cough which had resisted many of the standard remedies.

On the other hand, the alkaloid from the bulbs after flowering produces copious salivation increases cutaneous secretion, contracts the pupil of the eye, produces slight relaxation of the pulse and slight faintness and nausea.

Daffodil bulbs contain an alkaloid the action of which, according to authorities, varies as to whether the alkaloid is extracted from the flowering bulb or from the bulb after flowering. **Planets:** Sun, Mercury.

Homeopathic

The Narc-po. alkaloid produces dryness of the mouth, checks cutaneous secretions, dilates the pupil of the eye, quickens the pulse and slows plus weakens the heart contractions.

Narc-po. is a remedy for coughs and bronchitis. Continuous cough. Coryza, frontal headache. Convulsive stage of whooping cough. Faintness and drowsiness. Symptoms of nausea followed by violent vomiting and diarrhea.

Clinical

Bronchitis. Coryza. Cough. Diarrhea. Whooping cough.

Symptoms

Eyes

Running at eyes. Pupils unduly dilated. Pupils contracted at first, dilated later.

Head

Frontal headache.

Heart

Pulse increased.

Mouth

Increased flow of saliva. Free salivation of very ropy saliva.

Nose

Severe coryza.

Rectum

Diarrhea with severe aching below left free ribs. Stools are watery, relaxed, loose, some solid.

PAGE 1160

Skin

Erythema of a papular, vesicular and pustular types, aggravation in wet weather.

Stomach

Hiccough, sinking, faint feeling. Sinking, sick sensation. **Heart**burn. Vomiting.

Rumbling.

Temperature

Hard which was quite wet with perspiration became dry in twelve minutes.

Throat

Dryness in throat.

Comments

The National Dispensatory says practically the same, i.e. , "The emetic action of Narcissus has been used to break up intermittent fever and relieve bronchial catarrh with congestion or obstruction of the air tubes. Like Ipecacuanha, it has also been prescribed in dysentery, especially of the epidemic form. Its influence upon the nervous system is

attested by the vogue it has enjoyed in hysteria, chorea, whooping cough and even epilepsy."

A patient of Clarke's once had a very severe cough set up by daffodils used in some profusion as a decoration of a dinner table. In Ringer's experiments the bulb preparation produced the greater number of effects including salivation, sinking, vomiting and diarrhea. The flower preparation acted on the head and eyes and dried up a profuse perspiration of the hands.

A fatal case of poisoning from eating the flowers is on record. A salad of onions in which were mixed some bulbs of *Narcissus poeticus* caused burning, copious stools with dreadful griping, obtuse senses, fainting, cold hands, cold sweat, symptoms not distinguishable from the usual effects of *Colchicum* and similar to those of *Narc. pseud.*

Narcotinum

(alkaloid of opium)

Pharmacy

Narcot. Narcotinum. An alkaloid obtained from Opium. Trituration. Historical dose: All potencies,

History

Narcotinum has been rather extensively proved, but very few distinctive symptoms were elicited. **Planets:** Moon.

Homeopathic

The most notable symptoms of Narcotinum were dry, clammy mouth, thick indistinct speech and paralysis of bladder. The vertiginous symptoms were like those of Morphine. and the general symptoms those of Opium and its other alkaloids.

Clinical

Bladder, paralysis.

SOURCES

Clarke.

Nasturtium officinale

(water-cress)

Pharmacy

Nast. *Nasturtium officinale*. Water-cress. Historical dose: Tincture and all potencies.

Herbal

Nasturtium is useful in scorbutic disorders and constipation, related to strictures of urinary apparatus, supposed to be an aphrodisiac in its action. **Planets:** Venus.

Homeopathic

Nast. is also antidotal to tobacco poisoning and sedative in neurotic affections, neurasthenia, hysteria. Cirrhosis of liver and dropsy.

Clinical

Cirrhosis. Neurasthenia. Tobacco, poisoning.

SOURCES

Clarke.

Natrium arsenicosum

(arsenate of sodium)

Pharmacy

Nat-ar. Natrum arsenicosum. Sodium arsenate. Hydric, di-sodic arsenate. Solution.

Trituration. Historical dose: All potencies, third to thirtieth potency.

History

Natrum ars. has been very extensively proved, notably by Imbert Goubeyre. The principal clinical use of Nat-a. has been in diphtheria, with a dark purple throat, great swelling, much prostration, not much pain. Also used in disorders of the eyes and nose.

PAGE 1161

The irritating arsenic effects preponderate in this remedy. Leukemia. Facilitates the termination of the cold and conserves strength and appetite. (Cartier.) **Planets:** Saturn.

Homeopathic

Nat-ar. is a valuable remedy for miner's asthma from coal dust. A remedy for nasal catarrh with headache, pain at root of nose, dry and painful eyes. Psoriasis. (Ars., Thy.)
Bronchitis of children over seven years.

Feels tired all over. Leukemia. Racking cough with profuse greenish expectoration. Oppression of chest and about the heart. Lungs feel as if smoke had been inhaled. As if the thyroid gland were compressed by a thumb and finger. Emaciation. Edema.

Clinical

Anemia. Asthma. Coryza. Diphtheria. Esophagus, constriction. **Eyes** inflammation of, granular lids, Hemoptysis. Interscapular pain. Leukemia. Miner's asthma. Nose, disorders. Pityriasis rubra. Post-nasal catarrh. Testicles, neuralgia. Tuberculosis.

Modalities

Worse on moving is very prominent throughout the proving. Worse during the day.

Worse on pressure. Worse by motion, jarring, least exertion.

Symptoms

MIND

Nervous restlessness. Depressed, as if something bad impending. Cannot concentrate mind, dull, listless, forgetful.

Abdomen

Pain from at times, shifting through bowels, better by passage of flatus or stool. Gas forms rapidly, better when bowels move, colic from flatus and before stool. Pain in groin.

Back

Neck stiff and sore. Soreness at lower cervical vertebra down to joints of and under both scapula. Pain and soreness in back. Severe pain between scapula, better moving forward, worse from inspiration. Pain in lumbar region.

Ears

Catarrhal conjunctivitis and blepharitis marginalis. **Eyes** feel weak, stiffness of balls and tendency of lids to close. Ears feels heavy and drooped. Lachrymation in wind. Agglutination in morning. Dry, painful, burning, soon tire. Edema of orbital region. Supra-orbital pain.

Eyes

Vision weakened, objects blur when he looks at them for a short time, eyes sensitive to light. **Eyes** soon tire and pain when reading or writing. Lids disposed to close, cannot open them as wide as usual. Stiffness of eyeballs, **feel too large. Edema** of orbital region. **Eyes** are stinging as from wood smoke. Smarting and lachrymation on going into open air.

Head

Floating sensation on turning head quickly, aching in frontal region and root of nose, over orbits. Headache, worse pressure and tobacco smoke.

Limbs

Aching in arms, worse in shoulder. Pain in anterior crural nerves. Joints stiff. Feels tired all over. Knee-joints crack.

Lungs

Racking cough with profuse greenish expectoration. Oppression of chest and about heart and also larynx. Miner's asthma. Lungs feel as though smoke had been inhaled.

Nose

Watery discharge, drops into throat. Feels stopped, pain at root. Dry crusts, on removal, leave mucous membrane raw. Post-nasal dropping of thick, bland, yellowish mucus. Crusts in nose.

Sensations

Some of the peculiar symptoms are: Wavering, floating sensation on turning head. Eyeballs feel stiff, feel too large for lids to close over. Scratching beneath lids on rolling eyeballs. Pain at root of nose. Feeling as if the body were compressed by thumb and finger. Feeling of lump in throat of blow on testicle, as if smoke inhaled into lungs.

Throat

Dark, purplish, swollen, edematous, red and glassy.

Comments

Nat-ar. has pain between scapula better bending forward. There is the restlessness of Ars. and the thirst and also the chilliness with the hot head and headache worse by heat.

Nasal obstruction and chilliness worse at night. There is the Ars. chilliness and sensitiveness to cold air, but itching is worse when heated by exercise, warm things causes burning in stomach and cold drinks aggravates nausea.

PAGE 1162

Wind causes conjunctivitis. Right side of head, left testicle and left leg most affected.

Compare

(1) Ars., Kali-c. - edema about eyes and face.

(2) Apis - diphtheria with sac-like swelling of uvula, but Apis has much pain, Nat-a. has not.

- (3) Arum t. - diphtheria, Ar. t. has less swelling and more pain.
- (4) Kali-bi. - tenacious mucus.
- (5) Nat-m. - throat.
- (6) Lyc. - stopped catarrh.

SOURCES

Boericke. Clarke.

Natrium carbonicum

(cacodylate of soda)

Pharmacy

Nat-cac. Cacodylate of Soda. Natrum cacodylicum. Trituration. Solution. Historical dose: All potencies.

History

This acid (and more particularly its sodium salt) has been used on the recommendation of Armand Gautier, Professor of Chemistry at the Faculty of Medicine of Paris, as a "cure" for tuberculosis, the non-poisonous nature of this salt enables the patients to take it in large doses. But it is not always harmless.

Cacodyl which signifies evil-smelling is like Cyanogen, a compound radical. It was first obtained by Bunsen in 1873 as di-cacodyl. It is a clear liquid that refracts light strongly, heavier than water of insupportably offensive smell, its vapor being highly poisonous.

Cacodylic acid is a crystalline arsenic compound, soluble in water, odorless and though containing 54.4 per cent. of metallic arsenic, not an active poison. **Planets:** Mercury, Saturn.

Homeopathic

Malignant growths. In tuberculosis. Also in malignant disease. Foul breath and mouth with bad odor. Dry dermatitis of the skin of abdomen.

Clinical

Tuberculosis.

Comments

Murrell gave Nat-cac. in pills of one grain three times a day to a young woman, 21.

Poisoning symptoms set in suddenly after the eleventh dose.

Constant vomiting tongue like a piece of raw beef, conjunctive inflamed, eyelids edematous. Breath of gangrenous odor, peripheral neuritis, wrist-drop, paralysis of left leg. The odor was noticed on second day, the other symptoms came suddenly.

SOURCES

Clarke.

Natrium carbonicum

(carbonate of sodium)

Pharmacy

Nat-c. Natrum carbonicum. Sodium carbonate. The common "Soda" of the shops, purified, not the Bicarbonate of Soda. Trituration. Solution. Historical dose: Trituration and all potencies, sixth potency.

History

Natrum carb. is the typical salt of the Natrum group. It was proved by Hahnemann and is one of the anti-psoric remedies of the Chronic Diseases. In old-school practice its chief uses are as an external application in solution to burns and eczema, as a douche in nasal or vaginal catarrh.

Nat-c. forms the alkaline basis in most soaps and most persons know by experience the effect of using soap with an excess of alkali. It almost burns off the superficial layers of the epidermis and leaves the skin dry and cracked. All the Natrums stimulate cellular activity and increase oxidation and metabolism.

The provings, while developing in Nat-c. a remedy of polycrest importance, confirms its irritating action and show Nat-c. to be a true remedy for chapped hands and faces, rough, dry skins, eczema, herpes, warts and scrofulous conditions of skin.

On the mucous membranes the effects are no less irritating. The whole digestive tract from mouth to anus is irritated with vesicles, ulcers and catarrh. In the eyes the irritation goes on to keratitis and ulceration of cornea. The nose is swollen and ulcerated with a thick yellow or green offensive discharge. Thick, yellow, putrid leucorrhea.

PAGE 1163

The common practice of taking Sodium Bicarbonate for indigestion and heartburn is founded on a true relationship (though Nat-c. is the Carbonate and not the Bi-carbonate), but the indiscriminate and excessive use of it only intensifies the trouble. The nearest analog of Nat-c. in this and in the female sexual sphere is Sepia.

Homeopathic

Nat-c. affects the digestion and nerves. Also the mental state is influenced. Chronic effects of sunstroke, exhaustion, anemic, milky, watery skin, very weak ankles, are all peculiar Natrum carbonicum conditions.

Prominent symptoms are worse from sun, heat, gas-light. Worse from mental exertion from physical exertion or strain from least effort, worse from music. Headache from sun or working under gaslight. Nat-c. has great debility from heat of summer, every spell of warm weather causes headache.

The Nat-c. patient is oversensitive to open air to music to noise to dietetic errors. Great debility from any exertion from summer heat. Puffiness. Relaxation, easy dislocation. Pains cause tremors, cold sweat, anxiety etc. Twitching in the muscles and limbs. Contraction of muscles, tendons.

Emaciation. Anemia. Children who cannot tolerate milk but thrive better on cereals. Children when asleep, jump, cry, grasp the mother, startled, nervous children. Swelling and induration of glands.

Clinical

Albuminuria. Anidrosis. Ankles, weak. Belching. Burns. Cornea, ulcers on. Corns. Coryza. Deafness. Dysmenorrhoea. Dyspepsia. Goiter. Hands, chapped. Headaches. Heels, blisters. Herpes. Hypochondriasis. Hysteria. Ichthyosis. Lispings. Moles. Nose, swollen, eruptions. Ozaena. Post-nasal catarrh.

Presbyopia. Priapism. Rheumatism. Ringworm. School headache. Scrofula. Stammering. Infertility. Sunstroke. Throat, mucus. Toothache. Warts.

Causations

Ill effects of sunstroke (chronic), overstudy, strains. Cold drink when over-heated. Milk. Sun's rays. Gaslight. Heat. Change of temperature. Suppression of sweat. Nat-c. has extreme sensitiveness to any electrical changes, like thunderstorms. Sun. Overheated. Errors in diet. Milk. Grief.

Constitutions

Nat-c is suited to: Light-haired people, persons of leuco-phlegmatic constitution with aversion to open air and to exercise, mental or physical. **Planets:** Jupiter, Sun.

Modalities

Better from eating, rubbing, motion, pressure, wiping with hand, boring into nose or ears with fingers, sweating. Worse from heat of sun, weather, 5 a.m. , alternate days. Worse from music. Worse mental or bodily exertion. Worse from milk, dietetic errors. Worse from vegetable diet, starchy food. Worse cold drinks when overheated. Aversion to cold air. Worse from drafts. Worse getting wet, drinking cold water, worse damp weather, change of weather. Worse from storms. Worse during full moon.

Symptoms

MIND

Cross and irritable. Aversion to society, even that of their own family, her husband. Gloomy. Worse from music. (Ambra.) Anxious and fearful, worse thunderstorms, not from timidity, but from electric changes in the atmosphere. Lively, talkative. Playing on piano causes anxiety and trembling.

Sensitive to presence of certain persons. Unable to think. Difficult to concentrate, slow comprehension. Mental weakness and depression, worries, very sensitive to noise, colds, change of weather. Music causes tendency to suicide, sadness, religious insanity.

Occupied with sad thoughts. Indifferent.

Abdomen

Indigestion, gas and bloating. Accumulation, incarceration, and painful movements of flatus in abdomen. Flatus changes places, abdomen pouts here and there. Abdomen (hard) enlarged and distended. Epigastrium painful to touch and talking. Colic with retraction of naval and hardness of skin.

PAGE 1164

Back

Cracking in cervical vertebrae, when moving the neck. Boring at tip of left scapula. Cold between scapulae. Tingling in back.

Ears

Deafness with recurring earache with amenorrhea. As if a bubble bursting in. As if something moved in ear on swallowing.

Eyes

Dazzling flashes or stars before vision, on awakening. *Dim eyes*, has to wipe them constantly. Cannot read small print.

Face

Pale with blue rings around eyes and swollen lids. Pale withered, bloated. Freckles, yellow spots, pimples. Freckles, yellow spots, pimples. Swelling of upper lip. Lips swollen.

Female

Induration of cervix. Infertility from non-retention of semen. Pudenda sore. Bearing-down sensation. (Sep., Murex) Leucorrhœal discharge offensive irritating, thick, yellow, ropy, preceded by colic. Menses late scanty like meat washings. Motion, as if fetus in uterus. Promotes conception.

Food

The indigestion is worse from vegetables and starchy foods. Worse from milk. Ill effects of drinking cold water when overheated. Very weak digestion, worse from slightest error of diet. Aversion to milk, which causes diarrhea.

Head

Headaches in hot weather, from exposure to sunlight. Headaches from slightest mental exertion, working under gas light. (Glon.) Feels too large. Oversensitive of hearing. Head aches with return of hot weather. Head pains out through eyes, head bent backwards. Feels too large. Falling of hair.

Heart

Palpitation from noise, rattling of paper etc., on going upstairs, when attention is directed to something, when lying on left side.

Kidneys

Urine of bright or dark yellow color. Urine smells like horse's urine from vegetable or milk diet. Burning in urethra during and after urination.

Limbs

Ankles weak. Old sprains. Easy dislocation and spraining of ankles. Great weakness of limbs, especially in morning. Heaviness of legs and feet with tension in them. Foot bends under. (Caust.) Unsteady walk, little obstruction on pavement causes him to fall or falls without apparent cause. Burning wrist and ankles. Locomotor ataxia, fulgurating pains better eating. Soles, tender, needles at, burn while walking. Jerking of hands, on going to sleep. Cramps from ankles to toes. Contractions of fingers. Popliteal, painful on motion. Folds of fingers and toes sore. Heel and Achilles tendon affected. Chapped hands. The hollow of the knee is painful on motion. Legs are icy cold up to knees.

Lungs

Short cough with rattling in chest. Cough, dry, tickling worse when entering a warm room, at 9-11 a.m. Loose hollow with salty purulent greenish sputum. Cough with coldness of left side of breast. Cough excited by tickling in throat. Violent and dry cough on passing from cold to hot temperature. Cough with expectoration of blood.

Male

Glans penis easily become sore. Increased sexual desire with priapism and painful pollutions. Incomplete sex. Nightly emissions. Sweats after sex. Discharge of prostatic fluid, at stool and when urinating, prostate affections.

Mouth

Dry. Bitter taste in the mouth, food tastes bitter. Vesicles and smooth ulcers in mouth with burning, mouth open. Toothache worse sweetmeats and fruits. Taste perverted too sensitive. Affections of the under surface of the tongue. Tongue heavy, unwieldy, patient has difficulty in talking.

Nose

Swollen or peeling. Red nose with white pimples on it. Constant coryza, obstruction of nose. Catarrh, bad smell of nasal secretion. Many troubles of external nose. (Caust.) Post-

nasal catarrh. Hawking much mucus from throat, worse slight draught. Catarrh, foul, thick, yellow or green discharge. Coryza worse least draft, alternate days. Stoppage at night. Violent sneezing.

PAGE 1165

Rectum

Sudden call to stool without result or stools escape with haste and noise. Diarrhea from starches, milk. Stools, black, hard, smooth, crumble. Stools like orange pulp in women at change of life. Diarrhea with cutting pain. The stool is watery. Stool spotted with blood. Discharge of tinea during evacuation. Itching and tingling in anus. Lancinations in perineum.

Sensations

As if head too large. As if forehead would burst. As if head would be drawn back. As if ears were closed up. As of a bubble bursting in ear. As if tip of tongue were cracked. Dryness of mouth as if caused by heat of breath. As if veins of right leg were bruised. Motion as from a fetus in uterus. Blisters on points of toes as if scalded.

Skin

Dry, rough, milky, watery. Blisters on small joints, tips of toes or fingers. Pustular eruptions. Inclination to perspire easily or dry, rough, cracked skin. Formication. Eruption on finger-tips, knuckles and toes. Vesicular eruption in patches and circles. Veins full. Soles of feet raw and sore.

Sleep

Drowsy during day after meals. Wakes too early in the morning. Jerking and shocks during sleep. Sleeps with mouth open. Dreams, pleasant, amorous. Anxious dreams. Frightful dreams of deaths, floods, quarrels, robbers, devils, thieves. Dreams about traveling.

Stomach

Digestion weak, worse by slightest errors in diet. Acidity. Stomach feels swollen and sensitive. Gastric pains better eating. **Heart** burn after fats. Ill effects of drinking cold water when overheated. Waterbrash. Hungry at 5 a.m.

Depressed after eating. Bitter taste. Old dyspeptics, always belching, have sour stomach and rheumatism. Dyspepsia relieved by soda biscuits. Greedy, always nibbling.

Temperature

Easy sweat. Febrile shuddering, with cold hands and hot cheeks. Shivering fits induced by over fatigue and anxiety. Coldness of hands and feet. Heat with great debility and sleep. Heat with perspiration over whole body. Perspiration while eating. Sweats in morning. Profuse sweat from the least physical exertion.

Throat

Goiter, hard with pressing pain. Hawks much mucus from the throat. Must drink to swallow solids from roughness, dryness of esophagus and throat. Throat painful when yawning and swallowing.

Vertigo

Vertigo from wine, mental exertion from exposure to sun.

Comments

The predominant mental condition of Nat-c. is one of profound sadness, depression and melancholy, constantly occupied with sad thoughts, though there is also the opposite,

great gaiety and talkative. The hypochondriacal mood is often an accompaniment of the condition of the digestive mucus membrane. The depression and irritability is worse after a meal, the aggravation diminishing as digestion advances, "as the food passes through the duodenum."

The nervous system is strongly affected and symptoms of hysteria appear. A leading keynote is worse from exertion, mental or bodily. Great debility from any exertion, unsteady walk, any little obstruction on pavement causes falling or he falls without any apparent cause.

There are contractions of muscles and tendons and also relaxation of tissues. Ankle-joints are weak and burn. Twitching in muscles and limbs. Emaciation, anemia, bloating are prominent effects of Nat-c., as also is swelling and induration of glands. Stitches go from within out. Right upper and left lower are particularly affected.

A peculiar symptoms of Nat-c is "discharge of mucus after an embrace" in the woman and infertility as a result.

PAGE 1166

Compare

SOURCES

Boericke. Clarke. Phatak.

Natrium fluoratum

(sodium flouride)

Pharmacy

Nat-f. Natrum Fluoratum. Sodium Flouride. Historical dose: All potencies, 6x to 30c.

History

Natrum Fluoratum, has a molecular weight 42, appears in the form of colorless crystals, cubic or tetragonal in shape. The triturations were prepared from the salt. The work was completed in 1956 by Gutman New York, on twenty-one provers. The proving lasted fifty days and it was 6c in tablet form, which was used. **Planets:** Mars.

Homeopathic

Due to the fluorine, the action of the remedy is myoneurotrophic. The most important characteristic of Nat-f. is the sudden muscular contracture. Muscular pains, as if after receiving a punch.

Sudden muscular pains, coming and going in the muscles and joints. Pains while resting or from lack of distraction, reduced by pressure. Pains in the region of the left scapula.

Clinical

Cramps. Muscle, pains. Mydriasis. Stomach-ache. Tetany. Writer's cramp.

Modalities

Better from pressure. Better from distraction. Worse from resting.

Symptoms

MIND

Agitation and depression. Loss of ability to speak. State of stupor.

Abdomen

Gastric and intestinal cramps.

Back

Pain in the shoulders. Muscular, cramping, sudden pains.

Eyes

Mydriasis. Cramping pains in the eyelids.

Food

Lack of appetite.

Heart

Weak heart. Irregular pulse, rapid, weak, jumping.

Kidneys

Oliguria. Urine retention. Proteinuria.

Limbs

Sudden pains, coming and going in the muscles and joints. Hardening of the bones.

Cramps in the calves and cyanosed, bluish coloring of the legs.

Mouth

Pain in the mouth with salty or soapy-tasting saliva.

Rectum

Constipation or diarrhea with expulsion of wind.

Skin

Itching of the skin without eruption. Itching eruption in the left axilla. Passing eruption on the legs. Copious cold perspiration.

Stomach

Cramping pain in the stomach. Digestive heaviness and discomfort, nausea. Stomach-ache, painful hungry feeling, not eased by nourishment. Blood-streaked vomit.

Compare

(1) Cupr. - Violent intermittent, cramping pains of the eyelids, stomach, calves and feet, aggravated by the cold.

Natrium hypochlorosum

(Labarraque's solution)

Pharmacy

Nat-hchls. Labarraque's solution. Natrum hypochlorosum. Liquor soda chlorate. It comes from hypochlorite of soda or potassium-chloride water. Potencies of the solution.

Historical dose: All potencies, 4c to 30c, the high potencies appear more active. Fifteen to twenty drops of Labarraque's solution in water,

History

Natrum hypochlorosum the well-known disinfecting fluid is one of Cooper's additions to the Materia Medica. His proving has brought out some very characteristic features, although there is a close general resemblance to Nat-m.

The chlorine radical determines irritation of the skin and mucous membranes, the sodium induces extreme sensitivity to humidity. The indications that we give here are not the result of a Homeopathic proving, but the result of the information given us by the toxicology and the clinical usage of the remedy. This is above all a remedy for eczema.

Homeopathic

Nat-hchls. affects profoundly the entire organism and causes rapid emaciation, fainting, weakness with a flabbiness most pronounced along the mucous tracts with a diffused hydrogenoid condition and a tendency to leucocytosis.

For eczema and itching, more particularly localized on the upper limbs and the face, for anaphylaxis caused by cutaneous intolerance of a product.

Nat-hchls. has congested and atonic states of the uterus and its ligaments with hepatic disorders. Chronic catarrhal diseases of the middle ear. Both hands swollen in morning. Phlegmatic. Depressed, faint.

Clinical

Albuminuria. Breast pain. Chlorosis. Globus. Gravel. Hematuria. Headache. Hysteria. Kidney stones. Metrorrhagia. Nephritis. Ovaries disorders. Priapism. Scurvy. Smarting eruptions. Sub-involution. Tongue, shriveled, swollen. Toothache. Uterus, water-logged. Vertigo.

Constitutions

Phlegmatic, flabby, debilitated constitutions. **Planets:** Saturn.

Modalities

Better after stool. Better from cold applications. Worse by eating or drinking, worse lying on either side. Worse by warmth. Worse by drinking least drop of cold water. Worse by washing and by warm drinks. Worse before each menstrual period. Worse before stool. Worse from the damp.

Symptoms

Abdomen

Swelling low in abdomen going up to chest and causing dyspnea, worse after eating with much flatus. Bloating, tight feeling across upper abdomen.

Back

Much pain across small of back, worse morning on rising.

Ears

Pain under right ear when swallowing with much tenderness and swelling up side of head.

Eyes

Eyes red, weeping, eyelids puffy, red and itching. Amelioration by cold compresses.

Face

Edema of the face.

Female

Feeling as if uterus were pushed up on sitting down. (Ferr-i.) Feels as if it opened and shut. Violent metrorrhagia. Leucorrhoea and backache. Passive, bearing-down pains from heavy condition of uterus. Womb is feels heavy, sodden with tendency to prolapse. Subinvolution. Itching of the vulva, perineum. Itching of vulvae and anal.

Head

Vertigo with aching across forehead. Swimming feeling, as if top of head would float off. Bleeding of nose in clots.

Kidneys

Dark with albumen and casts. Diffuse nephritis. Much pain across small of back.

Limbs

Hands swollen every morning. Extreme weakness in ankles and knees.

Lungs

Cough with aphonia. Dry, irritating, painful cough in fits and then frothy, pink sputum. Dyspnea, aggravated by the coughing. Pulmonary edema, capillary bronchitis.

Mouth

Sore irritable spots along sides of tongue and throat. Gums sore tongue swollen, aphthous ulceration. Putrid taste. Furred tongue, large, flabby indented. Stomatitis, aphthosis.

Flat ulcer on tongue far back towards root.

PAGE 1168

Rectum

Anal and rectal burning with burning diarrhea. Proctitis, hemorrhoids, anal fissure.

Skin

Dry eczema in the nursing children. Weeping eczema. Recurring erythema with appearance of vesicles filled with a whitish, oozing liquid. Better by scratching. Generalized or localized, itching.

Sleep

Drowsiness after meals. Drowsy by day, wakeful by night. Cannot sit down without falling asleep. Disinclined to rise in morning. Child looks ghastly, as if dead, when asleep, his sleep is quiet.

Stomach

Drowsy after meals. Burning in epigastrium, with acrid vomiting, hematemesis.

Throat

Burning in the pharynx with redness, choking cough. Sore throat with difficult swallowing. Throat red and sore.

Comments

Dr. Robert Cooper's grand characteristic indication for Nat-hchls. is: Water-logged uterus. The womb is sodden, heavy, low down in pelvis, bearing down in pelvis with tendency to prolapse. The state of subinvolution after confinement corresponds very closely to this and Clarke had frequently seen Nat-hip. do good work in such cases.

Among the notable symptoms are: Vertigo causing falling. Paralyzed feeling in brain. Sensation as if top of skull were about to float off, as though cranial bones were being crossed over each other.

Swelling, neuralgic pains and suppuration about jaws. Tongue swollen or shriveled at sides. Swelling of both hands in morning on waking. Gatherings on fingers. Swelling on both hands in morning on waking. Gatherings on fingers. Pain in hip-joint reflected from ovary. Drowsiness, cannot sit down without falling asleep.

Swelling low down in abdomen, going up to chest and causing dyspnea. A weight seems to fall from pit of chest to pit of abdomen with aching, dull sensation on vertex.

Natrium iodatum

(sodium iodide)

Pharmacy

Nat-i. Natrum iodatum. Sodium iodide. Historical dose: All potencies.

History

Nat-i. has various symptoms, such as angina pectoris, vertigo. Dyspnea become less marked after continued use of 5-10 grains, 3 times a day. **Planets:** Sun, Saturn.

Homeopathic

Chronic catarrhal affections, arteriosclerosis and rheumatism. Incipient rheumatic endocarditis, chronic bronchitis and tertiary syphilis.

Clinical

Angina pectoris. Dyspnea. Rheumatism.

SOURCES

Boericke.

PAGE 1169

Natrium lacticum

(sodium lactate)

Pharmacy

Nat-lac. Natrum lacticum. Sodium lactate. Solution. Historical dose: All potencies.

History

Allen has collected a few observation on the effects of large doses. Skinner has removed with it in potencies, gouty or rheumatic concretions, "chalk stones" in fingers. **Planets:** Saturn.

Homeopathic

Nat-lac. has rheumatic pains. Abnormal sense of fatigue, yawning and sleepiness. Gout. Rheumatism.

Symptoms

Food

Unusual hunger and thirst.

Limbs

Great weakness of lower limbs after great physical exertion.

Sleep

Sleep more prolonged and sounder. Yawning and sleepiness.

Stomach

Vomiting from very large doses.

Compare

SOURCES

Clarke.

Natrium muriaticum

(common salt)

Pharmacy

Nat-m. Natrum muriaticum. Salt, Sodium chloride. Common Rock Salt. Trituration. Solution. Historical dose: All potencies, twelfth to thirtieth and higher.

History

Common salt, profoundly affects the nutrition. The prolonged taking of excessive salt causes profound nutritive changes to take place in the system. The symptoms of salt retention as evidenced by dropsies and edemas, also an alteration in the blood causing a condition of anemia and leucocytosis.

Nat-m. is one of the remedies adopted by Schussler from homeopathy. Through arrived at by a different route, his indications are for the most part identical with Hahnemann's and a recital of them, will serve to emphasize some points.

The common salt is contained in cells and in the blood, for salt has the well-known property of attracting water. Water is intended to moisten all the tissues and cells. Every cell contains sodium.

By this means the cell is enlarged and divides up. If there is no common salt formed in the cells, then the water intended to moisten them remains in the intercellular fluids and hydremia results.

Such patients have a watery, bloated face, they are tired and sleepy and inclined to weep. They are chilly, suffer from cold limbs and have a sensation of cold along the spine. At the same time have a strong desire for common salt. (The cells deficient in salt cry for salt.)

The common salt of which they consume comparatively large quantities does not heal their disease, because the cells can only receive the common salt in very attenuated solutions.

The redundant common salt present in the intercellular fluid may in such cases cause the patients to have a salty taste in their mouth and the pathological secretions of the mucous membranes, as also of excoriations of the skin, may be corrosive (salt-rheum).

Disturbances in the distribution of salt in the cells cause: Lachrymation, salivation toothache with salivation, watery diarrhea, mucous diarrhea, lack of mucus, catarrh of stomach with vomiting of mucus, water-brash, vesicles clear as water on skin or conjunctiva, constipation.

In old-school practice Nat-m. is used chiefly in solution as a douche or spray in nasal and other catarrhs and in the mixture of "Brandy and Salt," in which large quantities of salt are given for pulmonary hemorrhages.

It may be hard to believe that the potencies of Nat-m. should act independently, as curative remedy, at the same time that crude salt is being ingested in quantities.

It may seem that an infinitesimal amount of a substance which is a necessary constituent of our tissues cannot possibly have any action at all, but this mystery is constantly before the homeopath.

PAGE 1170

Homeopathic

Nat-m. affects the emotions, heart, kidney and spleen come under its influence. Thin patients, that are thirsty, poorly nourished on account of digestive disturbances and his mental behavior and physical symptoms are hopeless or awkward in nature.

Chronic affects of grief, disappointed love, fright, anger. Depressed and introverted. Dwells on past unpleasant memories. Can not cry. Averse to consolation. Young girls fall in love with married men. Depression or paralysis from hurt emotions.

Nat-m. is a great remedy for certain forms of intermittent fever, anemia, chlorosis, many disturbances of the digestive tract and skin. Tendency to catch colds, coryzas or hay fever. Constrictive sensation throughout the body. Great weakness and weariness. Weakness felt in the morning in bed. Easy exhaustion. Oversensitive to all sorts of influences.

Twitching in muscles. Frequent starts in upper part of body. Chorea, jumping after fright. Likes to be covered but does not relieve. Trembling of the whole body from smoking tobacco. Coldness. Children talk late, cross, irritable, cry from slightest cause.

Emaciation even while living well. Emaciation, descending of neck or abdomen.

Emaciation most notable in neck.

Nat-m. has dry mucous membranes. Mucous membranes and skin may be dry or may produce thick, white or clear, watery, acrid discharges. Dryness of mouth, throat, rectum, vagina etc. Numbness of one side, parts lain on with paralysis, fingers, parts seem too short.

Contraction of muscles and tendons. Neuralgic pains with tears. Emaciation, from malaria. Hyperthyroidism. Goiter. Addison's disease. Diabetes. Gouty or rheumatic gout.

Clinical

Addison's disease. Anemia. Aphthae. Atrophy. Brain-fag. Catarrh. Chorea. Constipation. Cough. Cracks, skin. Debility. Depression. Diabetes. Disparunia. Dropsy. Dyspepsia. Epilepsy. Erysipelas. Eye disorders. **Eyestrain**. Face, complexion unhealthy. Gleet.

Glossopharyngeal Paralysis. Goiter. Gonorrhea. Gout. Grief. Headache. **Heart** disorders. Hemipia. Hernia. Herpes. Hiccough. Hodgkin's disease. Hydroa. Infertility. Intermittent fevers. Leucocythemia. Leucorrhea. Lice.

Lips, sores. Lungs, edema. Menstruation, disorders. Mouth sores. Multiple Sclerosis. Nettle rash. Ranula. Ringworm. Self-abuse. Sleepwalking. Speech, embarrassed. Spermatorrhea. Spinal irritation. Spleen, enlarged. Infertility. Stomatitis. Sunstroke. Taste, lost, disordered. Tongue, blistered, white coated. Trifacial-nerve, paralysis. Ulcers. Varicose veins. Vaginismus. Vertigo. Warts. Whooping cough. Worms. Yawning.

Causations

Ill effects of grief, guilt, disappointment, fright, fit of passion, loss of fluids, masturbation, injury to head, silver salts, salt eating, sunlight.

Constitutions

Nat-m. is suited to sensitive. Cachectic persons, old people, teething children, anemic, chlorotic people with catarrhal troubles, tuberculous, scrofulous, dropsical, emaciated persons. **Planets**: Sun, Venus.

Modalities

Better from open air, cool bathing, sweating, rest, going without regular meals. Better from tight clothing, deep breathing, before breakfast, rubbing, lying on right side, talking long. Worse from 9 to 11 a.m. with the sun, alternate days after menses, heat of sun, summer, dampness. Worse from exertion of eyes, mental, talking, reading, writing. Worse from violent emotions, sympathy, puberty, quinine. Worse from bread, fat, acid food, sex, seashore, chronic sprains, noise, music touch, pressure, full moon.

PAGE 1171

Symptoms

MIND

Nat-m. covers the effects of grief, disappointed love, fright, anger. Depressed and introverted. Dwells on past unpleasant memories. Holds a grudge, resentment for past offenses. Irritable. Consolation aggravates. Wants to be alone to cry. Can not cry in front of others. Company distresses. Claustrophobia. Children learn to talk slowly. Awkward in talking, hasty, drops things.

Fear of being rejected or hurt emotionally. Fear or dreams of robbers. Fear of being late. Anxiety and fear. Thinks he is pitied for his misfortunes and weeps. Laughter with tears.

Abrupt. Absent minded. Scattered thoughts. Revengeful. Extremely forgetful. Aversion to men, (females). Alternating mental conditions.

Abdomen

Cutting pain in abdomen. Distended. Pain in abdominal ring on coughing. Abdominal viscera loose and dragging as if when walking. Epigastric pulsation. Epigastrium swollen and painful. Sudden distention. Tension groins. Pain in abdominal ring on coughing. Rigidity of the left side. Colic with nausea better flatus.

Back

Painful stiffness of neck. Pain in back with desire for firm support. (Rhus-t., Sep.) Bruised backache, early in morning, worse coughing after sex, better lying on back, on something hard or pressure. Can stoop readily, but hurts to straighten.

Breasts

Breasts emaciate. Loss of hair during breast-feeding. Stitches beneath nipples.

Ears

Noises, buzzing, humming, ringing. Painful cracking in the ear when masticating. Itching behind ears. Noises, roaring and ringing.

Eyes

Photophobia, worse sunlight. Itch and burn, must wipe them. Stricture of lachrymal duct with suppuration. Lachrymation with redness, burning, acrid from affected side from sneezing, coughing, laughing etc. Lids swollen. **Eyes** appear wet with tears. Tears stream down face on coughing, (Euphr.) Hemiopia then headache. Stricture of lachrymal duct. Sees sparks, fiery, zigzag appearance around all objects. Vision blurred, wavering. Asthenopia due to the insufficiency of internal recti muscles. **Eyes** give out in reading and writing. Pain in eyes when looking down. Cannot read by artificial light. Retinal images are retained too long. Muscles weak and stiff. Feel bruised with headache in school children. Cataract incipient. Protruding eyes, due to goiter. Eyelids heavy. Ptosis on lying down.

Face

Oily, shiny, as if greased. Earthy complexion. Fever blisters and cold sores. Dry, skin. Herpes about the lips. Lips very dry and chapped. Crack in the middle of the lower lip. Throbbing in lower jaw worse biting, heat and cold. There is down on the face in hysteria but passes away as the patient improves. Upper lip swollen. Prosopalgia. Falling of whiskers and beard.

Female

Aversion to sex, which is painful from dryness of vagina. Burning smarting in vagina during sex. Delayed first menses. Dysmenorrhea with convulsions. Menses irregular, usually profuse. Hot during menses. Suppressed menses from grief. Ineffectual labor-pains. Infertility. Bearing-down pains, worse in morning. (Sep.) Prolapse of uterus with aching in lumbar region. Hot during menses. White leucorrhoea turns green gradually. Leucorrhoea acrid, watery. Debilitating leucorrhoea, white thick instead of menses.

Food

Desire for salt and salty foods. Desires bitter things, beer, for sour things. Desires farinaceous food, oysters, fish, milk. Hungry, yet loses weight (Iod.) with depression. Hunger without relish. Averse to meat, fat, coffee tobacco. Aversion to bread to anything slimy like oysters, fats. Worse from bread, fat, wine, or acid food. Unquenchable thirst. Thirsty, drinks large quantity of water. Sweats while eating, on face. Anorexia nervosa.

Head

Migraine headaches, bursting, on coughing, maddening, heavy. Blinding headache. Aches as if a thousand little hammers were knocking on the brain. Headaches, over eyes,

on vertex with partial numbness or disturbed vision. Throbs. Headaches, worse on awakening from sunrise to sunset during, before or after menses. Headaches, motion, even of eyes, aggravates. Headaches, worse frowning, reading. Headaches, better sleep, pressure on eyes, lying with head high, sitting still. Nodding motions of the head.

Anemic headaches of school-girls, nervous, discouraged, broken down. Frontal sinus inflammation. Falling hair. Injured part tender to touch.

PAGE 1172

Heart

Palpitations, shaking body or alternating with beating in head. Tachycardia. Fluttering of the heart with a weak, faint feeling worse lying down. Palpitations, anxious, worse exertion, emotion, lying on left side. Sensation of coldness of heart. Pulse, full and slow

or weak and rapid intermittent every third beat, worse lying down. **Heart** and chest feel constricted.

Kidneys

Pain just after urinating. (Sars.) Involuntary urination, on coughing, laughing, sneezing, walking, sitting. Polyuria, thirst for large quantities of water. Has difficulties with urinating in the presence of others. Urine clear with red sediment. Must wait before the urine will start. Pain just after urination.

Limbs

Children do not learn to walk. Trembling of the hands when writing. Every motion accelerates the circulation. Palms hot and perspiring. Arms and legs, but especially knees, feel weak. Hangnails. Dryness and cracking about finger-nails. Numbness and tingling in fingers and lower limbs. Hamstrings, seem short, painful, drawing in. (Caust.) Cracking in joints on motion. Coldness of legs with congestion to head, chest and stomach.

Housemaid's knee. Cracking in joints on motion. Ankles weak and turn easily. Legs cold. Convulsive jerking of the limbs on falling asleep. Soreness of toes or between toes.

Buttocks emaciated in infants.

Lungs

Shortness of breath, especially on going upstairs. (Calc.) Respiratory catarrh after suppressed sweats. Cough from tickling in the pit of stomach with asthma or palpitations, worse winter. Stitches all over chest. Cough with bursting pain in head. Whooping cough with flows of tears with cough. Sticking in liver while coughing. Exertion of arms improves the breathing.

Male

Backache and weak legs with depression after sex. Emission, even after sex. Impotence with retarded emission. Sexual desire with physical weakness. Suppressed gonorrhoea. Weakness, even paralysis after sexual excess. Loss of hair from pubes.

Mouth

Canker sores, herpes, fever blisters. Vesicles and ulcers in mouth and on tongue, smart and burn when touched by food. Eruptions around mouth and vesicles like pearls on lips. Lips and corners of mouth dry, ulcerated and cracked. Deep crack in middle of lower lip. Frothy coating on tongue with bubbles on side. Sense of dryness. Scorbutic gums. Numbness, tingling of tongue, lips and nose. Tongue mapped, beaded or striped along edges. (Ars., Rhus-t., Tarax.) Breath, hot offensive. Loss of taste and smell. Tongue,

heavy, difficult speech. Fistula dentalis. Epulis or small tumor on the gums. Sensation of a hair on the tongue. Tongue feels dry but is not dry. Teeth sensitive to air or touch, pain worse on chewing. Toothache with tears or salivation.

Nose

Colds begin with sneezing. Fluent coryza, lasting from one to three days, then changing into stoppage of nose, making breathing difficult. Violent sneezing. Discharge thin and watery like raw white of an egg. Sneezing early in the morning. Alternate fluent and dry coryza' cold commences with sneezing, gushing of fluid. Little ulcers in nose. One side numb. Loss of smell and taste. Nosebleeds, on stooping or when coughing, at night.

Internal soreness of nose. Dryness.

PAGE 1173

Rectum

Constipation on alternate days from inactivity. Herpes about anus. Anus contracted torn, bleeding. Constriction of rectum. Stools, dry, hard, crumbling. Stools, tear the anus or cause burning. Burning pains and stitching after stool. Stools, coated with glassy mucus. Constipation, stool dry, crumbling. (Am-m., Mag-m.)

Painless watery diarrhea, chronic, morning, on moving about from abuse of opium. Diarrhea, preceded by pinching pain in abdomen.

Sensations

As if eyeballs too large. As if head too heavy and would fall forward. As if some displacement in head had taken place, as if cold wind blowing though head. As though forehead would burst on coughing, as if head in a vice, pain like a rope round head drawing tighter and tighter, as if nail driven in left side of head. As if foreign body in eyes, as if eye being torn open. As if a small worm squirming in nose. As if hair on tongue.

Skin

Herpetic eruptions, worse flexures. Fever blisters. Eczema, raw, red and inflamed, worse eating salt, at seashore. Greasy, oily, especially on hairy parts. Dry eruptions, especially on margin of hairy scalp and bends of joints. Hives, itching and burning after exertion. Crusty eruptions in bends of limbs, margin of scalp, behind ears. (Caust.) Warts on palms of hands. Affects hair follicles. Alopecia. Greasy skin. Corns. Scars, painful. Redness of old scars.

Sleep

Sleepy in forenoon. Nervous jerking during sleep. Sleepless from grief. Starts and talks in sleep. Sobs during sleep. Awakes feeling weak. Dreams of robbers. Sleepwalking, rises and sits about room. An idea clings to mind, preventing sleep.

Stomach

Hiccough. Burning belchings after eating. **Heart**burn with palpitations. Sweet risings from stomach during menses. Anxiety in stomach rises into head. Waterbrash.

White slimy mucus is vomited with relief. **Heart**burn with palpitations. Feels better on an empty stomach. Throbbing in pit. Sticking sensation in cardiac orifice.

Temperature

Morning chill with thirst. Chill between 9 and 11 a.m. Chilly but worse in sun. Heat, violent thirst increases with fever. Fever-blisters. Coldness of the body. Coldness of many parts, hands, feet, heart. Continued chilliness very marked.

Sweats on every exertion. Hydremia in chronic malarial states with weakness, constipation, loss of appetite.

Throat

Hawks much mucus, bitter, salty. Uvula hangs to one side. A dry, sore spot in the throat, tickles and causes cough etc. Food goes down the wrong way, post diphtheria paralysis. Only fluids can be swallowed. Solids reach a certain point and then are violently ejected. Throat glistens. Exophthalmic goiter. Sore throat with sensation as if she has to swallow over a lump. As if a plug in throat. Tobacco smoker's throat.

Vertigo

Vertigo, as if falling, worse standing near a window, on closing eyes, better lying with head high.

Comments

Nat-m. has been extensively proved, both in the lower triturations and in the 30c and higher potencies and the latter produced the most marked effects.

In Nat-m. is illustrated the antidotal action of a substance of high potency over the effect of a lower. A large number of people are steadily poisoning themselves by taking excessive quantities of salt with their food and it is generally useful to ask patients if they are fond of salt.

Without restricting the amount of salt taken, Nat-m. 30c will antidote most of the effects of the crude and enable the patient to cut down the quantity taken afterwards. But the effect of a high potency can also be antidoted by a higher.

PAGE 1174

Another important antidotal relation of Nat-m. is to Arg-n. And here another interesting fact appears. The parallel between chemical and the dynamic action. Salt is the best antidote to poisoning with nitrate of silver, as it changes the soluble nitrate of silver into the insoluble harmless chloride.

Nat-m. in the potencies is also the best remedy for the ill effects of Arg-n. whether used as a cautery or administered as a medicine. Whether there is a history of cauterization and Arg-n. has been used, Nat. m., will do great good.

Scrofulous ophthalmia which has been treated locally in vain with Arg-n., sore throats that have been cauterized, the effects local and remote of uterine injections of Arg-n. or cauterizing of the os uterus.

The relation to catarrh, which Schussler brings out is specific. Excessively fluent coryza with much sneezing, sore nose, especially the left wing, cold sores on lips and nose, loss of smell and taste, are verified repeatedly in acute colds and the tendency to them.

With the coryza there is copious lachrymation and whether or not Schussler is right on the chemistry of the process, Nat. m. is indicated by tears. "Flow of tears with cough" is Burnett's keynote of Nat-m. in whooping cough.

The characteristics of the tearful Nat-m. patient is that she (or he) wants to be alone, any attempt to console irritates beyond endurance. "Wants to be alone to cry. Very much inclined to weep and be excited." There are even tears with laughter. For in addition to the sadness there is hysterical laughter, laughs until she weeps at things not at all ludicrous.

The excitement of Nat-m. is followed by melancholy. The hypochondriasis and hysteria, generally have constipation and Nat-m. is one of the most commonly needed remedies in that complaint.

Nat-m. helps equally well to constipation and diarrhea when the collateral symptoms correspond. The constipation is often found associated with anemia, chilliness, cold feet and chills down the back.

Indigestion such as is met with in victims of masturbation: Nat-m. is one of the most helpful of remedies in such cases. The skin is greasy from excess of sebaceous secretion. Nat-m. corresponds to disorders due to loss of fluids.

Lambert has recorded several cases of headache associated with errors of refraction and consequent eye-strain cured with Nat-m. 30c. The headache were noticed on walking.

In one case it was like a cloud over brain with intense depression and has lasted ten years. It disappeared before the vision was corrected.

The characteristic tongue of Nat-m. is either a mapped tongue with red islands or a clean shining tongue with froth along each side. There are many symptoms in connection with the tongue: hair sensation, numbness and stiffness of one side, heavy, embarrassing speech.

Nat-m. corresponds to children who are late in talking. The tongue is blistered, sticks to roof of mouth. Dryness of mouth and throat. Unquenchable thirst. Nausea. Vomiting.

The drying-up property of Nat-m. is general. One very characteristic effect is dryness of vagina with painful sex, aversion to sex (in the female), aversion to men. Menses may be early and profuse or scanty and delayed.

Nat-m. corresponds to many cases of anemia and especially to delay in the first appearance of the menses. Much bearing down and much leucorrhea. Backache generally accompanies these and the backache has this peculiarity, that it is better by pressure, by lying down with the back on something hard.

Nat-m. is one of the first remedies for headaches of schoolgirls. Headache with partial blindness. Headache much worse by coughing. Throbbing, beating as with little hammers, pain as if the head would burst.

The throbbing headache has its analog in palpitation of the heart. Nat-m. is a great heart remedy. Fluttering palpitations with faint feeling, worse lying down. In one case of huge hypertrophy with degeneration of most of the valves, the patient told Clarke nothing gave her so much relief as Nat-m. Very characteristic is sense of coldness at heart or precordia with trembling of heart.

Nat-m. has the sinking sensation of the anti-psorics. Great hunger with no appetite. Eats

heartily but emaciates. **Heart**burn after eating.

Emaciates while living well. Ravenous appetite but grows thin, especially about neck. Feels better when stomach is empty. After eating: empty belchings, nausea, acidity, sleepiness, heartburn, palpitation, epigastric pressure and heat radiating up to chest. Violent hiccough.

The nausea and vomiting of Nat-m. have been turned to account in the morning sickness of pregnancy, One patient, who said she could "eat the brine out of a mackerel kit," was cured with a single dose of Nat-m.

Nat-m. is a great periodic remedy. It not only antidotes Quinine, but it causes intermittents on its own account. Chilliness predominates. Chill 10 to 11 a.m. with thirst, drinks after a meal, fever blisters round mouth. Fever with violent headache, great thirst, nausea, vomiting, blueness, faint, averse to uncover. Fever may come on without chill 10 to 11 a.m.

There are many eruptions, herpes, hydroa, eczema. Eczema on hair margins, especially at back of head. Warts on palms of hands. Corns. Painful scars.

Nat-m. corresponds to effect of going to seaside and if patients say they are always worse at seaside or cannot stay by the sea, Nat-m. will probably be the remedy. Constipation at seaside. But better at seaside may also indicate it. There is great desire for open air and washing in cold water.

Natrium nitricum

(nitrate of sodium)

Pharmacy

Nat-n. Natrum nitricum. Nitrate of Sodium. Cubic Nitre. Chili Saltpetre. Sodium Nitrate. Trituration. Solution. Historical dose: All potencies, second trituration. Also watery solution, 1 dram of salt to 8 oz. water. Dram doses.

History

Natrum nitricum was called Rademacher's Aconite, he used it in inflammations of all kinds., especially laryngitis, tracheitis and croup, acute pneumonia.

Also in acute rheumatism and heart affections. Exophthalmic goiter. Purpura, hemorrhages inflammations of the eye. (Hansen).

Homeopathic

Natrum nitricum. has been a remedy for inflammations and hemorrhages. Hemorrhages from the mucus membranes, particularly the nasal tissues. Influenza. Asthma with urine supersaturated with solids. Anemia and hydremia. Pains of tabes. Exhaustion, must rest frequently when walking.

PAGE 1176

Nat-n. has had a considerable proving and among the peculiar symptoms were: Heat in left ear, coldness in right. Heat spreading left to right. Coldness streaming through upper part of body. Coldness of left foot.

Pressing-inward pains: in temple and forehead in malar bones. Flatulent troubles with weight in lower abdomen. Painful retraction of abdominal muscles. Painful constipation. Anemia and excessive exhaustion. Drowsiness.

Clinical

Anemia. Asthma. Belching. Constipation. Distention. Exhaustion. Flatulence. Headaches. Hemoglobinuria. Hemoptysis. Hematuria. Influenza. Purpura hemorrhagica. Otagia. Otitis. Variola. Weakness.

Constitutions

Uric acid diathesis. **Planets:** Moon, Saturn.

Modalities

The symptoms were worse by exertion, ascending stairs, sitting bent over, deep inspiration.

Symptoms

MIND

Great ill-humor. Indisposed to mental and bodily exertion. Mental indolence.

Abdomen

Abdominal muscles painfully contracted towards the spine. Distended.

Ears

Otagia.

Head

Dull. Pressing inward pain. Inward pressing in malar bones. Nosebleeds.

Heart

Pain in region of heart. Pulse slower and softer.

Rectum

Difficult stool, feels as if more remained to pass.

Stomach

Sour risings. Aversions to coffee. Flatulence with pressure in pit of stomach and pain in chest, worse motion, better eructation.

Compare

(1) Kali-n.

(2) Abdomen mostly contracted, constipation, Plb.

Natrium nitrosum

(nitrite of sodium)

Pharmacy

Nat-ns. Natrum nitrosum. Nitrite of Sodium. Trituration. Solution. Historical dose: All potencies.

History

Ringer and Murrell gave ten grains of Nat-ns., dissolved in one ounce of water to fourteen men and four women. To twelve men and four women it was given in five grain doses. In almost all it produced alarming symptoms of the apoplectic attack. **Planets:**

Moon.

Homeopathic

The concomitance of fainting with other disorders may prove a Nat-ns. keynote. Copious liquid stools at night with faintness.

Clinical

Angina pectoris. Collapse. Cyanosis. Diarrhea. Fainting. Gastro-enteritis. Roseola. Strokes.

Modalities

Better lying down. Worse motion.

Comments

Collischorm related two cases of accidental poisoning with Nat-nitrous. (1) The first patient was affected with: Diarrhea and fainting, heavily coated tongue, bitter belchings, and on the chest and eruption like syphilitic roseola. Traces of albumen in urine. During the night, copious alvine discharges with faintness. The following day intense cyanosis. Urine dark yellow, containing copious urates. Next day he took 2.5 grain, cyanosis diminished and the measly eruption spread all over the body except the face.

(2) The second patient had the cyanosis, diarrhea and faintings in an aggravated form so that collapse threatened. Strong coffee and omission of the drug removed the symptoms.

Natrium phosphoricum

(phosphate of sodium)

Pharmacy

Nat-p. Phosphate of Soda. Natrum phosphoricum. Sodium Phosphate. Trituration. Solution. Historical dose: All potencies, third trituration to 30c.

History

As Natrum phosphoricum is one of Schussler's introductions. This is what he has to say about it: Nat-p. is contained in the blood-corpuscles in the cells of the muscles of the nerves and of the brain, as well as in the intercellular fluids. Through the presence of Nat-p. lactic acid is decomposed into carbonic acid and water.

Nat-p. is able to bind to itself carbonic acid, receiving into itself two parts of carbonic acid for every volume of phosphoric acid. When it has thus bound the carbonic acid it conveys it to the lungs. The oxygen flowing into the lungs liberates the carbonic acid, which is only loosely attached to the Nat-p., the carbonic acid is then exhaled and exchanged for oxygen, which is absorbed by the iron of the blood-corpuscles.

Nat-p. is the remedy for those diseases which are caused by an excess of lactic acid. It therefore answers to the diseases of infants, who, having been fed to excess with milk and sugar from redundant acids. In oxaluria Nat-p. 1x four times daily prevents formation of stones, keeps the oxal. of lime in solution.

Homeopathic

Natrum phosphoricum affects duodenum, bile ducts, mesenteric glands and genitals. Ailments with excess of acidity. Sour belchings and taste. Sour vomiting. Yellow, creamy coating at the back of the roof of mouth and tongue.

Inflammation of the throat with sensation of a lump in throat. Flatulence with sour risings. Nat-p. has ailments with excess of acidity. Bladder infections, vaginitis and gout. Sourness, belchings, vomiting, stomach, stools, leucorrhoea, expectoration, sweats.

Marasmus of bottle fed babies. Infants who have been fed to excess with milk and sugar. Worms. Colic with symptoms of worms. Debility. Jaundice. Diabetes. Swelling of lymphatic glands.

Ill effects of mental exertion or sexual vices or both. Trembling and palpitation from thunderstorms. Cracking in joints. Pricking sensation. Tightness of muscles and tendons. Nervousness, tired feeling. Leucocytosis. Oxaluria.

Clinical

Acidity. Conjunctivitis. Cystitis. Diabetes. Dyspepsia. Enteralgia. Erysipelas. Glands, swelling. Goiter. Gout. Infertility. Intertrigo. Leucocytosis. Leucorrhoea. Morphine addiction. Post-nasal catarrh. Rheumatism. Scrofula. Sighing. Stomach pain. Thread worms. Tuberculosis. Urticaria. Vaginitis. Worms.

Causations

Acids, citrus fruits oranges, alcohol, sugar. Milk. Fat food. Bitter foods. Thunderstorms.

Constitutions

Acid diathesis. **Planets:** Venus, Moon.

Modalities

Better from cold. Worse from sugar, milk, mental exertion. Worse from thunderstorm, Gas light, sex. Worse from walking upstairs, bitter foods, fat foods.

Symptoms

MIND

Mental weakness. Fear, especially at night, that something would happen. Imagines that pieces of furniture are persons, he hears footsteps in the next room. Nervous, forgetful. Sadness from music. Indifferent to everything to his family. Sits quite still for a long time. Easily frightened.

Abdomen

While at stool, sensation as if a marble dropped down descending colon. Noisy flatulence. Fullness in abdomen worse standing or eating a little. Gastro-duodenal catarrh.

PAGE 1178

Back

Weakness after sex. Heavy dragging in the back. Swelling of glands of neck extending to chest. Synovial crepitation. Rheumatic arthritis.

Chest

Chest feels empty after eating. Pain in chest worse deep breathing and pressure. Pain through chest after dinner. Burning deep in chest, worse right side.

Sudden feeling of fullness. Weight above ensiform cartilage with empty feeling.

Ears

One ear red, hot, itching, scratches until it bleeds with gastric disorders and acidity. As if water falling in from a height.

Eyes

Discharge of golden-yellow, creamy matter from the eyes. **One pupil dilated.** Whites of eyes dirty yellow. **Eyes** weak worse gaslight. *Squinting* with worms.

Face

Paleness of bluish, florid appearance of face. Pale or red on alternate sides. Itching about mouth. Face burns.

Female

Menses too early, pale, thin, watery. During menses, feet icy cold during day, burn at night in bed. Infertility with acid secretions from vagina. Sour-smelling discharges from uterus. Morning sickness with sour vomiting. Leucorrhoea, sour, creamy, honey colored or acid and watery.

Food

Canine hunger with gone feeling in stomach. Desires: strong tasting things, eggs, fried fish, beer, which ameliorate. Aversion to: bread and butter.

Head

Feels dull in the morning, full feeling and throbbing. Cutting pain in temples (right) while studying. Pressure and heat on top of head as if it would open.

Heart

Trembling about heart worse going upstairs after menses. Feeling as if a bubble started

from heart was forced through arteries. **Heart** pains alternating with rheumatic

pains. **Heart** pains are better when big toe pains. Anxious palpitation after a thunderstorm.

Kidneys

Urging to urinate and burning and itching at meatus after sex. Must wait for urine to start. Burning during urination. Frequent urination. Bladder semi-paralyzed: flow soon stops and requires straining. Urine too acid. Urine increased, pale, scanty, dark. Diabetes, hepatic form.

Limbs

Aching in wrists and finger joints. Rheumatism. Feet icy cold during day, burn at night. Synovial crepitation.

Rheumatism of the knee-joint. Cramps in hands while writing. Legs give way while walking. Trembling of limbs after sex.

Liver

Jaundice. Sclerosis of liver and hepatic form of diabetes especially when there is a succession of boils.

Lungs

Respiration difficult. Cough worse sitting. Cough from drinking water. Cough from tickling in throat. Constant cough and hawking, pain in chest in mammary region.

Male

Emissions without dreams with weakness in back and trembling in limbs. Desire without erection. Semen, thin watery, smells like stale urine. Itching of scrotum, prepuce.

Gonorrhoea.

Mouth

Canker sores of lip and cheeks, worse acid foods. Blisters on tip of tongue with stinging in evening. Yellow creamy coating at the base of tongue, on tonsils or roof of mouth. Thin moist coating on the tongue. As of a hair on tongue. Grinding of teeth, children. Pricking, numbness of whole mouth.

Nose

Offensive odor. Itching of nose. Naso-pharyngeal catarrh. Thick, yellow offensive mucus. Child picks nose. Prickling with lachrymation.

Rectum

Urging to stool and urination after sex (men). Stools hacked. Greenish diarrhea. Itching at anus. Afraid to pass flatus lest the stool escape. Round or thread worms.

Skin

Yellow. Erysipelas. Hives. Itching in various parts, especially of ankles. Smooth, red, shining. Feet icy cold in daytime, burn at night. Swelling of lymphatic glands.

PAGE 1179

Sleep

Cannot get to sleep feels so hot, thoughts crowd on his mind. Sleepy in the forenoon, but sleepless before midnight. Dreams, anxious, amorous of dead people. Very drowsy, falls asleep while sitting.

Stomach

Sour belchings. Belchings after eating. Spits mouthfuls of food. Vomiting of sour, cheesy masses. Emptiness in stomach and abdomen, even in chest, worse after eating.

Heaviness and pressure in epigastrium.

Temperature

Feet icy cold in day time, burn at night. Chilly during menses, most on chest, followed by hot flushes round body. Flashes of heat and sweat. Exceedingly sour-smelling sweats. Intermittent fever with vomiting of sour masses.

Throat

Hoarseness. Dysphagia. Thick, creamy membrane over tonsils and soft palate. As of a lump, preventing speech. Swallowing difficult. Yellow coating on tonsils. Goiter with feeling of pressure.

Vertigo

Dizzy, as if he would fall, objects turn around on rising or moving.

Comments

The Nat-p. symptoms are: Sour belchings, vomiting of sour cheesy masses, yellowish-green, so-called hacked diarrheas, colic, spasms with acidity.

Nat-p. also serves to saponify the fatty acids, it therefore cures those dyspeptic ailments which arise from eating fat food or which are aggravated thereby. Nat-p. has been proved, chiefly in the potencies, under Farrington's direction. In the proving the nose-irritation and itching anus of the worm condition was developed. Atony of bladder. Hair sensation on tongue. Tightness of muscles and tendons. Seminal emissions.

Charles Mohr, who was one of the provers, relates the effect it has on him and the use he made of it. After being under the influence of the drug some time (without knowing what it was) he has much itching at the ankle-joints with an eczematous eruption. Headache, some nausea, defect of vision, one pupil dilated. Fear, especially at night, that something would happen.

The symptoms had to be antidoted with Sepia.

Two years after, Mohr had a patient with visional disturbance and headache and when these were at their worst he had a sense of fear, worse at night and an eruption about the ankles which began with itching, Nat-p. 6x cured promptly.

M. J. Luys has successfully overcome the morphine habit by subcutaneous injections of Nat-p. with glycerine and water. The symptoms are worse walking, especially up stairs. Warmth of bed causes itching at anus from worms. Thunderstorm. Worse pains, causes trembling and palpitations. When big toe pains heart pains are better. There is periodicity in the action. Worse from sex.

Compare

(6) Worms, Abrot, Cina, Teucr.

(7) Drinking water causes cough, Sil., Caust. better cough.

(8) Emissions causing weak back and knees, Nat-m.

(9) Nat-lac. - rheumatism and gout, gouty concretions, rheumatism with diabetes.

(10) Natrum nitrosum - angina pectoris. Cyanosis, fainting, copious liquid stools at night, throbbing and fullness, faintness, nervous pain in head, nausea, belchings, blue lips.

(11) Nat-silico-fluoricum - a cancer remedy, tumors, bone affection, decay, lupus, ethmoiditis. Must be used carefully.

(12) Nat-sel. - chronic laryngitis and laryngeal tuberculosis, hoarseness of singers, expectorate small lumps of mucus with frequent clearing of throat.

(13) Nat-sulphurosum - diarrhea with yeasty stools.

SOURCES

Boericke. Clarke. Phatak.

Natrium salicylicum

(salicylate of sodium)

Pharmacy

Nat-sal. Natrum salicylicum. Salicylate of Sodium. Trituration. Solution.

Historical dose: All potencies, third potency.

PAGE 1180

History

The introduction of Salicylic acid and Nat-sal. into general practice as remedies in rheumatism which led to much overdosing. Natrum salicylicum had an affinity for the joints.

Since it causes many of its poisoning symptoms simultaneously with the removal of the joints pains of gout and rheumatism. It has been used with success in homeopathic practice in the treatment of periosteal rheumatism.

The most marked of the symptoms produced by Nat-sal. is giddiness, worse on rising from lying and intense tinnitus aurium with deafness. This combination of symptoms has led to the successful homeopathic use of Nat-sal. in Meniere's disease and similar conditions. **Planets:** Mercury.

Homeopathic

Nat-sal. produces marked effect upon the internal ear with vertigo, deafness, noises in the ears with loss of bone conduction, hence is useful in Meniere's disease. Natrum salicylicum affects the head, ear, throat, kidneys and liver and on metabolism.

Hemorrhages, especially nosebleed. Produces marked effects upon the internal ear with vertigo, deafness, noises in ears and loss of bone conduction, hence. Vertigo when objects seem to move to the right, worse on rising from lying.

Nat-sal. has lassitude, drowsiness, listlessness, tremor. One of the best remedies for the prostrating after-effects of influenza. Increases the quantity of bile. Temperature subnormal with slow pulse. Prostration after influenza. Follicular tonsillitis.

Clinical

Abscess. Boils. Debility. Depression. Ears., noises. Fever. Meniere's disease. Noises in the head. Edema. Periostitis. Rheumatism. Stammering. Strabismus divergens.

Symptoms

MIND

Severe mental prostration, worse since influenza. Weariness and depression. Listlessness. Apathetic. Perfectly rational periods, alternate with manifestations of insanity of a somber character. Incipient dementia. Highly nervous dread.

Abdomen

Inguinal glands swollen, sensitive.

Chest

Dyspnea, breathing noisy, shallow, panting, pulse irregular. Complete loss of voice.

Ears

Tinnitus of a low tone. Deafness. Auditory vertigo. Giddiness, deafness, noises in ears.

Eyes

Amblyopia. Pupils dilated, very slightly sensitive to light marked divergent *strabismus*. **Eyes** have a peculiar sparkle. Does not see distant objects, *mydriasis*. Retinal hemorrhage. Iritis due to trauma.

Face

Burning pains on skin of forehead. Left face red, both eyelids, upper lip edematous. Anxious expression, red face.

Food

Great thirst. Appetite lost.

Head

Severe headache as though head would burst. Dull headaches and confusion. Fibrositis of the scalp.

Limbs

Axillary abscess. Strong itching on back of right hand. Feet swollen, soles tender, veins of dorsa much congested.

Lungs

Dyspnea with great heat. Breathing so noisy it was heard in street, gasps for air. Breathing is shallow. Panting respiration like that of a hunting-dog.

Mouth

Speech hoarse indistinct, stammering, some words she cannot pronounce. Dryness in mouth and throat with great thirst.

Pulse

Pulse stronger, arterial pressure increased. Pulse irregular, small, weak. Pulse weak, compressible.

Rectum

Diarrhea, great thirst.

Skin

Edema and urticaria, red in circumscribed patches. Tingling and itching. Pemphigoid eruption.

Stomach

Vomiting, unconsciousness.

Temperature

Wild delirium, with great heat, dyspnea. High fever with intense thirst. Fever and rash come only with disappearance of rheumatic pains.

PAGE 1181

Vertigo

Vertigo, worse raising head. All objects seem to move to the right. Giddiness, better lying down, worse raising head or sitting up.

Comments

In some of the overdosings high fever with delirium was produced. Nat-sal. has been used freely in the manufacture of beer to prevent fermentation and this has caused

poisoning symptoms, notably sweating and tenderness of the feet with dark colored and enlarged veins.

Divergent strabismus and stammering were marked pathogenetic effects in one case and should lead to homeopathic uses. It has caused irritation of inguinal glands and has cured abscess in axilla.

Clarke gave Nat-sal. 3c to a patient recovering from influenza who had symptoms of vertigo with noises in the head, the patient was so much relieved by the medicine of her weakness and depression that she named the remedy her "tonic."

W. R. Rice published a case in which he gave a lady 10 grains doses of Nat-sal. every four hours. After the third dose "most alarming prostration, mental and bodily," set in. Pulse became weak and compressible and the temperature became subnormal. On stopping Nat-sal. the symptoms rapidly passed off.

Ebstein has claimed for Nat-sal. in ordinary dosage a controlling power over glycosuria and R. T. Williamson has confirmed this in some cases.

Compare

(1) Gault., Chin.

(2) Lobelia prupurascens - drowsiness, dizzy headache between eyebrows, cannot keep eyes open tongue white-feels paralyzed as also do the heart and lungs intense prostration of all vital forces, deadly chill without shivering, useful for the low, nervous prostration of influenza.

(3) Pyrus malus, Crab apple tree - Labyrinthine vertigo. (Cooper).

(4) Salix mol., Salix nig., Sal-ac., Salol.

Natrium selenicum

(selenate of sodium)

Pharmacy

Nat-sel. Natrum selenicum. Selenate of Sodium. Trituration. Historical dose: All potencies.

History

This is an unproved remedy, but it has a decided affinity for the larynx. **Planets:**

Mercury.

Homeopathic

According to Hansen Nat-sel. use in homeopathy was first suggested by Meyhoffer, who gave the indication in laryngeal tuberculosis as: "Expectoration of small lumps of bloody mucus with slight hoarseness." It is best suited to the early stage of the disease. Laryngeal tuberculosis. Chronic laryngitis.

SOURCES

Clarke.

Natrium silicofluoricum

(sulphate of sodium)

Pharmacy

Nat-sil-f. The Natrum silicofluoricum. Solution. Historical dose: All potencies.

History

Cooper is the chief authority for this remedy. Nat-sil-f. must be used carefully, as it has an extraordinary penetrating power. Cooper calls it the medicinal "bone scraper" in cases of caries. With a lotion of three grains to a tumbler of water he healed up quickly a case of lupus. **Planets:** Saturn.

Homeopathic

Cooper has seen ethmoiditis set up by it. Burnett has cured tumors with Nat-sil-f. given internally. Bones, disorders. Caries. Ethmoiditis. Tumors.

SOURCES

Clarke.

Natrium sulphuricum

(sulphate of sodium)

Pharmacy

Nat-s. Natrum sulphuricum. Glauber's salt. Sodium Sulphate. Sal Mirabile. Soda vitriolata. Trituration. Solution. Historical dose: All potencies, first to twelfth trituration.

History

Glauber's Salt or Natrum sulphuricum is a much honored remedy. Nat-s. was discovered by the alchemist Glauber in 1658 and named by him Salia Mirabile. It has since been named after him Sal Glauberi. It is the chief ingredient in many mineral Spas, notably those of Carlsbad.

PAGE 1182

Natrum sulphuricum was proved by Schreter, Hartlaub, Trinks and others. Nat-s. was studied by Grauvogl, who found in it the typical remedy for his "hydrogenoid constitution," and it forms one of the tissue remedies of Schussler. From whichever side it has been studied the indications arrived at are practically agreed upon by all, through the homeopaths has the widest field.

Grauvogl described as the hydrogenoid constitution the state in which there is extreme sensitiveness to damp wetting, bathing, watery foods and residence near fresh water, especially standing water. Periodicity is also another feature of this state. This constitution he considered as providing the soil for gonorrhoeal infection.

Natrum sulphuricum corresponds to Hahnemann's sycosis miasm. Nat-s. was Grauvogl's leading anti-hydrogenoid. It will be seen by the following quotation that Schussler by another route reaches the same conclusion:

"The action of the Sodium sulphate is contrary to that of the Sodium chloride. Both indeed, have the faculty of attracting water, but the end is a contrary one, Nat-m. attracts the water destined to be put to use in the organism, but Nat-sulph. attracts the water formed during the retrogressive metamorphosis of the cells and secures its elimination from the organism.

Homeopathic

Natrum sulphuricum is worse in rainy weather, water in any form. Feels every change from dry to wet, cannot even eat plants growing near water, nor fish. Always feels best in warm, dry air. It specially affects occiput and liver, pancreas.

Head symptoms from injuries to head. Mental troubles arising from a fall or other

injuries to head. *Clinical*ly, it has been found a valuable remedy for spinal meningitis. Every spring, return of skin disorders. Tendency to warts. Fingers and toes affected. Chronic gout. (Lyc.)

Nat-s. has epilepsy after head injuries. Suppressed gonorrhea. Sudden violent effects in ailing patients. Yellow, watery, secretions, stools, skin, vesicles etc. Thick yellow green pus. Sour, bilious and lithemic. Sycosis. Pains worse thinking of them. Dropsy. Fistulous abscesses. Trembling.

Clinical

Asthma, humid. Bedwetting. Biliousness. Brain injuries. Condylomata. Debility, alcoholics. Diabetes. Dyspepsia. Epilepsy, traumatic. Fistula. Gonorrhea. Head injuries. Headaches. Hydremia. Influenza. Leukemia. Liver, enlarged. Malaria. Migraine. Nephritis. Nosebleeds. Ophthalmia. Panaritium. Phlegmasia alba. Photophobia. Sciatica. Scrofulous glands. Sinusitis. Spinal injuries. Spleen disorders. Sycosis. Tuberculosis. Warts.

Constitutions

Nat-s. is for hydrogenoid constitutions, where complaints are such as due to living in damp houses, basements, cellars, patients cannot eat even plants growing near water, nor fish. A liver remedy, especially indicated for the hydrogenoid constitution, where the complaints are such as are due to living in damp houses, basements, cellars. **Planets:** Mars, Venus.

Modalities

Better from open air, warm dry air, change of position, pressure, breakfast, lying on back. Worse from damp weather, night air, dampness of cellars, lying on left side. Worse from head injuries, lifting. Worse touch, pressure, wind. Worse light, music, subdued light.

Worse from late evening, vegetables, fruits, cold food and drinks. Worse lying long in one position.

PAGE 1183

Symptoms

MIND

Mental troubles arising from injury to head or ill effects of falls. Depression, worse music or subdued light, sitting near a stained glass window. Suicidal impulses, has to use self control to prevent shooting himself, (Aur.) Intermittent attacks of mania. Lively music saddens. Melancholy with periodical attacks of mania. Sensitive and suspicious. Inability to think. Dislikes to speak or to be spoken to. Fear of crowds of evil. Cheerful after stools.

Abdomen

Duodenal catarrh. As of a lump below liver. Colic better rubbing or kneading abdomen, lying on sides. Cramps at umbilicus. Flatulence incarcerated, painful, pushes here and

there, right abdomen. Flatulency, wind colic in ascending colon, worse before breakfast. Burning in abdomen and anus.

Back

Itching when undressing. Piercing pain between scapulae. Spinal meningitis, opisthotonos. Soreness up and down spine and neck. Sharp cutting pain in back spreading upwards like a fan. Lumbar region pains if one attempts to retain the urine. Contusive pains in sacrum.

Breasts

Nipples retracted.

Chest

Pain through lower left chest. Chest feels all gone. Oppression in chest. Stitches in left side of chest.

Ears

Piercing in ears, worse in the damp weather. Sticking pains, earache, lightning-like stitches in damp weather. Lancinations in ears. Piercing pain in right ear inward. Ringing in ears, as of bells. Tinkling in ears.

Eyes

Conjunctiva yellow. Granular lids. Photophobia on waking in morning. Sensitive to sunlight. Heaviness of eyelids. Conjunctiva yellow. Crawling in. **Eyes** hot as if. Itching on edges of lids mornings. Burning in eyes. Aching in eyes in evening, when reading by candle-light. Blindness from head injury. Dimness of sight from weakness of eyes. Confused sight. Sparks before eyes after blowing nose.

Face

Yellow complexion, pale, sickly. Itching of face. Tearing in face and in cheek-bones. Vesicles on lower lip. Pimples on chin, they burn when touching them. Dryness on upper lip.

Female

Nosebleed during menses, which are acrid and profuse. Burning in pharynx during menstruation. Herpetic vulvitis. Leucorrhoea, yellowish green, following gonorrhoea with hoarseness.

Food

Desire for ice and ice cold water. Thirst at the start of fever only. Aversion to meat and bread. Starchy food, milk and potatoes disagree. Want of appetite and repugnance to food.

Head

Ill effects of falls and injuries to the head and mental or physical troubles afterwards. Meningitis, spinal. Occipital pain. Crushing or gnawing in occiput. Piercing stitches in ears. Bursting feeling on coughing. Hot feeling on top of head. Boring in right temple, preceded by burning in stomach. Headaches, worse by noise, stooping during menses, light, eating, better in dark room, vomiting. Salivation with headache. Head jerks to side (right). Scalp sensitive, hair combing painful. Brain feels loose when stooping.

Kidneys

Frequent urination. Polyuria. Diabetes. Loaded with bile. Urine with sediment of a yellow color or like brick-dust. Burning in urethra. Urine scanty, dark and passed more frequently, had to get up several times at night.

Limbs

Rheumatism, worse in damp cold weather. Pain in limbs, compels frequent change in position. Swelling of axillary glands. Inflammation around root of nails. Hangnail. Trembling of hands on waking and also when writing. Pain in hip joint worse rising or sitting down. Sciatica on rising from sitting or turning in bed, no relief in any position. Throbbing, piercing in heels. Vesicles on soles. Burning in soles. Edema of feet. Itching between toes. Gout. Stiffness of knees, cracking of joints.

Liver

Hepatitis. Jaundice after anger. Clawing in gallbladder. Gallbladder disorders. Sore and tender liver, worse deep breathing, stepping, jar. Painful sensitiveness to the touch. Stitches while walking in the open air.

PAGE 1184

Lungs

Dyspnea during damp weather. Must hold chest when coughing. Humid asthma, rattling in chest, at 4 and 5 a.m. Every fresh cold or any unusual exertion, brings on an attack of asthma. Asthma, sycotic in children, as a constitutional remedy. Cough with thick, ropy, greenish expectoration. Constant desire to take deep, long breath. Delayed resolution in pneumonia. Springs up in the bed the cough hurts so, holds painful side. (Bry.) Expectoration, greenish, copious.

Male

Warts. Condylomata, soft, fleshy excrescences, greenish discharges. Gonorrhoea, chronic, discharge thick, greenish, little pain. Condylomata. Itching of glans or penis of scrotum. Violent itching. Sweat on scrotum in evening. Increased sexual desire.

Mouth

Brown, bitter coating on tongue. Slimy, thick, tenacious, white mucus. Bitter taste. Dirty brown or greenish yellow, thick, pasty tongue especially at base. Gums burn like fire. Salivation during headache. Blisters on palate. Burning in mouth as from pepper.

Neck

Violent pains in back of neck and at base of brain. Stitches in nape of neck at night. Jerking tearings and tension in muscles, on left side of neck.

Nose

Coryza with obstruction of nose. Nasal catarrh with thick, yellow discharge and salty mucus. Ethmoiditis. Nosebleed, before and during menses, stops and returns often. Sneezing with fluent coryza. Sneezing with fluent coryza.

Rectum

Bruised pain and urging to stool. Diarrhoea yellow, watery stools. Loose morning stools, worse after spell of wet weather. Stools involuntary, when passing flatus. Great size of the fecal mass. Rumbling, gurgling in bowels, then sudden noisy spluttering stools in the morning or drives from bed.

Foamy or yellow diarrhoea, mixed with green slime.

Sensations

As if forehead would burst. As if a screw being driven in. As if top of head would split. As if brain was loose and fell to left temple. As if brain crushed in a vice or something gnawing there. As if bells ringing in ears. As if tympanum was pressed out. As if something forcing its way out of ears. Weight on chest. Lump or ball in throat. Burning

on top of head, right eye, edges of lids, gums, palate, anus, abdomen, soles to knees. Creeping in scalp to vertex. Crawling in eyes.

Skin

Itching while undressing. Jaundiced. Sycotic excrescences, wart-like red lumps all over body. Watery yellow blisters. Itching and itching pimples. Eczema, moist and oozing profusely.

Sleep

Sleeplessness caused by great agitation. Awakes from the pain or flatulency. Dreams of fighting. Dreams of running water. Uneasy sleep with anxious and disagreeable dreams. Great sleepiness during day. Jerking of limbs during sleep. Dreams of flying. Dreams of being insulted and fighting. Dreams of being involved in a mob-fight.

Stomach

Slow digestion. Green bilious vomit. Acid dyspepsia with heartburn and flatulence. Vomits sour. Bilious vomiting. Sour regurgitation. Frequent hiccough after eating bread-and-butter. Nausea with pain in eyes. Water-brash in evening.

Teeth

Drawing pains in teeth. Toothache better by holding cold water in mouth. Tearing in carious teeth, on getting out of bed, at night.

Temperature

Chilly, cannot get warm even in bed. Heat with aversion to uncover. Foul axillary sweat. Chilliness, shaking and chattering of teeth with anguish and thirst. Perspiration in morning. Sudden flashes of heat towards evening. Profuse sweat, at night.

Throat

Thick yellow mucus drops from posterior sinuses. Swallowing impeded. Burning in pharynx during menses. Sore throat. Frequent constriction of throat. Ulcers on tonsils.

PAGE 1185

Tongue

Burning blisters on tip of tongue. Tongue, dirty greenish gray or greenish brown coat at root. Tongue covered with mucus, slimy taste in mouth. Burning vesicles on tongue.

Vertigo

Vertigo, relieved by sweat on head.

Comments

If in consequence of a disturbance in the motion of the molecules of Nat-s. the elimination of the superfluous water from the intercellular spaces takes place too slowly, there arises hydremia and functional disturbances in the apparatus for the secretion of bile causes the following diseases:

Chills and fever, bilious fever influenza, diabetes, bilious vomiting, bilious diarrhea, edema, edematous erysipelas, on the skin, vesicles containing yellowish water, moist herpes, ringworm, sycotic excrescences, catarrhs with yellowish green or green secretions.

The state of health of persons suffering from hydremia is always worse in humid weather, near the water and in damp, moist underground dwellings, it is improved by contrary conditions. Nat-s. has ailments which arise or are worse from damp weather or dwelling damp houses, damp soil, weather changing to damp, getting wet. Every Spring, eruption on chest.

Nat-s. is Schussler's specific for epidemic influenza. Grauvogl and Schussler used Nat-s. in the lower triturations, but homeopaths need not confine themselves to any. When the correspondence is exact the highest potencies will act better than the lower, when the likeness is more general the lower will give the best results.

Asthma is very frequently a sycotic manifestation, Nat-s. corresponds to the breathing and skin symptoms after and met with in asthma. Asthma of malarial districts.

Humid asthma of children with every fresh cold an attack of asthma. Attacks of asthma frequently occur in the early morning hours.

Leonard has cured with Nat-s. 200x a very violent asthma which was always induced by any unusual exertion.

W. J. Guernsey has recorded a similar case: Mrs. S., 36. Violent attack of asthma, greenish, purulent sputa, a loose evacuation immediately after rising the last two days. Nat-s. 500c was given in water, every two hours. Was enabled to lie down the same night and all symptoms rapidly cleared up.

Another case by the same observer is this: Mrs. C. 42. Subject to attacks for years. Expectoration of greenish mucus and very copious. Nat. sulph. in water very three hours. Improvement began after a few doses, expectoration became paler and less abundant. Felt better than for years previously.

Nat-sulph, has many strongly marked symptoms of the mind and head. It has headache with drowsiness, basal headache, as if the bones at the base of the brain were crushed, pressure on both sides or on right side of occiput.

Mental troubles arising from injury to the head. Like other Natrums, it has mental symptoms worse from music. Low spirits even to suicidal impulse. Irritability, worse morning. Nervous exhaustion brought on by debilitating diseases.

There is also "Cheerfulness after loose stools." Nat-s. has nosebleed before and during menses (not vicarious like Bry). Toothache is worse by warm things intolerable by hot things and better by holding cold water in the mouth. In scrofulous ophthalmia, granular lids, etc., Nat-s. has a great curative sphere.

H. C. Allen says that with the possible exception of Graph., no remedy has "such terrible sensitiveness to light."

Traumatic epilepsy resulting from injury to the head has been cured with Nat-s. The dreams of Nat-s. are remarkable.

Hermann of Paris cured a young lady, a patient whose sleep was disturbed by dreams of fighting.

Mahlon Preston has cured many cases of threatened tuberculosis having "pains flying from the chest beginning with a dry cough."

PAGE 1186

Gregg gives the symptoms: "All-gone, empty feeling in chest, a sense of weakness in chest, must hold chest with both hands when coughing for support to relieve the weakness." Gregg refers "must hold chest because of pain and soreness, feels as if it would fly to pieces," to Bry. and Phos. Nat-s., has both.

Natrium sulphurosum

(sulphite of sodium)

Pharmacy

Nat-sulo. Sulphite of Sodium. Natrum sulphurosum. Sodium Sulphite. Trituration.

Solution. Historical dose: All potencies.

History

Clarence Bartlett relates a case of chronic diarrhea in which "the stools were watery and looked very much like yeast" cured with Nat-sulphuros. 3x given after the failure of many other remedies, at the suggestion of Farrington on the indication "yeasty stools."

Planets: Moon.

Homeopathic

The patient had pain in right scapula as if bathed in hot water, was much debilitated, taking food provoked a stool. The face was whitish waxy, except the cheeks, which were a "light freckle color." Yeasty stools and Diarrhea.

SOURCES

Clarke.

Nectrianinum

Pharmacy

Nectrin. Nectrianinum. Nosode of cancer of trees. Nectria ditissima. Dilution. Trituration of the parasite. Historical dose: All potencies.

History

Nectrianinum is a clear liquid of a yellowish-brown hue which was prepared by Bra and ChaussŽ as follows:

Nectria cultures two months of old, on grape broth, are evaporated on a water bath until reduced to one-third of their original volume. They are filtered through paper and again through porcelain. The liquid is then taken to the autoclave at a temperature of 120 degrees centigrade. This assures that all spores are killed. **Planets:** Moon.

Homeopathic

In a summary of the results the observers say that Nectrin. has caused:

"An arrest or diminution of hemorrhages. Suppression of fetid discharges. A tendency at times to epidermization of the neoplasm with a corresponding well-defined arrest in its evolution."

The patients were worse when treatment was discontinued and better when it was resumed. In very advanced cancer reaction may not occur.

Clinical

Cancer. Epithelioma.

Negundium americanum

(box elder)

Pharmacy

Neg. Box Elder. *Negundium americanum*. *Acer negundo*. Ash leaved Maple. N. O. Sapindaceae. The bark of the root is macerated in twice its weight of alcohol. Historical dose: All potencies.

Herbal

Dr. O. S. Laws of Los Angeles California, writes of a new "pile" remedy, *Negundo*: In botanical language it is known as *Negundium americanum*. The common name is "box elder." It is a native of Kansas. It is a distant relative of the *Acer* family.

The bark of the root in the yearling plants is preferred. Recent cases of hemorrhoids can be completely cured in this way and the old hard cases temporarily relieved. **Planets:** Moon.

PAGE 1187

Homeopathic

Negundo has writhing with an engorged rectum. Engorgements of rectum and hemorrhoids with great pain, five to ten drop dose of tincture every two hours. Hemorrhoids.

SOURCES

Anshutz. Boericke.

Nepenthes distillatoria

Pharmacy

Nep. *Nepenthes distillatoria*. *Nepenthaceae* family, related to the *Aristolochiaceae*. The mother tincture is prepared from the entire plant. Historical dose: Tincture and all potencies, 3x to 30c.

History

The *Nep.* symptomatology was established by Julian with a group of twenty-one people, (five men and sixteen women), using the following potencies: 15x, 6x, 3x and placebo in 1960-61.

Julian states: "It is possible to confirm without being misleading, that is digestive and genital infections, for which we have described the clinical indication above, *Nepenthes* is a sure and faithful remedy of great value."

Homeopathic

Nep. has a feeling of general, cerebral and physical tension. Weariness and prostration. Followed by a general improvement. General fatigue with complete exhaustion around 3

p.m. Painful sensitivity of the scalp. Feverish, restless, hasty in actions. Extreme tiredness with shivering.

Over activity. Hyperthyroidism. Fever, irritation, restlessness. Dyspepsia with dryness in the mouth, hunger-pangs, feeling of bruising in the epigastrium. Abdominal distention. Menstrual disorders with female frigidity. Dryness of the skin. Diminution of nervous tension.

Clinical

Diabetes insipidus. Headaches. Migraines. Narcolepsy. Neurasthenia. Torticollis. Vertigo.

Constitutions

Pre-senility. Carbo-flouric constitution. Thyroid conditions with cancerous tendency. Syphilitic poisoning. **Planets:** Moon.

Modalities

Better in the fresh air. Worse at night towards the end of the day. Worse predominantly the left side.

Symptoms

MIND

Hasty in actions. Depressive state with prostration, sadness and fatigue. Irritation. Impatience, nerves jangle and feeling of anguish. Anguish, accompanied by sadness and depression. General internal trembling, ameliorated by resting. Pain in the 'nerves', unfamiliar, new depressive sensation. Fatigue, prostration, sadness. No desire to smoke. Apathy. Narcolepsy. Neurasthenia. Hypochondria. Neurosis from anguish. Optimism, everything seems easier, less wasting.

Abdomen

Dull aching in the liver. Distention. Flatulent dyspepsia. Gastric and duodenal ulcers. Feeling of a hard ball in epigastric region. Diaphragmatic hernia.

Back

Pains in the lumbar region when bending down. Lumbar area is fatigued. Torticollis. Chronic lumbar rheumatism.

Chest

Retro-sternal discomfort after meals.

Eyes

Pricking of eyelids. Conjunctivitis.

Female

Frigidity. Hypogastric heaviness. Stinging, needle-like, flashing pains around the right ovary in the morning. Left ovarian pain, spreading to the left kidney. Menses early by 5 days and copious. Menses repeat after a period of amenorrhea lasting 6 months. Feeling of swelling of whole body 10 days before menses. Cystic ovaritis. Secondary amenorrhea. Congestion of the pelvis. Endometriosis. Frigidity. Diminution of sexual desire. Infertility. Metrorrhagia and menorrhagia.

Food

Appetite wanting. Feeling of thirst. Hunger with feeling of weakness. Hunger-pangs at 6 a.m. and around 11 a.m. No desire to smoke.

Head

Migraines. Head heavy.

Heart

Feeling of a lump in the precordial region and in the arms, fairly violent, but not spreading and disappearing gradually after half an hour, not aggravated by movement. In habitual hot flushes. Cardiac neurosis. Digestive cardiac pains.

PAGE 1188

Kidneys

Increased urinary excretion. Polyuria in the morning.

Limbs

Cramps in the left leg, soothed by bending the leg. Arthrosis of the hip. Pains in the left hip.

Lungs

Reflex cough, related to the thyroid area.

Mouth

Insipid taste. Peculiar indefinable taste in the mouth. Gingivitis. Palate rough. Persistent taste of pimentos in the mouth. Taste like iron in the mouth during the morning. Burning flavor with feeling of dryness in the mouth. Dryness in the mouth, especially the pharynx with expulsion of mucus.

Nose

Head cold. Dry cough. Dryness of the nasal mucous membranes. Atrophic rhinitis.

Rectum

Nausea. **Heart**burn. Stools easy, but can be painful to expel. Stools easy with bleeding hemorrhoids. Stools more difficult to expel.

Skin

Dryness of the skin and mucous membranes. Skin on the face dry with small eczematous eruptions. Rapid, clear regression of malleolar edema. Herpes on the upper lip, on the right side. Violent itching, situated at the fold of the left elbow. Painful sensitivity of the scalp. Hair is more alive and is easier to arrange. Labial herpes. Ichthyosis. Pityriasis-type eczema.

Sleep

Yawning, after eating, sleepiness. Sleep light and disturbed. Insomnia at first, then deep sleep. Wakes early.

Stomach

Gastric dyspepsia. Swelling, heaviness in the stomach with the need to take deep breaths. Gastric pains. Ameliorated by alkalis, by walking in the open air. Feeling of bruising in the stomach. Cancer of the stomach.

Throat

Larynx, sensation of hardness. Larynx sensitive on palpation. Laryngitis.

Tongue

Glossitis. Feeling like parchment at the tip of the tongue and below the roof of the mouth. Tingling at the tip of the tongue. Tongue dry, thick. The median line of the tongue stands out from the tip to the root. Tobacco aggravates the tongue complaints.

Compare

(1) Arg-n. - Phobic, asthenic conditions, irritation of the mucous membranes. Anxious agitation, weakness of the legs with trembling. Feeling of a splinter of wood lodged in the pharynx.

(2) Merc-v. - Mental slowness, weakness and trembling at the slightest exertion. Fetid odor in the mouth with metallic taste, nocturnal sweating, diarrhea, copious menses and burning, itching leucorrhea.

SOURCES

Julian.

Niccolum metallicum

(nickel)

Pharmacy

Nicc. Niccolum metallicum. Niccolum carbonicum. Metallic Nickel. The carbonate of nickel. Trituration. Historical dose: Trituration and all potencies, third trituration.

History

Nickel is found associated with Cobalt. It is said to have received its name. Nickel, the devil from the miners, who considered it "false ore" as they were mining for copper. The word Cobalt, (Kobold) has possible a similar derivation. Nickel forms the chief ingredient in the alloy known as "German silver."

Nickel was proved by Nenning and the pathogenesis contains some striking symptoms, many of which have been confirmed. Sir James Y. Simpson used the Sulphate of Nickel in "periodic headaches of a very severe character," and the provings show that the metal and the carbonate are equally appropriate in this connection.

Nickel has also cured dysmenorrhea, hoarseness and cough and cracking in cervical vertebra on moving the head. It has some characteristic coughs:

"Must sit up and hold head with both hands with the cough." The child must be held up when coughing or it will go into convulsions.

Homeopathic

Nickel is a remedy for periodical nervous headaches with asthenopia, weak digestion, constipation of debilitated literary persons. Catarrh. Must sit up and hold the head with hands or has to put the arms on thighs when coughing, worse night. Violent hiccough with thirst. Child must be held up during the cough otherwise it would be seized by spasms.

Great debility in evening. Restlessness worse at night from agitation. Compelled to change position continually with vomiting and colic after suppressed menstruation.

Tearing and shooting in the limbs and other parts.

PAGE 1189

Clinical

Asthenopia. Clavus. Cough. Dysmenorrhea. Face, chapped. Headache, nervous, periodic. Hiccough. Migraines. Nasal catarrh. Neck, cracking. Ophthalmia. Speech, impeded. Throat, sore. Tongue, stiff. Toothache. Vision, impaired. Whooping cough.

Constitutions

Hering says it is suited to: Literary men and others who suffer from periodical nervous headaches, weak, asthenopic, weak digestion, constipation, worse morning on awaking.

Planets: Mercury, Moon.

Modalities

Better in open air. Better in evening. Cold helps pain in face. Coughing helps roughness of throat. Most symptoms are better after eating. Worse periodically, every two weeks, yearly, forenoon. Worse from motion. Talking and yawning aggravates sore throat. Worse after midnight and on pressure.

Symptoms

MIND

Low-spirited, fears something evil will happen. Vexed and very angry from least contradiction. Anxious moroseness and inquietude. Trembling and fright with desire for solitude. Dislike to conversation. Anxiety on moving as if sweat would break out. Dullness of mind, does not comprehend the conversation and is unable to relate properly in conversation.

Abdomen

Violent stitches, as with knives in hypochondria. Pinching around navel. Painless rumbling in abdomen. Tension of abdomen and discharge of flatulence.

Back

Cracking in cervical vertebrae when moving the head. Pain in neck, as from a sprain. Stitches in small of back afternoons. Pain in the small of back during a soft stool.

Chest

When coughing, dyspnea and pressure on chest. Stitches in chest when breathing. Shootings in chest, especially when laughing. Pressure and heaviness on chest. Pain, as from excoriation in chest.

Ears

Stinging in ears. Shootings in ears. Sudden deafness with roaring and humming in ears, evening.

Eyes

Heat and redness of eyes with pressing in them. Agglutination of eyes in morning. Violent twitching in eyes, with lachrymation and difficulty of vision. Vision very much impaired, especially in the evening. Objects appear too large.

Face

Skin of face chapped. Right side of face red and hot. Redness of face with burning and itching like erysipelas. Swelling of right side of face with sore throat. Painful sensitiveness and cramp in maxillary joint, which hinders mouth from being easily opened. Itching tetter on cheeks. Eruption on lips. Twitching of upper lip.

Female

Menses premature, scanty and of too short duration. Menses late, scanty with great debility and burning in eyes. Profuse leucorrhea, worse after urinating (Mag-m., Plat.), also worse after menses. During menses, bloated abdomen, colic, pain in small of back, great debility, burning of eyes. Leucorrhea, watery after urination.

Food

Farinaceous taste in mouth on rising in morning. Aversion to meat. Risings with taste of roasted meat. Want of appetite. Thirst in evening. Violent thirst day and night.

Head

Periodical headaches, every two weeks. Migraines, first on left side. Headache all day in forenoon with vomiting of bile. Pain on top as from a nail. Pressure on vertex in morning, worse until noon and in warm room. Stitches.

PAGE 1190

Kidneys

Increased secretion of urine, also at night. Burning urine. Burning at orifice of urethra during urination. After urination, discharge of thin leucorrhea.

Limbs

Heaviness in the hands and feet better by motion. Pain in shoulders as if sprained. Rheumatic pains in elbows, extending to hands in fingers. Headache feels heavy, tremble, feel bruised. Feet feel heavy, tremble and are weak. Stitches in left heel.

Lungs

Hoarseness. Dry hacking cough with stitches in chest. Dry hacking cough like the tick of a clock in its regularity. Obligated to sit up and hold head. must put arms on thighs, when coughing. Cough from tickling in trachea. Dry, scraping cough with sleeplessness. At night violent cough. Expectoration of white mucus.

Male

Erections, worse after dinner. Itching on a small spot of scrotum, scratching does not better it.

Mouth

Abundant accumulation of sweetish saliva in mouth. Breath is offensive of which he himself is not aware. Bitter taste in mouth in morning. Stiffness of the tongue, it is difficult to talk.

Nose

Violent sneezing, stopped up. Nasal catarrh with redness and swelling at tip of nose. Acute pain at root of nose, extending to vertex and through temples. Dryness of nose. Obstruction of nose, nose stopped up at night. Coryza, fluent during day and dry during night. Stinging, tearing and soreness at root of nose. Eruption on nose.

Rectum

Constipation ineffectual urging to go to stool, stool very hard and only discharged with great effort, has to press hard to discharge the stool. Cutting pains with diarrhea.

Diarrhea with yellow mucus, expulsion with great force and much flatulence. Diarrhea after drinking milk and tenesmus, preceded by cuttings or burning in anus.

Sensations

As if sweat would break out. As if brain were cut to pieces. As if she had not slept enough. As if a nail was sticking in head. As if neck sprained. Abdominal pains go from left to right.

Skin

Itching all over, worse on neck, not relieved by scratching. Itching over the whole body, but mostly on the neck, as from fleas, not better by scratching, but followed by small vesicles. Itching and pimples in small of back. Itching on shoulders, scratching does not better. Itching tetters.

Sleep

Sleeplessness from midnight until 4 a.m. Wakefulness. Frequent awakening, at night from agitation. Feels as if she had not slept sufficiently. Pain in swollen face wakens him at night, it is better by cold. Awakens after midnight with colic.

Stool

During stool, burning and stitches in rectum and anus. After stool, itching, burning and stitches at anus.

Stomach

Gone, empty feeling in epigastrium without desire for food. Acute stomach pain with pains extending to shoulder. Thirst and intense hiccough. Sour, fetid secretions ooze from molar teeth. Diarrhea and tenesmus after milk. Violent hiccough in evening. Fullness in stomach after eating. Bitter and sour belchings. Nausea. Painful sensation of constriction of stomach.

Teeth

Swelling of gums. Gnawing toothache in evening. Toothache with tearing in ears toothache with tearing in right ear. All teeth feel loose and elongated. When decayed molar teeth are sucked a sour, fetid water is drawn from them.

Temperature

Fever, restlessness and vomiting at night. Chill is preceded or begins with yawning and sleepiness. Chill with chattering and shaking, followed by profuse general perspiration. Heat with burning thirst. Heat followed by chill.

Continuous chill with moist palms of hands. Anxious heat with violent thirst. Heat with perspiration and thirst, followed by chill. Morning sweat.

PAGE 1191

Throat

Hoarseness, every year at same time. Sore, right side with great tenderness, Soreness to touch externally. Strangulated feeling. Sore throat, worse when speaking or yawning. Throat feels sore as if ulcerated on swallowing. Swelling of tonsils on right side, as well as of face and neck, which are painful when touched. Spasmodic contractions and sensation of strangulation in throat. Accumulation of thick mucus in throat with stinging pain. Stitches in throat on swallowing. Roughness in throat better by coughing.

Vertigo

Vertigo when awaking with nausea and desire to vomit. Vertigo in the morning, when rising after stooping in evening. Vertigo with dizziness and staggering, as from weakness, worse on getting in up in the morning.

Comments

H. Moser has cured cases when the pain is: worse 10 to 11 a.m. and may be so intense as to cause the patient to cry out, appears first left side, may jump to right, disappears in evening.

Mahony cured with Nicc. 200c a middle-aged lady who had "loose hacking cough day and evening and at 9 a.m. , has to put arms on thighs when coughing."

W. A. Clausen has supplied a keynote fro the sore throat of Nicc.: Right side with exquisite tenderness, soreness to touch externally on affected side. Must sit up and hold the head with both hands when coughing: or has to put arms on thighs when coughing.

Niccolum sulphuricum

(sulphate of nickel)

Pharmacy

Nicc-s. Sulphate of Nickel. Niccolum sulphuricum. Trituration. Historical dose: Second trituration. Historical dose: Trituration and all potencies.

History

Niccolum sulphuricum is for weak, asthenopic literary persons with weak digestion and constipation, are worse in morning and suffer from periodic headaches and hoarseness.

Planets: Moon, Mercury.

Homeopathic

Niccolum is very useful in menopausal disturbances. Urine and saliva increased. Coppery taste in mouth. Periodic neuralgias of malarial origin.

Clinical

Headache. Hot flashes. Neuralgia, periodic.

Symptoms

MIND

Nervous, uneasy, desire to recline, tired, cannot settle down to any occupation.

Back

Stiff, numb sensation, worse in neck. Spine sore. Spinal pains, legs and arms heavy and weak, cannot lie on back.

Female

Dull aching in ovaries with sensation as if menses appear. Hot flashes, followed by perspiration on parts touching each other, when separated become dry.

Head

Periodic headaches, occipital pain, extending down to spine, worse lying on back, sore pain in eyes.

Limbs

Awakened in morning with burning soles.

Comments

J. Y. Simpson cured with Nicc-s. periodical headaches of very severe character.

PAGE 1192

Hale used with success the Nicc-s. 2x trituration. in periodic neuralgias of malarial origin.

Nicotinum

(nicotinum)

Pharmacy

Nicot. Nicotinum. Nicotine. An alkaloid from *Nicotiana tabacum*. Solutions in distilled water or alcohol. Historical dose: All potencies.

History

Nicotine, has had a very heroic proving by Flak, Wochenfeld, Wertheim, Schroff and Reil. Very violent tonic and clonic spasms were produced. Dullness of senses. Loss of consciousness. **Planets:** Moon, Mercury.

Homeopathic

Nicotinum has alternate tonic and clonic spasms, followed by general relaxation and trembling, nausea, cold sweat and speedy collapse. Coldness extends from tips of fingers and toes over trunk. Jerking respiration.

Great aversion to tobacco and tobacco smoking. One prover, a smoker was unable to smoke more than a few whiffs, the other, a non-smoker, could not approach, any one who was smoking.

Respiratory muscles most affected, breathing difficult and impeded, every respiratory effort consisting of a series of short jerks in quick succession. Excitement. Uneasiness. So weak could scarcely hold up head. Paroxysms of faintness beginning with a vanishing of senses and ending with loss of consciousness.

Clinical

Aura of epilepsy. Brain-fag. Collapse. Epilepsy. Seasickness. Spasms. Tetanus. Tobacco, effects.

Symptoms

MIND

Delirium with frightful vision. Inability to think or fix attention on any subject.

Abdomen

Distended. Disagreeable sensation through whole intestinal canal.

Chest

Oppression, compelling deep breathing. Sensation of foreign body behind sternum.

Ears

Indistinct hearing, sensation as if ears filled with cotton.

Eyes

The eyelids feel too heavy. Lachrymation. Pupils dilated. **Indistinct vision** with sensitiveness of eyes to light.

Face

Face pale, features drawn. Sensation of an aura in upper jaw.

Head

Dullness of head, heaviness, dizziness, stupefaction. Head drawn back with rigidity of muscles of neck and back.

Heart

Pulse increased infrequency in direct proportion to dose. Pulse and respiration very irregular, sometimes becoming very rapid, sometimes sinking. Constant sinking of pulse.

Kidneys

Urgent desire, urine copious increased.

Limbs

Formication, beginning in tips of fingers, extending to the wrists and afterwards to elbows. Weakness of lower limbs, on going up stairs,

Lungs

Breathing, very rapid and difficult.

Mouth

Sharp burning sensation in tongue. Increased saliva. Scraping, burning taste, especially low down in throat, causing hiccough and hawking.

Nose

Expired air had odor of alcohol (to provers and others).

Rectum

Excessive desire for stool, better by emission of flatus and urine. Stool retarded.

Sensations

Great sensitiveness of eye to light, along with indistinct vision. Aura in upper jaw. As though a sharp brush had been drawn through esophagus to stomach,

Skin

Dryness of skin.

Sleep

Sleepy. Restless night, sleepless, hot and excited.

Stomach

Loss of appetite. Eructation with some vomiting which better. Hiccough. Disagreeable sensation extending from stomach upwards and downwards.

A persistent sensation of emptiness and faintness in stomach and intestines.

Disagreeable sensations extending upwards and downwards from stomach. Emptiness and faintness in stomach.

PAGE 1193

Temperature

Limbs icy cold. Coldness beginning in tips of fingers and toes and extending to trunk. Shaking chill. Sensation of warmth commencing in stomach, rapidly extending over chest and to head and like a streaming into tips of fingers and toes, not followed by sweat. Cold sweat.

Throat

Dryness and scraping in throat. Sensation as though a sharp brush drawn through esophagus to stomach. Sensation of dysphagia.

Vertigo

Vertigo and headache.

Comments

Nicot. has the head drawn back, contraction of eyelids and masseter muscles, muscles of neck and back rigid, hissing respiration from spasm of laryngeal and bronchial muscles. Peculiar clonic spasms that gradually increased, limbs began to tremble, the trembling extended at last over whole body, which became violently shaken.

Nigella sativa

(black cumin)

Pharmacy

Nigella Sativa. Black Cumin. Fennel flower. Blessed seed. N. O. Ranunculaceae. Tincture from rectangular black seeds. Historical dose: Tincture and all potencies.

Herbal

Nigella sativa is the fennel flower of the buttercup family. It is sometimes confused with the fennel plant, (*Foeniculum vulgare*). It has blue flowers and black seeds have been used in Egyptian and Arabic medicine. The ancient Egyptians used this plant and wrote about it in their medical books.

A special oil is extracted from Nigella which was used in many many herbal formulas as a digestive tonic and stimulant. Undiluted Nigella oil causes irritation to the stomach and intestines, increases the flow of breast milk, stimulates the menstrual flow and causes excessive salivation. It helps prevents gout if added to the diet. **Planets:** Moon, Mercury.

Homeopathic

Avicenna maintains that it is an expectorant and tonic for low energy and apathy. Nigella sativa affects the digestive tract and the respiratory tract. It acts as a tonic for weak digestion, colic, gas and belching. Dry coughs, asthma, bronchitis and whooping cough. Also Nigella has helped leucoderma, skin allergies, periodic fevers, hemorrhoids.

Clinical

Asthma. Belching. Bronchitis. Colic. Coughs. Flatulence. Jaundice. Parasites. Whooping cough. Worms.

Comments

Placing the powdered seeds in a cloth and inhaling them helps reduce the common cold. A decoction of the black seeds helps amenorrhea, dysmenorrhea, intestinal worms, fevers, paralysis and hemorrhoids. Adding the seeds to the diet will help prevent gout.

Drinking a tea made from the crushed seeds with honey can help dissolve gallstones and kidney stones. The tea also increases the flow of the breast milk, the menses and urine.

Nigella has been used externally for ringworm. An ointment was used to stimulate the growth of the beard and helps prevent hair graying. Dog bites and spider bites have been helped by this plant. Smoke of black seeds drives insects away.

Nitri spiritus dulcis

(sweet spirits of nitre)

Pharmacy

Nit-s-d. Nitri spiritus dulcis. Aethylum nitrosum. Spiritus etheris nitrois. Nitrous ether. Sweet spirit of Nitre. A mixture of alcohol, water and ethyl nitrite: it contains no "nitre" (Kali-nit.). Dilution.

Historical dose: Tincture and all potencies, a few drops of the pure spirits in water every two or three hours.

PAGE 1194

History

Nitri spiritus dulcis has been proved by Lembke. Poisonings with Nit-s-d. give a perfect picture of the typhoid state. It has been used as a remedy for incarcerated gall-stones, given beaten up with yolk of egg and applied outwardly in the same form.

The symptoms of Nit-s-d. go from below upward. They are much worse on passive motion, riding in carriage. Catching cold in stormy weather causes prosopalgia. Among the effects of salt cured by Nitri spiritus dulcis are.: Sore mouth, scurvy, bloody diarrhea, hands covered with warts. Worse from cheese.

In fevers, Hahnemann advised that Nitri spiritus dulcis should be given thus: a few drops dissolved in an ounce of water, a teaspoonful every three hours. **Planets:** Mars.

Homeopathic

Nitri spiritus dulcis has been found to be an antidote to several medicines. It was recommended by Hahnemann for hospital typhoid with apathy and has been used with success in typhoid fevers with symptoms of cerebral paralysis in diarrhea and sore mouth of salt eaters. Want of appetite.

Nit-s-d. is an excellent diuretic. It increases the action of Digitalis. Ill effects of excessive salt intake, (Phos.). Salty taste. Dry skin, nausea, flatulence. Catching cold in stormy weather. Acute nephritis following scarlet fever. Dropsy. Urine very scanty.

Sensorial apathy in low fevers when there is stupor, difficulty of arousing patient is met by this remedy.

Great fatigue, a recumbent position can alone mitigate and tranquilize it. Excessive emaciation. Swelling of veins. Very sensitive to cold.

Clinical

Diarrhea. Gallstones. Mouth, sore. Prosopalgia. Tibia, pains. Typhoid. Warts.

Causations

Salt. Cheese. Stormy weather.

Modalities

Cold aggravates. Worse from mental disturbance. Worse during winter and spring. Worse afternoon. Walking aggravates breathing and heat.

Symptoms

MIND

Complete apathy without desire for anything. Delirious and incoherent in manner, dizzy as if intoxicated, when roused could answer questions, complained of headache and said he found it difficult to walk straight of late. Excessive ill-humor, irascibility, passion and quarrel-some disposition with tendency to weep, dislike to labor and conversation.

Abdomen

Shootings, cutting and burning pains in abdomen. Gall-stones.

Back

Violent pressure in nape and cervical vertebra. Sensation as hot water creeping through back from below upward.

Chest

Painful constriction behind sternum.

Eyes

Black spots and rings float before eyes, pupils contracted. Stitches in eyes and lids, burning on margins. Pupils somewhat dilated, acting feebly.

Face

Prosopalgia with photophobia. Burning in cheeks. Boring in facial bones in angles of lower jaw. Very sensitive to cold.

Lungs

Short, dry cough. Very rapid breathing by going only a short walk.

Mouth

Tongue dry. Heat in mouth, sour taste. Cankers after eating cheese. Accumulation of water in mouth.

Skin

Shiverings and acute drawing pains in the bones. Skin and tongue dry.

Stomach

Continued nausea and loathing. Vomiting, followed by lassitude. After a meal, vomiting of sour matter and mucus, followed by headache. Vomiting and purging.

Contractive pain and aching in stomach with sensation of fullness, immediately after a meal.

Stool

Epidemic dysentery with lethargy. Bloody diarrhea after purging from salt. Constipation marked.

PAGE 1195

Temperature

Typhoid with sensorial apathy and semi-paralysis of brain, wild, staring eyes. Adynamic fevers with nervous symptoms such as shootings, jerkings, etc.

Throat

Sensation of contraction in throat with pain, as of a plug in gullet.

Compare

- (1) Ph-ac., Lyc. - worse afternoon, fullness after meals.
- (2) Coloc. - worse from cheese.
- (3) Hell., Ph-ac. - typhoid, sensorial apathy, stupor, Ph-ac. has apathy more pronounced than Nit. s. d., Hell. most of all.

Nitricum acidum

(aqua fortis)

Pharmacy

Nit-ac. Nitricum acidum. Nitric acid. Aqua Fortis. Solution. Historical dose: All potencies, sixth potency.

History

The Aqua Fortis of the Alchemists. When strong Nitric acid comes in contact with the skin it destroys the upper layers and turns them yellow, but as it coagulates their albumen it to a certain extent forms a barrier against its own further action, its action therein differing from that of Sulphuric acid.

When swallowed it acts as an irritant poison: when its fumes are inhaled it may destroy life by suffocative spasm of the glottis or by intense bronchitis. As the nitric acid patient begins to improve skin symptoms may appear for a time, a favorable indication.

Nit-ac. is used in old-schools practice as an escharotic for warts and warty tumors, for phagedenic ulcers, chancres, poisoned bites. Nit-ac. is used internally in fevers to quench thirst in bronchitis and tuberculosis to diminish the excessive secretions in some cases of syphilis in phosphaturia.

It has been injected into the bladder in a dilute form to dissolve stones (Brunton).

"Tuberculosis," "syphilis," and "warty growths" represent Hahnemann's three miasms, Psora, syphilis and Sycosis and Nit-ac. belongs almost equally to all three. But in addition to its miasm relationship.

Nit-ac. is one of the chief antidotes of Merc. and it is in cases of syphilis that have been overdosed with Merc. that its action is most brilliant. Overdosing with Kali-i., whether in syphilitic or non-syphilitic cases. In tubercular cases it follows the action of Kali-c. in homeopathic practice. In sycotic cases Thuj. follows it will.

The suffocating effect of Nit-ac. fumes is an indication of its affinity for the respiratory organs. Here is an example: A two-gallon bottle of Nitric acid in the store of Mr. Harold Woolley of Manchester, had become fractured. Water was thrown upon the bottle and whiting placed about it to neutralize the fumes which issued from the fracture.

Mr. Woolley superintended the process and was in contact with the fumes for two hours. This happened in the afternoon. Next day Mr. Woolley complained of being unwell and although medical aid was promptly summoned he died at 5 o'clock in the afternoon. Death being attributed to rapid congestion and inflammation of the lungs in consequence of inhaling the fumes.

Brunette rather than blonde nervous temperament. Persons suffering from chronic diseases who take cold easily and are disposed to diarrhea. Old people with great weakness. **Planets:** Mercury, Saturn.

PAGE 1196

Homeopathic

Nitric acid has a marked affinity for the margins of the outlets especially of the throat, anus and mouth in addition it affects glands, liver prostate and salivary. Nitric acid causes hemorrhages, easy, bright or bloody water. Patients are greatly debilitated, trembling, shivery, sensitive and sore.

Nit-ac. has pains as from splinters. All discharges very offensive, especially urine, feces and perspiration. Excessive physical irritability. Sticking pains. Marked improvement of all symptoms while riding in a carriage. Syphilis after abuse of Mercury. Pains appear and disappear quickly. (Bell.)

Blisters and ulcers in mouth tongue, genitals, bleed easily. Fissures with pain during stool, as if rectum were torn. Cachexia, due to syphilis, scrofula intermittent fever with liver involvement and anemia, etc. Gravel, arthritis. Capillary bleeding after curettage.

Pains, sticking like splinter or ulcerative grating. Slight pain affects him violently.

Discharges are acrid, thin, dirty or brown, they cause redness or destroy hair.

Offensiveness, ozaena, foot or night sweats. Mucous membranes are dark, smooth.

Orifices are red swollen and cracked. As of a band about or weight hanging to the part.

Bleeding after curettage. Malignancy. Phagedena. Fistulae. Syphilis. Sycosis. Cancer.

Stubborn suppuration. tones painfully sore. Convulsions, epileptiform, at night and going to bed during the day frequent vertigo, better riding in carriage. Pains, as if flesh is torn from the bones. Decay and exostoses of bones. Sensitive to medicines given in high potency. As of a mouse running up and down left side. Night-sweat on parts lain on.

Clinical

Actinomycosis. Anus, fissures. Axilla, perspiration. Bladder, chronic catarrh. Breath offensive, Bright's disease. Bronchitis. Bubo. Chancre. Chilblains, Choking, easy. Menopausal, Cold, easily taken. Condylomata. Constipation. Corns. Coughs. Dysentery, Dyspepsia.

Ear disorders. Epilepsy. **Eyes** disorders. Feet. perspiring. Fistula, lachrymal. Freckles, Frost-bites. Glandular swellings. Gleet. Gums, sore, Hematuria. Hemorrhages. Herpes. Herpes preputialis. Ingrowing toe-nail. Iritis, syphilitic. Irritation. Jaw joint. Keloid. Menses, profuse. Metrorrhagia. Mouth, sore, Mucous patches, Muscae volitantes. Myopia. Nails disorders. Ozaena. Paralysis. Perspiration, abnormal. Phimosis. Polyps. Proctitis. Prostate, suppuration. Ranula. Rectum disorders. Rickets. Salivation. Spine injury. Syphilis. Taste, disordered. Tongue, ulceration. Ulcers. Warts. Wens. Whooping cough.

Causations

Ill effects of loss of sleep from nursing the sick. Injury to spine. Anti-biotics drugs, penicillin. Mercury.

Constitutions

Hydrogenoid constitution. Sycotic remedy. Persons who have chronic diseases and take cold easily and disposed to diarrhea. Acts best on the dark complexioned and middle age

or older. Nit-ac. is suited to: Persons of dark, swarthy complexion with black hair and eyes, lean persons of rigid tissue.

Modalities

Better from gliding motion. Better riding in a carriage. Better mild weather, steady pressure. Worse slight causes from touch. Worse from jarring, noise, rattling, motion. Worse milk, fat food after eating. Worse cold air, dampness, evening and night, changing weather, heat of bed. Worse mental exertion or shock. Worse mercury, loss of sleep. Worse cold climate and also hot weather.

Symptoms

MIND

Anxiety about diseases. Fear of cholera of death. Constantly thinks about past troubles. Irritable, hateful, vindictive, headstrong. Hopeless despair. Sensitive to noise, pain touch, jar. Fear of death. So angry, he trembles. Profane, cursing, using vulgar language.

Confusion. Thoughts vanish after exertion of mind. Sadness. Despondency. Taciturn. Refuses consolation on one's misfortune.

No disposition to work to perform any serious business. Weeps from discontent of himself. Easily frightened. Quarrelsome delirium, talks to spirits in other tongue.

Abdomen

Colic relieved from tightening clothes. As of a dry, hot cloth on. Inguinal hernia of children.

PAGE 1197

Back

Stitching pain in lumbar back when coughing. Stitches in and between scapulae, neck stiff. Pain in back at night better lying on abdomen.

Breasts

Hard nodes or atrophy of breasts.

Chest

Congestion in the chest with palpitations and fear. Soreness at lower end of sternum.

Ears

Deafness, better noise in trains, riding in a carriage from enlarged and indurated tonsils after measles. Cracking in ears when chewing. One's speech echoes in ears. Decay of mastoid. Cystic tumors on lobes of ears. Very sensitive to noise, as the rattle of wagons over pavements. (Coff., Nux-v.)

Eyes

Double vision, sharp, sticking pains. Ulceration of cornea. Gonorrhoeal ophthalmia, photophobia, constant lachrymation. Syphilitic iritis. Eyelashes, stiff, all point towards nose (right). Paralysis of upper eyelids. Fistula lachrymalis.

Face

Yellow, sickly. Peeling of lips. Angles of lips raw, cracked or scabby. Cracking in jaws when chewing.

Female

External parts sore with ulcers. (Hep., Merc., Thuj.) Menses early, profuse like muddy water with pain in back, hips and thighs. Pain in the back, buttocks and thighs during menses. Stitches through vagina. Voluptuous itching of vagina after sex. Leucorrhoea, brown, flesh colored, watery or stringy, stains yellow or leaves spots with black border.

Bloody water from vagina or hemorrhages from overexertion. Uterine hemorrhages after childbirth or curetting. Hair on genitals falls out. (Nat-m., Zinc.)

Food

Great hunger with sweetish taste. Loves fat and salt. (Sulph.) Longing for indigestible things, chalk, earth. Worse milk and fat food. Dislikes meat, things sweetened with sugar, bread.

Head

Crushing head pains. Sensation of a band around head. Headaches from pressure of hat, full feeling, worse from street noises. Skull sore. Decay of mastoid bone. Scalp sensitive. Puffy swelling on scalp. Falling of hair from vertex.

Heart

Palpitations and anguish on going upstairs. Pulse intermits at fourth beat, irregular. Nervous palpitation caused by slightest mental excitement.

Kidneys

Cramps from kidney to bladder. Infective nephritis. Contracted kidney. Burning and stinging. As of a hot tire in urethra. Dyspepsia with excess of oxalic acid, uric acid and phosphates in urine and great mental depression. Scanty, dark offensive. Urine, smells strong as horse's or offensive. Feels cold when it passes, alternately profuse and scanty. Urine bloody and albuminous. Alternation of cloudy, phosphatic urine with profuse urinary secretion in old prostatic cases. Hematuria with shuddering along the spine. Stream thin, as from stricture. Painless retention or incontinence of urine.

Limbs

Offensive foot-sweat, causing soreness of toes with sticking pain, chilblains on toes. Offensive sweat in axilla at night. Sweating of palms, hands, cold. Blue nails. Finger joints swollen. Herpes between fingers. Warts on back of hands. Tibia painfully sore. Pain in patella, impeding walking. Chilblains of toes. Weak ankles, cracking when walking. Nails, distorted, discolored, yellow, curved. Ingrowing of the nails with ulceration and a feeling of splinter worse touch. White spots on nails.

Liver

Jaundice, aching in liver.

Lungs

Panting breathing when reading or stooping. Shortness of breath on going upstairs. (Sil., Calc.) Short breath from uterine displacements.

Cough in sleep without waking. Cough shattering from a dry spot in larynx with stitching pain in lumbar region worse cold, winter. Empyema. Expectoration, mucopurulent, yellow, bitter offensive, smeary, accompanied with sweat. Hemoptysis.

Cavernous tuberculosis.

PAGE 1198

Male

Itching, burning foreskin. Chancres, phagedenic. Edema of prepuce. Phimosis. Strictures from gonorrhoea or syphilis. Soreness and burning in glans and beneath prepuce. Ulcers, burn and sting, exude offensive matter. Red scurfy spots on prepuce or on corona glandis.

Mouth

Putrid breath. Salivation. Bleeding of gums. Painful pimples on the sides of the tongue. Moist fissured or mapped tongue. Tongue, clean, red with center furrow. Ulcers in soft

palate with sharp, splinter-like pains. Gums, swollen, sore, flabby, bleeding inner side. Sore palate. Bloody saliva with green coating on tongue. Teeth become loose, gums soft and spongy. Teeth, yellow, decay of teeth. Teeth as if soft and spongy. Ranula. Bites the tongue and cheek.

Nose

Red, scurfy tip. Nosebleeds, dark, clotted with chest affections, worse crying. Chronic nasal catarrh with yellow offensive, corrosive discharge. Nasal diphtheria with watery and exceedingly excoriating discharge. Sneezing, frequent without coryza during sleep. Coryza with shortness of breath. Coryza with sore and bleeding nostrils. Cutting pain in the nose, decay of bones. Fetid yellow discharge. Ozaena. Green casts from nose every morning. Stitches, as of a splinter in nose.

Rectum

Great straining, but little passes. Bowels constipated with fissures in rectum. Tearing pains during stools. Stools tear the anus, even though soft. Violent cutting pains after stools, lasting for hours, walks in agony. (Rat.) Anus, itching, eczematous or oozes moisture. Burning in rectum after urination. Hemorrhages from bowels, profuse, bright. Prolapsed anus. Hemorrhoids bleed easily.

Diarrhea, slimy and offensive. After stools, irritable and exhausted. Hemorrhages from rectum after removal of hemorrhoids. Ulcerations after dysentery.

Sensations

As if head in a vice from ear to ear over vertex. As if some one were forcibly pressing head, head tightly bound, constricted by tape, contused. As of a gathering in left temple. Pain as from splinters in eruption. As if warm water were flowing from and over eyes (first right, then left). As if teeth soft and spongy. As if abdomen would burst. As if a boiler working in bowels. As if a band round bones. As if dogs were gnawing flesh and bones and as if sinews were being pulled up. As if ball of great toe had been frozen. As if splinters in great toe in carbuncles, etc.

Skin

Warts, large, jagged, bleed on touch or washing. Condylomata. Old scars become painful in cold weather. Dry skin, eroded, cracked in every angle. Coppery spots, on shin bones. Skin itches on undressing. Ulcers bleed easily, sensitive, splinter-like pains, zigzag, irregular edges, base looks like raw flesh. Stubborn suppuration. Burrowing pus. Exuberant granulations. Black pores on face, papules worse on forehead. Crusts form and fall.

Sleep

Shocks on going to sleep. Pains come during sleep. Anxious, unrefreshing sleep with frightful dreams.

Stomach

Pain in cardiac orifice. Nausea with occasional vomiting, better riding in a carriage. Nausea with belchings, cannot take food.

Temperature

Icy coldness of soles. Chilly, continuous. Sweats easily, then takes cold. Exhausting (urinous) profuse sweats in morning in axillae, on feet and hands (in spinal injuries). Night sweats on part lain on.

Throat

Difficult swallowing. Sticking pain as from splinters into ears, worse swallowing. Cutting in the larynx. Hoarseness.

Aphonia with dry hacking cough from tickling in larynx and pit of stomach. Dry. Throat pain goes into ears. Hawks out mucus from posterior sinuses. White patches and sharp points, as from splinters, on swallowing. Tonsils, red, swollen, uneven with small ulcers thereon.

PAGE 1199

Comments

The localities in which the action of Nit-ac. is very strongly marked are the mucocutaneous orifices and adjoining parts.

Burnett made a cure of actinomycosis with Nit-ac. 3x in a patient who had been the round of the London consultants and had doubtless taken much Kali-i. The localities in which the disease manifested itself, the region of the mouth and anus, gave Burnett his indication.

The mouth, especially its angles and anus are prominent seats of syphilitic action and also of the action of the other miasms, the condylomata and fissures of sycosis, the fissures, fistula, hemorrhoids and sore mouth of psora.

The characteristic discharges of Nit-ac. are offensive, thin, excoriating, if purulent they are a dirty yellowish green, not laudable pus. Ulcers have profuse exuberant granulations and bleed easily.

Sticking pain as if from splinters. This is a grand keynote of Nit-ac. and will serve to indicate it wherever it is found. It requires a touch or movement to elicit it. When it occurs in the throat it requires the act of swallowing to set it up in the anus, the passage of the stool in ulcers, the touch of a dressing. It may occur from touch in any part of the body in abdomen in ingrowing toe-nails.

In the tuberculosis cases calling for Nit-ac. the chest walls are extremely sore to touch. There is sudden rush of blood to chest. Hectic, frequent hemorrhages, bright, red, profuse. Sharp stitches through right chest to scapula.

Great dyspnea, cannot talk for getting out of breath, morning hoarseness. Cough tickling, seems to annoy all night, at times loose and rattling. Loud rales through chest, sputa offensive, bloody, purulent, dirty green, exhausting diarrhea. Exhausting sweats towards morning, chilly, heat in flashes or only in hands and feet.

Nit-ac. is indicated in typhus when pneumonia supervenes, also when the hemorrhage from the bowels occurs. The stools are green, slimy offensive, may be purulent, the hemorrhages are profuse and bright red. With diarrhea there is rawness and soreness of anus, the stool is putrid in children may contain lumps of casein. Slimy stools from excess of mucus passed with much straining. Or they may be (especially in scrofulous children) pale, pasty, sour offensive.

A keynote of Nit-ac. stools, whether loose or constipated is pain after stool. There is pain during stool as if anus and rectum, were torn and pierced and violent pains after stool, lasting for hours.

The urine of Nit-ac. affords one of the most important of all its keynotes: Urine of a strong odor like horses' or very offensive. Whenever this occurs as a concomitant in any case it is likely that other symptoms will point to Nit-ac. Fetid sweats on feet, hands or in axilla no less point to Nit-ac. Among the hemorrhages of Nit-ac. are those occurring in cachectic women after confinement or abortion.

H. N. Coons records the case of an anemic woman, four weeks after miscarriage, had constant pelvic hemorrhages, at times coming with a gush, constant heavy feeling, much worse standing or walking. Nit-ac. 2x, 20 drops in three ounces of water, a teaspoonful every two hours, quickly arrested bleeding and cured.

As showing the value of peculiar symptoms, D. C. Perkins relates the case of a woman who said she was very ill, but could only describe her illness by saying that she "felt like a pulp-mill."

Nit-ac., has "borborygmus as if a boiler was working in the bowels," and Nit-ac. proved to be the remedy.

The sensitiveness to touch runs through the entire symptomatology including the symptoms of the mind.

The mind is weak, no ideas, if she exerts here mind thoughts vanish. **MIND** easily affected inclined to weep. Hopeless despair.

PAGE 1200

There is a excitability, peevishness, irritable, quarrelsome, fits of rage and cursing inveterate ill-will unmoved by apologies.

The head is sensitive to the slightest jar to the rattle of wagons in the street or even to the step of one walking across the floor. The head is very sensitive, even to pressure of hat, sensitive to combing and on part lain on.

Eruptions and ulcers bleed easily when touched. **Eyes** are sensitive to light. The ears present an exception, for deafness is better riding in a train or carriage. Sensitiveness of the head while out driving and stopping suddenly. The tongue is sensitive even to soft food.

Excessive physical irritability, hysteria. Pains, even slight ones, affect him violently. Cramp-like pains, stinging, shooting, burning, pressure and soreness. Prostration, sick feeling, faints from least motion. Epilepsy better riding in carriage. Left-sided paralysis. Twitchings in various parts, frequent starts in upper part of body. Easily catches colds. Suppuration. Emaciated.

A characteristic accompaniment of Nit-ac. is "Profuse sweat breaks out on hands and feet." When this occurs in spinal injuries Nit-ac. is the remedy.

W. M. James cured this remarkable case: A girl had frequent attacks of petit mal, sometimes as many as fifty a day between the periods. At the beginning of menses she had spasms so violent that they dislocated both humeri. Nit-ac. 200c give persistently put an end to the attacks, gradually. The first few times after commencing Nit-ac. there were spasms but no dislocation.

Mohr gave Nit-ac. 3x to a man who suffered from cancer of the liver with bloody diarrhea, followed by constipation, violent pains in stomach and liver, unable to sleep or unable to take any food without much pain, mostly vomiting.

Nit-ac. removed the pain and relieved the constipation entirely and the patient died without an hour's suffering from the time he received Nit-ac.

J. H. Fulton cured with one dose of Nit-ac. 200c right M., 28, who had bleeding hemorrhoids for eighteen months. He had frequent bloody and slimy stools, but always bright red blood after stools from a dessert spoonful to half a tea cupful. When the stools were hard there was much pain in passing them. Burning in anus after stools.

Nitrogenium oxygenatum

Nitrous oxide

(nitrogenium oxygenatum)

Pharmacy

Nitro-o. Nitrogenium oxygenatum. Nitrous Oxide Gas. Laughing Gas. Solution.

Historical dose: All potencies.

PAGE 1201

History

This well-known anesthetic introduced by Sir Humphrey Davy. Nitrous Oxide has given rise to some pathological symptoms. Some of them were observed by Clarke on a girl of twelve who had congestion of the right lung setting in within a few hours of the anesthesia.

On a man, 30 who had blisters round his mouth inside, on two occasions after being under gas was troubled with drowsiness for weeks after and had acne-like spots on his face. Others are from the observation of Mr. Silk and from provings recorded by Allen.

Silk observed that females were very much more liable to ill effects than males. One of his patients, an epileptic girl, otherwise healthy, when he removed the face-piece, struggled to get her hands up and afterwards described her feelings as "pain in the forehead where the aura commenced."

In one epileptic patient a fit actually did occur. Rhythmic movement of the arms or legs is a common occurrence. One prover had his hemorrhoids cured as an incidental result of his experiments. **Planets:** Moon.

Homeopathic

In a patient suffering from valvular disease of the heart there was a more than usual degree of lividity during anesthesia and a tendency to syncope afterwards. Rhythmic movement of arms or legs. Opisthotonos, most common in females, much struggling.

Nitro-o. has epileptic convulsion during the anesthesia. Pain in forehead where the aura commenced. Increased muscular rigor. Muscular weakness. Muscular pains in joints revived.

Clinical

Bedwetting. Epilepsy. Faint. Hysteria. Lungs, congestion.

Symptoms

MIND

Unusual exaltation of the mind, most agreeable sensations and fancies involuntary desire

MIND

to laugh. No command over himself. Mental torture beyond endurance.

extremely susceptible to suggestion. After the giddiness, rapid rush of thoughts afterwards unconsciousness.

Back

Tension in sides of neck in region of carotids. Drawing in neck, as though skin were contracted or cords shortened. Sensation of drawing in muscles, especially the lumbar muscles.

Chest

Great pain at chest, cough with hemoptysis, better hot applications to chest, it seemed as if something which was obstructing the chest dropped down into stomach. Sharp pain in front of chest, worse lying on right side. Right chest congested and dull on percussion.

Ears

On waking from unconsciousness, voices of others seemed to come from a great distance or to be in a whisper.

Eyes

Widely dilated pupils. Pupils first dilated, later contracted. Protruding eyeballs.

Face

Face livid with unconsciousness. Face swollen. Blue lips, ears, face afterwards face dusky. Acne. Jaws firmly clenched.

Female

Erotic movements and sexual illusions. Anesthesia in a nursing woman brought in a bilious attack next day and the infant was made ill.

Fever

Coldness of feet and legs to knee between the paroxysms of consciousness. Fever every afternoon from 3 to 6 p.m. Delirium in evening. Face covered with perspiration after return of consciousness.

Head

On going into open air, vertigo and staggering to left. Giddiness after palpitations. A kind of waving of the head. Numb feeling on head, spreading thence over body, before the paroxysms. Aching in head and along spine as if they were asleep. Headache after return of consciousness.

Heart

Great lividity and tendency to faint (in a cardiac case). Palpitation of heart afterwards felt and heard in head.

Kidneys

Involuntary urination.

Lungs

Breathing is quick, thick and stertorous. Suffocative feeling. Cough with hemoptysis. Cough early morning.

Mouth

Mouth and head feel numb, as though asleep. Eruption of blisters round mouth inside. Point of tongue thrust between teeth.

PAGE 1202

Rectum

Hemorrhoidal pains from which he suffered entirely disappeared.

Sleep

Sleepy. Drowsiness continued for weeks after the gas. Screamed whenever she fell asleep.

Stomach

Pressure in epigastrium. Nausea and vomiting on return of consciousness, next day a bilious attack.

Throat

Weakness and feeling of constriction in throat, dysphagia.

Nitromuriaticum acidum

(aqua regia)

Pharmacy

Nit-m-ac. Nitro-muriatic Acid. Aqua regia. A mixture of Chloro nitric Acid, Chloronitrous Acid, Chlorine and water. Prepared by mixing 18 parts of Nitric Acid with 82 parts of Muriatic Acid. Dilutions. Historical dose: Tincture and all potencies, three to five drops three times a day.

History

Aqua Regia, the royal water of the Alchemists. Nit-m-ac. has been proved in the lower dilutions and in the 30c and some experiments have been made by Dr. Scott, who

acidulated his bath with the acid and sponged his body with acidulated water. Sponging and bathing had the same effect.

Scott noticed that the symptoms were more marked as the proportion of Muriatic acid was increased. Salivation and sore mouth and throat with dysphagia were produced in Scott and the provers.

Scott noticed that the salivation was intermittent. Weakness was felt by all. Headache with drowsiness.

Slow digestion. Pricking pains. Nat-m-ac. has a clinical reputation in oxaluria and gravel. **Planets:** Saturn.

Homeopathic

Nit-m-ac. is almost a specific in oxaluria. Removes the distressing skin symptoms resembling psoriasis. Bilious conditions torpid liver, hepatitis and early cirrhosis of liver. More adapted to liver torpor and gastric catarrh common in hot and damp climates and aggravated by meat eating and alcohol, (Hale). Weak, physically and mentally depressed. Constricted anus. Gravel.

Clinical

Anus, constricted. Catarrh. Constipation. Depression. Digestion, slow. Gravel. Headache. Mouth, sore. Oxaluria. Salivation intermittent. Scurvy.

Modalities

Symptoms were worse after eating and by exercise.

Symptoms

MIND

Nervous irritation and restlessness. Low spirits, depression.

Abdomen

On rising, sensation from left hypochondrium to rectum as of desire for stool. Slight colic in lower abdomen.

Back

While taking a cold bath catching pain in back muscles.

Food

Aggravated by meat eating and alcohol.

Head

Headache and great sleepiness, worse 3 p.m. Sensation in temples as if brain distended. While leading to left side, sudden sticking ache in left temple, preceded by twitching of anterior tissues of temporal muscle.

Heart

Palpitations. Fluttering at heart, while eating or while moving.

Kidneys

Urging in penis and bladder, aching in hips, thighs and small of back after a short delay some pale urine passed. Oxaluria. Cloudy. Burning in urethra.

Limbs

Heavy pain in loins. Sticking in various parts of limbs successively, while walking. Languid aching through hips and thighs (front) and small of back.

Liver

Bilious conditions torpid liver, hepatitis and early cirrhosis of liver. More adapted to liver torpor and gastric catarrh common in hot and damp climates. Sudden increase of secretion of bile.

PAGE 1203

Lungs

The fumes caught her breath and produced inflammation of larynx and bronchi (nearly proved fatal). Breathing easier than usual.

Mouth

Gums bleed easily. Ptyalism. Constant drooling at night. (Merc.) Cankers' small, superficial ulceration over inside of mouth and tongue. Metallic taste. (Cupr.) Pain in palate or mouth. Small superficial ulceration over inside of mouth and tongue, excoriation. Salivation intermittent, no fetor. Large blister inside lower lip. Extreme salivation, could not spit it out fast enough.

Rectum

Constipated with ineffectual urging. Sphincter constricted. Anus moist and sore. Loose, yellowish, pappy stool after breakfast. Constipation, desire for stool, but unable to pass anything owing to constriction of anal sphincter.

Sleep

Slept unusually well and felt better for it. Sleepy with headache.

Stomach

Sour belchings with empty hungry feeling in stomach, not relieved by eating. Salivation, worse at night. Evacuation of flatus and belchings. Food takes longer to digest than usual.

Temperature

Chill passing upward, while sitting near stove. Mild fever. Perspiration increased often to a great extent.

Throat

While writing at a very low table spasmodic, tremulous contractions in pharynx near levator palati muscles. Pain on swallowing all down esophagus with burning there and in roof of mouth.

Vertigo

Frontal headache with dizziness. Sensation on rising from bed as if brain was all in occiput, making it feel heavy.

SOURCES

Boericke. Clarke. Phatak.

Nuphar luteum

(yellow pond-lily)

Pharmacy

Nuph. Nuphar luteum. Nymphaea lutea. Yellow pond lily. N. O. Nymphaeaceae. Tincture of fresh root. Historical dose: Tincture and all potencies, tincture to sixth potency.

History

Nuphar left the Yellow Pond Lily, was proved by Pitet and many of his symptoms have been clinically confirmed. **Planets:** Venus.

Homeopathic

Nuph. has a yellow diarrhea coming on in the early hours of the morning. With the diarrhea is great exhaustion. Nuph. has cured many cases of diarrhea so characterized and even cases of typhoid fever.

Produces nervous weakness with marked symptoms in the sexual sphere. Sexual weakness and pollutions. Pityriasis capitis very much aggravated with much itching and falling out of the hair.

Clinical

Cholera. Colitis. Diarrhea. Dyspepsia. Exhaustion. Headaches. Impotence. Psoriasis. Rhus poisoning. Seminal emissions. Typhoid fever.

Modalities

The diarrhea was worse 4 to 6 a.m. , worse after the least excess of any kind. Weakness and itching were worse evening. Walking causes painful shocks in hams and pain in flank, which was better by pressure. Worse day after sex.

Symptoms

MIND

Impatient of slightest contradiction. Excessive moral sensibility, acute pain in witnessing sufferings of animals.

Abdomen

Enterocolitis. Colicky pains all round waist, worse 5 to 7 a.m.

Back

Dull pain left lower lumbar region. When walking painful stitch to flank. Better by pressure. Sensitive on kidney region.

Chest

Pain behind sternum, when running, as though subjacent organs violently shaken.

Eyes

When standing in sparks filled field of vision, converging from circumference to center.

Head

Heaviness of head. Bruised shaking in brain. Dull pains in front part of base of brain on level of orbits. Lancination in right and left anterior lobes of brain. Headaches attending depressed states of generative organs.

Limbs

Weakness and loss of power in limbs, worse evening.

PAGE 1204

Male

Complete absence of sexual desire, parts relaxed, penis retracted. Impotency with involuntary emissions during stool, when urinating. Spermatorrhea. Pain in testicles and penis. Weakening nocturnal omissions while convalescing from typhoid.

Mouth

Sweetish taste. Tongue white, mouth pasty.

Rectum

Smarting and burning at anus after every stool. Stitches as from needles in rectum, above. Much exhaustion with stools, sense of exhaustion in epigastric region.

Skin

Violent itching. On different parts of body red blotches tolerably regular in outline, ovoid or circular, prominent and covered with little silvery white scales. As eruption disappeared, scales ceased to be reproduced and skin at place of each blotch became pale red or yellowish.

Stomach

Painful sensation of weariness in stomach. Digestion slow, wind colic with liquid, sour-smelling stools. Exhaustion in epigastrium.

Stool

Yellow diarrhea, worse in the morning. Diarrhea during typhoid. Soft stools preceded by some colic for several days or painless diarrhea. Stools: liquid, yellow, fetid.

Urine

Urine deposits copious reddish sand, which is hard and adheres to the vessel.

Comments

Another marked feature of the proving was the excessive depression of the male generative system. Nuph. has done good work in analogous conditions and headaches associated therewith.

Nux moschata

(nutmeg)

Pharmacy

Nux-m. Nux moschata. Nutmeg. Myristica fragrans. M. officinalis. M. moschata. N. O. Myristicaceae. Tincture of powdered seeds deprived of the Mace. This is the official direction. But worse would be well to make a tincture of the nut with the Mace, as some symptoms of Mace are included. Also a fresh nut and fresh plant tincture should be prepared and tested. Historical dose: Tincture and all potencies, first to sixth potency.

History

Nux-m. is one of the many examples of powerfully poisonous and medicinal substances used as common articles of food. The use of Nutmeg as a condiment has doubtless its origin in the fact that Nux-m. is specifically related to weak digestion. It is indicated in conditions of excessive flatulence and when the smallest excess in eating or drinking sets up indigestion.

It is the use of ground Nutmeg for these purposes that has led to many cases of poisoning and has supplied a large number of symptoms. Also as a remedy for diarrhea and also for boils.

The Nutmeg has a popular repute for putting off the menstrual period or else for bringing it on. The domestic use in menstrual irregularities has also a specific foundation.

"Irregularity" is the keynote of the remedy here.

Much bearing-down pain, blood dark. Uterine prolapse and displacements have been remedied by it and threatened miscarriage warded off. In pregnancy, labor, the puerperal state (convulsion head jerked forward), it has a large sphere.

PAGE 1205

Homeopathic

Nux-m. is one of the most profoundly active of mental remedies in the Materia Medica, producing states of exaltation resembling hysteria and the mesmeric state with exalted senses and consciousness of double personality.

Nux-m. should be considered and given when any complaint causes drowsiness or is accompanied by drowsiness and if in addition there is chilliness or coldness and thirstlessness. It profoundly disturbs the sensorium, mind and nerves, causing exaltation of senses and nervous sensibility. Digestion is disturbed.

Female organs are affected. Marked tendency to fainting fits with heart failure. Staggers on trying to walk. Strange feeling with irresistible drowsiness. General inclination to become unconscious during acute attacks. Cold limbs, extreme dryness of the mucus membranes and skin. Indicanuria.

Heaviness of eyes tongue etc. Marked tendency to fainting fits with heart failure, worse at stools, at menses with slight pain from sight of blood, while standing (when dressing). Hemorrhages dark. fleeting pains. It is useful to scrawny, delicate, hysterical women who have small breast and who laugh or cry by turns. As of a hard lump in stomach, liver, throat.

Nux-m. is for marasmus of little children. Mental depression from grief. Spasms of children with diarrhea. Epilepsy with consciousness. Mania. Automatism. Hysteria. Parts lain on feel sore. Feels as if drunk, staggers on trying to walk. Catalepsy. Puffiness. Clairvoyant. Paralysis with spasms and trembling of tongue, eyelids, esophagus. Humming, buzzing, funny feeling in body. Hard parts feel soft.

Clinical

Asthma. Backache. Belchings. Brain, softening. Catalepsy. Chilblains. Clairaudience. Clairvoyance. Colic. Convulsion. Cough. Debility. Dryness. Dysmenorrhea. Dyspepsia. **Eyes**, disorders. Fainting. Fevers. Flatus. Frost-bite. Gastralgia. Hemorrhage. Headache. Head, movements. Hiccoughs. Hoarseness. Hysteria. Intermittent fever. Locomotor ataxia. Lumbago. Mania. Marasmus. Menopausal disorders. Menorrhagia. Metrorrhagia. Miscarriage. Narcolepsy. Pelvis, congestion. Perspiration, bloody, hysterical. Pregnancy, complaints.

Clinical

Ptosis, Puerperal convulsions. Kidney colic. Rheumatism. Sleep-overpowering. Speech, defective. Stammering. Strangury. Strokes. Toothache. Turpentine, effects. Typhoid, hemorrhage. Uterus, prolapse. Worms.

Causations

Ill effects of fright, mental exertion, suppressed eruptions. Bath, suppresses menses. Over-eating. Milk. Bad beer. Alcohol.

Constitutions

Nux-m. is suited to: Children. Women. Pregnant women. Persons with cool, dry skin, who do not easily perspire. Weakness of old age. Dyspepsia of old people. Constitutions with stiff, straight hair rather than crisp and curly. Delicate constitutions. Hydrogenoid constitution. **Planets:** Moon.

Modalities

Better from moist heat, warm room, dry weather. Worse exertion or menstruation. Worse cold bath, damp, wind, drafts, fog, cold food, cold feet, changes of season, summer, hot weather. Worse from jarring, bruises, slight causes, mental exertion or shock, motion, pregnant. Worse from lying on painful side, overheating, milk, shaking head. Worse from emotions, excitement.

Symptoms

MIND

Changeable moods, laughing and crying. Confused mind and impaired memory. Clairvoyant states. Dreamy and bewildered, as in a dream. Objects seem changed or grow larger. Thoughts suddenly vanish, while talking, reading or writing. Uses wrong words (during headaches). Slow ideation. Talks loudly to herself.

Sense of duality, thinks she has two heads, seems to be two persons, (Plat.) Fickle and wavering in his undertakings. Entire loss of memory of his past life. Sense of impending dissolution. Mania with odd speeches and ridiculous gestures. Mockery. Laughing.

Jesting.

Surrounding seems changed, does not know the well-known streets. Listless indifferent. Answers irrelevantly. Short time seems very long. Sense of levitation. Does her household duties automatically, does not recollect what she has done.

Abdomen

Paralytic weakness of the intestines. Enormously distended. Flatulent colic. As of a board across the hypogastrium. Navel is sore, even ulcerated, festering.

PAGE 1206

Back

Neck so weak, head drops forward on chest. Pain in back, now in sacrum now in lumbar region. Pain along spine. Backache and neuralgia of sacrum and coccyx worse riding in a carriage. As if a piece of wood stretched across sacrum, worse before menses.

Breasts

Nipples retracted. Breasts too small.

Chest

Oppression of chest, generally coming from epigastrium. Fullness and distressing sensation of a load on chest. Burning in chest, peculiar dead feeling and swelling. Stitches in chest, tightness, spitting of blood.

Ears

Oversensitive hearing, for distant sounds increased.

Eyes

Objects, **look larger** or too small, very distant, oblique too close together, vanish, red.

Blindness then fainting. **Eyes** seems dry, which impedes the movement of the eyelids. Pterygium over cornea. Motes before eyes. Mydriasis.

Face

Pale. Retracted lips. Foolish, childish expression, diabolic grin. Jaws as if paralyzed, cannot close them. Lips, swollen, stick together.

Female

Uterine hemorrhage. Menses too long, dark, thick. Menses, irregular in time and quantity. Menses, suppressed with persistent fainting attacks and sleepiness. (Kali-c.) Leucorrhoea, muddy, bloody, replaces menses. Flatus from vagina. Pain of uterus from pessary. Menses suppressed. Deficient Labor pains. Continuous and obstinate flooding.

Food

Craving for highly seasoned food which only is digested. Loathing when eating or thinking of food.

Head

Headaches, bursting in temples better hard pressure. Head feels full. As if expanding with sleepiness. Headaches from eating a little too much. Painless pulsating in head in small spot. Cracking sensation in head. Cerebral congestion. Brain feels loose, striking the sides, on motion. Convulsive movements of the head, could not talk or swallow. Raising head from pillow causes deathly sickness. Head drops forward while sitting.

Heart

Trembling, fluttering, as from fright, fear or sadness. Palpitations, better walking about, drinking warm water. As if beating in vacuum Sensation as if something grasped the heart. Pulse intermits at long interval, exciting fear of death. Pulse, weak, irregular.

Kidneys

Dysuria from beer or wine in hysteria with dysmenorrhoea after eating from uterine complaints. Urine smells like violet.

Limbs

Rheumatism from getting feet wet from exposure to drafts. The rheumatism is relieved by dry, warm clothes. Rheumatism, drawing, wandering pains, worse cold damp air, cold wet clothes, better warmth. Fatigue on slight exertion. Limbs as if floating in the air. Pain in right hip to knee, worse motion, especially going upstairs. Dry palms. Hysterical paralysis. Soles always moist. Feels as if treading on hard peas when walking. Feet cold with appearance of menses.

Lungs

Hoarse voice when walking against the wind. (Hep.) Hysterical cough, worse when getting warm in bed. Dyspnea with feeling of weight in chest, asthma hysterical, difficult inhalation. Loss of breath when standing in water. Cough when getting warm in bed.

Mouth

Teeth seem pulled. Mouth, dry without thirst, worse sleep. Tongue adheres to the roof of the mouth. Thick saliva like cotton. (Berb.) Tongue numb, paralyzed, speech difficult.

Chalky taste. Toothache of pregnant women, better warmth. Teeth seem loose. Saliva lessened, feels like cotton in mouth.

Nose

Oversensitive to smell. Nosebleed of dark blood. Dry, stopped up, must breathe through mouth.

PAGE 1207

Rectum

Inactive rectum. Protruding hemorrhoids. Stool is soft and yet is unable to expel it, even with long straining. (Alum.) Faintness during or after stool. Stool, soft, putrid, bright yellow and lienteric, worse at night. Summer diarrhea from cold drinks, boiled milk.

Sensations

As if drunk. Limbs as if floating in the air. Forehead as if pushed out. As if brain struck against side of head. Brain as if loose. Object appear much too large. Pain as of a rough body in Eustachian tube. Pricking as of electric sparks on cheek. As if wind incarcerated in stomach. As if a piece of bacon were in throat. As if left shoulder contained lead. As if a string were tied round arms. As of a grasping hand in upper arm.

Skin

Bluish spots on the skin. Dry skin and of inner parts. Lack of perspiration. Cold and dry skin. Chilblains. Acne. Freckles.

Sleep

Narcolepsy. Great drowsiness. (Indol.) Complaints cause sleepiness. Coma. Sleepy attacks, sudden with vertigo. Great sleepiness with all complaints. Dreams of falling from high place of being pursued.

Stomach

Flatulent dyspepsia. Digestion weak, all food turns to gas. Excessively bloated. Nausea and vomiting from irritation of uterine pessary. Eating a little too much causes headache. Hiccough and craving for highly-seasoned food. Retrocession of gout to stomach.

Temperature

Alternate chill and heat. Chill with stupor. Chill begins in left hand. (Carb-v.) Chilliness and heat without thirst, want of perspiration. Sweat, red or bloody or absent.

Throat

Dryness of throat. Difficult swallowing from paralysis of muscles. Contraction on throat like strangulation.

Vertigo

Vertigo as if drunk staggering. Vertigo when walking in open air.

Comments

A case reported by Stonham. A dark-haired young man ate two nutmegs one morning. In afternoon was exhilarated, able to do more than usual to argue on any subject. At dinner mouth dry, great thirst, felt he could not drink enough to quench it. After dinner, head felt strange as if in a dream, but he jointed a small musical party, as he had intended.

He seemed to be two persons and his real, conscious self seemed to be watching his other self playing. He could not play well and had to desist. He seemed lost and when spoken to would come to himself with a start. Hearing for distant sounds much more acute than usual.

A woman who ate several nutmegs with the idea of bringing on miscarriage had the hallucination that she had two heads. A. P. Williamson records one case of a woman who took grated nutmeg for diarrhea. After second dose of half nutmeg head felt queer and dizzy, then head felt large, could no reply to questions, though eyes were open and seemed to understand.

Pupils dilated, eyes starting, face pale, respiration labored. Semi-conscious and had to be shouted at, but relapsed into semi-consciousness., Pulse at first small or rapid, but during unconscious period, irregular, fuller and weak.

When consciousness first returned kept hands to her head "to prevent it falling off, was obliged to move her head with her hands, it being too large and heavy for her body." Her chest felt as if in a vice, For some days was unable to use words properly, frequently obliged to stop in middle of a sentence and change it entirely from not being to use appropriate words.

Exaltation of the senses runs through the remedy. One hypersensitive patient to whom I gave a single dose of Nux-m. 30c, said it seemed to put a coat of cotton wool over her. The senses of sight and touch are exalted in the same way as hearing.

The mental disturbance many take all the protean forms of hysteria and even mania. Vanishing of thought.

PAGE 1208

One man had complete loss of memory of his past life and did not recover it for a week. The sensorium is disturbed as much as the mind and a state of staggering, helpless drunkenness is induced. Connected with this are the sleep symptoms of Nux-m., which give the leading keynote of the remedy.

Drowsiness. Nux-m. is needed for drowsiness more frequently than Opium itself. When any complaint causes excessive drowsiness or accompanied by drowsiness, Nux-m., should be considered. If in addition there is chilliness and thirstlessness, Nux-m. must be given.

Nux-m. is a chilly medicine, worse by cold and damp, better by warmth (with one or two exceptions). Chilliness may be considered the second keynote. But quite a important is the third. Dryness. The dryness may be only sensation or it may be actual as well. Dryness of the mouth and tongue (usually, but not always without thirst) tongue so dry it adheres to the roof of the mouth. Neurotic patients who always awaken with a very dry mouth and tongue. "The saliva seems thick like cotton."

Clarke cured with Nux-m. 30c a very bad cause of indigestion with acne in a youth who has this symptom. Eyes dry too dry to close he lids. The skin is dry.

Another keynote is tendency to fainting. This is allied to the drowsiness, sudden loss of memory and vanishing of ideas. Persons who easily faint away from sight of blood from standing (as to have a dress tried on) and those who have fainting during or associated with evacuations, these are likely to want Nux-m.

Pains as if bruised, sprained, wrenched, as if bones smashed. As if electrified. Pressure, throbbing, drawing, burning, are all common sensations. The sensitiveness of Nux-m. comes out in the soreness of parts lain on.

There is a cough occurring only when warm in bed or worse then. In constipation with drowsiness. Nux-m. is often indicated as Opium.

Faintness during or after stool is a great indication. Nux-m. is also hemorrhoidal and hemorrhagic. Protruding hemorrhoids. Hemorrhage of typhus, fetid flatus. Incontinence of urine. The hemorrhages of Nux-m. are dark.

All kinds of spasms and convulsions are developed in the provings. Catalepsy. Clairvoyant state: answers questions accurately quite out of her sphere and on returning to consciousness knows nothing about it. Jactitation of muscles, chorea, jerks in inner parts in muscles, recovers with a start. Paralysis with spasms and trembling of tongue, eyelids, esophagus. Locomotor ataxia excited by cold and wet. Puffiness, swellings, dropsy of outer parts. Buzzing sensation with numbness of hands an feet.

Drinking causes dry cough, colic. Drinking beer causes strangury. Brandy causes electrifying effect. Milk causes diarrhea. Alcohol worse. Eating a little too much causes headache.

P. P. Wells says that "in brain disorders of infants in the stupor with insensibility and unconquerable desire to sleep. Whether in idiopathic disorders of the brain or in those occurring during cholera infantum, Nux-m. is one of the most precious remedies in the Materia Medica."

J. White gives a striking instance of Nux-m. headache better by hard pressure in a man convalescing from a severe gunshot-wound of the head. He wanted the nurse to "bear her whole weight on it." With the headache was rapid, anxious breathing, as if he could not get air enough and the "wind would be shut off."

Nux-m. always relieved it. The 3x was first given, then a higher potency.

Compare

(1) Oleum myristice, oil of Nutmeg - as a remedy for boils, felons, poisonous ulcers, it has been used in the 2x potency.

(2) Ornithogalum.

(3) Myristica sebifera - Ulcerative tendency in all tissues. Inflammation, hastens suppuration, powerful anti-septic. Said to act more powerfully than Hepar and Silica.

(4) Nux-v., Puls., Rhus-t., Ign., Asaf.

(poison-nut)

Pharmacy

Nux-v. Nux vomica. Poison nut. Strychnos Nux vomica. N. O. Loganiaceae. Tincture and Trituration of imported seeds. Historical dose: Tincture and all potencies, first to thirtieth potency and higher.

History

Strychnos Nux vomica is a moderate-sized tree. It is a native of the Coromandel Coast and Cochin China. The fruit is very like an orange in appearance and contains numerous seeds of flattened circular outline, about the size of a half penny, ash-gray in color, covered with fine silky hairs.

The Nux vomica seeds are intensely bitter owing to the presence of Strychnia and Brucea which exist in the seeds together with certain peculiar acids, but the pulp is innocuous and is said to be eaten by birds. If nitric acid is added to the seeds a deep orange-yellow color is produced. The wood of the tree is very bitter.

Nux vomica is used in India in cases of intermittent fever and snakebites. A decoction of the leaves is used externally in rheumatism (Treasury of Botany).

Under Brucea antidysenterica Clarke has told how the bark of the tree was imported into Europe in mistake for Angustura. The tree from which the Ignatia "beans" are obtained is

unknown, but it is not doubted to be a Strychnos, the seeds actually contain a larger proportion of Strychnia than those of Nux vomica.

The difference in the character of Ignatia and Nux vomica proves the wisdom of Hahnemann's simple methods of studying medicines. If there was nothing more than the chemistry of the drugs to go by Ignatia and Nux-v might be used indifferently. With the knowledge from Hahnemann has given us of their characteristic features they are seldom even thought of in connection with the same case.

Homeopathic

Nux-v. corresponds to many diseased conditions to which a modern man is prone to. It is useful to those persons who lead a sedentary life, doing much mental work or to those who remain under stress and strain of prolonged office work, business cares and worries.

Such persons in order to forget their worries are apt to indulge in wine, women, rich stimulant food and sedative drugs and ill effects from which they are apt to suffer.

This indoor life and mental strain seeks stimulants, coffee, wine, possibly in excess or again, he hopes to quiet his excitement, by indulging in the sedative effects of tobacco, if not really a victim to the seductive drugs like opium, etc.

These things are associated with other indulgences, at table, he takes preferably rich and stimulating food.

PAGE 1210

Wine and stimulants play their part to make him more sick. Late hours are a consequence, a thick head, dyspepsia and irritable temper are the next day's inheritance.

Now he takes some cathartic, liver pills or mineral water and soon gets into the habit of taking these things, which still further complicate matters.

Since these frailties are more yielded to by men than women, Nux-v. is pre-eminently a male remedy. These conditions produce an irritable nervous system, hypersensitive and over impressionable, which Nux-v. will do much to soothe and calm.

Nux-v. is especially adapted to digestive disturbances, portal congestion and hypochondriacal states depending thereon. Convulsions with consciousness, worse touch, moving. Zealous fiery temperament. Nux-v. patients are easily chilled, avoid open air, etc. Nux-v. always seems to be out of tune inharmonious spasmodic action.

The typical Nux-v. patient is rather thin, spare, quick, active, nervous and irritable. It affects the nerves, causing hyper-sensitiveness and over impression-ability mentally and physically. Produces digestive disturbances, partial congestion and hypochondriacal states. Dyspeptic persons who select their food for experimenting, that is digested little. He is subject to spasms, convulsions and fainting.

The patient seems to be always out of tune, The action is violent often irregularly fitful or inefficient. Twisting and jerks. Spasms, tetanic with consciousness, worse by slightest touch, but better by grasping tightly or when elbow was stretched. Tense contracted feeling.

Bruised soreness of abdomen, brain etc. Lightning-like pains. Neuralgia, prodromal. Internal scrapy sensation or rawness in throat, larynx. Takes cold faintings after stools, vomiting after Labor pains etc. Biliousness. hemorrhages. Debauchees, much drugged patients. Trembling. Epilepsy during stool.

Paralysis from a stroke in high livers, partial with vertigo and nausea with sticking pains. Reflexes increased. Firm tissue brunettes. Reversed peristalsis. Varicose veins without tortuosity, black hard cords from much standing or from sedentary habits.

Clinical

Acne rosacea. Alcoholism. Amaurosis. Amblyopia. Anger, effects. Asthma. Bilioussness. Bladder disorders. Bone, nodes. Brain disorders. Breath, sour. Carriage-sickness. Catarrh. Clavus. Cold. Colic. Constipation. Convulsions. Colds. Colic. Coughs. Cramp. Delirium. Diarrhea. Dysentery. Dyspepsia. Epilepsy. Eye affections. Gallstones pain. Gastrodynia.

Gout. Headaches. **Heart**, disorders. Hemorrhoids. Hernias. Hydroceles.

Hypochondriasis. Impotence. Intermittent fever. Liver disorders. Locomotor ataxia. Lumbago. Masturbation. Musca volitantes. Myelitis. Night-blindness, Nightmares. Nymphomania. Paralysis. Paraphimosis. Pregnancy, affections, spurious. Pylorus, disease. Kidney stones. Sea-sickness. Sexual, mania. Sexual, weakness. Sleep, abnormal. Spermatorrhea. Strabismus. Strokes. Taste, disordered. Tea, effects. Tenesmus. Tobacco habit. Tongue, disorders. Trachea disorders. Urethra, spasm. Urination, frequent. Uterus, prolapse. Vagina, prolapse. Vertigo. Water brash. Worms. Yawning.

Causations

Ill effects of alcohol, drugs, spices, stimulants, sexual excess.

Constitutions

Nux-v. is especially suited to: (1) Very particular, zealous persons inclined to get angry and excited or of a spiteful, malicious disposition. (2) Ardent persons or disposed to anger, spite or deception, always irritable or impatient. (3) Nervous, melancholic people, troubled with indigestion, venous constitution with tendency to hemorrhoids. (4) Thin, irritable, choleric persons with dark hair, who make great mental exertion or lead a sedentary life. (5) Biliouss temperament. (6) Vigorous persons of tense tissue, ardent and irascible temperament disposition. (7) Persons addicted to wine, coffee or pepper and condiments, who live a sedentary life with much mental exertion. (8) Debauches, thin, irritable, venous. **Planets:** Mars, Jupiter, Moon.

PAGE 1211

Modalities

Better from a nap, if allowed to finish it in evening, resting in damp, wet weather (Caust.), strong pressure. Better from free discharges, naps. wrapping head, hot drinks, milk, fats, moist air. lying on sides. Worse from high living, coffee, condiments, liquor, stimulants, narcotics, drugs tobacco, purgatives, over eating, sedentary habits, debauched. Worse early morning, cold, open air (dry), drafts, seats, wind, uncovering. Worse from mental exertion, fatigue, vexation, disturbed sleep, slight causes, anger, noise, odors touch, pressure of clothes at waist. Worse from yawning, music, disappointment of ambition, wounded honor, mental shock.

Symptoms

MIND

Overactive mind. Nervous and excitable. Very irritable, sensitive to all impressions. Cannot bear noises, odors, light. Angry and impatient, cannot stand pain, so mad, he cries. Zealous, fiery temperament. Aversion to work. Fears poverty. Sullen. Spiteful. Nagging. Violent. Suicidal, homicidal impulses. Fear of knives, lest she should kill herself or others.

Even the least ailment affects them. Pessimistic. Hypochondriasis. Fault finding. Reproaches others. Frightfully apprehensive about getting married, (girls). Time passes too slowly. Talks about one's condition.

Melancholia. Delirium tremens. Cannot bear noise, light, odor touch, music, etc. Cannot bear conversation or reading. Angry when consoled. Head-strong, self-willed.

Abdomen

Colic in nursing infants from stimulating food taken by the mother. Colic from suppressed hemorrhoidal flow. Bruised soreness of abdominal walls. (Apis., Sulph.) Flatulent distention with spasmodic colic. Colic from uncovering. Colic with upward pressure, causing short breath and desire for stool. Bowels gripe here and there. Sore bowels, worse coughing and stepping. As of a hand about waist, clothes oppress it.

Weakness of abdominal ring region. Strangulated hernia. (Op.)

Forcing in lower abdomen towards genitals. Umbilical hernia of infants from constipation or crying. Sense of goneness in the groins.

Back

Lumbar ache, as if breaking, must sit up in order to turn in bed. Acute lumbago. Sacral region as if lame after childbirth. Burning in spine, worse 3 to 4 a.m. Bruised pain below scapulae. Sitting is painful. Wry neck from cold or nervous shock. Crawling along spine. Cervical-brachial neuralgia, painfully stiff neck, pains down shoulder (right) worse touch.

Breasts

Nipples, sore, white spot in center. Tensive pain when nursing. Painless gathering of milk in breast from not nursing the child.

Chest

Spasmodic constriction. Cough with sensation as if something torn loose in the chest. Intercostal neuralgia worse lying on painful side.

Ears

Itching in ear through the Eustachian tube. Auditory canal dry and sensitive. Otagia, worse in bed. Hyperesthesia of auditory nerves, loud sounds are painful and anger him. External meatus dry and sensitive. Stitching pain on swallowing.

Eyes

Bloodshot. Lachrymation from affected side. Optic nerve atrophy from habitual use of tobacco or intoxicants. Paresis of ocular muscles. Photophobia, much worse in morning. Lower eyeballs yellow. Loss of vision due to alcohol and tobacco. Exudation of blood from eyes. Spring conjunctivitis. Smarting, dry sensation in inner canthi. Orbital twitching radiating towards the occiput. Optic neuritis.

Face

Red, turgid or yellowish worse about nose and mouth. Left angle of the mouth drops. Infra-orbital neuralgia with swelling of cheek intermittent, better when lying in bed. taws. snap shut, stiff. Acne from eating cheese. Pimples from excessive use of liquors. Child passes its hand constantly over face (brain disease).

Female

Menses too early, lasts too long, always irregular, black blood with faint spells.

Dysmenorrhea with pain in sacrum and constant urging to stool.

Prolapse of uterus from straining or lifting. Inefficient, weak labor pains. Metrorrhagia with sensation as if bowels wanted to move.

Sexual desire too strong with burning in vulva. Leucorrhea, fetid, staining yellow. Profuse bleeding after miscarriage. Lochia scanty offensive.

Food

Desire for stimulants. Craves spicy food, beer, fat food, chalk, drugs tobacco, stimulants. Loves fats and tolerates them well, (Puls. opposite.) Hunger, yet aversion to food. Worse from coffee. Worse from cold food, cold water. Worse alcohol, beer, wine.

PAGE 1212

Head

Headache in occiput or over eyes with vertigo, brain feels turning in a circle. Headache from excessive alcohol. Bruised sensation of the brain. Migraines. Frontal headache. Pressing pain on vertex, as if a nail driven in. Frontal headache with desire to press the head against something. Congestive headache, associated with hemorrhoids. Headache in the sunshine. (Glon., Nat-c.) Feels distended and sore within after a debauch. Scalp sensitive.

Heart

Palpitation on lying down. **Heart** feels tired. Angina pectoris, patient lies on knee with body leant backwards.

Kidneys

Painful ineffectual urging to urinate. Irritable bladder from spasmodic sphincter. Spasmodic strangury. Frequent calls, little and often. Hematuria from suppressed hemorrhoidal flow or menses. (Ip., Ter.) Ineffectual urging, spasmodic and strangury. Kidney colic (right), extending to genitals and legs with dribbling urine. While urinating, itching in urethra and pain in neck of bladder. Paralysis of bladder, urine dribble in old men with enlarged prostate or gonorrhoea. Involuntary urination when laughing, coughing, sneezing.

Limbs

Drags his feet while walking, chorea, legs tremble, unsteady gait. Arms go to sleep, numb, stiff feeling. Paresis of arms with shocks. Sensation of sudden loss of power of arms and legs in the morning. Legs numb, feel paralyzed, cramps in calves and soles. Partial paralysis from overexertion of getting soaked. (Rhus-t.) Knee joints as if dry, cracking during motion.

Shooting from toes to thighs, worse after stool. Automatic motions of hand towards mouth. Legs stiff.

Liver

Liver sore, enlarged, sticking pain. Toxic liver from drugs, chemicals and alcohol. Weak liver from bad diet, meat, fats, spices, alcohol, etc. Gallstone colic. Hepatitis from bad food or water. Jaundice from anger. Cirrosis from alcohol poisoning. Stitches in region of liver, worse from contact or motion. Pressure and stinging. Throbbing pain as from abscesses.

Lungs

Asthma from disordered stomach with fullness of stomach. Asthma with fullness in stomach in mornings or after eating. Asthma with feeling as if clothing were too tight, better belching. Desire to eat during cough. Cough with sensation as if something were torn loose in chest. Shallow and oppressed breathing. Tight, dry, hacking cough, at times

with bloody expectoration. Cough brings on bursting headache and bruised pain in epigastric region.

Male

Easily excited desire. Emissions from high living. Penis becomes relaxed during an embrace. Spermatorrhea with dreams, backache, burning in spine, weakness and irritability. Bad effects of onanism, sexual excess. Premature ejaculation. Cannot be in female society without having emission. Increase of smegma. Constrictive pain in testicles. Orchitis. (Ham., Puls.)

Mouth

Breath foul, sour. Small aphthous ulcers with bloody saliva. Taste, bitter, sour, bad in morning. Itching of palate, Eustachian tube. Gums, swollen, white and bleeding. Jaws contracted. First half of tongue clean, posterior covered with deep fur, white, yellow, cracked edges. Toothache, worse cold thing. Teeth chatter. Toothache, better warm drinks. Needle-like sensation at edges of tongue.

Nose

Snuffles of the new born. Stuffed up, at night especially. Stuffy colds, snuffles after exposure to dry, cold atmosphere, worse in warm room. Oversensitive to strong odors, even fainting. Coryza, fluent in daytime, stuffed up at night and outdoors or alternates between nostrils. Nosebleeds during sleep from suppressed flow of hemorrhoids from coughing. Nosebleeds in morning. (Bry.) Sneezing, violent, abortive from intense crawling in nostrils (left). Arid discharge, but with stuffed-up feeling. Smell before nose like old cheese, burning sulphur. Nose looks sharp and pointed.

PAGE 1213

Rectum

Constipation with frequent ineffectual urging. Stool is incomplete and unsatisfactory, Feeling as if part of stool remained unexpelled. Constriction of rectum. Irregular, peristaltic action. Frequent ineffectual desire or passing but small quantities at each attempt. Alternate constipation and diarrhea-after abuse of purgatives. Urging to stool felt throughout abdomen. itching, blind hemorrhoids with ineffectual urging to stool, very painful after drastic drugs. Diarrhea after a debauch, worse morning. Frequent small evacuations. Scanty stool with much urging. Dysentery, stools relieve pains for a time. Constant uneasiness in rectum. Diarrhea with jaundice. (Dig.)

Sensations

As if something heavy fell into head. As if his head were immensely larger than his body. As if pressing a nail into brain into vertex. As if skull pressed asunder. As if hernia would occur. As if everything in region of umbilicus were being shattered and torn. Navel as if drawn in. Chest as if drawn together. As if something torn loose in chest. As if blood would be jerked out of veins. As of a band above knees, round body.

Skin

Pale or yellowish color of skin. Jaundice. Goose skin. Skin red and blotchy. Urticaria, gastric derangement. Bluish spots. Acne. Pricking and burning itching. Eruptions with burning itching. Chilblains, burning itching. Furunculi. Ulcers with elevated margins of a pale red color. Miliary and pimples eruptions.

Sleep

Sleepless from rush of ideas. Cannot sleep after 3 a.m. until towards morning, awakes feeling wretchedly. Drowsy after meals and in early evening. Better after a nap, unless aroused. Yawning. Dreams full of bustle and hurry. Nightmares. Dreams, anxious, pursued by animals, dogs and cats, amorous. Weeping and talking during sleep.

Stomach

Indigestion. Hiccough from overeating from cold or hot drinks. Sour taste and nausea in the morning after eating. Weight and pain in stomach, worse eating, some time after. Flatulence and heartburn. Sour, bitter belchings. Ravenous hunger, especially about a day before an attack of dyspepsia. Region of stomach very sensitive to pressure. (Bry., Ars.) Epigastrium bloated with pressure as of a stone, Several hours after eating. Dyspepsia from drinking strong coffee. Difficult belching of gas. Nausea and vomiting with much retching. Nausea, better if he can vomit. Wants to vomit, but cannot. Violent vomiting, bilious, sour. Food lies like a heavy knot in stomach. Severe pain in stomach from injury, worse least food.

Temperature

Chilly, must be covered in every stage of fever. Body burning hot, especially the face, yet cannot move or uncover without feeling chilly. The cold stage predominates. Paroxysms in morning. Excessive rigor with blueness of finger-nails. Aching in limbs and back and gastric symptoms. Chill with thirst and heat without thirst. Perspiration sour, only one side of body. Dry heat of the body. Sweat, sour, one sided, warm, on upper most side, on lying down.

Throat

Catarrhal hoarseness with scraping in throat. Putrid taste in, on coughing. Sensation of roughness, tightness and tension.

Tickling after waking in morning. Pharynx constricted. Uvula swollen. Stitches into ear. Small ulcers in the throat, pain worse during empty swallowing.

PAGE 1214

Vertigo

Dizzy and faint in a crowd or where many lights are burning. Vertigo in morning and after dinner. Vertigo, brain and other objects turn in circle with momentary loss of consciousness with black spell, on empty stomach. Vertigo with momentary loss of consciousness. Intoxicated feeling, worse morning, mental exertion tobacco, alcohol, coffee, open air.

Comments

In the case of poisoning with Nux-v., the most marked feature is the spasms and convulsions which cause death by arresting respiratory movements.

The general effect of the spasms was to cause opisthotonos and throwing back of the head, though in some the body was spasmodically drawn sideways. The tetanus of Nux-v differs from traumatic or idiopathic tetanus in that the spasms of the former are less continuous, do not invariably begin with the muscles of the jaws, but preferably in the lower limbs and are not accompanied by rise of temperature.

"Spasms" is the first keynote of Nux-v. and the second is "oversensitiveness." Both are brought to the front in the poisoning cases and the provings bring out their developments in almost all regions of the body.

The spasms affect all the voluntary muscles of the body and the involuntary muscles as well. The esophagus, stomach intestines, uterus, bladder, rectum and the spasms and irritability go through the pathogenesis.

There is irritability of bladder and rectum at the same time, constant urging and desire and very little passed, prolapse of rectum with constipation or there may be incontinence of both urine and feces.

Uterine bearing down and prolapse, cramps at menstrual periods and pressure on bladder and rectum.

The irritability and extensive sensitiveness of Nux-v. depicted in the tetanic seizures and drawn facial expression applies to mind as well as body.

There are few drugs which produce a greater degree of irritability than Nux-v., running, as it does to the verge of homicidal and suicidal impulse. Intestinal spasms is exemplified in the spasms which follow eating unripe fruit.

Other digestive irregularities and sometimes they take the form of incipient hernia. Hernia inguinal and umbilical, has been cured with Nux-v. and Clarke had seen a case of strangulated hernia resolved by Nux-v. while preparations for operation were in progress. Although there are many pains in connection with the rectum, constipation or spasm is the leading feature. Nux-v. is very far from being a panacea for constipation and hemorrhoids, but its indications are perfectly clear and when they are present it will not disappoint the prescriber.

The diarrhea of Nux-v. is sudden and drives patient out of bed or is involuntary or comes on after a meal. Alternate constipation and diarrhea. In the dysentery of Nux-v. the straining ceases as soon as the motion passes. This distinguishes Nux-v. from some other remedies. There is tendency to faint after diarrhea stools and also after vomiting.

This tendency to fainting is another example of the Nux-v. sensitiveness. It occurs from odors in a warm room after eating after every labor pain. Nux-v. has proved curative in epilepsy when the fit occurred during stool.

Nux-v. is a hemorrhagic remedy. There is metrorrhagia and also menorrhagia. Menses too early and profuse, flow dark, faints easily, irregular, cease flowing at night-time.

The pains are cramping and cause nausea and fainting, twisting, moving about in abdomen, soreness across pubes, cramps in bladder.

During pregnancy there is: hiccough, morning sickness, varicose veins, hemorrhoids. False labor pains. Labor pains are violent and causes fainting. Lochia scanty offensive, nipples sore, white spot in center, tensive pains when nursing. Desire is excited in both sexes and here again the sensitiveness of Nux-v. is observed even the slightest provocation suffices to excite the sexual passion.

PAGE 1215

Spasm is the chief keynote of Nux-v. in the respiratory sphere, where it produces a variety of asthmatic states, a dry, persistent fatiguing cough which causes headache as if the skull would split. The general conditions of Nux-v. are the best guides in such cases. But it must not be supposed that Nux-v. cannot cure cases which are not purely spasmodic.

Clarke cured with Nux-v. many cases of bronchitis with copious moist rales and expectoration. In addition to spasms, Nux-v. causes languor, great nervous debility (as from sexual or other excesses), trembling, excitement with trembling, paralysis. Paralysis

after a stroke, parts cold, numb, emaciated. Hemiplegia. Locomotor ataxia has been relieved by it.

Nux-v. is a drowsy medicine and it also produces sleeplessness. Wakes 3 a.m. and lies awake for hours, falls asleep when it is time to rise and feels heavy and unrefreshed. It is curative in cases where sleep is unattainable except from a stimulant. The symptoms of Nux-v. are better after undisturbed sleep, worse when sleep is disturbed.

The third keynote of Nux-v. is chilliness. Chilliness: Cannot get warm in bed at night. Coldness of whole body with blue hands with blue skin. Cold, moist hands with cold tip of nose. Repugnance to cold or cold air: chilly on least movement from being uncovered, must be covered in every stage of fever, chill, heat or sweat. In the fever there is great heat, whole body burning hot, face red and hot, yet patient cannot move or uncover without being chilly, (H. C. Allen).

Nash gives a characteristic of the menses of Nux-v.: "Menses a few days before the time and rather too copious or keeping on several days longer with complaints at the onset which remain until it is over." Boenninghausen's keynote: "Feels worse in morning, soon after walking, also after mental exertion after eating and in cold air."

The pressure two or three hours after eating distinguishes Nux-v. from Nux-m. and Kali-bi., which have it immediately after. The best time to give Nux-v. is in the evening at bedtime, that is, well away from the time of its chief aggravations. Cough and some other symptoms are worse in night, worse after midnight, worse 3 or 4 a.m. during day, drowsiness. Menses return at full moon.

Alcoholic drinks aggravate, Nux-v. has the typical hang-over symptoms. When "all medicines disagree" Nux-v. will often cure the morbid sensitiveness and other troubles with it. Worse from music. There is very great better for a short time after a stool.

Nyctanthes arbor tristis

(sad tree)

Pharmacy

Nyct. Sad tree. Nyctanthes arbor-tristis. Paghala tree. Sephalika, (Sanskrit). Harsinghar (Hindi). N. O. Jasminaceae. Forests of Central India. Night-Jasmine of India. Tincture of fresh leaves, collected March to April. Historical dose: Tincture and all potencies, Tincture in drop doses.

Herbal

Nyctanthes is a small tree of the Jasmine family, having brilliant, highly fragrant flowers, white and yellow, which do not expand until evening and which fall off about sunrise. This during the day the tree lose all its brightness and hence is called "The Sad Tree" (Arbor tristis). "Nyctanthes" means "Night-flowering."

S. C. Ghose has given an account of the medicinal properties of this plant. He has used it extensively in cases of bilious and remittent fevers, rheumatism and sciatica and the constipation of children.

Nyct. is "bitter tonic and expectorant and a mild purgative." In the fever there is thirst before and during chills and bitter vomiting at close of chill. Not much sweat.

Ghose compares it with Eup. per. He has made a short proving of it. **Planets:** Mars, Saturn.

Homeopathic

Nyctanthes is an expectorant, bitter and tonic, febrifuge and mild purgative. It is used in bilious and obstinate remittent fever, sciatica and rheumatism. Nyctanthes is very useful in constipation of children. Bilious and obstinate remittent fevers, sciatica, rheumatism. Constipation of children.

Clinical

Constipation. Fevers, bilious, remittent, Rheumatism. Sciatica.

Symptoms

MIND

Anxious and restless.

Food

Thirst. Insatiable thirst before and during chill and fever.

Head

Dull headache.

Kidneys

Urine high-colored.

Liver

Tenderness of liver. Stitches in liver region, which is very sensitive to touch.

Mouth

Tongue coated.

Rectum

Constipation. Profuse, bilious stool with nausea.

Stomach

Burning sensation, better cold application. Bilious vomiting occurs every time he takes a drink. Constant nausea may or may not be present.

Temperature

Thirst, before and during chill and heat. Bitter vomiting at close of chill. Sweat not generally marked.

Comments

The following observations, provings and clinical experience were supplied by Dr. Sarat Chandra Ghose of Calcutta India. They were made about the years 1898-1903:

(1) A lady at the house of Babu I. C. Chakrabarti, B. A., Head Master, Town School, Midnapore, was suffering from a complicated attack of intermittent fever. No medicine could give her any relief. I marked the following symptoms when I took her under my treatment:

(2) A boy, aged 7, was suffering from intermittent fever for some time. The fever came on every evening at 7 p.m. Violent thirst was present during chill and fever. Bilious vomiting was present. The bowels were constipated.

PAGE 1217

I prescribed *Nyctanthes* tincture in five drop doses thrice daily. The boy was cured within three days.

(3) A woman, aged 68, was suffering from remittent fever for ten days. I took her under my treatment on the eleventh day.

(4) The son of Babu Sarada Kanta Chatterjee was suffering from a malignant type of ague with great constipation. He was treated by some allopaths and native Kabirajes for nearly five months, but no perceptible improvement was wrought by the administration of their remedies. He was eventually placed under my treatment.

(5) The son of Mr. M. M. Ray, Deputy Magistrate and Collector of Midnapore, was suffering from remittent fever, associated with bilious symptoms for five days. On the sixth day the boy was placed under my treatment.

(6) The son of Mr. G. C. Dutt, Deputy Magistrate of Midnapore, was suffering from an attack of intermittent fever for some time. The fever came on every morning at about 7 a.m. Violent thirst was present during all the stages. Bilious vomiting came on in the hot stage. The bowels were constipated. I prescribed *Nyctanthes* tincture in three-drops doses. The boy was all right within three days.

These cases will throw a clear light on the fact that *Nyctanthes Arbor-tristis* will prove an excellent remedy for the symptoms mentioned before. Dr. Sarat Chandra Ghose treated nearly 120 cases with this medicine alone and an overwhelming majority of them were cured.

Nymphaea odorata

(sweet water lily)

Pharmacy

Nymph. Nymphaea odorata. Sweet Water Lily. N. O. Nympheaceae. Tincture of the root.
Historical dose: Tincture and all potencies.

PAGE 1218

Quercus robur

Oak

(bach flower remedy)

Pharmacy

Oak. Quercus robur. Red female flowers are gathered and put in a bowl of sunlit water for several hours. The water is strained and prepared as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

The remedy Oak belongs to the group of Despondency and Despair, as classified by Bach. The other remedies in this group are Crab Apple, Willow, Star of Bethlehem, Sweet Chestnut, Elm, Pine and Larch. **Planets:** Moon.

Homeopathic

Oak treats states of stoic perseverance and willpower resolve in the face of hardship. Mental/emotional and physical weariness are common in the Oak state. Over-work and strength of will may lead to physical strain and undue stress. Older people may become bent from over-exertion and one-sided activity.

In sickness, the Oak person struggles unceasingly, with great determination to not succumb to invalidity. There is the urge to avoid necessary rest and restful recreation, even though both may be of vital need. Over time, psychosomatic diseases may express the continued rule of willpower over the need for healthful diversion and renewal (see Centaury).

Symptoms

MIND

In the Oak state, the mind is bent on perseverance in life's duties, even though strength and vitality may be failing. There may be unceasing disappointments or lack of rewards despite efforts made and still the Oak person does not give up, but resolves to struggle on with great strength of will and ever renewed hope.

Self-discipline, seriousness of intention, a tendency to over-work and loyalty are characteristic of the Oak mentality.

In the Oak state, one maybe focused on completing tasks and on upholding of life's commitments. Inner weariness and lack of motivation may surface repeatedly.

Bach.

Ocimum canum

(brazilian alfavaca)

Pharmacy

Oci. Ocimum canum. Brazilian alfavaca. Ocimum incanescens. Ocimum fluminense. N. O. Labiate. Portuguese. Tincture of fresh leaves. Historical dose: Tincture and all potencies, 6x to 30c.

Herbal

All the members of the Ocimum genus are aromatic. The Sweet or Common Basil, Ocimum basilicum is one of the best known. Oci. is one of the remedies we owe to Mure, who tells us that it is used in Brazil as a specific for diseases of the kidneys, bladder and urethra.

Excessive sensitiveness of the breasts and pain on nursing, are important symptoms. Concomitant symptoms are vomiting, cries tossing about and wringing hands. Prolapsed vagina.

Majumdar adds that Oci. is the sacred Toolsi of India and that the Kabirajes use it in diseases of the liver and bilious remittent fevers.

Homeopathic

Oci. is useful in diseases of kidneys, uterus, bladder and urethra. Kidney pain with violent vomiting every fifteen minutes, one wrings one's hands and moans and cries all the time. Kidney colic, especially right side. Red urine with brick-dust sediment after the attack. The urine may be saffron color or thick, purulent with an intolerable smell of musk.

Oci. has uric acid diathesis. Red sand in the urine is its chief characteristic and frequently verified. Symptoms of kidney stones are pronounced. Kidney colic, especially on the right side. Swelling of glands inguinal and breast.

PAGE 1219

The remedy shows a marked attraction for the urinary and genital organs. Febrile condition, shivering, sweating and with congestive headache. Pain in the left testicle. Allergies. Arthritis. Swelling of inguinal glands and breasts. Breast congestion. Vulvar congestion.

Clinical

Albuminuria. Breasts, painful. Bubo. Diarrhea. Gravel, urinary. Kidney diseases. Kidney colic. Kidney stones. Urine, abnormal. Vagina, prolapse.

Constitutions

Allergic constitutions. Psoric constitutions. Neuro-arthritic temperament. **Planets:** Venus.

Modalities

Better in a room. Better in rainy weather. Better in humid weather. Worse in the morning. Worse from the cold. Worse right side.

Symptoms

MIND

Difficulty in concentrating. Anxiety. Confused state.

Abdomen

Abdomen distended, painful on the right side during menses. Glands in the groin swollen. Edema on the right side of the testes or labia.

Breasts

Nipples painful and sensitive to the touch. Constrictive tension in the breasts. Breasts feel full and tense, itching. Congestive pains in the breasts as after nursing. Puerperal mastitis. Neuralgic pains in the breast.

Chest

Chest painful on right side. Cough dry in the evening and the early morning. Copious sputum.

Ears

Boil on the meatus of the right ear. Noise heard painfully in the ears.

Eyes

Blurred vision.

Female

Vulva swollen, darting pain in labia. Vaginal prolapse. Menses late, short or abundant. Vulva swollen, shooting pains in the labia majora, vagina prolapsed. Whitish-yellow leucorrhoea. Salpingitis. Vulvitis.

Food

Lack of appetite. Desire for cold drinks during fever.

Head

Stinging pain in the head. Pain in the head, as if a nail were being driven in, ameliorated by pressure. Pulsating, throbbing headache.

Kidneys

Symptoms of kidney stones especially of right side are pronounced. Stones in the bladder. Sore pain in ureters. Cramps in kidneys. Kidney colic on the right side with vomiting ever quarter of an hour with calling out. Restlessness and groaning. Tenesmus of the bladder. Burning pain in the urethra during urination. Urine abundant, burning. Pyelonephritis.

Male

Pain in the testes. Heat and swelling of left testicle. Increase, then diminution of sexual desire. Absence of erection. Tenderness, heat and swelling of the left testicle.

Mouth

Tongue furred, yellow, yellowish-white with a brown spot in the center. Toothache on the right, ameliorated by pressing the teeth together. Lips dry, face red.

Nose

Nasal congestion.

Rectum

Constipation with dry, hard, evil-smelling, yellow or greenish stools. Diarrhea several times a day.

Skin

Herpes. Eczematous eruptions.

Stomach

Belching. Hiccoughs. Nausea.

Temperature

Headaches followed by shivering. Shivers, fever and lack of thirst. Fever of the tertian or quartan type. Profuse sweating with strong odor.

Urine

Red sand in urine, which may be of saffron color and of musk like odor. High acidity, formation of spike crystals of uric acid. Brick-dust red or yellow sediment. Turbid, thick, purulent, bloody urine. Urine scanty, which worse. Urinary complaints with proteinuria. Urine thick, foul-smelling with odor of musk.

Vertigo

Vertigo on rising and on sitting down.

Comments

In two cases published by Clarke the following symptoms were removed: (1) Man, 27, every three or four weeks, seized with violent pains of a dull leaden character in right side of abdomen, commencing in morning, lasting twelve to fifteen hours.

For four hours from commencement of attack the pain steadily increased, culminating in vomiting, first of sour fluid, then slime, lastly of a fluid like coffee. After the vomiting some relief of pain. Urine contained no sediment.

PAGE 1220

The attacks had lasted seven years. At first they began in the evening. There was a history of epilepsy in the family and as a child the patient had three fits. Oci. 200c, one dose, was given and there were no more attacks for about the years. On their recurrence Oci. failed to control them, but Diosc. tincture succeeded.

(2) lady, 24, severe pain right flank shooting round to back. Frequent urination, urine sometimes depositing clots. Terebe. 3c gave some relief, but it was not permanent. Oci. 200c, a few globules in water, a teaspoonful every two days, rapidly relieved the symptoms and cleared up that of the case and there has been no return to the present date.

P. C. Majumdar relates (1) the case of a medical man, 45. Majumdar was sent for at 4 a.m. one morning and found the patient in great agony, pain in upper part of region of right kidney, extending downwards and forwards to pubes.

Constant vomiting, bilious, acid tossing about without any relief. After Calc., Lyc., Sep., Sars. and Berb. had been given in vain, Oci. 3x gave immediate relief and no other remedy was required.

(2) Man, 50, excruciating pain in left kidney, for which he had received Opium under allopathic treatment without relief. Majumdar saw the patient on the sixth day of the attack. The suffering was extreme, vomiting of bile, constant nausea, bowels constipated. Oci. 3x, one drop every three hours, speedily gave relief and two days later two small uric acid stones were passed. No recurrence.

Oenanthe crocata

(water dropwort)

Pharmacy

Oena. Oenanthe crocata. Water dropwort. Hemlock Drop-wort. N. O. Umbelliferae. Marshy places. Tincture of fresh root, at time of flowering. Historical dose: Tincture and all potencies, first to sixth potency.

History

Oenanthe crocata is one of the most poisonous of the Umbelliferae. and many accidents have happened from the use of the root in mistake for parsnips and of the leaves in salads and soups. These have furnished the symptoms of the pathogenesis.

S. H. Talcott in the report of the Middletown Asylum, 1893, notes that Oenanthe possesses a marked power in epilepsy. He states that it makes the attack less frequent, less violent and improves the mental state of the patient. Talcott prescribes it in the tincture, 1 to 6 drops daily.

F. H. Fisk reports the cure of a case which had lasted two years with the tincture. This case during the last month before the doctor took it was having from 6 to 10 attacks daily.

Dr. Garrison of Easton, Penn. reports a case of reflex uterine of hystero-epilepsy in which the Oena. 2x acted promptly.

J. Ritchie Horner reports that the remedy greatly modified the attacks in a lady who had the disease over 20 years and who, for the two months previous, had a convulsion daily. He used Oena. 3x. J. S. Cooper of Chillicothe, Ohio, reports the cure of a case of 25 years' standing with Oena. 4x. **Planets:** Moon.

Homeopathic

Oena. is a valuable convulsive remedy, useful in epileptiform, puerperal and uremia convulsions. It has epileptic convulsions, worse during menstruation and pregnancy.

PAGE 1221

Face swollen, convulsive twitching of facial muscles, foaming at mouth, lock-jaw. Convulsive facial twitching.

Oena. in epilepsy, falls backwards and utters a loud cry before falling. Status epilepticus. Skin affections, especially leprosy and ichthyosis. Rosy red blotches on face and chest, arms, abdomen. Profuse offensive sweat.

Obstinate vomiting for days not relieved by anything. Burning in throat and stomach, nausea and vomiting. Red spots in face. Cold as if dead during convulsions, noise in throat as if being choked. Burning heat. Numbness. Legs stretches straight out.

Clinical

Albuminuria. Breast, pain. Convulsions. Cough. Diaphragm, spasm. Epilepsy. Esophagus, stricture. Gastro-enteritis. Hysterical epilepsy. Insanity. Priapism. Puerperal convulsions. Sciatica. Speech, lost. Stomatitis. Strokes. Tetanus. Tongue, swollen, ulcerated.

Causations

Menstrual disturbances. Injuries.

Modalities

Pressure ameliorates deep pain in thorax. Worse from injury, sexual and menstrual disturbances. Pressure aggravates pain in throat. Swallowing causes soreness of throat. Worse from water.

Symptoms

MIND

Epileptic insanity. Epileptic condition at periods when menses are due in amenorrhea. Coma after convulsions. Tendency to cry over little things. Insanity, hallucinations. Delirium like delirium tremens. Furious delirium. Sudden and complete loss of consciousness. Averse to be questioned.

Abdomen

Much distended with colic pains. Gastro-enteritis with violent pain and vomiting. Tympanites with the convulsions. Great tenderness, slightest touch on any part of abdomen causes great pain.

Back

Pain along spinal column. Intense action of dorsal and lumbar muscles, opisthotonos.

Breasts

Pain in breast. Swollen breasts. Nipples painful to least contact.

Chest

Pain in right side under the ribs. Lungs hyperemic, hepatized in spots. Pleuritic exudation. Chest firmly fixed.

Eyes

Sunken, **full** and projecting inflamed. Pupils first contracted, **then dilated**. **Eyes** turned upward and inward and firmly fixed. Redness. Vision disturbed, obscured.

Face

Countenance livid, eyes fixed, pupils dilated, convulsive twitching of facial muscles, trismus, foaming at mouth, locked jaws. Rapid, convulsive twitching. Risus sardonicus. Lips blue. Rose-colored spots on face.

Food

Total loss of appetite with debility. Thirst, craves cold drinks, evening. Cannot bear to drink anything hot.

Head

Hyperemia of brain, extravasation and serous exudation. Pains all over head, dizzy. Suddenly falls down backward. Headache and giddiness. Apoplectic conditions. Violent pain in head. Hair fell off.

Heart

Pain in region of heart. Pulse is small, feeble, irregular and scarcely perceptible, accelerated before the fit.

Kidneys

Urination painful. Urine copious, dark, turbid, reddish. Sediment: copious, thick yellow.

Limbs

Numbness and feebleness of limbs. Convulsions, opisthotonos. Hands clenched during tetanus. Arms flexed at elbow in a right angle. Pain along crural and sciatic nerves, commencing in back. Cold hands and feet. Numbness of hand and foot. Cramps in calves.

Lungs

Tickling cough with rattling in the lower part of the chest. Thick, frothy expectoration. Spasms of diaphragm. Heavy, spasmodic, stertorous breathing. Cough, worse at night, excited by tickling at top of throat. Rattling in the chest, sputa thick, heavy, white and yellow. Expectoration is reddish, bloody, white, frothy.

Male

Priapism.

Mouth

Convulsive movement of teeth. Foaming at mouth, bloody mucus. Excoriation inflammation, blisters. Mouth dry and parched. Loss of speech.

Nose

Bleeding from the nose.

Rectum

Stool involuntary, diarrhea.

PAGE 1222

Sensations

As if a bug creeping under the skin about the waist, worse touch of clothes.

Skin

Loss of nails and hair. Rose colored rash on face, chest, arms and abdomen.

Sleep

Much yawning. Drowsy. Roused with difficulty. In a deep sleep, snoring loudly and moaning.

Stomach

Esophagitis. Distressing hiccough. Nausea, better if vomiting occurs. Vomiting and diarrhea. Vomit is clear water liquid, blood. Tender stomach. Burning heat in stomach.

Temperature

Deadly cold and pale. Face and limbs cold and blue. Extreme coldness, loss of animal heat. Burning heat that mounted to head. Slight fever with pain at pit of stomach. Profuse sweat offensive, accompanied all symptoms.

Throat

Burning and constriction in larynx. Pressure on throat gives pain, it is sore when he swallows. Violent constriction and burning in the throat. Pharyngitis. Power of swallowing lost.

Tongue

Tongue half bitten through. Tongue sore and swollen and protruded. Tongue slightly furred, raw at tip, ulcerated at edges. Tongue clean, moist, trembling.

Vertigo

Vertigo with falling. Vertigo with nausea, vomiting, syncope and convulsions.

Comments

Henderson reports the cure of a case of 9 years' standing, where the patient was almost idiotic, the convulsions were relieved and the mental condition was greatly relieved and improved. In two other cases equally satisfactory results were had.

D. A. Baldwin of Englewood, N. J., entirely controlled the convulsions in a young man of 16 with Oenanthe.

Dr. Ord reports a case of petit mal cured with Oean. 3x and in a South American homeopathic journal a Dr. Rappaz reports the cure of a case of three years' standing with increasing seizures with the remedy in doses ranging from the 6c to 12c.

W. A. Dunn reported a genuine cure of a young girl of 16 who had been epileptic for 7 years, latterly having as many as 4 or 5 attacks during a night. The remedy caused these attacks to entirely disappear. The girl commenced menstruating at age 12, so the establishment of the menses had nothing to do with the cure.

Charles A. Wilson of San Antonio, Texas, reports a number of cases cured with Oean. 3x and the same potency greatly lessened the number of seizures in others. Dr. Purdon of the University of Dublin, relates a case of epilepsy cured with this remedy in 1 to 6 drop doses several times a day.

F. E. Howard in a case which had 3 or 4 attacks a week, gave 5 drops of the tincture every two hours, which caused violent pains in the head, but complete recovery followed on reducing the dose.

Several cases of the cure of epilepsy with Oenanthe in alternation with Silica or some other drug have been reported, but as the question "which cured?" comes in they need not be given.

McClellan of New Jersey, tells of a case of his in which a young woman, 19 of a very healthy family, who had never menstruated, had become almost idiotic in consequence and at the periods when the menses should have come on there were epileptiform seizures of minor intensity. The state of mind was such that after taking the best advice in Paris and the States without avail, the patient was about to be put away.

Oean. was given and the next period passed without any epileptic symptoms. But there was no sign of the flow. Bell. was now given and at the next periods the flow came on and the patient's mind was entirely restored.

J. S. Cooper relates the case of a clergyman in attendance on one of the Federal generals at Gettysburg, who was wounded in the forehead by a fragment of shell, taken prisoner and kept in prison twenty months.

PAGE 1223

On his release he was quite a wreck and soon began to have light epileptic seizures, which gradually got worse and when seen by J. S. Cooper, twenty-five years later, he was having four or five fits a day, could write his name and at time would take to his heels and run four or five miles into the country before he could be caught.

Oean. 4c, five drops every four hours, was prescribed. After the first dose he had a very bad fit. The dose was diminished. He began to improve and in less than a year was in perfect health. Oean., was not taken continuously, but when he "felt nervous" he would take a few doses.

F. H. Fish cured a girl, 16, sanguine, well grown, who at eight began to have fits of absentmindedness at irregular intervals. At twelve menstruation commenced, at fourteen epileptic seizures, having no relation to the menstrual periods. The fits were so severe that sixty to one hundred grains of Potassium bromide was required to keep them under control.

Oean. tincture, five drops in six ounces of water: a teaspoonful every three hours and later less often. She had not another spasm and lost here absentmindedness and became cheerful and active.

W. K. Fowler reports this case: A teamster, 60, nineteen years before got into a fight, had three ribs broken and was struck in stomach with butt of gun. Two weeks later had pneumonia on the injured side and after that epileptic seizures. Before the attacks after: pain in stomach going through to spine, pain in second cervical vertebra. Attacks induced by worry and by becoming very tired. Severe attacks day's work was finished.

Oean. on discs, four discs every three hours for a month. After this there was only one slight attack after a hard day's work during the four months he was under observation.

Oenothera biennis

(large evening primrose)

Pharmacy

Oeno. *Oenothera biennis*. Large Evening Primrose. Tree Primrose. N. O. Onagraceae. North America. Tincture of fresh plant. Historical dose: Tincture and all potencies.

History

There is a proving recorded by T. Riker Nute on a woman who took on two occasions. (1) a teaspoonful, (2) 30 drops of the liquid extract for the relief of a wearisome feeling of mental and physical oppression and on each occasion, notably the first, distinct poisoning symptoms were developed.

Farrington gives these indications: Exhausting, watery diarrhea without effort with nervous exhaustion, even incipient hydrocephalous. Hurd cured a man, 65, who had "severe pains in his stomach after meals for over two years" with 25 drop doses of the tincture. **Planets:** Moon.

Homeopathic

It is effortless diarrhea that Oeno. has been most successfully used in homeopathic practice. A kind of general paralysis of mental and bodily forces was induced and at the same time copious and easy evacuations of bowels and bladder, followed by relief of the general symptoms.

General numbness, general warm sweat with urgent desire to urinate, better after evacuation of bowels and bladder, are noteworthy symptoms.

Clinical

Cholera infantum. Diarrhea. Hydrocephalous.

Compare

PAGE 1224

Oleander

(rose-laurel)

Pharmacy

Olnd. Oleander. Nerium oleander. Rose laurel. N. O. Apocynaceae. South Europe, North Africa, West Asia. Thrives best in moist ground. Tincture of the leaves. Historical dose: Tincture and all potencies, third to thirtieth potency.

History

Oleander, which is one of the remedies proved by Hahnemann, has been recognized as a powerful poison from antiquity. In the Cap de Verde Islands the petals of Oleander blossoms are used with dried orange-peel in all kinds of fevers to promote perspiration and drive out the rash. In animals poisoned by it, the heart becomes paralyzed, first the auricles, then the entire heart.

Goullon refers to poisoning cases in which "anguish inflammation of the stomach, diarrhea, swoons," and even death had occurred. "Palpitations of the heart, anxiety insomnia and unconsciousness," were observed by Petrus de Alvano and Morgagni has noted "vomiting, thirst, slumbering, speechlessness and death." Goullon also quotes instances of suffering from exhalations of the flowers and even from the plants when not in flower. **Planets:** Moon.

Homeopathic

Oleander has a marked action on the skin, heart and nervous system producing and curing paralytic conditions with cramp-like contractions of upper limbs. Hemiplegia. Difficult articulation.

Paralytic conditions with cramp like contractions of upper limbs. Paresis after infantile paralysis. General crampings. Numbness. Weakness with trembling in nursing women. Sense of vibrations.

Emptiness in stomach and chest after eating, better brandy. Hemiplegia. Paralytic rigidity. Sopor. Unable to speak or speaks with difficulty. Discharges involuntary.

Clinical

Brain disorders. Eczema. Fainting. Headache. Hyperesthesia. Lienteria. Memory, weakened. Numbness. Nursing women disorders. Palpitations. Paralysis. Perichondritis. Rheumatism. Scalp, eruptions. Spasms. Spine disorders. Strabismus. Tongue, coated, parched. Vertigo.

Modalities

Better from looking sideways. Better brandy. Squinting helps headache. Worse in open air, by draft of air. Worse rest, undressing after nursing. Worse by scratching, by rubbing. Worse looking sideways, friction of clothes. Rising up aggravates headache, vertigo. Stooping causes pain over heart.

Symptoms

MIND

Memory weak, slow perception. Melancholy with obstinate constipation. Sadness with lack of confidence and power. Morose. Peevish. Slow comprehension.

Abdomen

Borborygmus with profuse, fetid flatus. Gnawing around navel.

Chest

Oppression as from a weight, asthmatic when lying down. Obtuse stitches in chest.

Eyes

Can see objects only when looking at them sideways. ***Eyes water on reading. Double vision.*** Sensation as if eyes were drawn back into the head. Lachrymation, when reading.

Face

Pale, sunken with blue rings around eyes. (Ph-ac.) Numb upper lip. Lower jaw trembles when yawning.

Female

Tremors after nursing, so weak she can scarcely walk across the room.

Food

Desires cold water. There is thirst for cold water. Aversion to cheese.

Head

Headache better by looking crossways, sideways or squinting. Pain in brain, as if head would burst. Numb feeling. Dull, unable to think. Indolence. Corrosive itching on forehead and edge of hair, worse heat. Eruption on scalp.

Humid, fetid spots behind ears. (Graph., Petr.) and occiput with red, rough, herpetic spots in front.

Heart

Palpitations with weakness and empty feeling in chest. Better brandy. Pains on stooping.

Kidneys

Involuntary urination.

Limbs

Weakness of lower limbs. Crampy contraction of upper limbs in paralysis. Limbs stiff and cold. Stiffness of joints. Cold feet. Constant cold feet. Swelling, burning stiffness of fingers. Veins on hands swollen. Trembling knees when standing. Edema. Paralysis of legs and feet. Painless paralysis.

PAGE 1225

Lungs

Dyspnea.

Mouth

Toothache only when masticating. Tongue numb. Loss of speech.

Rectum

Ineffectual urging. Burning pain in anus. Passes food undigested in the morning which he ate the day before. Stools, passes when emitting flatus. Stools, thin involuntary, escape with flatus in children.

Sensations

Peculiar sensations suggestive of paralysis, are: Buzzing and humming sensations in the body. Numb or painless paralyzed feeling as if inner parts were distended. Pulsations in

outer parts. Gnawing itching, biting or pungent pain after scratching. Numbness of skin or itching numbness.

Skin

Very sensitive skin, slightest friction causes soreness and chapping. Itching, scurfy pimples, herpes, sensitive and numb. Nocturnal burning. Violent itching eruption, bleeding, oozing, want of perspiration. Itching, especially of scalp, which is sensitive. Eruptions with itching, biting as of lice. Skin numb.

Sleep

Sopor. Yawning with trembling of lower jaw.

Stomach

Extreme debility of digestive power. Canine hunger with hurried eating without appetite. Thirst. Empty belching. Vomiting of food, greenish water. Throbbing in pit. Empty feeling even after eating, better brandy.

Temperature

Heat from mental exertion.

Throat

As if a cool wind blowing on throat (left).

Vertigo

Vertigo for a long time before paralysis. Vertigo, worse looking fixedly at an object or looking down, turning to either side in bed with diplopia.

Comments

A young man, 18, fell sick, had attacks of vertigo, suffered from great weakness of the muscles, headache better in evening.

Worse every morning after waking, which was a difficult process. In addition: pale face, white-coated tongue, slow pulse. On leaving for change of air he soon got quite well, but ill again as soon as he returned.

Some oleanders in his bedroom were then suspected by his doctor and on their removal all the trouble vanished. The doctor then recalled that when a student he had some oleanders before his windows and in autumn, when the nights were cold, he took them into his bedroom with this result:

On waking in the morning heavy head and sensation of weariness, could only leave his bed by great exertion. As soon as he put his foot to the ground was seized with vertigo and reeled. Having traced this to the oleanders, he purposely repeated the experiment and always with the same result.

Olean. is in the front rank of remedies affecting the scalp, more particularly the back part of the scalp or commencing there. "Desquamation of the epidermis of the scalp," "violent gnawing itching on the scalp, as from lice after scratching, a smarting as if scratched raw" are symptoms which have been repeatedly verified by cures and Clarke has confirmed

Cooper's experience in one very bad case in a schoolboy, that a single dose of the tincture may give the best possible result in such cases. The condition was: Head very sore and irritable, covered with crusts, sore to touch. Glands in neck swollen and sore to touch.

Olean. two drops in a powder at bedtime on November 14th. On November 27th an aggravation was reported and the eruption had spread from the head to the back.

From this time rapid improvement set in.

The skin generally of Olean. is very sensitive and easily chafed and chapped and this occurring concomitantly with other Olean. conditions.

The digestion is paralyzed and the food passes completely undigested. Gastro-enteritis, forms a strong indication. Infants soil their diapers every time they pass flatus.

PAGE 1226

Momentary loss of sight. The paralytic symptoms of Olean. are in constant evidence. Involuntary evacuation of feces and urine.

Olean. corresponds to "trembling after nursing" in nursing women to weak memory and slow perception to functional paralysis. The headaches are mostly pressive and stupefying. Pressure as if a hundredweight were pressing brain forward and as if everything would come out at forehead.

A curious feature in connection with some of the headaches is that they are better by looking cross-eyed or by looking sideways. This is a clinical observation well verified. There is also cloudiness of vision, worse by looking sideways. **Eyes** distorted. Olean. should cure some cases of strabismus. The left side is most affected, violent contraction of muscles, worse left side. Numbness of upper and lower limbs has been frequently confirmed.

Compare

Oleum animale aethereum

(dippel's animal oil)

Pharmacy

Ol-an. Oleum animale. Aethereum Dippeli. Dipple's Animal oil. Oleum cornu cervi. Dilutions in alcohol. This volatile oil is prepared by Dippel first by distillation of stags' horn. Historical dose: Tincture and all potencies, third to thirtieth potency and higher.

History

Oleum animale is an oil obtained from the preparation of bone-black and further distilled and rectified for medicinal use. It was discovered in 1711 by Johann Conrad Dippel, the alchemist, who was the discoverer of Prussian-blue.

Dippel obtained it in the first instance by distillation of stags' horns: hence the name *Oleum cornu cervi* with which the *Ol-an.* as at present prepared is considered identical, the deciduous horns of the stag partaking more of the nature of bone than the permanent horns of cattle.

As rectified it is "a colorless or slightly yellow, thin, oily liquid with a penetrating but not disagreeable odor and an acrid, burning taste, which changes to a cool and bitter one. It darkens and thickens on exposure to air and light and is extremely volatile. A drop on paper evaporates without leaving a greasy stain."

Its composition is extremely complex, but it may be regarded as belonging to the group of volatile carbons. Sircar gives an interesting account of *Ol-an.*: Though it is not the panacea which Dippel imagined it to be when he discovered it, *Ol-an.* in a very powerful medicinal substance and since it has been well proved by Nenning, Schreter and Trinks, it has a definite place in the Homeopathic *Materia Medica*.

Grimmer states: Cancer of the breast with burning or sticking and pressure may be radiating in all directions, relieved by rubbing and in the open air.

PAGE 1227

A uterine tumor cured with several doses of *Ol-an.* 1000c potency given at long intervals shows its relationship to new growth.

Sensation as if stomach were full of churning water is a peculiar symptoms of the remedy and found only in a few others. **Planets:** Moon.

Homeopathic

Oleum animale affects the nerves especially pneumogastric nerve, digestive organs. Useful in migraine and neuralgia of spermatic cord. Burning pains and stitches. "Pulled upward" and "from behind forward" pains. Symptoms appear here and there or in single parts.

Ol-an. is a chilly medicine, but the chilliness (and also coryza) are worse in a warm room and better in open air. Affected part feels sore. Tremulous weakness of hands, knees, feet etc. Pain in spots. Stitches, burning pains, as with red hot needles. Pulled upward and from behind forward pains in malar bones, testicles, breasts. Icy coldness from tips of teeth in throat, stomach etc. Shuffling gait. Urinous odor with belchings, leucorrhoea etc. Flesh feels torn from bones. Neurasthenia.

Clinical

Asthma. Breast disorders. Cancer. Colds. Constipation. Coryza. Facial paralysis. Faint. Gonorrhoea. Headaches. Migraines. Neurasthenia. Polyuria. Prostate disorders. Spermatic cord, neuralgia. Testes, neuralgia, retraction.

Causations

Ill effects of suppressions, especially of foot sweat.

Modalities

Better from rubbing, pressure. Better by stretching. Better in open air, eructation. Better changing position. Worse from cold, suppressions. Worse from hot drinks, noise. Worse from 2 to 9 p.m. Worse from eating. Worse in warm room. Worse before during and commencement of menses.

Symptoms

MIND

Indolence and inclined to sit, taciturn. Ill-tempered. Nervous irritability. Sad introverted, absorbed in self, speaks in whispers. Vanishing thoughts. Faintness from gastric origin.

Abdomen

Flatulence and rumbling. Bruised pain in abdomen after stool.

Back

Aching in right scapula, better pressure. Sprained feeling in sacrum. Unsteady gait. Cracking in cervical vertebrae on raising the head.

Breasts

Stitches in breast from behind forward.

Chest

Stitches at clavicle. Chest feels constricted. Oppression.

Eyes

Smarting in eyes, misty vision. Glistening bodies before the eyes. Lachrymation when eating. Short-sighted. Twitching of lids. (Agar.) A skin seems to overhang the eyes.

Twitching of lids.

Face

Feels drawn. Cramp-like pains. Twitching of lips. Malar bone feels pulled upward. Toothache, better from pressing teeth together. White of an egg seems dried on lips. Swelling beneath right lower jaw.

Female

Menses, early, scanty, black flow. Sore breasts before menses, outward stitches in nipples in scirrhus. Stitches in breast from behind forwards. Urinous leucorrhoea.

Food

Desires bread. Drinking cold water causes pressure in stomach, worse from hot drinks. Worse eating (sweat, lachrymation, headache). Especially worse after dinner.

Head

Migraine with polyuria. Pain in spots. Tearing pain with sadness and irritability, worse after dinner, relieved by rubbing. Itching, burning vesicles, better friction. Malar bones feel pulled forcibly upward.

Heart

Anxious palpitations. Pulse slow.

Kidneys

Profuse, pale urine of fish brine odor, worse hysteria, migraine. Polyuria. Greenish urine, frequent and urgent want to urinate with tenesmus and scanty emission. Itching in urethra. Small stream of urine.

Limbs

Sprained feeling in small of back. Cracking of vertebrae on raising head. (Aloe, Nat-c., Thuj.) Restlessness. Rheumatic pain in shoulders. Fish-brine odor of sweat of heels.

PAGE 1228

Lungs

Asthma from suppressed foot-sweat.

Male

Desire increased, ejaculation too soon. Pain along spermatic cord to testicles. Testicles feel seized and pulled forcibly upward, worse right. Pressure in the perineum. Seminal losses, on straining at stool. Prostate hypertrophy.

Mouth

Bites cheek while eating. (Caust.) Tongue feels sore. Greasy feeling in mouth. Toothache better pressing teeth together with sensation of coldness coming out from tips. Snow-white cottony saliva. Tongue sore as if scalded.

Nose

Watery, excoriating discharge, worse in open air.

Rectum

Ineffectual urging to stool with burning in anus.

Sensations

As if testicles were seized and pulled forcibly upward. Sensation in scalp as if skin had been cut and reunited. As if blood were rushing to head to occiput on entering a warm room. As if red-hot needles in chest. As if thumb (and toe) would ulcerate.

Skin

Excoriation in bends of joints.

Stomach

Sensation as if water were in stomach of coldness of constriction and of burning, better belchings. Waterbrash, better chewing tobacco. Sensation of coldness (as of a lump of ice), burning, constriction, better eructation. Urinous belchings.

Temperature

Alternate chill and heat. Cold, foul foot-sweat, fishy smell on heels.

Throat

Sore, dry, constricted, empty swallowing difficult though food and drink pass easily. As if cold air penetrates the throat. Hawks out, gluey, brown lumps. Acrid vapor or raw streak in throat, worse cough.

Vertigo

Vertigo from gastric origin, better bending head backwards.

Comments

As is usually the case with combustive products, Ol-an. has burning pains and burning sensations in almost all parts and like the carbons and Kali-c. it has also stitches and sometimes combinations of the two, "stitches as with red-hot needles." Stitches and pressure may be in all directions, but from behind forward is particularly characteristic. "Stitches from behind forward in breasts, pressure from both sides of the back extends forward."

Guided by the former Clarke gave great relief in a case of cancer of right breast in which pains darting forward out of the nipple were complained.

Pulled upward is another characteristic sensation. Sensation in both malar bones as if pulled forcibly upward. And it also occurs in the testicles. Both testicles are drawn up and very painful.

This led to the cure of a long-standing neuralgia of spermatic cord, excruciating attacks three or four times every year, pains as if testicles were seized by a hand and pulled very severely. Ol-an. 18c gave almost instant and permanent relief.

The cure of a case of migraine is quoted in H. M., July, 1895. Zwingenberg after failing with Sang., gave Ol-an. 2x, five drops in warm water, morning and evening to a lady who

always suffered from migraine the day after a fashionable party, at which she usually wore a heavy diadem on her head.

Polyuria of clear urine accompanied the migraine and suggested the remedy.

This accompaniment may indicate Ol-an. in any nervous disorder. Zwingenberg also cured a case of nervous asthma following repelled foot-sweat.

Dever cured toothache in an extremely irritable patient, pain better by pressing the teeth together. The provings have "stitches in right upper molar removed by pressure after dinner."

PAGE 1229

Dr. Leggett related one case: A very stout Dutch lady, 56 who had been under constitutional treatment for uterine tumor, engorged liver and cerebral congestion. She presented the following symptoms: Sensation as if water rushing back and forth in stomach, fancied the tumor had increased to size it was years ago. She had been walking, standing and shopping and had eaten many sweets.

Of the remedies having "stomach as if full of water," Ol-an. was chosen as more similar to the case than Mill. or Phell. and was given in 1000c potency, a single dose. A month later she was better in every way and a second dose brought still further improvement.

Twitching of lips and swelling beneath right lower jaw. Malar bone feels as if pulled forcibly upward. Greasy feeling in mouth and accumulation of quantities of saliva white as snow. Relaxation of buccal mucous membrane, patient cannot avoid biting cheek when he eats.

Soreness of tongue as if scalded. Sensation as of white of egg dried on lips. Sensation as if cold air penetrated throat although the air is warm, better eating and drinking, worse empty swallowing. Desire for soft-boiled eggs or for bread only with aversion to meat. Sensation as if water were in stomach, as if a lump of ice there.

Belchings taste like urine and burn. Menses too early and too scanty. Cracking in vertebra of neck on raising head. Cramp-like pains in different parts. The left side is predominantly affected, when direction is noted it is from before backward and from behind upward.

Oleum jecoris aselli

(cod-liver oil)

Pharmacy

Ol-j. Oleum jecoris aselli. Cod liver oil. Oleum jecoris Morrhuæ. Oil obtained from the livers of *Gadus morrhua* and some other allied fishes. N. O. Gadide. Tincture. Trituration. Historical dose: Tincture and all potencies, first to third trituration. Locally in ringworm and nightly rubbing, for dwarfish, emaciated babies.

History

The number of people who "cannot take cod-liver oil" is very great, which means that Ol-j. is a pathogenetic as well as a curative agent. Neidhard proved it and elicited some very definite symptoms and to these have been added effects, curative and pathogenetic, observed on patients. The oil contains a large number of proximate principles of great complexity to which its specific medicinal properties are due.

Ol-j. is a liver remedy, an ally of Cholesterinum and this the provings confirm. Cod liver oil is a nutrient and affects the chest, liver, pancreas and tendons. Internally, a nutrient and a hepatic and pancreatic remedy. (Burnett.)

Burnett has shown that ringworm generally has its constitutional basis in a tuberculosis habit. In recent ringworm the application of the plain oil at bedtime is at once the most innocent and most effectual of local measures known. Before the application the part should be washed well with soft soap.

PAGE 1230

Another use of the remedy from the same authority is as a general application in the case of emaciated, dwarfish, chilly babies and children. A nightly rubbing with the oil soon revolutionizes their condition.

The nutrition of the skin is improved and the medicinal properties of the oil are absorbed without any tax being put on the organs of digestion. Burnett says olive oil acts as well. That may be, but it does not act better. **Planets:** Saturn, Jupiter.

Homeopathic

Ol-j. has faulty nutrition. Atrophic infants, children who cannot tolerate milk.

Emaciation, hot hands and head. Lassitude. Tuberculosis in the beginning stages.

Tuberculosis and scrofulous diathesis. Soreness. Burning in spots. Discharges yellow.

Always taking cold.

Emaciation, lassitude and scrofulous diseases. Rheumatic disorders. Atrophy of infants, emaciation with hot hands and head, restless and feverish at night. Pains in liver region.

Clinical

Addison's disease. Alopecia. Amenorrhea. Anemia. Asthma. Bones disorders. Bright's disease. Cold Abscess. Constipation. Coryza. Cough. Diarrhea. Dwarfishness.

Emaciation. Fever. Fistula. Goiter. Hair, abnormal growth. Headache. **Heart**, palpitations. Intermittent fever. Joints, stiffness. Liver, diseases. Lumbago. Nutrition,

poor. Pneumonia. Rheumatism. Ringworm. Sacrum pains. Sciatica. Scrofulous ophthalmia. Sleeplessness. Spinal irritation. Tuberculosis. Vision disorders.

Causations

Faulty nutrition.

Modalities

Worse from milk, motion. Worse by touch, by riding, by a fall. Worse by motion, raising arm, stooping, bending side inwards, walking. Laughing aggravates cough. Lying down causes oppressed feeling. Worse from draft of air, exposure to cold, living in cold, damp localities.

Symptoms

Abdomen

Soreness and heaviness in the region of liver, worse exercise.

Back

Chilly or fluttering from sacrum up back to occiput.

Chest

Sharp stitching pains. Soreness through chest. Burning spots. Coughing causes soreness of chest, headache.

Face

Growth of short thick hair on chin and upper lip in women.

Female

Establishes menses. Leucorrhoea, yellow with weak back.

Food

Children who cannot take milk.

Heart

Palpitations, accompanies other symptoms.

Limbs

Aching in elbows and knees in Sacrum. Chronic rheumatism with rigid muscles and tendons. Burning in palms. Palms hot toward evening.

Lungs

Dry, hacking, tickling cough, especially at night. Whooping cough in miserable, scrofulous children. Here give drop doses increasing daily one drop up to twelve, then descend in the same way (Dahlke). Hemoptysis. (Acalypha, Mill.) Early tuberculosis. Soreness or stitches in chest. Yellow sputum. Cough with palpitation.

Mouth

Tongue yellow. Fetid breath.

Skin

Milk crusts. Yellowness. Ringworm (local application). Cold abscesses.

Temperature

Constantly chilly towards evening. Hectic fever. Night-sweats.

Throat

Hoarseness.

Comments

Defective nutrition, anemia, weakness and emaciation, deficiency of animal heat. Children who cannot take milk. The headaches are usually frontal, over right eye, bursting after coughing.

Ol-j. has very decided pains in the liver and liver region with great soreness were noted in Neidhard's provings and these symptoms give one of the keynotes of the remedy as soreness. Not only the liver, but the throat, chest, abdomen, kidneys, ovaries, joints and back are all sore, the spine is sore as in spinal irritation.

Another keynote is the occurrence of palpitations of the heart as a concomitant of other symptoms with cough with short breath.

PAGE 1231

The reputation of Ol-j. as a remedy for tuberculosis and scrofulous disorders is shown by the provings to be specific, whatever food-value the oil may possess in addition.

"Dry, hacking cough, night-cough, cough with tough expectoration, yellow or white, soreness of chest, especially on coughing, sharp stitches here and there, through chest, burning through to back, burning in spots," are among the symptoms experienced.

The fever symptoms are strongly marked, both hectic and intermittent. One very characteristic feature is: "Fever worse towards evening with burning in palms."

Ol-j. is a chilly medicine: sensitive to drafts, feels as if continually taking cold. Chills running down the back. Feet constantly cold. The cough is worse from exposure to cold, worse in damp weather. The sensitiveness to chill and damp is part of the intermittent fever action of the remedy and along with it is affection of the spleen, which is the seat of several symptoms. During the chill and before it there is thirst. When the fever came on the cough was better.

The yellowness of Ol-j. appears not only in the expectoration, but in the coating of the tongue, yellow mucus from sore throat and a yellow leucorrhoea. On the female sexual organs Ol-j. has a powerful action increasing the menstrual flow and restoring it when in abeyance.

One curious symptom was abnormal growth of hair on the face of a woman. Another was passage of mucus from urethra with burning during stool.

Oleae europeae oleum

Olive

(bach flower remedy)

Pharmacy

Olive. *Olea europaeus*. The flowering clusters are placed in sunlit water for several hours. The remedy is prepared from the strained water.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks).

This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

Olive, together with the remedies of Clematis, Honeysuckle, Wild Rose, White Chestnut, Mustard and Chestnut Bud, belongs to the group of Lack of Interest in Present Circumstances, as classified by Bach. **Planets:** Moon.

Homeopathic

Olive treats states of exhaustion in mind/emotions, body and spirit. Weariness and exhaustion permeate all physical structures and call for rest and recuperation.

In the Olive state, emotional life is weary as well. One is unable to care as much about others as one used to. Sadness, depression and discouragement. A sense of meaninglessness and apathy may accompany the exhaustion.

Symptoms

MIND

In the Olive state, the mind is too weary to carry on and one knows that a certain limit has been reached and reserves are depleting. It is a state of exhaustion reaching deep into the self, undermining the very spirit or inner core of existence.

One begins a certain task and cannot complete it, the urge to slow down and rest is simply too strong.

Consequently, one may appear absent-minded, disinterested, or lethargic. In the field of social service, or after prolonged sickness.

PAGE 1232

SOURCES

Bach.

Oniscus asellus

(wood-louse)

Pharmacy

Onis. *Oniscus asellus*. *Oniscus armadillo*. Wood louse. *Armadillo officinalis*. Sow-bug. Sow-louse. Cellar-worm. Millipedes. N. O. Isopoda, Class Crustacea of the Articulate. Tincture of animals. Historical dose: Tincture and all potencies, sixth potency.

Herbal

In Germany *Oniscus asellus* has a popular reputation as a remedy for epilepsy. Hering proved a tincture and Wolf recorded the effect of swallowing three "cellar-worms" in a glass of brandy before an attack of fever.

This experience has provided the most characteristic symptoms of the remedy, showing it to be related to *Cantharis*, *Apis* and their cognates.

The symptoms of Hering's proving showed pains in the head, over the eyes and down the nose. Constriction of gullet and stomach. Burning in anus. Many erections with

disinclination to work. Hawking up of blood-streaked mucus. The last two symptoms again recall Canth. Frequent yawning and desire to stretch. **Planets:** Moon.

Homeopathic

Oniscus has distinct diuretic properties, hence its use in dropsies. Asthmatic conditions with bronchial catarrh.

These symptoms were noted: Pale face, wild expression, constant vomiting. Very severe colic with meteorism and tension of abdomen. Tenesmus of bladder and rectum. Cutting burning in urethra.

Clinical

Colic. Epilepsy. Hemoptysis. Strangury. Toothache.

Symptoms

Abdomen

Distended, meteorism, very severe colic.

Head

Boring pain behind right ear in the mastoid bone. (Caps.) Violent pulsation of arteries. (Poth., Glon.) Painful pressure above the root of nose.

Kidneys

Cutting, burning in urethra. Tenesmus of bladder and rectum with absence of stool and urine.

Stomach

Persistent pressure in cardiac orifice. Vomiting.

Compare

(1) Poth., Canth., Glon.

Boericke. Clarke.

Ononis spinosa

(rest-harrow)

Pharmacy

Onon. Ononis spinosa. Ononis arvensis. Rest-harrow. Cammock. N. O. Leguminose. Tincture of fresh plant. Historical dose: Tincture and all potencies.

Herbal

Ononis arvensis is indigenous to Britain, growing on barren pastures and on the borders of ill-cultivated fields. It owes its name, "Rest-harrow," to its tough underground roots, which cause stoppages to harrow and plough.

In some parts it is called "Cammock," and the country people, having the idea that it communicates its nauseous, goat-like odor to cheese made from the milk of cows who have eaten it, call the cheese so tainted "cammocky" (Treasury of Botany).

Cooper records the case of a brick field laborer, 45, who at 13 was prostrated for a week, apparently with sunstroke, something seemed to catch the back of his head. At 25, had attacks similar to present.

In March, 1900, began to have daily attacks. An aura seems to spread over the head from the occiput, he makes frightful grimaces, but does not scream out, becomes unconscious, turns deathlike and blue in face and falls down. After the attacks has violent headache,

giddiness and wakeful nights. Onon. tincture in single doses at rare intervals produced improvement at once and cured in nine months. **Planets:** Moon.

PAGE 1233

Homeopathic

A symptom apparently induced by Onon. was this: Nose-bleed three or four times in one day, worse when washing his face." After that he was better. Hansen gives "chronic nephritis" as having been cured by Ononis spinosa.

Clinical

Epilepsy. Headache. Nephritis. Nosebleeds.

SOURCES

Clarke.

Onosmodium virginianum

(false cromwell)

Pharmacy

Onos. The False Cromwell. Onos. virginianum. N. O. Boraginaceae. Tincture of entire fresh plant including root. Historical dose: Tincture and all potencies, thirtieth potency.

History

Onosmodium is a member of an American branch of the Borage family closely resembling the British Onosma, was proved in material doses by W. E. Green of Arkansas. Its common name is "False Gromwell", the real "Gromwell" being another Borage, Lithospermum.

The most remarkable feature of Green's striking proving is the want of power of concentration or co-ordination produced by the drug. This appears in inability to concentrate thought to focus eyes to co-ordinate muscles to judge the height of impedimenta on stepping.

Onos. has probably cured more cases of headache associated with eye-strain, (Ruta) than any other remedy since it was proved. **Planets:** Sun, Moon.

Homeopathic

Onosmodium acts upon nerves and muscles. General prostration. Acts and feels as if born tired. A remedy for migraine headaches. Headaches from eyestrain and sexual weakness. Vertigo, numbness with muscular prostration.

Onosmodium produces diminution of sexual desire in both sexes, its similar to sexual neurasthenia. Depressed or lost sexual life in women. Neuralgic pains.

Marked association of head and eye symptoms with muscular tiredness and weariness.

Onos. has helped loss of concentration and co-ordination. Disturbance in the sense of proportion. Aching, soreness and stiffness of muscles after the pain. Prostration, weariness and tiredness, acts as if born tired. Seems to tread on cotton. Staggering.

Clinical

Amblyopia. Aphasia. Bladder, irritation. Breasts, disorders. Color-blindness. Debility. Diarrhea. Diplopia. **Eyes** disorders. **Eyestrain**. Headache. Locomotor ataxia. Meniere's disease. Neurasthenia. Nose, dryness. Paralysis. Pregnancy, sickness. Presbyopia.

Seminal emissions. Sexual weakness. Spine, congestion. Throat, sore. Urethra, irritation. Uterus, prolapse.

Causations

Eyestrain. Sexual excess.

Modalities

Better from cold drinks. Better from eating and lying on back. Better from rest, sleep from undressing. Worse sprains. Worse eyestrain, sexual excess, darkness. Worse from tight clothing. Worse from warm, humid air. Worse from jarring, motion.

Symptoms

MIND

Want of power of concentration and co-ordination. Confused mind. Slow thinking. Aphasia. Forgetful. Loss of memory. Fear of falling on going up or down stairs. Irresolution.

Abdomen

Distended feeling, better removing clothing, with griping and grumbling. Colic is better bending backward.

Back

Tired feeling in lower part of the back. Pain in dorsal and lumbar regions. Numbness and tingling in feet and legs.

Breasts

Nipples itch. Sore, aching in breasts, feels swollen and sore.

Ears

Fullness in ears. Hearing impaired. Ringing as from Quinine.

Eyes

Eye symptoms with ovarian symptoms. **Eyestrain**, strained feeling in eyes, worse using eyes. **Eyes** heavy and dull. Muscular asthenopia. Ocular muscles tense.

Pain in eyeballs between orbit and ball, extending to left temple. Misjudges distances. Color blindness for red and green. Vision blurred, optic disc hyperemic and retinal vessels enlarged. Internal eye muscles paretic.

PAGE 1234

Female

Feels as if menses would appear. Menses too early and too prolonged. Severe uterine pains, bearing-down pains, old pains return. Soreness in uterine region. Sexual desire completely loss. Pains alternate between ovaries. Soreness of ovaries with rectum. Leucorrhoea, acrid, yellow offensive, profuse, running down the legs.

Food

Craving for ice water and cold drinks, wants to drink often. Appetite increased. Hunger after siesta, nervous, all day. Appetite and thirst diminished. Distaste for water.

Head

Migraine headache from eyestrain or sexual weakness. Dull, heavy, dizzy, pressing upward in occiput. Occipital headache as if screwed, worse eyestrain and lying down. Occipital-frontal pain in morning on waking, Chiefly left side. Pain up and down from occiput (left) to shoulder worse exertion. Pain in temples and mastoid. (Caps.)

Heart

Pain in heart causing fear of death. Pain in region of apex. Oppression of heart. Depressed feeling in heart, as if it would stop beating. Pulse rapid, irregular and weak, and slow. With every third or fourth beat the diastole is prolonged.

Kidneys

Aromatic urine. Pain in prostatic urethra before and after urination. Seldom any desire to urinate. Urination frequent, scanty. Urine: scanty, high-colored, very acid, also of balsamic odor and heavily loaded with urea.

Limbs

Pain in back. Tired and numb feeling in legs, popliteal spaces and below knees. Staggering gait. Sidewalk seems too high. Pain in left scapular region. Great muscular weakness and weariness.

Lungs

Hacking cough with sticky white sputum, better drinking cold water.

Male

Burning in urethra with itching. Loss of sexual desire. Psychological impotence. Speedy emissions. Deficient erections. Sexual excitement. Constant severe erections.

Mouth

Dryness of mouth, and of lips, without thirst, better cold water, with scanty saliva. Clammy, sticky, feeling in mouth. Bitter, clammy taste.

Nose

Stuffed feeling in posterior sinuses. Discharge from posterior sinuses. Feels dry. Dryness of nose, with feeling as from taking cold. Pain in nasal bones. Sneezing in morning, and left side of nose and left eye seem affected.

Rectum

Stools yellow, mushy hurrying him out of bed in morning. Stool is shining, bloody and stringy. Stool with tenesmus, yellow, mushy, hurrying him out of bed in morning.

Skin

Formication in calves.

Sleep

Sleeplessness. Sleep is uneasy and interrupted, restless and waking early. Dreams many, varied.

Temperature

Every day about twelve or one o' clock feeling as if would have a chill. Flushed feeling over whole body. No perspiration in very warm weather.

Throat

Voice husky. Laryngeal cough, better from drinking cold water, with expectoration of whitish, sticky phlegm. Severe dryness and tightness, all symptoms are better by cold drinks and eating. Raw, scraping.

Vertigo

Vertigo, numbness and muscular prostration. Vertigo with headache, worse lying on left side, raising the hands above the head.

Comments

Onos. also appears in vertigo and sensations of numbness and general muscular prostration. Next to the parietic symptoms come neuralgic pains. These are mostly of a dull, heavy aching character and affect cervical and spinal nerves and pelvic organs.

Eyes, occiput, eyes to occiput, sacrum. These are the chief centers of pain, throat, bowels, breasts, heart and limbs being also affected, the left side of the body more than the right.

PAGE 1235

"Feeling of tension in the eyes, as from straining them to read small print," and "desires to have things far off to look at them," show the paralyzing effect on the internal eye muscles and give one of the keynotes of the drug's action.

E. S. Norton published several illustrative cases: (1) Miss C., 23, suffering three years from headache. Pain especially in occiput, which feels "sore and stiff," often extending down spine, which was somewhat sensitive to touch.

Dull, aching pain left side of head, occasionally with darting pain through eyes. Aching in eyes, stiff, strained feeling in them if she read more than a little, left worst. Headache, worse in the morning with some dizziness. The patient had some astigmatism which was corrected with glasses and Onos. Ix at once relieved all the symptoms.

(2) Mrs. D. had excessive myopia and severe headache: constant dull, stupid ache in right occiput and right eye, worse when tired from coughing from any sudden motion. A little vertigo and strained feeling in right eye. Onos. 3x cured.

Norton suggests that neurasthenia and neurasthenic headache may be met with Onos. when connected with strains of other kinds besides eye strains.

He gives a case of car headache.

(3) Mrs. B., deaf nine years, four years constant roaring, hissing noise in both ears with constant dull, pressing pain in occiput, worse evening, some pain in ear and sharp shooting pain in front of auricle, slight vertigo. Chronic catarrh of both middle ears, membranes thickened.

Onos. Ix immediately relieved all the pains, though it did not alter the hearing or noises.

Green himself has published some very striking cases with some pathogenetic symptoms as well as cures and also gives an interesting comparative experience with potencies.

W. A. Yingling found out that the depressing action of Onos. extends to the generative sphere, desire being abolished in both male and female. He quotes S. A. Jones as suggesting that this is the primary action of the drug, thereby distinguishing it from Pic-ac. in which excitement precedes debility.

Onos. will correspond to the developed consequences of sexual abuse and Pic-ac. to the initial step of sexual debility manifested in weakness.

Yingling many times verified "complete loss of desire" as a leading indication. W. J. Guernsey greatly relieved with Onos. a man, 38, suffering from seminal emissions, the result of masturbation. The uterine pains are all better by undressing and lying on the back.

A leading symptoms of Onos. is dryness: of nose of mouth of throat. With this there is a great thirst for cold water, which ameliorates.

Yingling had an interesting experience in the case of a woman to whom he gave Onos. for dryness of the nose and throat. Not only did it cure this, but it also restored the breasts, which were diminutive and almost absent to their normal size. Yingling's results from the tincture and not marked from 30c.

"Soreness and stiffness" are the frequent symptoms of Onos. In the occiput there is pressure upward and the pains may go from the eye backward. With a laryngeal cough there is a gluey expectoration.

H. F. Ivens cured a case of headache of ten years' duration, which illustrates the modality worse in the dark. The pain was in left temple and over left eye, was not worse by noises, light or use of eyes, but was worse in the dark and on lying down. Pellets of Onos. tincture were given every twelve hours.

Operculina turpenthum

(nishope)

Pharmacy

Oper. Nishope. Operculina turpenthum. Historical dose: All potencies.

History

A remedy for the plague, fevers, diarrhea. **Planets:** Mars, Saturn.

Homeopathic

Delirium associated with restlessness, loquacity. Tendency to escape from bed, ravings, pains cause fainting. Bubonic plague.

Lymphatic glands are enlarged and indurated. Boils and slowly suppurating abscesses.

Fever and watery diarrhea, profuse with sinking sensation. Cholera morbus.

Hemorrhoids.

SOURCES

Boericke.

Opium

(poppy)

Pharmacy

Op. Opium. Papaver somniferum. Poppy. N. O. Papaveraceae. Opium is the gummy exudation of the unripe capsule of the poppy. Tincture. Historical dose: Tincture and all potencies, third to 200c potency.

Herbal

Opium is one of the most complicated substances in the Materia Medica. Opium contains about eighteen alkaloids of which the Apomorphine, Morphine, Heroin and Codeine are well known.

Besides mucilage, albumen, fat, sugar and salts of Ammonia, Calcium and Magnesia, it contains "seventeen or eighteen alkaloids and two neutral substances, as well as a meconic acid" (Brunton).

The effects observed in persons brought under its influence in opium-smokers and in persons poisoned with massive doses.

These have produced a large part of the pathogenesis, provings and clinical observations have added the rest. As the prince of pain-killing palliatives opium has played a very prominent part in old-school therapeutics and by its seductive properties has reduced many who have sought its help to become its slaves.

The effects of a poisonous dose of Opium are scarcely to be distinguished from a fully developed attack of a stroke. Absolute unconsciousness, complete muscular relaxation, pupils contracted to a pin point aperture, turgid, bloated.

Very red or bluish face, stertorous breathing, pulse slow and full. Death takes place by asphyxia, the heart continuing to beat after breathing has ceased.

Smaller doses of the Opium influence give: Deep sleep, pleasant, fantastic or frightful dreams, delirium like delirium tremens. On waking from this stage there is severe headache, nausea, furred tongue, loss of appetite.

Homeopathic

The effects of Opium as shown in the insensibility of the nervous system, the depression drowsy stupor, painlessness and torpor, the general sluggishness and lack of vital reaction, constitute the main indications for the drug when used homeopathically. It affects the nerves, mind and senses.

All complaints are characterized by a stupor. Complaints are painless and are accompanied by heavy, deep sleep, stertorous breathing. Sweaty skin. Dark, mahogany-brown face. Venous, passive congestion. Strokes.

Want of susceptibility to remedies even though indicated. Reappearance and aggravation from becoming heated.

PAGE 1237

Opium lessens voluntary movements, contracts the pupils, depresses higher intellectual powers, lessens the self-control and power of concentration, judgement, stimulates the imagination, checks all secretions except that of the skin. Diseases that originate from fright.

Op. has insensibility of the nerves, painlessness, depression, drowsy stupor torpidity and general sluggishness of function and lack of vital reaction, a kind of negative state. Excretions, except of skin are checked. Voluntary motions are lessened. Loss of power of concentration, self control and judgement.

Paralysis, painless of brain tongue, bowels etc. Tremors, twitchings, jerking during sleep. Convulsions, worse heat of room or bath. Bed seems hot, hunts a cold place. Hot, sweat, hand. Stupid sleep, accompanies all complaints during spasms, violent chill etc. Epilepsy in sleep from approach of strangers (children) from fright, worse glare of light from anger insult.

Throws limbs or stretches arms at right angle to the body, stupor between spasms. Want of susceptibility to medicines even though indicated. Faints every fifteen minutes. Sensation of bodily well being, great happiness. Suppuration. Painless ulcers. Dropsical swelling of the whole body. Internal dryness. Complaints appear with sweat. Idiocy from masturbation.

Clinical

After-pains. Bladder, paralysis. Brain disorders. Cancer. Catalepsy. Chilblains. Colic. Constipation. Delirium. Diabetes mellitus. Dreams. Dysmenorrhea. Epilepsy. Fear,

effects. Fetus, movements, Fetus, excessive. Hernia. Hystero-epilepsy. Ileus. Intestines, obstruction. Labor pains, abnormal. Lead colic. Marasmus. Measles. Melancholia. Meningitis. Paralysis. Puerperal convulsions. Sighing. Sleep, abnormal. Snoring. Starting. Strokes. Sunstroke. Tympanitis. Uremia. Urine, suppression, Uterus inertia. Veins, fullness. Whooping cough.

Causations

Ill effects of fear, fright, anger, shame, sudden joy, charcoal fumes, sun, drug overdose, rape, shame, alcohol, lead.

Constitutions

Opium is specially suited to: persons of light hair, lax muscles and want of bodily irritability, persons insensitive to well-chosen remedies.

Childhood and old persons (first and second childhood). Drinkers. **Planets:** Moon, Mercury.

Modalities

Better from cold, uncovering, constant walking. Worse heat, sunstroke. Worse from anxiety and fear, reproaches. Worse from emotions, fear, fright, shame, joy, odors, alcohol. Worse from stimulants. Worse from suppressed discharges, receding eruptions. Worse during and after sleep. (Apis, Lach.)

Symptoms

MIND

Coma from drug overdose, fright, stroke or injury. Dreamy. Sluggish. Dull. Stupid. No will power. Apoplectic (stroke) state. Loss of consciousness. Wants nothing, says nothing ails him. Placid. Unable to understand or appreciate his sufferings. Indifferent to pain or pleasure.

Frightful fancies. Fears after fright, which remains. Thinks he is not at home. Delirium, tremens with terror. Delirious talking with wide open eyes. Exaltation of the mind, vivid imaginations. Gaiety. Talkative. Rash. Bold increased courage. Tendency to lie. Deceptive, vision, taste touch, perversion of all senses. Imagines parts of his body are very large. Carphology. Sees frightful visions of mice, scorpions. Nervous, irritable, tendency to start.

Abdomen

Hard, bloated, tympanitic. Colic with urging to stool and discharge of hard feces. Lead colic. Incarcerated umbilical or inguinal hernia. Difficult emission of flatus. Intestinal spasms, child cries day and night. As of a weight in the abdomen. Bowels feel completely obstructed. Paralytic atony of bowels after laparotomy.

Back

Opisthotonos. Pulsating arteries and swollen veins on neck. Swelling of veins and beating in arteries of neck.

Chest

Heat in chest, burning about heart. Compression of diaphragm. Aching in chest with shootings in sides. Tension and constriction in chest.

Ears

Acuteness of hearing. Clocks striking at a great distance keeps her awake. Buzzing in ears. Tinkling in ears. Tinnitus like sea roaring.

Eyes

Eyelids hanging, as if paralyzed. Ptosis. (Gels., Caust.) **Eyes** half open and are turned upwards. Pupils fixed, contracted, dilated, non-reactive to light. Red, bulging eyes. Staring, glassy. Embolism of central artery of retina. Sensation as if eyeballs were too large. Quivering of eyes and lids. Swelling of lower lids. Visual hallucinations. Cloudiness of sight. Sensation of dust in eyes.

Face

Red, bloated, swollen, dark suffused, hot. Looks intoxicated, besotted. (Bapt., Lach.) Spasmodic facial twitching, especially corners of mouth. Veins of face distended. Distorted. Trembling, twitching of the muscles of face, old look after cholera infantum. Hanging down of lower jaw. Lock-jaw. Lips swollen, protruding.

Female

Dysmenorrhea, forcing her to bend double with urging to stool. Horrible labor-like pains in uterus. Suppressed menses from fright. Softness of uterus. Lively or violent fetal motion. Puerperal convulsions. Threatened miscarriage from fright with sopor. Suppression of lochia from fright. Convulsions come from stoppage of labor pains. Prolapse from fright. Hiccough during pregnancy. Puerperal convulsions, drowsiness or coma between paroxysms.

Food

Hungry, but no desire to eat. Loss of appetite. Very thirsty. Burning thirst, especially for beer. Attacks of bulimia with want of appetite and repugnance to all food. Slowness and weakness of digestion.

Head

Confusion in head. Heavy occiput. Paralysis of brain. Head hot with hot sweat. Dull, heavy, stupid. Pain in back of head, great weight there. (Gels.) Bursting feeling. Paralysis of brain. Complete insensibility, no mental grasp for anything.

Heart

Burning about the heart. Weakness. Full slow pulse. Palpitations after stressful events, fright, grief, sorrow, etc.

Pain in heart with great anxiety, trembling, sleeplessness, talkative delirium.

Kidneys

Loss of power or sensibility of bladder. Paralytic atony of bladder after laparotomy. Retained or involuntary urination after a fright. Retention of urine in nursing children from spasms of neck of bladder. Slow to start, feeble stream. Kidney colic, pain radiates to bladder and testicles.

Limbs

Trembling of the limbs after fright. Painless paralysis. (Olean.) Twitching of limbs. Numbness. Jerks as if flexors were overacting. Convulsions, worse from glare of light, coldness of limbs. Veins of hands distended. Feels as if lower limbs were severed and belong to someone else. Numbness, weakness. Shuffling and trembling gait. One or other arm moves convulsively to and fro.

Lungs

Breathing stops on going to sleep, must be shaken to start it again. (Grind.) Hoarse. Deep snoring with rattling, unequal breathing. Sighing. Stertorous breathing. Difficult

intermittent, deep. Cough with dyspnea and blue face with bloody expectoration. Cough, tickling with blue face or profuse sweat on whole body, better drinking water. Hemoptysis. Yawning after cough.

Male

Spasmodic stricture from drinking poorly fermented liquor and in alcoholics. Increased sexual desire with frequent erections and pollutions. Diminished sexual desire and impotence.

Mouth

Dry. Intense thirst. Blubbering of lips. Difficult speech and swallowing. Bloody froth. Dryness of mouth with violent thirst. Looseness of teeth. Ulcers in mouth and on tongue. Copious salivation. Hemoptysis.

Nose

Loss of smell.

Pulse

Pulse is full, slow, quick, hard, irregular, imperceptible.

Rectum

Stools involuntary after fright. Obstinate constipation, no desire to go to stool. Round, hard, black balls. Feces protrude and recede. (Thuj., Sil.)

Spasmodic retention of feces in small intestines. Stools involuntary, black offensive, frothy. Violent pain in rectum, as if pressed asunder. Retention of stools from ileus. Violent pain in rectum as if pressed asunder. Bloody mucus oozes from open anus.

PAGE 1239

Sensations

As if from smoke on the brain. As if flying or hovering in air. As if drunk. As if eyes too large for orbits. As if sand or dust in eyes. As if eyelids paralyzed. As of a band round chest. As if intestines would be cut to pieces. As of a stone in abdomen. As if something was forced through a narrow space in abdomen. Rolling as of a hard body in right hypochondrium. As though anus closed. As if lower limbs severed from body.

Skin

Dry. General itching Rough and dirty. Crawling here and there. Painless indolent ulcers. Whole body looks red. Hot perspiration over whole body, except lower limbs. Constant desire to uncover. Erythema, scarlatina-like eruptions. Desquamation of epidermis. Chilblains. Dropsical swelling of whole body. Skin blush with blue spots.

Sleep

Sleepy but cannot go to sleep. Great drowsiness. (Gels., Nux-m.) Falls into a heavy deep sleep. Heavy stupid sleep of the aged. Profound coma. Suffocates on falling asleep. (Grind.) Sleeplessness from acuteness of hearing. Distant noises, cocks crowing keep him awake. Coma vigil. Picking at bedclothes. Dreams of cats, dogs, black forms. Pleasant, fantastic, amorous dreams. Suffocative attacks during sleep like nightmare. Bed feels so hot cannot lie on it.

Stomach

Nausea with vomiting and retching. Vomiting in peritonitis of fecal matter or urine. Fecal vomiting. Vomiting with colic and convulsions. Retching from emotions. Vomiting of blood or of greenish matter. Painful sensitiveness and inflation of stomach and epigastrium. Heaviness and pressure in stomach. Incarcerated hernia.

Temperature

General low temperature with inclination to stupor. Hot, sweaty and drowsy with cold limbs. Heat extending over body. Hot perspiration. Sweats without relief. Pulse full and slow. Fever characterized by stupor, snoring respiration, twitching of limbs intense thirst and sleepiness.

Throat

Dryness of throat. Aphonia from fright. Voice weak with inability to speak loud without great exertion. Bitter or sour taste in throat. Inability to swallow. On swallowing food either goes the wrong way or returns through the nose.

Tongue

Tongue purple, white. Black tongue. Paralysis of tongue and difficult speech. Tongue, protrudes to right side, dry.

Vertigo

Vertigo after fright. Lightness of head in old people. Vertigo after fright of old people with lightness of head from injuries to head.

Comments

Hahnemann describes as a rare and transient effect of Op. in excitable subjects, occurring primarily but really a sort of reflection of the secondary state: "Deathly paleness, coldness of the limbs and whole body, cold perspiration, timorous anxiety, trembling and despair, mucous stools, transient vomiting and short cough and very rarely certain kinds of pain."

Abnormal painlessness is a grand keynote of Op., but in the pathogenesis many acute pains will be found and among them this recorded by Hahnemann himself: "Horrible labor-like pains in uterus, which compelled her to bend the abdomen double with anxious, almost ineffectual urging to stool."

One of the worst cases of painful menstruation Clarke ever had to treat Op. 30c gave greater and more lasting relief than any other remedy. In one patient he gave Op. 30c for constipation.

Op. caused with the onset of the next period "sharp pain which caused vomiting and a desire to sit doubled up and keep warm."

PAGE 1240

J. P. Willard has repeatedly given permanent relief in cases of suffering with Op. 2x without producing any narcotic effect. Opium can cause cramps and even tetanus as well as the opposite state, the tetanic properties chiefly existing in the alkaloid Theban. Opium causes tetanus in frogs but has no effect whatever on birds.

The grand characteristic of Opium in the drowsiness inertia torpor, absence of sensation, absence of reaction, which appears is its general effects. In all complaints with great sopor, painlessness, complaining of nothing and wanting nothing, opium may be required.

"Want of susceptibility, trembling," is another feature of the same state, lack of vital reaction. Inertia of the intestines results in constipation of the bladder in retention of the uterus in suspension of the menses. Generally speaking, all secretions are checked except that of the skin, which is excited.

In ileus and strangulated hernia it has been given with success and reversed peristalsis and fecal vomiting are leading indications here. It is equally indicated in the involuntary and unconscious passage of urine and feces from paralysis of sphincters. Also in uterine inertia during labor Opium is often needed.

On the other hand, Op., which is a very dangerous remedy to give to children, has this effect on the fetus in utero, that instead of making it quieter it makes it more lively, hence Opium is one of the chief remedies for fetal movements when they become excessive.

Op. also follows Acon. as a remedy in the asphyxia of the newborn and in puerperal convulsions. In the cerebral complaints calling for Opium there is generally the deep red face, the stertor and stupor to guide.

These are found in a stroke: insensibility and partial or complete paralysis resulting from fright, the fear still remaining from charcoal vapor from inhaling gas from alcohol.

The strokes of alcoholics is accurately pictured in Opium poisoning. The spasms of children occur at the approach of strangers from nursing after the mother has had a fright from crying, eyes half open and upturned. Screaming before and during a spasm.

Epileptic attacks occurring during sleep. Sleep follows the convulsions. Loud snoring.

The delirium of Op. is marked by: Great loquacity, visions of animals starting out of various parts of the room. Delirium tremens of old sinners, very little drink is sufficient to bring on an attack. The face has a constant expression of fright. If he sleeps the sleep is stertorous.

On the other side of the sleep picture, partly mixed up with sleep phenomena is the exalted sensitiveness and timidity, sensitiveness to fright and other emotions. Sleepy but cannot sleep, sleepless with acuteness of hearing disturbed by sounds ordinarily not heard at all. Twitching trembling of head, hands and arms.

In tetanus Op. is called for when the spasms are ushered in with a loud shriek. Nervous and irritable, tendency to start. Opium is a great fever remedy.

Sweat as a concomitant is a characteristic of Opium complaints appearing with perspiration. The skin is hot and damp. An opium-eater's face glistens with fine perspiration. "Very hot, sweltering perspiration." Another condition is described by Guernsey thus: "Patient may not feel cold all day, but may have only a little chill and at night, when in bed, complain that the sheets feel so very hot."

T. F. Allen remarks that Opium fever maybe closely allied to that of Acon. The Ranunculaceae. are not far removed from the Papaveraceae. The Opium fever may have high temperature without distinct inflammatory process.

It is characterized by intense thirst and great sleepiness and is without the anguish, fear and restlessness of the Aconite fever. The Opium fever may be periodic intermittent or remittent.

PAGE 1241

Gels. fever is like Opium fever but without thirst.

Villers cured with Op. 200c a case of hystero-epilepsy having these characters: Attack preceded by sensation of swelling of body. Veins protrude, face bluish red. Complete unconsciousness.

C. N. Payne relates the case of a little girl, aged two, who had never slept properly since birth. She went to sleep at usual time and slept until 10 p.m. , when she waked moaning, crying and tossing about, seems frightened, almost falls asleep again but wakens with a start, screaming and keeping in motion one arm and one leg after waking. Seems sleepy but cannot sleep. Usual naps during day.

Nux-v., Bell., Cham. were given in succession in vain. It then transpired that before the baby was twelve hours old it had four different medicines put into its stomach, one of

them being paregoric, which had also been given since, as well as "quieting medicine." During the early months it had colic with constipation, stools in dark, hard, round balls. Clearly, it was a proving of Opium. Op. 200c was given. The first night she slept much Better and rapid improvement and cure followed.

J. B. S. King noticed that in seven Opium eaters, there was marked arching of the back, especially of the upper part of the back. In as many Morphine takers he had not met with a single case of arched back.

Compare

- (1) The alkaloids, Apomorph., Cod., Morph., Chel., Sang.
- (2) Apis, Bell., Gels., Nux-m.
- (3) Morphine - an extreme susceptibility to all pain, twitching, tympanites, much itching,
- (4) Codeine - dry, teasing incessant cough, twitching of muscles, especially those of eyelids.
- (5) eschscholtzia - California Poppy - a harmless soporific.
- (6) Stroke of alcoholics, Bar-c.
- (6) Lack of vital reaction, Psor.
- (7) Spasms after fright - Hyos., from anger, Cham., Nux-v., Effects of fright, the fear still remaining, Acon., Hyos.
- (8) Diarrhea from fright, Gels., Puls., Ver.
- (9) Effects of sudden joy, Coff.
- (10) Violent movements of fetus, Arn., Sil., Thuj., Sulph., Croc.

Opuntia vulgaris

(prickly pear)

Pharmacy

Opun-v. Opuntia vulgaris. Cactus Opuntia. Prickly Pear. Opuntia Alba Spina. N. O. Cactaceae. Tincture of flowers. Tincture of stems. Historical dose: Tincture and all potencies, second potency.

History

Two kinds of "Prickly pear" have been proved Opun. vulg. an Opun. alba spina. Burdick took one or two deep inhalations of the tincture of the flowers of the former. J. Fitch, who proved many of the Cactaceae took ten drops of the tincture of the second. **Planets:**

Moon.

Homeopathic

Opun-v. has a sick feeling in lower third of abdomen. Diarrhea with nausea. Feels as if bowels were settled down in lower abdomen. Enteroptosis with loose and frequent evacuations.

Clinical

Diarrhea. Nausea. Priapism. Spleen, pains.

Comments

The bulk of the symptoms of the proving are Fitch's, but the most peculiar symptom (which has also been verified) is Burdick's: "Nausea extending from stomach down into bowels with sensation as if diarrhea would set in.

" Also "feeling as if bowels had settled down into lower abdomen." Fitch had actual diarrhea.

PAGE 1242

All the urinary and genital symptoms were his except "Bloody urine," which is an effect of *O. vulg.*, but not Burdick's. Coldness was observed by both provers.

The peculiar mental symptoms recalling the swearing tendency of *Anac.*, are Fitch's. Sticking and pricking pains predominate, also numbness and tension.

Compare

Orchitinum

(testes extract)

Pharmacy

Orch. Orchitinum. Testicular Extract. A Sarcode. Trituration. Historical dose: Tincture and all potencies.

History

The use of a testicular extract in cases of senile decay and nervous breakdown was first proposed by Brown-Sequard and formed one of the examples by which he illustrated his doctrine of "inner secretions."

He maintained that the various glands of the organism had in addition to their obvious secretion or excretion, an additional secretion which was not obvious, but which materially contributed to the welfare of the organism. The doctrine is now generally accepted and the use of the Sarcodes in general medicine is based upon it. Homeopathy can use these remedies in both ways. **Planets:** Moon.

Homeopathic

Orchitinum has been used with success in the triturations in menopausal sufferings and in old-school practice in the sequelae of ovariectomy in cases of debility, sexual weakness and premature senile decay.

Clinical

Menopause. Debility. Sexual weakness. Senility.

SOURCES

Clarke.

Oreodaphne californica

(california laurel)

Pharmacy

Oreo. California laurel. Oreodaphne californica. Mountain Laurel. Spice-Bush. Balm of Heaven. N. O. Lauraceae. Tincture of the leaves. Historical dose: Tincture and all potencies.

History

Oreodaphne is a tree which grows to a hundred feet in height. When bruised it emits a strong spicy odor which may cause sneezing.

J. Murray Moore proved on himself and friends a tincture of the leaves and produced well-marked fronto-occipital headache worse by movement, better by rest. The symptoms were more violent when the tincture was smelled than when taken internally. **Planets:** Moon.

Homeopathic

Oreo. has neuralgic headaches, cervical-occipital pain, cerebro-spinal meningitis. Atonic diarrhea and intestinal colic.

The characteristics of one of its headaches thus: "Dull ache in occipital and cervical regions, extending down to scapula, great heaviness of the head with a constant desire to move the head, which, however, gives no relief."

Clinical

Colic. Diarrhea. Headaches. Meningitis.

Symptoms

Back

Constant, dull ache in cervical and occipital region, extending to scapula down spine.

Eyes

Drooping eyelids. Eyelids heavy,

Head

Head heavy, twitching. Intense aching with pressure at inner angle of either orbit. Pains, worse left side, extending through brain and across scalp to the base of the occiput.

Headaches, worse light, noise, better closing eyes and perfect quiet. Pain extending to ears. Great heaviness of head. Twitching.

Rectum

Atonic diarrhea.

Vertigo

Dizziness, worse on stooping or moving.

SOURCES

Boericke. Clarke.

PAGE 1243

Origanum majorana

(sweet marjoram)

Pharmacy

Orig. Origanum majorana. Sweet marjoram. N. O. Labiate. Tincture of whole fresh plant. The whole plant without the root gathered when in flower is macerated in two times its weight of alcohol. Historical dose: Tincture and all potencies, third potency.

Herbal

The "Wild Marjoram" of this country is Origanum vulgare, grows on limestone or chalky soil and yields an oil called Oil of Thyme.

Orig. marjorana, the "Sweet Marjoram" which is used for seasoning in cookery, was proved by Dr. Cessoles.

It was proved on himself and two young women and the symptoms of the proving showed a distinct relation to the sexual organs, which clinical experience has verified and expanded.

A treatise on the "Sexual Passion," by Dr. Gallavardin, Lyons, France, contains this item on Origanum: The person who discovered a remedy that in a certain sense may be considered as a specific against sexual passion was a clergyman of Mississippi, the founder of an orphan asylum.

This remedy is Origanum majorana or common marjoram, which proves effective in masturbation and excessively aroused impulses. The author uses it in the 4c dilution as he has not found the higher potencies effective. He dissolves five or six globules of this dilution in four teaspoonfuls of fresh water and the young masturbator takes of this every two days, a quarter of an hour before the meal, one teaspoonful.

If the cure is not accomplished eight days after this solution is used up the same dose is repeated in the same way.

When desired, this remedy can be used according to the author without the knowledge of the patient, by pouring a teaspoonful into the soup, milk or chocolate. The effect frequently appears very rapidly, but sometimes it does not appear. **Planets:** Venus, Moon.

Homeopathic

Origanum majorana strongly affects the female sexual organs. Acts on nervous system generally and is effective in masturbation and excessively aroused sexual impulses.

Affections of the breasts. (Bufo) Desire for active exercise impelling her to run.

Orig. increases the desire for sex. Erotic-mania with inclination to commit suicide. Great sexual excitement driving her to masturbation. Lascivious ideas, impulses, dreams.

Desire for active exercises, impelling her to run. Great physical prostration. Uneasiness.

Clinical

Breasts disorders. Headache. Hysteria. Leucorrhoea. Nipples, irritation. Nymphomania. Restlessness. Seminal emissions. Sexual mania.

Symptoms

MIND

Thoughts of marriage, which dispel sadness. Lascivious ideas, impulses and dreams. Fearful, silent, sad, discontented, despairing and weary of life. Irritable. Restless with great anxiety and full of ideas. Need for active exercise of running in open air. Sadness

the whole day, followed by lively mood and excessive joyfulness, Impulses to run.
Lascivious ideas with sexual irritation.

Abdomen

Violent pain in abdomen wakes her from sleep at night.

Back

Pains beneath the scapula.

Breasts

Swelling and itching of nipples and pains in breast.

Female

Great sexual irritation, deep moroseness, believes herself lost or despised. Great sexual excitement driving her to onanism, daily indulgence. Nearly idiotic from masturbation. Sexual mania, powerful lascivious impulses, leucorrhea, hysteria. Increased desire for sex. Sexual mania with inclination to suicide in a young girls.

Sexual irritation with leucorrhea and irritation of pudenda. Leucorrhea infertility, "flatulence of uterus."

Food

Loss of appetite. Excessive thirst at night

PAGE 1244

Head

Headache in temples. Heat of head, as heat increased, head was involuntarily turned from side to side.

Kidneys

Frequent desire to urinate, waking him from sleep as many as four times in one night.

Limbs

Cramp in sole of right foot in left leg in fingers and shoulders. Pains in right hand. Rheumatic pains in right foot frequently recurring and disappearing. Pains in the toes.

Male

Nocturnal emissions.

Nose

Nosebleeds. Tickling and sensation of constriction in tip of nose.

Skin

Pale red spots on legs, thighs and abdomen. Painful red pimples on outer portion of both legs.

Sleep

Frequent waking from sleep in fright with trembling. Dreams, vivid, anxious, lascivious, exciting.

Stomach

Hiccough.

Temperature

Heat of head, as the heat, as the heat increased the head was involuntarily turned from side to side.

Vertigo

Vertigo on lying down in evening.

Comments

All kinds of sexual excitement in females especially, have been remedied by Orig. The sexual symptoms were developed chiefly in the female provers and were these:

Sadness followed by joyfulness and thoughts of marriage. Lascivious dreams. Increased desire for sex. Swelling and itching of nipples and pains in breasts. Clarke had verified the power of Orig. in morbid sexual excitement in both sexes.

Other curious symptoms were: "Impulse to run." "Heat of head, as the heat increased the head was involuntarily turned from side to side." Symptoms were worse evening on lying down (vertigo) and worse at night (excessive thirst).

Compare

(1) *Ferula glauca* - in violent sexual excitement in women, icy coldness in occiput.

(2) Plat., Valer., Canth., Hyos.

(3) In masturbation in girls, Grat.

(4) In masturbation, desire to run, heat to head and movements of head, disorders of breasts, Bufo.

(5) In impulse to run, Iod.

(6) Canth., Cann-i., Coll., Hedeoma, Helon., Plat., Valer.

Ornithogalum umbellatum

(star of bethlehem)

Pharmacy

Orni. Star of Bethlehem. *Ornithogalum umbellatum*. N. O. Liliaceae. A plant of which there are many varieties, nearly allied to Garlic, *Allium sativum*. Tincture of fresh plant. Historical dose: Tincture and all potencies.

Herbal

Ornithogalum umbellatum is to be considered in chronic gastric and other abdominal indurations, possibly cancer of intestinal tract, especially of stomach and cecum.

In his "Cancer and Cancer Symptoms" Cooper has published several cases of cancer helped by *Ornithogalum*. Cooper particularly insists on his method being followed: a dose of a single drop being allowed to act until all trace of its action has disappeared.

Planets: Moon.

Homeopathic

Ornithogalum has flatulence, swollen feeling across lower chest, whenever she turns in bed, feels as if a bag of water turned also, gastric ulcer and cancer. Center of action is the pylorus, causing painful contraction with duodenal distention. Complete prostration.

Feeling of sickness keeps patient awake at night.

Orni. gets cold before the pains. Feels a pressure in every nerve of the body, sometimes in one part or another with pain across chest, sometimes after food or at night and sometimes on an empty stomach. Restlessness on account of creepy feeling in feet, cannot sit still, cannot read without walking about.

Clinical

Cancer. Flatulence. Gastric ulcer. Stomach, ulceration.

Symptoms

MIND

Depression of spirits. Hateful. Depression and desire for suicide.

Abdomen

Hardness and distention of abdomen. Wind in balls rolling from side to side. Distention of stomach and abdomen with frequent belching of mouthfuls of offensive flatus, obliging her to loosen her clothes.

Limbs

Legs and feet go to sleep on sitting. Creepy feeling in legs keeps him awake at night. Right leg felt bruised and sore, later, angry and red. Legs swollen, great red streaks and patches coursing along them. Legs and feet swollen, preventing walking.

Mouth

Tongue red, coated towards back. Nasty taste in morning.

Rectum

Constipation. Diarrhea, feels better from.

Sleep

Great difficulty in going to sleep owing to creepy feeling in limbs. Sleep disturbed by pains. Wandering dreams. Waking in perspiration at night.

Stomach

Gastric ulceration even with hemorrhage. Pains increased when food passes pyloric outlet. Frequent belching of offensive flatus. Vomiting of coffee-ground looking matter. Painful sinking across epigastrium. Agonizing feeling in chest and stomach, starting from pylorus with flatus that rolls in balls from one side to the other. Loss of appetite. Phlegm retchings and loss of weight.

Comments

In the same volume Cooper reproduces from H. W. (April, 1898) cases of ulceration of the stomach in elderly women cured with the same remedy.

(1) Miss J., 50, a thin, drawn-featured woman. Her sister died of cancer of stomach. Fifteen years previously vomited blood and had been subject to gastric pains ever since. Pains in stomach with sickness. Vomiting two or three times a day. Feels a pressure in every nerve of body, sometimes in one part, sometimes in another with pain across the chest sometimes after food.

Sometimes at night and sometimes on an empty stomach. A great deal of wind and sometimes a swollen feeling across the lower chest, occasional heartburn with rising of food, nasty canker taste in the morning, sleep not good from the pains, wandering dreams, bowels are confined.

Ornith. tincture, one dose, November 6. On 13th was seen again. Symptoms had moderated, vomiting ceased. A new symptom had made its appearance: "Wakes in perspiration at night." That had diminished by the 27th. Pains better "gets cold before the pains." No heartburn, nasty taste still and confined bowel. Repeated dose.

The day after this dose looseness of bowels set in with general relief. This went on increasing under more doses of the remedy until the patient regained almost perfect health and was quite changed in appearance.

(2) Mrs. K., 62, eighteen months before seized with profuse vomiting of blood. Since then lived on slops and Quaker oats. Lately has spat up clots. whenever she turns in bed "feels as if a bag of water turns also." Feet and legs swollen, unable to walk with ease. A brother is said to have died of cancer. January 12, 1898,

Ornith. tincture, one dose. January 23rd, so much better she can hardly believe it the effect of the powder. Oppression at stomach gone. The "fluid sack" that rolled about in her inside had seemed to go down and she felt nothing of it. Feels cheery and light.

On February 10th there was a threatened return of the symptoms, but another dose permanently removed them.

Cooper adds to the above this account of how he was led to think of Ornith. in cancer. "My acquaintance with it in cancer cases was due to the very distinctive disturbance it produced in a woman very sensitive to all alliaceous flavoring substances in food.

The dose was taken at midday and the same evening distention of the stomach and duodenum came on.

PAGE 1246

Also frequent belching of mouthfuls of offensive flatus obliging her to loosen her clothes. This was accompanied by the most hateful depression of spirits and desire for suicide. A feeling of complete prostration and painful sinking across the pit of the chest. A feeling of sickness that kept her awake the greater part of the night and that did not pass off for several days.

The subject of this disturbance was about fifty-four years of age of quite a sanguine temperament inclined to the enfeebled digestion and with a history of pleuritic seizures and a possible tubercular tendency, but otherwise not subject to any settled form of disease. Since the medicinal thrill above recorded, her general strength, digestion and capacity for the enjoyment of life have manifestly improved.

The Ornith. in those sensitive to it goes at once to the pylorus, causes painful spasmodic contraction of it and distends the duodenum with flatus, its pains being invariably increased when the food attempts to pass the pyloric outlet of the stomach."

Clarke has had several opportunities of confirming Cooper's observations on the action of Ornith. on cancer the stomach.

Mr. W., 44, came to me in August, 1899 with this history: Both parents died of cancer. He had a weak stomach for two or three years and was wasting. Has to get up in the night to vomit. Brings up green and yellow liquid.

Much flatus, "swells up in balls of wind." Abdomen large and hard, spleen rather large. Venous zigzag. Stools loose, watery, slate-colored. Urine is scanty, dark. Vaccinated three or four times.

Under Thuja 30c once a week he made good progress, the vomiting ceased and he began to put on flesh. He developed an offensive body odor, which disappeared under Sulphur 30c, but on October 13th symptoms were rather worse. Some distention, wind does not pass freely. Rumbling before stool. Balls of wind roll about, but not as badly as at first. Frothy, acid vomiting which relieves.

Clarke now gave Ornith. tincture, one dose, repeated three weeks later with manifest improvement in the symptoms. Body much less hard and distended, sleep good, appetite good, cessation of vomiting and gain of three pounds in weight. When he returned the symptoms were different and another remedy was required and then he considered himself cured.

Other symptoms include: Complete prostration and painful sinking across pit of chest and a feeling of sickness that kept her awake the greater part of the night. Writhing in agony, unable to keep anything long on stomach, better by warm food, worse by cold drinks.

Pains in stomach with sickness, vomiting two or three times a day. Great deal of wind and sometimes swollen feeling across lower chest. **Heart**burn and rising of food. Feels as if a bag of water turns when she turns over in bed.

Boericke. Clarke.

Oscillococcinum

Pharmacy

Oscillococcinum. Historical dose: All potencies, 30c to 200c.

History

In the year 1925 Joseph Roy is believed to have observed in some conditions of a culture the existence of a germ animated by an oscillating movement. He named the nosode Oscillococcinum because of this fact.

These researches helped him to describe a remedy of which the clinical experiments in the infections of influenza were carried out in particular by Paul Chavanon.

Oscillococcinum was developed by Boiron Laboratory in France. Pierre Schmidt says Oscillococcinum is for "influenza at the beginning as a preventive, as well as during convalescence" **Planets:** Mercury.

PAGE 1247

Homeopathic

Influenza of all types, especially in the earlier stages. Bursting headaches and muscle aching. Tendency to get influenza. Anxiety, paleness, chill. Sensitiveness to barometric weather changes. Tuberculous patients sensitive to cold. Paleness, asthenia, hyperthermia. Eye and nasal catarrh. Bronchial congestion. Painful congestion of the ear drum. Gastro-intestinal troubles with the influenza. "Mastoiditis, at the beginning of a disease which does not develop." (Schmidt)

This is a faithful remedy at the beginning of influenza, of rhinitis and otitis. Given early it is very efficacious.

To obtain good results in a case which begins and to cut short the manifestations of influenza, it is necessary to use one dose of Oscillococcinum 200c every 2 to 3 hours or repeat only if necessary.

Clinical

Aches. Anxiety. Bronchitis. Conjunctivitis. Ear pain. Fears. Headaches. Influenza. Gastro-intestinal disorders. Mastoiditis. Rhinitis. Sinusitis. Varicose ulcer.

Modalities

Better by heat. Better by rest. Worse by milk. Worse by eggs.

Symptoms

MIND

Subjects with fixed ideas, obsessions. Agony, anxious without any motive. Obstinate. A busy body, maniac, cannot bear disorder. Fear of dirt. Fear of being polluted. Has the need to wash his hands very often and is afraid of giving his hand to others for the fear of pollution, contagion.

Abdomen

Abdominal cramping pains followed by fetid diarrhea. Pains in the appendix region.

Ears

Pains sometimes as if from needles in one or both ears. Tympanum red and swollen.

Diminution of hearing acuity. Mastoiditis.

Eyes

Conjunctivitis of influenza. Yellow conjunctiva. Eye catarrh.

Face

Pain in the frontal and maxillary region.

Food

Can digest neither milk nor eggs.

Head

Bursting headaches. Headache with considerable throbbing.

Kidneys

Turbid urine, less abundant, deep color. Sometimes painful urination.

Lungs

Muco-purulent expectoration with humid cough.

Mouth

Tongue white.

Nose

Nasal voice. Nasal catarrh. Stuffed nose, nasal obstruction, sneezing. Serous discharge from the nose, then muco-purulent.

Rectum

Constipation.

Skin

Varicose type of ulcers of the legs.

Stomach

Swelling of the stomach. Putrid regurgitations. Vomiting of water or food.

Temperature

Bruised sensation, chill, hyperthermia.

Throat

Aphonia, dry painful cough.

Compare

Osmium met. + -ac. (old abbr.)

(the element)

Pharmacy

Osm. Osmium metallicum. Osmium. The Element. Trituration of the precipitated metal.

Osmium acidum. Osmium tetroxide. OsO₄. Dilutions with absolutely pure water.

Historical dose: Trituration and all potencies, sixth potency.

History

Osmium is a metal of the Platinum group in association with which it is always found.

PAGE 1248

It is the heaviest of them all and the most refractory, having never been fused. It derives its name from the pungent odor of the fumes of Osmic acid, which are evolved in the process of separating Platinum from its ore.

The odor of Osm. closely resembles that of Chlorine, as also do its irritating effect on the respiration mucous membrane. The odor imparted to the secretions is various, it makes the urine smell like violets.

The belchings like radishes, the axillary sweat like garlic. Triturations of the pure metal have been proved. The symptoms of the metal and of the acid are taken together. **Planets:** Mercury.

Homeopathic

Osmium affects the respiratory tract, especially trachea. Irritation and catarrh of respiratory organs. Eczema. Pain in trachea. Increases and gives odor to local perspiration. Causes adhesion of the nail fold. Albuminuria.

Though secretions are foul, urine smells like violets, belchings like radishes and axillary sweat like garlic. Crawling on back and shoulders. Pains go up and down. Causes adhesion of the nail fold.

Clinical

Asthma. Bronchitis. Cold, liability. Coryza. Cough, spasmodic. Eczema. Erections. Glaucoma. Headache. Hernia. Herpes iris. Larynx, pain. Penis, sores. Pollutions. Post-nasal bleeding. Post-nasal growths. Spermatic cords, pains. Sternum, pain. Syphilis. Syphilitic eruptions. Testicles, pains. Tongue, sore. Trachea, pain.

Modalities

Open air helps the smarting in eyes. Worse coughing, talking. Worse by touch. Worse riding, evening Cough worse until midnight. Open air aggravates, (coryza, cough).

Symptoms

MIND

Morose, irritable, impatient. Weeping mood, screaming with cough. Weak, gives up. Consciousness of mental weakness, misplaces words. Thoughts of accidents having happened to others. Disinclination for work.

Abdomen

Distention of stomach and abdomen in evening, with difficult passage of flatus. Rumbblings. Pain in groins, on coughing the pain extended into testicles. Pressure on inguinal rings. Weakness in groins towards spermatic cords. Constriction in epigastrium before dinner.

Back

Crawling on back and shoulders. Pressive pain in back and loins. Pain in sacral region. Peculiar pain extending from scapula to sacral region, worse motion and cough.

Chest

Wandering pneumonia. Sticking near left lower rib. Pain beneath sternum on coughing, extending to sides of chest. Sternum is sore, painful to touch, independent of cough. Shooting up and down in sternum. Oppression, better deep inspiration. Tightness. Dryness in chest.

Ears

ringing in right ear. Tingling and pain in right ear. Earache evenings, first right then left ear. Perforations with irritation of meatus. Itching in the ears, profuse nasal catarrh. Deafness, ears pain when nose is blown, mouth open, sleep noisy.

Eyes

Conjunctivitis. Increase in intra-ocular tension, dim sight, photophobia. Glaucoma with iridescent vision. Violent supra and infra-orbital neuralgia, violent pains and lachrymation. Green colors surround candle-light. Greenish or rainbow colors around the light.

Food

Aversion to cocoa. Aversion to coffee and tobacco, disgust at their odor.

Head

Feels as if a band around head. Dull, heavy headache. Violent headache above and under the eyes. Sharp bewildering pain center of forehead. Aching in base of brain and jaws at night. Pain in vertex and occiput, worse throwing head backward. Falling off of hair. (Kali-c., Fl-ac.)

Heart

Anxious palpitations. Pulse rapid.

Kidneys

Bright's disease. Diminution or suppression of the urinary secretions. Urine is albuminous, strong-scented, smelling of violets.

Urine is high-colored, full of bile, dark brown and scanty. Deposits bright-red sediment.

PAGE 1249

Limbs

Axillary sweat smells like garlic. Twitching of fingers with spasmodic cough. Fold of skin remains attached to growing nail. Heaviness and weariness of limbs, worse knees.

Lungs

Moist rales on breathing and in larynx. Convulsive cough, feels as though membrane were torn from larynx. Noisy, dry, hard, cough in violent short bursts, coming from low

down, shaking the whole body. Twitching of fingers with spasmodic cough. Spasmodic cough, sounds as if coughing in an empty tube with torn loose feeling and sticky sputum. Dread of breathing, sore pain when air enters lungs. Sensitive air passages.

Male

Steady aching in glans penis. Pain in testes and spermatic cord. Violent pain on the point of penis and prepuce. Erections every morning, earlier and harder. Pain in testicles, preventing sleep.

Mouth

Aching in jaws, pain in muscles of mastication. Mouth sticky and pasty. Copious salivation. Taste of blood, metallic, cigars cannot be smoked, because they provoke cough and worse the rawness in larynx, taste blunted.

Nose

Coryza, fluent with a feeling of stoppage. Snuffling. Full feeling in nose. Nose and larynx sensitive to air. Small lumps of phlegm from posterior sinuses.

Rectum

Stools mushy, frequent. Bilious stools with burning at anus. Constipated. Stool hard, then soft. Tendency to hemorrhoids. Burning in anus during and after stool.

Sensations

As of a band round head. As if he had swallowed broken stones. Cough as if caused by resonance of contiguous parts. As if insects crawling on back and shoulders. Legs and feet as if too full.

Skin

Eczema. Itching pimples. Irritated skin. Itching pimples. Bromidrosis, sweat in axilla smelling of garlic, worse evening and night. Fold remains attached to growing nail.

Sleep

Sleepiness is overpowering. Sleepless. Restless sleep, with painful dreams. Sleep heavy, interrupted by nightmare. Dreams of fire, confused, but not frightful. Dreams not remembered. Dreams of activity and of serious events.

Stomach

Feels full of broken stones or lumps. Belchings smelling like radishes. Belchings, nausea, and vomiting. Qualmishness and extreme discomfort with dull pain and heaviness in pit of stomach. Nausea in morning. Vomiting of watery mucus of the odor and taste of the acid. Chronic vomiting, with pressure in stomach.

Temperature

Shivering, worse back. Fever, with difficult respiration, fever, with hot and dry skin. Sweat in axilla, smelling of garlic, worse evening and night.

Throat

Acute laryngitis, cough and expectoration of tough, stringy mucus. Talking causes pain in the larynx. Hoarseness, sore sternum.

Tongue

Tongue coated, and bad taste to coffee, fissured and one spot denuded. Tongue edges rough and covered with pimples. Tongue red stripe in middle. Tongue sensitive to touch when eating and drinking.

Comments

Girl of 14 with post-nasal growths improved rapidly under Osmic acid, 3x, but was seized with exhaustion, then under Hydroc-ac., got quite well. (Cooper)

The respiratory tract is irritated from beginning to end and not only irritated but pained. The nostrils and larynx are sensitive to cold air. There is pain in larynx, trachea and in and under sternum on coughing. Even talking causes pain in larynx.

Cough convulsive in paroxysms, hollow sounding as if one coughed into an empty tube, caused by irritation in larynx or low down in chest. With so many remedies causing cough and asthmatic symptoms, Osm. is no less irritating to the skin, producing all degrees of irritating eruptions, eczematous and herpetic.

PAGE 1250

In one of Blackley's cases a child born during the time that his father was under the influence of Osm-ac. developed eczema, though none of the previously born children were eczematous.

C. M. Boger cured a case in which there was pain in both directions: "Stitching pain upward in left spermatic cord. Creeping sensation downwards in left spermatic cord. Weakness in calves, they give out while walking." Shootings in the sternum are up and down.

In another case of a man, 44, syphilitic was cured of: "dull, steady pain in hypogastrium, sore to pressure. Steady aching in glans penis." In the provings the erections were severe almost to priapism and the ejaculations were longer-lasting and more copious than normal.

The kidneys were affected in one of Blackley's cases incipient nephritis being set up. The headaches of the provings were of a violent description, many of them affecting the base of the brain.

A woman, 62 to whom Clarke once gave Osm. 2x for a spasmodic cough with pain in the head had a severe aggravation, the headache taking this form: "Sharp pain in center of forehead going through to back, better by hard pressure on forehead."

She discontinued Osm. and in two or three days that pain went away, leaving only an ordinary headache. The cough was not relieved. G. S. Norton suggests that Osm. may be a remedy in many cases of glaucoma.

Osteo-arthritis

(o.a. n.)

Pharmacy

O.A. N. Osteo-arthritic-nosode. Made from the synovial liquid of arthritic joints.
Historical dose: All potencies.

History

A proving of the Osteo-arthritic-nosode of hip was read in the 18th All India Homeopathic conference at Madras on 10 Oct., 1970. The two preparations of O.A. N. are done from the synovial liquid of joints.

The O.A. N. that originated from Dr. Foubister, comes from the knee of a patient suffering from an osteo-arthritic affection, and the other stock from the hip of a similar case. Here is a nosode which acts towards the osteo-arthritic direction. **Planets:** Saturn.

Homeopathic

State of stupor, indifference to others. Extreme weakness with somnolence in the afternoon and profound sleep. Weakness, worse in the morning when waking up. Great desire for sleep with deep sleep at night.

Clinical

Arthritis. Osteo-arthritis.

Modalities

Aggravation by the first movement, at night. Better by prolonged movement. Worse right side.

Symptoms

MIND

State of indifference. Nonchalance. Idleness, no desire to work. Irritability, worse towards evening. Indecision, needs relaxing.

Eyes

Styes of upper eyelid of the left eye.

Kidneys

Highly colored urine and less abundant, worse at noon.

Limbs

Swelling of the right wrist. Pain in the right shoulder. Muscular pain of the right hip. Temporary redness and swelling of the right shoulder. Redness and swelling of the right forearm and right wrist. Pain aggravated by the first movement, ameliorated by continued movement. Pain of the Achilles tendon.

Male

Increase of sexual desire in men. Furuncle on the scrotum.

Skin

Furuncles.

PAGE 1251

Ostrya virginica

(ironwood)

Pharmacy

Ost. *Ostrya virginica*. Ironwood. Hop-hornbeam. Lever-wood. N. O. Cupulifere. (Corylacee). Tincture of heart wood. Historical dose: Tincture and all potencies, first to third potency.

History

The Hop-hornbeam, *Ostrya virginica* is sometimes regarded as a variety of the common Horn beam naturalized in America, though native to southern Europe. The chief difference between them is that Ost. vulg. has pendulous and Ost. virg. upright catkins. Wood from the preparations of which the provings by Burt and others were made is exceedingly hard and heavy. **Planets:** Jupiter.

Homeopathic

Ostrya virginica has a marked action on the liver with the usual dull headache and pain in back and shoulders, cutting, sinking pains in abdomen. Nervous, languid, weak, uneasy. Allen mentions the following: "Tongue coated yellow at root. Loss of appetite for breakfast and dinner. Frequent nausea with the dull frontal headache."

On the other hand there is increased appetite, hunger wakes the patient at 4 a.m. and sinking at epigastrium. Sickening pains were much complained. some of the stools were very black. Of great value in anemia from malaria. Bilious conditions and intermittent fever. Very nervous with dull headache.

Clinical

Headache, dull. Head, numb. Intermittent fever. Liver disorders. Lumbago. Malaria. Malarial anemia.

Modalities

The symptoms were worse moving, stooping, walking. worse 6 a.m. , 4 a.m. , 3 p.m.

Symptoms

Abdomen

Dull pains in right lobe of liver with sour belchings. Retraction of umbilicus. Rumbling, flatus, pain waking him in night.

Back

Back so painful, can hardly turn in bed, cannot sit up (better from Macro., Bry., Nux-v). Dull pain in whole dorsal region, extending to left hypochondrium.

Constant lumbar and sacral pain, worse stooping or walking.

Ears

Drawing pain deep in left ear.

Face

Moist freckles in face, head and hands.

Food

Appetite greatly increased. Woke with hunger 4 a.m. Loss of appetite.

Head

Dull headache with numb, prickly feeling in head, face and hands, worse head. Dull frontal headache with nausea. Right side headache, morning.

Limbs

Arms and legs: aching, dull pains. Fine drawing rheumatic pains in left fingers, morning. Drawing pains in right ankle.

Mouth

Boring and sharp pain in right lower molars. Tongue yellow, coated at the root. Taste is coppery, slimy, sweet, slimy, bitter, rough.

Rectum

Rectum feels sore, protruded feeling after stool.

Stomach

Sour stomach. Burning distress in epigastrium. Nausea and distress after riding in cold air. Hard sickening pains in epigastric and umbilical region, awaking him at night.

Sinking in epigastrium. Frequent nausea with dull, frontal headache. Sickening pains.

Stool

Loose stools, bilious with tenesmus and straining, loose without tenesmus. Tenesmus followed by diarrhea stool. Mushy stool with burning at anus and tenesmus. Black stools, dry lumps.

Compare

(1) Waking in night hungry, Ign., Lyc.

(2) Black stools, Lept.

Relations

Antidoted by: Macro., Bry., Nux-v. (lumbago).

SOURCES

Boericke. Clarke.

Ovininum

Ovary gland

(oophorium)

Pharmacy

Ov. The Ovary Gland. Oophorium. Ovarian extract. A Sarcod. Trituration of expressed juice of ovary of sheep or cow. Historical dose: Trituration and all potencies, low triturations.

PAGE 1252

History

Ovary or Oophorium has been used with much success in cases of suffering following excision of the ovaries and for the menopausal sufferings of women. Clarke had good results with it in such cases in the lower triturations. **Planets:** Moon, Venus.

Homeopathic

Ovary has been suggested as a remedy in ovarian cysts. Suffering following removal of the ovaries, (Sepia). Menopausal disturbances in general. Cutaneous disorders and acne rosacea. Prurigo.

Clinical

Acne rosacea. Menopausal, sufferings. Flushings. Nervousness, menopausal. Ovaries, tumors, disease. Prurigo.

Symptoms

Female

Infantile genitalis. Hot flashes. Menopause. Menses are frequent too early. Menses are clotted, coagulated, copious. Menses of short duration. Infertility.

Comments

E. Saalfeld in view of Landau's observations on the effect of Ovary on the nervous sufferings of women at the menopausal, gave Ovary to women suffering from acne rosacea and other skin disorders of the menopausal.

A woman, 20 after double oophorectomy had lichen-like eczema. This was relieved by Ovary as well as the accompanying nervous symptoms and adiposity.

He obtained good results also in some non-menopausal cases as: (1) Acne and seborrhea in chlorotic women.

(2) A case of prurigo which had lasted from childhood in a woman of 26. In this case the itching was better for a short time after the period. This better during menses may prove a keynote and relates the remedy to Zinc.

Compare

(1) Orchitinum, Testicular extract - after ovariectomy, sexual weakness, senile decay.

SOURCES

Boericke. Clarke.

Ovi gallinae pellicula

(membrane of egg-shell)

Pharmacy

Ovi-p. Ovi gallinae pellicula. Egg shell membrane. Membrane of the Shell of a Hen's Egg. The fresh membrane is triturated in. 95 alcohol, allowed to digest several days and then potentized (Swan). Historical dose: Trituration and all potencies.

History

The Egg shells were used by the ancients in powdered fresh or roasted and as such were and are much used in the treatment of oxyuris vermicularis. Swan prepared the membrane. As an ovarian product it might be expected that all parts of the egg should have an action on ovaries.

Ovi gallinae pellicula is was recognized as an article of diet and eggs have a stimulating effect on the sexual functions. The provings of Ovi g. p. bear out this relation.

Yingling contributed this case: H. E., 42, blonde, had these symptoms: A dull, hard, heavy aching in region of heart, generally about apex, extending at times to left ovarian region. Occasionally a cutting which extends to base of heart and prevents breathing after the cutting a sensation as if something went "thud," after which pain seems to recommence at apex. At times heavy aching in base of heart, which makes breathing very difficult. Only bending backward better respiration.

Ovi. g. p. (a preparation of Fincke's) one dose, dry on the tongue. In a very few minutes the pain was all gone. "Feels splendidly since taking the remedy." Without knowing what it was, said she had "a taste of fresh eggs in the mouth since taking the powder." **Planets:** Moon.

Homeopathic

Sudden pains. Bearing-down sensation. Intolerance of bands on wrists, arms, waist, etc. Backache and pain in left hip. Debility. Pain in heart and left ovary.

Among the noteworthy features of the provings are: Suddenness of onset and ceasing, both provers manifested these. Jerkings on going to sleep and in sleep.

Heat in sacrum, the rest of the body being cool. The bearing-down sensations in the uterus were very marked. Pushing and rushing feeling in womb, as if blood might rush out in torrents. Sensation as if something turned over inside.

PAGE 1253

Clinical

Amenorrhea. Catarrh. Coryza. **Heart**, oppression. Hip pain. Leucorrhoea. Menstruation, irregular. Ovaries, pains. Post-nasal catarrh. Pruritus vulvae. Throat, sore. Uterus, displacements, retroverted. Vertebra, pain. Vulva, soreness.

Causations

Over-exertion. Strain.

Modalities

Better bending backward (dyspnea in cured case). Better jarring or beating breast (dyspnea). Worse by movement, reaching, lifting arms, over-exerting. Worse at menses: before during and after, though some symptoms were better when flow appeared. Worse pressure and touch intolerance of pressure of clothing. Worse descending stairs. Worse at full moon.

Comments

This Ovi-p. preparation was made by Swan and proved by a young lady, a patient of J. C. Boardman. Swan adds that it has an ancient reputation for "immoderate flux of the menses" (like Calc.) and for nocturnal bedwetting.

The first prover was a young lady who was known to be unable to bear any extra exertion, but the details of this were not known until after she had taken the first dose of the 100,000c sent by Swan.

This had the effect of removing suddenly the whole of the trouble which prevented her from exerting herself.

A left ovarian pain extending down the left limb, brought on some years before, when she felt something "give way" in the groin while shoveling snow.

The sensitiveness to exertion never returned, though the dose created much disturbance of the generative functions before it had finished its action.

The symptoms of the second prover, a married woman who took the 30c, confirmed the symptoms, both cured and pathogenetic, experienced by the first.

This prover had also hemorrhage from the rectum incontinence of urine while sneezing or coughing, post-nasal catarrh.

Compare

(1) Calc., Naja.

(2) Ova tosta - Tosta preparata, Roasted egg-shells - Calcarea ovorum - has leucorrhoea and backache. A feeling as if the spine were broken and wired or tied together with a string. Pain of cancer. Warts.

(3) Also Egg vaccine for asthma. Much interest is shown in Dr. Fritz Talbot's method to cure one form of asthma in children by the use of egg vaccine. Asthma due to susceptibility of the protein substance in eggs can be cured by immunizing against egg poisons by repeated doses of egg white. After the skin has been cleansed with soap and alcohol the egg-white is rubbed into a slight scratch.

SOURCES

Boericke. Clarke.

Oxalicum acidum

(sorrel acid)

Pharmacy

Ox-ac. Oxalicum acidum. Sorrel acid. Oxalic Acid. Trituration. Tincture. Historical dose: All potencies, sixth to thirtieth potency.

History

Although certain oxalates are constant constituents of vegetable food and of the human body, the acid itself is a violent poison when taken internally, producing gastro-enteritis, motor paralysis, collapse, stupor and death.

Ox-ac., the chief constituent of Sorrel (*Rumex acetosa*) and Wood Sorrel (*Oxalis acetosella*), exists in plants that are ordinarily deemed anti-scorbutic and are remarkable for the grateful acidity of their herbage.

Inspissated solutions of sorrel have been used successfully as local applications for epithelioma and with a solution of Ox-ac. and of Tannic acid, applied locally. With a solution of 5 grains to 3 ozs. of water Cooper has removed troublesome small nevi in infants upon the face and elsewhere, using it for weeks or even months.

PAGE 1254

Cooper removed a large patch of erythematous lupus on the cheek. From this it would appear, taking into account that Ox-ac. produces wart-like growths, it may have a beneficial influence, locally and probably internally as well, upon epithelial proliferations of the cuticle.

Ox-ac. is said to enter largely into the inspissated juice of the Clover (*Trifol. pratense*) which formed Thomson's "cancer plaster," and which is strongly escharotic. **Planets:** Mercury, Saturn.

Homeopathic

If Opium is the painless remedy, Ox-ac. may be considered its antithesis: it causes the most excruciating pains beyond description and it has this grand keynote distinction, that its pains are all worse when the patient thinks of them. And not only that, thinking of pains and conditions will bring them on when they are not actually present. If the patient thinks about urinating he must go instantly and relieve the bladder.

Influences the spinal cord and produces motor paralysis. Violent pains in spots, (*Kali-bi.*). Worse motion and thinking of them. Periodical remissions. Spasmodic symptoms of throat and chest. Rheumatism of left side. Neuralgia. Neurasthenia. Tuberculosis. Periodical disorders.

The Ox-ac. patient becomes weak, cold, livid and numb all over worse lower limbs. Excruciating pains like lightning in streaks in spots, burning. Paralysis of the left side from spinal meningitis.

Clinical

Angina pectoris. Back, pain. Bedwetting. Chest disorders. Cholera infantum.

Convulsion. Deltoid rheumatism. **Eyes** disorders. Gastrodynia. Gout. Gravel. Hernias.

Indigestion. Meningitis. Myelitis. Nails, blue. Neuralgia. Neurasthenia. Nose disorders. Numbness. Oxaluria. Paralysis. Pregnancy, sickness. Side, pain. Spasms. Spermatic cord, neuralgia. Stomach disorders. Tetanus. Testes, pains. Tongue disorders. Urine, abnormal. Voice, altered.

Modalities

Better after stools. Change of position helps pain in back. Worse thinking of symptoms. Worse from mental exertion, motion, worse from strawberries, sour fruits, grapes. Worse left side, slightest touch. Worse from light, shaving, cold. Worse from being aroused about 3 a.m. with gastric and abdominal pain. Lying down causes swimming sensation. Worse evening, night and early morning.

Symptoms

MIND

Nervous and sleepless. Very much exhilarated, quicker thought and action.

Symptoms worse by thinking of them, not only that, but thinking will bring on the conditions when they are not actually present.

Abdomen

Chronic inflammation of bowels. Burning in small spots in abdomen. Colic about the navel or involuntary muddy brown stools better lying. Flatus passes with difficulty. Stitching pains in the liver better deep breathing. Fainting and vomiting during stool. Pain in upper part after eating with much flatulence.

Back

Numb pricking in back. Back feels too weak to hold the body. Cold creeps up spine.

Chest

Sharp pain through lower region of left lung, extending down to epigastrium. Chest fixed. Left lung painful.

Eyes

Severe pain in eyes, **feel expanded**. Hyperesthesia of retina. **Small and especially linear objects appear larger and more distant than they are.** Sight vanishes with the nosebleed.

Face

Pale, cold, livid. Feeling of heat.

Food

Cannot eat strawberries. Sugar, coffee and wine disagree.

Head

Headache, before and during stool. Sense of heat. Band like sensation about the head, as of a screw behind each ear, better after stool. Numb pricking in occiput. Sore tender spot on scalp.

Heart

Palpitations and dyspnea in organic heart disease, worse when thinking of it. Palpitations worse lying down. Pulse feeble. Angina pectoris, sharp, sharp pain in left lung coming on

suddenly, depriving of breath. **Heart** symptoms alternate with aphonia. Precordial pains which dart to the left shoulder. Aortic insufficiency. Beats of heart intermit when thinking of it. Fluttering in heart.

PAGE 1255

Kidneys

Must urinate when thinking of it. Pains in glans penis, when urinating. Oxaluria. Frequent and copious. Burning in urethra and pain in glans when urinating. Urine contains oxalates.

Limbs

Weak trembling, hands and feet. Numb, tingling. Numbness extends from shoulders to fingertips. Pains start from spine and extend through limbs. Drawing and sharp pains shooting down limbs. Backache, numb, weak. Myelitis. Muscular prostration. Wrist painful, as if sprained. (Ulmus.) Lower limbs blue, cold insensible. Sensation of numbness. Multiple sclerosis. Sharp pains in various parts, jerking pains. Hands cold as if dead. Pain in fleshy part of thumb (right).

Liver

Stitches in liver.

Lungs

Breathing spasmodic with constriction of larynx and chest. Dyspnea, short, jerking inspirations. Burning sensation from throat down. Hoarseness. left lung painful. Aphonia. Paralysis of the tensors of vocal cord.

Male

Seminal vesiculitis. Neuralgic pains in spermatic cord, worse from slightest motion. Testes, throb or feel crushed. Testicles feel contused and heavy.

Mouth

South, taste, belchings with difficult swallowing.

Rectum

Diarrhea from coffee.

Sensations

Jerking pains like short stitches, confined to small spots, lasting only a few seconds. Sensation as if all blood had left the brain. As if blood in head was coursing upward and outward. As from a screw behind each ear. Hypogastrium as if bound. Back as if broken or bruised. Wrist as if sprained. Hands as if dead. During shaving as from chafing.

Skin

Sensitive, soreness, smarting, worse shaving. Perspires easily. Mottled, marbled in circular patches.

Stomach

Emptiness with gnawing compelling one to eat. Burning pain goes upwards, worse slightest touch, sugar. Violent pain in epigastrium discharge of flatus relieves. Gastralgia, heartburn, sensation of coldness below epigastrium. Bitter and sour eructation, worse at night. Cannot eat strawberries.

Throat

Nervous aphonia. (Coca, Hydr-ac.) Voice altered. Low voice. Hoarseness with cardiac derangements. Aphonia from paralysis of vocal cords.

Vertigo

Confusion and vertigo. Vertigo, swimming sensation on lying down, while looking out of window.

Comments

Ox-ac. has coldness of surface, numbness, mottled skin, blue nails, are present in all degrees of the drug's action and are leading keynotes for its use. The excruciating pain in lower back and loss of power in the lower limbs shows an unmistakable action on the spinal cord and its meninges. These symptoms are better seen in less severe cases of poisoning.

In animals poisoned with Ox-ac. the first symptom is stiffness of hind limbs. Farrington sums up the indications of Ox-ac. in spinal affections: Weak loins, hips, legs, numb back, numb limbs. Limbs blue and cold, weak and numb, worse going up stairs. Limbs stiff, paroxysm of dyspnea (as in spinal meningitis).

Pains in small spots (especially linear spots). Pains worse when thinking of them. Erections with dullness in occiput.

In a case of paraplegia, affecting first right then left leg of a year's duration in an American lady, mother of four children, W. M. Butler gave great relief with Ox-ac. 3c. In a few weeks the motor symptoms were better than the sensory. Sensation to heat and cold was restored, general tactile sensibility was improved. Some control was gained over bladder and rectum.

The involuntary muscles are affected by Ox-ac. no less than the voluntary.

PAGE 1256

There is frequent ineffectual urging to stool, preceded by a sick, distressing feeling from navel downwards, worse when thinking of it, worse from drinking coffee. Sugar worse pain in stomach. Wine causes headache. Faintness and vomiting during stool. After stool better of pain in back.

The heart may be paralyzed in a few minutes if the dose of the poison is very large and then it is found flaccid or distended with blood.

In an interesting study of Ox-ac., J. W. Ellis cites a fatal case of poisoning recorded by Boericke through exposure of the hands to a saturated solution used for chemical purposes. The symptoms were: Intense pains in head. Hyperesthesia, especially to light. Spasms of pain down limbs, along throat muscles and through spermatic cord. Sensitive spots on spine.

D. Walker told Clarke of a case of his in which the patient, an elderly, gouty man, was suddenly seized with congestion of spinal meninges with great coldness, blueness and numbness with complete prostration of strength. Ox-ac. 6c rapidly cured.

A patient of Clarke who used Ox-ac. in his work suffered from: "Rheumatism of left side. Starting on falling asleep. When actually at work, acidity."

This left-side rheumatism is noteworthy, for Ox-ac. is a very left-sided remedy. But it has one special region of the left side, as Burnett has graphically illustrated in which it is supreme. Sharp pains through the lower lobe of the left lung.

It matters not what the name of the disease may be pleurisy, pneumonia, tuberculosis, when that pain is present Ox-ac. will do its work.

The provings give: Sharp shooting pain in left lung and heart, extending down to epigastrium and lasting some seconds. In afternoon, stitches several times in left lung. Sharp, sharp pain in left lung, coming on so suddenly that it deprives him of breath for a few seconds. Sore sticking in chest extending back to between scapula.

Ox-ac. has cured many cases of angina pectoris with symptoms recalling these. A powerful action is developed on the kidneys in the poisoning cases, albumen, blood and

oxalate crystals results in cases of oxaluria in which some of the leading symptoms of the remedy, as the backache, numbness, etc., were present.

Bedwetting has also been cured with Ox-ac. 6c in a blonde boy of six. The guiding symptom was: "Sharp shooting pain in left chest, close to sternum and parallel to it."

Hale cured a case of palpitation with action of heart irregular in force and rhythm, alternating with aphonia with Ox-ac. 6c.

Ellis suggests that Ox-ac. corresponds to many cases of neurasthenia. It is a favorite remedy with S. A. Jones in cardiac trouble, occurring in highly "nervous" patients.

John Moore reports the case of a sea captain who suffered from indigestion. Two years before Moore saw him he had to undergo operation for strangulated hernia. Ever since he had been subject to these symptoms:

Pain in region of navel coming on two hours after eating, accompanied by much flatulence and bitter and sour belchings. Pain worse in night, arousing the patient 3 a.m. and keeping him awake. Burning sensation from throat downwards to the region of the pain. The patient had always has a weak digestion and had met with many severe accidents at sea.

Ox-ac. 3c, two drops, an hour after meals. He was a little better the first night and after that slept the night through and said he had not had so much comfort for years.

Symptoms are worse by touch (small spots on head), slightest touch causes excruciating pain. worse Shaving. Eating better pain in stomach. Soup better gnawing in stomach. Sugar, coffee, wine worse. After eating: pains at navel, colic, rumbling in abdomen, urging to stool, weakness.

Oxydendron arboreum

(sorrel-tree)

Pharmacy

Oxyd. The Sorrel tree. Oxydendron arboreum. Sour-wood. Elk-tree. Andromeda arborea. N. O. Ericaceae, tribe andromedeae. Rich woods of the Alleghenies. Tincture of leaves. Historical dose: Tincture and all potencies.

History

Oxyd. is the only species of its genus. It is an unproved remedy. **Planets:** Venus, Saturn. Homeopathic

Oxyd. is a remedy for dropsy, ascites and anasarca. Urine suppressed. Deranged portal circulation. Prostatic enlargement. Bladder stones. Irritation of neck of bladder.

Clinical

Ascites. Bladder stones. Dropsy. Prostatic enlargement.

Comments

M. E. Douglass treated Mrs. H. for general dropsy, ascites and anasarca. Which dated from an attack of measles treated with ice-drinks and ice-applications seven months before. When Douglass saw her the urine was nearly suppressed, but contained very little albumen.

Great difficulty of breathing even when sitting, lying down impossible. Had to sit in one chair with feet in another. Menses suppressed.

After the failure of Apocy. and several carefully chosen medicines, the legs having burst in several places, Douglass was about to tap the abdomen, but before doing so put Oxyd. 3x in a tumbler of water and gave three teaspoonfuls every three hours.

In forty eight hours the breathing was better and urine increased. Oxyd. was continued (with the exception of three days during which Rhus-t. was given to combat erysipelas which had set in on left leg) and on the tenth day the patient lay down on the bed and slept three hours. Appetite increased and in two months she was quite free from dropsy and felt perfectly well though much emaciated.

Oxygenium

(oxygenium, ozone)

Pharmacy

Oxyg. Oxygen. Oxygenium. Ozonum. Oxygen including Ozone, which is Nascent Oxygen. Dilutions of distilled water charged with the gas. Dilutions of the preparation called Oxydol. Historical dose: Tincture and all potencies.

History

Oxygenium is said to liberate oxygen in nascent state in the tissues when it is taken internally diluted with five or six parts of water. Undiluted its taste is disagreeably metallic, though it can be used undiluted as a gargle without inconvenience. Diluted it has no taste at all.

When taken as directed in doses of a tablespoonful with six of water it sometimes causes relaxation of the bowels followed by constipation. Clarke it set up all the symptoms of a common cold.

As an anti-septic lotion and application Clarke has found it of great value and as a gargle in cases of sore throat.

PAGE 1258

Rather rawness of the throat when ushering in a cold, It is often known it stop the irritation from going further either up or down. In cases of gonorrhoea it has a useful function in rendering the urine anti-septic, supplying an anti-septic lotion from within without interfering with the action of the specific homeopathic remedy.

But the disease for which it is chiefly commended by its inventor is cancer. Clarke has given it in a number of cases and have obtained favorable temporary results in some.

Planets: Moon.

Homeopathic

Inhalations of oxygen have palliated some late cases of cancer, producing profuse discharges from the ulcerating mass of tumor with reduction of its growth, but no cure followed and death supervened.

Clinical

Anemia. Cancer. Coryza. Cough. Diabetes. Influenza. Morphine poisoning. Mouth, canker sores. Strychnine poisoning. Whooping cough.

Causations

Morphine. Strychnine.

Symptoms

Abdomen

Great flatulence, passing large quantities at stool.

Back

Pains excessive in whole sacral region, apparently in articulations, especially a sensation of tiredness all through pelvic viscera, even in perineum.

Chest

Bursting sensation in chest. Tickling under sternum. Tightness under sternum worse bringing shoulders forward. Suffocating feeling in chest, tendency to breathe slowly.

Eyes

Lancinating, paroxysmal pain in right eyeball, a little to left of pupil. Occasional rush of pain, filling whole right eyeball and extending into right temple, which then became hot. Tingling of conjunctive and skin of face.

Face

Tingling of skin of face. Rawness in throat.

Head

Headache in outer half right eyebrow, pain still in frontal region. Dull frontal headache, worse in spot over left eye. Pain in left temple, which feels cold to touch. Continued sweat on scalp.

Limbs

Itching of skin of metacarpal end of first phalanx of left index finger, no redness of eruption. Thighs and legs as if overworked, excessively fatigued. Eruption of pimples in the fold of right side of buttocks, near anus, becoming very sore and seemingly like blisters, as skin rubbed off it was left very sore.

Lungs

Violent irritating cough and sneezing, followed by rawness in throat and air passages. Irritation of respiratory tract as when recovering from attack of influenza. Hoarseness and hard, shaking, tearing cough from tickling under sternum in night, worse lying either side, better lying on back with profuse, lumpy, tasteless whitish sputa. The sputa occasionally yellow, purulent. Dry, hacking cough, 2 to 5 a.m. Cough causes hawking, blowing nose, and a bursting sensation in chest.

Male

Fine stinging rash right side of scrotum, lasting one day.

Mouth

Canker sores in mouth and cheeks.

Nose

Much indurated mucus in nose, necessitating frequent picking in morning blowing out of lumps, generally tough, opaque, whitish yellow. Sneezes with the cough.

Perspiration

Sweat all over and headache between eyes. Sweat on scalp and slight moisture over body.

Rectum

Flatus seems to accumulate in rectum, causes desire for stool and fears to pass flatus lest stool should also pass.

Skin

Tingling of skin of face and conjunctive.

Throat

Aphonia with difficulty of controlling voice. Slight hoarseness, dryness of throat towards evening dryness increased round rim of glottis, at midnight woke with choking, burning dryness of glottis and upper larynx, no thirst.

Rawness in throat. Irritation of fauces and glottis.

PAGE 1259

Comments

As we learn more and more how to handle gases they will take a more definite part in the Materia Medica.

It is not chemically distinguishable from Peroxide of Hydrogen, but it has none of the disagreeable features of that substance. It does not bleach articles it may touch or cause effervescence.

In one case seen with a colleague in an elderly woman of the working class who had a large fungating cancer of the left breast, Oxyd. was given internally and applied also externally. It caused excessive discharge with corresponding reduction of the tumor and we hoped for a cure.

But after several weeks the patient's legs suddenly swollen, the swelling rapidly increased and she sank, the tumor having at least three-quarters disappeared.

The effect of the Oxydol was probably to liberate the disease elements too rapidly for the organism to eliminate them, as Dr. Cooper suggests in his account of Ornith. Swan's symptoms have been verified in some instances, the following cures being recorded:

(I) Cough from dryness in upper larynx and constant tickling in throat-pit. Hard, shaking cough causing soreness in epigastric region. Expectoration with every cough, thick, lumpy, tasteless, Oxy. 1,000c.

(2) Passing quantities of uric acid like ruby sand, Oxy. 100,000c. (3) Cough excited by tickling in throat and causing soreness of chest, 2 to 3 a.m. , better lying on back. Oxy. 100,000c cured this case.

As a mouth wash in canker sores dilute Oxydol is a useful preparation. Now that Oxygen inhalation has become so popular, we may expect some symptoms from those who become addicted to it.

With inhalation of Oxygen kept up for ten hours, D. T. Playfair cured a desperate cases of morphine poisoning (30 grains Morph. Acet. has been taken) in a young woman of 37. All the usual antidotes had been given before without avail. The patient was entirely well in twenty-four hours.

A cure of diabetes with large doses of Oxy. is on record and many cases of whooping cough have been cured with inhalations of Ozone.

Oxytropis lamberti

(loco-weed)

Pharmacy

Oxyt. *Oxytropis lamberti*. Loco-weed. *Oxytropis Campestris*. Loco-weed. Rattle-weed. N. O. Leguminose. Tincture of fresh plant without the root. Historical dose: Tincture and all potencies, third potency and higher.

Herbal

The "Crazy-weed" or "Loco-weed" is of Spanish origin and means crazy. It has been variously identified by Gray as *Astragalus legum*, by others as *Astragalus mollisimus* and by W. S. Gee, who made the proving, as *Oxytropis Lamberti*.

Probably the writer of the botanical articles in the Century Dictionary is nearest the mark in saying that Loco-weed is "any one of the several Leguminous plants producing the loco-disease in animals. Among them are *Astragalus mollisimus* and *A. Hornii* with several other species of the genus and *Oxytropis Lamberti*."

Gentry made provings of the tincture of the whole plant and seeds on three persons. Gentry's observation of loco-disease in winter bears out what is said by other writers, namely, that it is only in winter, when food is scanty, that animals can be induced to commence eating the weed and then they cannot leave off.

Two provers had "symptoms worse when thinking of them." Gentry's provers had "pleasant intoxicated feelings." Both Gentry's and Gee's provers had well-marked pains in the eyes and disturbance of vision and Gentry's had "numb, pithy or woody feeling about and on the spine," and "loss of power to control movements of limbs."

PAGE 1260

In Gee's proving the tincture and potencies from 1x to 30x were used. A number of mind and brain symptoms were produced, despondency, forgetfulness, a feeling as if consciousness would be lost, fullness in the head and instability standing. There were

pains both in testes and ovaries and one male prover, naturally passionate, became impotent. **Planets:** Moon.

Homeopathic

Oxyt. has a marked action on nervous system producing uncertain, staggering or backward gait. Great mental depression. Staggering gait. Reflexes lost. Trembling, sensation of emptiness. Walks backwards. Congestion of spine and paralysis. Pains come and go quickly. Sphincters relaxed. Vertigo. Urging to urinate when thinking of it. Trembling and a sense of emptiness.

Clinical

Amblyopia. Apathy. Bladder, irritability. Coughs. Delirium. Fevers. Impotence. Locomotor ataxia. Mania. Ovary, pain. Paralysis. Rheumatism. Spermatic cord. Sphincters, relaxation. Testicles, pain. Vertigo.

Modalities

Better after sleep. Better on side lain on. Pains better when moving about, better in cool air. Worse thinking of symptoms. Worse every other day. Worse immediately after eating, better an hour after.

Symptoms

MIND

Stimulation of mind, pleasant, intoxicated feeling (Gent.). Desires to be alone. Disinclination to talk or study. All symptoms worse when thinking of them. (Ox-ac.) Indifference to all interests. Cannot think or concentrate his thoughts. Very forgetful of familiar words and names. Depression. Mono-maniac tendency. Feeling as if he would lose consciousness.

Abdomen

Full feeling in abdomen, causing short breathing after lying down in bed. Tenderness in epigastric region. Sharp, sharp pains all through abdomen. Sharp pain, running from right to left across bowels. Slight griping pain in region of umbilicus.

Back

Pain and stiffness of muscles of back of neck. Numb, pithy or woody feeling about and in the spine (Gent.).

Chest

Oppression in lungs at 9 p.m. A warm tingling sensation over left chest, just under skin.

Ears

Roaring sound in ears.

Eyes

Sight obscured, pupils contracted, do not respond to light. Paralysis of nerves and muscles of eyes.

Female

Pain in left ovary like something grasping or holding tightly.

Food

Appetite gradually increasing. Appetite good. Symptoms, worse after eating, better after an hour. Loss of appetite.

Head

Full, warm feeling about head. Feeling of intoxication with loss of vision. Pain in maxillary bones and masseter muscles. Pressure on head better after sleep.

Kidneys

Pain in kidneys, worse in right, with some tenderness. (Berb.) Urging to urinate when thinking of it. Profuse flow. Awoke with a heavy pain in kidneys.

Limbs

Pain along ulnar nerve. Numb feeling about spine. Staggering gait. Loss of coordination. Patellar tendon reflex lost. Pains come and go quickly, but muscles remain sore and stiff.

Lungs

Short and quick breathing from the full feeling in abdomen. Hard breathing, as though lungs and bronchials were closing. A dry cough, from any little exercise. A short cough with tightness across chest.

Male

No desire or ability. Pain in testicles and along spermatic cord and down thighs.

Mouth

Mouth every dry, especially in morning. Metallic taste in mouth strongly marked. Gumboil on left lower jaw, profuse saliva. Pain in left lower jaw.

Nose

Nose very dry, scab form in it. Frequent violent sneezing with fluent coryza. Nose feels as if sunburned. Red and shining, especially on ale. Feeling of pressure over bridge of nose. Fluent coryza, somewhat bloody.

PAGE 1261

Rectum

Sphincter seems relaxed. Looseness of bowels. Stools slip from anus like lumps of jelly, mushy.

Sleep

Wakes often. On rising feels sad, weary, despondent. Twitching of muscles on falling asleep. Restless, dreams of quarrel. Dreamed of spiders, bugs, of swimming in water. Dreams of a pleasant or lascivious nature.

Stomach

Belchings with colicky pains. Belchings, as after taking soda-water with colicky pains. Stomach cold during the chill.

Temperature

As chill passes off a smarting in throat and a feeling as though lungs and bronchials would close up, making breathing very difficult. Chill lasted until 2 p-m., then disappeared. No thirst in either stage.

Throat

Slight inflammation of pharynx, a "husky" feeling. Throat dry and sore. Slight accumulation of mucus in larynx, hard to cough it up.

Comments

Henry's Botany remarks that the foliage of "O. Lamberti is said to be injurious to cattle," so Dr. Gee was quite justified in taking this plant for the proving. The Astragali are very closely related to the Oxyt.

W. D. Gentry in June, 1895, sent Boericke and Tafel specimens of Oxyt. and as this firm are extremely careful about the botany of the plants they make their tinctures from.

Gentry makes these remarks concerning the plants he sent: "My attention was first called to this plant last winter during January. Soon after my arrival on the territory, as it was almost the only green thing showing itself above the snow.

PAGE 1259

Which covered the ground at that time for two or three days. Some cattle had been eating the weed and as I approached them they tried to move away, but in spite of their efforts they backed towards me and in their efforts to escape made some ludicrous maneuvers.

I observed them closely for more than an hour and was reminded most forcibly by their actions of the symptoms of locomotor ataxia."

PAGE 1262

Paeonia officinalis

(peony)

Pharmacy

Paeon. *Paeonia officinalis*. Peony. N. O. Ranunculaceae. Tincture of the fresh root dug in spring, in autumn the root is said to be inert. Historical dose: Tincture and all potencies, third potency or higher.

Herbal

Paeon. belongs to the great order of Ranunculaceae., which includes the Aconites, Acteas and Hellebores. Peon. is a remedy for anal disorders such as abscess, fissure, fistula and hemorrhoids.

It is interesting to note that both Dioscorides and Pliny cured nightmares with Peon., the former with the seeds, the latter with the root. The dreams experienced by the provers were of a terrifying nature. Geyer was ignorant of this fact until after he had experienced the nightmare causing power of the remedy.

The leading indications are intolerable during and after stool and oozing of moisture. Biting, itching, swelling, burning. Experience has proved that varicose veins as well as anal Varicose veins are amenable to Peon. **Planets:** Moon.

Homeopathic

The Paeon. rectal and anal symptoms are most important. Anal disorders such as fissure, fistula, abscess and hemorrhoids. Chronic ulcers on lower parts of body, leg, foot toes, also breast, rectum. Skin is very sensitive, ulcerations from pressure of tight boots, bed sores etc. Shooting or splinter like pains. Varicose veins. Rolls on floor from pain.

Paeon. has anal and skin symptoms which have been verified in practice. The proving brings out many symptoms of congestion. Rush of blood to head, face, chest, burning heat and redness of eyes and face, burning, itching and swelling of anus, heat in throat in skin.

Clinical

Anal, disorders. Bed-sores. Breast, ulcerations. Ciliary neuralgia. Coccyx, ulcer. Headaches. Hemorrhoids. Nightmare. Perineum, ulcer. Sternum, pain. Ulcers. Varicose veins. Vertigo.

Modalities

Drinking water helps vertigo with nausea. Worse from touch or pressure, night, motion. Worse during stool. Worse coming into warm room.

Symptoms

MIND

Nervous. Much affected by bad news. Delirium. Excitement. Apprehension in evening with anxiety. Anxious, afraid to talk with any one. Ill-humor. Depression with irritability.

Abdomen

Borborygmi. Gripping pain. Pinching in muscles. Cutting in umbilical region. Colic with diarrhea, transversely across upper abdomen. Sensitiveness, worse along transverse colon and epigastric region. Crawling in abdomen.

Back

Sticking in last cervical vertebra. Pinching or gripping. Boring in left scapula, better motion. Ulcers over sacrum, bed-sores.

Breasts

Ulcer on lower part of left breast, consequent on abscess.

Chest

Sticking pain in left chest. Heat in chest. Dull shooting from chest to back through the heart. Cutting in left side when sitting bent over. Sharp pain in ribs above hepatic region in morning.

Ears

Ringling, roaring in ears. Jerking in cartilages. Sticking outward in right ear. Pinching behind right ear. One ear cold, the other hot. Itching in concha.

Eyes

Burning in eyes. **Eyes** red and watery. Dry and smarting, not easy to open. Burning, itching and dryness of eyes and lids. Conjunctivitis with lachrymation and contracted pupils. Inflammation of left ball with pain as if a grain of sand were under upper lid. Sticking in right upper lid towards inner canthus.

Face

Face red and puffy. Burning heat in face. Crawling in upper lip.

Female

External genitals swollen and painful.

Food

Appetite lost. Thirst.

Head

Rush of blood to head and face. Dullness, heaviness, vertigo and feeling of heat in head. Pain and confusion of head. Gnawing headache.

Boring outward in right temple. Pain in occiput and in nape. Heaviness in occiput.

Heart

Pain beneath the heart as from anxiety. Dull shooting from front to back through heart. Pulse contracted.

Kidneys

Constriction in region of neck of bladder, so that urine passed only in droplets. Frequent and copious urination, disturbing sleep at night. Urination burning and urine scanty.

Limbs

Pain in wrist and fingers, knees and toes. Cramp in ulna at wrist. Weakness of legs inhibiting walking. Jerking and tearing in limbs, then numbness. Weary pain in ankles when sitting. Pain in corns.

Mouth

Tongue red.

Nose

Stoppage of nose: in evening in morning in bed with dryness. Crawling in tip of nose.

Rectum

Excruciating pain at anus, continues long after stools, must rise and walk about. Biting, itching in anus orifice swollen. Anal fissures. Burning in anus, then internal chilliness. Anal fistula, diarrhea with burning and internal chilliness. Hemorrhoids, large and ulcerated. Painful ulcer, oozing offensive moisture on perineum. Ulceration of anus and perineum, purple, covered with crusts. Sudden, pasty diarrhea with faintness in abdomen.

Skin

Sensitive, painful. Ulcers from pressure, bedsores. Ulcers below coccyx, around sacrum, varicose veins. Itching, burning, as from nettles. Painful ulcer, oozing offensive moisture on perineum, near anus. Sensitive ulcers on lower part of body.

Sleep

Terrifying dreams, nightmares. Sleepiness all afternoon. Sleep: restless. Sleep unrefreshing, disturbed by many dreams. Dreams frightful of the death of relatives.

Stomach

Nausea. Vomiting and painful diarrhea. Anxious aching in epigastrium. Periodical sticking upward from middle of epigastric region.

Burning in epigastric region at night.

Temperature

Shivering. Coldness of limbs with (burning) heat in face, back and chest. Heat at night disturbing sleep. Hot skin. Rush of blood to head and face with sweat.

Throat

Swallowing difficult. Biting posteriorly in palate in evening. Hawking caused by tenacious mucus in throat. Scraping in throat. Sensation as if an acrid, burning vapor ascended throat. Heat extending to pharynx in throat and esophagus, worse hawking.

Vertigo

Vertigo when moving. Vertigo on every motion in a warm room. Vertigo with constant reeling and staggering.

Comments

One of the symptoms is this: " A small ulcers on perineum near anus that constantly oozes very offensive moisture, painful for eight days." This symptom has been expanded

by clinical observation, principally Ozanam's into ulceration in general, ulcers from pressure, as bed-sores and from ill-fitting boots.

"Sensation of splinter sticking in skin of right great toe when touched and violent pain as from pressure in left little toe," are guiding symptoms of the provings which put that great prescriber on the right track here. The ulcers are the seat of severe shooting pains.

These observations show the relationship between Peon. and the Hellebores. As the tissues are sensitive to pressure and injury, the mind is also sensitive: "Griping pain in the abdomen, preceded and especially followed, by anxiety, trembling of legs and arms as though he were frightened, he became apprehensive if any one spoke to him and unpleasant news affected him exceedingly."

There is fainting with diarrhea and the stools are followed by intense chilliness, occurring generally a few hours after he felt the worst. The symptoms were worse by motion, by walking. Bad pain in anus compelling him to walk the floor all night or to roll on the floor.

PAGE 1264

The right side is more affected than the left.

Boericke. Clarke. Phatak.

Palladium metallicum

(the metal)

Pharmacy

Pall. Palladium metallicum. Palladium. Trituration. Historical dose: Tincture and all potencies, sixth to thirtieth potency.

History

Palladium, one of the rare metals, was first separated from native Platinum by Wollaston in 1803 and was named after the planet Pallas, which had been discovered just before that time by Olbers. This metal is closely associated with Platinum and gold.

Hering, who made the first provings in 1850, says: Platinum and Palladium, both proved in dust form, showed such similarity in their effects that the question arose whether corresponding differences might be found. These data can only be furnished by frequent use of Pall. in practice.

Clinical experience has done much to distinguish between these two remedies, related as closely in their effects on the human organism as they are closely related in nature.

Palladium is indicated in gynecological conditions where the disease had its inception in the right ovary, the uterine prolapse and retroversion, sub-acute pelvic peritonitis and concomitant symptoms being secondary. (F. Aguilar), **Planets:** Venus.

Homeopathic

Palladium affects the ovaries especially the right, uterus and mind. An ovarian remedy, produces the symptom complex of chronic Oophoritis. Acts also on mind and skin. Motor weakness, averse to exercise. Pains fleeting, transient.

The chief characteristic of Pall. is disorders of the right ovary, attended with pains which are better by pressure. Skinner cured with Pall. A young lady who had excessive pain in the right ovary during the menses. The only relief she could get was by inducing her sister to sit on that region. This better by pressure distinguishes the pain of Pall. from the similar ovarian of plat.

Bruised soreness. Aversion to make any effort to exercise, must lie down. Stitches, rheumatic pains, suddenly changing and often lasting but a short time, soreness as if bruised. Undressing causes itching all over body. Every step causes pain in groin.

Clinical

Constipation. Egotism. Eyelids, margins, blisters on. Headache. Hysteria. Leucorrhoea. Ovaries disorders. Sciatica. Sexual weakness. Uterus, disorders. Warts.

Causations

Ailments from bad news.

Modalities

Warmth helps sciatica, colic, (hot cloths). Better from touch, pressure, diversion. Better by rubbing. Better after sleep, rest, stools. Worse from lively emotions. Worse chagrin, social functions, standing, exertion. Worse after exertion. Worse after social excitement, concerts, etc.

Symptoms

MIND

Effected profoundly by slight offensives, real or imaginary. Love of approbation. Seeks the good opinion of others and attaches great importance to them. Wounded pride and fancied neglect. Weeping mood. Inclined to use violent language. Time passes too slowly. Keeps up brightly when in company, much exhausted afterwards and pains aggravated. Apprehension that something horrible will happen. Ailments from bad news. Feels as if she were going crazy.

PAGE 1265

Abdomen

Flatulency. Shooting pain from navel into breasts or pelvis, better after stools. Hollowness in groins. Coughing, sneezing worse pain in abdomen. Sensation as if

intestines were bitten off. Intestines feel strangulated. Soreness of abdomen, swelling in right groin. Abdomen feels sore after menses.

Back

Tired feeling in small of back. Frequent painful spasm in muscles right side of neck, especially morning. Painful drawing in neck, shoulders and down left arm. Pain in back and hips with coldness of limbs.

Breasts

Sharp, stitching pain in right breast near nipple, worse from deep inspiration.

Chest

Stitches in right side of chest, through to the back, worse from taking a long breath, better when walking in the open air.

Eyes

Blue half-circles under eyes. Dull, heavy pain in and behind left eye. Pustule under right eyelids, worse touch. Pain in right eye, temple and ear. Pain around left eye, extending beyond right eyebrow. Sensation of dryness on the edges of the lids. Small watery blisters on edges of lower lids. Dryness and itching of eyes in evening, which is not better by rubbing.

Face

Sallow complexion. Blue. Itching pimples on the face, the nose, behind the ears in whiskers. Growth of whiskers more slow. Soreness and painfulness of the right corner of mouth. Pain in right and left lower jaw.

Female

Sub-acute pelvic peritonitis with the right-sided pain and backache, menorrhagia. Pelvis leaden heavy, worse standing. Pain and swelling in region of right ovary. Ovarian tumors. Ovarian pains, better pressure. Uterine prolapsed with retroversion. Cutting pains in uterus, relieved after stool. Shooting or burning pain in pelvis. Bearing-down pains, relieved by rubbing. Soreness and shooting pain from navel to breast. Glairy, yellow leucorrhoea before and after menses.

Menstrual discharge while nursing. Menses come on at full moon.

Food

No desire for beer. At dinner and after coffee, headache.

Head

Headache causing irritability and impatience. Headache, better fixing attention on it. Morning headache with weakness in back. Sensation as if head were swung from behind forward, as if brain were being shaken. Temporo-parietal neuralgia with pain in shoulder. Pain across top of head from ear to ear, worse after an evening's entertainment with irritability and sour belchings. Itching on sides of head.

Heart

Pain in region of heart. Pressing deep in the left side of the chest periodical, as if in the heart. **Heart** pain with paralysis of left arm.

Kidneys

Cutting pain in bladder better stool. Bladder feels full but little urine is passed. Pressure in bladder, as if very full. Dark urine with brick-dust sediment or coloring the vessel red. Muddy (not dark) urine, urine like water mixed with blood.

Limbs

Fleeting neuralgic pains in various parts of the body. Itching. Tired feeling in small of back. Fleeting, neuralgic pains in limbs. Heavy and tired in limbs. Darting pains from toes to hips. Rheumatic pain in right shoulder in right hip. Sciatica.

Lungs

Frequent hawking of small solid lumps which he must swallow. When expectorating, sensation as if something were pushed into head. When taking a deep breath, stitches in chest. Coughing and sneezing worse pain in abdomen.

Male

Single stitches in urethra, extending down to corona glandis. Sensation as if testicles were bruised with pain in abdomen. In evening and at night no proper erection could be obtained.

Mouth

Tongue red in the middle (morning). Burning sensation on surface of tongue near tip. Much tough mucus in mouth and slimy taste. Sensation as if upper incisors projecting. Left upper and outer incisor sensitive and feels like a foreign body.

PAGE 1266

Nose

Burning in nose with coryza, evening. When sneezing or coughing, pain in abdomen. Blood pustule right cheek, near wing of nose. Painful pustule on point of nose, bleeds long after being squeezed.

Rectum

Constipation, stools hard, frequently whitish (like chalk). Frequent soft stool. Diarrhea with very little pain, night and day. Dull pains in rectum, as from too long retained stool without urging.

Sensations

As if he had grown taller. As if she could not touch anything. As if head were swung from behind forward. As if brain were being shaken. As if testicles were bruised. As if parts of groins would tear. As if bladder was filled. As if uterus would prolapse. As if neck becoming stiff. As if hand shattered. As if heads if femurs were forced out of their sockets and expanded.

Skin

Itching all over after undressing. Itching and crawling as from fleas on different spots, back, arms, abdomen, thighs, ankles. Redness of knuckles, warts on knuckles.

Sleep

Great sleepiness in afternoon (3 p.m.) and early in the evening. Wakeful until 2 a.m. Starting in sleep afternoon. Dreams, every night of buildings, wide stairs, many rooms. Symptoms better by sleep.

Stomach

Nausea, tasteless belchings, which do not better.

Temperature

Chilliness with cold hands and feet with colic. Coldness of the limbs with pain in the back.

Throat

Tough mucus in throat, slimy taste. Frequent hawking of small solid lumps, which he must swallow. Glairy mucus from throat. Dryness in throat and on tongue without thirst.

Tickling (or sticking) as if a crumb of bread had lodged in throat. Sensation when swallowing as if something hanging near hyoid bone.

Vertigo

Is so tired that he reels on coming into a room.

Comments

Lippe was the first to turn the provings to account and the mental symptoms provided his best guides. The chief characteristic of Pall. in the mental sphere is "Love of approbation," which lays its victim an easy prey to slights real or imaginary and easily gives place to a state of "wounded pride and fancied neglect," irritability which often finds vent in violent expressions.

Such a patient is better in society and worse after the party or entertainment. This state of mind (which differs from the hauteur of Plat.), when found associated with uterine and ovarian disorders, will surely indicate Pall. There is much uterine bearing down and even prolapse.

Many head symptoms were noted and this has been confirmed: "Headache across top of head from one ear to the other." According to Hering the pains of Pall. are fleeting and transient and hard to describe.

Relations

Antidoted by: Chin. (diarrhea), Glon. and Bell. (headache). Complementary: Arg-n., Helon., Lil-t., Apis, Plat.

Paloondo

(gobernadora)

Pharmacy

Palo. Gobernadora. Paloondo. The mother tincture is prepared from the leaves and young branches. Historical dose: Tincture and all potencies, 3x to 30c.

Herbal

Paloondo is a Mexican plant already familiar to the Aztecs.

PAGE 1267

It grows in the dry territories of Northern Mexico in California and in Texas. Dr. Willmar Schwabe introduced it into Europe. Paloondo has been used for different illnesses affecting the locomotor system and especially for arthritic and rheumatic afflictions. At present, there is a patent medicine in Austria known by the name of 'Euretin' indicated for rheumatism and a second: Paloondon Dragees which has the same indication.

A clinical homeopathic proving was first undertaken using 3x and 4x, for cases of muscle pain and polyarthritis with favorable results. A Homeopathic proving was carried out in 1960 by Schutt on two groups of provers. The proving produced few symptoms of rheumatism. **Planets:** Saturn.

Homeopathic

Palo. has allergic complaints, sneezing, face puffy on waking. At times, the pains are accompanied by vertigo. Neurotic pains. The pains are aggravated in the evening, on waking and after mental exertion. Depressive or euphoric condition with excitability.

Nasal allergic syndrome. Nerve and rheumatic pains in the lower limbs and vertebral column. Growth dystrophy of the bones and cartilages. Bone dislocations, fractures and inflammations.

Clinical

Allergies. Colds. Influenza. Migraines. Neuralgia. Osteoporosis. Rheumatism. Sinusitis, Modalities

Better from walking. Worse in the evening, on waking. Worse after mental exertion.

Symptoms

MIND

Tired, stunned, bad-tempered, but more often, euphoric to the point of hyper-excitability. Irritable, extreme sensitive to noise.

Female

Menses early and painful.

Food

Anorexia.

Head

Acute pains in the head. Drawing pains coming from the occiput and spreading across the top of the head to the eyes. Occipital neuritis.

Heart

Heart beat irregular with extra systole.

Limbs

On waking, pains in the limbs and the back, better by moving. Feeling of lead weight in the legs. Sensation of cracking. Pricking sensation in the limbs. Iliac and sacral pain, worse by being seated or lying down. Ameliorated by walking.

Rectum

Foul smelling, constipation or diarrhea.

Skin

Dry eczema. Redness with sensation of heat. Dryness of the skin with itching.

Sleep

Dreams lively, especially in people who do not usually dream at all, but dreams also anguished.

Stomach

Nausea, especially in morning. Distention. Cramping abdominal pains.

Temperature

All the provers experienced a febrile influenza-type condition. Shivering, as at the onset of influenza.

Compare

(1) Rhus-t. - Generalized stiffness with physical and cerebral restlessness.

(2) Eup-per. - Generalized stiffness and sensation of cracking with pains between the bones.

(3) Asarum Europ.

(4) Theridion - Intolerance of the slightest noise.

Pancreatinum

Pharmacy

Panc. Pancreatinum. Extract of pancreatic glands of Ox or Sheep. Trituration. Historical dose: All potencies.

History

Pancreatinum has been used with success in conditions due to disease or faulty action of the pancreas on the analogy of Thyroid in and the other Sarcodes. Burnett says

Pancreatinum is often of great service in gout. **Planets:** Jupiter.

Homeopathic

Pancreatinum is a combination of several digestive enzymes. It is indicated in intestinal indigestion, pain an hour or more after eating. Lienteric diarrhea. Diabetes, pancreatic. Diarrhea. Mumps. Gout. Pancreas, disease.

Compare

(1) In action on pancreas and salivary glands, Ir-v., Nux-v., Puls., Merc., Iod., Jab., Pilo.

SOURCES

Boericke. Clarke.

PAGE 1268

Paraffinum

(purified paraffin)

Pharmacy

Paraf. Paraffinum. Paraffin. Trituration. Historical dose: Tincture and all potencies, lower triturations to thirtieth potency.

History

Paraffin as a generic term includes all those substances which have no affinity for Sulphuric Acid and cannot be destroyed by it, Petroleum itself coming within this designation.

Specifically Paraffin is a tasteless inodorous, fatty matter, which resists the action of acids and alkalis, obtained by the dry distillation of wood, peat, bituminous coal, petroleum, etc. In the distillation of Petroleum, Naphthalin is the first substance that comes off, Paraffin is the next.

The homeopaths of Rome have found it serviceable in uterine and other troubles, particularly constipation. **Planets:** Moon.

Homeopathic

Paraffin is valuable in uterine disorders. Particularly serviceable in constipation. Knife-like pains. Pains extend from one part to another and alternate. Pain in stomach alternates with pain in throat and spine. Aversion to tobacco, smoking causes pain in stomach.

Palpitations accompanies stomach pain.

A number of pains were experienced in the groins, stabbing in mons veneris, cutting pain from one iliac crest to the other. Along with these pains there was leucorrhœa, pruritis vulvæ and other disturbances of the female generative system.

Clinical

Abdomen, swelling. Breasts disorders. Constipation of children. Diaphragmitis. Indigestion. Leucorrhœa. Menorrhagia. Musca volitantes. Spinal pain. Spleen, pain. Umbilicus, pain. Uterus disorders. Vertebrae disorders. Vision, disorders.

Modalities

Better after sleep. Better after rest. Better by supporting the part. The pains are worse bending over. Worse standing or walking, (these soon bring back the symptoms).

Symptoms

Abdomen

Pain in lower abdomen, extending to genitals, rectum and coccyx, better sitting.

Back

Drawing and stinging between the shoulders. Pains in spine, extending into lumbar vertebra. Back pains are worse by bending. Pains in spine as if it had been injured, as bad during rest as when in motion. Pains as if from fatigue in both loins.

Breasts

The nipple is painful on touching them, as if sore inside.

Chest

Stinging in chest. Chest pains as if compressed. Diaphragm, as if it was inflamed.

Ears

Roaring in right ear like rumbling of a mill wheel, afternoon. Gurgling in left ear like beating of pulse. Ringing in both ear, morning. Stinging and twisting in left ear.

Eyes

Vision dim, black specks before. Lids red. **Sensation as if there were fat on the eyes.**

Face

Itching in face as from urticaria, smooth red spots appear.

Female

Menses too late, black, abundant. Milky leucorrhœa. Nipples pain when touched, as if sore inside. Stabbing pain in mons veneris. Very hot urine with burning pains in vulva.

Head

Left side of head and face suffer most, pains stinging and twisting. Pain as if a nail were driven in left side of vertex. Twisting in left ear.

Heart

Pulse weak, thready, increased in frequency.

Limbs

Pain in spine extending to inguinal region and in both loins, when ascending the stairs. Feeling of electric shocks in all joints. Wrenching pain in calves, extending into toes in joints. Feet swollen with tearing in ankles and soles.

Mouth

Tearing, twisting pain in teeth down to lower jaw. Full of saliva, feels sticky, bitter taste.

Nose

Odor of cordials in nose. Nose moist, frequent desire to blow it, but without sneezing.

Blood from nose of a dark red color.

PAGE 1269

Rectum

Frequent desire for stool. Obstinate constipation in children. (Alum., Nyctanth.) Chronic constipation with hemorrhoids and continual urging to stool without result.

Skin

Burns, even of third degree with sloughing and sepsis. Wash with sterile water and dry and spray with paraffin and cover with thin layer of cotton. Useful also in frost bites.

Sleep

Continued yawning, although the joints of the jaw are painful. Frequent gaping with great somnolence. Cannot keep awake and goes to sleep in her chair, her feet go to sleep.

Sensual, lascivious dreams.

Stomach

Hungry all the time. Pain across stomach. Pain in stomach alternates with pain in throat and spine, extends to chest with belching. Fixed pain in left hypochondrium, as if parts were being twisted. Palpitation with stomach pains.

Teeth

Tearing in teeth. Stabbing pain in one of the left lower molars. Twisting in teeth with stinging in ear. Twisting pain in left lower teeth and left temple, sleep impossible.

Temperature

Chill, heat, and sweat frequently alternating. Chill, followed by dry heat with thirst, which is soon followed by sweat. Face and hands hot and red, hot sweat on upper part of body, especially forehead.

Throat

Dryness of throat, fauces as if dried up, but without thirst. Sense of suffocation in pharynx.

Comments

The symptoms of the proving, which was made on persons of both sexes, are very striking. The pains are: knife-like stabs, twisting, wrenching pains, stinging and twisting, electric pains. The pains extend from one part to another and alternate. Pain in the stomach alternates with pains in throat and spine.

Clarke recorded this case: Mrs. W., 37, mother of three children, suffered since last confinement, five years before with bearing-down pains, excessive menses, leucorrhoea.

Constant and violent indigestion with morning retching or vomiting. Pain in back, shoulders and abdomen after, any food, however light. The pains, which "double her up," are worse on standing. Much thirst. Constipation with hemorrhoids. Constant desire to pass water.

After Murex and Alston had given some relief, the indigestion returned in full force. A few globules of Paraf. 30c were dissolved in water and a teaspoonful taken every two or three hours. In a few days all symptoms of indigestion were gone and did not return.

Other symptoms were ameliorated. The menses instead of recurring too soon were delayed much beyond the normal time.

Paraf. has a remarkable action in joints with nodules. Cooper has seen swollen joints lessen considerably from its use as a liniment.

Parathyroidinum

Pharmacy

Parathyr. Parathyroid hormone. Historical dose: All potencies, 3x and 30c.

History

Parathyroid secretion plays an important part in phosphorus and in the regulation of calcium in the blood. The hypercalcemic parathyroid hormone was first isolated in 1925 by Hansen. The hypercalcemic parathyroid hormone increases the level of calcium in the blood, reduces the level of calcium in the urine and increases the amount of phosphorus in the urine. More recently, experimental results have indicated the existence of a parathyroid secretion whose action diminishes the level of calcium in the blood.

It was the clinical syndrome of the primitive hyperparathyroid hormone which drew Fouche's attention to establishing a homeopathic symptomatology. Primary hyperparathyroidism is explained by:

PAGE 1270

(1) an osseous syndrome whose clinical manifestation is expressed by pain in the bones, aggravated by standing or walking and also expressed by spontaneous fractures, swelling in the bones and bone deformities.

In radiology, one can observe: abnormal transparency of the skeleton, the cortex of the long bones is decalcified, the medullary canal is enlarged and these signs are especially present in the hands and jaws. Cavities can also be seen, again, primarily in the hands and jaws, as well as tumors, which enlarge the bones by pushing back the periosteum.

(2) The extra-osseous syndrome occurs in 40% of the cases. It is characterized by: Its effects on the urinary organs, polyuria, kidney stones and nephrocalcinosis. Its effects on the digestive system with anorexia, post-prandial epigastric pains and constipation. Also gastric atony and ulcers in the low duodenum. Its effects on the heart muscles with palpitations, tachycardia and shortening of the Q. T. interval on the electrocardiogram. Its effects on the muscles with asthenia and muscular hypotonia. Its psychological effects with depressive tendency and mental confusion.

(3) The syndrome is characterized by an increase of calcium and reduction of phosphorus in the blood, as well as an increase of phosphates in the urine and an increase of the alkaline phosphate-liberating enzymes. Fouche' noticed that the removal of the

parathyroid gland improves the condition of patients with chronic ankylosing rheumatism, but only temporarily.

Secondary Hyperparathyroidism can occur as a defense reaction by the organism, which aims to maintain the normal level of calcium in the blood. The level can become reduced as a result of: (1) a diminution in the calcium deposits in the bone or disorders of alimentary deposits or because of absorption complaints. (2) destruction of the skeleton following osseous carcinoma or myeloma.

(3) kidney infections, malfunctioning, glomerulonephritis, tubular nephritis, idiopathic increase in the level of calcium in the urine.

Homeopathic

Parathyr. has general weakness. Depression. Asthenia. Fatigue. Pallor. Emaciation. Hypomania. Belated gastric attacks. Polyuria. Hematuria. It has an increase in the level of calcium and reduction of phosphorus in the blood increase in the alkaline phosphate liberating enzymes.

Pains in the thorax, lumbar region and lower limbs. Demineralization of the bones. Osteoporosis. Diffuse pain in the bones, especially in the long bones. Chronic rheumatism. Arthritis of the wrists, ankles, knees, hips. Tabes. Paresis of the limbs. Walking painful, difficult, dragging. Myasthenia gravis. Muscular hypotonia. Paget's disease.

Clinical

Arthritis. Bone, disorders. Calcium deposits. Chilblains. Emaciation. Fibrocystic osteitis. Hematuria. Kidney stones. Multiple myeloma. Muscular hypotonia. Myasthenia. Osteogenesis imperfecta. Osteoporosis. Paget's disease. Pancreatitis. Polyuria. Rheumatism. Tabes.

Constitutions

Syphilitic condition in a phospho-fluoric type. **Planets:** Saturn.

Symptoms

MIND

Mental confusion. Agitation. Depression. Hypomania.

Abdomen

Slow digestion, eructation of gas. Gastric and duodenal ulcer. Chronic pancreatitis.

Back

Weakness and curved spine. Strong pain in the lumbar region, spreading towards the bladder and thigh, tenesmus of the bladder with occasional vomiting.

Blood

Increase in the level of calcium in the blood. Reduction in the level of phosphorus in the blood. Increase in the alkaline phosphate-liberating enzymes.

Eyes

Scleritis.

Face

Pale face.

Female

Dysmenorrhea and rare menses. Uterine fibromyoma.

Food

Anorexia.

PAGE 1271

Heart

Palpitations and tachycardia. Precordial pains. Inflammation of the coronary arteries. Infarction of the myocardium.

Kidneys

Calcium deposits in the kidney parenchyma. Polyuria and hematuria. Disorder of glomerular clearance and urea clearance. Calcium kidney stones. Increase in the level of calcium in the urine with or without an increase of calcium in the blood.

Limbs

Diffuse pains in the bones, especially the long bones. Pains in the bones, aggravated by standing and walking. Deformity of the fingers. Bones sensitive to pressure. Paget's disease. Demineralization of the bones. Painful post-traumatic osteoporosis. Fibrocystic osteitis. Osteogenesis imperfecta. Painful non-inflammatory lesion of the bones.

Chilblains.

Mouth

Caries and arthritis of the tooth sockets.

Rectum

Atonic constipation or frequent stools, abundant, whitish and fetid.

Skin

Strumous edema of the legs. Varicose ulcer.

Stomach

Gastric acidity. Painful after-meals gastric attack. Sickness of pregnancy. Stomach and duodenal ulcers. Vomiting of blood.

Compare

(1) Calc., Calc-p., Calc-f.

(2) Syphilinum - Nightly linear pains in the bones, loss of memory, especially of proper nouns, obsessions.

(3) Astragalus Escapus - Confused state, paretic weakness of the limbs.

(4) Mezereum - Periosteal pains at night, worse in cold, damp weather.

SOURCES

Julian.

Pareira brava

(virgin-vine)

Pharmacy

Pareir. Pareira brava. Virgin vine. Cessampelos pareira. Velvet Leaf. Chondrodendron Tomentosum. N. O. Menispermaceae. Tincture of fresh root. Historical dose: Tincture and all potencies, tincture to third potency.

Herbal

Pareira is a climbing plant, a native of the West Indies, Central America and India. The root has a traditional use in diseases of the bladder and urinary organs. **Planets:** Venus.

Homeopathic

Pareira affects the genito-urinary organs and left side. It is useful in kidney colic, prostatic disorders and catarrh of bladder. Sensation as if bladder were distended with pain. Pain going down thigh. Cartilaginous induration of mucous membranes of the urethra and bladder.

Constant urging to urinate, violent pain in the glans penis and down the thighs during efforts of urination, must get on knees and hands pressing head firmly to the floor to urinate. Kidney colic, enlarged prostate with retention of urine and catarrh of the bladder. Dysuria. Urine contains thick, stringy, white mucus or red sand.

Clinical

Bladder, catarrh. Calculus. Dysuria. Gonorrhoea. Leucorrhoea. Prostate, enlargement. Kidney colic, Urine, slimy.

Symptoms

Back

Excruciating pains in left lumbar region, pain radiates from left kidney to groin, following course of ureter.

Bladder

Itching along urethra. Feeling of the bladder being distended. Almost cartilaginous induration of mucous membrane of bladder. Can emit urine only when he goes on his knees, pressing head firmly against the floor.

Kidneys

Dribbling after urination. (Sel.) Bruised pains in region of kidneys. Constant urging, great straining, pain down thighs during efforts to urinate. Urethritis with prostatic trouble. Painful urination since confinement cannot urinate in any position except on hands and knees.

Limbs

Dropsical swelling of feet and legs.

Lungs

Viscous matter lodged in and obstructing bronchi.

Male

Urethritis with prostatic disorders. Severe pain when urinating and discharge of mucus from urethra. Violent pain in glans penis. Gonorrhoea.

Enlargement of prostate glands with retention of urine, pains extending down thighs.

PAGE 1272

Urine

Urine smells strongly of ammonia and contains a large quantity of viscid, thick, white mucus. Black, bloody, foaming urine, depositing a brick-dust sediment of uric acid, deep red and mucous urine.

Comments

A short proving by C. M. Fox of Denver, Colorado, brought out some characteristic symptoms which have been clinically confirmed.

Among these are: Violent pains with strangury, must go on "all-fours and press head against floor to pass water at all. Urethritis with severe pain when passing water and discharge of mucus from urethra. Pains down thighs and even to feet when attempting to pass water. Violent pain in glans penis" with the straining.

Fox relates two cases of prostatic enlargement with dysuria in which Par. gave complete relief. (I) Man, 68, old prostatic affection, constant urging with entire inability. Feet and legs much swollen, had to be put in a warm bath before catheter could be passed. Only on hands and knees with forehead pressed on the floor, could he pass a few drops of scalding urine.

Par. b. I x gave rapid relief. Swelling disappeared from legs and he was able to resume his business and continue at it for ears.

(2) Enlarged prostate with retention, severe attacks two or three times a years, when he would have to have the urine drawn off for a week or two. After using Par. b. the catheter was not required more than twice in two years. When he feels the symptoms coming on a few drops of Par. b. relieve him at once. Many other remedies had been used in vain before Par. b. was prescribed.

Compare

(1) Parietaria.

(2) Chim. - chronic catarrhal congestion following cystitis, acute prostatitis, feeling of a ball in perineum when sitting.

(3) Fabiana, see Pichi - dysuria, post-gonorrhoeal complications, gravel, bladder catarrh.

(4) Uva., Hydran., Berb., Ocim., Hedeom.

(5) Cocc.

(6) Spasm and burning in bladder, ropy urine, Chim., Uva ursi.

(7) Prostatic affections, Hydrang., Sabel serrulata.

(8) Kidney colic, Oci., Berb.

(9) Dysuria - Berb. has pain in back extending to hips, Par. b. has pain extending to thighs and even toes. Berb. urine lacks the ammoniacal smell of Pareira.

(10) Dribbling urine after urination, Sel.

Parietaria officinalis

(pellitory-of-the-wall)

Pharmacy

Pariet. *Parietaria officinalis*. Pellitory-of-the-Wall. N. O. Urticaceae. Tincture of fresh plant. Historical dose: Tincture and all potencies.

Herbal

Pariet. Belongs to the nettles. It grows on old walls and its ashes contain alot of nitre (Kali-nit.). **Planets:** Venus.

Homeopathic

Cooper has used it with success in a case of kidney stones and in one case it produced nightmare, the patient dreaming of being buried alive in the midst of ruins.

Clinical

Kidney stones. Nightmares.

Compare

(1) Urt. urens, Kali-n.

SOURCES

Boericke. Clarke.

Paris quadrifolia

(one-berry)

Pharmacy

Par. Paris quadrifolia. One berry. True Love. Herb Paris. N. O. Trilliaceae. Sometimes considered a sub-order of Smilacaceae or of Liliaceae. Moist, shady woods in Great Britain. Tincture of whole plant when in fruit. Historical dose: Tincture and all potencies, third potency.

History

Paris betrays its relation to the Lilies and Arums in the symptoms of irritation which it causes in mucous membranes and the skin with burning sensations and cramps.

PAGE 1273

The Treasury of Botany says of Paris that the leaves and stems were "formerly used in medicine, the juice of the berry, though considered poisonous, has been employed in curing inflammation of the eyes."

The provings made by Hahnemann, Stapf and others, bring out a very marked and characteristic action on the eyes and develop some of the keynote symptoms of the drug.

Paris is one of the drugs which are credited with producing garrulity, vivacity with love of prattling like tea. A case of loquacious insanity cured with Paris 3c was recorded by B. Nath Banerjee. **Planets:** Moon.

Homeopathic

Paris affects head, spine, eyes and one side. The head symptoms are marked and verified. Sensation of expansion and consequent tension. Coldness of right side of body, left hot. Catarrhal complaints, stuffed feeling at root of nose. Disorder of sense of touch.

The characteristic mucous secretions are green and tenacious. The diarrhea stool smell like putrid meat. There is great sensitiveness to offensive odors, also imaginary bad smells: milk and bread smell like putrid meat. The eyes give out of fetid, ulcer-like smell. Paris has "hunger soon after a meal," which is the same thing as the "sinking" of the anti-psorics and of the Hellebores, Veratrums, etc.

Sensation of heaviness, numbness, parts feel too big or drawn together. Disorder of sense of touch, objects feel rough. Coldness of right side of the body while left side was hot. Whole body painful especially when touched. Mucus secretions are green and tenacious. Sensitiveness to offensive odors. Broken feeling of joints. The scalp is very sensitive to touch. Pressure on a sore spot on head causes cries.

Clinical

Acidity. after-pains. Brachial neuralgia. Ciliary neuralgia. Ciliary paralysis. Digestion, weak. Gonorrhoea. Headache. Hiccough. Hoarseness. Hysteria. Mania. Neuralgia. Panaritium. Paralysis. Saliva, sour. Spine, affection. Touch, sense, disordered.

Causations

Ill effects of injury, suppressions.

Modalities

Better from rest. Better by belching. Better from pressure, belching. Worse from thinking of problems. Worse eye strain touch. Worse from mental exertion, thinking. Smoking tobacco causes headache. Worse hiccough, eating.

Symptoms

MIND

Loquacious mania. Garrulous, prattling, vivacious. Inclination to treat others with rudeness and contempt. Imaginary foul smells. Silly conduct. Feels too large.

Abdomen

Rumbling and rolling in abdomen, cutting, griping pains. Tensive pain throughout abdomen. Hard pressure in abdomen. Incisive drawing and boring in one side of abdomen.

Back

Weight and weariness in nape of neck. Stitches in coccyx on sitting. Violent pain on both sides of neck extending down to fingers worse mental exertion.

Chest

Aching in the right side of chest. Shootings in chest and sides of chest.

Ears

Pain as if the ears were pressed out or forced apart by a wedge, worse swallowing.

Eyes

Affections of the eyebrows. **Eyes** as if they were projected. Sensation of a string through eyeballs. Expanded, as though lids did not cover. **Eyes** feel too large and heavy.

Face

Neuralgia, hot stitches in left malar bone, which is very sore. Has relieved in inflammation of the antrum, where eye symptoms co-existed. Seems drawn into root of nose. Neuralgia, hot stitches in malar bones.

Female

Premature menses. Intense after-pains. Suppressed lochia with ineffectual urging to stool. Increased sexual desire.

Food

Voracious appetite. Hunger very soon after a meal.

Head

Chronic headaches. Headache worse by thinking. Sensation as if scalp were contracted and bones scraped. Soreness of top of head, cannot brush hair. Headaches as from pulling a string from eyes to occiput.

Occipital headache with a feeling of weight. Head feels very large, expanded. Numb feeling on left side of head. Scalp sensitive, cannot comb hair. Left side numb.

PAGE 1274

Limbs

Sense of weight and weariness in nape of neck and across shoulders. neuralgia, beginning in left intercostal region and extending into left arm. Joints, feel broken, swollen or dislocated at every motion. Arm becomes stiff, fingers clenched. Neuralgia of coccyx, pulsating, sticking, when sitting. Fingers feel numb. Numbness of upper limbs. Everything feels rough.

Lungs

Stuffed condition and fullness at root of nose. Periodical, painless Hoarseness. Cough as from vapor of sulphur in trachea. Constant hawking, on account of viscid, green mucus in larynx and trachea.

Mouth

Tongue feels too large. Tongue dry when awaking, Coated white without thirst with bitter or diminished taste.

Nose

Imaginary foul smells. Bread, fish, milk smell putrid.

Rectum

Frequent but scanty evacuations of the consistence of pap. Loose, fetid evacuations, which smell like putrid flesh.

Sensations

As if scalp were contracted and bones scraped sores. As if a thread were drawn tightly through eye to middle of head. Ear as if forced apart by a wedge, as if pressed out or torn out, as if a burning heat was rushing out of ears. Tongue feels too large. Ball in throat. Throat constricted. Stone in stomach. As if internal parts contracted. Heavy load on nape. Fingers as if asleep, dead. All joints as if broken, swollen or dislocated at every motion.

Skin

Painfully sensitive.

Stomach

Heavy as from a stone, better by eructation. Weak digestion. Red curved streak above navel.

Temperature

Unilateral coldness or heat. Heat descending the back from the neck.

Throat

Periodical painless hoarseness. Hawks up tough green mucus. As of a ball in the throat. Burning in, when eating and drinking.

Vertigo

Vertigo on reading aloud.

Comments

Sensation of expansion and consequent tension. The head feels as if distended and the scalp too tight. The eyes feel as if much too large for their sockets, as if they were projecting and were being drawn tightly backward by a string to the middle of the brain.

Mrs. B., 45, suddenly become loquacious and insane. After a month of Kavirajee treatment without benefit she came under my care, October 3, 1893. A year before, the last of her five children, a grown-up son, died and she could not be consoled and gradually became morose and dull. She ceased to menstruate in February, 1893, but had no uterine troubles or any other illness previous to the present.

The symptoms were: Loquacity, but not continuous. Every three or four days, if interfered with, maniacal attacks lasting about half an hour. At times foolish behavior. With difficulty Banerjee obtained the following symptoms from the patient:

Vertigo and whenever she thinks of her lost son, severe headache, the vertex being sensitive to touch. When telling these symptoms, suddenly her looks became wandering and her eyes appeared as if protruding from their sockets.

She could not relish her food because everything, especially fish, smelt putrid. Whole body painful, especially when touched. She complained of a ball lodging in the throat and

giving her trouble with burning. Acidity and badly smelling diarrhea. A peculiar feeling of coldness of right side of the body while the left side was hot. All symptoms worse in evening and on motion.

Ign. 30c and later 200c, was given without any effect. Paris acted promptly and one the third day the patient assured the doctor that she was quite well. The remedy was not repeated and the cure held good.

PAGE 1275

Paris is in general a left side remedy, but it has coldness of the right side, while the left side is natural or hot.

Clarke cured with Paris "numb feeling of left side of head." Numbness affects the upper limbs. The left arm is paralyzed, and it feels stiff with fingers contracted. "Numbness and prickling in left hand" was removed in a case of spinal affection. "Fingers often feel as if asleep, objects seem rough to touch." This disorder of the sense of touch is a marked symptom. At the same time there is great sensitiveness of the surface. Hot stitches in left malar bones. Acidity, sour saliva.

Paronychia illecebrum

Pharmacy

Paro-i. Paronichia Illecebrum. Tiangius Pepetla. Sanguinaria of Cuba. Illebraceae or Paronychiaceae family. The mother tincture is prepared from the whole fresh plant. Historical dose: Tincture and all potencies, 3x to 30x.

Herbal

This plant belongs is a very close relation to the Caryophyllaceae, which gives the saponarias to the Materia Medica. The only difference between the two is that the Paronichia Illecebrum has small greenish flowers and a fruit called achene.

Paronichia Illecebrum is a grass whose trailing stem has branches, oblong pale green leaves and capitate flowers. It has been possible to isolate triterpenic saponosides, coumarines and flavonides. The homeopathic proving was established by Manuel M. De Legarreta. **Planets:** Moon.

Homeopathic

Paro-i. has fever, dry, oppressive heat and symptoms of catarrh. The patient wants to uncover himself all the time. When lying on his side, he can no longer move, feels weary, weak and sleepy. High fever. Feeling of emptiness in the brain and doubling of personality. Acute congestion of the nerves, lungs and blood vessels. Involuntary passing of stools and urine. Encephalitis in eruptive juvenile diseases. Poisoning of the nursing child.

Clinical

Angio-hematic typhus. Appendicitis. Bronchial pneumonia. Encephalitis. High fever. Infectious diseases. Pleurisy. Pneumonia. Rhinitis. Septicemia. Sinusitis. Typhoid fever. Typhus.

Modalities

Worse from movement or the slightest effort. Worse left side, but not exclusively.

Symptoms

MIND

Calm, tranquil state of mind. Doubling of personality. Feeling that there are two different people inside him, who contradict each other and argue about their illness. (Anac.) Sleepy and in a semi-awake state. Nervous weakness.

Abdomen

Rumbling in the right iliac cavity. Gas difficult to expel. Acute inflammation of the gall bladder and biliary passages. Sub-phrenic abscess. Chronic appendicitis.

Chest

Chest painful. Shooting pains in the left intercostal region. Thoracic pains when changing position. Dyspnea with intercostal pains.

Ears

Outer ear hot and painful. Auditory canal dry. Hears well. Discharge of a hot, excoriating serum from the left ear, forming crusts which, when scratched, bleed easily. Acute congestive otitis.

Suppurating inflammation of the ear-drum. Mastoiditis.

PAGE 1276

Eyes

Eyes look sad. Eyes blood-shot, red, tearful. Blepharitis. Eyelids heavy, burning with need to refresh them. Conjunctivitis.

Female

Hemorrhaging endometritis. Menorrhagia or metrorrhagia during the menopause with violent headaches. Cancer of the uterus.

Food

Thirsty for water, which is vomited as soon as it is absorbed. Thirsty for ice-cold water with stomach, as if burning.

Head

Acute pain in the temples, as if compressed by an iron helmet. If he moves his head, he hears a rush of water. Scalp very painful, cannot tolerate combing.

Heart

Pulse violent, full and bounding. Violent heart beat, which resounds in the ear and is annoying. Myocarditis. Pericarditis.

Kidneys

Acute glomerulonephritis. Urine dark but copious. Involuntary urination. Hematuria. Dysuria with tenesmus with involuntary passing of stools.

Lungs

Painful cough with great difficulty in expectorating and desire to vomit. Bronchial crepitant rales, abundant expectoration, sputum frothy, rusty or blood-streaked. Pleurisy. Bronchial pneumonia. Pneumonia. Abscess on the lung. Pulmonary gangrene.

Male

Prostatic congestion with tenesmus and burning during urination. Prostatic adenoma.

Mouth

Tongue pasty, covered with a yellow-white coating. Mouth dry tongue coated, rough. Taste of copper in the mouth. Saliva thick and dark yellow. Teeth covered with thick, yellow tartar. Cracks at the corners of the lips. Lips chapped. Breath fetid, putrid, nauseating.

Nose

Loss of sense of smell. Nostrils blocked by crusts. Light nosebleeds. Ozaena. Rhinitis. Sinusitis.

Rectum

Involuntary intestinal evacuation and fetid odor. Rectal hemorrhaging.

Diarrhea with greenish stools, smelling of sour milk. Perianal burning with anal excoriation and anal trickling.

Skin

Petechial exanthema on the backs of the hands. Copious sweating, especially from the groin and armpits. Pressure sores. Sweating with excoriation of the skin which forms wounds. Rheumatoid purpura. Hyperglobulinemic purpura. Infectious purpura.

Sleep

Sleepy and in a semi-awake state.

Stomach

Nausea. Acridity, bringing up of air and food. Acute gastritis.

Temperature

Temperature between 39.5°C and 41°C. Copious sweating, smelling of curdled milk.

Compare

- (1) Anac. - Clouded mental state, feels as if he had two opposed wills, headaches, nausea, vomiting, amelioration by eating.
- (2) Bapt. - Prostration with putrid odor of all discharges. Feeling of painful cracking in the muscles. Putrid smell of breath. Diarrhea is fetid, sometimes involuntary.
- (3) Anthr. - Septic infections, burning pains, prostration rhaging from the orifices or black blood, which decomposes rapidly.

(4) Ars. - Prostration, agitation, anxiety about death. Burning pains, with burning diarrhea, peri-anal excoriation, oppression, palpitations, worse between midnight and 3 a.m.

Parotidinum

Pharmacy

Parot. The nosode of Mumps. Historical dose: All potencies.

History

Parotidinum has been used as a prophylactic against infection by mumps. Parotidinum is generally given in the 6c or 30c two or three times a day to those exposed to infection. In the disease itself it may be given every four hours, either by itself or alternated with other indicated remedies. **Planets:** Moon.

Homeopathic

The well-known complications which sometimes occur with mumps, cerebral inflammation and orchitis suggest its possible use in these conditions.

Parthenium hysterophorus

(bitter-broom)

Pharmacy

Parth. Bitter-broom. Parthenium hysterophorus. Escoba amargo. N. O. Composite, Synanthereae, tribe Helianthee. The dry plant is macerated in five parts by weight of alcohol. Trituration of solution of the alkaloid Parthenia. Historical dose: Tincture and all potencies.

Herbal

A Cuban remedy for fevers, especially malarial. An alkaloid Parthenia was isolated by C. J. Ulrice of Havana and Dr. J. L. Duenas published experiments with this on the human organism and on animals.

In the proving the pains were sudden, congestive, out-pushing. A large number were experienced in the head and ears and ringing and fullness in the ears was among them, which points to its antidotal action towards Quinine.

Fornias adds this case: His niece, 5, living in Havana, had been suffering from a continued fever with periodical midday exacerbations, which later on assumed an intermittent form.

She had been saturated with Quinine and complained at the time of malaise, lassitude, headache, gastric intolerance, etc., when she was seen by Dr., Govantes, who prescribed an extract of Parthen. hyst., three doses a day, each the size of a pea. In four or five days she was free from fever and made a quick recovery. **Planets:** Moon.

Homeopathic

Parth. has heaviness and dullness of head, tendency to vertigo, malaise, apathy, lassitude, profuse and very fluid salivation. Sensation of heat and weight in the stomach. Increased appetite, gastric intolerance, nausea and vomiting.

Increased stupor, desire to be quiet, refusal of food and indifference. Increased flow of milk. Amenorrhea and general debility. Cheyne-Stokes breathing. After-effects of quinine.

Clinical

Amenorrhea. Cheyne-Stokes breathing. Debility. Dyspepsia. Ear disorders. Fainting. Fevers. Headaches. Liver, pain. Milk increased. Miscarriage. Neuralgia, periodic. Salivation. Spleen, affection. Toothache. Vision, disordered.

Modalities

Better after rising and walking about. Worse after sleep. Worse by sudden motion.

Symptoms

MIND

Feels dull and stupid. Difficult to fix attention. Malaise, apathy, lassitude. Indifference.

Abdomen

Spleen disorders. Spleen painful to pressure, pain in right side, worse in some parts than in others with shiverings. Severe pains in the left hypochondrium with tertian fever. Loud rumbling in bowels, about navel. Slight colicky pains at navel. Colic deep in pelvis, pains run down backs of thighs to knees.

Breasts

Great increase of milk in breasts of nursing women cured with Parthenia of intermittent fever.

Ears

Tinnitus and pain in ears. Ringing in ears, worse left. Sharp pain in ears. Stitching at lobe of left ear, deep in and above external auditory meatus. Dullness and aching in ears, coming suddenly. Stabbing pain in left ear.

Eyes

Disordered vision. Eyes heavy, drowsy. Aching in eyeballs. Must look intently to see the words, when writing the letters seem pale and eye ache. Aching over eyes, wants to close them.

Face

Bursting pain in right malar bone. Seems as if bloods would burst through face. Aching pains run up from above left eye-tooth to eye and over face, occurs by starts and stops.

Female

Given to pregnant women for fevers. It has caused miscarriages and premature deliveries.

Cases of sub-acute tuberculosis, it restored the menses, which had been absent since the illness commenced.

PAGE 1278

Head

Headaches, extending to nose, feels swollen, pain in frontal eminence. Pain at root of nose, feels swollen. Heaviness and dullness of head. Full feeling in vertex, pressing from within. Stitching pain in left temple of short duration. Aching pain at left supra-orbital foramen.

Heart

Excitation of heart-beat or slow heat. Progressive slowness of pulse, followed by syncope, cardiac paralysis and death. Pulse slow, soft compressible.

Kidneys

Kidneys enlarged and congested. Increased urine.

Limbs

Pains run from pelvis down backs of thighs to knees. Marked diminution of reflex in hips and extinction of voluntary movements.

Lungs

Slow, irregular, breathing. Cheyne-Stokes.

Mouth

Tingling in tip of tongue. Profuse, very fluid salivation.

Nose

Pain at root of nose and in nose in all bones of nose, worse left. At root of nose stuffed feeling as with dry coryza. Nose feels swollen and tender to touch. Aching in bridge of nose (worse left side) and of upper left molars. Aching at end of nose, which feels full of blood.

Rectum

Stabbing pain runs up rectum after passing flatus. No desire at usual time, 10.30 p.m. mushy stool.

Sleep

Restless night, wakes at 3 and 4 a.m. , then dozes and dreams until 7.30. Increased stupor, desire to be quiet.

Stomach

Emptiness sensation in epigastrium, hunger. Irrepressible, tasteless belchings. Belchings tasting of the drug. Heat and weight in stomach.

Teeth

Aching in teeth. Teeth feel on edge too long. Upper teeth, pricking pains in sockets. Sharp aching twinges in upper molars. Upper incisors tender at sockets when biting.

Temperature

The rise and fall of temperature, shivering, diminished perspiration.

Vertigo

Vertigo, whole sitting with heat of face and blurred vision.

Comments

Dr. B. H. B. Sleight proved increasing doses of the tincture and later on of 6x, which reproduced most of the symptoms of the first proving. Dr. Ramirez Tovar has reported these cures by Parthenia:

(1) A lady living in the lower part of the city, where the rain leaves channels of infection, had daily attacks of intermittent, more intense each day. One grain of the alkaloid was divided into six powders, one every hour after the attack. No further attacks. The patient was nursing at the time and she noticed a marked increase of milk in the breasts. Half a grain divided into five doses completed the cure.

(2) A tailor, 30, moved to lower part of the city and contracted tertian intermittent, the fourth seizure being attended with much pain in left hypochondrium. One grain in five doses cured, though the conditions were unchanged. (The removal of this left hypochondriac pain is important in connection with Burnett's experience with Helianthus.)

(3) Girl, 6, lymphatic, living near the harbor, ill for seventeen days with malaise, loss of appetite, sleepiness and fever. She had Quinine internally and externally and was wasting visibly. The alkaloid, aided by a tonic wine prepared from the extract of the plant, cured

(4) Man, 45 of delicate constitution, poorly nourished, straw-yellow face, yellow sclerotics, enlarged liver and spleen, spleen painful to pressure. He had a fever in Panama, had taken Quinine, complained of a pain in right side (more severe in some parts than in others), which commenced 1 p.m. with shiverings, disappeared in two hours and returned at precisely the same hour next day.

Five doses of ten centigrams each removed the pain. About six weeks later there was a relapse, the pain this time being located in the stomach. One grain in five doses, one dose every two hours, removed the pain, but it returned the third day.

PAGE 1279

The same treatment then removed it permanently.

(5) Young lady, 18, had periodical facial neuralgia, cured by same treatment.

Compare

Passiflora incarnata

(passion flower)

Pharmacy

Passi. Passiflora incarnata. Passion flower. N. O. Passifloraceae of the Violal alliance.

Tincture of fresh or dried leaves gathered in May. Fluid Hydro-alcoholic extract.

powdered inspissated juice. Historical dose: Tincture and all potencies, tincture in 5 to 50 drops.

Herbal

Passiflora has not been proved. Its curative action appears to be a direct kind. Hale had introduced it to homeopathy, citing in the New Remedies a paper by Phares. Passiflora has a quieting effect on the nervous system, hence an efficient nervine and anti-spasmodic remedy.

Phares learned its action from W. B. Lindsay, who used it with extraordinary success in tetanus of the newborn. An aqueous extract of the root Lindsay commended as an application for chancre, erysipelas, irritable hemorrhoids and new burns.

Phares confirms the efficacy of Passi. in erysipelas, he never saw anything act so promptly, ulcers, neuralgia and tetanus. He cites the case of an old lady who was seized with convulsions of a tetanic nature and refers to several cases of tetanus in the horse cured by himself and his son, J. H. Phares.

One of his own horses was seized with tetanus and all hope of saving him was given up, when Phares gathered some Passi. stems, leaves and flowers.

They were pounded, moistened with water, expressed ten or twelve ounces and poured it down the animal's throat through a tube introduced at the side of his mouth. Though not expected to live half an hour, the horse was found grazing next morning.

Farrington considers Passi. suited especially to tetanus of hot countries and refers to two cures by Archibald Bayne of Barbados with the tincture and I x. It has also been used in convulsions of children and other complaints of dentition and even in epilepsy. **Planets:** Moon, Mercury.

Homeopathic

Passiflora has a quieting effect on the nervous system. Insomnia, produces normal sleep, no disturbance of cerebral functions, neuroses of children, worm fever, teething, spasms. Breaks off morphine habit. (Aven.) Abuse of narcotics. Nervous disorders.

Insomnia of infants and the aged and mentally worried and over-worked persons. Anti-spasmodic. Tetanus. Hysteria, puerperal convulsions. Painful diarrhea. Acute mania. General atonic condition. Asthma. Whooping cough. Delirium tremens. Convulsions in children with neuralgia. Convulsions of children during teething. Hysteria. Puerperal convulsions.

Clinical

Asthma. Burns. Cholera infantum. Convulsions. Delirium . Delirium tremens. Dentition. Epilepsy. Erysipelas. Exophthalmos. Hysteria. Levitation. Morphine habit. Sciatica. Sleeplessness. Tetanus. Whooping cough.

Symptoms

Back

Pain in coccyx.

Eyes

Sensation that the eyes are being pushed out.

Female

The menses are painful, dysmenorrhea.

Head

Violent ache as if top of head would come off. Top of head seemed to lift off.

Limbs

Sensation that her heels are up in the air.

Lungs

Nocturnal cough.

Rectum

Severe attack of hemorrhoids.

Sleep

Sleeplessness in screaming children. Sleeplessness with delirium. Sleeplessness in alcoholics.

Restless and wakeful, resulting from exhaustion. Especially in the feeble infants and the aged. Insomnia of infants and the aged and the mentally worried and overworked with tendency to convulsions.

PAGE 1280

Stomach

Leadens, dead feeling after or between meals, flatulence and sour belchings.

Comments

J. W. Covert reports this case: Mrs. X., 28, had epileptic convulsions for years from one to twenty fits in a week. The aura was a tight feeling in the chest. By homeopathic treatment Covert succeeded in diminishing the frequency of the attacks, but they would invariably return at the menstrual period.

Passi. tincture 6 drops, six times a day, was given. The next period was passed without a convulsion, but the patient had a violent headache as if the top of the head would come off. This was rapidly controlled by Glon. 6c. The three following period passed without any attack.

E. S. Prindle relates a case of delirium tremens. A German, driver of a beer wagon, was laid up with a broken arm, when he was seized with delirium tremens of a most ferocious type, which the usual remedies entirely failed to control.

Passi. succus was now given, two drachms every half-hour. After the third dose the patient quieted down and slept three hours. On awaking he again began to rave, but not as badly as before. Another teaspoonful of Passi. Put him to sleep and next morning he was quite sane and allowed his arm to be reset.

Passi. has been also used for ordinary sleeplessness, for restlessness of fevers, for tedious labors when the patient becomes nervous and excitable, for breaking off the Morphine habit, cholera infantum with restlessness, excitement and spasms, neuralgias internal and of the limbs.

G. C. Buchanan quoted observed some curious effects in a patient, Mrs. V.

To whom, he gave teaspoonful doses for neuralgia, sleeplessness and nervousness, "Her eyes seemed to push out of her head and lie on the quilt, her heels seemed to be up in air top of her head seemed to lift off." To the observer the eyes seemed to protrude.

Later a severe attack of hemorrhoids developed. The dose was reduced to half-teaspoonfuls, which produced sleep and caused no ill effects.

Pastinaca sativa

(parsnip)

Pharmacy

Past. Pastinaca sativa. Parsnip. N. O. Umbelliferae. Tincture of roots of second year.
Historical dose: Tincture and all potencies.

Herbal

Roots used as a food, cooked in water or as broth or as salad for tuberculosis patients and kidney stones.

The root of the Parsnip after the first year is very poisonous. Some cases of poisoning have been observed. A state of perfect "delirium tremens" was observed in several persons, illusions of vision, catching at imaginary objects, fighting with one another. A peculiar effect was produced on the stomach, the irritability was depressed and emetics would not act. **Planets:** Moon.

Homeopathic

Past. has loquacity and delirium tremens. Illusions of vision. Intolerance of milk.

Compare

Pecten jacobaeus

(scallop)

Pharmacy

Pect. Pecten jacobaeus. Scallop. N. O. Pectinide. Trituration or tincture of the animal.

Historical dose: All potencies.

PAGE 1281

History

Swan having learned from a gentleman that every time he entered a room where scallops were being opened he had such a severe attack of asthma that he had to leave or suffocate. Potentized the Scallop and used the preparation with success in similar cases.

T. Franklin Smith reports a case of humid asthma cured quickly and permanently with Pecten 1,000c and 100,000c potencies, characterized as follows: Quick, labored breathing, cannot lie flat or on left side, constriction of chest, especially right side.

Planets: Mercury.

Homeopathic

Asthma preceded by coryza and burning in throat and chest. Attack ends with copious expectoration of tough, frothy mucus, worse at night. Humid asthma. Quick and labored breathing. Constriction of chest, especially right side.

Attacks precede for two or three days by sneezing and excessive coryza, burning sensation in throat and chest, fullness of the head, pulse very quick and wiry, subsequently copious expectoration of tough, stringy and frothy mucus.

Clinical

Asthma, humid. Coryza.

Modalities

Cough worse after 6 p.m. Worse at night. Ars. did not relieve.

SOURCES

Boericke. Clarke.

Pediculus capitis

(head lice)

Pharmacy

Ped. Pediculus capitis. Head Lice. N. O. Hemiptera. Tincture of the insects. Pediculus belongs to the same class of remedies as Cimex and Trombidium. Historical dose: All potencies.

History

Pediculus capitis was proved by Mure, who says that he thought that nature pointed to the Louse as a specific for hereditary psora. In which belief he was strengthened by the fact that Psorinum develops pediculosis in healthy persons and he adds that he has found Pedic. one of the most useful agents in diseases of children.

Five persons took part in the proving, but no particulars are given as to the doses they took. All developed symptoms. **Planets:** Mercury.

Homeopathic

Among these were: Eagerness and aptitude for study and work. One prover, a stammerer, had unusual fluency of words. Constriction of pharynx. Jerks and starts in evening when sitting or lying. Miliary eruptions, itching and formication almost all over. The symptoms are worse by contact in evening after dining after eating, standing, stooping, walking.

Clinical

Children, diseases. Colic. Diarrhea. Ganglion of foot. Hair, loss. Irritation. Edema. Psora, hereditary. Skin, disorders. Stammering.

Compare

Pelargonium reniforme

Pharmacy

Pelarg. Pelargonium reniforme. Rabassum, (Dutch). N. O. Geraniaceae. Tincture of fresh root. Historical dose: Tincture and all potencies.

Herbal

Pelarg. is a Kafir remedy for dysentery. The root is cut up very fine or bruised and then boiled in milk for a considerable time. Many British soldiers were cured of dysentery with it in the Boer War. **Planets:** Moon.

Homeopathic

Pelargonium is also used for purging in horses. When a horse is attacked during a journey the root (which is very thick) is wrapped up and tied to the bit. The juice mingles with the saliva and is swallowed.

Clinical

Dysentery.

SOURCES

Clarke.

PAGE 1282

Penicillinum

(the antibiotic drug)

Pharmacy

Penic. Penicillinum. The sodium salt of Benzyl-penicillin of Penicillin G is used. This is a crystalline powder. It is white, odorless, soluble in water with a slightly bitter taste.

Historical dose: All potencies.

History

Chronic fatigue syndrome. Asthenia, shivering, sub-febrile condition. **Planets:** Mars, Venus.

Homeopathic

Changeable sycotic condition with boils, skin diseases, warts and muco-purulent weeping. Fever continues for a very long time, worse in the evening. Hot or cold perspiration with a stale odor. Limbs cold with paraesthesia. Ecchymosis. Recurring angina.

Clinical

Allergies. Chronic fatigue syndrome. Collagen diseases. Reticular endotheliosis.

Tubercular conditions. Sycosis.

Modalities

Better from resting, better from warmth and better dry weather. Worse from the cold and damp. Worse from movement, 4 a.m.

Symptoms

MIND

Increased cerebral activity, quickly followed by considerable asthenia. Everything seems sad. Mental cloudiness.

Abdomen

Epigastric and peri-umbilical cramping pains with abdominal wind.

Eyes

Neuralgia above and behind the right eye. Tearful. Conjunctivitis with eyelids stuck together and **puffy** in the morning, especially the lower lid. Styes, **which appear slowly**.

Female

Menses late and scanty. Yellow or white leucorrhea, non-irritating.

Head

Right frontal headache with sinusitis. Head heavy with nausea, worse on movement, better when lying down and resting and by eating.

Heart

Pain in the precordial region, worse on waking. Extra systole, rapid, irregular pulse.

Kidneys

Bilateral kidney pains, spreading towards the lumbar and sacral regions. Urine scanty, albuminous, edema.

Limbs

Lightning pains, aggravated by movement, accompanied by prickling beneath the skin, aggravated around 4 a.m. and after 6 p.m. Joint pains with muscular and lumbar edema, aggravated by the slightest movement.

Lungs

Dry, raucous cough, sometimes fitful, making the patient bend double, ameliorated by resting. Sternal and supra-sternal pains. Thick, yellow or whitish-yellow sputum.

Asthmatic Dyspnea at 4 a.m.

Mouth

Mucous membranes of the mouth red with whitish spots and slight bleeding from the gums. Root of tongue yellowish-brown and imprint of the teeth stays marked on the tongue. Teeth painful, especially the upper right incisors and canines, spreading towards the right maxilla.

Nose

Coryza with thick, yellow, trailing discharge. Right frontal sinusitis. Buzzing in the ears. Boil or eczema in the auditory canal.

Rectum

Constipation with empty urging.

Skin

Changeable sycotic condition with boils, skin diseases, warts and muco-purulent weeping. Boils, especially on the face with edema. Eczema, oozing out a pale liquid. Warts. Acne. Herpes-type eruption on the face. Weeping, macerated impetigo mycosis of the epidermis.

Sleep

Heavy or light sleep, waking in the early morning, at 4 a.m. , accompanied by feeling of discomfort.

Temperature

Continues for a very long time, 38°C in the evening. Chilliness, feeling of icy-coldness in different parts of the body, especially the thorax and loins. Sub febrile condition with slight rise in temperature in the evening, which however, dose not go above 38°C.

Vertigo

Vertigo, aggravated by movement with nausea.

Compare

- (1) Bry. - Joint pains, aggravated by movement, edema.
- (2) Nat-s. - clammy, puffy, hydrogenoid type, aggravated by humidity.

PAGE 1283

- (3) Thuja - clammy, sycotic type with dirty, warty skin.
- (4) Ars. - aggravation from midnight to 3 a.m. , chilly, anxious, restless.
- (5) Puls. - muco-purulent, catarrhal condition, moody, yearning for consolation.

SOURCES

Julian.

Penthorum sedoides

(virginia stonecrop)

Pharmacy

Pen. Penthorum sedoides. Virginia stone crop. N. O. Crassulaceae. Tincture of fresh plant. Historical dose: Tincture and all potencies, lower potencies.

Herbal

Hale says Penth. is reputed to be curative in catarrh and in diarrhea. A scalded sensation in the tongue is one of the symptoms. A sense of levitation was also produced. The symptoms proceed from above downward. **Planets:** Mercury.

Homeopathic

Penthorum sedoides is a remedy for coryza with rawness and wet feeling in nose. Throat feels raw. Chronic disorders of mucous membranes with irritability. Chronic post-nasal catarrh, chronic pharyngitis, mucous membrane purple and relaxed.

General malaise, headache, weakness of limbs inability to attend to business. Posterior sinuses feel moist and raw, nose and ears feel full. Aphonia, hoarseness, relaxed vocal cords. Hypersecretion of mucous membranes. Itching of anus and burning in rectum. Trouble in pharyngeal vault and Eustachian tube.

Clinical

Coryza. Diarrhea. Headache. Hemorrhoids. Post-nasal catarrh. Sacrum, pain in.

Varicocele.

Symptoms

MIND

MIND

Dull, discouraged and despondent. **MIND** is dull, study impossible. Inability to attend to business.

Abdomen

Borborygmus. Parietes of abdomen felt thickened. A clawing, uneasy sensation about umbilicus, which gradually passed to lower bowel. Twitching in muscles of abdomen.

Back

Aching through basilar region from back to front. Aching in sacrum and sacroiliac joint. Heat in sacrum with headache, (cured).

Ears

ringing and singing in both ears.

Eyes

On closing eyes, felt like floating, vertigo. Inner, upper tarsal borders **itched and burned.** Full sensation in supra-orbital region.

Food

Appetite increased.

Head

Dull, heavy headache with heat and soreness in sacrum. Catarrhal aching in forehead. Weight in sinciput. Itching of hairy scalp.

Kidneys

Dull aching in kidneys. Bladder sore to pressure. Urine increased, burning along urethra when urinating. Urine alkaline.

Limbs

Arm numb. Hand felt swollen. Trembling feeling of legs for several days with soreness of knees.

Lungs

In morning a cough from deep in chest with soreness throughout chest.

Male

Sexual orgasm. Weakness, almost satyriasis, followed by long-continued depression, approaching impotence. Varicocele (cured).

Mouth

Prickling, burning sensation on tongue as though scalded. Increased flow of saliva (bloody).

Nose

Constant wet feeling in nose, which no amount of blowing will relieve. Discharge thick, pus-like, streaked with blood. Post-nasal catarrh of puberty. Posterior sinuses feel raw as if denuded of epithelium.

Rectum

Crawling in lower rectum as though a worm tried to escape. Burning in rectum at stool, continuing after. Itching of anus, hemorrhoids with aching in sacrum and sacroiliac joint. After being constipated, semi-fluid evacuation next morning. Constipation, an atonic condition of bowels and rectum.

Stomach

Disgust and nausea. Forcible eructation and ejection of small quantities of odorless flatus.

PAGE 1284

Comments

Penth. was proved by Dr. D. B. Morrow (twice), Dr. Scudder and a young man, who all took substantial doses. The majority of the symptoms are Morrow's including the catarrhal symptoms, which have been verified in practice: "A peculiar wet feeling in sinuses as though a violent coryza would set in," but it did not, the secretion became thickened and pus-like but not increased.

The same "wet feeling" was experienced at the same time in trachea and bronchi, which passed from above down as if coryza would set in, followed by a slight feeling of constriction in the chest, which also passed from above down.

The next day the nose felt stuffed. The third day the first symptoms were repeated and the discharge became thick, pus-like and streaked with blood and there was an odor in the nose as if from an open sore. Scudder had "fullness in nose and ears." Morrow experienced itching at anus, hemorrhoids and pains and sensations in rectum, sacrum and sacroiliac joints, his first proving cured "heat and soreness in sacrum with a dull, heavy headache."

Morrow reports these cures: (1) Miss P., 17, blonde, had severe cough of several weeks' duration. Worse by talking or singing. Frothy, greenish sputa. Puls. and Phos. failed, Penth. s. soon cured.

(2) Decrepit old lady, 75, sufferer from eczema for twelve years. Previous winter cured of asthma (probably from suppressed eczema) with Sulph. 100,000c Now parietic right side, for which Phos. was given. But Phos. did not relieve a loose, continual, rattling cough, caused by tickling at bifurcation of bronchi with raising much thick, frothy, greenish sputa. Penth. pellets quickly cured.

Pepsinum

(digestive enzyme)

Pharmacy

Pepsinum. Historical dose: All potencies, first to thirtieth potency.

Homeopathic

Pepsinum causes imperfect digestion with pain in gastric region. Marasmus of children who are fed on artificial foods. Diarrhea due to indigestion. Diseases of pancreas, gout, diabetes.

SOURCES

Boericke.

Pertussinum

(whooping cough nosode)

Pharmacy

Pert. Pertussin. Pertussinum. Whooping cough nosode. Historical dose: All potencies, thirtieth potency or higher.

History

Pertussin is taken from the glairy and stringy mucus containing the virus of whooping cough. Introduced by Clarke for the treatment of whooping cough and other spasmodic coughs.

Many patients, old and young, have experienced the virtues of Pertussinum. In all cases of whooping cough suspected or defined Clarke gave the remedy in the 30c potency every four hours as a matter of routine and as a rule it quickly assumes control of the case and does all that is necessary.

In Clarke's experience it agrees well with all other whooping cough remedies and when their specific indications appear he gave them also in alternation or else alone.

Pertussinum is an unproved remedy, except in the sense that every case of the disease is a proving. **Planets:** Mercury.

Homeopathic

Pertussin can be used a preventive in whooping cough or to treat the disease. Pertussin is equally applicable to cases of cough of the same type, though not caused by the same

infection, such as appear in some cases of influenza. Spasmodic coughing attacks. Dry cough, spasmodic of different intensity, comes suddenly.

PAGE 1285

Predisposition to tuberculosis. Repeated coughing fits which end in vomiting. Increasing jerking cough with cyanosis, with a phase of apnea followed by the taking of respiration. Restlessness. Cries. Tears. Anorexia. Asthenia. Convulsions. Hemorrhage from the meninges. Paralysis. Neuro-motor deficit. Paresis. Troubles of conscience. Sleepy and in a state of confusion. Muscular jerkings. Myelitis. Polyneuritis.

Clinical

Cough, paroxysmal. Whooping cough.

Modalities

Worse by laughing. Worse from emotion, effort, rest or nervous shock.

Symptoms

MIND

State of confusion. Troubles of conscience. Cries. Restlessness. Psycho-motor or sensorial troubles.

Chest

Stinging pain in or on the chest with cough.

Ears

Mastoiditis.

Eyes

Chemosis. Tears. Coryza with hacking cough.

Face

Intense flushing with cough.

Heart

Cyanosis, sweats, weakness. Tachycardia.

Lungs

Dyspnea with cough. Sobbing or sighing at end of cough. Strangling sensation with cough on waking. Hacking cough with coryza. Deep-sounding croupy cough. Spasmodic choking cough. Spasmodic cough with intense flushing of face. Coughing in frequently repeated attacks. Cough provoked by intense tickling in throat, fauces or trachea.

Mouth

Itching of the palate on lying down at night. Ulceration of the tongue.

Nose

Nosebleed.

Stomach

Vomiting or nausea at end of cough.

Throat

Spasm of the glottis. Laryngo-spasms. Intense tickling in throat causing cough.

SOURCES

Boericke. Clarke. Julian.

Pestinum

(plague nosode)

Pharmacy

Pest. Pestinum. Plaguinum. Nosode of Plague. Trituration of the virus. Historical dose:

All potencies.

History

The prophylaxis and treatment of plague with injections of more or less modified virus of plague by old-school practitioners affords evidence that the nosode of plague is available like other nosodes, for the treatment of cases of the disease from which it is derived. **Planets:** Mars.

Homeopathic

Bubo. Plague. Typhus.

SOURCES

Clarke.

Petiveria tetandra

Pharmacy

Peti. Petiveria tetandra. Erva de Pipi. N. O. Phytolaccaceae. Trituration of fresh root.

Historical dose: Trituration and all potencies.

Herbal

Allen says in a note that it is probably identical with the Mexican and West Indian species, *P. alliacea*. Mure's figure corresponds to this and he says the roots, which are branching and fibrous, "smell strongly of garlic."

P. alliacea, according to Treasury of Botany is called "Guinea-hen Weed" in West Indies and "Raiz de Guine" in Brazil. In Brazil it is put into warm baths to restore motion to paralyzed limbs. Mure does not mention these names or this fact, but his proving brings out some strongly confirmative symptoms. **Planets:** Mercury.

Homeopathic

Mure has proved Peti. and the proving show some strongly confirmative symptoms in numbness and paralytic sensations, weariness and weight of eyelids. Cold saliva internal coldness, coldness inside bones were experienced.

Clinical

Conjunctivitis. Paralysis. Paraplegia.

Modalities

The symptoms in general were worse by movement in the morning on waking and on rising after breakfast and during and after dinner, bending backward.

Petroleum

(crude rock-oil)

Pharmacy

Petr. Petroleum. Crude Rock oil. Oleum petrae. Coal Oil. Trituration and tincture of the rectified oil. Historical dose: Trituration, tincture and all potencies, third to thirtieth and higher potencies.

History

Petroleum was proved by Hahnemann is made by agitating the liquid commercial Petroleum with Sulphuric acid and then rectifying the portion which this acid does not act upon. It is "a light oily fluid, colorless or of a pale straw color and strong characteristic naphthalic smell. Dropped on white paper it evaporates completely, leaving no greasy stain."

Petrolatum (Vaseline) consists of hydrocarbons of the Paraffin series, obtained from residues after distillation of lighter oils from crude petroleum or deposited from crude petroleum on standing. The disorders met with in petroleum extractors and refiners are diseases of the skin and subcutaneous tissue, depressed nutrition, anemia, dyspepsia, nerve troubles, irritability insomnia, respiratory disorders. In addition to these is a species of intoxication.

Petr. is one of Hahnemann's leading anti-psorics and is especially closely related to Graph. It is suited to long-lasting, deep seated, wasting diseases, lingering gastric and intestinal troubles with or without ulceration. In Clarke's experience no remedy corresponds to more cases of chlorosis in young girls with or without ulceration of the stomach.

A man, a patient of Clarke's who suffered from inveterate eczema and who had formerly been employed in a factory where much petroleum was used, noticed that his eczema was much better while working with petroleum.

He told Clarke that the vapor had the singular effect of making some of the workmen insane, causing: Desire to kill, hallucinations, they will see things not actually visible, for instance, "they will see the rails in a station when a train is on them."

Homeopathic

Petroleum chiefly acts on the skin especially folds, scalp, face and genitals. Produces catarrhal condition of the mucous membranes of stomach and bowels. Very marked skin symptoms, acting on sweat and oil glands. It is suited to long lasting, deep seated wasting diseases, complaints following mental states, fright, vexations etc., lingering gastric and intestinal troubles.

Petr. is a major remedy for car, train or sea sickness. Ailments from riding in cars, carriages or ships. Lingering gastric and lung troubles, chronic diarrhea. Long-lasting complaints follow mental states-fright, vexation, etc. Chlorosis in young girls with or without ulceration of the stomach. Strumous diathesis, especially the dark type, who suffer from catarrhal conditions of the mucous membranes, gastric acidity and cutaneous eruptions. Ailments are worse during the winter.

There is great weakness, fainting, tremor, twitching of limbs, catalepsy tonic spasms, left-sided paralysis. Tremulous weakness. Feels sick internally. Internal itching. Dread of open air with shivering when exposed to it. Dryness in ear, nose, etc.

The skin cracks. Unhealthy granulations after severe burns. Discharges are thick, purulent, yellowish green. Hemorrhages, blood light red, worse lifting or riding. Burnings. Twitchings, catalepsy. Dropsy. Wooden feeling. Emaciation especially of chest. Coldness in spots in abdomen in heart after scratching. Bruised soreness, worse in joints. Glands enlarged.

PAGE 1287

Clinical

Allergies. Addison's disease. Albuminuria. Anemia. Angina pectoris. Anus, fissure. Bed-sores, Breath offensive. Burns. Chilblains. Chlorosis. Constipation. Cracks in skin. Deafness. Diarrhea. Dysmenorrhea. Dyspepsia. Ear disorders. Eczema. Face, rough. Facial paralysis. Feet, painful, Fester, tendency. Fistula. Frost-bite. Gastric ulcer. Gonorrhoea. Hands, chapped. Headache. Hemorrhoids. Herpes. Herpes. Irritation. Jaw, dislocated. Motion-sickness. Myopia. Nose, sore. Otorrhea. Perspiration strong. Pregnancy. Presbyopia. Prostatitis. Psoriasis. Rheumatism. Sea-sickness. Skin disorders. Sprains. Syphilis. Tabes mesenterica. Tinnitus. Toothache. Urethra, stricture. Varicose veins. Vertigo. Vomiting. Warts.

Causations

Ailments from riding in cars, carriages or ships, (Nitric acid has deafness). Ill effects of sprains, suppressed eruptions. Vexation. Cabbage.

Constitutions

Petr. is suited to: persons with light hair and skin. Especially for lean, slender persons.

Planets: Saturn, Moon.

Modalities

Better warm air, lying with head high. Better dry weather. Worse from passive motion of cars, trains, carriage, boat. Worse from dampness, before and during a thunderstorm. Worse in winter, eating from mental states. Worse from cold weather, changing weather. Worse from cabbage, eating. Worse vexation, sex touch.

Symptoms

MIND

Loses his way in the street, loss of memory. Sense of duality, thinks he is double of someone else lying alongside or one limb is double. Feels that death is near and must hurry to settle affairs. Irritable, easily offended, vexed at everything. Low-spirited with dimness of sight. Excited, irritable after sex with inclination to be angry and to scold. Death seems near and must hurry to settle the affairs. Worries but does not know why. Fear, long lasting. Fearful.

Abdomen

Inflated abdomen. Sensation of coldness inside. Pinching colic better bending double. Navel ulcerated in infants.

Back

Weakness in small of back. Neck, stiff and painful, cracks when moved. Pain in spine and all over the body with sciatica. Coccyx painful on sitting. Pain in sacrum, worse standing erect. Sharp pains shooting up dorsal spine into occiput, confinement.

Breasts

Itching and mealy coating of nipple.

Chest

Oppression of chest, worse cold air.

Ears

Eczema in and behind ears with intense itching. Dryness in ears. Fissures in meatus. Discharge of pus and blood from the ears. Moist spots behind the ears. Itching deep in ears in Eustachian tubes. Ears, sore to touch. Dry catarrh with deafness and noises. Ringing and cracking in ears. Chronic Eustachian catarrh. Diminished hearing. Deafness with noises in ears in elderly people. Noise from several people talking is unbearable.

Eyes

Inflamed tarsi. Loss of eyelashes. **Fistula lachrymalis** (of recent origin). Dim sight, far-sighted, cannot read fine print without glasses. Blenorrhoea of lachrymal sac. Marginal blepharitis. Canthi fissured. Skin around eyes dry and scurfy.

Face

Dry, as if covered with albumin. Pale or yellow, hot after eating. Easy dislocation of jaw.

Female

Genitals sore and moist. Dry obstinate eruptions. Aversion to sex. Before menses, throbbing in head. (Kreos.) Menstrual flow causes itching. Leucorrhoea, profuse, albuminous, (Alum., Calc-p.) with lascivious dreams. Prolapsed uterus from constant diarrhoea.

Food

Hunger, causing nausea, awakes at night. Hunger, immediately after stool. Thirst for beer. Desire for dainties. Aversion to meat, fats, cooked or hot foods. Worse eating cabbage.

Head

Headache worse shaking, while coughing, must hold temples for relief. Occiput, aching, heavy. (Op.) Scalp sore to touch, followed by numbness. Falling of the hair. Moist eruption on scalp, worse back and ears. Sensitive scalp, as if a cold breeze blowing on it. Head feels numb as if made of wood.

PAGE 1288

Heart

Cold feeling about heart. Fainting with ebullitions, heat and palpitations. Sensation of coldness. (Carb-an., Nat-m.)

Kidneys

Involuntary urine on rising. Stricture from chronic urethritis. Bedwetting, at night. Acute sudden urging, if not attended to immediately, will cause severe pain. Cystitis, urethritis. Dribbling of urine after urination.

Limbs

Chronic sprains. Offensive sweat in axilla. Tips of fingers rough, cracked, fissured every winter. Scalding sensation in knee. Cracking in joints. Joints stiff. Limbs go to sleep.

Knees stiff. Ragged, chapped hands and fingers, bleeding in housemaids. Psoriasis of the palms. Stitches, blisters, cracks in heels.

Lungs

Dry cough at night, coming deep from chest. Cough, coming deep down from chest, waking the patient, up at night (in young girls and boys). Cough at night only or worse then, shatters the head better pressing. Cough produces headache.

Male

Genitals sweaty. Herpetic eruption on perineum. Prostate inflamed and swollen. Itching in urethra.

Mouth

Dry. Offensive smell like garlic. Ulcers on the inner cheek painful when closing the teeth. Soreness, while chewing. Tongue, white in center, dark streak along edges.

Nose

Tip of nose itches. Dry. Nostrils ulcerated, cracked, burn, tip of nose itches. Nosebleed. Ozaena with scabs and muco-purulent discharge.

Rectum

Diarrhea or dysentery by day only, worse cabbage, then empty feeling. Diarrhea, watery, gushing. Itching of anus after stools.

Hemorrhoids and fissures of anus with great itching. Herpes on perineum.

Sensations

Brain as if wrapped in a fog. As if everything in head were alive. As if head made of wood or as if bruised. As if a cold breeze were blowing on head. As if head would burst. Veil before eyes. Sand in eyes. As if something were tearing off from pit of stomach. As if a cold stone at heart. Splinter in heel. Upper and lower limbs as if stiff without joints. Jaw as if distended.

Skin

Eczema. Deep cracks in folds, nipples, finger tips. Psoriasis of hands. Itching at night. Itching orifices with burning. Chilblains, moist, itch and burn. Brown spots. Bed-sores. Dirty, hard, rough, thickened like parchment. Skin gets raw, festers or won't heal, worse in folds. Herpes. Slightest scratch makes skin suppurate. (Hep.) Thick, greenish crusts, burning and itching, redness, raw, cracks bleed easily. Cracks worse in winter. Chilblains that itch, bum and become purple.

Sleep

Restless with frightful dreams.

Stomach

Nausea with accumulation of water in mouth. Vomits bitter green substance. Seasickness and motion sickness. Feeling of emptiness. Nausea during pregnancy, must stoop.

Heart burn, hot, sharp, sour eructation. Pungent, acrid belchings. Distention.

Stomach pain when stomach is empty, relieved by constant eating. (Anac., Sep.)

Ravenous hunger. Must rise at night and eat. (Psor.) Odor of garlic.

Temperature

Chilly with dry mouth. Chilliness, followed by sweat. Palms and soles hot. Flushes of heat, particularly of the face and head, worse at night. Flushes of heat all over in frequent attacks during day. Perspiration, foul on feet and axilla. Sweat in spots.

Throat

Hoarseness. (Carb-v, Caust., Phos.) Foul mucus in throat. Hawks out in the morning. Dry. Croup and laryngeal diphtheria.

Vertigo

Vertigo, as if intoxicated or like sea-sickness. Vertigo like that produced by swinging motion. Vertigo on rising, felt in occiput.

PAGE 1289

Comments

The vertigo and heaviness of Petr. are often associated with nausea and bilious vomiting. This (nausea with or without vomiting) is one of the grand characteristics of the remedy. It is worse by motion in a carriage or on the sea, hence Petr. is one of the first remedies in train-sickness or sea-sickness.

The other side of this nausea is another grand characteristic: Awful ravenous hunger, the "sinking" of the chief anti-psorics. It is noticed immediately after a stool in diarrhea, nervous affections, spinal disease, etc. (Kent).

The skin is extremely sensitive, all clothing is painful, slight injuries suppurate. The keynotes of the skin disorders are: Itching, burning, rawness, bleeding. Burning sensations are very marked and as Petr. is accountable for so many burning accidents it is fitting that it should make a very good application for burns in the form of vaseline, cosmoline or Petr. mixed with equal parts of olive oil.

Irritability of skin and irritability of mind are both found in Petrol.: Excitable, angry at trifles. Anxiety with fear. Mental weakness and forgetfulness are also very characteristic and are generally met with in connection with deep-seated disease.

An illusion that there is another person or another baby in bed is very characteristic of the remedy and has led to cures with Petr. of cases of typhoid and puerperal fever.

"Falling out of the hair" is a characteristic symptom of Petr. and accounts for the popularity of Petroleum hair-restorers. Petr. "probably acts on the sebaceous rather than the sudoriferous secretions of the skin and its local action is on parts where the sebum is abundant." (Cooper)

The use of these hair-restorers has caused many violent headaches. So has the use of "Coal Oil" (a tablespoonful to a bucketful of water) by washer-women to improve the color of linen.

Petr. says Kent corresponds to low conditions in which there is inability to throw out eruptions on the skin or conditions in which an eruption has disappeared without improvement in health: to reflections of the disease on mucous membranes setting up catarrh. Ozaena intestinal catarrh. Soreness and cracks about muco-cutaneous orifices.

The headaches of Petr. may be in any part, but they are most marked in occiput.

Heaviness like lead, pressure, sticking, pulsating, worse on shaking head or any jar. Pain travels from occiput to eyes and is associated with temporary loss of sight and fainting.

In pulmonary disorders Petr. has gained much repute of late in the form of an emulsion. A leading indication for it is "Oppression of the chest, worse in cold air." Petr. has a peculiar cough, not infrequently met with in young girls and boys, coming from deep down in the chest and frequently waking the patient up at night.

The discharges of Petr. are thick, purulent and yellowish green. For the cracked nostrils accompanying and following cold in the head I find the application of vaseline more often useful than other forms of unguent.

The localities of Petr. are very like those of Graph.: Scalp, behind ears, scrotum, genitals. The modality "Worse in winter" has given Nash the key to several cases of eczema, chapped hands, chilblains and one case of chronic diarrhea, as soon as he discovered that the patient had eczema of the hands in winter. Petr. 200c was given.

PAGE 1290

Petroselinum sativum

(parsley)

Pharmacy

Petros. Petroselinum sativum. Parsley. Carum Petroselinum. Apium Petroselinum. N. O. Umbelliferae. Tincture of whole fresh plant when coming into bloom. Historical dose: Tincture and all potencies, first to third potency.

Herbal

Petroselinum is referred to by Hahnemann as a gonorrheal remedy when frequent desire to urinate exists. Parsley tea is a recognized remedy for gonorrhea in domestic country practice. Parsley eaten after meals with or without salad oil is reputed to act as a solvent on uric acid if there is a tendency to its formation in the urine.

In gonorrhea and gleet Clarke has confirmed its efficiency, given in ten-drop doses of the tincture. In a case of dysuria from prostatic enlargement there was frequent urging to urinate every half to three-quarters of an hour with burning pains in bladder and urethra. Petrosel. 4x, three drops every hour took away all the pains and relieved the tenesmus in a few days. The prostate gland itself was not influenced.

Parsley is said to be poisonous to ferrets. Fresh butter and parsley applied warm is an old remedy for bruises. An infusion is given to all children recovering from scarlatina by the matron of a suburban infectious hospital.

An old gleet has been known to disappear from parsley infusion and an old Edinburgh surgeon used to give it in all nephritic and bladder diseases that were chronic. (Cooper)

Planets: Venus.

Homeopathic

Petros. has influence in the genito-urinary sphere. Hemorrhoids with much itching. The urinary symptoms give the keynotes for this remedy.

The leading indication is sudden urging to urinate and drawing, tingling, crawling or itching in navicular fossa. During urination, burning and tingling from perineum through whole urethra. After urination cutting biting in fossa navicularis. Milky or yellow discharge.

Sudden, irresistible urging to urinate with drawing, tingling, crawling, itching from perineum throughout the whole urethra. Gonorrhea, milky or yellow discharge. Dysuria

with prostatic enlargement. Urinary difficulties of babies. Very painful urination causing him to shiver, dance round the room in agony.

Clinical

Catheter fever. Cystitis. Dysuria. Gleet. Gonorrhoea. Gravel. Intermittent fever. Night-blindness. Priapism.

Symptoms

Back

Jerking or bubbling sensation in muscles of back and arms.

Ears

Shrill singing in ears like a bell ringing out of tune, which affects the whole organism.

Eyes

Blind at night with swelling of eyes.

Food

Thirsty and hungry, yet as soon as they begin to eat or drink they lose all desire.

Kidneys

Tingling, lancinating, pressure and drawing in urethra. Burning, tingling from perineum throughout whole urethra, Frequent and almost fruitless want to urinate, every half-hour. Sudden urging to urinate, voluptuous tickling in fossa navicularis. Child suddenly seized with desire to urinate, if not gratified immediately, jumps up and down with pain.

Gonorrhoea with intense biting, itching, deep in urethra. Milky fluid, albuminous yellow discharge from urethra. Orifice of urethra agglutinated with mucus.

Male

Priapismus without curvature of penis. Pollutions, profuse emission toward morning.

Rectum

Whitish evacuations like clay, chronic diarrhoea. Hemorrhoids with much itching.

Burning at anus.

Skin

Urticaria.

Sleep

Sleep late with many anxious dreams.

Stomach

Twitching, jerking pains in epigastrium, flatulent belchings, colic, nausea and vomiting.

PAGE 1291

Temperature

Ague, especially quotidian, marked periodicity, stages regular, acute fevers from defective assimilation or perverted innervation, accompanied by flatulent dyspepsia.

Intermittent fevers with abdominal disorders. Fevers with traumatic or chronic inflammation of urethra or even stricture.

Comments

Petros. was proved by Bethmann. He obtained only thirty-six symptoms, all in the genito-urinary sphere, but these were very characteristic and have given the remedy a definite place in homeopathic medicine, especially in gonorrhoea and gleet.

Hering has collected symptoms from other observers. Farrington says Petrosel. is a great "baby medicine" in urinary difficulties. It has cured numbers of cases of intermittent fever and traumatic or other urethral fevers.

Compare

- (1) In gonorrhea with sudden and frequent urging, Cann-s., Canth., Merc.
- (2) Screams before urinating from irritation of mucous membrane, Acon., Caust., Borax.
- (3) Sars., Lyc. and Benz-ac. have screaming before urinating when due to gravel.
- (4) Gonorrhea, strangury, frequent urging to urinate, white stools, Dig.
- (5) Dig. has slow pulse often puffed prepuce, Sulph. indurated prepuce.
- (6) Cystitis, Con. - has intermittent urination, Petros. has inflammation that has traveled back, sudden, irresistible desire.
- (7) Bubbling in back, urinary disorders, Berb.
- (8) Uric acid tendency intermittent fevers, Urt-u.

SOURCES

Boericke. Clarke. Phatak.

Phallus impudicus

(stinkhorn fungus)

Pharmacy

Phal. Phallus impudicus. Stinkhorn. N. O. Fungi. Tincture or infusion of whole fungus.

Historical dose: Tincture and all potencies.

History

Kalieniczensko took five or six teaspoonfuls of an infusion of Phallus in twenty-four hours and the effects were observed. **Planets:** Moon.

Homeopathic

Phallus impudicus has vertigo, dullness, vision disordered, gastro-enteric disturbance and viscid sweat. There is a general resemblance to the effect of Agaricus.

Clinical

Gastro-enteralgia. Sweat, viscid. Vertigo. Vomiting.

SOURCES

Clarke.

Phaseolus nanus

(dwarf-bean)

Pharmacy

Phase. Dwarf bean. Phaseolus nanus. N. O. Leguminosae. Trituration of the dried bean.

Decoction of dried beans and pods. Phaseolus vulgaris. Kidney-bean. Trituration of the dried bean. Decoction of dried beans and pods. Historical dose: Trituration and all potencies, sixth and higher.

History

Clarke has included under Phaseolus both Phaseolus nanus and Phaseolus vulgaris. The proving of Phaseolus vulg. is by Demeures. Some effects of eating mildewed beans in a

child recorded by W. Dale. A. M. Cushing proved *Phaseolus nanus*, but has only published the symptoms observed on the heart.

The New Eng. Med. Gaz. published a translation of a pamphlet by Dr. Heinrich Ramm on the uses of "Bean tea." A lady whom Ramm had treated in vain for mitral valve disease with liver and kidney complications and dropsy, presented herself one day apparently cured by drinking Bean tea.

This led Ramm to try it in other cases and he founded that kidney and cardiac dropsies were speedily relieved, urine largely increased in quantity and in cases of albuminuria, where the albumen quickly disappeared.

Dropsical effusion into pleural cavity, pericardium and peritoneum, according to Ramm, also yield to it. All chronic disorders of the urinary tract from kidneys to urethra, pyelitis, bladder catarrh, gravel, stones, uric acid, he says, quickly disappear.

PAGE 1292

Ramm consider Phase. a most important remedy in gout and in diabetes. Ramm used a decoction of the whole dried ripe pod "of the taller variety." He names it *P. vulgaris*. The inside of the pod rubbed on warts is said to cure them, (Cooper). A decoction of the shells as a drink for diabetes, but look out for severe headache. **Planets:** Sun, Jupiter.

Homeopathic

The symptoms of the Phase. proving were: Soreness to touch eyeballs, right rib,

epigastrium, right humerus. Breathing slow, pulse slow or extinct. **Heart** symptoms quite pronounced. Diabetes.

"Irregular, weak pulse and heart failure," are the chief keynotes of the remedy in heart cases. Demeures in his proving experienced severe headache from fullness in the brain.

Clinical

Albuminuria. Breast, tumors. Diabetes. Dropsy. Hematuria. Headache. **Heart**, disorders. Hernia. Hydrothorax. Impotence. Palpitations. Pericarditis. Pleurisy. Prostate, diseases. Wounds, punctured.

Modalities

The headache was worse by movement of the head or any mental exertion, reading or writing. Pressure worse.

Symptoms

MIND

Could only be roused by speaking loudly. Frightened by irregular action of heart. Feeling that she would die with palpitations.

Abdomen

Pressure on abdomen gave pain, child shrank from it and drew up legs. Pain like hernia in right inguinal ring, lasting all day.

Chest

Breathing slow and sighing. Pulse rapid. Palpitations. Sick feeling about heart with weak pulse. Right ribs sore. Dropsical effusion into pleura or pericardium.

Eyes

Pupils dilated insensible to light. Eyeballs (especially right) painful to touch as from a blow. Scalding pain in right orbit. Very smart itching in inner canthi. Pain over right orbit worse from mental exertion.

Face

Features expressed suffering.

Head

Aches chiefly in forehead or orbits from fullness of brain, worse any movement or mental exertion.

Heart

Fearful palpitation and feeling that death is approaching.

Kidneys

Diabetic urine. Bloody urine. Uric acid gravel.

Limbs

Pain to touch in extremity of head of right humerus.

Lungs

Breathing slow and sighing.

Male

Complete impotence. Prostate, enlargement.

Stomach

Pain in epigastrium when touched, especially in region of pylorus. Severe, dull pain in epigastrium, vomiting, Phase. 4x cured.

Temperature

Bedewed with cold perspiration (D).

Comments

The action of the remedy which is Cushing's proving caused disturbance of the nervous system, genital organs, impotence, stomach, bowels and kidneys and this symptom, which brought the proving to an abrupt close:

"I suddenly felt a curious sensation in the region of the heart. It was so sudden and strange I immediately felt my pulse and found it very irregular and feeble, so much so I think I was frightened, at least, I did not take any more of the medicine."

(1) A lady doctor, 30, married, no children, never ill except with children's diseases, had much mental trouble two years before and had done much cycling. Since then her heart had given trouble. About five times in a minute the heart would give one hard, unpleasant throb, then omit one beat. During the night it was much worse and prevented sleep.

Phase. 10c was given.

Thirty-six hours later the heart would beat a hundred beats without varying and improvement continued, but the patient had to give up the remedy on account of the headache it caused, "as if something were pressing hard against each temple", much worse after each dose of the medicine. The patient was never subject to headaches.

PAGE 1293

Other cases of Cushing's were: (2) Man, 45, dropsy, heart and other complications. Bean pod decoction enabled him to lie down on a couch and markedly diminished the dropsy.

(3) Clergyman, 69, many years invalid on account of heart disease after unusual exertion was greatly exhausted and became entirely pulseless and so remained four days in spite

of treatment until Phase. 9x was given. In a few hours pulse returned. In thirty-six hours it was regular and strong and so remained until his death, which occurred two weeks later.

(4) Lady, 50, weak, tired, badly acting heart for some years. Phase. 9x was given and in forty-eight hours "her heart wheeled into line all right and remains so." (5) Lady, 87, heart acted badly, every third beat omitted. After taking Phase. two days pulse quite right.

(6) Confinement case, primipara, urine loaded with albumen, frightful convulsions, forceps delivery. Two hours later the heart failed and no stimulants would start it. Phase. 9x was given and in ten minutes the heart was all right. Twice in the night the dose had to be repeated, but that was all. The albumen rapidly disappeared and a quick recovery was made.

S. R. Stone reports the case of Mr. T., 69, whom he found semi-conscious, yet suffering severely, having been seized with distress in heart region, respiration labored, pulse 51. He had attacks previously, but lighter and the pulse in them had always been slow. Phase. 6x was given, at first every half-hour, then every hour.

Next day patient was nearly well and said he "could feel every dose working." In a case reported by Cushing, a nurse, 50, "had fearful time with her heart palpitating and feeling as if she should die," Phase. 15x cured. Patient "never took anything in her life that did her so much good" .

Phellandrium aquaticum

(water dropwort)

Pharmacy

Phel. Water dropwort. Phellandrium aquaticum. Historical dose: Tincture and all potencies.

History

The respiratory symptoms are most important and have been frequently verified clinically. **Planets:** Mercury.

Homeopathic

Phellandrium acts on lungs and nerves. A very good remedy for the offensive expectoration and cough in tuberculosis, bronchitis and emphysema. Tuberculosis, affecting generally the middle lobes.

Everything tastes sweet. Hemoptysis, hectic and colliquative diarrhea. Produces catarrhal conditions of the respiratory tract. Tuberculosis. Feeling of tiredness while walking. As if all the blood-vessels were in vibratory motion.

Clinical

Bronchitis. Emphysema. Tuberculosis.

Modalities

Better while nursing. Worse air, cold, open. Worse from using eyes.

Symptoms

MIND

Peevish arrogance.

Breasts

Pain in nipples on each application of child into abdomen. Pain in milk ducts intolerable between nursing.

Eyes

Only half open and look as if one has been crying for a week. Lachrymation. Ciliary neuralgia, worse any attempt to use eyes. Burning in eyes. Intolerance of light.

Face

Livid red in the evening.

Head

Headache involving nerves going to eye. Clang like striking on metal in brain, waking him. Weight on vertex, aching and burning in temples and above eyes. Crushing feeling in vertex.

Lungs

Expectoration, horribly offensive (like bed bugs), loose, profuse, smeary, causing dyspnea. Cough compels him to sit up. Sticking pain through from left border of right breasts to between shoulders. Pains going backwards through chest.

PAGE 1294

Sleep

So sleepy, would fall asleep while standing at work.

Stomach

Belchings smelling of bed bugs. Everything tastes sweet. Desires sour things, milk or beer. Aversion to water.

Vertigo

Vertigo, dizzy when lying down.

Comments

This remedy was proved by Nenning. Although rarely used and very little known, it has a few striking symptoms. It is a right-sided remedy.

Phellandrium is also very useful in the treatment of bronchitis and tuberculosis. A continuous cough for hours in the morning accompanied by dyspnea and prostration. Coarse rales are present and they compel the patient to remain in a sitting posture. It relieves the cough even in the last stage of tuberculosis when cavity has formed in the lungs and there is edema of the limbs. Diarrhea, difficult respiration and profuse sweat have started as heralds to the end.

It has a special affinity for the female breasts, specially the right one. The nipples pain each time the child is put to the breast. The pain shoots inward and backward to the shoulder and to the sacrum.

Immediately after nursing she has intolerable pain in the right breast along the course of the lactiferous tubes, causing physical and mental distress, so that she loses her strength and is seized with fits of hysterical weeping.

This is a very useful information and will be of great use to mothers complaining bitterly of pain each time they nurse their babies. Another indication to remember is: that it

removes abnormal sleepiness in women after child-birth. Usher reports of such a cure with Phellandrium in a woman, who would go off to sleep standing over her wash-tub.

Phenacetinum

Pharmacy

Phenac. Phenacetinum. Para-acetphenatidine. Historical dose: All potencies.

History

Phenacet. belongs to the Aniline group and was introduced into old-school practice as a remedy in febrile states and neuralgias. **Planets:** Mars, Mercury.

Homeopathic

Clarke has added a symptom observed by on a young lady who had taken Phenac. for headaches: A circumscribed rash on both cheeks which came out red, lasted four days and then peeled and as soon as it was clear the process was repeated.

Clarke tried many remedies with varying success, but it finally disappeared under Alum. 30c, one powder at bedtime.

Clinical

Cyanosis. Face, eruptions. Fevers. Headache. Perspiration, excessive. Typhoid fever. Uremia.

SOURCES

Boericke. Clarke.

Phenobarbitalum

Pharmacy

Phenob. Phenobarbitalum. Historical dose: All potencies, 1c to 30c.

History

Phenobarbital is derived from phenylethylmalonylurea or gardenal. The proving was carried out by Vannier on four people, using potencies from 30c to 1c, two doses a day, for one week, decreasing the doses from potency to potency in all, over a period of ninety weeks. All the symptoms appeared with 4c, also with 3c, 2c and 1c.

Homeopathic

Chronic poisoning from phenobarbital and the other barbiturates, especially in cases of digestive or skin intolerance. Digestive complaints from intolerance to foods (fish, crustacea, cream). Eczema, especially weeping eczema.

The provers subject to this remedy are always allergic with liver deficiency and often there is an alternation of classical allergic phenomena in them: asthma, eczema, spasmodic coryza. In the child, prurigo coexists or alternates with acetonemia. Physical and psychological depression, tiredness and sleepiness. Nasal and pharyngeal itching.

Urticaria, either in patches, confluent or isolated. Vesicles dry or weeping when scratched with a syrupy liquid, which is usually cloudy. Itching edema. Itching and often vesicular erythema.

PAGE 1295

Clinical

Allergies. Asthma. Eczema. Edema. Erythema. Liver deficiency. Phenobarbital, poisoning. Urticaria. Vesicles.

Constitutions

These patients are phospho-fluoric or flouric, normal or with hypo laxity with irregular teeth and marked clinical manifestations. **Planets:** Moon.

Modalities

Better from diet, rest, calm and menses. Worse from rest from heat. Worse from eating fish, crustacea or cream. Worse from being contradicted. Worse from the heat in the bed at night and from air.

Symptoms

MIND

Mental depression alternating with hyper-excitability. Acrimonious. Memory weak. Hypersensitive.

Abdomen

Chronic or occasional hepatic deficiency. Abdominal heaviness. Intestinal sluggishness.

Blood

Acetonemia in the child.

Eyes

Eyes tearful, eyelids heavy, puffy, itching. Sight tires easily, especially after prolonged reading.

Face

Edema of the face. Impression of peripheral congestion of the face and hands.

Female

The menses ameliorate the complaints.

Food

Worse from eating fish, crustacea or cream.

Head

Headaches with heaviness in the head, at any time.

Mouth

Mouth tastes bitter.

Nose

Nasal and pharyngeal itching.

Skin

Urticaria. Hot feeling in the fine areas of skin. Itching with stinging and burning, changed little by heat or cold, attended by excessive scratching to the point of smarting and discharge. Erythema, more or less intense, locality varies. Scarlet fever type erythema. Vesicular eczema, usually oozing with syrupy or oily liquid.

Sleep

Easily tired, sleepy during the day, needs sleep.

Stomach

Nausea in the morning. Epigastric discomfort.

Compare

- (1) Urt-u. - Urticaria appears, especially after too much shell-fish and often is more marked on knees and elbows.
- (2) Apis - Rosy edema, burning and red of the eyelids. Always improved by the cold. With phenobarbital, it is somewhat whiter and unaffected by the cold.
- (3) Kali-c. - Swelling of the inner corner of the upper eyelids. He wants to be alone.
- (4) Belladonna - Erythema without edema, general symptoms more violent with intense redness, but no real itching.
- (5) Rhus-t. - Edema with herpetic vesicular eruptions, burning discharge from the eyelids. Need for movement and cold very marked.
- (6) Ran-b. - Blisters and itching, but no edema.
- Compare
- (7) Sulphur - Pruriginous redness with or without blisters with or without edema and frequent alternation with other allergic complaints or complaints caused by self-intoxication.

SOURCES

Julian.

Phlorizinum

Pharmacy

Phlor. Phlorizin. Phlorizinum. A substance discovered in the fresh bark of the Apple, Pear, Cherry and Plb. Solution. Trituration. Historical dose: All potencies.

History

Phlor. exists in fine, silky, four-sided, colorless needles, soluble in water. It has a bitter and slightly astringent taste and has been used in old-school practice as a remedy for intermittent fever.

While being administered for this it has produced glycosuria. This observation has led to its successful use by homeopaths in cases of diabetes. Successes with the 3x and 6c have been reported. **Planets:** Moon.

Homeopathic

A patient to whom it was given by Burnett accused him of having given him a preparation of apples. The man discovered it because it produced herpes along the dorsum of the penis, an effect which invariably occurred whenever he ventured to eat apples. V. Mering produced glycosuria in dogs with Phlor., but if Syzyg. was given simultaneously with Phlor., no glycosuria appeared.

PAGE 1296

Phosphoricum acidum

(phosphoricum acidum)

Pharmacy

Ph-ac. Phosphoricum acidum. Phosphoric acid. Dilution. The dilute acid of Britain forms the homeopathic 1x. In the U. S. the first solution is made of glacial Phosphoric Acid. Historical dose: Tincture and all potencies, first potency and higher.

History

Ph-ac. is less poisonous than Phos. Our chief knowledge of it is derived from Hahnemann's provings. These show a marked action on the emotional and sensorial faculties, a drowsy, depressed, apathetic state being produced, such as is not infrequently met with in typhoid fevers.

Ph-ac. affects the mind especially its emotional side in addition it influences sensory nerves, sexual system and bones. The common acid "debility" is very marked in this remedy, producing a nervous exhaustion. A congenial soil for the action of Ph-ac. is found in young people who grow rapidly and who are overtaxed, mentally or physically.

The keynote of the Ph-ac. stupor is that the patient is easily aroused and then is fully conscious. Indifference, prostrated and stupefied with grief, effects of disappointed love. Home-sick. The mind is confused, thoughts cannot be connected, thinking makes him dizzy.

Homeopathic

Ph-ac. is indicated whenever the system has been exposed to the ravages of acute disease, sexual excesses, grief, loss of vital fluids, we obtain conditions calling for it.

Heartburn, flatulence, Diarrhea, diabetes, rickets and periosteal inflammation.

Neurosis in stump after amputation. Hemorrhages in typhoid. Useful in relieving pain of cancer.

Weakness and debility common to all acids is very marked in this acid with free secretion, profuse urination, loss of fluids, sweatings etc. except with diarrhea. Mental debility first, later physical. Slowness of mind and special senses. Pains go to part lain on. Sensitive to light, sound and odors, which takes away her breath. Sense of pressure, as of causing weight in forehead in sternum in vertex in eyes, navel, breasts etc. Formication, at root of hair, along the spine, limbs.

Ph-ac. is useful to those young people who grow rapidly and who are over taxed mentally and physically.

When the immune system is ravaged from acute diseases, venereal excesses, grief, loss of vital fluids, it calls for this acid. Bruised soreness like growing pains.

Hemorrhages, blood dark. Bone diseases. Osteitis. Periosteitis. Decay. Rickets. Diabetes. Relieves the pains of cancer. Neurosis of stump after amputation, better from deep breathing. Coldness of parts.

Pining with emaciation. Neurasthenia. Formation of abscesses after fever. Gnawing pain in bones. Loose joints. External parts become black, senile gangrene.

Clinical

Amblyopia. Anemia. Asthma. Bedwetting. Boils. Brain-fag. Breast-feeding, disorders. Bronchitis, capillary. Chancre. Chilblains. Cholera. Menopausal flushes. Coccyx, pain. Condylomata. Corns. Coughs. Debility. Diabetes. Diarrhea. Dyspepsia. Eclampsia. Emissions. Enteric fever. Fatigue, chronic. Feet, sore. Flatulence. Ganglion. Gout. Gravel. Grief. Hair, loss. Headache, school children. Hectic. Herpes. Hip-joint disease. Home-

sickness. Impotence. Levitation. Lienteria. Locomotor ataxia. Love, disappointed. Masturbation. Mental weakness. Navel, pains. Neurasthenia. Nymphomania. Osteomyelitis. Perspiration, profuse. Phosphaturia. Physometra. Pimples. Polyuria. Pregnancy, nausea. Psoas abscess. Purpura. Rheumatism. Rickets. Sciatica. Scurvy. Self-abuse. Spermatorrhoea. Spinal decay. Sycosis. Syphilis. Tetters. Typhus fever. Ulcers. Urine, phosphates. Uterus, prolapsed. Varicose veins. Vertigo. Warts. Wens. Worms.

Causations

Ill effects of bad news, disappointed love, grief, chagrin injuries, shock. Separation from home. Loss of fluids. Sexual excesses. Operations. Over-lifting. Over-study. Shock.

Constitutions

Ph-ac. is suited to: (1) Persons of originally strong constitution weakened by loss of fluids, excesses, violent, acute diseases, chagrin or a long succession of moral emotions.

(2) Persons of mild disposition.

(3) Children and young people who have grown too rapidly, tall, slender and slim with pains in back and limbs as if beaten, growing pains. **Planets:** Moon, Sun.

PAGE 1297

Modalities

Better from warmth. Better after short sleep, Better from stool. Worse from loss of vital fluids, sexual excess. Worse from fatigue, convalescence from fevers. Worse from emotions, grief, chagrin, mental shock. Worse from home sickness, unhappy love, chronic fright. (Carc.) Worse from being talked to. Worse from cold drafts, music. Worse from talking, sitting, standing, Worse from lifting, surgery.

Symptoms

MIND

Listless and dullness. Impaired memory. (Anac.) Brain fag. Apathetic. Indifferent to everything. Settled despair. Aversion to talking. Cannot collect his thoughts or find the right word. Difficult comprehension. Effects of grief and mental shock.

Home-sickness with inclination to weep. Delirium with great stupefaction. Mild delirium, easily aroused. Settled despair. Hopelessness. Hysteria at change of life. Dread of future, broods over one's condition.

Abdomen

Distention and fermentation in bowels. Loud rumbling. Coldness. Flatus offensive garlicky. Aching in umbilical region. Enlarged spleen. (Cean.)

Back

Boring pain between scapulae. Pain in back and limbs, as if beaten. Paralytic weakness along spine. Formication along spine. Spondylitis of cervical vertebrae. Lumbar region heavy increases pain in legs. Burning along the spine. Fine stitches in coccyx and sternum. Boils on buttock.

Breasts

Milk scanty, health deteriorated from nursing. Infants vomit milk constantly. Sharp pressure in left breast.

Chest

Takes cold from drafts on chest. Chest troubles develop after brain-fag. Weak feeling in chest from talking. (Stann.)

Pressure or twisting behind the sternum, rendering breathing difficult. Dry cough from tickling in chest. Salty expectoration. Difficult respiration.

Ears

Nervous deafness after typhoid like fevers. Every sound re-echoes loudly in the ear. Intolerance of noise especially music, which causes stitches, even while singing himself. Shrill sound in ears on blowing the nose. Illusions of hearing, hears bell pealing. Earache on blowing nose. Roaring with difficult hearing.

Eyes

Blue rings around eyes. Lusterless, glassy, staring, sunken. Glassy, dull appearance. Lids inflamed and cold. Pupils dilated. Photophobia, averse to sunlight, sees colors as if a rainbow. Eyeballs feel large. Amblyopia in masturbators. Optic nerves seem torpid. Pain as if eyeballs were forcibly pressed together and into head. Yellow spots on conjunctiva. Loss of vision from masturbation. Sees rainbows.

Face

Pale, earthy, sickly. Tense as if white of an egg had dried on it. Sensation of coldness of one side of face. One side cold. Acne from onanism. Hairs of beard fall out.

Female

Menses too early and profuse with pain in liver. Uterus bloated, as if filled with wind. Itching, yellow leucorrhoea after menses. Dysuria during pregnancy.

PAGE 1298

Food

Craves juicy things. Thirst for cold milk, sodas, carbonated drinks, mineral water, ice water. Loss of appetite. Sour food and drinks disagree.

Head

Crushing weight on vertex, pain as if temples were crushed, worse shaking or noise. Worse shaking or noise. crushing headache. Pressure on top. Dull headache after sex from eye-strain. (Nat-m.) School girl's headache from over use of eyes. Hair thins out, turns gray early, falls out. Hair loss after grief or loss of fluids.

Heart

Palpitations in children and young persons who grow too fast after grief after masturbation. Pulse irregular intermittent.

Kidneys

Frequent, profuse, watery, milky. Diabetes. Urination, preceded by anxiety and followed by burning. Frequent urination at night. Phosphaturia. Burning in kidney region. Bedwetting during first sleep. Whey-like urine shortly before menses.

Limbs

Weak. Great debility. Pains at night, as if bones were scraped. Tearing pains in joints, bones and periosteum. Formication in limbs. Cramps in upper arms and wrists. Heavy forearms. Wens on hands between metacarpal bones. Itching, between fingers or in folds of joints. Stumbles easily and makes missteps. Burning below the waist. Numbness along radial nerve.

Liver

Liver, seems to be too heavy, painful during menses.

Lungs

Spasmodic tickling cough. Expectoration salty.

Male

Weakness and pollutions after sex. Nightly emissions with lascivious dreams. Seminal vesiculitis. (Ox-ac.) Sexual power deficient. Testes tender and swollen. Weak relaxed genitals, during sex, preventing emission. (Nux-v.) Prostatorrhoea, even when passing a soft stool. Eczema of scrotum. Edema of prepuce and swollen glans penis. Herpes. Sycotic excrescences. (Thuj.)

Mouth

Lips dry, cracked. Mouth dry. Taste of rotten eggs. Bleeding, swollen gums, retract from teeth. Painful nodosities on the gums. Teeth become yellow and feel dull. Teeth feel cold. At night, bites tongue involuntarily. Slimy tongue. Red streak in middle of tongue. Tongue swollen, dry with viscid, frothy mucus.

Nose

Bleeding. Bores fingers into nose. Itching. Nose swollen with red patches or pimples on tip of nose.

Rectum

Diarrhea in weakly, delicate children with rickets. Profuse, painless, dirty white, watery or lienteric stools, but little debility. Stools involuntary, escape with flatus, when moved in children. Stools odorless.

Painless diarrhea with much flatus, not specially exhausting.

Sensations

As if intoxicated. As if head would burst. As if feet going up. As if weight in head. As if brain crushed. Bones as if scraped with a knife. As if eyeballs too large. As if white of egg had dried on face. As if lower jaw were going to break. Nausea as if in soft palate in throat. Heavy load in stomach. Ants crawling over body. Uterus as if filled with wind. Tickling in chest as with a feather, as with down in larynx. Red-hot coal on arm and shoulder.

Skin

Clammy wrinkled. Pimples, acne, blood boils. Tendency to abscess after fevers. Painless ulcers with stinking pus. Formication in various parts. Burning red rash. Falling out of the hair. (Nat-m., Sel.) Tendency to abscess after fevers.

Sleep

Sleepy by day, hot and wakeful at night. Sleep deep but when aroused fully conscious during fevers. Short sleep better weakness. Lascivious dreams with emissions.

Stomach

Acidity. Sour risings. Nausea. Symptoms following sour food and drink. Pressure as from a weight with sleepiness after eating. (Fel tauri.)

PAGE 1299

Temperature

Low types of fever with dull comprehension and stupor. Sluggish painless fevers. Chilliness. Cold parts, one side of face, abdomen. Profuse sweat during night and morning. Fever with sweat.

Throat

Hoarseness. Hawks up tough mucus. Dryness of palate.

Vertigo

Vertigo, as if floating in the air, while lying in bed with ringing in the ears and glassy eyes, worse standing, walking. Vertigo toward evening, when standing or walking.

Comments

The legs tremble in walking and the limbs are as difficult to control as the thoughts. Many symptoms of vertigo are produced and one is peculiar. Ph-ac. has this: Sensation as if the feet were rising until he stood on his head.

This very symptom occurred in a patient of Skinner's suffering from small-pox. The disease had been cut short by Variol., when the patient, a lady, complained that her feet were rising to the ceiling and begged her nurses to keep them down. Ph-ac. speedily put her straight.

Ph-ac. causes illusions of the senses as well as of the sensorium, bells are heard, ciphers, sparks, etc., are seen. At the same time there is exalted sensitiveness to light, sound and odors, "odors take away his breath."

A remarkable effect was noted by Becher, one of Hahnemann's provers, namely, that the right pupil became widely dilate while the left remained normal: The more he strained the eye the wider the pupil became until the iris had almost disappeared. "Persistent, painless, watery diarrhea often containing undigested particles of food and which does not debilitate," is a keynote of Ph-ac.

Another characteristic in connection with the debility of Ph-ac. is that though the weakness is very great the patient is rested by a short sleep. (Phos. also has better by sleep, but not so markedly by a short sleep.) The copious discharges of Ph-ac. appear in the sweat and urine.

The keynote of the bedwetting of Ph-ac. is that the child passes a great quantity of urine. The polyuria and dry mouth and throat give leading correspondences for Ph-ac.

In diabetes and when there is in addition a history of sexual excess or of severe mental or emotional over-strain, the indications will be very clear. White, milky urine and also white stools, are very characteristic of Ph-ac. The urine may be passed clear but turns milky at once and is very offensive.

If flatulence is to be regarded as an excretion that is another instance of the excess of Ph-ac. There is distention and passing of flatus in large quantities, sometimes with odor of garlic.

A case quoted from H. Maandblad illustrates the action of Ph-ac. In gastric disorders. A married woman, 36, mother of eight children, had for some time been so melancholy and depressed as to be unable to fulfill her household duties.

There was no discoverable mental cause, though her condition had been made worse by a sudden death in the family. The beginning of the illness was apparently a weakness of the stomach: small appetite, always pain and distention after eating, the food seemed to lie long in the stomach undigested.

Ph-ac. 6x, ten drops three times a day, soon restored the patient.

In connection with the flatulence of Ph-ac. there is even bloating of the uterus with gas.

The menses are excessive and premature and there are many symptoms connected with the pregnant and puerperal state including debility from breast-feeding.

Ph-ac. has many respiratory symptoms and this is a keynote: "Weak feeling in chest from talking, coughing or sitting too long, better by walking." Hoarseness and nasal voice, Dyspnea, capillary bronchitis. The cough seems to be caused by tickling of a feather from middle of chest to larynx, low down in chest.

The cough is worse evening after lying down. The expectoration muco-purulent, salty, bloody offensive. Every draft of air causes fresh cold. Cough causes headache, nausea and vomiting of food, spurting of urine.

The hemorrhages of Ph-ac. are dark, profuse with passive hemorrhages. A peculiar symptom of Ph-ac. is involuntary biting of tongue in sleep. The sphincters are weakened and there is involuntary escape of feces and urine, the latter especially on coughing or movement.

Compare

(1) Carc., Chin., Nux-v., Mur-ac., Pic-ac., Lac-ac., Phos.

(2) *Oenothera biennis*, Evening primrose - effortless diarrhea with nervous exhaustion. Incipient hydrocephaloid. Whooping cough and spasmodic asthma.

(3) *Nectandra amara* - watery diarrhea, dry tongue, colic, bluish ring around sunken eyes, restless sleep.

Relations

SOURCES

Boericke. Clarke. Phatak.

Phosphorus

Pharmacy

Phos. Phosphorus. The Element. Saturated solution in absolute alcohol. Trituration of red amorphous Phosphorus. Historical dose: All potencies, third to thirtieth potency.

History

Phosphorus is the Light-bearer, Venus: the Morning Star. It was discovered in 1673 by Brandt, an alchemist of Hamburg and shortly afterwards by Kunkel in Saxony.

Teste, says that attempts were made to use Phos. in medicine immediately after discovery. Kunkel made it into his "luminous pills," and Kramer claimed to have cured with it diarrhea, epilepsy and malignant fevers.

Teste gives a list of old-school cures, which include: Continuous, bilious and intermittent fevers, general edema, measles, two cases of pneumonia of left lung with ataxic symptoms, chronic rheumatism of the legs, strokes, hydrocephalus, periodic headaches, catalepsy, epilepsy, chronic lead poisoning, a list which shows a very good idea of the range of action of Phos.

Hahnemann's proving brought out the fine indications without which the generals are of little service and to Hahnemann's symptoms have been added those of later provings and of numerous cases of poisoning and the effects on workers in match factories, especially necrosis of the lower jaw.

The vapor given off by unignited Phos. is Phosphorus oxide. The jaw affection, called "The phossy-jaw" by the work people themselves is accompanied by profound adynamia and not infrequently ends in death.

The form of the disease differs according to whether the upper or lower jaw is attacked. In the former case it pursues generally a chronic and mild course, ending in exfoliation,

scars and cure. In the latter the necrosis may be either acute or chronic, but is always severe and the patients usually die of "tuberculosis fever.

PAGE 1301

Homeopathic

Phosphorus irritates inflames and degenerates the mucous membranes. It inflames the serous membranes, inflames spinal cord and nerves. Phosphorus causes paralysis, destroys bone, especially the lower jaw and tibia. It disorganizes the blood, causing fatty degeneration of blood vessels and every tissue and organ of the body. It gives rise to hemorrhages and hematogenous jaundice.

Phos. produces a picture of destructive metabolism. Causes yellow atrophy of the liver and sub-acute hepatitis. Ill effects of Iodine and excessive use of salt. Great sensitivity to external impressions to light, sound, odors touch, electrical changes, thunder-storms. Suddenness of symptoms, sudden prostration, faints, sweats, shooting pains, etc.

Polycythemia. Blood extravasations, fatty degenerations, cirrhosis, decay, are pathological states often calling for Phosphorus. Inflammation of respiratory system. Muscular pseudo-hypertrophy, neuritis. Paralytic symptoms. Worse lying on left side. Tertiary syphilis, skin lesions and nervous debility. Scurvy. Pseudo-hypertrophic paralysis. Ataxia and adynamia. Osteomyelitis. Bone fragility.

Insidious onset, gradually increasing debility, ending in severe or rapid disease.

Hemorrhages, recurrent, vicarious, small wounds bleed much. Blood streaked discharges.

Craves ice cold drinks and food. Purpura hemorrhagica. Recurrent effects colds, croup etc. Great susceptibility to external impressions, light, sound, odor touch, electrical changes, etc.

Suddenness of symptoms, sudden, prostration, faints, weak spells, sweats, shooting pains. Uncertain involuntary acts. Emptiness in chest, stomach etc. Tightness in chest, cough etc. Pain or soreness in spots. Paralysis, pseudo-hypertrophic of muscles of insane internal, throat, rectum. Internal, itching, tickling, throbbings here and there. Numbness. Burnings. Jerking, localized, subsultus.

Joints, stiff with little pain, sprains, easily dislocated, weak spells in joints, worse exertion.

Symptoms due to heart and lung disorders. Decay of the bones, spine, upper jaw. Hard swelling here and there. Osteomyelitis. Exostoses. Bone fragility. Polyps, easily bleeding. Jaundice, as a concomitant, hematogenous.

Hemophilia. Polycythemia. Erectile tumors. Pyemia. Acidosis. Emaciation. Spasms on the paralyzed side. Petit mal. Epilepsy with consciousness. Totters while walking. Human barometer. Flabby muscles. Healed wounds break out again and bleed. Lipoma. Cancer.

Clinical

Alopecia areata. Amaurosis. Amblyopia. Anemia, pernicious. Anus, fissure. Arteries, disease. Asthma. Bone, diseases. Brain, disorders. Breast, abscess. Breast-feeding, disorders. Bronchitis. Bruises. Cancer. Cataracts. Catarrh intestinal, nasal. Chilblains. Chlorosis. Chorea. Ciliary neuralgia. Coccyx, pain. Colds. Constipation. Corpulency. Cough. Croup. Dandruff. Diabetes. Diarrhea. Dropsy. Epilepsy. Esophagus, pain. Exophthalmos. Exostosis. Eye disorders. Fainting. Fatty degeneration. Fistula.

Flatulence. Fungus hematodes. Gastric fever. Gastritis. Glaucoma. Gleet.

Gums, ulceration. Hemoglobinuria. Hemorrhages. Headaches. **Heart**, degeneration. Hepatitis. Hydrocele.

Hydrocephalus. Hysteria. Impotence. Infertility. Injuries. Intussusception. Jaundice. Keratitis. Laryngitis. Lightning, effects. Liver, disorders. Locomotor ataxia. Marasmus. Menorrhagia. Menstruation, disorders. Morphine. Musca volitantes. Nevus. Nails, disorders. Neuralgias. Nightmares. Nosebleeds. Nymphomania. Osteomalacia. Osteomyelitis. Osteoporosis. Pancreas, disorders. Paralysis. Periostitis. Petit mal. Plague. Pneumonia. Polyps. Pregnancy, vomiting. Proctitis. Progressive muscular atrophy. Pruritus ani. Psoriasis. Puerperal convulsion. Purpura. Pylorus, thickened. Retinitis. Rheumatism, paralytic. Rickets. Screaming. Scurvy. Sexual mania. Shiverings. Sleep disorders. Sleepwalking. Spine, curvature. Spleen disorders. Sprains. Stammering. Syphilis. Syringomyelia. Throat mucus. Tobacco effects. Trachea, tickling. Tuberculosis. Tumors, cancerous. Typhus fever. Ulcers. Urethra, stricture. Vaccinosis. Variola. Voice, loss. Whitlow. Wounds. Yellow fever.

Causations

Ill effects of anger, fear, grief, worry, exposure to drenching rains, washing clothes tobacco, having hair cut. Iodine. Excessive use of salt. Electrocutation.

Constitutions

The types of constitution in which Phos. has been found particularly suitable are strongly marked: (1) Tall, slender persons of sanguine temperament, fair skin, blonde or red hair, quick, lively perceptions and sensitive nature. (2) Young people who grow too rapidly and are inclined to stoop, chlorotic, anemic. (3) Persons of waxy, translucent skin, half anemic, half jaundiced. (4) Tall, slender, narrow-chested, tubercular patients, delicate eyelashes, soft hair. (5) Tall, slim, dark-haired persons, especially women, disposed to stoop. (6) Nervous, weak persons who like to be magnetized. (7) Hemorrhagic patients, slight wounds bleed profusely. **Planets:** Moon, Mercury.

PAGE 1302

Modalities

Better in dark, lying on right side, cold food, cold, open air, washing with cold water, sleep. Better from eating, massage, rubbing, magnetic, sitting, dark. Worse from touch, physical or mental exertion, warm food or drink, twilight, evening, ascending stairs. Worse from the change of weather. Worse from windy, cold, thunderstorms, lightning, putting hands in cold water from getting wet in hot weather. Worse from lying on left or painful side, on back. Worse from emotions, talking, odors, light, warm food, puberty, salt, sexual excess, loss of fluids, shaving.

Symptoms

MIND

Anxious, fears being alone at twilight of ghosts, about future of thunderstorms. Fearfulness, as if something were creeping out of every corner. Quickly prostrated by unpleasant impressions. Timid and irresolute. Amorous, will uncover his body and expose his genitals. Excitable, impressionable. Melancholy, disinclined to work, study, converse. Weary of life. Apathy indifference even towards her own children.

Insanity with exaggerated idea of one's own importance. Clairvoyant. Weeps before menses. Wants sympathy.

Anxious, restlessness, patient cannot sit or stand still for a moment especially in dark or twilight. Great tendency to start. Over-sensitive to external impressions. Loss of memory. Paralysis of the insane. Ecstasy. Dread of death when alone. Brain feels tired. Restless, fidgety.

Abdomen

Feels cold, (Caps.). Feels cold. Rubs abdomen for relief. Sharp, cutting pains. A very weak, empty, gone sensation felt in whole abdominal cavity. Large yellow spots on abdomen. Pancreatic disease, diabetes. Pressure above epigastrium. Sore spot in pit of stomach. Flatulent colic, worse hot drinks.

Back

Burning in back. Back pains as if broken, impeding all motion. Cramp, burning, between scapula. Spinal irritation worse heat. Heat between the shoulder-blades. Weak spine. Pain forward from left scapula. Burning spot in lumbar region better rubbing. Pain in sacrum after confinement. Stitching pain from coccyx up the spine to occiput worse during stool.

Breasts

Amenorrhea with milk in breast. Stitching pain in breasts. Left infra-mammary pains. Nipples, hot and sore. Fistulous tracks after breast abscess. Suppuration of breasts, burning, water offensive discharge. Cancer of the breast.

Chest

Burning pains, heat and oppression of chest. Tightness across chest, great weight on chest. Sharp stitches in chest, breathing quickened, oppressed. Chest, full, heavy, pains into throat or right arm or alternating sides, stitches in left upper chest, rattling worse cold drinks. Much heat in chest. Dry hot feeling in chest with cough, at first dry then loose. Yellow spots on chest.

Ears

Hearing difficult, especially to human voice. Echoes and reverberations of sounds, especially music. (Caust.) Polyps in the ear. Otitis, media. Mastoiditis. Dullness of hearing after typhoid. As if foreign bodies were lodged. Something seems constantly in front of ears.

Eyes

Hollow with blue rings around eyes. Lachrymation in wind. Photophobia. Eyeballs feel large, stiff. Choroiditis. Fatigue of eyes and head even without much use of eyes. Edema of lids and about eyes. Yellow. Pearly white conjunctiva and long curved lashes. Pain in orbital bones. Paresis of extrinsic muscles. Amaurosis from sexual excess. Glaucoma. Cataract. Vitreous opacities. Atrophy of optic nerve. Diplopia, due to deviation of the visual axis. Partial loss of vision from abuse of tobacco, sexual excess, lightning.

Narrow field of vision. Sensation as if everything were covered with a mist or veil or something pulled tightly over eyes. Green halo about the candlelight. (Osmium.) Black points seem to float before the eyes. Patient sees better by shading eyes with hand. Letters appear red. Colored vision then migraine. Thrombosis of retinal vessels and degenerative changes in retina. Retinal trouble with the lights and hallucination of vision.

Eyes turned outwards.

PAGE 1303

Face

Pale, sickly, complexion, blue rings under eyes. Hippocratic countenance. Lips, blue, dry, cracked, sooty, scabby. Skin as if too tight. Tearing pain in facial bones, circumscribed redness in one or both cheeks. Swelling and necrosis of lower jaw. (Amphisbena, Hecla lava) Burning heat and redness of cheek. Skin burns on shaving.

Female

Metritis. Chlorosis. Phlebitis. Frequent and profuse or short uterine bleeding in between the periods in nursing women. Slight hemorrhage from uterus between periods. Menses too early and scanty, not profuse, but last too long. Weeps before menses. Leucorrhea, profuse, smarting, corrosive instead of menses. Amenorrhea with vicarious menstruation with blood spitting, bleeding from the anus or hematuria or with milk in breast.

Nymphomania. Uterine polyps. Cancer of the uterus. Infertility from excessive voluptuousness or with profuse or too late menses. Vagina numb during sex in spite of sexual excitement. Violent sexual desire during pregnancy and breast-feeding.

Food

Craves cold, iced drinks. Desires salt, acids and spicy foods. Craves chocolate, candies. Hunger soon after eating. Hunger, ravenous, nightly, before the attack of sickness. Bad effects of eating too much salt. Unable to drink water during pregnancy, the sight of water makes her vomit, has to close her eyes when taking bath.

Head

Heat comes up from spine. Neuralgia, parts must be kept warm. Burning pains. Chronic congestion of head. Brain-fatigue with coldness of occiput. Softening of the brain with formication, numbness of limbs, feet drag. Headaches, heavy, over one eye with hunger. Burning temples. Vertex, throbs, hot after grief. Congestion to head. Feels as if pulled by hair. Skin of forehead feels too tight. Dandruff, copious. Itching of scalp. Falling of hair in large bunches in spots.

Heart

Palpitations with anxiety, while lying on left side. Palpitations from least excitement. Pains into right arm. Dilatation of the heart from fatty degeneration or endocarditis.

Heart weak. Pulse rapid, small and soft. **Heart** dilated, especially right.

Feeling of warmth in heart.

Kidneys

Bladder is full without urging. Frequent urination. Diabetes, sugar in urine. Hematuria in acute nephritis with jaundice. (Canth.) Urinates pure blood. Urine, profuse pale, watery, then weakness. Turbid, brown with red sediment. Pellicle on urine. Albuminuria, periodical.

Limbs

Arms and hands become numb. Ascending sensory and motor paralysis from ends of fingers and toes. Can lie only on right side. Can scarcely hold anything with his hands. Hands and arms cold during diarrhea. Joints suddenly give way. Stitches in elbow and shoulder joints. Weakness and trembling from every exertion. can scarcely hold anything with his hands. Tearing left shoulder at night. Paralyzing stitches in hips, then up back. Pains in tibiae, periostitis. Post-diphtheria paralysis with formication of hands and feet. Ankles, as if to break, easy dislocation. Burning of feet. Suppressed foot sweat. Icy cold feet. Toes cramp.

Liver

Liver congested. Acute hepatitis. Acute yellow atrophy of liver. Fatty degeneration. (Carbon tetrachlor., Ars. Chlor.) Jaundice with pneumonia or brain disease during pregnancy from nervous excitement, malignant, hematogenous.

Lungs

Oppressive breathing, worse least motion. Tight suffocative breathing, worse cough. Hard, dry, tight, racking cough. Congestion of lungs. Pneumonia of left lower lung. Pneumonia with oppression, worse lying on left side. Whole body trembles with cough. Sputa rusty, blood-colored or purulent. Sputum, easy, frothy, rusty bluish, salty, sour, sweetish or cold. Tuberculosis in tall, rapidly-growing young people. Repeated hemoptysis. (Acal.) Nervous coughs provoked by strong odors, entrance of a stranger, worse in the presence of strangers, worse lying upon left side. Asthma after the cough. Congestion.

Male

Lack of power. Irresistible desire, but impotent. Involuntary emissions with lascivious dreams. Lascivious, strips himself, sexual mania. Erections feeble or none at all. Constant discharge of thin, slimy, colorless fluid from urethra.

Mouth

Gums, bleeding easily, sore behind central incisors. Persistent bleeding after tooth extraction. Itching of palate. Abscess of hard palate. Taste sour after milk, bitter, sweetish, when coughing. Tongue dry, smooth, red or white, not thickly coated. Persistent bleeding after tooth extraction. Sore mouth from nursing. Teeth numb. Toothache from washing clothes from having hands in cold or warm water. Mouth drawn to the left. Speech difficult stutters. Salivation, salty or sweetish. Nursing sore mouth with sore breast.

Nose

Nosebleeds in children, youths. Nosebleed instead of menses. Nosebleed, then pneumonia with cough during stool. Chronic catarrh with hemorrhages, handkerchief is always bloody. Coryza, alternately fluent and dry, on alternate sides. Sneezing, worse odors, smoke with dyspnea, causes pain in the throat.

Sneezing and coryza on putting hands in water. Polyps, bleeding easily. (Calc., Sang.) Over-sensitive smell. Periostitis of nasal bones. Foul imaginary odors. (Aur.) Nervous fan like motions of alae nasi. (Lyc.) Swollen, red, shiny. Decay. Ulcers in the nose.

Rectum

Discharge of blood from rectum during stool. Tearing in anus, better warm cloth. Urging for stool, on lying on left side. Very fetid stools and flatus. Long, narrow, hard like a dog's. Difficult to expel. Desire for stool on lying on left side. Painless, copious, gray, bluish, watery, pouring out, nervous involuntary after fright, exhausting diarrhea. Green mucus with grains like sago. Involuntary, seems as if anus remained open. Great weakness after stool. White, hard stools. Bleeding hemorrhoids. Alternating diarrhea and constipation in old people. Dysentery. Anus open, prolapsed. Stricture of rectum, stools flattened. Burning in rectum.

Sensations

As if about to die. As if immersed in hot water. Anxiety as if below left breast. As if he had been lying at night with head too low. As if everything had stopped in head. As if chair were rising. As if eyes would be pressed out or pressed down by weight about them.

As if painful nodes under scalp. As if great weight lying on middle of sternum. Back as if broken. As if quicksilver moved up and down spinal cord. Coccyx as if ulcerated. Soles as if he had walked too much. Feet as if asleep. Ankles as if sprained.

Skin

Ecchymosis. Purpura hemorrhagia. Wounds bleed very much, even if small, they heal and break out again. Jaundice. Little ulcer outside of large ones. Scurvy. Thin foul, bloody pus. Ulcers bleed during menses. Brownish or blood red spots here and there. Petechiae. Fungous hematodes and excrescences. Fatty cysts.

PAGE 1305

Sleep

Great drowsiness, especially after meals. Coma vigil. Sleepy by day, sleepless before midnight. Sleepless, cannot close the eyes from internal heat. Sleeplessness in old people. Short naps ameliorates. Short naps and frequent wakings. Sleepwalking. Feels in the morning as if he had not slept enough. Vivid dreams of fire or hemorrhage. Lascivious dreams. Goes to sleep late and awakens weak.

Stomach

Regurgitates ingesta, by mouthfuls. Pain in stomach, better cold drinks. Waterbrash. Sour taste and sour belchings after every meal. Belching large quantities. of wind after eating. Throws up food by the mouthfuls. Vomiting, water is thrown up as soon as it gets warm in the stomach. Vomiting of bile, blood, coffee grounds. Post-operative vomiting after chloroform. Ulcer of stomach. Burning in stomach worse eating. Empty hollow feeling in stomach, as if hanging down worse emotions. Tremors, fluttering or something rolling over in stomach. Nausea on putting hands in warm water. Stomach cold as if frozen.

Temperature

Chilly every evening in warm room. Cold knees at night. Craves ice-water during the chill. Burning heat, up back. Hectic fever with small, quick pulse, viscid night-sweats. Stupid delirium. Profuse perspiration. Sweat, early morning, sticky without relief. Painless fevers.

Throat

Dryness in pharynx and fauces. Dry, glistening. Pain in throat on coughing. Larynx, raw, sore, furry, painful on speaking. Voice, low, hoarse worse morning and evening, croupy, then bronchitis. As of a cotton or something hanging in. Burning in esophagus. Stricture of esophagus. Tonsils and uvula swollen, uvula elongated. Hoarseness, worse evenings. Larynx very painful. Clergyman's sore throat, violent tickling in larynx while speaking. Aphonia, worse evenings with rawness. Cannot talk on account of pain in larynx. Cough from tickling in throat, worse cold air, reading, laughing, talking from going from warm room into cold air. Sweetish taste while coughing.

Vertigo

Vertigo of the aged after rising. (Bry.) Vertigo with faintness. Vertigo, accompanies many symptoms of aged, floating, on waking, whirling, better stool.

Comments

Phos. profoundly affects the nutrition and function of every tissue, notably the hardest (bone) and the softest (nerve and blood). It causes irritation, weakness, exaltation of all the senses and later a typhoid state and fatty degeneration.

Pareira has observed in phosphorus workers "a peculiar sallow, bloated complexion with dull expression of eye and gastric derangement," when there was no affection of the jaws.

Wagner found Phos. symptoms long before local disease appeared, e.g. , cardialgia, anorexia, eructation of gas smelling of Phos., also dizziness, faintness and cachectic appearance.

The first symptoms in the jaws are tearing pains, the teeth being sound, swelling and suppuration of the gums and lessening of the teeth follow and the bone becomes denuded. Langenbeck objects to the term "necrosis," stating that it is a periostitis in which bony deposit occurs, enclosing the jaws more or less as in a sheath. There is no exfoliation. This osteo-periostitis may arise from rheumatism.

Phosphorus burns are among the most painful of all burns and the burning sensations of the poisonings are prominent also in the provings:

"Glowing sensation throughout the epigastrium and chest." "A flame seemed passing through me." "Warming sensation right side of heart and below left clavicle.

PAGE 1306

This heat spread to apex of left scapula and to acromion, when it left the heart." "From 11 a. m. until 4 p.m. remarkable numb feeling in left leg from knee to toes, sometimes sensation as if hot blood flowed into it."

In cases of acute poisoning the most remarkable effect noted is acute fatty degeneration of the liver and engorgement of the lungs. At first there is tenderness of the liver, but as it shrinks this passes away. The right lung is more affected than left.

The symptoms of acute Phos. poisoning are exceedingly painful if consciousness is retained, violent tearing pains in esophagus, chest, stomach, vomiting and diarrhea, rectal, bladder, uterine tenesmus, bloating of abdomen, sensitiveness to touch, hemorrhages from all offices. Death may take place in a few hours or it may be delayed for months.

A man, 48 inhaled vapor of burning Phos. Among his symptoms were: A sensation as if something twitched under skin or was creeping between skin and flesh. Twitching of single bundles of tissues at different times like playing on a piano. Tongue when speaking often refuses to move, so that he stammers.

E. R. Heath had some decidedly "phosphorescent" symptoms. Darting, cutting pains, causing much distress, starting from different points and flashing over whole abdomen, imagined an aurora borealis and seemed to hear distinctly voices shouting "Beautiful, oh! was not that splendid?" as the pains became more severe and lasting.

He sprang from bed and tried to collect his thoughts, had numbness all over with sensation of myriads of needles slightly pricking him. Throat dry and parched, a flame seemed to pass through him. Feet seemed glued to the floor.

With great difficulty he reached the vessel and as soon as the bowels began to act the pains changed to cramps. Stools were like scrapings of intestines. Almost constant with tenesmus, for over two hours after which he laid down in bed, weak, sore, almost helpless.

In fevers of typhoid type and in pneumonia Phos. has an important place. It is indicated especially when the morbid action becomes localized in the right lung, particularly the lower lobe.

Hard, dry cough, rusty sputa, worse at twilight and until midnight, worse lying on left side, better lying on right side, abdomen distended, sore, very sensitive to touch, stools offensive, bloody involuntary, the anus appearing to remain open.

The delirium is low, muttering, stupid or violent or there may be a state of ecstasy or odd ideas, that his bones are in fragments and he cannot fit the pieces together.

As a leading constituent of nervous matter Phos. has a deep action on the organ of mind and sensation. It produces an excitable condition, exaltation of mental faculties and the condition which follows over-exertion. The mind like the special senses is too excitable and impressionable.

Easily angered and becomes vehement, actually gets beside himself with anger and suffers physically in consequence. At other times anxious and restless, especially in the dark and at twilight (the restlessness of Phos. is universal, patient cannot sit or stand still a moment, it belongs to the stage of irritation and is succeeded by apathy if the condition is not arrested).

Imagines he sees faces grinning at him from the corners of the room. Such conditions are found in cases resulting from losses of fluids, over-work of brain, sexual excesses and abuse and take shape in general paralysis of the insane with mania of grandeur and in a stroke and its sequel in Duchenne's pseudohypertrophic paralysis in locomotor ataxia and other paralyzes.

A very characteristic condition of Phos. in nervous cases is fibrillary twitching of individual bundles of tissues in muscles. Numbness and formication in paralyzed limbs indicate it in hemiplegia and paraplegia. Spasms on paralyzed side.

PAGE 1307

In other cases the burning pains of Phos. are prominent: burning between the scapula, burning in spots along the spine, feeling of intense heat running up the back (no other remedy has exactly this symptom).

The uncertain gait, neuralgic pain and fuzzy feeling of the feet, give the correspondence with locomotor ataxia, when the conditions correspond. Epilepsy from masturbation. Petit mal: epilepsy with consciousness.

Clarke cured mainly with Phos. 1,000c a case of spinal decay with paralytic symptoms in a lady aged 67. That is, he cured the decay and removed the paralysis, though the curvature remained. There was a history of a strained back thirty-five years before and of lumbago and sciatica five years before I saw her.

She had many pains in the scapula and chest and could not walk unless supported about the waist. Incidentally Phos. set up a symptom of its own: Dryness of mouth, lips and throat.

Phos. has burning thirst for cold water, cold water relieves, but as soon as it becomes warm in the stomach it is vomited. This is one of the keynote of Phos. and distinguishes it from all other remedies in cases of vomiting. Desire for cold foods and preference for cold meat is very characteristic of Phos. and the cold food like the cold drink, may be vomited as soon as it becomes warm inside.

Ice cream ameliorates the gastric pains. There is nausea on putting hands into warm water, sneezing and coryza from putting on hands in water. Regurgitation of ingesta in mouthfuls.

During pregnancy the sight of water causes vomiting. The appetite of Phos. is remarkable: Must eat often or he faints. Hungry soon after a meal, hungry in the night, must eat.

Craving for salt (Phos. remedies the effects of excessive salt-eating). The sinking, faint feeling of Phos. is felt in the whole abdominal cavity, also in head, chest and stomach.

The stools of Phos. are peculiar, whether constipated or diarrhea: Long tough, hard feces (like a dog's), voided with great difficulty and straining. Diarrhea as soon as anything enters the rectum, profuse pouring away as from a hydrant, watery with sago-like particles with sensation as if the anus stood open involuntary during cholera time, painless, morning of old people, bloody stool, blood-streaked stool, stool like shreddy membranes. With the stool there is burning in the anus, notably stitches shooting up rectum.

Another very characteristic burning of Phos. is burning palms, cannot bear to have the hands covered. Flashes of heat beginning in hands and spreading to face.

The fever is more of the yellow fever, typhus or typhoid, nervous or hectic, type. In intermittents when there is heat at night beginning in stomach, faint and hungry in night, heat of hands.

There is also chilliness towards evening, icy coldness of hands, knees and feet, even in bed. Sweat is anxious, profuse, exhausting on slightest exertion, profuse at night, cold and clammy, smelling of sulphur or of garlic.

Phos. corresponds to yellow fever in many particulars, disorganization of the liver and blood with jaundice, hemorrhages. It has caused acute fatty degeneration of the liver and corresponds also to fatty degeneration of pancreas with gastric symptoms and oily stools. Fatty and amyloid degeneration of the kidneys.

Phos. stands at the head of hemorrhagic and corresponds to the hemorrhagic diathesis. The blood loses its coagulability. Very small wounds bleed profusely. Blood-streaked discharges are very characteristic when from lungs, nose, bowels or other orifices. Hemorrhoids. Menses are more profuse and longer-lasting than usual. There may be vicarious menstruation in the form of hemoptysis, nosebleed or hematuria.

PAGE 1308

Left ovarian pain. Leucorrhoea which causes blisters. Sexual excitement is great in both sexes, to the extent of satyriasis and nymphomania. Frequent erections in men and sexual thoughts entirely beyond the patient's control. Erections in spite of efforts to control passion in young men. Impotence from over-indulgence or from celibacy.

The female breasts are the seat of many burning, shooting, cramping pains and Phos. has proved a leading remedy in breast abscess and fistula. The characteristics are: Erysipelatous appearance, red streaks starting from opening, thin, ichorous discharge.

The hemorrhagic action of Phos. is seen in many forms of pulmonary hemorrhage and congestion: blood-streaked or rusty sputa, tasting salty, when patients with delicate chests bring up phlegm tinged with blood whenever they take cold Phos. will generally clear up the case.

Tuberculosis florida may also need Phos. It has also a "stomach." or "liver." cough, cough comes on after eating and starts from a tickling in pit of stomach. Cough worse when strangers enter the room. Cough worse from strong odors (part of the general sensitiveness of the drug).

Bronchial catarrh better in all grades may require it. Cough causes tearing pain under sternum as if something was being torn loose. Suffocative pains in upper part of chest with constriction of larynx and engorgement of lungs, mucus rales, panting and labored breathing, even emphysema. After the cough an asthmatic attack.

W. A. Nicholas reports the case of T. B., 51, whom he saw after a four months' illness, which began with congestion of the brain on the sudden death of his wife and was

followed by bronchitis. During all this time he was heavily drugged. A rather long walk brought on a severe attack of angina pectoris. Bell. 1x gave much relief.

Nicholas noticed the patient at times put his hand to the back of his neck. Phos. 1c relieved entirely.

Phos. corresponds to headache and other sufferings from grief. Hot vertex after grief. It has shocks in occiput, coldness in cerebellum, congestion of brain seeming to rise from spine into head. Phos. has "splitting headache caused by cough." Neuralgic pains of many kinds and impending paralysis. The attacks are induced by mental exertion, worry, washing clothes and are worse by music, noises, strong odors.

Phos. affects all parts of the eye, retina, choroid, vitreous and crystalline lenses, cornea and conjunctive. It has arrested cataract and glaucoma and cured retinitis albuminuria from suppressed menses.

The leading symptoms are: Colors appear black before the eyes. Always sees green. Halo round candle. Letters appear red while reading. As if a gray veil over everything. Blindness after typhoid, sexual excess, loss of fluids, lightning. Twitching of lids. Pustule on cornea. Burning pains.

The characteristic skin of Phos. is waxy and either clear and pale or yellow. Under a "Phosphorus treatment" which was in vogue a generation ago, patients had a peculiarly waxy, fine, clear complexion and in one case which came under my observation there was also very marked enlargement of the liver.

In a case of rheumatism in an old lady who had waxy pallor, Cooper gave Phos. and set free all the joints. All kinds of eruptions may be set up. Exanthema with pustules like small-pox, ulcers, psoriasis, lichen, eczema, blood boils, purpura.

Hansen cured a case of purpura in a girl of ten. The disease began with loss of appetite and pains in the stomach, but as soon as the purpura spots appeared the pains ceased and the appetite returned. The inner aspects of the thighs were affected. Phos. 2c cured.

The ulcers of Phos. bleed easily at the slightest touch and open cancers or fungus hematodes with this characteristic have been cured with Phos. "Large ulcers surrounded by smaller ones."

PAGE 1309

Ulcers affecting the nails. inflammation and eruptions about joints. Fistulae with callous edges from glands. The joints most affected by Phos. are the hip and knee. The left side of the lower jaw is more affected than the right. Decay and exostoses of spine and other parts have been cured with Phos.

Walker cured with Phos. 6c a large exostosis of the femur which had been pronounced osteosarcoma by old-school authorities.

There are some forms of rheumatism which only Phos. can cure. These are characterized by great stiffness of the joints, more stiffness than pain. A drawing, tearing, tight feeling in parts. Stiffness of old people. Paralytic rheumatism from exposure to rain. The tight sensation appears in the girdle pain of spinal affections, tightness of skin of face and forehead.

Allied to the rheumatic symptoms of Phos. is its sensitiveness to effects of storms, especially thunderstorms. Phos. has cured more cases of headache always coming on when thunderstorms are about than any other remedy in my experience. It has also cured blindness from lightning stroke.

Dr. Mills relates a typical case of thunderstorm effect: Mrs. F., tall, thin, dark of mild and gentle disposition, was seen by the doctor during a thunderstorm. He found her sitting on the stairs, trembling and cold and bathed in cold, clammy sweat, full of nervous dread and almost beside herself. One dose of Phos. 100,000c cured. Some weeks later she witnessed a worse storm with complete unconcern.

Suddenness is a feature of Phos.: Sudden prostration such as may occur in diphtheria, measles, scarlatina or any disease in which the system has sustained a profound shock. The left side is somewhat more affected than the right, the venous more than the arterial system.

Compare

- (1) Tub. follows Phos. well and complements its action.
- (2) Phos. hydrogenatus - crumbling of teeth, hyperesthesia, locomotor ataxia.
- (3) Amphisbena - right jaw swollen and painful.
- (4) Thymol - typical sexual neurasthenia, irritable stomach, aching throughout lumbar region, worse mental and physical exertion.
- (5) Calc., Chin., Ant-t., Sep., Lyc., Sulph.
- (6) For pneumonia, Pneumococin. Pneumonia and paralytic phenomena, pleuritic pain and pain in ilio-cecal region (Cartier).

Relations

Antidote to: Phos. Poisoning: Turpentine with which it forms an insoluble mass. Also Kali permang. Complementary: Ars., All-c., Lyc., Sil., Nux-v. Phos. antidotes the nausea and vomiting of chloroform and ether. Sanguisuga 30c - Leech - persistent hemorrhages, effects of use of leeches. Phosph. pentachloride - great soreness of mucous membrane of eyes and nose, throat and chest sore. Incompatible: Caust.

SOURCES

Boericke. Clarke. Phatak.

Phosphorus hydrogenatus

(phosphoretted hydrogen)

Pharmacy

Phos-h. Phosphoretted Hydrogen. Phosphorus hydrogenatus. Phosphine. Solution.

Historical dose: All potencies.

History

Breunar relates the effects of inhaling this gas, given off in the preparation of some "hypophosphites." **Planets:** Moon, Mercury.

Homeopathic

The Phos-h. symptoms began to appear after three months in vision disturbances, diarrhea, paralysis and a complete state of locomotor ataxia, worse on closing eyes. The teeth crumbled without pain. Speech and swallowing were difficult. The diarrhea was accompanied by weakness of the anus.

Clinical

Amblyopia. Anus weak. Diarrhea. Hyperesthesia. Locomotor ataxia. Paralysis.

Stammering. Teeth, crumbling.

Compare

Phosphorus muriaticus

Pharmacy

Phos-m. Phosphorus muriaticus. Phosphorus pentachloride. Solution. Historical dose: All potencies.

History

J. Meredith has recorded the effects observed on a science student from grinding up this salt and inhaling the fumes. **Planets:** Mercury.

Homeopathic

Eye-soreness, coryza, sore throat and chest with difficult breathing, were the main symptoms. They lasted fourteen days from the exposure and were cured by Bell. 3x internally and a one per cent Iodine lotion locally as a compress.

Clinical

Asthma. Coryza, Ophthalmia.

SOURCES

Clarke.

Physalia pelagica

(portuguese man-of-war)

Pharmacy

Physala-p. Physalia pelagica. The Portuguese Man-of-war. N. O. Physophoridae.

Historical dose: All potencies.

History

G. Bennett was stung by the animal on second and ring fingers. **Planets:** Mars.

Homeopathic

The sensation was as if stung by a nettle, succeeded in a few minutes by violent aching, affecting the finger-joints and spreading up arm involving elbow-joint. The pain spread to the shoulder-joint and pectoral muscles causing oppression of breathing. After half an hour the symptoms began to abate, leaving a numbness of the limb and a blister at the spot which was stung.

Clinical

Urticaria.

Modalities

The pain was aggravated by application of water, worse by motion and worse when joints became affected.

Physostigma venenosum

(calabar bean)

Pharmacy

Phys. Calabar bean. Physostigma venenosum. Esere. N. O. Leguminosae. Trituration of the bean. Historical dose: All potencies, third potency.

Herbal

Physostigma is: "The Ordeal-bean" of old Calabar is the type of a genus of Leguminosae of the tribe Phaseoleae with flowers very like Phaseolus. Except that its bearded style is terminated by a great oblique hood, covering the blunt stigma. It is this hood which distinguishes the genus and gives it its name. P. very. is a great twining climber and has purplish flowers.

Physostigma's seeds are very poisonous and are used by the Calabari they either vomit or die.

In the latter case they are considered guilty in the former innocent. In cases observed in Calabar convulsions have been noted and twitchings, especially in the back and death in thirty minutes. A number of cases of poisoning have occurred in this country and in these the most notable feature was complete muscular prostration.

A crowd of children in Liverpool ate beans which they found among the sweepings of a ship from Africa. Forty-six were admitted to hospital with loss of muscular power, prostration, feeble, slow pulse, cold, perspiring skin, cold limbs, vomiting in nearly all cases, diarrhea in one-third of them. At first there was colic, but later on remarkable freedom from pain.

Pupils contracted in many in one contracted during sleep, dilated when aroused. Only one (a tubercular boy) succumbed. He staggered as he walked, then fell, kicking and rolling as if in pain, but afterwards became quiet, much purged, pulse hardly perceptible, skin cold, face livid, quite conscious and able to swallow water.

Directly after drinking he died without a struggle, some froth issuing from nose and mouth.

PAGE 1311

After death the blood was found to be fluid, the heart distended with it and its muscular substance very flaccid.

The neutral sulphate of Eserine is instilled into the eye from one-half to four grains to one ounce distilled water to induce contraction of pupils in mydriasis injuries to the eye, iritis, corneal ulcers, etc. **Planets:** Sun.

Homeopathic

Physostigma and its active principle, eserine form a valuable addition to Materia Medica. Stimulates heart, raises blood pressure and increases peristalsis. Causes contraction of the pupil and of the ciliary muscles. Induces a condition of near-sightedness.

Motor nerves through spinal cord are affected by Phys., causing fluttering tremors in the muscles, they do not respond to the will and or draw into knots, even the intestines are seen twisted in knots.

Spinal irritation, loss of motility, prostration with very sensitive vertebrae. Fibrillary tremors. Rigidity of muscles, paralysis. Depresses the motor and reflex activity of the cord and causes loss of sensibility to pain, muscular weakness, followed by complete paralysis, although muscular contractility is not impaired. Paralysis and tremors, chorea. Meningeal irritation with rigidity of muscles. Tetanus and trismus. Polymyelitis anterior. Eserine is used locally to produce contraction of pupil.

Rigidity of muscles. Horror of cold water, drinks or bathing, cold water feels too cold. Averse to bathing. Shuddering worse every draft. Floating sensation. Darting pain here and there. Flushes of heat worse palms. Ataxic gait, shooting pains down the limbs. Tetanus. Trismus. Tremors. Progressive muscular paralysis. General paralysis of the insane. If pain began at any hour it always continued to 12 o'clock following, either noon or midnight.

Clinical

Astigmatism. Bathing, effects. Blepharospasm. Chorea. Ciliary spasm. Menopausal. Constipation. Coccyx, pain. Dentition. Diarrhea. Dyspepsia. Epilepsy. **Eyes**, disorders.

Glaucoma. Headache. **Heart** disorders. Hemiplegia. Hemorrhoids. Herpes. Hiccough. Hysteria. Iris, prolapsed. Leucorrhea. Locomotor ataxia. Muscular atrophy. Myopia. Navel inflammation. Paraplegia. Paralysis. Parkinson's disease. Prostration. Sleeplessness. Spinal irritation. Spinal sclerosis. Stiff neck. Tetanus. Throat sore, fish-bone sensation. Water, effects. Wounds.

Causations

Ill effects of emotions, grief. Injuries, falls and blows, bathing.

Modalities

Better. in cool open air. Better by sleep, (hiccough). Better closing eyes. Better warmth to feet. Better lying on right side. Better from lying on abdomen or with head low. Better exerting the will, closing eyes, sleep. Worse cold water, cold bath. Worse change of temperature. Worse from eyestrain, bathing, heat and cold, descending, stepping, jar, misstep. Worse by pressure, by falls and blows. Worse motion, descending stairs, (wavering in brain). Worse walking, stepping, jar of misstep. Worse at 4 p.m. Worse in church. Worse on waking. Worse lying left side.

Symptoms

MIND

The mind is active even during sleep. Nothing was right too many things in the room, continually counting them. Paralytic state of mind and body from grief.

Abdomen

Navel, sore, bloated, red. Hypogastrium sore, bloated worse standing. Gripe in right hypochondrium. Groins pain alternately. Colicky pains, worse diarrhea, better extending legs.

Back

Creeping numbness from occiput down spine. Back very weak, unable to stand erect. Sensitive spine. Drawing on turning head. Chilly, creeping sensations up back. Dull pain in back. Backache in kidney region. Creeping numbness. Cramp-like stitches up and down the spine.

Breasts

Stitches in left breast and unable to draw on breath.

PAGE 1312

Chest

Stitches in the chest. Stitches under inferior angles of scapulae during expiration. Heavy weight at chest. Twitches across pectoral muscles.

Ears

Sharp, shooting pains in the ears. Sudden pain from throat to middle ear, worse eructation. Pain in the ear when writing. Painful pressure on tympani. Crawling in left ear. Fullness. Stopped feeling. Partial deafness. Sensitive to every sound. Hissing, buzzing, ringing in the ears.

Eyes

Bloodshot eyes with burning. Accommodation affected, astigmatism. Glaucoma, especially after injury. Contraction of pupils. Exophthalmus. **Profuse lachrymation.** Spasm of ciliary muscle with irritability after using eyes. Post-diphtheria paralysis of eye and accommodation muscles. Twitching of eye muscles. Pain over orbits, cannot bear to raise eyelids. Increasing myopia. Eyelids tense, cannot close or open them. Night-blindness, photophobia. Muscae volitantes, flashes of light. Increasing myopia. Vision trembling.

Face

Lips numb, licks them. Lockjaw. Spastic conditions of the face muscles. Face pale, flushings of the face, heat. Neuralgic pain in right side of face. Sensation of cramps or spasms in face. Numbness of lips.

Female

Menses are irregular with palpitations. Rigid muscles. Numbness of womb with pain in back. Leucorrhoea worse during the day, when exercising. Sighing, worse when leucorrhoea is worse. Metrorrhagia. Pain as if menses were coming on.

Food

Perfect horror of cold drink. Hunger but can find nothing to satisfy it. Food has a flat taste. No appetite, disgust for food tobacco and coffee and especially for cold drinks.

Head

Headache unbearable, worse at night. Constant pain on vertex. Pain over orbits, cannot bear to raise eyelids. Cerebro-spinal meningitis, general tetanic rigidity. Brain, falls to side lain on, wavering in. Pain from forehead down nose. As of a band about the head, as

of a tight cap on head. **Heart** beats felt in head on lying down. Tremors in head.

Heart

A feeble pulse. Palpitations, spasmodic action with feeling of pulsation through the whole body. Beats of heart distinctly perceptible in chest and head. Fluttering of heart felt

in throat. Fatty degeneration. (Cupr-acet.) **Heart** seems to flutter in throat or over whole body or in head.

Kidneys

Bruised, sore feeling in region of kidneys. Bladder feels distended. Frequent desire to urinate and often ineffectual. Frequent and copious urination. Urine is yellow, high colored, strong-smelling, clear, muddy, pale and copious.

Limbs

Limbs feel weary, as after great fatigue. Sudden jerking of limbs on going to sleep. Tetanic convulsions. Locomotor ataxia. Numbness in paralyzed parts, crampy pains in limbs. Offensive odor from hands. Pain in deltoid (right) better violent motion. Flushes of heat in palms. Pain in right popliteal space. Burning and tingling in spine. Hands and feet numb.

Lungs

Labored, sighing respiration, yawning. Cough from tickling in throat. Slight constant inclination to cough from filling lungs. Cannot fill left lung as inspiration causes dull pain at left apex, better by pressure.

Male

Frequent erections with but slight desire. Two emissions without dreams or excitement. Strong-smelling sweat about genitals.

Mouth

Bad taste in mouth. Dentition stressful in nervous children. Teeth feel rough. Tongue feels sore on tip. Tongue, feels oily, scalded, swollen in chorea. Loose skin feeling roof of mouth. Profuse salivation, thick, leathery saliva.

Neck

Pain at base of brain. Inclination to stretch out the neck. Stiffness in neck. Rheumatic pains in left neck.

PAGE 1313

Nose

Fluent coryza, burning and tingling of nostrils, nose stuffed and hot. Fever-blisters around nostrils. Twitching of muscles of nose. Small boil inside right nostril. Nosebleed while at supper. Smarting at end of nose. Tension in skin of nose and forehead.

Perspiration

Easy sweat with excitement. Cold sweat in drops over whole body. Strong-smelling sweat around genitals. Copious sweat all over body.

Sleep

Irresistible desire to sleep, soporific sleep. Restless sleep with dreams. During sleep mind so active was unaware he had been asleep.

Stools

Stools, copious, soft, thin, watery, yellowish, bilious, part natural, part black like tar, lumpy, mixed with watery discharge, dark and offensive.

Rectum

Constipation from atony. Sphincter of anus swollen and rigid, evacuation painful. Rectum protruding, swollen and very sensitive. Severe hemorrhoids following childbirth. Stools are irregular and loose, anus sore and inclined to protrude, hemorrhoids. Tenesmus and burning with diarrhea.

Sensations

As if stomach were full. As if she will lose her mind. As if a ball were coming up throat. Lower limbs as if asleep. Back as if paralyzed. Tongue as if burnt, swollen and paralyzed. Sensations of contraction and tension. Wavering in brain. Weak feeling in stomach.

Sleep

Attacks of overpowering sleepiness with feeling as if to lose consciousness.

Stomach

Great pain immediately after eating. Sensitive to pressure in epigastric region. Pain extends into chest and down arms. Gastralgia, chronic constipation. Hiccough with short break, better sleep.

Temperature

Cold, clammy skin. Hands and feet cold. Every movement and draft causes shuddering. Creeping, chilly sensation in back. Heat in head and face, flushed and hot. Dry burning in hands. Perspires very easily.

Throat

Tonsils enlarged, swollen, elongated uvula. Feeling as if a ball came up throat. Strong heartbeats felt in throat. Strong heart pulsation felt in throat.

Vertigo

Vertigo, stumbles on ascending or descending steps. Vertigo with constrictive feeling of head.

Comments

According to Brunton, the tetanus properties of the bean belong to an alkaloid, Calabarine and the paralysis to Eserine or Physostigmine, as it is now called.

In those poisoned by it speedy general paralysis is set up and death occurs from failure of respiration, though the heart may be poisoned both directly and through its nerves. The paralysis is seated in the spinal cord itself. The muscles are affected by fluttering tremors involuntary muscles are excited to active movements and expulsive efforts. The intestines are often twisted up in knots. All the secretions are somewhat increased.

Many excellent provings have been made with Phys., among which one made by Christison on himself is remarkable. Simpson and Douglas MacLagan were sent for to attend him in his collapsed state, which Simpson could only compare to that produced by severe flooding, though Christison's only sensation was one of "extreme but not unpleasant faintness." MacLagan thought it a lot like Aconite poisoning. Christison could not get his will into his muscles except by a tremendous effort.

Warmth to feet and a mustard plaster to whole abdomen gave great relief and he was then able to turn on his left side, but only remained there a very short time on account of the tumultuous action of the heart it set up.

He became drowsy and slept, but his mind was so active in sleep that on awaking he did not know that he had slept. The tumultuous action of the heart continued on waking, but strong coffee quickly restored the whole condition and made the heart regular.

PAGE 1314

A symptom observed by Christison and many other provers was one of indigestion, "as if large pieces of food had been suddenly swallowed." It began under upper sternum, descending and increasing in intensity until it reached the epigastrium, belchings then occurred and a reversal of direction followed, the sensation ending where it began. With other provers there was a sensation of weight and hardness.

Christison also had very much giddiness and dimness of vision. It is for its action on the eye, especially its power of contracting the pupil and thereby antagonizing Atropine, that Phys. and its alkaloid Eserine are best known in old-school practice. The effects are more definite when the drug (tincture, extract or solution of alkaloid) is applied to the eye direct, but one myopic prover and his myopia much diminished.

In ocular tension and especially when glaucoma has been the result of injury.

Dudgeon relates the case of A. E., 26, struck by the cork of a soda-water bottle on inferior and outer part of left eyeball. Intense burning pain and effusion into the eyeball followed.

Under Arn., prescribed by Mr. Engall, the effusion disappeared and later the pain and inflammation subsided under Acon. and Merc-c. The pupil was now egg-shaped, the long diameter perpendicular, smaller end downwards, vision extremely myopic. Bell. dilated the pupil, but had no effect on the vision.

Engall sent the patient to Dudgeon, who found the pupil was sluggish and a book had to be held within four inches of the eye to be read.

Phys. 3x, every three hours, was given. After the first dose objects could be seen at a considerable distance and next day sight was nearly as good as ever. Dudgeon considers that the lens was tilted by the blow and that Phys. restored the over-stretched or paralyzed portion of the ciliary muscle.

Woodyatt states that Phys. has produced corneal astigmatism in a young lady, who found any attempt at close work caused redness of tarsal edges and a hot, sandy feeling in conjunctiva. Lil-t. 30c cured.

Paralysis and tremors predominate over the cramps, twitchings, stiffness and tension of Phys., but these are also characteristic and tetanus has been cured by Phys. Paralysis of left side is very prominent and the numbness is more apparent on left side, especially in left arm, which may be associated with heart symptoms.

The apex of the left lung is also affected. A feeling of levitation was observed in one prover on stepping. Ataxic gait and shooting pains down limbs show its appropriateness in locomotor ataxia. The inability to get the will into the muscles is a striking feature of many paralyzes. Spinal, sacral and coccygeal pains were experienced and associated with some of them, numbness of the womb.

The association of muscular prostration (in any form of which labored respiration is one) with any affection is a keynote of Phys.

This case was cured: Great muscular prostration with continual inclination to sigh, leucorrhoea worse by exercising during the day, especially 4 p.m. , sighing worse when leucorrhoea is worse dread of cold water.

This dread of cold water is grand keynote of Phys. One of the provers (a water drinker) developed a perfect disgust for cold water and cold drinks and though used to a cold morning plunge, was obliged to omit it on account of his horror.

Other provers felt uncomfortable after bathing and had great reluctance to their bath. Weakness was felt on change of weather and on cold, bracing days. A paralytic state of mind and body from grief has been cured with Phys. Sleeplessness of a peculiar kind occurs in Phys.

Nash cured with Phys. 12c and 30c persistent sleeplessness in a patient who had been in an insane asylum and feared she would have to go again.

Her symptoms were: "If we chanced to get a nap she awoke suddenly as if in a fright and felt no better from what she had slept."

H. L. Chase, one of the provers, had a "very severe pain in the right popliteal space," and he afterwards cured a patient who came to him with pain in the same region two years later.

Boericke. Clarke. Phatak.

Phytolacca decandra

(pokeweed, pokeroot)

Pharmacy

Phyt. Phytolacca decandra. Poke root. Poke weed. Virginian Poke. Pole-root. Red Ink Plant. Garget Weed. N. O. Phytolaccaceae. Tincture of fresh root dug in winter. Tincture of the ripe berries. Tincture of fresh leaves. Solution of the resinous extract, Phytolaccin. Historical dose: Tincture and all potencies, tincture to third potency.

Herbal

Phytolacca is a branching herbaceous plant with a thick perennial root, sometimes larger than a man's leg in diameter. The young shoots, though extremely acrid, are rendered harmless by boiling and are eaten like asparagus in the United States. The berries have a popular repute as a remedy for cancer and rheumatism. The berries of Phytolacca octandra are used in Mexico and the West Indies as a soap.

According to Raffinesque the ash of the plant contains 45 per cent. of caustic potash and the plant contains besides an acid, Phytolactic acid, which is closely allied to Malic acid. Phytolacca has been used as an escharotic in cancers, ulcers, etc.

Kali-i. is its nearest analog, especially in syphilitic rheumatism. Mercury is closely related, Phytolacca has been called by some physicians "vegetable mercury" both remedies have many symptoms and conditions in common.

The plant is common throughout North America, the Azores, North Africa and China. It grows in damp places.

The external use of Phyt. has been attended with good results in cases of ulceration and Clarke has found a gargle of a few drops of the to a tumbler of water useful in many throat cases.

A preparation of the leaves has been used successfully by Hundall as an external application for cancerous growths in dogs and an ointment prepared with a strong tincture of the leaves as well as the juice of the leaves have been used for malignant ulcers in human beings.

From inhaling the dust of the powdered dried Phyt. root or the odor given off on slicing the fresh root intense irritation of eyes, nose and throat and severe headache and diarrhea have occurred.

Given to animals, Phyt. has caused convulsive symptoms, vomiting and vomiting of worms. Wild pigeons and other birds which eat the berries acquire a highly red color and lose their fat.

This last observation has led to the use of a tincture of Phyt. berries as an anti-fat and many successful results have been reported. This observation may be taken as the key to one of the great spheres of the action of this remedy the absorption of tissues, especially

new growths. There are few remedies which have a wider range in the cure of tumors and indurations, particularly of the female breast.

Hale tells us that among dairymen in America the root is used to regulate any abnormality in the milk of cows Scanty, thick, watery, curdy, containing blood or pus. But its chief repute is in caked udders. In breast induration and abscesses of nursing women and even in cancers, (internally and sometimes externally as well), its action has been well confirmed. But it must not be supposed that this action is purely physiological, as is the absorption of fat in birds.

PAGE 1316

Homeopathic

Phytolacca acts on the whole glandular system, but especially on the breasts and glands of women, which are prone to become cancerous in those of a cancer constitution.

Many breast cancers have been cured with Phyt., as well as cancers of the uterus and rectum. Irritable and nervous, cannot endure pain, it is intolerable, the pains are burning in character in the ulcerations of cancer and in the inflamed throats that are common to the remedy.

Phytolacca prominently affects the glands especially breasts and tonsils. In addition it has a powerful action upon the muscles of neck and back, fibrous tissue, tendons and joints, osseous tissues, periosteum, throat, digestive tract and right side.

Phyt. is pre-eminently a glandular remedy. Glandular swellings with heat and inflammation. Syphilitic bone pains, chronic rheumatism. Mastitis, breast disorders. Pressure with hand ameliorates pain in breasts. Sore throat, quinsy and diphtheria. Tetanus and opisthotonos. Decrease of weight. Retarded dentition. Acts on scar tissue.

The sore throats are more right-sided, are relieved by swallowing cold drinks, worse from warm drinks and empty swallowing. Enlarged and painful cervical glands accompany the inflamed sore throats.

Pains come and go suddenly, change places, rheumatism after tonsillitis. Aching, soreness, restlessness, prostration, are general symptoms guiding to Phyt. Aching, all over the body, sudden in eyeballs, kidneys, neck, shoulders, back, forearms, below knees. Soreness, hard aching, restlessness and prostration are the guiding symptoms. Bluish-red parts, throat glands. Spreading pains.

Discharges are shreddy, stringy, stools, menses etc. Hard and painful nodes. Syphilitic bone pains. Tetanus, general muscular rigidity, alternate spasms and relaxation of muscles. Hastens suppuration. Pus is watery, fetid, ichorous.

Obesity. Retarded dentition. Everything affects the breasts. There is a great sensitiveness.

Clinical

Albuminuria. Angina pectoris. Anus. fissure. Asthma. Barber's itch. Boils. Bone, diseases. Breasts, disorders. Breast-feeding. Cancer. Cholera. Ciliary neuralgia. Colic. Constipation. Corpulence. Cough. Dentition, difficult. Diarrhea. Diphtheria. Diplopia. Dysentery. Dysmenorrhea. Ears disorders. Erythema nodosum. Eustachian tubes disorders. Glands, enlarged. Glossitis. Gonorrhoea. Gout. Granular conjunctivitis.

Headache. Hearing, disorders. **Heart** disorders. Hemorrhoids. Impotence. Influenza. Laryngismus. Leucorrhoea. Lichen. Liver disorders. Lumbago. Lupus. Mercury,

effects. Miscarriage, threatened. Mouth, ulcerated. Mumps. Neuralgia. Nipples, painful. Nursing, painful. Orchitis. Ozaena. Paralysis, diphtheria. Parotiditis. Prostate disorders. Rectum, cancer. Respiration, abnormal. Rheumatism. Ringworm. Rodent ulcer. Salivation. Scabies. Scar. Sciatic. Sewer-gas poisoning. Spinal irritation. Spleen, pain. Stiff-neck. Syphilis. Tetanus. Throat, sore. Toothache. Tumors. Ulcers. Uterus disorders. Warts. Wens.

Causations

Emotions, grief, bathing, injuries, blows etc., exposure to cold damp weather.

Constitutions

Phyt. is suited to rheumatic or syphilitic subjects who are sensitive to damp weather.

Cancer constitution. **Planets:** Moon, Saturn.

Modalities

Better warmth, dry weather, rest. Better from lying on abdomen or left side. Better lying on stomach. Rubbing ameliorates pain in hip. Pressure on trachea facilitates expectoration. Worse sensitive to electric changes. Worse exposure to damp cold weather or changes of weather, when it rains. Worse cold night, motion, right side. Worse raising up, heat, at menses, stepping down from high step. Worse by touch, (liver, etc.). Pressure aggravates pain in joints and ulcers.

Riding aggravates nose and breathing. Worse swallowing hot drinks. Swallowing aggravates. Worse damp weather, washing.

PAGE 1317

Symptoms

MIND

Indifferent to life. Feels faint on rising. Refuses food in spite of continuous insistence. Great fear, she is sure she will die. Disgust for business. Loss of personal delicacy, complete shamelessness and indifference to exposure of her person.

Abdomen

Heavy aching pain in the hypochondrium, worse lying on affected side. Sore spot in right hypochondrium. Rheumatism of abdominal muscles. Colic at navel. Burning griping pains. Bruised feeling through the epigastrium and abdomen. Intense vomiting and purging with griping pains and cramps in abdomen.

Back

Aching pain in lumbar and sacral region. Pains streaking up and down the spine. Weakness and dull pain in region of kidneys. Back stiff, especially in morning on rising and during damp weather. Neck stiff.

Breasts

Mastitis, heavy, stony, hard swollen or tender breasts, paining during nursing, spreading all over the body. Tumors of the breasts with enlarged axillary glands. Cancer of breast. Breast is hard, painful and of purple hue. Breast abscess. When child nurses, pain goes from nipple all over body. Cracks and small ulcers about nipples. Irritable breasts, before and during menses. Galactorrhea. (Calc.) Hard nodes in breast with enlarged axillary glands. Nipples, cracked, very sensitive inverted. Irritable breast before and during menses. Bloody, watery discharge from breasts. Old scars in breasts.

Chest

Aching pains in chest, through mid-sternum with cough. Rheumatism of lower intercostals.

Ears

Pain in both the ears, worse swallowing. Shooting in right ear. Obstruction in left Eustachian tube. Irritation in one Eustachian tube.

Increased sense of hearing with pain in forehead.

Eyes

Feeling of sand under lids. Profuse hot lachrymation. Smarting. Green vision. Eyeballs ache on reading and writing. Orbital cellulitis. Lids as if on fire. Tarsal edges feel hot. Motion of one eye only independent of the other. Fistula lachrymalis. (Fl-ac.)

Face

Yellowish, sickly. Aching malar bones. Glands swollen at the angle of jaw. Lips everted and firm. Chin drawn closely to sternum. Mumps. Jaws ache, as in mumps. Very peculiar pressure and tension in parotids.

Female

Menses too copious and frequent. Menses with flow of saliva and tears. Dysmenorrhea in barren women with erosion of cervix membranous. Ovarian neuralgia of right side.

Food

Intense thirst. Canine hunger, soon after eating. Loss of appetite.

Head

Pain from frontal region backwards. Brain feels sore, head as if beaten. Pressure in temples and over eyes. Rheumatism of scalp, pains come on every time it rains. Nausea and headache better eating, but returns soon with vomiting. Scaly eruption on scalp.

Heart

Feeling as if heart leaped into throat. (Podo.) Shock of pain in cardiac region alternating with pain in right arm. Pain leaves heart and goes into right arm. Fatty heart.

Kidneys

Nephritis. Hard ache in kidney with scanty, suppressed urine. Dark red urine, chalky sediment. Albuminuria after diphtheria, scarlatina. Urine stains the clothes yellow. Scanty, suppressed with pain in kidney region.

Limbs

Shooting pain in right shoulder with stiffness and inability to raise arm. (See

Heart) Rheumatic pains, worse in morning. Pains fly like electric shocks, shooting, lancinating, shifting rapidly. (Puls., Kali-bi.) Painful, hard, shiny swelling of finger joints. Hips and thighs pain on change of weather. Sharp cutting, drawing pains in the hip, legs drawn up, cannot touch floor.

Syphilitic sciatica. Aching of heels, relieved by elevating feet. Pains like shocks. Pain in legs, patient dreads to get up. Feet puffed, pain in ankles and feet. Neuralgia in toes.

Liver

Chronic hepatitis. (Chin., Phos.)

PAGE 1318

Lungs

Difficult breathing, dry hacking, tickling cough, worse at night. (Menth., Bell.) Panting breathing. Hoarseness. Cough with burning in trachea.

Male

Painful induration of testicles. Shooting along perineum to penis. Spermatic cord sore.

Mouth

Teething children with irresistible desire to bite the teeth together. Teeth clenched, low lip drawn down, lips everted, jaws firmly set, chin drawn down on sternum. Tongue, fiery red at tip, feels burnt or pains at root, protruded. Tongue mapped indented, fissured with yellow patch down center. Much stringy saliva. Very painful small ulcers on side of cheek, cannot chew on that side. Sensation of dryness with cough.

Nose

Coryza, flow of mucus from one nostril and from posterior sinuses. Feels heavy. Acrid coryza. Obstruction when riding.

Rectum

Continuous urging to stools, even in sleep. Dysentery, passage only of mucus and blood or like scraping from the intestines. Bloody discharges with heat in rectum. Constipation of the aged and those with weak heart. Diarrhea after lemonade. Bleeding from rectum. Cancer of rectum.

Sensations

Brain as if bruised. Right side of head as if pressed firmly. As if sand in eyes. As if eyes too large. As if lids granulated. As if tarsal edges raw. As if lids on fire. As if lump in throat. As if apple core in throat. Throat so full it felt choked. Pharynx feels like a cavern, chest as if it were a big empty cask. Body as if bruised, pounded all over. As if joint were being chopped with an ax.

Skin

Dry, harsh, shriveled. Itches, becomes dry, shrunken, pale. Papular and pustular lesions. Most useful in early stages of cutaneous diseases.

Disposition to boils. Squamous eruptions. Syphilitic eruptions. Swelling and induration of glands. Venereal buboes. Scarlatina-like rash. Warts and moles. Lipoma. Corns. Barber's itch. Ringworm.

Stomach

Violent vomiting with retching, desires death to relieve vomiting, every few minutes. Hunger soon after eating. Easy vomiting without nausea. Pain worse deep breathing.

Temperature

High fever, alternating with chilliness and great prostration.

Throat

Aphonia. Dark red or bluish red. Much pain at root of tongue, soft palate and tonsils swollen. Sensation of a lump in throat. (Bell., Lach.) Throat feels rough, narrow, hot. Tonsils swollen, especially right, dark-red appearance. Shooting pain into ears on swallowing. Pseudo-membranous exudation, grayish-white, thick, tenacious yellowish mucus. Cannot swallow anything hot. (Lach.) Tension and pressure in parotid gland. Ulcerated sore throat and diphtheria, throat feels very hot, pain at root of tongue extending to ear. Uvula large, dropsical.

Throat

Tonsillitis with fauces swollen with burning pain, cannot swallow even water. Mumps. Follicular pharyngitis.

Vertigo

Vertigo on rising. Vertigo, staggering with danger of falling. Vertigo with dim vision, when rising from bed feels faint.

Comments

Some rather severe cases of Phyt. poisoning have been reported. Vomiting, diarrhea, frontal headache, sore throat, are the most common symptoms observed.

One boy who drank two or three drachms of a tincture of the root had none of these symptoms, but developed complete tetanus: Limbs stiff, hands firmly shut, feet extended toes flexed, lower lids drawn down, teeth clenched, lips everted and firm, general opisthotonos. Respiration difficult, rales heard all over the room.

For an hour muscular rigidity increased generally with convulsive action of muscles of face and neck, chin drawn close on sternum. This condition would last five or ten minutes to be succeeded by perfect relaxation and return in twenty minutes more with the same violence.

PAGE 1319

After cold-water infusion, cupping and mustard plasters, the boy slept about twenty-five minutes. On awaking some twitchings, especially of lower limbs, pain in back of head and stomach. Next day he was quite recovered.

A boy, 8, who ate a quantity of berries, was found in great agony, complaining that his stomach was "inched together." He had nausea, violent vomiting, throat sore and dry, fauces dark red tonsils swollen. After vomiting ceased, purging set in, stools dark brown and thin, severe pain in stomach on pressure, extorting cry. Later he had burning griping in umbilical region, dim vision tongue coated white, spasmodic jerkings in arms and legs.

In a woman, 45, who took Phyt. as a "blood purifier," a general rash in appearance not unlike the rash of secondary syphilis, was set up.

In a family of four poisoned by eating the root in mistake with their food, these symptoms were observed: Dread of movement. Seems stupid, falls asleep after a paroxysm of cramping pain has ceased. Pain in forehead worse after eating. Vomiting of clotted blood and slime. Copious discharge of blood and mucus which looked like scrapings of intestines. Involuntary stools from straining, which occurred even in sleep.

In the mother of the family, seven months pregnant, it nearly produced miscarriage. The uterus could be felt contracting under the hand involuntary straining and hemorrhage from the vagina. Intense griping pain in small of back and cramps in legs coming and going suddenly. Coldness and withered appearance of limbs, whole body cold.

In all the above cases the spasmodic action of the drug is evident in some form.

A patient of Clarke's, about forty-five took Phyt. 30c for sore throat. After a few doses she was compelled to desist because of its effects on her breasts, both became full and uncomfortable.

In the left one appeared a large lump in its upper segment, which lasted five days and was only got rid of by dint of vigorous rubbing with camphorated oil. A case of cancer of the rectum has been cured with Phyt. 3x.

In the uterus and the prostate gland (the male uterus) specific symptoms were evoked in the poisonings and provings. Muscles, joints, bones, brain and spinal cord, as well as the special senses, were all more or less disordered.

The intense action of the drug on the throat has led to its being used as a routine remedy in diphtheria. Phyt. is not a specific, but it has some very characteristic symptoms which will indicate it when present.

Among these are: Great pain at root of tongue when swallowing, pains shooting from throat into ears on swallowing, hot feeling as if a red-hot ball in throat, burning worse by hot drinks, dark redness of fauces.

The Eclectics give the expressed juice of the berries in "spasmodic or membranous croup or diphtheria." There is one form of sore throat in which Clarke has found of the greatest service the so-called "diphtheria sore throat." Dark red, swollen mucous membrane and tonsils. Pain on swallowing. Eruption of herpetic, whitish or gray spots on fauces. Swelling and tenderness of the gland externally at the angle of the jaw. With these symptoms there are generally headache, backache, wandering rheumatic pains and fever.

Clarke has cleared up numberless cases of this kind with Phyt. 30c. Not infrequently epidemic influenza has taken this form and they Phyt. has been my most successful remedy.

Nash has relieved chronic follicular pharyngitis in public speakers when there has been much burning, as if a hot substance in throat.

One of the provers had "swollen and tender gland right side of neck," and swollen and tender glands in many other localities have been remedied with Phyt.

PAGE 1320

The headaches of Phyt. are chiefly frontal, pressive involving eyes, worse right side. One headache is peculiar, being associated with increased sense of hearing.

The irritation of the mucous membrane of the throat extends to nose, ears and eyes, producing characteristic symptoms in each. The discharges are tough, stringy, difficult to detach and may take the form of clinkers. Offensiveness and acidity are also common features.

The nervous irritability of Phyt. has led to its successful use in disorders of dentition, a keynote symptom being: Irresistible inclination to bite the teeth or gums together. The pains of Phyt. come and go suddenly, move about, radiate from a center or change place.

Pain in sore nipples of nursing women radiate all over the body when the child is put to the breast. When pain in intestines disappears pain in limbs comes on. Pain leaves heart and appears in right arm (this association is unusual and therefore important).

Pains in head and chest go from before backward. Pains run down spine from nape from sacrum down outer aspect of thighs to toes. The outer aspects of the limbs are chiefly affected.

The shreddy discharge of Phyt. mark it as a remedy in certain forms of intestinal catarrh and dysmenorrhea. It is hemorrhagic and hemorrhoidal, acting strongly on rectum and anus, curing tenesmus, bloody discharges and heat.

One characteristic pain (noted in a case of constipation) is: Shooting pain from anus to lower part of rectum, along perineum to middle of penis.

"Gurgling in the prostate gland, repeatedly in the afternoon," was noted by one prover and pains in spermatic cords. Entire suspension of sexual appetite with relaxation of the genitals was caused.

Stiffness is a characteristic effect of Phyt., noted in the tetanus case and in others in less degree. Stiff neck, especially right side.

The prostration is so rapid and profound that it has led to the successful use of Phyt. in diphtheria paralysis. Faint and dizzy when standing. Soreness of all the muscles.

Restlessness, but he fears to move because motion worse the pains. The rheumatic swellings are hard, tender and intensely hot.

The right side is most affected and many symptoms were experienced in the liver, there were also some severe ones in the spleen. The liver pains were worse lying on right (painful) side. The spleen pain was better lying on left (painful) side.

Nash has removed many breast tumors by giving a single dose of Phyt. 100,000c during the wane of the moon.

Historical dose: All potencies, sixth potency.

History

Pic-ac. was discovered by Hausman in 1788. It is formed by the action of Nitric acid on Carbolic acid, Salicin, Silk and many other substances.

Picric acid crystallizes in bright yellow needles or scales of very bitter taste, sparingly soluble in water. The yellow color is imparted to the eyes and skins of patients who take it in the crude and it not only produces a semblance of jaundice, but actually disorganizes the liver if pushed.

Picric acid acts upon brain, spinal cord, lumbar region, occiput, kidneys and sexual organs. Weakness, heavy, tired feeling in body and mind.

PAGE 1321

It causes degeneration of the spinal cord with paralysis. It acts upon the generative organs probably through the lumbar centers of the spinal cord. A one per cent. solution applied on lint is the best application for burns until granulations begin to form.

Pic-ac. and its compounds are among the most powerful explosives known, lydite being an example. Pic-ac. like Glon., has occipital headaches and bursting headaches. The headache, frontal or occipital is worse on any attempt to use the mind and it may extend down the spine. There is also a headache extending from the top of the spine up over the head to the eyes.

They of Paris accidentally discovered in Pic-ac. solution a remedy for burns. He twice dropped burning matter on his hands while working with a Pic-ac. disinfectant and was astonished at the absence of pain or injury.

From that date Pic-ac. became his principal remedy for burns and though others have complained that it caused violent pains, They has only once in some thousands of cases had to abandon its use on that account.

A. C. Blackwood gives the details of its use. Burns of the first and second degree only are suitable. A saturated solution diluted with one quart of water is used. The clothing is

removed and the burnt surface cleansed with the solution and absorbent cotton. Blisters are opened but the epithelial covering is carefully preserved.

If extensive, the whole surface may be bathed with the solution and strips of sterilized gauze soaked and applied to entirely cover it, a layer of absorbent cotton held with a light bandage over all. After three or four days the dressing is removed carefully after thorough moistening, as it adheres closely. The second dressing is applied as at first and allowed to remain a week.

PAGE 1322

Homeopathic

Picric acid has helped prostration, weakness and pain of back. Brain-fatigue and sexual excitement. Neurasthenia. (Ox-ac.) Muscular debility. Heavy tired feeling. Myelitis with spasms and prostration. Writer's palsy. Progressive, pernicious anemia. Uremia with complete anuria. Sallow complexion. Pins and needle sensation in limbs.

Worn out persons, mentally and physically. Degeneration of the spinal cord with paralysis. Spasms from myelitis. Easy prostration. Progressive pernicious anemia. Prickling as of needles. Burning in many parts, along spine in legs. Cachexia. Numbness. Formication. Neurasthenia. Acute ascending paralysis. Uremia with complete anuria. Typist's palsy.

Clinical

Acne. Anemia. Backache. Bedwetting. Brain, pain. Brain-fag. Burns. Cachexia. Cancer. Condylomata. Debility. Diabetes. Ears, boils. Emissions. Erythema. Hands, sweat. Headaches. Hemiplegia. Hemoglobinuria. Jaundice. Leukocythemia. Liver, congestion. Locomotor ataxia. Masturbation. Myelitis. Neurasthenia. Nosebleed. Otitis. Paralysis. Paraplegia. Pernicious anemia. Priapism. Pruritus vulvae. Sexual mania. Spinal exhaustion. Spinal irritation. Spinal sclerosis. Styes. Sycosis. Urine, bloody. Writer's cramp.

Constitutions

Pic-ac. is suited to dark complexioned persons with a dirty appearance from bile pigments, anemic and cachectic persons. Worn-out person, overtaxed mentally and bodily. **Planets:** Moon, Mercury.

Modalities

Better from cold air, cold water, tight pressure. Better from rest, bandaging in sun. Worse least exertion, especially mental after sleep, wet weather, hot weather. Worse seminal losses, fatigue, study, mental shock.

Symptoms

MIND

After prolonged mental strain. Anxiety. Dread of failure at examination. Brain-fag. Lack of will power to undertake anything. As if stairs or ground coming up to meet him. Lascivious thoughts in presence of any woman. Although enjoying the society of men, idea of marriage unendurable. Sits still and listless, does not take interest in surroundings. Cerebral softening. Dementia with prostration, sits still and listens.

Abdomen

Fullness of the abdomen. Rumbling in small intestines with colic. Crampy pain and flatus. Emission of flatus during the day in evening. Crawling stinging. Sharp pain left side of umbilicus. Shooting, wandering pain.

Back

Burning along spine. Painful boils on nape of neck. Backache with languor, patient is unable to sit straight and burning along spine, worse study. Keeps legs wide apart when standing. Aching, tired legs. Writer's cramps or palsy. Back seems as if bandaged, also limbs. Anesthesia of legs as if one has on elastic stockings. Legs weak, heavy like lead, lifts with difficulty.

Chest

Tightness of chest, as if encircled by a band. Numbness in lower part of sternum.

Ears

Painful boils in meatus. Puffy and burning sensation in ears. Buzzing and hissing in ears. Noises in ears with vertigo and headache at the base of brain. Chronic deafness.

Eyes

Catarrhal conjunctivitis with copious, thick yellow discharge. **Eyes** yellow.

Lachrymation. Styes with a sore pain. Pupils dilated.

Female

Extreme exhaustion at her menstrual periods. Pain in left ovary and leucorrhoea before menstruation. Pruritus vulvae.

Food

Aversion to food. Appetite increased, then lost for breakfast. Aversion to food, at noon. Thirst great with bitter taste, unquenchable. Thirst for cold water.

Head

Headaches, relieved by bandaging tightly. Heavy occiput, down spine and lower limbs. Headache worse mental exertion, better nosebleed with sexual excitement and violent erections. Brain-fag. Headache during daytime better in sleep. Headache of businessmen, teachers and students from grief and other depressing emotions. Occipital pain, worse slightest mental exertion. Boils within ears and back of neck.

Kidneys

Inflammation of kidneys with profound weakness, dark, bloody, scanty urine. Nightly urging. Ammoniacal. Dribbling urine. Uremia with complete anuria. Diabetes.

Albuminuria. Urine contains much indican, granular cylinders and fatty degenerated epithelium.

Limbs

Great weakness. tired, heavy feeling all over body, especially limbs. Worse exertion. Feet cold. Cannot get warm. Acute ascending paralysis.

Liver

Jaundice with itching. Sticking through hepatic region, worse in muscles. Tendency to jaundice. Liver full of fat granules.

Male

Extreme prostration from frequent seminal emissions. Impotency with tendency to boils and carbuncles. Enlargement of the prostate gland. Lascivious thoughts in presence of any woman. Priapism, penis distended. Hard erections with pain in testicles up spermatic cord.

Mouth

Bitter taste with thirst. White, frothy saliva hang in strings to the floor.

Nose

Boil in left nostril. Stinging on right side of nose. Acne. Nose full of mucus, can breathe only through mouth, better open air.

Rectum

Oily burning stools. Diarrhea from mental exertion. Burning in rectum while passing stools. Stools thin, yellow.

Sensations

As if sand or sticks in eyes. As if throat would split. As if legs enclosed in elastic stockings, as if chest encircled in a tight band. Pricking as from needles in legs. As of a lump back of thyroid cartilage. As if stairs or ground coming up to meet him. As of ants crawling over surface.

Skin

Jaundice. Small painful sore boils especially on neck.

Sleep

Sleepiness. Sleep sound but unrefreshing. Sleepy during day and sleepless during night.

PAGE 1323

Stomach

Vomits suddenly without warning, vomits bright yellow, bitter.

Throat

Redness of throat with raw, scraped, stiff and hot feeling. Soreness back of and above soft palate with debility. Dry and husky.

Vertigo

Vertigo and noises in ear.

Comments

Grimmer says this remedy's sphere of action centers in the brain, spinal cord and the bloodstream, it produce in the provings a marked cachexia and pernicious anemia and these conditions in the sick have many times been cured.

Pic-ac. acts profoundly on the sexual function of men increased sexual desire, lascivious thoughts in the presence of any women, long-continued erections at night with emissions, followed by more erections and lewd dreams, priapism day and night. Exhaustion and complete prostration of mind and body from sexual excesses, mental and physical fatigue.

The skin takes on a cachectic tint, a suggestion of malignancy, skin merging into a jaundice as the disease advances. This is a cold remedy, frequent severe headaches are common, fig warts and gonorrhoea have been cured with this remedy.

In some experiments by Parisel these symptoms were observed: Buzzing and whistling in ears, sparks, whirling round of objects, heaviness of head alternately with sense of emptiness. Copious, oily-looking, yellowish stool with amelioration of cerebral symptoms.

Pulse slow, small, very feeble. Great weakness, compelling to lie down, limbs hardly able to stir themselves, no anxiety, profound calm. Vivid coloration of sclerotics and tissues, urine colored blood-red. These were effects of 0.5 grains doses. Slow poisoning set up an intermittent fever of quotidian type and "anorexia, thirst often sweat, cancerous tint about skin, tendency to cachexia."

These observations give the chief features of the remedy's action: Fatigue, mental and bodily, symptoms worse by least exertion, fatigue going into actual paralysis, brain fatigue, nerve fatigue, at the same time absence of anxiety indifference. Like so many other yellow substances, Pic-ac. acts powerfully on the liver and produces jaundice, cachexia and cancerous tints. "Tired-out, washed-out feeling must give in," is the chief keynote of Pic-ac. and its salts.

Nash cured promptly with Pic-ac. 6c trituration. and old man who had been failing for a year and complained of heaviness in the occiput inability to exert the mind, talk or think and general "played-out" feeling. Nash had feared brain softening.

Halbert reports a case illustrating the power of Pic-ac. over the effects of fatigue in professional neuroses. A stenographer and typewriter after using her right index finger continuously for six years, noticed weakness of her thumb and index.

Then the inability to hold pen or pencil. Next there was difficulty in striking correctly the keys of the typewriter and some wrist-drop. The finger when Halbert first saw her was quite rigid and straight, showing extreme spasticity. Massage, electricity, etc., had failed to give any relief. Pic-ac. 3x six times daily cured the case and made great improvement in the patient's general health.

Evans has found it curative in girls and young women who, under the strain of many studies, show signs of breaking down.

They lose appetite, sleep lightly and lie awake, exhaustion after the day's studies, fatigue even from a short walk, twitchings of muscles when asleep or awake, hysterical state, loss of will power, constant headache, irregular menses. Such patients are usually given iron, which does little or no good.

In a case of spinal irritation Clarke relieved with Pic-ac. 30c a pain which shot up from the spine into the head. The pains referable to the spinal cord are strongly marked.

PAGE 1324

Any attempt to study causes burning along spine with great weakness of back and legs, soreness of muscles and joints.

To the spinal congestion must be attributed the remarkable disturbance in the sexual sphere: Priapism, penis distended almost to bursting. Terrible erections, disturbing sleep. When over-excitement of sexual system is associated with spinal or cerebellar disorders in either sex. Great sexual desire with emissions. Amorous fancies.

On the skin Pic-ac. produces jaundice with itching, small painful furuncles, particularly in the auditory meatus. Erythema and itching of abdomen and feet.

Blackwood finds it painless, anodyne, anti-septic, preventing inflammation and suppuration and septic poisoning. It coagulates the albuminous exudation and healing takes place under the coagulum. The staining of the hands and linen caused by the dressing can be removed by Boric acid.

Gaucher has removed acute vesicular eczema by the same treatment. The skin and kidneys are intimately related and Pic-ac. has a powerful action on the latter. Among other disorders it has cured diabetes.

Halbert reports this case: Mrs., C., 49, had "nervous prostration" since the shock of the loss of a child three years before. Wasting with great appetite. Intense thirst and copious

urination, especially at night. Great perspiration and some jaundice. **Heart** flabby, mitral bruit, Dyspnea, emaciation, anemia, exhaustion.

Urine 1040, 7 1/2 per cent. of sugar and some albumen. Pic-ac. 6x six times daily. Rapid and continuous improvement followed.

Kent says Pic-ac. cures fig-warts and gonorrhoea, he was led to infer its relation thereto by its power over pernicious anemia, which he has often traced to a gonorrhoeal base.

Nosebleeds accompanies heat and congestion of head. Heaviness of head alternates with emptiness.

The right upper part of the body is more affected than the left, the left leg more than the right. Chilliness predominates. Lamp light, strong light, moving eye worse pain in eyes. During and after urination, burning.

Picrotoxinum

Pharmacy

Picro. Picrotoxinum. Picrotoxin. An Alkaloid obtained from the fruit of *Cocculus indicus*. Trituration. Historical dose: All potencies.

History

Cocculus is used to stupefy fishes and when Picro. is added to water in which fishes are swimming: "they make winding and boring movements of the body.

Alternating with quiet swimming, open their mouths and gill caverns frequently, fall on their side and rapidly die of asphyxia" (Falk).

J. H. Henry proved Picro., on himself. The symptoms were so severe that he was alarmed and took Opium and Camphor to antidote them. Brunton says the local application of Picro. as an ointment to the head for tinea capitis and to destroy lice has been followed by convulsions and death.

Hansen mentions that it has been given at bedtime to relieve the night-sweats of tuberculosis.

With Picrotoxicum acid 3x, Dorr cured in a few weeks a case of advanced locomotor ataxia with amaurotic amblyopia. **Planets:** Moon, Mercury.

Homeopathic

Nausea with tendency to faint, violent intestinal pain and purging, dysenteric diarrhea and excessive secretion of urine, cramps and paralytic sensations were experienced. The symptom which gave the most concern was the pain in the bowels and sensation as if the bowels would protrude at left inguinal ring.

PAGE 1325

Clinical

Dysentery. Dyspepsia. Hernia. Locomotor ataxia. Night-sweats. Urine, excess of.

Compare

(1) Cocc.

(2) In tetaniform convulsions, Nux-v. with Picro. respiration is accelerated more from spasm of glottis than of respiration and there is less susceptibility to slight touch, more chorea symptoms.

SOURCES

Clarke.

Pilocarpinum + salts (old abbr.)

(jaborandi alkaloid)

Pharmacy

Pilo. Pilocarpine. Alkaloid of Jaborandi. Pilocarpinum hydrochloricum aut nitricum aut purum. Solution in distilled water. Trituration. Historical dose: All potencies.

History

Pilocarpine is one of the most characteristic of several alkaloids which have been isolated from Jaborandi, (*Pilocarpus pinnatus*).

It has been used like Jab. to produce and cure profuse sweating and by oculists to produce contraction of the pupil, which it does whether it is injected subcutaneously or applied directly to the eye. It has also an action on the ear. The hair as well as the skin is affected by Pilo., which is an ingredient in many "hair restorers."

Schmitz of Cologne treated two bald men with injections of Pilo. mur. to produce absorption of inflammatory residue within the eye. In both a secondary effect occurred the growth of young downy hairs on the bald parts of the scalp.

One, age 60 in four months and his head covered "partly with gray and partly with black hairs" of considerable growth, so as to entirely obliterate his previous baldness. Pilo. has also been known to turn white hair black. **Planets:** Mercury, Moon.

Homeopathic

Dilatation of blood-vessels, temporal artery becomes a thick, pulsating cord, veins of forehead stand out blue. Exhaustion (after the perspiration) during which most of the patients fell asleep.

Faintness. In a case of lead paralysis it produced profuse salivation and sweat with sensation of great coldness and excessive tremors of limbs.

Clinical

Albuminuria. Alopecia. Convulsions, uremia, Deafness. Meniere's disease. Mumps. Myopia. Perspiration, excessive. Pregnancy, nausea. Salivation. Vertigo, aural.

Symptoms

Ears

Labyrinthine deafness, worse when tired. Aural vertigo. Deafness with tinnitus. Tinnitus of left ear. Increases the secretion of wax.

Eyes

Profuse lachrymation. Pupils contracted to pin-head. Sight for distance improved.

Face

Forehead and face red, veins stand out. Perspiration begins on face.

Female

Menses two days early.

Food

Intense thirst following the sweating.

Head

Throbbing in temples with acceleration of pulse. Turns white hair black.

Heart

Weakness of the heart. Pulse accelerated, blood pressure diminished. After the perspiration the pulse sinks to normal.

Lungs

Increased bronchial mucus, much cough and expectoration. Constantly taking cold and in fear of bronchitis.

Mouth

Sudden salivation, maximum reached in fifteen minutes, continues two hours, one and a half pints of thin saliva being secreted in the time. Saliva thick, stringy, exceedingly tenacious.

Nose

Nasal secretion increased.

Rectum

Urging to stool.

Skin

Irritable skin.

Sleep

Patients fall asleep under its influence.

Stomach

Nausea, only occurring when salivation is complete, does not go on to vomiting as that of Jaborandi does. Nausea and retching.

Temperature

Sensation of coldness and shaking chill without fall of temperature. Increase of temperature with feeling of intense cold. Sweat profuse, may lose from two to four pounds in the sweating. After sweat, thirst, feeling of relief and sense of increased vigor.

PAGE 1326

Comments

G. P. Field has given it with good effect in labyrinthine deafness, tinnitus and auditory nerve vertigo. The cases least amenable to its influence were those in which the hearing was better in a noise as of a train, etc. and those in which the hearing is worse after a cold. Subjects of syphilis, hereditary or acquired and patients who are more deaf when tired, are the most suitable.

Salivation and sweating speedily occur. After each injection a drachm of sal volatile is given in a small tumbler of water. The patient is made to lie on a sofa, well covered with rugs, the head being wrapped in a shawl. The wraps are removed very gradually as the effects wear off. If there is any faintness brandy is given.

Wood went to see a woman three months pregnant. She was a picture of distress and despair. For eight weeks she had saturated from six to ten handkerchiefs daily with tenacious saliva. Nausea and vomiting were constant, emaciation extreme. Nausea worse by slightest movement.

Alternate redness and paleness of face, flushes of heat and perspiration. Urine scanty, high colored, depositing much uric acid. Very chilly, obstinate constipation.

Pilo., a teaspoonful every two hours. Next day Wood found his patient sitting up, cheerful and free from nausea and salivation. The improvement with some fluctuations, continued. Merc., Ip., Nit-ac., Kali-bi., Hydr., Cimic. had all previously failed.

A woman who had Pilo. injections complained to Cooper that thereafter she had been constantly taking cold and in fear of bronchitis. Her skin too, became irritable. Pilo. mur. 3x is Burnett's chief remedy in mumps. He regards it (and Jaborandi) as an organ remedy of the sweat glands, parotid and pancreas.

Frohling relates a case showing the power of Pilo. over debilitating sweats left after acute diseases.

With Merc. 12c he had cured a case of rheumatic fever so far as the joint affection was concerned, but the sweats persisted and strength declined in spite of remedies until Pilo. was given, when the sweating stopped after the first dose.

Pimenta officinalis

(allspice)

Pharmacy

Pime. Allspice. Pimenta officinalis. Eugenia pimenta. Myrtus pimenta. Jamaica Pepper. N. O. Myrtaceae. Pimento or Allspice, consists of the dried berries of the West Indian Eugenia pimenta and E. acris. Tincture of the fruit. Historical dose: Tincture and all potencies.

Herbal

"Allspice" is so named because its odor is said to resemble a combination of cinnamon, nutmeg and cloves. A tincture was proved by Becket and developed one-sided neuralgias and disturbed sensations of heat and cold. **Planets:** Mercury.

Homeopathic

Pimenta has helped disturbances in the body's temperature and sensitivity. Parts of body burning hot, other cold. Peculiar cold sensation as if sponge filled with cold water passed here and there over the surface, succeeded by sensation of heat, as in the reaction after a cold bath. Very imperious desire to eat. Semi-lateral neuralgic lesions.

Clinical

Chills. Neuralgia.

Pimpinella saxifraga

(bibernell)

Pharmacy

Pimp. Pimpinella saxifraga. Pimpinella alba. Burnt saxifraga. Bibernell. N. O.

Umbelliferae. Tincture of the fresh root.

Historical dose: Tincture and all potencies.

PAGE 1327

History

The majority of the symptoms of Pimpinella were obtained by Shelling from chewing the fresh root. The rest were contributed by Berridge, who proved the 1x on a man.

Planets: Mercury.

Homeopathic

Chilliness was a marked symptom, chilly in the back even in a warm room and much worse if a window was opened. Sensitive to drafts. Sensation of coldness in occiput as from a cutting wind behind. Cold stream from hip and into right leg. the pains and sensations extended from one part to another, principally from above downward and from before backward (temples to nape, forehead to eyes, nape to shoulders) from within outward or alternated between different parts.

There was rush of blood to head, followed by nose-bleed, whizzing in head, roaring in ears. Sinking sensation in intestines. Weariness and falling asleep of parts rested on.

Frequent yawning and desire to take a long breath, which was difficult. Great drowsiness.

Clinical

Chilliness. Corns. Nosebleed. Fever. Headache. Lumbago. Stiff neck. Tinnitus.

Modalities

Worse morning (vertigo, sweat) afternoon (heat and rush of blood to head), by chewing, reading, writing, reflecting, rest (weary pain in limbs), standing, stooping after stooping, walking, by opening window in warm room.

Compare

(1) Rush of blood preceding nose-bleed, Graph.

Pinus silvestris

(bach flower remedy)

Pharmacy

Pine. Pinus sylvestris. Twigs with male and female flowers are picked and boiled for half an hour. The boiled water is strained and prepared as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

The remedy Pine belongs to Bach's group of Despondency and Despair, together with the remedies of Crab Apple, Oak, Willow, Star of Bethlehem, Sweet Chestnut, Elm and Larch. **Planets:** Moon.

Homeopathic

Pine treats states of guilt, regret and self-reproach. The body may show signs of becoming burdened, depressive, or rigid, due to excessive introversion and self-blame. Obsessive-compulsive states and too much over-conscientiousness.

Gastric and duodenal ulcers, irritable colon, nervous breathing syndrome and insomnia (Mustard, White Chestnut). Skin disorder with itching. These illnesses represent examples of expressing deep-seated conflict through the body and show possible physical side-effects of obsessive guilt.

Symptoms

MIND

In the Pine state, one is introverted, subdued by the burdens of guilt and regret. In the Pine state, one may preoccupy or obsess with guilt and self-reproach, creating a sense of unworthiness from deep within.

In some severe cases, the mind may be drawn to the act of guilt again and again. Internal sense of failure.

In the treatment of mental illness, Pine is indicated in obsessive-compulsive, self-punitive and perfectionist or ritualistic behavior and thinking, as in obsessive-compulsive personality disorder (Crab Apple, Rock Water, Vervain).

The remedy is of service in delusions and paranoid personality disorders. Fear of being punished or persecuted (Aspen). The persons' over-conscientiousness is still haunting them.

In the Pine state the emotions center around shame, regret and self-blame at not having fulfilled one's high ideals.

PAGE 1328

One may experience true despondency and despair, as one feels unable to rise above the burdens of guilt and failure to forgive oneself. Conscientious people may even assume responsibility and blame for failure when in reality other persons have caused the wrongdoing or neglect. Secondary emotions, such as frustration, anger, rigidity and alienation from oneself and others, may arise from such fixation.

SOURCES

Bach.

Pinus lambertiana

(sugar pine)

Pharmacy

Pin-l. *Pinus lambertiana*. Sugar Pine. N. O. *Confierae*. North America. Trituration of inspissated sap. Historical dose: Trituration and all potencies.

Herbal

The inspissated sap of *Pinus lambr.* makes a sugary substance like manna. A small quantity from a bit the size of a pea to a teaspoonful, has a decided but gentle laxative action and in larger quantities emphatically so.

Pinus lambertiana was used by Indian women in suppressed menses restores the flow and removes painful sensations resulting from suppression. It has a gentle cathartic action. **Planets:** Moon.

Homeopathic

Pinus lambertiana has also an action on the menstrual function, restoring menses when suppressed and producing abortion in pregnant women.

Clinical

Abortion. Amenorrhea. Constipation.

Compare

(1) Sabin., Juni., Pin-s. and other Coniferae.

SOURCES

Clarke.

Pinus silvestris

(scotch pine)

Pharmacy

Pin-s. Pinus silvestris. Scotch pine. Scotch Fir. Red, Norway, Riga or Baltic Pine. N. O. Coniferae. The typical pine of Europe. Tincture of leaves and young twigs.

Historical dose: Tincture and all potencies, tincture to third potency.

Herbal

Pin-s. was proved by Demeures in the tincture and Patzack observed the effect of bathing in an infusion of the leaves. Pine baths may also be made by adding Oleum pinus sylvestris to an ordinary bath in the proportion of one minim to the gallon. These baths have a reputation in the treatment of rheumatism, gout, paralysis, scrofula and skin diseases.

Hansen gives "emaciation of lower limbs" and "weak ankles in children" as indications for it and mentions that the tinctures may be used externally, while the potencies are given internally. **Planets:** Saturn.

Homeopathic

Pin-s. has been found of use in the treatment of weak ankles and late in walking in scrofulous and rickety children. Emaciation of lower limbs. Pin-s. combines the rheumatic, bronchial and urticaria symptoms, the chest seems thin and to give way.

Clinical

Ankles, weak. Anus, itching. Bronchitis. Constipation. Diarrhea. Dysuria. Emaciation, lower limbs. Glands, swollen. Gout. Hemorrhoids. Joints, stiff. Kidneys, pains. Liver, enlargement. Lumbrici. Palpitations. Rheumatism. Scrofula. Squint. Tinnitus. Urine increased, strong. Vertigo. Walking, late. Worms.

Modalities

The symptoms are worse by exertion, walking touch in morning in evening.

Symptoms

MIND

Anxiety. Despondency. Wants to do many things, undertakes all and finishes none.

MIND

dull, unable to think, caused by any exertion.

Abdomen

Distention, of hypochondrium with pressive and burning pains. Enlargement of liver. Pressure and fullness in liver and spleen. Colic with incarcerated flatus. Pain in inguinal glands with swelling.

Back

Drawing and stiffness in nape extending into occiput. Pressive, tensive drawing pain between shoulders and small of back, motion difficult.

PAGE 1329

Chest

Oppression. Anterior portion of chest painful to touch. Burning in sides of chest. In middle of sternum sensation as if a cupping-glass had been applied inside.

Ears

Sticking in ears. Roaring in ears.

Eyes

Eyes inflamed. Margins of lids red. Vision dim, veiled. Squint.

Face

Face alternately pale and red. Tearing in face.

Female

Menses, usually scanty, became more profuse. Menses, earlier, delayed.

Food

Appetite at first decreased afterwards increased.

Head

Dullness, fullness, heaviness of head. Pressive headache. Tearing in temples. Scalp sensitive. Headache worse by any movement of eyes.

Heart

Palpitations.

Kidneys

Violent boring-burning pains in kidneys, extending along ureters. Spasms of bladder. Burning pains when urinating. Urination is difficult. Very greatly increased secretion of urine. Urine of strong odor.

Limbs

Stiffness, gouty pain in all joints, especially finger-joints. Cramps in calves.

Lungs

Hoarseness. Increased bronchial mucus. Short, dry cough. Expectoration greater when coughing. Breath tight, especially when walking.

Mouth

Pain in teeth with heat of face and pain in head. Dry mouth with increased thirst.

Nose

Violent nose-bleed several days in succession. Mucous discharge from nose. Sensation of coryza. Itching of nose.

Rectum

Troublesome itching at anus. Stool: thin, pasty with colic and great excitement, bilious. Discharge of round worms. Bloody, slimy, hemorrhoidal discharge. Constipation.

Skin

Nettle-rash. Itching all over, especially about joints and on abdomen. Nose itches.

Sleep

Great sleepiness, especially forenoon with restless sleep in evening. Sleepless. Dreams which seem when remembered like real occurrences.

Stomach

Pressure in pit of stomach after eating with great distention.

Temperature

Chilliness, especially towards evening, alternating with flushes of heat. Perspiration: general, easy.

Throat

Uneasiness in throat as if something in the way. Painful swelling of submaxillary glands.

Vertigo

Vertigo, even to falling down.

Comments

The Pin-s. provings show that this reputation is founded on a specific relationship. Rheumatic, gouty and paralytic pains in limbs, bones and joints, stiffness, glandular swellings, enlarged and painful liver and spleen, chilliness and sensitiveness to touch.

Scalp sensitive. Chest walls sensitive with a feeling of thinness, as if they would give way at a touch. The kidneys were stimulated, burning on urination, flow increased, urine strong. Itching of the nose and discharge of round worms was noted. The menstrual function was deranged. Bronchial mucus was increased.

Chilliness alternating with flushing, the face is alternately red and pale. Itching in general. In a patient of Cooper's Pin-s. caused "headache worse by any movement of the eyes" and it cured a case of squint.

Compare

Piper methysticum

(kava-kava)

Pharmacy

Pip-m. Piper methysticum. Kava-kava. Macro piper methysticum. N. O. Piperaceae.

Tincture of fresh root. Historical dose: Tincture and all potencies.

Herbal

Piper methysticum furnishes the root called Kava in Polynesia.

The natives use it as a stimulant, either chewing the root or drinking a beverage made of it before undertaking any important business or religious rites.

Kava causes: Exaltation of mind. Lively and inclined to work. Faculties sharpened, capable of working more without fatigue or brain-fag. From increased doses intoxication of a sorrowful, silent and sleepy character, different from that produced by alcohol.

Excessive indulgence in it produces a skin disease like leprosy, called at Tahiti Arevareva. Lutz describes the disease as observed amongst natives of the Sandwich Islands: "The skin, par marked ichthyosis, associated with a certain degree of atrophy, such as is observed in senile skin. There is an absence of inflammatory symptoms.

Planets: Moon, Saturn.

Homeopathic

KavaÑKava is an intoxicant which produces liveliness and inclination to do more work without fatigue. The intoxication produced by Kava is of a silent and drowsy character with incoherent dreams, loss of muscular power. Urinary and skin symptoms have been verified.

Pip-m. has emaciation and decrepitude. Trembling. Pains temporarily better by turning mind to another topic. Nervous system strung up to its highest tension. Uneasiness and weakness during day with timidity and apprehension.

Weakness in morning, better rising and moving around. Want of tone and life in all functions towards night.

All the symptoms especially pains are better for a time by diverting attention, changing position or topic. Arthritis deformans. Colic with flatulence.

Clinical

Albuminuria. Anus, prolapsed. Brachialgia. Brain-fag. Catalepsy. Cystitis. Dysuria. Eczema. Emaciation. Gonorrhoea. Headache. Ichthyosis. Intoxication. Leprosy. Neuralgias. Neurasthenia. Orchitis. Paraplegia. Prostate disorders. Rheumatism. Skin disorders. Toothaches. Urethritis. Uric acid, excess.

Modalities

Better moving, open air, closing eyes (vertigo). Better by turning mind to another topic, changing position. Worse in open air and on motion. Worse before meals, (sour belchings). Worse reading and thinking. Worse urinating, burning in urethra, walking. Going down stairs causes symptoms to rush up.

Symptoms

MIND

Exaltation of mind. Lively and inclined to work. Faculties sharpened, capable of working more without fatigue or brain-fag. Very sensitive. Amelioration of pains by diverting the attention. Restless desire to change position. Lazy and drowsy. Want of vigor, timid, apprehensive. Intoxication with fantastic ideas and desire to skip about, although he cannot for a moment hold himself on his legs.

Back

Pain in back only felt on pressure. Soreness about second dorsal vertebra.

Chest

Heaviness behind upper part of sternum, as from wind that cannot be belched out.
Constriction of chest and stomach, extending from base of brain.

Ears

Singular pressure in lobules of pinna of left ear.

Eyes

Conjunctivae red. Pain along right optic nerve when reading. Pain deep in left eye as if ball would be pressed out. Dizzy blindness when dressing

Face

Pressure outward in face at 7 p.m.

Food

Appetite is formidable, but not able to eat much.

Head

Brain tired in morning on waking, better getting on feet. Heaviness of head. Headache with pressure in upper part of orbits with sleepiness.

Kidneys

Increased. Burning during urination, gonorrhoea and gleet. Cystitis. Chordee. Burning in urethra during urination. Urine nearly neutral, hot and over-acid at night. Urine: increased, scanty in morning.

Limbs

Pain in right arm. Hands feel paralyzed. Pain in the thumb-joint. Numbness of right elbow. Pain in right wrist, worse writing. Weakness of left hand. Numbness of the lower limbs. Weakness, as if unable to stand. Sticking in left knee at 4 p.m. when walking. Heaviness of legs when walking.

PAGE 1331

Male

Shooting in penis. Erection in afternoon, at night after an emission. Pain in right testicle. Emission early in morning without dreams. Amorousness.

Mouth

Burning in whole mouth followed by numbness. Dryness of mouth on waking from afternoon nap with sweat (in a hot day). Salivation. Taste is nauseous, sweet, then piquant and sharp, pappy, everything tasteless, lost to food, but ravenous haste in eating. Taste and relish to food not as usual, at noon, but appetite usually good.

Rectum

Burning in rectum. Pain after first stool. Constipation, hard, large, light-colored. Stool difficult, large, soft. Urging all day, every evening. Continuous desire, next day forced a large stool, which caused prolapsed anus.

Skin

Scaly. Fall of scales leaves white spots, which often ulcerate. Ichthyosis. Leprosy. Covered as in leprosy with large scales, which fall off and leave white spots and these often become ulcers. Dryness, especially where it is thick, as on hands and feet with scales, cracks and ulcers.

Sleep

Difficult falling asleep. Sleepiness at 10 p.m. , soon afterwards liveliness and wakefulness, irresistible. Stupid sleep. Heavy sleep with disturbing but unremembered dreams. Sleepless.

Restless sleep last part of night. Dreams are curious, nonsensical, wild, amorous of traveling by rail, active, vivid, last part of night of a fire, heard the engines and firemen.

Stomach

Sour belchings, worse an hour before meals. Crampy pain, better pressure against edge of table. Warmth in stomach.

Teeth

Teeth deep yellow. Teeth sensitive to cold water, cold air, brushing,

Tongue

Tongue feels as if covered with velvet or fur at night. Burning on tongue.

Vertigo

From 5 to 9 p.m. very dizzy, swimming sensation and faintness. Vertigo in morning in bed with frontal pressure.

Comments

The mental symptoms of Pip-m. or the "Intoxicating Pepper" (drunkenness) are the most interesting feature of the drug's action. W. N. Griswold proved the third and second dilutions and developed a large number of nervous, mental and brain symptoms, among which are some which have proved to be keynotes.

The drug causes a feeling of buoyancy, as if every nerve was strung up to the highest pitch, feels he can work without fatigue, quickly followed by a feeling of tired brain and over-sensitiveness to all external impression. Mental tension, feeling as though the head were enlarged even to bursting. The mental symptoms, excitement or depression and the headache, were better by diversion of mind. This is one of the keynotes and it has served to indicate Pip-m. in connection with other symptoms.

Griswold cured a case having burning in chest, better by diverting mind and three cases having: "Agonizing pain with tossing, twisting and writhing, patient driven irresistibly to change position, which generally gives little or no better."

This italicized passage is the second keynote of Pip-m. These cures were with the 1x or tinctures. Skinner gave fractional doses of tincture in water to a highly excitable young girl.

She had severe toothache and earache and had worn out her family by the incessant day and night attendance she required.

The pains were dragging, heavy, worse at night in bed and after or when eating, "forgets all about her pains if amused with anything, but directly she is tired of it she exclaims 'Oh, my tooth or ear!' Also she had "Agonizing pain with tossing, twisting and writhing, irresistibly driven to change position." The patient slept well that night the first time for a fortnight and had no more pain. The remaining swelling was removed by Puls. 200c.

Skinner also reports this case: Miss R., 20, has toothache in a decayed molar, better if attention is diverted by anything is diverted by anything sufficiently exciting. When pain is at all violent she has no rest in any position, must keep continually changing it. Pip-m. 500c (F. C.) was given and there was relief very soon after the first dose. A few doses completely removed the pain.

Pip-m. has much dizziness and vertigo, better on closing eyes. The forehead was full, "solid with pain," this shifted to occiput and cervical spine, where it became a compression, extending as a constricting sensation to stomach and chest. The sensation of enlargement of head was marked and persistent.

Farrington says convulsions simulating catalepsy are produced. Cerna as a result of his investigations found Pip-m. a general and local anesthetic. It diminishes reflex action by its action on the cord and kills by paralyzing respiration. Cerna illustrated its relationship to Cubeba by citing cases of gonorrhoea, acute and chronic cystitis, gleet, prostaticorrhea, vaginitis, cured with it.

Compare

SOURCES

Boericke. Clarke. Phatak.

Piper nigrum

(black pepper)

Pharmacy

Pip-n. Piper nigrum. Black pepper. N. O. Piperaceae. Trituration or tincture of dried fruits, peppercorns. Historical dose: Tincture and all potencies, low potencies.

Herbal

The Peppers are tropical climbing shrubs. Piper-nig. yields the pepper of commerce. The fruit when ripe is red. It is gathered before it is fully ripe and spread on mats in the sun, when it loses its red color and becomes black and shriveled. This is Black pepper.

White pepper is the same fruit freed from its outer skin by maceration in water and subsequent rubbing, (Treasure of Botany). **Planets:** Moon, Mercury.

Homeopathic

The symptoms of the Pip-n. proving are Houat's. The only additional symptom is one recorded by Berridge as having occurred in a lady on two occasions from taking a large quantity of pepper: "Feeling as if temples and malar bones were pressed in, worse on left side."

Sensation of burning and pressure everywhere. The full, heavy headache of Houat's provings, Clarke can confirm by personal experience. He gets the headache whenever he takes food highly peppered and he knows of others who do the same.

Clinical

Anus, fissure. Blenorrhagia. Breasts, swelling, eruption. Constipation. Cough. Dysuria. Headache. Hemorrhoids. Menses, irregular, scanty. Milk, excessive flow. Neuralgia. Priapism. Speech, difficult. Teeth, decay. Tongue, eruption, heavy. Toothache. Uterus, cramps.

Modalities

Worse from change of temperature in damp weather in evening, by motion.

Symptoms

MIND

Sad, apprehensive. Unable to concentrate, starts at any noise. Hot-headed, irascible and often gay. Amorousness with hypochondriasis. Fear of being poisoned.

Abdomen

Flatulence. Tympanites. Colic and cramps, sensation as intestines would burst.

Disposition of abdomen to obesity. Abdomen swollen, hard, burning. Borborygmi.

Inflammation of intestines with great thirst.

Back

Burning in loins and kidneys with contractive movements.

Breasts

Great flow of milk.

Chest

Dyspnea, cough with pain in chest in spots, feels as if spitting blood.

PAGE 1333

Ears

Crusty ulcers in concha of ears.

Eyes

Eyes inflamed and burning. Bursting aching in eyeballs. Lids ulcerated and bleared.

Lachrymation and photophobia. Dim sight and vertigo with headache, nausea and vomiting.

Face

Red burning face. Lips dry and cracked.

Female

Ovaries and uterus congested with pricking and sharp pains. Burning and distending pains in uterus. Menses difficult, retarded, capricious, irregular. Menses with colic and black blood.

Food

Desire for coarse and extravagant food. Constant, unquenchable thirst.

Head

Heavy headache, as if temples were pressed in, pressure in nasal and facial bones.

Heart

Palpitations, cardiac pain, slow intermittent pulse.

Kidneys

Burning in bladder and urethra. Difficult urination. Bladder feels full, swollen, frequent inclination without success. Priapism.

Male

Inflammation and swelling of penis with priapism and burning pains. Burning, pricking, excoriating pains in glans.

Mouth

Burning dryness of mouth and throat. Heat and dryness of palate and tongue, as if burned.

Limbs

Inflammation and swelling of joints.

Lungs

Severe coughing, especially evening and when going to sleep. Cough is violent, occasionally spitting of blood, croupy, hollow. Dyspnea and attacks of suffocation.

Nose

Nose itches, sneezing, nosebleed.

Rectum

Inflammation of rectum, anus swollen and burning. Fear to go to stool on account of the difficulty and pain. Fissures in the anus. Large flowing hemorrhoids. Long-lasting constipation, then involuntary, thin stools.

Sensations

Burning sensation occurs almost everywhere. Pressure is almost as common: Pressure in nasal bones in temples and facial bones. Contraction of uterus and sensation as if something about to enter it. Sensation of a foreign round body rising to stomach.

Skin

Crusty ulcers in ears. Large pustules on face, leaving scars. Eczema on lips. Very tender skin. Itching, by scratching, heat and motion.

Sleep

Irresistible drowsiness. Lethargic sleep. Wakens at night without being able to sleep again. Nightmares.

Stomach

Gastric discomfort. Full feeling. Vomiting with great exertion, it seemed as if stomach itself would be vomited. Sensation of heat and dryness in stomach. Cramps and drawing in stomach.

Teeth

Tooth decays. Violent toothache, worse in warmth and evening.

Temperature

Dryness and coldness of skin, heat with biting dryness. Heat in forehead with heaviness of head and vertigo. Cold sweat with great heat through whole body. Sweat which seems to corrode the skin.

Throat

Sore, feels raw, burns. Burning pain in tonsils. Constant accumulation of mucus in throat and expectoration. Paralysis of muscles of throat, can cry but not articulate intelligibly.

Tongue

Eruption of little vesicles on margin of tongue. Painful, heavy tongue, impeded speech. Whitish coating on middle of tongue.

Compare

(1) Piper-m.

(2) Cubeba, also mental, genito-urinary, skin and general symptoms.

SOURCES

Piperazinum

Pharmacy

Pipe. Piperazine. Piperazidine. Diethylen-diamine. Trituration. Solution. Historical dose: All potencies.

History

Piperaz is a synthetic product which was intended to replace Spermin and was named Dispermine. It was found, however to be a different body both in chemical and physiological properties.

PAGE 1334

It occurs in well-defined, colorless, acicular crystals (Helbing) or in lustrous tables (J. Gordon) is deliquescent and mostly soluble in water. It readily unites with uric acid, forming a very soluble compound (urate of piperazine). When taken by the mouth it is not entirely oxidized, as part is discoverable unchanged in the urine.

John Gordon experimented with Piperaz. and found that a 1 per cent. solution in normal urine at body temperature dissolved to a large extent a fragment of uric acid calculus and converted undissolved portions to a granular and pulpy condition. The amount of urea is increased in the urine of those taking it.

Helbing says it has been used with success in mental diseases and in a case of lead paralysis with "very remarkable results." **Planets:** Venus.

Homeopathic

J. R. Hamilton of Hawick, reports success in treating kidney colic with Pipe. and Walter of Odessa, cleared up two cases of glaucoma, giving one grain daily in carbonated water, all the symptoms disappearing within three weeks. After a teaspoonful dose of an effervescing preparation of Pipe., a patient complained that he was seized with a bad attack of acute gout, that was quite unexpected, (Cooper).

Clinical

Glaucoma. Gout. Lead paralysis. kidney colic.

Piscidia erythrina

(jamaica dog-wood)

Pharmacy

Pisc. *Piscidia erythrina*. Jamaica dogwood. White dogwood. N. O. Leguminosae.

Tincture of root bark obtained when the plant is in flower, before leaf. Historical dose:

Tincture and all potencies, tincture in drop doses.

Herbal

The pounded leaves and young branches of Pisc. and some allied species are used like *Cocculus*, for poisoning fish hence the name *Piscidia* (*Piscis-caedere*).

The experiment recorded in Allen is by W. Hamilton, who took a drachm of the Pisc. tincture in water for toothache and went off to sleep with such suddenness that when he awoke, twelve hours later, he was still holding the glass and vial from which he had taken the dose. **Planets:** Moon.

Homeopathic

A nerve sedative. Insomnia due to worry or nervous excitement. Spasmodic coughs. Pains of irregular menstruation, regulates the flow. Neuralgic and spasmodic affections.

Clinical

Fever. Insomnia. Sweat, profuse. Toothaches.

Comments

When Pisc. is chewed an unpleasant acrimony in mouth like that of Mez. A sleep the most profound than ever experienced, arrested him so suddenly that he remained motionless the whole night with the uncorked vial in one hand and the glass out of which he had taken the dose in the other, until the sun was high above the horizon, a space of twelve hours.

When he first returned to consciousness, free from every pain or ache and without any of the unpleasant sensations which invariably succeed an overdose of Opium. Violent sensation of heat generally increasing in intensity, the sensation of burning gradually extended to the surface and a profuse diaphoresis burst out from every pore.

SOURCES

Allen. Boericke. Clarke.

Pituitaria glandula

Pharmacy

Pitu-gl. Pituitaria glandula. Pituitary gland. The mother tincture comes from the organ, prepared by maceration in a mixture of water and alcohol-glycerine from the posterior lobe of the pituitary gland. Historical dose: All potencies, 6c to 30c potency.

PAGE 1335

History

The posterior hypophysis represents the least important fundamental part of the pituitary gland. Its principal physiological role is fulfilled by the antidiuretic hormone which intervenes at the kidney, where it regulates in part, the tubular reabsorption of water.

The extracts of the posterior lobe of the hypophysis cause, amongst other things, uterine motor reactions, (oxytocic action) and the vaso-constrictive reactions (hypertension) when taken in heavy doses. One oxytocin has been isolated, but vasopressin is nothing more than the anti-diuretic hormone. The Homeopathic proving was established by the Hering Proving Committee in 1935 on five provers, using the potency 12x.

Homeopathic

The pituitary gland exercises a superior control over the growth and development of the sexual organs, stimulates muscular activity and overcomes uterine inertia. Uterine inertia in second stage of labor where os is fully dilated. High blood pressure, chronic nephritis, prostatitis. Ten drops after meals, (George Fuller)

Pituitary is a vaso-constrictor and parturient. It is used chiefly for its action on the uterus either to aid in childbirth or to check bleeding after delivery. Cerebral hemorrhage. It will check hemorrhage and aid absorption of clots.

The action of this remedy has a clear anti-spasmodic tendency, especially affecting the vessels in the head. Vertigo, difficult mental concentration, confusion and fullness deep in frontal region. Nocturnal anxiety. Obsession of ideas, especially the depressive and erotic. Congestive headache.

The action of the homeopathic dilutions affects especially the female gonad glands. Painful menses with disturbed cycle. Bedwetting. Cervical pains. Pigmentation disorders and loss of hair.

Clinical

Amenorrhea. Breast disorders. Colitis. Delayed growth. High blood pressure. Prostatitis. Vertigo. Vitiligo.

Constitutions

Phosphoric, flouric types, tubercular poisoning or syphilitic with obsessions or depressive complaints. Tubercular and syphilitic types benefit particularly from the action of this remedy. **Planets:** Moon.

Modalities

Better from fresh air. Better in the open air. Worse from the heat. Worse in a closed room. Worse at the end of the day.

Symptoms

MIND

Anxiety, aggravated at nightfall. Obsession ideas linked to the uro-genital area. Fear of impotence, fear of passing urine. Nocturnal anguish. Tormenting thoughts, especially of erotic nature of impotence.

Abdomen

Enterocolitis. Rectocolitis. Spasmodic colon infection. Inflammation of the gallbladder.

Back

Pains in the nape of the neck, spreading to the occiput and thence to the shoulders. Neck ache. Backache.

Breasts

Atrophy of breasts. Amenorrhea with breast atrophy. Breasts hypertrophy.

Chest

Growth of hair on chest.

Ears

Buzzing with no particular modalities. Earache. Deafness in the left ear.

Eyes

Mydriasis: pupils very dilated. Weeping: the patient cries involuntarily and even without noticing. **Styes**, especially on the left. Conjunctivitis. Blepharitis.

Female

Difficult childbirth. Menses very painful, especially the day before and the day after the start. Dysmenorrhea. Menses scanty. Uterine pains from muscular contraction. Painful uterine contractions during childbirth.

Menses late: cycle longer than 30 days. Menses with pain during the day. Amenorrhea with breast atrophy.

Head

Alopecia of the scalp, which is very dry. Pulsating, throbbing headaches, related to hypertension. Headaches, starting at the occiput and spreading towards the base, cervical column and shoulders. Headaches, aggravated by heat, confined space, at the end of the day. Congestive headache.

Heart

Feeling of heaviness in the precordial region, aggravated by the slightest movement. The patient can 'feel his heart.' Sensation of heart constriction, aggravated by the slightest exertion. Arterial hypertension with the feeling of pounding arteries in the temples and carotid arteries. Arrhythmia. Coronary arthritis. Angina pectoris. Valvular disease. Septicemia. Cardiac neurosis. Tachycardia. Hypertension.

Kidneys

Presence of albumin in the urine. Anuria. Incontinence of urine, worse in the evening. Incontinence when the patient loses a few drops. Incontinence of urine in women with fibromatous uterus: the patient loses a few drops of urine on rising. Urinary incontinence. Nephritis.

Lungs

Asthma. Asthmatic dyspnea, accompanied by intestinal and rectal spasms. Dyspnea with abundant, watery, salty-tasting sputum, sensation of constriction in the thoracic cage. Laryngitis. Tracheitis and bronchitis. Dyspnea from anguish.

Mouth

Excessive salivation. Saliva tastes salty.

Nose

Coryza.

Rectum

Diarrhea with painful intestinal spasms. Rectal tenesmus: the patient wants to pass stools, but cannot. Proctitis. Hemorrhaging recto-colitis.

Skin

Skin cold, discolored or strongly pigmented. Alternating white and dark patches. Vitiligo. Skin is swollen, edematous, itching. Eruptions of a urticaria type. Skin very dry, scaly.

Stomach

Nausea and post-prandial distention, worse after the evening meal.

Throat

Tonsillitis. Pharyngitis.

Compare

(1) Ign. - Cortical and visceral rhythm disorders, characterized by mobility instability and paradoxical, contradictory state of symptoms.

(2) Syph. - Changing moods, forgets proper nouns, obsessions, all aggravated at night.

(3) Thuja - Fixed ideas, sad, varicosities in the nostrils, skin sticky.

SOURCES

Boericke.

Pix liquida

(pine-tar)

Pharmacy

Pix. Pix liquida. Pine tar. Liquid Tar. A product of dry distillation of various coniferous woods. Tincture. Historical dose: All potencies, first to sixth potency.

History

In old-school practice Tar is known as a "stimulant expectorant" in chronic bronchitis and tuberculosis, a stimulant to the skin in psoriasis and scaly eczema. Tar and its constituents act on various mucous membranes. **Planets:** Moon.

Homeopathic

Pix is a great cough medicine. Bronchial irritation after influenza. (Kreos., Kali-bi.) Constant vomiting of black fluid with pain in stomach. Scaly eruptions. Much itching. Alopecia. (Fl-ac.)

Clinical

Acne. Ardor urine. Bedwetting. Bronchitis. Desquamation. Diarrhea. Eczema. Eruptions. Hair loss. Hands, eruptions on. Psoriasis. Tuberculosis. Vomiting, black.

Symptoms

Abdomen

Excessive pain in bowels and loins.

Chest

Suppuration of left lung with pain at third rib. Pain at a spot about the third left costal cartilage where it joins the rib. Rales through the lungs and

Kidneys

Ardor urine. Dark-colored urine.

Lungs

Muco-purulent sputum offensive odor and taste. Chronic bronchitis. Cough chronic, worse night, expectoration purulent, fever at night.

Rectum

Dark-colored stools.

Skin

Acute eczema. Acne. Skin cracked, and bleeding when scratched with sleeplessness. Desquamation. Cracked, itches intolerably, bleeds on scratching. Eruptions on back of hands.

PAGE 1337

Comments

Buckley has recorded severe constitutional effects following the local application of preparations of tar in skin disorders. Among these are: High fever, black vomit, black stools, dark-colored urine, acute eczema, acne.

Homeopaths have brought out the special indications for the remedy and chief among them is a pain at the third left costal cartilage, where it joins the rib. This is really a pain of the left bronchus and associated with an offensive muco-purulent expectoration the indications for Pix are complete. Cases of tuberculosis and chronic bronchitis with these characteristics have been cured by it.

A case of chronic bronchitis in a merchant, 55 is recorded in the Hom. News. The cough was worse nights, breath short, copious expectoration, some fever and night-sweats.

Ill three years and growing worse. Raynaud's prescription of Wood Tar, a teaspoonful four times a day after meals and at bedtime, cleared up most of the symptoms.

Pix often cures the bedwetting of children.

Compare

(1) Terebe., Pinus syl., Kreos., Eupion., Petr.

(2) In chest pains, Anis. has pain at third right costal cartilage, occasionally also left, Myrica, Ther.

(3) Desquamation, Chin-s.

(4) Pinus, Eupion, Ter., Carb-ac.

SOURCES

Boericke. Clarke. Phatak.

Plantago major

(plantain)

Pharmacy

Plan. *Plantago major*. Plantain. Rib wort. N. O. Plantaginaceae. Tincture of whole fresh plant. Tincture of the root. Plant. m. must not to be confounded with *Musa*, sometimes called "Plantain," which belongs to a different class, viz., the Endogens. Historical dose: Tincture and all potencies, tincture and lower potencies.

Herbal

Plantago has a reputation in herbal medicine from remote antiquity, a reputation which homeopathy has revived. It was used in intermittent fever in remotest times. In 1558 the Herbal of Dodoens commends the juice of leaves or roots for "toothache and bleeding of gums." External use in toothache in hollow teeth, otorrhea, itching and Poison-oak. Incised wounds.

John Parkinson in his Theater of Plants, (1640) says "the root taken fresh out of the ground, washed and gently scraped with a knife, then put into the ear, cures the toothache like a charm." In Switzerland the leaf tissues are frayed out and put into the ear for the same purpose and if they relieve the pain they "turn black" (says Reutlinger) and have to be removed, if there is no relief they remain green.

Hale sums up the ancient and modern history of *Plantago Maj.* the weed which furnishes food for our cage-birds. In herbal practice, it is constantly resorted to as an application in all disorders of the skin with irritation, pain and heat, the bruised leaves being applied to the part.

Hale enumerates the following as having been relieved by it: Erysipelas, Rhus-poisoning, erythema, burns, scalds inflammation of the glands, bruises incised wounds, bites of animals chilblains, frostbite. **Planets:** Mars, Mercury, Moon.

Homeopathic

Plan. has considerable clinical reputation in the treatment of earache toothache and bedwetting. Sharp pain in eyes, reflex from decayed teeth or inflammation of middle ear. Eyeball very tender to touch. Pain plays between teeth and ears. Pyorrhea alveolaris. Depression and insomnia of chronic nicotinism.

Plan. produces disgust for tobacco in chewers and smokers. Plan. affects the nerves, causing neuralgia of ears, teeth, face of shingles. Pains are sharp, shifting, play between ear and teeth. Inflammation the breasts. Soreness. Pyorrhea. Can be applied locally for neuralgia. As of a foreign body between ears in the groins, etc.

Clinical

Ague. Bedwetting. Breast inflammation. Burns. Ciliary neuralgia. Diabetes. Diarrhea. Dysentery. Earache. Ears inflammation. Emissions. Erysipelas. Erythema. Hemorrhoids.

Impotence. Neuralgias, herpes. Polyuria. Rhus poisoning. Snake-bites. Spleen, pain. Tobacco habit. Toothache. Urination, delayed. Worms. Wounds.

Causations

Ill effects of bites, bruises, burns, cuts, punctured wounds, snake bites, stings.

Modalities

Better from sleep. Better by eating, (colic). Worse night, heat of room. Worse by contact, mental exertion. Worse by motion, heat and cold, cold air, sharp wind.

PAGE 1338

Symptoms

MIND

MIND

inactive with dullness. Despondency. Confusion of thought. Irritable, morose, impatient. Restless mood with dull, stupid feeling in brain. Great mental prostration, worse by mental exertion, which causes rapid breathing and anxiety.

Abdomen

Bowels seem cold. Colic, flatulent, better by eating. Gone sensation. Severe pains in the hypochondrium. Distention with passage of fetid flatus. Violent griping in upper abdomen.

Back

Throbbing between scapulae. Cold sweat on sacrum. Neck stiff and sore. Stiffness of sternocleidomastoid mastoid. Pulsative pain between scapulae. Pain in sacrum.

Breasts

Inflammation the breasts. Erysipelas of breasts. Mastitis. Neuralgia of nipples.

Chest

Oppression, worse reading or talking. Sharp stitches. Orgasms of blood. Muscular drawing.

Ears

Sticking pain in ears. Otalgia with toothache. Neuralgic earache, pain goes from one ear to the other. Pain in right ear with pains in teeth and face, pains sharp, twinging. Hearing acute, noise painful. Loud noises go through body. As of a foreign body between ears. Ringing in ears.

Eyes

Sharp pains in the eyes, reflex from decayed teeth. As of a hair before eye. Dull, heavy ache in left eye. **Eyes** red, dim, inflamed, sore. Aching deep in orbit. Lids sore, swollen.

Face

Violent bruised, aching pain, right face. Pain radiating to temples and lower jaw. Neuralgia left side of face, pains shooting and tearing, extending from jaw to ear. Drawing in right malar bone. Eruption on forehead. Lips livid, dark, sickly, rough. Dry, scaly eruption on lower lip.

Food

Appetite poor. Thirst. Causes disgust for tobacco in chewers.

Head

Headache with toothache. Sense of something lying in the head, through one ear to the other. As if brain turned over. Dull headache. Itching of scalp.

Heart

Heat in precordia when walking in open air. Violent palpitations on ascending stairs. Pulse strong, full, intermittent.

Kidneys

Tenderness over region of kidneys on pressure. Delayed, dribbling urine. Nocturnal bedwetting from laxity of sphincter. (Rhus arom., Caust., Bell.) Irritable bladder with frequent urination. Urethra tingling with unpleasant itching in meatus. Frequent passage of large quantity of pale urine worse night with thirst (Diabetes). Profuse flow of urine.

Limbs

Disposition to stretch. Stinging, dull pains here and there. Numbness and trembling legs. Hard, white, flattened, papules on inside of thighs. Great pain and stiffness in left leg and knee, worse stooping.

Lungs

Hoarseness. Cough in cold air. Panting breathing, inclined to sigh.

Male

Sexual debility. Unconscious emission in sleep.

Mouth

Aphthae in children. Saliva flows with pains. Dirty taste. Swelling of cheeks. Profuse flow of saliva. Tongue coated white, with dirty, putrid, clammy taste. Food tasteless.

Breath putrid.

PAGE 1339

Nose

Sudden discharge of yellow colored water from the nose. Frequent sneezing, with sudden attacks of profuse, watery, bland coryza. Red papules round nose. Sensation at bridge as if nasal bones being pressed together.

Rectum

Painful hemorrhoids, can hardly stand. Wants to defecate, goes often, but cannot. Diarrhea with brown frothy, water stools. Stools are brown, fermented, frothy, watery, brown, watery, papescent, excoriating. Chronic diarrhea. Cholera infantum. Dysentery. Painful blood hemorrhoids (locally). Worms.

Skin

Burns. Rhus poisoning (local use). Itching and burning, papule. Urticaria, chilblains. (Agar., Tamas.) Sensitive skin. Violent itching, worse night. Pricking, stinging pains. Burning after rubbing where scratched. Redness, swelling, and vesicles on hands and face. Papules which exude yellowish humor and form a crust. Erythema.

Sleep

Gloomy dreams exciting tears. Excessive and continued yawning. Insomnia from abdominal trouble. Grinding teeth during sleep. Sleep restless, disturbed by dreams.

Stomach

Belchings, frequent, empty, tasting like sulphur of carbonic acid gas. Nausea with drowsiness or faint, tremulous feeling. Sinking sensation. Heaviness of stomach as from a stone, even after a light meal.

Teeth

Teeth feel too long. Toothache better eating. Teeth are sensitive and sore to touch. Toothache, better while eating. Toothache with reflex neuralgia of eyelids. Aching in

decayed teeth or shooting up left side of face. Rapid tooth decay. Sharp stabbing pains. Teeth sensitive, sore.

Grinds teeth at night. Gums bleed easily. Gumboils.

Temperature

Chilliness with erratic pains. Chilliness on moving about, cold hands in a warm room. Chill without thirst, with goosebumps. Coldness of body with shivering. Heat with thirst, and great excitability, mental agony, restlessness. Sweat is cold over lumbar and the sacral region, heat of room unbearable, producing perspiration.

Throat

Dry, parched throat. Scraping in throat. Profuse secretion of thick sticky, mucus with much hawking. Soreness and swelling of submaxillary glands on both sides.

Comments

A case is related of a man who allowed himself to be bitten by rattlesnakes and cured himself by drinking the juice frequently. The tincture has been extensively proved by F. Humphreys (who wrote a monograph upon it), Heath and others and the homeopathicity of its cures was clearly brought out. The neuralgic pains of teeth, ears and face were especially pronounced. Some new symptoms were brought to light.

The very copious discharge of urine along with the thirst suggest diabetes and the laxity of sphincters has led to the cure of a number of cases of bedwetting. Foul breath, sinking and weight in stomach, flatulence, diarrhea, dysentery and hemorrhoids, all appeared in the proving.

Plant. is one of the most useful of local remedies in homeopathy and one of its local uses is as an application to inflamed and painful hemorrhoids. In all neuralgic conditions where the suffering part can be reached Plan. may be painted on without any fear of injury and often with the most signal relief of suffering. In common with others, Clarke used it with success in numberless cases of toothache and earache, also it has given relief in the painful neuralgia of shingles and in pleurodynia.

F. P. Stiles relates three brilliant cases: (1) Mrs. S., 39, for ten days had terrible neuralgic pain in right side of face, shooting into temporal, superior, maxillary and orbital regions. Plan. Applied locally to gums, temple and cheek, removed the pain in a few minutes. Some days later a slight return was promptly relieved in the same way.

(2) Mr. R. had neuralgia in left superior maxillary and lower orbital region of long standing. Promptly relieved in the same way.

(3) Mrs. N., neuralgia of right upper jaw, pain unbearable, radiating to ear, temple and cheek. A tooth had been extracted without relief. Plan. removed all the pain.

"Toothache with earache," "toothache with salivation," are the leading indications.

Plan. has a relation to tobacco. It produces disgust for it in chewers and it cures neuralgia resulting from tobacco. The pains are tearing, boring, bruised. There is great surface sensitiveness. Pains come suddenly and are apt to be erratic. Unendurable pains. There is darting up and down the urethra. Breath and flatulence are offensive.

Some Plan. characteristics are loud noises going through one. Sudden discharge of yellowish or saffron-colored water from nose. The left side was most affected.

Platanus occidentalis

(sycamore buttonwood)

Pharmacy

Platan. *Platanus occidentalis*. Sycamore Buttonwood. *Platanus acerifolia*. N. O.

Platanaceae of the Urtica alliance. Tincture of young shoots. Historical dose: Tincture and all potencies.

History

The Treasury of Botany states: "The tree commonly grown in and about London as *Platanus occidentalis*."

Burnett has recorded a case of ichthyosis in an elderly lady in which *Platanus* caused considerable improvement in the condition of the skin. Burnett names the remedy *Plat. occ.*, but his tincture was made from the London tree, which is *Plat. acer*. It sheds its bark annually, which was the signature of its skin action.

Another case of Burnett was that of a girl, 5 1/2, "of the coal-black variety of the strumous, her forehead low and projecting," who was blind from double cataract due to the shock of a fall in the first instance, the lenses having gradually silted up. In this case *Platanus* was given (five drops night and morning) for a number of months, "with very evident improvement in the nutrition of the child's lenses." **Planets:** Saturn.

Homeopathic

Platanus occidentalis has been used for tarsal tumors, apply the tincture. Both acute and old neglected cases. Where destruction of tissue occurred and scar tissue caused marked deformity of eyelid, restored to practically normal conditions. Acts best in children. Must be used for some time. Ichthyosis.

Clinical

Cataract. Ichthyosis.

Boericke. Clarke.

Platinum metallicum

(the metal)

Pharmacy

Plat. Platina. Platinum metallicum. An Element. Trituration. Historical dose: All potencies, sixth trituration to thirtieth potency.

History

The original name of Platinum was "Platina," being a Spanish word meaning "like silver" (Plata being Spanish for silver). The metal was introduced into Europe from South America in the middle of the eighteenth century. It is always found in association with other metals, chiefly Rhodium, Osmium, Iridium, Palladium.

PAGE 1341

Hahnemann was the first to think of it as a medicine and his proving in the Chronic Diseases is the basis of our knowledge of its action. One characteristic symptom, either when found alone or in association with other conditions, has led to many cures with Plat.

Homeopathic

Platina is pre-eminently a woman's remedy. Strong tendency to paralysis, anesthesia, localized numbness and coldness are shown. Hysterical spasms, pains increase and decrease gradually. (Stann.) Tremulousness.

Another general Plat. keynote is the alternation of mental and physical symptoms: as physical symptoms disappear mental symptoms appear and vice versa. Many and various symptoms reflex from ovaries and uterus or sexual organs.

Plat. affects the nerves, vagus, sensory and trifacial, causing violent, cramping, squeezing, thrusting or numbing pains, then spasms. Spasms alternate with dyspnea.

Oversensitive mind, emotions and nerves. Localized, coldness of single parts, eyes, ears etc. or numbness of scalp, face, coccyx, calves etc. Hemorrhages with black clots with fluid. Tremors, painful. Irregular, spasms, congestion of blood.

Pains increase and decrease gradually. Bandaged feeling. Alternate mental and physical or sexual symptoms. Sticky discharges, tears, stools, menses, etc. Hysterical spasms. Catalepsy during menses. Tonic and clonic spasms with laughter. Sensation of pricking. Violent shocks, as from pain. Contortions of limbs. Epilepsy, catalepsy. Perverted sexual desire.

Clinical

Amenorrhea. Chlorosis. Constipation. Convulsions. Delusions. Dentition. Depression. Dysmenorrhea. Fears. Gout. Hemorrhage. Hemorrhoids. Hysteria. Insanity. Lead poisoning. Masturbation. Melancholia. Menorrhagia. Menses, suppressed. Multiple personalities. Neuralgias. Neurasthenia. Numbness. Nymphomania. Ovarian disorders. Pruritus vulvae. Rape. Rheumatism. Sexual abuse. Sexual mania. Spasms. Tapeworms. Uterus disorders. Vaginismus. Vaginitis. Vertigo. Yawning, spasmodic.

Causations

Ill effects of fright, vexation, bereavement, fit of passion, sexual excess, prolonged hemorrhages and masturbation.

Constitutions

Plat. is suited to women with dark hair, thin, sanguine, bilious with too frequent and too profuse menses, sexual organs exceedingly sensitive. Hysterical and hemorrhoidal patients. **Planets:** Moon, Venus.

Modalities

Better from walking in open air, sunshine, stretching. Better by motion. Obligated to stretch, which better. Worse from emotions, sexual, sex, chagrin touch. Worse from nerve exhaustion. Worse sitting, standing, bending backwards, evening. Worse by touch and pressure. Worse during menses. Worse evening and night. Worse in warm room.

Symptoms

MIND

Physical symptoms disappear as mental symptoms develop. Mental troubles, associated with suppressed menses. Contempt for others. Haughty, looks with disdain upon everyone and everything. Feels tall and stately. Arrogant. Proud and erotic. Self-exaltation. Unkind, abrupt and quarrelsome. Irresistible impulse to kill. Weary of everything. Everything seems changed or different. Laughs at wrong time.

Disordered sense of proportion, objects seem smaller, strange, frightful. Sensation of dread and horrors, fears death. Screams for help.

Changing moods, weeps and laughs alternately. Thinks her husband will never return, something will happen to him. Impulse to kill her own child, her husband (on seeing a knife) whom she secretly dislikes or passionately loves. Whistles, sings, dances.

Wounded pride or sexual excitement brings on mental symptoms. Weeps with pains. Feels she does not belong to her own family, everything seems changed. Alone, deserted feeling. Bad humor, yet weeps. Fault finding. Unchaste talk.

PAGE 1342

Mental troubles better at twilight and suppressed menses. Irritable about trifling things. Sits in a corner, broods and says nothing.

Abdomen

Fermentation, much flatulence. Flatulent soreness towards hypogastrium. Colic from lead poisoning. Pain in umbilical region extending through into the back, turns and twists in all possible positions. Painter's colic. Pressing and bearing down in abdomen, extending into pelvis. Constriction. Pinchings in umbilical region.

Back

Pains in back and small of back as if broken after a walk worse bending backwards. Bruised backache, worse pressure, worse on bending backwards. Sensation of numbness in coccyx, as after a blow. Rigidity of nape of neck. Weakness and sensation of tensive numbness in nape of neck. Contusive pain in loins and in back, especially when pressing upon them or else when bending backwards.

Chest

Anxious oppression of chest with sensation of heat, which ascends from epigastrium. Pain in chest, as if a weight were pressing upon it with want to take a full inspiration. Sensation of weakness. Tension, pressure and shootings in sides of chest, which do not permit lying down on either side. Aching and dull blows in the chest. Increasing to a certain intensity and gradually diminishing in same way. Dull lancinations in sides of chest during an inspiration.

Ears

Cramp-like twinges. Roaring and rumbling. Sensation of coldness in ears, feel numb, extending to cheek and lips. Shocks in ears. Sensation of numbness and of coldness in ears, extending to cheeks and lips. Gnawing tingling in ears. Roaring, whizzing and ringing in ears. Dull thundering, rumbling in ears.

Eyes

Pain in eyes after fatiguing the sight by looking attentively at an object. Objects look smaller than they are. Twitching of the eyelids, (Agar.) **Eyes** feel cold. Cramp-like pain in orbits. Aching in eyes with sleep. Confused sight, as if directed through a veil often with painless twitchings round the eye. Quivering and sparkling before sight.

Face

Distortion of muscles of faces. Grimaces. Facial pain with numb feeling in malar bones, as if the parts were between screws. Pain at root of nose, as if squeezed in a vise.

Coldness, creeping and numbness in whole right side of face. Boring in the jaws. Cramps in jaws. Lockjaw. Malar bones numb. Smarting and sharp vesicles on lips. Numbness of lips, dry and cracked. Pains increase and decrease gradually, (Stann.).

Female

Painfully sensitive genitals with itching, tickling or crawling. Tingling internally and externally. (Kali-br. orig.) Excessive sexual desire that leads to masturbation.

Nymphomania, worse in puerperal state. Sexual mania. Menses too early too profuse, dark-clotted with spasms and painful bearing-down. Menses with chilliness, sensitive genitals. Dysmenorrhea with shrieks and jerks. Vaginismus from excessive sensitiveness of sexual organs, sex is impossible. (Staph.) Pruritus vulvae with voluptuous angling. Prolapse of uterus. Induration, cancer of uterus. Fibroids. Leucorrhoea like white of an egg. Infertility from ovaritis or excessive sexual excitement. Frequent sensation as if menses would appear. Amenorrhoea in emigrants. Ovaries sensitive and burn.

Food

Hasty eating, eats everything around her or detests it. Loss of appetite after first mouthful. Worse from fasting. Ravenous hunger, persistent nausea with anxiety and weakness. Repugnance to food from sadness.

Head

Tensive confusion in forehead, as if head were compressed in a vice. Cramp-like, squeezing pain. Constriction about forehead and right temples. Attack of headache with nausea and vomiting. Tense, pressing pain, confined to a small spot. Numbness with headache. Clavus. Tense scalp. Headache with leucorrhoea. As of water in forehead. Headache commences on waking. Constrictive headache, as if a tape were tightly drawn around it with sensation of numbness in brain. Pain in sides of head, as if caused by a plug.

PAGE 1343

Heart

Burning and sticking low down by heart. A dull pressure in region of apex of heart. Anxious palpitation of heart.

Kidneys

Slow but frequent emission of urine. Red urine with a white cloud or else which becomes turbid and deposits a red sediment.

Limbs

Limbs feel weary, numb. Cramp-like jerking and drawing pains in limbs and joints. Numb and weary sensation. Feel paralyzed. Cramp in calves. Tightness of thighs, as if too tightly wrapped. Distorted fingers. Numbness of little finger or fingers. Paralytic

weakness. Attack of spasmodic rigidity in limbs. Tingling restlessness, sensation of weakness and trembling in limbs.

Lungs

Inclination to draw a long breath, prevented by a sensation of weakness in chest. Shortness of breath with a constrictive oppression of chest. Short, nervous, dry cough with palpitations and dyspnea. Short, difficult and anxious respiration. Walking against wind causes sudden arrest of breathing.

Male

Voluptuous crawling, tickling, itching with excessive sexual desire. Ill effects of masturbation before puberty. Perverted sexual desire. Burning pain and gnawing in scrotum.

Unnatural increase of sexual desire with frequent erections, especially at night (with amorous dream). Flow of prostatic fluid. Sex short duration with little enjoyment. Voluptuous crawling in genital organs and abdomen with anxious oppression and palpitation, then painless pressure downwards in genitals with sticking in sinciput and exhaustion.

Mouth

Mouth feels cold. Sweet taste on tip of the tongue. Toothache with pulsative and digging pain. Cramp-like drawing in teeth. Numb pain in left lower teeth. Fissures in gums. Pulsating pains in teeth. As if tongue were scalded. Sensation as if palate or uvula were elongated.

Nose

Cramp-like pain with sensation of numbness in nose and at root of nose. Ineffectual want to sneeze and tingling in nose. Dry coryza often semi-lateral. Corrosive sensation on nose, as of something acrid.

Rectum

Constipation after lead poisoning sometimes very obstinate. Constipation of pregnancy. Constipation of travelers, who are constantly changing food and water. Retarded, feces scanty, evacuated with difficulty. Crawling, itching anus in evening. Voluptuous crawling in rectum. Violent and dull lancinations in rectum. The stool is difficult, seeming to stick to anus and rectum like putty. Frequent want of stool with scanty evacuation, which is voided in pieces and with great efforts.

Sensations

As if her senses would vanish. As if parts of malar bones were between screws. As if everything about her were very small. As if she were constantly growing longer and longer. As if she did not belong to her own family. As if head were enlarged. As if throat constricted, palate elongated tongue scalded. As if abdomen, chest, nape, limbs, thigh, great toe, tightly wrapped or constricted. Back and small of back as if broken. Crawling, tingling, numb sensations.

Skin

Tingling gnawing with pain as of excoriation and itching or burning, pricking and shooting pain on various parts of skin, which provokes scratching. Ulcers (on fingers and toes).

PAGE 1344

Sleep

Sleeps with legs far apart. Sleeps on back with knees drawn up and spread apart, wants to uncover entirely. Convulsive and spasmodic yawning, especially in afternoon. Lascivious dreams. Anxious dreams of wars and bloodshed. Prolonged sleep in morning. Great disposition to sleep in evening. Waking at night with frightful dreams, want of consciousness or with anxious, sad and distressing thoughts.

Stool

Stool as if burnt. Stools hard, black passed in small portions with great straining, adhere to rectum like soft clay. Sticky stool. Tinea and ascarides are discharged from rectum.

Worms.

Stomach

Aching, pressure in stomach, especially after a meal. Sensation of constriction in pit of stomach, extending into abdomen. Ineffectual effort to belch. Empty, noisy belchings. Continued nausea with lassitude, trembling and anxiety. Fermentations in epigastric region.

Temperature

Pulse small, feeble, frequently tremulous. Constant shivering and shuddering over whole body, especially in open air. Chilliness predominates with low spirits, which ceases during heat. Heat with sensation of burning in face without any visible change in color of face. Flushes of heat interrupted by chilliness. Gradually increasing and in the same manner gradually decreasing heat. Perspiration only during sleep, ceasing as soon as one awakens.

Throat

Aphonia. Cramp-like drawing in throat like a constriction. Scraping and accumulation of phlegm in throat. Hawking up of phlegm.

Vertigo

Transient attacks of vertigo in evening with loss of consciousness. Vertigo on sitting down or ascending stairs.

Vertigo as if torn and pulled with threads.

Comments

Plat. has a lost sense of proportion in both ocular and mental vision. Objects look small or the patient thinks them small. The becomes pride and hauteur in the mental sphere, the patient (generally a woman) looks down on everything and everybody.

This is a keynote of Plat. another is the occurrence of cramps, cramping pains and spasms, developing into convulsions. The cramping pains causes numbness and tingling in the parts affected. Pains as if nipped, squeezed in a vice and these pains increase gradually to an acme and then as gradually decline. In the rectum this becomes tenesmus in vagina, vaginismus.

Nash cured a case of insanity of some duration with Plat., being led to the remedy by an alternation of the mental symptoms with a pain the whole length of the spine.

This alternating feature is also seen between one mental state and another: Changing moods, sad and gay alternately, laughs and cries by turns. There is also a perverse state: Laughs immoderately, but in the wrong place, laughs at serious things. The mental disorder at times takes a homicidal form.

Jahr cured with Plat. a woman who had an inspiration to kill her child.

Jule Gaudy recorded the case of a woman who was tormented with an almost irresistible impulse to kill her husband, whom she loved passionately and with whom she was perfectly happy.

The sight of a knife had an irresistible fascination for her and she was often obliged to leave the table to free herself from the impulse. A few months before, she had lost a child a short time after confinement, which had been followed by profuse and persistent hemorrhage.

Recovering from this she became restless, irritable and her whole existence was ruled by this terrible impulse. Plat. 6x and 30x relieved and finally cured her.

Kent records the case of a middle-aged lady, mother of several grown-up daughters, who complained of a peculiar mental symptom: A fear in the absence of her husband, that he would never return, that he would die or be run over. She wept all the time he was away.

PAGE 1345

Kent discovered that she had been treated for uterine displacement and was then wearing a pessary. This was removed. Menstrual flow was copious, black, clotted. The external genitals were so sensitive that the usual napkin was intolerable. Plat. cured the whole case including the displacement.

Almost every symptom in this case was a characteristic. The sensitiveness of the external genitals is often so great as to make sex impossible. Digital examining of such a patient causes great pain.

The action of Plat. to a large extent center in and radiates from the sexual organs, male and female. It corresponds to masturbation before puberty and also to the effects of masturbation.

It was one of Gallavardin's remedies for the impulse to pederasty and sodomy. Tendency to uncover completely in sleep is a leading note of it. Excessive desire, especially in virgins. Premature and excessive development of sexual instinct and organs.

Nymphomania worse in puerperal state.

With the menses, uterine spasms, convulsions. Convulsions of puerperal state. Catalepsy during menstruation. Spasms alternate between convulsions and opisthotonos, full consciousness. Spasms alternate with Dyspnea. Excessive itching in uterus, pruritus vulvae.

Plat. has cramping tendency makes it an antidote to lead poisoning and it has constipation scarcely less marked than that of Pb., though differing from it.

The stools of Plat. are tenacious and sticky, adhere to the rectum and anus like putty or they may be hard as if burnt, the constipation comes on while traveling in emigrants during pregnancy.

Spasmodic yawning. Pains go from right to left. The right side is somewhat more pronounced affected than the left. Severe stitches in right ovary. The symptoms are periodic and paroxysmal, as well as alternating.

Compare

- (1) Rhodium, Stann., Valer., Sep.
- (2) Plat-m.
- (3) Sedum acre - sexual irritability, relieves irritation of nerve centers and gives rest.
- (4) Self-pride, Pall., Plat. egotistical, despises others, Pall. easily wounded, attaches importance to others, Lyc. - imperious.
- (5) Spasms, emaciation from pre-puberty masturbation, Staph.

(6) Uterine affections, nymphomania, Aur., Sep. (the nymphomania of Plat. is more intense. Plat. is intermediate between Aur. and Sep. in weariness of life, the uterine cramps of Plat. are followed by numbness, those of Sep. are a clutching as if suddenly seized then suddenly relaxed.

(7) Hysteria indurated ulcers, Tarent.

(8) Sees ghosts spirits and demons, Hyos., Kali-br.

(9) Shamelessness, uncovers, Phos., Hyos. - sees things larger, Plat. smaller.

(10) Thinks death near and fears it, Acon., Ars.

(11) Dark, stringy hemorrhage, Cham., Croc. has sensation of something alive.

Relations

Antidote: Puls. Platina antidotes the bad effects of lead. Antidoted by: Puls., Teste, who classes Plat. with Thuj., Brom. and Castor, says Colch. is the best antidote to all four.

Complementary: Platina and Pall. both affect right ovary, but Pall. has better from pressure. Compatible: Bell., Ign., Lyc., Puls., Rhus-t., Sep., Verat.

SOURCES

Boericke. Clarke. Phatak.

Platinum muriaticum

(chloride of platinum)

Pharmacy

Plat-m. Chloride of Platina. Platinum muriaticum. Historical dose: All potencies.

History

Plat-m. was experimented with by Hofer of Pau, who applied locally a saturated solution and administered solutions internally.

There is only a fragmentary proving, the mental symptom "thinks she has been poisoned" might be helpful as a guide in certain cases.

Platinum muriaticum has been curative in cases of decay of the nasal and tarsus bones, canker, condylomata. Laryngismus, abuse of mercury, stricture of esophagus and cancer of the stomach. **Planets:** Mercury, Saturn.

PAGE 1346

Homeopathic

Plat-m. has achieved beneficial results after Kali-i. failed to cure in syphilitic affection, violent occipital headaches, dysphagia and syphilitic throat and bone affections, decay of bones of feet. Chronic gonorrhoea, condylomata.

Involuntary movement of tissues of muscles of nape, back and limbs for several hours. Fever, headaches, constricting sensations and fibrillary twitchings were induced by internal doses. The local application produced acute irritation of the skin and glans penis with an eruption on the latter like commencing chancre. Plat. mur. has been used in cases of caries especially of nasal bones and bones of tarsus. Syphilitic caries and syphilitic rheumatism. stomach cancer, acne.

Clinical

Bone disorders. Caries. Condylomata. Headaches. Laryngismus. Syphilis.

Symptoms

MIND

Thinks she has been poisoned.

Head

Some headache with slight acidity of stomach. Severe headache, especially in occiput with fever.

Kidneys

Acute inflammation of urethra, pain on urinating, slight dysuria.

Male

From application of saturated solution to the parts: Violent itching on glans and prepuce with sensation of warmth. After some hours an eruption about glans penis, somewhat livid, raised, size of pin head, looks like commencing syphilitic sore, but disappears in twelve hours.

Mouth

Metallic taste.

Skin

Discolored yellow. Skin becoming covered with rosy red eruption that disappears after a few minutes from local application.

Stomach

Acidity of stomach with headache. Warmth and heaviness in epigastrium. Nausea and vomiting.

Temperature

Slight shuddering, pulse accelerated, warmth in epigastrium.

Throat

Violent constriction of larynx, so that speech and swallowing were decidedly impeded.

SOURCES

Boericke. Clarke. Grimmer.

Platinum muriaticum natronatum

(chloroplatinate of sodium)

Pharmacy

Plat-m-n. Chloroplatinate of Soda. Platinum muriaticum natronatum. Solution. Historical dose: All potencies.

History

Hofer experimented with Plat-m-n. on the same man who took Plat-mur. The chief additional symptom was decided by increased secretion of urine and saliva. **Planets:**

Moon.

Homeopathic

Plat-m-n. has slight headaches. Decided increase in saliva. Feeling of warmth and heaviness in stomach. Eructation of gas. Nausea and inclination to vomit. Rumbling in abdomen. Transient colic. Emission of flatus. Decided increased secretion of urine.

Clinical

Flatus. Polyuria. Salivation.

SOURCES

Clarke.

Plectranthus fruticosus

Pharmacy

Plect. *Plectranthus fruticosus*. N. O. Labiate. Tincture of fresh plant. Historical dose: Tincture and all potencies.

History

Plectranthus was proved by the Austrian Provers' Association. Severe symptoms were induced in head, throat intestines and rectum, limbs and joints. Hansen mentions spastic paralysis as having been remedied by it. **Planets:** Mercury, Saturn.

Homeopathic

Plect. has toothaches with swelling of face and difficulty of opening mouth. "Pain near right jaw-joint as if a tooth were coming through" suggests a use for the remedy in difficult cutting of wisdom teeth. A burning sensation extended throughout the digestive tract and there was also coldness of abdomen, better in open air.

Many of the pains and symptoms were sudden and came and went suddenly. Pains about the navel. Paralytic pains in joints. Pains of many kinds in right shoulder. Exhaustion, bruised sensation, general discomfort were experienced. Cramps and paralytic pains in joints. The right side was more affected than the left.

PAGE 1347

Among the peculiar Plect. symptoms are: As if a morsel stuck in throat after swallowing. As through air were piercing the marrow of the bones. Cool sensation followed by burning at root of tongue and palate. Pressure as from a heavy weight in stomach. Discharge of white mucus from anus causing scratching. Pressure on rectum and bladder. Whites of eyes yellow, worse left. Sweat of right foot, left foot dry of right foot and both hands and no other part of scalp.

Clinical

Abdomen, coldness. Cholera. Cramps. Dentition. Diarrhea. Dysphagia. Fever. Intermittent fever. Lumbrici. Neuralgia. Rheumatism. Shoulder, pains. Spastic paralysis. Stiff-neck. Sweat, local. Throat, sore. Toothache. Wrists, pains.

Modalities

Better by application of ice, by belchings. Worse by all food and drink, (burning in mouth). Chewing causes pain in temples. Worse by motion, moving head, turning body. Worse by swallowing, while urinating, better after urinating. Worse by warmth of stove. Worse after eating, (pressure in stomach, pain in umbilical region).

Compare

- (1) Urinary symptoms, *Ocim.*
- (2) Black stools, *Lept.*
- (3) Stitches in chest, *Kali-c.*
- (4) Pains come and go suddenly, *Lyc.*, *Bell.*
- (5) Crumb in throat, *Hep.*, *Nit-ac.*, *Arg-n.*

SOURCES

Plumbago littoralis

Pharmacy

Plumbg. Plumbago littoralis. N. O. Plumbaginaceae. Tincture of leaves. Historical dose: Tincture and all potencies.

History

Allen says Plumbago scandens corresponds to Mure's figure and grows in Brazil. Mure says P. lit. is a creeper inhabiting the shores in the bay of Rio Janeiro.

Many of the plants of this genus are acrid and caustic in the highest degree. The root of P. scandens, the Herbe du Diable of San Domingo is a very blistering agent when fresh, so also is that of Plumbago rosea.

The beggars employ Plumbago europea to raise ulcers on their body to excite pity and used internally it is said to be as effectual an emetic as Ipecacuanha, (Treasury of Botany). **Planets:** Mercury.

Homeopathic

Mure proved Plumbg. The most peculiar symptoms were: Saliva profuse, milky. Costiveness with red urine. Vertigo after eating. Aversion to everything is noted. Also ulceration of commissures of lips, which is an evidence of its acidity. Pain in humerus on lifting anything. Hot arms with cold hands.

Clinical

Eyes inflammation. Fever. Kidneys, pain. Saliva, milky.

Compare

- (1) Costiveness with red urine, Lyc.
- (2) The Plumbaginaceae are allied to the Primulaceae.
- (3) Plantaginaceae - the root of Plb. europ. is used dried as a remedy for toothache.

SOURCES

Clarke.

Plumbum aceticum

(acetate of lead)

Pharmacy

Plb-a. Plumbum Aceticum. Trituration. Historical dose: All potencies.

History

Care must be used, as sufficient lead can be absorbed to produce lead poison, one to two drams of the Liquor plumbi sub-acetatis to the ounce of water.

Also in pruritus pudendi, equal parts of the Liquor plumbi and glycerin. **Planets:** Moon.

Homeopathic

Plb-a. has painful cramps in paralyzed limbs, severe pain and muscular cramps in gastric ulcer, locally, as an application, (non-homeopathic) in moist eczema and to dry up secretions from mucous surfaces.

SOURCES

Boericke.

Plumbum chemicum

(chromate of lead)

Pharmacy

Plb-chr. Chromate of Lead. Plumbum chemicum. Chrome Yellow. Trituration.

Historical dose: All potencies.

PAGE 1348

History

Several cases of poisoning by Plb-chr. have been observed. The symptoms present the cardinal features of lead poisoning cramps, convulsions, retracted abdomen.

Characteristic features were a violent diarrhea of yellow color. Plumbum chemicum caused convulsions with terrible pains, pupils greatly dilated, retracted abdomen.

Planets: Moon, Saturn.

Homeopathic

Plb-chr. has yellow stools with constipation. Violent diarrhea of yellow color.

Convulsions with terrible pains. Erythematous redness of chest and abdomen. Pupils enormously dilated. The face was red and hot and there was heat of the body generally.

The symptoms were worse towards evening. Better by drinking warm milk.

Clinical

Colic. Convulsions. Cramps. Diarrhea. Dysphagia. Erythema. Paralysis. Screaming. Tenesmus.

SOURCES

Clarke.

Plumbum iodatum

(iodide of lead)

Pharmacy

Plb-i. Plumbum iodatum. Iodide of Lead. Historical dose: All potencies.

History

Plb-i. has been used empirically in various forms of paralysis, sclerotic degenerations, especially of spinal cord.

Atrophies, arteriosclerosis, pellagra. **Planets:** Saturn.

Homeopathic

Indurations of breasts, especially when a tendency to become inflamed appears, sore and painful. Indurations of great hardness and associated with a very dry skin. Sharp pains of tabes.

Clinical

Arteriosclerosis. Breasts infections indurations. Paralysis. Pellagra.

SOURCES

Clarke.

Plumbum metallicum

(lead)

Pharmacy

Plb. Plumbum metallicum. Lead the Element. Plumbum aceticum. Acetate of Lead. Sugar of Lead. Plumbum carbonicum. Carbonate of lead. Pure White Lead. Trituration. Historical dose: All potencies, third to thirtieth potency.

History

Plumbum, the Saturn of the Alchemists, has been proved by Hartlaub, Trinks, Hering and Nenning. To Plumbum symptoms have been added those of numberless cases of poisoning among workers with lead and painters, symptoms from drinking lead-contaminated waters from the use of lead in cosmetics and from cases of suicide.

In the old school metallic lead was seldom used, being considered inert, but Boerhaave gave it internally reduced to an impalpable powder for leucorrhoea, dysentery, syphilis and gout (Teste).

In the form of plaster and "Foulard water" the salts of lead have been largely used as external applications in skin diseases, vaginal and urethral injections and much injury has not infrequently resulted, especially from repelled eruptions.

Among painters and lead manufacturers the best-known symptoms are the colic and drop-wrist. There are set up conditions of kidney irritation with albuminuria, ending in granular degeneration with attendant heart hypertrophy, optic neuritis and blindness.

There is an excess of uric acid in the blood of persons under the influence of lead and actual gouty deposits and gouty attacks have been observed. In one case of lead poisoning there was an enlargement of the knees and contraction of the lower limbs, completely crippling the patient.

PAGE 1349

Homeopathic

Plb. is the great remedy for general sclerotic conditions. It affects the muscles, nerves, spinal cord, abdomen, navel, kidneys, blood vessels and blood. The blood, alimentary and nervous systems are the special seats of action of Plumbum. Lead paralysis is chiefly of extensors, forearm or upper limb from center to periphery with partial anesthesia or excessive hyperesthesia, preceded by pain. Localized neuralgic pains, neuritis.

Hematosiis is interfered with, rapid reduction in number of red corpuscles, hence pallor, jaundice, anemia. Constrictive sensation in internal organs. Delirium, coma and convulsions. Hypertension and arteriosclerosis.

Plb. has progressive muscular atrophy. Infantile paralysis. Locomotor ataxia. Excessive and rapid emaciation. Bulbar paralysis. Important in peripheral disorders. The points of attack for Plumbum are the neural axons and the anterior horns. Symptoms of multiple sclerosis, posterior spinal sclerosis. Gout. Contractions and boring pain. All the symptoms of acute nephritis with amaurosis and cerebral symptoms.

Symptoms appear slowly insidiously, progressively often with violent side effects of very changeable and incoherent character, coming in single parts, etc. Paralysis of single parts, wrist drop, flaccid with hyperesthesia, worse touch.

Convulsive trembling and jerking of the limbs. Emaciation of limbs with plump body of paralyzed parts of single parts after neuralgias. Impulse to stretch with abdominal distress. Retraction of abdomen, anus, testes, navel etc. Anesthesia is as marked as excessive hyperesthesia.

Retraction, sense of a string pulling back or in. Violent contractions. Exaggerates her condition. Lightning pains that extort cries. Convulsions, chronic epilepsy with marked aura with hemorrhages. Boring, cramps. Progressive muscular atrophy. Multiple sclerosis, spinal sclerosis.

Constriction in organs. Anemia, jaundice, arteriosclerosis, hypertension. Small aneurysms all over the body. Dropsical swelling. Gout. Marasmus of infants in apparently hopeless cases, abdomen large and hard and constipation extreme. Perception slow, comprehension is difficult. Tremors, followed by paralysis. Arthralgia.

Clinical

Amaurosis. Anus, prolapsed. Anemia. Anesthesia. Aneurysm. Anidrosis. Appendicitis. Asthma. Atrophy. Bone, tumors. Brain, disorders. Bright's disease. Colic. Constipation. Cystitis. Depression. Diplopia. Dropsy. Dysuria. Emaciation. Epilepsy. Epulis. Esophagus, stricture. Eyes disorders. Ganglion. Gout. Hemoptysis. Headaches. Hemorrhoids. Hernia, Strangulated. Hyperesthesia. Hypopion. Ichthyosis. Intermittent fever. Intestines, obstruction. Intussusception. Jaundice. Jaw, tumor. Kidneys, disorders. Liver disorders. Lockjaw. Locomotor ataxia. Metrorrhagia. Myelitis. Nephritis. Numbness Paralysis. Parkinson's disease. Perichondritis. Progressive muscular atrophy. Rectal pain. Sciatica. Spine, diseases. Spleen disorders. Stricture. Tabes mesenterica. Tobacco habit. Tongue, paralysis. Typhlitis. Umbilicus, abscess, hernia. Uric acid. Vaginismus, Varicose veins.

Causations

Ill effects of repelled eruptions. Sexual excess. Lead, cadmium or aluminum poisoning.

Constitutions

According to Teste, Plb. is particularly adapted to adults, males more than females, particularly to persons of a dry, bilious constitution with somewhat jaundiced, irascible, hypochondriac or disposed to religious monomania. **Planets:** Saturn, Moon.

Modalities

Bending back ameliorates pressure in stomach, pain in epigastrium, pain in back. Bending double ameliorates colic. Better by hard pressure and by rubbing. Better at rest. Better rubbing, physical exertion, stretching limbs. Better lying down. Worse at night, motion. Worse from mental exertion, room full of company, grasping smooth objects. Worse by touch. Worse lying right side, (swelling in abdomen, cough). Worse in rough, foggy weather. Worse clear weather, open air. Damp weather causes profuse salivation.

PAGE 1350

Symptoms

MIND

Amnesia aphasia. Physical Labor exhausts the mind. Weakness or loss of memory. (Anac., Bar-c.) Increasing slowness and apathy. Slow perception. Quiet and melancholy. Stupid, imbecile. Mental depression. Taciturn. Timid, restless and anxious. Frantic, bites, strikes.

Fears of poisoning. Thinks every one about her is a murderer. Fear of being assassinated. Paretic dementia. Delirium, nocturnal, alternating with colic or pain in the limbs. Inclined to cheat and deceive. Feigns sickness or exaggerates her condition. Hysterics, only while

being watched. Screams from time to time. Fright without cause. Delirium from hearing music.

Abdomen

Hernia, navel. Intussusception, strangulated hernia. Navel feels retracted. Obstructed flatus with intense colic. Colic, accompanies many symptoms. Colic alternates with delirium and pain in atrophied limbs. Abdominal wall feels drawn by a string to spine. Radiating abdominal pains to all parts of the body. Pain causes desire to stretch. Abdomen tense or retracted. Abdomen is drawn into uneven lumps. Intussusception. Boring or as if forced through a narrow place.

Back

Spinal cord sclerosis. Lightning-like pains, temporarily better by pressure.

Breasts

Stitches and burning pains in breasts. (Apis, Con., Carb-an., Sil.) Induration of breasts. Breasts become momentarily harder or smaller with colic.

Chest

Oppression of chest, appearing periodically. Pressure on chest, especially when breathing deeply or laughing. Shootings in chest and sides, sometimes with obstructed respiration. Apices of lungs affected. Small red papules on chest, which desquamate.

Ears

Tinnitus. (Chin., Nat-sal., Carb-s.) Occasional sudden deafness. Hears music with frightful delirium.

Eyes

Pupils contracted. Yellow or deep bluish red sclerotics. Optic neuritis, central scotoma. Intra-ocular, suppurative inflammation. Glaucoma from spinal disorders. Sudden loss of sight after fainting. Optic neuritis, central scotoma. Paralysis of upper lid. **Profuse hot lachrymation.**

Face

Cheeks sunken. Yellow, corpse-like, cheeks sunken. Skin, greasy, shiny. Swelling of face, one side. Pale and emaciated. Twitching of side of face (right). Tremor of nasolabial muscles.

Female

Vaginismus with emaciation and constipation. Vulva and the vagina hypersensitive. Tendency to abortion from undeveloped uterus. Feeling of lack of room for fetus in uterus. Menorrhagia with sensation of string pulling from abdomen to back. Disposition to yawn and stretch. Ovarian pain better stretching legs. Vulva and vagina hypersensitive. Cannot pass urine in pregnancy from lack of sensation or paralysis.

Head

Headache, as if a ball was rising from the throat into the head. Delirium alternating with colic. Hair very dry, falls from beard.

Heart

Cardiac weakness. Pulse soft and small, dicrotic. Wiry pulse. Pulse wiry, slow sinks even to 40. Painful constriction of peripheral arteries.

Kidneys

Frequent ineffectual tenesmus. Chronic interstitial nephritis with great pain in abdomen. Contracted kidney.

Urine profuse but flows slowly, drop by drop. Albuminous, low specific gravity. Diabetes mellitus. Uremia. Urine scanty. Tenesmus of bladder. Paralysis of bladder, difficult urination or retention, suppression.

PAGE 1351

Limbs

Paralysis of lower limbs. Paralysis of single muscles. Pain in atrophied limbs, alternating with colic. Weakness and painful lameness of arms and hands. Extension is difficult. Wrist-drop. Paralysis from overexertion of the extensor muscles in piano players. (Cur.) Arms shaky when attempting to use them. Pains in muscles of thighs, come in paroxysms. Cramps in calves. Stinging and tearing in limbs, also twitching and tingling, numbness, pain or tremor. Paralysis of lower limbs after childbirth. Lightning like pains better by pressure. Sciatica and muscular atrophy. Paralysis. Loss of patellar reflex. Hands and feet cold. Feet swollen. Pain in right big toe, very sensitive to touch. As if feet were made of wood.

Male

Testicles drawn up, feel constricted. Frequent pollutions. Loss of sexual power.

Mouth

Gums swollen, pale. Hard tubercles on gums. Distinct blue lines along margins of gums. Yellow inside the mouth. Tongue tremulous, red on margin. Cannot put it out, seems paralyzed. Sticky saliva. Sweet taste. Aphthae, fetid ulcers. Loud motion of lower jaw and frightful grinding of teeth. Saliva blue.

Nose

Loss of smell with epilepsy. Coldness of the nose. Erysipelatous inflammation of nose. Fetid smell in nose. Obstruction of nose. Accumulation of tenacious mucus in nostrils. Fluent coryza with discharge of serous mucus.

Rectum

Anus feels drawn up or painfully contracted. Constipation. Stools, hard, lumpy, black with urging and spasm of anus. Obstructed evacuation from impaction of feces. (Plat.) Stools, granular of hard black balls like sheep dung, passed with an urging cramp in anus. Stubborn constipation or colics of infants. Neuralgia of rectum. Prolapsed anus with paralysis.

Sensations

As if something were working at top of head with a sense of screwing from throat into brain. As if a wheat-hull in throat. As if everything were weighted down. As if abdomen and back were too close together, abdomen drawn to spine with a string. Bowels as if twisted, constricted, distended with gas. As if abscess forming near umbilicus. Anal sphincter as if drawn in. As if a bag not quite filled with fluid lay in bowels. As if fluid rolled from one side to other of abdomen. As if thighs pierced with needles. As if feet made of wood.

Skin

Yellow, dark-brown liver spots. Jaundice. Bluish, red spots. Dry. Oversensitive to open air. Bed sores. Dry, burning ulcers. Gangrene. Small wounds easily inflamed and suppurate. Skin, wrinkled, shriveled and drawn over the bones. Blisters, corns, bunions. Dilated veins of forearms and legs.

Sleep

Takes odd position during sleep. Falls asleep while speaking. Coma and lethargy, sometimes with dizziness. Nocturnal sleeplessness with abdominal spasms. Jerks during sleep. Must stretch in every direction. Assumes strangest attitudes in bed at night. Many dreams, sometimes lascivious with erections. Talking during sleep.

Stomach

Contraction in esophagus and stomach, pressure and tightness. Foul or fecal belchings. Vomiting of fecal matter with colic and constipation. Gastralgia, better hard pressure, bending backwards. Periodical or persistent vomiting of food. Vomiting of brown black liquid or of green mucus.

Temperature

Coldness from exertion. General cold sweat during stools. Feet cold when walking only.

Throat

Solids cannot be swallowed. Dysphagia, fluids can be swallowed. Stricture of esophagus from spasms. Paralysis of gullet with inability to swallow. Globus hystericus.

Vertigo

Fainting in room full of people or on going from one room to other.

Comments

Tunzelmann reports a number of cases of acute poisoning from drinking water containing lead: (1) A cook, ill three weeks. Unable to retain any food on stomach, constant nausea and even when no food was taken frequent vomiting of greenish watery fluid, worse night.

Skin yellowish, conjunctive decidedly yellow. Tongue furred, coat at back very yellow, horrible taste, fetor of breath, bowels confined. Extreme debility.

PAGE 1352

Hydr. 3c gave great relief, but three months later the hands became paralyzed, which led to the testing of the drinking-water and the discovery of lead.

(2) Youth, age 12, had bronchial catarrh with loose cough and consolidation of left apex. As soon as the poisoned water was stopped he rapidly got quite well.

(3) An elder brother had hemoptysis, coughing up half a pint of blood. Nothing was found wrong with the lungs beyond slight feebleness of respiration at apices. Three months later after a day's rowing, the hematemesis returned with nosebleed. Now distinct dullness was found at right apex. Rapid recovery followed stopping the water.

Women who work with lead frequently abort, women who do not work with lead but whose husbands do, abort in even greater proportion. Children born under these conditions are frequently idiotic or epileptic.

These cases bring out some of the keynotes of Plb. and chief among them is: Retraction and sense of retraction. "Violent colic, sensation as if abdominal wall were drawn back by a string to the spine."

Actual drawing in of abdominal wall were drawn back by a string to the spine. Actual drawing in of abdomen is frequently present and is characteristic.

The cheeks are retracted, sunken. Excessive and rapid emaciation. In the same category with colic are: Cramps, spasms, convulsions, paralyzes, tremors.

Frohling relates the case of N. farmer, 46, who was taken ill in November, 1893 with attacks of colic with vomiting and extreme constipation, action only obtained by large enemata. Had been constipated in former years but without illness. Opium had given only temporary relief.

After December, 1883, vomiting was rare, but colic increased in intensity up to February, 1894, when Frohling saw him first and found him wasted to a skeleton, abdomen drawn in, appetite bad, felt ill.

His mind somewhat affected, unable to give sensible answers to questions. Constant urgent call to stool, only small, hard, black balls passed. Liver dullness only heard from upper border of sixth to upper border of seventh rib.

Lead poisoning was suspected, but as no evidence of it could be found Plb. 6c three times a day was prescribed. In six days colic attacks were less frequent and less severe, two stools passed without enema, mind clearer. Improvement continued in all respects and in fourteen days N. was able to leave his bed to which he had been confined since November.

By the middle of March he made an hour's journey to see Frohling and was hardly recognizable, he had gained so much flesh and his liver was found of normal size.

Wing field reported two characteristic cases: (1) Mrs. D., 50, no children, sparely built, very nervous, constipated fifteen years, takes a teaspoonful of Cascara extract every other night. Tongue coated with yellowish white fur. Has constant headaches and after each motion is thoroughly exhausted and has to lie down the rest of the day.

Plb. 6x three grains twice a day. In two days bowels commenced acting naturally. In three weeks headaches gone tongue clean, much less nervous.

(2) Miss M., 25, florid, has boils appears on face and arms and chronic constipation. The constipation had been a trouble since she was twelve years old.

Slight spinal curvature. Tongue furred, occasionally has headaches. Suffers much at menstrual periods. Plb. 6x twice daily at once relieved the constipation and soon the boils disappeared. Patient soon felt quite well.

PAGE 1353

Arriaga of Mexico city, reports the case of a woman, 73, seized with symptoms of intestinal occlusion, violent colic, nausea, constipation, meteorism, complete anorexia and no fever. Nux-v. relieved the colic and then Plb. 12c and later 13 c, gradually brought about recovery in four days.

Nash cured a severe case of post-diphtheria paralysis in a middle-aged man. The leading symptom was excessive hyperesthesia could not bear to be touched anywhere, it hurt so. Plb. 40,000 c, a single dose, cured.

Nash tells of a man, 70, attacked with severe pain in abdomen and finally a large, hard swelling developed in ileo-cecal region, very sensitive to contact or least motion. It began to assume a bluish tint and on account of his age and weakness the man's life was despaired. But his daughter, the wife of a medical man, found the symptoms in Raue under Plb. in the chapter on Typh. and Plb. 200c cured.

Anesthesia is as strongly marked as the hyperesthesia of Plb. The excessive emaciation of Plb. and the action on the spine make it a remedy of the first importance in progressive muscular atrophy.

Among the spasms are: Vaginismus, spasm of uterus and expulsion of its contents, sensation as if there was not room enough for fetus, spasm of bladder of esophagus, strangulated hernia.

Clonic or tonic convulsive movements of limbs from cerebral sclerosis or tumor. Epilepsy preceded by vertigo, sometimes sighing, followed by stupid feeling.

In a case cured by Skinner after a fit the head turned to the right. There was worse 8 to 9 a.m. Paralyzed parts lose flesh. Progressive locomotor ataxia. Restlessness, lassitude, faintness.

Sensation in abdomen at night which causes patient to stretch violently for hours, must stretch in every direction. Assumes strangest attitudes in bed at night.

Pains are wandering or radiating, vague, paroxysmal. Ailments develop slowly and intermit for a time. Alternations are common: Delirium with colic, diarrhea and constipation, jerks of flexors and extensors, paralysis and colic.

Right side is most affected, symptoms go from left to right (throat). In ladies poisoned by cosmetics the vaginismus which resulted in paralytic symptoms. With Plb. 6c

Theuerkauf cured in six weeks a case of hypopion with great pain.

W. H. Woodyatt reports a case of "vasomotor neurosis" affecting left eye. Mrs. D., 29, had been ill two weeks and supposed she had caught cold in the eye.

She had drooping upper lid intense photophobia, very profuse lachrymation of hot tears, peri-corneal injection, deep bluish redness of sclerotica, most marked at corneal margin. Cornea is very faintly hazy. Pupil contracted. Sight misty. Ars. 6x and Plant. 6x failed to relieve. Plb. 6x was then given with immediate improvement, which went on to cure in seven days.

In a case of right-sided sciatica which had been greatly benefited by Gnaph. 1c, but which had returned, the symptoms being: Stiffness, soreness from great trochanter and point of exit of nerve to knee, weakness in thigh, worse by stooping, walking causes sensation as if pushing a knife in thigh.

Plb. 6c was given four times day. Up to the twelfth day there was no change, on that day the pain suddenly went. The case had lasted nine months.

Pneumococcinum

(pneumococcus nosode)

Pharmacy

Pneu. Pneumococcus. Pneumococcus Nosode. Pneumococcinum venenosum. Historical dose: All potencies, 6c to 30c.

PAGE 1354

History

Pneumococcus is a bacteria of the Diplococcus genus and of the Micrococcaceae family, Gram positive. Pneumococcus is a saprophyte host of the mucous membranes. It is found in 50% of cases in the saliva of healthy subjects in the nasal and pharyngeal mucus and the conjunctiva. Sevaus conducted a clinical symptomatological study, but there is no Homeopathic proving.

Homeopathic

Pneu. has many respiratory complaints localized particularly in the bronchials. Depressive condition associated with pains situated all over the cervical and dorsal regions. Cardiac palpitations. Dysmenorrhea with late menses and pre-menstrual syndrome. Intoxication.

Acute pains, which come suddenly of the stinging type, (Nitric acid) or cramping type (Cupr.) lasting only a short while. Constricting pains, as if in a vice, (Cactus).

Clinical

Hemicrania. Hypochondria. Memory, loss. Neuralgia of the skull.

Constitutions

Tubercular constitution. Bilious and nervous, depressive, anxious. Allergic, psoric constitutions. sycotic, cancerous, tubercular. **Planets:** Mercury.

Modalities

Better from the open air. Better in the country. Better from movement. Better from a short nap after meals, (Nux-v.). Better from hot foot-baths. Worse on entering a warm room. Worse from inactivity, (Rhus-t.). Worse from rest at night. Worse from sitting for a long time, especially when remaining motionless. Worse from the damp. Worse before menses. Pains, aggravated by rest, at night, better by movement, (Rhus. Tox.).

Symptoms

MIND

Depressive condition with anguish. Desire to stay at home, horror of going out, (Sepia). Lack of taste for life. Loss of memory. Impression that the patient is going to collapse, that he cannot walk. Very afraid of being ill. Fear of dying. Anxious and depressive conditions.

Abdomen

Bad digestion. Gas with alternation of constipation and fetid stools. Distention and pain in the left hypochondrium, eased by expulsion of wind. Hepatic deficiency. Air in the stomach and colon.

Back

Dorsal and lumbar arthrosis. Dorsal pains, preventing standing.

Ears

Otitis media.

Eyes

Fatigue from neon light. Frontal pains above the eyes.

Female

Menstrual migraine. Pre-menstrual aggravation. Menstrual cycle short, every 22 or 24 days. Menses stopping on the 2nd day. Burning sensation during intercourse in cases of fatigue. Menses late, scanty, legs heavy and swollen before menses. Migraines and vertigo. Bearing down pain and crosses legs, (Sepia). Menses scanty. Frigidity. Lack of orgasm.

Food

Ameliorated by eating, (Anac.).

Head

Pains in left frontal sinus. Headaches lasting for 3 to 4 consecutive days. Right or left hemicrania, worse by walking, which causes throbbing in the head. Frequent headaches, localized at the nape of the neck, worse by noise. Feeling of liquid in the head on stooping. Headache on coughing or bending the head.

Heart

Aching in the precordial region with pains. Emotive palpitations. Frequent palpitations at any time of the day. Palpitations forcing him to stop when walking rapidly or climbing stairs. Frequent redness of the face when going into a hot room. Cardiac neurosis.

Basedow's heart. Rhythmic anomalies.

Kidneys

Passes urine when coughing (Caust.). Weakness of the bladder.

Limbs

Pains in the arms. Legs restless, especially before menses (Zinc and Lachesis). Pains in the legs. Legs heavy in the morning on waking. Trembling in the legs. Cramps in the feet.

Poly-arthritis.

PAGE 1355

Lungs

Sickening cough in the morning after breakfast. Does not cough any more after 9 a.m. Dry cough in the cold or in the heat or tracheitis. Incessant cough with no expectoration, especially at night with nausea. Coughs in the heat, particularly when entering a hot room and clears the throat, (Rhus-t.). Has to stoop to cough. Coughs a great deal as a result of frequent bronchitis during childhood. Feeling of having a feather in the throat (Kali-bi.). Sinusitis. Tracheitis. Chronic bronchitis. Emphysema.

Mouth

Aphthae in the mouth.

Neck

Neck pains with frontal aching. Cervical pains with back aching. Chronic degenerative rheumatism of the cervical column.

Rectum

Gas with the alternation of constipation and very fetid stools. Constipation with empty urging (Nux Vomica). Constipation when traveling (Ignatia).

Skin

Hands clammy. Itching with eruptions spread over the neck and forehead. Small eruptions on the face.

Sleep

Sleepiness around 3 p.m.

Stomach

Acrid dyspepsia. Frequent nausea after eating. Gastric pains, especially when hungry. Stomach cramps with burning sensations.

Compare

(1) Med. - amnesia for recent facts. Hasty with restless legs and burning in the heels. Burning pains in the joints and vertebral column. Improvement at the seaside and in the knee-chest position.

(2) Thuja, - hydrogenoid condition, melancholy, worse from changing weather or after a trauma. Flatulence, diarrhea, periodic skin complaints.

SOURCES

Julian.

Podophyllum peltatum

(may-apple)

Pharmacy

Podo. Podophyllum. American Mandrake. Podophyllum peltatum. May-apple. N. O. Berberidaceae by some placed in Ranunculaceae.

Closely related to both. Tincture of root gathered after fruit has ripened of whole fresh plant of ripe fruit. Solution of resinous extract, Podophyllin. Historical dose: Tincture and all potencies, tincture to 200c.

Herbal

The Podophyllum plant grows throughout the United States in damp, shady places in woods, has leaves five to nine-lobed, large white nodding flowers, yellowish fruits, egg-shaped, not unlike a small lemon, hence the plant is sometimes called Wild Lemon. It flowers in May and June and the fruit ripens in October.

Indian tribes use the root to expel worms and drop the juice of the root into the ear to cure deafness. "All the tribes are fond of the fruit," says Raffinesque, quoted by Hale, who gives an account of the medicine. The herbal and eclectic practitioners adopted the remedy and used it as the "vegetable mercury." The first homeopathic proving was made by Williamson.

Homeopathic

Podophyllum is a remedy for bilious constitution. It affects chiefly the duodenum, small intestines, liver and rectum. It chiefly affects the right side, ovary, scapula, throat.

The Podophyllum disease is a gastro-enteritis with colicky pain and bilious vomiting. Many troubles during pregnancy, pendulous abdomen after confinement, prolapsed uterus, painless cholera morbus.

Torpidity of the liver, portal engorgement with a tendency to hemorrhoids, hypo-gastric pain, fullness of superficial veins, jaundice. Profuse diarrhea. Stool is watery with jelly-like mucus, painless, Gushing and offensive.

Podo. has alternating conditions, diarrhea alternating with constipation, headache alternating with diarrhea. Many troubles during pregnancy. Sudden shocks from jerking pains.

PAGE 1356

Notable Podo. symptoms are: Thirst for large quantities of cold water. Intense desire to press the gums together. Viscid mucus in mouth, coating teeth. Diarrhea while being bathed or washed of dirty water soaking through napkin with gagging.

Patient is constantly shaking and rubbing region of liver with his hands. Great loquacity during chill and heat. Podo. is mainly right sided, throat, hypochondrium, ovary. Much drowsiness and desire to stretch. Sphincters relaxed.

Clinical

Acidity. Amenorrhea. Anus, prolapsed. Asthma, bronchial. Bilious attack. Bronchitis. Cataract. Cholera infantum. Cornea, ulcer. Dentition. Diarrhea. Duodenum, catarrh. Dysentery. Dysmenorrhea. Dyspepsia. Fevers. Flatus. Gagging. Gall-stones. Gastric

disorders. Goiter. Headache. **Heart**, pain. Hemorrhoid. Ovary disorders.

Palpitation. Pneumonia. Proctitis. Prostatitis. Pustules. Sciatica. Stomatitis. Strabismus. Taste, disorders. Tenesmus. Tongue, burning. Urticaria. Uterus, prolapsed. Whooping cough. Worms.

Constitutions

Pod. is especially adapted to persons of bilious temperament, especially after mercury poisoning. **Planets**: Jupiter.

Modalities

External heat ameliorates pain in bowels. Better by pressure. Better from rubbing or stroking liver. Better lying down, lying on abdomen, stretching in bed. Hot weather, summer, aggravates diarrhea. Worse in early morning, eating, dentition, drinking, acid fruits, milk, worse before during and after stools, mercury. Worse from motion, walking, ascending stairs, exertion. Worse morning, especially early morning, 2 to 4 a.m. Worse night, open air, while washing. Worse by swallowing.

Symptoms

MIND

Delirium from eating acid fruits. Depression of spirits. Whining. Loquacity during chill and fever afterwards forgets what has passed. Imagines he is going to die or be very ill. Fidgety and restless, cannot sit still.

Abdomen

Liver and whole abdominal viscera are sore, worse during vomiting, diarrhea, before and during menses. Distended abdomen, heat and emptiness. Sensation of weakness or sinking. Can lie comfortably only on stomach. Rumbling and shifting of flatus in ascending colon. Weak, empty, sinking or sick feeling after stools. Rubs for relief.

Back

Nape of neck stiff, muscles sore. Pain under right scapula. Pain between shoulders. Pain in small of back. Pain in lumbar and sacral regions worse during stool, and still worse after. Pain in loins, worse walking on uneven ground or from misstep. Sacral pain.

Chest

Catarrh of chest during dentition. Pains in chest worse by deep inspiration. Oppression in chest.

Ears

Aching pain in right ear, with rough feeling extending from there along right Eustachian tube.

Eyes

Pain in eyeballs and temples. Lids half closed. Smarting, inflammation of lids. **Eyes** sunken. Jaundiced. **Eyes** glazed and motionless. Cataract.

Face

Hot, cheeks flushed during diarrhea. Jaundiced.

Female

Pain in uterus and right ovary with shifting noises along ascending colon. Menorrhagia from straining. Suppressed menses with pelvic tenesmus. Prolapsed uterus on straining or over-lifting after childbirth. As if the genitals would come out during stool. Ovarian tumor with pain extending to shoulder. Pain in the region of the ovaries (right), down the

crural nerve worse stretching the legs. Hemorrhoids with prolapsed anus during pregnancy. Prolapsed uterus from overlifting or straining during pregnancy. Can lie comfortably only on the abdomen during early months of pregnancy. Swelling of labia during pregnancy.

Food

Craves acids which disagree. Thirst for large quantities of cold water. (Phos.) Worse after eating and drinking after acid fruit and milk.

Head

Headache, dull pressure, worse morning with heated face and bitter taste, alternating with diarrhea. Rolling of head from side to side with moaning during dentition from business worry. Headache alternating with or better by diarrhea. Darting, pain in forehead, must close the eyes. Child perspires on head during sleep.

PAGE 1357

Heart

Palpitation with a clucking sensation, rising up to the throat from emotions.

Kidneys

Frequent urination, at night during pregnancy. Bedwetting. Diabetes mellitus and insipidus.

Limbs

Paralytic weakness on left side. Pain between shoulders, under right scapula in loins and lumbar region. Pain along ulnar nerve of both arms. Pain in right inguinal region, shoots down inner thigh to knees. Cramps in calves with stools.

Liver

Sore and painful liver better rubbing. Jaundice with gall-stones. Liver and whole abdominal viscera are sore.

Lungs

Pneumonia. Chronic bronchitis. Inclination to breathe deep, sighing. Sensation of suffocation. Bronchial asthma, worse after catching cold. Cough loose, hacking with remittent fever, dry. Whooping-cough with constipation and loss of appetite.

Male

Diseases of prostate gland associated with rectal troubles.

Mouth

Offensive odor. Bitter, foul, putrid taste. Grinding the teeth at night. Difficult dentition intense desire to press the gums together. (Phyt.) Tongue, broad, large, moist, coated as of mustard spread on it. Burning, rough or flabby indented tongue. Loss of taste, could not tell sweet from sour. Everything tastes sour or putrid.

Rectum

Diarrhea of long standing, early in morning during teething with hot, glowing cheeks while being bathed or washed in hot weather after acid fruits. Gurgling through the bowels, then profuse putrid stools gush out painlessly. Green, water, fetid, profuse, gushing.

Pale, hard, chalky stools. Stools, white like water, foaming with meal like sediment, run right through the diaper, then weakness. Summer diarrhea. Cholera infantum and morbus. Stools involuntary during sleep, when passing flatus. Prolapse of rectum before or with

stool. Constipation alternating with diarrhea. (Ant-c.) Constipation, clay-colored, hard, dry, difficult. Internal and external hemorrhoids.

Sensations

As if strabismus would occur. Pain in head as from ice on occipital protuberance. As if tongue, throat and palate had been burned. As if a thousand live things moving about in abdomen or of fish turning over. As if everything would drop through pelvis. As if heart ascending to throat. Ball in upper esophagus.

Skin

Moist, warm, jaundiced. Sallow skin, jaundice, also in children. Scabs on arms and legs. Pustules slow in healing. Rawness and itching of genitals, also pustules. Cold, clammy skin. Erysipelas. Intolerable itching of body and arms. Urticaria.

Sleep

Moaning and whining during sleep. Sleepy after paroxysms of malaria. Heavy sleep, fatigue on waking. Rising up in sleep without waking. Sleep disturbed, full of confused dreams.

Stomach

Hot, sour belching, nausea and vomiting. Hot sour belchings, smelling like rotten eggs.

Constant gagging. Vomiting of a hot, frothy mucus. **Heart** burn, gagging or empty retching. Vomiting of milk infants.

Temperature

Chills at 7 a.m. with pain in hypochondria and knees, ankles, wrists. Great loquacity during fever. Sweat, profuse with sleep offensive.

Throat

Gagging in infantile diarrhea. As of a lump in esophagus.

Vertigo

Vertigo, tendency to fall forward.

Comments

An unintentional Podo. proving recorded by E. V. Rose brings out the chief characteristics of Podo. and shows that its reputation as a "vegetable mercury" is well deserved:

PAGE 1358

Mr. J., 26 took at 11 a.m. grains x of Podo. 1 x to "stir up his liver." At 6 p.m. was taken with an indescribable sick feeling all over and a persistent dry, rough feeling in pharynx and esophagus, extending along right Eustachian tube with dull, aching pain in right ear, feeling as though a ball or lump in upper esophagus.

At 8 p.m. dull and stupefying headache, chiefly frontal, worse lying down. Fullness in stomach, belching of gas, sour belchings, marked salivation and offensive odor from mouth. Sleep disturbed, full of confused dreams, rolled and tossed about, bed felt too hard and a feeling as though head and shoulders were lying too low.

At 3 a.m. call to stool, which was profuse, watery, dark green. Calls frequent. Before stool: peculiar weak, dull, griping pain below umbilicus, fullness in rectum. During stool: weak feeling in stomach. After stool: tenesmus and faint feeling. These symptoms passed off in two or three days, the diarrhea being followed by constipation, which was quickly removed by Nux-v.

These symptoms are nearly all proved characteristics of Podo.: The early morning aggravates, the profuse stools, faint, gone sensation, fullness and tenesmus in rectum. Podo. is an irritant wherever applied. Externally on the skin it produces a rawness like intertrigo. The dust of the powdered root getting into the eyes sets up intense inflammation, ulceration and leucoma.

These effects have proved leading indication for its internal use in eye disorders. The fullness and tenderness of the rectum noted in Ross's case went on to actual prolapse in the provings.

Clarke had many times cured with Podo. 6c prolapsed anus in children. With Podo. 1x, Mr. Knox Shaw relieved "continual urging and straining" in a case of rectal cancer too far gone for operation.

The genital organs were involved with the rectum in the tendency to prolapse. "Symptoms of prolapse uterus with pain in sacrum with muco-gelatinous stools", "Sensation at stool as if the genital organs would fall out" are keynotes of the provings which have led to many cures. Pains in the ovaries, especially the right, extending down the anterior and inner side of thighs.

In the pregnant and puerperal state Podo. is frequently indicated: in the vomiting of pregnancy, swelling of labia, sever after-pains with strong bearing-down sensation, hemorrhoids and prolapsed rectum after confinement. A peculiar symptom of pregnancy indicating Podo. is: "Can lie comfortably only on stomach (early months)."

The irritation of Podo. is shown in the brain, but it is then generally reflected to the abdominal viscera, (cholera infantum). or the teeth (dentition). There is moaning and whining during sleep, the head is thrown back and rolls from side to side, the child grates its teeth. Great desire to press gums or teeth together is keynote.

The salivation, foul breath and moist tooth-indented tongue of Merc. are reproduced in the Podo. provings and so also in the congested, sensitive liver with excess or absence of bile. These, combined with the fever and proneness to sweat, make Podo. one of the important antidotes to Merc.

Fevers of many kinds are met by Podo. remittent, chiefly bilious remittent intermittent. Delirium is not rare and is apt to be loquacious. Moaning and whining during sleep. Much drowsiness and desire to stretch.

Alternating conditions are noted: Diarrhea alternating with constipation, headache alternating with diarrhea, headache in winter, diarrhea in summer inflammation of scrotum or of the eyes, not of both.

Some concomitants are important: Pains in sacrum in lumbar region with rectal and uterine symptoms, cramps in calves with stools. The stools may be painless or may be preceded, accompanied and followed by colic, tenesmus and other symptoms.

PAGE 1359

The concomitance of diarrhea with other disorders points to Podo. Loquacity during chill and heat is a keynote in fevers.

Nash has cured an obstinate case of intermittent fever through this symptom: Chills violent, followed by intense fever with great loquacity, when the fever was past patient fell asleep and on waking remembered noting of his loquacious delirium. Burning tongue is another leading symptom.

A case is related by W. A. Burr of a young man who had for some weeks a burning sensation along left edge of tongue. Occasionally shooting to tip or through to opposite

edge. He had been in poor health, "bilious," for years. With catarrh of stomach, duodenum and bile ducts extreme discomfort followed even the blandest foods. Podo. 3x improved in two days and the tongue was well in a week.

L. M. Barnes reports these cases: (1) A lady for four months after miscarriage had much ovarian pain, worse at night. She was sleepless, nervous, restless. Much bearing down in abdomen and back. She was a large, stout woman with a pendulous abdomen. Podo. cured after Puls. and Cimic. had only partially relieved.

(2) A stout woman, 60, complained of burning, aching, cutting pain in rectum. Was obliged to be on her feet all day. Nervous, cross, irritable. Podo. cured.

Guernsey mentions that it is often called for in complaints of pregnant and parturient women with sensation as if intestines were falling down. He mentions also whooping cough with costiveness and loss of appetite.

Compare

(1) Mandragora - Great desire for sleep, exaggeration of sounds and enlarged vision. Bowels inactive, stools large, white and hard.

(2) Aloe, Chel., Merc., Nux-v., Sulph.

(3) Prunella, Self-heal- colitis.

Polygonum aviculare

(knot-grass)

Pharmacy

Polyg-a. Polygonum aviculare. Knot-grass. Historical dose: Tincture and all potencies.

History

Polygonum aviculare in material doses of tincture or 1c potency, was found useful in lung tuberculosis and intermittent fever and especially in arteriosclerosis. Erythema.

Planets: Mercury.

SOURCES

Boericke.

Polygonum hydropiperoides

(smartweed)

Pharmacy

Polyg-h. Polygonum punctatum. Polygonum hydropiper. Smartweed. Polygonum acre. Persicaria urens. Water-pepper. N. O. Polygonaceae. Britain, North America. Tincture of whole fresh plant. Historical dose: Tincture and all potencies.

Herbal

The Polygonum are named by Gerarde "Arse-smarts." Burnett regarded it as a splenic and as useful in old cases of syphilis. As a splenic he found it often required in cases of gout and in gouty eczema with much irritation he used it with much benefit in the 6c, 12c and 30c.

Hale states "Smart Weed is a popular domestic remedy throughout U.S. A. Applied externally it has the effect of a mustard plaster and the leaves saturated with hot water are applied to relieve cramps and colic. Also as an emollient in inflammation and sprains."

Polyg. was proved by W. E. Payne and others. The provers were all men, but clinical experience has shown a definite action in the female generative sphere, amenorrhea, aversion to sex and congestion of the ovaries having been cured by it. **Planets:** Saturn, Venus.

Homeopathic

Leading symptoms of Polyg-h. are aching pains in hips and loins with weight and tension in pelvis and tearing in groin, worse right. Metrorrhagia, also amenorrhea in young girls.

PAGE 1360

Varicose veins, hemorrhoids and rectal pockets. Burning in stomach followed by feeling of coldness in the pit of the stomach.

Polygonum punctatum acts upon the genito-urinary organs and the intestines, causing cutting pains, along the ureters, along ovarian ducts, up spine with bearing down.

Pulsating, flashing, wandering pains in prostate. Coldness alternating or coincides with heat in the same or other part, burning in chest with cold feeling in pit of stomach.

Smarting discharges.

Clinical

Amenorrhea. Antrum, pain. Blepharitis. Colic, flatulent. Cough. Diarrhea. Dysentery.

Dysmenorrhea. Dysuria. Eczema. Epilepsy. Gonorrhoea. Gravel. **Heart** disorders. Hemorrhoids. Hysteria. Laryngitis. Nephritis. Neuralgia. Orchitis. Prostatitis. Sciatica. Spermatic cord, pain. Spleen disorders. Strangury. Ulcers.

Modalities

Better from warmth. Worse pressure of clothes. Worse by cold, damp, change of temperature. Lying down causes pressure in occiput, dizziness and wavering of sight. Rising causes sudden pain in occiput.

Symptoms

Abdomen

Gripping pain with great rumbling, nausea and liquid feces. Flatulent colic. Cold feeling in stomach with burning in chest. Nausea felt in. Cutting pains with great rumbling, as if whole intestinal contents were in a fluid state.

Breasts

Shooting pains through the breasts.

Ears

Acute pain in, on bending head down better bending backwards.

Eyes

Puffiness under right eye. Lids twitch when closed and when lying down.

Face

Coldness in right face, when pain is most severe in left.

Female

Metrorrhagia, amenorrhea in young girls. Cutting pain along the fallopian tubes with bearing down. Aching pains in hips and loins. Sensation as if hips were being drawn together. Sensation of weight and tension within pelvis.

Head

Acute pulsative pains in temples.

Kidneys

Nephritic colic with grinding, griping, cutting bellyache. Cutting pain along ureters.

Urine scanty, dribbling, dark or calcareous, adherent sediment. Nephritis, suppurative.

Cystitis. Painful constriction at neck of bladder.

Limbs

Aching lower limbs. Sore pains in heels. Feet alternately hot and cold.

Male

Scrotum excoriated. Pulsating, burning pain in prostate on urinating. Pain in testes, spermatic cord on urinating.

Mouth

Itching, burning palate, wants to scratch it. Tongue feels swollen.

Rectum

Hemorrhoids with itching. Liquid feces. Interior of anus studded with itching eminence.

Sensations

As of sudden rising of scalp. As if whole intestinal contents were fluid. As if hips drawn together. As of galvanic shock through lower limbs.

Skin

Superficial ulcers and sores on lower limbs, especially in females at menopause.

Urticaria.

Comments

The Polyg-h. pains are: Lancinating, cutting, pulsating, shooting, wandering and flashing. One prover described them as like aurora borealis and a case of sciatica with pains of this description was cured with Polyg. The left temple was markedly affected, left side generally more so than right. Sensations of cold were numerous and alternated or coincided with heat in the same or other parts. Coldness of right side of face when pain in left side was most severe.

Burning in chest with cold feeling at pit of stomach. Feet burning, then suddenly cold. Diarrhea, as with its relations, Rheum and Rumex is marked and also dysuria. There is excessive weakness, trembling and sensitiveness to cold. Epilepsy and hysteria have been cured with it.

Compare

(1) Carduus mar. - ulcers.

(2) Ham., Senecio.

(3) Polygonum persicaria - kidney colic, stones, gangrene.

(4) Polygonum Sagittatum.

(5) Polygonum aviculare.

SOURCES

Boericke. Clarke.

PAGE 1361

Polygonum sagittatum

(arrow-leaved)

Pharmacy

Polyg-s. Arrow-leaved. Polygonum Sagittatum. Historical dose: Tincture and all potencies.

History

Boger has used Polyg-s. 2x for pains of nephritic colic, suppurative nephritis. Sharp pains along spine, itching of hard palate, burning inner side of right foot and ankle.

Planets: Venus.

SOURCES

Boericke.

Polyporus pinicola

(pine agaric)

Pharmacy

Polyp-p. Polyporus pinicola. Pine Agar. N. O. Fungi. Tincture of fresh plant. Historical dose: Tincture and all potencies.

Herbal

The Pine agaric, Pol. pin. like the Larch agaric, Polyporus officinalis (described in this work as Boletus laricis, its older and less correct name), was proved by Dr. Burt. The symptoms of the two have a very close resemblance and many are common to both.

Hale says it is a remedy for ague in the Middle and Southern States, taken during the intermission macerated in whisky. Quotidian fevers, he says, are most suited to it.

Planets: Moon.

Homeopathic

Polyp-p. has been useful in intermittent, remittent and bilious fevers with headache, yellow tongue, constant nausea, faintness at epigastrium and constipation.

Despondency, aching distress in many parts. Stiffness of back of fingers, enlarged tonsils with dysphagia and constant inclination to swallow.

Neuralgic pains in head, face and temples, pain in liver and spleen with diarrhea or constipation and hemorrhoids these are the chief features of the proving.

Clinical

Anus, prolapse. Constipation. Hemorrhoids. Intermittent fever. Liver disorders. Malar bone, pain. Prolapse ani. Rheumatism. Spleen disorders. Tonsils, enlarged.

Modalities

Better by rest. Worse in damp air. Worse after stool. Worse by motion, by walking.

Comments

Great lassitude, congestion of head with vertigo, face hot and flushed, prickling sensation all over, restless at night from pain in wrists and knee, rheumatic pains, profuse perspiration. Headache about 10 a.m. with pain in back, ankles and legs increasing until 3 p.m. , then gradually better.

Compare

(1) Similar to its botanical relative, Polyp. officinalis or Boletus laricis. Deep dull, severe pain in shin bones, preventing sleep.

(2) Bol. lur., Agar.

SOURCES

Boericke. Clarke.

Populus candicans

(balm of gilead)

Pharmacy

Pop-c. Populus candicans. Balm of Gilead. A variety of Populus balsamifera. N. O. Salicaceae. Tincture of the resinous buds. Historical dose: Tincture and all potencies.

Herbal

Populus balsamifera, this name applies especially to the variety P. candicans, but also to all P. balsamiferae. In England the name "Balm of Gilead tree" is given to the Black Italian Poplar, which abounds in Italy, but the origin of which is not known.

C. F. Nichols gives an account of Pop-c., the effects of which he observed. "The resinous gum exuding from buds and stalks, deliciously aromatic in perfume is widely used to heal wounds, open sores and eruptions and often suppresses these latter to the harm of the patient."

As an application, Nichols says, it is like Arn., dangerous, though most people are not susceptible to its poisonous effect. He has never seen blisters of the size of those of Pop-c. produced by any other drug: blisters hang down like bags of water the size of walnuts. Burning was a common symptom eyes, nose, throat, bowels, vagina.

PAGE 1362

W. C. Stilson relates a case of poisoning in a man who one evening drank rum in which Balm of Gilead buds had been placed for making a liniment. A few hours later his wife heard him breathing heavily and on waking him found he could not speak.

Stilson found him only able to speak in hoarse whispers and he would forget in the middle of a sentence what he was going to say. Face ashy pale, wild look. Tongue and mouth dry. Throat dry, burning, constricted, felt as if spiders had spun webs on it. It was some days before he recovered.

Since this occasion Stilson has cured several cases of catarrhal hoarseness and aphonia with Pop-c. and one case of nervous aphonia: Mrs. S. had nervous prostration and during the attack aphonia. The aphonia remained after the patient got well otherwise. **Planets:** Mercury.

Homeopathic

Pop-c. Seems to have a remarkable power over acute colds, especially when accompanied by a deep, hoarse voice or even aphonia. General insensibility of surface, worse back and abdomen, rubbing and pounding borne without pain and is grateful on account of warmth produced. Finger-ends thickened, horny insensible to pinching and prickling. Instantaneous voice-producer. (Coca)

Clinical

Aphonia. Asthma. Brain, congested. Bullae. Colds. Constipation. Dysmenorrhea.

Dyspepsia. Dysphagia. Ecthyma. **Heart** disorders. Liver, disorders. Phosphaturia. Sinusitis. Sunstroke. Throat, sore. Vagina, burning.

Modalities

Better hot applications. Worse on moving, before menses. Worse after food and drink. Worse lifting arms. Worse by contact of clothes, after sleep.

Symptoms

MIND

Discusses her symptoms with everyone. Loquacity. Hopeless foreboding, worse after sleep. Fear and anguish. Expectation of death. Feels as if the will were paralyzed. Vanishing of thought. Forgets to finish a sentence. Voices sound distant and words just spoken seem as if uttered long ago, objects seem multiplied.

Abdomen

Wears her clothes loose. Flatulent colic doubling the body forward. Pain in right hypochondrium with enlargement.

Back

Numbness in back radiating from spine. Burning weariness in lower back.

Chest

Rawness, soreness of chest, throat.

Eyes

Sensation as if left eye were twisted during the headache. Burning irritation in eyes, nose, mouth, throat, and air passages.

Face

Face yellow. Burning prickling on face.

Female

Menses scanty, usually delaying, afterwards absent, then abundant, early, with dysmenorrhea, better hot cloths. Vagina burns as if scalded.

Food

Appetite lost, loathes meat. Nothing relished. Hungry but dares not eat for fear of choking.

Head

Hot head with cold limbs. Cold-sores on lips. (Nat-m.) Burning irritation of eyes, nose, mouth, throat and air passages. Weight on vertex.

Heart

Pain in heart, stitches. **Heart's** sound irregular, usually muffled, worse before menses. Palpitations when rising or lying on left side with vertigo.

Kidneys

Urine strong, high colored, hot, scanty, increased, variously colored, red, dark, light, phosphates abundant. Urine dark, straw color, smoky.

Limbs

Finger-ends thickened, horny, insensible to pinching and pricking. Nails blue as in ague (not thickened).

Lungs

Sits bent forward with dry cough. Cough of children caused by naso-pharyngeal catarrh, mucus drops from posterior sinuses. Dry cough when tired. Cough caused by "cobwebs" in his throat. Suffocation. Breathing dry, asthmatic with dyspnea. Sits bent forward, worse lifting arms.

Mouth

Speech thick. Taste bitter, sweet in morning.

PAGE 1363

Rectum

Stools small, round, preceded by cramps in abdomen, lack of expulsive power.

Constipation, bowels feel hot and dry. Stools watery, green, alternating with constipation.

Sensations

Whole body feels swollen, bruised, lame, sore and painful, exhausted as in dry, sultry weather. Eye feels twisted with the headache.

Skin

Skin harsh, dry and cold with burning-stinging. Burning prickling on face, chest, and hands. Blisters hanging down like bags of water.

Sleep

Sleepless after midnight with restlessness. Dreams frightful, vivid, fearful after fitful sleep.

Stomach

Belching of gas feeling like hot steam. Nausea with a sinking in epigastrium. Vomits bile.

Temperature

Fever and unrest. Dry heat. Fever with congestion of brain, fullness, heaviness, dullness, soreness. Sweat on head and neck. Sudden coldness of limbs with numbness of them and heat of head.

Throat

Rawness and soreness of throat. Throat is red, dry, burning. Acute hoarseness. Pharynx and larynx feel dry and the voice weak and toneless. Throat and nostrils burn. Throat, burning and paralysis.

Tongue

Tongue white, dry, feels thick and numb. Tongue and mouth feel burnt and dry, but are moist, worse after food and drink.

Vertigo

Vertigo from lifting head. Vertigo and heat of head as if scorched by sun.

Comments

Pop-c. cured. among the peculiar symptoms observed by Nichols is surface anesthesia with or without numbness. The finger-ends are actually thickened, horny insensible to pinching and pricking. There is numbness in back radiating from spine.

The skin is harsh, generally dry and cold with a stinging burning behind the surface as if an eruption would appear or as if sweat would break out. Constipation, bowels feel hot and dry. The menses were at first scanty, later abundant and early with dysmenorrhea pain better by application of hot cloths.

Compare

(1) Salix, Pop.

(2) Salicylates.

(3) worse contact of clothes, Lach.

Relations

Populus tremuloides

(american aspen)

Pharmacy

Pop. *Populus tremuloides*. American aspen. Aspen Poplar. N. O. Salicaceae. The American Aspen, the British Aspen is *P. tremula*. Tincture of inner bark. Solution of Poplin. Historical dose: Tincture and all potencies, tincture or 1x trituration.

History

The symptoms were provided by Pane (eclectic), whom Hale quotes. Pane used Pop. t. in disorders of the bladder, urethra and prostate. Hale has confirmed its action in bladder tenesmus and inflammation of the neck of the bladder.

He gives this case: A woman had metritis, vaginismus and cystitis and was apparently cured. A ride on the cars brought back: Weight, pressure and aching in pelvis and bladder tenesmus with frequent desire to urinate. Pop. p. 3x removed all these symptoms in three days.

In the cases cured by Hale he says there was little pain during urination, but as soon as the last drops were voided or a little before, a severe cramp-like pain just behind pubes lasting ten to fifteen minutes. **Planets:** Moon.

Homeopathic

Populus tremuloides is a good remedy in bladder troubles after operations and in pregnancy. Cystitis. Fullness of head, sensation of heat of the surfaces of the body. Night-sweats. Ague.

The gastric and urinary symptoms point to its usefulness in dyspepsia and catarrh of the bladder, especially in elderly people.

Clinical

Ardor urine. Bladder, catarrh. Gleet, chronic. Prostatic affections.

Symptoms

Male

Prostate enlarged.

PAGE 1364

Kidneys

Severe tenesmus, painful scalding. Urine contains mucus and pus. Pain behind pubis, at end of urination.

Stomach

Indigestion with flatulence and acidity. Nausea and vomiting.

Compare

(1) Pop-c., Sal-n., Gault.

(2) Salicin and Salicylates.

(3) Nux-v., Chin., Cornus flor., Cann-i., Canth.

Relations

Follows well: Cann-s., Canth. (succeeded after they had only partially helped).

Boericke. Clarke.

Primula obconica

(primrose)

Pharmacy

Prim-o. Primula obconica. Primrose. N. O. Primulaceae. Tincture of whole fresh plant. Historical dose: Tincture and all potencies.

History

Prim. ob. is an ornamented variety of Primrose. Gardeners, amateur and professional, have discovered after much suffering that it has with some persons a most powerful action on the skin, its action taking place chiefly by contact but partly by effluvia.

The poison of the Primrose occurs in its glandular hairs, which break easily and discharge an irritating fluid which is absorbed into the skin. But skin symptoms of poisoning appear in sensitive patients even without coming in direct contact with the plant, mere nearness being sufficient, just like Poison Ivy.

The Rev. F. H. Brett, who was one of the first to notice its poisonous properties, undertook to prove it. He had handled the plants freely up to that time without experiencing any ill effect. He cut up some young plants and added some vigorous fresh leaves of an old one and made a tincture.

This he allowed to stand for a week and then took three or four drops, three times a day for four days. Two days after ceasing to take it symptoms began to develop in the right little finger and two days afterwards in the right thumb.

These became very intense and ran a chronic course and now he could not go near a plant of prim. ob. without setting up an worse. When plants were in the room, there was worse at night. Worse by rubbing or scratching.

At the same time Brett noted that pains in the liver and spleen to which he had been subject now troubled him no more. The right hand was much more affected than the left.

Clarke cured a chronic psoric dry eruption on the leg of a woman with Prim. ob. 3c. Cooper relieved a case of severe eczema on the leg with bleeding. **Planets:** Mercury, Saturn.

Homeopathic

Prim-o. has deep infiltration and tension of tissues. Blisters. Paralyzed sensation. Pharyngeal soreness alternates with diminished facial irritation. Weakness. Intermittent symptoms, worse right side. Pain in liver and spleen.

Clinical

Chapped hands. Eczema. **Eyes.** inflammation. Itching. Liver, pain. Skin disorders. Spleen, pains.

Symptoms

Abdomen

Pain in region of liver, and a less severe pain in spleen, worse by bending from side to side.

Eyes

Burning irritation of eyeballs and eyelids, nostrils, and mouth. **Lids greatly swollen**, covered with large bullae, half closed, stiff and immovable.

Face

Moist eczema. Papular eruption on chin. Burns at night. Urticaria-like eruption. Eyelids swollen.

Limbs

Eczema on arms, wrists, forearms, hands, papular and excoriated. Rheumatic pain around shoulder. Palms dry and hot. Cracking over joints and fingers. Purple blotches on back of hands, palmar surface stiff. Blisters on fingers.

Skin

Eruption between fingers. Great itching, worse at night, red and swollen like erysipelas. Tumefied. Small papules on a raised base. Skin symptoms accompanied by febrile symptoms.

Temperature

At night feverish, hands and face would burn, then intolerable itching.

PAGE 1365

Compare

(1) Rhus-t., Fagopyrum (Antidotal).

(2) Humea elegans, similar skin symptoms.

(3) Anag., Prim. Verat., Prim. vulg.

SOURCES

Primula veris

(cowslip)

Pharmacy

Prim-v. Primula veris. Cowslip. N. O. Primulaceae. Tincture of entire fresh plant.

Historical dose: Tincture and all potencies.

Herbal

The flowers of Prim. veris are said to be narcotic, (Treasure of Botany). "Cowslip wine" is a favorite remedy in the country for many small disorders.

Schier of Mentz, proved a tincture of fresh plant including root. The duration of action is only a few days in healthy persons. Schier commends it as an external application when there is no skin lesion, "as this remedy has a certain relation with the skin. Prudence is necessary here, especially for persons with sensitive and easily vulnerable skin."

Cooper cured with P. Verat. a case of eczema of the hands after P. obc. had failed. He also cured with it eczema palmaris of years' duration in a man age 70. **Planets:** Moon, Saturn.

Homeopathic

Prim-v. has threatened strokes, arising apart from depression. Cerebral congestion with neuralgia, migraine, rheumatic and gouty pains. Chronic eczema.

Clinical

Eczema. Fevers. Migraines. Neuralgia. Strokes, threatened. Vertigo. Voice disorders.

Modalities

Worse by bent position, stooping, movement. Worse in room in closed carriage, traveling by rail. Worse in open air.

Symptoms

Ears

Buzzing in ears, better in open air.

Head

Sensation of a band around head, cannot keep hat on. (Carb-ac.) Skin of forehead tense.

Kidneys

Urine smells strongly of violets.

Limbs

Right axillary muscles painful. Weight and lassitude in limbs, especially the shoulders.

Burning in hollow of right hand. Drawing pain in thumb and big toe.

Lungs

Cough with burning and prickling in respiratory tracts. Weak voice.

Vertigo

Violent vertigo, as if everything turned around. Fear of falling when standing up.

Compare

(1) Cyclamen, Ran-b.

(2) Enothera, Evening Primrose - exhausting, watery Diarrhea, cholera infantum, hydrocephalus.

(3) Primula farinosa - the wild primrose - dermatitis, especially on index fingers and thumbs.

SOURCES

Boericke. Clarke.

Primula vulgaris

Pharmacy

Prim-v. Primula vulgaris. N. O. Primulaceae. Tincture of fresh plant. Historical dose: Tincture and all potencies.

History

Cooper cured with Prim-v. a case of wandering dropsy. In a cancer case, one dose caused the disappearance of dropsy from the leg and led to oppression at the heart. **Planets:** Sun, Moon.

Homeopathic

Dropsy, wandering. **Heart**, pressure. "Pressure at heart" Cooper thinks is a characteristic aggravation.

SOURCES

Clarke.

Prinos verticillatus

(black alder)

Pharmacy

Prin. Prinos verticillatus. Black Alder. N. O. Aquifoliaceae. Tincture of the berries. Tincture of fresh bark. Historical dose: Tincture and all potencies.

Herbal

The genus *Prinos* is very closely allied to the hollies. "The bark of *Prin.* is bitter and has been used in the treatment of fever and in the form of a lotion as an application in cases of gangrene. The berries are tonic and emetic" (Treasury of Botany). **Planets:** Moon.

Homeopathic

The only recorded experiment with *Prin.*, the effects of swallowing twenty berries, bears out the last statement:

PAGE 1366

The effect was to cause vomiting, plus an extremely profuse greenish diarrhea. *Prin.* increased the appetite and produced a feeling of well-being in spite of great loss of weight.

Clinical

Diarrhea. Fever.

SOURCES

Clarke.

Propylaminum

Pharmacy

Prop. Propylaminum. Trimethylaminum. Solution. Historical dose: All potencies, third potency or higher. Ten to fifteen drops in about six ounces of water, teaspoonful doses every two hours.

History

Propylaminum is found in many plants, (*Chen. v.*, *Crat.*, *Phal. imp.*, *Pyr. com.*, *Arn.*, *Cotyl. u.*, *Fag. syl.*, etc.) and in the compare - e. Trimethyl., which is prepared from herring-brine among other sources, has a very unpleasant and penetrating fish-like odor. At one time it was regarded as a panacea in cases of acute rheumatism. **Planets:** Saturn.

Homeopathic

Experiments show that Prop. diminishes the amount of urea excreted. In acute rheumatism, dissipates fever and pain in a day or two. Rheumatic prosopalgia and rheumatic metastases, especially heart lesions.

Pain in wrists and ankles, worse slightest motion. (*Bry.*) Great restlessness and thirst. Rheumatism, needle held in fingers gets too heavy. Tingling and numbness of fingers. Pain in wrist and ankle, unable to stand.

Clinical

Ankles, pains. Rheumatic fever. Wrists, pains.

Comments

Hansen gives these as Prop. characteristics: great pains in wrist-joints, also great restlessness, pains in ankle-joints from standing, worse slight movement.

Dr. C. Smith gives these: "Rheumatism, when the needle held in the fingers gets so heavy she cannot sew." "

Copious diarrhea with pains in ankle-joints but not in wrists, thirst for large quantities of cold water like *Bry.*" Weakness in lumbar and lower dorsal region.

SOURCES

Boericke. Clarke.

Bacillus proteus (bach)

Proteus bacillus

Pharmacy

Prot. Proteus bacteria. Intestinal bacteria. Historical dose: All potencies, 3c to 30c.

History

Culture of a bacteria of the Proteus genus: Proteus vulgaris, mirabilis, morgani, reitgeri. G. Sevaus conducted a detailed clinical study, but there is no Homeopathic proving.

Proteus, a bacterium frequently found in the intestinal region, is a nosode whose range of action concerns essentially phenomena of digestive allergies.

Homeopathic

The Prot. complaints coinciding with the ingestion of foods capable of causing digestive allergies. The suddenness of the nervous symptoms and the extreme feeling of intra-cranial tension. It is important to note that the medicine is rarely indicated in the absence of all nervous symptoms. Convulsion, epileptiform fits. Meningitis with attacks of fever.

Morbid alternations, (Psor., Sulph.). Long, drawn-out convalescence. Premature senility. Neuro-arthritic diathesis. Pain aggravated by effort. After-attack of phlebitis.

Clinical

Allergies. Angina pectoris. Coronary disease. Intermittent claudication. Melancholic conditions. Migraines. Neuralgia. Neurasthenia. Otitis. Raynaud's syndrome. Spinal neurasthenia. Worms.

Constitutions

Allergic and psoric constitutions. It suits subjects of three different constitutions: carbonic, flouric, and phosphoric. **Planets:** Moon.

Modalities

Better one hour after rising. Better from stretching, eating. Better from mild temperature, resting and lying down in the mountains. Better from drinking whisky. Aggravation in the morning on waking from exertion from climbing stairs. Worse from drinking wine. Worse in stormy weather, heat, exposure to the sun. Worse in the winter, cold. Worse from lying down, at night.

Symptoms

MIND

Feeling of extreme nervous tension and over-exertion. Brainstorm, outbursts of anger, aggravated by contradiction.

Hurls objects held in the hand, kicks out. Children tool about on the ground. Slight anguish during discomfort. Thinks about suicide without really wanting to die.

PAGE 1367

Tense irritable, depressed and capable of murder when in a temper. Aversion to company.

Abdomen

Hematemesis and melaena. Aerophagy. Acrid dyspepsia. Gastric and duodenal ulcers. Spasmodic colon infections. Oxyuric diseases.

Ears

Acute or burning pains like otitis, but without fever.

Eyes

Burning pains. Acute pains, stitching. Pains ameliorated by pressure. **Eyes** red, tired by light. Intermittent failing of sight. Meibomian cyst.

Female

Menses with blood clots. Copious white discharge, worse during ovulation. Blood-streaked, brownish discharge before menses. Fibrous blood clots at the end of menses. Menses regular with blood clots for 7 days. Boils in the anal and vulvar regions. Anal and vulvar boils. Vaginitis. Vulvar pruritus. Leucorrhoea. Metritis of the cervix.

Food

Aversion to butter, pork, beef, eggs, especially hard-boiled eggs, green beans, salad, onions, garlic, cucumber and chocolate, which he cannot digest. Desires fats, sugar, salt, butter and eggs.

Head

Digestive migraine. Frontal headache with feeling of heaviness. Headache, aggravated during the week preceding menses. Headache appearing in the morning. Headache with diarrhea and furred tongue.

Heart

Feeling of weight in the precordial region. Palpitations from the slightest emotion, when lying down. Angina pectoris. Coronary disease.

Kidneys

Urine cloudy and fetid. Whitish tissues in the urine. Cystitis after eating pork. Violent, burning pains in the urethra. Pain in the loin. Cystitis. Pyelitis. Pyelonephritis.

Limbs

Spasms of the hands. Functional or professional contracture. Writer's cramp, pianist's cramp, dancer's cramp. Flexor contraction of the little finger. Cannot close the hand. Intermittent claudication. Pain in the calf, pain forcing him to walk with a stick, cramps in the legs.

Feet numb, as if frozen, aggravated by cold weather. Sciatic pain. Legs look bruised. Hammer-toes.

Lungs

Cough with sputum.

Mouth

Aphthae and mouth ulcers. Cracking at the corners of the lips, resistant to treatment. Taste of salt in the mouth. Gums sensitive.

Nose

Nasal blockage. Impression of greasy discharge at the back of the nose. Hypertrophic chronic rhinitis.

Rectum

Diarrhea with headache and furred tongue. Alternation of diarrhea and constipation. Constipation with empty urging. Stools yellow, soft, in the morning after breakfast. Hematemesis and melaena. Presence of oxyuris in stools.

Skin

Itching vesicles. Herpetic eruption. Papular, pustular eruption, erythematous, dry, peeling. Severe pruritus. Nails split. Hair falls out. Alopecia.

Stomach

Acrid dyspepsia. Gastric and duodenal ulcers. Aerophagy.

Temperature

Perspires under the arms, hands clammy. Copious perspiration from the axilla, falling in large drops, clammy hands.

Throat

Acute pharyngitis with difficulty in speaking.

Vertigo

Vertigo with feeling that the ground is coming up to meet him. Vertigo, accompanied by colored lights.

Comments

The keynote of Prot. is suddenness and violence with nervous symptoms and spasm. Violent temper in a child with kicking. Emotional hysteria such as one connects with Ignatia and Nat-m.

PAGE 1368

Petit mal attacks of epilepsy. The element of spasm in peripheral vessels makes it valuable in Raynaud's Syndrome, along with Secale and in some cases of cramp.

Migraines headaches with blurred vision and Meniere's syndrome may be helped.

In the skin we find herpetic eruptions with pain out of proportion to the lesion and angioneurotic edema.

In the digestive sphere the sudden onset is important, either hemorrhage or perforation without any previous stomach symptoms but with a history of nervous strain building up. This slow build up of stress in business and society with a sudden catastrophe is typical of Western countries today. Needless to say the patient with severe hemorrhage or perforation may require transfusion or surgical intervention.

Compare

(1) Psorinum - Inhibition, chilliness, sadness, periodic migraine, nocturnal need to eat, morning diarrhea, weakness in the back and joints, evil-smelling eruptions, appearing in winter, disappearing in summer.

(2) Sulphur - Allergic, psoric conditions, burning skin with eruptions and itching. Impatient, quarrelsome, asthenic.

(3) Tub. - Unstable, emotional, aggravated by physical or mental effort, emaciation, sweating, morning diarrhea. Aggravated by damp and cold and weather changes.

Relations

Related remedies are Ignatia, Nat-m., Apis, Cuprum.

SOURCES

Prunus padus

(bird cherry)

Pharmacy

Prun-p. Prunus padusrheum. Bird cherry. Cerasus padus. Padus racemosa. Padus vulgaris. N. O. Rosaceae. Tincture of leaves and bark of small twigs collected when in blossom. Historical dose: Tincture and all potencies.

Herbal

Prunus padus was proved by Lembke. The plant is now classed with the Cherries, but Clarke retain it under its old name. In Scotland it is known as the Hayberry. The fruit is small, black and nauseous to the taste. In the North of Europe it enters into the formation of a palatable liqueur.

The juice is also expressed and drunk with milk, while the residue of the fruit is kneaded up into cakes. (Treasury of Botany). **Planets:** Sun, Moon.

Homeopathic

Lembke's *Prun-p.* proving brought out marked symptoms in head, rectum, chest and heart. Pains were pressive in head, sticking in rectum, pressive beneath sternum.

Heart-beats were tumultuous. The symptoms were worse by pressure, sitting, standing, stooping and walking.

Clinical

Headache. **Heart**, disorders. Rectum, pains.

Compare

(1) **Heart**, *Crat.*, *Prun. sp.*, *Prun. v.*, *Lauro*.

SOURCES

Clarke.

Prunus spinosa

(black thorn)

Pharmacy

Prun. Prunus spinosa. Black thorn. Sloe. N. O. Rosaceae. Tincture of buds just before flowering. Historical dose: Tincture and all potencies, third to sixth potency.

History

Prunus spinosa was proved by Wahle. The symptoms resemble those of *Prun-p.* in general, but some very strongly characterized ones were produced. The pains were pressive and out pressive and out-shooting.

These pains are felt in skull, eye, root of nose and ears, the teeth feel raised out of their sockets.

Prunus spinosa has shooting from within out from before backward. These pains occurring in and around the eye have led to its successful use in glaucoma, ciliary neuralgia, choroido-retinitis, irido-choroiditis, irido-cyclitis. Spraining pains and pains which take away the breath. **Planets:** Sun.

Homeopathic

Prun. especially acts on the nerves, respiratory orbital and on urinary organs. Ciliary neuralgia. (Spig.)

Special action on the urinary organs and the head. Very valuable in certain neuralgias, anasarca and especially edema.

PAGE 1369

Prun. pains are shooting, pressing outwards, lightning like, wandering, causing shortness of breath. Ankle and foot feel sprained. Neuralgia. Cramps.

Edema. Pains after shingles. Nerve paralysis. Compensatory effects. Ill effects of sun, sprains, over-lifting. Dropsy caused by defective heart.

Clinical

Appetite, lost. Ascites. Breast, pain. Choroiditis. Ciliary neuralgia. Cystitis. Dropsy.

Dysuria. Flatulent. Earache. **Eyes**, choroiditis. Glaucoma. **Heart**, affection. Hernia. Herpes zoster. Leucorrhoea. Menorrhagia. Metrorrhagia. Neuralgia. Sprains. Strangury. Stricture. Toothache. Vitreous, opacities.

Modalities

Better from rest from doubling up. Biting the teeth together helps toothache. Worse stooping, ascending. Worse by touch, pressure. Worse motion, jarring, must walk carefully. Worse night. Worse from warm food, (toothache).

Symptoms

MIND

Restlessness, walks about constantly, cannot remain in one place.

Abdomen

Ascites. Cramp-like pain in bladder region, worse from walking.

Back

As of a lump below the left scapula.

Chest

Angina pectoris.

Eyes

Ciliary neuralgia. Pain in right eyeball, as if it would burst. Shooting like lightning through the brain to occiput. Sudden pain in left eye as if it would burst, better by lachrymation. Irido-choroiditis. Opacity of vitreous humor. **Eyes** *feel as if bursting*.

Female

Menses, thin, watery too early too copious with sacral pain. Leucorrhoea, acrid, watery purulent, staining yellow.

Head

Pressing, tearing pain beneath skull. Shooting from right frontal bone through brain to occiput. Piercing toothache, as if teeth were pulled out, worse taking anything warm.

Headache from heat of sun.

Heart

Hypertrophied. Furious beating of heart, worse slightest motion. Knocking at heart with labored breathing worse least motion. Cardiac dropsy. Throbbing of carotid arteries.

Angina pectoris.

Kidneys

Tenesmus of bladder. Ineffectual effort to urinate. Cramp in bladder from pressure of flatus, must double up to urinate.

Urgent desire to urinate, urine reaches glans penis and then returns with violent pain and spasms and tenesmus in rectum. Neuralgic dysuria. Glans pains on urinating. Must press a long time before urine appears. Pulsating pudendum. Stream of urine thin like a thread or forked.

Limbs

Edema of feet. Itching at the tips of fingers as if frozen. Thumb as if sprained, hindering writing.

Lungs

Oppression of chest, anxious, short respiration. Wheezing when walking. Short breath with pains. Feeling as if air inhaled did not reach the pit of stomach, has to yawn and try to take a deep inspiration. Air hunger.

Male

Pulsation in glans from jar of walking.

Mouth

Teeth feel pulled out. Toothache better by biting teeth together.

Rectum

Hard, nodular stool with rectal pain, as if angular body were pressed inward. Burning in anus after slimy diarrhea.

Sensations

As if a sharp corner pressing against top of head. Headache as if from sun. As if skull would be pressed outward by a sharp plug. As if inner portion of eye would be torn out. Eyeball as if crushed or pressed asunder. Sighing as if climbing a steep mountain. As if small of back had been injured. As if right thumb sprained, as if left ankle sprained, as if first joint of big toe pulled out.

Skin

Herpes zoster. Dropsy. Itching on tips of fingers, as if frozen.

Temperature

Night sweat.

Comments

A remarkable Prunus spin. symptom is: "Breath always seems to remain sticking in pit of stomach."

This symptom with "pain as if sprained in left ankle," led Lippe to make a remarkable cure in this case: A young lady, 16, jumped from a carriage while the horse was running away and sprained her ankle. Left ankle and foot much swollen.

PAGE 1370

As swelling abated, breathing became rapid, great oppression with constantly recurring desire to take a long breath, felt as if air inhaled did not reach pit of stomach and until she could force air so far down had to yawn and try to take a deep inspiration. The tightness, stitches and sticking pains in chest have marked Prun. as a remedy in many cases of neuralgic pains with or following herpes zoster.

The urinary symptoms are perhaps the most peculiar of all. Pressure of abdominal flatulence on the bladder is not an uncommon symptom and is met by Prun.: "Flatulence presses on bladder and causes cramps in bladder so that he is obliged to double up."

Strangury of the most painful description was produced and this symptom, which is quite characteristic: Hurriedly impelled to pass urine, which, however, seems to pass forward into glans penis and then return and cause most violent pain in urethra. Menses are too

early too profuse, last too long and are thin and watery. There is lectureship, which weakens and stains yellow. The right side is much more affected than the left.

C. M. Boger gives this confirmation of Prun.: Man, 60 with enlarged prostate, had frequent urging to urinate, day and night. Shooting pains in neck of bladder unless desire to urinate is at once gratified. Urination delayed if any great amount has accumulated.

Spasmodic tenesmus of bladder and rectum at close of urination with pains in glans. Pulsation in glans from jar of walking. Prun. 1,000c. (Fincke) removed the symptoms.

Compare

(1) Lauro.

(2) Prunus padus, Bird-cherry - sore throat, pressure behind sternum and sticking pain in rectum.

(3) Pyrus, Mountain Ash - irritation of eyes, constriction around waist, spasmodic pains in uterus, bladder, heart, cold-water sensation in stomach, coldness extends up esophagus, neuralgic and gouty pains.

SOURCES

Boericke. Clarke.

Prunus virginiana

(choke-cherry)

Pharmacy

Prun-v. Prunus virginiana. Wild cherry. Cerasus virginiana. Choke-cherry. N. O.

Rosaceae. Tincture of inner bark. Solution of concentrated resinous extract, Prunin.

Historical dose: Tincture and all potencies, tincture in 5 or 10 drop doses.

Herbal

Hale says the cold infusion of Prunus virginiana has been used from time immemorial for irregular intermittent action of the heart with deficient impulse.

Hale adds cough, sympathetic with heart troubles, dyspepsia with tendency to acidity, slow digestion, loss of appetite and heartburn. Excessive doses have caused "dull, heavy feeling in head" like that of the other Pruneae.

Seymour Taylor says it is especially useful in dilatation of right heart, whether as a result of chronic bronchitis or of mitral stenosis.

Burnett used it for weak digestion especially of elderly people. He regarded it as a mild form of Hcy. ac. **Planets:** Sun.

Homeopathic

Prun-v. is a heart tonic. It relieves the flagging and distended ventricle, irritable heart, dilatation of right heart, cough, worse at night on lying down, weak digestion, especially in elderly people, chronic bronchitis increases muscular tone.

Clinical

Acidity. Anorexia. Dyspepsia. **Heart**, weakness, hypertrophy. **Heart**burn.

Comments

Laidlaw gives as a particular indication: Persistent coughs acquired in winter, worse at night on lying down. Also: spasmodic and asthmatic coughs.

PAGE 1371

Attacks of wheezing and whistling in trachea and large bronchi and cough left behind after an attack of influenza.

Laidlaw's first case was this: A delicate girl, 20 took cold, which began with coryza and in a few days passed into a cough with scanty expectoration and soreness under sternum. Cough was persistent and annoying at all times, but worse at night.

After many other remedies had failed Prunin (the preparation Laidlaw uses), one grain every two hours, relieved in two days and cured in a week. A recurrence some months later was rapidly cured by the same remedy.

SOURCES

Boericke. Clarke.

Psorinum

(scabies nosode)

Pharmacy

Psor. Psorinum. Scabies Nosode. The product of "Psora sicca" epidermoid efflorescence of Pityriasis by Gross. The salt from a product of Psora by Hering. Triturations. Historical dose: All potencies, 30th and higher potencies.

History

Dr. Hering prepared this nosode from sero-purulent matter of scabies vesicles. The therapeutic field of action is found in the so called Psoric manifestations, when there is a lack of reaction in chronic diseases, when well related remedies fail to relieve or to permanently improve, also when Sulphur seems indicated but fails to relieve. Clears up confused cases.

As Sulphur has been the chief remedial agent in both schools in the treatment of itch and itch-like eruptions, it is natural to find in the nosode of Psora or constitutional itch, a close analog of Sulph. Psorinum has been proved entirely in the potencies.

Clarke had frequently seen Psor. develop some of its own symptoms in patients whom it has benefited in other ways. A man who complained of "cloudiness of mind and difficult thinking," and who had among other symptoms, "Left foot colder than right," received Psor. 30c. It removed these symptoms, but while under its influence these new symptoms appeared:

Heavy headache across the eyebrows, greasiness of face and forehead.

A woman to whom Clarke gave Psor. 30c complained that after each dose she had a feeling "as if something in the head were being screwed up and drawn," one of Hahnemann's symptoms is "Spasmodically contracting headache,"

A patient who took Psor. 500c complained that it had a "filthy taste." Psor. 20,000 c. has produced an eruption of boil-like indurations in both axillae, first in the left then in right. The general symptoms were very greatly relieved at the same time.

Psor. has cured more cases of hay fever in Clarke's practice than any other single remedy. Many cases have a psoric basis and when the basic taint is corrected the irritating agents have no effect. Nasal polyps have also been cured with Psor. when the general symptoms indicate the remedy.

Homeopathic

The therapeutic field of this remedy is found in mainly psoric manifestations. Psor. chiefly affects the skin, folds of, sebaceous glands, ears, bowels, respiration and right side. Allergies and hay fever. Psor. is a cold medicine, wants the head kept warm, wants

warm clothing even in summer. Extreme sensitiveness to cold. Debility independent of any organic disease, especially the weakness remaining after acute disease.

Psor. is adapted to dirty persons with filthy smelling body even after a bath. Pale, sickly, delicate, unhealthy looking children, who have a disagreeable smell around them. The skin symptoms very prominent. Unhealthy skin. Severe itching, worse at night, heat of bed. Itching leads to despair. Eczema and Psoriasis. Itching is worse from wool clothing. Eruptions and rashes disappear in summer, appear in winter. Easy perspiration when walking.

Offensive discharges. Scrofulous patients. Secretions have a filthy smell. Profuse sweating. Foul, discharges, odor of the body, stools, eruptions, sweat, stubborn foot sweat. Secretions thick. Weak, tender and thin. Easily takes cold, chilled. Clothing seems large or he feels pushed down when walking in the sun. Hungry or unusually well before an attack. Wants to wash parts.

Lack of reaction when well-chosen remedies fail to act. Weakness, remaining after acute diseases or independent of any organic diseases after loss of fluids.

PAGE 1372

Feels good and bad by turns. Looseness of joints of teeth etc. Dread of least cold air or draft. Wears warm clothes even in summer. Washes his hands and feet constantly.

Nervous, restless persons who are easily startled. Prostration. Feels sick all over. Recurrences of diseases. Often gives immunity from catching colds. Syphilis inherited and tertiary. Cardiac weakness. Sick babies will not sleep day and night but worry, fret and cry or good and play all day, troublesome screaming all night. Difficulty in breathing when standing in open air, wants to go home and lie down. Enlarged glands.

Clinical

Acne. Adenoids. Allergies. Anus, itching. Asthma. Backaches. Bedwetting. Boils. Cancer. Cholera infantum. Cough. Constipation. Cornea, ulcers. Crusta lactea. Crusta serpigiosa. Debility. Diarrhea. Diphtheria after-effects. Dyspepsia. Eczema. Eruptions, itching. Gleet. Gonorrhoea. Gouty. Hayfever. Headaches. Hemorrhages. Hemorrhoid. Hernia. Hydrocele. Impotence. Influenza. Injuries. Itching. Leucorrhoea. Lice. Lienteria. Liver, disorders. Melancholia, religious. Nose, redness. Odor, fetid. Ophthalmia, scrofulous. Otorrhoea, fetid. Ozaena. Peritonitis, tubercular. Plica polonica. Polyps. Quinsy. Scabies. Sciatica. Scurvy. Skin disorders. Spina bifida. Spleen, disorders. Sprains. Syphilis. Throat, mucus. Tinea capitis. Tonsils, concretions. Ulcers.

Causations

Ill effects of infectious diseases lasting for years, emotions, over-lifting injuries, blows, sprains, dislocations. Slight emotions causes severe ailments.

Constitutions

Psor. is specially suited to: (1) Scrofulous, nervous, restless persons who are easily startled. (2) Psoric constitutions, lack of reaction after severe diseases. (3) Complaints of psoric origin, patients emit a disagreeable odor. (4) Pale, sickly, delicate children.

(5) Peevish, unhealthy-looking children, who have a disagreeable odor about them. (6) Dirty people in whom the body has a filthy smell which no amount of washing can remove. (7) Those subject to diseases of the glands and skin and who have had eruptions suppressed. **Planets:** Saturn, Mercury.

Modalities

Better heat, warm clothing, even in summer. Better from lying with head low or quietly. Better when eating, worse immediately after (rush of blood to head). Better from coffee, washing, nosebleed. Better by rest and in room. Better from hard pressure, profuse sweating. Better lying down. Worse from cold, open air, washing. changing weather, stormy. Worse from heat of bed of woolens of exertion in hot sunshine. Worse from suppressions, contact of his own limbs. Worse by bandage touch, pressure, rubbing, scratching. Worse lying right side, (liver). Overlifting causes thoughts to vanish. Worse walking, moving. Worse evening and before midnight, night, morning on waking. Winter causes cough. Summer causes diarrhea, itching eruptions. Worse before a thunderstorm. Worse periodically, yearly, full moon, (bedwetting).

Symptoms

MIND

Anxiety. Foreboding. Despair of recovery, great despondency, hopeless. Despair from itching. Melancholy, religious, gloomy. Horrid thoughts, suicidal tendency. Feels himself poor. Fears the business will fail. Fear of fire of being alone of becoming insane etc. Aversion to work. Children very fretful, day and night. Peevish, irritable, noisy, easily startled. Severe ailments from even slight emotions. Dull, beclouded mind. Difficult thinking. Feels restless for days before a thunderstorm comes.

PAGE 1373

Abdomen

Flatulent with disorders of liver. Colic better eating and passing fetid flatus. Flatus like bad eggs. Pain in abdomen after eating.

Back

Lumbar ache worse standing or walking. Drawing pain extending to shoulder. Sticking in back.

Boring in vertebrae in morning with colic, as from rheumatism. Bruised feeling in evening, cannot straighten it.

Breasts

Breasts swollen, nipples red. Eruptions on breasts causing excoriation. Burning and itching pimples around nipples.

Chest

Hot sensation in chest. Feeling of ulceration under sternum. Pain in chest, better lying down. Chest pain extends to shoulder, worse cold drinks.

Ears

Raw, red, oozing scabs around ears. Humid sores, behind the ears. Herpes from temples over ears to cheeks. Intolerable itching. Offensive discharge from eczema around ears. Intolerable itching. Putrid otorrhea with headache with offensive watery diarrhea. Fetid pus from ears, brownish offensive. Red wax. Illusory noises, as if he heard with ears not his own.

Eyes

Agglutinated. Blepharitis. Chronic ophthalmia, that constantly recurs. Edges of lids red. Secretion acrid. Gummy. Everted eyelids. Sensation as if something were moving or one were playing with his fingers before eyes. Recurring chronic ophthalmia. Objects tremble, then get dark. Darkness before eyes.

Face

Pale, sickly, dirty, fuzzy or puffy. Red small pimples on. Acne rosacea. Swelling of the upper lip. Down on. Swelling of upper lip. Pale, delicate. Humid eruption on face. Sickly.

Female

Leucorrhea fetid, lumpy with much backache and debility. Leucorrhea, gushing, fetid with violent pain in sacrum. Dysmenorrhea, near menopause. Menses, early and profuse. Obstinate vomiting during pregnancy. Fetus moves too violently. When after an abortion, the woman gets on her feet, the flow starts anew. Pimples oozing an acrid fluid that burns and excoriates the glands.

Food

Loss of appetite after illness with great thirst. Ravenous appetite yet grows thin. Desires, beer, acids. Aversion to pork. Drinking causes cough.

Head

Chronic headaches, hungry during attacks of vertigo. Migraines. Hammering pain. Awakens at night with pain as from blow on head. Headaches, as from a heavy blow with suppressed menses, follows visual disturbances, better nosebleed. Pain, alternates with other complaints. Dull, pressive pain in occiput. Brain feels too large, worse change of weather. Head feels separated from the body. Sensitive to drafts about head, wants it covered in hot weather. Twitching in temples. Spots of white skin with white lock of hair. Humid eruption on scalp, hair matted. Dry, lusterless, rough hair. Tangled hair.

Heart

Gurgling at the heart worse lying down. **Heart** murmurs and mitral regurgitation. Pericarditis. Pulse, weak, irregular.

Kidneys

Bed wetting, worse full moon, obstinate. Has to pass urine several times from weakness of bladder.

Limbs

Joints feel loose, as if they would not hold together. Eruptions around joints makes walking difficult. Eruptions around fingernails. Hot itching soles. Fetid foot sweat, (Sil.)

Liver

Pain in liver worse sneezing. Flatulent with disorders of liver.

Lungs

Asthma with dyspnea, worse sitting up, better lying down and keeping arms spread wide apart. Dry, hard cough with great weakness in chest. Cough returns every winter from suppressed eruption. Cough worse lying down, drinking. Hay fever returning irregularly every year. Bloody expectoration with hot sensation in chest.

PAGE 1374

Male

Offensive genitals. Gripping in testes. Chronic gonorrhea, painless discharge from urethra staining yellow. Aversion to sex. Want of enjoyment of emission during sex.

Mouth

Obstinate cracks at corners. Teeth feel loose, then pain worse touch. Tip of tongue feels scalded. filthy taste. Tongue, gums ulcerated tough mucus of foul taste adheres to soft palate. Gums, bleed, spongy, settled away from the teeth.

Pyorrhoea. Obstinate, cracks in the corners of lips. Taste bitter better eating or drinking.

Neck

Glands of neck swollen and on touch bruised pain extending to head. Sticking in neck with pustules. Herpetic eruption on side of neck extending from cheek. Nape excoriated by discharge from eczema capitis.

Nose

Hay fever, regularly returning every year. Recurring colds. Dry, coryza with stoppage of nose. Chronic catarrh, dropping from posterior sinuses. Acne rosacea. Red small pimples on.

Rectum

Stools, mucous, bloody, excessively fetid, dark fluid. Stools, dark, brown, horribly putrid, gushing of penetrating odor, going through the whole house. Cholera infantum. Constipation of infants in pale, sickly scrofulous children. Involuntary stools with sleep. Stools soft, but difficult. Hemorrhages from rectum in old women. Has to go several times to pass normal stools. Chronic diarrhea, early morning, urgent. Burning in rectum. Hard, difficult stool with blood from rectum and burning hemorrhoids.

Sensations

As if frightened. As if he would lose his senses. As if stupid in left half of head. As if brain had not room enough in forehead. **Eyes** as if pressed outward. As from heavy blow on forehead. As if brain would protrude. As if sand in eyes. As if he heard with ears not his own. Cheek-bones as if ulcerated. Condyle of jaw as if lame. Tongue as if burnt. Teeth as if glued together. Plug in throat. Throat as if narrowing. As if intestines hanging down.

Skin

Dirty, rough, scabby, greasy, breaks out in folds. Intolerable itching, worse heat of bed. Scratches raw or until it bleeds. Herpetic eruptions, especially on scalp and bends of joints with itching. Enlarged glands. Sebaceous glands secrete excessively, oily skin. Indolent ulcers, slow to heal. Eczema behind ears. Crusty eruptions all over. Urticaria, worse exertion. Pustules near finger-nails.

Excrescences disappear in summer, only to occur again in winter. Recurring body lice. Scabies. Condylomata on edges of skin.

Sleep

Sleepless from intolerable itching. Easily started. Dreams vivid, continue after waking.

Stomach

Belchings, sour, rancid, tasting and smelling like rotten eggs. like bad eggs. Very hungry always, must have something to eat in the middle of the night. Nausea, vomiting of pregnancy. Vomiting of pregnancy when not relieved by other drugs. Waterbrash when lying down.

Temperature

Heat with steaming sweat. Sweat, easy, profuse worse night, cold, on palms.

Throat

Tonsils greatly swollen, painful swallowing with pain in ears. Profuse offensive saliva tough mucus in throat. Recurring quinsy. Eradicates tendency to quinsy. Hawking up of cheesy, pea-like balls of disgusting smell and taste. (Agar.) As of a plug in throat impeding hawking.

Comments

One great mark of distinction between Sulph. and Psor. is that the Psor. patient is exceedingly chilly likes to have a fur cap on in summer, while the Sulph. patient is predominating hot.

H. C. Allen gives another: Psor. is indicated in chronic cases when well-selected remedies fail to relieve or to permanently improve (in acute diseases Sulph.), also when Sulph. seems indicated but fails to relieve.

PAGE 1375

The chief of the keynotes of Psor. is: Lack of vital reaction, prostration after acute disease, depressed, hopeless, night-sweats. Hopelessness, despair of perfect recovery is part of the lack of reaction, emaciation and foul body odor may accompany it.

"Foulness" may be considered the second keynote of Psor. Eruptions have offensive discharges, the otorrhea is horribly offensive.

The diarrhea (especially of cholera infantum) is profuse, watery, dark brown and even black and is putrid smelling like carrion.

Hawley reports a case of cholera infantum which seemed to defy every remedy. Stools very thin and watery, dirty greenish, smelt like carrion. Child very fretful, had no sleep for two days and nights. Psor. 42,000 c (Fincke), one dose in water. In two hours the child went to sleep in four days it was well without repetition of the dose.

Another case of Hawley's: Miss N., 20, had an eruption in bends of elbows and knees, dry, scaly with little pointed vesicles round the reddened edges, disappeared entirely in summer and reappeared when cold weather set in, violent itching, worse by warmth of bed or by scratching. Psor. 42,000 c, two doses at six weeks' interval, cured. No return the following winter.

Psor. also cured Headache preceded by dimness of sight or spots before eyes. Headache and eruptions, worse during the changeable weather (Wesselhoeft). Always very hungry during headaches.

Miss C., convalescing from typhoid fever, reported: "Stationary, no appetite," Psor. 400 c produced immediate change and ravenous appetite. Mr. P., 50, complained of nothing but weakness, no appetite, least exertion puts him into a perspiration. Psor. 40 c cured rapidly.

Mr. X., 21, was obliged one day to run until nearly exhausted. Though strong and well before he now became weak, perspiring easily, severe pains right side, worse by coughing, laughing and motion. Psor. 40 c cured rapidly.

Extreme dullness, fears inflammation of brain, better by nosebleed. Headache following darkness before eyes. Black spots before eyes. Psor. cured. Horribly offensive, nearly painless, almost involuntary, dark and watery stool, only in night and most towards morning.

Mr. C., 43, spare, dark. Hypochondriacal. "Nervous" nine months. Had to give up business.

Took much Quinine and other drugs. Complains of very disagreeable feeling about the head and manifests mental depression, thinks he will never recover, has lost all hope. Cannot apply his mind to business. Seems confused, cannot reckon. Numbness of legs and arms, worse left side, worse going to bed, formication and crawling with prickling and smarting on scalp and same on limbs. Tongue coated white.

After three months treatment was stationary. It was then ascertained that he sweated very easily on least exertion and somewhat at night and had loss of memory. Psor. 400 c soon caused improvement and enabled 'the patient to return to business (Bell).

G. A. Whippy cured the following case with Psor. 200c, a dose every third night: Carpenter, 40, long-standing discharge of reddish cerumen from left ear, worse at night. Sensation of valve opening and shutting in left ear, worse afternoon. Buzzing in ear, which stopped suddenly and was followed by violent itching.

Dull, heavy pain in base of brain in afternoon with sensation as though skin of abdomen was greatly relaxed and drawn down. Face sallow and greasy, several pustules on chin and neck which itch intensely and bleed when scratched.

Other leading indications of Psor. are: Sick babies will not sleep day or night, but worry, fret, cry or good and play all day, restless, troublesome, screaming all night. Weakness from loss of fluids after acute disease with or without organic lesion. Whole body painful, easily sprained and injured.

PAGE 1376

Great sensitiveness to cold air, change, storms to sun, restless for days before a thunderstorm.

A symptom often met with in practice and useful to remember is: "Feels unusually well day before attack." Headache better by eating from suppressed menses, better by nosebleed. Dry, lusterless hair, plica polonica.

Worse during menses from fats, sugar, coffee, meat. Quinsy, throat burns, feels scalded, cutting, tearing intense pain on swallowing, profuse offensive saliva tough mucus in throat, must hawk continually, tendency to quinsy.

Compare

(1) Pediculus - psoric manifestations in children. Eruption on dorsum of hands, feet, neck. Prurigo, pellagra. Unusual aptitude for study and work.

(2) Pediculus - ?(cooties) transmit typhus and trench fever.

(3) In lack of reaction compare Op., Calc. and Nat-a.

(4) Gaertner.

Boericke. Clarke. Phatak.

Ptelea trifoliata

(hop tree)

Pharmacy

Ptel. Ptelea trifoliata. Hop Tree. Water ash. Wafer Ash. N. O. Xanthoxylaceae of the Rutaceae. Tincture of bark of root. Historical dose: Tincture and all potencies, first to thirtieth potency.

Herbal

Ptelea is the Greek name for the Elm and was applied by Linnaeus to a genus of shrubs and small trees, natives of North America and Asia and included in Xanthoxylaceae.

In Canada the young green shoots of Ptelea are used as an anthelmintic in the form of an infusion. The fronds are bitter and aromatic and have been used as a substitute for hops, (Treasury of Botany).

One of the provers of Ptelea confirmed its anthelmintic powers by "a very copious expulsion of ascarides."

The proving was very thorough and extensive and T. Nichol, Burt and Cowperthwaite were among the provers.

A very marked action was on the liver and in those erysipelatous and urticaria eruptions that are so often concomitant with disorders of the liver. **Planets:** Moon, Jupiter.

Homeopathic

Ptel. is a remarkable remedy in stomach and liver disorders. Atonic states of stomach. The aching and heaviness in the region of the liver is greatly aggravated by lying on the left side. Asthma. Stomach and liver symptoms associated with pain in limbs. Taste bitter and belchings either bitter or like rotten eggs. Aching and heaviness in the region of liver worse lying on left side. Headache with hunger, especially on awaking, may prove a keynote. Right (liver) side most affected.

A number of alternating symptoms were noted. Nervous pains alternating from left arm to left eye and temple. Liveliness alternates with sadness. As gastric symptoms improved difficulty of breathing came on. There is the ravenous hunger of the anti-psorics, empty sensation in esophagus in stomach. Sensitive to light, sound to open air. Enlarged feelings were noted: head feels large, fingers feel numb and large and clumsy.

Clinical

Asthma. Constipation. Dysentery. Dyspepsia. Erysipelas. Gall-stones. Headaches, gastric, bilious. Intermittents. Jaundice. Liver, congestion. Nightmare. Phosphaturia. Rheumatism. Spleen disorders. Stomach pain. Worms.

Modalities

Better eating sour, acid things. Better in cold air. Better morning and evening. Worse lying down, lying left side. Worse afternoon, early morning. Worse after eating, cheese, butter, meat, puddings. Worse in hot room. Worse after sleep, on awaking. Worse walking, speaking, mental exertion. Worse moving eyes, raising eyebrows. Worse before and after stool.

PAGE 1377

Symptoms

Abdomen

Much weight and pain in right side, heavy, aching feeling, relieved by lying on right side. Retraction of abdomen.

Ears

Swelling of gland under right ear, sharp pain behind ear. Shooting pains from left ear down spine. Intolerance of loud talking. Roaring and singing in ears.

Eyes

Pressure over eyes, worse lifting eyebrows. **Eyes** heavy. Pains over eyes. Sensitiveness to light.

Face

Face pale, especially round eyes, sickly, yellow. Burning in face.

Food

Appetite voracious. Tired before finishing eating. Desire for acid food. Aversion to meat, butter and rich food. Thirsty, drank much water. Absence of thirst with bitter taste.

Head

Feels dull and stupid. Pain from forehead to root of nose, pressing-outward pain. Frontal headache, worse noise, motion, night, rubbing eyes with acidity. Temples as if pressed together. Headache better after stool.

Limbs

Edema of feet and legs with liver disorders. Stomach and liver symptoms associated with pain in limbs.

Liver

Liver sore, swollen, sensitive to pressure.

Lungs

Feeling of pressure on lungs and of suffocation, when lying on back. Asthma, dyspnea, cramp-like pain in cardiac region.

Mouth

Excess of saliva with dry bitter taste. Tongue coated white or yellow, feels rough, swollen. Papillae red and prominent. (Arg-n.) Coating may be brownish-yellow. Breath, hot, burns the nostrils.

Nose

Sneezing. Influenza. Nose stopped, sore, breath burns and irritates nostrils.

Rectum

Pressure in rectum, urging to stool. Smarting in anus after hard stool with diarrhea stool. Stool followed by tenesmus and succeeded by itching and smarting at anus.

Sleep

Awakes languid and unrefreshed. Restlessness with frightful dreams, nightmares.

Stomach

Weight and fullness. Heat, dryness and distressing feeling of emptiness in esophagus. Belching, nausea and vomiting. Constant sensation of corrosion, heat and burning in stomach. Stomach feels empty after eating.

Throat

Throat sore, ulcerated, worse right side. Burning and pricking pains, especially in tonsils. Dryness, roughness, heat, constriction in throat.

Comments

Hale says Ptel. has not the violent action of Podo. or Iris-v., but "a slow, pervading" action and causes chronic ailments. He has found it useful in "bilious headache, dyspepsia, gastralgia, congestion of the liver, chronic hepatitis and chronic erysipelas." Others have used it in chronic rheumatism, dysentery and constipation.

Hale says the oily constituent of Ptel. resembles Turpentine and one of the most marked symptoms of the proving is: "Pressure as from a stone in pit of stomach," recalling Abies-n. and the conifers.

In the proving the liver was swollen and tender, but it was better lying on right side and worse lying on left

H. K. Leonard cured a seemingly hopeless case with Pte. Ix on this symptom: Weight, aching distress, dull pain in hepatic region, better lying on right side, turning on left causes a dragging as if liver pulling on its ligaments. The dull, muddled headed feeling is another liver symptom.

J. Preston cured with Ptel. a case of jaundice following gall-stones with great emaciation. Aching distress, general aching and soreness, malaise.

Pulex irritans

(common flea)

Pharmacy

Pulx. Pulex irritans. Common Flea. Historical dose: All potencies, low and high potencies.

PAGE 1378

History

The Pulex irritans has marked urinary and female symptoms. **Planets:** Venus.

Homeopathic

Pulx. cannot retain urine, must attend the call immediately. Stains of menses and leucorrhoea are very hard to wash out. As if cotton ball inside the vagina.

Clinical

Abdomen bloated. Leucorrhoea.

Modalities

Better sitting or lying down. Worse left side, moving about.

Symptoms

MIND

Very impatient, irritable.

Back

Aches, weak, drawing of muscles below scapula. Backache. (Ox-ac.)

Eyes

Eyes feel as if enlarged.

Face

Wrinkled as of an old man.

Female

Menses delayed. Increased flow of saliva during. Intense burning in vagina. Leucorrhoea, profuse, foul, staining a greenish yellow, stains of menses and leucorrhoea very hard to wash out. Salivation during menses.

Food

Thirst especially during headache.

Head

Very impatient, cross and irritable. Frontal headache with enlarged feeling of eyes. face wrinkled and old-looking.

Kidneys

Flow of urine stops suddenly followed by pain. Urine foul. Urine scanty with frequent urging with pressure in bladder and tenesmus in urethra. Cannot retain urine, must attend to the call without delay. Irritable bladder before menses.

Mouth

Metallic taste. Sensation of a thread in throat. Thirsty, especially during headache.

Skin

Prickly itching. Sore spots all over. Skin emits foul odor.

Stomach

Breath and taste foul. Intense nausea with vomiting, purging and faintness. Stool very offensive.

Temperature

Feels a glow all over like being over steam, Chilly, while sitting beside the fire.

Throat

As if a thread hanging in.

Boericke. Clarke. Phatak.

Vulpes pulmo

(fox's lung)

Pharmacy

Pulm-v. Vulpes pulmo. Fox's Lung. A Sarcode. Trituration. Historical dose: All potencies, 6x trituration.

History

As the fox is probably the longest-winded of all animals, the doctrine of signatures pointed to his lungs as a likely remedy for short breath. The uses of tissues and organs as remedies have thrown light on many curiosities of ancient medicine. **Planets:** Mercury.

Homeopathic

Pulm-v. has persistent shortness of breath causing an attack of asthma on the slightest motion. Strong, sonorous bubbling rales.

Clinical

Asthma. Bronchitis. Catarrh. Lungs, edema, catarrh. Shortness of breath.

Comments

Grauvogl has put on record this case: Women, 65, much reduced in flesh by a persistent condition of humid asthma. It commenced with chronic catarrh and symptoms of edema of the lungs. Strong, sonorous bubbling, now rattling, now whistling sounds over whole chest and at some distance away, perceptible also to hand laid on chest.

Accelerated short breath amounting to suffocation, even without corresponding heaving of the chest, frequently with cough and inability to expectorate

Sometimes in light cases, there is no catarrh present and only persistent shortness of breath, becoming a paroxysm of asthma on the least bodily exertion. The patient could only live sitting up, bent forward, constant lividity of face, lips and limbs and dropsy of legs.

Heart's pulsations irregular and death seemed imminent. Pulm-v. 1x grains right was given and repeated in an hour. Visible improvement set in but without increased expectoration.

After a third powder the patient was able to lie down and fell into a refreshing sleep lasting several hours. In eight days she engaged in her domestic duties.

Clarke.

PAGE 1379

Pulsatilla pratensis

(pasque-flower)

Pharmacy

Puls. Pulsatilla nigricans. Pulsatilla pratensis. Anemone pratensis. Pasque-flower. Wind flower. N. O. Ranunculaceae. Sunny, sandy pastures in Central and Northern Europe and parts of South of England. Tincture of entire fresh plant when in flower (it flowers in spring and again in autumn). Historical dose: Tincture and all potencies, 3 to 30 potency. Herbal

Pulsatilla is called Pasque Flower because it is in bloom at Easter and its flowers are used for coloring Easter eggs. The Anemone is a medicine of ancient date and its affinity for the eyes seems to have been noted from the first. Perhaps its tearful propensities gave rise to the legend that it sprang from the tears of Venus.

The behavior of the "Wind Flower," the sport of every gust, has been said to typify the action of the remedy. The fresh plant contains an acrid and vesicating principle and a corrosive oil, as well as a kind of tannin, which colors iron green in the dry state it is entirely deprived of this acrid quality. Grows in sandy pasture grounds, on hills and areas exposed to the sun.

Dioscorides mentions it as a remedy for headache and ophthalmia. Stoerck was the forerunner of Hahnemann in the modern use of Pulsatilla, which he employed especially in chronic disorders of the eyes (catarrh, amaurosis, spots on cornea).

Its juice draws blisters "to the extent, it is said of causing gangrene, if allowed to remain in contact with the part for a sufficient length of time.

But these properties are in a great measure, lost by dessication and ruminating animals, such as sheep and goats, eat the dry Pulsatilla, if mixed with other herbs without aversion or inconvenience."

Hahnemann says of Pulsatilla: "This powerful plant produces many symptoms on the healthy human body which often correspond to the marked symptoms commonly met with, hence, also, they admit of frequent homeopathic employment and often do good. It is therefore unquestionably reckon it as a remedy of many uses, a polycrest.

It is useful in acute as well as in chronic diseases. The homeopathic use of Puls. is most suitable when not only the physical symptoms of the remedy correspond in similarity to the physical symptoms of the disease.

Also when the mental and emotional disorders peculiar to the drug encounter similar states in the disease to be cured or at least in the temperament of the subject of treatment."

Hahnemann gives in the picture of the Puls. disposition and temperament: "A timid, weeping disposition with a tendency to inward grief and silent peevishness or at all events a mild and yielding disposition. Especially when the patient in his normal health was good-tempered and mild or even frivolous and good-humored.

It is therefore especially adapted for slow, phlegmatic temperaments, on the other hand, it is but little suitable for persons who form their resolutions with rapidity and are quick in their movements, even though they may appear to be good-tempered.

Puls. acts best where there is a disposition to chilliness and thirstlessness. It is suitable for females when their menses come on some days after the proper time.

Especially when the patient must lie long in bed at night before he can get to sleep and when the patient is worse in the evening. It is useful for the ill effects caused by eating pork."

PAGE 1380

Homeopathic

Pulsatilla affects the emotions, veins, mucous membranes, respiration and one side. It is pre-eminently a female remedy, especially for mild, gentle, yielding disposition. The disposition and mental state are the chief guiding symptoms to the selection of Pulsatilla.

Sad, crying readily, weeps when talking. Moody, contradictory. On account of its changing, shifting symptoms this remedy is known as a weather cock remedy. Symptoms rise to a certain pitch, then suddenly cease. Symptoms appear on one side or go to side lain on. Changeable nature is one of its most important keynotes.

Erratic temperatures in fevers. Wandering pains shift rapidly from one part to another, also with swelling and redness of the joints. Hemorrhages apparently stop and in a few hours return. Stools constantly changing color, no two stools alike.

Alternate pallor and redness of face. When one set of symptoms comes on another vanishes.

The patient seeks the open air, always feels better there, even though he is chilly. Mucous membranes are all affected. Discharges thick, bland and yellowish-green. Thirstless, peevish and chilly. When first serious impairment of health is referred to age of puberty. Great sensitiveness. Wants the head high. Feels uncomfortable with only one pillow. Lies with hands above head. Symptoms ever changing. Often indicated after abuse of Iron tonics and after badly-managed measles.

Thirstlessness, chilliness and shortness of breath with digestive or menstrual disorders. Chilliness with pains but burning with stitching pains with numbness. Mucous discharges are profuse, bland, thick, yellowish-green. Anemia.

Changing and contradictory symptoms. Alternations. Metastasis. Hemorrhages, passive, vicarious, blood dark, easily coagulating. Varicose veins. Heaviness. Scraping, jerking, tearing, ulcerative pains, wandering pains. Numbness, partial, hands, feet etc. of the part lain on of suffering parts. Chilly but craves for open air.

Puls. has never well since puberty. Chorea from amenorrhea or dysmenorrhea. The longer he lies in the morning the longer he wishes to lie. Cannot lie with head low. Child wants to be carried slowly. Symptoms in distant parts of the body cause dyspnea.

Sensation of distention in size, as if one part or every part were growing too large during pain. Bandaged sensation.

Wearing of flannels or woolen clothes cause itching and eruptions. Epilepsy with absent or irregular menses. Emaciation of suffering parts. Pulsation through whole body. Great inclination to stretch feet.

Clinical

Acne. Allergies. Amaurosis. Amenorrhea. Anemia. Bladder, catarrh. Blepharospasm. Breast-feeding, disorders. Breasts, pain. Bronchitis. Cataract. Catarrh. Chest, pains. Chicken pox. Chilblains.

Clavus. Colds. Conjunctivitis. Coughs. Diarrhea. Distention. Dysmenorrhea. Earache. Epilepsy. Nosebleed Eye, disorders. Fears. Feet, painful. Fetus, mal-position. Freckles.

Gonorrhea. Gout. Hands, painful. **Heart**, palpitations. **Heart**burn.

Hemorrhoids. Hydrocele, congenital. Hysteria. Intermittent fever. Faints. Labor, pains. Leucorrhoea. Measles. Menstruation, abnormal. Moles. Mumps. Neuralgias.

Nymphomania. Ovaries inflammation. Phlegmasia alba dolens. Pregnancy, troubles.

Priapism. Prostate inflammation. Prostatorrhoea. Puerperal convulsions. Puerperal fever.

Puerperal mania. Retained placenta. Rheumatism, gonorrhoeal. Sinusitis. Smell, loss.

Spine, curvature. Styes. Synovitis. Tapeworm. Taste, lost. Tongue, coated. Toothaches.

Urinary incontinence. Uterus, prolapse. Varicose veins. Whitlow.

Causations

Ill effects of suppressions, otorrhea, menses, lochia, milk etc. Abandonment. Grief.

Eating ice cream, pork, fats, pastry, desserts. Chill. Wetting feet. Ill effects of eating pork, fats, pastry, mixed rich diet, tea.

Constitutions

It is a remedy for females of mild, gentle, plethoric, yielding disposition, who cry readily and weep when talking. Pale chilly blondes. **Planets:** Venus, Mercury.

Modalities

Better from cool, fresh, open air, gentle motion. Better from cold applications, cold food and drinks, though not thirsty. Better from uncovering, erect posture. Better from continued motion, pressure, rubbing, massage, lying with head high. Worse from warmth of air, stuffy rooms, clothes, bed, getting feet wet. Worse evening and night. Worse at twilight. Worse rest, beginning motion, lying, on one side. Worse from eating, long after, rich foods, fats, ice cream, pork, eggs. Worse puberty, pregnancy, before menses. Worse from iron, quinine, hanging down limbs, tea, thunderstorms, sun. Worse before thunderstorm. Sun aggravates.

Worse hot food is vomited immediately, aggravates toothache.

PAGE 1381

Symptoms

MIND

Irresolute. Mild, timid, emotional and tearful. Discouraged. Changeable moods. Easily offended. Weeps easily. Whining. Craves sympathy. Desires company. Children like to be carried and held. Fear of the opposite sex, marriage. Cries easily, moved to tears before menses.

History of abandonment or grief. Fear of abandonment. Fear to be alone of dark of ghosts in the evening, therefore wants to hide or run. Capricious. Miserly. Very irritable touchy, feels slighted or fears slight. Disgusted at everything. Suspicious. Answers, yes or no.

Fixed ideas about food, sex, religion. Sadness from disagreeable news. Mania from suppressed menses. Religious melancholy.

Abdomen

Great soreness of epigastrium. Cutting, pulsation in epigastrium. Painful, distended, loud rumbling. Pressure as from a stone. Colic with chilliness in evening. Feeling of numbness. Pains extend into groins. Hard painful lumps in both groins.

Back

As if cold water was poured down the back. Pain in back and small of back as from prolonged stooping. Curvature of the upper part of the spine. Backache worse lying on back, better lying on sides or changes of position, especially so during pregnancy. Back feels bandaged. Pain in sacrum on sitting. Shooting pain in the nape and back, between shoulders in sacrum after sitting.

Breasts

Breasts, sore, aching, lumps in girls before puberty. Thin milky fluid escapes from breasts in virgins, before puberty. Milk, suppressed, scanty. Weeps when the child is put to breast. Swelling of breasts after weaning. Galactorrhea. Secretion of milk during menses.

Chest

Smothering sensation on lying down. Pain as from ulcer in middle of chest. Pressure and soreness upon the chest. Chest oppressed, as by a load. Soreness or stitch beneath clavicles.

Ears

Catarrhal otitis. Earaches, worse night. Lobes of ear swollen. Otorrhea, discharge of pus of blood, thick yellow humor offensive after exanthemata. Mumps, especially metastatic to the breast or testes. Sensation as if something were being forced outward. Hearing difficult, as if the ear were stuffed. Deafness as if ears were stopped up, can hear better in car and in a warm room.

Eyes

Weeping eyes. Conjunctivitis from colds. Sub-acute conjunctivitis with dyspepsia, worse in warm room. Thick, profuse, yellow, bland discharges. Itching, burning in eyes, causing rubbing. Profuse lachrymation and secretion of mucus. Lids inflamed, agglutinated. Styes, recurrent. Veins of fundus oculi greatly enlarged. Fistula lachrymalis, discharging pus on pressure. Blepharitis. Acrid lachrymation. Dimness of vision with a sensation as though there were something covering the eyes, worse wind. Ophthalmia neonatorum. Blindness attacks, before menses. Amaurosis, paralysis of the optic nerve.

Face

Acne in young girls. Right-sided neuralgias with a profuse lachrymation. Pale. Licks lips. Crack in center of lower lip. Swelling of lower lip. Prosopalgia towards evening until midnight, chilly with pain.

PAGE 1382

Female

Amenorrhoea from wet feet, nervous debility or anemia. Suppressed menses from wet feet, nervous debility or chlorosis. Dysmenorrhoea. Tardy menses. Menses, dark thick too late, scanty after bathing, clotted, changeable intermittent, irregular, vicarious. Menses delayed at puberty. Leucorrhoea, milky, thick like cream with pain in the back and exhaustion, acrid. Mal-position of fetus, breach. Weak labor pains. Bearing down, worse lying. After-pains too long and too violent. Post-partum hemorrhages from retained placenta.

Food

Hunger, but does not know for what. Changeable appetite. Food tastes too salty. Sudden loathing, worse eating. Aversion to pork, meat, water, fats.

Aversion to bread, milk, smoking, buck-wheat, warm food and drink. Craves or dislikes butter. Desire for tonics. Desire for sour, refreshing things, lemonade. Desires, acids or what disagrees, refreshing things, pungent things, herring, cheese. Aggravated from rich foods, fats, pork, pastries, desserts, ice cream. Onions disagree. Thirstlessness with nearly all complaints.

Head

Headaches from overwork, suppressed sexual desire, indigestion, ice cream. Occipital pain, worse coughing. One-sided headaches, pulsating, bursting with scalding lachrymation of the affected side. Headaches of school girls at the time of puberty. Headaches, better walking in open air. Head seems heavy, cannot hold upright, cannot raise it. Profuse sweat on scalp. Wandering stitches about head, pains extend to face and teeth. Frontal and supra-orbital pains. Neuralgic scalding pains, beginning in right temporal side. Lachrymation of affected side. Pressure on vertex.

Heart

Palpitations, worse lying on left side anxious with amenorrhea from emotions after dinner. Catching pain with short breath better by pressure of a hand and walking.

Kidneys

Spasmodic pain in bladder after urinating. Cystitis with weeping. Burning in orifice of urethra during and after urination. Hematuria after urination. Urine dribbles when angry. Involuntary urination at night during sleep, while coughing, sneezing or passing flatus. Involuntary on lying down, laughing, hearing sudden noise after surprise, shock. Heavy pressure or cramp in bladder after urination. Sensation as of a stone rolling in the bladder. Urging to urinate when lying on back. Stricture, urine passed only in drops and stream interrupted. (Clem.)

Limbs

Joints, swollen, red. Pains down lower limbs, alternating sides. Drawing, tensive pain in thighs and legs with restlessness, sleeplessness and chilliness.

Pain in limbs, shifting rapidly, tensive pain, letting up with a snap. Arms feel broken and dislocated. Elbows numb. Hip-joint painful. Legs feel heavy and weary. Numbness in legs when after long standing. Knees swollen with tearing drawing pains. Sticking in tibia worse lying better cool air and walking. Boring pain in heels toward evening. Pains, worse from letting the affected limb hang down. (Vip.) Veins full, varicose, painful. Veins in forearms and hands swollen. Milk leg. Periostitis. Inclination to stretch the feet. Feet red inflamed, swollen, edematous. Cold sweat on legs. Foul foot sweat.

PAGE 1383

Lungs

Asthma from suppressions. Shortness of breath, worse lying on left side. Smothering sensation on lying down, worse in warm, stuffy rooms. Cough dry, hacking from tickling in epigastrium. Dry cough in evening and at night, must sit up in bed to get relief. Expectoration, bland, yellow, greenish. Loose cough in the morning with copious mucous expectoration. Expectoration, thick, purulent, slimy, sweet, salty, bitter as it loosens up. Short breath, anxiety and palpitations when lying on left side. (Phos.) Urine emitted with cough. (Caust.) Cough after measles.

Male

Orchitis, gonorrhoeal or from sitting on cold stones. Pain from abdomen to testicles. Burning down left spermatic cord. Acute prostatitis, enlarged prostate. Epididymitis. Testicles hang low down. Bloody emissions. A thick, yellow discharge from urethra, late stage of gonorrhoea. Acute prostatitis. Pain and tenesmus in urinating, worse lying on back.

Mouth

Breath offensive. Greasy taste. Dry mouth without thirst, wants it washed frequently. Yellow or white tongue, covered with a tenacious mucous. Toothache, relieved by holding cold water in mouth. (Coff.) Food, especially bread, tastes bitter. Much sweet saliva. Alterations of taste, bitter, bilious, greasy, salty, foul.

Taste bitter especially for bread. Diminished taste and smell to all foods. Food, leaves an after taste. Saliva, tenacious, frothy cotton like. Crack in middle of lower lip. Frequently licks the dry lips.

Nose

Loss of smell with catarrh. Foul discharge or odor before the nose. Chronic bland yellow discharge. Coryza, better going out in the open air. Coryza, stoppage of right nostril, pressing pain at root of nose. Large green fetid scales in nose. Yellow mucous, abundant in morning. Bad smells, as of old catarrh. Nasal bones sore. Nosebleed, before during and from suppressed menses.

Rectum

Rumbling, watery, worse night. Stools, green, bilious. Changeable stools, no two stools alike after fruit. (Ars., Chin.) Blind hemorrhoids with itching and sticking pains, worse menses, lying down. Dysentery, mucus and blood with chilliness. (Merc., Rheum.) Two or three normal stools daily. Diarrhea in jaundice with sensation of heat. Discharge of blood from rectum even when not at stool. Diarrhea after fright.

Sensations

As if beside himself. As if in a hot atmosphere. As if death were near. As if looking through a sieve. Limbs as if bruised, as if asleep. As if one had turned in a circle a long time, as if he would fall, as if he were dancing. As if brain would burst and eyes fall out of head. Chill as if drenched with cold water. As if head would burst on coughing. Tongue as if burnt. Pain as from subcutaneous ulceration. As of a hot coal above ulcer.

Skin

Glands swollen. Ulcers with hard, red, glistening areolae. Skin itches on being heated. Urticaria after rich food with diarrhea from delayed menses, worse undressing. Measles. Acne at puberty. Varicose veins.

Sleep

Irresistible sleepiness in afternoon. Sleeps with hands over head. Great sleepiness during day, wakes confused, languid, unrefreshed. Wide awake in the evening, first sleep restless.

Lies with hands over head or crossed on abdomen and feet drawn up. Dreams, frightful, disgusting, voluptuous, confused of cats. Chattering in sleep. Talks, whines or screams during sleep. Wakes languid, unrefreshed.

Stomach

Belchings, taste of food remains a long time after ices, fruits, pastry. Bitter taste, diminished taste of all food. Pain as from subcutaneous ulceration. Stomach disordered,

feels heavy. **Heart**burn. Dyspepsia with great tightness after a meal, must loosen clothing. Flatulence. Vomiting of food eaten long before. Pain in stomach an hour after eating. (Nux-v.) Weight as from a stone, especially in morning on awakening. Gnawing, hungry feeling. (Abies-c.) Visible pulsations in the pit of stomach. (Asaf.) All-gone sensation, especially in tea drinkers. Waterbrash with foul taste in the morning. Hiccough when smoking tobacco.

PAGE 1384

Temperature

Chicken pox, measles and mumps. Childhood fevers. Feverish, hot, body temperature normal. Prophylactic for measles. Erratic temperature in fevers. Chilly, yet averse to heat in warm stuffy rooms with pain, on lying down at night. Chilliness without thirst. Chilly with pains in spots, worse evening. Chill about 4 p.m. Intolerable burning heat at night with distended veins, heat in parts of body, coldness in other. One-sided sweat, pains during sweat. One sided coldness with numbness. External heat is intolerable, veins are distended. During apyrexia, headache, diarrhea, loss of appetite, nausea. Pains during sweat. One hand cold. Partial sweat.

Throat

Hoarseness, comes and goes. Food lodges in. Dry, sore with sense of dysphagia. Sensation of a worm wriggling up. As of a sulphur vapor when coughing.

Vertigo

Vertigo, better in open air. Vertigo, worse sitting up, looking up with nausea and gastric or menstrual disturbances, before during after or suppressed menses.

Comments

The three characters, "chilly, worse by warmth, thirstless," serve to define the fever of Puls. in whatever from it may be measles, mumps, typhoid, bilious, catarrhal intermittent, rheumatic, etc. The chilliness may be one-sided and associated with numbness, it may be flitting in spots now here, now there. With the heat there are distended veins and burning hands that seek cool places and still there is no thirst. In the rheumatic the pains shift from joint to joint. The sweat is profuse, may be one-sided, sour, sweetish sour or musty in odor.

The last completes the similarity of Puls. to the "mousey" odor of measles, the cough, catarrhal symptoms and rash giving other strong points of correspondence. The ear trouble which is a common sequelae and complication of measles or other fever is frequently met by Puls.

Which also treats the effects of suppressed rashes and metastases, as of mumps to testes or breasts. As a prophylactic against measles Puls. has a reputation almost equal to that of Bell. Against scarlatina give Puls. 3c three times a day.

The generative organs of both sexes are strongly acted on by Puls., which may almost be regarded as an organ-remedy in relation to them. Gonorrhoea with thick, purulent secretion and the effects of suppressed gonorrhoea orchitis and cystitis, prostatitis, sarcocele, varicocele, hydrocele all come within the sphere of Puls.

In the female Pulsatilla ranges over the whole sexual period from puberty to the menopause. Including menstruation, pregnancy, the puerperium and breast-feeding. These present many points of correspondence with the symptoms of Puls. Epilepsy with absence or irregularity of menses has been cured with Puls.

Bojanus relates two cases: (1) Girl, 18 of good constitution with no hereditary predisposition, had amenorrhea for six months and a fit occurred at the time each period was due. Aura: sad, pale as death, chewing movements. Puls. 6c one dose a day.

Next month menses returned and there were no more fits.

(2) Robust girl, 14 with no hereditary predisposition. Fits twelve months. Exciting cause: non-appearance of menses. One great fit per month, small fits daily. Aura: self-willed, angry, stands on one spot, stares into vacancy, stamps her foot. In fit: cries, deathly paleness, biting tongue, flow of urine, continuing the occupation she was engaged with at commencement of fit. Puls. 30c one dose a day.

Some weeks after a slight fit. Month later menses came on for first time, no great fits, small ones rare. Puls. 30c one dose a week. Month later a great fit. Puls. once a day. No more great fits, only a few small ones. Cure permanent.

Stoerck: A young girl who had amaurosis of both eyes since infancy, he cured in two months, administering an extract internally and externally a dry powder.

The latter caused at first an acute pain and profuse flow of tears after which the pains, which had existed previous to the lachrymation, diminished as soon as it commenced and finally disappeared with it, (Teste).

PAGE 1385

Delay of menses in spite of evident symptoms of a flow of blood towards the uterus, the menstrual blood is black, coagulated, impoverished if menses either too early or too late. One is obliged to lie with the head much higher than the rest of the body.

Pains which manifest themselves principally in the parts on which one is not lying, but on changing position aggravated breaking out of those pains on the parts on which one has just been lying.

This idea of vascular engorgement usefully strings together many of the leading characteristics of Puls., which will serve to indicate its use in a great variety of disorders. The leaves of the recent herb have an acrid, burning and nauseous taste. Metastasis of mumps to testes or breasts.

Puls. has coughing with a copious expectoration. The congesting action of Puls. is well shown in the respiratory symptoms. Remarking on this symptom, "Pressure upon the chest and soreness,"

Other leading indications of Puls. are: First serious impairment of health is referred to age of puberty, "never been well since" anemia, bronchitis, tuberculosis. Secretions (of eye, ear, nose, vagina, etc.) are generally thick, bland and yellowish green. The pains appear suddenly and leave gradually or tension much increases until very acute, then "lets up with a snap."

Great dryness of mouth without thirst. All-gone sensation in stomach, especially in tea-drinkers. Worse at twilight in evening (the wide-awake on first going to bed comes within this modality). Suffering parts emaciate.

Compare

(1) Puls., similar effects. Cycl., Kali-bi., Kali-s., Sulph.

(2) Tearfulness, Sep., Nat-m., Ign.

(3) Varicose veins, varicocele, orchitis, milk leg, Ham.

(4) Ophthalmia, Arg-n.

(5) All-c., both have worse in room, better open air, but All-c. discharge is thin and excoriating, Puls. thick and bland.

- (6) Stinging pains in throat worse swallowing saliva and after eating, Apis.
- (7) Feeling as if food lying in esophagus, Chin., Abies-n.

- (9) Effect of ice-cream, Ars., Carb-v., Ip., Bell-p.
- (10) Mixed diet, Nux-v., Ip., Chin.
- (11) Desire for lemonade, Cycl., Sabin., Bell.
- (12) Gastric ailments from pork, (13) Retained placenta, Canth. after-pains, Cham., Xan., Cupr.
- (14) Non-appearance of milk, Urt-u., Ric. com., Agn.
- (15) Uterine affections, Caul., Helon., Alet., Cycl., Hydr., Lil-t.
- (16) Measles, Morb., Kali-bi.
- (17) Earache, Borax.

Relations

Antidoted by: Cham. and Puls. antidote each other and follow each other well. If either one has over-acted the other will probably neutralize the ill effect and carry on the good. Coff., Ign., Nux-v. When the improper use of Puls. has affected the air passages Calc-p. has proved his best antidote.

Antidote to: Chin., Chin-s., Ferr. (in chlorotic girls who have been damaged by Iron, Puls. has excellent effect). Compatible: Ars., Bry., Bell., Ign., Kali-bi., Lyc., Nux-v., Phos., Rhus-t., Sep., Sulph. Complementary: Coffea, Cham., Nux-v., Penthorum often indicated after Pulsatilla in later colds.

SOURCES

Boericke. Clarke. Phatak.

Pulsatilla nuttalliana

(american pasque flower)

Pharmacy

Puls-n. Pulsatilla nuttalliana. American Pulsatilla. Pasque Flower (American). Anemone Ludoviciana. Anemone nuttalliana. N. O. Ranunculaceae. Tincture of whole plant.

Historical dose: Tincture and all potencies.

History

The American Pulsatilla approaches more nearly to Puls. vulgaris than to Puls. nig. in its botanical characters. It flourishes especially in the dry and sandy bluffs which form the bed of the Mississippi.

PAGE 1386

The flower is pale purplish. The odor of the dried plant is rather faint, being slightly camphor-like, the taste of the dried flowers simply sweetish and herbaceous, that of the leaves more astringent with very slight acrimony. The taste and to some extent the odor of the fresh plant are both acrid and irritating, (Hale).

A. W. Miller, a pharmacist, analyzed Puls. nutt. The extracted substances had an acrid, almost caustic taste and well-marked camphor-like odor. When volatilized they produced an irritating, pungent vapor, affecting the eyes and causing sneezing.

The analysis revealed the following constituents: (1) organic Grape-sugar, gum, resin, an alkaloid and anemonic acid. (2) Inorganic Sulphate of potash, carbonate of potash, chlorate of potassium, carbonate of lime, magnesia and "a proto-salt of iron." **Planets:** Saturn, Mercury.

Homeopathic

Dr. W. H. Miller, an allopaths, claimed to have used Puls-n. with success in many chronic eye affections, particularly catarrh, amaurosis and corneal opacities, skin eruptions and secondary syphilis.

Some peculiar Puls-n. symptoms are home-sick feeling, trembling weakness, weariness, heaviness. Snapping noise in ears. Fidgety feet. Colic before and after stool. Colic after eating a pear. Stiffness of fingers. Hands hot and dry, a constant symptom. Great debility, on rising in evening. Languid, feverish, depressed.

Clinical

Amenorrhoea. Clavus. Cold, liability to. Deafness. Diarrhoea. Dyspepsia. Feet, fidgety. Home-sickness. Knees, rheumatism. Liver, pains. Measles, prophylaxis. Menses, retarded. Ptosis. Rheumatism. Sciatica. Shoulder, pain. Tinnitus. Uterus, pains.

Modalities

Better walking in open air. Better from rubbing with flesh-brush, scratching. Worse coming in from open air. Worse after eating, eating a pear, at night. Worse by warmth, by reading. Worse on urinating, on walking.

Symptoms

MIND

Sad, gloomy with frequent belchings. Home-sick, despondent. Anxiety, at night. Irritable, quick, nervous motions. Dull, disinclined for work.

Abdomen

Dull pains in the right hypochondrium. Severe pain in umbilicus 6 a.m. with desire for stool, stool dark, covered with mucus, severe pains for half an hour after. Rumbling after dinner of wind in distended abdomen moving from epigastrium to hypogastrium. Aching in one spot worse by moving. Colicky pains after eating a ripe pear. Aching in left groin, above left iliac crest on moving or bending. Dull pains in abdomen, by spells in hypogastrium.

Back

Stiffness right side neck, morning. Backache. Lameness in back, especially loins. Woke frequently with backache. Weakness of loins, feeling as if menses coming on.

Chest

Sharp, stabbing pain in pectoralis major muscle, followed by burning distress therein. During evening severe pain under left arm nearer back. Aching pain in chest all forenoon. Itching blotches on right breast, right side chest.

Ears

Hard, drawing pains along right Eustachian tube. With the pains in head and eyes, frequent drawing pains in ears from within out. Sharp pains in right ear and temples. L. ear feels closed, later both. Snapping noises in ears, fluttering in r. Deafness with edema of left upper eyelid (cured).

Eyes

Profuse secretion of mucus from eyes. Dull pain deep in eyes with smarting. Dryness, smarting, profuse flow of tears. Twitching: of left brow and upper lid for half an hour after going to bed, right lids worse reading. Paralysis of lids. Edema of left upper lid.

Tarsal edges red, dry, irritable. Eyelids agglutinated, profuse secretion of soft, yellow or white matter. Neuralgic pains in eyeballs, while walking, worse right side. Profuse lachrymation with dull pains in eyeball extending to malar bone.

PAGE 1387

Face

Face red, hot, flushed. Complexion at first rough, later very clear after disappearance of rash. After eating, flushed, pressure of blood in face. Painful drawing in left cheek-bone and jaw. Lips dry.

Female

Stinging, darting pains passing through uterus from side to side. Leucorrhoea, bland but so profuse and with so great depression that the prover refused to take more of the drug although it removed a pleuritic pain. Leucorrhoea, painless. Feeling as if menses coming on. Menses weak too soon (never before, but discharge, which had been formerly too dark and with pain, was this time natural in color and painless). Menses, always copious, became increased to flooding and lasted three days. In morning on awaking found menses had returned first time since weaning babe (two months).

Food

Great hunger, rapidly returned after eating. Loss of appetite. More thirst than usual, cold water extremely grateful.

Head

Dull heavy headache, mornings, better by active exercise before breakfast. Flying pains in head and feet. Dull, oppressive, frontal headache, on waking. Hard pains in upper forehead pass in wave to occiput involving whole brain. With headache cutting pains in the epigastrium. Hard pain over left eye, as if a nail being pressed into forehead. Pain over right eye afternoon, better walking in open air, worse in warm room with sense of heat, fullness in head and dryness of eyes. Sharp, shooting pains through both temples in right temple. Dull pain in right temple in vertex. Severe throbbing on vertex. Full, hot feeling at cerebellum. Headache arising from nape of neck and upwards.

Heart

Audible pulsation of heart. Pulse accelerated.

Kidneys

Pain on urinating, at end of urethra. Frequent urination. Tenesmus, extending up ureters, uneasiness in kidneys. Urine: pale, albuminous, excess of water, skunk-like odor.

Limbs

Aching in limbs and loins wakes him frequently. Frequent flying pains in hands, feet toes. Rheumatism of right shoulder. Lameness in muscles of right upper arm. Muscles stiff. Frequent momentary pains in wrists and fingers. Fingers stiff. Hands dry and hot all day. Sharp neuralgic pains along sciatic nerve from hip-joint to middle of thigh. Pain in both knees, rheumatic. Legs heavy while walking, trembling weakness, nervous pains. Cramp. Dull pain in ankles, flying pains. With desire to urinate afternoon and at night, nervous sensation is felt, irresistible fidgets, worse night. Very cold feet, evening.

Lungs

Coughs much. Constant inclination to cough. Small sore spot in upper trachea.

Male

Distressing erection, soon subsiding. Pain in penis on waking, worse on urinating. Hard, sticking pains in left spermatic cord and testes.

Dull pains in testes, worse r. Emission.

Mouth

Tongue: coated white with flat, pappy taste on rising, covered with tough slime, red, rather dry and swollen, teeth indented, yellowish coat along center, unusually red after eating. Breath offensive to self and others after eating. Mouth and lips dry. Smarting of velum palati. Mouth filling with saliva. On awaking, dry, pappy taste in mouth, as if tongue thickly coated (which it was not). Taste: flat, flat bitter, flat rough, sweetish, bad. Awoke after afternoon sleep with vinegar-like acidity in mouth and dull, pressing pain in stomach.

Nose

Dryness and heat in nose.

Rectum

Constipation. Evening and afternoon, feeling as if must go to stool immediately with constant distress in lower epigastrium and umbilicus. Sudden attack of diarrhea while riding on horseback. Stools: dark, thin, pap-like, watery, light yellow, painless, mushy, dark, slightly covered with mucus, dry, hard, lumpy.

PAGE 1388

Skin

Elevated blotchy eruption on legs and back. Slight rash on back and shoulders. Itching scattered pimples right side of chest, light red, rash-like blotches on right breast, itching severely at night, worse when heated. Red rash on body, face, neck, back, chest, abdomen, limbs, worse chest and abdomen. Erythema, nodules, turn white after scratching (better Ant-c. 200c). Itching: intense all over, worse night before bedtime, better rubbing, worse riding in cold air, returned repeatedly throughout the winter.

Sleep

Sleepy, sleep not refreshing. Sleepless: for an hour 4 a.m. , for several hours from over-eating. Restless with frontal headache. Many confused dreams.

Stomach

Belchings: tasting of Puls., while riding belches up food hot and tasteless of hot, tasteless

wind of sour air. Thick gulping. **Heart**burn. Nausea and dull headache, then faintness at stomach, on entering house.

Fullness in stomach preventing eating in spite of appetite (cured in the proving). Painful emptiness, pressure, then rising towards esophagus like heartburn. Emptiness: after action of bowels after eating. Gnawing, empty sensation. Weight and pressure in stomach after eating with faintness. Distress: with severe cutting pains in epigastrium.

Temperature

Chilly with a full, uncomfortable feeling in stomach with inclination to yawn with papescent stool, shaking. Heat, feverish with debility, skin hot, flaccid, better cool, blustering wind. Hot face, cold feet, hands hot and feverish.

Throat

Frequent inclination to clear throat. After eating slight irritation in throat with easy expectoration of white tough mucus. Throat dry, smarts on waking, contains much tough

mucus hard to dislodge. Scratchy, husky feeling in throat. Sensation of plug in lower throat.

Vertigo

Dizziness on entering house from open air, sudden in afternoon with fullness of head.

Comments

Hale instituted the first homeopathic research and Burt was the first prover. The symptoms have a strong resemblance to those of Puls. and cases cured with Puls-n. are mostly such as would be amenable to Puls. A patient of Clarke's was incidentally cured of a tendency to catch colds by taking Puls-n. for some weeks as a prophylactic against measles.

Burnett cured with Puls-n. a case of deafness and edema of left upper eyelid. The proving showed a powerful effect on the menstrual function and Hale reports many cures of amenorrhea:

(1) A young lady, formerly subject to retardation of menses, had: Constant chilliness, cold hands and feet, loss of appetite, sour belchings, nausea after meals, hemicrania toothache, melancholy, general malaria. Menses two weeks late took a chill at the time they were due, when she had precursory symptoms, no symptoms of menses now.

Puls-n. 1x in water every two hours. After the first dose the menses came on and the constitutional symptoms cleared off.

(2) Plethoric, usually healthy young woman, had menses delay two weeks. Continual severe headache, a heaviness and fullness, worse moving or stooping, sight dim, complete blindness on stooping or rising suddenly, weight in uterine region severe aching extending to back, worse evening. Hands and feet cold, weakness in lower limbs. Act. failed to relieve. Puls-n. 1x, 5 drops every three hours, brought speedy improvement.

Next day menses came on profusely but without pain, two days before the expiration of the eighth week. The Puls. flying pains were very noticeable in the proving.

Hale reports this case: strong, healthy looking man had wandering rheumatic pains chiefly in dorsum of right foot, loins, thighs, chest, arms, head.

The head pain was a dull, heavy pressure in vertex, nearly constant with occasional sharp pains. Some fever but no local inflammation of joints or muscles. Urine scanty, depositing gravel.

PAGE 1389

Acidity of stomach. Appetite good. Bowels normal. Puls-n. 1x cured in three days.

Feeling as if needles being pressed through stomach. Heat in stomach gradually increasing to pain, worse in spots under sternum, burning, pricking burning.

Pyrethrum parthenium

(feverfew)

Pharmacy

Pyre-p. Feverfew. Pyrethrum parthenium. Chrysanthemum parthenium. N. O.

Compositae. Tin cut of fresh plant. Historical dose: Tincture and all potencies.

Herbal

Pyrethrum has bitter tonic properties like those of Chamomile (*Anthemis nobilis*) and is a popular remedy in slight fevers whence the name Feverfew.

The smell of the whole herb is said to be particularly offensive to bees, (Treasury of Botany). Some popular "insect powders" are made of the dried flowers of *Pyrethrum roseum*. *Radix pyrethri* or Pellitory of Spain, which is used as an irritant and as a toothache cure is the root of *Anachycles pyrethrum*. The roots of the genus have a hot taste, whence the name *Pyrethrum* (fire).

One observation has been recorded with *Pyrethrum*: a boy, 3 1/2 took 50 minims of the tincture. It nearly proved fatal, causing diarrhea, convulsions of a tetanic nature.

Twitchings, loquacious delirium, restless, rapid and weak pulse and profuse sweat at night. Cooper has also cured cases of sub-acute rheumatism with *P. roseum*. **Planets:** Moon.

Homeopathic

Twitching of muscles of limbs, subsided by morning of third day. Violent convulsions lasting an hour and leaving the child apparently moribund, but he gradually recovered. Feet, legs and body, which were swollen, decidedly reduced and next menstrual period is dark and deficient in a gouty woman, 50.

Convulsive movements like tetanus. Restlessness.

Clinical

Convulsions. Delirium. Diarrhea. Dysentery. Fevers. Loquacity. Rheumatism. Stupor.

Symptoms

MIND

Very excited, talked incessantly for four hours. Lying in state of stupor, easily roused but quickly relapsing.

Limbs

Old sub-acute rheumatism of hands and small bones.

Mouth

Soreness of tongue.

Pulse

Pulse very rapid (120 to 130) and feeble, became normal the fifth day.

Rectum

Diarrhea, 5 a.m. with pain, at first profuse and exhausting. Tenesmus afterwards involuntary evacuations of mucus slightly tinged with blood, better next morning.

Temperature

Profuse perspiration and restlessness at night.

SOURCES

Clarke.

Pyrogenium

(rotten meat pus)

Pharmacy

Pyrog. Pyrogenium. Rotten meat pus. Pyrogen. Pyrexin. Sepsin. A product of the decomposition of chopped lean beef in water, allowed to stand in the sun for two or three weeks. Dilutions, which should be made, according to Burnett, direct and without glycerine. Historical dose: All potencies, sixth to thirtieth potency.

History

John Drysdale was the first in 1880 to suggest the use of this substance as a medicament. This nosode is prepared from decomposed lean beef allowed to stand in the sun for two weeks or from septic pus.

Pyrogen is the great remedy for septic states with intense restlessness. In septic fevers, especially puerperal, Pyrogen has demonstrated its value as a homeopathic dynamic anti-septic. (H. C. Allen.)

Burdon Sanderson has stated that "only liquids which contain bacteria or have a marked proneness to their production" are capable of setting up pyrexia.

PAGE 1390

This remark struck Drysdale and though of course, he could not endorse the "only" of the statement many drugs known to homeopaths set up fever he saw that the fact might be turned to account. Sanderson further defines Pyrogen as "a chemical non-living substance formed by living bacteria, also by pus-corpules or the blood or tissue protoplasm from which these corpules spring." **Planets:** Mars, Saturn.

Homeopathic

The provings and most of the clinical experience have been obtained from this preparation. But, subsequently, Dr. Swan potentized some septic pus, which preparation has also been proved and clinically applied. There does not seem to be any marked difference in their effects.

Pyrogen is therefore a remedy for all types of septic states when blood is disorganized, heart becomes weak and muscles prostrated. Hectic, typhoid, typhus, ptomaine poisoning, diphtheria. Dissecting wounds, sewer-gas poisoning.

Chronic malaria, the after-effects of miscarriage. All these conditions at times may present symptoms calling for this unique medicine.

Pyrog. has horribly offensive discharges menstrual, lochia, diarrhea, vomit, sweat, breath, etc. Great pain and violent burning in abscesses. Chronic complaints that date back to septic conditions.

Threatening heart failure in zymotic and septic fevers. Influenza, typhoid symptoms. Aching, bruised, sore and prostration, yet restless. Discharges are horribly foul, taste, odor of body, menses, sweat, vomiting. Rosy red streaks, Lymphangitis. Bones pain.

Abscesses, recurrent with pain and violent burning. Cannot lie more than few minutes in one position, better change. Debility in morning, staggered on trying to walk. Nervous, restless. Aching all over, bed feels hard. Great muscular debility, rapid recovery in few hours.

Clinical

Abscess. Appendicitis. Bed-sores. Bright's disease. Boils. Constipation. Diarrhea.

Dysentery. Eczema. Enteric fever. Fevers, septic. Fistula. Headache. **Heart,**

disorders. Hectic fever. Influenza. Intestines, ulceration. Puerperal fever. Ovary, abscess. Peritonitis. Tuberculosis, lungs. Plague. Ptomaine poisoning. Puerperal fever. Pyemia. Septicemia. Tabes mesenterica. Tuberculosis. Syphilitic. Ulcers. Varicose veins. Wounds.

Causations

Chronic complaints since septic conditions, puerperal fever after effects of miscarriage. Remote effects of hepatitis, diphtheria, chronic malaria. Bites. Cuts. Blood poisoning. Ptomaine poisoning. Sewer-gas poisoning. Typhoid fever. Dissecting wounds.

Modalities

Better from heat, hot, bath, drinks. Better pressure, stretching, motion, changing position. Better hard rocking. walking. Worse cold, damp. Worse motion, sitting, moving eyes.

Symptoms

MIND

Full of anxiety and insane notions. Bed feels hard. Talks or whispers to herself in sleep. Restlessness. Feels if crowded with arms and legs.

Cannot tell whether dreaming while awake or asleep. Active brain, making speeches and writing articles at night. Loquacious, thinks and talks faster than ever before.

Sensation as if she covered the whole bed. Feels, when lying on one side one person and another person when turning, on the other side. Sensitive, anxious, confused. Delusion, that he is very wealthy.

Abdomen

Bloated, sore, cutting pain. Full feeling of abdomen. Bubbling or gurgling sensation in hypochondria, extending back to left of spine. Pain in umbilical region with passage of sticky, yellow stool. Soreness of abdomen so severe can hardly breathe or bear any pressure over right side. Very severe cutting pains right side going through back, worse by every motion.

Back

Throbbing of vessels of neck running up in waves from clavicles. Weak feeling in back, stitching pain on coughing.

Breasts

Pains in the region of left nipple.

PAGE 1391

Chest

Pain in right lung and shoulder, worse talking or coughing. Neglected pneumonia. Chest sore, purple spots on it. Severe contracting pain within lower sternum, sometimes extending to rib-joints and up to throat, as if esophagus being cramped.

Ears

Loud ringing like a bell. Ears feel cold. Ears red, as if blood would burst out of them.

Eyes

Eyeballs sore, worse looking up and moving eyes. Left eyeball sore, worse looking up and turning eye outward. Photophobia. Projecting eyes.

Face

Circumscribed redness of cheeks. Face, burning, yellow, very red, pale, sunken and bathed in cold sweat, pale, greenish or chlorotic. Hectic flush 3 to 4 p.m. , lasting until midnight, then covered with large drops of cold perspiration.

Female

Septic infections after childbirth. Septicemia following a miscarriage with the fetus or placenta retained and decomposed. Puerperal peritonitis with extreme fetor.

Lochia suppressed, followed by fever, chills and profuse fetid sweat. Post-operative cases with overwhelming sepsis. Menses horribly offensive, carrion-like. Menses last but one day, then a bloody leucorrhoea, horribly offensive. Fever at each menstrual period. Pelvic peritonitis or cellulitis. Uterine hemorrhage of bright red blood with dark clots. Prolapse uterus, better holding the head and straining. Genitals severely swollen (Bright's disease). Abscess of left ovary, acute throbbing pain, great distress with fever and rigors.

Food

No appetite or thirst. Better by drinking very hot water. Great thirst for small quantities of cold drinks, but the least liquid is instantly rejected.

Head

Excruciating, bursting, throbbing headache with intense restlessness. Violent throbbing headache better bandaging. Painless throbbing all though front of head, sounds like escaping steam. Rolls head from side to side. Dull throbbing in mastoid region. Great throbbing of arteries of temples and head. Throbbing headache, better from tight band. Sensation as if a cap were on. Forehead bathed in cold sweat.

Heart

Cardiac weakness from septic conditions. **Heart** tired as after a long run increased action worse least motion. Palpitations, worse by motion. Loud heart-beats, audible to herself and others. Consciousness of heart. Throbbing felt in head and in ears, preventing sleep. Palpitations are increased without corresponding increase of temperature. Pulse

quick out of all proportion to temperature. or the reverse. **Heart** failure threatens in septic states. Sensation as if heart enlarged too full of blood. As if the heart were pumping cold water.

Kidneys

Frequent calls to urinate as fever comes on. Intolerable tenesmus of both bladder and rectum. Bright's disease of kidneys. Urination twice a day, scanty. Urging to urinate before fever. Urine clear like water. Urine, adhesive, red, slimy, sediment.

Urine scanty, yellow after standing, cloudy with substance looking like orange peel. Deposits like red pepper. Urine albuminous, containing casts, horribly offensive, carrion-like.

Limbs

Soreness, better by motion. (Rhus-t.) Aching in bones, all over body as from a severe cold with soreness. Cold limbs. Bed feels too hard. (Arn.) Great debility in the morning. Rapid bed-sores of septic origin. Numbness of hands, arms and feet, extending over whole body. Pain in right shoulder, worse coughing, talking. Automatic movement of right arm and right leg in cerebrospinal meningitis. Tingling in right little toe as if frost-bitten. Feet and legs swollen (Bright's disease).

Lungs

Abscess opens, discharging much pus. Pain in right lung, worse coughing, talking. Neglected pneumonia. Wheezing when expiring. Cough with large masses of phlegm from larynx, worse by motion in warm room. Cough causes burning in larynx and

bronchi. Coughs up yellow sputa at night. Cough better sitting up, worse lying down. Cough, night-sweats, frequent pulse. Expectoration: rusty mucus, horribly offensive.

PAGE 1392

Male

Testes hang down, relaxed, scrotum looks and feels thin.

Mouth

Horribly offensive breath. Tongue, red and dry, clean, cracked, smooth, as though varnished. Tongue, fiery red, brown streak down the center, smooth, large, flabby. Taste sweetish, terribly fetid.

Nose

Cold feeling in nose. Fan-like motion of the alae nasi. Disgust at his own body odor. Sneezing every time when hand is out from under the covers. Nosebleeds, awakened by dreaming it and found it was so. Sneezing: every time he puts hands from under covers, at night. Nostrils closing alternately.

Rectum

Intolerable tenesmus of both bladder and rectum. Horribly offensive, brown-black painless involuntary stools. Constipation with complete inertia, (Op.), obstinate from impaction.

Stools large, black, small black balls, carrion-like, very offensive.

Perspiration

Perspiration horribly offensive, carrion-like, disgust up to nausea about any effluvia arising from her own body.

Skin

Pale. Cold. Dry. Obstinate Varicose veins. Offensive ulcers of old persons. Bed-sores. Septic cuts, bites, wounds. Small cut or injury becomes much swollen and inflamed-discolored.

Sleep

Restlessness. Seems to be in semi-sleep. Whispers in sleep. Unable to sleep for brain activity and crowding of ideas. Sleepless from fevers. Slept awhile, wakes to roll and tumble. Cries out in sleep that a weight is lying on her. Kept awake by purring of heart. Dreams all night. Dreams: of various things of business.

Stomach

Belching of sour water after breakfast. Nausea and vomiting. Nausea better very hot drinks and vomiting. Stomach feels too full. Vomiting, persistent, brownish, coffee grounds offensive, fecal with impacted or obstructed bowels. Vomits water when it becomes warm in stomach. Vomiting and purging. Better by vomiting. Urging to vomit with cold feet.

Temperature

In all cases of fever commencing with pains in the limbs. High fevers with sore limbs and delirium. Temperature rises rapidly. Quickly oscillating temperature. Septic fevers. Latent pyrogenic condition. Coldness and chilliness. Great heat with profuse how sweat, but sweating does not cause a fall in temperature. Chill begins in back between scapula, felt in bones with sweat, at night. Slowly advancing hectic fever. Sweats without relief. Cold, then hot. Cold sweat over body. Cerebrospinal meningitis. Shivers and begins to move about restlessly. Cold and chilly all day. No fire would warm, sits by fire and chilly

whenever he leaves it. Frequent calls to urinate as soon as fever came on, urine clear as water.

Throat

Septic sore throats. Abscessed tonsils. Throat dry, articulation difficult. Diphtheria with extreme fetor.

Vertigo

Staggers as if drunk on rising in morning. Dizziness on rising up in bed.

Comments

Drysdale prepared a tincture of Pyrog. which he preferred to call Pyrexin, since it is not a mere fever-producer.

Others have called it Sepsin, but this is too close to Septicemia, a name given to a related and perhaps identical nosode. His success was very encouraging.

But as he continued to use the tincture and the lowest potencies the difficulty of keeping the preparation was not small and the remedy did not come into extensive use until Burnett published his pamphlet on Pyrogenium in Fevers and Blood-poisoning in 1888.

PAGE 1393

Burnett used chiefly the 6c dilution, which is perfectly harmless and which will keep indefinitely. Heath, who made one of the preparations used by Burnett, gave some of it to Swan of New York, who ran it up into the high infinitesimal.

Much of the American experience is with Swan's potencies including a proving by Sherbino. Yingling collected symptoms from many reported cases and arranged them with the symptoms of the proving. H. C. Allen, who published the proving and most of the cases in Med. Adv., rightly describes Pyrog. as a "Product of Sepsis".

Drysdale's original cases include a number in which threatened typhoid was averted, a case of tabes mesenterica cured and one of ulceration of the colon greatly benefited. Burnett's were cases of fully developed typhoid all cut short at the height by Pyrog. 6c given every two hours.

In his pamphlet is included a successful experience of Dr. Shouldham's with Pyrog. 6c in two cases of diphtheria sore throat. I have had ample opportunity of observing the power of Pyrog. over typhoid fever and typhoid and hectic states including one of discharging abscess connected with Pott's disease of the spine.

In Sherbino's proving he was cured incidentally of a consciousness of the heart and its working and palpitation from least excitement or anxiety, worse beginning to move, congestion to head as if a stroke would ensue. Cactus had done no good.

Sherbino cured: (1) a case of puerperal fever with Pyrog., being led to its selection by the very high pulse rate. (2) Relapse of typhoid, pulse 140, temperature 102 F., both were normal in twenty-four hours.

(3) Young lady, 17, fever, aching bones, bed felt very hard. Numb, paralytic feeling. As the fever left the pulse kept mounting up. Pyrog. 100,000c, Swan, repeated as often as effect ceased, Pyr. is one of the germinal remedies of the Materia Medica. When once the idea of its essential action is grasped on infinity of applications become apparent.

As Drysdale put it, "The most summary indication for Pyrog. would be to term it the Aconite of the typhous or typhoid quality of pyrexia," and wherever poisoning by bacterial products (e.g. in the hectic of tuberculosis) is going on Pyrog. will be likely to do good. Sepsis is the essence of the action of Pyrog.

H. C. Allen gives this indication for its use in septic state: "When the best selected remedies fail to relieve or permanently improve" analogous to the action of Psor. and Sulph. in other conditions.

As Pyrog. is a product of carrion, the carrion-like odor of bodily emaciation, secretions and excretions is a keynote for its use. Other leading indications are: Restlessness, must move to ameliorate the soreness of parts. Constipation from impacts of feces in fevers, stool large, black, carrion-like. Chill begins in back, between scapulae. Severe general chill of bones and limbs.

Pyrog. 5c, five drops in water night and morning, assisted in the cure of a case of anal fistula in a case of Burnett's. Under its action a sweating at the seat which the man had for many years disappeared.

The skin of his hands, which were subject to dry eczema, assumed a much cleaner aspect.

J. S. Hunt reports five cases of varicose ulcers, all of which healed quickly under Pyrog. Bellairs gave Pyrog. 200c to an elderly woman who suffered for years with an ulcerated leg. Which was riddled with deep, burrowing wounds, extremely painful and discharging freely. Hep., Sil., Ars., Ham., did no good.

Under Pyrog. once or twice a day "a large boil" formed on the calf of the leg and discharged its contents after which the various ulcers healed up directly.

SOURCES

Boericke. Clarke. Phatak.

Pyrus americana

(mountain ash)

Pharmacy

Pyrus. *Pyrus Americanus*. Mountain Ash. N. O. Rosaceae. The British is *Pyrus aucuparia*. Swamps and mountain woods from Maine to Pennsylvania. Tincture of fresh bark. Historical dose: Tincture and all potencies.

History

Pyrus Americanus the American Mountain Ash, was proved by Gatchell on himself, a married woman and two lads. Gatchell's only symptom was "irritation of the eyes." Another prover had a similar symptom. By far the greatest number were induced in the woman, though hers were largely confirmed by those of the boys.

Neuralgic pains, rheumatic and gouty symptoms were very severe. **Planets:** Moon, Saturn.

Homeopathic

The emotional balance was disturbed and a kind of clairvoyance induced. Labor-like or spasmodic pains were frequent in uterus in bladder like prolapse. Constrictive at base of lungs and round waist like spasm of heart. Pyrus has aches everywhere in every joint, pains acute intense like inflammatory rheumatism.

Feels as if full of cold water. Worse motion, dreads to move on account of joints. Worse cold, sensitive to cold and air. Pains seem to move in lines.

Clinical

Bladder, irritation, prolapse. Chills. Clairvoyance. Dyspepsia. Gout. **Heart**, disorders. Hysteria. Rectum, constriction. Rheumatism. Sciatica. Tongue, paralysis. Uterus, prolapse.

Symptoms

MIND

Feels like crying. Sad, weeping mood, tears will come. Feels gloomy and discouraged but cannot cry.

Hypochondriac, not nervous, lazy, would like to lie in bed and be waited on. Full of gloomy determination. Thinks she is clairvoyant, can read character and understand motions, see into herself. Seems to be able to go out of herself for a short distance to walk round and return into her body. Seems to her that fundus of stomach is depressed in abdomen and pyloric end of fire, a red spot like raw beef there as if stomach burnt up with raw whisky.

Cries and feels apprehension, fears something terrible going to happen. Feels weak as if about to die, moans, groans, calls for help. Brain active intellect clear, thoughts vivid, whole being intensified. Indolent indifferent, no inclination to read.

Abdomen

Feels constricted round waist, obliged to loosen clothes at once.

Back

Sick feeling under right scapula.

Chest

Feels as if lungs congested, especially at base and constricted.

Eyes

Irritation of eyes. **Eyes** feel as if they had been crying a long time, smart.

Female

Sense of Prolapse of womb. Bearing down and pressing out as if swollen and burning all over.

Food

Craves hot tea. Wants soft food, feels as if meat would not digest.

Head

Headache begins over eyes, pains knife-like, left side of headaches terribly like a toothache. Headache extends to right side. Head feels as if it would burst. Great weight at vertex. Shooting pains in forehead. Headache penetrating in temples.

Heart

Aching at heart. Oppression about heart as if it had stopped beating, as if going into convulsions. Sense of spasm at heart, as if blood too thick to circulate (better by Camph.).

Heart aches as if from some great sorrow.

PAGE 1395

Kidneys

Irritation of bladder and urethra. Sensation as if bladder prolapsed.

Limbs

Twinging pains in arms, legs and toes. Joints feel constricted and sore. Some pain in finger-joints. Pains drawn, rending along backs of thighs to toes, worse left. Feels as if left leg drawn up and would never straighten again. Tight feeling of patella. Knees and toes feel as if immensely swollen and ache. Left great toe feels as if torn from its socket. Toes burn. Pain in knees is followed by pain in tendons and along calves. Unendurable aching of bones of toes. Drawing, cutting pain.

Lungs

Hoarseness. Dry cough, as if pharynx stuffed with cotton. Can hardly breathe, as if cold water in stomach. Can't talk loud, voice gone. Some cough. Spasmodic breathing as of nervous women (in a led).

Mouth

Tongue partially paralyzed, cannot direct it.

Rectum

Sensation as if rectum were shrunken and dried up.

Sensations

As if full of cold water, as if stomach full of cold water, coldness extends up esophagus under sternum. As if she were outside of herself and could see into herself. As if rectum were shrunken and dried up.

As if left leg drawn up and would never straighten again.

Skin

Clammy feeling of skin.

Stomach

Stomach feels weak as if nothing would digest, it feels dry and wrinkled. Feels as if stomach full of cold water. Thinks mucus accumulated in cold stomach. Feeling of coldness extends up sternum and esophagus.

Temperature

Chilly when air strikes him. Chilly down back and both legs. Very cold, shivering internally, thinks she must look blue. Cold creeping all over. Glow all over, hands sweat. Chilly and with a very tranquil feeling, especially of consciousness.

Throat

Throat feels obstinate.

Compare

PAGE 1396

Quassia amara

(quassia wood)

Pharmacy

Quas. Quassia amara. Quassia wood. Picrena excelsa, (Jamaica) and Quassia amara, (Surinam). N. O. Simarubaceae. Tincture or cold infusion of the wood. Historical dose: Tincture and all potencies, first to third potency. Spoonful doses of Aqua Quassie.

Herbal

The Quassia now found in the shops in the form of "Quassia chips" is the wood of Picrena, the Jamaica Quassia. The name "Quassia" was given by Linneus to Quassia excelsa of Surinam from the name of a healer, Quassi or Coissi, who employed its bark as a remedy for fever.

The wood of this tree was formerly employed in this country under the name of Surinam Quassia. The wood is very bitter and yields its properties best to cold distilled water. In the old school the infusion is used as a bitter tonic in dyspepsia and in enemas for clearing the rectum of threadworms. **Planets:** Moon.

Homeopathic

Quas. acts on digestive organs as a herbal tonic, (Gent., Hydr.) Seems to possess a marked action on eyes, producing amblyopia and cataract. Pressure and stitches in liver and sympathetically in spleen. Pain in right intercostal muscles above the liver.

Clinical

Amblyopia. Ascites. Cataract. Cirrhosis. Dyspepsia. Dysentery. **Heart**burn. Indigestion. Intermittent fever. Worms.

Symptoms

Abdomen

Sticking pains between umbilicus and stomach. Abdomen feels empty and retracted. Abdomen hard and distended.

Back

Sensation of coldness running over back with constant inclination to yawn and stretch out the feet.

Head

Constant dullness of head.

Kidneys

Excessive desire, impossible to retain urine, copious urination day and night. As soon as the child wakes up the bed is drenched. Secretion of urine increased, solid constituents diminished.

Limbs

Inclination to yawn and stretch. (Rhus-t.) Sensation of coldness over back. Prostration with hunger. Cold limbs with sensation of internal coldness. (Helo.) Drawing pain in calves.

Liver

Very acute sticking in hepatic region, followed by dull pain. Cirrhosis of liver with ascites.

Neck

Severe drawing pains in cervical muscles.

Rectum

Stools at first hard with great effort afterwards pasty, once very thin.

Stomach

Atonic dyspepsia with gas and acidity. **Heart**burn and gastralgia. Regurgitation of food. Dyspepsia after infectious diseases, especially grip, dysentery.

Tongue

Tongue dry or with brown sticky coating.

Comments

There is a short homeopathic proving: J. O. Muller took a single dose of the tincture, Eidherr four doses of Quas. 30x. Lembke took the extract. The most peculiar characteristic symptoms were:

Drawing in hypochondria and sensation as if abdomen were empty and retracted with sensation as if he would have a stool, stool at first hard with effort, later pasty. Sticking in liver and abdomen. Peculiar beating through abdomen, extending into limbs.

Eidherr had "coldness running over back with constant inclination to yawn and desire to stretch out the feet," which gives a clue to its action in fevers.

Compare

Quebracho

(quebracho)

Pharmacy

Queb. *Aspidosperma quebracho*. *Quebracho aspidosperma*. White Quebracho. N. O. Apocynaceae. Tincture and trituration of the bark. Trituration and solutions of the alkaloid *Aspidospermine* and its salts. Historical dose: Tincture and all potencies.

PAGE 1397

Herbal

Quebracho is a Brazilian fever herbal remedy from which the alkaloid Aspidospermine has been isolated. This is in small, very brilliant, white crystals, sparingly soluble in water, readily soluble in alcohol and ether.

Dr. Hale communicated the following concerning this alkaloid: Aspidospermine or Quebrachine is derived from the Chilean "white Quebracho" (Aspidospermine Quebracho). At Santiago de Chile the bark is used as a substitute for Chinchona as a febrifuge. The alkaloid forms salts with Citric, Hydrochloric and Sulphuric acids.

Planets: Mercury, Moon.

Homeopathic

Hale says Queb. produces in animals Dyspnea, respiratory paralysis, slowed heart and paralysis of limbs. It relieves Dyspnea in tuberculosis and pleurisy, but without influencing the fever. The 1x relieved asthma with livid face and Dyspnea with cyanosis is frequently relieved by it.

Clinical

Asthma. Cardiac asthma. Fever.

Comments

Hale gives these cases as relieved by it: (1) Mitral incompetence and stenosis with severe nocturnal Dyspnea. (2) Fatty heart (Queb. had no influence on the edema, which was removed by Dig.).

Jos. P. Cobb records a case of heart affection of some duration in a man, 24. There was some enlargement, especially of right side, much Dyspnea and a slight enlargement, especially of right side, much Dyspnea and a slight mitral murmur.

Following this were signs of emphysema and severe attacks of asthma. Rales were heard and "pearls" of rounded gelatinous masses were expectorated. Aspidospermine 3x gave more relief than any other remedy.

SOURCES

Boericke. Clarke.

Quercus robur glandium spiritus

(acorn kernels)

Pharmacy

Querc. Quercus glandium spiritus. Acorn kernels. Aqua glandium quercus. Quercus robur. English Oak. N. O. Corylacee or Cupulifere. Tincture of acorns are peeled and crushed or shredded. Water extract of acorns with addition of alcohol for Aqua glandium quercus. Historical dose: Tincture and all potencies, ten drops to a teaspoonful of the distilled spirit three to four times a day.

Herbal

Quercus glandium is one of Rademacher's splenic remedies. It was introduced to homeopathic practice by Burnett, who published a translation of Rademacher's account of the remedy. Rademacher gave the tincture of acorns to an old brandy drunkard who had long suffered from the spleen, which was at times very painful and who was at that time

"sick unto death" with ascites and dropsy of the legs. The urine at once increased, but the patient complained that each dose of the medicine caused constriction of the chest.

This led Rademacher to prepare the Distilled Spirit and finally the Aqua, as milder preparations, which they proved to be, for the remedy completely cured the patient without causing further constriction of the chest. In the course of cures of spleen cases Rademacher noticed that not only was the flow of urine increased, there was also, especially in old spleen engorgements, an eliminative diarrhea with amelioration of the symptoms generally.

A passing diarrhea often appears for a time when using it. Curative effect. Quercus acts well in trituration of the acorn 3x in splenic cases, flatulence, old malaria and alcoholic history. (Clark.)

Burnett does not find Quer. a remedy for the liquor habit, it stops short at that, but it diminishes the craving and antidotes the alcoholic state. On the other hand, Quer. is by no means a remedy for alcoholic effects only.

PAGE 1398

Palestine missionaries who used Quer. g. s. on Burnett's indications in spleen disorders found it no less effective in the intermittent fevers which gave rise to the enlarged spleens. Powdered Oak-bark is an excellent dry dressing for ulcers and discharging wounds. **Planets:** Saturn.

Homeopathic

Querc. has chronic spleen disorders and spleen-dropsy. Antidotes effects of alcohol. Vertigo, deafness with noises in head. takes away craving for alcoholics, give dose as below for several months. Dropsy and liver disorders. Useful in gout, old malarial cases with flatulence. Flushed state. Exceedingly nervous.

Clinical

Alcoholism. Breath offensive. Constipation. Diarrhea. Dropsy (splenic). Fistula. Giddiness. Gout. Intermitting fever. Leucocythemia splenica. Spleen disorders.

Symptoms

MIND

Nervous, depressed, glum, taciturn, easily moved to tears, not quite capable of stating his own case.

Abdomen

Ascites. Pain in splenic region. Pain in hypochondria, worse left, much worse by stooping.

Chest

Constriction of chest in precordia.

Ears

Deafness and noises in the head.

Eyes

Eyes yellow, puffy underneath.

Face

Flushed.

Head

Peculiar sensation in head, feel as when drunk, sensation lasts a minute or two. Gouty eczema of scalp, poll and backs of hands.

Heart

Fluttering, irregular heart.

Kidneys

Increased flow of urine.

Limbs

Gouty eczema of backs of hands. Hands tremble. Dropsy tottering gait. Varicose veins.

Liver

Enlarged liver and spleen.

Mouth

Foul breath, stercoraceous. Tongue foul.

Rectum

Diarrhea (eliminative with amelioration of symptoms and not weakening). "It keeps his bowels open." Fistula in alcoholics.

Stomach

Removes craving for alcohol. Gnawing at pit of stomach. Flatulent dyspepsia.

Vertigo

Wheeling vertigo. Vertigo with disorders of spleen and left side. Afraid to move for fear having a stroke or giddiness would come on.

Comments

Another observation was this: "Certain few people feel, as soon as they have taken it, a peculiar sensation in the head, lasting barely a minute or two, which they say is like being drunk." This put Burnett on the track of another use of this remedy, which he has elaborated in his Gout and its Cure in the treatment of alcoholism and its effects. Here are some of his cases.

(1) Military man, 64, broken down with gout and alcoholism and pretty severe chronic

bronchitis. **Heart** irregular. Liver and spleen enlarged. Complained bitterly of gnawing at pit of stomach. Gait tottering, hands quivered. He had lost his wife and had to keep himself up with nips of spirits, for which he had a constant craving.

Querc., ten drops in water, three times a day, completely revolutionized his state and took away his abnormal craving for spirits.

(2) In a merchant of 57, given to nips of sherry, Querc. threw out a gouty eczema on scalp, poll and backs of hands, which took three months to cure after which Querc. was again given and completed the cure.

(3) An officer who drank too much had foul breath, eyes yellow, puffy underneath. Querc. cured.

(4) Hunting man, 40, free liver, gouty, had varicose veins of legs originating apparently in enlarged spleen, left by typhoid fever. Querc. cured. The patient said it kept his "bowels very regular."

(5) A country squire, 60, bachelor, appeared in a hopeless condition. Was unable to state his own case. Flushed, much pain over the eyes and in both rib regions. Stooping caused great pain, worse left hypochondrium. Liver and spleen much enlarged. Nervous,

depressed, glum, taciturn, easily moved to tears. Could not walk without support on account of his great giddiness.

PAGE 1399

Breath in highest degree disgustingly stercoraceous, nearly caused Burnett to vomit when examining him. That smell of breath, says Burnett is an unmistakable sign of the chronic tippler indicating undigested alcohol. Burnett subsequently ascertained that he was quite a sober man, but took frequent nips, particularly when confined to the house by wet weather.

The pain in left side, giddiness, flushed state indicated Querc., which was given. In a week the breath was normal, giddiness a little Better tenderness of rib region much diminished. In six weeks quite well.

Giddiness with spleen trouble is met by it and Clarke has given it with good result to a young lady for extreme whirling vertigo, a sequel of influenza. The patient was greatly relieved when she took it in a severe attack, but if she took it when the giddiness was only slight it caused severe aggravation.

Patients to whom Cooper gave Querc. complained that they "felt as if in a vice, dared not move for fear of having a stroke or an attack of giddiness." "Deafness with noises in the head" is another effect observed by Cooper.

Quillaya saponaria

(chile soap bark)

Pharmacy

Quill. Quillaya saponaria. Chili soap bark. Chile Soap bark. Historical dose: Tincture and all potencies, tincture and first potency.

History

Quillaya saponaria produces and cures symptoms of acute catarrh, sneezing and sore throat. **Planets:** Mercury.

Homeopathic

Quillaya is most effective in the beginning of colds, coryza, often checking its further development. Colds with sore throat, heat and dryness of throat. Cough with difficult expectoration. Squamous skin.

Clinical

Colds. Coryza. Sneezing. Sore throats.

Compare

(1) Kali-hp., Gels., All-c., Squil.

PAGE 1400

Radium bromatum

(radium bromide)

Pharmacy

Rad-br. Radium bromatum. Radium Bromide. Triturations. Radium brom. of 1,800,000 radio-activity was employed. Historical dose: All potencies, twelfth and thirtieth trituration.

History

Pure Radium is a white metal which "oxidizes in water, burns paper, turns black on exposure to air and has the property of adhering firmly to iron." This last quality is not without significance and shows a close affinity with Ferrum. Its atomic weight is 225. It is found in the ore pitchblende.

The discovery of Radium and its properties in 1898 by Pierre Curie and his wife set many persons thinking and among them, naturally, those who are engaged in the healing of the sick. Curie himself made the first "proving."

He put a tiny bit of Radium salt in an India rubber capsule and fastened it to his arm, leaving it there for ten hours. When he took it off the skin was red, the place turned into a wound, which took four months to heal, leaving a white scar the size of a shilling surrounded by discolored puckered skin.

On another occasion he left it for half an hour. A wound appeared at the end of a fortnight and took another fortnight to heal. On a third occasion, left for eight minutes only, two months later the skin became red and a bit sore, but it soon passed off. **Planets:** Saturn.

Homeopathic

Radium Bromide is found effective in rheumatism and gout. Skin and nerves are affected. Suddenly shifting or electric pains, must lie down. Effective in acne rosacea, nevi, moles, ulcers and cancers. Ulcers due to radium burns, that take a long time to heal. Marked increase in the white blood cells. Great weakness. Lowered blood pressure. Lateness in appearance of symptoms. Chronic rheumatic arthritis.

Severe aching pains all over with restlessness, better moving about. Nerves are affected causing suddenly shifting or electric pains, must lie down.

Effects of x-ray burns. Removes small nevi, moles, ulcers. Cancer. Lymphoid tissue. Dull, hard aching pains all over, deep in joints, very restless, had to keep moving about. Dry burning heat, as if on fire, through the entire body, craves cool air.

Rad-br. has electric shocks through the body during sleep. Weakness, lassitude, tiredness. Lateness in appearance of symptoms. Constriction, chest, heart etc. with air hunger. Numbness worse stretching the part. Necrotic changes.

Clinical

Acne. Arteritis. Albuminuria. Appendicitis. Arthritis. Atheroma. Bones disorders. Callosities. Cancer. Carbuncle, urethra. Menopausal flushes. Corns. Dermatitis. Diarrhea. Duodenal ulcer. Eczema. Epithelioma. Erythema. **Eyes** disorders. Gout. Hemorrhage. Headache. Lumbago. Lupus. Nevus. Neuralgia. Neurasthenia. Nose, disorders.

Nosebleed. Ophthalmia. Phimosis. Prurigo. Pruritus anus, vulvae. Psoriasis. Radiation, burns, ulcers. Rheumatism. Rodent ulcer. Sclerotitis. Skin disorders. Tic douloureux. Trachoma. Ulcers. Warts. X-ray dermatitis.

Causations

Ill effects of x-ray, radiation burns.

Modalities

Better lying down after sleep. Better by pressure. Better from open air, hot bath, cold drinks. Better by continued motion, eating. Worse from smoking, getting up. Worse by warmth of the bed. Worse at night. Worse by shaving, by washing. Worse by smoking. Worse 3 a.m. , 4 a.m. , 7 a.m. , 11 a.m. , noon, night.

Symptoms

MIND

Apprehensive, depressed. Great desire to be with people. Fear of being alone of the dark, wants to have someone near. Tired and irritable. Cross. Easily vexed.

Abdomen

Alternating with chest or ear symptoms. Colic better bending double and passing stools. Pain, violent cramps, rumbling, full of gas. Pain over McBurney's point and at location of sigmoid flexure. Much flatulence.

PAGE 1401

Back

Aching in back of neck. Pain and lameness in cervical vertebrae, worse dropping head forward, better standing or sitting erect. Weakness between scapulae. Lumbar and sacral ache, pain appears to be in bone, continued motion relieves. Backache between shoulders and lumbar-sacral region, better after walking. Lumbo-sacral bone pains, better hot bath, worse going upstairs.

Breasts

Right breast sore, better hard rubbing.

Chest

Tightness of chest. Chest pain alternating with indigestion and stuffed up feeling.

Ears

Sound of rushing water better lying on face.

Eyes

Red, smarting worse reading. Sensation as if pieces of cotton in eyes better rubbing.

Face

Flushed. Aching pain in angle of right lower jaw. Violent trifacial neuralgia. Acne rosacea.

Female

Aching over pubes during menses. Itching genitals. Pruritus vulvae. Delayed and irregular menstruation and backache. Menses last one day, then bloody leucorrhea. Uterine hemorrhage, (Ip.). Lochia putrid, scanty or suppressed. Leucorrhea, white and scanty, curdy and cheesy.

Food

Nausea better eating. Craves pork. Aversion to sweets to ice-creams of which she is usually very fond. Usual food not relished, sour things taste good.

Head

Both eyes ache. Severe pain over right eye, spreading back to occiput and to vertex, better in open air. Occipital and vertex pain, accompanying severe lumbar aching. Head feels heavy. Frontal headache. Aching pain of right lower jaw. Violent trifacial neuralgia.

Heart

Constriction at. Awakes with palpitations. Pulse, rapid, irregular, fluttering. Blood pressure low.

Kidneys

Nephritis with rheumatism. Increased elimination of sediment. Kidney irritation, albuminuria, granular and hyaline casts. Bedwetting.

Limbs

Deep pain in joints, knees and ankles. Sharp pains in shoulders, arms, hands and fingers. Legs, arms and neck feel hard and brittle, as though they would break on moving. Arms feel heavy. Cracking in shoulder. Pain in toes, calves, hip-joint, popliteal spaces. Muscles of legs and hips sore. Arthritis, aching pains, worse at night. Rheumatism of the hands. Dermatitis of the fingers. Trophic changes in the fingernails.

Lungs

Spasmodic cough. Persistent cough from tickling in throat pit. Cough, worse lying, smoking, better eating and open air, sitting up, exercise. Tightness of chest, feels as if she could not get enough air.

Male

Eczema of penis and inner surface of thighs. Itching. Dysuria, then erection.

Mouth

Dryness of mouth. Breath seems hot. Metallic taste. Prickling sensation on end of tongue.

Nose

Burning in nose. Itching and dryness of nasal cavities, better in open air.

Rectum

Alternating constipation and loose movements. Itching of anus and hemorrhoids. Rectum sore, prolapsed. Stools, soft, dark or offensive, slate colored.

Sensations

As if skull too small, as if foreign body in eye, as if something dropped into trachea. Knees feel as if the bones would protrude. Intolerance of tobacco was produced.

Skin

Small pimples. Erythema and dermatitis with itching, burning, swelling and redness. Itching all over body, burning of skin, as if on fire. Irritable, thick, burning, itching, moist if scratched, worse face and genitals, Branny scabs. Scabby, on ears. Eczema. Psoriasis. Scleroderma. Callosities. Cancer. Necrosis and ulceration. Epithelioma.

PAGE 1402

Sleep

Restless. Awakes panting with palpitations. Dreams vivid, busy. Dreams of fire, seem true. Sleepiness with lethargy.

Stomach

Empty feeling in stomach. Warm sensation in stomach. Nausea and sinking sensation, belching of gas.

Temperature

Cold sensation internally with chattering of teeth. Internal chilliness followed by heat of the skin, associated with bowel movements and flatulence.

Throat

Dry, sore, raw with earache. Feeling in throat as from eating pepper.

Vertigo

Vertigo with pain in back of head, left when in bed.

Comments

The provings show the homeopathicity of the drug to these conditions, although His used it empirically. Dieffenbach, who had been investigating Radium for ten years before he published his pamphlet, records that as a result of former X-ray and Radium-ray experiments one prover's hands had, when the proving commenced, eczematous eruptions, cracks, scaly excrescences and wart-like growths. After his proving with 6x these gradually disappeared.

This is confirmed by a case reported by Mr. E. S. Pierrepont. A girl employed in the X-ray Department of the hospital with which he is connected developed dermatitis of the right hand and fingers. An ointment was prescribed without benefit and cracks appeared on the skin. Two doses of Rad-b. 30c were given, on Mr. Pierrepont's suggestion, one in the morning and one in the evening.

The following day the patient came out in a rash, which the matron mistook for measles, eyes watering, fingers very sore and she felt very ill. By the following day the rash had disappeared and she felt well. The fingers were now Better and they got quite well, except that a sore feeling was left after washing.

A feature of both Dieffenbach's proving and mine was the disappearance of small nevi, which is significant, seeing that the rays are used for the destruction of nevi.

Among the uses of Radium may be mentioned cases of lupus, epithelioma, carcinoma of the cervix uterus and urethral caruncle. That Radium like x-rays, can cause as well as cure cancer is on record. Cases of cure of skin cancers with Rad-b. in potencies are numerous.

T. Simpson records one such. A retired excise officer had an intractable eruption on the genitals inner surface of thighs and legs which had prevented him getting any refreshing sleep for three years. One tablet of Rad-b. 30c each morning was prescribed for a month. All conditions were vastly improved and the patient got well without further medication.

Clarke reports: A young unmarried woman after the application of a Belladonna plaster to the back for lumbago, developed an edematous rash involving the whole face and neck, extremely irritating, worse at night, preventing sleep. At the back of the neck was a sore, oozing patch. After temporary relief from some remedies, there still remained an irritating oozing rash, sore eyes first right, then left lids swollen, oozing from corners, lips hard, swollen.

One dose of Rad-b. 30c was given. The result was dramatic. The first night she was able to sleep with only once waking. Two days later the rash had nearly gone and the eyes had ceased to water. In a few days all had vanished and the patient could enjoy open air.

Dr. S. L. Guild-Leggett records the case of a girl aged 2.5 years who had shifting rheumatism left foot to right knee. Then to left knee, hands and toes. She had also a peculiarity about her stools. They were slate-colored, very offensive, urgent and came at noon during a meal.

On these symptoms of Dieffenbach's proving: "Defecation at noon, stool soft, dark or offensive, slate-color, clay-color, pains in limbs, wakes 4 a.m. , pains in all joints knees, ankles, feet, could not walk, had to lie down," Rad-b. was given and cured entirely.

PAGE 1403

Rajania subsamarata

Pharmacy

Raja-s. Rajania Subsamarata. Amphyterygium adstringes. N. O. Anacardiaceae or Dioscoreaceae family. The mother tincture is prepared from the bark which is triturated and macerated in 80% alcohol. Historical dose: Tincture and all potencies, 3x to 30x orally. It is used in compress form for ulcerations, diluted in water with 1% or 2% of the mother tincture.

Herbal

The plant has dioecious leaves, a trilocular herbaceous stem and the limb is cut near the top. It has six fibrous stamens, an ovary linked to the perigon tube with two to three seeds in the receptacle. It is a shrub 1.50 m high, which grows in the Michoacan in the warm territories of Morelos and Guerrero. The Homeopathic proving is the work of De Legarreta. **Planets:** Mars.

Homeopathic

Raja-s. has high fevers, general exhaustion. No longer has the strength to speak. Stares is stunned, closes eyes as if to think more easily. Jaw hangs, muscles relaxed, slips into bed. Swelling of the neck and parotid region. Congestion of the nerves and blood vessels. The diarrhea is muco-purulent and blood-streaked. Metrorrhagia of black, putrid blood.

Circumscribed inflammation of the skin with swelling or ulceration. Acute post infectious encephalitis in the child. Measles, diphtheria or whooping-cough. Post-vaccination encephalitis. Epidemic spinal and cerebral meningitis.

Clinical

Abscesses. Anthrax. Bacillary dysentery. Boils. Colitis. Encephalitis. Fevers. Mastoiditis. Meningitis. Myelitis. Typhoid.

Modalities

Better from coolness, better from discharges. Worse from moving from speaking.

Symptoms

MIND

Indifferent towards everything around him, bewildered. Loss of sense of identity. If interrogated, he takes a long time to come round, shivers and falls back into inert state or

hurls abuse. Sings bawdy or religious songs. Fits of exaltation, fury and lasciviousness. Mumbles in his delirium, weeps and sighs and speaks incoherently.

Abdomen

Hypogastric region painful, especially when speaking. Rumbling and abdominal wind. Gurgling in the right iliac cavity and pain at McBurney's point. Abdomen retracted into a boat shape when the condition becomes worse. Cholera-like enteritis. Enteritis. Ileitis. Bacillary dysentery. Hemorrhaging recto-colitis.

Ears

Sensation of blocked ear, as if full of earth. Sounds seem far off like distant rain. Sensitive to sharp sounds. Buzzing. Later total deafness. At times, catarrhal discharge. Suppurating inflammation of the ear-drum. Mastoiditis.

Eyes

Dull look, eyes bloodshot, bright at first, then lusterless, as if covered with a film of gum or tears, which are burning and corrosive. The pupil is contracted and insensitive to light. Eyelids are heavy, eyelashes stuck together. Blepharitis. Conjunctivitis.

Face

Face dull, serious at first, then aspect becomes hippocratic, cadaverous, earthy, dirty, moist.

Female

Labia majora excoriated. Menses ameliorate the general condition. Menses with evil-smelling blood, black and irritating. Menses with a bitter odor. Metritis. Profuse, sticky leucorrhoea, causing vaginal insensitivity. Puerperal fever. Venereal granuloma. Ulcerous vulvar elephantiasis.

PAGE 1404

Head

Acute headache like a nail being driven into the head. Pain in the head persisting for a long time, accompanied by anguished lamentation.

Heart

Pulse thready, weak. **Heart** beat irregular, moderate tachycardia. Hears the heart heat when lying down, as if the heart were on the pillow. Palpitations and diffuse pains in the precordial region. Fall in arterial tension. Sub-acute myocarditis. Pericarditis.

Limbs

Limbs trembling and slack with convulsions. Limbs are cold, purple. Continual involuntary movements of the hands, as if seizing particles in the air.

Lungs

Chest swollen, panting and anguished. Respiration weak, becoming imperceptible. Breath fetid. Pulmonary gangrene. Pulmonary abscess.

Male

Soft canker. Ulcers. Epithelioma of the glans. Penis limp, scrotum slack. Fetid sweating, smelling of rancid cheese.

Mouth

Breath fetid, putrid, repulsive. Mouth open, lower jaw dropping. Slight trismus at times. Lips swollen. Aphthae and ulcerations which bleed at times, on the tip of the tongue. Sticky saliva, nicotine-colored like that of a tobacco chewer. Teeth tarnished with yellow,

then brown, deposit, despite of frequent brushing. Tongue fissured with black stripe in the middle and red, excoriated edges.

Nose

Hairs inside the nose bristling, as if dusty. Nose dry. Attacks of nosebleed, which ameliorated. If abundant, they are exhausting. Ozaena. Rhinitis. Sinusitis.

Rectum

Constipation for the first few days, then diarrhea. Diarrhea, muco-purulent, blood-streaked, loosely bound, very fetid.

Skin

Skin rough, sticky sweat. Earthy appearance with petechiae on the chest, abdomen and on the inside of the arms. Gangrenous patches. Bedsores. Pimples, boils, suppurating abscesses. Painful, purulent anthrax. Soft canker with fetid, blood-streaked discharge. Boils. Anthrax. Abscesses.

Cancerous tumors and ulcerations with blue-black edges, painful and bleeding. Varicose ulcers. Septic gangrene. Erysipelas.

Stomach

Paresis of the esophagus with difficulty in swallowing. Hiccoughs, nausea, vomiting.

Temperature

Fever high, general exhaustion. Temperature between 39.5°C and 41°C.

Throat

Throat dry with need for liquid in order to swallow. Cold foods go down better than warm foods. External swelling of the throat and parotid region.

Compare

(1) Mur-ac. - Adynamic conditions, prostration, hyperthermia, deep, bleeding ulcerations. The patient is so exhausted that he falls into bed.

(2) Lach. - Acute infections, adynamic condition with tendency to hemorrhage and decomposition of the blood. Loquacity, burning pains, cannot bear anything tight, cardiac failure, ameliorated by drainage, spontaneous ecchymosis.

(3) Anthr. - Septic infections, burning pains, extreme prostration.

Ranunculus acris

(goldcup)

Pharmacy

Ran-a. *Ranunculus acris*. Buttercup. Goldcup. Crowfoot. N. O. Ranunculaceae. Tincture of whole plant. *Ranunculus acris* is distinguished from *R. bulbosus* by its slender cylindrical flower-stalk, that of *Ran-b.* being furrowed. Both are common "buttercups," and have acrid and poisonous properties. Historical dose: All potencies.

History

Ranunculus acris was proved by Franz and Lembke and the chief skin symptoms were observed in a woman of seventy who applied a handful of the herb to her limbs with the result of setting up violent constitutional symptoms and fever and intense inflammation, going on to gangrene of the skin of the legs. **Planets:** Saturn.

PAGE 1405

Homeopathic

In the Ran-a. provers a pain of a rheumatic character was experienced in the muscles and joints, especially ankles and wrists. These pains occurred when walking and also when at rest. Lumbar pains, worse on bending or turning the body. Heat, faintness and fever.

Clinical

Erysipelas. Fever. Gangrene. Lumbago. Neuralgia. Rheumatism. Ulcers.

Compare

(1) Ran. bulb.

SOURCES

Ranunculus bulbosus

(buttercup)

Pharmacy

Ran-b. Ranunculus bulbosus. Buttercup. Bulbous Crowfoot. N. O. Ranunculacee.

Tincture of whole plant. Historical dose: All potencies, third to thirtieth potency.

History

Ranunculus bulbosus was proved by Franz and some effects of its external application have been observed and results of inhaling the fumes while preparing the plant or when it has been burned. The last caused headache and in one instance epilepsy, followed by cachexia, gout, headache and death.

In one prover the effect of expressing the juice with the fingers was to cause a long-lasting and recurrent eruption of vesicles on the fingers. A characteristic feature of which was the blueness of the vesicles and the horny nature of the scabs.

"Small, deep, transparent, dark blue little elevated blisters of the size of an ordinary pin's head. Crowded together in oval-shaped groups of the size of a coin with intolerable burning itching, emitting when opened a dark yellow lymph afterwards becoming covered with a herpetic, horny scurf." A complete picture of herpes. The pains as well as the appearance of herpes are met with in the pathogenesis of Ran-b.

From the acrid vapor arising while the juice of the plant was being prepared these symptoms arose:

"Smarting from eyes as from smoke in evening. Smarting in eyes, nose and fauces, the eyes run and are very painful. He has to stop using them for half an hour because he cannot see anything, whites slightly inflamed, mucus runs in torrents from nose. Fauces painful as if sore during an inspiration, less during deglutition. These symptoms have led to many cures of hay fever with Ran-b.

The caustic and pain producing properties of the Ranunculacee reach their highest expression in the Buttercups themselves. Ran-b. forms a constituent of some arsenical plasters used to disperse cancers. Chronic sciatica, apply tincture to heel of affected leg, (M. Jousset). **Planets:** Moon, Mercury.

Homeopathic

Ran-b. is a painful remedy, affecting nerves, muscles, eyes, serous membranes, chest, skin, fingers toes and left side. Its most characteristic effects are upon the chest walls like

pleurodynia. Bad effects of alcohol, Delirium tremens. Spasmodic hiccough. Hydrothorax.

Shocks throughout the whole body. Sensitive to air and touch. Chronic sciatica. a complete picture of herpes. The pains as well as the appearance of herpes are met with in the pathogenesis of Ran-b.

The Ran-b. pains are stitching, stabbing, shooting, extort tears with shuddering, cannot rest in any position. Burning, biting, bruised soreness or as of deep ulceration. Sore spots. Neuralgia. Sudden weakness and fainting. Trembling from anger. Distended feeling. Sensitive to air and touch.

Burning in small spots from sedentary living. Shocks through the whole body. Chronic sciatica. Weak and tottering patients, from the prolonged use of whisky, brandy or other alcoholic stimulants. Epilepsy of alcoholics. As of a cold wet cloth especially on chest worse on going into cold air.

PAGE 1406

Clinical

Adhesions. Alcoholism. Breast, pain. Chest, pains. Chilblains. Corns. Delirium tremens. Diarrhea. Dropsy. Dyspnea. Eczema. Epilepsy. Feet, pains. Gastralgia. Hay fever. Herpes zoster. Hiccoughs. Hydrocele. Jaundice. Liver, pain. Neuralgia. Nyctalopia. Ovaries, neuralgia. Pemphigus. Pleurodynia, Rheumatism. Spinal irritation. Warts. Writer's cramp.

Causations

Bad effects of alcohol injury, fright, vexation. Cold air brings on all sorts of ailments.

Modalities

Better from standing, sitting bent forward. Worse from open air, damp, cold, rainy and stormy weather, drafts, change of temperature, atmospheric changes. Worse from change of position, motion of arms, standing. Worse from breathing touch. Worse evening and morning. Worse inspiring. Worse after eating, alcohol. Worse from fright, vexation, anger.

Symptoms

MIND

Irritable with pains. Anxious. Great fear of ghosts in the evening, dares not to be alone. Quarrelsome. Depression of spirit and desire to die. Delirium tremens with hiccough. Ailments from fright, vexation or anger.

Ran-b. has proved one of the most effective agents for removing the bad effects of alcoholic drinks, hiccough, epileptiform attacks, delirium tremens. In the last case the quarrelsome, angry mood on the one hand and the abject fear of ghosts on the other, further point to its appropriateness.

Abdomen

Hypochondria bruised. Tenderness of abdomen to pressure. Pinching colic, alternating with chest pains.

Back

Burning in small spots from needlework, type writing, piano playing. Muscular pain along lower margin of the shoulder-blade. Pain extending through lower half of left chest. Scapula adherent. Muscles of neck rigidly contracted, can speak only by moving shoulders up and down.

Chest

Various kinds of pains and soreness, as if bruised in sternum, ribs intercostal spaces and both hypochondria. Sharp, cutting, stitching in chest, bilateral. Intercostal rheumatism. Stitches in chest, worse inspiring, moving. Rheumatic pain in chest. Chilliness in chest when walking in open air. Small sore spot as from subcutaneous ulceration in chest. Herpes zoster. Pleurodynia. Pleurisy, adhesions after intercostal neuralgia.

Ears

Shootings in ears, especially in evening. Cramp-like sensation in and on ears.

Eyes

Night-blindness. Day-blindness, mist before eyes, pressure and smarting in eyes, as from smoke. Pain over right eye, better standing and walking. Herpes vesicles on cornea with intense pain, photophobia and lachrymation. Eyeballs sore on moving them. Hemiopia during pregnancy. Lids burn.

Female

Acrid and gnawing leucorrhoea. Ovarian neuralgia always excited by atmospheric changes.

Food

Butter tastes too sweet. Bitter, empyreumatic taste while eating or after having eaten dry food. Thirst augmented in afternoon. Feeling of hunger and rumbling in stomach early in morning.

Head

Irritable with pains in forehead and eyeballs. As if too large and distended. Aching in forehead and vertex as if pressed asunder with nausea and sleepiness. Creeping sensation in scalp. Pressing pain in forehead from within outward.

Limbs

Crawling and tingling in fingers. Itching palms. Sudden jerking, stitching pain in forearm (right) while writing. Pain in heels as if pinched by boots.

Liver

Jaundice with itching of body especially palms.

Lungs

Anxious, oppressed breathing with desire to draw deep breath. Dyspnea from anger.

Mouth

Crawling on palate, wants to scratch it. Cramp, spasms of lips. Increased saliva. Butter tastes too sweet.

Nose

Crawling and tingling in nostrils in posterior sinuses, Tries to relieve it by hawking and blowing the nose.

PAGE 1407

Sensations

Confusion of head as if intoxicated. As if head would be enlarged. As if head pressed asunder. Hypochondria in lowest ribs painful as if bruised. Burning in left side of chest in region of short ribs. As if something tearing in chest. As if cold wet cloths applied. As if something tearing in chest. As if cold wet cloths applied. As if a full breath could not be drawn. As of a knife thrust through side and into back.

Skin

Herpetetic eruptions with great itching. Shingles, bluish vesicles. Vesicular and pustular eruptions. Burning and intense itching, worse contact. Itching in palms. Blister-like eruption in palms. Pemphigus. Horny scabs. Hard excrescences. Flat burning, stinging ulcers. Corns, smart or burn worse touch. Finger-tips and palms chapped.

Stomach

Spasmodic hiccough of alcoholics. Frequent risings. Nausea in afternoon or evening, sometimes with headache. Pains in stomach. Pressure on scrobiculus.

Temperature

Chilliness, worse open air. Heat in head with coldness in hands. Shivering in evening with heat in face.

Throat

Scrapping, burning down the throat. Accumulation of much (tough) mucus in throat. Spasmodic sensation of something which ascends esophagus and passes into throat. Inflammatory burning pains

Comments

In a child who was cured of ague with subsequent dropsy and hydrocele by applying Ran-b. to the wrist, ulcers of the fingers penetrating down to the flexor tendons were produced.

Pains in nerves, serous membranes, muscles, tendons, joints, eyes and internal organs. The pains are lancinating, pressing and outpressing, jerking and sticking, as if bruised with external sensitiveness. The "worse during inspiration" is part of the general sensitiveness of Ran-b. to air to cold air and to change.

It is a keynote of the remedy and which will serve to indicate it in a large number of the cases to which it is otherwise appropriate. Another keynote symptom is sensitiveness to touch with a sore, bruised sensation, soreness of parts affected. These symptoms make Ran-b. an important vulnerary.

Hering mentions "hemeralopia" as having been cured with Ran-b. In a woman during pregnancy and in her three-year old son. The word "hemeralopia" has been used to denote both day-blindness and night-blindness. Hering uses it in the latter (rarer) sense, for he says of the woman, she "can see well during the day."

The concomitant symptoms were: Heat, biting and pressure in eyes, redness of conjunctiva and lids, especially inner surface of lower lids, lachrymation, pus in canthi, pustules on eyes.

Eyes look weak, pupils dilated, candle-light appears as a bright circle, can see well during day." With the concomitant symptoms Ran-b. would probably cure either day-or night-blindness. "Pressure and smarting in eyeballs" is very characteristic.

Ran-b. causes a very painful indigestion: White-coated tongue, bitter, sour or sweetish taste with accumulation of saliva, scraping burning in throat, spasmodic hiccough, spasmodic feeling in esophagus and pharynx, ascending, belchings, nausea, pressure on sternum with labored breathing, violent burning in cardiac end of stomach, hunger early in morning, thirst in evening."

Pains in liver and spleen region worse by touch. In pleurisy, pleurodynia intercostal neuralgia. Spinal neuralgia. Herpes. Pains are sharp, stitching, shooting, come in paroxysms.

Pains are induced by atmospheric changes, sudden exposure to cold or heat, worse in wet, stormy weather from touch, motion or turning the body.

The chest is particularly the seat of these pains. Muscular pains about margins of shoulder-blades in women of sedentary employment. Pains are often burning in small spots from needle work, typewriting, piano playing, (H. C. Allen).

"Jerks and shocks and sudden tearings in right forearm and between thumb and index finger while writing, "point to Ran-b. as one of the remedies in writer's cramp and professional neuroses.

The "cold-water feeling" occurred in a patient of Burnett's. A woman, 30, had a fall two years before Burnett saw her and ever since had this peculiar sensation: Whenever she goes out of doors she feels as if wet cloths were applied to three different parts of the anterior walls of thorax-both infra-clavicular fossae and under left breast. Never felt indoors, but constant as long as she is out.

Guided by this symptom, "Unusual chilliness of outer parts of chest when walking in open air, with the worse in open air and worse walking in open air," Burnett gave Ran-b. In two days the patient was better in three weeks the sensation had completely gone and the general health very much improved.

Dudgeon reports this case: Lady, 27, three weeks after confinement went for a drive. The day was cold and an accident occurred to the carriage which frightened her. In the evening she had a slight rigor and complained of pain in left side about sixth and seventh ribs. Worse slightest movement, better sitting rather bent forward and leaning a little to the left. Pulse 120, no heat of skin. No signs of lung or pleural involvement.

Bry. and later Arn., gave no relief and for two days the symptoms grew worse. The patient having to be propped up with pillows, leaning forward and to the left.

Her head resting on her breast, not daring to breathe at all deeply. Ran-b. 1c relieved her in ten minutes, when she "felt a wrench in her side and the pain was gone." She was able to lie down, slept all night and made a rapid recovery.

There were some slight returns of pain, now on one side, now on the other. But Ran-b. soon removed them.

Ranunculus ficaria

(lesser celandine)

Pharmacy

Ran-fi. Ranunculus ficaria. Lesser Celandine. Pilewort. Ficaria ranunculoides. Scrophularia minor. N. O. Ranunculacee. Tincture of whole fresh plant. Historical dose: All potencies.

Herbal

The "Lesser Celandine" is not botanically related to the true Celandine, *Chelidonium majus* or to the Figwort tribe (*Scrophularia*), though it is named in the old books *Scrophularia minor*. Ran-fl. is in all respects a true Crowfoot except that it has three deciduous instead of five persistent sepals and nine petals instead of five.

"It growth in meadows, by ditches and trenches and it is common everywhere in moist and dark places. It comes forth about the Calends of March and flower a little after: it beginneth to fade away in April, it is quite gone in May afterwards it is hard to be found, yea scarcely the root" (Gerarde).

Gerarde shows whence the idea of its use in hemorrhoids was derived from the cluster of small tubers growing around the crown of the root bears a striking resemblance to a bunch of hemorrhoids. **Planets:** Moon.

Clinical

Hemorrhoids.

SOURCES

Clarke.

PAGE 1409

Ranunculus flammula

Pharmacy

Ran-fl. *Ranunculus flammula*. N. O. Ranunculacee. Tincture of whole plant. Historical dose: All potencies.

History

Ranunculus flammula has produced gangrene of the arm down to tendons and bone in the case of a female from applying the plant to the wrist. **Planets:** Saturn.

Homeopathic

Ran-fl. produces in horses who eat much of it distention of abdomen and inflammation and gangrene of abdominal organs. But it is only hurtful to horses if eaten in excess. Ran-fl. promotes digestion when eaten in moderation. Ulceration, gangrene of arm.

Clinical

Gangrene. Ulceration.

SOURCES

Clarke.

Ranunculus glacialis

(reindeer flower)

Pharmacy

Ran-g. *Ranunculus glacialis*. Reindeer flower. *Carlina* or *Cacline*. N. O. Ranunculacee. Tincture of whole plant. Historical dose: All potencies.

History

Dr. Codde of Spoleto, proved the tincture and 3rd and 9th dilutions of this plant. Ranunculus glacialis has cured pulmonary affections, broncho-pneumonia. Influenza with an enormous weight in head with vertigo and sensation as of impending stroke. Night-sweats more on thighs. **Planets:** Mercury.

Homeopathic

Ranunculus glacialis produced an enormous weight in the head with vertigo and feeling as if a stroke were impending, better by coffee. A right-sided early morning headache, better by rising. Dyspnea, worse when lying down and compression of chest. Intolerance of weight of coverlet, coldness of thighs, general copious night-sweat, especially abundant on thighs.

Clinical

Cerebellum, pain. Dyspnea. Headache. Night-sweats. Strokes. Thighs, sweat.

SOURCES

Clarke.

Ranunculus repens

(creeping buttercup)

Pharmacy

Ran-r. Ranunculus repens. Creeping Buttercup. N. O. Ranunculaceae. Tincture of whole plant. Historical dose: All potencies.

History

Franz reports a number of symptoms experienced from preparing the juice of this plant. The symptom of phantasmagoria appears. There is quoted in Jahr an account of the effects of eating R. rep. observed in a flock of sheep. Several fell down as if struck by lightning, eyes rolled, breathing hurried. Some reeled and died with their heads bent towards left groin. **Planets:** Moon.

Homeopathic

Mucous membranes of eyes injected, mouth dry. Abdomen slightly distended, ruminations ceased. Some raised themselves, reeled, fell down again, bleated piteously, most were in profound coma. Bleeding worse, ether in milk gave much relief. Great weakness in feet remained behind. Ran-r. has furrowed flower-stalks like Ran-b., but it has a spreading calyx and creeping scions.

Clinical

Back, pulsation.

Eyes, smarting inflammation.

Feet, weakness. Sleep, short but refreshing.

SOURCES

Clarke.

Ranunculus sceleratus

(marsh buttercup)

Pharmacy

Ran-s. Ranunculus sceleratus. Marsh crowfoot. Marsh buttercup. Celery-leafed crowfoot. N. O. Ranunculaceae. Tincture of whole plant. Historical dose: All potencies, first to third potency.

History

Ranunculus sceleratus has the most acidity of all the Ranunculi, causing burning in mouth, throat, stomach, chest, urethra and other parts.

It causes blisters on the skin which leave a raw surface with acrid discharge.

PAGE 1410

The effects of Ran-s. which German shepherds call "cold fire" on horned cattle is: Loss of appetite, trembling and shivering, distention of abdominal veins. A dog poisoned with it became anxious, howled tossed about, bent double, was very restless at night.

Ran-s. is a well-proved drug. The best-known characteristic is the "mapped or peeled tongue" and when this is associated with smarting, burning and rawness.

Ran-s. has cured pemphigus in a three-months old infant with continual thirst, weak intermitting pulse, trembling with anxious features. After Ars. 4c had caused improvement, Ran-s. 3c healed up the resulting ulcers. **Planets:** Mercury.

Homeopathic

Ran-s. has affinities for chest, skin, vertex and right side is specially affected. Rawness, burning, smarting, gnawing or boring pains. Periodical complaints. Fainting with pain in stomach. A well known characteristic of Ranunculus sceleratus is the mapped or peeled tongue and when this is associated with smarting, burning and rawness Ranunculus sceleratus will be the remedy.

Ran-s. has burning in mouth, throat, stomach, chest, urethra and other parts. Pemphigus. It causes blisters on the skin which leave a raw surface with acrid discharge. Pains cause fainting or shortness of breath. Feels sore all over. Periodical disorders. Convulsive twitches. Sensation as of a plug.

Clinical

Aneurysm. Anus, itching. Chest, sternum, pain behind. Corns. Coryza. Diphtheria. Earache. Glossitis. Gout. Hemorrhoids. Herpes, zoster. Liver, pain. Neuralgia. Nose, ulceration.

Modalities

Better from after midnight, pains. Worse from motion, evening, deep breathing. Worse touch, letting limb hang down. Worse by pressure, blows. Worse by walking. Worse evening after midnight, morning. Worse in open air. Worse after a meal.

Symptoms

MIND

Indolence and aversion to mental work. Sadness and melancholy in the evening.

Clinical

Pemphigus. Quinsy. Sternum, pains. Stomatitis. Toes disorders. Tongue, peeling, mapped. Varicose veins.

Abdomen

Sensation of a plug behind umbilicus. Pressure as of a plug behind right false ribs, worse deep inspiration.

Chest

Integument sensitive. Bruised pain and weakness in the chest every evening. Sore burning behind xiphoid cartilage.

Face

As if covered with cobwebs.

Head

Gnawing in one spot left of vertex. Frightful dreams about corpses, serpents, battles, etc. Fluent coryza with sneezing and burning urination.

Head

Gnawing pain in small spot on vertex or either temples. Biting, itching on the scalp.

Heart

As of a plug in heart.

Limbs

Boring pain. Gout of fingers and toes. Sudden burning sticking in right toe. Sudden stitches in big toes, passing into burning. Corns with burning and soreness, especially when feet hang down. Gnawing in knee, left palm.

Liver

Pain over region of liver with sensation as if diarrhea would set in.

Lungs

Stitches in chest muscles, chest and sternum are sensitive to touch. As of a plug forced between ribs, worse deep breathing. Sore burning behind sternum.

Mouth

Blunt teeth with toothache. Mapped tongue. Burning and rawness of tongue, denuded patches. Tongue cracks and peels off.

Mouth

Teeth and gums sensitive. Tongue mapped. Denuded patches. Mouth sore and raw. Burning and rawness of tongue.

Nose

Fluent coryza with sneezing with burning urination.

Skin

Vesicular eruption with tendency to form large blisters. Acrid exudation, which makes surrounding parts sore.

PAGE 1411

Sensations

Gnawing and boring are common. As if head were too full and too large. As if a plug were lodged in umbilicus.

Pressure as from a dull instrument. As if diarrhea would set in. As of a needle thrust deep into big toe. With pains in stomach there is fainting. Convulsive twitches of limbs.

Skin

Yellow vesicles. Bullae with acrid contents. Pemphigus.

Sleep

Dreadful dreams of dead bodies, snakes and of fights.

Stomach

Nausea worse after midnight. Pain with fainting.

Throat

Burning scraping in throat.

Comments

External sensitiveness is a leading feature of Ran-s., especially of region of chest and sternum. These symptoms have led to the cure of many chest disorders including aneurysm. A leading Concomitant of Ran-s. is arrest of breathing: pains in liver, spleen, chest or heart, worse on deep inspiration and associated with external soreness calls for Ran-s.

Most of the symptoms are right-sided, but there is one left-side symptom that is peculiar: continual gnawing in left palm. The right toes, especially the right big toe, are the seat of many acute pains, giving the remedy a high place in acute attacks of gout and also painful corns.

Mahoney cured with Ran-s. 3c in an aged woman subject to gout aching in dorsum of feet, especially the right with wakefulness at night. Kali-c. 30c had previously removed pain passing downward over the glutei.

Compare

(1) Ran-b. - Ran-s. more irritative.

(2) Headache, gnawing in small spot at vertex, Puls.

(3) Mapped tongue, Nat-m., Ars., Rhus-t., Tarax.

(4) Ran-s. has more burning and rawness than any.

(5) Cobweb sensation, Am-c., Bor., Brom., Bry., Calc., Con, Graph., Mag-c.

Relations

Antidoted by: Puls. Wine and Coffee antidote only partially. The ulcers were somewhat relieved by Peruvian Balsam. Follows well: Ars. in pemphigus. Followed well by: Lach. in diphtheria with denuded tongue.

SOURCES

Boericke. Clarke. Phatak.

Raphanus sativus

(black garden radish)

Pharmacy

Raph. Raphanus sativus. Black garden radish. Wild Radish. N. O. Crucifer. Tincture of fresh root immediately before flowering in spring. Tincture of whole fresh plant.

Historical dose: Tincture and all potencies, third to thirtieth potency.

Herbal

Nusser proved both the Garden Radish and the Wild Radish (the former probably only a cultivated variety of the latter) and of the Garden Radish he took tinctures of the long, round and black (the favorite in Germany) varieties and ate the different radishes themselves.

Raph. affords a marked example of a common article of diet being at the same time a poison and a medicine. The symptoms are from effects of eating radishes and provings by Curie made on a woman with 15c and 30c dilutions. These provings developed many

symptoms which have proved to be characteristics. The symptoms will not appear if salt is used with the Radish.

Cooper writes: A man, has these symptoms whenever he eats even a single radish: "Burning sensation in epigastrium, followed by hot belchings, lasting a whole day and ending in a headache." Turnips (*Brassica Rapa*) produce in him a similar effect, but in less degree. The leaves of Raph. are said to antidote its roots and the arum root is said to antidote the effects of Radish leaves. **Planets:** Moon, Jupiter.

Homeopathic

Raph. produces in provers, hysterical, mental and uterine symptoms. Produces pain and stitches in liver and spleen. Increases of bile and salivary secretion. Great accumulation and incarceration of flatulence. Post-operative gas pains. "Globus" symptoms. Seborrhoea with greasy skin. Pemphigus. Hysteria, chilliness in back and arms. Sexual insomnia. (Kali-br.) Nymphomania.

Numbness, changing places. Globus, as of hot ball from uterus goes up to the throat. Drinks more than one urinates.

PAGE 1412

Retained flatulence, cannot be passed up and down. Loss of vision and hearing just before vomiting. Stopped sensation in ears. Teeth feel as if made of paper. Appetite without hunger 4 a.m. in bed. Vomiting of fecal matter. Coldness of one foot. Epilepsy, reflex from removal of an adherent prepuce, the healing being delayed by furious priapism. Urine thick like milk. Can only lie on back.

Clinical

Alcoholism. Amblyopia. Axilla, inflamed. Breast pains. Catalepsy. Coughs. Diarrhea. Emaciation. Epilepsy. Esophagus. Faintness. Fevers. Flatulence. Flushings. Headaches.

Heart, disorders. Heel, pain. Hernia. Hysteria. Insomnia. Intoxication. Lienteria.

Liver, affections, abscess. Menorrhagia. Metrorrhagia. Myopia. Nosebleeds. Nymphomania. Palpitation. Pemphigus. Seborrhoea. Tonsillitis. Toothache. Vomiting. Yawning.

Modalities

Walking in open air ameliorates the symptoms. Throwing back head ameliorates pain in occiput. Worse in night and morning on waking. Worse 3 to 4 a.m. Worse by touch. Worse by jarring. Cough causes painful shock in brain, efforts to vomit, pain in chest. Motion aggravates pain in belly. Laughing causes cough. Worse by eating and drinking. After breakfast, pain in heart. Riding in carriage causes pain in heart.

Symptoms

MIND

Capricious manner, stupefaction, sadness, tears and this at times alternated with hopefulness. Brain excitement. Extreme anxiety with feeling of impending death. Sadness with aversion to children. Nymphomania with aversion to her own sex and children especially girls. Sexual insomnia. One prover had sense of intoxication on waking in the morning. Another felt intoxicated after dinner, though only water was drunk. This should give Raph. a place in some forms of alcoholism.

Abdomen

Retching and vomiting, loss of appetite. Distended.

Tympanitis, hard. no flatus emitted upward or downward. Gripping about navel.

Back

Weak back. Numbness of muscles of neck near left ear, coldness in left eye. Cracking in nape of neck. Acute pains in coccyx, as if an abscess forming. Burning itching on the back.

Chest

Pain in chest extends to back and to throat. Heavy lump and coldness in center of chest.

Ears

In left ear tearings and shootings. Lancinations in right ear. Loss of sight and hearing just before vomiting. Itching in concha of left ear, which is painful to the touch.

Eyes

Edema of lower eyelids. When she turns her eyes in the direction of the ear she feels a pain in the ear, temple and parietal bone. Eyes filled with blood, sight lost.

Face

Face, red, somber. Cheeks burn, are red, whole head and face red. Face disfigured.

Female

Nervous irritation of genitals. Menses very profuse and long-lasting. Nymphomania with aversion to her own sex and to children and sexual insomnia.

Head

Headache, brain feels tender and sore. Headache after dinner. Severe headache in temple, eyes and root of nose. Aching above root of nose. Sharp pains in vertex. Tightness in skin of vertex. Dull pain in occiput, better by throwing head back. Gnawing in occiput followed by numbness. Sweat on head after rising.

Kidneys

Turbid with yeast-like sediment. Urine more copious, thick like milk. Urine scanty or else more in quantity than the drink swallowed. Pale urine of a dirty yellow.

Limbs

Weakness and bruised feeling in limbs. Trembling of limbs. Sticking pains in left shoulder. Gland in right armpit, swollen and tender to touch. Numbness of soles and buttocks. Cramp in calf, at night in bed.

PAGE 1413

Nose

Mucus in posterior sinuses. Nose pointed. Nosebleed of deep red blood. Dull pain in root of nose extending to occiput. Pressure, as from a weight, on back of nose. Breath feels burning hot in nose. Stoppage of nose. Smell of horse-radish. Frequent sneezing or at least frequent want to sneeze.

Rectum

Stool liquid, frothy, profuse, brown with colic and pad-like swelling of intestines. Vomiting of fecal matter.

Skin

Skin greasy. Itching and heat of skin, fever, pimples under skin. Itching of whole body, scratching causes burning. Painless pemphigus.

Sleep

Nervous yawning. Inclination to sleep. Sleep with dreamy reveries. Lascivious dreams.

Stomach

Putrid belchings. Burning in epigastrium, followed by hot eructation. Black vomit. Vomiting of fecal matter. Pains in stomach, which urge continual eating.

Throat

Hot-ball feeling from uterus to throat, stopping there. Heat and burning in throat.

Vertigo

Vertigo with loss of vision. Vertigo with dim sight in evening, head feels tightly bandaged.

Comments

The hysterical, mental and uterine symptoms of Curie's prover were very well marked, a state approaching catalepsy was induced: "On returning a little to herself she was unable to speak or stir." The "globus" symptoms are as marked as with any other remedy:

A number of balls ascend from abdomen to throat. A hot, foreign body goes up like a ball from uterus and stops at the beginning of the throat, where it feels like a morsel too large to be swallowed, thence descends to the stomach, causing a sensation of something hard to digest, leaving an empty sensation with hunger.

Raph. is one of the most flatulent of remedies. Gas accumulates so that it almost stops the breathing. The most characteristic feature is when the flatus cannot be passed either up or down.

Such a condition after abdominal operations has been relieved by Raph. Many symptoms, physical and mental, seemed to rise from the uterus, culminating in a very pronounced attack of nymphomania. With these was aversion to her own sex and to children, especially girls.

Constant, violent thirst. "Drinks more than he urinates." Also "Pains more severe when he drinks liquid." Sensation as if she had put her cold feet into very hot water.

Cough causes jarring of head and chest, seems to come from epigastrium, cannot get low cough to loosen phlegm from laughing. Expectoration of a very large amount of tenacious white mucus from pharynx and esophagus with sensation of stricture in throat.

On breathing, pain under breasts and in back. Heavy lump and coldness in center of chest between breasts, preventing sleep.

Sensation of an iron band round waist. Sensation of stiffness. Numbness in hands in soles of feet and buttocks of the parts near the painful bones. Sensation of swelling of bones of hands, arms, eyes, yet feet feel small. Swelling of abdomen. Sensation of a hot foreign body like a ball going up from uterus to throat. Hot breath, hot belchings.

Sensation of a number of balls rising from abdomen to throat.

Many symptoms ascend: Pain in vertebral column as if a foreign body passed through it from top to bottom and was stopped at certain points by obstacles causing pain. Acute pains in coccyx, sensation as if an abscess forming. Sensation as of an abscess in liver. Pressure in hypogastrium as if a hernia would protrude. Throbbings in the body that became lancinations. Chilliness along the back and posterior surfaces of arms. Icy cold knees.

Fever sensation as if a cold coming on. Many symptoms besides those of globus appear to have their seat in the esophagus including the pains in the back on swallowing. There are few remedies with a greater proportion of distinctive symptoms than Raph.

E. T. Blake reports two cases of sexual insomnia cured with Raph., one of which shows that Raph. has an influence on the male sexual sphere analogous to that it has on the female.

A young man suffering from reflex epilepsy had a generally adherent prepuce removed. Healing was delayed by furious priapism, which caused dragging at the sutures. Raph. 1x given each night cured.

Blake's second case was in a woman of 40 with old pelvic troubles. Orig. had failed and Plat. had helped only slightly. Raph. cured.

Compare

(1) Momordica - Worse near splenic flexure.

(2) Carb-v, Anac., Arg-n., Brassica.

Relations

Antidoted by: Copious draft of cold water. (Milk and water worsen the pains in abdomen.) Follows well: Lyc., Armor., Brassic., Cheiran., Thlasp. b. p., Matthiola., Sin ap.

Ratanhia peruviana

(mapato)

Pharmacy

Rat. Ratanhia peruviana. Mapato. Krameria triandra. Pumacuchu. Rhatany Root. N. O. Polygalaceae or Leguminosae according to some. Tincture of the root. The root of several species of Krameria, especially Krameria triandra. Historical dose: Tincture and all potencies, third to sixth potency. Locally, the Cerate has proved invaluable in many rectal complaints.

Herbal

Ratanhia is remarkable for its entire, ovate, acuminate leaves, covered on both sides with silky hair is one of the species most known as yielding the Rhatany root of commerce, but all the species of Krameria, as far as known, are intensely astringent.

In Peru an extract is made from this species which is a mild, easily assimilated astringent medicine, possessed of great power in passive, bloody or mucous discharges.

It acts as a tonic in weakness of digestive organs and muscular debility and is even useful in intermittent and putrid fevers. It is also styptic and restores tone to relaxed parts and when applied as plasters is said to cure all kinds of ulcers.

An infusion is used as a gargle and wash and the powder forms with charcoal and excellent tooth-powder. The color of the infusion of the root of the Krameria is blood-red, on which account advantage is taken of it to adulterate port wine. (Treasury of Botany).

Ratanhia peruviana acts as a tonic for delicate and nervous women to prevent miscarriage in those who have never been able to go to their full term.

Teste puts Ratanhia in his Sulphur group. Teste writing of its pre-homeopathic use, says "There is perhaps no plant the properties of which have been so well indicated by chance as this. Ratanhia was used as an astringent and tonic, this root sometimes arrests passive hemorrhages. Nosebleed, hemoptysis and metrorrhagia.

Ratanhia was successfully used against scurvy, mucous discharges, such as chronic catarrh of the bronchia, vagina, large intestines, etc., against various forms of incontinence of urine, chronic edema of the skin. **Planets:** Moon.

Homeopathic

Ratanhia peruviana has the anal and rectal symptoms are most important and have received much clinical confirmation. Pinworms. It has cured pterygium. Violent hiccough. Affects teeth and nipples. Cracked nipples. (Graph., Sil.)

Pains are here and there. Sense of constriction. Hemorrhages, passive. Pin-worms. Dark thin scrawny persons. Cracks, fissures. Weakness and prostration with anxiety and sweat over whole body. Shooting pains, as from excoriation. Jerking in different parts.

PAGE 1415

Clinical

Anus, fissures. ze.

The patient had three convulsions during twenty-four h?

Lst pain. Breath offensive. Constipation. Diabetes. Dysentery. Dyspepsia, atonic.

Fissures. Gonorrhoea. Hemoptysis. Hemorrhages. Hemorrhoids. Hiccough. Hydrothorax.

Itching. Metrorrhagia. Miscarriage. Nipples, fissures. Nosebleed. Pimples. Pleurisy.

Pterygium. Scurvy. Snoring. Speech, arrested. Stomach, disorders. Throat, contraction.

Tinnitus. Worms.

Modalities

Better from hot-water applications. Better from cool bathing, hot bath. Better from walking in open air, exercise. Pressure ameliorates pain in chest. Worse at night from anxiety, uneasiness of mind, exertion touch. Worse straining at stool, sitting bent over, stooping. Eating aggravates, emission of flatus better.

Symptoms

MIND

Irritable, peevish and quarrelsome humor. Apprehensive depression when alone, better in company. Changeable mind.

Abdomen

Gripping in lower abdomen, externally violent itching. As if abdomen had been cut to pieces, worse deep breathing. Heat and burning sensation in epigastrium. Repeated violent sticking in hypochondrium. Pinchings in abdomen and sides of abdomen, sometimes with a burning sensation. Pullings and a sensation of coldness in umbilical region. Movements in sides of abdomen as of something alive.

Back

Drawing tension from nape of neck to the bottom of spine. Stiffness in nape on turning head, better on violent motion. Tearing in nape of neck with heaviness of head. Bruised pain in whole spine. Bruised pain in loins and hips, morning rising, better on motion.

Breasts

Cracks in nipples in nursing women.

Chest

Burning stitch in last ribs near back on stepping. Violent pressure in chest as from a stone with short breath, on slight exertion. Rush of blood and heat to chest with difficult

breathing. Ulcerative pain in chest during and after coughing. Sticking, burning, cutting pains. Painful constriction in both sides of chest.

Ears

Tearing in ears. Itching and shooting in ear. Violent stitch in right ear. Chirping in right ear.

Crawling as if insect in right ear. Nocturnal tinkling and ringing in ears.

Eyes

Agglutination of eyes at night and lachrymation in morning. Contractions and burning sensations in eyes, especially in evening. Pains in eyes as if compressed in a vice and could not be moved. Inflammation of sclera. Lids feel stiff. Very, rapid twitching of eyelids. Jerks and quivering of eyes and eyelids. Pterygium. Stiffness of upper lids with soreness of upper tarsal edges. **White spot before eye**, which obstructs the sight with constant urging to wipe the eyes. Vision dim for distant objects. Myopia.

Face

Heat in face. Tearing pain in face and jaw bones. Violent tearing in left malar bone, evenings. Sensation of cobwebs above right side of mouth. Tearing in inner surface of lips in a small spot. Tearing in left side of lower jaw and corresponding teeth. Burning vesicles on the red part of upper lip.

Female

Compelled to get up at night and walk about during pregnancy with toothache. Miscarriage. Menses delayed. Menses too early and of too long duration and too copious with pains in abdomen and loins. Menses suppressed with swelling of abdomen and breasts, simulating a pregnancy of several months with profuse leucorrhoea and kidney pain. Metrorrhagia. Pressure in groin, as of a general bearing-down pain towards genital organs, followed by leucorrhoea. Leucorrhoea with itching in rectum and discharge of bloody mucus.

Food

Thirst in evening. Anorexia with dislike to food and drink. Constant desire to eat.

Head

Dullness of head, as if intoxicated. Bursting headache, when straining at stool or after stools. Bursting in head, when sitting with head bent forward. Pain in middle of forehead, as if brain would fall out, while straining at stool. Long-lasting headache, as if screwed in a vice. Sensation as if scalp from nose to vertex were stretched.

Itching of scalp not better by scratching.

PAGE 1416

Heart

Sharp sticking in precordial region, rather external. Pulse full.

Kidneys

Frequent and urgent want to urinate with scanty emission. More frequent and more abundant emission of urine, even at night. Pale urine. Urine more scanty, which soon deposits a cloud and becomes turbid. Burning in urethra (and root of penis) when urinating.

Limbs

Tearing in limbs. Contraction of flexor muscles. Tearing in shoulder, arms, forearms and wrists. Spasmodic and painful contractions in elbows and fingers. Pain in bend of elbow

when flexed, better extended. Jerking, tearing and stitches in thumbs. Drawing and tearing in thighs, knees, legs, feet and toes. Tension and burning sensation in thighs. Tearing from left Achilles tendon, up the leg. Sticking and burning tearing in left big toe. Tickling on heels on soles. Voluptuous itching in left sole.

Lungs

Malaise with frequent yawning, repeated and labored attempts to draw a long breath and distressing constriction across chest. Dry cough with tickling in larynx and pain of ulceration in chest. Some tight mucus evacuated with great difficulty.

Male

Chronic gonorrhea. Burning in root of penis while urinating. Itching in scrotum not better by scratching.

Mouth

Breath offensive. Dryness of mouth at night. Acid blood from gums on sucking them. Tension and burning sensation at tip of tongue. As if cool air came from teeth. As of a cobweb about the right side of the mouth. Tasteless water collects in mouth.

Nose

Itching in nose. Violent itching on tip of nose better by rubbing. Nostrils inflamed and scabby with burning sensations. Nosebleed. Violent nose-bleed, three times a day, for five days in succession. Dryness of nose with frequent sneezing. Dry coryza with complete stoppage of nose.

Rectum

Constriction or as of sharp splinters of broken glass in rectum. Dry heat at anus with sudden knife-like stitches. Fissure of anus with great constriction, burning like a fire. Hemorrhoids burn like fire, temporarily relieved by cold water. Fetid, thin diarrhea, stools burn, burning pains before and after stools. Discharge of blood from rectum with or without stools. Stool is forced with great straining and followed by prolonged aching, burning, better hot water. Stools must be forced with great effort, protrusion of hemorrhoids. Oozing at anus. Dry, itching anus. Pinworms. (Sant., Teucr., Cina).

Ascarides.

Sensations

As if intoxicated. As if head in a vice. As of a white speck before eyes, skin before eyes. As if coldness rushed out of molars. As if rectum and anus were all twisted up. As if splinters of glass in rectum and anus. As if rectum protruded and then suddenly went back with a jerk. As if abdomen or chest cut to pieces. Movement as if something alive in abdomen. As of cobwebs about right side of mouth. Jerkings and quivering. Eyelids feel stiff. Right side is most affected.

Skin

Sickly looking skin. Small red and white pimples which do not suppurate, especially between shoulders and on loins. Pimples, itching and burning after scratching. Formication and itching eruption on back. Itching in nape and between scapula, on scrotum, front of thigh, bends of knees.

Sleep

Disposition to sleep, especially after dinner. Snoring. Violent yawning. Retarded sleep. Frequent waking and prolonged wakefulness. Waking with a start with trembling inquietude and fear. Dreams of battles, sick people, quarrels, anger, vexation. Dreams of funerals, death of friends, earthquakes.

Stomach

Belching with taste of food, empty. Pains as from ulceration in stomach. Heat and burning sensation in stomach. Pain like knives cutting the stomach.

Cutting or griping pain better belching. Stomach feels too full. Sudden painful bursting in pit of stomach. Violent hiccough, which causes pain in stomach. Long-continued hiccough after dinner. Nausea and disgust with retching and vomiting of food, worse in open air. Vomiting of water of mucus streaked with blood.

PAGE 1417

Teeth

Toothache in evening, especially after lying down, compelling one to rise and walk about. Toothache with tearing or jerking. Digging pains. Pulsative pain in teeth. Bleeding of teeth. Painful sensation of coldness and elongation in the molars and as if coldness rushed out of them. Violent pain in incisors, which are painful to the touch.

Temperature

Predominance of coldness and of shivering, especially in evening. General chill 8 or 9 p.m. Chilly even in warm room. Heat of whole head with heaviness. Heat and puffiness of face. Dry heat in anus with cuttings. Woke 1 a.m. with sweat, thirst and dry mouth. Nocturnal perspiration.

Throat

Sore, throat, generally felt during empty swallowing. Painful spasmodic contraction in throat, which stops the voice. Unable to speak a loud word.

Comments

Dr. Tournel, who, no doubt, did not suspect that Ratan. produced abortion, had the happy idea of prescribing it as a tonic in cases of incipient miscarriage and thus preventing that accident in delicate and nervous females who had never yet been able to go their full time.

All these uses are really homeopathic, as is also the cure of a case of fissure of the rectum by Bretonneau, whom Teste quotes from Trousseau and Pidoux:

A lady suffered from constipation and fissure of rectum, which caused her horrible pains and had damaged her health. Bretonneau ordered a daily injection mixed with one-fourth of Rat. and in a short time constipation and fissure were cured. Other like cases were cured.

Then the same treatment was given in cases of fissure without constipation and again with the same success.

The provings of Hartlaub and Trinks bring out the keynote of Rat. in rectal cases: "Straining, stool so hard she cried out with great protrusion of hemorrhoids, followed for a long time by burning in anus."

The burning persisting for a long time after the stool is very characteristic of Rat. and it occurs when the stool is diarrhea, as well as hard. Burning also precedes and accompanies the stool. Another peculiarity in connection with the stool is bursting headache, which accompanies and follows a straining at stool.

Dry heat with sudden stitching like knife-stabs. Oozing at anus. Dropping of blood from anus. One patient cured by Rat. of fissure was better by application of hot water, he sat in a sitz-bath as hot as he could endure, the relief only lasted while in the bath.

In connection with the rectal symptoms is an important head symptom: "Pains in middle of forehead, as if brain would fall out," and a similar pain after stool. The head pains are also worse on bending forward.

The eye symptoms are striking: burning, smarting, twitching of lids, obscured vision. This symptom has led to the cure of cases of pterygium: Inflammation of whole eye, a membrane seemed to extend to central point of eye, which burned.

The old use of Rat. in nosebleed, scurvy and as a tooth-powder are justified by the proving symptoms: Violent nosebleed, bleeding gums, toothache, worse lying down. A curious symptom in the aching molars is a sensation as if coldness rushed out of them. Toothache of pregnancy compelling the patient to get up at night and walk about.

Tasteless water collects in mouth, may meet another condition of pregnancy and Rat. both causes and prevents miscarriage of pregnancy, metrorrhagia and leucorrhoea.

PAGE 1418

It also meets fissure of the breasts in nursing women, as well as fissure of the anus. Contractive sensations are numerous: in stomach, groins, anus, eyes, neck, muscles, throat, "painful spasmodic contraction of throat during which she could not speak a loud word."

Cushing, who made a proving of Rat., says it caused great itching in the rectum and he has cured with it since nearly every case of pin-worms in his practice.

In a woman, old and feeble, he cured with Rat. 3x internally and a Rhatany rectal suppository each night, frequent discharges of mucus, blood and pus from the bowels night and day with great pain and burning in rectum almost wholly preventing sleep.

Cushing considers that, next to Sang-n., Rat. meets more rectal cases than any other remedy.

Rummel relates the case of a servant girl who had rapid twitching of the lids of right eye to such an extent as to hinder her seeing. There seemed to be also a rotary motion of the ball. Bell. and Calc. failed to relieve. Rat. 12c relieved quickly.

Rauwolfia serpentina

Pharmacy

Rauw. Rauwolfia Serpentina. N. O. Apocynaceae family. Java and India. The mother tincture is prepared from the root. Historical dose: Tincture and all potencies, 3x to 30c.
Herbal

Rauwolfia Serpentina belongs to the Apocynaceae family and its habitat is Java and India. The root contains a great number of alkaloids of which Reserpine or Serpasil is the most well known. A very old drug in Hindu medicine, the roots and rhizomes contain hypotensive and neuro-depressive alkaloids. In 1952, the Russian chemist Muller isolated the specialized reserpine under the name of 'Serpasil'. Most of the alkaloids are built on the base of reserpine, a harmonic group linked with a second isoquinoleic group.

The Homeopathic proving was conducted in 1954 by Leeser and Schrenk at the Robert Bosch Hospital in Stuttgart. The proving was carried out on twenty-four doctors, using the 1x and 3x potencies, for a period of fourteen to twenty-eight days. W. Lee Templeton also conducted a proving at the Faculty of Homeopathy in London in 1954-55 on six provers, using the following potencies: 3x, 6x, 12c, 30c, depending on the subject and for a period of six months.

Beja of Orłans began a self-proving in July-August 1956 using the 3x potency, for one month, at the rate of 10 drops four times a day. Finally, Julian undertook detailed clinical studies to determine the range of action of Rauwolfia in a homeopathic potency.

Homeopathic

Rauw. has a general and cerebral hypotonia. Lack of tone in the nerves and circulatory system. Rapid, widespread trembling. Congestive vascular condition. Libido disorders. Dripping after urination. Insomnia after midnight. Chronic allergic condition progressing to cancer.

Dystonia of the nerves and circulatory system. Pallor, alternating with redness and hot flushes. Heaviness in the legs.

General stiffness. Chronic allergic and neurotic conditions with development of arthrosis or depression.

Clinical

Addison's disease. Angina pectoris. Basedow's disease. Colitis. Dystonia. Hypotension. Pancreatitis. Parkinson's disease. Thyroid disorders. Vasomotor complaints.

PAGE 1419

Constitutions

The types are often carbo-phosphoric with nervous or sanguine temperament. **Planets:** Moon, Sun.

Modalities

Better in the open air, fresh air. Better from violent exercise. Better from the emission of gas or stools. Better from prolonged movement and strong pressure. Worse from heat in confined air. Worse after meals. Worse from 6 p.m. to 8 p.m. Worse on waking.

Symptoms

MIND

Diminution of the memory and powers of concentration. Uneasiness with irritability and apprehension. Alternating excitability and depression. Phases of increased ability to work and well being, alternating with phases of fatigue and exhaustion.

Face expressionless and he avoids any effort. Neurosis from anguish. Maniacal depressive psychosis. Psychosis in elderly people. Psychological complaints during the menopause. Melancholic conditions. Hyper-emotiveness. Unstable personality.

Abdomen

Abdominal plethora and dropsy. Feeling of gastric and abdominal repletion.

Heart burn, nausea, malodorous flatulence. Aerophagy, air in the colon. Colitis from fermentation, enterocolitis. Chronic pancreatitis.

Blood

Circulatory dystonia. Hypotension, faintness. Temporary rise and then fall in arterial tension. Vasomotor complaints. Vascular or febrile congestion.

Chest

Angina pectoris.

Face

Congestion of the face and possible nosebleed. Neuralgia of the upper maxilla, ameliorated by heat. Numbness sensation in the right half of the face, followed by shooting pains.

Female

Heaviness in the small pelvis with frequent need to urinate. Menses too early, accompanied by cramping pains. Amenorrhea. Frigidity. Fibroma. Menopausal complaints. Endometriosis. Too frequent menses.

Head

Congestive headache with arterial palpitations in the temples and forehead. Frontal headache, spreading towards the occiput, ameliorated in fresh air, accompanied by hot flushes, dizziness.

Heart

Palpitations, prickling and irregular heart beat. Palpitations and irregularity of the heart when lying down, ameliorated by standing and by walking. Hypotonia with diarrhea. Constriction, angina pectoris and rhythmic anomalies. Bradycardia, aortitis. Aortic aneurysm. Cardio-renal edema.

Kidneys

At the end of urination, a little urine is passed, drop by drop. Urine reddish-brown. Difficulty in urinating with need to squeeze to push. Dysuria. Cystitis. Bedwetting from compression (fibromas, prostate).

Limbs

General stiffness and pain in all the limbs. Legs heavy, black and blue, as if shattered. Joint pains in the left hip and big toes, which are hot and swollen. Soft edema, puckered, located in the malleolar region, at times connected to a generalized edematous infiltration including the upper limbs and the face. Gout. Chronic rheumatism. Arthrosis of the knee. Painful flat feet in adolescents.

Liver

Cirrhosis of the liver. Pigmentary cirrhosis or glandular pigmentation or hypertrophic pigmentary cirrhosis in sugar diabetes. Biliary sycosis.

Lungs

Dyspnea from exertion with lack of air. Tracheal bronchitis. Fitful cough. Fitful cough with expectoration of sticky, sometimes blood streaked, mucus.

Male

Clear diminution in libido, sometimes with a temporary phase of excitement. Impotence. Loss of libido. Sterility. Prostatitis.

Mouth

Excessive salivation. Impression of a rotten taste in the mouth.

Nose

Dryness of the nasal mucous membranes. Nosebleed with ulcerations on the nasal wall. Sinusitis. Spasmodic rhinitis.

Rectum

Hemorrhoids. Anal fissure. Congestive hemorrhoids, bleeding at times. Morning attacks of colic with evil-smelling black diarrhea-type stools. Sudden urging, followed by pallor of the face with sweating, thirst and faintness.

PAGE 1420

Skin

Clammy, odorous sweating from the axilla, hands and feet. Lymphaedema. Elephantiasis-type edematous dystrophy. Dysidrosis. Sweating. Fissures. Cracks. Ulceration of the heel.

Sleep

Insomnia. Slow in going to sleep and stays awake for hours after midnight. Erotic dreams.

Stomach

Excessive hydrochloric gastritis. Alcoholic gastritis.

Temperature

Sensation of heat on the whole body with or without sweating and accompanied by congestive headache and general uneasiness.

Throat

Dryness of mucous membranes of the nose and throat. Tickling in the throat with need to cough, aggravated by lying down. Laryngitis.

Vertigo

Vertigo and precordial heaviness, cramping pains spreading towards the neck, discomforts, tendency to faintness with sticky sweating from the hands and feet.

Amelioration from movement in the open air.

Compare

(1) Lach. - Circulatory dystonia with localized congestion, amelioration by discharges, occurring predominantly on the left side.

(2) Phos. - Agitation with uneasiness, worse at dusk, vertigo on waking, burning sensation at the hands and between the shoulders.

(3) Ars. - Anxious, especially between 1 a.m. and 3 a.m. , edema of the lower eyelids, thirst for small quantities of iced water, diarrhea with vomiting, physical and mental agitation.

(4) Nux-v. - Nervous irritability. Sleepy after meals, ameliorated by a short nap. Heaviness in the stomach, constipation and hemorrhoids.

(5) Aur. - Congestions, disgust for life, obsession with suicide, palpitations. Pains in the bones and right testicle, worse at night and from contact.

SOURCES

Julian.

Aesculus carnea

Red chestnut

(bach flower remedy)

Pharmacy

Red Chestnut. Aesculus carnea. The flowering clusters are boiled for half an hour. The boiled water is strained and used as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

The remedy Red Chestnut belongs to Bach's group For Those who Have Fear, together with the remedies of Rock Rose, Mimulus, Cherry Plum and Aspen. **Planets:** Moon.

Homeopathic

Red Chestnut treats fear for the welfare of others. Physical nervousness and anxious weakness can be extreme, with tightening in the stomach and abdominal region from fear. This internal tightening is a psychosomatic attempt to hold on to the other and give protection from dangers.

Symptoms

MIND

In the Red Chestnut state, the mind reaches out to a loved one, who is usually not within one's reach or within one's power to be helped. One worries fearfully about the other's welfare. The idea that someone loved and cherished whom one enjoys caring for is out of reach, unassisted and threatened. One wants to help yet cannot and the nervous energy finds no outlet, simply "eating" away at one's reserves.

Usually, grief and worry surround the Red Chestnut state, the trauma of grief may account for the sense of danger, the loss of safe vicinity and togetherness may explain the fears for life and limb, any separation resembling death. Feelings of helplessness and self-blame for inability to assist may further weaken emotional stability.

SOURCES

Bach.

PAGE 1421

Rescue (Bach fl.)

(bach flower remedy)

Pharmacy

Rescue Remedy. Rescue Remedy is made up of a combination of five Flower Remedies. Add two drops from stock bottles of each of the five remedies listed below to a one ounce (30 cc) bottle filled with brandy or alcohol, cork well and label Rescue Remedy.

Historical dose: Add three drops of the Rescue Remedy to a glass of water. The patient should sip this frequently and as he or she grows calmer, at intervals of fifteen minutes, and then every half hour according to the progress made.

Herbal

Bach also discovered this unique combination of five remedies which aim at restoring balance and calm to a person in acute emergency situations.

Rescue remedy is of great value immediately after accidents or similar moments of shock and panic when there is faintness, trembling, or other failing of normal physical functioning.

This combination of remedies can prevent or give a peaceful death if given at the right moment. Rescue remedy should be the first medicine administered on arrival at the accident. Here are the contributions of the five remedies that together give a unique synergistic effect:

Star of Bethlehem - to reduce shock, trauma, sadness and prevent the trauma's possible long-lasting effects on mind, emotions and body from imprinting. Rock Rose - to counteract terror and panic. Impatiens - to counteract inner turmoil, tension and impatience.

Cherry Plum - for desperation, to balance intense tension and the fear that events and one's own life, including one's mental power, is out of control. Clematis - for that faraway, out-of-the-body state which precedes fainting or loss of consciousness. Clematis can reduce faintness or coma. **Planets:** Mars, Moon.

Homeopathic

Rescue Remedy can also be used as a daily remedy in chronic situations of intense nervousness and tension when the vital force needs to recharge and recuperate. After accidents, shocks, traumas, or during severe illness, mental or physical, the levels within the human being move apart and can be helped to integrate by the repeated intake of Rescue Remedy.

Rescue Remedy can be given before stressful events to help calm the person of anticipation and fear. Anxiety when preparing to go to the Dentist, Doctor, or surgery. For panic attacks and sudden fear. Shock from physical or emotional trauma. Speechless and trembling.

Symptoms

MIND

Rescue Remedy helps to bring balance, calm and synchronicity of functioning within the levels of the human being, these being the mind, emotions and body.

Reserpinum

Pharmacy

Reser. Reserpine. Alkaloid of Rauwolfia Serpentina. Historical dose: All potencies, 3x to 30c.

History

Reserpine is used for the preparation of the homeopathic potencies. It is one of the alkaloids of Rauwolfia Serpentina and was found commercially under the name of Serpasil Ciba.

The Homeopathic proving was carried out by Julian on a group of thirteen provers during the winter of 1964-65. The potencies used were: 3x, 5c, 7c, 9c, 15c and 30c.

Homeopathic

Reser. has a general excitability. Anxiety. Suicidal tendencies. Sleeping after meals. Sleepiness. Slowing down of the mind and body. General condition of weakness.

Habitual trembling. Muscular hypertonia and a total lack of movement. Intermittent stomach pains.

Hypotension. Bradycardia. Hard trophic edema. Allergies. Cancer. Vertigo. Asthenia, particularly accentuated between 3 p.m. and 4 p.m.

PAGE 1422

Clinical

Allergies. Cancer. Catalepsy. Hypotension. Migraines. Melancholy. Parkinson's disease. Constitutions

Allergic and psoric constitutions. Syphilitic, asthenic types with tendency to inhibition of nervous reactions. **Planets:** Moon, Sun.

Symptoms

MIND

Slowing down of the mind and body. Nervous depression. Melancholy. Difficulty in working. Lassitude and aversion to work in the evening. Very hyperactive and aggressive. Catalepsy. Melancholy. Premature senility. Feeling that the nerves are at skin level in the evening. Anxiety and suicidal tendencies.

Abdomen

Spasmodic attacks of pain in the colon.

Breasts

Excessive milk in the mother.

Eyes

Myosis.

Head

Headache on waking, better by breakfast and worse again at the end of the morning.

Heart

Hypotension. Bradycardia with vertigo occasionally. Tension instability. Permanently slow pulse.

Limbs

Fidgets in the legs.

Lungs

Laryngitis and tracheitis.

Mouth

Tongue covered with a yellowish coating. Excessive salivation.

Nose

Nasal obstruction. Congestive rhinitis. Nasal polyps.

Rectum

Hemorrhoids. Constipation followed by diarrhea. Jaundice. Diarrhea.

Skin

Dry, ligneous scabs. Hard, trophic edema. The hair is dull and damp. Lymphaedema.

Sleep

Sleeping after meals. Sleepiness.

Stomach

Acrid dyspepsia. Gastric and duodenal ulcer. Slight nausea. Gastric pain coming late after meals in painful bursts. Cancer of the stomach.

Temperature

Hypothermia, at 31°C, adynamic condition, hypertonia total indifference.

Throat

Pharyngitis. Throat sensitive.

Vertigo

Violent attack of vertigo with feeling of a black hole in front of the eyes and leaving an empty feeling for a few minutes, then return to former condition.

Compare

(1) Rauw.

(2) Aur. - Depressive suicidal condition.

(3) Lach. - Emotional instability.

(4) Ars. - Anguish and fear of dying.

(5) Nux-v. - Complaints of the nervous and digestive systems.

Julian.

Rhamnus californica

(california coffee-tree)

Pharmacy

Rham-cal. California coffee tree. *Rhamnus californica*. Historical dose: Tincture and all potencies, tincture in 15-drop doses, every four hours.

History

Proving done on students in 2x potency. One of the most positive remedies for rheumatism and muscular pains. **Planets:** Saturn, Mars.

Homeopathic

Rhamnus californica has rumbling, griping and cutting pains in ileocecal region. Bladder tenesmus. Dysmenorrhea of muscle origin, pain in head, neck and face. Pleurodynia, lumbago, gastralgia. Inflammatory rheumatism, joints swollen, painful, tendency to metastasis, profuse sweat. Rheumatic heart.

Clinical

Heart disorders. Lumbago. Muscular pains. Pleurodynia. Rheumatism.

Modalities

Worse in evening.

Symptoms

MIND

Nervous, restless, irritable. Lassitude, mentally dull and dazed, unable to concentrate mind on studies.

Chest

Sub-sternal oppression. Tenderness on pressure of right intercostal muscles.

Ears

Dullness of hearing. Soreness, deep under right tragus on swallowing.

Face

Flushed, hot and glowing. Outward pressure from malar processes.

Head

Dizzy full feeling. Heavy bruised sensation, better from pressure. Bursting feeling with every step. Soreness, especially in occiput and vertex, worse bending over. Dull pain in left temple. Dull aching in frontal region (left), extending backwards and over forehead. Deep, right-sided frontal headache. Twitching eyelids.

Heart

Variation of pulse. Slow pulse.

PAGE 1423

Kidneys

Increased urination. Tickling in anterior urethra, small morning drop (no previous gonorrhoea). Sexual desire increased.

Limbs

Unable to control muscular action. Legs sore. Walked like a drunken man.

Mouth

Canker sore between gums and lips. Tongue coated with clean, pink, central patch.

Rectum

Constipation with some flatus. Tenesmus and dry stool. Flatulent diarrhea.

Throat

Dry, rough. Soreness on right side and tonsil.

Compare

(1) Rham-cath. or Rham-f., European Buckthorn - a rheumatic remedy, abdominal symptoms, colic, diarrhea, hemorrhoids, especially chronic.

(2) Rhamnus purshiana.

(3) Cascara sagrada - palliative in constipation, as an intestinal tonic and dyspepsia dependent thereon. 10-15 drops of tincture.

SOURCES

Boericke. Clarke.

Rhamnus cathartica

(buckthorn)

Pharmacy

Rham-cath. Rhamnus cathartica. Buckthorn. N. O. Rhamnaceae. Tincture of fluid extract of ripe berries. Historical dose: Tincture and all potencies.

Herbal

The common Buckthorn produces black, shiny, four-sided berries with an acrid taste. From these a syrup is made and forms the Rhamni succus of the old school. The Schema is made up of symptoms observed in a boy poisoned by eating the berries. **Planets:**

Moon.

Homeopathic

Rhamnus cathartica produces copious watery stools and occasions a good deal of nausea and severe vomiting. It was formerly given in dropsy, but owing to the severity of the drug is now little used' (Milne). Homeopaths have found Rham-cath. in doses of a few drops a useful palliative in cases of constipation. The ileo-cecal symptoms seem to indicate it as a possible remedy in cases of appendicitis.

Clinical

Appendicitis. Canker sores. Colic. Constipation. Diarrhea. Tympanites. Typhlitis.
Symptoms

Abdomen

Violent rumbling and griping, especially cutting pains in ileocecal region and in transverse colon. Colic. Abdomen hard, tympanitis.

Eyes

Eyes glistening and injected.

Face

Trembling of lips. Commencing trismus.

Food

Complete loss of appetite.

Head

Unable to rise, seemed to desire to press his head against the wall.

Kidneys

Urine highly colored.

Limbs

Weakness and prostration in all limbs.

Lungs

Respiration short, anxious.

Mouth

Coated tongue. Extremely bitter taste.

Pulse

Pulse variable.

Rectum

Diarrhea. Liquid stools.

Temperature

Violent chilliness. Skin at one time warm, at another cold.

Throat

Scraping in throat.

Rhamnus frangula

(alder buckthorn)

Pharmacy

Rham-f. Rhamnus frangula. Alder Buckthorn. N. O. Rhamnaceae. Tincture and trituration of the bark gathered in spring from the younger branches. Tincture of bark of root. Tincture of ripe berries. Historical dose: Tincture and all potencies.

History

All parts of Rhamnus frangula appear to produce irritant and cathartic properties. The majority of the symptoms were the result of the root bark, but the leaves were no less active. **Planets:** Moon.

Homeopathic

There was more vomiting with Rhamnus frangula than with Rham-cath. and the former was abandoned as a cathartic because it so frequently produced vomiting instead.

PAGE 1424

Burning in urethra while urinating and frequent urination may prove an indication in gonorrhoea.

Stools of a dark-green color were observed, copious, thin or pasty. With the stools there was much rumbling in the ileo-cecal region and along the transverse colon with weakness after stool.

Clinical

Anus, itching. Appendicitis. Ardor urine. Cecum, gurgling. Diarrhea. Flatulence. Urethritis. Vomiting.

Rheum palmatum

(turkey rhubarb)

Pharmacy

Rheum. Rheum palmatum. Rheum officinale. Turkey Rhubarb. Rhabarbarum. N. O. Polygonaceae. Tincture and trituration of the dried root. A tincture of the fresh leaves and young stalks should be investigated. Historical dose: Tincture and all potencies, third to sixth potency.

Herbal

Rhubarb though called "Turkey-rhubarb," the root comes from China, the exact species yielding it not being certainly known. Hahnemann's proving of Rheum has confirmed many of its traditional uses. In the form of Compound Rhubarb Powder along with Magnesia and Ginger, most of us can remember it as one of the terrors of the nursery. Milne well summarizes its action from the traditional point of view: "Tonic, cathartic and a feeble astringent, the latter property being overborne by the cathartic and only coming into play afterwards" i.e. , the constipation which follows Rhubarb purgation.

"In small doses, it improves digestion and appetite and renders the kidney secretions more healthy. In larger doses it is an excellent cathartic, acting on the whole bowel and especially the duodenum and increasing the peristaltic action.

Homeopathic

Rheum is a remedy for nursing infants and children especially during dentition and suited to pregnant and nursing women. It affects liver, duodenum, bile ducts and intestines. Frequent use in children with sour diarrhea, difficult dentition.

The whole child smells sour, washing does not remove it. Colicky children who are always screaming and crying. Sour, taste, vomits, stools, sweat etc. Difficult dentition. Requires very little sleep and not much food. Sensation of crepitation.

Clinical

Ardor urine. Breath offensive. Constipation. Deafness. Dentition, difficult. Diarrhea. Duodenum, catarrh. Dysentery. Ears, thickening. Esophagus, constriction. Headache. Jaundice. Kidneys disorders. Meniere's disease. Milk, abnormal. Mouth, mucus. Nipples, pain. Nose, pain. Nursing disorders. Rheumatism. Salivation. Screaming, children. Snoring. Stomach, disordered. Sour smell. Taste, bad. Tongue, numbness. Urination, difficult. Urine, red.

Causations

Eating prunes. Eating unripe fruit. Dentition. Spasms. Dislocations.

Constitutions

In its homeopathic form it is a great remedy for nursing children, especially during dentition to whom as well as to pregnant and nursing women it is particularly suited.

Planets: Moon.

Modalities

Better from warmth, wrapping up, lying bent. Better lying doubled up, takes the queerest positions in order to rest awhile. Worse uncovering after eating, moving about. Worse dentition, eating, plums, summer, worse in nursing women. Worse motion, before after and during stools. Worse night and morning after sleep.

Symptoms

MIND

Impatient and vehement, desires many things and cries, (Cina). Child dislikes even its favorite things. Impetuous desire for particular objects. Restless with weeping.

Abdomen

Colicky pain about navel. Colic when uncovering. Wind seems to rise up to chest.

Colic with screaming, better doubling up, worse uncovering any part, then diarrhea.

PAGE 1425

Back

Stiffness in sacrum and hips, cannot walk straight. Cutting pain in lumbar region worse after stools.

Chest

Lancinations in chest. Rush of blood to chest. Crackling bubbling (even audible) in right then left pectoral muscles.

Ears

Otalgia with itching in ear. Pressure and throbbing in ears. Dullness of hearing.

Eyes

Weak when looking steadily at any object. Convulsive twitching of eyelids.

Face

Cool sweat on face, especially about mouth and nose, on upper lip. Forehead wrinkled.
Twitching.

Female

Urinary complaints after abortion. Milk in nursing women yellow and bitter infant refuses breast. Diarrhea after childbirth.

Food

Desire for various things, but cannot eat them. Loathing after first bite. Plums and prunes disagree. Requires little food.

Head

Sweat on hairy scalp, hair, wet, sopping.

Kidneys

Burning in bladder and kidney, before and during urination. Unsuccessful urging to urinate, before stool.

Limbs

Limb on which he lies falls asleep. Twitching in arms, hands and fingers. Bubbling sensation in elbow joint from bend of knee to heels. Lameness of wrist and knee after sprains and dislocations.

Liver

Jaundice from eating unripe fruits with white diarrhea.

Lungs

Snoring inspiration during sleep. The cough is dry in evening with expectoration of mucus.

Mouth

Salivation with colic or diarrhea. Breath smells sour. (Cham.) Food tastes bitter even sweet things. Teeth feel cold. Difficult teething, restless and irritable. Offensive mucous in the mouth after sleep.

Nose

Stupefying drawing from root of nose to tip, where it tingles. Sensation of heat in nose.

Rectum

Before stool, unsuccessful urging to urinate. Stools smell sour, pasty with shivering and tenesmus and burning in anus. Sour diarrhea during dentition. Colicky, even ineffectual urging to evacuate altered fecal stools. Stools, pappy, sour, brown, green, fermented, slimy or acrid, worse eating unripe fruit, worse in the evening. Shivering with stools. Diarrhea only when walking. White diarrhea from eating unripe fruits with jaundice.

Sensations

Tendency to frown. Sensation as if brain moved when standing. Heaviness as on waking from a heavy sleep. Coldness in teeth. Blunt feeling in teeth. Constriction of stomach of gullet. Crackling, crepitation or bubbling in muscles and any part of body. Tongue numb, numbness of part of limb lain on.

Skin

Sweat stains yellow. Pemphigus on face, scalp and hands, face, lips and tongue swollen, face livid. Itching rash on forehead and arms.

Sleep

Restless with whining and crying. Twitching of face and fingers. Requires very little sleep and not much food.

Stomach

Throbbing in pit. Nausea, as if proceeding from stomach with colic. Fullness in stomach with pressure, as if overloaded. Contractions in stomach. Shootings and throbbings in pit of stomach.

Temperature

Sweat on scalp, about mouth, nose, upper lip.

Throat

Contraction of gullet.

Comments

The grand keynote of Rheum is sourness: The stools are sour, the taste is sour, the whole body has a sour smell. No amount of washing will wash the sourness out of a characteristic Rheum baby. Such a condition may occur in nursing children or at the period of dentition and it may be associated with another characteristic Rheum symptom, night-screaming and yet another, sopping-wet hair.

The Rheum child is as acid in temper as he is in body:

PAGE 1426

Peevish, impatient, screams for things, dislikes even his favorite playthings. "Screaming of children with urging and sour stools" is characteristic. With a few drops of Rheum Clarke has relieved severe constipation in an acid child who was intolerant of almost all remedies in the potencies. But Rheum is by no means exclusively a children's remedy. Its symptoms are good for any period of life.

The stomach disorders calling for Rheum are characterized by: Sour, flat, slimy taste or insipid or nauseous. Food tastes bitter, even sweet things. The mouth is covered with offensive mucus after sleeping and after sleeping there is bad taste and offensive breath. There is hunger for various kinds of food and the first few mouthfuls nauseate. The effects of eating plums or unripe fruit.

There is nausea in abdomen. Colic is severe, compelling one to bend double, worse standing, worse just before stool, not better after, worse at once by uncovering an arm or leg. The evacuations are accompanied by shivering and followed by renewed urging. "Shivering with stool" should draw attention to Rheum.

Cases of Cooper: (a) A lady suffering from characteristic symptoms of Meniere's disease, feeling of things spinning round with extreme giddiness and noises in the head, was cured by a chemist giving her 10 grains of powdered rhubarb, on the idea it was due to the liver. Before this great suffering had been endured without any relief.

(b) In vertiginous symptoms due to brain exhaustion with flushings followed by perspiration and awful muffled and discordant tinnitus, great relief followed the sniffing of 3x trituration. of Rheum palatum.

Symptoms are mostly left-sided or go from above down or from right to left. Localities are: Left loin, brain, upper part of body (sweat).

"Rheum has the property of setting up pains in old disease, in the old cellulitis and old psoriasis patches.

Hot burning pains therein as well as in the unaffected veins of the thighs and other parts. Its good effect in old middle and internal ear thickenings seems due to the creation of tissue-activity in dormant structures" (Cooper).

On the indication "Diarrhea only during active exercise," Hundall cured a horse of a diarrhea which only came on when he was at work.

Rhodium metallicum

(metallic element)

Pharmacy

Rhodi. Rhodium metallicum. Rhodium the metal, chemical element. Historical dose: All potencies.

History

Proved by MacFarlan with the 200c potency. **Planets:** Moon, Mercury.

Homeopathic

Nervous and tearful. Frontal headache, shocks through head. Fleeting neuralgic pains in head, over eyes in ear, both sides of nose, teeth. Loose cold in head. Lips dry. Nausea especially from sweets. Dull headache.

Stiff neck and rheumatic pain down left shoulder and arm. Itching in arms, palms and face. Loose stools with gripings in abdomen. Hyperactive peristalsis, tenesmus after stool. More urine passed. Cough scratchy, wheezy. Thick, yellow mucus from chest. Feels weak, dizzy and a tired feeling.

Clinical

Cough. Headache. Nausea. Rheumatism.

SOURCES

Rhodium oxydatum nitricum

Pharmacy

Rhodi-o-n. Rhodium oxydatum nitricum. Nitrate of the Oxide Rhodium. Rhodium Rh. Atomic wt. 103. Solution. Historical dose: All potencies.

PAGE 1427

History

The metal Rhodium is often found in association with Platinum. The preparation of it used by Hering was thus obtained: A small quantity of Rhodium sponge, hydrate of potash and nitre were exposed to the action of the blowpipe until oxidized.

After having the oxide well washed and boiled in nitric acid for a few minutes and exposed to a gentle heat for an hour, the nitrate was obtained from the oxide: a fluid of a golden color and of the consistency of syrup. Dilutions of this were made and the 4th was proved for Hering by Dr. Person, the 2nd and 3rd by Dr. Negendank. **Planets:** Moon, Mercury.

Homeopathic

The bowels were affected in both, constipation with hemorrhoids being relieved in one and constipation with itching of the anus being caused in the other. Some peculiar symptoms were: Headache on being waked up in the night.

Headache alternating with faintness. Faintness better by passage of stool. Heat preceding chill and alternating with it. Sensation as if teeth blunt, as if sand between them. A scraping or harsh noise causes disagreeable sensation in teeth. The hearing is more acute, illusion that he hears whispering.

Clinical

Anus, itching, burning. Constipation. Ears, pains. Hemorrhoids. Headache. Hearing, illusions. Impotence.

Rhododendron chrysanthum

(yellow snow rose)

Pharmacy

Rhod. *Rhododendron chrysanthum*. Siberian *Rhododendron*. Yellow Snow Rose. N. O. Ericaceae. Tincture of fresh leaves. Historical dose: Tincture and all potencies, first to 6 potency.

Herbal

This the golden flowered *Rhododendron* is not much known in general medicine, but the Treasury of Botany says of it that "it is narcotic in its properties and is used medicinally."

Growing among the fogs and storms of the Siberian mountains. *Rhododendron* dreads a storm and are particularly afraid of thunder, worse before the storm, disorders which come on in the spring and autumn, the seasons of change. This is the chief modality and will be found in some degree present in a large number of cases requiring *Rhod*.

Homeopathic

Rhododendron is a gouty rheumatic remedy, affecting the fibrous tissues, forearm, lower legs, small joints, bones, genitals, nerves, single parts. Sensitive to windy or stormy wet weather, even if he is in the house, nervous persons who are afraid of thunder. Rheumatic and gouty symptoms well marked. Rheumatism in the hot season.

The modality worse before a storm is a true guiding symptom. Great weakness after slight exertion. Formication with sweat. Chorea before storm. Symptoms alternate. Undulating sensation. Tearing, zigzag, boring, rapidly changing, descending, paralytic pains.

Clinical

Amenorrhoea. Arthritis. Asthenopia. Bone, pains. Bunions. Chorea. Ciliary neuralgia. Coryza. Delirium. Diarrhea. Diphtheria. Earache. Eye disorders. Fever. Flatulence incarcerated. Gums, itching. Hydrocele. Lienteria. Lumbago. Memory, weak. Neuralgia. Nightmare. Nosebleeds. Ovary, cyst. Rheumatism. Spleen, pain. Sprains. Stiff-neck. Testes disorders. Tinnitus. Toothache. Vagina, cysts. Wrists, pains.

Causations

Stormy weather. Thunder. Sprains. Eating fruit. Getting wet. Catching cold.

Constitutions

It is suited to nervous persons who dread a storm and are particularly afraid of thunder.

Planets: Saturn, Moon.

Modalities

Better after the storm breaks, heat, warmth and eating. Better when sun shines, motion, wrapping head. Worse before a storm, rough weather.

Worse during windy, cold, damp, changing, or cloudy weather. Worse when the seasons of change. Worse night, towards morning, midsummer. Worse rest, wine, eating fruit.

Worse getting wet, catching cold.

PAGE 1428

Symptoms

MIND

Dread of a storm, particularly afraid of thunder. Fear of thunder in nervous persons. (Phos). Confused and stupid. Forgets what he is talking about, leaves out whole words while writing. Aversion to his business. Easily affected by wine.

Abdomen

Colic at navel. Pain from rectum to genitals. Flatus felt in back. Sickening pain in spleen on walking fast. Undulating sensation arising from.

Back

Stiffness of neck. Sacrum pains, worse sitting.

Chest

Violent pleuritic pains running downward in the left anterior chest. Breathless and speechless from violent pleuritic pains running down the anterior chest. Stitches in spleen from fast walking. Crampy pain under short ribs.

Ears

Difficult hearing with whizzing and ringing in ears. Hearing better in the morning, noises come on after patient has been up a few hours. Deafness, long after rising. Sensation as of a worm. Tinnitus with vertigo.

Eyes

Pain in eyes before a storm. Ciliary neuralgia involving orbit, eyeball and head, worse before storm. Heat in eyes when using them. Red hot needles darting from within out. Muscular asthenopia, darting pains through eyes from head, worse before a storm.

Face

Prosopalgia, violent jerking pain involving dental nerves from temple to lower jaw and chin, better warmth and eating.

Female

Suppressed menses. Fever with headache with each menstrual period. Serous cysts in vagina. Burning in uterine region after childbirth, alternating with pain in limbs, fingers spasmodically flexed.

Food

Dullness of taste. Food has no flavor. Augmented thirst. Gnawing, hungry sensation before a meal.

Speedy satiety with good appetite, followed by uneasiness.

Head

Headache, worse wine, wind, cold and wet weather. Headache, worse early in the morning better eating. Aching in temples. Throbbing in right head. Tearing pain in bones. Drawing, tearing under scalp. Hair stands up as if electrified.

Heart

Warm undulation at heart. **Heart**beat strong.

Kidneys

Frequent urging to urinate with drawing in the region of the bladder. Pain in the urethra as from subcutaneous ulceration. Urine, profuse, foul, greenish.

Limbs

Rheumatism of hot weather. Rheumatic tearing in all the limbs, especially right side, worse at rest and in stormy weather. Joints swollen. Drawing, tearing in periosteum of long bones. Pain in shoulders, arms, wrists, worse when at rest. Pains in bones in spots and reappear by change of weather. Bruised, sprained feeling in wrist. Hands feel warm in cold weather. Gouty inflammation of great toe joint. Cannot sleep unless legs are crossed. Lower legs, cold, skin wrinkled, feel as if asleep. As of a weight hanging to feet. Feet cold even in warm room, even in bed. Pain in Achilles tendon on stepping.

Lungs

Bruised, sprained feeling in chest. Breathless and speechless from violent pleuritic pains, running down anterior chest.

Male

Hydrocele of boys from birth. (Sil.) Drawing from spermatic cord into abdomen and thighs. Orchitis, glands feel crushed. Testicles, worse left, swollen, painful, drawn up. Induration and swelling of testes after gonorrhoea. Itching, wrinkled, sweaty, scrotum. Glans feels crushed.

Mouth

Toothache in damp weather and before a storm. Swollen gums. Stumps of teeth are loosened. Toothache, better eating and warmth. Toothache ceases suddenly, worse again in two or three hours.

PAGE 1429

Nose

Nostrils obstructed alternately with fluent coryza, better in open air. Nosebleed. Diminished smell. Fluent coryza.

Rectum

Diarrhoea worse fruits, does not weaken. Difficult evacuation, even of soft feces. Feces of consistence of pap. Mucous evacuations.

Sensations

Brain as if in a fog. Scalp as if bruised. As if a worm in ear. As if water rushing into ear. As if throat lined with mucus. As from tension under short ribs. Testicle as if violently contused or crushed. As if a fist pressed forcibly against stomach. As if blood ceased to circulate in arms. As if arms asleep. As if feet and legs asleep. As if heavy weights hanging to feet. As of subcutaneous ulceration. Undulating sensation arising from abdomen. Warm undulations in heart. Bruised pains. pains flying about. Crawling sensations.

Skin

Eruptions. Burning and tearing with erysipelas. Itching, burning and creeping.

Sleep

Cannot sleep unless legs are crossed. Awakes, as if called.

Stomach

Heavy pressure from cold drinks. Feels full after a little food. Green, bitter vomiting after drinking cold water.

Temperature

Formication and itching of skin with sweat.

Throat

Scraping in throat, sensation as if lined with mucus. Constriction and burning sensation in throat.

Vertigo

Tinnitus with vertigo. Vertigo, when lying in bed, better when moving about.

Comments

Rhod. disturbs all parts of the economy, producing delirium, fever, headache, neuralgias (earache toothache), rheumatism and inflammations, but the chief determining characteristic is that the symptoms come on or are worse on the approach of a storm during a storm or in wet weather. Sensitiveness to electric changes.

But Rhod. has other characteristics. Among these is loss of memory:

Words are omitted while writing, sudden disappearance of thought, forgets what he is talking about, has to think awhile before he can recall it. Vertigo and confusion, "brain feels as if surrounded by fog." The narcotic reputation of Rhod. is borne out in the provings, for it produced actual intoxication and also made the provers extraordinarily sensitive to the action of wine.

Vertigo occurs while lying in bed and is better by moving about. An intense degree of tinnitus aurium was caused by it and this, associated with the vertigo, gives Rhod. a place in Meniere's disease.

A peculiar symptom is: "Loud sounds re-echo long in ears." Like the other Ericaceae, Rhod. has a strong effect on the kidneys, producing increased urine with offensive smell, clear, brown red or of greenish tinge and, whatever color it may be of offensive smell. This offensive smell reappears in the axillary sweat. But the general sweat may be aromatic in odor and not unpleasant. "Formication with sweat" is characteristic.

Rhod. sets up diarrhea and also a paralytic condition of the rectum, so that an effort is required to expel a soft stool. Pains in rectum extend to genitals and the male generative organs experience the most intense action of the drug.

The scrotum shrinks, testes are retracted or else they swell (especially at night) and are the seat of a bruised pain, as if they had been crushed violently. These pains are worse by touch, worse sitting, better moving about. They may be so violent as to arrest breathing.

The menses are too early and too profuse, the menses are always accompanied by fever and headache. Menses reappear soon after they have ceased. In one prover Rhod. restored the menses after six months' absence.

It has cured cysts in the vagina and has caused the rupture of an ovarian cyst.

Chorea of left leg, arm and face, worse on approach of a storm, has been cured by it.

PAGE 1430

The paralyzing effect of Rhod. was exemplified by the poisoning of a flock of sheep from eating the leaves. A number of them died and the autopsy showed that cause of death was paralysis of the swallowing muscles.

Cooper cites a parallel case of death from post diphtheria paralysis affecting the throat muscles, occurring a few minutes after drinking tea. In both instances the fluid entered the trachea instead of the gullet and caused suffocation. Both sides are affected by Rhod.

Symptoms frequently alternate: left and right nostril, burning in uterus and pains in limbs, chilliness and heat. Pains go from within outward.

H. S. Budd relates the case of Mrs. X., 44, married ten years, three children. Neuralgia for three years. Attacks occur usually on Friday or Saturday and last until Monday or Tuesday, but are induced any time by high winds, damp weather or an approaching storm. Passi. only partly relieved, sometimes enabling patient to get sleep.

The pain was worse after hard work during any movement in very cold weather from hot applications. Intense soreness all over right half of head. cannot rest on pillow or endure even lightest hairpins when pain is worst. Worse at night.

Intensely nervous and hysterical at being touched, even by accident. During pain increased activity of kidneys, ceasing when pain ceases. Pain greatest in right lower jaw. Sometimes better for an hour by chewing gum or eating. Afraid of thunder. Omits words when writing.

Rhod. 16x every hour was given on May 12. Each dose caused immediate worse. Next morning pains stopped suddenly and did not return. On June 7th there was a premonitory twinge and a powder of Rhod. 1,000c was given after which there was complete immunity.

E. V. Moffat treated a girl, 10, for neuralgia, which had existed for several years.

The patient was of marked gouty heredity and had been treated by leading old-school doctors in New York. She was well during the summer, but suffered intensely during winter. Pains general and shifting, sometimes intercostal, sometimes sciatic in bad weather never absent. The last form was prostrating headache incapacitating her for school work.

The eyes were normal. While the sun shone she was comfortable. If it stormed or threatened she was miserable. If she had a headache on a stormy day and the sun came out in ten minutes she was relieved and it returned at once if snow or rain came on. A cold day, especially if damp, was almost as bad as a storm.

Rhod. in repeated and increasing doses, cured in three weeks. Color, spirits, strength returned and she no longer minded the weather or missed her school.

One pupil dilated, the other contracted. There is a splenic stitch on walking fast. The incarcerated flatus is felt in the hypochondria and small of the back. It is not at all unusual to meet this symptom, "Flatus felt in the back," in cases of flatulent indigestion.

Increased warmth of hands even in cold weather is another peculiar symptoms.

Rhus aromatica

(fragrant stomach)

Pharmacy

Rhus-a. Rhus aromatica. Fragrant sumach. Rhus canadensis. Betula triphylla. Lobadium aromaticum. Turpinia glabra. N. O. Anacardiaceae. Tincture of fresh root bark. Historical dose: Tincture and all potencies.

History

J. T. McClanahan's account of Rhus-a.: "It is a shrub, growing from two to six feet high, on high, rocky soil, stems straight, branching near the top.

PAGE 1431

The flowers are yellow, fruit clustered, red, seedy and acid. When the bush is fractured it emits a strong odor. The bark of the root is the proper medicinal part."

McClanahan mentions hemorrhage from kidneys, bladder and uterus, menorrhagia and other discharges accompanied by a relaxed condition of the uterus as indicating the remedy, also atonic conditions generally. These experiences have been confirmed by others.

J. A. McKay relates the case of Mrs. S., 45, who had severe, profuse uterine hemorrhage for eight days, which three old-school doctors failed to arrest. The condition was becoming desperate, large clots passing away and the patient fainting from the loss.

Rhus-a. tincture 10 drops, every six hours, was given. The first dose checked the flow, which ceased entirely after the second. **Planets:** Venus, Moon.

Homeopathic

Rhus-a. has kidney and urinary disorders. Diabetes, large quantities of urine of low specific gravity. (Ph-ac., Acet-ac.). Bedwetting due to bladder atony, senile incontinence.

Hematuria and cystitis come within the range of this remedy. The urine is pale, albuminous. Incontinence of urine. Severe pain at beginning or before urination, causing great agony in children. Constant dribbling.

Clinical

Atony. Bedwetting. Bladder, hemorrhage. Cystitis. Diabetes. Diarrhea. Dysentery. Hematuria. Hemorrhages. Kidneys, hemorrhage. Uterus, hemorrhage, atony.

Comments

McClanahan's grandfather, Dr. John Gray, used Rhus-a. as a remedy in diabetes and his father, Dr. F. McClanahan in other genito-urinary diseases. J. T. McClanahan records these cases:

(1) Mr. A., 27, cadaverous, emaciated, haggard, had diabetes insipidus. Rhus-a., teaspoonful doses of the powdered root bark in sweet milk, three times a day, completely cured in four months.

(2) Mrs. B., 37, had diabetes mellitus. First noticed increase of urine ten months before, became so weak she had to abandon house-work. Pain in back, thirst, appetite, now ravenous, now deficient. Skin sallow, doughy.

Cough and night-sweats occasionally. Diarrhea at times. Rhus-a., half-teaspoonful doses every four hours. Quantity of urine diminished next day and as this diminution progressed the doses of Rhus-a. were given at increasing intervals and in three months it was discontinued. Proper diet having been observed in the meantime.

(3) Mr. C. had incontinence of urine more than a year, constant dribbling. Rhus-a. tincture 10 drops, three times a day, improved at once and cured completely in eight weeks. (4) Girl had bedwetting during day and night for two years. Rhus-a. tincture, one part to glycerine three parts, a teaspoonful three times a day, cured.

(5) Boy, early in summer had diarrhea, stools pale and thin, running from him like water, no particular pain or fever. Pale, emaciated, limbs trembling, scarcely able to stand. Abdomen flabby. Rhus-a. tincture 3 drops. in water after each stool, cured rapidly.

(6) A laborer had "chronic dysentery" two months. On the average five stools a day, sometimes copious and painless, sometimes scanty and with pain. Stools consisted largely of blood and mucus or clear blood. Patient thin, anxious, bowels (abdomen) flabby. Skin sallow. Rhus-a. tincture in ten-drop doses with boiled milk diet, cured.

Boericke. Clarke.

Rhus diversiloba

(california poison oak)

Pharmacy

Rhus-d. Rhus diversiloba. California Poison Oak. N. O. Anacardiaceae. Tincture of fresh leaves. Historical dose: All potencies.

PAGE 1432

History

Rhus diversiloba is an antidote to Rhus-t., violent skin symptoms with frightful itching, much swelling of face, hands and genitals, eczema and erysipelas, great nervous weakness. **Planets:** Mars.

Homeopathic

Rhus diversiloba affects the skin with frightful itching, much swelling of face, hands and genitals. The skin is very sensitive with eczema and erysipelas. Tired from least effort, goes to sleep from sheer exhaustion.

Clinical

Chicken pox. Eczema. Erysipelas. Skin, sensitive.

Causations

Ailments from overexertion, lifting, physical labor. Strains. Sprains.

Comments

Murray Moore observed the effect of Rhus-d. on three persons: (1) Miss M., 25 of brown hair and fair complexion, walked up a hill one warm morning and while perspiring gathered ferns which grew among the Rhus-d. trees, the leaves of which she must have touched, though she did not pull any. The result was a very severe poisoning.

(2) J. W., light-haired, robust Englishman, 23, lay down while sweating among the bushes and was smartly poisoned. Ver-v. tincture internally and a lotion of Magnesia sulph. externally checked the spread of the disease. (3) Boy, 10, pure blond type with thin, freckled skin, plucked some of the leaves and in eighteen hours the poisoning symptoms came on, facial erysipelas with extreme edema, closing both eyes, itching and burning. The symptoms became general.

M. Moore relates also the case of a man who was poisoned in California in September and returned to the Eastern States and there has an annual eruption for six successive years.

During the seventh attack he was carried off with pneumonia, which Moore thinks would not have been the case but for the Rhus-d. complication.

Rhus glabra

(smooth sumach)

Pharmacy

Rhus-g. Rhus glabra. Smooth sumach. Rhus Carolinas. Rhus elegans. Rhus virginica. Pennsylvania Sumac. N. O. Anacardiaceae. Upland Sumac. Rocky or barren soils in North America. New Jersey. Tincture of fresh bark of root of berries. Historical dose: Tincture and all potencies, Tincture to first potency or higher.

History

Rhus trypanosomiasis, Rhus glabra and Rhus Coriaria have acid fruit and astringent bark, which is used in tanning. Rhus-g. is a deciduous shrub with stem 2 to 12 feet high and has terminal flowers and fruit clothed with acid crimson hairs like the other non-poisonous Rhus.

The tincture of the bark was proved by Dr. A. V. Marshall on himself with very substantial doses. The symptoms are his and they bear out the traditional uses of the remedy. One of these is, "profuse perspiration arising from debility" and Marshall had "profuse sweat during sleep" and such a degree of debility that he was obliged to leave off the proving.

Hale mentions that an infusion of the root has a popular repute in diarrhea and dysentery, especially when the discharges are fetid and that the berries are used for chronic cough, wheezing cough and laryngeal asthma.

A tincture made of the whole pannicle, "Sumac-bobs" cured a patient of his who had every spring an attack of laryngeal cough with Dyspnea and almost complete loss of voice.

Farmers place "bobs" in the mangers of hoes who have "heaves."

It is claimed that this remedy will so disinfect the bowels that the flatus and stools will be free from odor. It acts well in putrescence conditions with tendency to ulceration.

Planets: Moon.

PAGE 1433

Homeopathic

Rhus-g. has nosebleeds and occipital headaches. Ulceration of mouth. Dreams of flying through the air. (Stict.) Profuse perspiration arising from debility. (Chin.) Lost of weight. Fetid flatus. Exhaustion and painful fatigue compelled him to relinquish the proving. Used locally on soft, spongy gums, aphthae, pharyngitis, etc.

Clinical

Debility. Diarrhea. Dreams, annoying. Dysentery. Hemorrhages. Headache, Mouth ulcers. Nosebleed.

Modalities

Better by movement. Worse by touch, (abdomen, ulcers in mouth). Worse after sleep.

Symptoms

MIND

Distaste for society. Stupid, forgetful indifferent to surrounding objects.

Abdomen

Sharp cutting in umbilical region and abdomen. Umbilical region tender to pressure.

Back

Pain in small of back.

Food

Loss of appetite. Hunger at breakfast could eat but little though feeling as if he had fasted many days.

Head

Dull, heavy headache on waking, better by exercise. Dull heavy pain in front and top of head.

Kidneys

Scanty, high-colored urine.

Limbs

Aching and fatigue of lower limbs, can hardly stand.

Mouth

Scurvy, nursing sore mouth. (Veronica) Bleeding from mouth. Aphthous stomatitis. Several small, very sensitive ulcers on mucous membrane opposite the bicuspid. Tongue furred white. Taste flat, alkaline. Taste of drug remains long.

Nose

Bleeding from left nostril and mouth. Bloody scabs in left nostril. Left nostril hot and dry.

Rectum

Diarrhea in afternoon, worse towards evening. Dry, hard stool, later moist, then natural and again diarrhea.

Sleep

Sleep disturbed by annoying dreams, very restless. Dreams of flying through the air.

Stomach

Distress in stomach, disturbed, very restless. Pain in stomach much worse by all food or drink.

Temperature

Sense of coldness while there is actual increase of heat in the skin. Skin hot, dry with thirst. Sweat, profuse during sleep.

Throat

Expelled two clots of blood from throat soon after waking.

Comments

Cooper observed an aggravation in a case of psoriasis: the patient felt irritable and despondent and the skin became irritable. In the proving there were dull, heavy headaches, better by exercise. Hale says Rhus-g. has cured occipital headaches. There was aggravation of stomach symptoms by either food or drink.

Compare

(1) Rhus-t. Anac. and other Anacardiaceae, and the Xanthoxylaces, which are an allied order.

Relations

Said to be antidotal to the action of Mercury and has been employed in the treatment of secondary syphilis after mercury.

SOURCES

Boericke. Clarke.

Rhus toxicodendron

(poison oak)

Pharmacy

Rhus-t. Rhus toxicodendron. Poison oak. Rhus radicans. Tincture of fresh leaves gathered at sunset just before flowering time. Historical dose: All potencies, sixth to thirtieth potency. The 200c and higher antidote to poisoning from the plant.

History

The American provings were made with Rh-rad. and the majority of the poisonings have occurred from this plant. Though it is not certain that Hahnemann used Rhus-t. at all or exclusively, Jahr gave a separate presentation of the Rhus radicans symptoms. Under the name of Rhus, Hahnemann published his proving of "Rhus radicans, also called Toxicodendron."

Botanists agree in recognizing no distinction other than that of habit between the two. The milky juice, which turns black on exposure is used as a marking ink (like Anac.) and as an ingredient of varnishes for finishing boots.

PAGE 1434

Millspaugh in his book "American Medicinal Plants", tells in his masterly account of the plant that he has seen the two varieties springing from the same root-stock. He advises that the tincture should be made from specimens of both.

The Poison Ivy grows in thickets and low grounds in North America, flowering in June. It was introduced into England as a plant in 1640. In 1798 Dufresnoy of Valenciennes first used it as a medicine. It was brought to his notice by the cure of a young man of an herpetic eruption (darter) of six years duration, through his being accidentally poisoned with the plant. Dufresnoy used it successfully in eruptive diseases, paralysis, rheumatism and amaurosis.

A peculiarity of the plant is that it is more poisonous during the night and when bursting into leaf or at any time in June or July when the sun is not shining upon it. The absence of sunlight together with dampness, seems to favor the exhalation of Toxicodendric acid.

"An acrimonious vapor, combined with carburetted hydrogen, exhales from a growing plant of the Poison Oak during the night. It can be collected in a jar and is capable of inflaming and blistering the skin of persons of excitable constitution who plunge their arms into it"

The plant's signature will not fail to connect the cardinal aggravations of Rhus-t. at night and from damp with the increased virulence of the plant at night and in damp atmosphere. Contrasted with Bry., Rhus-t. has: "The more he moves the better he is," whereas Bry. has "The more he moves the worse he is." It is necessary to bear in mind this distinction or a wrong prescription will often be made.

Rhus-t. has not only worse during rest, but worse after resting also. However, Rhus-t. and Bry. complement each other. It is not unusual for the conditions of a case to change under one of these remedies and then the other will be required.

Hahnemann writes about: "these two antagonistic sister remedies" each in its place successfully met the typhus which prevailed in the countries desolated by the war which raged from the summer of 1813 and onwards. Of 183 cases treated by Hahnemann in Leipzig not one died.

Rhus radicans has almost identical action as Rhus-t. Characteristics are, burning in tongue, tip feels sore, pains are often one-sided and in various parts often remote and successive. Many symptoms are better after a storm has thoroughly set in, especially after an electric storm.

Rhus radicans has pronounced yearly aggravation. (Lach.) It has a headache in occiput even pain in nape of neck and from there pains draw over the head forwards.

Homeopathic

Rhus-t. affects fibrous tissue markedly, joints, tendons, sheaths, etc., producing pains and stiffness. This remedy is an irritating agent to the skin especially of face, scalp, genitals. The effects on the skin, rheumatic pains, mucous membrane disorders. It is an infection agent producing typhoid like fevers. Affections of nerves and spinal cord give rise to parietic effects. Stiffness of muscles and joints. Motion "limbers up" the Rhus-t. patient and hence he feels better for a time from a change of position.

Ailments from strains, overlifting, getting wet while perspiring. Post-operative complications. Tearing asunder pains. Septic conditions. Cellulitis and infections, carbuncles in early stages. (Echi.) Septicemia. Rheumatism in the cold season.

Glands are swollen, hot and painful indurated, suppurating. Symptoms appear on the left side or go from left to right.

Pains are tearing, shooting, stitching, worse at night, cannot rest in any position. Parts feel sore, bruised and stiff. Pains as if the flesh was torn loose from the bones. Dislocated sensation.

PAGE 1435

Muscles twitch. Crawling. Numbness of parts paralyzed. Trembling, turning, swelling and lividity. Mucous discharges are acrid, rusty red like meat water, musty, causing eruptions. Infections, septicemia, carbuncles in early stage. Cellulitis. Inflammation and swelling of the long bones, scraping, gnawing, tearing loose in periosteum.

Rheumatism in cold season. Post-operative complications. Hemiplegia, right sided, sensation as if gone to sleep. Infantile paralysis from exposure to cold damp. Influenza. Small-pox. Strictures after inflammation. Soreness of prominent projection of bones. Paralysis after unwonted exertion after childbirth. Boils, abscesses.

Nausea worse after eating. Craves cold water, which is vomited immediately. Sciatica is better by warmth from exercise. Inclination to stretch. Stretching causes cracking in knees, soreness in abdomen. Unwonted exercise causes paralysis. Over-exertion causes palpitation, worse coxalgia. Limbs lain on fall asleep, no sweat on them.

Clinical

Abortion. Acne rosacea. After-pains. Allergies. Amenorrhea. Ankle injuries. Anus, fissure. Appendicitis. Appetite, lost. Arthritis. Beriberi. Back injuries. Bones, pain. Cecum inflammation. Chilblains. Circulation, poor. Cyanosis. Dengue fever. Dermatitis. Diarrhea. Diphtheria. Dysentery. Dysmenorrhea. Dyspepsia. Ear, eczema. Ecthyma.

Enteric fever. Erysipelas. Erythema nodosum. Exostosis. **Eyes**, disorders. Fevers. Gastro-enteritis. Glandular disorders. Gout. Hemorrhages. Hemorrhoids. Hernia. Herpes. Herpes zoster. Housemaid's knee. Hydrocele. Influenza. Injuries. Intermittent fever. Joint injuries. Liver, abscess. Lumbago pain. Measles. Menorrhagia. Metrorrhagia. Muscular pains. Neuralgias. Ovary, tumor. Paralysis. Paraphimosis. Pemphigus. Periosteum, pains. Pleurisy. Pleurodynia. Pneumonia. Poison ivy, oak. Ptosis. Pyemia. Rashes. Relapsing fever. Rheumatism. Scarletina. Sciatica. Sleep, restless. Small-pox. Spine, diseases. Sprains. Strains. Strictures. Throat, sore. Tongue disorders. Typhus fever. Urticaria. Vesicles. Warts. Wens. Yawning.

Causations

Effects of drinking cold water, getting wet, especially after being heated, cold bathing, sea bathing. Slightest anger. Cold. From wetting head. Damp sheets. Bathing in fresh or salt water. Getting wet when heated. Strains. Over-exertion. Over-lifting. Raising arms high to lift things. Drinking ice-water. Beer (headache).

Constitutions

It is suited for the psoric or tubercular constitutions. Rheumatic constitutions. **Planets:** Mars, Saturn.

Modalities

Better from continued motion, heat, hot bath, if heated, warm wrapping, rubbing, warm applications, warm dry, weather. Better from nosebleed, holding affected part, abdomen, head, stretching limbs, change of position, walking. Worse from cold, wet rainy weather and after rain, at night. Worse exposure to wet, cold, air, draught. Worse being chilled, when hot or sweaty. Worse from beginning of motion, rest, before storms, sprains, prolonged sitting after exertion. Worse after midnight, blows, jar, riding, ice cold drinks, side lain on. Worse from uncovering, parts during sleep during rest, drenching, when lying on back or right side.

PAGE 1436

Symptoms

MIND

Anxious, sadness, helplessness and profound despondent. Extreme restlessness with continued change of position. Delirium with fear of being poisoned. (Hyos.) **MIND** and senses becomes cloudy. Low mild delirium incoherent talk, answers correctly but slowly or hastily or reluctantly.

Fears, worse at night, cannot lie in bed. Great apprehension at night, cannot remain in bed. Inclination to cry, worse in evening without knowing why with desire for solitude. Fear of being poisoned.

Satiety of life, thoughts of suicide. He wants to drown himself. Forgetful and cannot remember the most recent events. Confusion of mind. Anxiety, respecting one's children.

Abdomen

Colic, compelling to walk bent, better lying on abdomen. Ileo-cecal symptoms, appendicitis. Hourglass contraction. Mucous colitis. Violent pains, relieved by lying on abdomen. Swelling of inguinal glands. Pain in region of ascending colon. Colic, compelling to walk bent. Excessive distention after eating. Rumbling of flatus on first rising, but disappears with continued motion. Soreness. Feeling as of water swashing in or as of a lump in.

Back

Stiff neck with painful tension, when moving. Back strain or injury. Pains from overlifting or overuse. Pain between shoulders on swallowing. Pain and stiffness in small of back, better motion or lying on something hard, worse while sitting. Contractive or breaking backache better hard pressure, lying on something hard, walking about or bending backwards. Lumbago, Coccyx aches into thighs.

Chest

Axillary abscess after delivery. Pleurodynia, chest pains shoot into shoulders. Oppression of the chest, cannot get breath with sticking pains. Chest pains worse using arms. Tickling behind upper sternum, causing dry, hoarse, tearing tormenting cough.

Ears

Lobes swollen. Otagia. Pain in ear with a feeling as if something were inside. Discharge of bloody pus. Painful throbbing in ear at night. Swelling of ears. Discharge of bloody pus with deafness.

Eyes

Swollen, red, edematous orbital cellulitis. Edema of lids, suppurative iritis. Photophobia, profuse flow of yellow pus. Pustular inflammations.

Old injuries. Saccular conjunctiva. Corneal injection with intensive ulceration. Iritis after exposure to cold and dampness and of rheumatic origin. Eye painful on turning it or pressing. Acute retro-bulbar neuritis. Ptosis. Paralysis of the eyeball muscles. Profuse gush of hot, scalding tears upon opening lids. Eyelids, stiff agglutinated, dry, firmly closed.

Face

Swollen face, erysipelas. Cheek bones painful, sensitive to touch. Red spots on left cheek. Parotiditis (left) with fever. Facial neuralgia with chilliness, worse evening. Acne rosacea. Joints painful. Jaws crack when chewing. Easy dislocation of jaw. (Ign., Petr.) Crusta lactea. (Calc., Viol-t.) Lips, dry, brownish, cracked, at comers, crusty. Herpes on lips.

Female

Pelvic articulations stiff when beginning to move. Menses early, profuse and prolonged, acrid. Amenorrhoea from getting wet with milk in breast. Uterine infection, septic. Lochia thin, protracted offensive diminished. (Puls., Sec.) Lochia with shooting upwards in vagina. (Sep.) Prolapse uterus from lifting or overstraining. Frequent after pains. Violent pain in vulva during menses. Vagina sore. Swelling with intense itching of vulva.

Food

No appetite for any kind of food. Great thirst with dry mouth and throat. Craves cold drinks, though they aggravate cough, chill. Desire for milk. Desire, for sweets, oysters. Drowsy after eating.

Head

Headache in occiput (Rhus-t. Radium br.), painful to touch. Stupefying headache, must lie down, worse least chagrin. Head heavy. Pain in forehead and proceeds thence backward. Feels as if a board were strapped on the forehead. Heavy head. Brain feels loose and as if struck against skull on walking or rising. Scalp sensitive, worse on side lain on. Humid eruptions on scalp, itching greatly.

Heart

Hypertrophy from overexertion. **Heart** feels tired, pains go down left arm.

Palpitations, worse when sitting still, better from walking. Trembling and palpitations when sitting still. Left arm aches with heart disease.

PAGE 1437

Kidneys

Incontinence or urine worse lying, at night or sitting in boys. Dysuria with loss of blood. Nephritis. Urine, dark, turbid, high colored, scanty. Urine with white sediment. Frequent, profuse urination day and night.

Limbs

Hot, painful swelling of joints. Pains tearing in tendons, ligaments and tissues. Rheumatic pains spread over a large surface at nape of neck, loins and limbs, better motion. (Agar.) Soreness of condyles of bones. Limbs stiff, paralyzed. the cold fresh air is not tolerated, it makes the skin painful. Numbness and prickling in limbs after overwork and exposure. Paralysis, trembling after exertion. Arms nervous and shaky (left). Pain along ulnar nerve. Paralytic pains in elbows. Cracks on back of hands. Palms, dry, hot, cracked and sore, washing causes burning. Loss of power in forearm and fingers, crawling sensation in the tips of fingers. Tearing down thighs. Sciatica, worse cold, damp weather, at night. Legs feel dead, wooden. Involuntary limping. Tenderness about knee-joint. Cramps in calves. Tingling in feet. Ulcers, on legs, gangrenous, runs bloody water, on dropsical legs. Itching of legs and feet. Ankles swollen, stiff after sprain or injury. Paraplegia after childbirth, sexual excess, fevers. As if walking on needles.

Lungs

Tickling behind upper sternum. Dry, teasing cough from midnight until morning during a chill or when putting hands out of bed. Hemoptysis from overexertion or from blowing wind instruments, bright blood. Influenza with aching in all bones. (Eup-per.) Bronchial coughs in old people, worse on awaking and with expectoration of small plugs of mucus. Sudden hypostasis or edema of lungs. Rust colored sputum. Hot air from trachea.

Male

Swelling of glands and prepuce. Scrotum thick, swollen, edematous. Dark-red erysipelatous. Intense itching of genitals. Hydrocele from over lifting. Metastasis of mumps to testes.

Mouth

Corners of mouth ulcerated. Mouth filled herpes sores. Fever-blisters around mouth and chin. (Nat-m.) Gums sore. Tongue, red and cracked, coated, except red triangular space at

the tip, dry and red at edges. Tongue, coated diagonally or one side only. Feeling as if tongue covered with skin. Coppery or herby or bitter taste. Bitter taste. (Cupr.) Bread tastes bitter. Bloody saliva runs during sleep. Teeth feel loose and long. Sordes on teeth. Pain in maxillary joint.

Nose

Swelling of nose. Tip of nose red, sore, ulcerated, it drips water. Sneezing, with fluent coryza from getting wet. Nosebleed, worse at night, stooping, at stool in fevers which gives relief. Violent aching in bones of the nose. Breath hot, it burns nostrils.

Pulse

Pulse quick, weak, irregular intermittent with numbness of left arm.

Rectum

Diarrhea of blood, slime and reddish mucus. Dysentery with tearing pains down thighs. Stools, watery, frothy or bloody, cadaverous odor, meat water like, slimy, gelatinous. Stools involuntary during sleep at night or with tenesmus, worse drinking. Hemorrhoids, worse lifting. Painful tenesmus without stools. Frothy, painless stools. Will often abort a beginning suppurative process near the rectum.

Sensations

As if intoxicated. As if asleep. As of a weight behind right orbit. As of a band strapped across forehead. As if head were swelling out. Brain, as if loaded, as if torn, as if loose, as if fluctuating, as if a quantity of blood shot into it when stooping. As if hamstrings and tendons of limbs too short. Legs as if made of wood. As if walking on needles. Joints as if bruised. As if bones ached. As if sinking through bed. As if whole body was burning. As if cold water poured over him. As if blood ran cold through veins.

Skin

Poison ivy, oak. Red, swollen, itching intense. Dry, hot, burning, itching, worse hairy parts. Shingles. Vesicles, herpes, urticaria, pemphigus, erysipelas, vesicular suppurative forms. Glands swollen. Cellulitis. Burning eczematous eruptions with tendency to scale formation. Sensitive to cold air. Baker's itch. Eruptions, alternating with dysentery. Pus erodes the hair. Vesicles over abscess. Urticaria from getting wet with rheumatism or during chills and fever. Milk crusts.

PAGE 1438

Sleep

Sleepless before midnight. Yawning, frequent, violent, spasmodic without inclination to sleep with stretching. Restless tossing about. Dreams of great exertion. Dreams of blood or fire. Heavy sleep, as from stupor. Awakens, tired or stiff and sore.

Stomach

Nausea, vertigo and bloated abdomen after eating. Pressure as from a stone. (Bry., Ars.) Vomits from coughing, lying on back. Nausea, worse ice cream after eating. Drowsy after eating. Pain in stomach after ice water.

Temperature

Influenza fever, restless, stiff and sore. Typhoid fever tongue dry and brown, sordes, bowels loose, great restlessness. Intermittent fever, chill with dry cough and restlessness. During heat, urticaria. Hydroa. Easily chilled worse least uncovering with pain in limbs. Chilly, as if cold water were poured over him, followed by heat and inclination to stretch the limbs. Chill as if cold water in the veins, preceded by cough, alternating with heat.

Chill in single parts. Heat with busy delirium. Sweat, worse during pain with sleepiness. Urticaria during fever. Wants to yawn and stretch during chill.

Throat

Soreness, better warm drinks with swollen glands. Hoarseness from overstraining the voice. (Arn.) Sticking pain on swallowing. Red, puffy itching fauces. Tonsils covered with yellow membrane. Larynx cold when breathing. Difficult swallowing of solids as from contraction of saliva. Esophagitis from swallowing corrosive matter.

Vertigo

Nausea, vertigo and bloated abdomen after eating. Vertigo when rising. Vertigo in the aged, whirling, then headache.

Comments

One prover of Rhus-t. was not influenced by contact with the leaves when his skin was dry, but only when perspiring and the worst poisonings with Rhus divers. happened to persons when moist and heated.

Millspaugh relates instances of Rhus poisoning: Out of ten men employed to clear a piece of land of shrubs among which the Poison Vine predominated only four escaped: "Most of the men soon began to show signs of being tired and at the end of the fourth day six of them were flat on their backs to sick for anything."

Actual contact with the plant is not necessary in order to produce its effect. One sultry day in June a young lady drove a croquet ball across a lawn to a clump of Poison Ivy that grew beside it. Knowing her susceptibility she reached under the plant and drew out the ball without touching a leaf. During the evening of the same day her face began to itch and burn and in the night it swollen so that the eyes were not merely closed, the lashes even disappeared in the swelling. It took nearly two weeks for her to recover.

Millspaugh summarizes the effects of Rhus-t. (the majority of poisonings have been caused by Rhus Rad.) as follows: First redness and swelling of the affected part with intolerable itching and burning, flowed by vertigo, weariness and a sort of intoxication.

Infiltration of face and eyes and agglutination of the lids after sleep, great restlessness, pain, thirst and fever. The surface of the skin becomes after a time studded with confluent bullae where the cellular tissue is loose, then a dermatitis follows resembling erysipelas, this may spread rapidly and finally be communicated to the mucous membranes. This is followed by swelling of the mouth and throat, cough, nausea and vomiting.

Rheumatoid pains develop about the joints and a painful stiffness asserts itself in the lumbar region, while the legs and arms become numb.

PAGE 1439

Confusion of mind and delirium may then set in during which the patient may become so ill-humored, restless and anxious that he will jump out of bed.

Concomitants are: Inflammation of eyes, dilation of pupils, weak vision, sometimes diplopia, nosebleed, brown-coated tongue with triangular red tip, swelling of parotids, difficult swallowing, griping, diarrhea, profuse urination, oppression, rapid pulse, prostration, soreness of muscles, worse by exercise, Bleariness, chilliness followed by fever and copious sweat.

H. C. Allen notes in Rhus Rad. a periodicity which marks it as a great anti-psoric. It is, he says, on deeply psoric or tubercular constitutions that its toxic effects are most felt and longest lasting and these constitutional effects "seem incurable without the anti-psoric."

Guernsey considers Rhus Rad. deeper acting than Rhus-tox., being indicated in phlegmonous erysipelas, especially where it begins in ankles and moves gradually up the leg, moving in the deeper tissues, no fever and for axillary glands when the swelling is very deep and hard.

Farrington gives as distinctive indications for Rh-rad.: Occipital headache with rheumatic stiffness of nape. Drawing tearing pains in legs. Pleurodynia when the pains shoot into the shoulders.

Mahony reports a case of eczema on perineum and scrotum with sweat in cleft of buttocks, both relieved in a week with Rh-rad., 12c, twice daily.

Hahnemann quickly perceived the keynote of the Rhus-t. symptoms: "We observe," he says in his preface to the proving, "this curious action, the severest symptoms and sufferings are excited when the body or the limb is at rest and kept as much as possible without movement.

The opposite of this, namely, an increase of the symptoms by movement in much more rarely observed." He contrasts Rhus-t. with Bryonia, which has almost same rheumatic pains with opposite modalities.

Neidhard adds a note in Hempel's Fahr which brings out a modification of this "Worse by rest" which is of the greatest practical importance. Neidhard says that the disease in which he has made most use of Rhus-t. is a form of rheumatism common in North America and characterized by the following symptoms:

"Rigidity, paralytic weakness of the joints with stinging pain along the tendons and muscles. Swelling and redness on or near the joints. Rheumatism of the hip-joint and wrist seem to be most effectually controlled by its action. The greatest rigidity and pain is experienced on first moving the joints after rest and on waking up in the morning. After the joints are moved for a while the pain is lessened."

This restlessness of Rhus-t. will be found to qualify the symptoms in a large proportion of the cases in which it will be called for. It is as restless as Acon. and Ars., but in a different way from either. With Rhus-t. it is due to the pain and soreness temporarily better by movement or a nervous internal uneasiness which makes the patient want to be on the move when there is no particular pain present (Nash). The presence of restlessness is a leading indication for Rhus-t. in fevers, typhoid and other.

Other indications are clouded sensorium, stupefaction, muttering delirium, dry tongue. The characteristic tongue of Rhus-t. is dry or dark coated with triangular red tip. In intermittents a characteristic is "Cough during the chill."

Hahnemann pointed out another keynote of Rhus-t.: "Multiplied experience has taught me that Rhus-t. is the most efficacious and the specific remedy for the frequently fatal effects of over-lifting inordinate exertions of the muscles and contusions."

He was of course, led to this inference by the "bruised and sprain-like pains" and "stiffness" of the provings. Rhus-t. is in the front rank of vulneraries.

PAGE 1440

Rhus-t. meets threatened miscarriage from a sprain and also prolonged after-pains and other effects of the strain of a severe labor, axillary abscess from this cause has been cured with Rhus-t.

Straining, rheumatic coughs. Ailments from straining a single part, muscle or tendon, over-lifting, particularly from stretching high up to reach things. There is an analogy to

this in the dreams of great exertion, rowing, swimming, working hard at his daily occupation.

Rhus-t. has cured many forms of paralysis: Rheumatic paraplegia from getting wet, lying on damp ground, sleeping in damp sheets after exertion after childbirth, sexual excess or fevers. Ptosis. Paralysis of single limbs. Numbness of parts paralyzed.

Facial neuralgia, lumbago and sciatica, (left side) with restlessness, coming on after a wetting or after a bath are cured by Rhus-t. The neuralgic pains and eruptions make Rhus-t. a perfect simillimum in many cases of herpes zoster. Fever-blister round mouth.

Peculiar symptoms are: Craving for cold drink and laborious dreams. Herpes alternating with asthma and dysentery. Chokes easily on swallowing. Swallowing causes pain in middle of back. Anorexia in palate and throat. Nausea in chest. Taste of blood with cough (no blood being raised). Coldness in left tibia. Scalp sensitive, worse turning hair back. Hour-glass contraction of abdomen.

Compare

(1) Rhus radicans.

(2) Rhus-d. - California Poison-oak, antidote to Rhus-t., violent skin symptoms with frightful itching, much swelling of face, hands and genitals, skin very sensitive, eczema and erysipelas, great nervous weakness, tired from least effort, goes to sleep exhausted.

(3) Xerophyllum - dysmenorrhea and skin symptoms.

(4) Arn., Bapt., Lach., Ars., Hyos.

(4) Op. - stupefactions more profound.

(5) Mimosa - Sensitive Plant - rheumatism, knee stiff, sharp pains in back and limbs. Swelling of ankles. Legs tremble.

(6) Ampelopsis trifolia - Three-leaf Woodbine - Toxic dermatitis due to vegetable poisons-30c and 200c. Very similar to Rhus poisoning.

Relations

Antidotes: Bathing with milk and Grindelia lotion very effective. Aloe vera gel topically. Desensitizing against Poison Ivy by use of ascending doses of the low potencies by mouth is recommended. Especially for acute reactions: Rhus-t. 30c and 200c and Anac., Crot-t., Grind., Mez., Cypr., Plumbago - eczema of vulva., Graph. Complementary: Bry., Calc-f. Phyt. (Rheumatism). In urticaria follow with Bovista. Inimical: Apis.

SOURCES

Boericke. Clarke. Phatak.

Rhus venenata

(poison elder)

Pharmacy

Rhus-v. Rhus venenata. Poison elder. Poison Sumac. Swamp Sumac. N. O. Anacardiaceae. North America in swampy ground. Tincture of fresh leaves and stem. Historical dose: All potencies, sixth to thirtieth potency.

History

It is frequently named "Rhus Vernix" and it is given under this name, but the name belongs properly to the allied Varnish-tree of Japan.

Rhus-v. in one of the most actively poisonous of the Rhus. The skin symptoms of this species of Rhus are most severe. P. B. Hoyt, who first drew attention to it and made the first provings, says it is more poisonous than Rhus-t., which he can handle with impunity,

while he was violently affected by Rhus-v. in spite of extreme caution. Further, he considers it more actively curative in a case of Rhus sore throat, when Rhus-t. failed Rhus-v. acted with excellent effect.

Pain as if sprained shows the relation of this Rhus-t. to sprains. Butman observed that blondes are more susceptible to Rhus-v. poisoning than brunettes.

PAGE 1441

When once affected persons are liable to a renewal of the affection, (without further poisoning) each year at the same time. Persons poisoned by Rhus-t. are more liable to be poisoned by Rhus-v. Children are more readily poisoned than adults. Rhus-v. in the potency is credited with the cure of Rhus-t. poisoning.

Clarke found Rhus-v. an excellent remedy for arsenical overdosing. A minor use of Rhus-v. is as a topical remedy in itching, burning chilblains. The tincture painted on relieves almost instantly and practically cures the chilblains in a large number of cases.

Planets: Mars, Saturn.

Homeopathic

Rhus-v. has many symptoms referring to the bones and according to Hering, it affects those parts where the bones are directly covered with skin, as the forehead, backs of fingers, etc. There is a "pain half way down the esophagus" which is probably a variant of the Rhus-t. "Pain between the shoulders on swallowing food." Eating raw things aggravates burning of lips. Chills in warm room. Diarrhea 4 a.m. Washing with cold water or snow, improves itching on back.

Clinical

Boils. Chilblains. Diarrhea. Dyspepsia. Dysphagia. Eczema. Eruptions. Erysipelas. Erythema nodosum. Glands, cervical, ulceration. Hemorrhoids. Herpes. Hydroa. Impetigo. Irritation. Lips, Swollen, sore. Lumbago. Measles. Menorrhagia. Ophthalmia. Paraplegia. Prurigo. Purpura. Scabies. Sore throat. Stiff neck. Tongue, cracked. Urticaria.

Modalities

Better moderate exercise or open air. Better hot bath. Better gently rubbing and scratching. Worse before stools. Worse damp days. Worse hot weather. Worse rest. Worse mental exertion. Motion aggravates pain in elbow. Walking aggravates frontal headache. Worse morning after waking. Worse by touch and pressure.

Symptoms

MIND

Great melancholy. No desire to live. Gloomy and depressed.

Abdomen

Profuse, watery, white stools in morning, 4 a.m. with colicky pains, expelled with force. Pain in hypogastrium before every stool.

Back

Back very stiff. Sharp pain under left scapula, extending through to ribs. Rheumatic pains between scapulae. Lumbago from a strain or a cold.

Breasts

Burning in left breast and left side of body. Breast must be supported, it aches when it hangs down,

Chest

Violent stitches through chest with great suddenness.

Ears

Transient stitches in right concha. Jerk-like tearing in bone behind right ear. Much earache, hammering-throbbing deep in ear after dark. Jerk-like cutting stitches in ear. Vesicular inflammation of ears.

Eyes

Eyes nearly closed with great swelling, red. **Eyes** ache as though pressed on. **Eyes** feel as if sand in them.

Face

Heaviness in swollen face. Boring in right upper jaw. Sensation as if sand on lips. Lips sore, swollen, blistered, cracked. Itching of upper lip and chin.

Female

Menses with very large clots like pieces of meat. Soreness of vagina during menses.

Head

Heavy, frontal headache, worse walking or stooping.

Limbs

Paralytic drawing in right arm, especially wrist and extending to fingers.

Neck

Stiff neck or crick-in-neck. Ulceration of cervical glands.

Nose

Nose red and shiny, redness not removed by pressure. Erysipelas. Both nostrils filled with tenacious mucus. Nose dry, sore. Loss of smell.

Rectum

Bleeding hemorrhoids with extensive itchings and burning. Discharge of blood from rectum after a stool. Neuralgic pains in anus. Most intolerable burning and itching in anus.

Sensations

As if mouth and throat had been scalded. As if sand on lips in mouth. Sensation in arm as if the bone would break.

Pains wander about, upward and downward along the periosteum, come and go suddenly, chill runs up back.

PAGE 1442

Skin

Itching, relieved by hot water. Vesicles. Erysipelas, skin dark red. Erythema nodosum with nightly itching and pains in long bones.

Temperature

Chills over whole body, run up back even when warm and in a warm room. Feeling of coldness when moving.

Throat

Soreness left side throat. Irritation and acidity about throat and eyes. Tonsils red, congested, dull aching distress in them. Frequent desire to swallow. Swallowing difficult.

Tongue

Red at tip. Fissured in middle. Vesicles on under side.

Comments

Hoyt's experience is interesting. Wishing to prepare a tincture he went to a swamp and procured some sports. In doing this he had on a pair of buckskin gloves and kept carefully to the windward side of the plant. Nevertheless in an hour and a half a most intense itching and burning (more burning) set in scrotum and penis. The glans was very painful, slight friction better for a moment the itching but not the burning.

The symptoms continued next day. At 11 a.m. he made the tincture, using great caution in manipulating the plant. At 3 p.m. itching and burning began on back of right hand. A restless night followed. Awoke in morning with itching, especially on palmar surface of wrists.

This spread all over body, symptoms steadily advancing. Dizziness, eyes and ears became affected, fever set in. When the symptoms passed off it was found that some chronic dyspeptic symptoms and inflammation of the eyes had been much benefited.

Clarke had frequently used Rhus-v. with good effect in skin diseases. Bayes told him of a case of universal eczema with intense in an old man which he cured in a fortnight with Rhus-v.

A case of pemphigus in a young man of 27 came after years of treatment under allopathic specialists who had given him Arsenic until they could give no more, telling him at the same time that nothing but Arsenic could do him any good. Rhus-v. 3x and 30c completely cured in a few month and the cure enabled the patient to marry.

Hale had a case showing the comparative action of Rhus-v. with Rhus-r and Rhus-t.: A lady had several times every year a sore mouth with intense redness of mucous membrane of tongue, cheeks and fauces in small vesicular points intense burning and feeling as if mouth and throat had been scalded.

If unchecked every mucous membrane including those of rectum and vagina became involved. No remedy helped until Rhus was tried. Rhus-r. and Rhus-t. only slightly relieved, but Rhus- v. 3c always removed the affection quickly.

Compare

Boericke. Clarke.

Ribonucleicum acidum

(r.n. a.)

Pharmacy

Rib-ac. Ribonucleic Acidum. R.N. A. Historical dose: All potencies, 3x to 30c.

History

The proving of R. N. A. according to the method of Hahnemann was conducted in 1971 and 1972, by O. A. Julian. Twenty-two people of whom two were female took part in this

experiment. The following potencies were used: 3x, 7c, 30c, and placebo in a single-blind trial.

PAGE 1443

The symptoms which follow are the result of provings incorporated with the clinical research of the Belgian homeopathic authors, amongst whom Dr. Guiot of Wavre is the only one who has given a report on a self-proving. Recommended by Jenaer for treatment for cancer and leukemia.

Homeopathic

Rib-ac. feels lively, optimistic, dynamic. Less physical strength. General lassitude. Feels depressed, ill at ease in his skin. Tired in the morning to the point of not hearing the alarm bell ring. Sleepiness. Tiredness, vertigo, stiffness. Wants to run to disappear. Endocrine glands produce a mucus which is too viscous.

Desire to sleep, to eat, to make love. Hunger with need to nibble throughout the day, especially sugar. Chilliness, has to sleep with two jumpers, pajamas, dressing-gown, socks and three blankets. Slight edema of the feet and hands. Unstable weight: sudden increase in weight, then sudden loss of weight two days later. Cortical and medullary hyposthenia. Tired, sleepy, hungry.

Clinical

Allergic conditions. Cancer. Eczema. Epilepsy. Herpes. Hypoglycemia. Hypotension. Hypothyroidism. Insomnia. Leukemia. Urticaria. Varicose ulcer. Weight, unstable.

Constitutions

Allergic and psoric constitutions. Tubercular conditions. Cancerous conditions. **Planets:** Moon.

Modalities

Better from lying on the stomach (Med.). Worse from lying on the back from the cold.

Symptoms

MIND

Personality disorders in children. Slowness at schoolwork. Dullness of mind. Cannot concentrate on intellectual work. Mental over-exertion. Psychological and physical slowness. Feels as if he is living on his nerves. Aggressiveness. Ugly character. Wants everything and nothing. Cannot bear anything, cries at anything. Clings on to everything, breaks everything and becomes even more annoyed. Desire to go away to escape. Feels weary and leaves everybody.

Abdomen

Distention, especially at the end of the afternoon. Cramps in the transverse colon at 4 p.m. Biliary sycosis. Entero-pancreatic syndrome.

Back

Joint pains in the shoulders and feet. Pain all along the vertebral column.

Blood

Circulatory discomfort. Leukemia. Hypotension. Leucopenia.

Female

Increase in libido. Fetid leucorrhoea. Sexual weakness. Frigidity. Mycosis vaginitis.

Food

Extreme hunger. Loss of appetite. Hungry sensations. Aversion to fats and hot food. Strong desire and need to eat sugar. Hypoglycemia. Desires vinegar and cold, spicy food, which goes down more easily. Must eat often.

Limbs

Infection around the nails, especially of the index, second and third fingers of the right hand. Hands and feet slightly swollen. Swelling of the lower limbs, more marked in the morning and the evening. Arthralgia in the back and lumbar regions. Lymphaedema.

Male

Increase in libido. Impotence.

Mouth

'Fever' spots on the middle of the lower lip.

Nose

Small pimples in the nostrils.

Rectum

Tendency to constipation. Watery diarrhea with colic.

Skin

Recurring herpes. Tendency to reopening of old healed ulcerations. Fissures on the heels and the skin of the heels flakes off in long strips. Small red patches on the forehead, disappearing rapidly. Tendency to eczema. Chronic recurring eczema. Urticaria. Varicose ulcer.

Sleep

Sleepiness around noon, beginning of the afternoon. Sleeps badly, wakes up excited and tired. Persistent insomnia, between 2 a.m. and 4 a.m.

Stomach

Acrid dyspepsia. Nausea.

Compare

- (1) D.N. A., Sil., Cortisone, Tub.
- (2) Alfalfa - increase appetite, weight gain.
- (3) Cann-s. - appetite increased, desire for sweets.

SOURCES

Julian.

PAGE 1444

Ricinus communis

(castor oil)

Pharmacy

Ric. *Ricinus communis*. The Castor oil bean. Palma Christi. N. O. Euphorbiaceae.

Tincture made with hot alcohol and water or trituration of fresh seeds. Tincture of fresh plant. The homeopathic preparation should be made in such a way as to secure the full properties. Historical dose: Oil, tincture and all potencies, 1x to 200c.

Herbal

The castor oil plant is a native of Egypt and India. In the tropics it is a small tree growing to the height of eight or ten feet. Under the name of Palma Christi it is cultivated as an annual in this country, its stems reaching from three to five feet.

This remarkable oil is obtained from the seeds. Castor Oil can be rubbed into muscles and joints. Castor Oil packs, warm oil soaked flannel and applied to inflamed tissues or organs. Leaves can be applied topically.

The blandest which is in common use is "cold drawn," i.e. , expressed without the aid of heat and contains the smallest amount of the acrid principle. A decoction of the seeds, which is used in the East and West Indies, contains a much larger proportion.

Hale made the first collection of the pathogenetic effects of Ric. and pointed out its analogy to cholera, which Salzer confirmed.

Cases of poisoning, some of them fatal, have been recorded from the ordinary oil, but the greater number of the pathogenetic effects have resulted from eating the seeds. Fatal effects have followed eating three seeds and one seed has caused violent effects. After twenty seeds gastroenteritis and death preceded by general convulsions and collapse occurred.

Ric. has great power over breast-feeding. O. McWilliams observed in the Cape Verde Islands that the leaves of the plant were applied to the breasts to increase the flow of milk if it were delayed and even to produce it in women who had never borne children or who had not suckled for years.

In increasing the flow of milk in nursing women the breasts were fomented with a decoction of the leaves of the plant, the boiled leaves being afterwards thinly spread on the breasts.

For producing milk in others more vigorous measures were resorted to. The women had to sit over a boiling decoction of the leaves, care being taken to prevent the escape of steam. When the decoction was sufficiently cool the parts were bathed with it and also the breasts to which the leaves were applied as in the other case.

Women with well-developed breasts are more easily influenced. When the breasts are small and shriveled this treatment acts more on the uterine system, bringing on the menses long before their time or causing immediate flow if the time is near. **Planets:** Moon, Saturn.

Homeopathic

Ricinus has marked action on gastro-intestinal tract. The leaves have an especially powerful action on the breasts and female generative organs. Ricinus communis increases the quantity of milk in nursing women. Vomiting and purging. Languor and weakness. Pale and listless. Very painful cramps in trunk and limbs. Collapse. Convulsions. Anemia. Profound adynamia. Muscular contractions.

Clinical

Albuminuria. Aphthae. Arthritis. Breast, disorders. Breast-feeding. Cholera. Cholera infantum. Constipation. Diarrhea. Duodenum, catarrh. Dysentery. Eruptions. Gangrene. Gastro-enteritis. Jaundice. Muscle pain. Peritonitis. Sprains.

Symptoms

Abdomen

Rumbling. The different parts of the abdominal muscles can be seen successively and individually contracting under the skin. Feels as if all the intestines violently drawn together. Violent colic and yellowish green vomiting. Cramps with the diarrhea. Pain over abdomen worse by pressure.

Back

Pains in back like after-pains.

Breasts

Breasts thick, swollen with swelling of axillary glands and pains running down arms.

Thin discharge from breasts becomes milky.

Brings milk in breasts of virgins and women who have not nursed for years.

PAGE 1445

Ears

Buzzing and humming in ears.

Eyes

Conjunctiva is injected. **Eyes** convulsed and turned up. Copious lachrymation, pupils only moderately dilated.

Face

Features drawn. Face slightly congested. Face pale, features strongly contracted.

Twitchings of mouth.

Female

Menses too early, excessive. Leucorrhœa.

Food

Anorexia. Thirst, great, burning.

Head

He cannot go into open air after a dose of Castor Oil, as the brain seems exhausted and easily overpowered. Headache, severe. Acts on base of brain. Sudden pain as if seized by something in occiput extending round to backs of ears, eyes and forehead with rush of blood to head and shocks which come and go as from electricity, thirty times in five days.

Heart

Pulse is extremely small, scarcely perceptible, though normal in frequency.

Kidneys

Complete anuria. Passes a little dark, thick, highly albuminous urine (lasted four days).

Limbs

Prurigo on wrists and bends of knees. Gangrene of one foot necessitates amputation.

Mouth

Tongue, coated white and dry, furred. Salivation.

Rectum

Violent purging with the diarrhea. Bloody diarrhea. Diarrhea without pain. Diarrhea almost incessant, colliquative like cholera. Rice-water stools. Stools serous liquid mixed with mucus. Diarrhea incessant with cramps and chilliness. Complete confinement of bowels for five days, this made him uncomfortable and caused headache.

Skin

Pronounced jaundice, skin saffron yellow. Pruriginous eruptions or redness and itching, at wrists and bends of knees.

Sleep

Great desire for sleep.

Stomach

Vomiting profuse with burning in gullet and all the symptoms of Asiatic cholera. Nausea and vomiting persistent, vomited matterly liquid, slightly colored by a little bile, contains only a few mucous threads in suspension. Vomiting and purging. Painless vomiting. A kind of bar across stomach, which caused profound anguish. Pit of stomach very sensitive, pains radiate from this center, shooting to umbilicus and hypochondria.

Cramps, burning in stomach. **Heart**burn.

Temperature

Chilliness with the diarrhea. Perspiring freely. Skin moist and cool, especially lower limbs. Forehead covered with cold sweat.

Throat

Burning pain in the gullet accompanied the vomiting. Voice altered, veiled.

Comments

Salzer gives to Ric. the same importance in cholera with diarrhea that Camph. occupies in relation to spasmodic cholera. The stools of Ric. correspond exactly to the rice-water stools in cholera, while those of Ver-a. do not. Ric. also has painless evacuations which are met with in many cases of cholera. Ric. therefore corresponds to the diarrhea stage of cholera and also to the collapse stage if vomiting and purging still continue.

Salzer quotes B. L. Bhaduri as having observed "rice-water stools, cramps and suppression of urine brought on by eating the seeds."

Hale says that before he had learned to use Ric. as a homeopathic remedy he has often been discomfited by seeing aphthous diarrhea cured with small (half-teaspoonful) doses of castor oil, repeated three or four times a day, by old nurses or impatient mothers. Such diarrhea often arises in improperly-fed children.

It begins with sickness, frequent and griping evacuations, greenish yellow to dark green, becoming more liquid and more or less mixed with slimy or gelatinous mucus or blood. Each stool is accompanied with pain and tenesmus, mouth dry and aphthous.

PAGE 1446

The anus inflamed, belly tumid and painful, child becoming more and more feverish and somnolent.

Hale later gave a Ric. 1x trituration of the oil with sugar. In acute and chronic dysentery and in those cases in which there is impaction of feces, Hale has seen the oil promptly curative.

Hering remarked that puerperal fever had become much less common in Philadelphia (where it used to be very common) since homeopaths interdicted the use of castor oil in confinements.

Tyler Smith experimented with the leaves. In his cases the application produced: Swelling of the breasts, throbbing and other pains in them, swelling of the axillary glands with pains running down the arms.

Pains in the back like after-pains were caused in every case. Leucorrhoea was increased. Soon discharges from the breasts became milky and menses came on too soon. The radiating pains, bar sensation, constricting and cramping pains are the most peculiar.

Robinia pseudacacia

(yellow locust)

Pharmacy

Rob. Robinia pseudacacia. Common or False Acacia. North American Locust. Yellow locust. N. O. Leguminosae. Tincture of fresh root bark. Tincture of fresh bark of young twigs. Trituration of the beans. Historical dose: All potencies, third potency.

Herbal

The Treasury of Botany, states "The roots of Robinia have the taste and smell of liquorice, but are a dangerous poison and accidents have occurred from their being mistaken for liquorice roots."

The poisonings that have been recorded have been due to eating the beans or chewing the bark. Of thirty-two boys so poisoned in the mildest cases there occurred Vomiting of ropy mucus, dilatation of pupils, dry throat, flushed face.

In the severest the vomit was more copious and mixed with blood with retching, epigastric pains, debility, stupor, cold limbs, dusky pallor, heart's action feeble intermittent, limbs pulseless. Recovery took place in two days. **Planets:** Moon.

Homeopathic

Robinia pseudacacia is a remedy for hyperchlorhydria. The gastric symptoms with the most pronounced acidity are well authenticated and are the guiding symptoms. The acidity of Robinia is accompanied by frontal headache. Acidity of children. Stools and perspiration sour. Incarcerated flatus.

In cases where albuminoid digestion is too rapid and starch digestion is perverted. Intensely acrid belchings. Acrid and greenish vomiting, colic and flatulence, nightly burning pains in stomach and constipation with urgent desire. It is useful for hyperchlorhydria, when the belchings and taste is sour and vomiting is so sour that it sets the teeth on edge or dulls them.

Child cries when its arms were laid hold. Sour infants with sour smell of the body, sour stools and vomiting of sour milk. Acid dyspepsia. Constant dull frontal headache worse motion and reading. Sick headache with acid vomiting. Flatulence. Waterbrash. Burning

in stomach and between scapulae. Squeezing in stomach. **Heart**burn and acidity worse lying down especially at night.

Clinical

Acidity. Coryza. Dyspepsia. Flatulence. Headaches. Hyperchlorhydria. Indigestion.

Intermittents. Neuralgia. **Heart**burn. Stomach disorders. Urticaria.

Causations

Ill effects from fat, gravies, flatulent food, cabbages, turnips, new bread, ice-cream, raw fruit, etc.

Modalities

Worse at night. Worse by motion. Worse by touch, (neuralgia from contact of food).
Worse by reading, (headache), worse lying down, (heartburn and acidity). Worse being raised from the horizontal, (nausea and vomiting).

PAGE 1447

Symptoms

MIND

Very low-spirited. Excessively irritable. Tried to write but could not. Can hardly tell what she is doing.

Abdomen

Constant dullness in epigastric region with cutting pains in stomach and bowels and a good deal of rumbling. Burning distress in stomach and region of gall-bladder. Bowels greatly distended with flatulence, seemed to fill up whole abdomen, tympanites, better passing flatus. Soreness in bowels when moving or by pressure.

Eyes

Eyes sunk. Eyes sore, watery with rough throat. Pupils contracted (in poisoning cases dilated).

Face

Neuralgic face ache, spreading to eyes, forehead, ears and teeth, changing the whole features. Spasmodic pains in jaws, feels as if they would be broken or dislocated, intensely sour taste in mouth. Face flushed (in mild poisoning cases), dusky, pale (in severe cases).

Female

Cramps in uterus. Tumefaction and bruised feeling in neck of womb and general prostration. Hard swelling of uterus. Leucorrhoea, acrid, fetid, whitish, greenish, yellowish, thick and purulent. Menses too late, black. Bleeding between the periods, accompanied by purulent leucorrhoea. Ulcerative pains in vagina with acrid, yellowish leucorrhoea of most fetid smell. Herpes on vagina and vulva. Nymphomania.

Food

Worse from eating, fats, cabbages, turnips, raw fruit, ice creams. Thirst.

Head

Constant dull, heavy, frontal headache, much worse by motion and reading. Dull headache: with profuse nasal discharge and frequent sneezing with sharp stitches in temples. Gastric headache with acid vomiting. Stinging pain in temples, changing from right to left side.

Sick headache with sour stomach from fat meat, gravies, flatulent food, cabbage, turnips, warm bread, pastry, ice-creams, raw fruits. Steady headache with sensation as if head full of boiling water. As if brain struck against skull when moving. Unable to hold his head upright.

Heart

Almost pulseless. **Heart**'s action is very feeble, embarrassed when moved from horizontal position.

Kidneys

Urine scanty and painful or profuse and turbid.

Limbs

Could not move in slightest degree fingers, hands, arms or legs, later could move fingers of right hand a little, later could stir legs, but not draw them up, tickling feet caused much distress (from the beans).

Lungs

Voice reduced to a whisper and efforts to cry exceedingly feeble, suddenly ceasing with a slight sigh, as if from exhaustion. Feeble respiration.

Mouth

Burning, sharp pains, especially in carious teeth, spreading to cheeks, eyes and temples, worse at night or on contact of food, especially if cold or spiced, teeth become loosened from the spongy and easily bleeding gums. White coating on tongue with red tip. Tongue covered with whitish-brown fur, smooth and slimy. Mucous membrane of mouth pale.

Nose

Profuse continual discharge from nostrils with sneezing and dull headache. Wax-like tumor on nose.

Rectum

Sour stools of infants with sour smell from body and vomiting of sour milk. Desire for stool, but only flatus passes, finally constipated stool. Diarrhea stools, yellow, green, burning with nervous agitation, weakness, cold sweat, dyspnea. Stools are loose, black, fetid with great tenesmus, watery, whitish, excessively frequent and generally involuntary with sensation as if whole body would pass away with stool, heat and pressure in epigastrium, cramps. Sudden attacks of purging and vomiting.

The daily motion has a slimy look and bilious tinge. Bowels costive with frequent ineffectual desire for stool.

PAGE 1448

Sensations

As if brain revolved. As if head were full of boiling water. As if brain struck against skull. Jawbone as if dislocated. Stomach as if scalded. As if whole body would pass away with stool. The left side was most affected. A sleepy, dull feeling in head and limbs changed from right to left.

Skin

Covered from head to foot with the worst form of urticaria.

Sleep

Sleepiness and dullness in limbs and head. Restless sleep all night on account of frequent sneezing from indigestion.

Stomach

Everything turns to acid. Sour stomach. Regurgitation of acid and bitter substances.

Heart

burn and acidity of stomach at night on lying down. Heavy, aching dullness in stomach. Very severe, sharp pains in stomach all day and night. Great distention of stomach and bowels. Flatulent colic. (Cham., Dios.) Nausea with sour belchings. Profuse vomiting of an intensely sour fluid. (Sul-ac.) Vomiting of ropy mucus, tinged with blood, retching and epigastric pains. Vomiting with slight convulsions.

Temperature

Hands and feet cold. Paroxysms of pain late in afternoon, lasting until 3 to 4 a.m. , face hippocratic, much flatulence. Hectic fever with night-sweats.

Throat

Dry scratching in throat. Dryness of throat with flushing of face. Rough soreness.

Roughness with sore eyes.

Vertigo

Faintness, worse when raised from horizontal position. Vertigo and dullness of head in whatever position it is placed. Sensation as if brain revolved, worse lying on right side.

Vertigo with unsteadiness and nausea.

Comments

The Rob. provings of Burt and Spranger have developed the symptoms which have led to the chief clinical uses, but some of Houatt's symptoms have also been confirmed.

The chief keynote of Rob. is acidity, especially if the time of aggravation is night.

Cooper has observed improvement which was going on under Rob. cease at night-time.

Sour stomach, vomiting of intensely sour fluid which set the teeth on edge. Belchings of

a very sour fluid. *Clinical* experience has added to these: Sour stools of

infants with sour smell of body and vomiting of sour milk. **Heart**burn and acidity coming on when lying down at night and preventing sleep.

Halbert relates a case of hyperchlorhydria treated with Rob.: Mrs. S., 40, had stomach troubles many years, for which she had bitter tonics, stomach douching, electric massage. She had acid belchings and vomitings of intensely sour food, extreme appetite, but gastric pains an hour or two after meals, stomach and bowels distended with gas almost constantly and flatulence was extremely irritating. Craved meats, but could not tolerate vegetables, craved solid food, but did not dare take it. Emaciated and cachectic.

Lavage was performed every alternate day and after it the patient was directed to eat a full meal, Rob. 3x was given every two hours and steady improvement occurred in all particulars, until health was practically restored.

Burt had a severe neuralgia in left temple, preventing sleep from midnight to daylight. He had also a "dull, heavy aching in stomach," and a "constant dull, heavy frontal headache, much worse by motion and reading".

The combination of gastric and head symptoms has placed Rob. among the chief remedies in migraine and sick headaches. Among Houatt's symptoms was a facial neuralgia spreading to eyes, forehead with contraction of the jaw and features and also a sensation as if the jaws would be dislocated or fractured.

Hering gives this case of neuralgia as having been cured with Rob.: "Jawbone feels as if dislocated intensely sour taste and vomiting."

PAGE 1449

The paralytic symptoms were very marked in one of the poisoning cases. Flatulence and diarrhea were produced and also constipation with constant ineffectual urging.

A. L. Fisher has relieved with Rob., when everything else failed, the intensely acid vomiting in four cases of gastric cancer.

Compare

(1) Laburn.

Helianthemum nummularium

Rock rose

(bach flower remedy)

Pharmacy

Rock Rose. *Helianthemum nummularium*. Rock Rose flowers are gathered and put in a sunlit bowl of water for several hours. The water imbued with healing power is strained and prepared as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

This remedy belongs to Bach's group For Those who Have Fear, together with the remedies of Mimulus, Cherry Plum, Aspen and Red Chestnut. **Planets:** Moon.

Homeopathic

Rock Rose treats states of intense fear and panic, plus a chronically weakened nervous system. Acute anxiety states cause accelerated heart beat and breathing, shortness of breath, choking sensation, dry mouth, indigestion with possible nausea, vomiting and diarrhea, dizziness and fainting and internal and external trembling.

Chronic, advanced nervousness is characterized by nervous weakness, insomnia, lack of physical and mental/emotional endurance, shakiness, digestive problems including lack of appetite, heightened sensitivity to noise and touch, first signs of a nervous breakdown and other typical symptoms of an exhausted nervous system. Once a nervous breakdown has occurred, this remedy restores equilibrium (Cherry Plum, Vervain).

Symptoms

MIND

The Rock Rose response is a typical "fight or flight" response. This is the state of fright and heightened anxiety when threats and dangers propel to run or speed, even though it may just happen in one's internal self. An inner agitation and nervousness can be extreme and undermine health and inner peace, if surfacing repeatedly.

Usually, the Rock Rose state originates in frightening circumstances such as the nearness of one's own or another's death. Frequent nightmares are an indication for this remedy, as well as fixations and obsessions of a fearful nature, as in phobias or panic disorders.

Here, repeated fearful experiences or one-time traumas of fright have become linked with a certain person, object, or circumstance which will trigger renewed fear on contact even when the real danger has passed.

In a chronic state of nervousness, especially if there is frequent starting and inner trembling, this remedy is the predominant healer. Prolonged fearful worry, chronic loss of sleep, a hectic, demanding life can bring on a chronic Rock Rose state, basically this being an exhaustion of nerve power. Rock Rose is of service in all anxiety disorders, in post-traumatic stress disorder and in adjustment disorder, which is a response to milder trauma, when the trauma was related to fear or terror (Star of Bethlehem).

In regard to fighting, the additional emotions of anger, hatred, irrational resentment, impatience appear.

PAGE 1450

Whereas the flight response triggers feelings of helplessness, despair, or of being caught. In a chronic case of nervousness, in addition to chronic anxiety, there may be easily aroused weepy, longing for help, desire for peace and rest. The fight reaction will elicit impatience and aggressiveness toward people.

SOURCES

Bach.

Aqua petra

Rock water

(bach flower remedy)

Pharmacy

Rock Water. Aqua petra. Water from any special well known to carry healing power is placed in a sunlit bowl for only one hour and used as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

This remedy belongs to Bach's group Over-Care for Others' Welfare, along with the remedies of Beech, Vine, Vervain and Chicory. These remedies heal the tendency to overly influence and control others. **Planets:** Moon.

Homeopathic

Rigidity and hardening of physical structures may occur. Excessive willpower may result in inner tension and strain.

Symptoms

MIND

The imposed Rock Water state, entailing a sacrifice or loss of pleasure, actually grows out of an initial state of disappointment or despair. Yet, one rises to the occasion, controls oneself and finds incentive in living without the usual ease or enjoyment. Out of this self-control and mastery of a difficult readjustment comes personal pride and the desire to inspire others to be equally strong.

The Rock Water mentality tends to adhere to routines and one-sided acceptance of limitations.

In the rehabilitation of addictive drug use or behavioral patterns, a Rock Water state is likely to lead to the path of self-denial and habitual patterns. Here, physical needs make this a battle of self-control. The mind focuses on the limitations, battles them repeatedly with willpower until one feels in charge again.

One can also observe some ritualistic, perfectionist, obsessive-compulsive behavior (Cherry Plum, Crab Apple, Pine, Vervain). These overriding states of willpower, rigidity and self-centered toughness may create underlying emotions of frustration, sadness, depression, or anger. A hardening of the inner personality occurs. In the imposed Rock Water state, has sadness, depression and frustration. Inner conflict. Sense the loss.

SOURCES

Bach.

Rosa canina

(dog rose)

Pharmacy

Ros-ca. Rosa canina. Dog-rose. N. O. Rosacea. Tincture of ripe fruits. Historical dose: Tincture and all potencies.

Herbal

Rose hips are used for making the very pleasant "Confection of Roses" used in general medicine as a basis for pills and electuaries. Rosa canina has been used in ancient times as a remedy in urinary difficulties. **Planets:** Venus.

Homeopathic

A proving only evoked a somewhat increased flow of urine and a little heat in the urethra. Burnett has confirmed this to some extent.

Clinical

Bladder, disorders. Dysuria.

SOURCES

Clarke.

Rosa damascena

(damascus rose)

Pharmacy

Ros-d. Rosa damascena. Damask or Damascus Rose. N. O. Rosacea. Tinctures of the flowers. Historical dose: Tincture and all potencies, lower potencies.

PAGE 1451

History

Rosa damascena is useful in the beginning of hay fever with involvement of Eustachian tube. Farrington mentions that Rosa dam. was introduced by Jeanes as a remedy at the beginning of rose-cold when the Eustachian tube is involved with some degree of deafness and tinnitus. **Planets:** Mercury.

Homeopathic

Hay fever and allergies. Hardness of hearing, tinnitus. Rose-colds. Eustachian catarrh. (Hydr., Merc-d.) Eustachian tube swollen.

Compare

(1) In hay fever: Phleum pratense - Timothy grass - Hay fever with asthma, watery coryza, itching of nose and eyes, frequent sneezing, dyspnea. Use 6 to 30c potency.

Rosmarinus officinalis

(rosemary)

Pharmacy

Rosm. Rosemary. Rosmarinus officinalis. N. O. Labiatx. Tincture of whole plant.

Historical dose: Tincture and all potencies.

Herbal

Oil of Rosemary has an ancient reputation as a remedy for baldness, headache and flagging mental powers. Hence it has been called "Herb of Memory." This Shakespeare alludes to when he makes Ophelia say, "There's Rosemary, that's for remembrance."

Planets: Moon.

Homeopathic

The most violent of the symptoms of Rosm. were observed on a woman who took a strong infusion for eight days with the result that miscarriage occurred. In another woman it brought on the menses four days too soon. Chilliness predominated, the chill not being followed by heat.

Memory deficient. Head heavy, drowsy. Menses too early, violent pains followed by uterine hemorrhage. Chilly with icy coldness of lower limbs without thirst, followed by heat.

Clinical

Baldness. Menses too early. Memory, weak. Miscarriage.

Symptoms

MIND

Anxiety. Memory weak. Dullness.

Female

Violent pains followed by uterine hemorrhage and miscarriage, succeeded by faintness, spasms of chest, cold hands and feet, small, rapid, irregular pulse. Menses four days too early.

Head

Headache. Heaviness and dullness of head. Weight and tension round head. Baldness.

Lungs

Oppression of breathing. Spasms in chest.

Skin

Hair loss. Dandruff. Lice.

Sleep

Overpowering sleepiness with yawning. Sleeplessness.

Temperature

Coldness so that she could not leave the bed. Chill over whole, legs icy cold, no thirst and no subsequent heat.

Vertigo

Dizziness.

Rumex acetosa

(sorrel)

Pharmacy

Rumx-a. Rumex acetosa. Sorrel. N. O. Polygonaceae. Tincture of the leaves. Historical dose: Tincture and all potencies.

Herbal

Sorrel was at one time cultivated in this country as a salad and the Buckler-shaped or French Sorrel is until cultivated in France, where it is considered as a powerful anti-scorbutic. The leaves contain a large quantity of Bin oxalate of Potash (Kali-ox.).

Planets: Moon.

Homeopathic

The Rumx-a. symptoms were observed on three men who ate largely of the leaves. In one very violent convulsions were induced of a peculiar kind, the limbs being thrown reciprocally backwards and forwards and the head from side to side, the hands being alternately clenched and unclenched, the eyes prominent.

Other remarkable symptoms were swelling of lower eyelid. Elongated uvula. Pain all down esophagus worse by swallowing. Persistent short, dry cough. There was complete paralysis of bodily powers, copious green vomit, constipation.

Clinical

Convulsions. Esophagus inflammation. Gastritis. Paralysis. Throat, sore. Uvula, elongated.

Compare

(1) Kali-ox., Lapath.

(2) In persistent cough, Rumex.

SOURCES

Clarke.

Rumex crispus

(yellow dock)

Pharmacy

Rumx. Rumex crispus. Yellow dock. The Curled Dock. N. O. Polygonaceae. Tincture of fresh root. Historical dose: Tincture and all potencies, third to sixth potency.

Herbal

The "Yellow Dock" or "Curled Dock" is a common British weed introduced and growing wild in North America, where the provings were made.

The common Dock of fields and roadsides, Rumex obtusifolia, has a reputation among children as the best antidote to the nettle's sting, a reputation which is very well deserved.

Rumex crispus, according to Joslin, was used by allopaths internally and externally for the cure of scabies. This points to one of the leading actions of Rumex as developed in the provings. Among the constituents and salts of Rumex are Sulphur and Calc-p. (Hale) and Sulph., Calc. and Phos. are strongly represented in its action. Rumex again is a close ally of Rheum and has analogous purgative and other properties.

The provings were made by Houghton, Joslin, Paine, Bayard, Rhees and Co., both with the tincture and with potencies and its characteristics were well defined.

Rumex diminishes the secretions of mucous membranes and at the same time exalts sensibility of the mucous membranes of the larynx and trachea. Its action upon the skin is marked. It affects the nerves, causing numerous and varied pains. Acts on joints, especially ankles, skin, left side, chest.

Homeopathic

Rumex produces an intense itching. Lymphatics are enlarged and secretions perverted. Cough caused by an incessant tickling in the throat-pit, which tickling runs down to the bifurcation of the bronchial tubes. Touching the throat-pit brings on the cough. Worse from the least cold air, so that all cough ceases by covering up all the body and head with the bedclothes.

Rumex causes numerous and varied pains, neither fixed nor constant anywhere. Sharp pains, and neuralgias. Mucous membranes of larynx, trachea, bowels and throat pit are affected, producing dryness and sensitiveness. Mucous secretions decrease causing stickiness with burning. Lymphatics enlarged and secretions perverted. Even cold affects the joints. Obesity.

Clinical

Abortion. Aphonia. Asthma. Borborygmi. Bronchitis. Catarrh. Corns. Coryza. Cough.

Diarrhea. Dyspepsia. Feet, tender. Gastralgia. **Heart**, disorders. Indigestion. Irritation. Lichen. Mouth, ulceration. Nosebleeds. Phimosi. Prurigo. Rheumatism. Throat, sore. Trachea disorders. Tuberculosis. Urticaria.

Constitutions

Tubercular or nervous constitutions. **Planets**: Mercury, Mars.

PAGE 1453

Modalities

Better from covering mouth, wrapping up. Better discharge of offensive flatus. Better lying right side. Worse from cool air inhaling, open air, change, warm to cold, cold to warm. Worse from uncovering, night, pressure, on trachea. talking. Worse from deep breathing or irregular breathing, motion, eating after meals. Worse from riding. Worse deep inspiration or irregularity of breathing. Worse lying on left side. Worse evening and night and morning on waking, 3:30 and 11 p.m. , 2 to 5 a.m.

Symptoms

MIND

Indifferent about his surroundings. Low spirited with serious expression of the face.

Abdomen

Annoying rumbling flatulence in women. Flatulence. Creeping near navel better by discharge of offensive flatus.

Back

Pain under scapulae, right.

Breasts

Pain in the left breast after meals.

Chest

Pain, under sternum, under right nipple. Burning sticking pain in left chest near the heart, worse deep breathing. Rawness or burning under clavicle as if the air penetrated there worse hawking. Clavicular pain, worse hawking. Soreness behind sternum, especially left side in region of left shoulder.

Ears

Ringling in ears. Itching deep in ears. Pain, throbbing, stopped sensation in ears.

Eyes

Burning indoors, puffed up in a.m. Pain in eyes as from dryness, lids inflamed, worse evening. Sore feeling in eyes without inflammation. Deep-seated pain in right eye. Sharp, shooting pain in left eye.

Face

Sodden. Pale, while standing. Pain in right jaw, morning.

Female

Pain right ovary to back.

Food

Ravenous appetite. Worse when eating and after meals.

Head

Darting sharp pain in the left side. Headache after waking in morning. Catarrhal headache with great irritation of larynx and trachea.

Heart

Feels as if suddenly stopped followed by heavy throbbing through the chest.

Kidneys

Sudden urging involuntary with cough. Copious colorless urine in afternoon. Urine less copious, flocculent deposit, oily surface, marked brick-dust sediment.

Limbs

Pain in left shoulder on coughing, on raising arms. Hands cold when coughing. Spasmodic cramps in ankles and feet.

Liver

Jaundice after excessive use of alcohol.

Lungs

Suffocative choking. Tickling in throat-pit causes cough. Copious mucous discharge from nose and trachea. Dyspnea on retiring. Dry, teasing cough, preventing sleep. Worse by pressure, talking and especially by inspiring cool air and at night. Breathing, worse in wind. Cough Better closing the mouth or covering the head, worse lying on left side. Profuse frothy, thin expectoration. Expectoration, stringy and tough by the mouthful. Cough provoked by changing rooms, by change from cold to warm and warm to cold. Barking cough. Cough comes regularly at 11 p.m. , 2 and 5 a.m. , children. Cough daytime only. Cough worse during early pregnancy many cause miscarriage.

Male

Tendency to phimosis. In evening feeling of soreness and excoriation with redness of end of prepuce. Itching of prepuce. Sexual desire diminished, lost.

Mouth

Tongue sore at edges, coated. Toothache, entirely better after dinner, rinsing mouth with cold water.

PAGE 1454

Nose

Great desire to pick nose. Feeling of dryness in posterior sinuses. Sneezing attacks, fluent coryza. Nose obstructed, dry sensation even in posterior sinuses. Itching that extends from the end of the nose to pharynx.

Rectum

Brown, watery, diarrhea early in morning with cough, driving him out of bed. Valuable in late stage tuberculosis. (Seneg., Puls., Lyc., Ars.) Stools, sudden, profuse, foul, painless, brown black or thin watery. Itching of anus with sensation as of a stick in rectum. Hemorrhoids.

Sensations

Eyes pain as if from dryness. Tongue as if burned. Lump in throat, it descends on deglutition, but immediately returns. Hard substance in pit of stomach. Pressure of a stick in rectum. As if head would fly to pieces (with cough). As if he might raise blood any minute. As if cough did not reach low enough to raise phlegm. As if heart suddenly stopped. Hands cold when coughing. As of a hard substance in the pit of stomach.

Skin

Acne vulgaris on back. Intense itching of skin, especially of lower limbs, worse exposure to cold air or when undressing. Urticaria, contagious prurigo.

Sleep

Sudden sleepiness. Sleep: disturbed, wakeful, restless, short naps and unpleasant fancies, even when awake. Unpleasant dreams of danger and trouble.

Stomach

Chronic gastritis, aching pain in pit of stomach and shooting in the chest, extends towards the throat-pit, worse any motion or talking. Hiccough, heartburn, nausea. Talking aggravates stomach symptoms. Tight suffocative heavy ache in epigastrium to back, clothes feel tight. Eating meat causes belching and itching. Nausea, better by belchings.

Teeth

Pain in teeth of both sides, morning. Toothache: entirely better after eating dinner, better by rinsing with cold water.

Temperature

Sweat on waking from a sound sleep.

Throat

Hawks much tenacious mucus. Throat feels hollow. Lump, not better by hawking, descends and rises again after swallowing. Rawness of larynx and trachea.

Comments

A keynote of many Rumex cases is sensitiveness to cold air. The cough and skin symptoms are worse by uncovering or exposure to air. Guernsey thus describes the cough of Rumex: "Cough caused by an incessant tickling in throat-pit, which tickling runs down to the bifurcation of the bronchial tubes touching the throat brings on the cough, by covering up all the body and head with the bed-clothes there is no cough."

Correspondingly this symptom of Paine's has led to many cures of skin cases: "While undressing and for some time after, considerable itching of surface of lower limbs" where exposure to air is again the exciting cause.

The characteristic diarrhea of Rumex occurs in the early morning, driving the patient out of bed. Diarrhea comes on after catarrh and is often associated with the characteristic cough of the remedy. The Rumex cough causes expulsion of urine and it may even cause expulsion of the fetus in pregnant women.

P. P. Wells relates this case: Mrs. X. had eight miscarriages all in the early months of pregnancy. Each miscarriage being attended with a severe dry, shaking, spasmodic cough in attacks of great violence. This was regarded as the cause of the miscarriages.

At the beginning of the ninth pregnancy she came under homeopathic treatment. The cough came on Very dry, harsh, loud, shaking, worse at night, preventing sleep, excited instantly by pressure on the trachea. Rumex 30c promptly relieved.

Wells also cured with Rumex 200c the following in a man: Cough beginning with tickling behind top of sternum, sometimes in paroxysms lasting for five to ten minutes.

Trachea sore to external pressure, feels excoriated through its whole extent, as also do the fauces. Cough is excited by pressure on throat-pit. Violent cough with a scanty difficult expectoration.

PAGE 1455

Shakes head as if it would fly to pieces and chest so that he feels he might raise blood any minute. Paroxysms exhaust him, headache during cough.

Joslin pointed out the left chest had more verified symptoms than any other region.

Further conditions of Rumex are worse lying on left side, better lying on right side.

Worse at 11 p.m. and 4 a.m. Another condition of the cough is that it is induced or

worse by any irregularity of respiration, such as a little deeper breath than usual or a little more rapid. Cough when eating.

The flatulence and rumbling of Rumex are well marked and it is the best general remedy for the painless but annoying borborygmi frequently complained of by women. The left side is more markedly affected than the right. The circulation is much disturbed, violent palpitations of the heart and throbbing throughout the whole body being noted.

Compare

(1) Caust., Sulph., Bell., (2) Rumex contains chrysophanic acid to which the skin stitches correspond.

(3) Rumex-a. - Sheep sorrel - Gathered in June and dried, used locally for Epithelioma of face. Dry, unremitting short cough and violent pains in bowels, uvula elongated inflammation of esophagus, also cancer.

(4) Rumex obtusifolius - Broadleaf dock - nosebleed and headache following, pain in kidneys, leucorrhea.

Russula foetens

Pharmacy

Russ. Russula foetens. N. O. Fungi. Tincture of the fresh mushrooms. Historical dose: Tincture and all potencies.

History

Some species of Russula are edible and are much esteemed as a food on the Continent. Alphonse Barrelet observed the effects of eating cooked Russula foetens, which produced a very severe poisoning. **Planets:** Moon.

Homeopathic

Russ. has produced hallucinations, muscular tremors and clonic spasms recall the effects of Agar. The eye symptoms were even more pronounced, complete blindness lasting many days occurred with this peculiarity of the pupil, that it was sometimes normal, sometimes dilated and sometimes contracted.

Constant trembling of muscles, at times interrupted by tonic contractions increasing to general clonic spasms with complete loss of consciousness. Patient recovered after two or three weeks.

Clinical

Bedwetting. Blindness. Chorea. Convulsions.

Symptoms

MIND

Hallucinations constant for three days after spasms ceased. Unconsciousness. Muscular spasms, deathly anxiety, dyspnea.

Abdomen

Nausea, colic, vomiting, diarrhea, cold limbs.

Eyes

Pupils at one time normal, at another time dilated, at another contracted. Consciousness returned on third day, patient could hear but was completely blind.

Face

Cyanosis.

Kidneys

Involuntary urination.

Lungs

Dyspnea.

Pulse

Pulse small and contracted.

Skin

The attack was followed by pseudo-erysipelas on elbows and painless furuncles over whole body, especially on scapulae and small of back.

SOURCES

Ruta graveolens

(garden rue)

Pharmacy

Ruta. *Ruta graveolens*. Garden Rue. Bitterwort. N. O. Rutaceae. Tincture of whole fresh plant. Historical dose: Tincture and all potencies, first to 200c potency.

Herbal

The common Rue of our gardens is a native of Southern Europe. It was formerly in great repute in medicine for epilepsy, hysteria, hydrophobia and weakness of sight from excessive reading.

PAGE 1456

Ozaena, nosebleed, foul gumboils, flatulent colic inertia of the bowels, having been cured with it empirically, (Teste).

Ruta graveolens was also supposed to be a kind of universal antidote: "Even in our own time the Roman ladies imagine that the most odoriferous flowers may be left in their rooms without the least danger provided a bush of garden rue be amongst them" (Teste).

Practitioners have perhaps been deterred from employing it by the symptoms of acrid-narcotic poisoning induced by an overdose. Locally applied Rue is a powerful irritant and one species, *Ruta Montana* is dangerous to handle even with gloves, (Treasury of Botany)

Ruta is "useful in feverish complaints, promotes perspiration and removes noxious material in headache, nervous and hysteric complaints, weakness of the stomach and pains in the bowels, suppressed menses and if taken for a long time it benefits epilepsy. The expressed juice benefits nightmare" (Green's Herbal).

In large doses it causes violent gastric pains, excessive and sometimes bloody vomiting, profuse salivation and swelling of the tongue, great prostration, confusion of mind and convulsive twitchings with in. pregnant women, miscarriage (M. Helie).

Hahnemann's proving shows how largely the old uses were founded on a homeopathic relationship. The vulnerary remedies indicate in symptoms of their provings the peculiar form of injuries for which they are adapted.

The sprained pains of Rhus-t., the bruised pains (in skin and muscles) of Arn., Ruta also has bruised pains, but these are more particularly manifested in bones.

In olden times it was used to ward off plague. "It certainly acts strongly on deposits of scirrhus material in both the breasts and in the vagina and sometimes lessens the size of these" (Cooper).

Homeopathic

Ruta is one of the chief remedies for injured joints, tendons, bones and especially bruised bones. Ruta graveolens is the chief remedy for injured or bruised bones, therefore the pains are bruised, sore, aching with restlessness. feeling of intense painful weariness.

Acts upon the eyes and uterus. **Eyestrain.** Overstrain of ocular muscles. This remedy has a special affinity for fibrous tissue, flexor tendons, joints, ankles, wrists, cartilages, periosteum, uterus and skin.

Lameness after sprains. Sprains with weakness in joint, (after Arn.). Complaints from straining flexor tendons especially. All parts of the body are painful, as if bruised.

Tendency to the formation of deposits in the periosteum, tendons and about joints, especially wrist. Jaundice. Feeling of intense lassitude, weakness and despair.

Heaviness, as of a weight in forehead or hanging to feet or lower limbs. As of a rough blunt plug in part, head, nose etc. Paralytic rigidity. Distortions. GratingÑburning pains, neuralgia.

Rheumatism. Formation of deposits or nodes in the periosteum, tendons and about the joints especially wrists. Lameness after sprains. Bones brittle. Lain on parts become sore, even in bed. Feeling of intense lassitude, weakness and despair.

Clinical

Amblyopia. Anus, prolapse. Bedwetting. Bone, bruised. Bruises. Bursitis. Cartilages, bruises, pains. Chest, pains. Constipation. Dislocations, joints. Dyspepsia. Exostosis. Eye-strain. Facial paralysis. Fevers. Fractures. Ganglion. Hemorrhages. Hands, pains. Joint injuries. Nosebleeds. Paralysis. Perichondritis.

Periostitis. Rectum, cancer. Rectum, prolapse. Restlessness. Rheumatism. Sciatica. Spleen disorders. Sprains. Stammering. Tongue, swelling. Urination, difficulty. Varicocele. Veins, swollen, varicose. Warts.

PAGE 1457

Causations

Ill effects of bruises, fractures, carrying heavy weights. Bone or joint injuries. Sprains. Carrying heavy weights. Over-exertion of eyes. Overuse of tendons. Dyspepsia from straining stomach by carrying heavy weights. Going up and down stairs causes hamstrings to feel shortened and weak.

Constitutions

Ruta is specially suited to robust, bloody persons and corresponds to hemorrhages from nose (with pressure at root), gums, rectum. **Planets:** Mars, Saturn.

Modalities

Better from lying on back, warmth, motion, rubbing, scratching. Worse from overexertion injury, sprains, eye-strain, coldÑair, damp, wind, wet. Worse from lying down, sitting, pressure on an edge, stooping. Worse during menses, uncooked or

indigestible food, exertion, ascending, descending steps. Ascending aggravates. Worse reading and straining eyes. Exertion aggravates.

Symptoms

MIND

Dissatisfied with himself and others and disposed to weep. Suspicious, imagines that he is always being deceived. Fretful, quarrels and contradicts.

Abdomen

Painful swelling of the spleen. Cancer of lower bowel. Gnawing pressure in hepatic region. Gnawing and eating pain about navel. Sick feeling in abdomen followed by soft stools.

Back

Spine and limbs feel bruised. Small of back and groin pain. Weak, bruised feeling in lower back. Vertebrae slip out of place easily. Pain in nape, back and loins. Backache from injury or strain, better pressure and lying on back. Lumbago worse morning before rising. Coldness of spine, downwards.

Chest

Short breath with tightness of chest. Painful spot on sternum. Ill effects of mechanical injury to chest.

Ears

Pain as from a blunt piece of wood. Earache with scraping pressure. Itching lancinations in ear. Pain in cartilage of ear and under mastoid process as from a bruise.

Eyes

Eye-strain. Weary pain while reading. Eye-strain with headaches. Red, hot and painful from reading fine print, sewing. (Nat-m., Arg-n.) Disturbances of accommodation. Pressure deep in orbits. Tarsal cartilage feels bruised. Pressure over eyebrow. **Itching inner canthi.** Lachrymation. Spasm in lower eyelids, when it ceases, lachrymation starts. *Asthenopia.* Vision dim.

Face

Spasmodic tearing in cheek-bone. Itching and gnawing at face and on cheeks. Erysipelas in forehead with swelling. Eruption of pimples on lips. Lips dry and sticky. Acne.

Female

Corrosive leucorrhoea after irregular or suppressed menses. Sterility. Vaginal pruritus. Menses very irregular. Symptoms worse at menstrual period. Bearing-down pains. Miscarriage, at seven months. Lameness and soreness all over with feeble contractions during labor.

Food

Violent thirst for ice cold water. Disgust at first mouthful with a sensation of fullness and satiety in abdomen.

Head

Aches as if a nail is driven into it. Stitches worse reading. Pain as from a nail after excessive intoxicating drinks. Periosteum sore.

Kidneys

Pressure in neck of bladder after urinating, painful closure. (Apis) Constant urging to urinate, feels bladder full. If forcibly retained she could not pass afterwards with severe pain.

Limbs

Bursitis. Cracking in joints, worse walking in open air. Contraction of fingers. Pain and stiffness in wrists and hands. Ganglion of wrist. (Calc-f.) Nodes in palms. Legs give out on rising from a chair. (Phos., Con.) Paralytic weakness of legs after spraining of the back.

Sciatica, worse lying down at night, pain from back down hips and thighs. Great restlessness. Hamstrings feel shortened. (Graph.) Thighs feel broken, worse when stretching the legs. Pains as if deep in long bones, must walk about. Knees give way, while ascending and descending stairs. Tendons sore. Aching pain in Achilles tendon. Pain in bones of feet and ankles. Ankles swollen from strain or injury.

PAGE 1458

Lungs

Cough with copious, thick, yellow expectoration, chest feels weak. Painful spot on sternum, short breath with tightness of chest. Weak feeling in chest after thick, yellow, sputum.

Mouth

Cramp in tongue, causing embarrassment of speech. Woody taste. Mouth dry and glutinous. Cramp in tongue with embarrassed speech. Profuse salivation and swelling of tongue.

Neck

Drawing in nape of neck and in the shoulder-blades.

Nose

Sweat on. Pressive aching at the root of nose with nosebleed. Acute and hard aching in root of nose. Perspiration on back of nose.

Rectum

Stricture of rectum. Difficult feces, evacuated only with straining. Feces often escape when stooping. Constipation, alternating with mucous, frothy stools, discharge of blood with stool. When sitting, tearing stitches in rectum. Cancer affecting lower bowel. Prolapse of anus on stooping after delivery during stools hard or soft. Protrusion of rectum when stooping. Urging to stool, but only rectum prolapses.

Sensations

Pain as if from a fall in periosteum. As if a nail were driven into head. Head as if bruised or beaten. **Eyes**, as if strained, as if a shadow flitting before them, as after looking too long and intently at an object, as if eyes were balls of fire. As if one were digging about in the ear with a blunt piece of wood. As of a lump in throat. Bladder as if constantly full. Spine as if beaten and lame. Wrists as if sprained.

As if pain were in marrow of bone or as if bone were broken. Thighs as if beaten, as if weak. As if there were an ulcer on ankle. All parts of body bruised at night, feeling as if it were time to rise.

Skin

Easily chaffed from walking, riding, also in children. Erosive itching. Flat smooth painful warts, on palms. Itching after eating meat.

Sleep

Wakes frequently, vivid, confused dreams. Yawns, stretches and extends hands.

Stomach

Pains in stomach after eating bread or crude and indigestible food. Sudden nausea when eating with vomiting of food. Burning, gnawing pain. Dyspepsia from carrying heavy weight. Nausea felt in rectum Tension in stomach better drinking milk.

Temperature

Frequent attacks of quick flushes of heat. Glowing heat on face, skin etc.

Vertigo

Whirling vertigo, which causes falling when rising in morning. Vertigo also when seated and when walking in open air.

Comments

This vulnerary power of Ruta does not appear to have been known before the provings were made. But impaired sight due to straining the eyes was an old use of the remedy and here are symptoms from the provings:

"His eyes feel as if he had strained the sight too much by reading," "Weak, pressive-like pain in right eye with dimness of surrounding objects, as if from having looked too long at an objects that was fatiguing to the eyes," "A feeling of heat and burning in the eyes and pain in them when he reads (in the evening and by candle-light)." Each of these symptoms was experienced by a separate prover.

Another effect of bruising is seen in prolapse of the rectum after confinement. But Ruta has independently of this, a powerful action on the rectum and caused prolapse in the provers and many severe symptoms. Tearing stitches in rectum when sitting.

The prolapse is worse by stooping and especially by crouching together, it comes on immediately on attempting a passage.

Rushmore cured with one dose of Ruta 900c (Fincke) a case of prolapse preceding a very difficult stool. Tearing in rectum and urethra while urinating. Constipation from inactivity of rectum or impaction of feces following mechanical injuries.

PAGE 1459

A curious clinical symptom is a sensation of nausea located in the rectum. Among the general symptoms are: Great weakness after a short walk, limbs feel bruised, small of back and loins painful. Tottering as if thighs were weak, limbs pain when walking.

Does not know where to lay his legs on account of uneasiness and heaviness, lies now in one place, now in another and turns from side to side. All parts of the body on which he lies, even in bed, are painful as if bruised. Facial paralysis from catching cold in robust, sanguine persons. Rheumatic paralysis of wrists and ankles.

Restlessness is a frequent concomitant of Ruta conditions. A peculiar symptom is cramp in the tongue with embarrassed speech.

A prolonged use of Ruta 3x has cured ganglion in front of left wrist. Slow pulse, contracted pupil, salivation and swollen tongue are features of its action.

Sore spot on sternum, ameliorates pain below right scapula and stitches in small of back. Backache ameliorates lying on back This is characteristic and has led to many cures and the relief of a case of malignant disease of kidneys and bladder.

This is important in connection with a use Cooper has made of Ruta ointment, prepared by extracting the plant in warm Vaseline as an application in broken cancer of the breast.

Compare

PAGE 1460

Sabadilla

(cevadilla seed)

Pharmacy

Sabad. *Sabadilla officinalis*. *Asagraea officinalis*. Cevadilla seed. *Veratrum officinale*. N. O. Melanthaceae of the Liliaceae. Tincture of seeds. Historical dose: Tincture and all potencies, third to thirtieth potency.

Herbal

Asagraea is a Mexican genus belonging to the Colchicum family, Melanthaceae. It has only one species, *Asagraea officinalis*, which furnishes the Cevadilla seeds from which Veratrine is prepared. The seeds were formerly used to destroy vermin, (Treasury of Botany).

Sabadilla first appears in homeopathic literature as one of Stapf's additions, Hahnemann being one of the provers. Stapf's Additions forms a kind of appendix to the *Materia Medica Pura*. The plant, says Stapf, was first described by Monades about the year 1572. At first it was almost exclusively used for destroying lice and also worms in putrid ulcers and in the intestines.

Homeopathic

Sabadilla has affinities for the mucous membranes of nose, lachrymal glands, anus, digestive tract and the nerves are affected by this remedy. Action on the nose and the lachrymal glands, producing coryza and symptoms like hay fever. Chilliness, sensitive to cold. Ascarides with reflex symptoms, like nymphomania or convulsive symptoms. Children's diarrhea with constant cutting pains.

Alternate nervous and bodily symptoms. Hysteria after fright. Imaginary diseases. Nerves are affected, producing weakness, nervousness, startled easily. Nervous symptoms reflex from worms with twitching, convulsive trembling or catalepsy. Formication. Cutting pains in bones. Hay fever. Allergies. Worms.

Clinical

Allergies. Colds. Coryza. Coughs. Debility. Diphtheria. Dyspepsia, pregnancy. Earache. Esophagus, stricture.

Hay fever. Headaches. Imaginary diseases. Influenza. Intermittents. Lice. Mania. Melancholia. Neuralgia. Nosebleed. Rheumatism. Tapeworm. Throat, sore. Toothache. Uvula elongated. Vertigo. Worms.

Causations

Ill effects of fright, mental exertion, thinking. Worms, causing convulsions, nymphomania.

Constitutions

It is suited to sensitive persons of light hair, fair complexion with a weakened, relaxed muscular system. Children. Old people. **Planets:** Sun, Moon.

Modalities

Better from heat, warm food and drink, wrapped up. Better from open air, eating, swallowing, quick motion of affected part. Warm stove ameliorates chilliness. Worse from cold air. Cold drinks aggravates toothache. Worse odors, undeveloped rash, mental exertion. Worse periodically, even week, two weeks, four weeks, same hour. Worse from wine. Worse forenoon, new and full moon.

Symptoms

MIND

Mental exertion worse. Fright causes hysterical paroxysms. Thinking produces headaches and sleeplessness. Feels miserable. Nervous, timid, easily startled. Erroneous, fixed ideas about himself, imagines he is very sick, that parts are sunken, limbs are crooked, chin is elongated, one side larger than the other.

Imagines that she is pregnant or that she has cancer. No response to questions, loss of consciousness, then he jumps up and runs recklessly through the room. Rage. Mania better washing head in cold water. Delirium during intermittents.

Abdomen

Bowels feel knotted. As of a lump or thread moving rapidly in abdomen.

Back

Contusive pain in back and loins, especially when seated. Burning-tingling stinging sensation between scapulae. Stitches in rapid succession in right side of back.

PAGE 1461

Chest

Pressure on the chest. Burning sensation in the chest. Breathing obstructed, as if there were a stone in the chest. Shootings in sides of chest. Inflammation of pleura. Red spots and points on chest.

Ears

Deafness as if there were a band over ears. Otalgia with troublesome pressure with snapping as of electric sparks before ears. Tickling in ears. Itching at anus alternately with itching in ear. Burning itching and shootings in tips of ears. Humming, gurgling, and detonation in ears. Boring in parotids.

Eyes

Eyelids red, burning. Lachrymation, worse during pain, sneezing, coughing, yawning. Pressure on eyeballs, especially when looking up. Redness of margins of eyelids. Weakness of sight.

Face

Feels hot, fiery red. Lips hot, burn as if scalded. Heat of face with fiery redness, especially after drinking wine. Blue circles round the eyes. Boring in lower jaw and submaxillary glands. Cracking of the articulation of the jaw on opening mouth wide.

Female

Menses too late, come by fits and starts intermit, sometimes stronger, sometimes weaker. (Kreos., Puls.) Nymphomania from worms.

Food

Desires, hot things, sweets, milk. Thirstless. Canine hunger for sweets and farinaceous food. Loathing for strong food. Aversion to all food, meat, sour things, coffee, garlic. No relish for food until she takes first mouthful then she makes a good meal during pregnancy.

Head

Dullness and oppression. Unilateral head pains or alternating sides, worse thinking. better eating. Burning, itching, crawling on hair scalp better scratching. Headache in school girls.

Heart

Palpitations with pulsations through whole body.

Kidneys

Urgent want to urinate, especially in evening, with tenesmus and scanty emission. Increased secretion of urine. Turbid, thick urine, like clay-water. Burning in urethra when urinating.

Limbs

Upward jerking of arms. Cutting pains in bones. Red spots on arms and hands. Yellow spots on fingers. Swelling of feet with painful soles. Cracking of skin under and beneath toes inflammation under toe-nails. Thickened, deformed horny nails. (Ant-c.)

Lungs

Asthmatic breathing with itching of skin, nose and anus. Wheezing respiration. Breathing obstructed, as if there were a stone in the chest. Short, difficult breathing. Violent coughing attacks, muffled, worse anger with lachrymation. Hawking up of bright red blood, which comes from the nose. Cough dry with perspiration and water in the eyes. Cough immediately on lying down. Pleurisy with great paralytic debility.

Male

Digging and pressive pain in testes. Diminished sexual desire. Tensive and painful erections, without desire for sex. Pollutions with flaccidity of penis.

Mouth

Itching of the soft palate. Sweetish taste. Cannot bear anything hot or cold in mouth. Cannot protrude tongue with sore throat. Lips as if scalded. Tongue as if burnt. Tongue as if full of blisters. Pricking, soreness in tip of tongue. Dryness of the mouth without thirst. Copious accumulation of sweetish saliva in the mouth. Jelly-like saliva.

Nose

Influenza. Hay fever. Spasmodic sneezing with running nose. Copious, watery, nasal discharge. Coryza fluent, worse from the odor of flowers, even thinking of flowers increases the discharge. Oversensitiveness to odors. Coryza with severe frontal pains and redness of eyes and lachrymation. Dry. Itching, tickling in nose, rubs or picks at it. Tickling in nose spreads over the whole body then dyspnea. One or the other nostril

stuffed up. Cannot tolerate the smell of garlic. Hawks bright red blood from nasopharynx.

Rectum

Constipation. Itching, crawling in anus, alternating with itching in nose or ears. Stools burning, frothy, loose brown, floating. Broken, hard, scanty stools. Pinworms.

Crawling in rectum and anus as from ascarides. Worms, lumbrici, tapeworm.

PAGE 1462

Sensations

As if things were turning around each other. As if she would fall if she did not hold on to something. As if eyes went round with the whirling sensation. As if uvula were down. As if esophagus would be closed. As of a lump in abdomen. As if a ball of thread were moving and turning rapidly through abdomen. As if knives were cutting abdomen. As if abdomen were shrunken, were empty. Croaking as of frogs in abdomen. As of something alive in abdomen. As if stomach were gnawed.

Skin

Parchment-like dryness of skin. Hot burning, creeping and crawling sensation. Itching with asthmatic breathing. Tingling and burnings shooting under skin. Red bands, spots, and points in different parts of skin.

Sleep

Great inclination to sleep during day. Comes on when thinking, meditating or reading. Agitated and unrefreshing sleep at night with anxious dreams. Sleep retarded by a multitude of thoughts. In the morning he starts up from his sleep as from a fright.

Stomach

Spasmodic pain in stomach with dry cough and difficult breathing. **Heartburn**, copious salivation. Cold, empty feeling in stomach.

Teeth

Toothache with drawing and pulsative pain. Shooting pains in molars. Decay of teeth. Gums bluish. Pricking in gums.

Temperature

Chill predominates from below upwards. Heat in head and face, hands and feet icy cold with chill. Shivering as a concomitant. Thirstless. Thirst after chill only. Lachrymation with chill.

Throat

Sore throat, left to right, worse empty swallowing better hot drinks. Tonsillitis after coryza. Much tough phlegm. Sensation of a skin hanging loosely, must swallow it. Warm food and drink relieve. Empty swallowing most painful. Dry fauces and throat.

Sensation of a lump in throat with constant need to swallow. Chronic sore throat, worse from cold air.

Vertigo

Vertigo with sensation as though all things were turning around each other. Vertigo accompanied by blackness before eyes and sensation of fainting. Vertigo, sudden on waking at night or rising from stooping, better resting head on table.

Comments

Stapf points out that the provings reveal strong febrile symptoms. Sabad. may be as clock-like as that of Cedr. and renders it a leading remedy in intermittent fevers and

neuralgias. Sabad. is a chilly remedy, the symptoms, especially the coryza, being generally worse in the open air.

The catarrhal symptoms are very severe and correspond to many cases of hay asthma. Sore throats characterized by a sensation of a lump or foreign body in the throat and a constant necessity to swallow, have frequently cured with Saba.

Kent says it is suited to "old, chronic sore throats that are Worse from cold air. The patient is sensitive to cold air. Every time he takes cold it settles in his nose and throat. Tonsillitis going from left to right."

The desire for hot drink distinguishes Sabad. from Lach. The traditional use of Sabad. as a destroyer of parasites is depicted in the provings: "Violent itching of hairy scalp, compelling her to scratch until blood comes." "Itching of the vertex as if a quantity of vermin had collected there, obliging him to scratch incessantly." "Itching of anus and rectum as from ascarides." "Itching of anus alternating with itching of alae nasi and meatus auditorius."

Kent gave Sabad. to a pet dog which had great irritation of anus and soon afterwards he passed a very large number of worms. Sabad. has an extreme amount of giddiness in its pathogenesis, it may cause staggering and even fainting. Objects seem to whirl round or to whirl round each other.

Among the mental symptoms are: Tendency to be startled. Erroneous impressions as to the state of his body.

PAGE 1463

Imaginary diseases: imagines parts shrunken, if there is distention from flatus imagines she is pregnant. Sabad. is intolerant of mental exertion, thinking causes headache.

Digestion is disordered and the tongue loaded, sinking at stomach and gnawing hunger. Sabad. corresponds to many forms of indigestion including that incident to pregnancy.

Pressure on larynx causes throat sore. Scratching ameliorates itching of scalp, causes burning of anus. Lying perfectly still ameliorates vertigo. Lying down causes cough immediately, worse expectoration. Sitting aggravates vertigo. Rising from seat causes vertigo. Opening mouth wide causes cracking of jaw joints.

Compare

(1) Colch., Nux-v., Bry., Arundo and Pollatin.

(2) Veratrina is alkaloid of Sabadilla, not of Veratrum, locally in neuralgias and for removal of dropsy. Five grains to two drams. Lanolin, rubbed on inside of thighs, causes diuresis.

(3) Phleum pratense - Timothy-Hay - Potentized to 12c a specific to many cases and evidently acts in a desensitizing manner.

(4) Cumarinum - hay fever.

Sabal serrulata

(saw palmetto)

Pharmacy

Sabal. Sabal Serrulatum. Saw palmetto. *Serenoa serrulata*. N. O. Palmaceae. Sandy soils sea coast South Carolina to Florida, most luxuriant nearest the sea. The tincture must be prepared from the fresh berries to be effective. Historical dose: Tincture and all potencies, tincture, ten to thirty drops, third potency.

Herbal

In his book entitled *Saw Palmetto*, Hale has put together most of our available knowledge respecting this plant.

It is a dwarf palm with creeping (or leaning), branching stem, the edges of leaf and petioles serrate, roots fibrous, large, half exposed. The fruit the so-called "berry" is a one-seeded dupe about the size of an olive, dark purple when ripe and ripening in October and November.

The fruit is richer in sugar than sugar-cane and contains two oils, one volatile and one fixed. The volatile oil is considered to possess the most characteristic properties of the medicine. Hale describes it as "yellow," but he quotes John Uri Lloyd of Cincinnati, as writing to him, "The principal constituent is a volatile oil. This oil possesses a deep green color." And he goes on to say that the color is not due to chlorophyll nor to the copper of the form used in condensing it.

This agrees with Estep's contention that the preparation of Sabal should be dark-green or grass-green. The preparation Estep used was a Fluid Extract prepared by Burrough Brothers of Baltimore from the "fresh green berries." Hale directs that the fresh ripe berries should be used.

(1) Tincture of fresh ripe berries and seeds, all crushed and macerated in 90 per cent. alcohol for fourteen days and decanted (Hale). (2) Fluid Extract, "probably four times stronger than the tincture" (Hale). C. S. Estep uses a dark-green Fluid Extract which is made from the fresh green berries and is "almost as green as grass and has an oily surface." He makes his dilutions from this. Other preparations have disappointed him.

(3) Oil prepared from the expressed juice of the fruit by allowing it to stand a few days.

(4) Saccharated oil, one part of the oil to seven parts of cane sugar. (5) Malted Sabal one part of the Oil to seven of Maltine. (6) Aqua Olei Sabal is a preparation suggested by Hale made by triturating 15 drops of the Oil with Mag-carb. 3j. gradually adding a pint of distilled water and decanting. For use as a spray.

PAGE 1464

Homeopathic

Sabal is homeopathic to irritability of the genito-urinary organs, especially the prostate, ovaries, breasts, bladder and urethra are influenced by this medicine. It is soothing to the mucous membranes and is tonic, nutritive and stimulating to the over worked brain.

Prostate enlargement and weakness. General and sexual debility. The head, stomach and ovarian symptoms marked. Unquestioned value in epididymitis and urinary difficulties.

Acts on the prostatic portion of urethra. Iritis with prostatic trouble. Valuable for undeveloped breast glands. Languor, apathy and indifference. Fear of going to sleep.

Promotes nutrition and tissue building.

Sharp, stinging and wandering pains. Homeopathic catheter for retention of urine due to enlarged prostate. Nervous women and old men. Nervous irritability with loss of sexual desire in both sexes. Sexual neurotics. Debility. Small and undeveloped genitals.

Clinical

Appendicitis. Asthma. Atrophy. Backaches. Bedwetting. Breast-feeding, disorders. Bronchitis. Catarrh. Cystitis. Dysmenorrhea. Dysuria. Gland disorders. Gleet. Gonorrhoea. Headache. Hoarseness. Impotence. Infertility. Iritis. Laryngitis. Lumbago. Malnutrition. Menses, delayed. Neuralgia. Neurasthenia. Obesity. Ovaries disorders. Peritonitis. Pharyngitis. Proctitis. Prostate, disorders. Puerperal fever. Rhinitis. School, headache. Strangury. Testes, atrophy. Throat, sore. Tuberculosis. Urine incontinence. Uterus, disorders. Whooping cough.

Constitutions

Sycotic constitutions. **Planets:** Venus, Moon.

Modalities

Better from after sleep. Worse from cold, damp, cloudy weather. Worse from sympathy, before menses. Worse in early morning from rising to bedtime. Worse by motion. Backache worse after sex. Catarrhal symptoms are worse in cold, damp weather. Cough worse on lying down at night. Worse Before menses (depression).

Symptoms

MIND

Thinking difficult, cannot grasp or remember what is read. Irritability and depression. Dislikes sympathy, makes her angry. Self-concentrated on her own sufferings, wants to be left alone. Apathy. Indifference to wants of others. Confused. Fears to fall asleep lest something should happen. Starts up with fear as he is dozing. Impatience, fretfulness. Dwells on her symptoms. Wants to go away and die alone. Fearfully depressed before menses.

Abdomen

Suddenly most intense, cramp-like pain through abdomen. Stinging pains running up left side of abdomen. Sharp pains running up and down front of abdomen, and also right side.

Back

Aching across lower part of back. Backache after sex. Pain in sacral region before commencement of menses. Deep pains in lower back. Fearful backache, before and at commencement of menses.

Breasts

Defective lactation. One breast smaller than other. Breasts shrink in size. (Iod., Kali-i.) Breasts, sore tender and full feeling. Breasts stinging, soreness worse after cold bath. Sharp pains in mammary glands. Itching of breasts. Breasts increased fully one-third in size (in less than three months.)

Chest

Sharp pain in left side of chest, running through left breast.

Ears

Hearing diminished, voices seem far off. Chronic inflammation of middle ear. Fullness in nose and ears. Frequent sharp, stitch-like pains inward from ears. Hearing diminished, voices seem far off.

Eyes

Iritis when prostate gland is involved. Dim vision during headache.

Face

Papular eruption on left temple and about mouth. Slight neuralgia in right temple and right jaw. Pallor.

Female

Ovaries tender and enlarged. Ovarian pains running down the thighs. Stinging pain in ovary. Sharp pain in right ovary, running down right thigh. Vulva feels open. Sexual passion furious. Sexual neurotics with suppressed or perverted sexual inclination. Stinging pain in uterus. Heavy feeling over womb.

Awakened by a most distressing itching of labia majora. Uterine tumor.

PAGE 1465

Food

Desire for milk. (Rhus-t., Tub.). Constant desire for milk, which is usually disliked. Appetite good throughout proving. Appetite poor and capricious.

Head

Severe headache with giddiness and dim vision. Headache of weak persons. Neuralgia in feeble patients. Sharp, darting pains here and there going and coming suddenly. Pain runs up from nose and centers in forehead. Dull, aching pain in right temple and on vertex. Pain running up from nose and centering in forehead. Pain and irritation at base of brain and upper third of cervical spine, (Gels.). Sensation as if something tightening in brain.

Kidneys

Constant desire to pass urine at night. Bedwetting, paresis of bladder sphincter. Incontinence from any exertion, lifting, laughing. Heavy aching pain and sense of coldness in bladder extending to external genitals. Cystitis from prostate enlargement. Difficult urination, smarting, burning in urethra. Chronic gonorrhoea. Urinary sediment. Painful urination, connected with ovarian pain. Feeling as if bladder too full, starting the flow was painful as if forced through very narrow meatus. Feeling as of a stricture about two inches down urethra. Pain or irritation in region of kidneys. Excruciating pain and fainting on being raised up to urinate.

Limbs

Annoying eczema of hands. Pains into thighs, radiating to different directions, settling in ovaries. Sharp pain running down thigh. Aching in knee and calf of leg.

Lungs

Chronic bronchitis. (Stann., Hep.) Copious expectoration with catarrh of nose. Wheezing cough, worse lying down, until 6 a.m.

Male

Genital organs feel cold. Prostatic troubles with discharge of prostatic fluid. Enlarged prostate. Atrophy of testes. Epididymitis. Testes drawn up, painfully.

Impotency, loss of sexual power. Sex is painful at the time of emission. Semen thick, causes hot feeling along the cord. Sexual neurotics. Coldness of external genitals. Dull aching in prostate extending into abdomen. Drawing pains in spermatic cords. Shrunken testes increase in size. Hard erections. Slight twisting chordee as if stretched from the root.

Mouth

Pungent burning sensation in mouth and fauces, causing sneezing, coughing, and gagging. As if mouth coated with fat. Burning on tongue as if scalded.

Nose

Sneezing and lachrymation, coughing and gagging. Pain running up from nose and centering in forehead. Fullness in nostrils compelling him to pick them.

Rectum

Hemorrhoids with dryness of stool and pressure from within out. Stools dark, almost black. Stools unusually easy, free from hemorrhoidal troubles.

Skin

Papular eruption on face. Annoying eczema of hands.

Sleep

Fears to fall asleep, lest something should happen, starts up with this fear when he is dozing. Awakened by stinging pains in ovaries. Awakened by a distressing itching of labia majora.

Stomach

Belching and acidity. Sharp pain running through stomach. Severe pain in left side of stomach. Irritation of stomach. Acute gastritis, fearful burning as from Sulphuric acid, could not take meat, vegetable, or pudding, only bread and milk.

Throat

Voice changed, throat feels husky. Sharp pain in left side of throat. Pungent, burning sensation in fauces, followed by smooth sensation, as if coated with oil.

Vertigo

Vertigo with headache from fumes of oil.

Comments

The preparation used by Dr. Mullin's prover was made by Boericke and Tafel. All are agreed that preparations of the dried fruit and of the root-bark do not possess the curative powers of the remedy.

PAGE 1466

While on a trip through the wilds of Florida, Hale observed the great fattening properties of the berries on animals. During summer food is scanty and the wild animals become very thin, but as soon as the Palmetto fruit ripens they improve rapidly and in a few weeks have put on so much fat that they become an easy prey to the hunter. This fat, says Hale, "consists principally of olein and will not make lard."

Sabal serrulata was introduced into medicine by J. B. Read and A. A. Solomon, both of Savannah, Georgia. Read gave a "Saccharated oil," of which he says: "By its peculiar soothing power over the mucous membranes it produces sleep and relieves the most troublesome coughs, promotes expectoration, improves digestion and increases fat, flesh and strength.

It has been used with benefit in cardiac asthma, tuberculosis, especially laryngeal, chronic bronchitis and dilatation of the bronchial tubes. Its action in catarrhal disorders is rapid and permanent. A cold in the head may be checked with two or three doses (of the saccharated oil) mixed with boiling water and used by inhalation it has been found beneficial in chronic ozaena."

In all the provings the tincture or Fluid Extract, were used in from 5 to 10 drop doses, repeated two or three times a day and in the clinical use of the remedy a similar dosage has been adopted. *Sabal* is an organ remedy of great power, selecting the uterus and prostatic gland (which is the male analog of the uterus), ovaries and testes and bladder.

Dr. Langton says that though she gives 5 drop doses four times daily in cases of over-worked brain and school-headache for the "tonic, nutritive and stimulating" effect of the

remedy she gives the 1x as soon as relief has been obtained and she finds that the dilution often given greater relief in the headaches than the larger doses.

Mullins also says: "I now found the use of the drug in the 3c and 6c potency curative in nearly all of the diseases of the uterus and appendages.

Also in headache from reflexes uterine troubles in breast abscess, mental irritations and nervous debility".

It well deserves the name of "The Homeopathic Catheter." But, he adds, it must be given on its individual indications.

W. E. Rely published these cases illustrating the prostatic action of Sabal: (1) Mr. J., 56, very despondent, irritable. Sympathy seemed to anger him. Great tenesmus in neck of bladder with heavy, aching pains with sense of coldness extending into external genitals. Occasional sharp pains extending up into abdomen and down into thighs.

Appetite capricious. Constipation chronic. Urination too frequent, disturbing sleep. Sabal tincture was given, five drops night and morning. Steady improvement followed and in eight weeks all the symptoms had gone and with them an annoying eczema of the hands.

(2) Mr. M., 45, for a year had increasing frequency of urination. Despondent, distressed. Appetite capricious. Vertex headache and gastric catarrh. Little sexual desire, sex followed by digging pain in back and tenesmus of bladder with difficulty in commencing to urinate.

Genitals cold, dull aching in region of prostate, extending to abdomen and thighs. Sabal tincture gradually relieved and cured in three weeks.

(3) Mr. E., 35. Frequent urination for 1.5 years. Heavy, dragging pains, extending into back and thighs, back pains much after sex. Considerable loss of prostatic fluid at times. Sexual desire much impeded. Severe headache on vertex and gastric catarrh. All symptoms removed by Sabal tincture.

Hale says E. S. Evans of Columbus, Ohio, considers Sabal "almost specific in iritis when the prostate gland is involved. I have cured cases with the 3x which could not be relieved in any other way."

A. L. Davidson relates a case of impotence in a man, 51, who had difficult urination, tenderness of prostatic portion of urethra, loss of power.

His testicles shrunk, penis shrunk and cold. Sabal tincture, 15 drops, four times a day, was prescribed. At the end of the first week he complained of drawing pains in spermatic cords, there was freer flow of urine, he slept better and felt better.

At the end of the second week the testes were gradually increasing in size. The urethral tenderness had nearly disappeared and erections were established. In two weeks more the cure was complete, the testes were even larger and firmer than normal.

J. Martin Kershaw of St. Louis, treated a young lady of twenty-three who had great difficulty in controlling her urine all her life. Undue exertion, lifting, straining, laughing, caused it to dribble away. Unless she rose several times in the night she was sure to wet the bed. Sabal tincture, one drop, four times a day, was given. In one month she was much improved and under the same remedy she gradually got quite well.

Elias C. Price reports these cases. (1) A very nervous, sensitive lady with chronic inflammation of bladder, frequent painful urination, ten to twelve times in the night and every fifteen to thirty minutes during the day. Spells of pressing pain on rectum, better by warm water enemas, which generally brought away hardened feces.

Lil-t. 3x removed this temporarily. Rectal examination disclosed a hard fleshy tumor the size of half a hen's egg on the posterior aspect of the uterus. Sabal, fluid extract 5 drops, thrice daily, diminished the tumor by half in two months and removed it entirely in three more.

(2) Mrs. X., after first child, she had five days after confinement, irritation of kidneys and a week later symptoms of pelvic peritonitis. Uterus much enlarged, very tender. Did not urinate very often, but when she did the pain was so excruciating that she fainted away and sometimes did not come to for an hour.

For three days no remedy did any good. Then she had violent pain right side of head above and behind the ear and paralysis of left arm and leg, became unconscious and could not be aroused, at times would talk of things which had occurred before her illness insensible to external impressions. She remained thus ten days.

Sabal fluid extract, 20 drops, every two hours, relieved the pain on being raised to urinate after the second dose. Recovery from the other condition was very gradual.

(3) Miss X., 22, had irregular menses for years, having once gone nine months without a period, when she came to Price she was three months past her time, one breast was much smaller than the other.

Sabal fluid extract, 5 drops, thrice daily. In about a month the menses came on freely, lasted four days instead of the usual two. Breasts began to increase in size. In three months one was as large as the other. The following year she again missed her time and Sabal brought it right in a week.

Price has cured with Sabal cases of pelvic cellulitis, peritonitis, puerperal fever inflammation of uterus, tubes, ovaries and even appendicitis and proctitis, especially if the prostatic gland is involved. The Aqua Sabal, Hale found useful as a spray.

Stinging pains appear to be characteristic. Wandering, radiating and cramping pains were also prominent. Sabal has several groups of associated regions of pain: pains affecting head and ovary, ovaries and breasts, lower back and right temple, prostate and eye.

Compare

- (1) Stinging pains in ovaries, Apis, Merc.
- (2) Pain in right ovary and thigh, Apis.
- (3) Breasts painful, Con., Calc.
- (4) School-headaches, worse by sympathy, Nat-m.
- (5) Prostatic affections, Ferr. Pic., Cham., Arg-n., Dig., Solid.
- (6) Prostate and eye, Solid.
- (7) Worse from sex, Kali-c.
- (8) Wandering pains, Kali-bi. the roots of Sabal. are very rich in potash salts.
- (9) Over-worked women, Mag-c.

PAGE 1468

Relations

SOURCES

Boericke. Clarke. Hale. Phatak.

Sabina

(savine)

Pharmacy

Sabin. Sabina. Juniperus sabina. Savine. N. O. Coniferae. Tincture of the young, fresh tops of the branches. Tincture of the oil. Historical dose: Tincture and all potencies, third to thirtieth potency. Locally, tincture for warts.

History

Stapf made the first collection of the symptoms of Sabina and Hahnemann and his son were among the provers. A number of observations on women who had taken the drug to bring on the menses or procure miscarriage have also been added and some cases of fatal poisoning are on record.

A close botanical ally of Thuja, Sabina is yet not too close to be complementary to that great anti-sycotic, broad condylomata, fig-warts with much itching and exuberant granulations are characteristic. Like Thuja, it removes wart-like growths from the mucocutaneous surfaces.

Sabina acts as a widespread irritant inflaming the pyloric end of duodenum and causing patches of inflammation in other portions of the intestines, especially the upper intestines, the omentum and peritoneum, (Cooper).

Homeopathic

The action of Sabina on the generative organs of both sexes is pronounced. It produces fig-warts with itching and burning of the external genitals, phimosis of the male, swelling of the dorsum of the penis, gonorrhoea.

The female pelvic organs, uterus are mostly affected by this remedy. Uterine hemorrhages and in the case of pregnant women, abortion. The hemorrhage is partly pale red and partly clotted, worse from the least motion, but may be better by walking.

The flow is in paroxysms and is accompanied by labor-like pains. Warmth ameliorates pain of dysmenorrhoea. Cold applications ameliorates wandering pains in joints. The dysmenorrhoea pains were better lying on flat of back with limbs extended out. Walking ameliorates the metrorrhagia.

Sabina has pain from sacrum to the pubis. Hemorrhages, where blood is fluid and clots together. Violent pulsations, wants windows open. Also upon serous and fibrous membranes, hence its use in gout. In addition it affects the fibrous tissue of small joints, serous membranes and heels.

Tendency to miscarriage especially at the third month. Violent pulsations, wants windows open. Heaviness and indolence of body, wants to lie down. Red shiny swelling of affected parts. Acutely inflamed arthritic nodes. Sense of fullness. Wart like growths. Pain increases suddenly and decreases slowly. Lies on left side during sleep. Sleepless and restless after midnight.

Clinical

Abortion after-effects. After-pains. Boils. Condylomata. Cystitis. Dysmenorrhoea. Fibroids. Gonorrhoea. Inter-menstrual flow. Leucorrhoea. Menstruation, excessive. Miscarriages. Moles. Nephritis. Nymphomania. Ovary disorders. Penis, cartilaginous swelling. Phimosis. Retained placenta. Rheumatic gout. Strangury. Sycosis. Toothache. Uterus, bleeding. Warts.

Constitutions

It is suited to chronic ailments of women, arthritic pains, tendency to miscarriage to the gouty diathesis. Farrington says it is suited to "plethoric women who suffer from what they call rheumatic inflammation" of the heels. It is suitable to hot blooded women with gouty or rheumatic diathesis, hemorrhagic tendency and nosebleeds, hematuria. **Planets:** Moon, Venus.

PAGE 1469

Modalities

Better from cold, cool open air, exhalation. Worse from least motion, heat, warm air, heat of bed, room, exertion. Worse pregnancy, menopause, night, foggy weather.

Worse stooping, letting limbs hang down, taking a deep breath. Worse from music.

Worse by touch, though pressure better.

Symptoms

MIND

Dejection, discouragement and sadness. Hypochondriacal mood. Irritable nerves. Music is intolerable, it produces nervousness. Great anxiety, fear and apprehension.

Moroseness with dislike to conversation, especially when exercising in open air.

Irrascibility with tears and sobs. Listlessness. Weakness of memory.

Abdomen

Bearing-down, constrictive pain. Colic, mostly in hypogastric region. Tympanitic distention. Congested. Quivering as if something were alive, resembling fetal movements.

Back

Paralytic pain in small of back. Pain between sacrum and pubis.

Breasts

Crawling in nipples. Voluptuous itching in nipples. Stitches in left nipple.

Chest

Pressure on chest. Pressive, spasmodic tension in chest in middle of sternum. Trembling in the lungs with dull rattling and crackling. Lancinations.

Ears

Pinching in ears. Hardness of hearing. Gets deaf in foggy weather or any change of weather, also when tired.

Eyes

Tensive pain in eyes, as if muscles too short. **Eyes dull and downcast.** Heat in eyes. Smarting tears. Jerking quivering of lids. *Clouds* before eyes.

Face

Face pale with blue circles round eyes. Black pores in cheeks and round nose. Paralytic pain and pressure in zygomatic process.

Female

Atony of uterus. Uterine hemorrhage, partly clotted, worse from least motion.

Menorrhagia in women who aborted readily. Tendency to miscarriage especially at the third month. Inflammation of ovaries and uterus after childbirth. Dysmenorrhea, better lying flat on the back with limbs extended. Menses too profuse too early, gushing of hot, watery, bright, blood, mixed with dark clots.

Uterine pains extend into thighs. Pain from sacrum to pubis and from below upwards.

Shooting pain up the vagina. Bleeding between periods with sexual excitement. Increased

desire for sex. Leucorrhoea from suppressed menses or copious menses. Leucorrhoea, foul, acrid, thick, yellow. Leucorrhoea after menses, corrosive, offensive. Itching of pudenda during pregnancy. Retained placenta intense after-pains. Promotes expulsion of moles from uterus. (Canth.) Bleeding fibroids. (Thalspi). Vaginitis.

Food

Desire for acids, especially for lemonade. Bitter taste of food, especially of milk and coffee. Poor appetite.

Head

Bursting headache, suddenly coming and going slowly. Rush of blood to head and face. Drawing pains in masseter muscles. Splitting sensation in forehead and temples. Pulsative headache with heaviness and stupefaction.

Heart

Violent pulsation in blood vessels in whole body. Augmented and extended beating of the heart. Pulse unequal, generally quick, strong and hard.

Kidneys

Burning and throbbing in region of kidneys. Bloody urine, much urging. Bladder irritability with gouty diathesis. Bladder inflamed with throbbing all over. Inflammation of urethra. Bloody urine with much urging. Throbbing, burning at the region of kidneys.

Limbs

Bruised pains in anterior portion of thighs. Shooting in heels and metatarsal bones. Arthritic pain in joints. Gout, worse in heated room. Red, shining swelling. Gouty nodosities. (Am-p.) Swelling, redness and stitches in right big toe. Shooting intermittent aching in the heels. Knots and enlargements in varicose veins.

Lungs

Dry, hacking cough and tickling in the trachea. Hemoptysis. Expectoration of mucus streaked with blood.

Male

Gonorrhoea with pus-like discharge. Sycotic warts, growths. Burning, sore pain in glans. Prepuce painful with difficulty in retracting it.

Sexual desire increased with violent continuous erections. Hard swelling on dorsum of penis.

PAGE 1470

Mouth

Toothache, worse only when chewing. Drawing pain in the muscles of jaws. Bitter taste to food especially milk or coffee.

Nose

Dry coryza.

Rectum

Sense of fullness. Constipation. Pain from back to pubis. Hemorrhoids with bright red blood, bleed copiously, causing pain from sacrum to pubes. Hemorrhoids alternate with pain in limbs.

Sensations

As if she would fall. As if parts of temporal eminence were pressed asunder. As if skin had grown fast in forehead. As if eyes would be pressed out. As if tooth would burst. As

if he had to swallow over a foreign body. As of a lump in throat. As if vomiting would come on. As if something alive in abdomen. Right shoulder-joint as if sprained.

Skin

Foul, itching, burning. Black pores in skin, especially face. Fig-warts, moist with intolerable itching and burning. Exuberant granulations. (Thuj., Nit-ac.) Warts. Black pores in skin.

Sleep

Sleeplessness and restlessness after midnight. Disturbed sleep with frequent waking. Anxious dreams. Continued dreams, full of fanciful images and intellectual efforts. Talking and loud snoring during sleep. Tendency to lie on left side when sleeping.

Stomach

Acidity in stomach after a meal. Pain from epigastrium to back. Empty risings and heartburn. Nausea with fullness in stomach. Vomiting of bile or of food eaten the previous day. Fullness and inflation of region of stomach. Stomachache.

Temperature

Intolerable burning heat of whole body with great restlessness. Chill in the evening with attacks of chilliness. Great chilliness through the day. Fever in evening, first shivering, then heat and lastly perspiration.

Throat

Sore throat during deglutition, as from a foreign body or an internal swelling in gullet with pressure and choking. Dull lancinations in throat. Dryness in throat with drawing pain.

Vertigo

Vertigo with suppressed menses. Stupefying vertigo, which occasions falling with cloudiness of sight. Giddiness with congestions to and heat in head.

Comments

A grand characteristic of Sabina is a pain from sacrum to pubis and this will be a guiding symptom in a large number of the uterine cases requiring Sabina. Other characteristics are: (1) discharge of blood between the periods with sexual excitement, (2) obscure abdominal pains due to inflammatory states of the peritoneum. In the mental sphere there is much irritability, hysteria and hypochondriasis and a peculiar feature of it is that music is intolerable, it produced numbness and goes through bone and marrow.

Sabina is one of the remedies which affect the heels. There is an "intermittent aching" in the heels. Intermittence and a paroxysmal character are a leading feature with Sabina Pains are paroxysmal and labor-like Hemorrhage comes in gushes. Suddenly increasing and then a slowly disappearing pain.

Saccharum lactis

(lactose, milk sugar)

Pharmacy

Sacch-l. Saccharum lactis. Milk sugar. Lactose. Historical dose: All potencies.

History

Hahnemann chose globules of Saccharum lactis as the chief vehicle of his remedies, because he considered it the most inert substance he could find. But his method of attenuating remedies had shown that no substance is inert in potencies and experience shows that no substance is absolutely inert in any form.

H. A. Hare says of Sacch-l.: "Scientific and clinical studies have shown it to be possessed of very great diuretic powers when given in full doses." He says further, that its direct action on the kidneys and its slight action elsewhere indicate it in kidney dropsy and kidney inactivity, that it acts best in cases where albuminuria is absent and that it causes profuse diuresis in infants fed on it. **Planets:** Venus, Mercury.

Homeopathic

Sacch-l. in large doses to develop the bacillus acidophilus to correct putrefactive intestinal conditions and also constipation. Diuresis, amblyopia, cold pains, as if produced by fine, icy cold needle with tingling, as if frost bitten, great physical exhaustion.

Sensitive in every part of body. Small shooting pains all over in morning. Throbbing in parts of body. Great physical exhaustion and weakness, caused by overwork. Prostration from mental excitement.

Clinical

Amblyopia. Angina pectoris. Body, odor. Diabetes. Dyspepsia. Earache. Gout. Headache. Hysteria. Labia, soreness. Nervousness. Neuralgia. Ovaries disorders. Over-exertion. Ptosis. Sciatica. Sighing. Styes. Umbilicus inflammation.

Causations

Mental excitement. Over-fatigue.

Modalities

The pains were worse by a coming storm, the approach of which was felt some twelve hours previously. Pains, worse in damp room or basement, but better if there was a fire. All symptoms better after 4 p.m.

Worse by blue and yellow colors, better by red.

Symptoms

MIND

Sensation as if she kept together by a great effort. Loses her way in well-known streets. Imagines: that there is a large hole in her back just above sacrum, that her mother wants to kill her, that some one is behind her. Extremely nervous, jumps from her seat at least unusual noise.

Sudden fear and trembling of whole body, as from fright. Longing and melancholy as if homesick with oppressed breathing. Her heart aches as if it would burst, yet she cannot weep. Fear of death during pain in heart. Sarcastic and fault-finding, could not speak a pleasant word to any one. Hysteria in evening, laughing and crying, jumping up and lying down. Laziness.

Abdomen

Sore to touch, painful from the jar caused by walking. Pain above left hip, which would come when leaning back, followed by severe pain in forehead. Sharp pain passing across bowels just above navel and all round body. Pain in left hypochondrium passing under left breast. Severe pain passing through abdomen during stool.

Back

Dull ache all over back and in right arm. Backaches the whole length of spine. Pain passing up and down along right side of neck. Hot flashes all over back of neck and shoulders. Pain with soreness at upper right scapula. Pain in sacral region, worse when taking a breath. Pain passing up back from sacrum. Pain in lumbar region, worse by leaning backward.

Breasts

Sharp pain into right breast, very sore to touch. Constant pain under left breast, worse when bending forward. Severe pains under left breast at every inspiration.

Chest

Feeling as if ulcerated over right short ribs, worse from touch and when stooping. Pain in axilla.

PAGE 1472

Ears

Pain in right ear and underneath it. Painfulness of right external ear with burning like an ulcer, also when touched. Pain passing from right ear to shoulder. Pain from right ear to lower part of inferior maxillary bone. Pain in left ear and sensation as if there were a gathering. Shooting pains in and behind ears and all over face. Pains in external ears and behind them. Sharp pain inside both ears. Reverberation of voice when speaking. Buzzing sound in right ear. Sensation as if she could not hear, but she could.

Eyes

Pain through right eye inwards. Dryness of eyeball so that the lid would stick to it. **Swelling of right upper** lid. Styes. Sensation as if needles were sticking in eyes. Can only elevate upper lids half way. Looking at bright light dazzles and makes her close eyes, no pain. Sight fails, eyes tire very easily.

Face

Sad expression of face, eyes look as from weeping, though she has not wept. Wretched appearance. Great pallor of face with dark places under eyes. Pain passing from corner of

mouth of forepart of right axilla. Burning in cheek-bones towards temples and lower jaw. Pain all over face, then centering in right ear. Corners of mouth, chin smart and burn.

Female

Menses commenced too early, no pain. Menses very dark. Profuse greenish-yellow leucorrhoea. At times bloody leucorrhoea. Pain in region of right ovary. Ovarian region very weak and painful when walking. Dragging-down sensation in pelvic region. Lobulated growths on each side of vagina, extremely sore and sensitive to touch. Itching of labia. Soreness and rawness of labia with profuse greenish-yellow leucorrhoea.

Food

Hungry all the time. Desire for dainties. When first getting out of bed feels faint for something to eat. Feeling of distention after eating. Great thirst, wanted large quantities of very cold water.

Head

Sharp pains behind right ear. Burning like fire, extending from right frontal eminence to vertex.

Pain in left eyebrow. Left temple sore to touch. Sensation as of pressure on frontal bone at inner canthi of left eye, felt very sore. Sharp darting pain on left side of head from temple to occiput. Forehead feels very heavy with a tendency to fall forward. Sharp pain in forehead from one temple to the other. Head feels large and as though all the blood in the body had gone into the head. Head feels confused and as if it were tossing on a rough sea.

Heart

Sensation as if a fire in heart. Feeling as if heart would burst. Awoke at midnight with severe numb pains about heart, great fear of death, when the pains passed off they left great soreness round heart. Pulse intermittent.

Kidneys

Constant pain in region of left kidney. Soreness of urethra during urination. Urination followed by a thick yellow discharge. Constant, urgent desire to urinate with cutting pain up urethra. Urinates very frequently large quantities. Urine causes intense pain when coming in contact with the labia, which are very sensitive. Sound of running water produced urination, no power to restrain it. Involuntary urination during night. Urine stains a dark yellow.

Limbs

Pain in forepart of right upper arm. Pain from right shoulder passing down to waist. Pain from right shoulder to left breast. Sharp pain in all right fingers except little finger. Skin under nails looks dirty. Pain, itching in palm of right hand. Grasping anything with right hand causes pains to pass from all the fingers into palm. Pain in right wrist. Awful pain extending down the right sciatic nerve. Pains in thighs and hips. Hot flashes in lower limbs. Pain in right instep when bending foot. Pain like gout in right toe. Balls of feet covered with little corns, which are very painful when walking.

Mouth

Burning in whole mouth. Roof of mouth sore. Soreness like blisters in mouth and on tongue.

Sore on left side of tongue. Tongue, coated white, yellow. Lips feel very sore, raw and dry with great thirst. Taste, putrid in mouth after eating or fine spicy taste like fresh nuts.

Thick bitter mucus in mouth during morning. Sensation of coolness as of ice in mouth and throat.

PAGE 1473

Nose

Pain in sides of nose. Pain in end of nose. Ridge of nose extremely sore, it feels sore to touch or from the least movement of facial muscles, the left side is the worst and somewhat swollen.

Rectum

Stool preceded by shooting pains across abdomen, which are better by stool. Before stool pains in breasts and upper abdomen. Urgent inclination to stool, felt as though there were a great ball in rectum, much straining and some flatulence, but no stool and no better from the flatulence. Stools smell like rotten eggs. Soreness round anus, extending up rectum. Creeping, itching and crawling round anus, extending inside rectum. Shooting pains in rectum.

Skin

Very restless at night from itching all over body as soon as she is covered in bed. Itching of both shoulders.

Sleep

Yawning all day. Sleeplessness after midnight. Cannot sleep on right side. Cannot go to sleep without putting arms over head. Impossible to lie straight in bed, finds herself continually lying diagonally across bed. Has to lie on left side. Awoke with the impression that she had dreamed of dreadful pains in chest, does not know whether it was a dream or a reality. Fatiguing dreams all night.

Stomach

Nausea like sea-sickness. Nausea does not affect appetite. Violent sickness, going on all day. Dyspepsia after eating hot pie-crust. Pressure in stomach as if she had eaten

something indigestible. **Heart** burn with sweet taste coming from stomach without water brash.

Temperature

Great coldness as if a chill were coming on. Fingers, feet toes, icy cold, could not keep warm in bed covered with clothes.

Hot flashes inside body pressing from below upward. Strange restlessness at night. Feeling of heat all over, the body is covered with a light sweat, enough to feel uncomfortable.

Throat

Sensation when swallowing as of a fish-bone in throat. Spasmodic stricture in esophagus. Globus hystericus after lunch at noon with dull, sick headache. Throat very sensitive to external pressure, the least pressure causes a feeling as if she were choking.

Comments

Swan is the authority for Sacch-l. as a homeopathic remedy. He published a full pathogenesis of Sacch-l., proved in the potencies from 30c upward together with confirmed and cured symptoms. One of Swan's provers had this symptom: "Sight fails, eyes tire very easily."

One patient when taking pilules of Sacch-l. three times a day complained that they made his "eyes ache and feel weak." Sacch-l. causes sensations of both coldness and heat. One

of the cold sensations is this: "Sensation of extreme cold passing in a fine line from center of pubes to a point two or three inches above."

Swan regards cold pains as a keynote and records this case: Mr. S. had an excessively cold neuralgic pain in cartilage of both ears, the right being the worst with tingling as if frost-bitten, rubbing with difficulty restored the warmth. Lancinating, neuralgic pains in forehead in occiput, extending from region above ears down through ears into muscles of neck in both eyes, worse by least breath of air, skin sensitive to touch as in inflammatory rheumatism. These pains were icy cold, as if produced by an extremely fine ice-cold needle.

As Sacch-l. has "fine cold pains" and pains passing in all directions, Sacch-l. 1,000c was given and relieved all the pains within an hour.

Saccharum officinale

(sucrose, cane sugar)

Pharmacy

Sacch. Saccharum officinale. Saccharum album. Cane sugar. Sucrose. Trituration. Solution. Historical dose: Tincture and all potencies, thirtieth potency and higher. Locally in gangrene.

History

Like so many other articles of diet, Sugar may be a poison and a medicine as well as a food. Sugar preserves food, as salt does and both sugar and salt have produced scurvy. Cases of scurvy, rickets in bottle-fed children have been traced to excess of sugar in their food and the exclusion of sugar from the dietary of the gouty, rheumatic and the diabetic, shows the pathogenetic power it is credited. Acidity of the stomach and itching at the anus are common effects of taking too much Sugar.

According to Hering, a large proportion of chronic diseases of women and children are developed by using too much sugar. Sugar is an anti-septic. Combats infection and putrefaction, has a solvent action on fibrin and stimulates secretion by the intense osmotic changes induced, thus rinsing out the wound with serum from within outward, favoring healing. Leg ulcers.

Sugar must be considered a sustainer and developer of the musculature of the heart and hence useful in failure of compensation and a variety of cardio-vascular troubles. Acts as a nutrient and tonic in wasting disorders, anemia, neurasthenia, etc. increasing weight and power.

One ounce of lump sugar morning and evening valuable adjunct in the treatment of obstinate cases of heart failure due to deficient heart muscle without valvular lesion. Epilepsy, blood with reduced sugar content irritates the nervous system with tending to convulsions.

Sugar as an oxytocic has its most suitable application toward the end of labor when there is no mechanical obstruction and delay is due to uterine inertia. 25 grams dissolved in water, several times every half hour.

Homeopathic

Sacch. has emaciation with great appetite. Fat, bloated, large limbed children, who are cross, peevish, whining, capricious, want dainty things, tidbits and refuse substantial food. Scurvy, rickets in children.

Chlorosis with dropsy after anger. Fainting spells. Cold expectoration. Opacity of cornea. Dim sight. Acidity and anal itching. Myocardial degeneration. Edema of feet. Headache every seven days. Pains in bones from head to foot. Plethora.

Clinical

Ascites. Cataract. Chlorosis. Cornea, opacity. Diabetes. Dropsy. Dyspepsia. Hair, rapid growth. Headache, periodic. Hoarseness. Liver disorders. Ranula. Rheumatism. Rickets. Scurvy. Spleen disorders. Tabes mesenterica.

Causations

Sugar. Anger.

Constitutions

The bilious, sanguine temperament. **Planets:** Saturn, Jupiter.

Modalities

Better in erect position, (Dyspnea). Worse in early morning. Worse from anger.

Symptoms

MIND

Indifference, as from homesickness. Disinclined to talk, want of interest. Stupid. Increased modesty of women. Dainty, capricious, cross and whining indolent. Violent temper, irritable, quarrelsome. Melancholic mood with the chilliness. Low spirited, hypochondriacal mood, peevish.

Abdomen

Pain in liver and spleen. Spleen swollen. Abdomen, swollen, dropsical, hard as a stone in children. Tabes mesenterica.

Swelling and induration of mesenteric glands.

PAGE 1475

Chest

Muscles of chest wasted. Swelling of lower part of sternum. Fullness better by expectoration. Stitches in left chest.

Ears

Discharge of pus from ears.

Eyes

Eyes closed by swelling (and inflammation) of lids. Varicose distention of vessels of eyes. Ophthalmia. Sight dim. Cataract.

Face

changed expression. Face: pale, deathlike, bloated, edematous. Twitching of muscles of right cheek over malar bone.

Female

Menses diminished. Menstrual blood pale. Suppressed leucorrhea.

Food

Morbid hunger with the fever.

Head

Giddiness from indigestion. Severe headache with the chill. Cold in the head. Headache every week the same day. Hair grows rapidly.

Heart

Rheumatic pain in heart region. Pulse weak and irregular.

Kidneys

Great pains in kidneys. Sharp burning pains run from kidneys to shoulders, passing under scapulae. Increased urination, strong odor, white sediment. Urine diminished.

Limbs

Tingling in limbs. Emaciation of hands and thighs. Edema of arms. Edema of lower limbs, hard as stones. Paralytic weakness of legs. Painful jactitation of legs during burning in stomach. Cramps in calves.

Liver

Pain in liver and spleen. Liver is swollen indurated. Bile increased.

Lungs

Dry cough. Cough with children. Expectoration very offensive. Breathing oppressed with cold expectoration. Suffocative attacks, must be bolstered up. Pneumonia.

Male

Enormous swelling of scrotum, right genitals. Increased sexual desire. Frequent involuntary emissions.

Mouth

Dullness of teeth (with sour vomiting). A white coat on tongue, so thick as to cause stiffness in it. Cracks, cracks on the tongue. Ranula.

Inflammation of salivary glands of lining membrane of mouth. Aphthae of children.

Nose

Sneezing, dry coryza.

Rectum

Itching at the anus. Congested and painful hemorrhoids. Diarrhea, stools watery and debilitating of mucus and blood, bilious. Constipation alternating with mucous diarrhea. Constipation, stools difficult.

Skin

Dry skin, perspiration suppressed. Scurvy. Pale and red blotches over body. Panaritium. Proud flesh in the ulcers. Old herpes.

Sleep

Sleeplessness. Starts in sleep.

Stomach

Indigestion, weak with acidity. Burning at pit of stomach. Stomach bloated, overloaded with sour mucus. Painful constriction of stomach. Nausea early in morning. Violent retching. Vomiting of white, viscid tough mucus. Vomiting of blood, acid, making teeth dull, occasional with the chill.

Temperature

Chilliness from 10 a.m. until evening with melancholic mood. Chill beginning in lower back, spreading up and down. Chilliness alternates with perspiration. Intermittent fever every one, two or three days, irregular in its type. Chill followed by profuse sweat. Sweat on head, neck and shoulders.

Throat

Irritation of larynx, causing a slight hacking cough with yellow, salty sputa, which floats on water. Dry rawness in larynx. Hoarse, catarrhal voice. Hoarseness from reading a short time. Ulcers in throat.

Comments

To these Sacch. symptoms have been added others observed by Swan on a patient who accidentally discovered after twenty-five years of suffering, that the cause of his trouble was Sugar. All the symptoms disappeared when he abstained from sugar in food or drink and only reappeared when he took it again by way of experiment.

Then from two to four days after taking sugar, the same train of symptoms invariably occurred in this order:

PAGE 1476

A burning at pit of stomach. A white coat on tongue, so thick as to cause stiffness of it. Sharp burning pains run up from head to foot, causing a rigidity of the muscles so that it was impossible to rise from bed until he had been rubbed.

Chill commencing in small of back and spreading up and down. Severe headache and occasional vomiting with the chill. Fever followed with headache, morbid hunger and a hectic flush. Increased urine, strong odor, white sediment. Great pain in kidneys. Constipation. Sleeplessness. Edema of feet and ankles. Weakness of legs, as if paralyzed, causing staggering.

Painful jactitation of feet and legs during the burning in the stomach. Oppression of chest with a cough. Profuse cream-like expectoration, that was very offensive and cold. Sacch. 10,000 c and 5,000 c cured him of some remaining symptoms and the 41,000 c enabled him to eat sugar with impunity.

Swan also reports this case: Miss left was continually eating candies of which she was very fond, until her digestive organs were affected. A few doses of Sacch. 30,000 c changed her taste so that she ate no more and could not even bear the sight of them.

Farrington traces a great similarity between Sacch. and Calcarea. Sacch. is indicated, he says in children who are large-limbed, fat and bloated with a tendency to dropsy.

Sacch. has produced opacity of the cornea and ought to cure it. The children are dainty and capricious, care nothing for substantial food, but want little "knickknacks", always cross and whining and, if old enough, are insolent and do not care to occupy themselves in any way. Everything too much trouble.

H. C. Allen relates a case of opacity of cornea cured with Sac. a. and with the same remedy in 2,000c potency he cured swelling round the ankles following rheumatism. According to Lippe, black-and-tan terrier dogs that eat sugar go blind.

The cataract and amblyopia of diabetics are well known. Here, again, Salt and Sugar meet: Burnett has shown in his Super salinity of the Blood that excess of salt in food has been an important factor in the production of cataract.

Compare

(1) Sacch-l., Saccharin - hinders both the salivary and peptic ferment actions with consequent dyspepsia. Prof. Lewin believes its action to be on the secretory cells themselves and it has caused pain, (right hypogastrium), loss of appetite, diarrhea and wasting.

(2) Sac-alb. in rickets, acidity, fat children, Calc.

(3) Arg-n., Lyc., Sulph. - craving for sweets.

(4) Sil. - rickets.

(5) Arg-n. - diabetes, swollen ankles,

(6) Santal. - Kidney-ache.

SOURCES

Boericke. Clarke.

Salicylicum acidum

Pharmacy

Sal-ac. Salicylic acid. Found in Spiraea blossoms, Gaultheria. Prepared from Phenol. Trituration. Historical dose: Trituration and all potencies.

History

Salicylic acid is found in nature in the leaves and barks of Willows, in Oil of Wintergreen (Gaultheria), which is one of the chief sources of its supply, and is obtained synthetically from Carboic acid. Like Carbo-ac. it has been largely used as a disinfectant, and as it is supposed to be non-poisonous it is used for mixing with and so preserving foods.

MacLagan of London and Senator of Berlin, introduced it into medicine as a remedy for rheumatism. Over-dosings led to the discovery of its power to set up the phenomena of Meniere's disease, auditory nerve vertigo, gastric disturbances and delirium. **Planets:** Mercury, Saturn.

Homeopathic

The symptoms point to its use in rheumatism, dyspepsia and Meniere's disease. Sal-ac. has a specific relation to rheumatism, but the massive doses given in allopathic practice have been attended with so many unpleasant symptoms of vital depression, fainting, flatulent dyspepsia and delirium.

PAGE 1477

Prostration after influenza, also tinnitus aurium and deafness. Hematuria. In ordinary practice it is used as an acute rheumatic remedy. In homeopathy it is useful in Meniere's disease. Roaring and ringing in the ears. Deafness with vertigo. Effects of suppressed foot sweats.

Clinical

Arthritis. Bone, decay. Colds. Colitis. Coryza. Diarrhea. Diphtheria. Dyspepsia. Flatus. Foot-sweat, suppression. Gastritis. Hot flashes. Intestine ulceration. Iritis. Meniere's disease. Menopausal. Necrosis. Pharyngitis, herpetic. Puerperal fever. Rheumatism. Rheumatoid arthritis. Scarletina. Sciatica. Stomatitis. Tapeworm. Throat, sore. Ulcers.

Causations

Suppression of foot-sweat. Aspirin overdose.

Modalities

Better by hot applications, especially by dry heat. Worse by motion. Worse at night. Worse by cold air or touch of anything cold.

Symptoms

MIND

Anxiety, worrying, restless, yet mild. Melancholic, wants to be quiet, feels faint. Excited mood. Delirium, stupid, can hardly collect his ideas, then laughed without cause. Talked incessantly and disconnected.

Abdomen

Violent, constant pressure in abdomen with feeling of incarcerated flatus. Ulceration of bowels. Abdominal distention.

Chest

Spasmodic, flatulent asthma, fetid bronchitis, gangrene of lungs. Firmly seated pressure at side of sternum as large as the hand, with feeling as if the bone was sore.

Ears

Meniere's disease. Auditory nerve vertigo with a troublesome nausea accompanying the head symptoms. Hearing diminished. Nervous deafness. Deafness with noises in ears. Roaring and ringing in ears, hears music, swarm of bees or buzzing of flies. Tinnitus dependent on hyperemia. Deafness with vertigo.

Eyes

Retinal hemorrhage. Retinitis after influenza, also albuminuric. Diminished acuteness of vision. Plastic iritis following acute rheumatism.

Face

Dull, heavy aspect, face flushes quickly on slight excitement.

Female

Leuco-phlegmatic woman, frequent hot flashes with irritability, forgetfulness, dull, heavy pain in cerebellum. Septic puerperal fever.

Head

Headache, confusion in head on rising suddenly. Piercing pain in temples. Dullness of head, stupefaction. Rush of blood to head. Headache commencing on top or back of head, running down neck, which is tender to touch. Buzzing sensation in the brain as if blood were forced violently through a contracted vessel.

Kidneys

Diabetes mellitus. Albuminuria, rheumatic diathesis. Urine scanty, clear, brown.

Limbs

Arthritis and rheumatism. Knees are swollen and painful. Acute joint rheumatism, worse touch and motion, profuse sweat. Pain shifts. Sciatica, burning pain, worse at night. Copious foot-sweat and ill effects if sweat is suppressed.

Lungs

Respiration hurried. Spasmodic, flatulent asthma, fetid bronchitis, gangrene of lungs. Dry cough of a hard, racking, spasmodic character, worse at night in old people.

Mouth

Burning, scalded feeling. Redness of mouth and fauces. Canker sores with burning soreness and fetid breath. Stomatitis, mouth hot and dry tongue covered with burning vesicles. Burning and scraping in mouth and throat. Mouth dotted with white patches. Taste extremely disgusting, as of something burnt, bitter. Tongue purplish, leaden-colored, foul breath. Ulcers on tip of tongue.

Nose

Sneezing. Coryza. Incipient catarrh, patients, especially children, sneeze all day.

Rectum

Putrid diarrhea, gastro-intestinal derangements, especially in children, stools like green frog's spawn. (Mag-c.) Pruritus ani. Diarrhea.

Stools green, flushes easily as in hectic, acid, sour, or putrid smelling. Cholera infantum with peculiarly putrid belchings. Caused expulsion of worms.

PAGE 1478

Skin

Itching vesicles and pustules, better by scratching. Hot and burning skin. Purpura. Herpes zoster. Necrosis and softening of bones. Skin red, points like flea-bites. Skin red and sensitive. Urticaria.

Sleep

Yawning. Frequently awaken from sleep thinking he heard music.

Stomach

Burning in epigastric region. Putrid fermentation and dyspepsia. Nausea, gagging, water brash. Frequent vomiting. Flatulence, hot, sour belching. Erosions and ulcers in stomach and bowels. Weak, nervous sensation in stomach.

Temperature

Slight chill, crawling in spine, yawning, chill in finger-tips. Fever continuous, burning, then sweat with relief, fever again till exacerbation of symptoms. Weak, faint after fever and sweat. Flushes easily as in hectic. Profuse sweat, as sweat increased strength declined.

Throat

Burning in throat. Sore, red and swollen. Pharyngitis, swallowing is difficult. Scraping in throat causing cough. Hemorrhagic pharyngitis with difficulty of swallowing. Tonsils red, swollen, studded white.

Vertigo

Deafness with vertigo. Vertigo, tendency to fall to left side. Meniere's disease.

Comments

Among the uses of Sal-ac. recommended in the general text-books are these: "Sal-ac. is very useful for corns and warts, also to hasten the peeling of palms and soles after scarlet fever". "A mixture of 2 parts with 100 of tallow, applied directly to the feet, not to the stockings, has been found most useful in preventing sweating and soreness of the feet in soldiers after a long march" (Brunton).

The property of preventing foot-sweat is by no means an unmixed boon and serious illness has resulted from it. Consequently in homeopathic practice Sal-ac. has been found an excellent remedy for disorders following suppression of foot-sweat.

Sal-ac. has a specific relation to rheumatism, but the massive doses given in ordinary practice have been attended with so many unpleasant symptoms vital depression, fainting, flatulent dyspepsia, delirium, etc. that the ingenuity of chemists has been devoted for years past to finding a compound which shall be innocent as well as effective.

Aspirin (Acetyl-salicylic acid), Salophen (Acetyl-para-amidophenol salicylate) and Salol (Phenol salicylate), are supposed to fulfill these conditions more or less completely. Salol has had an accidental proving which has led to some homeopathic uses. It is the "unpleasant symptoms" which so many practitioners wish to avoid, which are of especial value to homeopaths.

It meets dynamically blood-poisoning conditions, such as puerperal fever and septicemia. Like Carbolic acid and other disinfectants, Sal-ac. produces fermentative dyspepsia and diarrhea with putrid-smelling stools.

Compare

- (1) Nat-sal., Salol.
- (2) in rheumatism and subsequent weakness, Colch.
- (3) Piercing in temples, throat, diarrhea, ulcers, anti-septic properties, Kreos.
- (4) In anti-septic properties, dyspepsia, fever, urine, Carb-ac.

PAGE 1479

Salix mollissima

Pharmacy

Sal-m. Salix mollissima. N. O. Salicaceae. Tincture of fresh leaves and young shoots. Historical dose: Tincture and all potencies.

History

Cooper has used Sal-m. with success in rheumatic affections, especially in sciatic neuritis in nervous subjects in whom the capillary cutaneous circulation showed up visibly and there was some tenderness and swelling of the limb. **Planets:** Saturn.

Homeopathic

Rheumatism and sciatica.

SOURCES

Clarke.

Salix nigra

(black willow bark)

Pharmacy

Sal-n. Salix nigra. Black willow. Pussy willow. N. O. Salicaceae. Tincture of fresh tree bark. Historical dose: Material doses of the tincture, thirty drops. Historical dose: Tincture and all potencies, tincture 5 to 30 drops.

Herbal

The Black Willow of North America has a reputation as a purgative and febrifuge. A proving by E. D. Wright, who took half an ounce of the tincture in a day is given in Allen's Appendix. It developed soreness of muscles, a tired, sleepy state, loose bowels, sore gums and fever. *Salix nigra* has been largely used by eclectics in a great variety of disorders of the genito-urinary system. **Planets:** Venus.

Homeopathic

Salix nigra has a positive action on the generative organs of both sexes. It reduces the irritability of sexual organs. Moderates sexual passion. Controls genital irritability. It has been used after history of masturbation or spermatorrhea.

Muscles sore and lame. Hysteria and nervousness. In acute gonorrhoea with much erotic trouble, chordee. Satyriasis and sexual mania. Libidinous thoughts and lascivious dreams. Seminal emissions in presence of woman or when talking with her.

Clinical

Diarrhea. Emissions. Fevers. Gonorrhoea. Impotence. Masturbation. Night-sweats. Nymphomania. Prostatitis. Satyriasis. Sexual mania. Spermatorrhea.

Symptoms

Back

Pain across sacral and lumbar region. Unable to step out quickly.

Face

Red, swollen, especially the end of nose-eyes blood-shot and sore to touch and on motion. Roots of hair hurt. Nosebleed.

Female

Ovarian congestion and neuralgia. Before and during menses much nervous disturbance, pain in ovaries, difficult menstruation. Menorrhagia. Bleeding with uterine fibroid.

Nymphomania.

Head

Skin on temples sore to touch.

Male

Painful movement of the testicles.

Mouth

Gums sore.

Rectum

Looseness of bowels.

Sleep

Disposition to lie down and sleep.

Comments

Dr. John Fearn writes of the tonic and anti-septic properties of this species of *Salix*, but of its usefulness as a sedative to the generative system. As a sedative on these lines he had very good results from its use.

In cases of acute gonorrhoea with much erotic trouble. Also in cases of chordee with great irritation, for these purposes he has given *Sal-n.* in doses of thirty to sixty drops on retiring and repeat at midnight or towards morning, if needed in these cases nothing has

given more satisfaction than this remedy. Sal-n. answers the purpose, it robs night of its terrors and it leaves no unpleasant consequences in its train.

In cases of excessive sexual desire, amounting to satyriasis from experience Fearn's would use this remedy first. Sal-n. seems to control the venereal appetite in a very satisfactory manner. It can be given in cases where the bromides have always been considered appropriate and it can be given where the bromides would be very inappropriate and there is no reflex effect on the brain or nervous system.

W. B. McCoy relates a number of cases illustrating this action.

PAGE 1480

(1) Man, 35, lost control of his sexual appetite and the more he indulged the worse the craving became and indulgence made him a physical wreck. Sal. n. tincture in teaspoonful doses thrice daily, cured in five weeks.

(2) Youth, 23, had masturbated since he was a boy. Sal. n. tincture, 20 drops, four times a day, was given for a fortnight, the quantity being gradually diminished, until in a few weeks the young man was quite cured.

(3) A teacher, 21, five years before had a spell of fever which left him with a tendency to seminal emissions, which had become very frequent and had reduced him to a very low condition: Extremely thin, sallow, nervous, cold hands and feet even in heat of summer. Extremely cross and irritable.

Sal-n. tincture, 1c one drop four times a day, was given with speedy improvement. Later on the dose was reduced to thirty drops. The losses ceased and in three months the patient had gained 41 pounds in weight.

(4) A Man, 53, had sexual desire but without ability, yet during the night he would have emissions without erections. Sal-n. tincture, 15 drops, four times a day, cured in three weeks. McCoy also used Sal-n. successfully in gonorrhoea, but other remedies were given as well.

Salix purpurea

(red or purple willow)

Pharmacy

Sal-p. Salix purpurea. Red Willow. Purple Willow. N. O. Salicaceae. Tincture or infusion of fresh bark. Historical dose: Tincture and all potencies.

History

T. C. Duncan and his wife proved Sal. pup., taking drachm doses of the infusion of the bark. **Planets:** Moon.

Homeopathic

The chief symptoms of Salix purpurea are: Giddiness, loose stools, fever, swelling of the right parotid gland. The fever was marked by heat preceding chill and perspiration. Duncan chewed the bark on one occasion and this caused the astringent effect on the

mucous membrane of the mouth. The only rheumatic symptom was aching in right acetabulum.

Clinical

Diarrhea. Fever. Parotiditis. Vertigo.

Symptoms

MIND

Very nervous, irritable and despondent all day. Dullness of intellect.

Abdomen

Flatulence. Pain in abdomen.

Face

Swelling of right parotid gland.

Head

In a few minutes dizzy feeling commencing just in front of ears and passing up to vertex like a wave, compelled to sit down.

Heart

Pulse feeble, circulation torpid.

Kidneys

Urine slightly acid, excess of phosphates and epithelium, less uric acid crystals.

Limbs

Aching in right acetabulum.

Mouth

Peculiar astringent taste, puckering mucous membrane and closing Steno's duct. Taste of undigested food.

Rectum

Bowels loose, two stools in one day with griping.

Sleep

Rested poorly, waked often, first too hot, then too chilly.

Temperature

First too hot, then chilly and at last towards morning in a profuse perspiration.

References

Clarke.

Salolum

(salicylate of phenol)

Pharmacy

Salol. Salolum. Salicylate of Phenol. Trituration. Historical dose: All potencies.

History

Salol was primarily used as an anti-rheumatic, especially in the treatment of acute cases. It was given as an antipyretic in 30 to 45 grain doses in powders or tablets. It is soluble in ether and petroleum spirit, very sparingly, if at all in water.

PAGE 1481

It does not disturb digestion because it passes through the stomach unaltered, being decomposed in the duodenum, by the ferments of the pancreas into Salicylic acid and

Phenol (it contains 38 per cent. of Phenol). These are excreted by the kidneys and the condition of intestinal digestion has been estimated by the length of time required after the ingestion of Salol, for them to appear in the urine. **Planets:** Saturn.

Homeopathic

Salol also has been used in acute diarrhea, dysentery, cholera and other diseases where intestinal asepsis is indicated and also in disorders of the bladder and urethra as a substitute for ordinary mechanical irrigations and injections. Its internal use in gonorrhoea (in 5-grain doses three times a day) has met with much success (Helbing).

Dull aching in head and all over body. Can hardly go up stairs, and it is dreadfully painful to sit on a hard stool. During the whole time of the proving the hands shrunk when cold, and he could not straighten the little fingers without much pain.

Clinical

Arthritis. Diarrhea. Dysentery. Fever. Gonorrhoea. Headaches. Influenza. Neuralgia. Rheumatism. Small-pox.

Modalities

Worse walking, raising eyes. Worse sitting on hard stool, (pain in buttocks). Worse by touch. Worse in evening. Worse ascending stairs.

Symptoms

Head

Dreadful headache, especially over eyes. Dull aching in head and all over body.

Kidneys

Urine smelt strongly of violets, after this passed off the rest of the symptoms came on.

Limbs

Feeling of stiffness in joints. Limbs sensitive to touch. Rheumatic pains. Pain in shoulder. Pain in right arm in evening. Pain in wrists. Cramp in hand on writing. Hurts even to carry a book in hand. Buttocks sore. Pain in left buttock, especially on walking.

Skin

Burning and itching eruption. Small-pox.

Comments

The only proving of Salol was made incidentally on a chemist from making up powders of the remedy. He experienced very severe symptoms from inhaling the odor, and possible also some of the powder. Rheumatic pains in joints with soreness and stiffness were marked, especially pain and soreness in the buttocks, knees, and wrists.

The prover was subject to headaches, but he never had so violent a headache as that produced by Salol and conversely after the proving, Salol 12c immediately relieved him when threatened with one of his usual headaches. The first symptom he noted was that his urine smelt of violets and it was only when this passed off that the other symptoms came on. The joints felt stiff, "as if they wanted oiling."

C. Beg refers to the use of Salol in small-pox and other skin disorders attended with burning and itching. The relief of itching in small-pox was a constant and most satisfactory result. When administered early it prevented maturation of pustules.

Salvia officinalis

(sage)

Pharmacy

Salv. *Salvia officinalis*. Sage. N. O. Labiatae. Tincture of fresh leaves and blossom-tips.

Historical dose: Tincture and all potencies, Tincture in 5 to 25 drop doses.

Herbal

Sage runs back in medical history to the Greeks and, according to Fernie is still held in the highest esteem by country people in many parts of Europe. Quoting Gerard: "Sage is singularly good for the head and brain, it quickened the senses and memory.

PAGE 1482

Sage strengthen the sinews, restore health to those that have palsy and take away shaky trembling of the members."

The Sage has been almost forgotten in modern medicine, but still remains in high repute as a domestic medicine. French doctors have called attention to Sage for gargling in cases of inflammation of the throat and for washing the mouth in disorders of the gums. Also as an unfailing remedy for night-sweats in persons suffering from disorders of the respiratory organs.

It should be given in doses of 20, 30 or 40 drops in a tablespoonful of water. The effects manifest themselves very quickly, two hours after taking a dose and these effects persist for two to six days. **Planets:** Mercury, Moon.

Homeopathic

Salvia exerts a tonic influence on the skin. Controls excessive sweating when circulation is enfeebled or less use in tuberculosis with night-sweats. Suffocating, tickling cough.

Galactorrhea.

The tickling cough of tuberculosis and the night-sweats are entirely relieved by doses of 20 to 40 drops in a tablespoonful of water. Colliquative perspiration. Soft skin, relaxed with enfeebled circulation and cold limbs.

Clinical

Cough, tickling. Fever. Gums bleeds. Mouth sores. Night-sweats. Tuberculosis.

Comments

In the numerous experiments made with it, there were never any disagreeable concomitant effects. On the contrary it was found that *Salvia* acts even more favorably on the tickling coughs in tuberculosis patients than *Belladonna*, *Rumex crispus*, so that preparations of *Morphine* and *Codeine* could be dispensed with.

Another case: Ms. Smith. had for three weeks an irritating cough following an attack of pneumonia. The irritation being particularly great, he gave her, fresh from the garden, some Sage to chew and the irritation was instantly relieved.

Sambucus canadensis

(elder-bush)

Pharmacy

Samb-c. Elder-bush. Sambucus canadensis. Sambucus humilis. Sambucus glauca. N. O. Caprifoliaceae. Tincture of buds, flowers, tender shoots and leaves. Historical dose: Tincture and all potencies.

Herbal

The indigenous North American Elder grows in rich alluvial soils, flowers in July and fruits in September. The species, says Millspaugh is not sufficiently distinct from the European Elder, (*Samb. nigra*), differing only in being less woody and having more loose cymes, larger flowers and more compound leaves.

Millspaugh says of *Samb-c.* that a decoction or ointment of the flowers and leaves was used as an application to large wounds. **Planets:** Mercury.

Homeopathic

The severe chest symptoms and blotched face recall symptoms of *Samb. nigra* with which it is probably identical in action. Uneasiness, and unrest. Exhaustion. Recurrence of symptoms.

Clinical

Albuminuria. Angina pectoris. Asthma. Blotches. Cuts. Larynx, dry. Lumbago. Wounds.

Modalities

All symptoms better by sweat. Better getting out of bed. The chief conditions were worse from lying down.

Symptoms

MIND

Depression and dread of undefined danger.

Back

Back felt sprained. Pressing pain in lumbar region.

Chest

Heaviness and constriction in chest, as from a heavy load, palpitations. Aroused from sleep by a terrible constriction of chest and heart.

He had to jump out of bed to get breath, could not lie down for fear of choking.

PAGE 1483

Face

Face flushed and broken out in blotches, he looks ill.

Head

Severe drawing in head with fullness, motion causes sensation as if water were undulating in it. Head heavy, confused with drawing and darting pains.

Heart

Sharp pain in heart (region of valves) with palpitations, at times visible through the clothes. Constriction of chest and heart, must jump out of bed, lying down causes

choking. **Heart** labors heavily. Pulse rose to 100, but became normal at end of perspiration.

Kidneys

Pressure in kidney region, followed by profuse flow of clear urine. Frequent urination. Urine albuminous.

Limbs

Sharp, darting rheumatic pains hands and feet.

Lungs

Breathing labored, asthmatic, wheezing. Had to sit up in bed to get breath.

Mouth

Mouth parched, dry, desire for drink.

Temperature

Sweat, soon becoming profuse, which gradually ameliorates all other symptoms (except exhaustion). Head perspired less than rest of body.

Throat

Pharynx and larynx felt dry and swollen, impeding free respiration.

SOURCES

Clarke.

Sambucus nigra

(elder)

Pharmacy

Samb. *Sambucus nigra*. Elder. N. O. Caprifoliaceae. Tincture of fresh leaves and flowers. Historical dose: Tincture and all potencies, tincture to sixth potency.

Herbal

The leaves of *Sambucus nigra* have an unpleasant odor when bruised, which is supposed to be offensive to most insects and a decoction of them is sometimes used by gardeners to keep off caterpillars from delicate plants.

Herbalists use the inner bark as well as the leaves are employed for making an ointment and the flowers serve for fomentations or are made into a medicinal tea. The berries are the principal ingredient in Elderberry wine, (Treasury of Botany).

Millspaugh says that the bark contains Viburnic acid, which is identical with Valerianic acid. This no doubt accounts for the odor and suggests a relationship in action between *Sambucus*, Valerian and the *Viburnum*.

"Spasm" will be found common to all. In Samb. the spasm affects mainly the respiratory system larynx, chest and nasal passages. Samb. was proved by Hahnemann and appears in his *Materia Medica Pura*.

Homeopathic

Sambucus nigra acts especially on the respiratory organs, also upon kidneys and the skin. Dry coryza of infants, snuffles, edematous swellings. If sheep that have the rot can get at the bark and young leaves they will soon cure themselves (Green).

Profuse sweat or shortness of breath, accompany many symptoms. Edematous swelling in various parts of the body especially legs instep and feet. Snuffles in infants preventing breathing and nursing. Contusions causes dark red swelling.

Clinical

Angina pectoris. Asthma. Chest, oppression. Choking. Coryza, dry. Coughs. Croup. Emaciation. Headaches, catarrhal. Hoarseness. Hydrocele. Ileus. Laryngismus. Snuffles. Tuberculosis. Whooping cough.

Causations

Ill effects of fright, grief, anxiety, excessive sexual indulgence. Fright causes suffocative attack.

Constitutions

Samb. is suited to diseases of scrofulous children which affect the air passages especially. Suited to persons previously robust and fleshy suddenly become emaciated.

Planets: Mercury.

Modalities

Better sitting up in bed, motion. Better from pressure over a sharp edge wrapping up. Worse from dry cold air. Worse cold drink while overheated.

Worse from eating fruits, sleep during rest. Worse lying down in bed, on left side. Head low aggravates, must sit up to regain breath. Motion aggravates. Worse uncovering. Worse about midnight after midnight, 2 to 3 a.m. , wakes with sense of stoppage of air tubes.

PAGE 1484

Symptoms

MIND

General trembling with anxiety. Constant state of fretfulness. Very easily frightened. Fright followed by suffocative attacks. Sees images when shutting eyes. Worse from fright or emotions.

Abdomen

Colic with nausea and flatulence, frequent watery, slimy stools. Pinchings in abdomen with expulsion of flatus. Spasmodic tearings, shootings and pinchings in abdominal muscles. Pressive pain in abdomen with nausea.

Back

Aching in middle of spine during repose and movement. lancinations in scapulae.

Chest

Oppression of chest with pressure in stomach, nausea and weakness. Pressure on sternum. Sudden sensation of contraction in sides of chest.

Ears

Sharp stitches in right inner ear with cramp pain in it. Itching creeping in ears and in throat.

Eyes

Half open in sleep. Photophobia. *Pupils at first contracted, then greatly dilated.*

Face

Hot face with icy cold feet. Pale, bluish, puffy. Turns blue with cough. Blotches on face. Red, burning spots on cheeks. Heat and perspiration of face.

Female

Debilitating sweats after childbirth. Menses too profuse like metrorrhagia.

Food

Thirst without relishing the drinks.

Head

Headache as from intoxication. Motion of head causes tension and dizziness. Pressure and expansion in head. Sudden shocks in the brain. Digging pain in vertex. Scurf on head with intolerable itching.

Heart

Orgasm in whole body. Occasional omission of heart-beat. Angina pectoris where pressure proceeds from spine.

Pulse generally very frequent and small, sometimes slow, full. Intermittent.

Kidneys

Acute nephritis. Dropsical symptoms with vomiting of bile and distress in stomach after eating. Profuse urination with a sensation of heat in the body, dry heat of skin. Urine frequent and scanty.

Limbs

Hands and feet bloated and blue. Edematous swelling in legs insteps and feet. Feet icy cold. Drawing in forearms and bones of hands. Paralytic heaviness in elbow joint. Lancinations in wrists. Trembling of hands (when writing). Tension in hamstrings as if they were too short. Tearing in legs and ankles. Icy-cold feet with warmth of the body.

Lungs

Spasmodic croup. Asthma. Sudden suffocation or strangling on falling to sleep or waking him at midnight with violent sweat. Child awakes suddenly, nearly suffocating, sits up, turns blue. Paroxysmal, suffocative cough, coming on about midnight with crying and dyspnea. Dry coryza. Snuffles of infants, nose dry and obstructed. Loose choking cough. Cannot expire. (Meph.) When nursing child must let go of nipple, nose blocked up, cannot breathe. Spells of coughing, before fever. Whistling breathing.

Male

Hydrocele from injury. Swelling of scrotum.

Mouth

Dryness of the mouth and throat with thirstlessness. Half open in sleep. Toothache with tearing and lancinations in all the teeth and with a sensation as if cheeks were swollen.

Neck

Pressive heaviness in nape. Deep incisive lancinations in muscles of neck. Sweat on throat and neck with children.

Nose

Dry coryza with snuffles in infants. Sensation of numbness in nose with itching on bridge. Obstruction of nose with accumulation of thick and viscid mucus in nostrils. Dry coryza of children.

Pelvis

Pains in loins with drawing pressure. Incisive blows in loins.

PAGE 1485

Perspiration

Very debilitating sweats. Profuse sweat over entire body during waking hours. Night-sweats, except on head, worse towards morning. Continued perspiration while awake, changing into dry heat as soon as one goes to sleep.

Rectum

Irritable anus with hemorrhoids. Frequent watery, slimy stools.

Sensations

As if head were filled with water. Skull as if stretched. As if suffocating.

Skin

Dry heat of skin during sleep. Bloated and swollen, general dropsy, profuse sweat on waking. Tingling itching of skin. Sudden painful drawing in all points over surface while sitting. Edema, anasarca.

Sleep

Child starts up suddenly as if suffocating. During sleep dry heat after awakening profuse perspiration. Sleeps with arms above head. Frequent waking with a start with obstructed respiration. Incomplete sleep with mouth and eyes half open. Lascivious dreams.

Stomach

Vomiting in morning, first of milk (or food), that has been taken and of mucus afterwards of bile. Pressure in stomach. Acute lancinations under the stomach, worse by pressing upon it.

Temperature

Dry burning fever while asleep, copious sweating on awakening. Dreads uncovering. Sweats with cough. Debilitating night-sweats. (Salvia, Acet-ac.) Fever with excessive perspiration, especially at night. Dry, deep cough precedes the fever paroxysm. Intermittent fever. Shuddering with shivering, icy coldness of hands and feet and pricking tingling in skin.

Throat

Hoarseness with tenacious mucus in larynx. Screeching voice. Spasms of glottis. Itching tingling in throat.

Vertigo

Dizziness and confusion in the head, during movement, on rising.

Comments

One of the keynotes of Samb. is edema: dropsical swellings in various parts of the body, especially legs instep and feet. This edema, when it affects the nose, may given rise to obstruction. As in the "snuffles."

Snuffles of infants with dry coryza, preventing breathing and nursing. When it occurs lower down in the tract it causes dyspnea. The child awakens suddenly nearly suffocated, face livid, blue, sits up in bed, turns blue, gasps for breath, which it finally gets, attack passes off but is again repeated, child inspires but cannot expire, sleeps into the attack. The breathing is rattling. Croup, whooping cough, asthma, may all manifest this group of symptoms.

Nash once relieved with Samb. 200c a very bad case of asthma, having attacks of suffocation of the above kind. The patient was an old lady. The relief was accompanied by a profuse flow of urine, which carried off a large amount of dropsical effusion in her

legs and abdomen. It was mentioned above that the croupy attack "passes off but is again repeated." This tendency of attacks to recur is another note of the remedy.

Another grand characteristic is: Profuse sweat during waking hours: dry heat when asleep. This feature marks Samb. as the remedy in some tubercular cases and many febrile conditions. Other fever peculiarities are: Deep, dry cough precedes the fever paroxysm, fever without thirst, dreads uncovering.

Sanguinaria canadensis

(blood root)

Pharmacy

Sang. *Sanguinaria canadensis*. Bloodroot. Puccoon. N. O. Papaveraceae. Tincture of fresh root. The resin, leaves, seeds, seed-vessels, powdered root and expressed juice have also been used. Historical dose: Tincture and all potencies.

Herbal

The Bloodroot is commonly found throughout the United States and Canada is the sole representative of the genus *Sanguinaria* of the Papaveraceae. It is herbaceous, has a thick, branching root stock, which creeps along underground and in early spring sends up from the ends of the little side branches a single long-stalked leaf and another stalk bearing a solitary flower.

The leaf is wrapped round the flower-bud when it rises from the ground and is bluntly five to nine-lobed, roundish at first, but later kidney-shaped. The American Indians formerly used the orange-colored juice of the root for smearing their bodies and for staining various domestic articles. The plant has also been successfully used by American and French dyers (Treasury of Botany).

Hale says of the root: "It is succulent and when cut or broken emits from numerous points on the transverse surface a light orange or rather dark vermilion-colored juice, which has a bitter, acrid but peculiar taste, which remains long in the mouth and leaves a

persistent burning in the throat. The juice of the stem is between a red color and a yellow, as that from the stem of Chel. Maj. is pure yellow and that from Opium is white."

It is well to bear in mind the parallelism observable between these three Poppies, no less in their medicinal than in their physical properties. The time for collecting the root is early spring or late autumn.

An alkaloid, Sanguinarine (identical with Chelerythrin of Chelidonium majus), has been isolated and the Nitrate of this has been studied separately. **Planets:** Mars, Jupiter.

Homeopathic

Sanguinaria canadensis is a right sided remedy, affecting the head, liver, chest and deltoid. Affects chiefly the mucous membranes, especially of the respiratory tract. It has marked vaso-motor disturbances. Vaso-motor disturbances, as seen in the circumscribed redness of the cheeks, flashes of heat, determination of blood to head and chest, distention of temporal veins.

Burning in palms and soles and has been found very applicable to menopausal disorders. Burning sensations like from hot water. Burning in various parts. Influenza coughs.

Tuberculosis. Sudden stopping of catarrh of respiratory tract followed by diarrhea.

Sanguinaria treats the vasomotor disturbances, as is seen in circumscribed redness of the cheeks, abdomen tongue etc., congestion of blood to head, chest, abdomen etc., flushes of heat and general pulsations. Burning heat and ebullitions. Mucous membranes become dry. Burning in throat, under sternum, spots or stitches in chest, palms and soles. Burnt feeling in tongue.

Sick and faint from odor of flowers. Symptoms ascend or end in bilious vomiting Internal rawness. Acrid, blood streaked or foul discharge. Lies on back with head elevated. Menopausal disorders. Bilious. Pains increase and decrease with the sun. Sudden stopping of catarrh of respiratory tract followed by diarrhea. Polyps, nasal, uterine. Fungus excrescences. Pains in places where bones are least covered. Like Chel., Sang. is a right-side medicine and affects especially the right lung and is suited to pulmonary disorders with liver involvement.

Clinical

Alcoholism. Aponia. Asthma. Breast, tumor. Bronchitis. Cancer. Catarrh. Chest, pains in. Menopause, Cold, Croup. Deafness. Diphtheria. Dysmenorrhea. Dyspepsia. Ear, polyps. Gleet. Granular lids. Hemoptysis. Headaches. Hot Flashes, menopausal. Influenza. Keratitis. Liver-cough. Menstruation, breasts painful.

Nails, ulceration. Neuralgia. Edema glottidis. Ophthalmia. Pharyngitis. Tuberculosis

florida. Physometra. Pneumonia, acute. Polyps. Pregnancy, disorders. **Heart**burn.

Quinsy. Rheumatism. Rhus poisoning. Shoulder. rheumatism. Sinusitis. Smell, loss. Stomach, neurosis. Syphilis. Tinnitus. Tumors. Vomiting. Whitlow. Whooping cough.

PAGE 1487

Modalities

Better acids, sleep, darkness. Better from lying on back, vomiting, cool air. Better from passing flatus. Better sour things, lying on left side. Worse from right side, periodically with sun, weekly, night. Worse from menopause, odors, 3 a.m. Worse from light, sweets, motion, looking up. touch. Raising arms.

Symptoms

MIND

Angry irritability, moroseness. Grumbling. Borrows trouble. Lassitude indisposed to

MIND

move or make any mental effort. Anxiety and dread preceding the vomiting.

confused, better by belchings. Mental torpor, stupor, heaviness, sleepiness. Hopefulness, sanguine of recovery. Disgusting ideas. Dreamy state with eyes open.

Abdomen

Colic with torpor of liver. Tension in epigastrium. Sensation as if hot water poured itself from breast into abdomen, followed by diarrhea. Flatulent distention with escape of flatus from vagina. Awoke with severe pain in region of spleen. Violent stitches in spleen.

Flatulent distention. Throbbing in abdomen.

Back

Soreness down muscles of back. Pain in inner border of right shoulder-blade. Pain in sacrum from lifting.

Breasts

Sore and enlarged breasts, at menopause. Pain in right breast to shoulder. Severe soreness under right nipple. Hot streaming from breast towards liver. Pain in breast with periodic cough.

Chest

Burning soreness in right chest, through to right shoulder. Burning in chest, as of a hot steam extending to abdomen with cough. Pain in right chest to shoulder.

Tickling behind sternum, causes a constant hacking cough, worse at night on lying down. Hemoptysis. Hydrothorax.

Ears

Burning of ears with redness of cheeks. Earache with headache. Polyps. Humming and roaring in the ear, painfully sensitive to sounds, at menopause. Cracking in right ear while stroking cheek. Throat disorders causing deafness and earache.

Eyes

Acute conjunctivitis. Burning dryness in eyes, followed by copious lachrymation. Yellow sclera, jaundice. Swelling over eyebrows. Lachrymation with coryza, tears hot.

Blepharitis. Retinal congestion. Catarrhal ophthalmia, granular lids. Redness of eyes in morning. Vapor or cloud before eyes. Eyeballs painful on moving them.

Face

Hectic flush, red cheeks. Redness and burning of cheeks. Neuralgia, pain extends in all directions from upper jaw. Fullness and tenderness behind angle of jaws.

Female

Menopausal disorders, especially flushes of heat. Burning of palms and soles at menopause. Leucorrhoea fetid, corrosive. Menses offensive, profuse. Before menses, itching of axilla. Uterine polyps. Menstruation too early with a discharge of black blood. Amenorrhoea.

Food

Loss of appetite with great weakness of digestion. Unquenchable thirst. Craving for spicy things. Craves, knows not for what. Aversion to butter, which leaves a sweetish

taste. Sugar tastes bitter and causes burning. Sweet things aggravates, causes burning. If goes without food, gets bilious headaches.

Head

Periodical sick headache, pain begins in occiput, spreads upwards or ascending from occiput to over right eye. Headaches, if he goes without food. Headaches, better sleep, vomiting and passing copious flow of urine. Headaches return at menopausal, every seventh day, (Sulph., Sabad.) Veins and temples are distended.

Sun headache. Hemicrania increases and decreases with the sun. Pain in the occiput like a flash of lightning. Pain in small spot over upper left parietal bone. Pain in the back of head "like a flash of lightning."

PAGE 1488

Heart

Weak feeling, irregular action. Valvular disease with lung development, phosphates in urine and loss of flesh. Weak feeling about heart. Metastasis of rheumatism (or gout) to heart from outward applications. Palpitations of heart.

Kidneys

Urine dark yellow with jaundice. Copious and frequent, clear worse at night. Dull, heavy pain across kidneys. Urine high-colored, red sediment. Ardor urine.

Limbs

Rheumatism of right shoulder. Cutting pain or stiffness in right deltoid worse raising or turning arm. Rheumatism of left hip-joint and nape of neck. Pain in shoulder worse night. Itching in axilla worse before menses. Pain in bones near surface. Neuritis better by touching the part. Burning of palms and soles, worse covers, at menopause. Palms wrinkled. Aching and swelling of ball of thumb, (right). Pain in arm better swinging arm to and fro.

Liver

Jaundice. Pain over region of liver. Liver-cough.

Lungs

Asthma with stomach disorders. (Nux-v.) Cough of gastric origin, relieved by eructation. Cough with burning pain in chest, worse right side. Pneumonia, catarrhal, right side, better lying on back. Sputum tough, rust-colored offensive, almost impossible to raise. Spasmodic cough after influenza and after whooping cough. Cough returns with every fresh cold. Hemoptysis from suppressed menses. Severe dyspnea and constriction of chest. Expectoration tough, rusty colored, purulent which aggravates. Tuberculosis. Sudden stoppage of catarrh of air passages brings on diarrhea.

Male

Burning in glans. Emissions two nights in succession after which he felt very well. Gleet, old cases. Cheesy secretions from glans (syphilis).

Mouth

Offensive breath. Ulceration of mouth and fauces with dry, burning sensation. Tongue white, feels burnt. Anterior tongue looks red like raw beef. Sweet things taste bitter. Palate feels scalded.

Neck

Soreness of nape on being touched. Rheumatic pain in nape, shoulders and arms. Pain in right side of neck as if strained in left side.

Nose

Hay fever. Ozaena with profuse offensive yellowish discharges. Nasal polyps. Coryza, followed by diarrhea. Chronic rhinitis, membrane dry and congested. Pain at the root of nose. Rose-cold with subsequent asthma. Sensitive to odors. Loss or perverted sense of smell, smell in nose like roasted onion.

Rectum

Dysentery. Alternate diarrhea and constipation. Urging to stool, but only discharges of flatus. Diarrhea as coryza improves. Diarrhea, bilious, liquid, gushing stool. (Nat-s., Lyc.) Cancer of rectum. Ineffectual urging to stool, then vomiting. Copious apple-green stools with flatus. Colic followed by diarrhea. Constipation. Hemorrhoids.

Sensations

As if paralyzed. As if forehead would burst. As of a band across forehead. As if head were drawn forward. As if electric current shooting through head. As if temples and scalp were alive with irrepressible pulsation. As if eyes would be pressed out. As if hairs were in eyes. As if she was in a railway car which was moving and jarring her and as if all about her moved rapidly and confusedly.

Skin

Heat and dryness of skin. Scaly eruptions, carbuncles. Acne with scanty menses. Prickling heat spreading over body. Jaundice. Itching and nettle-rash before the nausea. Antidotes rhus poisoning. Red, blotchy eruptions, worse in spring. Burning and itching, worse by heat.

Circumscribed red spots. Old indolent ulcers with callous borders and ichorous discharge. Fungus excrescences.

PAGE 1489

Sleep

Drowsiness causing mental and bodily indolence. Sleeplessness at night, awakens in a fright as if he would fall. Can't sleep without brandy. Slightest noise disturbs, yet is sleepy and dreamy. Dreams of sea voyages with sensation of being rocked. Dreams of business matters, frightful.

Stomach

Burning in stomach with headache, vomiting. Nausea with salivation. Nausea, which is not better by vomiting. Sinking, faint all-gone feeling. (Phos., Sep.) Spitting of bile, gastro-duodenal catarrh. Stomach pains to right shoulder. Hiccough while smoking. Vomiting of bitter water, sour, acrid fluids of ingesta of worms.

Teeth

Toothache from picking teeth. Pain in hollow teeth, especially when touched by food. Pain in decayed teeth after cold drinking. Looseness of teeth with salivation. Bleeding, spongy, fungoid gums.

Temperature

Flushes of heat, rising into face and head with headache. Sweat, burning, scanty. Chill and shivering in back. Shaking chill. Chill with nausea, headache. Heat flying from head to stomach. Fever heat and delirium. Intermittent fevers, marsh fevers, nervous fever. Fever from pulmonary, hepatic or gastric inflammation. Copious sweat, cold sweat.

Throat

Cough dry, tickling in throat-pit. Tonsillitis. Sore, swollen, (right), pains to ear and chest. Burning, worse eating sweet things. Dry and constricted. Dryness of throat in singers.

Aphonia. Larynx, full and dry in singers. Edema of larynx. Ulcerated sore throat, as if raw and denuded. Sensation in pharynx as if scalded by hot drink.

Tongue

Tip of tongue burns as if scalded. Pricking in tip of tongue. Tongue feels as if burned or as if sore. White coated tongue with slimy, fatty taste. Red streak through middle of tongue.

Stitches in left side of tongue. Crawling on tip of tongue.

Vertigo

Vertigo worse looking up and moving head rapidly. Vertigo terrible, when looking upward with nausea, fainting and headache.

Comments

Sang. also acts powerfully on the outer chest, sternum and breasts. Like Chel., it has a reputation for curing cancer, polyps and new growths. Clarke has seen breast tumors diminish under its action.

Grimmer states: This remedy has cured cancer of the breast with severe burning pains inflammatory symptoms of the mucous membranes of the respiratory and gastrointestinal tracts and the skin.

Heat, flushing and redness of the skin are pronounced, burning pains (wherever pain exists) are characteristic.

The Sang. headaches are of great intensity and have some stinking characteristics. They are: (1) periodic every seventh day, (2) begin in the morning increase to noon and then diminish, (3) are bursting or as if the eyes would be pressed out, (4) begin at occiput, spread upwards and forwards and settle over right eye, (5) like a flash of lightning in occiput, (6) better by sleep, (7) return at menopausal.

Hering described the headache of Sang. as the "American sick-headache" rush of blood causing faintness and nausea, pains sharp or throbbing. Can neither bear light nor odors nor least jar, as any one stepping across the floor, at height of headache vomiting of food and bile, pain so violent patient goes out of her mind or seeks relief by pressing head against pillow or with the hands. Cooper gives as a keynote: "If he goes without food, gets bilious headaches."

Violent throbbing headache with extreme nausea and vomiting, frequent fetid belchings and great salivation are common symptoms.

PAGE 1490

Severe burning in stomach, vomits bitter water and sour acrid fluids, nausea not relieved by vomiting.

Sweets aggravate the burning, vomiting of worms tormenting thirst, sweets taste bitter. Vomiting, ameliorates the nausea and headache. Headache worse by day, sunrise to sunset.

S. L. Mitchell has recorded fatal poisoning of our workmen who drank the tincture in mistake for brandy. They were all soon seized with severe racking and burning pains in the stomach and bowels with intense thirst. "Burning" is one of the leading notes of the remedy and is found in many different part.

Winterburn has published a case illustrating this indication in the region of the stomach: (1) Mr. F. 48 of sanguino-bilious temperament, energetic, refined, had been ill with pains in the stomach several months.

A clairvoyant had recommended "a decoction of blood-root and bone-set in tablespoonful doses." Each dose produced "intense burning pains in the stomach lasting for hours," and it had to be discontinued. Weeks later Winterburn was consulted and this is the condition he found:

Burning in epigastrium with pressure, worse at night, but coming on soon after lying down and compelling patient to arise. Belchings gave no better. Appetite great, bowels torpid, an unsatisfactory relief each morning, leaving a sense of discomfort.

Peculiar drawing pain in shoulders and arms during sleep, so that when she woke the fists were tightly clenched and flexed on the sternal end of clavicle, lameness and weariness of the muscles followed.

Sang. 200c, was chosen after careful comparison with Nux-v., Graph. and others, was given every night at bedtime. After the first dose the symptoms disappeared "like magic," and the patient was soon well.

Leonard says "a circumscribed burning in the chest, commonly followed by heat through abdomen and diarrhea," is a strong indication for Sang. in pneumonic conditions.

Sang. has also the circumscribed hectic flush on the cheeks, as in tuberculosis in which it is frequently indicated. Sang. has also the "hopefulness" of tubercular patients. The flushed face, at times dark red or livid is also a prominent feature of Sang., as it is of Op.

Sang. affects the whole respiratory tract, irritates the nasal mucous membrane and causes coryza with pain at root of nose, lost or perverted sense of smell. Sensitive to the odor of flowers. Influenza, hay fever, ozaena and polyps have all come within its range.

Laryngitis and membranous croup have been cured by it and I have found it meet a greater proportion of the tracheal and bronchial coughs of epidemic influenza than any other remedy.

The chief features are: Violent, dry cough, wheezing, whistling, metallic, sputa almost impossible to raise. Clarke has seen several cases of this kind rescued from apparently imminent death by Sang., the relief comes by the expectoration of a thick plug of mucus which was causing suffocation and which the patient was too weak to dislodge.

After influenza children often get a cough scarcely distinguishable from whooping cough. It is also the remedy for severe cough after whooping cough the cough returns with every fresh cold.

Offensiveness and acidity characterize the discharges of Sang. and the breath and flatus are also offensive. Menses offensive, flow bright red, later blood darker and less offensive. Before menses itching of axillae. Eruptions on the face of young women, during scanty menses. Menopausal disorders: flashes of heat, leucorrhoea, painful enlargement of breasts.

Sang. has also neuralgia of the face ameliorated by kneeling down and pressing head firmly against the floor, pain extends in all directions from the upper jaw. The ears are strongly affected by Sang.

PAGE 1491

Cooper gives this case: Girl, 19, had her throat bad three years from scarlatina and lately increasing deafness, noises all over head and vertigo. Sudden flushings in daytime, menses too frequent and profuse leucorrhoea. It pains her to walk from backache, had to give up teaching from this. Appetite poor from the headaches and tinnitus often has pain behind angles of lower jaw and swellings of gland.

All disappeared after a single dose of Sang. tincture, though at first the leucorrhoea was increased.

Sang. has symptoms of rheumatism, but the most characteristic is a rheumatic pain in right arm and shoulder, cannot raise the arm, worse at night. Pains in places where the bones are least covered.

F. Nichol in giving Hale his experience with Sang. in croup, says he used a solution of Sanguinarine in vinegar and he found that the most effective preparation.

In rheumatism cannot raise arm from side but can swing it to and from. The right side is more affected than the left. Symptoms go from right to left. Periodicity is very marked.

Sanguinarinum aceticum

Pharmacy

Sanguinarinum. Trituration. Solution in vinegar. Historical dose: All potencies.

History

Sanguinarine. is a pearly white substance. In smallest physiological doses it acts as "expectorant" in large it causes nausea and still larger vomiting. In repeated doses it lowers the pulse rate (Thomas). **Planets:** Mercury.

Homeopathic

Croup. A hoarse, muffled cough, with complete aphonia. Pseudo-membranous croup.

Nausea and vomiting. Great dyspnea. Grasped his throat in agony.

Comments

T. Nichol gives his experience with a solution of one grain of Sanguinarine in two ounces of vinegar in cases of pseudo-membranous croup. (He does not say how much of this he gave or how frequently he repeated: probably the dose was a few drops in water given frequently) relates this case:

W. G., 5, had been ill some days. Nichol found him with a hoarse, muffled cough, complete aphonia, pulse 132. Soft palate and fauces covered with pearly, fibrinous exudation, a hissing sound was heard on auscultating larynx. Great dyspnea.

The child stretched back his head and grasped his throat in agony. Features swollen and dark. Sangn. acet. was given and in fifteen hours there was notable improvement. In forty-eight hours the boy was out of danger.

SOURCES

Clarke.

Sanguinarinum nitricum

(nitrate of sanuinarine)

Pharmacy

Sang-n. Sanguinarinum nitricum. Nitrate of the Sanguinarina. Trituration. Historical dose: All potencies, third trituration.

History

Sang-n. is a very fine brownish-red powder, pungent, acid, bitter and inodorous. It is soluble in alcohol, ether, water and oils, but not in the same proportion in all.

PAGE 1492

Pure sanguinarine is a pearly-white substance, but when combined with any of the acids the result is a salt of some shade of red, crimson or scarlet.

The color of the blood-root may be due to the presence of some native salt of Sanguinarine, (Hale). Sang-n. was proved in 3x trituration by Professor Owens of Pulte Medical College and some very striking symptoms were elicited. **Planets:** Mercury.

Homeopathic

Sang-n. is of use in polyps of the nose. Acute and chronic catarrh. Acute pharyngitis. (Wye.). Smarting and burning in throat and chest especially under sternum. Influenza. Lachrymation, pains in eyes and head, sore scalp, sense of obstruction. Chronic follicular pharyngitis.

Clinical

Adenoids. Allergies. Asthma. Borborygmus. Bronchitis. Catarrh. Colic. Colds. Coryza. Deafness. Eustachian catarrh. Hay fever. Headaches. Influenza. Laryngitis. Pharyngitis. Polyps. Post-nasal catarrh. Quinsy. Stiff-neck. Throat, sore. Tinnitus.

Causations

Driving in cold wind. Winter weather. Exposure.

Modalities

Bathing with warm water ameliorates heat in forehead. Touch worse. Pressure worse soreness of eyes. Headache is ameliorated by discharge of much mucus from nose. worse At night.

Symptoms

Abdomen

Borborygmus and pains in abdomen, as if diarrhea would set in, with sharp, cutting pains.

Back

Stiffness in muscles of left neck and shoulder.

Chest

Short, hacking cough arising from sensation of tightness in chest. Pressure behind center of sternum. Tightness in the chest. Tension in chest, burning and accumulation of mucus behind center of sternum.

Ears

Obstruction of Eustachian tube. Difficulty in distinguishing sounds. Roaring in right ear.

Eyes

Sore, aching pain in eyeballs. Redness and soreness of inner canthi.

Burning, pressing aching, and sore pains in eyes. **Profuse lachrymation**, tears gush out. Redness of lids and conjunctiva. Sight dim, as if looking through gauze.

Food

Everything tastes dry like chips. Coffee did not taste natural, wanted something succulent not pungent but soothing to mouth and throat. Little appetite.

Head

Pain in supra-orbital region. Burning pain in forehead and root of nose. Heat in forehead ameliorates bathing with warm water. Sensation of obstruction and fullness in head, ameliorated by discharge of a large quantity of thick, yellow, sweet-tasting mucus.

Kidneys

Passed urine every hour during the night. Urine had bright yellow or white sediment.

Limbs

Stiffness in muscles of left shoulder and neck.

Lungs

Strong desire for fresh air. Short, hacking cough with expectoration of thick, yellow, sweetish mucus. Dryness and burning in throat and bronchials. Tickling cough. Chronic nasal, laryngeal and bronchial catarrh. Cough is deep and rattling. Sense of suffocation. Feeling as if air passages lined with thick, stiff mucus or pus. Raises thin, frothy mucus, which is very tenacious.

Mouth

Heat in mouth as if pepper had been taken. Ulceration on the side of the tongue. Acrid, burning sensation on tongue. Roughness and dryness in mouth and throat. Increased flow of mucus and saliva with sneezing and burning in forehead. Bitter taste extending back to root of tongue.

Nose

Feels obstructed. profuse, watery mucus with burning pain. Enlarged turbinates at beginning of hypertrophic process. Secretion scant, tendency to dryness. Small crusts which bleed when removed. Post-nasal secretions stuck to naso-pharynx, dislodged with difficulty. Dry and burning nostrils, watery mucus with pressure over root of nose.

Nostrils plugged with thick, yellow, bloody mucus. Sneezing. Rawness and soreness in posterior sinuses.

PAGE 1493

Sleep

Sleep poor, restless from feverish and irritable condition.

Stomach

Sensation of burning in stomach and esophagus. Belching up of putrid-smelling gas though she had eaten nothing since morning.

Throat

Voice altered, deep, hoarse. Rough, dry, constricted, burning. Right tonsil sore, swallowing difficult.

Comments

The catarrhal symptoms of Sang. appear in great intensity, the nose, eyes, throat and bronchi being affected. Lachrymation, pains in eyes and head, sore scalp, obstructed nose and burning pains throughout all regions were experienced.

A sense of obstruction is characteristic: Sensation of obstruction and fullness in the head, accumulation of mucus obstructing nose, awakes frequently with dry mouth, the nose being obstructed. Accumulation of mucus behind center of sternum, sense of suffocation, feeling as if air-passages lined with thick, stiff mucus or pus.

Heat and tension behind sternum is characteristic and so is expectoration of quantities of sweet-tasting mucus. There is also expectoration of thin, frothy, very tenacious mucus.

The symptoms of influenza are very completely depicted, even to the loss or perversion of taste. Sng. n. appears to have the nasal symptoms of Sang. in an enhanced degree. "Sensation arising to nostrils as if he had eaten strong horseradish," is present. Hale gives these verifications.

(1) Mr. B., 40, dark, had for eight years in spite of continuous old-school treatment, chronic post-nasal catarrh, bronchitis and laryngitis. Voice altered, deep, hoarse, speech with effort, as if from chest. Severe pressure from behind sternum. Mucous membrane dry, raised only a few balls of gray mucus. He spent two winters on the St. John's River, Florida and was better there, but worse again on his return north.

Sang-n. 6c trituration. was given every two hours. In one week he was Better there was more moisture in his throat than three had been for two years. Voice markedly better.

Sang-n. was now given every four hours. In ten weeks he had regained six pounds of his lost weight and strength in proportion. The voice not having improved in the same degree, Caust. 6c and afterwards Dros. 3c, were given and in sixteen weeks he was perfectly well.

(2) Mrs. S., city missionary, 49, had constant hacking cough, raw, sore feeling in throat, sore aching and pressing behind sternum. She was much exposed to cold winds of winter, which set up coryza and irritation. Sang-n. 6c. trituration. grains i., every two hours, enabled her to follow her occupation without suffering and in ten weeks she was completely cured.

(3) O. W., 55, subject to frequent attacks of cold in head, throat and chest. After a long drive in open trap contracted a severe cold in head, throat, lungs. Sore and lame all over, frequent sneezing, lachrymation.

Next day sore throat very marked, constant tickling in throat-pit, exciting cough, at first short and hacking, but in two days it became violent and convulsive. Bell. and Dros. did little good. Pressure behind sternum became very severe.

Sang-n. 6c was given every two hours. In four hours copious perspiration came on with frequent sneezing. Next day sore throat appeared after waking from a troubled and restless sleep, constriction of throat with difficult swallowing, tension across chest radiating from behind sternum.

Sang-n. every hour. In one hour free discharge from nose set in three hours moisture and relaxation of constriction across chest. The discharge was yellow and sweetish-tasting, continued all day. Slept well and woke next morning feeling quite free. But little cough or coryza during the day. The following morning he was quite well.

PAGE 1494

C. Wesselhoeft regards Sang-n. as the simillimum for "New England colds." Adenoids and polyps have been cured with it. There is great craving for air.

Sanguinarinum tartaricum

(tartrate of sanuinarin)

Pharmacy

Sang-t. Sanguinarinum tartaricum. Tartrate or Sanguinarine. Trituration. Historical dose: All potencies.

History

Tully and Terry experimented with Sanguinarinum tart. in considerable doses. Tully says he has repeatedly witnessed all the effects of Sanguinaria root, save the neuralgic pains and the convulsive disorders from the use of Sang-t. **Planets:** Moon.

Homeopathic

The most peculiar of the symptoms are starting and protrusion of the eyes, extreme mydriasis, haggard expression and cold surface and cold sweats.

Clinical

Exophthalmos. Mydriasis. Stool, bilious. vision, dim.

SOURCES

Clarke.

Sanicula aqua

Pharmacy

Sanic. Sanicula aqua. A Mineral Spring Water of Ottawa, Ill., U.S. A. Containing, approximately in grains per gallon Nat-m. 93, Calc-m. 23.5, Mag-m. 23.25, Calc. bi-carb. 14.25, Calc. sulph. 9.5, Kali-sulph. 5, Nat. bicarb. 1, Nat. brom. 3, Fe. bicarb. 1, Nat-i. 12, Sil. 5, Alum. 01 and traces of Lith. bicarb., Nat-p., Borax. Dilutions of the spring water. Triturations of the evaporated salt. Historical dose: Tincture and all potencies.

History

This remedy has sometimes been confounded with the plant Sanicula Marylandica, Black Snake-root.

The water of Sanicula spring is without odor or color and has an agreeable and slightly alkaline taste.

Sherbino proved Sanic. in the potencies and a large number of the symptoms of the provings have been confirmed. We have in Sanic. one of the best-proved remedies of the Materia Medica, a polycrest and anti-psoric of wide range. Guernsey considers Sanicula the chronic of Cham.

Homeopathic

Sanicula, the mineral spring water affects the nutrition, female organs, rectum, neck and skin. It has been found a useful remedy in bedwetting, seasickness, constipation, etc. Rickets. Marasmus. Body smells like old cheese. Child kicks off covers at night, wants to lie on something hard though thin.

Clothes feel cold, damp. Enlarged feeling in throat, vagina etc. Thick acrid yellow pus. Can not bear to have one part touch another or cannot lie near another person. Bursting in perineum, bowels, bladder, vertex, chest. Car or sea sickness. Shifting pains.

Clinical

Amenorrhea. Anterior crural neuralgia. Asthma. Bedwetting. Bee-stings. Boils, blind. Borborygmus. Coccyx, soreness. Condylomata. Conjunctivitis. Constipation, children. Cornea, ulceration. Coryza. Cough. Dandruff. Debility. Diabetes. Diarrhea. Digestion slow. Dropsy during pregnancy. Eczema. Emaciation. Excoriations. Foot-sweat. Gastritis. Gumboil. Headache. Indigestion. Influenza. Intermittents. Itch, suppressed. Itching. Leucorrhoea. Liver, soreness. Lumbago. Melancholy. Milk, thin. Mouth, sore. Neuralgia. Neurasthenia. Night terrors. Nose, crusts in Ophthalmia, tarsi. Os uterus, dilated. Ossification, early. Ozaena. Perspiration, excessive. Pot-bellied children. Pregnancy, sickness. Rectum, cramp. Rheumatism. Rickets. Ringworm. Scurvy. Sea-sickness. Shoulder, rheumatism. Throat, sore. Tongue, burning. Toothaches. Uterus, prolapsed, tumor. Vomiting, milk, water. Wrist, boils.

PAGE 1495

Causations

Poor diet. Strains.

Constitutions

Patients are thin and look old, especially children. **Planets:** Saturn, Moon.

Modalities

Better from open air, warmth, vomiting. Worse from strain, motion, raising arm, putting hands behind. Worse descending, cold wind on occiput or neck, jarring.

Symptoms

MIND

Headstrong, obstinate touchy, children. Constant desire to look behind. Irritable, least word or action would upset her. Misconstrues everything. Crossness quickly alternating with playfulness in children. Dread of downward motion. Fear of the dark. Does not want to be touched. Restless desire to go from place to place. Instability of purpose.

Abdomen

Loud gurgling, pot bellied children. Bowels bloated as if they would burst. Sore pains in groin.

Back

Neck weak and emaciated, child cannot hold its head, stiff backache worse least turning, raising arms or putting hands behind him, must turn whole body to look around, sits, head forward to ease the pain. Cold lumbar spine. Lumbago, better lying on right side. Lumbar vertebrae as if dislocated or were gliding past each other. As if back is broken in two pieces. As if damp cloth on sacrum.

Chest

Tickling under sternum. Great soreness of upper chest, when coughing must hold it with hands.

Ears

Eustachian catarrh. Stuffed feeling in left ear. Soreness behind ears with discharge of white, gluey, sticky substance.

Eyes

Lids agglutinated in morning. Lachrymation in cold open air or cold application. **Eyes** burn, exuding a sticky fluid. *Dandruff of the eyebrows. Sight dim.* Cornea ulcerated. Photophobia.

Face

Acne about eye and cheek. Excoriation of upper lip. Itching eruptions in beard, especially under chin, worse when warm. Pimples on face.

Female

Leucorrhoea with strong odor of fish-brine worse stools. Bearing down as if contents of pelvis would escape, worse jar, walking. Supports the relaxed parts by placing the hand against vulva, better rest. Vagina feels large, cannot stop menstruation. Os cervix open and dilated as if.

Food

Child wants to nurse all the time yet loses flesh. Craves, salt, bacon or ice cold milk. Great longing for the spring water. Thirst little and often. Eating causes urging for stool, must leave the table. Feels better after eating.

Head

Cannot bear cold air on occiput and neck. Profuse sweat on occiput and neck worse during sleep. Electric crackling in hair, when combed. Profuse scab dandruff, falling of hair. Bursting in vertex. Cold cloth around brain as if. Small boils on head that do not mature.

Kidneys

Child cries before urinating, strains to urinate while at stools. Briny urine. Bursting in bladder with urgent call to pass urine. Frequent, profuse, sudden urination, urging ceases if desire is resisted. Urine stains diaper red.

Limbs

Pain in shoulders worse raising arms or putting them behind back. Cold clammy hands and feet. Burning of palms and soles. Cramps in feet. Foul foot sweat, chafes toes, destroys shoes or stiffens the hose. Feet as if in cold water. Hands become sweaty when putting them together.

Liver

Soreness through hepatic region. Enlargement of liver, sensitive to pressure and jar.

Lungs

Asthmatic breathing, worse after supper. Wheezing, rattling under sternum, worse during or after eating. Deep, hollow cough with loud rattling, caused by tickling under sternum. Tickling on lying down at night and on awaking. Rattling cough, child gags and vomits a mouthful of tough, stringy matter. Expectoration of large yellow, cheesy masses.

PAGE 1496

Male

Briny odor of the genitals, few hours after sex. Increased sexual desire at first, then much decreased. Discharge of semen too early with little sensation. Child's parts smell of fish brine even after bathing. Scrotum relaxed, clammy sweat about parts.

Mouth

Breath offensive. Mouth and palate covered with ulcers, white aphthae. Profuse flow of white, clear, transparent, stringy saliva when teething. Teeth sensitive to cold air, as if they were very thin. Teeth feel too long. Gums sore and painful, worse from eating.

Gumboils.

Nose

Sneezing and itching of nose. Fluent coryza worse eating. Water smells like old musty rain water. Nose sore and stuffed with yellow scabs.

Rectum

Constipation with ineffectual urging. Even soft stool requires great effort to expel. Stool of one large heavy mass, foul like rotten cheese, dry, small balls, must be removed or crumbles at the verge of anus. Pain, bursting in the perineum during stool. Stools, misshapen, changeable involuntary.

Skin

Eczema exuding sticky fluid, behind ears, on wrists, fingers toes. Itching worse by scratching. Dry, brownish, flabby worse neck. Fissured hands and fingers. Skin about neck wrinkled and hangs in folds. Tendency to small boils which do not mature. Skin dry and flabby. Cracks on fingers. Copper-colored syphilitic sores.

Sleep

On awakening child rubs eyes and nose with its fist. Dreams of robbers. Falls asleep after vomiting. Frequent waking at night. Lascivious dreams. Dreams of robbers and cannot sleep until the whole house is searched. Dreams of murder and remorse.

Stomach

Bloating of stomach on beginning to eat. Thirst little and often, water is vomited as soon as it reaches the stomach. Belchings, sour, rancid, burning. Nausea after eating with sick feeling, better from smoking. Vomiting of milk soon after nursing.

Sensation of a lump in stomach.

Temperature

The cold air chills him. Chill every day at same time. Whole body feels too hot at night. Begins to sweat as soon as covered. Sweat sticky. Sweats on side lain on. High fever every night with sleeplessness.

Throat

Dryness of throat. Hoarseness following sore throat, must clear throat before speaking. Cold, icy sensation in, peppermint like, feels too large. Can swallow solids better than fluids. Ulcers with yellowish base on tonsils.

Tongue

Sides of tongue turn up. Tongue adheres to roof of mouth. Tongue, large, flabby, burning, must protrude to keep it cool, ringworm on tongue. Thick yellow coating on back of tongue.

Vertigo

Vertigo on rising from stooping. Vertigo while sitting at table or desk. Vertigo after eating with nausea. Faint, smothering sensation with great desire for open air. Seasick sensation.

Comments

Sanicula is a remedy for children. It looks like Silica or Phosphorus and it has the fear of the dark of Phosphorus and the sensitivity to storms. It looks like Silica with the sweaty feet in children. Sanicula has skin symptoms that look like Sulphur: itching skin, eczema, worse bathing. The children are very obstinate, stubborn, hard to please.

Sanic. has vaginal discharges that smell like fish brine. Whenever you have a very strong fishy odor like in hemophilis, Gardnerella and trichomonas think of Sanicula. It smells like dead fish. Hepar sulph. is another remedy that has vaginal discharge with a fishy odor. The vaginal discharge of Sanicula may also smell like rotten cheese. Kreosote smells like a dead animal, the old books say carrion-like or cadaver-like odor.

Sanic. is used for vaginal discharges that are very offensive and as a children's remedy. There are pieces of Silica, Sulphur and Phosphorus. Looks like Cham. and Sulphur cases. If you see a Phosphorus with skin symptoms, think of Sanicula.

Santalum album

(sandalwood)

Pharmacy

Santa. Santalum album. Sandalwood. Santalum Freycinetianum. Santalum paniculatum. N. O. Santalaceae. India, Sandwich Islands. The oil distilled from the wood. Dilutions with alcohol. Historical dose: Tincture and all potencies.

Herbal

The word Santalum is of Persian origin. Sandal-wood oil is obtained from several species of Santalum, S. album being the chief. Its chief use in old-school practice is in gonorrhoea. Shirliff observed in a man taking the oil for gonorrhoea, soon after each dose and acute aching pain felt in the kidney region, so severe that if he was standing he was obliged to sit, which gave some better. **Planets:** Venus.

Homeopathic

Shirliff gave it in this case: An elderly man, looking worn and haggard, complained of pain in region of left kidney from ribs to iliac crest, brought on by walking, better leaning forward, completely better by lying down. Better pressing clenched fist into back.

The pain had lasted six months and was very acute when on Sulph., Berb. and Bry. gave no relief. Santal. (oil), one drop every four hours, soon gave great relief and entirely removed the pain in two months.

Clinical

Cystitis. Gonorrhoea. Kidney pain.

SOURCES

Boericke. Clarke.

Oleum santali

Santalum oleum

(oil of sandalwood)

Pharmacy

Ol-sant. Oleum santali. Sandalwood oil. Historical dose: Tincture and all potencies, tincture or in capsules.

Herbal

Two or three drops on sugar will frequently relieve the hacking cough, when but little sputum is expectorated. **Planets:** Venus.

Homeopathic

The action in the urinary and sexual spheres is most usable, especially in gonorrhoea. It is also a stimulating, disinfectant expectorant.

Clinical

Cystitis. Gonorrhoea. Kidney pain.

Symptoms

Bladder

Chronic cystitis. Frequent, burning, smarting, swelling and redness of meatus. Sensation of a ball pressing against the urethra, worse standing.

Kidneys

Stream small and slow. Acute aching in kidney region. Gleet with profuse, thick discharge.

Male

Painful erections, swelling of the prepuce. Thick, yellowish, muco-purulent discharge. Deep pain in perineum.

SOURCES

Boericke. Clarke.

Santoninum

(santoninum)

Pharmacy

Santin. Santoninum. Santonin. A neutral active principle obtained from Cina. Colorless, lustrous, right rhombic prisms, odorless and of a bitter taste. Become yellow by exposure to sunlight. Almost insoluble in cold, somewhat soluble in boiling water, fairly soluble in chloroform, boiling rectified spirit and in strong acetic acid, volatile oils, warm olive oil.

Trituration. Historical dose: All potencies, second to third trituration.

PAGE 1498

History

Santonin is the active principle of Santonica, the unexpanded flower heads of Cina Artemisia Maritima. Santonin. is the favorite anthelmintic of the old school and it is chiefly against lumbrici that it has been given. From 2 to 5 grains are the ordinary doses, but these have caused severe and in one or two instances, fatal poisoning convulsions, left side paralysis, delirium, vomiting and purging have resulted.

Santonin is often preferable in worm affections, same symptoms as Cina, corresponding to the "pain in shocks" produced by Cina. **Planets:** Moon.

Homeopathic

Santonin is of great value in the treatment of worm diseases, as gastro-intestinal irritation, itching of nose, restless sleep, twitching of muscles. Ascaris lumbricoides and thread worms, but not tapeworms.

The eye symptoms and those of the urinary tract are most prominent. An anthelmintic for color blindness and yellow vision. Visual illusions, yellow sight, violent light not recognized, colors not distinguishable. Chronic cystitis. Urine deep saffron color. Spasms and twitchings, chronic gastric and intestinal troubles sometimes removed by a single dose (physiological) of Santonin. Night cough of children. Laryngeal crises and lightning pains of tabes.

Most violent convulsions, unconscious, head hot, face flushed, purplish. Spasm begins in face and spreads to limbs. Partial paralysis of one (left) side. Restlessness and prostration.

Clinical

Amblyopia. Bedwetting. Cataract. Convulsions. Cough. Cystitis, chronic. Diarrhea.

Dysuria. **Eyes**, paralysis. Enteralgia. Enteritis. Epilepsy. Gastro-enteritis.

Hemoglobinuria. Hemiplegia. Infantile remittents. Nosebleed. Strangury. Tetanus.

Urination, frequent. Urticaria. Vision, yellow. Vomiting. Worms

Symptoms

MIND

Delirium. Excited, laughs and sings. Hysterical. Restless and irritable. Wants everything, but satisfied with nothing. Profound and unusual depression with irresolution and want of confidence, unfitting him for work of any kind. Melancholy like that produced by jaundice. Coma.

Abdomen

Bruised but soft, hot, full, rumbling in, very sensitive abdomen. Severe abdominal pains with vomiting and purging. Every night pain in intestines before stool.

Chest

Paralysis of lungs, artificial respiration had to be resorted to.

Eyes

Dark, blue rings around eyes. **Eyes** rolled convulsively, distorted, staring. Pupils dilated and insensible. Pressure in eyes. Photophobia with lachrymation. Sudden dimness of sight. Flickering before eyes. Objects seem to totter and dance, visions of figures, cherries, animals. Color blindness, xanthopsia. Yellow soup looks red, blue evening sky looks green, objects look green, white looks yellow, violet. Yellow vision, objects as if in yellow haze or yellow light. Strabismus due to worms.

Face

Red, hot face, staring eyes. Face pale. Pale round mouth, worse afternoon. One cheek white, the other one is red. Convulsive movements of muscles of face, especially lips and lids. Face pinched, drawing in of lips over teeth with pinched expression of mouth and nose. Swelling under chin, left side of face. Lips swollen, glistening with the distention.

Food

Deficient appetite. Thirst intense, continual for ice cold water.

Head

Occipital headache with chronic hallucinations. Head turning and twisting, restless. Dullness of head. Pain in forehead.

Heart

Pulse is quick and full, rapid, lowered, left absent, right soft and steady.

Kidneys

Feeling of fullness of bladder. Incontinence and dysuria. bedwetting. Nephritis. Frequent efforts to urinate, only passes a few drops at a time, that color linen yellow. Urine greenish if acid and reddish purple if alkaline. Urine deep saffron yellow, thick, sulphur yellow, greenish. Hemoglobinuria.

PAGE 1499

Limbs

Spasms of limbs. Convulsive jerking of upper limbs. Twitching of hands and feet. Gait unsteady and tottering, staggered.

Lungs

Coughed incessantly all night from tickling in larynx and trachea. Breath is rapid, sighing, quick and catchy, rattling.

Mouth

Frothing from mouth. Burning pains apparently torment her, as she forces everything into her mouth. Hallucinations of taste. Tongue deep red, dry.

Nose

Nosebleeds. Hallucinations of smell. Things smell peculiar.

Rectum

Well-marked tenesmus. Purging of watery, flaky, foul-smelling stools, followed by vomiting. Stools copious, grayish, putrid-smelling.

Skin

Urticaria, with edema of nose, lips, and eyelids, over almost entire lids, with vomiting.

Sleep

Sleepy, tired. Sleep restless. Sleep disturbed, woke unrefreshed with sickness, frontal headache, and deficient appetite.

Stomach

Frequent belchings. Nausea and vomiting. Nausea, better after eating. Vomiting and purging of yellowish, slimy mucus with severe abdominal pains. Dull pain in pit of stomach.

Teeth

Grating teeth during sleep. Teeth clenched.

Temperature

Whole body icy cold, lips and ears blue, face white as snow. Limbs cold, very clammy coldness. Violent fever, rapid pulse, burning heat of skin, face puffy, eyes brilliant, fixed. Cold sweats. Hot sweat in occiput, more clammy in front.

Throat

The glands of neck, parotid and submaxillary are swollen.

Vertigo

Giddiness and intense headaches, every object looks bright green.

Comments

A case recorded by Demme was quoted in Brit. Med. Jour., 1892: A boy, 3, was given by his mother during three days fifteen tablets, each containing grains $\frac{1}{3}$ of Santonin. The symptoms produced were:

Vomiting, dilatation of the pupils, collapse, cyanosis, dyspnea and finally convulsions.

Dilatation of the pupils, collapse, cyanosis, dyspnea and finally convulsions.

After a warm bath with cold applications to head and spine, consciousness returned. The temperature was 103.5, nosebleed and hemoglobinuria occurred and a scarlatina-like eruption was noticed. The child ultimately recovered.

After a dose of 7 centigrams, a child, 2, was seized with prostration, convulsions, cramps and jaundice, followed on the third day by salivation and ulceration of the gum. Less serious but very characteristic are the effects on the senses, especially the sense of sight. Visions of figures have been produced and colored vision is a frequent phenomenon, even when the lower triturations have been used.

Yellow is the predominant color, but green and violet vision are also marked. The urine also is yellow colored and stains yellow and is passed with much urging and painful burning. A kind of giant urticaria occurred in one case.

Hale records that Sant. has cured cases of "nervous blindness." It was given to an old man, quite blind, for worms and his sight partially returned. This led to further trials. It was given in nine cases of cataract and, according to Hale, four were cured, the rest not benefited.

Hale mentions bedwetting, strangury, chronic cystitis, as having been cured by it. It has made some "brilliant cures" of chronic catarrh of the bladder. Infantile remittents with or without worms, have been cured by it. In one prover there was "sensitiveness of the abdomen," which may be a keynote.

Saponaria officinalis

(soap root)

Pharmacy

Sapo. Saponaria officinalis. Soap root. Historical dose: Tincture and all potencies.

Herbal

Of great use in the treatment of acute colds, coryza, sore throat, etc. Will often "break up" a cold. Worse at night, mental exertion, left side. **Planets:** Mercury.

Clinical

Colds. Sore throat.

Symptoms

MIND

Depressed with sleepiness. Utter indifference to pain or possible death. Apathetic.

Eyes

Violent eye pains. Hot stitches deep in eyeball. Ciliary neuralgia, worse left side.

Photophobia. Exophthalmos, worse reading and writing. Increased intra-ocular pressure.

Glaucoma.

Face

Left-sided trigeminal neuralgia, especially supra-orbital.

Head

Stitching pain, supra-orbital, worse left side, evening, motion. Throbbing over orbits.

Congestions to head, tired feeling in nape.

Heart

Impulse weak, pulse less frequent. Palpitations with anxiety.

Nose

Stopped up feeling in nose, also itching and sneezing. Coryza.

Stomach

Difficult swallowing. Nausea, heartburn, full feeling not relieved by eructation.

Vertigo

Sensation of drunkenness with constant endeavor to go left-wards.

Compare

(1) Saponin.

(2) Verbas., Cocc. - both containing Saponin.

(3) Quillaya, Anagallis, Helonias, Sarsaparilla, Paris, Agrostema, Cyclamen and others contain Saponin.

SOURCES

Boericke.

Saponinum

Pharmacy

Sapin. Saponinum. Saponin. A glucoside obtained from Saponaria officinalis, Gypsophila, Structhium, Senega, Quillaja. Trituration. Solution. Watery solution speedily decompose. Historical dose: All potencies.

History

Saponin, a glucoside found in Quillaya, Yucca, Senega, Dioscorea and other plants. Saponin. has had a somewhat extensive proving in potencies ranging from 1x to 30c, conducted by A. J. Hills.

One prover, who took the 30c, for many years a sufferer from joint rheumatism, had none of his usual pains during the proving and a great enlargement of the left knee was entirely removed. **Planets:** Saturn.

Homeopathic

Tired indifferent. Pain in left temple, eye, photophobia, hot stitches deep in eye. Fifth nerve disorders. Migraine. Much pain before the menstrual flow, severe sore throat, worse right side tonsils swollen, worse in warm room. Sharp burning taste and violent sneezing.

Clinical

Acne. Boils. Colic. Constipation. Diarrhea. Dysmenorrhea. Bedwetting. Fevers. Headaches. Leucorrhoea. Migraines. Menstrual disorders. Nausea. Photophobia. Rheumatism. Sleeplessness. Spleen, pain. Strabismus. Tongue, strawberry. Tonsillitis Vomiting.

Modalities

Better by stool, by onset of menses. Better by cold, by cold bathing, while sitting. Worse by moving, even motion of the eyes worse mental labor. Worse by warmth. Worse swallowing. Desire to vomit and defecate, worse when quiet.

Comments

Two female provers had marked disturbance of the menstrual functions, especially pain and sufferings before the flow. A miliary eruption and colic and leucorrhoea before the menses, pain better but not removed when the flow was established.

Severe sore throat, worse right side, was experienced by several provers and Hills had so much swelling of the tonsils that he was obliged to abandon the proving.

PAGE 1501

Nausea and vomiting, colic and diarrhea, were among the symptoms and a particular one was "nausea more in esophagus and throat, worse in a warm room." This worse by warmth was met with in relation to many symptoms and is probably a keynote.

At the same time there was much chilliness and lowered temperature is a characteristic feature. The other symptoms of this experiment were marked bodily and mental depression and exophthalmos and strabismus.

The peculiar symptoms are involuntary emission of urine when walking. Roughness of mucous membrane of mouth with raised papillae on palate and tongue. Strawberry tongue.

Sarcolacticum acidum

Pharmacy

Sarcol-ac. Sarcolacticum acidum. Dextrum lacticum acidum. Historical dose: All potencies, 3x to 30c.

History

Sarcol-ac. is apparently formed in muscle tissue during the stage of muscle exhaustion. Differs from ordinary lactic acid in its relation to polarized light. It represents a much broader and more profoundly acting drug and its pathogenesis is quite dissimilar from the normal acid.

The proving was the work of W. Griggs of the Hering Laboratory, Philadelphia. The experimentation was carried out in 1940 on eleven people (nine men and two women), using the following potencies: 4x, 6x, 15x, 30x.

Wm. B. Griggs found Sarcol-ac. of great value in the most violent form of epidemic influenza, especially with violent and retching and greatest prostration, when Arsenicum had failed. Locally in the tuberculous ulceration of vocal cords. **Planets:** Mars, Saturn.

Homeopathic

Sarcol-ac. corresponds to excess of intra-muscular lactic acid, following prolonged exercise, which generates fatigue. This chronic fatigue, when pushed to an advanced stage, results in an almost paralyzing weakness with prostration. Spinal neurasthenia, muscular weakness, dyspnea with myocardial weakness.

Extreme fatigue, anxiety, prostration. Influenza with rhinitis. Muscular cramping pains, aggravated by movement. Digestive intolerance. Dryness and itching of the skin. Morning sickness, diabetes and rheumatism offer a field for this remedy. Troubles in the breasts.

Clinical

Addison's disease. Diabetes. Influenza. Myasthenia. Myasthenia. Myotonia. Neurasthenia.

Modalities

Worse at night. Worse from movement from standing upright.

Symptoms

MIND

Feeling of laziness, weakness, dejection, irritability and becomes easily annoyed by the smallest thing.

Abdomen

Sedative palliative for gastro-intestinal tumors.

Back

Tired feeling in back and neck and shoulders. Paralytic weakness. Cramping pains in the back and lumbar region, aggravated when standing.

Chest

Aortic pain and rapid pulse after exertion.

Head

Headache and vomiting, pain situated on the forehead and above the eyes, ameliorated by going to stool.

Heart

Cardiac rheumatism. Raynaud's syndrome.

Kidneys

Profuse urination at night. Urine clear with traces of proteinuria. Polyuria. Profuse nocturnal urination.

PAGE 1502

Limbs

Wrist tires easily from writing. Extreme weakness from climbing stairs. Stiffness of thigh and calves. Arms feel as if no strength in them. Cramp in the calves. Paraesthesia, joint numbness and pains. Difficulty in brushing hair. Tiredness of the wrist when writing. Psoric rheumatism. Rheumatoid arthritis. Fibrous rheumatism. Writer's cramp.

Lungs

Dyspnea, feeling of cardiac weakness, croupy cough, especially at night. Bronchitis. Dry, painful pleurisy.

Nose

Coryza, throat dry and painful, swallowing impeded, alleviated by day, aggravated at night.

Rectum

Burning hemorrhoids. Stools acrid and expulsion of gases in profuse, easing the condition.

Skin

Intense general itching, improved by the cold. Keratotic eczema. Lichen planus. Psoriasis. Scleroderma.

Sleep

Difficulty in going to sleep, sleep light when it comes. Wakes aching and exhausted.

Stomach

Acrid dyspepsia. Nausea. Uncontrollable vomiting even of water followed by extreme weakness. Heavy, painful feeling in the pit of the stomach. Digestive intolerance especially of cold water.

Temperature

General chilliness with coldness of the limbs. Extreme chilliness in bed. The right hand does not become warm by external heat.

Throat

Constriction in pharynx. Sore throat with tightness in naso-pharynx. Tickling in throat.

Comments

According to Dr. Kuhl. Lactic acid has an anti-cancerous preventive action and he recommends a special diet with additional lacto-fermented products.

Compare

(1) Eup-per. - cracking sensation with acute pains in the bones.

(2) Bry. - aggravation by movement.

(3) Arnica - muscular bruises.

Boericke. Julian.

Sarothamnus scoparius

(broom)

Pharmacy

Saroth. Sarothamnus scoparium. Spartium scoparium. Cystisus scoparius. Broom.

Leguminosae family. The mother tincture is prepared from the flowers which contain a small amount of spartein, (10%), scoparoside and tyramine. Historical dose: Tincture and all potencies, 2x to 30c.

Herbal

Sarothamnus scoparium is a shrubby tree, widespread throughout Europe. The twigs are used for the extraction of the official spartein, the flowers are rich in flavonoids and the plant contains aromatic amines. The effect of Sparteine sulphate, (the alkaloid of Broom) is to cause a lowering of the systolic and diastolic pressures of the provers. It also shows a condition of lowered blood-pressure.

Sarothamnus depresses the heart by its poisonous action on the myocardium and this with the stimulating action of the drug upon the vagus, accounts for the lowered blood pressure and reduced pulse rate. It weakens the cardiac contraction. The total amount of urine is increased. The remedy has therefore, diuretic properties and is useful in dropsy.

Hinsdale attempted the first Homeopathic proving in 1918, on three students. In 1897, Schier conducted proving on six people, using the tincture and the infusion of the winter root, as well as the tincture and infusion of the fresh flowers. But it was Mezger who undertook a true proving on twenty-seven provers of whom seven were women, at the Robert Bosch Hospital in 1951-52. The potencies 4x, 2x and the mother tincture were used.

Homeopathic

Saroth. is a heart tonic, affects the kidneys, cord, muscles and left side. Sparteine sulphate increases the strength of the heart, slows it and reduces the blood pressure.

PAGE 1503

It continues the good effects of Veratrum and Digitalis without any of the undesirable effects of either. (Hinsdale.)

Irregular heart action from influenza or other infectious diseases. Relieves the congestion of kidneys enabling them to eliminate and relieve the distress upon the heart. Heavy aching.

Saroth. is used palliatively in the physiological dosage to combat arterial hypertension, arteriosclerosis. Very useful in sustaining heart after stopping habit of Morphine. It is indicated when primarily the muscles of the heart and especially the nervous apparatus is affected. Acts rapidly and lasts three to four days. Does not disturb digestion.

Saroth. has specific action upon the kidneys, enabling them to eliminate and relieve the stress on the heart. Albuminuria. Cheyne-Stokes respiration. Irregular heart following grip and various infections. Hypotension. Nephritis. Congestion of the thyroid gland, hands clammy, sleep disturbed, hot flushes, emaciation. Increase in the size of the thyroid. Extreme tiredness. Leukemia with eosinophil.

Clinical

Albuminuria. Alopecia. Angina pectoris. Cheyne-Stokes. Collagen diseases. Diabetes

insipidus. Emaciation. Glaucoma. **Heart**, disorders. High blood pressure. Hodgkin's disease. Hypotension. Insomnia. Kidneys, disorders. Leukemia. Nephritis. Parasites. Pityriasis. Worms.

Constitutions

Tubercular, thyroidism or nervous. Allergic, psoric constitutions. **Planets:** Sun. Venus.

Modalities

Better from cool air, rapid motion, passing flatus. Worse turning on left side.

Symptoms

MIND

Apathetic without spirit, distracted. Irritable, loses his temper at the slightest thing. Inner agitation, ideas escape him. Easily irritated and likely to explode. Melancholic disposition is upset easily. General inhibition, but especially erotic. Everything is too much for him, difficulty in concentrating. Weakness of the senses and body. Obsession with erotic thoughts.

Abdomen

Intestinal parasites. Stomach and bowels seem to be filled with stones or as a firm mass. Flatulency with much mental depression. Spasmodic entero-colitis. Bacillary dysentery. Intestinal tuberculosis. Sensation of abdominal repletion and stomach feels hollow. Passage through intestines accelerated with three to six evacuations a day.

Back

Pain in the lumbar region.

Blood

Leukemia. Eosinophilia. Attacks of vasodilation at the limbs in the big toe and foot.

Breasts

Nodular congestion of the right breast (especially in men).

Chest

Angina pectoris. Constriction in the precordial region with sensation of tightness and anguish.

Ears

Monotonous rumbling and crackling in both ears, particularly intense between 7 p.m. and 8 p.m. Buzzing and other noises.

Eyes

Burning and stinging pains, especially behind the left eyeball. Pain on moving the eyes. When looking at an area of light, the brightness of the light and the rainbow colors of the halo seem more intense. Chronic glaucoma. Choroiditis. Iritis.

Face

Barber's itch.

Female

Excessive menses and long intervals between menses. Sex drive increased. Loss of libido, genital deficiency and evil-smelling sweating from the genital region. Menses late and prolonged.

Food

Persistent feeling of hunger, despite constant feeling of nausea. Appetite increases, constant need to eat. Loss of appetite with aversion to food and strangling feeling. Aversion to eggs and meat.

Head

Pulsating headaches, as if the skull would burst. Congestion in the head. Headache, as if wearing a helmet, going from the eyes towards the occiput, (glaucoma).

PAGE 1504

Heart

Anxious oppression, radiating to left shoulder and neck. Palpitations with congestion to head. Tobacco heart. Angina pectoris. Irregular action, disturbed rhythm due to gas, feeble in nervous hysterical patients. Myocardial degeneration, failing compensation. Hypotension. Sparteine for water-logged cases, cannot lie down. Here it produces much comfort.

Kidneys

Drawing pains in the kidneys with colic pains. Very profuse, bright foaming urine, then burning in the pudendum. Increased urination. Frequent need to urinate at night, especially around 5 a.m. Diabetes insipidus. Bedwetting. Hydronephrosis. Albuminuria.

Limbs

All the muscles are painful, as if stiff. Deadness of right arm and fingers. Fidgets in the legs, which prevent him from falling asleep. Drawing joint pains. Sudden pains, regularly in the sciatic nerve. Nocturnal pain in the hips and sacrum, left shoulder, left elbow and fingers of the right hand. Neuralgic pains, beginning on the right side, moving towards the left and diminishing on the right. Sciatic. Chronic inflammation of the hip. Chilblains. Strumous edema of the legs. Acrocyanosis.

Lungs

Asthma.

Male

Loss of libido, genital deficiency and evil-smelling sweating from the genital region.

Mouth

Vesicles on the lips and mouth.

Nose

Tickling in the nose with frequent sneezing. Nostrils blocked alternately. Nasal secretions, streaked with blood and abrasion of the nasal orifices. Small new growths on the nasal wall. Hay fever. Ozaena. Maxillary sinusitis.

Rectum

Alternating of diarrhea and constipation. Tenesmus, ameliorated by emission of wind. Colic, then bright acrid foaming stools followed by burning in anus. Stools yellow, glairy with tenesmus. Stools hard like balls, covered with mucus and mixed with a frothy diarrhea. Hemorrhoids with splinter-like pain.

Skin

Small vesicles, extremely irritating. Eczematous eruption, both damp and dry. Infiltration and bluish coloring in the joints of the toes. Copious nocturnal sweating with a strong odor. Hair stiff, dandruff. Loss of hair in patches. Allergic eruptions. Urticaria. Folliculitis. Boils. Pityriasis. Alopecia. Dysidrosis. Adenitis of the sweat glands. Impetigo. Acne rosacea.

Sleep

Insomnia. Sleep light, easily woken by noise. Sleep disturbances: sleep long in coming with abundant ideas or with waking between 3 a.m. and 5 a.m. Great need for sleep, spends a large part of the day in bed. On waking, feels tired and has the impression of not having slept enough. Dreams pleasant and colorful. Dreams at times, about disappearances, murders, deaths.

Stomach

Ptosis of the stomach and intestines. Dyspepsia. Aggravation of stomach ache by food.

Temperature

Sensitive to the cold, worse in the evening, feeling of head, sweating, numbness.

Throat

Irritation of the larynx with dry cough, coming from the throat. Tickling in the throat. Acute and chronic laryngitis.

Comments

Saroth. has weakness of the senses and body. Sensation of uneasiness and cold, which is worrying, only the head needs fresh air. Sensation of coldness, except for the head, which is better in fresh air.

Pain in the cardiac region and rhythmic anomalies. Palpitations, especially at night and when resting, but also from slight exertion. Pulse accelerated. Violent cardiac pulsations, which shake the whole body. Pains and cardiac palpitations with tingling and feeling of soreness, especially when lying on the left side. Extra systole, notices the irregularity of the contractions. Left ventricular cardiac deficiency.

Angina pectoris. Rhythmic anomaly. Basedow's heart. Aortitis. Bubbling sensation in the head.

PAGE 1505

Precordial constriction with anguish. Rheumatic pain, moving from right to left. Sudden pain in the left sciatic nerve around 10 p.m. Sleep long in coming. Hollow sensation in the stomach and abdominal repletion.

Compare

(1) Kalm. - Pains along the nerves from the center to the periphery and from top to bottom. Sudden pain, which moves around. Palpitations, worse when lying on the left side. Pulse slow.

(2) Spig. - Violent palpitations with oppression and anxiety. Must lie on the right side with the head high.

(3) Iber. - Violent palpitations at the least exertion. Pulse full, irregular. Aggravated in a warm room and when lying on the left side.

SOURCES

Boericke. Julian.

Sarracenia purpurea

(pitcher plant)

Pharmacy

Sarr. *Sarracenia purpurea*. Pitcher plant. N. O. Sarraceniaceae. Grows in boggy places from Canada southward. Tincture of fresh plant. Tincture of root. Contains a very active proteolytic enzyme. Historical dose: Tincture and all potencies, third to sixth potency.

Herbal

The use of the Pitcher Plant in small-pox is a discovery of the Indians of North America, the spotted appearance of the plant probably suggesting a resemblance to the disease. Hale has collected much confirmatory evidence of its power to antidote the small-pox poison.

A proving by T. C. Duncan, Thomas and others brought out symptoms of fever, backache, headache and gastric disturbance. **Planets:** Moon.

Homeopathic

Sarracenia purpurea is a remedy for variola. Visual disorders. Congestion to head with irregular heart action. Chlorosis. Sick headache, throbbing in various parts, especially in neck, shoulders and head, which feels full to bursting. Feels dull and heavy, sweats freely. Insensibility of right side, paralysis of hearing and smell.

Debility, heavy, languid. Dull, heavy, sore feeling in all bones. Phlegmonous swelling with a rosy tint on various parts. Unrefreshed though slept soundly.

Clinical

Back, pains. Bones, pains. Borborygmus. Constipation. Coxalgia. Diarrhea. Eruptions, scrofulous. Femur, pains. Herpes. Influenza. Lumbago. Psoriasis. Small-pox. Vision, disordered.

Modalities

Symptoms generally better in fresh air and better out of bed. Worse about midnight and at 3 p.m. Worse in the morning. Worse rising from lying. Worse trying to walk. Worse in stormy weather. Open air causes chilliness, hands and feet cold, causes head to be hot and sore and feel full. Cold air causes to feel chilly and worse bone pains.

Symptoms

MIND

Melancholy. Anxious about everything. Great depression of spirits with frontal headache. Dullness of mind. Forgetful. Loss of memory with the headache. Difficult to concentration. Alternate apathy and intellectual activity.

Abdomen

Transient pains in bowels. Bloated about navel. Borborygmi and some pain in bowels with constipation, dry throat.

Back

Pains shooting in zig-zag course from lumbar region to middle of scapula. Weak between the shoulders. Warm sensation passed up back into head. Back weak, wants to lean on something. Deep-seated pain in back. Pain and soreness in sacrum.

Chest

Pains in third and fourth ribs, with great apprehension of heart disease. Pain in angle or ribs. Soreness of pectoralis major.

Ears

Ringling in ears. Sticking pains deep in right ear, transient but recurring often, same in left ear. Intense earache, fears he will lose his senses. Swelling of parotids.

Eyes

Photophobia. **Eyes feel swollen and sore.** Pain in orbits. Black objects move with the eye.

Face

Face flushed. Heat and redness of face. Face pale with heat and chill alternating. Erysipelatous swelling of face. Miliary eruption. Scaly herpes on face. Intense neuralgic pains from temples to jaws.

PAGE 1506

Female

Watery or milky leucorrhea, foul-smelling, with spasmodic pains in uterus. Pulsative pains in womb with swelling as if from a tumor or dropsy. Uterus swollen as if full of cysts. Cervix swollen, hot. Miliary eruption and heat in vulva. Bloody discharge at other times menstrual period, as during menopause.

Food

Hungry all the time, even after a meal. Appetite unusually active. Little appetite, but what is eaten agrees. Great desire to sleep during eating.

Head

Light feeling in head. Sensation as if he had received a knock on the head, drowsiness and staggering gait. As if head were split.

Heart

Feeling of congestion about head, with irregularity of heart's action. Congestion to chest, heavy feeling about heart.

Kidneys

Urine phosphatic. Urine scanty, limpid.

Limbs

Limbs weak, bruised pain in knees and hip-joints. Bones in arm pain. Limbs cold when still, as from poor circulation. Weakness of limbs with paralytic debility. Pains and soreness in diaphyses of all long bones.

Lungs

Tuberculosis and bronchial disorders. Hemoptysis, thick cough, continual tickling in larynx and bronchi. Cough with desire to vomit, and vomiting. Paroxysms of suffocation and nosebleed. Hard cough, shaking chest and bowels. Expectoration of mucus, tenacious, filamentary, with a bitter, putrid, oily taste.

Mouth

Tongue is dry, coated brownish white. Mouth dry, lips and mouth parched. Toothache at night in bed, from least contact, and cold air.

Nose

Fetid smell. Nosebleed nearly producing fainting. Fluent coryza with cold chills and loss of smell.

Foul-smelling, green, yellowish, or bloody discharges. Nose swollen, red, with pressure and pulsation at root.

Rectum

Much flatus. First part of stool natural, last diarrhea. Much tenesmus, dysenteric diarrhea. Stools very hard, covered with mucus, and dark. Stool copious, dark, fetid, evacuated with great straining, morning. Rectum and anus swollen and inflamed.

Morning diarrhea, faint after stool.

Sensations

Left eye as if congested. Heat in face as if on fire. Swelling in womb as if from a tumor or dropsy. Uterus swollen as if full of cysts. As if bones of leg were too thick.

Skin

Eruptions similar to crusta lactea. Small-pox, aborts the disease, arrests pustules. Herpes. Psoriasis. Scrofulous eruptions.

Sleep

Sleepy in daytime, sleep disturbed by strange and frightful dreams. Awakes early in a fright with urging to urinate.

Stomach

Empty, hungry feeling, for he can keep nothing in his stomach. Burning pains in stomach with palpitations and contraction. Sleepy during meals. Copious, painful vomiting.

Pinching pain in stomach, it feels distended and torn.

Temperature

Feverish and shaking chills, worse morning. General chills between shoulder-blades. Chills, heat, and sweat, 5 p.m. Skin hot and dry. Hands hot, warm all over. Head and body warm. Perspires freely.

Throat

Throat dry, not better by tea or water.

Vertigo

Vertigo with cramps in neck, worse at night.

Comments

Hering quotes these instances of Sarr. action: (1) A woman far advanced in pregnancy was cured of small-pox with Sarr. 3c, 6c and 9c, delivery being accomplished during her convalescence, the infant bearing on its body numerous red blotches indicating that it had been affected with the disease.

PAGE 1507

(2) An infant a few months old was attacked with a grave form of small-pox with variolous angina so severe that it was with difficulty it could take the breast, the mother took Sarr. 3c, 6c and 9c and continued to nurse the infant, which promptly recovered, the mother not taking the disease.

(3) In an epidemic occurring in the environs of Wavre, Sarr. was given to two thousand persons living in the very middle of the disease and coming in constant intercourse with it, but all who took Sarr. escaped during the same epidemic two hundred cases were treated with Sarr. without a death.

Bilden, who used the 1x tincture in an epidemic with success, concludes that Sarr. is to small-pox what Gels. is to bilious fever.

Hale quotes Surgeon-Major C. G. Logie's (allopath) account of his experience with Sarr. (decoction probably) in small-pox:

"Four of the cases in my hospital have been severe confluent cases. They have throughout the disease all been perfectly sensible, have had excellent appetites, been free from pain and have never felt weak. The effects of this medicine, which I have carefully watched, seemed to arrest the development of the pustules, killing, as it were, the virus from within, thereby changing the character of the disease and doing away with pitting."

A number of eye symptoms appeared in the provings and Sarr. has cured disordered vision.

A case of "phlyctenoid herpes" has also been reported cured by it. Extreme lassitude and pains in the bones were prominent in the provings. The right side was more affected than the left.

Sarr. has the empty, hungry, sinking sensation of the anti-psorics. Dryness of mouth and throat. Weak feeling in the arms. Very sensitive to cold air. Faint after stool. There is bladder and rectal tenesmus. Stool smells of musk.

Sarsaparilla officinalis

(wild liquorice)

Pharmacy

Sars. Sarsaparilla officinalis. Smilax. Wild Liquorice. The rhizome of several species of Smilax. N. O. Smilacaceae, by some classed as a sub-order of the Liliaceae. Triturations and tincture of the dried rhizome. Historical dose: Tincture and all potencies, first to sixth potency.

Herbal

The dried root or rhizome of Sarsaparilla, as imported is of the thickness of a goose quill, many feet in length, reddish brown, scent less, mucilaginous in taste, feebly bitter, faintly acrid.

According to Mile it is diaphoretic tonic, alterative. It is given in scrofula and secondary syphilis and the concomitants of these diseases, such as ulcers, cutaneous eruptions, nodes indurated glands, decay, necroses, joint swellings and rheumatism often improve under a protracted course of it. Some think it a kind of restorative after an exhausting course of Mercury.

This well summarizes the ancient reputation of Sars. as a "blood purifier," which Hahnemann's proving has amplified and put on a fixed scientific basis. Sars. is "restorative" after over-dosing with Merc., because it is a homeopathic antidote to Merc.

Sars. has cured fig warts and those needing it have a marked tendency to emaciation, moist eruptions about the genitals or between the scrotum and thighs, retraction of nipples in those of cancerous inheritance or constitution.

PAGE 1508

Homeopathic

Sarsaparilla was used as a restorative and blood purifier after exhausting course of mercury. It covers the syphilitic, sycotic and psoric constitutions.

Sars. chief center of action is on the genito-urinary organs, skin, bones, right lower extremity. Kidney colic, marasmus and periosteal pains due to venereal disease. Urinary symptoms well marked.

Marasmus, emaciation. Parts feel screwed together. Nightly bone pains. Pains shoot in different directions and are accompanied by depression and anxiety. As if salt were put upon the wound. Very sore gouty nodes. Rheumatism. Clears the complexion. Eruptions following hot weather and vaccinations, boils and eczema. Scratching causes itching to begin in another place, causes eruption on forehead to become humid.

Clinical

Asthma. Bedwetting. Bladder disorders. Bones disorders. Breast, scirrhous. Bright's disease. Stones. Menopause. Constipation. Dysmenorrhea. Dyspepsia. Dysuria.

Eruptions. **Eyes** disorders. Faintness. Glands, enlarged. Gonorrhea. Gout. Gravel. Hands, chapped. Headache. Hernia. Herpes of prepuce. Hiccough. Intermittents. Kidney colic. Marasmus. Masturbation, effects. Melancholia. Mercury, abuse. Mycosis. Nipples, retracted. Plica polonica. Cracks skin. Rheumatism, gonorrheal. Seborrhea. Spermatic cords, swelling. Spermatorrhea. Strangury. Syphilis. Ulcers. Warts.

Constitutions

It is both anti-syphilitic and anti-sycotic. It is suited to children with faces like old people and enlarged abdomens to dark-haired persons to lithic or sycotic diathesis. It is suited to thin, frail, shriveled, old looking persons, especially children with enlarged abdomen.

Planets: Venus, Saturn.

Modalities

Better from uncovering neck and chest. Standing improves difficult urination. Warmth better. Worse at the close of urination. Worse from cold, wet, dampness at night.

Worse from suppressed gonorrhea, motion, going up and down stairs. Worse after urinating, when yawning in spring, before menses. Worse by touch, pressure, tight clothes, scratching. Sitting worse.

Symptoms

MIND

Depression and anxiety from pain. Thinking about the food he has been eating causes nausea. Sensitive, easily offended. Ill humored and taciturn. Despondent, gloomy without any cause.

Abdomen

Much flatus, cholera infantum. Colic and backache at the same time with diarrhea. Rumbling and fermentation. Rumbling with sensation of emptiness. Moist eruptions and soreness in groin before menses.

Back

Emaciation of neck. Pain from small of back down the spermatic cord after emission. Backache with colic.

Breasts

Sore, shriveled breasts. Nipples retracted or cracked, small and shriveled. Nipples retracted. before menses.

Ears

Words reverberate in ear to the root of nose.

Eyes

Foggy vision worse seminal emission. Itch like eruptions on eyelids.

Face

Yellow, wrinkled, old looking. Eruptions on face and upper lip. Eruptions on face, worse during menses.

Female

Menses late and scanty. Dysmenorrhea, with retracted nipples or sore breast. Moist eruption in right groin before menses.

Head

Pains cause depression. Shooting pain from above right temporal region. Pains from occiput to eyes or to root of nose. Periosteal pains due to venereal disease. As of a painful tight band around the head. Scalp sensitive. Moist eruption on scalp. Crusta lactea beginning in face. Itching and humid eruption of forehead.

PAGE 1509

Kidneys

Bladder distended and tender. Tenesmus of bladder. Pain from right kidney downward. Urging to urinate before menses. Severe pain at conclusion of urination. Gravel. Kidney colic. Child screams before and while passing urine. Kidney colic and painful urination in infants. Sand on diaper.

Can pass urine only when standing. Urine dribbles while sitting. Urine passes in thin, feeble stream. Pain at meatus. Urine scanty, slimy, flaky, sandy, pus, bloody. Crusty urinary sediment. Air passes from bladder during urination. Pain in urethra going back to abdomen. Jerking along the urethra. Pus in urine.

Limbs

Affections of any kind in general in right lower limb. Paralytic, tearing pains. Trembling of hands and feet. Burning on sides of fingers and toes. Deep cracks on fingers and toes worse sides. Ulcerated finger tips. Cutting sensation under nails. Rheumatism, bone pains, worse at night. Deep cracks on fingers and toes, burn under nails. Tetter on hands, ulceration around ends of fingers. (Psor.) Cutting sensation under nails. (Petr.) Rheumatic pains after gonorrhoea.

Male

Genitals moist and offensive. Intolerable stench on genitals. Semen bloody. Spermatic cord, painful after emission, swollen after unrequited sexual excitement. Herpetic eruption on genitals. Jerking along urethra. Itching on scrotum and perineum. Syphilis, squamous eruption and bone pains.

Mouth

Aphthae, salivation. Offensive breath. Pain in jaw worse bending head back. Tongue white, aphthae, salivation, metallic taste, no thirst.

Nose

Stoppage for years. Swelling at the root of nose.

Rectum

Sand in stools. Cholera infantum. Obstinate constipation with frequent want to urinate.

Sensations

As if in a dream. As of a great weight in head. Buzzing as if a large bell had been struck in head. As if he had been hit with a hammer on top of head. As if breath were stopped by a spasm. Breast-bone as if bruised. As if chest were too short. As if tips of fingers ulcerated or as if salt were put on a wound. Limbs as if paralyzed.

Skin

Itching scaly spots. Rash from exposure to open air, dry, itching, comes on in spring, becomes crusty. Emaciated, shriveled, skin lies in folds (Abrot., Sanic.) Dry, flabby. Herpetic eruptions, ulcers. Cracks, skin cracked on hands and feet. Skin hard indurated. Summer cutaneous disorders. Irritating pus. Copper colored eruptions. Ecchymoses in old age. Edema. New skin cracks and burns.

Sleep

Yawning. Complaints concomitant to yawning. Worse when yawning. Sleep early in evening. Nocturnal sleeplessness and frequent waking. Frightful dreams with frequent starts.

Stomach

After a meal, sensation of emptiness, as while fasting or else nausea or disgust when thinking of what has been eaten. Drinking water causes vomiting.

Temperature

Chill starts from region of bladder to back. Influenza.

Comments

The chief localities of the action of Sars. are: The urinary organs, genitals, rectum, skin and bones, right lower extremity, right lower side inner one-sided head.

Grimmer writes: Ulcers, cutaneous eruptions, nodes indurated glands, decay, necroses, joint swellings and rheumatism often improve under a persistent course of this remedy.

Sars. has cured scirrhus of the breast and many cases of inverted nipples. It has drastic action on the urinary tract and kidneys, causing stone formation in both kidneys and bladder with painful dysfunction of those organs, one outstanding symptom is inability to pass urine freely except in a standing position.

Sycotic headaches beginning at the back of head, coming forward and settling at root of nose with ensuing swelling of nose. Warmth in general relieves, warm diet aggravates, cold diet relieves, warm room aggravates the vertigo, washing aggravates. Bread and yawning aggravates, seminal emissions without during caresses.

In the urinary sphere there are symptoms which are very severe and also peculiar: There is great pain at end of urination, just as the urine ceases to flow.

PAGE 1510

Inability to pass water freely except in the standing position, when sitting in only dribbles, excessive pain in urethra which may run back into abdomen, passage of gravel which looks like gray sand.

Many cases of kidney colic and dysuria in infants with passage of sand have been cured with Sars. Gonorrhoea and the effect of suppressed gonorrhoea have also been cured with it,

herpes, spermatorrhea with swollen cords. In the female generative sphere it has many symptoms on painful and disordered menstruation.

A peculiar symptoms is "moist eruption in right groin before menses." There are moist eruptions also on scrotum and thighs of the male and offensive odor about genitals in both sexes. The semen may be bloody. In all cases if the other symptoms are associated with the peculiar urinary symptoms of Sars., this will be a strong corroborative indication. The skin is severely affected by Sars.

One of its popular uses is for "clearing the complexion." When it succeeds it is by virtue of its similarity, for Clarke has seen a very extensive crop of blotches produced by it in a young lady. Sars. produces herpetic eruptions in all parts and tettery eruptions, moist and dry. Cracks. Itch-like eruptions prone to appear in spring. Itching eruption on forehead during menses. It causes great emaciation, causing the skin to be shriveled and lie in folds.

Farrington gives these indications: (1) Sycotic eruption, little spots scarcely raised above the skin often scaling a little, but looking like the roseola of syphilis and itching intolerably, worse in spring.

(2) Moist eruption on scalp, the pus from which causes inflammation of any part it touches. (3) Sycotic headache, beginning at back of head, coming forward and settling at root of nose with swelling of nose.

(4) Moist eruption about genitals or between scrotum and thighs.

Sars. has many symptoms relative to the female breast and scirrhous of the breast has been cured with it.

The nipples are soft, unexcitable, they are retracted and cannot be made to come out. Retraction of the nipples is a suspicious sign even when there is no appearance of tumor and Sars. should be helpful in patients of cancerous history when this condition is present.

This shriveling of the nipples is part of the shriveling withering, wrinkling and hanging in folds which characterizes the skin generally.

With Sar., Skinner cured many cases of retraction or flattening of the nipple in nursing women. On two occasions with high potencies of Sars. he enabled a lady to nurse her child when it was utterly hopeless without the simillimum.

Sar. has the "sinking" sensation of the great anti-psorics. There is general sensitiveness. Pains shoot in different directions. Anxiety accompanies the pains of Sars. and the pains causes depression.

Saururus cernuus

(lizard's tail)

Pharmacy

Saur. Saururus cernuus. Lizard's tail. N. O. Piperaceae. The entire plant including the root is macerated in twice its weight of alcohol. Historical dose: All potencies.

PAGE 1511

History

The Saur. plant is an indigenous perennial found in swampy localities in some parts of the United States and has been and is still used in domestic practice for those conditions for which Dr. Phares commends it. The Saururus seems to be quite as important and useful a remedy in its sphere as is Passiflora and one quite worthy of a thorough proving.

Planets: Venus.

Homeopathic

Dr. Phares used Saur. for years with marked success in all irritation and inflammation of the kidneys, bladder, prostate and urinary passages. Phares considered it peculiarly adapted to all such cases if they were attended by strangury or painful difficult urination.

Dr. Phares used the remedy both externally and internally and he found that the stomach was very tolerant of the rather heroic doses he prescribed.

Clinical

Cystitis. Kidneys, disorders. Prostate, disorders

Scammonium

(scammony)

Pharmacy

Scam. Scammonium. Convolvulus scammonia. Scammony. N. O. Convolvulaceae. Triturations of the dried milky juice of the root. Historical dose: Tincture and all potencies.

History

Scam. is a drastic cathartic, producing copious watery evacuations and griping a good deal. Sprengel records a case of fatal poisoning in an infant whose mother took a large quantity of Scam. and herself suffered no effects. Scam. must be compared with Jalap., another purging convolvulus. **Planets:** Moon.

Homeopathic

Scam. has sudden vomiting and copious green stools, distention and sensitiveness of abdomen and death in an infant whose nursing mother took a large dose of Scam. and herself experienced no symptoms.

Clinical

Diarrhea. Gastro-enteritis.

Symptoms

Abdomen

Distention and sensitiveness of abdomen. Violent pain and rapid succession of stools, leaving inactivity of lower intestines for several days.

Rectum

Copious green stools. Loose evacuation of feces with slight pain in stomach. Rapid succession of stools.

Stomach

Sudden vomiting. Pain in stomach with the bowel movements. Inflammation of mucous membrane attended with loss of appetite and headache.

SOURCES

Clarke.

Scarlatinum

(scarlet fever nosode)

Pharmacy

Scarl. Scarlatinum. The nosode of Scarlatina. Scarlet Fever. Historical dose: All potencies, 30c to 200c.

History

Scarl. has been used like other nosodes, for the prevention and for cure of the disease from which it takes origin. **Planets:** Mars, Venus.

Homeopathic

Scarlatininum's well-known affinity for the skin, throat and kidneys suggests its applicability for disorders of those organs.

Clinical

Albuminuria. Nephritis. Scarlet fever. Skin disorders. Throat, sore.

Comments

Zinke reports the clinical observation regarding an angina with hyperthermia as follows: Profound asthenia and infectious look. Grave hyperthermia of tonsils swollen, pillars, the uvula dark red, the submaxillary glands swollen, painful. The patient suffered from Scarlatina treated by Penicillin. Since that time the general condition is bad and every year.

Prescription: Scarl. 12x, twice 2 globules the first day. Immediate amelioration which the patient had not had till then. Repeated once 12 and 14 days after one dose of Scarl. 30x.

Cured.

Schinus molle

Pharmacy

Schin. Schinus molle. N. O. Anacardiaceae. Tincture of leaves and berries. Historical dose: Tincture and all potencies.

History

Allen says Schinus is an evergreen shrub, native of Mexico and South America and frequently cultivated in Southern California under the names "Pepper tree" and "Chili pepper." **Planets:** Moon, Jupiter.

Homeopathic

The Schin. symptoms were observed by Dr. P. W. Poulson on a young lady who ate a few berries after dinner and on himself. Poulson ate leaves as well as berries and he had heartburn, griping in liver and "a kind of drawing sensation a in the spinal cord and cerebellum."

Clinical

Diarrhea. Esophagus, dryness. Flatulence. **Heart**burn. Liver, pain. Spinal cord, drawing. Vomiting.

Symptoms

Abdomen

Rolling and flatulence in the bowels and a griping sensation in the liver.

Back

Drawing sensation as in the spinal cord and cerebellum.

Rectum

Painless diarrhea following painful vomiting. Profuse diarrhea continuing all night.

Stomach

Long continued vomiting, "as if all the bowels would be emptied out", vomiting very painful, as the vomiting subsided diarrhea came on, the diarrhea being painless.

Heartburn, dryness of esophagus.

Scirrhinum

(cancer nosode)

Pharmacy

Scir. Scirrhinum. Durum. Carcinominum. The nosode of Scirrhus Cancer. Trituration. Historical dose: All potencies.

History

Burnett is the authority for this nosode. He proved it on himself and produced "a tremendous sinking at the navel," which he regarded as a keynote for its use. Scirr. has aided the cure of many cases of breast tumor in Burnett's hands.

With Scirrhinum, Burnett cured a man of hard glands which appeared on the left side of the neck after other glands had been removed by the patient's brother, a surgeon. Hemorrhages and varicose veins of legs and feet with purple points, have also been cured by Burnett with Scirr.

Homeopathic

This cancer nosode corresponds to the cancerous diathesis, cancer of the breast with enlarged glands. Many such cases have been cured with this remedy by Burnett and many other homeopathic physicians.

Scir. is a valuable intercurrent remedy to be given during the course of the broad constitutional treatment, enhancing and complementing the action of the other indicated remedies.

Clinical

Breast, cancer. Cancer. Glands, enlarged. Hemorrhages. Varicose veins. Worms.

Constitutions

Cancerous diathesis. **Planets:** Saturn, Moon.

Modalities

The time of aggravation of Scir. is from 5 to 6 p.m. and irregularly on through the night.

Comments

A patient to whom Burnett had given Scirr. mentioned to him that it had caused the passage of an enormous number of thread worms. On this hint Burnett gave it with great success in many cases of this troublesome complaint.

In inveterate cases where Cina and Teucr. have given little relief, Scirr. has wrought a great change for the better.

Scleranthus annuus

(bach flower remedy)

Pharmacy

Scleranthus. Scleranthus annuus. The flowering sprigs are placed in a bowl of water and left in the sun for several hours. The water is strained subsequently and used as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

The remedy Scleranthus belongs to the group of For Those who Suffer Uncertainty as classified by Bach. The other remedies in this group are Cerato, Gentian, Gorse, Hornbeam and Wild Oat. **Planets:** Moon.

Homeopathic

Scleranthus treats states of indecisiveness and vacillation between options. The body is marked by a changeability of symptoms as well. Symptoms may alternate between mental, emotional and physical states. Conversion disorder, as when the body expresses an emotional need. There may be quick changes in weight.

Scleranthus can help alleviate travel sickness due to disturbance in equilibrium. After head injuries (Hornbeam, Mustard, Wild Oat), when the mind is imbalanced or over-stimulated, with a sense of chaos, Scleranthus can help give mental calm and restore the mind's ability to be in charge, to regain an overview, (Elm).

Susceptibility to lung tuberculosis and a state of prolonged indecisiveness, usually in regard to a vital decision, has been found to precede the onset of illness.

Here, indecisiveness resembles a dead-lock with possible impairment of breathing which could lay the ground for a lung infection. The free flow of breath also has been found to be in a person receiving ambiguous attention. Vacillating between feeling loved and rejected.

Scleranthus is of use also in the treatment of bipolar disorders, as in manic-depressive states, in dissociative personality disorders, such as multiple personality disorder and in conversion disorder (Chicory, Heather). Hysterical neurosis when symptoms vacillate between extremes.

Symptoms

MIND

In the Scleranthus state, the mind is swinging back and forth between two or sometimes several options. It is unable to come to a satisfying decision which deems right. Inner certainty. A decision is then made, one option dropped and the other embraced shortly. The decision is discarded again and one swings back to the other side to repeat the whole process.

The mind becomes preoccupied, over stimulated with internal arguments, disoriented and exasperated. Dread about possibly making the wrong choice paralyzes the mind.

Scleranthus is also the indicated remedy for those over stimulated by details and cares. The remedy also helps those unable to decide on a certain occupation or form of activity. The remedy is indicated in mental over stimulation and confusion. Inability to calm the mind in response to impressions.

Emotional instability, Capriciousness and mood swings. One minute, there is crying, the next brings laughter. There is incentive and enthusiasm in regard to a certain idea, when suddenly disinterest asserts itself. One becomes too easily impressed and overreacts. The emotional state of those caught in a serious decision making process.

Dread at the thought of making the wrong choice. Feels overwhelmed and feeling inadequate.

SOURCES

Bach.

PAGE 1514

Scolopendra morsitans

(centipede)

Pharmacy

Scol. The Centipede. Scolopendra morsitans. The insect is triturated with sugar of milk in the usual way. Historical dose: All potencies.

History

The effects of Centipede bites have been observed on several persons. Swelling, pain inflammation and gangrene of the bitten part with appearance like malignant pustule in one case, were constant symptoms. Vomiting and precordial anxiety occurred.

In one fatal case the paroxysms of vomiting increased in intensity until the child in a convulsive struggle ceased to breathe. In the case of a man bitten in the arm by a centipede, reported in Nashville Journal of Medicine, 1870, among the striking symptoms was no perspiration in the arm for three months. **Planets:** Moon.

Homeopathic

Dr. Sherman of California reports the following symptoms as prominent in a woman bitten by a centipede: Vertigo with blindness, worse in the morning. Nausea and vomiting, unable to retain either food or liquid.

Terrible pain in back and loins, spasmodic and irregular, at times extending down the limbs. Pains returned every few days for three weeks, commencing in the head and going out at the toes. "Resembled labor pains as nearly as anything I ever saw."

Clinical

Angina pectoris. Convulsions. Malignant pustule.

Symptoms

Head

Headache. Vertigo.

Heart

Precordial anxiety.

Limbs

Arm greatly swollen, erysipelatous blush extending half over arm, black dotted impression in two rows, no perspiration on right arm for three months.

Skin

A large red spot, becoming black in the middle. The condition resembled a malignant pustule and was associated with swelling of lymphatic glands. Violent itching, followed by violent pain in bitten part.

Stomach

Nausea. Vomiting of a pale yellow, glairy matter, continued at short intervals with increasing violence, until the child in a convulsive struggle ceased to breathe.

Temperature

No perspiration of right arm for three months.

SOURCES

Anshutz. Clarke.

Scorpio europaeus

(scorpio europaeus)

Pharmacy

Scor. Scorpio europaeus. Scorpion (several species). androctonus amurreuxi helbraeu. N. O. Scorpionida. Class, Arachnida. Tincture of living animals. Historical dose: All potencies.

History

The Scorpion was a major remedy in ancient Egyptian medicine. A proving of Scorpion is written in the medical papyruses, which give a vivid description of Isis allowing herself to be stung to determine the effects of the medicine. Scorpion stings are attended with a certain amount of danger, especially to children. A proving on a middle eastern scorpion was conducted by Jeremy Sherr. Most provers were between age 25 to 40 years old. The symptoms are from the provings and effects of stings. **Planets:** Mars.

Homeopathic

Pain and swelling of the injured part are first experienced and constitutional symptoms follow. These include sleepiness, prostration and possibly tetanus. Strabismus has been observed in some cases and the pupils are dilated.

Bitten part much swollen with violent pains lasting from one to three days. Heat and pain at bitten spot, sleepiness, sneezing, restlessness, later, abundant saliva, meteorism, later, trismus or tetanus. Complete prostration.

Always acute pains in and diminished temperature of the part bitten.

Clinical

Salivation. Strabismus. Tetanus.

Symptoms

MIND

MIND

dull and foggy. Mentally better while moving and walking. Anguish and worry.

Desired company and sympathy. Feels sorry for herself, better crying. Anxiety about health. Anxiety for no reason. Anxiety for self, friends and the world with continual sighing.

PAGE 1515

Averse to work. Tired and apathetic. Felt detached, very interested in little things.

Dreamy and detached. Felt disconnected from the human race, as if everyone were another species. Weariness and apathy. Felt depressed and destructive. Staring and dreamy, sits gazing out of the window. Aversion to things she usually enjoyed.

Very sensitive to music. Incredibly sensitive to noise, can't bear it. Despairing, tearful mood, could see no way out. Sadness and confusion, unable to see a solution to her problems. Sensitive to others' emotions. Sympathetic, took on other people's problems. Speech slurred, answered with difficulty. Indisposed to talk and averse to company. Hurried, runs everywhere. Extreme anguish and restlessness. Desire to be out in the country.

Very changeable moods, one moment extremely friendly, nice and amiable, then irritable. Incredible upsurge of energy, felt very high, then low, then high again. Great

swings of mood, better for eating. Clumsy. Accident prone. As if drunk, with increased sexual desire. Disappointed with people. Conversation difficult. Desired comfort and sympathy.

Panic stricken. Fear, as if something terrible would happen. Felt terror, panic, fear and that he could not cope. Absolutely terrified of dogs. Overwhelmed by terror, panic and fear. Full of fear when driving. Impatient watching others, wanted to speed them up. Time seemed to go slowly. Did everything in a hurry. Eating hurriedly.

Irritable, snappy, oversensitive to noise. Argumentative. Growled at her children. Angry with her children and family. Irritability, worse for noise and bright lights. Critical and irritable.

Desire to pick an argument or fight. Great hostility to those around him. Assertive, impatient, aggressive. Felt resentful and abused. Terrible uncontrollable temper.

Wanted to kill her husband and children. Horrible moods. Lack of concentration with

MIND

day dreaming and difficulty in mental exertion. blank when concentrating.

Unable to think of more than one thing at a time. Forgetful. Absent-minded. Memory very poor for recent events. Did not notice people he knew on the street, even though he knew them. Forgot what she had just done and wanted to do it again. Forgetful and could not perform her daily routines. Mistakes in writing and spelling.

Abdomen

Short, sharp, strong stabbing cramps below ribs. Clinching feeling of panic in abdomen, as if nearly had an accident. Ache in lower abdomen. Pains in intestines feel bruised and sore. Pain in morning, in a horizontal line in intestine, headache alternates with pain in the abdomen. Pain in liver, a deep stitch, worse exertion, movement, walking fast. Pain upper abdomen, above naval in the morning.

Back

Feeling of cold in back while in bed. Sudden and tremendous pain and stiffness. Pain, cramp and stiffness left side neck. Pain between scapulae extending down spine. Numbness and tingling middle edge of left scapula. Aching and bruised sensation in sacral region. Backache, worse sitting or beginning motion. Pain radiates to sides, radiates to pelvis, radiates to diaphragm. Feeling of weight in back as if the affected vertebrae were made of lead. Pain in one vertebra. Sharp pain in back, worse breathing deeply.

Breasts

Felt as if breasts were very big, held breasts, then walked around massaging breasts.

Chests

Anxiety in chest. Pressure, compression on chest, oppression as if a cushion were inside chest cavity, pressing organ down to spine. Pain left breast and lymph glands. Itching axilla. Sensation of expansion of chest.

PAGE 1516

Dreams

Oppressive dreams before waking, feeling of jealousy. Vague, troublesome dreams, later part of sleep. Amazing dreams. Dreams are confused. Dreams, angry, busy. Erotic dreams. Dreams of a car crash. Dreams of climbing ladders, bus steps, into house. Dreams of dracula, fearful, frightening. Dreams of guilt. Dreams of naked women. Dreams of being attacked and murdered. Dreams of past events, of childhood, parents.

Dreams of events not yet taken place. Dreams of violence. Dreams of water. Dreams of orange and red walls. Dreams of toilets and feces. Dreamed that she was chased. Dreams of people's heads chopped off, that she was weighing them.

Ears

Sharp pain in ears, down canal, as if a sharp pencil was pushed down into the ear. Pressure inside ears. Pain in left ear, extending to the jaw and moving to the back of the right ear. Aching in left ear. Discomfort, tickling and ringing in left ear. Itch in left meatus of ear. Wave-like sound within and around ears, worse at night. Loud ringing in the ears. Blocked ears, with slight deafness. Hearing dull, as if cotton wool in ears.

Eyes

Pupils dilated. Strabismus. Aversion to sunlight. **Eyes** water, red and smarting. **Eyes** sore and hot, eyelids inflamed. **Eyes** small, puffy, lusterless and tired. **Eyes** feel strained. Flashes of blue pin points on objects when suddenly moving head or bending down. Flashing ripples when closing eyes in bed. Focusing eyes difficult. Can focus on distant objects, but close objects are blurred. **Eyes** sticky, woke with eyes stuck together. Desire to close the eyes. **Eyes** are heavy, aching and tired.

Face

Cold sores. Face pale and hollow. Face pale, drained. Face pale, white. Face dark purple, rings round the eyes. Top lip cracked, burning at corners. Sore painful patch right hand corner of lip, as if would crack. Dry and cracked lips. Cracked lips bleeding after cold wind. Trismus. Jaw aches, worse movement of jaw.

Female

Pain dragging during menses worse than usual. Pain gathering, as if parts were in an iron grip, lasting one hour. Sharp, griping pain shooting from uterus to bowel. Pain during menstrual period, extending down back of legs. Pain bearing down during menses. Menses early. Menses short duration. Pink-brown vaginal discharge with dull dragging in sacral region. Sticky yellow vaginal discharge. Extremely passionate. Desire increased. Felt amorous in a giggly, sentimental way, as if drunk. Felt sexually aroused all day. Increased sexual desire which is purely physical rising from irritation of genitals. The genital area felt painfully oversensitive. Pressing pain in ovarian region on urinating, better urinating, worse pressure.

Food

Appetite increased even after a meal. Eats little but often. Loss of appetite. Aversion to food. Slight aversion to tobacco. Aversion to courgettes, which left an unpleasant taste and nausea. Craves chocolate. Desires crusty brown bread. Desires hot drinks. Desires milk. Desires warm milk which ameliorates. Desires raw vegetables, salad. Extreme thirst. Thirst, but does not drink. Thirst for cold drinks.

PAGE 1517

Head

Headache from the sun. Headache, better for alcohol. After exposure to cold wind, slight neuralgic pain in left occiput, extending to left jaw, worse inclining head forward. Dull pain in occiput and vertex, as of a tight cap. Tightness in occiput and general dullness in head. Sharp pressing pain, in left occiput, worse on listening intently, better for not concentrating. Pain from back of head to over left eye. Pain in left occiput sharp. Throbbing left temple over eye.

Headache in temples. Boring pain in right temple. Head feels delicate, worse sudden movement. Throbbing pain in right temple on movement, sensitive to touch. Slight throbbing, above and behind left temple. A feeling of pressure in the head, settling in the left temple. Headache alternating with nausea. Pain in the head with vomiting and shivering hands. Migraine during menses with very dim vision, vomiting and debility. Dull headache. Head pain poking on outside, worse bending forward. Dull congested feeling, upper left side of head. Itch in forehead. Head pain, vertex and forehead, feels hot. Heat and cold in the head at the same time. Head pain across vertex and sides. Sensation of pressure. Head pain across forehead, like a rope tightening with a feeling of weakness coming and going in waves.

Head pain, better lying flat on back with head over the side of the bed. Head pain, better lying with head raised. Head heavy, better cold, dry air. Crackling and creaking in head, behind ears and above neck, when walking in the cold wind. Numbness sides of head. Pain bridge of nose. Dull sensation between the eyes, better shutting the eyes. Head heavy, better shutting eyes. Pressure on the top of head, left side. Pain front and top of head. Sensation as if head rolling, eyes closing, difficulty applying self, tightness in head and mild heat, especially forehead. Pain, heaviness round head.

Heart

Palpitations on waking. Palpitations on lying down to sleep, violent heart best audible and visible. Felt heart pounding after urination.

Kidneys

Woke at night with desire to urinate, frequent urination, unfinished feeling, slight burning, dribbling after. Increased desire to urinate, more after lying down. Had to get up at night to urinate. Urge to urinate, passed a few drops with cutting pain in bladder and pubic dome. Frequent urination, large quantities. Urging to urinate, sudden, incomplete.

Passes drops after urinating, worse bending. Feeling of incontinence, had to hold on. Urine orange, pink. Bruised pain.

Limbs

Beaten sensation in bones and joints, especially large joints. Better stretching, worse movement, worse lying still. Bruised sensation in limbs. Felt as if he had 'flu'. Hands shivering in cold. Hands turn blue in cold. Feet icy cold. Heavy limbs, especially legs. Knees and ankles feel like jelly. Hands shaking. Shaking knees. Felt pins and needles in hands and arms, as of hot water on skin. Thighs burning and itching. Small boils on thighs. Jerking of left arm. Abscess in finger, below nail bed. Purple band under nails on nail bed. Numbness in hands and fingers. Stiff hands and hips. Pains stitching left upper shoulder. Sharp pains joints, worse exertion. Sensation as if had strained tendons. Limbs aching in the morning, thighs sore and heavy. Cramps in calves in bed at night. Sharp pain around ankle. Heels painful to stand. Pains in soles, very painful to stand and painful to walk. Awkward, drops things, trips easily. Desire to move and stretch during fever.

Lungs

Breathing difficult 9:00 p.m. , gradually worse, felt as if chest wouldn't expand properly. Had an urge to take deep breath, but couldn't. No pain, but felt as though muscles weren't working properly. Sensation that air goes to head. Unproductive cough, little mucus. Tickling cough. A dry cough.

Male

Increase in sexual power and desire. Thoughts of women from many years ago, that he had not seen for years. Sexual desire in presence of any woman. Felt as if he would explode with sexuality. Masturbated frequently. Intensely erotic dreams. Intense orgasms.

Mouth

Saliva abundant. Mouth dry as after alcohol. Mouth dry, metallic taste. Mouth wet, yet very thirsty. Mouth, taste strange when outside, and breathing through mouth. Ulcer on right inner cheek, white center.

Ulcer on the right side of mouth, a hard lump the size of a grain, stinging. Sensitive aching feeling in gums, lower right side at back of mouth. Sides of mouth sore.

PAGE 1518

Neck

Neck glands feel enlarged. Large, blind, rd spot on right side of neck. Pain in neck left side. Sharp pain left side of neck, moving to right side. Tension in neck and shoulders. Tension in the neck, with ache in lower back, worse sitting.

Nose

Frequent sneezing with nasal obstruction, coryza. Musty, catarrhal smell, as of an old book. Itch in nose, must poke and scratch. Sneezing, with pain in tooth. Coryza fluent. Bloody discharge on blowing nose. Post-nasal catarrh. Discharge clear, running. Discharge alternating sides. Discharge is thick, white, yellow. Discharge, worse warm room, better open air. Large red spots on nose.

Perspiration

Perspiration at night. Perspiration, morning, on waking. Perspiration, worse in a warm room. Perspiration, worse stress. Perspiration does not ameliorate. Perspiration profuse.

Rectum

Meteorism. Diarrhea, brick red. Hemorrhoids, painful, hard, swollen, worse walking, worse sitting. Diarrhea, explosive, hot, painful, smell of rank fish. Anus itching. Pain in anus, feels ill. Rectum raw, cracks radiating outwards and up crease to lower back. Better hot bathing and heat. Vesicles on anus, extremely sensitive, worse touch. Severe pain around anus and rectum, worse after stool, better pressure. Pain with desire to vomit. Better hot bath, worse touch. Pain shooting upwards Ñ prickling and sticking, prevents sleep. Urging constant and productive for stool. Urging for stool as if diarrhea would come on but it didn't. Gripes and rumbling, with burning sensation in anus. Dry stool, constipated, abdomen bloated. Very constipated, one difficult bowel motion a week. Stool hard, which is unusual. Constipated, wants to but can't.

Feeling of diarrhea in bowels and abdomen, as if diarrhea would explode. Bowel action greatly reduced from 3 to 4 times to 1 per day. Sensation of parts above rectum in an iron fist, closing in on parts and dragging them down. Better gentle motion, better bending double.

Skin

Skin pale. Skin red, sore, itching eruptions, worse 9 p.m. , better by midnight. Red, sore, painful itching on soles of feet and palms, around the veins, alternating sides or on both sides.

Sleep

Sleepiness. Tired, could do nothing, wanted to sleep, felt she should be busy, but couldn't. Utterly exhausted, could hardly stay awake. So lifeless, she could hardly think nor move. Could not remain awake enough to drive the car. Felt very tired, wanted to

rest, had three naps but remained tired, could not cope without frequent short sleeps. Very tired, needed longer than usual afternoon nap. Tired, morning, rises late. Unrefreshed sleep, slept till late. Woke feeling unrefreshed and black though slept well. Better after one half hour. Sleepy feeling, reluctant to get out of bed, exhausted. Very tired on waking. Sleepiness during day, could not keep eyes open. Tired and yawning. Tired. Slept in the afternoon. Very tired after evening meal, slept. Tired at night despite rest in day. Slept very deeply. Restless sleep. Great difficulty falling asleep on account of unpleasant pictures crowding in, became fearful. Wide awake till after midnight, although physically tired. Woke many times at night with sweating, feeling heavy and confused. Awoke early and could not get back to sleep. Woke at 5:00 a.m. , could not sleep. Woke more relaxed than for months. Slept on back during acute headache and vomiting episode (normally sleeps on side). Slept on abdomen without a pillow on left side of face with right arm curved around head. This felt most comfortable and lasted throughout the proving.

PAGE 1519

Stomach

Anxiety in stomach. Nausea. Felt unusually thirsty. Nausea and dizziness, worse orange juice, better hot drinks. Nausea beginning in stomach and progressing downwards, better eating. Nausea at thought of food, better after deciding not to eat. Nausea, worse exertion. Awoke with nausea and urging to stool. Felt absolutely dreadful, violent stomach pains, nausea and dizziness, lasting from 7:00 a.m. to 11:00 a.m. , better in the afternoon. Returning at 6:00 p.m. and lasting till 9:00 p.m. , then fine. Nausea better lying down, worse from motions, standing and sitting up. Nausea with lack of appetite and great thirst for warm drinks. Nausea in the afternoon and evening, after eating even small quantities. Nausea after fish, nausea after chicken. Nausea after eating egg yolk, almost vomited. Nausea from pain in anal cracks. Sickly pain, rising and falling, combined with hunger, better lying down. Vomiting and retching. Desire to vomit, but passed bile only. Nausea and vomiting, worse in a moving car. Vomited violently several times, an orange-red color which was similar to the color of his diarrhea. better for hot water bottle. Pain in the stomach. Slight discomfort in stomach above naval, with sharp pains. Short sharp, strong, stabbing pains and cramps below ribs, coming in spasms all through the day. Sensation as if stomach was screwed up into a ball which moved around. Empty belchings.

Teeth

Pain worse eating, worse cold food, worse cold drinks, worse cold air, better warmth.

Temperature

Fever at night, worse uncovering. During the fever, whole body bruised and sore, as if beaten. Unable to get comfortable in bed, had to change position frequently. Fever, very hot, perspires. Fever, hot and cold in turns. Fever, sudden onset. Chill with shivering and nausea. Chill with sensation of heat in forehead, eyes and lips. Skin hot to touch.

Chill in evening, felt shivery, especially around upper back, across shoulders and in anus. Felt feverish. Fever Ñ 'flu', sore throat radiating to ears, dryness in mouth, eyes and throat, tickling in throat, sneezing, nose running, clear phlegm, eyes heavy. Great thirst. Tired, lethargic, desires to lie down. Feels warm.

Throat

Sore throat. Sore throat in the evening, better by morning, better for beer. Throat feels rough, sore, better hot drinks. Prickling pain from throat to ear, worse empty swallowing and on waking, better warm drinks and hawking. Throat feels blocked, tickling and sore,

worse swallowing. Much swallowing. Had to swallow continually, a lump in the throat, without wanting to swallow. Desire to swallow, as if something stuck in the throat which she felt she could move externally. Uncomfortable sensation in throat with desire to swallow. Worse late afternoon and when annoyed. Frequent swallowing. Throat dry, painful on swallowing, worse speaking, with coarseness and cough. After sex, woke with dry throat and a cold. Dry throat with extreme thirst for cold water which ameliorates. Throat dry but thirstless. Throat dry with tickling on left side. Plugs of green catarrh in throat, worse in the evening and morning and better during the day. Thick and yellow catarrh in throat. Catarrh on tonsils, must clear throat. External throat sensitive to closing, which makes head feel hot.

Tongue

Pain in the tongue, sensation as if hot needles. Root of tongue and soft palate felt sore and enlarged, better for cold water. Tingling and numbness of tongue.

Vertigo

Vertigo, worse first movement, better continued motion.

Comments

Less nervous before an event than usual. (curative). Hearing is acute. Menopausal panic attacks, with sweats and palpitations, worse lying in bed, better sitting up or walking around.

PAGE 1520

Desires cold drink. Desires fruit, especially oranges. Desire for white wine. Desires fresh air which ameliorates. Air, aversion to. Strong desire for air. Hot flushes, must get fresh air. Permanent tiredness and fatigue. Less dryness of skin (curative). Itch after bathing better (curative). Sleeplessness (cured). Woke very gently. (curative). Strong smell of coffee. Itching and soreness in vagina after intercourse (cured).

Small horny-like growth with spikes on right little toe. Severe pain, worse touch, worse pressure, could not wear shoes. Worse at 9:00 p.m. Palpitations on waking disappeared (curative). Frequent urination. (cured). Stiffness in morning improved (curative).

Although usually short sighted and astigmatic, he had short spells of immensely clear vision (cured symptom). Vision is acute, can see for miles. Things she would normally feel guilt about don't bother her, (cured).

Felt unusually well all day. Woke more relaxed and calm than for months, slept late. (throughout whole proving). Felt more energetic, self assertive and confident. She had lots of energy, worked hard and exercised. She was very bouncy and happy to be busy.

Felt good, happy, satisfied with life, happier and freer in her relationship. Felt expansive and good. Sense of being "centered". Felt euphoric, relaxed, "spaced out". Feeling extremely calm. Her patience surprised her. Extremely alert. Pretended to feel well, although sick.

A feeling of great energy and confidence, a magnetic state, his emotions were more intense than ever before. In his love affair, he surrendered to his feelings for the first time, and his girlfriend commented that this was the most intense relationship she had ever had.

Desired alcohol and drugs, a feeling of wanting to escape. It seemed as though he was a different person, very similar to the way he had been in adolescence, but in a much more powerful manner.

These emotions were so intense he wanted to rip his chest apart to let them out. He lost all control over his emotions, which seemed to come from a deep and distant part of himself, a darker side. He desired to continue the proving for the rest of his life.

Although he experienced acute nausea, headache and dizziness, he felt calm and happy, no upset by his illness, detached. Felt fed up with all activities he normally enjoyed. Felt detached from everything, as in a dream, reactions slowed down a lot. Feeling of separateness, usual sense of urgency gone. Felt detached from her stomach cramps. Felt she should be busy but couldn't.

Felt despondent and directionless in the evening. In the evening, felt as if in a numbness, "thoughts, feelings, buzzing and confusing me". I feel entirely alone, that I am viewing the world through one hole, for it all seems just a picture, and the rest of the world share a different view finder together. I don't want to join theirs though.

Stomach pain ameliorated as headache starts. Headaches and mental state ameliorated with appearance of sexual symptoms. Bright, all colors seemed. Nose, discharge yellow-orange. Vomit, orange-red. Diarrhea, brick red. Urine, pink-orange. Orange juice, aggravates. Stayed awake till early morning, brain racing, enjoyed himself tremendously.

Felt as if he had taken drugs. His friends thought so too. Desired drugs. Warm drinks ameliorate throat. Warm milk ameliorates. Alcohol ameliorates headache. Beer ameliorates throat. Coffee ameliorates. Cold food and drink aggravates pain in teeth. Eating ameliorates lethargy. Eating ameliorates swings of mood. Eating aggravates pain in teeth.

Hemorrhages on cutting herself, blood dark and clotted quickly. Heaviness feeling all over. Exhaustion, lethargy and fatigue. Exhausted, run down, better for fresh air. Lethargy worse during menses. Lethargy better shutting eyes. No strength, feels sagging all over, limp and weak.

PAGE 1521

Feet seem to drag. Lassitude evening, better lying down, better short sleep. Weakness with trembling.

Nausea worse for motion. Sitting or first movement aggravate backache. Walking aggravates vertigo. Walking and movement ameliorate mentally and generally. Gentle motion ameliorates pain in rectum. Constant change of position ameliorates back. Moving car aggravates nausea and vomiting. Riding in car ameliorates. Numbness, tingling and nausea throughout body, during fear. Occupation ameliorates.

During fever the whole body bruised and sore as if beaten, unable to get comfortable in bed, had to change position frequently and slightly else felt seized up. Restless. Extreme mental and physical anguish with restlessness, could not be still for a moment. Beaten sensation in bones and joints, especially large joints, better stretching, worse movement and lying still. Pains poking. Pains radiating outwards. Pains sharp.

Right to left, pain in throat. Left to right, pain in knees. Left to right, ears ringing. Alternating sides, red, painful, itching eruptions on soles of feet and palms. Alternating sides, nasal discharge. Felt hot so uncovered, then cold so covered, then hot so uncovered.

Gentle heat over whole body. Sensation of heat. Warm room aggravates. Warm room aggravates nasal discharge. Hot bath ameliorates pain in cracks around anus. Body warm to touch but feels chilly. Cold, feels.

Cold dry air ameliorates. Wet, sore throat after getting. Cold wind causes neuralgia in head. Wind aggravates. Desired and relished being in a strong wind. Tremor. Loss of weight.

Compare

(1) Vesp., Scol., Tarent., Apis.

(2) Hyper., Led.

Relations

Coffee, did not antidote. Bruised sensation, cannot get comfortable in bed. Better Arnica 30c.

Relations

Tiredness, sore throat, thirst, photophobia and headache. Better from Bryonia 30c.

Abscess on small toe, pain stinging and burning. Worse for heat and touch. Better after Apis 200c.

Scrophularia nodosa

(knotted figwort)

Pharmacy

Scroph-n. Scrophularia nodosa. Knotted figwort. Scrophularia Marylandica, the American variety introduced from Europe and Asia. N. O. Scrophulariaceae. Tincture of whole fresh plant. Historical dose: Tincture and all potencies, tincture and first potency. Apply locally to cancerous glands. (Semp.)

Herbal

The plants of the genus Scrophularia have generally an unpleasant smell. The generic name is derived from the property which the roots were supposed to have a curing scrofula. A decoction of one of the common British species, S. nodosa is sometimes used by farmers to cure the scab in swine, Treasury of Botany.

The chief authority for Scrophularia is Cooper, who has used it on some old indications. Gerard mentions "hard kernels" and painful, swollen hemorrhoids as indicating it.

Scroph-n. was proved by Franz and later in America by W. H. Blakeley, who took from 10 to 60 drops of the tincture several times a day. **Planets:** Moon.

Homeopathic

Scroph-n. is a powerful medicine whenever enlarged glands are present. Hodgkin's disease. It is a valuable skin remedy. It has a specific affinity for the breast, very useful in the dissipation of breast tumors. Eczema of the ear.

Vaginal itching. Lupoid ulceration. Scrofulous swellings. (Cist.) Painful hemorrhoids. Epthelioma. Nodosities in the breasts. (Scir.) Tubercular testis. Pain in all flexor muscles. Weakness, languor, wants to lie down.

PAGE 1522

Cutting pains in articulations like those of Rhus, but more intense and longer-lasting, worse by rest and in open air, better in warm room, darting from knee to ankle-joints, which feel stiff. Threatened abscesses that show no sign of disappearing.

Clinical

Appendicitis. Bedwetting. Breast, tumors. Colic. Deafness. Dyspepsia. **Eyes**, scrofulous disorders. Glands, enlarged. Liver, pains in. Palms, cramp. Pemphigus. Rheumatism. Sigmoid flexure. Sleepiness. Stiff-neck. Ureter, pain.

Modalities

Better in warm room. Worse lying on right side. Worse in morning, by study in cold air, breathing cold air, deep breathing. Worse by rest after food, by pressure.

Symptoms

MIND

Despondency, much troubled about the past and very apprehensive about the future, passed off in a few days, leaving intellect clear. Miserable and sluggish feeling in mind when moving about.

Abdomen

Appendicitis as a local remedy. Colic below navel. Pain in sigmoid flexure and rectum. Pain in right hypochondrium, worse deep inspiration or lying right side. Twisting-pinching pain in umbilicus (left side). Colic just below navel and some griping in the side in afternoon. Griping below navel, 7 a. m. (after a slight vexation). Pain in sigmoid flexure. Dull, heavy, periodic pain worse when abdomen compressed, legs extended.

Back

Stiff neck with pain and contraction of right sternomastoid muscle. Pain in spinal column with slight opisthotonos.

Chest

Oppression of chest with tremulous movement as from much weeping. Pain in whole right lung, on taking a deep inspiration, which causes cough without expectoration. Cutting in upper left lung., worse breathing cold air. Constricted feeling in chest, which causes uneasiness. Cramp-like pain transversely across lower chest, as after much weeping. Pain about bifurcation of trachea. Stitches in right chest, about 6th rib with shivering.

Violent pinching stitches near right last true ribs, while walking during rest, seeming to be in liver.

Ears

Inflammation about auricle. Deep ulcerated auricle. Eczema around ear. Ringing in ears and sudden loss of hearing. (Deafness in bull-necked boys. Deafness before and after menses, improving during the flow. Eczema behind right ear and round navel.

Eyes

Distressing photophobia. (Con.) Spots before eyes. Stitches in eyebrow. Sore eyeballs. Severe cutting pains in eyes, unable to move them, passed off with profuse sweat. Pulsating stitches in right eyebrow. Soreness of eyeballs. Black spots of film before eyes. On closing the eyes visions of objects. (Scrofulous photophobia, rivals Con. in this. Blepharospasm. *Scrofulous* keratitis.

Face

Pleasant warmth in cheeks. Recurrent periostitis of lower jaw in a syphilitic.

Female

Recurring metritis with painful hemorrhoids: irritation, soreness and burning in vagina and anus went away, as well as headache, that prevented her standing up (from local applications.

Head

Eczema behind ear. Crusta lactea. Heaviness and distress in head, as after eating too much. On rising the second morning an indescribable pain and fullness in whole head, followed by nosebleed, especially occiput and vertex, causing congestion of conjunctive with puffiness. Darting pain at exit of right facial nerve from hypo-mastoid foramen, darting to right eye. Headaches above the eyebrows while walking. Severe headache through temples, appearing every morning, extending to vertex and occiput. Severe sharp pain in vertex, forehead and temples, dull and throbbing, returning periodically, worse resting, worse in open air, worse leaning forward, worse by study.

PAGE 1523

Heart

Anguish in precordia, worse after food. Indescribable sensation in heart with sever audible palpitations. Pulse full, regular.

Kidneys

Pinching and tearing as if in ureter, extending from anterior superior spine of ilium down to pubis. Increased secretion of urine with burning in urethra. Frequent scanty emission of urine in afternoon. Bedwetting while sleep.

Limbs

Drawing rheumatic pain in all flexors of arms and legs. Tingling in limbs as from a blow on a nerve. Deep-seated cutting pain in all muscles of arms. Tingling or buzzing in arms and hands. Sticking and drawing in right palm from joints of fingers to middle of hand as far as carpal bones, muscular cramp of palms.

Liver

Cutting in liver on pressure. Pains in liver on pressure.

Lungs

Violent dyspnea, oppression of chest with trembling. Pain about bifurcation of trachea. Asthma in scrofulous patients. On turning on either side, violent dyspnea worse on right than l. with cutting in liver on pressure.

Mouth

Teeth feel as if loose, pain in carious teeth, worse upper jaw. Gums bleed very freely. First great increase of saliva, then mouth dry, Accumulation of sweetish water in several parts of tongue. Sick, sticking taste just above pit of throat, frequently lasting an hour with sensation as if a soft substance (a plug of mucus) were lodged there. Bitter taste in mouth.

Nose

Dry coryza.

Rectum

Painful bleeding, protruding hemorrhoids. Several stools daily with tenesmus. Protruding hemorrhoids which bleed and pain.

Skin

Prickling, itching, worse back of hand. Sallow skin. Burning of surface when rubbed. Prickling itching all over, worse back of hand inside wrists and between fingers. Falling off of hair stopped by lotion of Scroph. Pemphigus gangrenous and its allies.

Irritating vesicles on inside of lip, loaded with spindle-celled epithelium, goes from local application.

Sleep

Great drowsiness in morning and before and after meals with weariness. Strong disposition to sleep: in morning with weariness and fullness in whole body, irresistible before and after a meal with prolonged afternoon sleep.

Stomach

Appetite greatly increased at first, later nausea with weakness and oppression at epigastrium. Feeling as if he had missed his regular meal. Dyspepsia was removed by the proving.

Temperature

Chilliness: on moving about in cool air after rising in morning, for several hours, passing off with profuse sweat, which was followed by stupor and absence of all the symptoms. Whole body after first day feels very dry and hot with burning sensation, followed by profuse sweat.

Throat

Thick, tenacious offensive mucus in throat in forenoon. Rancid taste in throat with great weakness and stiffness in hollows of knees. Irritation of esophagus.

Vertigo

Dizziness, fullness and pressure in vertex. Vertigo in top of head when standing, even with severe aching in supra-orbital region.

Comments

The most remarkable of Franz's Scroph-n. symptoms were: Excessive drowsiness in forenoon in afternoon and before and after eating, vertigo when in the upright position, accumulation of sweetish water in several parts of the tongue, sensation of a soft body in the gullet, constriction of chest, oppression of chest with trembling as after much weeping. Most of these symptoms were confirmed by Blakeley.

Cooper gave Scroph-n. to a patient who had been poisoned by an Indian arrow-poison which produced inflammation and suppuration of the glands, Scroph. relieved a most painful condition of the rectum and purulent discharge that had kept up years afterwards.

PAGE 1524

Cooper has reduced strumous glands with it and cured deafness in a "bull-necked" patient and also cured a case of sycosis using Scroph. externally as well as giving it internally. "Nodosities in the breast" is another indication of Cooper's. It has produced, a sickly, giddy feeling with a sense of weakness and sinking at pit of chest too weak to speak, along with pain from forehead to back of head.

The provings brought out several symptoms in the lower abdomen. Cooper has seen Scroph-n. in the form of a poultice relieve peritonitis affecting the lower abdomen. Colic from slight vexation occurred in Franz's proving. Blakeley had pain in sigmoid flexure. Both had pains in the liver.

Compare

(1) Dig., Euphr., Grat.

(2) Pains in joints worse by rest, better in warm room, Rhus-t.

(3) Sleepiness, Nux-m., Op., Lup. Lob-e., Ruta, Carc., Con., Aster.

Relations

Antidoted by: Bry. - chest symptoms. Followed well by: Dig. in enlarged glands.

SOURCES

Boericke. Clarke.

Scutellaria laterifolia

(skullcap)

Pharmacy

Scut. Scutellaria laterifolia. Skullcap. Mad-dog. N. O. Labiatae. Tincture of fresh plant.

Historical dose: Tincture and all potencies, tincture and lower potencies.

Herbal

Scut., says Hale, who introduced it into homeopathy is in the domestic practice of North America what Valerian is in that of Europe. "Its calming effects on the nervous system have been known ever since the settlement of New England."

Hale has used Scut. with success in sleeplessness, night-terrors, hysteria, nervous agitation from pain or exciting emotions, cerebral irritation of children from dentition or intestinal irritation.

Like its relation, Lycopus., it caused weak and irregular action of the heart and protrusion of the eyes.

Scorph. has been found useful in weak heart resulting from cigarette smoking.

Homeopathic

Scut. is a nervous sedative. Nervous fear or excitement predominates. Cardiac irritability.

Chorea. Nervous irritation and spasms of children during dentition. Twitching of muscles.

Restlessness. Nervous weakness after influenza. Chronic fatigue. Tired weak feeling.

Uneasiness. Languor.

Clinical

Ardor urine. Brain, irritation. Chorea. Delirium tremens. Dentition. Exophthalmos.

Flatulence. Headache, nervous. Hiccough. Hydrophobia. Hysteria. Night-terrors.

Sleeplessness. Tobacco-heart.

Constitutions

The remedy seems most suitable to persons of a nervo-bilious temperaments. **Planets:**

Moon.

Modalities

All symptoms are better by sleep. The hemicrania is better moving about in open air. But there is also headache worse from motion. Worse by overwork or over-exertion. Worse by work or excitement.

Symptoms

MIND

Confusion of mind. Fear of some calamity. Apathy. Irritability. Inability to study or fix the attention on one's work. (Aeth.)

Abdomen

Gas, fullness and distention, colicky pain and uneasiness.

Eyes

Aching in eyeballs. Eyeballs painful to touch. **Eyeballs feel too large.** **Eyes** feel pressed outwards.

Face

Flushed face.

Head

Dull, frontal headache. Explosive headaches of school teachers with frequent urination, headaches in front and base of brain. Migraine, worse over right eye, Nervous sick headaches, worse noise, odor light, better night, rest.

Kidneys

Quantity of urine diminished. Biliary salts increased. Frequent urination but quantity small.

Limbs

Twitchings of muscles, must be moving. Chorea. Tremors. Sharp stinging pains in upper limbs. Nightly restlessness. Weakness and aching.

PAGE 1525

Male

Seminal emissions and impotency with fear of never being better.

Mouth

Bad taste, sour, bitter.

Rectum

Diarrhea. Light colored. Stools preceded by colicky pain in abdomen.

Sleep

Disturbed sleep and frightful dreams. Restless must move about. Night terrors. Sleep is unrefreshing.

Stomach

Nausea. Poor appetite. Sour belchings. Vomiting of sour ingesta, hiccough, pain and distress in stomach.

Throat

Sensation of lump in throat which could not be swallowed.

Comments

Provings by G. W. Gordon and G. H. Royal give the homeopathic data. Royal had this indication for Scut. given him by a friend: "Nervo-bilious headache with the nervous symptoms uppermost and nothing the matter with her."

He relates this case: Miss M., 32, head of a large school, complained of being used up, unable to sleep or think. Pain in head almost constant, sometimes frontal, mostly at base of brain. Whenever called upon to overdo herself cannot sleep that night and then there is either a nervous explosion the following day or a nervous sick headache, either being followed by complete collapse.

This was in May. Pic-ac. and later Phos-ac., gave relief and in September patient resumed work. Late in December there was another breakdown and Stych, Phos. was given.

A week later after a very long and fatiguing day's work, Royal was summoned at 2 a.m. He found the patient screaming. Every few minutes she had to urinate and passed only a few drops. Stools frequent, loose, watery. Pulse irregular.

Scut. was given, ten drops every half-hour. Patient was better after the second dose, slept after the fourth. Since then she has kept the medicine by her, has only taken it when overworked. She has never had a nerve explosion or a headache since.

In this case there was "nothing the matter with her" i.e. , no organic defect to which the sufferings could be attributed.

Royal's provers took 3x and 30x. Gordon took repeated doses of 10 to 50 drops. Hale quotes many eclectic writers who give these indications: (1) King mentions depression of nervous and vital powers after long sickness, over-exercise, over-study, long-continued and exhausting labors. It controls nervous agitation. It was Burnett's chief remedy in the nervous debility after influenza.

(2) Scudder mentions chorea, delirium tremens and hydrophobia, as its popular name Mad dog suggests. Rafinesque cites cases of prevention of hydrophobia and Hale observed it produce in a patient taking it "Spasmodic or constrictive closing of jaws and a tightness of the muscles of the face." A writer, quoted N. Y. Med. Times, says Scut. in delirium tremens has the remarkable effect of calming fear.

(3) Paine adds these indications: Subsultus tendinum following fevers in delirium tremens, epilepsy, catalepsy, hysteria. (4) Coe, who uses Scutellarin, the concentrated preparation, mentions sunstroke, tenesmus, tetanus, cramps.

Churton gave 60 drops of the tincture every two hours in a case of "severe and rapid hiccough" which Chloroform, Morphine and Pilocarpine had failed to relieve permanently. After the eighth dose the patient slept and the spasms gradually diminished and stopped for good by the fourth day.

Compare

(1) **Heart**, Grave's disease, Lycopus.

(2) Nervous exhaustion, Cypr. according to Hale, acts more on brain, Scut. on spinal cord.

(3) Trismus, Nux-v. Hydrophobia, Agar., Fagus, Lach., Bell.

(4) Overworked women, Mag-c.

PAGE 1526

Secale cornutum

(ergot of rye)

Pharmacy

Sec. Secale cornutum. Ergot of Rye. Spurred Rye. Claviceps Purpurea. N. O. Fungi. The black, hornlike spur into which the grains of rye cereal are changed by the fungus Claviceps purpurea. Tincture of the fresh spurs collected just before harvest. Historical dose: Tincture and all potencies, first to thirtieth potency.

History

Rye and grasses are apt to be affected with the Ergot disease in damp seasons and when grown on damp, ill-drained lands. If breeding cows are turned on pastures where infected grasses grow they are very liable to drop their calves. Ergot has been known to hasten of childbirth from remote times.

Secale's other actions have been for the most part learned from the terrible epidemics of "Ergotism" which have occasionally devastated districts in which Rye infected with Ergot has been ground into flour and eaten by the population. Death takes places in convulsions or else from gangrene and consequent exhaustion or from exhausting hemorrhages or discharges, as diarrhea.

Many who escape immediate death are reduced to a cachectic state from which they never recover, are paralyzed, have limbs distorted and senses impaired. In general the sufferer retains a clear intellect and a good, even abnormally good, appetite to the last.

Homeopathic

Secale contracts the muscles of blood vessels and uterus. It also decomposes the blood, producing hemorrhage which is thin, fetid, watery, black, oozing continuously. A useful remedy for old people with shriveled skin-thin, scrawny old women.

Produces contraction of the unstriped muscular fibers, hence a tight feeling throughout the body. Secale produces an anemic condition, with coldness, numbness, petechiae.

Mortification, gangrene. Traumatic gangrene, from application of leeches or mustard, better from cold. Small wounds bleed much. Everything feels loose and open. Chronic, sharp, stinging neuralgic pains, which burn like fire better application of heat.

Restlessness, extreme debility and prostration. Collapse. Walking causes giddiness.

All the Sec. conditions are better from cold, the whole body is pervaded by a sense of great heat. Hemorrhages, continued oozing, thin, fetid, watery black blood. Debility, anxiety, emaciation, though appetite and thirst may be excessive. Facial and abdominal muscles twitch. Secale decreases the flow of pancreatic juice by raising the blood pressure. (Hinsdale).

Twitchings, spasms with fingers spread apart. Gnawing and cramps with stiffness. Numbness. Insufferable tingling, crawling, better rubbing. Sensation of burning in the whole body or as of sparks falling on them or here and there like fire Discharges are dark, thin, foul and exhausting Tetanic spasms with full consciousness.

Rapid emaciation with much appetite and excessive thirst. Loss of power of voluntary motion. Coldness, but does not want to be covered up. Varicose veins. Thrombosis. Lymphoid tumors. Sensation of deadness in any part. The right side is predominantly affected.

Clinical

After-pains. Childbirth. Collapse. Diarrhea. Emaciation. Ergotism. Gangrene. Hemorrhages. Labor pains. Locomotor ataxia. Lymphoid tumors. Menstrual colic. Metritis. Miscarriage. Myelitis. Paraplegia. Petechiae. Prostration. Puerperal fever. Tetnus. Thrombosis. Varicose veins. Varicose ulcers.

Causations

Abortion. Childbirth. Hemorrhages. Miscarriage. Wounds. Sec. is indicated in suppressions of tears, lochia, milk, sweat.

Constitutions

Hemorrhagic diathesis. It is suited to irritable plethoric subjects or to thin, scrawny, feeble emaciated women. To very old, decrepit persons.

Irritable, plethoric subjects. Women of very lax muscular tissue, everything seems loose and open, no action, vessels flabby. **Planets:** Saturn, Moon.

PAGE 1527

Modalities

Better lying doubled up in bed. Better from cold applications, cold bathing, uncovering, fanning, rocking. Better from forcible stretching, lying doubled up in bed after vomiting. Better open air, wants to be fanned. Worse from heat, warmth, warm covers. Worse just

before or during menses, pregnancy. Worse from loss of fluids. touch, eating. Worse sexual excess after miscarriage, smoking. Worse by touch. Motion and any exertion aggravates.

Symptoms

MIND

Weakness of mind after spasms or exhausting sex. Madness inclination to bite or drown himself. Mania fear or depressed by fear. Puerperal mania exposes the body, tears at the genitals inserts her finger into the vagina and scratches until it bleeds, all idea of modesty lost. Laughs, claps her hand over head, seems besides herself.

Abdomen

Excessively inflated and tight, wants uncovered. Empty feeling in hypogastrium or bearing down, must lie doubled up in bed. Twitching of abdominal muscles. Formation of large lumps and swelling in abdomen.

Back

Tingling in back, extending to fingers and toes. Spinal irritation, tingling of lower limbs, can bear only slightest covering. Locomotor ataxia. Formication and numbness. Myelitis. Pressure on affected portion causes pain there as well as through the chest.

Breasts

Suppression of milk with stinging in breasts. Breasts do not fill with milk properly.

Chest

Angina pectoris. Dyspnea and oppression with cramp in diaphragm. Boring pain in chest. Pains through chest, on pressing spine. Burning in lungs.

Ears

Hardness of hearing after cholera.

Eyes

Pupils dilated. Incipient cataract, senile especially in women. **Eyes** sunken and surrounded by a blue rings. Paralysis of upper lid from coal gas.

Tears suppressed. Sparks before the eyes. Double or triple vision. Blindness. Diabetic retinitis.

Face

Distorted or sunken. Pale, pinched. Wild look. Tingling or twitching in face, which spreads all over the body. Cramps commence in face and spread over whole body. Livid spots on face. Spasmodic distortion. Lock-jaw.

Female

Weak uterus or bearing down pain with coldness. Contracted uterus, hour-glass labor contractions. Passive hemorrhages in feeble, cachetic women. Menstrual colic with coldness and intolerance of heat. Menses irregular, copious, dark, continuous oozing of watery blood until next period. Burning pains in uterus. Brownish offensive leucorrhea. Threatened miscarriage about the third month, (Sabin.) Never well since miscarriage or abortion. During labor no expulsive action, though everything is relaxed. Dark offensive, green lochia. Puerperal fever and putrid discharges. Tympanitis, coldness, suppressed urine. Septic placenta. Severe after-pains. Prolapsed uterus after forceps delivery. Vagina hot or cool. Metritis. Gangrene of female organs.

Food

Thirst, unquenchable. Unnatural ravenous appetite. Craves acids. Desires lemonade and sour things. Averse to fat and meat. Thirst with dry mouth or burning.

Head

Feels light or heavy with tingling in legs. Twisting of head to and fro. Passive, congestive headache, rises from back of head. Head drawn back. Falling of hair. Hair is dry and gray.

Heart

Precordial tenderness. Palpitations with contracted and intermittent pulse. Palpitation of heart after sexual excess in males.

Kidneys

Bedwetting in elderly people. Bloody urine, white cheesy deposit. Urine, suppressed, pale, watery. Paralysis of bladder. Retention with unsuccessful urging. Discharge of black blood from bladder.

Limbs

Paralysis with distorted limbs of lower limbs of one side of one arm or one leg with tingling, numbness and prickling. Paralysis after spasms. Limbs are cold. Cramps in hands, legs and feet. Cramps in calves. Cold, dry hands and feet of heavy smokers with feeling of fuzziness in the fingers. Trembling, staggering or shuffling gait, as if feet were dragged along. Formication, pain and spasmodic movements. Numbness. Fingers and feet bluish, shriveled, spread apart or bent backwards, numb. Violent cramps. Icy coldness of limbs. Violent pain in finger-tips, tingling in toes. Toes drawn up. Locomotor ataxia.

Paraplegia.

PAGE 1528

Lungs

Heavy, anxious breathing with moaning. Spitting of blood with or without cough. Expectoration of blood during violent efforts to breathe. Anxious and obstructed breathing with sighs, sobs.

Mouth

Stuttering, indistinct speech. Tongue dry, cracked, blood like ink exudes, coated thick, viscid, yellowish, cold livid. Tingling of tip of tongue, which is stiff. Tongue swollen, feels paralyzed.

Nose

Nosebleed, blood, dark, oozing with great prostration in old people, alcoholics or young women.

Rectum

Cholera-like stools with coldness and cramps. Olive-green, thin, putrid, bloody with icy coldness and intolerance of being covered with great exhaustion. Gushing offensive, painless, watery, olive-green or bloody stools with collapse. Involuntary stools, no sensation of passing feces. Anus feels loose and wide open.

Sensations

As if intoxicated while undressing. As of a solid plug in nose. Uterus as if burnt. As if contents of uterus would fall forward. As if soft air were creeping through back. As if sacrum would be forced out. As if something alive creeping under skin. As if limbs had been a long time in hot water. As if sparks of fire falling on different parts. As if mice creeping under skin. Fuzzy feeling in limbs.

Skin

Shriveled, numb, mottled dusky-blue tinge. Skin cold, dry, wrinkled or bluish, worse over affected part. Raynaud's disease. Edema neonatorum. Twitchings or quivering in the skin. Formication under skin. Dry gangrene, developing slowly. Varicose ulcers, foul indolent. Burning sensation, better by cold, wants parts uncovered, though cold to touch. Formication, petechiae. Slight wounds continue to bleed. Livid spots. Boils with green pus, matures slowly. Bloody blisters. Skin feels cold to touch, yet covering is not tolerated. Great aversion to heat. formication under skin.

Sleep

Insomnia from drug and liquor habits. Deep, lethargic, profound and long sleep. Insomnia with restlessness, fever, anxious dreams. Insomnia of drug and liquor habits.

Stomach

Hiccough, nausea, vomiting of blood and coffee-grounds fluid. Burning in stomach and abdomen, tympanites. Belchings of bad odor. Empty retchings. Nausea, easy vomiting. Hematemesis.

Temperature

Puerperal fever. Coldness, cold, dry skin, cold, clammy sweat, excessive thirst. Internal burning with icy coldness, externally, yet averse to being covered, worse abdomen. Heat as of sparks. Erysipelas. Cold or foul sweat destroys shoes.

Throat

Painful tingling, burning. Post diphtheria paralysis. Feeble voice inaudible, stammering. Painless aphonia in morning, as the day goes on he gets hoarse. Voice hoarse and hollow.

Comments

The nervous symptoms of Sec. are convulsive. The body is at times rigid, at times rigidity alternates with relaxation. This is especially seen in the hands, which are either clenched or have the fingers spread widely apart (a keynote symptom). The muscles of the face and abdomen twitch. There is incontinence or retention of urine. Spasmodic retching, the stomach is violently contracted.

Through the action on the vasomotor nerves there is first contraction and then dilatation of blood-vessels, the fingers turn bluish black. This stagnation leads to dry gangrene of the parts. Sec. shrivels up the skin, makes it dry and harsh, sallow complexion.

PAGE 1529

Sec. lessens the coagulating power of the blood and produces a hemorrhagic diathesis, persistent offensive bleeding. Small wounds bleed persistently. Purpura comes within this category.

One grand characteristic of Sec., which will determine its selection in many cases is: "Worse by external heat." This applies to cholera, purpura, gangrene and any condition which may present symptoms of Sec. In cholera cases calling for Sec. the patient is cold, almost pulseless, there are spasmodic twitchings of muscles in various parts (especially spreading of fingers), eyes sunk, features pinched, shriveled, dry, as though no moisture were left in the body.

Though cold to the touch, cannot bear to be covered. In spite of this coldness, Sec. has burning among its characteristic sensations: burning in all parts of the body as if sparks were falling on the patient.

Another characteristic sensation is numbness, tingling as if ants crawling all over, better from rubbing. This may accompany hemorrhages. Loss of other fluids, debility or skin

disorders. In the later stages of ergotism there is anesthesia. The discharges are exhausting and offensive. Diarrhea is peculiar involuntary with wide-open anus.

The boils in which Sec. is indicated are small and painful with green contents, mature very slowly, heal slowly and are very weakening.

The eyes are affected in various ways: Pustulous conjunctivitis, suppuration of cornea, dilated pupils, distortion and strabismus, ptosis, suppressed tears. Catarrh has been caused in many instances.

" Worse from warmth" will be a leading indication in many eye cases requiring Sec.

Exophthalmic goiter has been cured with it, the heart being acted on by Sec. as other hollow viscera and violent palpitation induced.

Sec. has a great affinity for the uterus, whether gravid or not. It may be used on its homeopathic indications with perfect safety. It is indicated: (1) In threatened miscarriage, especially at the third month, prolonged, bearing-down, forcing pains. (2) During labor when the pains are irregular too weak, feeble or ceasing, everything seems loose and open, but there is not expulsive action, fainting. (3) For after-pains when too long too excessive or when there is hour-glass contraction of the uterus.

(4) For suppression or non-appearance of the milk. The menses of Sec. are irregular, copious, dark, fluid, accompanied by labor-like pains in abdomen, there may be a continuous watery discharge of blood during the whole time between the periods.

Teste records this case: A lady, 50, fat, very soft flesh, had flooding which nothing could stop. After several useless attempts, Teste gave large doses of Sec. with scarcely any effect.

The patient asked for infinitesimal doses. At that time Teste had no faith at all in infinitesimals, but he yielded to the patient's request and gave one drop of the 6c. Then the bleeding ceased immediately and permanently.

Selenium metallicum

Pharmacy

Sel. Selenium. The Element. Trituration. Historical dose: All potencies, 6x to 30c.

History

Selenium was discovered in 1818 by Berzelius and was named by him after the moon, because it is found associated with Tellurium (Tellus, the earth). It is also found associated with Sulphur. All three belong to the same group of elements. Selenium is found either in its natural state or, more often, as a metallic selenide.

"When precipitated it appears as a red powder, which melts when heated and on cooling forms a brittle mass, nearly black, but transmitting red light when in thin plates. When heated in air it takes fire, burns with a blue flame, giving a gaseous Oxide of Selenium, which has a most penetrating and characteristic odor of putrid horse-radish. Sel. undergoes a remarkable change in electrical resistance under the action of light: hence the use of Selenium cells" (Cent. Dict.).

Selenium is an element which occurs between sulphur and tellurium. It is found in the teeth and bones and belong to the VI-b group in the periodic table of elements, along with tellurium and polarium.

The proving was conducted by Hering. In London Raeside repeated a complete proving on sixteen provers and six controls in 1959-60. The following potencies were used: 6c, 12, 30c. Colloidal Selenium has been used as an injection for inoperable cancer. Pain, sleeplessness, ulceration and discharge are markedly diminished.

Homeopathic

Sel. has marked effects on the genito-urinary organs and often indicated in elderly men, especially for prostration and sexual atony. It has marked effects on the supra orbital nerves (left), Larynx and liver are also affected. Great debility, worse heat. Easy exhaustion, mental and physical in old age. Debility after exhausting diseases after fevers.

Irritability after sex. Sexual weakness. Lascivious, but impotent. Loss of sexual power with sexual thoughts. Prostate weakness with dribbling of urine. Escape of semen especially when straining at stool. Chronic gleet. Bedwetting. Chronic urethritis. Senility,

early. Chronic diseases of the bone-marrow. Emaciation of single parts, face, hands, thighs etc.

Patient becomes easily debilitated by heat or hot weather, a little mental or physical exertion makes him sleepy. Pulsation in the whole body especially in abdomen, worse eating. Cramps, then stiffness. Biting, here and there. Aversion to draught of air, warm cold or damp. Hemicrania. Neuritis and neuralgia of the head. Diabetes insipidus. Myasthenia.

Clinical

Alcoholism. Bedwetting. Comedones. Constipation. Debility. Diabetes insipidus. Eczema, scalp. Hair, loss. Headache. Hoarseness. Impotence. Laryngitis, tubercular. Liver, disorders. Masturbation. Myasthenia. Prostatitis. Prostatorrhoea. Psoriasis. Scabies. Skin, disorders. Spermatorrhoea. Stammering. Sun, effects. Syphilis. Tea, effects.

Causations

Bad effects from excess of tobacco or tea. Ill effects of debauchery, sugar, salt, lemonade, loss of vital fluids, masturbation, sexual excess, over-study. Alcohol. Walking. Exertion.

Constitutions

Sel. is suited to blondes and persons of light complexion. **Planets:** Venus.

PAGE 1531

Modalities

Better after sunset inhaling cool air. Better taking cold air or cold water into mouth. Worse loss of sleep, night watching touch. Worse after sleep, singing, draft of air, even if warm. Worse after stools, wine, cinchona. Worse by touch and pressure. Worse by motion. Worse by rest. Worse by mental exertion. Worse after seminal losses. Worse from draft of air, even if warm. Worse in open air. Worse in hot weather. Worse by sun and with the sun's increase. Worse every afternoon (headaches).

Symptoms

MIND

Lascivious thoughts with impotency. Mental labor fatigues. Total unfitness for any kind of work. Extreme sadness. Depression in the morning, aggravated in the evening. Despair, melancholy. Dread of society. Forgetful in business. Talkative, when excited, stammers, pronounces some words incorrectly. Stutters. Difficult comprehension. Difficulty in concentrating is easily irritated by noise, people and conversation.

Great forgetfulness when awake with distinct recollection during half sleep. Fails to understand what he hears or reads. Reveries of a religious and melancholy character. Lack of enthusiasm and of interest indifference. Everything vexes him and he is easily antagonized. Very forgetful in his work, but dreams in his sleep of what he has forgotten. Erotic thoughts with impotence. Becomes drunk easily.

Abdomen

Violent shootings in spleen when walking. Pulsation all over the body especially in abdomen after eating which hinders sleep. Left abdominal hyperesthesia, spreading towards the left kidney area. Sensation of abdominal distention on the left side, ameliorated by pressure, aggravated by going to stool or by coughing.

Back

The back becomes almost paralytic after a temporary illness. Paralytic pain in small of back better lying on abdomen. Pain through left side of neck and down back of left leg. Hard swelling on back. Sensation of paralysis in loins. Pain as from lameness in small of back in morning. Severe pain in the coccyx, aggravated when sitting, ameliorated by walking.

Bones

Osteoporosis during menopause. Inflammation of the bones and cartilages in the young adult, attacking the knee, then the elbow and the hip. Bones fragile.

Breasts

More or less acute pain, prickling or dull aching in the left or right breast.

Chest

Constrictive or stinging pain behind the sternum and in the upper left thoracic region. Pains in right side, around under last ribs, especially on inspiration, extending to region of kidneys.

Ears

Deafness from hardened wax. Ear stopped.

Eyes

Pains deep in orbits. Spasmodic twitching of left eyeball. Itching vesicles on eyebrows and margins of lids. Falling off of eyebrows. Heavy, painful, burning, blood-shot with red marks on the eyelids. Discharge of a thick, yellow secretion, especially in the morning. Blurred vision, with difficult accommodation. Styes. Blepharitis. Dacryocystitis. Myopia. Accommodation disorders. Styes.

Face

Great emaciation of face and hands. Comedones. Greasy, shining skin of face. Twitching in muscles of face. Upper lip cracked.

Female

Throbbing in abdomen during pregnancy, worse eating. Menses copious and dark. Menses delayed about eight days. Menses early, scanty, painful. Menses painful on the first day. Awakened by pain of menses. Rare menses.

Food

Anorexia in morning with white-coated tongue. Hunger at night. Craves stimulants, brandy, tea etc. Aversion to salty food. Sweetish, disagreeable taste after smoking. Dislike to salt things.

Desire for alcoholic drinks. Frequent desire for brandy. Thirstless. Worse from tea, sugar, salt, lemonade, wine.

PAGE 1532

Head

Headache after drinking lemonade, wine or tea. Pain over left eye, worse walking in sun, strong odors and tea. Headache from intellectual labor. Hair falls out from eyebrows, whiskers and genitals. Does not want hair touched. Pain in the scalp as if hair were pulled out. Nervous headaches. Headache every afternoon. Scalp feels tense. Headache of alcoholics, headache after debauchery.

Heart

Pulse very accelerated. Arterial pulsation, especially in the abdominal aorta, preventing him from sleeping. Pain in the heart region. Rhythmic anomalies. Syphilitic aortitis.

Kidneys

Frequent urination with urgent need to urinate. Involuntary dribbling, when walking. Dribbling of urine after urination and after stool. Urination predominantly at night. Nocturnal bedwetting. Urine dark red, thick, scanty, gritty with deposits. Red, itching irritation at the tip of the penis. Sensation in the tip of urethra, as if a biting drop were forcing its way out.

Limbs

Pains in all the limbs, as if caused by a chill. Emaciation of hands of legs. Miliaria in forearm. Tearing in hands at night with cracking in wrists. Itching at wrist in palms, itching vesicles on and between fingers. Dry, scaly eruption on palms with itching, having syphilitic base. Psoriasis of palms. Painful hang-nails. Scabies-like pimples on hand. Emaciation of hands. Tearing pain in hands, at night. Sudden left sciatic pain leaves soreness behind. Itching pimples on buttocks and thighs, near the scrotum. Cramps in calves and soles. Legs feel weak with fear of paralysis after typhus. The knees crack when they are bent. Flat ulcers on lower legs. Itching in feet, especially round ankles in evening. Blisters on toes.

Liver

Chronic liver affections. Pain in the liver, especially on taking an inspiration, extending to the kidney region with sensibility to external pressure. Enlarged with fine rash over liver region.

Lungs

Frequent efforts to breathe deeply like sighing. Respiration obstructed at night, when lying down, by pains. Hawking up of mucus and of small clots of blood. Hawks up clear mucus in the morning. Frequent necessity to clear the throat in singers. Takers deep breath. Tubercular laryngitis. Dry hacking cough worse in the morning. Expectoration of lumps of bloody mucus. Weak feeling in the chest. Cough in morning, which fatigues whole chest with expectoration of blood and small globules of mucus. Difficulty of breathing when walking in open air.

Male

Sexual weakness. Dribbling of semen during sleep. Prostatitis, prostatic adenoma. Dribbling of prostatic fluid. Irritability after sex. Loss of sexual power with lascivious fancies. Lascivious but impotent. Increases desire, decreases ability. On attempting sex, penis relaxes. Easy loss of semen during sex with feeble erection, but long continued voluptuous thrill during stools. Semen watery, odorless. Oozing of prostatic fluid during sleep, while sitting, walking and at stool. Hydrocele. Chronic gleet. Bedwetting, chronic urethritis. Papillomas on the penis.

Mouth

Extreme dryness of the mouth. Bleeding gums and ulcerations in the mouth. Bitter taste in the mouth. Pain under root of tongue. Pain in the left molars, which spreads to all the teeth. Burning at the tip of the tongue. Tongue loaded with a thick white coating in morning. Stammering speech, articulates with great difficulty. Sweetish taste.

Neck

Glands of neck large and hard. Cramp in neck. Rigidity of muscles of neck and nape, which hinders head being turned.

Nose

Coryza ending in diarrhea. Fluent coryza in evening. Yellow, thick, gelatinous mucus in nose. Full of thick glairy mucus. Inclination to bore fingers in the nose. Complete chronic obstruction of nose. Nasal itching with the need to scratch the inside of the nose. Sense of smell diminished at times. Smells a repulsive odor like garlic. Sinusitis.

Atrophic rhinitis.

Rectum

Anal and rectal itching, especially towards evening. Constipation from rectal weakness with flatulence. Hard evacuations, followed by a discharge of mucus or of blood when passing the last portion of it. Stools large, hard, requiring a great effort, even a mechanical aid to expel them. Stools exceedingly difficult and threaten to tear anus from their immense size. Somewhat liquid feces with tenesmus. Filament like hair in feces.

Skin

Dry, scaly eruption in palms with itching. Itching about the ankles and folds of skin, between fingers. Frequent tingling in circumscribed parts of skin with great provocation to scratch. Oily. Miliary eruption. Vesicular eruption between fingers. (Rhus-t., Anac.) Seborrhea, comedones with an oily surface of the skin, alopecia. Acne. Red rash on region of liver. Prolonged oozing from parts which have been scratched. Flat ulcers. Loss of hair from the head, armpits, pubic region and eyebrows. Hair falls off head, whiskers and other parts.

Sleep

Insomnia, following alcoholism infectious diseases, heart diseases. Sleep prevented by pulsation in all vessels, worse abdomen. Sleepless until midnight, awakens early and always same hour. Disposition to sleep early in evening with imperfect sleep and frequent waking during night. Jerks in body when going to sleep. Waking early in morning and always at same hour. Erotic dreams, dreams of fire, murders, robbers. Dreams of quarrels and unnatural cruelty.

Stomach

Belching. Hiccough and belchings after smoking. After eating, pulsation all over, especially abdomen. Inclination to vomit. Feels very sick after sleep. Cramp in stomach. Pressure in stomach as if cramp would occur. Nausea, vertigo, thirsty for cold water, general weakness one hour after eating.

Teeth

Toothache which compels use of toothpick until the blood comes. Boring in molars. Teeth covered with mucus. Toothache from tea. The teeth become free of mucus, hard and smooth and crack when rubbed. Toothache with feeling of coldness, better taking cold water and cold air into mouth.

Temperature

Chilliness, followed by hot flushes. Sweating from the armpits and genital region. Burning heat, extending over the skin. Constant alternation of heat and cold. Perspiration from least exertion. Perspiration as soon as he sleeps, day or night. Tendency to profuse perspiration when walking or during an afternoon sleep. Perspiration on chest, genitals and under axilla, which leaves yellow or white spots on linen and stiffens it. External heat with burning in skin and only in single spots.

Throat

Chronic laryngitis. Voice hoarse and husky, as soon as he begins to sing, talk or read, affected by even cold. Voice rattles. Nodes on vocal cords. Throat dry, painful on waking, especially on the left side with extreme thirst. Incipient tubercular laryngitis. Cough in the morning, expectoration of a bloody mucus. Hoarseness of singers. Much clear, starchy mucus. (Stann.) Laryngeal cough. Hawking and raising transparent lumps of mucus every morning.

Vertigo

Vertigo on lifting head, rising from a seat, raising himself in bed, moving about with nausea, vomiting. Faintness, worse for an hour after breakfast and dinner.

Comments

A leading feature of Sel. is the weakness it causes, a weakness involving all parts of the body, easy fatigue from any labor, night-watching, mental exertion and especially from hot weather. The hotter his body the weaker he is: strength rises as the sun sinks.

PAGE 1534

This debility causes sluggishness: wants to sleep from sheer exhaustion and is worse after. Cannot bear any nervous drain, hence worse after sex or seminal emissions. Impotence. Debility after fevers. When the patient begins to walk after typhoid and feels great weakness in the spine and fears paralysis Sel. is indicated.

Irritability, headaches and other troubles following or worse by seminal emissions. The headaches are accompanied by profound melancholy and may be caused by indulgence in alcoholics or in tea, by hot weather, by over-study and they are worse by strong odors, as of musk, roses, etc. The headaches may be periodical and are frequently located above the left eye.

Many chronic liver disorders are met with Sel., the guiding symptoms in such cases being: Enlargement of liver with loss of appetite in the morning, sharp stitching pain worse on any movement or pressure, sensitiveness of liver and, especially, "find rash over liver region."

There is constipation from weakness with impacted feces: and dribbling of semen after stool and also after urination. Sufferings after seminal emissions mental confusion, headache, almost paralytic weakness of spine involuntary escape of prostatic fluid.

Clarke has cured with Sel. many cases of hoarseness, the special indications being hoarseness of singers, appearing as soon as they begin to sing or after long use of the voice with frequent necessity to clear the throat from accumulation of clear, starchy mucus. Scrofulous and incipient tubercular laryngitis have been cured with Sel. The parallelism with Sulphur is seen all through the pathogenesis of Sel. and perhaps more especially in the skin.

Sel. causes itching in folds of skin, as between fingers and about joints, especially the ankle-joint. The itching may occur in small spots and be accompanied by tingling (showing involvement of the nervous system).

The scalp is affected with an eczematous eruption which oozes thin fluid after scratching. Hair falls off scalp and all parts of body. I have frequently relieved "psoriasis palmaris" with Sel., which shows that it has a relation to syphilis.

Among the peculiar symptoms of Sel. are: Very forgetful in business, but during sleep dreams of what he had forgotten. Coryza ending in diarrhea. Hungry at night, longing for spirituous liquors, an almost irresistible maniacal desire.

Sensation as if a biting drop were forcing its way out of the urethra. Irresistible desire to lie down and sleep, strength leaves him suddenly, especially in hot weather. Very great aversion to a draft of air, either warm, cold or damp. Aversion to salted food. Pulsation in whole body, especially in abdomen after eating. Great emaciation of face, hands, legs, feet, affected parts and single parts.

Sempervivum tectorum

(houseleek)

Pharmacy

Semp. Sempervivum tectorum. Houseleek. N. O. Crassulaceae. Tincture of fresh leaves. Historical dose: Tincture and all potencies, tincture and 2x, also fresh juice of plant.

PAGE 1535

Herbal

In Hufeland's Journal, says Kallenbach, the fresh juice of Sempervivum tectorum is recommended in chronic aphthae in grown persons in causal relation to hemorrhoids, as well as in scirrhus indurations of the tongue. In many countries Semp. has a popular reputation for indurations and sores on the tongue.

Reichel of Staben, considers it curative in spasms of the uterus and in menstrual disturbances of all kinds, as well as in cases of too exalted vascular activity in the sexual sphere, also in aural troubles consequent on hardened ear-wax and in inflammatory exudations of the ear. **Planets:** Mars, Saturn.

Homeopathic

Semp. is externally used for bites of insects, stings of bees and poisoned wounds, warts. It is recommended for herpes, zoster and cancerous tumors. Scirrhus induration of tongue. Breast carcinoma. Ringworm. Hemorrhoids.

Grimmer states: "Sempervivum tectorum has cured many cases of induration and sores on the tongue, it also has definite action on the uterus and menstrual function in cancer constitutions, it could be thought of in cases of tongue cancer."

Clinical

Bites insects. Menopause. Menses, suppressed. Tongue indurations. Wounds, poisoned.

Comments

Kallenbach was consulted (1) by Mrs. S., 44, childless of sickly looks, for an affection of the tongue. For the previous six months menses had appeared only every eight to ten weeks and were accompanied with pains darting from small of back to uterus and vulva.

During the six months she had stitching pain on right rim of tongue about 3/4 inch from the point, at which place after a few weeks, a swelling formed, the size of a small bean.

Which bled at times and at night caused a burning sensation as of a small coal, disturbing sleep. Sour food causes pain.

The swelling is not hard on the surface, but contains two hard nodules of size of lentils, one of which is denuded and bleeds on touch. Three enlarged veins cross the swelling and enter the tongue muscle behind it. After over a month of treatment with Aur., Ars., Carb-v. in vain.

Kallenbach moistened the swelling with the fresh juice of Semp. thrice a day. Within three days it was smaller and folds appeared, the enlarged veins were contracted, formed thin, tense vessels crossing the swelling and seemingly tying it. During the next three days the patient applied the juice too energetically and Kallenbach found the surroundings in inflammatory irritation and very sensitive.

The applications was stopped and Semp. 2x given internally. After a week's use the swelling had shriveled to one-third and ten days later the menses, which had ceased altogether, reappeared and continued very profusely for five days. The swelling shriveled to the size of a small pea, was firmer, harder, devoid of sensation and gave no further trouble. The menses continued regular.

(2) Mrs. X., 27, mother of a six months old healthy boy, formerly frequently afflicted with swelling of the glands, very sensitive to homeopathic remedies, complained of a pain under her tongue of ten days' duration interfering with eating and speaking. There was a bluish red elevation on under side of tongue of size of split bean, hard and along both sides there were enlarged veins.

On the side a denuded spot exuded a whitish albuminous matter which could easily be wiped off: Semp. 6c, one powder every forty-eight hours. On the second day the swelling was less sensitive and in a week much smaller.

Then the menses reappeared (first time since confinement) and in three weeks the whole swelling was gone. Leaving only in its place a somewhat engorged vein.

Kallenbach treated with applications of 1x a General v. B. who had nodules on left rim of his tongue with swollen veins, the nodules disappeared and the sensitiveness was removed and the patient was so well that he refused to stay for the completion of the cure and failed to report.

Clarke's experience with Semp. was in domestic practice. For some child affections of the eyes he used rags moistened with "House leek and cream" (about equal parts of the juice and fresh cream) were applied and his recollection of it is that the application was exceedingly pleasant.

Boericke. Clarke. Grimmer.

Senecio aureus

(golden ragwort)

Pharmacy

Senec. Senecio aureus. Golden ragwort. Squaw-weed. N. O. Compositae. United States, North and West, found in swamps. Tincture of fresh plant in flower. Historical dose: Tincture and all potencies, tincture to third potency.

Herbal

The Golden Ragwort had a reputation in domestic and eclectic practice as a regulator of menstrual functions when Hale introduced it into homeopathic practice. Its action on the female organism has been clinically verified.

Lyman Watkins says, "Females taking Senec. generally improve in health and strength, accumulate flesh, become light-headed and cheerful. This may be due to some tonic influence."

Like many other Compositae, the Ragworts or Groundsels, have power over hemorrhagic conditions, whether arising from disease or from wounds. A. E. Small and others proved it and clinical additions have filled out the picture.

Homeopathic

In eclectic practice Senec. is considered as a regulator of menstrual function.

Therefore it has a marked action on female and urinary organs especially bladder.

Urinary organs also affected in a marked degree. Backaches of congested kidneys. Early cirrhosis of liver.

Lack of reaction in genito-urinary tract. Debilitating or vicarious discharges. Tightness in nose, throat etc. Muscles draw into a knot. Nervous, pale, weak and sleepless hysterical women. Globus. Hemorrhagic tendency from other organs especially with suppressed or delayed menses. Dropsy after hemorrhage. Very sensitive to open air, tendency to catarrhs.

Clinical

Amenorrhea. Ascites. Cirrhosis. Coryza. Cough. Dropsy. Dysmenorrhea. Dysuria. Fainting. Gleet. Gonorrhea. Hemorrhages. Homesickness. Hysteria. Kidney inflammation. Lumbago. Mania. Menorrhagia. Menstruation, disorders. Nails, brittle. Nervousness. Neurasthenia. Nosebleed. Prostatitis. Puerperal mania. Kidney colic. Sciatica. Spermatic cord, pain. Tuberculosis. Wounds.

Causations

Ill effects of suppressed or delayed menses, wounds, venescetion.

Constitutions

Senec. is especially suited to women and little girls of nervous temperament. **Planets:** Venus, Moon.

Modalities

Colic is better bending forward and better by stool. Better at onset of menses. Better from menstruation. Worse puberty, sexual excitement, dampness, cold open air, sitting. Worse at night. Worse in afternoon. Worse in open air. Worse sitting, must keep moving about.

Symptoms

MIND

Despondent. Nervous and irritable, whining. Inability to fix mind upon any one subject. Self centered. Elated and sad alternately.

Abdomen

Pain about umbilical region, spreading in all directions better stools, bending double. Ascites from suppressed menses.

Back

Lumbar backache, as if to break with amenorrhea. Kidney disease.

Breasts

Burning in left nipple. Pains from ovaries to breasts.

Chest

Chest sore and raw.

Ears

Itching in Eustachian tube.

Eyes

Tears *are irritating*, causing itching.

PAGE 1537

Face

Sharp, cutting pain left side. Dryness of fauces, throat and mouth.

Female

Functional amenorrhea of young girls with backache. Premature and too profuse menses. (Calc., Erig.) Before menses inflammatory conditions of throat, chest and bladder. After menstruation commences, these improve. Menses, retarded, suppressed with concomitant symptoms, dropsy, cough, backache. Anemic dysmenorrhea with urinary disturbances. Profuse flow of mucous from vagina from sexual excitation. Sexual irritation causing, itching, burning and swelling of labia. Pains from ovaries to breasts. Leucorrhea, thick, yellow, profuse, flows down thighs. Feels like the menses would come. Menorrhagia, a copious flow which continues until they become anemic. Dysmenorrhea after abortion.

Food

Aversion to all food especially sweets and coffee which she was very fond.

Head

Dull, stupefying headache. Wave-like dizziness from occiput to sinciput. Sharp pains over left eye and through the left temple. Headache precedes leucorrhea and irritation in bladder.

Kidneys

Heat in neck of bladder and constant urging with kidney pain. Great heat and constant urging. Kidney colic. (Pareira, Ocim., Berb.) Nephritis. Irritable bladder of children with headache. Dysuria in women with dysmenorrhea or uterine displacements and in children with headache. Scanty, high-colored, bloody with much mucus sediment and tenesmus.

Limbs

Wandering rheumatic pains, periodical. Feet cold in bed. Brittle nails.

Lungs

Acute inflammatory conditions of upper respiratory tract. Hoarseness. Loose cough with copious mucous expectoration and labored breathing.

Cough tickling with blood-streaked sputum with suppressed menses. Dyspnea on ascending. (Calc.) Dry teasing cough, stitching chest pains.

Male

Lascivious dreams with involuntary emissions. Prostate enlarged, feels hard and swollen to touch. Dull, heavy pain in spermatic cord, extending to testicles.

Mouth

Twitching about mouth. Teeth very sensitive.

Nose

Burning in nostrils. Sneezing with burning in nose. Fullness of nasal passages, burning, sneezing, profuse flow. Tightness in nasal passage. Nosebleed or nasal catarrh take the place of menses when suppressed from any cause. Coryza with nosebleed.

Rectum

Thin, watery stool intermingled with hard lumps of feces. (Ant-c.) Straining at stool, thin, dark, bloody with tenesmus. Stools, thin, watery, mingled with hard lumps of feces or thin, dark, bloody.

Sensations

As of a wave from occiput to sinciput. As if he would pitch forward. As of a ball rising from stomach to throat.

Skin

Dry.

Sleep

Nervousness and sleeplessness. Sleepless women with uterine troubles and amenorrhea. Drowsy during day. Great drowsiness with unpleasant dreams. Many dreams, erotic.

Stomach

Sour belchings. Nausea and vomiting of kidney origin. Sensation of a ball rising from stomach to throat.

Temperature

Hectic fever with anorexia.

Throat

Dry mouth, throat and fauces. Burning in pharynx, raw feeling in naso-pharynx, must swallow, though painful.

Vertigo

Wave-like sensation of dizziness from occiput to sinciput.

Comments

The hemorrhagic function of menstruation comes particularly under the influence of Senec. A very definite relation has been traced between the nose and the female sexual organs and Senec. is indicated when nosebleed or nasal catarrh takes the place of menses when suppressed from any cause. The menses may be profuse and early or they may be retarded or absent.

Senec. may be required in a great variety of conditions traceable to non-appearing menses.

PAGE 1538

C. M. Foss reports the case of Miss L., 18, who had seen no period for fifteen months. She was chlorotic, had a dry, hacking cough with frequent pulse, made still more frequent by any excitement, headache, poor sleep, constipation. The abdomen had been gradually enlarging for six months and tapping had been decided upon when Senec. ix was given.

All symptoms rapidly cleared up and the menses returned within a short time.

Senec. ix also cured a girl, 21, who had suppression of urine in addition to chlorosis, ascites and suppressed menses.

S. H. Talcott reports an important case bearing on the same point. Mrs. X., 26, mother of two children. Before confinement the patient was haunted with the idea that her child would be stillborn.

Nine days after its birth, strong and healthy, she was admitted to hospital in a state of violent acute mania, which continued with high temperature, for three months. with great physical activity, the mental state was that of a wild, violent and almost uncontrollable person. There was severe pain in the head, great nervous irritability and sleeplessness and hysterical weakness.

These symptoms, coupled with the fact (now first ascertained) that the lochia had ceased suddenly after confinement and the menses had not come on, led to the choice of Senec., which was given in drop doses of the 3x every two hours.

Steady improvement resulted and after a few weeks the patient was allowed out on parole. A relapse followed and Bell. did no good. Senec. was again given with good effect and complete recovery took place.

Talcott remarks that recovery from puerperal mania seldom occurs unless menstruation is re-established.

Hale notes that the country people call Senec. "Wild Valerian," and use it for nervousness, hysteria and low spirits, sleeplessness, especially in women and he refers to this "globus" symptom of the pathogenesis:

About the middle of the afternoon, sensation as if a ball was in the stomach, rising up into the throat, lasting for about an hour, sensation of tightness in the throat with a disposition to attempt to relieve it by swallowing. Talcott's case becomes more significant in the light of Cooper's observation of the brain action of Senec. jacoboca.

Small, who proved Senec., records this case: Women, 30, had been ill six weeks, the symptoms steadily increasing until the following picture was presented: Face bloated, abdomen enlarged, feet edematous, urine alternately profuse and watery or dark and scanty, frequent desire to urinate day and night. Senec., 10 drops, three times a day, cured quickly.

Small remarks that he has found Senec. useful in the dysuria of women and children when evidently of catarrhal origin and in dysuria with uterine displacement. Mucous sediment in the urine is an indication. But the benefits of Senec. are not confined to the female sex.

Small relates this case: Man, 50, nervo-sanguine, subject of kidney inflammation affecting right kidney generally, causing intense pain, fever, prostration. On one occasion the pain was particularly intense and the bladder seemed implicated. Every time he passed water he cried out in agony. Urine reddish, very hot and acrid. Bowels constipated. Dull headache, mouth and throat dry, chilly, fever and perspiration.

Senec., 20 drops in half a tumbler of water, a dessert spoonful every hour. There was relief from the first dose and the pain soon subsided entirely, leaving the patient freed from recurrence of the attacks.

Senec. has caused: "Dull, heavy pain in left spermatic cord, moving along cord to testicle.

Prostatic gland enlarged, feels hard and swollen to touch. Lascivious dreams with pollutions." Hale says he has found Senec. useful in advanced stages of gonorrhoea and in prostatic disorders.

Hale reports the following case of dysmenorrhea: Mrs. X., mother of one child, had an miscarriage three years before and another (at the second month of pregnancy) four months before Hale saw her.

Since the last miscarriage she had suffered from painful menstruation, which had not been the case previously. Menses every three weeks, profuse, lasting eight or nine days, accompanied by much cutting pain in sacrum, hypogastrium and groins. Pale, weak, nervous, slight cough, generally at night. Senec., 5 drops, was given three times a day until the next period, which came on at the twenty-ninth day and was perfectly normal in quantity and without pain.

Senec. has a place in coughs and even in tuberculosis. "It is especially serviceable in mucous coughs," says Hale. "In chronic coughs, catarrhal affections, hemoptysis incipient tuberculosis attended with troublesome cough, the result of obstructed menstruation," it has a well-established reputation.

Respiration as if greatly fatigued. Pains are radiating, shifting, lancinating. Symptoms alternate.

Senecio jacobaea

(st. james wort)

Pharmacy

Senec-j. Senecio jacobaea. St. James' Wort. Stagger wort. Ragwort. N. O. Compositae. Tincture of fresh plant. Historical dose: Tincture and all potencies.

Herbal

Cooper has published several observations with Senecio jacobaea. This is the common Ragwort, which with its yellow flowers is such a conspicuous feature of English roadsides and commons throughout the summer months.

Gerarde mentions "green wounds and old filthy ulcers" as benefited by it, also "old aches and pains in the arms, hips and legs." **Planets:** Moon, Saturn.

Clinical

Arthritis. Brain, disorders. Cerebrospinal irritation. Depression. Bedwetting. Headaches. Twitchings. Ulcers.

Symptoms

MIND

Depressed in body and mind, it seemed as if her brain would not work, for she talks incoherently.

Back

Constant rigidity of muscles, chiefly of neck and shoulders, especially at night, seems like a habit, but finds it most difficult to relax them, it seems to return involuntarily, so that the weight of the head is somehow held in this way and though touching the pillow does not rest on it.

Head

Exhaustion felt in back of head after this felt lighter and better.

Kidneys

The bladder, which had been rather weak, became more so, the bedwetting continuing day and night for several days.

Limbs

Sometimes in the day the upper part of the legs gets a sort of ague fit of shaking.

Rectum

Bowels (before fairly regular) began acting in gushes, large stools occasionally, but in no way regular.

Comments

Cooper (1) gave a lady, 57 who had slight otorrhea of left ear with deafness on that side, a single dose of Senec-j.

PAGE 1540

Immediately after, she began to feel depressed in mind and body, it seemed as if her brain would not work, for she talked incoherently.

The bowels began acting in gushes and a bladder weakness was aggravated, so that there was bedwetting night and day for three days.

(2) Another woman from a single dose of the same had "exhaustion in the back of the head." (3) A lady, 51, had depression all her life, coming in fits. "Memory and everything goes," cannot talk coherently to herself and dislikes conversation in others.

On July 1, 1900, she wrote: "Have suffered agony from awful feeling of torpor of brain, which has made it an effort to put words together, memory seemed to go, felt altogether insensible, bowels have been confined." One dose of Senec-j. was given and removed the depression and relieved all the other symptoms, it also produced this:

Constant rigidity of muscles, chiefly of neck and shoulders, worse at night, it seems like a habit. "and I try to relax them but find it most difficult, it to run back involuntarily, so that the weight of the head is somehow held in this way and though touching the pillow does not rest on it. Sometimes in the day the upper part of the legs gets a sort of ague fit of shaking."

On this Cooper remarks: "The exhaustion felt after a dose of Senec-j. In the back of the head in case 2 and the cropping up as a new symptom of this strange-looking rigidity of the muscles of the neck, at night chiefly together with the shaking of the legs in the daytime, points to incoordinated muscular action due to deranged cerebral control."

Cooper adds this case: A man, 68, many years apoplectically inclined, had constant twitchings at night with cascular deafness of right ear, loss of memory, pressure and heat

of head: after a dose of Senec. jac. he remained comfortable for three months and hearing improved. Senec-j. has been used like Senec. aur. in cases of menstrual irregularity.

SOURCES

Clarke.

Senega

(snakewort)

Pharmacy

Seneg. Senega. Polygala senega. Snakewort. Snakeroot. N. O. Polygalaceae. Tincture of powdered dried root. Historical dose: Tincture and all potencies, tincture to thirtieth potency.

Herbal

Senega was introduced to medical practice by Dr. Tennant of Virginia, who was led to test its properties through hearing that the Indians used it as an antidote to snake-bites. As it relieved the symptoms of snakes venom. Tennant concluded that it might also relieve dyspnea, cough and hemoptysis arising from other causes and gave it with success in cases of pneumonia, pleurisy and hydrothorax (Teste).

Other old-school practitioners used it as an expectorant in chronic respiratory catarrh, acute tuberculosis, rheumatic fever, dropsies incipient cataract, croup. It is regarded as "a stimulant, diaphoretic and expectorant in chronic bronchitis."

Senega is one of the sources of Saponin. It has a nauseous taste and leaves a scraping sensation in the throat. It is in disorders of the chest, eyes and bladder that homeopaths have found it of most service and the extensive provings have supplied excellent data for prescribing.

Homeopathic

Seneg. affects the mucous membranes causing catarrhal symptoms especially of the respiratory tract and bladder. **Eyes**, serous membranes of chest, muscles and left side are also affected.

PAGE 1541

Catarrhal symptoms, especially of the respiratory tract and distinct eye symptoms of a paralytic type, are most characteristic. Circumscribed spots in chest left after inflammations.

Leading indications for Seneg. in chest cases are: Great accumulation of clear albuminous mucus, which is difficult to expel. Great soreness of walls of chest. Pressure on chest as though lungs were forced back to spine. Whooping cough in fat, chubby children, clear mucus like white of egg, difficult to raise, cough worse towards evening.

The soreness of the chest walls makes Seneg. appropriate to cases of pleurodynia. There is hoarseness and the throat is so dry and sensitive it hurts the patient to talk. Cough often ends in sneezing. Lying down causes tickling in larynx, fear of suffocation. Lying on right side causes pain in chest. Motion causes pain under sternum. Motion of arms causes soreness of walls of chest.

Clinical

Allergies. Amblyopia. Ascites. Asthma. Bedwetting. Bladder, irritable. Blepharitis. Bronchitis. Chest disorders. Constipation. Cornea, opacity. Coughs. Esophagus, stricture.

Facial paralysis. Hay fever. Headaches. Hydrothorax. Hypopion. Influenza. Iritis. Lungs disorders. Pleurisy. Pneumonia. Snake-bites. Sneezing. Sprains. Styes. Throat, sore. Tuberculosis. Whooping cough.

Causations

Ill effects of poisonous bites. Sprains.

Constitutions

Seneg. suited to plethoric, phlegmatic persons, persons tending to obesity, fat persons of lax tissue, fat, chubby children and old persons. Suited to females of slender and tall make, thin, but having retained a good deal of sprightliness and moral power. It is suited to plethoric persons or persons tending to obesity, tall, slender, sprightly women, old persons and fat chubby children. **Planets:** Mars.

Modalities

Better walking in open air. Rest helps dry cough. Better from sweat, bending head backwards, walking in open air. Worse from inhaling air, open air, cold, wind. Worse walking in open air. Worse going up stairs. Worse by touch and pressure. Worse rubbing. Worse rest. Worse stooping, bending forward. Worse morning and night. Worse in warm air in warm room. Worse Looking intently at an object.

Symptoms

MIND

Anxiety with hasty respiration. Inclined to quarrel. Readily takes offense. Suddenly remembers unimportant regions which he saw long ago.

Abdomen

Boring and digging pains in abdomen. Flatulent disorders with a sensation of a general bearing down towards hypogastrium.

Back

Bursting distending pain in kidney region.

Chest

Pressure on chest as though lungs were forced back to spine. Chest feels oppressed on ascending. Circumscribed spots in chest left after inflammations. Dry scraping in chest worse talking. Thorax feels too narrow. Sore from coughing, pressure, sneezing or moving arms. Pain in spots, as if bruised shifting pains on stooping. As of a crushing weight or weakness starts in chest. Exudation in pleura. Hydrothorax. Burning in chest before or after coughing.

Ears

Aching in the ear when chewing.

Eyes

Staring. Lachrymation. Flickering, must wipe eyes frequently. **Eyeballs feel distended** or like balls of ice. Dryness with sensation as if **too large for orbits**. Objects look shaded. Lachrymation, ptosis and diplopia, better bending head backwards. Blepharitis, lids dry and crusty. (Graph.) Oculomotor paralysis. Muscular asthenopia. (Caust.) ***Double vision***, better only by bending head backward. Opacities of the vitreous humor. Promotes the absorption of fragments. Sensation of trembling without visible trembling.

Head

Dullness with pressure and weakness of eyes. Pain in temples. Bursting pain in forehead into eyes, better cool open air.

Kidneys

Greatly diminished urine, loaded with shreds and mucus. Scalding before and after urinating. Bursting, distending pain in kidney region. Urine, foamy, acrid with mucous shreds. Increased or decreased in amount. Scalding before and after urination.

Lungs

Bursting pain in back on coughing. Hacking cough. Cough often ends in a sneeze. Rattling in chest. (Ant-t.) Albuminous or blood-streaked sputum.

Bronchial catarrh with sore chest walls, much mucus, sensation of oppression and weight of chest. Difficult raising of cough, profuse mucus in the aged. Asthenic bronchitis of old people with chronic interstitial nephritis or chronic emphysema. Exudations in pleura. Pleuro-pneumonia. Hydrothorax. (Merc-s.) Old asthmatics with congestive attacks.

PAGE 1542

Mouth

Dry scraping in mouth, worse talking. Taste, metallic like urine.

Nose

Dry. Coryza, much watery mucus and sneezing. Sneezes, so often and so violently that the head grows dizzy and heavy. Nostrils feel peppery.

Sensations

Eyes, as if they were pressed out, as if eyeballs were being expanded, as if soap in eyes. As if red pepper throughout nostrils and air passages. As if chest too narrow. Dyspnea as from stagnation in lungs. As if lungs pushed back to spine. As if chest would burst. Wrist as if sprained. Joints as if lame.

Stomach

Loathing and nausea with inclination to vomit.

Throat

Hoarseness. Hurts to talk. Catarrhal inflammation of throat and fauces with scraping hoarseness. Catarrh of larynx. Loss of voice. Voice unsteady, vocal cords partially paralyzed. Burning and rawness. Sensation as if membrane had been abraded. Dry scraping in worse talking. Hawks viscid mucous in detached small clots.

Comments

Guernsey outlines its action thus: "Where there is a great burning in the chest, either before or after coughing, profuse secretion of mucus. Dryness of inner parts which are usually moist, dry skin. General disorders of the windpipe, left side of chest particularly, right eye, lower eyelids."

Nash who has only obtained success with low potencies of Seneg., has cured many cases of "cough with great accumulation of mucus, which seems to fill the chest with much rattling, wheezing and difficult breathing."

In the case of a very stout elderly lady of tubercular family history, who had pneumonia of both bases, especially right.

He had a very violent paroxysmal cough with ropy, difficult expectoration tinged with blood. Seneg. 30c quickly relieved a very dangerous condition when other remedies had failed.

Clinton Enos related this case: A very fat girl, age 10 with cold, damp feet and hands and sweating about the head, had spells of sneezing for two years, even since whooping cough. Several spells a day lasting about half an hour. Sharp pains in chest and temples

during the attacks. In nose a large quantity of mucus with stuffed-up feeling. One dose of Seneg. 200c removed the whole trouble in a week.

Seneg. acts on the eyes even more powerfully than on the nose, producing pains inflammation both of the exterior and interior of the eye and lids and much disorder of vision. The eye troubles are worse when looking intently at an object and another modality brought out in the proving has taken the rank of a keynote: better Bending head backwards.

The symptom in which it was first noticed was this: "When walking towards the setting sun he seemed to see another smaller sun hover below the other, assuming a somewhat oval shape when looking down, disappearing on bending head backwards and on closing the eyes."

The prover took from 40 to 6 drops of the tincture. Worse bending head forward and worse from stooping are characteristic. Eye symptoms as an accompaniment of head symptoms indicate Seneg.: "Violent rush of blood to head when stooping, especially to eyeballs, where a painful pressure is experienced."

Extreme tenderness is another keynote of Seneg. Pressure, dullness, heaviness are the leading head sensations. There is painful sensitiveness of hearing. The digestive organs are disordered.

PAGE 1543

Seneg. has been used as an emetic. The urinary organs are very prominently affected, irritability and catarrh being the leading effects. There is frequent urging, scalding in urethra before or after urination and the urine is loaded with mucous threads. Seneg. has the gnawing hunger and empty feeling well marked. It is predominantly left-sided in its action.

Senna

(cassia acutifolia)

Pharmacy

Senn. Senna. Cassia acutifolia. The leaflets of several species of Cassia: Cassia obovata, the Alexandrian Senna is the principal. N. O. Leguminosae. Trituration or tincture of the dried leaves. Historical dose: Tincture and all potencies, third to sixth potency.

Herbal

Senna has proved an excellent remedy in the colic of infants with incarcerated flatulence and sleeplessness. Infantile colic when the patient seems full of wind. Senna is used as a laxative in ordinary practice.

The symptoms of Senna are mostly derived from overdosings. A peculiar symptom is: "Repeated sneezing, which caused heat, (especially of hands), exhaustion and panting breathing." Exhaustion is typical of Senna.

Farrington says it is one of the best remedies in the *Materia Medica* for "simple exhaustion with excess of nitrogenous waste." The exhaustion is exemplified in the sinking immediately after meals. The pods caused a nasty unclean smell from the body of a woman taking them for constipation.

Where the system is broken down, bowels constipated, muscular weakness and waste of nitrogenous materials, Senna will act as a tonic. **Planets:** Moon, Jupiter.

Homeopathic

Senna is of much use in infantile colics when the child seems to be full of wind. Oxaluria with excess of urea increased specific gravity. Ebullitions of blood at night. Acetonemia, prostration, fainting, constipation with colic and flatulence. Liver enlarged and tender. General swelling. Exhaustion. Unclean body swell.

Clinical

Colic. Exhaustion. Flatulent infants. Liver, disorders. Nitrogenous waste. Sleeplessness. Sneezing with heat.

Symptoms

Abdomen

Colic, especially in little children. Painful colic from incarcerated flatulence, particularly in young children. Sensation of coldness in the abdomen with emptiness and uneasiness in the stomach. Accumulation of flatus with grumbling and fermentation in the abdomen and discharge of fetid flatus.

Face

Livid lips. Commissure of lips covered with small burning blisters.

Food

Anorexia. Thirst.

Head

Heaviness of the head when stooping, as if it were pressed down.

Kidneys

Specific gravity and density increased, hyperazoturia, oxaluria, phosphaturia and acetonuria.

Limbs

Heat in limbs, especially of hands.

Liver

Liver enlarged and tender.

Nose

Repeated sneezing, which caused heat (esp. of hands), exhaustion and panting breathing.

Rectum

Fluid yellowish with pinching pains before. Greenish mucus, never-get-done sensation, (Merc.) Burning in rectum with strangury of bladder.

Constipation with colic and flatulence. Stools hard and dark with loss of appetite, coated tongue, bad taste and weakness. Liquid stools with griping pains. Loose evacuation with tenesmus and followed by a burning sensation in the anus. Diarrhea with straining and prolapsed rectum and sore anus in children.

PAGE 1544

Sleep

Ebullition of blood, especially at night, disturbing the sleep. Sleeplessness with cries and tossing, especially in the case of infants.

Stomach

Empty or watery and fetid, risings. Loathing and nausea with inclination to vomit. Sinking immediately after meals.

Sepia officinalis

(cuttlefish ink)

Pharmacy

Sep. Sepia succus. Cuttlefish Ink. Sepia officinalis. N. O. Cephalopoda. Trituration of dried liquid contained in the ink-bag. Historical dose: All potencies, 6c and 200c potency.

History

Inky juice of cuttlefish, known as Indian ink is supposed to be pre-eminently a woman's remedy, though the first symptoms were found by Hahnemann proved accidentally by a male artist.

Some among the ancient physicians, Dioscorides, Pliny and Marcellus, used either the flesh, the eggs or even the only bone which constitutes the skeleton of this animal, for "leucorrhoea, gonorrhoea, catarrh of the bladder, gravel, spasms of the bladder, baldness, freckles and certain kinds of tetter which is sufficiently remarkable in the light of the provings."

Sep. is one of the remedies of the Chronic Diseases and was proved by Goullon, Von Gersdorff, Gross, Hartlaub and Wahle. Sep. is predominantly, but by no means exclusively, a woman's remedy.

Sepia affects the generative organs of both sexes and a large number of the symptoms occurring in other organs have some relation thereto.

Grimmer states "This remedy has cured cancer of rectum and uterus, it acts strongly on the sexual organs of both sexes and a great many symptoms and conditions are manifested in this sphere. Young people of both sexes frequently have ailments calling for this medicine, women during the pregnant state after childbirth, men who have been addicted to drinking and sexual excesses are often helped by this remedy. Sex aggravates it in both sexes."

Homeopathic

Sepia affects the venous circulation especially of the female pelvic organs and of digestive tract. It acts specially on the portal system with venous congestion. Stasis and

ptosis of viscera. Weariness and misery. Weakness, yellow complexion, bearing-down sensation, especially in women, upon whose organism it has most pronounced effect. Pains extend down to back, chills easily.

Sep. has a tendency to miscarriages. Hot flashes at menopause with weakness and perspiration. Upward tendency of its symptoms. Easy fainting. "Ball" sensation in inner parts.

One of the most important uterine remedies. Uterus prolapsed. Tubercular patient with chronic hepatic troubles and uterine reflexes.

PAGE 1545

Pulsating headache in cerebellum. Affections in pregnant women. Females dragged down by overwork. Loss of vital fluids, excess of sexual indulgence, who are subject to prolapses, uterine troubles. Bearing down in pelvic region. Symptoms settle in back in ileo-cecal region, ovaries.

Venous stasis and thereby ptosis of viscera is a marked feature. Children who take cold easily when the weather changes. Relaxed, plethoric females. Weak, pot-bellied mothers with yellow complexion.

Sudden prostration. Shuddering from pain. Weak empty hollow feeling in epigastrium, chest, muscles, lumbar back, hips, knees etc. or sensation of fullness. As of a lump or something rolling over internally. Violent ebullitions of blood with pulsation throughout the body. Fits of uneasiness and hysterical spasms. Spasms, clonic, tonic, cataleptic.

Short walk fatigues much. Jerking in muscles. Burning pains in different parts of the body. Bleedings. Milky secretions. Fainting fits. Fidgety. Tubercular patients with chronic hepatic troubles and uterine reflexes. All pains are from below up.

Feels cold, even in warm room. Faints while kneeling in the church. Diseased conditions which drag on, linger. Warty growths. Atrophy of children, their face like an old man. Big belly, dry flabby skin. Rheumatism, chronic cases.

Clinical

Alcohol, effects. Amenorrhea. Anus problems. Appetite, depraved. Ascarides. Baldness. Bladder, weak. Cancer. Chloasma. Chorea. Condylomata. Cystitis. Dysmenorrhea. Dyspepsia. Eczema. **Eyes** disorders. Face, yellow. Freckles. Gleet. Gonorrhoea. Gravel. Herpes. Hysteria. Jaundice. Leucorrhoea. Libido, low. Liver spots. Liver torpid. Menopause. Menstruation, disorders. Mental disorders. Miscarriages tendency. Morning sickness. Neuralgias. Nose inflamed. Nosebleed. Ozaena. Phimosis. Pityriasis versicolor. Pleurisy. Pregnancy, disorders. Pruritus. Psoriasis. Ptosis. Pylorus induration. Quinsy. Rectum, disorders. Ringworm. Sacrum, pain. Sciatica. Seborrhea. Smell, disorders. Spermatorrhea. Strokes. Styes. Toothache. Urine incontinence. Uterus, bearing down. Varicose veins. Warts. Whooping cough.

Causations

Ill effects of anger and vexation, blows injury, overlifting, falls, jar, getting wet, laundry work, boiled milk, fat, pork tobacco. Snowy air. Wetting. Alcohol. Hormones. Birth control pills. Hysterectomy. Childbirth. Pregnancy. Rape. Menopause. Puberty.

Constitutions

Hering gives these types: (1) It is suited to young persons of both sexes of nervous and delicate constitution, who are disposed to sexual excitement or worn out by sexual

excess. (2) Women during pregnancy in childbed and while nursing. (3) Children who take cold readily when the weather changes. (4) Scrofulous persons. (5) Men who have been addicted to drinking and sexual excesses. (6) Pot-bellied mothers, yellow saddle across nose, irritable, faint from least exertion, leuco-phlegmatic constitutions. (7) Bahr gives: Sanguine, excitable temperaments inclined to congestions. **Planets:** Moon, Venus.
Modalities

Better from sitting with legs crossed. Better from by exercise, dancing, vigorous motion. Better pressure, warmth of bed, hot applications, crossing or drawing limbs up after sleep. Better cold drinks, cold bathing, open air. Worse from cold, air, dampness, north wind, snowy air, snowfall, before thunderstorms. Worse after sex, sexual excess. Worse before menses, pregnancy, miscarriage. Worse morning and evening after first sleep, falling to sleep, sitting, standing, kneeling, jarring, stooping. Worse before thunderstorms touch, ascending, rubbing, lifting, scratching. Worse washing clothes, laundry-work, left side after sweat. Worse from sex.

PAGE 1546

Symptoms

MIND

Angry, sensitive, irritable, easily offended and miserable. Irritability, alternating with indifference or sulks. Indifference. Takes pleasure in teasing others. Sad over her health and domestic affairs. Aversion to family to those loved best to sympathy to company, yet dreads to be alone. Repugnance to customary business, disgust of life.

Stifled disorders. Loss of sex drive and disorders. Nervous, so that she wants to hold on to something or she should scream. She says and does strange things. Wants to commit suicide. Nobody knows what she will do next. Anxious fear, over trifles. Poor memory.

Loves to dance and excited during thunderstorms. Makes mistakes while writing or reading.

Constantly worries, frets and cries about her real or imaginary illness. Breaks down in spells of weeping. Cries when telling her symptoms. Miserly. Confused, wants to go away. Feels unfortunate without cause. Sits quietly and answers either with yes or no. Women hate men and men hate women.

Abdomen

Pain in the region of liver or gallbladder, worse stooping. Flatulency with headache. Falling out or heavy bearing down feeling in hypogastrium better by holding it or crossing legs. Pot-belly of mothers. Brown spots on abdomen.

Back

Aching in inter-scapular or lumbar region, paralytic, wants to be pressed. Weakness in small of back when walking from uterine disease. Collar feels tight. Coldness between shoulders. Sudden pain in back, as if struck by a hammer worse stooping, kneeling. Back pain, better belchings, by pressing back against something hard. Everything affects the back. Icy coldness between the scapulae. Cramps in buttocks when stretching out legs.

Breasts

Nipples cracked across the crown. Induration of breasts, scirrhus, stitches, tender, burning pains. As if breasts were enlarged.

Chest

Pain in sides of chest, when inspiring or coughing. Oppression of chest morning and evening. Sensation of emptiness in chest. Brown spots on chest. Chest symptoms, better by pressure of hand.

Ears

Herpes, behind ears, on lobe of ears, on nape of neck. Pain as if from sub-cutaneous ulceration. Oversensitive to noise, especially music. Sudden deafness, as if caused by the plug in ears. Discharge, thick yellow pus offensive. Swelling of and eruptions on external ear.

Eyes

Ptosis. *Drooping* eyelids. Muscular asthenopia, black spots in the field of vision. Asthenic inflammations and in connection with uterine trouble. Sees, black spots, veil, points, sparks, flashes zigzags and streaks of light before eyes, then collapse. Vision was dimmed from sexual excess, masturbation or uterine diseases. Vanishing of sight during menses better lying. Cannot tolerate reflected light. Falling out feeling in eyes. Arrests cataract in women. Tarsi, red, itching cancer. Tarsal tumors. Epithelioma of eyelids. **Eyes** red with styes. Aggravation of eye troubles morning and evening. Venous congestion of the fundus.

Face

Acne, worse before menses. Yellow blotches, pale or sallow, yellow about mouth. Rosacea. Saddle-like yellow-brownish discoloration on nose and cheeks. Face changes color. Dark circles under eyes. Chloasma. Malar bones numb. Swollen cracked lower lip. Cancer of the lips, epithelioma. Old, wrinkled with spots. Jerking of facial muscles while talking. Warts on.

Female

Never well since puberty, childbirth after weaning or hormone pills. Pelvic organs relaxed. Weak uterus, dragging or bearing down sensation as if everything would escape through the vagina (Bell., Lil-t., Nat-c.), must cross limbs to prevent protrusion or press against vulva. Amenorrhea. Menses too late and scanty, irregular, early and profuse, sharp clutching pains. Violent stitches upward in the vagina from uterus to umbilicus. Gripping, burning or sticking in uterus. Prolapsed, bladder, uterus or vagina. Sub-involution. Tendency to miscarriage from the fifth to the seventh month. Severe itching in vulva causing abortion. Morning sickness. Motion of fetus is intolerable. Retained placenta after abortion. Sex painful from dryness of vagina, bleeding after. Dryness of vagina and vulva after menses. Aversion to sex, worse since childbirth. Nausea and irritability on thought of sex.

Infertility. Sudden flushes of heat with weakness and sweat during menopause. Exhaustion after sex. Metrorrhagia at the time of menopause. Mania from profuse menses. Leucorrhea, yellow, greenish with much itching. Leucorrhea, yellow, greenish, milky in large lumps in little girls instead of menses. Leucorrhea, foul, gonorrheal with stitches up in vagina from uterus to navel. Labia swollen, abscessed.

PAGE 1547

Food

Voracious appetite or no appetite. Sudden cravings and sudden satiety. Everything tastes too salty. (Carbo-v., Chin.) Desires chocolate, vinegar, acids and pickles. Worse after milk, especially when boiled. Loathes fat. Nausea at thought or smell of food. Milk, fat food, acids aggravates.

Head

Headache shooting, stinging pain within out or upwards, over left eye, heavy on vertex, alternating sides of occiput, worse lying on painful side indoors with nausea and vomiting. Headache in terrible shocks at menstrual time with scanty flow with desire for sex. Jerking of head backwards and forwards involuntary with open fontanelles in children, hysterical or from pain. Vertex cold and heavy. Hemicrania. Jaundice with headache. Screams with pain. Prodromal symptoms of a stroke. Headache worse shopping, mental labor, better meals. Hair falls out after chronic headache, at menopause. Root of hair sensitive to combing. Pimples on forehead along the margins of hair.

Heart

Circulation irregular, seems to stagnate. Wakes up with violent beating of heart. Beating in all arteries. Tremulous feeling with flushes. Violent intermittent palpitations. Nervous palpitations, better walking fast, worse lying on left side. Palpitations, visible, ascends to occiput. An occasional hard thump of the heart. General pulsations. Ebullitions at night. Congestion of blood vessels.

Kidneys

Chronic cystitis, slow urination with bearing-down sensation above pubis. Cutting pain in bladder before urination. Slow urination with bearing down sensation above pubis. Bedwetting during first part of sleep. Involuntary urination, worse coughing, sneezing, laughing, hearing sudden noise, fright or inattention especially in women. Urine stream feeble, slow. Urine, thick, foul, white gritty. Red, adhesive, sandy sediment in urine. Urine, bloody, milky.

Limbs

Tension in limbs as if they were too short. Lower limbs lame and stiff. Heaviness and a bruised feeling. Restlessness in all limbs, twitching and jerkings night and day. Hands purple. Cold hands in warm room. Hands sweaty. Skin of palms peels off. Hot hands with cold feet or vice versa. Coldness of legs and feet. Knees and heels cold. Sciatica, better during pregnancy, chronic, localizing in heels. Sensation of running, as from a mouse in lower limbs. A short walk fatigues much. Crippled nails. Pain in heel.

Liver

Pains in the liver, when riding in a carriage. Liver sore and painful, relieved by lying on right side. Aching, throbbing and shooting in hepatic region.

Lungs

Dry, fatiguing cough, as if coming from stomach, worse rapid change of temperature with foul sputum. Rotten-egg taste with coughing. Dyspnea, worse after sleep, better rapid motion. Cough in morning with profuse expectoration, tasting salty. (Phos., Ambr.) Pleuritis. Whooping cough that drags on. Cough excited by tickling in larynx or chest. Asthma. Neglected pneumonia.

Male

Offensive perspiration on scrotum. Genitals cold. Gleet, discharge from urethra only during night, no pain. Sexual desire increased. Complaints after sex. Impotency. Condylomata surrounding head of penis.

Mouth

Taste salty, putrid. Taste, cheesy, fishy, bitter, sour, putrid offensive. Hawks foul or cheesy grains in the morning. Everything tastes too salty.

Painful teeth during pregnancy, menses and during cold, worse lying. Tongue dirty, becomes clear during menses. Tongue white and feels burnt. Swelling and cracking of lower lip. Pain in teeth from 6 p.m. until midnight, worse on lying.

PAGE 1548

Nose

Great sensitiveness of odors, which are repulsive to the smell of cooking food. Pressing pain at root. Nosebleed, when the nose has been struck by anything even lightly during menses during pregnancy with hemorrhoids. Yellowish-brown saddle across nose. Chronic nasal catarrh, especially post-nasal, dropping of heavy, lumpy discharge, must be hawked through the mouth. Thick greenish discharge, thick foul, plugs and crusts. Ozaena. Ascending throat colds. Atrophic catarrh with greenish crusts from anterior nose and pain at root of nose.

Rectum

Bleeding at stool and fullness of rectum. Prolapsed rectum after smoking. Sense of weight or ball in anus not better by stool. Constipation obstinate, no urging for days. Constipation, large, hard stools, cannot strain with great tenesmus. Pains shoot up in rectum. Dark-brown, round balls glued together with mucus. Soft stool, difficult. Prolapsed anus. (Podo.) Rectum is constricted and powerless, almost constant oozing from anus. Pains shoot up in rectum and vagina. Hemorrhoids of pregnancy, prolapsing with sticking pain, bleed while walking. Stools passed after prolonged straining, followed by cupful of jelly like yellow-white, very offensive mucus. Infantile diarrhea, worse from boiled milk and rapid exhaustion.

Sensations

As if roots of hair were sore, as if cut short near roots. As if something twisting in stomach and rising to throat. As if viscera turning inside out. As if bladder full and contents would fall out over pubes. As if drops came out of bladder. As if bladder and urinary organs would be pressed out. As if everything would issue through vulva.

As if everything would fall out of uterus. Uterus as if clutched. As if vulva enlarged. As if something heavy would force itself from vagina. As if heart stood still. As if a ball in inner parts. As if hot water poured over body.

Skin

Blotched, raw, rough, hard or cracked, worse flexures. Chloasma, herpetic eruption on lips, about mouth and nose. Thick crusts on elbows. Ulcers, on small joints. Epithelioma, on eyelids, lips. Wine colored skin. Spots on skin. Ringworm in isolated spots. Ringworm-like eruption every spring. Itching, not relieved by scratching, worse in bends of elbows and knees. Itching vesicles. Urticaria, worse open air better warm room. Thick crusts form upon the joints. Indurations from constant pressure with purple color. Boils in axilla. Hyperidrosis and bromidrosis. Sweat on feet, worse on toes intolerable odor. Lentigo in young women. Ichthyosis with offensive odor of skin.

Sleep

Sleeplessness from excitement. Talks loudly during sleep. Dreams, worse if he lies on left side. Wakes frequently or as if he has been called. Frightful dreams and frequent starts (screaming) with fright. Dreams of rape, being pursued, chased with a knife.

Stomach

Acid dyspepsia with bloated abdomen, sour belchings. Dyspepsia from over-lifting from tobacco. Boiled milk disagrees. Faint sinking feeling at epigastrium, not better by eating

or a lump in. (Carb-an.) Belchings, milky, sour, bitter, rancid of tough, foamy mucus. Nausea, at thought or smell of food in morning, at the thought of sex. Nausea in morning before eating. Nausea worse lying on side. Tobacco dyspepsia. Disposition to vomit after eating. Burning in pit of stomach. Band of pain about four inches wide encircling hypochondria. Sense of something twisting about in stomach and rising into the throat.

PAGE 1549

Temperature

General lack of warmth of body. Easily chilled. Chilly with air hunger. Cold in spots, on vertex, between scapula. Feet cold and wet in bed. Shivering with thirst, worse toward evening. Sweat, easy offensive with orgasms, on genitals in axilla or back, between menses. Irregular fevers. Hot sweat. Heat ascending or as if hot water were poured over her. Frequent flushes of heat, sweat from least motion. Anxious hot flushes preceded by sudden weakness.

Throat

Sensation of a plug. Pain as if it is raw. Ascending throat colds. Pressure in the throat, feels neck cloth tight. Hawks foul mucus or balls in the morning.

Vertigo

Fits of vertigo worse walking in open air, least movement of arms or with a sensation as if something rolling round the head. Vertigo with sensation of something rolling round in head. As if every object were in motion. As if suspended in air. Vertigo as if intoxicated.

Comments

Sep. acts on the vital forces as well as on organic tissues. The sphincters are weakened and all non-striated muscles. Sep. disturbs the circulation, causing flushes and other irregularities throbbings all over, hand shot and feet cold or vice versa. The flushes run upward and end in sweat with faint, weak feeling. Nosebleed may occur either from a blow from being in a warm room or from suppressed menses.

Sep. is one of the remedies which have the "ball" sensation in inner parts. There is vertigo with sensation of something "rolling round" in the head. There is sensation of a ball in inner parts generally, but the most notable one is sensation of a ball in rectum. It may be described as an apple or a potato and it is not relieved by stool. Clarke has cured both constipation and diarrhea when that symptom was present. The upward stitches in rectum and vagina, when present, are equally good indications for Sep.

In cases of hemorrhoids, prolapsed rectum. Prolapse or induration of uterus and cervix.

Sep. causes engorgement of the uterus going on to induration. Yellowish green leucorrhoea somewhat offensive.

There is either prolapse or retroversion. The bearing-down pains of Sep. are of great intensity. They are felt in abdomen and back and sometimes even seem to interfere with breathing. The bearing down is worse standing or walking. The bearing down extends into thighs.

There is a constant sense of pressing into vagina, which compels the patient to cross the limbs to prevent prolapse. Connected with the uterine symptoms are: hysteria, weakness, palpitation orgasm of blood, faintness.

The sensation of emptiness, which is one of the characteristics of Sep. is sometimes connected with the pelvic bearing down. The empty sensation is felt in the epigastrium and throughout the abdomen. It is analogous to the great relaxing effect of Sep. on connective tissues.

This sinking is common in pregnancy and Sep. corresponds to many of the troublesome disorders of the pregnant state, as morning sickness, vomiting of food and bile in morning of milky fluid, strains so that blood comes up. "The thought of food sickens her with sense of great weight in anus."

Tendency to miscarriage is met by Sep., Hering is reported to have said: "All women prone to miscarriage should take Sep. or Zinc." But Sep. meets many cases of dyspepsia not originating in uterine disorders. It has cured dyspepsia from injury by overlifting. Portal stasis is part of the Sep. action. There is fullness, soreness and stitches in liver region, as well as stitches in left hypochondrium.

The whole urinary tract is irritated and catarrh of bladder and urethra may be set up. There is frequent strong urging to urinate. Stitches along the urethra. The relaxed sphincters of Sep. favor bedwetting and the type which it cures is well defined: "The bed is wet almost as soon as the child goes to sleep, always during the first sleep."

In cases of irritable bladder, although the desire is urgent, the discharge of urine may be difficult.

PAGE 1550

Gonorrhoea after the acute stage has subsided. Gleet and gonorrhoeal warts have been cured with it. Hering writes, "condylomata completely surrounding head of penis." Clarke has cured a crop of small velvety warts completely encircling the mouth of the prepuce. Thuja had failed in the case.

In reference to warts, Clarke cured with Sep. 3x trituration. a large horn-like wart on the abdomen of a woman. It was as large as a crown-piece but shaped like a bean and raised a quarter of an inch from the surface.

The skin is delicate, the least injury tends to ulceration. Itching which often changes to burning when scratched. Soreness of skin, humid places on bends of knees. Chloasma. Painful eruption on tip of nose. Herpetic eruption on lips and about mouth.

Ringworm-like eruptions every spring on different parts of body. Ringworm on face. Herpes circinatus. Roundness and yellowness of the spots. Ringworms. The nettle rash of Sep. appears on going into open air. It is better in warm room. The itching of Sep. may be desperate, especially when it affects the genitals and anus.

Sep. is often required in chronic nasal catarrh. Nash had a case in which the discharge was thick, bland and copious. Puls. relieved the catarrh but increased the menstrual flow too much. Sep. cured both. Sep. is also useful where colds inflame the tonsils and tend to cause suppuration.

"Faints easily" is a note of the Sep. weakness: after getting wet from extremes of heat and cold, riding in a carriage, kneeling at church. Sep. is indicated in whooping cough when it has lasted eight weeks or longer and the paroxysms, though reduced in number and virulence, do not disappear and occur especially before midnight. The patients are reduced in strength, dyspeptic, irritable, tearful, easily angered or apathetic.

Kunkel reports this case of pulmonary affection: A boy, 14, had been under treatment five weeks for cough and hoarseness.

Hoarseness worse evening during the day cough with purulent sputa. Slept well but dreamed when he lay on left side. Emaciated. Phos. 10x produced little change.

It was now ascertained that there was remarkable tightness of the chest on breathing with inclination to take a deep breath, this was better in open air, on motion, while at work,

worse while in the house and at rest. Though the weather was bad he had constant desire to be out of doors. Sep. 10x made a rapid cure.

Boenninghausen recommended Sep. in cases of cough, either with or without expectoration with bloody, blood-streaked, purulent, yellow greenish or stinking sputa and especially in tuberculosis. Nash mentions a case of cholera infantum which he cured with Sep. On the indication "always worse after taking milk." in moisture oozing from the anus he compares it with Ant-c., which has the first place.

Bahr says Sep., affords considerable help in a certain condition of the system which we have so far only noticed in females. After the exacerbation of a chronic gastric catarrh has lasted a few days with intolerable burning pains, the kidney region, more particularly the left side, becomes painful. A violent burning pain is felt in this region and a quantity of saturated, highly-colored urine is discharged. Which deposits copious quantities of urates or else a clear urine with copious sandy sediment, coated with uric acid.

After the discharge the pains generally abate and only return if the stomach has not been restored to its normal condition."

"Stiffness" is a prominent feature of Sep.: stiffness of limbs worse after sleep, stiffness of uterine region. A peculiar symptom of Sep. is: "Involuntary jerking of head backward and forward, especially at forenoon when sitting."

This may occur in hysteria. Open fontanelles in children is an indication for Sep.

PAGE 1551

Clarke has confirmed the experience of Dr. Swallow, who found the fresh preparation of Sep. to possess a wider range than the ordinary preparation and to act as an "organ remedy" in a great variety of uterine disorders not definitely indicated by the pathogenesis. Clarke used it in potencies from the 5c to 30c.

Nux-v. intensifies action. Guaiacum is often beneficial after Sep. Inimical: Lach., Puls. Followed well by: Nit. ac.

SOURCES

Boericke. Clarke. Phatak.

Serum anguillae

(eel serum)

Pharmacy

Ser-ang. Serum anguillae. Eel serum. Ichthyotoxinum. Potencies are made with glycerine or distilled water. Historical dose: All potencies, lower 1x to 3c in heart disease, the higher in sudden kidney attacks.

History

The serum of the Eel has a toxic action on the blood, rapidly destroying its globules. The presence of albumin and kidney elements in the urine.

The hemoglobinuria, the prolonged anuria (24 and 26 hours). Together with the results of the autopsy, plainly demonstrate its elective action on the kidneys. Secondly, the liver and the heart are affected and the alteration observed are those usually present in infectious diseases.

Boericke writes "When during the course of heart-disease, the kidney, previously working well, should suddenly become affected and its function inhibited and when besides we observe cardia irregularities and a marked state of asystolia, we may yet expect good results from this serum. But to determine here the choice of this remedy is not an easy matter." **Planets:** Venus, Sun, Mars.

Homeopathic

Ser-ang. affects the kidneys, which becomes acutely affected, either from cold or infection or intoxication. The attack is characterized by oliguria, anuria and albuminuria.

The Eel's serum eminently efficacious to re-establish diuresis and in rapidly arresting albuminuria. Kidney failure.

While Digitalis presents in its indications, the well-known symptomatic trilogy of arterial hypertension, oliguria and edema. Ser-ang. seems better adapted to cases of hypertension and oliguria without edema. Digitalis is a heart remedy first, the Eel's serum is a kidney remedy primarily.

Ser-ang. has given very small results in attacks of asystole, but it has been very efficacious in cardiac uremia. There, where Digitalis is powerless, the serum of the Eel has put an end to the kidney obstruction and produced an abundant diuresis.:

But its really specific indication seems to be for acute nephritis, (Jousset). Sub-acute

nephritis. **Heart** diseases in cases of failure of compensation and impending asystole. Experiments of Jousset have demonstrated the rapid hematuria, albuminuria and oliguria caused by it.

In the presence of acute nephritis with threatening uremia we should always think of this serum. Very efficacious in functional heart diseases.

PAGE 1552

Mitral insufficiency, asystole with or without edema, dyspnea and difficult urinary secretion.

Clinical

Heart, disorders. Hypertension. Kidney disease. Kidney failure. Uremia.

Silicea terra

(pure flint)

Pharmacy

Sil. Silica terra. Flint. Silex. Silicic anhydride. Silicon dioxide. Trituration of pure, precipitated silica. Historical dose: All potencies, Sixth to thirtieth potency.

History

Outside homeopathy Flint as an internal remedy is practically unknown. Hahnemann introduced it into medicine and it was his method of attenuating insoluble substances that enabled him to discover its powers. Silica forms one of the most important remedies for chronic diseases.

A large proportion of the earth's crust is composed of Silica. Sea sand (Silica marina) is mainly composed of it. The spicules of many sponges are made up of Silica. Silicates are taken up by plants and from them Silica is often deposited on the surface or in the interior of their stems. The strength of straw is due to Silica. Equisetum generally contains as much as 18 per cent. of Silica to the fresh plant.

Flint supplies the "grit" of the earth's crust of plant life and to a large extent of animal life also. "Want of grit, moral or physical," is a leading indication for Sil. in homeopathic practice. The action of Sil. on the connective tissues may end in new growth as well as in suppuration and ulceration.

Homeopathic

Silica helps with defective nutrition especially in children, due to imperfect assimilation. Silica also helps neurasthenic states with increased susceptibility to nervous stimuli and exaggerated reflexes. Scrofulous rickety children with large head, open fontanelles, distended hot and hard abdomen, slow in walking and wasted in body especially legs.

Diseases of bones and cartilages, decay and necrosis, softening of bones. Exostosis. Silica can stimulate the organism to re-absorb fibrotic conditions and scar-tissue. In tuberculosis must be used with care, for here it may cause the absorption of scar-tissue, liberate the disease, walled in to new activities. (J. Weir.)

Organic changes, it is deep and slow in action. Periodical states, abscesses, quinsy, headaches, spasms, epilepsy, feeling of coldness before an attack. Keloid growth. Scrofulous, rickety children with large head, open fontanelles and sutures, distended abdomen, slow in walking.

Silica patient is cold, chilly, hugs the fire, wants plenty warm clothing, hates drafts, hands and feet cold, worse in winter. Lack of vital heat. Prostration of mind and body. Want of grit, moral or physical. Great sensitiveness to taking cold.

Ill effects of vaccination. Suppurative processes. It is related to all pustulous burrowings. Ripens abscesses since it promotes suppuration. Ailments attended with pus formation. Epilepsy.

PAGE 1553

Glands are enlarged. Slow incomplete inflammation of glands, cellular tissue and skin, then induration. Children crawl nervously or are dragged in on their mother's arms, on running they become pale. Suppurative processes, stubborn, fistulous openings, abscesses.

Sensitive to noise, pain to cold, hugs the fire, wants plenty of warm clothing, hates drafts. Intolerance of alcoholic stimulants. Cachetic and senile patients, persons of fair, clear complexion.

Pains are violent and sticking, localized in ears, throat, ulcers etc.

Tendency to easy exhaustion and abnormal sweats. Want of vital heat even when taking exercise. Spasms, epilepsy, feeling of coldness before the attack. Hysteria, paralysis and obstinate neuralgias caused by dissipation, hard work with close confinement.

Malnutrition. Arrested development. Emaciation. Want of grit, moral and physical.

Proud flesh. Scars indurated, hard, nodular, shiny, glassy, tender with shooting pain.

Keloids. Dropsy in morning. Cancer. Contracted sphincters. Ascending effects.

Prostration of mind and body. Cerebral softening. Restless, fidgety, starts at least noise.

Parts lain on to go to sleep.

Skin is unhealthy, even injury festers. Discharges offensive, pus, sweat, stools etc.

Removes foreign bodies. Progressive locomotor ataxia. Sensation as if she were divided into halves and left side does not belong to her. Sensation of a hair on tongue in trachea.

Nervous disorders after spinal injury, especially when pressure on spine causes pain in remote parts. Convulsions, begins in the Solar plexus after vaccination. Epilepsy, aura in the Solar plexus creeping into the chest and stomach.

Clinical

Abscess. Acne. Anemia. Ankles, weak. Anus, fissures, fistula. Appetite, depraved. Back, weakness. Bedwetting. Boils. Bones, necrosis. Brain, concussion. Brain-fag. Breast, abscess. Breast-feeding, disorders. Bunion. Cancer. Carbuncle. Cataract. Cellulitis. Chin, eruptions. Circulation, poor. Coccyx, pains. Conjunctivitis. Constipation. Coryza. Cough. Debility. Diabetes. Ear disorders. Elephantiasis. Enchondroma. Epilepsy. Eruptions. Excrescences. Eyes disorders. Feet, burning, perspiring., Fester. Fibroma. Fistula. Foot-sweat, suppressed. Foreign bodies. Fractures. Ganglion. Gastric catarrh. Glandular swellings. Headache, Hernia, Hip-joint disease. Homesickness. Housemaid's knee. Hydrocele. Hypopion.

Jaw, decay. Keloids. Lachrymal fistula. Locomotor ataxia. Mania. Meningitis. Metritis.

Metrorrhagia. Miscarriage. Molluscum contagiosum. Morphinism. Morvan's disease.

Nails, diseased. Necrosis. Neuralgias. Nodes. Panaritium. Perspiration offensive.

Phimosis. Pleurisy. Psoas abscess. Rheumatism, chronic. Rickets. Sinuses. Sleepwalking.

Spermatorrhea. Spinal irritation. Strains. Strangury. Suppuration. Synovitis. Teeth, decay.

Tenesmus. Tumors. Ulcers. Urethra, stricture. Urine incontinence. Vaccination. Vagina,

spasms. Vertigo. Walking, late. Whitlow. Worms. Writer's cramp.

Causations

Ill effects of checked sweat especially of feet. Stone-cutting. Loss of fluids. Injury. Vaccinations. Strains. Splinters. Foreign objects in tissue. Overwork, mental or physical. Constitutions

(1) Demineralized constitution. Sil. corresponds perfectly to many cases of rickets: children with large heads, open fontanelles and sutures, much sweating about the head, which must be kept warm. Distended abdomen, weak ankles, slow in learning to walk. (2) Nervous, irritable persons with dry skin, profuse saliva, diarrhea, night-sweats. (3) Weakly persons, fine skin, pale face, light complexion, lax muscles. (4) Constitutions which suffer from deficient nutrition due to lack of assimilating power, oversensitive physically and mentally. (5) Scrofulous children who have worm diseases during dentition. (6) Stonecutters' ailments, chest disorders and total loss of strength. **Planets:**

Saturn.

Modalities

Better in warm room, by warm wraps. Better warmth, wrapping up head, summer in wet or humid weather. Better from profuse urination, magnetism and electricity. Worse from change of weather, cold, air, drafts, damp. Worse uncovering, bathing. Worse mental exertion, talking. Worse from nervous excitement, light, noise, jarring of spine.

Worse from alcohol touch, pressure, combing hair. Worse from washing during menses, lying down, damp, lying on left side, cold. Worse from moon changes, night in morning. Worse at new moon increasing moon (hysteria) and full moon.

PAGE 1554

Symptoms

MIND

Complaints from anticipation. Loss of self confidence, dreads failure, but unfounded. Starts from slight noise. Yielding, Faint-hearted, anxious. Nervous and excitable. Sensitive to all impressions. Weeping mood. Brain-fag. Abstracted. Obstinate stubborn, head-strong, children.

Cries when kindly spoken to. Fixed ideas thinks only of pins, fears them searches them and counts them. Mental acuteness with physical weakness and torpidity. Sullen. Conscience about trifles. Screaming violently groaning, epilepsy. Hopeless. Sad. Disgust for life, wishes to drown herself. Cannot express himself correctly Fidgety.

Abdomen

Distended hard and hot with thin legs, especially in children. Hard, bloated. Pain or painful cold feeling in abdomen, better external heat. Colic, cutting pain with constipation, yellow hands and blue nails. Much rumbling in bowels. Inguinal glands swollen and painful. Cracks on abdominal wall. Hernia tender. Ascites with great effusion with frequent attacks of diarrhea.

Back

Spinal irritation after injuries to spine. Spine, weak, very sensitive to drafts on back. Spina bifida. Decay of vertebrae. Psoas abscess. Painful coccyx. Backache as from riding in carriages for a long time. Burning in back, when body is being heated after walking in open air. Stiff neck with headache. Painful kyphosis. Lameness in region of sacrum. Diseases of bones of spine. Potts' disease.

Breasts

Hard lumps in breast. (Con.) Cancer, scirrhous with itching. Nipples very sore, ulcerated easily. Nipple, retracted like a funnel, sore. Fistula in breasts. Fistulous ulcers of breast. (Phos.) Threatened abscess of breasts. Sharp pains in breasts and uterus.

Chest

Stitches in chest, through the back. Painless throbbing in sternum.

Ears

Perforated drum. Itching. Decay of mastoid process. Deafness, hears again with a loud report or on blowing the nose and coughing, worse full moon.

Ears

Fetid discharge. Sensitive to noise. Roaring in ears. Hissing in. Loud pistol-like report. Feeling of stoppage in the ear better when yawning or swallowing. Crusty formations in ears. Child bores into its ears when asleep.

Eyes

Keratitis, pustular, perforating. Inflammation of eyes. Angles of eyes affected. Affections of canthi, tear-ducts. Swelling of lachrymal duct. Stricture of lachrymal duct. Spotted vision. Objects appear pale. Aversion to light, especially daylight, it produces dazzling. Sharp pain through eyes. **Eyes** tender to touch, worse when closed. Hypopion. Opacities of the cornea after small pox. Cataract in office workers after suppressed foot sweat. Styes. Iritis and irido-choroiditis with pus in anterior chamber. Encysted tumors of lids. Perforating or sloughing ulcer of cornea. Abscess in cornea after traumatic injury. Vision confused, letters run together on reading. Objects as if in a fog.

Face

Pale, cachetic, waxy. Enlarged parotids. Cracks in lips, on skin of face. Eruptions on chin. Swelling of maxillary glands. Indurated fissures at the corners of lips. Cancer of lower lip. Facial neuralgia, throbbing, tearing, face red, worse cold damp.

Female

Menses is early, scanty. Watery discharge instead of menses. Amenorrhea for months. Discharge of blood between menstrual periods. Increased menses with paroxysms of icy coldness over whole body. Discharge of blood from vagina every time child is nursed. Cutting upward in vagina worse urinating. Vaginal cysts. (Lyc., Puls., Rhod.) Abscess of labia. Leucorrhea milky, acrid gushing, worse during urination. Itching of vulva and vagina, which is very sensitive. Cutting pain around the navel with leucorrhea.

Too violent motion of fetus. Salpingitis with accumulation of pus or serum which escapes from uterus from time to time. Miscarriage from weakness or they do not conceive because of weakness. Nausea during sex. Sterility. Nymphomania. Itching of pudenda.

PAGE 1555

Food

Want of appetite, thirst excessive. Voracious appetite, but disappears on attempting to eat or loathing of food. Aversion to cooked or warm food and meat. Aversion to mother's milk and vomiting whenever taking it. Likes ice cream, ice water. Intolerance of alcoholic stimulants. Pain in head better while eating. Milk aggravates, causes diarrhea. Drinking cold water causes dry cough. Warm drinks improves cough. Worse after eating.

Head

Migraine. Chronic, periodical headaches since some severe disease. Sick headaches as if coming from spine and locating over one eye. Headache, then blindness. Headache while

fasting or when not eating at proper time. Headache worse by exertion, study noise, motion, jar, light, cold air, talking and straining at stools and better by wrapping warmly and pressure. Pain begins at occiput and spreads over head and settles over eyes. Vertex throbs. Profuse urination, relieves the headache. Profuse sweat of head offensive and extends to neck. Fontanelles open with distended abdomen. Swelling of glabella. Lumps on scalp. Cephalohematoma. Moist crusty eruptions on the scalp. Swelling filled with grumous fluid between scalp and bone. Falling of hair, premature, baldness.

Heart

Throbbing all over the body, when sitting or while in motion. Palpitations while sitting

with trembling of hand. **Heart** trouble from nervous exhaustion.

Kidneys

Profuse urination better headache. Frequent urination with tenesmus. Nocturnal bedwetting in children from worms. Bloody involuntary with red or yellow sediment. Chronic urethritis, foul discharge from urethra, thick, curdy, purulent, bloody. Pus in urine. nightly incontinence after a blow upon the head. Kidney and bladder stones.

Limbs

Felons, deep seated pain. Axillary glands swollen, enlarged. Tremulous hands when using them. Paralytic weakness of forearm. Affections of finger nails, especially if white spots on nails. Nails, rough, yellow, crippled, brittle, white spots, blue in fever. Ingrowing toe-nails. Finger tips, as if suppurating. Finger tips, painful, dry, at night. Trembling of hands when attempting to do something. Panaritium. Offensive sweat, hand and axilla, The parts lain on go to sleep. Legs feel paralyzed, trembling while walking. Sciatica, pains through the hips, legs and feet. Cramp in calves and soles. Loss of power in legs. Pain in knee, as if tightly bound. Calves tense and contacted. Weak ankles and feet. Icy cold and sweaty feet. Offensive sweat on feet, itching, acrid, destroying shoes, suppressed. Pain beneath toes. Soles sore. (Ruta) Soreness in feet from instep through to the sole. Voluptuous tingling in soles. Distorted ingrown, yellow nails. Bunions. Soft corns in between toes. Ulcers around the joints. Slovenly gait. Limbs distorted during convulsion. Arms (left) shake before epilepsy.

Liver

Throbbing ulcerative pain in the region of liver. Abscess of liver.

Lungs

Chronic colds which settle in chest and bring on asthmatic attacks after being over heated or exertion. Sycotic asthma. Colds fail to yield, sputum persistently muco-purulent and profuse. Rattling in chest. Shortness of breath from manual labor, walking fast. Profuse foul, yellow, lumpy sputum, granular offensive when broken. Cough with expectoration in day, bloody or purulent. Violent cough when lying down with a thick, yellow lumpy expectoration, suppurative stage of expectoration.

Cough gagging, shaking, retching worse cold drinks, talking, lying and after waking. Neglected pneumonia. Stone-cutter's disorders. Emphysema. Dyspnea from draft on neck.

PAGE 1556

Male

Burning and soreness of genitals with eruption on inner surface of thighs. Chronic gonorrhoea with thick, foul, urethral discharge. Chronic urethritis with twisting pain. Sexual weakness, nocturnal emissions. Nocturnal emissions. Sexual appetite increases or decreases. Extreme exhaustion after sex, takes 8 to 10 days to recover. After sex sensation on right side of head as if paralyzed. Prostatorrhoea worse straining at stools. Itching moist spots on scrotum. Elephantiasis of scrotum. Painful eruptions. Hydrocele.

Mouth

Water tastes badly, vomits after drinking. Sensation of a hair on tongue. Gums sensitive to cold air. Boils on gums. Abscess at the root of the teeth. Pyorrhoea. (Merc-c.) Sensitive to cold water. Teeth, break down, lose their enamel, become rough, carious. Tongue, brown. Teeth feel too large and too long for the mouth. One sided swelling of tongue .

Nose

Frothy nasal discharge. Coryza with nosebleed. Perforation of septum. Dry, hard crusts form, bleeding when loosened. Sneezing in morning. Itching at tip of nose. Bone sore. Nose, dry obstructed with loss of smell. Nosebleed in infants. Cracks in nostrils. Obstinate colds with ear disorders. Nose cold. Nasal bones sensitive. Perforation of septum. Obstructed and loss of smell.

Rectum

Constipation always before and during menses. Feels as if paralyzed. Straining with soft stools with exhaustion. Great straining, rectum stings, closes upon stool. Stools comes out with difficulty when partly expelled, recedes again. Stools retained for fear of pain. Feces remain a long time in rectum. Painful spasms of sphincter. Cutting, cramping pain in rectum extending to testes worse sex. Fistula in anus, (Berb., Lach.) with chest symptoms.

Intensely painful hemorrhoids protrude during stool. Diarrhoea of cadaverous odor. Chronic diarrhoea. Stools offensive, painless, lienteric. Tapeworm. Diarrhoea after milk. Moist anus, foul flatus.

Sensations

As if she would die. As if gradually losing senses. As if feeling for pins. Sensation as if she were divided into halves and that the left side does not belong to her. As if head would burst with throbbing in it internal and external at same time. As if forehead would be torn asunder, as from a heavy weight over eyes. As if head were forced asunder. As of a splinter in finger. As if a paronychia would form in index finger. As if tips of fingers were suppurating. As if finger were thick and bone enlarged. As if joints of fingers were being pulled out of sockets. Nails as if decayed. As if beaten all over. As if he had lain in an uncomfortable position.

Skin

Delicate, pale, waxy skin. Every injury suppurates. Felons, abscesses, boils, old scars, ulcers. Carbuncles. Boils and pustules everywhere. Painless swelling of glands. Cracks at ends of fingers. Scars suddenly become painful. Keloids. Pus offensive. Promotes expulsion of foreign bodies from tissues. Every little injury suppurates. Long lasting suppuration and fistulous tracts. Dry finger tips. Eruptions itch only in daytime and evening. Ulcers, painfully sensitive, foul, spongy, on feet toes, nails better heat. Sensation of coldness in ulcers. Crippled nails. Indurated tumors. Abscesses after vaccination. Bursitis. Elephantiasis. Leprous nodes. Coppery spots. Warty growths. Rose-colored blotches. Acuminate eruptions.

Sleep

Restless sleep. Sleepy but cannot sleep. Sleep unrefreshed. Sleepwalking. Talks in sleep loudly, whines or laughs. Night-walking, gets up while asleep. Sleeplessness with great orgasm of blood and heat in head. Frequent starts in sleep. Anxious dreams. Frightful dreams wake him on falling to sleep.

Awakes frightened from sleep with trembling of the whole body. Dreams, lascivious of past events.

PAGE 1557

Stomach

Pit of stomach painful to pressure. Vomiting after drinking. (Ars., Verat.) On swallowing food, it easily gets into posterior sinuses. Water tastes bad, vomits after drinking.

Induration of pylorus. Waterbrash with chilliness. Sour belchings after eating. (Sep., Calc.) Sour vomiting. Gnawing, twisting pain in epigastrium worse by pressure. As if a cold stone were in stomach.

Temperature

Chilly, worse lying in bed, exertion. Chilliness, very sensitive to cold air. Icy chills. Creeping, shivering over the whole body. Suffering parts feel cold. Cold limbs, even in a warm room. Sweat at night, worse towards morning. Sweat, profuse, on upper part of the body, head or affected parts, at night, foul, easy, acrid, as soon as he falls asleep. Hectic fever.

Throat

Colds settle in throat. Bitter taste in. Periodical quinsy. Tonsils swollen, suppurating.

Pricking as of a pin in tonsil. Food is ejected through nose, when swallowing.

Swallowing is painful, difficult, hysterical. Stinging pain on swallowing. Hawks foul lumps. Parotid glands swollen. (Bell., Rhus-t., Calc.)

Vertigo

Vertigo as if drunk. Vertigo from looking up, better wrapping up warmly, when lying on left side. (Mag-m., Stront.) Vertigo, ascends from dorsal region worse looking upwards, closing eyes, lying on left side.

Comments

Schussler, who was a homeopath before he was a Biochemist, describes the sphere of Sil. from the Tissue Remedy point of view as follows: Silicic Acid is a constituent of the cells of the connective tissue or the epidermis, the hair and the nails.

If a suppurative center is formed either in the connective tissue or in a portion of the skin, Sil. may be used. These cells are thereby enabled to throw off inimical substances (the pus).

In consequences, the pus is either absorbed by the lymphatics or it is cast out.

In the latter case there is a breaking open of the suppurative center. Sil. may also cause the absorption through the lymphatics of an effusion of blood in any tissue.

Sil. will also cure chronic arthritic, rheumatic affections, as it forms a soluble combination (Sodium silicate) with the soda of the urate of soda, this combination is then absorbed and removed through the lymphatics. For the same reason it may also be used in kidney gravel.

Sil. can also restore the perspiration of the feet when this has been suppressed and is thus an indirect remedy in diseases arising in consequence of such suppression (e.g. , amblyopia, cataract, paralysis, etc.). The meatus in such a case is dry and enlarged.

Sil. is a great expeller of foreign objects. Sil. produced in the provings sensation of "splinter in the finger," of "a pin in the throat." Whenever foreign bodies have become embedded in the tissues. Whenever portions of the tissues have become necrosed, Sil. will set up suppuration in the vicinity and bring about their expulsion.

It is this property which makes it necessary sometimes to use Sil. with caution, if there are deposits which have become encysted and so far rendered harmless, the administration of Sil. might set up suppurative action to the risk of the patient's life. Sil. both matures abscesses and reduced excessive suppuration.

It will also resolve indurations left after suppuration, this has been particularly noted in the case of tonsils which refuse to heal after the pus has been evacuated and in abscesses which leave sinuses and fistula.

Sil. affects the nails, cripples them and produces inflammation around and under them. "Sensation as if the finger-tips were suppurating" is one of the symptoms which led to its use in such cases. Sil. causes inflammation, swelling and suppuration of all the lymphatic glands and also the glands of the skin.

PAGE 1558

The skin is unhealthy and every little injury ulcerates. Hands and feet are sweaty and the sweat is generally offensive. The feet may give off an intolerable odor without any sweat. The head sweats and this may be offensive.

Teste puts Sil. in his Pulsatilla group of remedies, the other members of it being Calc., Hep., Graph., Phos. According to Teste, Sil. is the "chronic" of Puls., it corresponds to the chronic form of such diseases as Puls. cures when acute: Rush of blood to the head, especially to the right temple and vertex, headache every day, photophobia, lachrymation, loss of taste, aversion to fat food with rancid or oily taste in mouth, etc.

The symptoms of Sil. differ from those of Puls. in being more constant, more deep-seated and lasting longer, for instance, the mucous secretions of Puls. become easily purulent under the action of Sil.

Sil. has a specific relation to scarred tissue and Clarke has cured a case of recurrent keloids: Eleanor W., 14, had a growth on left temple. Five months previous she was an inmate in St. Bartholomew's Hospital and had a tumor removed from the spot, the tumor having existed for two years.

A month after the operation a new growth appeared on the scar. Two months later this was removed. But it rapidly recurred and when I saw her there was a linear elevation an inch long, three lines wide and raised about two lines. It was red, shiny and slightly modulated, was tender to touch and the seat of shooting pain. Before the first operation there had been no pain and no discoloration of the skin.

Hahnemann gives this symptom in the proving of Sil. "Stitching, aching pain in the spot where an ulcer had been formerly on the leg." Sil. 3c, night and morning, was prescribed. There was no further increase in the size of the growth, though it was still painful, the pain being apparently somewhat increased.

In three months there was evident diminution in size and from that time the pain began to diminish. In seven months the growth had entirely disappeared.

The sensitiveness of Sil. is one of its keynotes. Over-susceptibility to nervous stimuli is a frequent accompaniment of conditions requiring Sil. The surface is tender and the least touch is painful. The senses are hypersensitive. Brain and spine cannot bear even ordinary

vibrations. This condition may be caused by losses of fluids as in spermatorrhea, by over-worked brain.

Sil. causes tendency to paralysis and paralytic weakness from defective nutrition of nerves of brain and spinal cord. Constipation is often an accompaniment of these conditions.

There may be epileptic convulsions. These have a well-marked course, starting from the solar plexus, are worse at full and new moon and worse from any overstrain of mind or emotions.

Sil. is indicated in locomotor ataxia when the fingers feel stiff with loss of power in them. There is spinal irritation. The neck is stiff causing headache. The small of the back aches as if beaten. The part of the body lain on goes to sleep.

The headaches of Sil. present one of the grand characteristics of the remedy. They are of the chronic kind and may owe their origin to some severe disease of youth. They ascend from the nape of the neck to the vertex, as if coming from the spine and locate in one eye, especially the right, worse from draft of air or uncovering head, better pressure and wrapping head up warmly, better profuse urination.

The vertigo of Sil. in the same way ascends from the back of the neck, as if one would fall forward (sometimes backward), worse looking up, closing eyes, lying on left side.

The sensitiveness of Sil. comes out in the mental symptoms: "Sensitive to noise and anxiety therefrom. Sensitive, weeping mood. Yielding, faint-hearted.

PAGE 1559

Children become obstinate, headstrong, cry when kindly spoken to." A curious symptom and one of great value is this:

"Fixed ideas: the patient thinks only of pins, fears them, searches for them and counts them carefully." This symptom enabled me to make a rapid cure of post-influenza insanity in the case of a man of bad family history, one of whose sisters had become insane and had drowned herself, another sister being affected with lupus.

The patient's wife told Clarke one morning that he had "been looking everywhere for pins." Sil. 30c rapidly put an end to the search and restored the patient to his senses.

Sil. has another link with insanity in its aggravation at the moon's phases: epilepsy and sleep-walking are worse at the new and full moon.

The Sil. patient likes to be magnetized and is better by it. This is related to the persistent want of vital heat which characterizes the Sil. condition, even exercise will not get up any warmth.

Another curious symptom of Sil. is: "Discharge of blood from the vagina every time the child takes the breast." Another symptom in this relation is important in connection with cancer cases: "nipple is drawn in like a funnel."

Always before and during menses there is constipation. The constipation of Sil. is characteristic. The stool is difficult as from inactivity of rectum with great straining as if rectum was paralyzed, when partly expelled recedes again. Feces remain a long time in rectum.

Rushmore verified a peculiar symptom of Sil. in a lady suffering from scirrhus of left breast. She had a feeling of dryness in her finger-tips, as if made of paper, at night. Ant-t. and Sil. have this symptom, but only Sil. in afternoon. Sil. removed this and took away sharp, stinging pains in the tumor as well.

SOURCES

Boericke. Clarke. Phatak.

Silica marina

(beach-sand)

Pharmacy

Sil-mar. Silica marina. Silica maritima. Sea sand. Trituration. Historical dose: All potencies, 3x trituration.

History

W. B. Clarke of Indianapolis tells of the use of Sil. mar. as a remedy for constipation. He has used it in patients of all ages with excellent results, giving it crude.

W. B. Clarke's preparation was taken from the beach, just as it was left by the tide, on a part of the coast many miles distant from a river estuary or a drained town. He prefers the rather coarse sand taken from a river sand-bar.

PAGE 1560

This is thoroughly washed and baked in an oven. He thinks a finer variety may be better for younger patients. The sand is taken plain or enclosed in capsules or made into pills. In either case it is washed down with water and water is to be drunk freely during the treatment. **Planets:** Mercury, Saturn.

Homeopathic

Silica marina has Sil. and Nat-m. symptoms. Inflamed glands and suppuration. Constipation.

W. B. Clarke mentions this case as the hardest he had encountered: A man, 60, had suffered for thirty years with severe constipation often sitting at stool for an hour and nearly fainting. He took a teaspoonful after dinner daily for a week without particular effect. Then he took it three times a day for a week. After this he was able to return to the one dose a day and soon required it but once a week.

"The peculiarity of this treatment is the ease with which evacuation is accomplished after the first impression is made, the discharges being soft, mushy and yellow and the regular habit then seems established, for the treatment can then be discontinued." If there is any return of the trouble, a dose or two more will be sufficient to put it right.

This experience is of great value and interest as Sil. in the potencies (as well as Nat-m.) is a great constipation remedy.

W. B. Clarke has never observed any ill effects of the treatment. In the case of a child, age 4 to whom Cooper gave Sil. mar. 6x "a thick mass of tartar which had accumulated behind the front teeth came away in flakes.

Clinical

Abscess. Constipation. Glands, enlargement, suppuration. Gonorrhoea. Tartar.

Comments

Sil-mar. had a pronounced action on inflamed glands and Clarke had a specimen triturated and run up to the 30c potency. He had not long to wait for an opportunity of testing it.

A tall, fair young man of 24, a violinist, presented himself with a mass of scrofulous glands on the right side of the neck softening at one point. Clarke gave him Sil-mar. 3c, three or four times a day and warned him not to poultice. The mass of glands soon began to diminish. The abscess matured and discharged itself through a minute opening and eventually healed without leaving a perceptible scar. The rest of the glands in the meantime disappeared.

Sil-mar. 3c, three times a day, rapidly cured a case of gonorrhoea in a patient who had many previous attacks, as well as stricture which had been treated with cauterizations and strong silver nitrate. It was this history which partly led Clarke to give the remedy on account of the Nat-m. element contained in it.

The discharge was creamy and there was tenderness in the middle of the urethra. For three days after commencing the Sil. mar. there was a sharp aggravation, the discharge became very profuse, was worse at night and accompanied by painful erections.

Burnett told an interesting experience of his. He was consulted about a boy who persisted in spite of punishment in eating sand when playing on the beach. Burnett advised the parents to let the boy eat as much as he liked. He kept it up for a fortnight, at the end of which time he was vastly improved in health and he neither wanted nor ate any more sand from that day.

SOURCES

Boericke. Clarke.

Silphium lacinatedum

(rosin-weed)

Pharmacy

Silphu. Silphium laciniatum. Rosin-weed. Rosin-wood. Compass plant. Pilot weed. Polar plant. Turpentine-weed. N. O. Compositae. Tincture of fresh plant. Historical dose: Tincture and all potencies, lower triturations.

PAGE 1561

Herbal

The leaves of this plant, when they first come up, present their faces uniformly north and south, later on, when the leaves become heavy, the winds carry them in different directions and the polarity is not to be observed. The stem of the plant exudes an abundance of resin, as some of its names indicate.

Cooper has used Silph. in single doses of tincture with notable effect in cases of cancer of the throat and mouth. The great "sensation of emptiness" of the proving shows a relation to the cancer cachexia. **Planets:** Mercury.

Homeopathic

Hale mentions that Silphu. has been used in all forms of asthma and in chronic bronchitis with large quantities of stringy, frothy, light-colored mucus and in catarrh of the bladder. Silphium is used in various forms of asthma and chronic bronchitis. Catarrh of bladder. Catarrhal influenza. Dysentery, attack preceded by constipated stools covered with white mucus.

Clinical

Asthma. Bladder, catarrh. Bronchitis. Cancer.

Symptoms

Chest

Constriction and tightness of lungs with constant disposition to raise, hacking, spasmodic cough.

Kidneys

Frequent urination with sense of heat or burning at meatus during urination. Urine, high-colored, scanty.

Lungs

Cough with expectoration profuse, stringy, frothy, light-colored. Excited by sense of mucus rattling in chest and worse by drafts of air. Constriction of lungs. Catarrh with copious, stringy, mucous discharges. Desire to hawk and scrape throat. Irritation of posterior sinuses involving mucous membranes of nasal passages with constriction of supra-orbital region.

Mouth

Tongue, whitish slimy coat with dry sensation as if burned with hot soup.

Nose

Irritation extends from throat up posterior sinuses to nose causing sneezing, followed by discharge of limpid, acrid mucus. Constriction and pressure in supra-orbital region.

Rectum

Stool natural, but covered with slimy mucus.

Stomach

Nausea, sick, faint feeling and a sense of emptiness in epigastrium.

Throat

Scraping, tickling and irritation of fauces and throat. Desire to hawk and scrape throat and throw off a thin viscid mucus. Engorgement and thickening of mucous membrane of throat extending down.

Comments

Hale gives this case: Mr. H., 55, had tuberculosis twenty years. On the slightest exposure or cold he would have congestion of mucous surfaces, followed with copious expectoration of stringy, frothy, light-colored mucus (from one to three pints in twenty-four hours), causing rapid exhaustion and at times keeping him in bed for weeks. Silphu. 2x trituration. Was used, grains 2 every two hours.

During the next night less than a tea cupful of mucus was raised and its sudden decrease alarmed the patient so much that he left off the remedy until his doctor assured him that he was very much Better and that the remedy had been more successful than he himself had expected.

Compare

(1) Aral., Cop., Just., Tereb., Cubeb., Samb.

(2) Silphion cyrenaicum - tuberculosis pulmonum with incessant cough, profuse night-sweats, emaciation.

(3) Polygonum aviculare has been found useful in tuberculosis, when given in material doses of the mother tincture, salvia tickling cough.

(4) Arum-d.- loose cough at night on lying down.

(5) Just. - bronchial catarrh, hoarseness, oversensitive.

SOURCES

Boericke. Clarke.

Simaruba amara

(mountain damson)

Pharmacy

Sima. Simaruba amara. Simaruba officinalis aut glauca. Mountain Damson. N. O. Simarubaceae. Simaruba is a native of the West Indies and tropical America. Tincture of the dried root-bark. Historical dose: Tincture and all potencies.

PAGE 1562

Herbal

"Simaruba bark" is used as a bitter tonic and as a local remedy for dysentery and diarrhea. The part used is the "bark," which is really the rind of the root of which, domestically, a decoction is made. "In large doses," says Treasury of Botany, "it is said to act as an emetic, purgative and diaphoretic."

Simaruba versicolor, a Brazilian species, has similar properties. The fruits and bark are used as anthelmintics, an infusion of the latter is employed in cases of snake-bite. The plant is so bitter that insects will not attack it, on which account the powdered root has been used to kill vermin.

Simaruba glauca, a native of Cuba, furnishes a glutinous juice which is employed in certain cases of skin-disease. And it is well to remember that Cedron, which is "Simaba Cedron," belongs to the same order. **Planets:**

Homeopathic

H. H. Beamish says that for dysentery the Simaruba bark is boiled and, by way of strengthening the astringent effect, Alum is added to the decoction. But Simaruba is the specific agent.

Clinical

Diarrhea. Dysentery. Snake-bite. Worms.

Comments

Clarke's first practical acquaintance with Sima. as a homeopathic remedy was in the case of a traveling patient who suffered from a chronic tendency to looseness of the bowels. He had stools like yellow ochre, for which Gamboge had been very helpful.

When in the South of France he consulted a homeopath and he prescribed Sima. with excellent effect. Since then Clarke have used it in similar cases.

Sinapis alba

(white mustard)

Pharmacy

Sin-a. Sinapis alba. White mustard. Brassica alba. Senescent. N. O. Cruciferae. Trituration and tincture of the seeds. Historical dose: Tincture and all potencies.

Herbal

Sin-a. like the Sin-n. is indigenous to Great Britain. "Its seeds are larger than those of Black Mustard and of a yellow color externally. Chemically they differ in containing a crystalline substance known as sulpho-sinapisin. Moreover, its myrosine yields with water a pungent oil of a different character from the Volatile Oil of Mustard." obtained from Sin-n. (Treasury of Botany).

The seed-leaves or cotyledons of Sin-a. furnish the "mustard" of "mustard and cress" the "cress" being *Lepidium sativum*. Bojanus proved Sin-a., taking substantial doses of the triturated seeds and of a tincture made therefrom. **Planets:** Moon.

Homeopathic

Sin-a. has the throat symptoms marked, especially pressure and burning with obstruction in esophagus, sensation of a lump in esophagus behind the sternum and with eructations, similar symptoms in rectum.

The well-known emetic effects of mustard were produced by it and also its "burning" sensations in many parts, notably anus, stomach and esophagus. Flatulence, headache, (better walking in open air, worse in warm room) and salivation were among the observed effects.

Under Sin-a. the prover, who had no sign of threadworms since his thirteenth year, passed many both living and dead and had all the usual rectal symptoms which accompany their presence. The urine too, was turbid, as is often the case in helminthiasis.

Clinical

Anus, disorders. Backache. Breast-feeding, disorders. Chills. Colic. Dyspepsia.

Esophagus. Flatus. Gastric ulcers. Gastritis. Headaches. **Heart**burn. Mouth inflammation. Pregnancy, problems. Salivation. Threadworms. Vomiting. Worms.

Modalities

Better rest. Better open air. Worse by touch. Worse pressure. Worse motion. Worse swallowing, (crawling in anus.). Worse after eating (sensation of hard substance in stomach). Worse warm room.

PAGE 1563

Symptoms

MIND

Distracted in mind, while reading must make great efforts to keep thoughts from wandering.

Abdomen

Gripping colic. Rumbling and gurgling with emission of odorless flatus. Emission of offensive flatus. Movements in abdomen. Heaviness as of a weight, fullness and distention in abdomen.

Back

Pains in small of back and coccyx, as if sprained and bruised with urging to stool.

Chest

Oppression of chest compelling frequent deep breathing. Burning beneath sternum.

Eyes

Sudden sensation of warmth with stitching in left eye compelling winking, eye fills with tears after which the sensation disappears.

Food

Thirst.

Head

Dullness with obscured vision, especially of forehead over eyes, worse walking. Sensation as if head hollow. Rush of blood to head. Headache better in open air worse in warm room. Heaviness in the forehead, as from intoxication or too great warmth of room. Pain in left frontal eminence, paroxysmal, pressive in the evening. Pressive pain in right frontal eminence worse moving head back and forth.

Kidneys

Urine dark yellow, soon forming transparent cloud, bright golden yellow, dark brown like beer. Many grains of red sand deposited and iridescent film on surface. Thick, fatty pellicle. Cloud remains suspended in urine.

Sediment white, like chalk and containing grains of white sand.

Limbs

Heaviness in lower limbs.

Male

Emissions without lascivious dreams.

Mouth

Root of tongue thickly coated yellow on rising in morning, later extends along sides, especially left. Profuse salivation with nausea, nausea better at rest, worse walking about. Saliva frothy, salt.

Pulse

Pulse full and hard.

Rectum

Sensation as though a hard substance were lying in anus and could not be evacuated, not better by stool. Burning, itching in anus, obliging to scratch. Crawling biting in anus.

Violent, sudden pain in anus. Spasmodic griping in anus, worse after swallowing anything. Stools, black, hard, covered with mucus. Stools, small, thin, soft, greenish, copious, pasty, partly hard partly soft, sour, fermented, yellowish gray. Stools with dead threadworms.

Sensations

As if head hollow. As of a plug in throat of hard substance high up in esophagus under sternum, something hard lying in stomach after a moderate meal, hard substance in rectum not better by stool.

Sleep

Sleeps in afternoon with vivid dreams after eating. Vivid dreams of dead people and of death. Dreams: confused and unremembered of foreign countries and dangerous expeditions.

Stomach

Burning, pressure, fullness and distention in pit of stomach. Thirst without heartburn, drinking water causes sensation of heaviness and fullness in abdomen as after eating. Belchings are tasteless and odorless. Belchings of acid liquid with griping scalding in pharynx, tasting of food. Nausea, qualmsiness inclination to vomit, salivation. Nausea better at rest, worse by movement. Retching and vomiting of water. Vomits. flakes of mucus with black streaks, yellow, odorless, tasteless matter with much tenacious, jelly-like mucus.

After vomiting, scraping in throat and burning rising from stomach.

PAGE 1564

Temperature

Creeping chills on moving about, over whole body after vomiting with coldness of hands and feet and frequent belchings of gas. Inclined to perspire.

Throat

Scraping in fauces, provoking frequent hawking. Sensation as if a large morsel of food had been swallowed. Burning in pharynx in esophagus rising up from stomach like heartburn and pressure in esophagus. Sensation of hard body high up in esophagus, worse swallowing hard food and on empty swallowing in afternoon seems as if a plug sticking in pharynx (this sensation alternated with biting and crawling in anus). Sensation of constriction on swallowing hard food.

Comments

A. L. Fisher says that for twenty years Sin-a. has had a prominent place in his armamentarium. He has used it on the indications of the proving and he found that the states of pregnancy and breast-feeding seem to favor development of the conditions calling for it.

He has verified these: "Excessive accumulation of watery saliva or mucus." "Acute bruised pain, even on slight pressure, just beneath ensiform cartilage." "Vomiting, ejecta consisting of flakes of mucus with black veins like clots of blood." "Crawling and burning in anus with griping in abdomen." "Spasmodic griping in anus, appearing at intervals and especially noticed after swallowing anything."

He has cured with Sin-a. "Sore mouth with intensely red mucous membrane, dotted with minute white ulcers, the least food, even of blandest character increasing the burning that is present all the time and also in the throat."

Bojanus noticed an alternation between the symptoms of the anus and those of the pharynx. Clarke has cured with Sin-a.: "Sharp, shooting pain in right frontal eminence, worse in warm room, better moving about and in open air."

Compare

- (1) Sin-n. - plug sensation.
- (2) Anac. - ball in anus, Sep. lump in stomach.
- (3) Bry., Abies-n., Nux-v., Puls.
- (4) Cina, Sant., Teucr., Napht., Scirr., - worms, helminthiasis.

Relations

An overdose of table Mustard, which contains both Sin-a. and Sin-n. with starch is immediately antidoted by smelling bread.

SOURCES

Clarke.

Sinapis nigra

(black mustard)

Pharmacy

Sin-n. *Sinapis nigra*. Black mustard. *Brassica nigra*. N. O. Cruciferae. Trituration and tincture of seeds. Historical dose: Tincture and all potencies, third potency.

Herbal

Sin-n. yields the greater part of the condiment so generally used in this country. The plant is indigenous, but is nevertheless largely cultivated in Yorkshire and Durham.

Like many other Crucifers Sin-n. has anti-scorbutic properties and it has cured cases of ague, mucous fever, catarrh of bladder of stomach and of air passages. It is in the treatment of hay fever that it has been most used.

Cooper suggests the use of Sin-n. as an aperient. He considers that the chief agent in effecting dislodgement of feces in constipated states is flatus. His method of producing this is as follows:

A tumblerful of hot water is to be taken in sips in the early morning, the same at breakfast time with some plain brown bread or with no solid food at all and at 11 a.m. one or two capsules of pure mustard, each containing about five grains of the powder to be taken, followed by half a tumbler of hot water.

"This last is most important, as the water drives on the capsule and prevents its staying about the cardiac orifice of the stomach and consequent distress to the patient.

PAGE 1565

It also causes contraction of the walls of the stomach and consequent expulsion of flatus into the duodenum." **Planets:** Mercury.

Homeopathic

Sin-n. is of use in hay fever, coryza and pharyngitis. The special indications are: Mucous membrane dry and hot, no discharge, worse afternoon and evening, either nostril may be affected alone or they may be affected alternately. Dry sinuses and pharynx with thick, lumpy secretion. Small-pox.

"Sweat on upper lip and forehead" is a symptom worth noting, also these: mucus hawked or coughed from posterior sinuses felt cold. The proving had these symptoms: It seemed to double him up, could hardly stand, tears ran from eyes intense pain across epigastric region. Rose late, feeling sore and stiff all over. Weakness in all muscles.

Clinical

Allergies. Amenorrhea. Asthma. Catarrh. Chlorosis. Chordee. Chorea. Colds.

Constipation. Coryza. Coughs. Diarrhea. Hay fever. Headache. **Heart**burn.
Hemorrhoids. Hiccoughs. Intermittents. Menses, premature. Mucous fever. Post-nasal catarrh. Priapism. Scurvy. Strokes. Variola.

Causations

Damp weather. Summer season.

Modalities

Better by study or mental diversion. Better sitting erect. Better lying down at night, except dreams. Better shutting eyes. Better hearty meal. Worse by touch and pressure. Worse leaning forward, stooping motion worse. Damp weather aggravates. Worse in warm room. Worse thinking of symptoms. Laughing causes cough. Worse evening, 4-6 p.m. and 7 to 9 p.m. Worse July and August.

Symptoms

MIND

Irritable, difficult to think and study. Unreasonably cross. **MIND** worked rapidly. Better by study or mental diversion.

Abdomen

Dull pain in left hypochondriac region. Heavy, dull pain as from weight below umbilical region. Severe twisting in umbilical region.

Pain from left of umbilical region to left iliac region, later to right side, ascending colon. Accumulation of flatus with twinges of pain about umbilicus. Rumbling. Left inguinal gland swollen and painful. Sharp pain in right inguinal gland. Dull pain in right inguinal region better by pressure.

Back

Rheumatic pain in intercostal and lumbar muscles, sleeplessness from pain in back and hips. Severe, dull, pulsating pain under inferior angle of left scapula. Slight backache, becoming intolerable towards bedtime, better motion.

Chest

Wandering pains in chest. Pain in left side of chest in region of heart. Respiration at base of left lung roughened. Sensation in right chest as if heart were on right side.

Eyes

Eyes feel weak, pressure causes pricking in them. Pressing feeling in eyes.

Face

Shrunken features. Sweat on upper lip and forehead. Burning prickling in face. Red round mouth with smarting of lips. Sensation as if cheek were bulged outward by bubble of air, just below malar bone in afternoon. Lips dry and feel as if tissues were stiff.

Female

Menses appear in a few hours long before the proper time (several cases). Amenorrhea and chlorosis.

Food

Appetite good. Aversion to sweets. All food tasting of horseradish, later tasteless.

Head

Headache over right eye worse stooping. Head dull, heavy, better when mind occupied by study, better shutting eyes, better in open air, worse in warm room, worse when thinking of it. Scalp hot and itches. Frontal headache, most over bridge of nose and round edge of orbits. Sensation as if scalp were adherent to bones. Forehead hot and dry.

Heart

Dull, continual pain in heart toward apex in evening, seemingly in heart substance.

Heart pains return daily. Sensation as if heart were on right side. Pulse accelerated, full.

PAGE 1566

Kidneys

Pain in bladder, frequent copious flow day and night. Desire frequent, flow increased. Urine, pale, straw colored without sediment.

Limbs

Weariness in limbs with cramps in calves. Occasional dull pain in left shoulder-joint. Weakness in calf-muscles. Dull, heavy ache in legs. Pain constant in ankles and calves.

Lungs

Asthmatic breathing. Loud coughing-spells with barking expiration. Cough is relieved by lying down. Cough mostly dry or with expectoration of lumps of mucus worse in cold air, better lying down. Expectoration from posterior sinuses much mucus, which felt cold, white in tenacious masses. Asphyxia. Pituitous asthma.

Male

Violent erections during day and night, obstinate, painful and continued. Awakening him at night with lascivious thoughts, dreams and emissions at night.

Mouth

Dry, burning, extending to stomach. Offensive breath, smelling like onions. (Asaf., Armorac.) Swollen bleeding gums. Tongue feels blistered. Black tongue. Tongue fissured in middle, dirty white coat, sore, raw. Teeth sensitive to warm drinks and cold air, especially stopped teeth. Profuse saliva. Taste of garlic, causing nausea of horseradish.

Nose

Mucus from posterior sinuses. Severe colds. Scanty, acrid discharge. Stoppage of left nostril all day or in afternoon and evening. Dry, hot with lachrymation, sneezing, hacking cough, better lying down. Nostrils alternately stopped. Dryness in both nostrils. Left

nostril stopped up. Scanty discharges, acrid, making skin smart. Scurvy with copious and frequent nose-bleed.

Rectum

Smarting, cutting pain low down in anus after a stool. Desire for a stool without passage. Diarrhea. Stools offensive. First stool normal, second loose. Before stool uneasy feeling in rectum after stool, smarting cutting low down in rectum and anus. Constipated, stools hard like balls.

Sensations

Vertex as if empty. As if she had taken cold. As if scalp was adherent to bones. As of pins sticking in eyeballs. Eyeballs as if pressed on from above. As if nostrils stopped up. As if movements impeded all round the chest. As if something heavy oppressed her on all sides from neck to diaphragm. As if cheeks were bulged out by a bubble of air below malar bone. Skin of lips as if stiff. As if blisters on tip of tongue. As if a load on stomach. Pain as if heart were on right side. As of hot water in blood-vessels.

Skin

Burning heat and stitches in skin. Skin turns red. Frightful suppuration and gangrenous inflammation reaching down to sternum (fatal effects of mustard applied to swollen glands of neck). Ecchymosis. Chronic eczema. Small-pox. Ulcers on legs.

Sleep

Sleepiness during day, sleepless at night. Sleeps little at night, but does not feel loss of sleep. Restless sleep from pains in back and hips. Dreams: vivid or lascivious.

Stomach

Hiccough. **Heart** burn and belching. Burning in stomach, extending up esophagus, throat and mouth, which is full of canker sores. Hot sour belchings. Colic, pains come on while bent forward, better sitting up straight. Sweat relieves when nausea comes on. Ulceration of stomach and intestines. Pressure in epigastric region. Pain in region of stomach with sensation of faintness compelling to bend forward, which relieves.

Temperature

Severe chills, chattering of teeth, sensation of general coldness with shrunken feeling (from mustard bath). Heat through whole body, especially down spine. Quartan ague and inflammatory fever. Sweat and feeling of hot water in all blood-vessels, better when menses came on. Sweat general, especially on forehead and upper lip. Sweat free from mental or physical exertion from external heat.

PAGE 1567

Throat

Hoarseness, evening from 4 p.m. Feels scalded, hot inflamed. Dry sensation back of nose and throat. Throat sore, left side, on swallowing saliva. Whole throat behind uvula injected light red. Sore throat right side extending to left.

Vertigo

Vertigo of old people, violent attacks with hard hearing after eating heavy food, fat.

Comments

Hansen adds these: "Acute coryza with thin, watery, excoriating discharge, lachrymation, sneezing. Hacking coughs, better from lying down. Acute pharyngitis, throat feels scalded, hot inflamed. Loud coughing spells with barking expiration, heard at a great distance."

Compare

- (1) Sin-a., Thiosin., Armor.
- (2) Scalded sensation on tongue, Sang.
- (3) Cough worse laughing, Arg-n., Phos.
- (4) Cough Better lying down, Ferr., Mang.
- (5) Worse from 4 to 6 p.m. , Lyc.
- (6) Amenorrhea, Sulph., Puls.
- (7) As if hot water in blood-vessels (Rhus-t. as if blood running cold).
- (8) Sulph., Caps., Coloc.
- (9) Sinapis alba.
- (10) Mustard oil by inhalation - acts on the sensory nerve endings of the trigeminal.

Relieves pain in middle ear disease and in painful conditions of nose, nasal cavities and tonsils.

Relations

Antidoted by: Smelling bread (immediate effects of taking excess of condiment): Nux-v., Rhus-t., or when blistering has been produced by a mustard poultice, soap is the remedy.

Sium latifolium

(water-parsnip)

Pharmacy

Sium. Sium latifolium. Water-parsnip. N. O. Umbelliferae. Tincture of root. Historical dose: Tincture and all potencies.

History

Our knowledge of Water-parsnip is derived from cases of poisoning through eating the root.

The Sium. symptoms bear a strong resemblance to those of the other poisonous Umbelliferae. **Planets:** Saturn, Moon.

Homeopathic

The most pronounced features of the convulsions of Sium were the drawing of the arms to the middle of the body, flexure of the fingers and the preponderance of the contractions on the left side. The lack of mental energy recalls the action of Aethusa.

Muscles in tonic contraction, arms drawn to middle of body, fingers flexed, opisthotonos. Spasms, at first violently clonic, diminishing with each succeeding convulsion until they became little more than tremors. Loss of voluntary motion.

Clinical

Convulsions. Dizziness. Opisthotonos. Spasms. Tetanus.

Symptoms

MIND

Mentally excited. Fear of death. Lack of mental activity.

Abdomen

Sense of swelling and flatulence about bowels.

Eyes

Pupils dilated, responded steadily to bright light.

Head

Dizziness, headache.

Lungs

Breathing slow and stertorous.

Stomach

Nausea and vomiting, at end of which he fell into a convulsion.

Temperature

Skin cold and clammy. Head hot, rest of body cold. Wet with perspiration.

Throat

Burning along digestive tract, especially esophagus.

SOURCES

Sisyrinchium galaxoides

(blue-eyed grass)

Pharmacy

Sisy. Blue-eyed grass. *Sisyrinchium galaxoides*. N. O. Iridaceae. The fresh root is macerated in twice its weight of alcohol. Historical dose: Tincture and all potencies.

Herbal

Sisyrinchium was one of the old "Thompsonian remedies" . Dr. W. U. Reed of Indiana contributed the following in 1892 to the Hom. Recorder, concerning this little known remedy.

PAGE 1568

The bite of the Indiana rattler has been known to prove fatal to both man and beast. The roots of *Sisyrinchium* of the Iris family are used in the treatment of snake bites. A tincture is made from the roots, it is said to have been used by the Indians in treating snake bites, by bruising and moistening the roots and applying to the wound.

We have growing in our woods and fields a small plant, which I believe to be a specific for the treatment of persons or animals bitten by the rattlesnake. From my own experience and observation in the use of this remedy, I believe it to be a positive cure in all cases if exhibited in any reasonable time. I have never known it to fail in a single instance, even where the alcoholic treatment and many other kinds had failed.

I am not aware of its ever having been used as a medicine by the profession and, so far as I know, I am the first to prepare and use it in the form of a tincture. **Planets:** Mars.

Homeopathic

The affects of the snake bites cured with Sisy. are: The skin is a blush black color as if dreadfully bruised. The whole body becomes very red, hot and dry, face dark red. The leg and foot are enormously swollen and of the same general appearance. The foot, calf of the leg and thigh turn black. Patient delirious but would cry out if touched. Wild delirium all night. Unconscious. Pulse quick and hard.

Clinical

Snake bites.

Comments

Dr. Reed gives these cases: (1) Bessie A., aged six years, while playing in the yard on a farm, some twelve miles in the country, was bitten in the hand by a rattlesnake which was killed a moment after by the mother of the little girl who was attracted by the screams of the child. Sixteen hours after I arrived, everything having been done in the meantime that had ever been heard of by the parents, even to applying a poultice the wound with entrails of a black chicken.

The little sufferer was indeed, an object of pity. The hand and arm were swollen almost to bursting, the swelling extending to the shoulder and spine, being of a bluish black color as if dreadfully bruised. This discoloration extended over the back to the hips. Skin hot and dry, face flushed, pulse quick and hard. Child unconscious.

I felt that the case was hopeless. But, through the earnest entreaties of the mother, I proceeded to do what I could. Saturating a piece of cotton with the tincture I had prepared, I bound it on the wound, then dropping twelve drops in a glass of water I directed that a teaspoonful be given every hour, the compress to be renewed every hour also, until my return.

I confess I had little hope of seeing my little patient alive again but on my return the following day I was much rejoiced to find a decided change for the better in the condition of the little sufferer. The swelling was not nearly so tense, the fever had subsided, the delirium gone and the danger seemed past. The treatment was continued and a speedy and permanent recovery followed.

(2) Burt Whitten, aged ten, while out in a marsh with a number of older boys gathering huckleberries, was bitten in the right ankle by a rattler. He was so frightened when he saw the snake, as it bit him, that he ran all the way home, a distance of nearly a mile, although the day was very hot. This patient came to my hands after the usual alcoholic treatment for twenty four hours by an allopathic physician with the patient growing worse all the time. I found this patient in about the same condition as the first.

The leg and foot were enormously swollen and of the same general appearance, the foot, calf of the leg and thigh were black, the whole body was very red, hot and dry, face dark red, pulse quick and hard, patient delirious but would cry out if touched. Fifteen drops in a glass of water.

Teaspoonful every hour with cotton saturated with the tincture applied to the wound. In this case the change, I was informed by the father, was quite noticeable in two hours.

The boy had been in a wild delirium all night and up to the time he received the first dose of Sisy. After the second dose he became quiet and in two hours the delirium had passed away. Under this treatment the patient was able to be out on the streets again in four days, though the discoloration did not disappear for some time after.

Many more cases might be given where this remedy has been given to both man and beast with the same results.

Anshutz.

Skatolum

(skatol)

Pharmacy

Skat. Skatol. Historical dose: Sixth an higher potency. Historical dose: All potencies,
History

Skatol represents the ultimate end of protein decomposition and is a constituent of human feces. **Planets:** Saturn.

Homeopathic

Skat. has sluggishness with no ambition. Acne with auto-intoxication dependent upon intestinal decomposition. Stomach and abdominal symptoms and frontal headache.

Clinical

Acne. Belching. Dyspepsia. Headache.

Symptoms

MIND

Lack of concentration, impossible to study, despondent. No ambition. Desire to be with people. Irritable. Felt mean towards everyone. Desire to curse and swear.

Food

Appetite increased.

Head

Frontal headache, worse over left eye in the evening, better by short step.

Kidneys

Frequent, scanty, burning, difficult.

Mouth

Tongue coated, foul taste. Salty taste to all cereals.

Sleep

Increased desire to sleep, wakes unrefreshed, half doped feeling.

Stomach

Belching. Light, yellow, narrow, very offensive stool. Intestinal dyspepsia.

Compare

Skookum chuck aqua

Pharmacy

Skook. Skookum chuck aqua. Salts of water from Medical Lake near Spokane, Wash. Skookum Limechen Chuck. Medical lake. A lake in Western U.S. containing in grains per gallon: Sodic carbonate 63.54, Sodic chloride 16.37, Sodic silicate 10.63, Potassic chloride 9.24, Ferrous carbonate. 526, Mag-c. 237, Calc. carbonate. 186, Aluminic oxide. 175 with traces of Lithic carbonate, Borax and Potassic sulphate. Trituration of the dried salt. Historical dose: Tincture and all potencies, third trituration.

History

The medical and curative properties of this remarkable Skook. lake were known to the Indians of the northwest as far back as they have any legends or tribal history and it was held in such reverence by them that the country around this lake was called "Sahala Lyeo Illihe," or "Sacred Grounds," and no matter how hostile the tribes were to each other no

Indians journeying to or from the "Skookum Limechen Chuck," or "Strong medicine water," were ever molested.

"In the Skookum Chuck we have a remedy for all our ailments. We only have to bathe in and drink its water and we are made well. If we sign the treaty we will forever offend the Great Spirit, we will sign away our mother and she will cry. Her tears will dry up these lakes and we will be hungry and sick. We will go the Skookum Chuck only to find that its water have disappeared." **Planets:** Saturn.

Homeopathic

Skookum has strong affinity for skin and mucous membranes. It is an anti-psoric remedy. Skin disorders. Eczema. Dry skin. Hay fever. Profuse coryza and constant sneezing. Otitis media. Catarrh.

PAGE 1570

Profuse, ichorous, cadaverously smelling discharge. Urticaria. Lithemia. Skook. has also cured vaccinal eczema.

Clinical

Allergies. Breast, tumor. Catarrh. Eczema, vaccinal. Hay fever. Lithemia. Ozaena. Rheumatism. Urticaria. Vaccination effects.

Symptoms

Back

Heaviness in sacrum.

Food

Appetite increased.

Limbs

Severe rheumatic pains in limbs.

Nose

Profuse coryza with constant sneezing as in hay fever, symptoms so severe had to discontinue the remedy.

Skin

Urticaria. Eczema. Dry skin.

Comments

The following by Dr. W. D. Gentry appeared in the U. S. Med. Investigator, 1889. The story is told of a Frenchman passing the lake many years ago, before the properties of the water became known to the white men with a drove of sheep afflicted with a skin disease called "the scab."

As soon as the sheep saw the water they ran to it, but would not drink. They stood in the water for sometime and in a few days they were well of the "scab." The Frenchman was suffering with rheumatism. He concluded to try the water of the lake for his disease. He was steadily cured.

Stories of marvelous cures reported by the Indians and by seeing Indians return in health and vigor from the lake, who had been taken there on litters, appearing at the point of death.

The cure of many cases of inveterate skin disease is on record, the external use of Skoo. soap or ointment has been employed as well as the internal administration.

W. D. In galls reports, (1) the case of Mrs. D., 48, who had feet eczema. Fissured skin, exuding an acrid secretion. So excessively sore that the patient had not been able to wear shoes or walk any distance for two years. Skook. 2x was given internally, an ointment of a drachm to the ounce of vaseline applied and Skookum soap used for washing. In two months the patient was able to wear shoes and in three months the feet were well.

(2) Mrs. H., 23, had a benign growth in left breast, noticed eight months. No history of tuberculosis or cancer in family. Skook. was given thus: for the first week, one grain of 1x every four hours, for the second week, two grains of Skook. 2x every four hours, for the next seven weeks, five-grain powders of Skook. 3x, when the patient was cured.

(3) Mr. J., chronic nasal catarrh, discharge greenish yellow having odor of ozaena, was greatly relieved and apparently on the way to cure.

B. F. Bailey reports, (1) the cure of Mrs. X., 40 of lithemic diathesis, never free from eczematic trouble for years. At times much rheumatism. Not infrequently the rheumatism disappears and is immediately followed by styes on the eyelids. Former treatment allopathic and also homeopathic. Skook. 3x every four hours. Improvement soon showed itself and the patient was well in three months and remained so.

(2) Mrs. Y., 26, lithemic with flushed face and yellowish background. Urine, 1030 and with marked uric acid deposits. Much difficulty of digestion. Great dryness of skin, especially of scalp. Hair falling out to such an extent that baldness was feared. Skook. 3x every four hours. Hair ceased to fall out. The heated, congested feeling of head and face disappeared and the patient became well.

PAGE 1571

Slag silica

Pharmacy

Slag. Pulverized Slag. Blast-iron-furnace cinder is now recognized as one of the best fertilizers of our fields and gardens. The specimen of Slag used by Meredith was analyzed and found to contain in 100 parts the following: Silica 36.6, Alumina 15. , Calcium 36, Sulphur 3 part of these occur as Calc-s., Ferrum left, Phosphorus 0.5 (Meredith queries if the blue tint of Slag is due to Ferr. and Phos.), Magnesium 6.0, Manganum left 0. Loss 0.5. Historical dose: Tincture and all potencies.

History

Slag was introduced into medicine by J. Meredith who gave the 6x trituration. to a patient suffering from housemaid's-knee and in addition to relieving this it took away "a dreadful anal itching, hemorrhoids and constipation as if by magic."

Meredith confirmed the rectal power of Slag by experiments on his own person.

Acting on Meredith's suggestion, George Herring instituted a proving with the 3x on himself and others. Herring's only symptom was a creeping irritation of the skin or under the skin in the umbilical region, sufficiently severe to keep him awake. **Planets:** Jupiter, Saturn.

Homeopathic

Slag has digestive weakness and flatulence. Soreness of the anus. Hemorrhoids with anal itching and soreness. Constipation and diarrhea. Housemaid's knee. Lumbago.

Tuberculosis and spleen, disorders.

Slag produced a number of symptoms, prominent among them being: drowsiness in evening, dull, stupefying frontal headache and stiffness at back of head and neck and pain between shoulders, spleen pain and stitches in heart. A pain (dull, heavy sensation) alternated between inter-scapular region and spleen.

Comments

On prover in which Slag produced no symptoms, but did something better: it cured him of flatulent distention in the evening and an oppressive feeling over the heart.

No. 3 had constipation relieved, but Slag produced "soreness of anus." His general health was much improved. No. 4, a delicate lady of tubercular history, had Slag 3x twice a day. It set up: diarrhea, debility, quick pulse, lumbago with pain in back, distention of stomach, so that she had to loosen her dress [the very symptom it cured in one of the men], profuse night-sweat, cough and expectoration. Phos., Ph-ac., Carb. v. were given to this patient in succession and all did good.

Another proving of Slag was made by F. C. B. The prover was age 33, rather dark, nervo-bilious, had chronically enlarged tonsils and tendency to colds in the head. He took Slag by way of experiment, hoping to cure his tonsils.

Compare

Sol

(sunlight)

Pharmacy

Sol. Sol. Sunlight. Milk sugar is exposed to concentrated sun's rays and stirred with a glass rod until saturated. Potencies made by Fincke. Historical dose: All potencies.

History

Thanks to Dr. Finsen of Copenhagen, the place of Light in therapeutics is on the way to be defined so far as its direct properties are concerned, though Finsen is reviving and confirming, the ancient light-therapy.

O. V. Thayer published in 1893 a series of cases in which he had used concentrated rays of sun-light (solar cautery) including cases of skin cancer, rodent ulcer, parasitic diseases, moles, small wens, birth-marks, etc.

PAGE 1572

H. T. Webster gives details of a case of epithelioma in which the growth was removed by solar cautery and a scarcely perceptible scar left. **Planets:** Sun.

Homeopathic

The homeopathic provings of Sol are meager, mental excitement and anxiousness in all the serves, at first with trembling of heart, finally remaining in the stomach pit.

Frightened on the approach of anyone coming toward her. Violent headache from vertex down to forehead with heat sensation in face.

Sunlight has cured skin cancers and lupus in the hands of the Danish doctor Finsen. Very sensitive to sunshine. In the female, menses came six to seven days too soon. Spasms appearing at sunset, faintness, prostration and general stiffening up of the whole system, the body strength seems more equalized.

Ameliorated of bad effects of the sun by every cloudy veil drawing over the sun. If beds and wearing apparel have lain too long in the sunshine, the agreeable feeling after using them turns suddenly into the most disagreeable, so that she cannot bear it and falls into headache and spasm.

Spasm coming with sunrise and ceasing with sunset. Some spasms appearing at sunset. Faintness. Prostration. General stiffening up of the system, the bodily strength seems more equalized.

Clinical

Burns. Cancer, skin. Freckles. Headache. Lupus. Menses, premature. Paralysis.

Radiation sickness. Skin disorders. Sunburn. Sunstroke.

Modalities

Ameliorated by cloudy weather. Worse sunlight. Worse sunrise to sunset. Spasms coming with sunrise and ceasing with sunset.

Symptoms

MIND

Excitement and anxiousness in all her nerves, at first with trembling at heart, finally it remained in stomach-pit, all that night and next day very sensitive and easily frightened, it was as if all the nerves were trembling inside of them, the anxiousness in stomach-pit passes off the second evening. Anxiousness if somebody comes towards her, being frightened.

Abdomen

In abdomen, distention and hardness, as large as a child's head, as if it were in womb and running throughout from it into breasts, as if milk would rush in as when a child nurses, this lasted the whole first night until morning, before the distention and hardness came on a sensation as after childbirth or at conception (with great excitement). A glass of water exposed to the sun for six to eight minutes propagates coolness, not only in stomach, but round about in the viscera.

Back

Pain in back. Backache.

Ears

Sharp shooting pain from left ear to nose, continued at intervals for some time. Partial deafness.

Eyes

Sun-light diminished the sensitivity of eyes, odd-blindness. Suffusion of veins of sclerotica. **Sensation of swelling, as if eyes would force themselves out of sockets.** Light offends eyes.

Face

Jaws rigidly set as in trismus.

Female

Menses six to seven days too soon.

Head

Violent headache from vertex down to forehead, pressing with sensation of heat in face, this headache was repeated the second day three times, it seems to be in connection with the excitement and anxiousness at stomach-pit (first night). All the sensitives are very sensitive to the immediate action of sunshine on the vertex. Extreme painfulness if the sunshine strike the bare-head. Most violent stitches in brain. Disagreeable feelings, such as from retrograde passes, go into brain, cause stitches and headache and if she does not gain the shade, stomach-ache and nausea follow. Violent headache. Left sided headache. Headache from sunshine on bare head, better by laying a glass of water on stomach-pit. Intense entire head pain. Pain in forehead, it seems as if forehead would crush itself down upon the eyes. (Sensation of undulating or floating in head after mental excitement, such as attending to business or writing a letter.).

Instantaneous shock to brain, followed by prostration and a scalding sensation on top of head (remedied by orange-colored cloth in stove-pipe hat). Excessive perspiration of head and neck.

PAGE 1573

Heart

Weakness about heart.

Kidneys

Had to urinate five times in night. Urine and stool invariably suspended.

Limbs

After riding about on horseback in his woods in the sun-shine all forenoon and lying down about noon on his bed to rest, he suddenly gets peculiar attacks drawing through all his limbs after rising and making a few steps up and down, they disappear, this repeats itself several times. (The right side, arm and foot, which had been weak as from partial paralysis, became equally strong as left) Hands and feet cold. The back of hand exposed to sunshine feels warm, while at same time a coolness appears in palm and runs up whole arm into temple. Cool, refreshed hands from holding a stick partially exposed to the sun.

Mouth

Tastes like something she cannot tell. She puts anything she is going to eat in the sunshine, because then it is more palatable to her. Two glasses of water of equal temperature, the one put in the shade, the other in the sunshine for a quarter of an hour, the latter tastes agreeably cool to sensitives and stale and disagreeable to non-sensitives, while the other tastes quite the reverse. Stupid, cannot articulate a word. Articulates with difficulty.

Nose

Sneezing with a little sore throat, as if she had taken cold.

Rectum

Constipation.

Skin

Dermatitis, which often with cold limbs, degenerates into megrim.

Sleep

She could not sleep the first night, except from 3 to 4 A.M. , otherwise no idea of sleep the whole night long. Head very much excited, could not sleep for hours. Great sleepiness all through the head and not merely in the eyes, heavy, sound sleep all through night.

Stomach

Slight inclination to or actual vomiting. Heat in pit of stomach. Empty feeling in stomach, as if she had not eaten anything substantial yesterday and to-day. Sensation of faintness and vacuity in stomach-pit.

Teeth

Grinding of teeth as in helminthic spasms.

Temperature

An agreeable coolness extends over whole body, though the surface of the body perceives the physical heat of the sun's rays, simultaneously a kind of coldness interiorly pervades whole body, so that the sun makes warm and cold at the same time, but the feeling of cold supersedes that of warmth to such a degree that the latter is overlooked. Running chills of increasing sensation of cold in all limbs from holding wires partially exposed to the sun. Felt cold in night, drew up more cover and perspired. Congestive chill from exposure to sun right after drinking cold water freely. Perspiration streaming out of stomach-pit over whole body.

Comments

Sol is potentized sunlight. In 1880 Swan published a pathogenesis of Sol. Swan's information was obtained from four provers and from experiences obtained from hypersensitives by Reichenbach. The common effects of strong sun-light, such as sneezing, freckling and sunstroke, may be added to the list.

Potentized sunlight is used for sun dermatitis, sun headaches, heatstrokes, cancers and radiation. Photophobia is another keynote. Sunburns easily or never well since a severe sunburn. Sunlight can damage the eyes, from over-exposure, snow-blindness, sun-blindness.

PAGE 1574

Dr. Thayer investigated sunlight from another point of view. In 1893 in southern California he wrote a paper on sunlight for a homeopathic journal. He wrote how to: "Concentrate the sun rays to a diseased part until slightly burned or charred and then wait until it heals and then repeat the procedure."

He claimed to have cured all kinds of cancers, removed birthmarks, tattoos, warts, sebaceous cysts, ulcers, varicose veins and all other types of benign growths. "Unlike other caustics, it can be applied upon the most delicate of tissues and it causes only slight irritation and most of them heal with only the slightest scar."

Dr. Thayer coined the term "solar cauterization." A magnifying glass is used and the sunbeam is focused right on the skin cancer, until a burning sensation is felt, then stop. This is repeated once or twice a day. After a week or ten days the melanoma falls off and

it heals without a scar. Thayer had a whole practice based on the magnifying glass and focusing the sunlight in 1893 and very few homeopaths followed up on that information.

Dr. Foubister was the one who revived interest in Sol in its potentized form as an antidote for radiation poisoning from radiation therapy with cancer patients.

The sun is the fire element and it is needed for good health. If you withdraw the fire element, you will deteriorate as a human being. Because of the ozone layer breaking down, that's more reason to increase your tolerance to sun. The future generations have to have a higher tolerance for the sun.

Solaninum pur. + -act. (old abbr.)

Pharmacy

Solin. Solaninum. Solanium aceticum aut purum. Also Solaninum aceticum. Trituration. Solution. Historical dose: Tincture and all potencies.

History

Solan. is obtained from many of the Solanaceae. and especially from Dulcamara. It exists in potatoes and under certain conditions of germination potatoes may contain a poisonous amount. An accident of the kind occurred to soldiers at Pfuhl who were supplied with potatoes containing about 24 per cent. of Solan. Sixty-six soldiers had marked poisoning symptoms:

Shivering, fever, vomiting, syncope and in one case convulsions. Skin and conjunctiva were tinged yellow. Clarke's first acquaintance with Solan. was through seeing the effect of Solan. acet. 2c in solution given by Dr. Hughes to a diabetic and semi-paralytic man of 60. Who had frequent threat of respiratory paralysis with accumulations of mucus which he was unable to expel. Solan. acet. more than any other remedy rescued him from danger and prolonged his life. **Planets:** Mercury, Moon.

Homeopathic

Solaninum was proved by Clarus and Schroff and others. Slowed and oppressed respiration was a marked feature. Respiration was slowed in inverse proportion to the increase in the pulse rate. There was cerebrospinal irritation, hyperesthesia and convulsions worse by touch.

Skin more easily tickled than usual. Weakness. Sensitiveness to light, noise and touch. Convulsions. Fainting. In animals the hind limbs were rigid and paralyzed and in the provers the lower limbs were weakened.

Clinical

Lungs, paralysis. Tetanus. Ticklishness.

Symptoms

MIND

Stupefaction without previous excitement. Fainting.

Abdomen

Rumbling in abdomen.

Chest

Convulsions of thorax, which were associated tonic spasms of limbs.

PAGE 1575

Eyes

Pupils slightly contracted.

Head

Vertigo. Cerebrospinal meningitis. Head: hot, heavy, dull, painful. Pain in occiput.

Heart

Pulse: increased in rapidity, weak, thready. Pulse and respiration slowed. Increased pulse rate, respiration slowed.

Kidneys

Albumen in urine.

Limbs

Slight tonic spasms of lower limbs. Weakness of lower limbs.

Lungs

Hoarseness. Breathing is slow, superficial, difficult and oppressed, distressed, especially on inspiration. Moist rattle during inspiration. Frequent violent outcry. Masses of mucus in larger air-passages. Paralysis of respiration.

Mouth

Salivation. The pure alkaloid has a cooling, acid and salt taste and when chewed causes a glutinous sensation in pharynx and throat with scraping which extends to stomach, where it becomes a peculiar sticking pain. Bitter taste.

Skin

Skin dry. Hyperesthesia, creeping along spine when touching the skin, more easily tickled than natural. Itching. Yellow discoloration of skin.

Sleep

Frequent yawning. Great sleepiness with inability to sleep. Sleep restless, frequently disturbed by frightful dreams. Sleep frequently interrupted without dreams.

Stomach

Constant belchings. Nausea and diarrhea and vomiting. Nausea, violent ineffectual efforts to vomit. About 5 p.m. , vomiting three times without previous nausea or pain or any intestinal symptoms.

Temperature

Limbs cold. Shivering, fever, vomiting and syncope. Profuse perspiration without weakness.

Throat

Scraping in throat.

Solanum arrebenta

Pharmacy

Sol-a. Solanum arrebenta. Solanum rebenta. Arrebenta cevallos, the Brazilian name. Trituration of the leaves. Tincture of the leaves. Historical dose: Tincture and all potencies.

History

Mure, who proved Solanum arrebenta says of it: "The bush grows spontaneously in the provinces of Rio Janeiro, along roads and in cultivated places. It is from ten to sixteen inches high." **Planets:** Moon.

Homeopathic

Sol-a. has been used for strokes, boils. Swelling of the breasts and glands. Also in urticaria and vertigo. Among the symptoms "Redness of face and rush of blood to brain" recalls Bell., as do the swelling and pains in breasts.

SOURCES

Clarke.

Solanum carolinense

(horse-nettle)

Pharmacy

Sol-c. Solanum carolinense. Horse-nettle. N. O. Solanaceae. The fresh, ripe berries are macerated in twice their weight of alcohol. Historical dose: Tincture and all potencies.

Herbal

In 1889 Dr. Napier called attention to Solanum carolinense as a remedy in the treatment of epilepsy, stating that it was used as a domestic remedy in the South for convulsions and "that he had successfully prescribed it in his practice." **Planets:** Moon.

Homeopathic

Sol-c. has convulsions and epilepsy, twenty to forty-drop doses is of great value in grand mal of idiopathic type, where the disease has begun beyond age of childhood, hystero-epilepsy, also in whooping cough.

Comments

Dr. Charles S. Potts of the University of Pennsylvania, contributes a paper to TheRaph., Gazette, Dec., 1895, on the remedy, giving some new points from which the following is condensed: The following are some of the cases in which the remedy seemed to act beneficially:

PAGE 1576

H. T., male, aged thirteen years. Idiopathic epilepsy, had his first spell when five years ago, averages one paroxysm daily. The Solanum was first given in 10 drops doses t. i. d. without effect. When increased to 25 drops the spells were lighter in severity, but occurred about as often. The dose was finally increased to a teaspoonful four times daily.

After being put upon this dose he was under observation six weeks during which time he had six seizures much lighter in severity.

T. H., male, aged twenty-eight years. He had epileptic seizures for the past three years. They followed an injury to the head which rendered him unconscious, but produced no other visible injury. Since this, however, has had almost constant headache.

First spell six months after the injury and have been very frequent since, averaging three to four weekly, they are of ordinary type. Sol-c. in 40-drops doses three times daily was ordered. Spells at once decreased in frequency and severity. During the last six weeks he was under observation he only had three spells, very mild in type.

A. N., male, aged thirty years. First spell one year ago, have since occurred every two weeks, good deal of headache. Ordered Sol-c. 30c drops three times a day, No spells for one month and headache ceased. He then stopped attendance.

J. D., female, aged eighteen years. First spell when thirteen years old, has one spell a month at the time of her menstrual period. About a week before this period was given Sol-c. 40 drops three times a day and escaped the usual spell. The following month however, she had one.

I. K., female, aged twenty-five years. Nocturnal epilepsy for past three years, about one spell a month. While using Sol-c. 40 drops three times a day, went three weeks longer than usual without a spell. The dose was then increased to 1 fluid drachm she then ceased her visit.

F. S., female, aged twelve years. First spell five weeks ago, has been having them daily since. Sol-c. 30 drops ordered, this dose was gradually increased to 1 fluid drachm. During the three months that she was under observation her spells averaged in number about one a week.

H. B., male, aged eighteen years. First convulsion at age of ten years, then had none until three months ago, has had general convulsions about once daily since. Sol-c. 40 drops ordered. He was only under observation nine days, having during that time four spells, much milder in character.

A. C., female, aged fifteen years. First convulsion one year ago, they have been increasing in frequency, now has one about every three days. During the three weeks she was taking Sol-c. 30 drops three times a day she had one spell, that occurring during the third week.

H. K., male, aged eighteen years. First spell when fourteen years old. Every three or four days has several attacks in succession, an average of about one daily. While taking Sol-c. 40 drops afterwards increased to teaspoonful-doses he had twelve in thirty-eight days, an average of a little less than one in three days, going six without having any.

Solanum mammosum

(apple of sodom)

Pharmacy

Sol-m. Apple of Sodom. *Solanum mammosum*. N. O. Solanaceae. Tincture of fresh ripe fruit. Historical dose: Tincture and all potencies.

History

Hering is the authority for Sol. mam. **Planets:** Moon.

Homeopathic

The chief Sol-m. symptoms are irritability and inability to think. Sleepiness without being able to sleep, a kind a stupor worse at time of flood tide, at the full moon, better with ebb tide. Hawking of blood-streaked mucus. Uneasiness inability to keep quiet.

Sensitiveness to tobacco, (Ign.)

PAGE 1577

Clinical

Coxalgia. Hemoptysis. Irritability. Sleep, abnormal. Thought, difficult. Tobacco, effects.

Symptoms

MIND

Becomes exasperated at what he thinks may happen. Inability for continuous thought, though with comprehension of his subject, he could, when writing, only express himself in short, broken sentences.

Back

Twitching of large muscle below right scapula, as if the flesh were pinched up by the hand and shaken back and forth.

Limbs

Sticking pain in left hip-joint that made him quite lame, frequently during and after walking, disappearing after standing and sitting down.

Lungs

The mucus hawked from the larynx contains streaks of bright blood.

Rectum

No stool, stool occurred later than usual and after much pressure.

Skin

Causes blotches over whole body from poisoning.

Sleep

Great weariness and desire to sleep without ability to sleep, followed by slumbering without real sleep and afterwards deep sleep for several hours from which he awoke and could not collect his senses for a long time and remained long in an irresolute condition. Even after a long sleep during the day he was sleepy in evening and slept well all night. Dreams of death with violent weeping.

SOURCES

Clarke.

Solanum nigrum

(black nightshade)

Pharmacy

Sol-n. Solanum nigrum. Black nightshade. N. O. Solanaceae. Tincture of fresh plant.

Historical dose: Tincture and all potencies, second to thirtieth potency.

Herbal

Sol-n. is a common weed found in waste places. It has white flowers and black berries.

"The leaves applied externally ease the pain and abate inflammation.

Too large a quantity occasions violent sickness and headaches, giddiness, drowsiness and other dangerous symptoms. The Arabians apply the leaves to burns and ulcers, skin diseases and scrofulous and cancerous affections, they are diaphoretic, diuretic and purgative" (Green's Herbal).

Hale says some country practitioners used Sol-n. with much success under the impression that it was "an indigenous Belladonna," having been misled by the name "nightshade." Hale verified its use in meningitis and headache in scarlatina when the eruption is blotchy.

Hale justly points out the close affinity of Sol. n. with Bell.: Delirium, headache, flushed face, sparkling eyes, pains coming and going suddenly, fiery rashes, burning skin and sweat. **Planets:** Moon.

Homeopathic

Sol-n. used with success in ergotism with tetanic spasms and stiffness of whole body with mania. Marked action on head and eyes. Meningitis. Chronic intestinal toxemia. Brain irritation during dentition. Restlessness of a violent and convulsive nature. Formication with contraction of limbs. Corresponding to the black appearance is a bruised feeling all over the body.

The headaches of Sol-n. are described as "frightful." They are splitting, throbbing, bursting, piercing and are worse by least movement of head, light, noise, stooping, by least movement after sitting. There is very great sensitiveness to cold air, but headache is worse in a warm room and better in open air.

Clinical

Amaurosis. Blindness. Chorea. Convulsion. Coryza. Headache. **Heart**burn.

Hydrocephalus. Mania. Meningitis. Night terrors. Parotiditis. Peritonitis. Psoriasis. Puerperal convulsions. Scarlatina. Skin disorders. Small-pox. Stammering speech. Tetanus. Trismus. Tympanitis. Typhoid fever. Varicose veins. Vertigo. Ulcers.

Modalities

Better closing eyes. Worse by touch, motion. Worse moving head. Worse beginning to move after sitting. Worse walking (inclines to left).

Worse misstep. Worse swallowing. Worse light. Worse bright sunshine, (eyes). Worse morning on waking.

PAGE 1578

Symptoms

MIND

Furious delirium. Mania. The delirium is characterized by the cephalic cry, efforts to escape and by stammering speech. Night terrors. Complete cessation of the mental faculties due to headaches.

Chest

Pain in left side of chest, sore to touch.

Eyes

Pain over both eyes. *Alternate dilatation and contraction of pupils*, weak sight, floating spots.

Head

Terrible headache and complete cessation of the mental faculties. Congestive headaches, (Bell.). Splitting, throbbing, bursting, piercing pains. Headaches at 10 a.m. Headache causes him to close eyes. Worse by least movement of head, light, noise, stooping.

Lungs

Constrictive feeling in chest with difficult breathing, cough with tickling in throat. Expectoration thick, yellow.

Nose

Acute coryza, profuse, watery discharge from right nostril, left stopped up with chilly sensation, alternating with heat.

Sensations

Brain as if swimming. As if things moving in a circle, when stooping. As if bed turning rapidly in a circle. As if brain shaking about in skull, on moving head. As if head would split. As from a blow on forehead. As if sand in eyes. As if splinter in right tonsil. Tongue as if scalded. Pains come and go suddenly. Symptoms extend upward. Right upper, left lower. Alternate coldness and heat.

Sleep

Night terrors.

Temperature

Alternation of coldness and heat. Scarlet fever, eruption in spots, large and vivid.

Vertigo

The vertigo is worse on moving the head. Sensation as if the bed was being rapidly turned in a circle. Inclines to left on walking. Vertigo with a terrible headache and complete cessation of the mental faculties.

Comments

The provings and symptoms of poisoning cases are unusually distinctive. A curious feature of the skin effects of the Black nightshade is that they have a tendency to blackness. The swelling is very painful, it enlarges, becomes shiny, hard and deep red and in several places, quite black.

The day after taking a single dose of tincture a patient of Cooper's had this: "Head feels full across forehead, eyes heavy and forehead burns, could not apply himself to work."

Dilatation of the pupils is as marked as with Bell. and there is the same dryness of mouth and throat. Spasms, convulsions and tetanic rigidity of the whole body have been induced.

The most peculiar feature of the convulsions is this: "In the midst of these convulsions the children frequently stretch out their little hands, then carry them eagerly to their mouths and go through the motions of chewing and swallowing."

The skin symptoms are very marked. After one dose of tincture this condition disappeared in a patient of Cooper's: patches of psoriasis, knees, elbows and forehead, scaly with red irritating spots at roots of hair.

Compare

(1) Bell.

(2) Sol-m. - pain in left hip-joint.

(3) Sol-t. - cramps in calves and contraction of fingers, spitting through closed teeth.

(4) Sol-v. recommended in facial paralysis.

(5) Sol-a. - threatening paralysis of the lungs in the course of bronchitis in the aged and children must cough a long time before able to raise expectoration.

(6) Sol-ps. - acute pains in lower abdomen, Sol-t.

(7) Aegrotans - diseased potato.

(8) Sol-t. Potato berries - cramps in the calves of the legs and fingers.

Solanum oleraceum

(juquerioba)

Pharmacy

Sol-o. Solanum oleraceum. Juquerioba. N. O. Solanaceae. Tincture of flowers. Historical dose: Tincture and all potencies.

History

This plant, says Mure is herbaceous, stem somewhat woody, the upper branches being covered with short and crooked thorns. It grows on the shores round Rio Janeiro in damp and shady places. **Planets:** Moon.

Homeopathic

The most remarkable symptom of the proving of Sol-o. was "Swelling of the breasts with profuse effusion of milk" occurring in a woman of 60.

Other symptoms were: "Pain and swelling of face and throat with inflammation." "Cold feeling in left chest after drinking." There was drowsiness with headache and the generally deranged sleep of the other Solanaceae.

Clinical

Breast-milk, profuse. Breasts, swelling. Catarrh. Glands, swelling. Herpes Leucorrhoea. Pustules. Sleep excessive. Styes. Urticaria.

SOURCES

Boericke. Clarke.

Solanum tuberosum

(potato)

Pharmacy

Sol-t. Solanum tuberosum. Potato. N. O. Solanaceae. Tincture of the berries. Tincture of green potatoes. Tincture of fresh plant. Historical dose: Tincture and all potencies.

Herbal

The poisonous properties of the berries and leaves of the potato plant are well known and the tubers are popularly believed to have anti-scorbutic properties when eaten as food.

Under some conditions the tubers have been known to contain poisonous quantities of Solanin. The symptoms are the result of eating new potatoes, green potatoes, an extract and the berries. The last proved fatal in a number of instances.

Cooper relieved with a single dose of Sol-t. tincture a case of rheumatic iritis.

Burnett cured a case of tumors feeling like masses of potatoes in the abdomen with Sol-t. and it assisted him in the cure of a case of tumors all round the cervix uterus. Urt-u. finished this cure. **Planets:** Mercury, Saturn.

Homeopathic

Sol-t. has sickness and diarrhea with tenesmus, giddiness, dilated pupils and indistinct vision. A paralytic condition of the tongue, cramps and tetanic spasms are the main features of the poisonings. Tossing to and fro in bed. General rigidity. Patient is exceedingly weak. Faintness.

Clinical

Amaurosis. Cramps. Iritis, rheumatic. Stammering. Trismus. Tumors.

Symptoms

MIND

Almost lost consciousness.

Abdomen

Violent colic and vomiting. Pain in bowels. Tumors.

Eyes

Eyes deep in sockets. Staring look. **Eyes** for most part open. Pupils dilated. Vision indistinct.

Face

Hippocratic face. Expression anxious.

Female

Tumors round cervix, uterus.

Limbs

Cramps, especially in calves with spasmodic contractions of fingers and thumbs.

Lungs

Respiration: hurried, irregular, at times suppressed, usually short and incomplete, only seldom slow and sighing, difficult.

Mouth

Constantly spitting through the closed teeth viscid, frothy phlegm. Tongue covered with brown, moist fur. Tongue is heavy and difficult to move, hardly able to articulate. Speech thick. Speechless.

Pulse

Pulse small, rapid, scarcely perceptible.

Rectum

Diarrhea with tenesmus. Tends to relax bowels.

Skin

Skin livid.

Stomach

Violent retching followed by vomiting and diarrhea. Felt sick, a darkness over her eyes, skin cold, cramped all over. Epigastric region sensitive to pressure.

PAGE 1580

Temperature

Skin cold. Face, chest and limbs cold. Skin beaded with cold, clammy sweat.

Vertigo

Vertigo, headache, stupor.

Compare

(1) Solanin.

Solanum tuberosum aegrotans

(rotten potato)

Pharmacy

Sol-t-ae. Solanum tuberosum aegrotans. Rotten Potato. Tincture of the affected tubers.

Historical dose: All potencies.

History

The "Potato murrain" is characterized by "the rapid putrescence of the leaves and haulm, which is first indicated by the presence of a little mold, *Peronospora infestans*, which preys upon the tissues, spreading rapidly in every direction. The tubers also exhibit brown spots on their surface and within their tissues and according to circumstances decay with greater or less rapidity" (Treasury of Botany).

In 1846 the sudden inroad of this disease led to the fearful famine in Ireland, which resulted in the death of thousands. Mure made the first proving of Sol-t-ae., using a potato "in an entire state of decomposition without, however, being completely rotten." Effects of eating diseased potatoes, some of them fatal, have been observed and these have been added to Mure's. **Planets:** Moon.

Homeopathic

Sol-t-ae. has prolapse of the rectum and anus. Tumors of rectum look like decayed potato. Dreams of pools of blood. Irritability. Breath and odor of body are offensive. Skin, darkness. The urine has an oily pellicle. Excruciating muscular pains. Cold water causes shock.

Clinical

Anus, prolapse, patulous. Breasts, painful. Constipation. Nosebleed. Headache. Ileus. Menses interrupted. Noma. Pruritus vulva. Rectum, prolapse. Scalp, painful. Sciatica. Scurvy. Tenesmus. Tongue, cracked. Vertebra, pain, pulsation.

Modalities

Worse by touch and pressure. Headache is worse on waking, by smell of alcohol, walking at 5 p.m. , sleeping, working (headache).

Symptoms

MIND

Quarrelsome, irritable mood. Bad temper. Dread of work. Hypochondriac mood. She wants to enjoy a change of scenery. She fancies she is miserable, and dwells much on the

future. Crowd of ideas. His attention is easily disturbed by other things. Confusion of mind.

Abdomen

Painfulness of abdomen to contact along the median line. Belly hard, swollen, dropsical. Pain after eating, spasmodic pains, as though the bowels became twisted together, rumbling. Flatulence. Pain, as if sprained, in right groin. Stitch in right groin near inguinal ring.

Back

Swelling of muscles of neck. Violent beating in spine, early, when lying. Prickling sensation in spine. Stinging pain. Sensation of weariness in whole back. Stiffness in muscles of back. Tingling in sacrum. Prickling in psoas muscles. Pain in lumbar vertebra, impeding walking.

Breasts

Breasts are painful, especially when raising arm.

Chest

Oppression in chest. Tearing in chest. Prickling as from a thousand pins on the inner surface of sternum. Violent stitching pain above right breast. Congestions to chest. Acute pain in the sides like a stitch.

Ears

ringing in the left ear.

Eyes

Prickling about the lids, the surface of which is red. Spasmodic contraction and twitching of left upper lid. Burning in lids. Prickling and burning in eyes. Congestion of the conjunctiva. Profuse lachrymation, on waking.

PAGE 1581

Face

Face hot and red. Red pimples on cheeks. Desquamation of face. Face pale, bloodless. Swollen, especially about eyelids, nearly closing them. Bluish-black, fetid ulcer of left cheek. Upper lip is bleeding, cracked.

Female

Twisting pains through uterus. Feeling of dislocation in hip-joint with pain in womb after a slight exertion. Flatulence presses on uterus. Menstrual blood rose-colored. Suppression of the menses. Menses smelling of foul fish. Small pimples and intolerable itching of labia. Spasmodic pains in uterus. Burning and itching in vagina.

Food

Canine hunger. Salt taste. Taste of raw potatoes. Food tastes as bitter as gall. Great desire for spirits and oranges. Burning thirst.

Head

Heat in head, evening. Heaviness of head. Catarrhal dullness. Lancinations, as if brain would burst open. Sensation of water splashing in head. Headache at noon, worse by the smell of spirits. Painful sensitiveness of scalp and roots of hair, cannot bear combing.

Heart

Weight and pain in heart region. Lancinations in heart. Palpitations of heart. Pulse is irregular, sometimes weak, hard and tense.

Kidneys

Region of bladder distended. Difficult urination. Heat and pain in urethra after urinating. Constant urination while at stool. Urine reddish, mingled with mucus. Urine is very thick, soapy, turbid, of a dingy yellow with copious white sediment.

Limbs

Joints swollen and very painful. Sense of weariness in all the limbs. Inclination to stretch. Heat in hands. Acute pains in hip-joint caused by least motion. Feeling of dislocation of hip-joint. Legs edematous. Shuddering in right leg.

Lungs

Constriction and difficulty of breathing. Hoarseness on walking. In trachea, tearing, prickling with cough. Cough with expectoration of yellow mucus, at night. Dry cough, day and night.

Expectoration of lumps of black blood, early in the morning. Constant involuntary sighing. After eating choking and difficult breathing caused by dryness of mouth.

Male

Weight in right testicle all day.

Mouth

Dry mouth. Tongue pale. Tongue swollen, cracked, early in the morning. Tongue coated white or yellowish white. Tongue yellowish along the median line. Prickling in right half of tongue. Breath horribly fetid.

Nose

Repeated sneezing, followed by feeble cough. Nosebleeds. Pressure at root of nose. Smell of blood.

Rectum

Frequent urging to stool. Has to strain until tears come. Hard, large, lumpy stool, with violent burning in anus and rectum. Constipation. Copious greenish-yellow diarrhea. Violent colic previous to stool. Alternate protrusion and retraction of rectum during stool. Prolapsed rectum. Contraction of anal sphincter. Acute pain in anus. Great heat in anus.

Sensations

Of water splashing on head, as if brain were leaping in skull, (on stooping). As of something sticking in throat. As if there were a fleshy growth in throat. As if a spring unrolled in left hypochondrium. As if a hollow body were turning rapidly in chest. Of stoppage in trachea. Of something becoming detached from sacrum.

Skin

Skin is tender. Rose-colored patches appear and as suddenly vanish. Small red pimples cause violent itching.

Sleep

Irresistible drowsiness. Restless sleep. Starting from sleep, as in a fright. Sleepless. Confused dreams, about fires, revolution, corpses, thieves. Amorous dream. Dreams about men who become transformed to talking animals.

Stomach

Belchings followed by rumbling in stomach. Sour belchings causing a cough. Acidity, bitterness, and gulping-up, after eating. Pain in stomach, with red face, after breakfast. Spasmodic pains, griping-tearing at night.

Teeth

Swelling of mucous membrane of the inner margin of the two incisors. Teeth loose and very painful. Gums, especially lower, spongy, oozing blood. Teeth covered with white mucus.

PAGE 1582

Temperature

Chilliness and sensation of internal coldness. Heat all over with sweat. Fever and afterwards dropsical appearance. Violent paroxysms of heat. Alternate burning heat and chilliness, at night. Sweat all over, early in morning, in bed, cold night-sweat. The sweat makes the bed smell of potatoes.

Throat

Mucus accumulates in throat. Feeling as of a fleshy growth in throat. Feeling as if something sticking in throat. Fauces and mouth inflamed, ulcerated in patches. Inflamed fauces, unable to swallow saliva.

Comments

The symptoms of the Sol-t-ae. proving were pretty severe and one of the most important: Prolapse of the rectum has been confirmed by the poisoning cases. A man and three children ate boiled diseased potatoes and among their symptoms were these: "Pain of an acute character was referred to the region of the anus, which on examination was found perfectly patulous and exquisitely tender to the touch.

Two of the four patients had prolapsed anus, which was probably caused by the violent and ineffectual efforts to discharge the contents of the rectum. There had not been an evacuation of the bowels, nor had they passed water, except in drops and with extreme suffering, for six days. On introducing the finger into the rectum, which caused acute pain, it was found that the intestine was completely filled to within an inch of the orifice with a solid substance."

The foul odor of the diseased potato is reproduced in the breath and body odor of the patients. Lips cracked and raw, gums bleeding tongue coated, thick, cracked, throat inflamed and ulcerated with sensation of something sticking in it or a fleshy growth. In one poisoning case a condition of noma of left cheek was induced.

Solidago virgaurea

(goldenrod)

Pharmacy

Solid. *Solidago virgaurea*. Goldenrod. N. O. Compositae, Tribe, Corymbifere. Tincture of whole fresh plant. Tincture of flowers. The fresh blossoms are macerated in twice their weight of alcohol. Infusion of dry leaves and flowers. Historical dose: Tincture and all potencies, 30c potency or higher.

Herbal

The common Golden Rod is the only British species of *Solidago*. It is common in woods and healthy thickets. "This herb," says Rademacher, "is a very old and good kidney medicine. It is a specific for kidneys and brings the patients back to the normal condition."

Anshutz writes "A lady, by administering, morning and evening, an infusion of the dry leaves and flowers of Golden Rod (*Solidago virgaurea*) tells me that she cured her husband of an affection of the bladder which had compelled him to use a catheter for a year or more.

A friend of homeopathy, desired to test the energetics of this plant. He caused the first dilution of its tincture to be taken three times a day by seven patients. From forty-two to seventy-four years of age. They had been obliged to catheterize themselves for weeks, months and years.

Homeopathy cured them so thoroughly that they had no relapses. Surgeons who spend much time in catheterizing such patients for months and years could often cure them much more rapidly by prescribing for them the remedy just mentioned."

Gallavardin tells of a lady who cured her husband, who had been compelled to use the catheter for more than a year, by administering an infusion of the dried leaves and flowers of *Solid.* morning and evening.

PAGE 1583

He mentions the case of seven patients of ages varying from 42 to 74, who had been obliged to catheterize themselves for weeks, months and years and who were all cured with *Solid.* 1x. "Clear, stinking urine" is an indication of Cooper's.

Homeopathic

Solid. has helped diseases arising from or complicated with defective functions of kidneys are very likely to be benefited by this remedy. *Solid.* is a homeopathic replacement for the catheter. Pain in region of kidneys with dysuria. Kidneys sensitive to pressure. Bright's disease. Chronic nephritis. Uremic asthma.

Hay fever when *Solid.* is the exciting cause. It affects the digestive tract, lower limbs and blood. Feeling of weakness, chilliness, alternating with the heat. Hemorrhages. Takes cold easily.

Inhalation of the pollen has caused hemorrhage from the lungs in tuberculosis. Repeated colds of tuberculosis. Feeling of weakness, chilliness alternating with heat, nasopharyngeal catarrh, burning in throat, pains in limbs and thoracic oppression.

Clinical

Albuminuria. Calculus. Croup. Deafness. Dysuria. Eruptions. Gout. Leucorrhoea. Ophthalmia, scrofulous. Phosphaturia. Prostate, weak, enlarged. Rheumatism. Sciatica. Scrofula. Urine, scanty, suppressed.

Constitutions

Solid. is especially suited to scrofulous subjects, but not exclusively to them. **Planets:** Venus, Mercury.

Modalities

Better from profuse urination. Worse from pressure.

Symptoms

Abdomen

Costiveness, sensation of pain in the abdomen on both sides of the navel, upon deep pressure, gas, severe pricking in both hypochondria to the region of the kidneys, reaching to the lower limbs.

Back

Lumbar ache, makes her sick all over.

Chest

Rheumatism of the inter-costal muscles.

Ears

Sudden deafness with ringing in the ears and albuminous urine.

Eyes

Red with enlarged prostate gland. *Scrofulous*, herpetic inflammation.

Female

Hemorrhage, chronic leucorrhoea in connection with copious, watery urine and sediments of mucous particles and uriniferous tubules, epithelium. Uterine enlargement organ pressed down upon the bladder. Fibroid tumors.

Kidneys

Dark urine. Especially at night with very scanty brown and sour urine. Urine, dark and scanty or clear, stinking voided with difficulty albuminous, mucous, phosphatic. Kidneys, sore and tender over, ache, feel distended. Pain in kidneys extend forward to abdomen, bladder, down the thighs. Chronic nephritis. Cystitis. Enlarged prostate gland, obstructing flow of urine or inflammation. Affections of any other part or organ complicated with these symptoms will probably find their remedy in *Solidago*.

Limbs

Chronic pains in the loins, limping, dragging gait, rheumatic pains in the leg, pains in the thighs, the leg can be moved horizontally. When they are moved perpendicularly they feel lame.

Lungs

Bronchitis. Oppressed breathing. Cough with much purulent expectoration blood-streaked. Continuous dyspnea. Heavy expectoration in coughing, croup and diminished urine. Chronic catarrh of the lungs. Periodical asthma with nightly dysuria.

Mouth

Flat ulcers in the mouth and throat. Continuous bitter taste. Tongue heavily coated, clears when urine becomes normal.

Nose

Dry, the inner surface of the nose covered with blood crust, scalding and very scanty urine. Paroxysms of sneezing with abundant mucus discharge.

Rectum

Chronic catarrh of the bowels, diarrhea with scanty. Dysentery. Profuse involuntary mucus stools.

PAGE 1584

Skin

Petechiae, on lower limbs with edema and itching, Gangrene, diabetic. Eczema worse from suppressed urine. Scrofulous rash, little blotches on hands and feet, itching very much, very obstinate, itching exanthemas, exanthema of the lower limbs without swelling of the inguinal glands, but with disturbance in urinating (catarrh of the kidneys).

Sleep

Insomnia.

Temperature

Rheumatic fever, very frequent pulse, high fever.

Comments

Dr. White says "I have used it in several other cases where it seemed indicated by the tenderness in kidney region and the inability to control the water from whatever cause, always the perfect satisfaction to patient and myself."

Gucken has confirmed Rademacher's clinical observations and quotes further confirmations and cures by Dr. Buck of Wurtemberg.

The grand keynote of this remedy lies in the condition and the action of the kidneys and the quality of their secretions. Diseases arising from or complicated with defective action of the kidneys are very likely to be benefited by Solid. Pain and tenderness in kidney region, pains extending from kidneys to abdomen, bladder and down limbs, urine dark, red-brown, scanty, thick, voided with difficulty, albuminous, mucous and phosphatic urine Ñ these are the leading symptoms.

Affections of any other parts or organs complicated with these symptoms will probably find their remedy in Solid. Buck mentions scrofulous inflammation of the eyes. Clarke has seen very sharp attack of conjunctivitis produced in a patient who was taking Solid. For prostatic troubles.

The following are Buck's cases: (1) A boy, age 8, had severe membranous diphtheria with scarlet rash, which was removed by Merc-cy and Bell., but fever of typhoid type remained.

The urine was albuminous and scanty, pulse weak and intermittent, feet swollen. Kali-ar. 4c was given, but the symptoms grew worse.

A thorough examination of the patient showed great sensitiveness of the kidneys to pressure in spite of the otherwise apathetic condition. Solid. 3x was given and in one day the urine became more profuse with corresponding improvement in the general condition. The body peeled and recovered completely.

(2) Clerk, 45, had sleeplessness and pain in the back. He casually mentioned that it took him a long time to urinate for want of the necessary pressure. This he attributed to gonorrhoea, which he had years before. No sleep until 3 a.m. when he got some sleep, which was not refreshing. On rising, tired, especially upper part of thighs, then would begin the pain in the back, which extended to the loins and lasted until bedtime.

Nux-v. did not relieve. The urine was found dark, slimy, reddish, slightly acid, not albuminous. Kidneys sensitive to pressure. Solid. 3x, taken steadily for three months, cured. A year afterwards there was a relapse, but this time it took the form of sciatica and Solid. again proved to be the remedy.

(3) Mrs. F., 53, wife of a farmer, stout, fresh-looking, had her present trouble twenty-six years. After her confinement, which was difficult and followed by prolapse uterus Ñ still existing Ñ her legs began to swell and an itching rash broke out by degrees.

Menstruation had always come on at the proper time, but suddenly stopped six months before Buck saw her. Since then the itching had been almost intolerable, the legs more swollen and always cold. Appetite very poor, constant bitter taste in mouth tongue thickly coated, at the same time a rising from the stomach as if she would suffocate and at the least exertion she lost her breath. Urinated very little and mostly at night.

No pains in the back, but the kidneys were sensitive to pressure. "The appearance of the lower limbs of this patient," says Buck, "frightened me. From knee to heel they formed a bluish-red mass in the shape of a stove-pipe and were covered with little blotches and crusts." The prolonged use of Solid. 3x, though it did not effect a cure, produced a mitigation of the whole body, so that the lady induced her eldest son to consult the doctor.

(4) This man had also trouble in his lower limbs not unlike his mother's. A year before he had some severe throat trouble after which his lower limbs began to swell and itch. They were also tinted blue-red and covered with vesicles, his urine was scanty and his kidneys sensitive to pressure. Solid. 3x cured him in a few months.

Spingurus martini

(porcupine tree)

Pharmacy

Sphing. Spingurus martini. Porcupine Tree. Spiggurus. Hystrix sub spinosum. N. O. Sphingurinae. Trituration of prickles. Historical dose: Trituration and all potencies.

Herbal

The Old World porcupines have the name Histricinae, those of the New World Sphingurinae. Mure proved the 3x trituration of the prickles. **Planets:** Moon, Mercury.

Homeopathic

The most noteworthy Sphing. symptoms were falling out of the hair of whiskers especially. Pain in the jaw-joint and right zygoma. Itching of the pubes after taking tea. Embarrassed speech. Nausea at sight of food.

Clinical

Hair, loss. Jaw, pains. Stammering. Zygoma, pain.

Modalities

Better walking on open air. Better after dinner. Worse lying down. Worse after tea.

SOURCES

Clarke.

Spigelia anthelmia

(pinkroot)

Pharmacy

Spig. Pinkroot. Spigelia Anthelmintica. N. O. Loganiaceae. Tincture of dried herb. Historical dose: Tincture and all potencies, sixth to thirtieth potency.

Herbal

Spigelia anthelmia is a common weed in South America.: S. Marylandica, "Pink-root" or "Worm-grass," is a native of the Southern States of North America. Spig. anth. It was

known in Europe in Hahnemann's time as an anthelmintic, this property of the drug having been learned from the natives of the Antilles.

Homeopathic

Spigelia markedly affects the nerves, trifacial, heart, eyes, teeth, fibrous tissue and left side. Spig. is an important remedy in pericarditis and other diseases of the heart. It produces combined heart and eye symptoms or the latter as an accompaniment. Spig. is a sun remedy: headache beginning at sunrise, at its height at noon, declining to sunset. Pains of neuralgias and headaches increases and declines with sun.

Neuralgia of the fifth nerve is very prominent in its effects. Stabbing pains. **Heart** disorders and neuralgia. Very sensitive to touch. Parts feel chilly, send shudder through frame. A remedy for stitches due to the presence of worms. Child refers to the navel as the most painful part. (Gran., Nux-v., Mosch.)

Pains are violent, burning like hot needles or wires, jerking, tearing, stitching, radiating to other parts. Neuralgia. Sun pains. It is adapted to anemic, debilitated, rheumatic and scrofulous subjects.

Children afflicted with worms, refer to navel as the most painful part. Very sensitive to touch, parts touched or bruised, feel chilly or causes tingling or shuddering through the body. Body feels light while walking, heavy and sore when rising from a seat. Moves very carefully.

PAGE 1586

Clinical

Adenoids. Amaurosis. Angina pectoris. Anxiety. Ciliary neuralgia. Colds. Constipation. Depression. Diaphragm, stitches. Exophthalmic goiter. **Eyes**, pains. Face, pains.

Gastric catarrh. Glaucoma. Headache. **Heart** disorders. Hernia inguinal. Iritis. Jaw-joint, pain. Neuralgia. Otalgia. Post-nasal catarrh. Prostatorrhoea. Pterygium. Rectum, cancer. Rheumatism. Scarletina. Sigmoid flexure, cancer. Stammering speech. Strabismus. Tinnitus. Tobacco habit. Toothache. Worms.

Causations

Concussion. Worms, ascarides and lumbrici. Sunlight. Tobacco.

Constitutions

Spigelia is especially adapted to anemic, debilitated, rheumatic and scrofulous subjects. Suited to anemic, debilitated subjects of rheumatic diathesis to scrofulous children afflicted with worms, ascarides and lumbrici. Spig. is suited to persons with light hair, pale, thin, bloated, weak with wrinkled, yellow, earthy skin. **Planets:** Sun, Moon.

Modalities

Better from rest, warmth. Better lying on right side with head high. Better inspiring, steady pressure. Pressure helps the neuralgia. Cold application helps neuralgia temporarily. Better while eating, worse immediately after. Worse from the sun, tobacco, sex. Worse from raising arms after eating, thinking of it, blowing nose, expiration. Worse from touch. Contact and pressure of clothes is unbearable. Worse from motion, jar. Worse noise, turning, washing. Worse rising, stooping, bending forward. Worse slightest draft,

cold, damp, rainy, stormy weather, cold air, cold washing. Worse morning on waking. Worse from tobacco.

Symptoms

MIND

Agitation and anxiety, with restless care concerning the future. Timidity. Restless and anxious. Sits as if lost in thought, stares at a single object. Gloomy suicidal mood. Great dejection in evening, he could have killed himself. Sadness and discouragement.

Easily offended. Afraid of pointed things, pins, needles. Weakness of memory. Absence of ideas. Difficulty of thinking. Unfitness for intellectual labor.

Abdomen

Colic with pinching pains in the umbilical region. Expulsion of fetid flatus. Abdomen hard and painfully tight.

Back

Neck stiff, pains into right temple or pain from left shoulder to neck. Cutting about the left scapula.

Chest

Aching at the chest with painful oppression. Contraction of chest with anguish and obstructed respiration. Stitches in diaphragm with dyspnea.

Ears

Stoppage of ears. Periodical deafness, ears feel as if stuffed. Roaring, buzzing and pulsation in ears.

Eyes

Feel too large, pressive pain on turning the eyes. Pupils dilated, photophobia, rheumatic ophthalmia. **Eyes**, red, sore, drawing ache, yellow rings about. Lachrymation, profuse from affected side, tears acrid. Severe pain in and around the eyes, extending deep into socket, worse thinking of them. Ciliary neuralgia, neuritis. As if needles were thrust in. Squint with worms. Difficulty in raising the eyelids with painful sensation of stiffness. Inclination to wink. Difficult to fit glasses, no settled focus, no fixed vision, latent errors of vision. Pricking in lids. Everted eyelids.

Face

Prosopalgia involving eye, zygoma, cheek, teeth, temples. Worse from touch, stooping from morning until sunset, drinking tea, suddenly going and coming.

Food

Aversion to tobacco smoke and snuff. Ravenous hunger. Putrid, fetid taste. Anorexia with violent thirst. Dislike to coffee. Bulimia, sometimes with nausea and thirst.

Head

Supra-orbital neuralgia. Feels too large. Pain from beneath frontal eminence and temples, extending to eyes. (Onos.) Semi-lateral involving left eye, pain violent, throbbing, worse making a false step. Pain as if a band around head. (Carb-ac., Cact., Gels.) Pain from left occiput to over left eye, worse stooping, making a false step, opening mouth.

PAGE 1587

Heart

Violent palpitations, audible, attending other symptoms. Throbbing of carotids and subclavian arteries. Violent sticking or compressive pains, radiating to throat, arms,

scapula, worse least motion or bending double. Soreness, purring, cracking in the region of heart. Precordial pain and great aggravation from movement. Frequent attacks of palpitations, especially with foul odor from mouth. Pericarditis. Neuralgia extending to arm or both arms. Angina pectoris. Craving for hot water which relieves. Rheumatic carditis, trembling pulse, whole left side sore. Pulse intermittent with palpitations, weak tremulous irregular.

Kidneys

Frequent want to urinate with profuse emission, even at night. Sudden and involuntary dribbling of urine with burning sensation in anterior part of urethra. Urine copious with frequent urging, mostly at night. Urine with whitish sediment.

Limbs

Fatigue. Drawing, tearing, twitching pains in limbs and joints. The limbs are affected mostly when walking. Left arm numb. Pulsation in patellae.

Lungs

Dyspnea, must lie on right side with head high. Dyspnea, worse moving in bed, raising arms. Hydrothorax. Stitches in chest worse least motion or when breathing. Trembling in chest.

Male

Discharge of prostatic fluid from the urethra.

Mouth

Opening mouth aggravates headache. Foul odor from mouth. Offensive taste. Tongue, coated yellow or white, burning or stitches in, cracked. Tongue fissured, painful. Toothache worse after eating and cold, when thinking of it better tobacco smoke. Tearing toothache, worse after eating and cold.

Nose

Chronic catarrh with post-nasal drip of bland mucus. Tickling and itching of nose. Dry anteriorly. Flow of water during prosopalgia. Forepart of nose always dry, discharge through posterior sinuses.

Rectum

Itching and crawling. Worms. Ascarides. Frequent ineffectual urging to stool. Faints at stool. Stools of only large lumps of mucous. Itching, tickling in anus and rectum.

Sensations

As if he would fall. As if intoxicated. As if head would burst. As of a band around head. As if head tightly bound. As if electric sparks in temples. Brain as if loose. As if eye would be pushed out of head. As if hairs or feathers on lashes. Face feels as if it had been scorched. As if heart compressed or squeezed with a hand. As if heart being crushed. As if everything in chest were too short, loose and wabbling about. As if something tearing in chest.

Skin

Pale, wrinkled skin of body. Painful sensibility of entire skin when touched. Painful glandular swellings. Red pimples with pain, as from excoriation, when touched.

Stomach

Nausea with sensation of a worm rising in throat. Sour risings. Pressure in stomach. Nausea when fasting. Accumulation of mucus in the stomach.

Temperature

Chilliness on the slightest motion. Heat, flushes at night in back. Sweat offensive, on upper part of the body, on hands, cold.

Throat

Sore throat with lancinations and swelling in palate. Discharge of mucus from fauces all day, most from posterior sinuses. Cervical glands swollen.

Vertigo

Vertigo, the feet as if higher than head, worse looking down, must look straight ahead, worse standing, walking. Vertigo, hearing exalted.

Comments

Hahnemann's proving revealed many other virtues of Spig. He says of the plant that it has this peculiarity: the primary action of a single unrepeatd dose usually increases somewhat daily during the first seven to ten days, so that pure experiments with it should be conducted with caution, seeing that 60, 80 to 100 drops of the tincture produce violent effects even in robust persons.

PAGE 1588

Violence is a keynote of the Spig. action. The pains are intense and it produces pains in all parts. It is a neuralgia remedy par excellence.

Spig. is more left-sided than right, but by no means exclusively left-sided. The pains are burning, jerking, tearing, pressing and stitching, they radiate and extend to other parts, are worse by noise, jar, movement, change of weather, especially stormy weather. Head, eyes, face, teeth and heart are the principal seats of Spig. action.

Hochecker relates the case of Miss O., 27, blonde, tall, robust, who had neuralgia for several weeks without traceable cause. Pains came suddenly, twitching and tearing of left side of face, now in ear, then in lower jaw and were particularly worse by mastication. A peculiar was that whenever the pains were about to commence a diarrhea set in. A single powder of Spig. 6c cured.

Hochecker also cured with Spig. 3c, 6c, 10c and 20 c a case of tic-douleureux of right side of fifteen months duration. In this case each lower potency after first relieving caused an aggravation. That was why the potencies were successively raised. Spig. 20 c completed the cure.

This patient had dark hair and dark complexion. She attributed her trouble to taking cold in a draft when heated by dancing.

Sensitiveness to cold to wet and stormy weather is one of the notes of Spig. The left-sidedness of Spig. is shown in its affinity for the heart. Sometimes the heart, eyes and head are affected together.

A case was quoted in which there were darting and aching pains in head, nose and eyes and similar pains about the heart with slow, irregular action, but no murmur. Vertigo on stooping and heat of head. Sudden pains at bottom of back. The pains were worse night and morning and in damp weather. In one prover the accustomed evening smoke caused violent toothache.

Clarke cured with Spig. a case of cardiac neuralgia caused by tobacco. He saw cardiac murmurs appearing in acute rheumatism disappear under Spig. In the eye, neuralgias inflammation, amaurotic conditions, glaucoma presenting the symptoms of Spig. have been cured with it.

The pains of Spig. are largely out-pressing and proceed from within outward and below upward. A migraine comes from occiput and settles in or over left eye. In the eyes

themselves there are intolerable pressive pains worse on motion, but there are also stabbing pains through eye backwards into brain. The combination of heart and eye symptoms marks Spig. as the remedy in many cases of exophthalmic goiter.

The anthelmintic properties of Spig. must not be lost sight of by homeopaths. It has the cardiac symptoms of helminthiasis: itching of anus and nose, colic and borborygmus.

Hering gives this case: "Helminthiasis: dilated pupils, strabismus, putrid smell from mouth, itching of nose, griping pain in belly, throat inflamed, swallows often, pale redness in throat and swelling of mucous membrane, palpitation." Masses of lumbrici have been expelled and also threadworms.

Fetid breath and fetid flatus are marked features of Spig. There is both constipation and diarrhea. Clarke found it especially useful in heart cases where constipation has been a troublesome complication.

The body is painfully sensitive to touch, the part touched feels chilly touch sends a shudder through the whole frame. The bodily sensitiveness of Spig. is paralleled by the mental irritability. But the most peculiar mental symptom is "fear of pointed things as pins, needles, knives."

Meninger had a severe case of nausea of pregnancy which he cured with Spig. The only leading symptom in the case was this: She was afraid of pointed things and asked her husband to take away a fork, crochet-needle, etc.

Sil. has a somewhat similar symptom, but the Sil. patient hunts for pins although afraid of them.

Spig. corresponds to rheumatism as well as to heart disorders the consequence of rheumatism.

A patient Clarke successfully treated for a serious heart affection with Spig. 3c said that under the treatment he had lost a pain in the right knee which he had for eighteen months and which he had not mentioned to me at first. The pain was as if dislocated, unable to rise from kneeling, cannot find an easy position often for hours at night.

In chest disorders there are stitching pains synchronous with the pulse. Stammering: repeats first syllable three or four times. Abdominal ailments with worms.

Spigelia marylandica

(worm-grass)

Pharmacy

Spig-m. *Spigelia marylandica*. Worm-grass. N. O. Loganiaceae. Tincture of root.

Historical dose: Tincture and all potencies.

History

The symptoms of Spig-m. are mainly from overdosing. A state of mania was induced in a boy from large and frequent doses of a decoction of the root. Strabismus of right eye was noted in one case. On attempting to assume erect position, seized with general tremor lasting a few seconds and leaving her exhausted. **Planets:** Moon.

Homeopathic

Spig-m. has a maniacal excitement, paroxysmal laughing and crying, loud, disconnected talking, vertigo, dilated pupils, congestions. On attempting to assume erect position, seized with general tremor lasting a few seconds and leaving her exhausted.

Clinical

Mania. Strabismus. Vertigo.

Symptoms

MIND

Suddenly affected with complete mental derangement like that of Stram. Countenance distorted, running and skipping. Fits of laughing and crying. Wild and incoherent talking.

Eyes

Pupils greatly dilated. Irregular movement of adductors and abductors of eyes.

Strabismus of right eye. Pain in and about the eyes. Sensation of stiffness of eyelids.

Face

Wild, staring, ludicrous expression. Much swelling of face and about eyes. Face flushed.

Heart

Pulse is accelerated, irregular.

Mouth

Tongue pointed and tremulous.

Skin

Hot and dry.

Sleep

Drowsiness.
Vertigo
Dizziness.

SOURCES

Clarke.

Spiraea ulmaria

(meadow-sweet)

Pharmacy

Spirae. Spiraea ulmaria. Hardhack. Queen of the Meadows. Meadow-sweet. N. O.
Rosacea. Tincture of fresh root. Historical dose: Tincture and all potencies.

History

Bojanus proved Spiraea ulmaria, taking substantial doses. A leading symptom was the production of heat, general and local.

PAGE 1590

Heat in throat in esophagus, under sternum, under ensiform cartilage. Bojanus was seized with remorse, a kind of morbid conscientiousness. Fullness and heaviness of head. Washing with cold water was very unpleasant and caused a feeling as if the head were too large. A scurfy condition of eyelids and heaviness of lids after siesta were noted. The urine was turbid as if mixed with clay and deposited red sand, had an oily film on the surface. **Planets:** Moon.

Homeopathic

Hansen has mentioned that Spiraea ulmaria was recommended in hydrophobia, epilepsy and eclampsia. The burning in esophagus was better by eating and drinking but not by empty swallowing.

Burning and pressure in esophagus, feels contracted but not made worse by swallowing. Morbid conscientiousness. Relieves irritation of the urinary passages influences the prostate gland. Checks gleet and prostaticorrhea. Bites of mad animals. Heat in various parts.

Clinical

Bites. Conscientiousness, morbid. Convulsions. Eclampsia. Epilepsy. Esophagus, stricture. Eyelids disorders. Hydrophobia. Ptosis. Rabies. Urine, deposits.

Modalities

Better moving about. Better in open air. Worse indoors. Worse moving head. Worse from sneezing.

Relations

Salicylic acid is in Spirea.

SOURCES

Boericke. Clarke.

Spiranthes autumnalis

(lady's tresses)

Pharmacy

Spira. Lady's tresses. *Spiranthes autumnalis*. N. O. Orchidaceae. Tincture of the root. Historical dose: Tincture and all potencies, third potency.

History

The genus to which this orchid belongs received its name from the spiral arrangement of the flowers. *Spiranthes* is an anti-phlogistic remedy akin to Acon. Its symptoms showing congestion and inflammation.

The tuberous roots of Spira. were formerly esteemed as an aphrodisiac. (Treasury of Botany). **Planets:** Moon.

Homeopathic

Spira. has been used for milk-flow in nursing women, lumbago and rheumatism, colic with drowsiness and spasmodic yawning. Acidity and burning in esophagus with eructation. One appears intoxicated. Pulsations in arteries over whole body. Lies on left side rather than right.

Clinical

Breasts, painful. Breath, putrid. Burns. Coryza. Dyspareunia. Eczema. Hysteria. Kidneys, pain in. Lumbago. Milk, excessive. Skin disorders. Vision, dimness.

Modalities

Better lying on left side. Better lying on back. Worse by touch. Worse bending or raising arm. Worse raising breast. Laughing causes heat in lower abdomen. Worse bending over, (rheumatism of shoulders). Worse stooping.

Symptoms

MIND

Melancholy. Complaining and sobbing. Ill-humor. Confusion of ideas. Indolence and boredom. Worse from mental effort. The least emotion or excitement causes palpitations.

Abdomen

Intermittent pressure in umbilical region. Pain, weakness, tympanites after a meal. Borborygmi. Desire to tighten clothes. Piercing, sharp insupportable pain in colon, on becoming erect. Laughing heat in lower abdomen. Eruption in groin.

Back

Cramp-like pain in neck at night compelling change of position. Lumbago preventing walking. Pain in center of scapula. Pain in scapula, when standing, worse walking.

Breasts

Milk, abundant, more in left breast. Pain in breast on raising it. Burning on tips of breasts, especially the left.

Chest

Sensation of dilatation of left lung. Sensation of weakness of lungs. Pleuritic and intercostal pains, worse left side.

Ears

Pain in left auditory canal. Itching in ear, externally and internally.

PAGE 1591

Eyes

Eyes brilliant, fixed. Pain in eyes on looking up. Burning in eyes and lachrymation. **Heaviness of brows.** Lids swollen. **Eyes** hot inflamed. Vision dim, obscured with

sleepiness instantaneously lost, objects at a distance seem to move, on closing lids, sees wheels of fire.

Face

Swollen, red and hot, black, pale. Fixed, meditative expression. Burning in upper lip. Chin is red with pain. Burning itching in left cheek near mouth.

Female

Itching, vulva red, dryness and burning in vagina. Burning pain in vagina during sex. Pressing pain in uterus. Bloody discharge from vagina. Yellowish leucorrhoea. Dryness of vagina.

Food

Loss of appetite. Desire for acid, sour foods. Constant thirst.

Head

Heaviness and heat in brain. Brain troubles worse bending or raising arm. Sensation of band tied about head. Weight on forehead. Pain in forehead and nasal bone. Pain in roots of hair. Hair falls out.

Heart

Pain in heart. Palpitations with difficult respiration from least emotional excitement. Pulse full and hard at beginning of proving afterwards small and quiet.

Kidneys

Cramp-like pain at night in kidneys, obliging change of position, burning, pain preventing stooping, worse going up stairs, better lying on back, coldness and heat. In bladder, pain on urinating, pain and burning after waking. Urine, abundant, scanty, decomposes rapidly, deposits a gelatinous red sediment.

Limbs

Trembling in limbs, weakness. Sciatic pain, especially right side. Pain in shoulders. Swelling of veins of hands. Pain in all articulation of hands. Coldness of feet and toes.

Liver

Pain in liver and spleen, on pressure.

Lungs

Hacking cough, caused by tickling in larynx. Dry cough at night with burning in throat. Breathing difficult, short, panting on walking.

Male

Erections, on waking, constant. Pricking pain in cords. Great desire for or repugnance to sex.

Mouth

Pain and elongation of teeth. Toothache only at night. Sensation of coldness in teeth. Gums red and burning. Numerous small excrescences on palate, which was bloody. Putrid odor from mouth. Irritation of sublingual glands. Taste acid, sweetish like nitre, bitter in morning. Salivation with dryness of mouth.

Nose

Dry coryza. Nosebleed: in clots. Dripping of water from nose. Pain in (r.) nasal bones. Burning itching at root of nose. Itching of right nostril. Smell very acute.

Rectum

Burning and itching in anus, worse during evacuation. Stool preceded and followed by prickling and itching in anus. Diarrhoea or constipation, stools sour in children.

Sensations

Among the peculiar symptoms are: cerebral troubles on bending or raising the arm. Sensation of a band tied round head. Sensation of a foreign body in throat. Coldness of teeth. Pulsation in arteries over whole body. Coldness of the affected part. Preference for lying on left side or else on back. Pain followed by numbness.

Skin

Dryness of skin. Whole skin red, red in spots. Jaundice. Yellow spots. Miliary rash. Eruption of red points on buttocks with itching and heat. Blisters as from a burn with purulent secretion. Pricking over whole body. Itching in axilla in pubes, scrotum, forearms at night, backs of hands.

Sleep

Incomplete, yawning. Sleeping during day. Starting up during sleep. Late falling to sleep in the evening. Sleeplessness in infants. Lascivious dreams with emissions.

Stomach

Regurgitations. Belchings: preceded by heat in lower abdomen and lancinations in colon, acid, bitter, difficult, empty. Nausea after eating. Vomiting of food right after eating. Epigastrium: distended intolerant of touch, painful after a meal, the pain corresponding to the pain in loins. Heat rising from stomach to head.

PAGE 1592

Temperature

Alternations of cold and heat. Flushes of heat. Sweat on palms. Hands alternately hot and cold. Coldness, evening, especially of hands. Affected part colder than rest of body. Coldness of feet and toes. Fever, followed by thirst. Fever at night, sweat in morning. Heat of whole skin, flushes of heat in head, followed by sensation of cold. Hands very hot. Sweat of palms.

Throat

Burning in larynx. Globus rising from lower abdomen to esophagus. Sensation of foreign body in throat. Incessant desire to clear throat, caused by a thick mucus. Tickling in throat, provoking cough. Burning in pit of throat. Irritation of tonsils. Sensation of acidity and burning in esophagus. Incarceration of air in esophagus. Pain on swallowing.

Vertigo

Vertigo, obliged to lean head against wall, on rising from bed, worse sitting or lying.

Comments

The tincture of the Spira. root was proved by Dr. Patti Chagon, Duc de Sorentino, who says of it: "The action of this drug begins with decided symptoms of inflammation of the eyes, chin, chest, which become red and hot, the whole skin is dry and hot, the hands are burning, the limbs of the feet are cold most of the time, there is a sensation of oppression and heat with palpitation and a desire to uncover."

This condition lasted two hours and gave place to others including desire to meditate and complain, vertigo, pains in shoulders, boredom, loss of appetite.

The last symptoms to appear are: pains in scalp, on vertex, distress in kidneys and intestinal troubles after eating. The secretions of urine and milk were first diminished afterwards increased.

The aphrodisiac property of Spira. was shown in some of the symptoms of the proving and this bears on the increased secretion of milk. A number of symptoms appear in the lower abdomen.

The globus hystericus rises from thence to esophagus. Heat in lower abdomen, preceding belchings, caused by laughing.

Spongia tosta

(roasted sponge)

Pharmacy

Spong. Spongia tosta. Roasted Sponge. N. O. Coelenterata. Tincture. 20 grains in 400 drops of alcohol. Historical dose: Tincture and all potencies, second trituration to 30c.

History

According to Hahnemann toasted Sponge was first mentioned as a specific for goiter by the alchemist, Arnold Von Villanova in the thirteenth century, but it was generally given mixed with other substances and had fallen into disuse when Hahnemann proved it.

The virtues of Spongia have been attributed to the Iodine contained in it and partially liberated by the presence of roasting. But Spongia contains many other elements besides Iodine and it has a distinctive action of its own.

Homeopathic

Spongia affects the heart valves, larynx, trachea and glands especially ductless. A remedy especially marked in the symptoms of the respiratory organs, cough, croup.

Heart disorders and often indicated for the tubercular diathesis.

One of the keynotes of Spong. is dryness of mucous membranes of tongue, pharynx, larynx, trachea. Cough is caused by dryness.

PAGE 1593

The dry coughs intensely hacking, crowing, "dry as a bone," or sounding like a saw being driven through a pine board. Dry asthma.

Anxiety and difficult breathing. In laryngismus, croup and asthma the patient rouses up generally after midnight with fear of suffocation and death. The sputa cannot be raised, must be swallowed, swallowing relieves.

In laryngismus there is contraction of larynx as if suddenly grasped.

With the difficulty breathing there is terrible sinking, he seems to be sinking down in a pit. The larynx is sensitive, but has not the hyperesthesia of Lach. Like Lach. Spong. has worse after sleep. Rouses up in sleep as if in a great fright. Cough is excited by talking, by dry, cold winds, better by eating or drinking, by swallowing, especially better by warm food.

Anxiety with pain in the region of heart or dyspnea. Hypertrophy of the heart is frequently met by Spong. It is indicated when the right heart is affected and when asthmatic symptoms are associated with it. Dry, chronic, sympathetic cough of organic heart disease. Thyroid gland as if hardened. As if everything were shaking and moving about in goiter.

Exhaustion and heaviness of the body with slight exertion, he must lie down with orgasms of blood to chest, face etc. Feels stuffed up. Hard swelling of glands, thyroid. Clothes feel uncomfortable. Numbness lower half of the body. Stiff without ability to move. Faint, when losing her breath, on raising hands above head.

Clinical

Aneurysm. Angina pectoris. Asthma. Bronchitis. Catalepsy. Chin disorders. Clumsiness. Colds. Constipation. Coughs. Croup. Diplopia. Exophthalmos, Fainting. Goiter,

exophthalmic. **Heart**, hypertrophy. Hernia. Jaw-joint, pain. Laryngismus.

Laryngitis. Lung disorders. Myopia. Rheumatic fever. Rheumatism. Testicles inflammation. Tuberculosis. Varicose veins. Whooping cough. Worms.

Constitutions

It is antidotal to Iod. in this respect, that it is best suited to blue-eyed, fair-haired patients, whereas Iod. acts best on brunettes. Children with fair complexion, lax fiber, swollen glands. Suited to scrofulous disorders and is often indicated with women of lax tissue and children. **Planets:** Mercury, Sun.

Modalities

Better descending, lying with head low. Better resting in horizontal position. Better eating or drinking. Better warm food or drink. Frosty weather helps the cough. Worse from dry, cold, wind. Worse being aroused from sleep after sleep. Worse from exertion, raising the arms, sweets. Worse ascending, full moon, before midnight. Worse by touch and pressure. Worse motion, walking, stooping, rising, raising arms. Worse talking, singing. Lying right side aggravates. Worse at night, before midnight. Worse warm room. Worse after sleep.

Symptoms

MIND

Timidity, fear and terror are leading mental symptoms. Any excitement and thinking of symptoms aggravate. Anxiety, fear of death from suffocation. Every excitement increases the cough. Fear of future, tired of life. Timidity, fear and terror. Weeps with dreams, whooping cough, fever, sweat. Despondent about loss of sexual power. Obstinate and improper behavior. Irresistible desire to sing with excessive mirth, followed by sadness.

Abdomen

Violent action of abdominal muscles during inspiration. Viscera drawn up against diaphragm. Pain in abdomen instead of menses.

Back

Neck as if a cord about. Pain in sacrum instead of menses. Cramps in the muscles of neck. Coldness in back, not better by warmth of stove.

Chest

Chest weak, can scarcely talk, choking on falling to sleep. Oppression and heat of chest with sudden weakness. A fixed, sharp and pressive pain. Spasmodic, constrictive pains. Fullness and obstruction in chest. Shootings in chest. Burning, rawness, soreness in chest.

Ears

Otalgia with contractive pain. Pressure in ears. Ulceration of external ear. Boils on left ear painful to touch. Inflamed nodule in left concha. Heat in ears. Hard of hearing. Dull ringing in ears.

PAGE 1594

Eyes

Protrude, staring. Diplopia better lying down. Red with lachrymation and burning. Watering, gummy or mucus discharge.

Face

Terrified, anxious expression. Blue lips. Pale from exercise instead of ruddy glow. Cold sweat on chin. Chin numb.

Female

Awakes with suffocative spells during menses. (Cupr., Iod., Lach.) Amenorrhea with asthma. (Puls.) Hunger and palpitations of heart before menses. Pain in sacrum before menses or instead of menses.

Food

Desire for dainties. Excessive thirst, great hunger. Sweets aggravate.

Head

Rush of blood, bursting headache, worse forehead. As if hair were standing on end, on vertex. Heaviness and fullness of head. Headache with lachrymation. Pressing headache. Throbbing and pulsation in head. Sensation as if hair were standing on end. Violent itching in scalp.

Heart

The dry, chronic sympathetic cough or organic heart disease is relieved by Spongia. (Naja.) Rapid and violent palpitations with dyspnea, cannot lie down, also feels best resting in horizontal position. Awakened suddenly after midnight with pain and suffocation is flushed, hot and frightened to death. (Acon.) Angina pectoris, faintness and anxious sweat. Blood surging up to neck, head and face with closure of eyelids and tears. Surging of heart into chest, as if it would force out upward. Hypertrophy of heart, especially right with asthmatic symptoms. Valvular insufficiency. Aneurysm of the aorta. Rheumatic endocarditis. Pulse frequent, hard, full or feeble.

Limbs

Fingers numb. Numbness of lower half of the body. Thighs numb and cold. Pain in the knees, when rising from kneeling. Thickening of joints after rheumatic fever.

Lungs

Anxious, gasping breathing. Feels as if he had to breathe through a dry sponge. Asthma. Diphtheria. Croup. Noisy, whistling inspiration on falling to sleep. Suffocation, as from a plug, valve or leaf. Great dryness of all air-passages. Cough, dry, barking, croupy, larynx sensitive to touch. Croup, worse during inspiration and before midnight. Respiration short, panting, difficult, feeling as if plug in larynx. Cough abates after eating or drinking, especially warm drinks. Irrepressible cough from a spot deep in chest, as if raw and sore. Bronchial catarrh with wheezing, asthmatic cough, worse cold air with profuse expectoration and suffocation. Asthma must throw head back, worse full moon.

Male

Screwing, squeezing or stitches up into cord and testes. Orchitis. Testes hard and swollen. Genitals hot. Fistulous opening in scrotum with little thick white discharge. Swelling of spermatic cord and testicles with pain and tenderness. Epididymitis.

Mouth

Taste sweetish. Tongue dry and brown. Mouth and tongue covered with vesicles. Burning pain. Salivation. Speech difficult. Vesicles on edge of tongue.

Nose

Dryness, chronic, dry, nasal catarrh. Dry coryza, nose feels stuffed up. Nose pinched, cold. Nostrils wide open, fan like motion. Fluent coryza, alternating with stoppage.

Rectum

Hard and retarded evacuations. Loose, whitish evacuations. During the evacuation tenesmus in the anus. Itching, smarting and pain as from excoriation in anus. Passage of ascarides from rectum and tingling in rectum. Diarrhea with ascarides.

Sensations

As if head would fall to one side. As if tipsy. As if skull would burst. As if hair were standing on end. **Eyes** as if twisted around. As if a battery of guns were discharged in ears. Stitches as if passing through tympanum. As if skin of neck were compressed between fingers.

As if air were passing up and down thyroid and cervical glands.

PAGE 1595

Skin

Biting itching of the whole body. Swelling and induration of glands, also exophthalmic, cervical glands swollen with tensive pain on turning head, painful on pressure, goiter. Itching, measles.

Sleep

Generally worse after sleep or sleeps into an aggravation. (Lach.) Awakes in a fright and feels as if suffocating with terror and fear. Sleeplessness with fantastic dreams and delirium on going to sleep. Sad, anxious, frightful dreams.

Stomach

Cannot bear tight clothing around. Stomach feels flaccid as if standing open. Chill in pit of stomach. Sour regurgitations. Frequent hiccough. Nausea with acidity in mouth. Vomiting after having partaken of milk.

Temperature

Attacks of heat with anxiety, heat and redness of face and perspiration. Heat in flushes with anxiety, cardiac pain, would rather die with cold moist thighs, worse thinking of it. Heat and sudden weakness after walking in open air, he must lie down.

Throat

Burning and stinging. Stitches and dryness. Hoarseness with many complaints, cough, coryza. Larynx, painful, dry, constricted worse touch, singing, talking or swallowing, he grasps it. Voice gives way when singing or talking. Taste bitter. Soreness of the throat, worse eating sweet things. Clears throat constantly. Throat symptoms better lying on back. Laryngeal tuberculosis. Goiter with suffocative spells, worse touching neck or pressure or pains with heart. Swallows water in small quantity and with difficulty. Numb externally. Thyroid gland swollen, even with the chin.

Vertigo

Vertigo with giddiness to such an extent as to fall. Vertigo with a sensation as if head were about to fall on one side. Vertigo with nausea, on waking at night.

Comments

Spong. meets some cases of true tuberculosis of larynx of apices with commencing solidification, tubercles spreading downwards. Congestion of chest coming on when the patient is moving about with sudden weakness as if he would fall. Rawness in the chest is another note of Spong.

The action of Spong. on the respiratory organs is closely connected with its action on the glandular system, the lymphatics, the thyroid and testes are indurated. The blood, heart and veins are also involved and with the protruding eyes a perfect picture of exophthalmic goiter is produced.

Spong. meets some cases of croupy deposits on the valves of the heart as it does croup of the larynx. The Spong. patient in tubercular and other conditions is subject to frequent flashes of heat.

The chill commences usually across the back. He shakes near a warm stove. The heat which follows extends over the whole body except the thighs, which remain numb and chilly.

In the heart disorders the patient is aroused from sleep as if smothering, sits up in bed with an anxious look, flushed face and hard, rapid breathing. Kent gives this indication: "Rheumatic fever after having been over-heated with arising heart complications."

Nash gives this keynote of Spong. in valvular diseases: "Awakes out of sleep from a sense of suffocation with violent, loud cough, great alarm, agitation, anxiety and difficult respiration." He says it is better than Lach. here and relieves the "dry, chronic, sympathetic cough of organic heart disease" more frequently and more permanently than Naja. Psor. meets also thickening of joints after rheumatic fever.

In orchitis with heaviness and screw-like squeezing pain in cord and testicle, Spongia is the chief remedy, though others are generally needed before that stage is reached.

PAGE 1596

There is excitement of the nerves, tendency to start, twitching of muscles with fever. Stiff without ability to move. "Conscious but unable to act on her limbs" as in a cataleptic state. Clumsiness of body. Faint when losing her breath. Feeling of numbness of lower half of body.

Boenninghausen's croup powders consisted of a sequence of Acon., Spong., Hep., given in that order. Spong. is dry, Hep. rattling, Spong. worse before midnight, Hep. worse after midnight.

Squilla maritima

(sea-onion)

Pharmacy

Squil. Squilla maritima. Sea onion. Squill. N. O. Liliaceae. Red variety. Tincture of fresh bulb. Acetum. Historical dose: Tincture and all potencies, first to third potency.

History

Squilla maritima grows on the shores of the Mediterranean Sea and has had a place in medicine from the most ancient time. The genus Squilla is distinguished from Allium by having the flowers inserted one above the other on the scape and from Ornithogalum by having the petals deciduous.

If much handled Squilla irritates the skin and in large doses excites nausea, strangury, bloody urine and hemorrhoids. Fatal inflammation, gangrene of stomach and bowels in small doses.

Squil. promotes expectoration and urine in large doses, vomiting and purging, (Green's Herbal). "Its cardiac action is exactly the same as that of Digitalis". An old rule runs: "Put squills in every cough-mixture."

The continuous use of squills seems to cause teeth and gums to ache, (Cooper).

"Diuretic, expectorant, emetic, cathartic and a narcotic-acrid poison in large doses it produces inflammation of the alimentary and urinary canals and a dose of 24 grains has proved fatal" (Mile).

According to Hamilton, Avicenna employed Squil. "in complaints of the gums in inveterate coughs in diseases of the spleen in dropsy and jaundice and forbids its use in ulceration of the viscera," the last caution also being mentioned by Celsus.

The reputation of Squilla as a splenic was revived by Rademacher, whom Burnett quotes: "I have found it quickly and surely helpful in painful spleen diseases disorders painful and beyond any doubt in and of the spleen. In those dull pains on the border of the left hypochondriac and epigastric regions, there being no signs of any liver affection, I have used Squil. as a remedy with advantage."

Rademacher also mentions as cured by Squil. (a) those so-called "stomach pains" that are made much better by lying on the left side and probably in reality splenic, (b) one case of asthma from a splenic affection with nocturnal exacerbation, (c) (possibly) splenic dropsy.

Burnett has improved on Rademacher's teachings and applied Squil. successfully in cases of spleen-cough. Hahnemann's proving brought out many symptoms, apparently arising from the spleen, notably stitches under the free ribs of the left side. **Planets:**

Mercury, Saturn.

Homeopathic

Squill. affects the serous and mucous membranes of respiratory and digestive tract and acts also on kidneys, heart and spleen. A spleen medicine.

It is a slow acting medicine and is useful for those conditions which require several days to reach their maximum.

PAGE 1597

Squill. corresponds to ailments requiring several days to reach their maximum. Persistent, dull, rheumatic pains permeate the body. A spleen remedy, stitches under left free ribs. Important heart and kidney medicine. Broncho-pneumonia. Valuable in chronic bronchitis of old people with mucous rales, dyspnea and scanty urine.

Exudations and profuse secretions. Dropsy with profuse urine. Gurglings. Cardio-urinary effects. Action is just like Digitalis, follows Digitalis when it fails to relieve dropsical conditions.

Clinical

Angina pectoris. Ascites. Asthma. Bright's disease. Bronchitis. Conjunctivitis, phlyctenular. Coryza. Cough, catarrhal. Diabetes insipidus. Dropsy, splenic. **Eyes**,

disorders. Fidgets. **Heart**, palpitations. Hydrothorax. Lungs, disorders. Measles. Pleurisy. Pneumonia. Spleen disorders. Toothache. Urine, excessive. Whooping cough. Worms.

Modalities

Better from rest, sitting up, expectoration even a small quantity. Better by rest, lying down in bed, wrapping warmly. Worse early morning. Worse motion, uncovering. Worse inspiration, coughing. Drinking cold water causes cough. Worse exertion, ascending, cold air. Worse from coughing.

Symptoms

MIND

Angry about trifles. Aversion to mental and bodily labor. Great anxiety of the mind. Fear of death.

Abdomen

Rumbling and gurgling in paroxysms above pubic region, better eating. Aching in hypochondria. Painful diseases of the spleen. Cutting pain in abdomen. Bubbling sensation in muscles of right side. Frequent discharge of fetid flatulence. Rumbling and gurgling in paroxysms above pubic region, better by eating. Ascites with scanty urine.

Back

Bubbling beneath scapula. Stiffness of nape of neck. Painful jerking above left scapula. Drawing in left scapula.

Chest

Stitches in chest. Perspiration in armpit.

Ears

Tearing behind left ear. Tearing pains in both ears.

Eyes

Left eye looks much smaller than right. Child rubs eyes and face much, as if to relieve itching in brain affectations, measles. As if swimming in cold water. **Tears with cough.** Staring look, eyes wide open.

Face

Changeable expression and color of face. Child rubs the face with fist during cough. Distorted countenance. Humid, spreading eruption on upper lip. Black, cracked lips and black teeth. Lips twitch and are covered with yellow crusts.

Female

Atony of the cervix, uterus. Hemorrhage from uterus.

Food

Thirst for cold drinks. Drinks in sips during dyspnea. Insatiable appetite. Longing for acids. The food tastes bitter, especially bread. Tastes sweet, especially soup and meat. Tastelessness of tobacco when smoked.

Head

Headache in morning on waking, with pressing pains. Painful sensitiveness of vertex every morning. Pulsation in head when raising it. Stinging headache.

Heart

A cardiac stimulant affecting the peripheral vessels and coronary arteries. Pulse small and slow, slightly hard.

Kidneys

Frequent calls to urinate at night, passing large quantities. (Ph-ac.) Bloody urine. Feces escape when urinating. Great urging, much watery urine. involuntary spurting of urine when coughing. (Caust., Puls.)

Limbs

Hands and feet cold, body hot. (Meny.) Feet get sore from standing. Tender feet with shop girls. Nails become brittle and split. Feet get sore from standing.

Lungs

Fluent coryza, margins of nostrils feel sore. Sneezing, throat irritated, short, dry cough, must take a deep breath. Wheezing. Cough, stubborn, dry, rattling, disturbs sleep. Child rubs face with fist during cough. (Caust., Puls.) Cough provoked by taking a deep breath or cold drinks from exertion.

Cough change from warm to cold air. Sneezing with coughing. Cough of measles. Dyspnea and stitches in chest and painful contraction of abdominal muscles. A profuse, salty, and a slimy expectoration. Expectoration, easy, heavy, difficult in small round balls of sweetish taste, white or reddish offensive. Pleurisy. Broncho-pneumonia. Splenic asthma. Violent, exhausting cough with much mucus, with involuntary spurting of urine and sneezing.

PAGE 1598

Male

Erotic pollutions. Dull stitches in glans causing anxiety. Compressive pain in testicles.

Mouth

Black spots on teeth. Taste, sweet of food, especially soup and meat. Bitter taste to bread. Open, dry mouth. Increased saliva. Scraping, burning on palate. Vesicles on tongue.

Nose

Violent sneezing with fluent acrid coryza. Sneezing during cough. Copious running worse in morning. Coryza with ulcerated nostrils. Humid eruptions under nose with itching.

Rectum

Painless constipation. Passes thread worms and white tissues with tenesmus. Stitches in anus when walking. Itching in anus. Stools dark, brown, frothy, very offensive. Diarrhea, stool very offensive, watery.

Sensations

Eyes as if swimming in cold water. Nostrils as if sore. As if diarrhea would set in. As if chest too tight. Tickling creeping in chest. As if intestines would burst through abdomen. Stitches are very prominent: in teeth in chest in head.

Skin

Handling the fresh squills caused blisters. Eruptions like itch, with burning-itching. Small red spots all over the body with pricking pain. Soreness in the bends of the joints. Hard swellings. Gangrene.

Sleep

Frequent yawning without sleepiness. Restless sleep, with much tossing about. Dreamed that his body was excessively swollen.

Stomach

Constant nausea in pit of stomach. Pressure in stomach as from a stone. Nausea during the morning cough. Stomach pains are better lying on left side.

Temperature

Heat with aversion to uncover. Sweat absent. Chill internally at night with external heat. Heat, dry, burning, internally predominates. Whenever he uncovers himself during the fever he suffers from chilliness and pain. Perspiration wanting, even during the violent burning heat.

Throat

Burning in mouth and throat. Irritation in throat causing constant cough. Dryness in throat. Pain in submaxillary glands.

Vertigo

Vertigo in the morning with nausea. Vertigo as if he would fall sideways on rising from bed. Cloudy dizziness.

Comments

Burnett used the Acetum Squil. and Clarke gave this (five drops of in water three times a day) with excellent effect in the case of an elderly lady, very gouty, who had a distressing paroxysmal cough with a pain extending from splenic region into the throat. The cough caused the eyes to pour with tears. Besides relieving the cough, Squil. indication: The cough causes sneezing, flow of tears, spurting of urine and even involuntary stools.

The kidneys are acted on by Squil. and many of the traditional uses of the drug have been with the idea of eliminating dropsical effusions by reproducing a great flow of urine. Hahnemann pointed out that the excessive flow of urine accompanying dropsy and other complaints was one of the best indications for its use.

Boger adds the heart to the organs primarily affected by Squil. He gives these cases: (1) Mr. B. suffered from angina pectoris, forcible cardiac contractions, profuse urine, much loose mucus in throat and trachea, heart pain indefinite but very severe. Squil. 30c relieved in a few hours and kept him free from an attack for three months.

(2) Miss L., pleuro-pneumonia, pulse 132, temperature 103 F, respiration 30, must sit erect in bed. Stitching pains in left chest, constant hacking cough.

Frequent, hot, scanty urine, great weakness and anorexia. Squil. 100,000c cured.

(3) Boy, 7, hay fever for third year in succession. Teeth show black marks, constantly rubs eyes and sneezes, bloated about eyes and face, loose cough. Under Squil. there was complete relief in two days and no further trouble that season. The italicized symptoms in this case are very characteristic.

Boger mentions that Lippe notes "Black teeth" as a symptom of Squil. Boger adds that the nails become brittle and split and that veterinarians use Squil. for cracked hoof in horses.

The use of Squil. as an "expectorant" depends on its power of producing free secretion from the respiratory mucous membranes: in homeopathy this free secretion is one of the leading indications. Hering says Squil. is suited to the pleurisy and pneumonia that follow blood-letting.

Compare

(1) Headache, worse motion, chest symptoms, Bry.

(2) Bry. cough is worse change to warm, Squil. cough worse change to cold air.

(3) Stitches, swollen upper eyelids, Kali-c.

(4) Cold drink causes or worse cough, Lyc., Sil. (better by cough, Caust.).

(5) Expectoration sweetish and offensive, Calc., Stann.

(6) Spurting of urine when coughing, Caust. Alum., Con., Nat-m., Puls.

(7) Dig., Strophant., Apocyn. can., Bry., Kali-c.

Stannum iodatum

(iodide of tin)

Pharmacy

Stann-i. Stannum iodatum. Iodide of Tin. Trituration. Historical dose: All potencies, low potencies in 2x or 3x.

History

Stannum iodatum is valuable in chronic chest diseases characterized by tissue changes. It is valuable in chronic chest diseases with persistent inclination to cough. It is indicated in cases that 'hang fire' and need an alternative.

Stann-i. has been used in preference to Stannum met. in some tubercular cases in which the general features of Stan. were present. **Planets:** Mercury.

Homeopathic

Stann-i. has a persistent inclination to cough, excited by tickling dry spot in the throat, apparently at root of tongue. Dryness of throat. Tracheal and bronchial irritation of smokers. Pulmonary symptoms, cough, loud, hollow, ending with expectoration, (Phelland.) State of purulent infiltration.

Advanced tuberculosis sometimes when Stann-i. has not taken effect, an additional dose of Iodine in milk caused the drug to have its usual beneficial effect. (Stonham.)

Clinical

Coughs. Tuberculosis.

Symptoms

Chest

Feeling of dryness, weakness in chest and throat and increased oppression.

Lungs

Persistent cough, excited by tickling, dry spot in the throat. Cough beginning with a weak sounding cough with short breath, soon gathers strength and sound. Coughs up a copious, pale yellowish expectoration. Consolidation in middle of right lung.

Comments

O. S. Haines considers Stann-i. especially indicated where the patient "has a clear complexion and long eyelashes and where the progress of the disease is rapid." He uses the 2x trituration. M. D. Youngman finds it a deeply acting drug, chiefly of value in chronic chest diseases characterized by plastic tissue changes.

Stann-i. is indicated in cases that "hang fire" and need an "alterative."

He gives this keynote: "A persistent inclination to cough. Cough excited by a tickling dry spot in the throat, sometimes in one place, sometimes in another often apparently at root of tongue."

PAGE 1600

This cough, which begins as a weak-sounding cough, accompanied by shortness of breath. The cough soon gathers strength and sound and induces raising of a free, copious, pale yellowish expectoration, which at first aggravates. But is soon followed by a feeling of dryness, weakness in throat and chest and increased oppression.

An inveterate smoker, who had a cough of this kind, said it came from his throat and ascribed it to his smoking. Youngman found consolidation areas in middle of right lung. There was weak feeling in chest after coughing. Stann-i. 3x trituration. greatly relieved. The man was sent to a high altitude, where he enjoyed perfect health and was freed from his smoking habit.

SOURCES

Clarke.

Stannum metallicum

(tin)

Pharmacy

Stann. Stannum metallicum. Tin. Trituration of the pure metal. Historical dose: All potencies, third to thirtieth potency.

History

Stannum is the Jupiter of the Alchemists. "The ancients have recorded wonderful cures of the most serious diseases with Tin," says Hahnemann, but in his day, until he proved it, its main use was as a vermifuge.

Alston obtained indirectly from "a woman of Leith in Scotland" this prescription of which he has witnessed the efficacy in a case of tapeworm:

"Take an ounce and a half of Tin (pewter metal) and grind it small to powder, mix it with sugar syrup and take, on a Friday before the change of the moon, one-half of it, the

following day the half of the remainder and the Sunday following the rest, but on the Monday a purgative."

Alston also says in his *Materia Medica*, that he has seen hematemesis cured by this as if by magic.

Homeopathic

The chief action of Stann. is centered upon the nervous system, causing weakness the in chest, throat, stomach, upper arms and thighs.

Acts upon the nervous system and respiratory organs and liver. Debility is very marked when Stann. is the remedy. Talking causes a very weak feeling in the throat and chest. The debility of chronic bronchial and pulmonary conditions, characterized by profuse muco-purulent discharges upon tuberculosis basis.

Stann. acts upon the nervous system, causing extreme weakness which is felt in chest, throat, stomach, upper arms and thighs, the patient is unable even to talk, drops into a chair instead of sitting down, trembles on moving. Weakness is felt much more on going downstairs than going up. Paralytic heaviness or weakness.

Pains that come and go gradually, call unmistakably for Stannum. Paralytic weakness, spasms, paralysis. Spasms with pain in abdomen and diaphragm, epileptic with tossing of limbs, clenching of thumbs, opisthotonos, unconsciousness and sexual complications.

Affections of mucous membranes produces yellow, muco-purulent secretions. Pains increase gradually and gradually subside. Pressive drawing pains. Neuralgia, diaphragmatic, suppressed.

Cramps, Hysteria. Emaciation. Girdle sensation with yawning. Child wants to be carried across shoulders. Trembling more from slow motion or exercise. Paralysis from worms after spasms, emotions, onanism. Hemiplegia, part constantly moist. The secretions of Stann. are bland.

Clinical

Anemia. Asthma. Bronchitis. Chilblains. Colic. Convulsions. Cramps. Debility. Dentition. Diaphragm, pains. Dyspepsia. Ears, ring-holes, ulceration. Epilepsy. Gastralgia. Hematemesis. Hemoptysis. Headache. Hectic fever. Hemiplegia. Hypochondriasis. Hysteria.

Lachrymal fistula, suppuration. Milk, altered, Nails, splitting. Neuralgias. Neurasthenia. Nosebleed. Opisthotonos. Paralysis. Ptosis. Sleeplessness. Styes. Tapeworms. Trachitis. Tuberculosis. Uterus, prolapsed. Vagina, prolapse. Voice, weak. Worms.

Causations

Ill effects of emotions, fright, masturbation, dentition, using voice.

Constitutions

Tubercular constitutions. **Planets:** Jupiter, Mercury.

Modalities

Pains are better walking, but must soon rest. Better by pressure, open air. Better lying across something hard. Better from coughing or expectorating. Better from rapid motion, bending double. Worse using voice, laughing, talking, singing. Worse from cold, 10 a.m. after gentle motion. Worse lying on right side. Worse from warm drinks during stool. Worse going downstairs, ascending. Worse by touch.

PAGE 1601

Symptoms

MIND

Sad and discouraged. Dread of seeing people. Very sensitive as to what others say about her. Anxious, nervous, sad worse before menses. Miserable and discouraged. Cannot get rid of an idea once fixed in her mind. Taciturn and dislike to society. Sudden fits of passion. Forgetful and absentminded. Uneasy, knows not what to do with himself. Hopeless, despondent, feels like crying all the time but crying aggravates.

Abdomen

Incarceration of flatus. Abdomen painfully distended and sensitive to touch. Cramp-like colic around navel with a feeling of emptiness. Colic relieved by hard pressure. Colic in children better by carrying them on shoulder. Cutting, pinching colic with hunger and diarrhea, which exhausts, better hard pressure. Spasmodic pain in abdomen, hysterical.

Back

Stitches in back in small of back and into limbs. Opisthotonos. Weakness of the muscles of the nape of the neck.

Breasts

A child leaves the breast of its mother and will not nurse. (Sil.)

Chest

Chest feels weak, can hardly talk. Chest feels raw or hollow. Soreness. Stitches in left side of chest, when breathing or lying on that side. Knife like pains, below left axilla. Diaphragmatic neuralgia, hysterical.

Ears

Cracking, shrieking noise in ear when blowing the nose. Ulceration of earring hole. Earache with drawing tearings. Ulceration of holes pierced for earrings. Tinkling in ears. Ringing in left ear. Screeching in ears, on blowing nose.

Eyes

Sunken, dull. Ptosis. **Eyes** sore. Burning lancinations in lids. Itching, smarting and burning sensation in eyes. Nocturnal agglutination of lids. Styes. **Eyes** dull and clouded. Jerking and quivering of eyes.

Face

Pale. Prosopalgia. Malar neuralgia, at menses. Swelling of cheeks and upper jaw. Spasm in jaw. Painful swelling of submaxillary glands.

Female

Strong odor of body during menses. Menses early and profuse. Bearing-down sensation. Prolapse uterus and vagina, worse stools. Prolapse with weak, sinking feeling in stomach. (Sep.) Uterine symptoms with a weak, drawn sensation in the chest. Pain in vagina upward and back to spine. Leucorrhea, gushing with much debility of yellow-white or transparent mucus. Scratching of distant parts (of arms) produce an intolerable sensation of pleasure in genital organs producing orgasm. Increased sexual desire, early orgasm.

Food

Increased hunger, which cannot be satisfied. Increased thirst. Hunger. Smell of cooking causes vomiting. Bitter taste of all food. Bitter, herbaceous taste of beer. Nausea and vomiting after a meal. Excessive weakness of digestion.

Head

Severe, painful constriction in forehead and temples. Aching in temples and forehead. Obstinate acute coryza and influenza with cough. Pains worse motion, gradually increasing and decreasing.

Pressive and stupefying headache. Jarring of walking resounds painfully in head. Drawing pains in malar bones and orbits. Ulceration of ringhole in lobe of ear. Migraine of cerebral origin, better by vomiting. Violent, glowing, beating pains, as if the head would burst with inward blows.

Heart

Pain in precordial region and hiccough.

PAGE 1602

Kidneys

Dull stitches inward in kidney region. Insensibility of the bladder, only the sense of fullness indicates the necessity to urinate. Atony of bladder. Retention of urine. Blister on margin of meatus.

Limbs

Paralytic weakness, drops things. Swelling of the hands and ankles. Spasmodic twitching of muscles of forearm and hand. Cramps in hands, cannot let go the broom. Fingers jerk when holding pen. Typist's paralysis. Contraction of fingers, retraction of thumbs. Neuritis. Aching in deltoid from reading. Limbs suddenly give out when attempting to sit down. Tremulous knees. Ankles swollen.

Liver

Burning in liver. Weak liver, poor digestion. Bitter and sour taste. Pressure and burning sensation in hepatic region.

Lungs

Short breath from even effort, must loosen clothes. Takes deep breath. Hoarse, mucus expelled by forcible cough. Violent, dry cough in evening until midnight. Cough excited by laughing, singing, talking, worse lying on right side. Influenza cough from noon to midnight with scanty expectoration. Much mucus in trachea. During day with copious green, sweetish, expectoration. Respiration short, oppressive, stitches in left side when breathing and lying on same side. Expectoration, easy, quantities of sweet, salty, sour, putrid or bright yellow pus or ball of mucus. Hemoptysis with copious expectoration. Catarrhal tuberculosis. Bronchiectasis. Retching with coughing. Cannot walk, cannot do anything without coughing.

Male

Increased sexual desire. Voluptuous feeling in genitals ending in emission, which exhausts. Frequent pollutions with excessive prostration.

Mouth

Bitter and sour taste. Tickling at the root of the tongue. Taste sour, sweet, bitter to all food except water. Fetid exhalation from mouth. Flow of acid saliva. Difficult, weak speech, occasioned by weakness. Tongue coated with a yellowish mucus. Tongue yellow. Tongue red.

Nose

Oversensitive to smell. Heaviness and sensation of obstruction. Burning sensation in nose. Nosebleed on moving, on rising from bed. Dry coryza on one side only.

Rectum

Burning in anus, constant itching. Constipation. Stools are dry, hard, knotty. Stools insufficient and green. Frequent ineffectual want to evacuate. Monday constipation, occurring after working days. Stools are green, curdy with colic. Hard, dry, knotty feces or else scanty and greenish. Passes worms.

Sensations

As if all objects were too far off. As if forehead were shattered. As if forehead would be pressed inward. Chest, as if eviscerated, as if internally constricted. Epigastric region as if beaten. Tickling as from soreness in trachea. Inclination to hawk as if mucus were in chest. As if she would faint. As if limbs beaten. As of a heavy load in affected arm and side of chest. As if sweat would break out.

Skin

Itching, burning, shootings over skin of whole body. Itching pimples, on face, sore to touch or on washing. Chilblains. Flaws in nails. Painful hang-nails.

Sleep

Nocturnal agitation and many vivid dreams, anxious or lascivious. Moaning, weeping and plaintive lamentations, while sleeping. Sleeps with one leg drawn up, the other stretched out.

Stomach

Bitter taste. Pain better pressure, but sore to touch. Sensation of emptiness in stomach. Smell of cooking causes nausea and vomiting. Vomiting, violent of blood or bile, early in the morning with odor of ingesta. Sensation of emptiness in stomach. Uneasy feeling.

Teeth

Toothache after a meal with jerking pain and heat in the face. Sensation of elongation and looseness in teeth. Ulcer on gums with swelling of cheeks.

PAGE 1603

Temperature

Chill 10 a.m. with numb fingertips. Burning palms and soles. Hectic fever. Debilitating, musty sweat at 4 a.m. Heat in evening, exhausting night-sweats, towards the morning. Perspiration, principally on forehead and nape of neck, debilitating, smelling musty or offensive.

Throat

Voice, deep hollow, hoarse, better hawking mucus. Cutting pain when swallowing. Nausea in throat. Much adhesive mucus, difficult to detach, efforts to detach cause nausea. Throat dry and stings. Sore-throat, as from an internal swelling. Cutting in pharynx and esophagus on swallowing.

Vertigo

Dizziness and weakness when descending. Vertigo, all objects seem too far off. Vertigo on sitting down with loss of ideas.

Comments

Hahnemann's Stann. proving appears in his *Materia Medica Pura* and in his *Chronic Diseases*. A number of worm symptoms appear: Sinking, empty, all-gone feeling, diaphragmatic and abdominal pains, tendency to excessive mucous secretions, pale, sunken, sickly countenance with dark rings round eyes, convulsions.

Many of these symptoms occur in conditions not due to helminthiasis and Stann. will be the remedy. Pains associated with the hypochondriac or hysterical mental state.

Diaphragmatic neuralgia. Colic better by hard pressure, as by laying the child with its

abdomen across the knee or on the point of the shoulder. This is one of the keynotes of Stann.

The most important one is in the type of the Stann. pains: they begin lightly increase gradually to the highest point and then as gradually decline. Other remedies have pains of this type but not to the same characteristic degree. This feature applies to the headaches, facial and dental neuralgias, abdominal and other pains.

Another cardinal feature of Stann. is weakness: exhaustion of mind and body. The chest is so weak as to make talking impossible. The patient is so weak, she drops into a chair instead of sitting down. While dressing in the morning has to sit down several times to rest.

There is weakness and aching of the deltoid and arm and this has the curious modality that it is felt when signing or otherwise using the voice.

Stann. is an important remedy for singers and public speakers. The weakness of Stann. makes it an appropriate remedy for many states of neurasthenia, nervous exhaustion. A peculiarity of the weakness is that it is felt much more on going down stairs than on going up. The relaxation of tissue is probably responsible for the weak, empty, sinking sensation felt at the epigastrium and also for the uterine prolapse.

In the dyspepsias of Stann. there is nausea and vomiting from the smell of cooking and the stomach pain compels the patient to walk about for relief, yet the weakness is so great that he is soon compelled to rest.

The weak, empty feeling in the chest is one of the keynotes of Stann. in tubercular conditions and the stitches are another, hectic fever, deep, hollow, shattering cough, expectoration, profuse like white of egg, sweetish, salty, sour putrid, musty, yellow-green pus, deep, husky, hollow voice, better for the time by hawking or expectorating mucus make up the rest of the picture.

Stann. is a low spirited remedy and when tubercular patients are despondent and without hope, (they are usually the reverse) Stann. will most likely be needed. Trembling of arms and legs, limbs as heavy as lead.

PAGE 1604

The yellowness of the Stann. secretions is worth nothing: The tongue is yellow, sputa and leucorrhoea are also yellow. Palpitations and anxiety occur from ever so slight exertion, as giving directions about the household.

The pains of Stann. are frequently compressive and cramp-like and cramps and spasms are a marked feature of the Stann. effects. The convulsions are opisthotonic, the thumbs are drawn in. They are such as are met with in teething children or in children who masturbate or who have worms.

A typical case of Stann. neuralgia is quoted in Clinique: Man, 30, suffered for eight years off and on and for some months continuously with neuralgic headache. Pain centers over one or other eye (usually right) and extends over whole or part of head and is at times unbearable. It begins in early morning, (4 to 5 a.m.) increases gradually to noon, when it gradually declines to sunset, reappearing again the following morning. Two doses of Stann. cured in a fortnight.

There is sexual excitement in both sexes. Emissions with excessive prostration. In the female the menses are early and profuse. Orgasm is easily produced: "Scratching arm produces an intolerable sensation of pleasure in genital organs which extends to uterus and produces orgasm."

The uterine and vaginal prolapse of Stann. has this distinguishing feature: it is worse during stool, especially during pressure. Labor pains are spasmodic and put the patient out of breath.

The milk of nursing woman is changed and the child rejects it. Hering gives as cured by Stann. "Monday constipation" that is, constipation occurring on days following rest-days. Stann. has marked periodicity.

T. H. Urquhart cured in two months an affection of the nails characterized by breaking and splitting, a sequel of scurvy, by applying to them Stannum oleate on a narrow flannel bandage.

Staphylococcinum

(bacteria)

Pharmacy

Staphycoc. Staphylococcus bacteria. Staphylococcinum. Historical dose: All potencies.

History

Morbid conditions, then, where the staphylococcus pyogenes aureus or albus or citreus is notably symbiotic or is the direct and chief bacterial factor. **Planets:** Saturn.

Homeopathic

Staphycoc. is used for diseases where the staphylococcus bacteria is the chief bacterial factor, as acne, abscess, furuncle, empyema, impetigo, endocarditis. Allergic conditions. Psoric and sycotic. Pre-diabetic conditions. Syndrome of acute septicemia. Oscillating fever with great chill, general condition is weakened, an enlarged spleen. Radiculitis. Myelitis. Meningitis. Abscess of the brain.

Clinical

Acne. Abscess. Aortitis. Carbuncle. Cellulitis. Conjunctivitis. Dacrocystitis. Edema. Endocarditis. Empyema. Furuncle. Impetigo contagiosa. Kidney disorders. Lymphadenitis. Mastitis. Mastoiditis. Osteomyelitis. Parotiditis. Pemphigus. Phlebitis. Pyelonephritis. Pyemia. Septicemia. Sycosis. Symptoms

Heart

endocarditis. Pericarditis.

Kidneys

Pyelonephritis. Prostatitis. Acute prostatic abscess.

Limbs

Spondylitis. Osteitis. Osteomyelitis.

Lungs

Pulmonary abscesses.

Skin

Follicular pustule. Abscess. Sycosis of the mustache. Folliculitis of the integument. Adenitis of the armpits. Anthrax. Ecthyma. Panaris. Onyxia. Perionyxis. Purpura vesicles, pustular.

Comments

Dr. P. W. Shedd of New York was a deep student of bacteriology Staphylococcinum is made from the Staph. alb. aur. citreus, one species whose variations in color are dependent upon what the plant gets as nourishment.

It may interest to know that in the making of this particular remedy, Staphycoc., the writer was compelled to get out of the room several times because of a decided, though indefinite, malaise. The odor, aroma or effluvium was ambrosia compared to the atmosphere of the dissecting room with its lumps of putrefaction, but it had much greater expulsive power, not nauseating, but sickening and chemically probably due to some of the fatty acids.

In the following morbid states and conditions the staphylococcus is the prevalent bacterial factor and where it does not figure as the prime disturber of the peace, its omnipresence as a saprophyte and its easy metamorphosis into a virulent parasite, leads to many a symbiosis.

In the human economy (unlike some infections where a predilection is shown for the young and apparently robust individual) the staphylococcus (with one exception to the rule) does best where weakness of the protective mechanism or debility due to other than bacterial agencies, e.g. , overwork, worry, lack of proper food, heredity, excess, etc. is prominent.

Staphisagria

(stavesacre)

Pharmacy

Staph. Staphisagria. Delphinium Staphisagria. Stavesacre. N. O. Ranunculaceae Tincture of the seeds. Historical dose: All potencies, third to thirtieth potency.

Herbal

The seed of Stavesacre was known to Dioscorides as an agent for producing vomiting and salivation and for the cure of toothache, "the origin of which application," says Hahnemann, "was evidently domestic practice.

J. H. Schultze, when suffering from toothache took some of the seed in his mouth, but it gave him such a violent exacerbation that he thought he should go mad. As "an exterminator of vermin" this seed was called by the Greeks and as such it enters into the composition of an ointment (unguentum pediculosum).

This last is the only use of Staph. now known to orthodox medicine (Brunton). Teste remarks that Staph., which shares this property with Cocculus is like Cocculus, used in some countries for the purpose of stupefying fish. **Planets:** Venus, Mars, Saturn.

Homeopathic

Staphisagria has nervous disorders with trembling is a marked feature of this remedy. Ill effects of anger and humiliation. Nervous disorders with marked irritability, diseases of the genito-urinary tract and skin, most frequently give symptoms calling for this drug. Acts on teeth, urinary organs, fibrous tissue of lids, tarsi, skin, glands and right deltoid.

Staphisagria produces both physical and moral, sexual disturbances. Sexual excesses. Sexual appetite and a tendency to masturbation and the physical state corresponding to the effect of that habit. Rape or a history of sexual abuse. Pain and nervousness after extraction of teeth. Surgery. Lacerated tissues. Sphincters lacerated or stretched.

Sphincters, lacerated and stretched. Lacerated tissue, perineum. (Calen., Hyper.) Pains, remaining after surgery. Painful swelling of glands. Exostosis. Swelling and suppuration of bones of periosteum. Hemiplegia after anger. Arthritic nodosities on joints. Stiffness and sensation of fatigue in all joints. Warts. Condylomata.

Very sensitive. Morbidly sensitive, the least word that seems wrong, hurts her very much, special senses become irritable, cannot tolerate touch, odor, noise, taste everything is painfully sensitive. Squeezing or stinging smarting pains, as if cut. Pains that move into teeth. Whole body painful with feeling of weakness. Compressive pains are marked with Staph. Sensation of squeezing between stones or in a vice in intestines, testes, head.

PAGE 1606

Clinical

Adenoids. Anger. Anus, itching. Backaches. Blepharitis. Bones, diseases. Cauliflower excrescences. Chalazion. Colic. Colitis. Condylomata. Cough. Cysts. Dentition.

Dysentery. Dyspareunia. Eczema. **Eyes**, tumors. Fistula dentalis. Gastralgia. Glands disorders. Hip-joint disease. Honeymoon cystitis. Hypochondriasis. Impotency. Iritis. Jaw, easy dislocation. Lice. Lumbar abscess. Mania. Masturbation, effects. Neuralgia. Night-sweats. Nymphomania.

Ovaries disorders. Perspiration offensive. Pregnancy, nausea. Prostate disorders. Psoas abscess, Ranula. Rape. Rheumatism. Sciatica. Scurvy. Sea-sickness. Seborrhoea. Self-abuse. Spermatic cords, disorders. Spermatorrhea. Steatoma. Stiff neck. Styes.

Swallowing, constant while talking. Teeth, decay. Testicles disorders. Tibia, pains. Tobacco, effects. Toenail ingrowing. Tonsillitis. Toothache. Tumors. Warts.

Causations

Ill effects of anger and insults, anger suppressed or reserved. Humiliation. Injury, falls, cutting wounds after sex, sex excess, masturbation tobacco, mercury, dentition. Rape. Surgery. Sexual abuse.

Modalities

Better after breakfast, warmth. Better from rest at night, sex. Worse from anger, indignation, grief, mortification. Worse loss of fluids, onanism, sexual excesses tobacco, least touch on affected parts. Worse from sexual excess, onanism touch, cold drinks. Worse from lacerations, stretching parts. Worse after sex after urinating, when not urinating. Worse night, new moon, before full moon.

Symptoms

MIND

Violent outbursts of passion. Always angry. Gloomy and petulant, throws things. Peevish. Child cries for many things and refuses them when offered. Poor memory. Dwells on sexual matters, prefers solitude. Unsatisfied sexual urge in widows. Sensitive emotionally and physically. Hypochondriacal, sad. Imagines insults. Irritable, nervous, excitable and violent.

Great indignation about the things done by others or by himself, grieves about the consequences. Humiliation, deep guilt and shame. Believes he will lose his fortune, his wife will leave him. Ailments from reserved displeasure. Very sensitive as to what others say about her. Sadness without any cause with irritability. Ill effects after scolding or punishment in children. Want of self control. Fear, afraid of his shadow.

Abdomen

Colic after anger. Swollen abdomen in children with much flatus. Colic with pelvic tenesmus. Severe pain following an abdominal operations. (Calen.) Incarcerated flatus. Feeling of weakness in abdomen, as if it would drop, wants to hold it up. Flatus hot, smells like rotten eggs. Dysentery in weak ailing, pot bellied children.

Back

Pain in small of the back, as after overlifting, worse sex and rising from a seat. Backache, worse in morning before rising.

Ears

Hardness of hearing from enlarged tonsils in children from adenoids. Shootings in ears. Tensive stitches in left ear. Eruption behind ears. Deafness in children. Tinkling in ears.

PAGE 1607

Eyes

Feel dry with lachrymation. **Eyes** sunken with blue rings. Margin of lids itch. Affections of angles of eye, particularly the inner. Nodes on lids. Recurrent styes. Blepharitis. Chalazion. (Plat.) Bursting, burning pain in eyeballs of syphilitic iritis. Sunken with blue rings around. Heat in eyeballs, dims spectacles. Hot tears. Lacerated or incised wounds of cornea. Bursting pain in eyeballs of syphilitic iritis.

Face

Sickly, peaked, nose, Neuralgia from decay, pains go into the eyes. Sub-maxillary glands painful with or without swelling, abscess. Prosopalgia, pain starts from lips over face worse mastication.

Female

Painful sensitiveness of genital organs worse sitting down. (Berb., Kreos.) Amenorrhea from indignation. Salpingitis. Prolapse with sinking in the abdomen, aching around the hips. Ovarian pains, going into thighs, worse pressure, sex. Menses, regular with loss of power in limbs. History of rape, sexual abuse victims. Sexual desire increased, mind dwells too much on sexual subjects. First sex is very painful, causing acute mental and bodily suffering. Granular growths of vagina. Leucorrhea. Itching or sensitive vulva.

Food

Desire for bread, stimulants tobacco, milk. Desire for stimulants. Craving for tobacco. Canine hunger, even when stomach is full. After eating feels sleepy.

Head

Compressive, stupefying headache better much yawning, leaning head against something. Brain feels squeezed or torn. As of a heavy load or of a round ball in forehead. Cerebrum feels numb and occiput feels hollow. Dandruff. Head lice. Hair falls off from occiput and around ears. Moist foul, eroding milk crusts worse occiput. Itching eruption above and behind ears. (Olean.) As if occiput hollow. As if back of brain were made of wood and couldn't think.

Heart

Tremulous palpitation when listening to music. Stitching pains in heart. **Heart** feels weak.

Kidneys

Irritable bladder in young married women. Honeymoon cystitis, worse after sex. Cystitis in lying-in patients. Cystocele. Ineffectual urging to urinate in newly married women. Pressure upon bladder, feels as if it did not empty. Frequent urging to urinate with scanty or profuse discharge of watery urine, urinates in thin stream or drop by drop. Sensation as if a drop of urine were rolling continuously along the channel. Burning in urethra during urination. Prostatic troubles, frequent urination, burning in urethra when not urinating. (Thuj., Sabal, Ferr-pic.) Urging and pain after urinating. Pain after lithotomy.

Limbs

Muscles, especially of calves, feel bruised. Limbs feel beaten and painful. Joints stiff. Crural neuralgia. Fine tearing or numb finger tips. Bones of fingers imperfectly developed, osteitis of fingers. Arthritic nodes on finger joints. Buttocks ache while sitting. Knees weak. Shuffling gait.

Lungs

Dyspnea with constriction, at close of sex or after seminal emission. Cough worse cleaning teeth tobacco smoke, eating meat or alternating with sciatica.

Male

Especially after self-abuse, persistent dwelling on sexual subjects. Seminal emissions followed by great prostration. Spermatorrhea with sunken features, guilty look, emissions with backache and weakness. Dyspnea, worse during or after sex. Sexual neurasthenia. Priapism. Voluptuous itching of scrotum. Prostatitis, pain extends from anus to urethra. Soft humid excrescences behind corona glandis. Enlarged prostate with hemorrhoids. Orchitis from mumps. Atrophy of testicles.

Mouth

Pale bleeding gums. Pyorrhea. (Plant.) Salivation, spongy gums, bleed easily. (Merc., Kreos.) Musty taste. Exceedingly tender decayed teeth, on being filled. Teeth black and crumbling. Fistula dentalis. Thrush. Submaxillary glands swollen. Stomatitis.

Nose

Coryza now thick now thin with ulcerations. Sneezing without coryza. Frequent sneezing without coryza. Nose ulcerated with scabs, deep in interior.

PAGE 1608

Rectum

Diarrhea after drinking cold water with tenesmus. Dysenteric stools, worse after the least food or drink. Constipation. Hemorrhoids with enlarged prostate. Hemorrhoids very sensitive worse by touch.

Sensations

As if legs would go under him. As if stupefied. As of a round ball in forehead. As if head would burst. As if brain were compressed. As if bones would be pressed out. As if something were loose in pit of stomach. As if chest were bruised. As if small of back were broken to pieces. As if done up after much hard work.

Skin

Eczema of head, ears, face and body, thick scabs, dry and itch violently, Scratching changes location of itching. Fig-warts pedunculated. (Thuj.) Arthritic nodes. Inflammation of phalanges. Night-sweats. Pain that precedes shingles. Skin symptoms alternating with joint pains. Biting, itching as of vermin, changing place on scratching. Dry pedunculated figwarts. Ulcers, new growths extremely sensitive touch may bring on convulsions.

Sleep

Violent yawning and stretching bring tears to the eyes. Child wakes, pushes everything away and wants everybody to go out, calls for mother often. Amorous dreams with emissions. Sleepy all day, awake all night. Body aches all over.

Stomach

Flabby and weak. Stomach feels relaxed. Canine hunger, even when stomach is full. As if stomach were hanging down relaxed. Nausea, specially after operations.

Teeth

Teeth decay as soon as they erupt. Toothache during menses.

Temperature

Wants to uncover. Sweat, profuse, cold, smelling like rotten eggs with a desire to uncover. Inability to sweat.

Throat

Swallows continuously while talking. Sharp pains flying to the ear on swallowing, especially left. Tonsils swollen, stitch runs up to ear on swallowing. Induration and hypertrophy of tonsils with nasal voice.

Vertigo

Vertigo better by walking about in a circle or turning rapidly on heels.

Comments

Again, Teste found Staph. 6c like Cocculus, a remedy for sea-sickness. To be successful, Staph. had to be taken at the moment when dizziness and nausea commenced, before vomiting set in and it always helped "nervous persons, not over fat and disposed to sadness."

Staph. produced in Teste these symptoms: "Long lasting vertigo, accompanied by continued nausea as in sea-sickness" and this: "Vertigo, which ceases on rapidly turning round on one's heel." This corresponds with one of Hahnemann's symptoms: "Wheeling vertigo, especially while sitting, better by walking about in a circle."

It is noteworthy that Staph. and Cocculus are both head-remedies and both effective against head lice. Both also affect the genitals, Staph. more especially and both are remedies for crab lice. An application of a dilution of the tincture of the strength of one part to four of water will destroy the parasites, though the state which favors their presence needs internal treatment (probably with a dilution of the same remedy) at the same time.

In Teste's experience, Staph. was no less effective in the nausea of pregnancy than in the nausea of sea-sickness. Tabacum is another remedy for sickness and Teste cured with Staph. effects of tobacco smoking (excoriated tongue, stomach pain) and he also cured with it the habit of "swallowing the tobacco smoke."

The use of Staph. in the sickness of pregnancy arises out of its power over the genital functions. It produces both physical and moral sexual disturbances. Provokes excesses and irregular sexual appetites.

A tendency to masturbation and a physical state corresponding to the effects of that habit. Staph. is one of Gallavardin's chief remedies for removing the habit of masturbation in children and for removing improper appetites in adults.

PAGE 1609

Staph. is one of the remedies which has worse from sex. Dyspnea occurring during or after the act, Dyspnea and prostration also follow an emission.

In women sex is painful because the external parts are excessively sensitive. This property, which is also allied to the vulnerary power of Staph., makes Staph. a remedy of extreme value to women in the early days of married life. Some women suffer very acutely (in mind as well as body) during and for some time after the first sex.

Clarke has seen Staph. 30c give relief in such cases. "Constant urging to urinate in young married women" is the characteristic. Another urinary peculiarity is burning in the urethra when not urinating. Urinary difficulties after severe labors. Prolapse of bladder.

Clarke has seen cystocele relieved by Staph. Sensitiveness, stinging, stitching, shooting pain worse by touch, itching are the chief notes of Staph. in disorders of the genital organs of both sexes.

It has cured prostatitis in the man with pain running from anus along urethra inflamed testicles with shooting and drawing in the cords, stitching towards groin and testicles.

In one female prover Staph. brought on the menses a year after they had ceased, at the new moon. The symptom did not recur the following month, which led Hahnemann to conclude that this "was only the primary action of the drug."

Staph. is not only a remedy for ovarian and other affections, it also meets the conditions following operations on ovaries. Effects of "wounds made by clean-cutting instruments" is the keynote.

P. C. Majumdar gives two cases in which loss of memory following masturbation and seminal emissions was cured with Staph. 30c: (1) A student, naturally robust and intelligent, lost his memory when he contracted the habit of masturbation. His symptoms were:

Vacant countenance, no aptitude or inclination for mental work. Despair of the future, great languor and weakness. Occasional nocturnal emissions, or constipation. When he read anything he forgot it the next moment. Heaviness, headache and vertigo after the least mental exertion. Staph. 30c was given morning and evening. Improvement began at once and the cure was complete in a month.

(2) Another student had constant involuntary emissions, weak memory, languor, headache every morning on rising, no appetite, constipation. Staph. 30c, once a day, cured.

"Apathy, weak memory, caused by sexual excesses or constantly dwelling on sexual subjects," is how the symptoms is given. But the mental state of Staph. need not necessarily have a sexual origin. Staph. is a remedy for anger and for the effects of anger, especially if the indignation cannot have its natural expression. "Was insulted, being too dignified to fight, swallowed his wrath and went home sick, trembling and exhausted."

The mental state of Staph. like its physical, shows great sensitiveness to the least impression, "the least word that seems wrong, hurts her very much." The touchiness may take the form of sudden, violent outbreaks provoked by mere trivial causes.

Clarke has known Staph. to have an impulse to throw things at persons who had caused a trifling or imaginary irritation. This irritability may be manifested in sensitiveness to criticism. Irritated by trifles. Want of self-control. Fear: afraid of his shadow.

Among the consequences of anger which are met by Staph. is colic: "Colic of screaming, ugly, pot-bellied children, especially if they suffer much from their teeth, which turn black with tender, spongy gums, sensitive and painful."

The irritability of Staph. is shown in the intestinal tract in:

PAGE 1610

"Worse from least food or drink. This applies to vomiting, colic or dysentery. When colic follows operations on the ovaries or intestines, Staph. is as useful as in colic from anger.

The action of Staph. on the teeth is only one of many points in which it touches Merc. and which makes it one of the best antidotes to Merc. The characteristic of Staph. is: "Teeth turn black and have dark streaks through them, cannot be kept clean, crumble: decay on edges, scorbutic cachexia." The toothache of Staph. occurs during the menses, affects sound as well as decayed teeth, worse from touch of food or drink, but not from biting or chewing is worse drawing cold air into mouth, worse from cold drinks and after eating.

Staph. has the "sinking" sensation to an extreme degree. The stomach and abdomen feel as if hanging down relaxed. There is extreme hunger even when the stomach is full. There is ravenous hunger for days before an attack of fever, craving for tobacco and a cough excited by tobacco smoke is an indication for it. "Inability to perspire" is one of the notes of Staph., as also is sweat smelling of rotten eggs.

Bibby has used with much success Staph. tincture, three drops in two ounces of water, a teaspoonful every two hours in cases of night-sweat in patients bordering on tuberculosis. Eruptions like the sweat, when moist are foul-smelling. There are dry, scaly eruptions over the ends of bones.

The ulcers of Staph. are generally very painful and sensitive. Pressing, stinging, tearing pains in periosteum, Exostoses and gouty nodes on fingers and toes. Syphilitic and syphilitic condylomata. Seed warts.

Ornithogalum umbellatum

Star of bethlehem

(bach flower remedy)

Pharmacy

The Star of Bethlehem. *Ornithogalum umbellatum*. The flower heads are boiled for half an hour. Subsequently, the water is strained and used as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

Star of Bethlehem is listed in the group of Despondency and Despair, as classified by Bach. The additional remedies of this group are Crab Apple, Oak, Willow, Sweet Chestnut, Elm, Pine and Larch. **Planets:** Moon.

Homeopathic

Star of Bethlehem treats states of grief and shock. Lack of appetite, digestive problems, shock and collapse and other symptoms of grief and shock may be present. The diaphragm is known to tighten during grief and impair breathing, leading to frequent sighing.

In post-traumatic stress disorder when psychological disturbances due to the traumatic impact prevail, Star of Bethlehem brings about healing (Rock Rose). Ulcerative colitis and Crohn's disease have been found to be related to states of grief which have not been worked through. After accidents, when the body, mind and emotions carry the memory of the trauma.

Symptoms

MIND

In the Star of Bethlehem state, the mind is closed down and has retreated into a state of shock and grief. The bad news received can be a shock. Grief-causing events.

A reaction to grief, may be an internal numbing or taking lightly those things that cannot be changed. Here, internal agony is present but hidden from others (Agrimony). Anger and prolonged outrage (Holly). The grieving person may retreat into their introversion and depression and hide inner feelings from others. (Mustard).

PAGE 1611

One may also resort to exaggerated thoughts of nihilism and meaninglessness and discount the value of life and its treasures in general (Sweet Chestnut). If emotions are allowed to be expressed fully, there is the complete experience of sadness with heart wrenching impact, deepest pain and despair.

Despondency and hopelessness settle over the heart like a heavy blanket. In this stage of intrusiveness, meaning the full experience of emotions, additional feelings such as fear, shame, frustration and guilt can surface.

After the initial outcry and possible denial, the stage of intrusiveness prepares the personality to integrate and work through the shocking experience and move into the stage of acknowledgement of limitations and possibilities. From here, as healing happens and emotions balance with reason and clarity, moving forward and proceeding with life is possible again.

SOURCES

Bach.

Stellaria media

(chickweed)

Pharmacy

Stel. *Stellaria media*. Chickweed. N. O. Caryophyllaceae. Tincture of whole fresh plant in bloom. Historical dose: Tincture and all potencies, 2x potency.

Herbal

The first mention of *Stellaria* by F. H. Brett gave an experience with the tincture applied externally in the case of his wife to enlarged inflamed gouty fingers-joints and in his own case to painful, aching great toes. In each case a few applications removed the trouble.

Brett was led to this use by having heard a rumor that "chickweed poultices" were good for gouty joints. F. Kopp published a proving of the tincture on himself. Kopp took frequently repeated doses of the tincture and also chewed some of the weed. The pains induced were of a rheumatic character and were so severe that they had to be antidoted with *Nux-v.* and *Bry.*

Kopp confirms Brett's observations in the value of external applications of *Stel.* Internally he gave the *Stel.* 2x. The most prominent symptom, apart from the rheumatic effects, was the pain, swelling and soreness of the liver. The pains were better by motion and were accompanied by soreness. **Planets:** Saturn.

Homeopathic

Stellaria induces a condition of stasis, congestion and sluggishness of all functions. Rheumatism, darting pains in almost every part, stiffness of joints, parts sore to touch, worse motion. Chronic rheumatism. Shifting pains. (*Puls.*, *Kali-s.*) Psoriasis. Enlarged and inflamed gouty finger joints. Morning aggravation.

Clinical

Gout. Liver inflammation. Rheumatism. Psoriasis.

Modalities

Better evenings, cold air, motion. Worse mornings, warmth, tobacco.

Symptoms

MIND

General irritability. Lassitude, indisposition to work.

Abdomen

Bowels sore, worse by touch. Burning pressure in region of liver. Bilious feeling. Pains in right groin.

Back

Rheumatic pains across small of back, worse bending. Loins stiff and sore. Dull pain under right scapula.

Chest

In chest: tickling, upper part, constricted, oppression, heat.

Eyes

Right eyeball sore to touch. Flushes of heat below right lid. Darting pain in right eye. *Vision dim. Smarting* and burning in eyes, **feel protruded.**

Face

Neuralgic pains right side of face. Burning on lower lips.

Head

Dull, frontal headache, worse in morning and left side with sleepiness. Neck muscles stiff and sore. **Eyes feel protruded.**

Kidneys

Kidney region sore to touch.

Limbs

Joints stiff. Rheumatoid pains in different parts of the body. Sharp pain in small of back, over kidneys in gluteal region, extending down thigh. Pain in shoulders and arms. Synovitis. Bruised feeling. Rheumatic pains in calves of legs.

PAGE 1612

Liver

Hepatic torpor. Burning pains all over liver. Liver engorged, swollen with stitching pain and sensitive to pressure. Sensation as if liver too large for body.

Lungs

Short cough from tickling on upper chest, worse deep inspiration. Hawking of viscid, salty mucus.

Mouth

Persistent taste of the drug with slight acid feeling. Heat and dryness of mouth, numbness of lower gums and tip of tongue. Sensation as if incisors set on edge.

Nose

Dryness of nostrils.

Rectum

Clay-colored stools. Constipation or alternating constipation and diarrhea. Stools loose, dark brown, attended with slight pain.

Sleep

Sleeps well but unrefreshed on waking.

Stomach

Slight nausea with frequent belchings, tasting of the drug.

Throat

Numbness and dryness in throat. followed by sharp stitches in left tonsil.

Comments

Bellairs published this case: E. B., 18, had rheumatic fever which had left him in a hopeless state of chronic "shifting" rheumatism: pains now a ankle, now in knee, now in arm, wrist or fingers. Stel. 2x, taken three times a day, completely cured in a month.

Bellairs suggests that "shifting-pains" may be a keynote and Kopp confirms this. Brett cured himself with Stel. 1c of a violent attack of sickness with sharp pains in stomach increasing in violence and culminating in an explosive vomit. The liver was much enlarged, hard to the touch.

The pain began in the region of the gallbladder. Vomiting ceased after the first dose and the liver enlargement quickly subsided.

Cooper gave much relief with a single dose of in the case of a woman, 55, who had psoriasis, dating from twenty-one years back with irritation in the spots, chiefly on flexures of joints with much irritation of scalp and soreness of eyeballs.

Kola

(kola nut)

Pharmacy

Sterc. Sterculia. Kola nut. Historical dose: Tincture and all potencies, tincture, three to ten drops, three times a day.

Herbal

Kola nuts give the power to endure prolonged physical exertion without taking food and without feeling fatigued. **Planets:** Sun.

Homeopathic

Sterculia regulates the circulation and it is a tonic and anti-diarrhea. It also regulates the heart rhythm and acts diuretically. Sterculia promotes the appetite and digestion and lessens the craving for alcohol. Weak heart. Neurasthenia. Asthma. A remedy for the alcohol habit.

Clinical

Alcoholism. Asthma. Diarrhea. Neurasthenia.

Boericke.

Sticta pulmonaria

(lungwort)

Pharmacy

Stict. Sticta pulmonaria. Lungwort. N. O. Lichenes. Tincture. Historical dose: Tincture and all potencies, tincture to high potency.

Herbal

Lungwort received its name of *Sticta Pulmonaria* from the likeness of the plant to lung tissue is self-evident.

Sticta pulmonaria was a popular remedy of great repute in catarrhs and coughs when Hale introduced it to homeopathy.

S. P. Burdock, C. H. Lutes and S. Lilienthal proved it and elicited some very remarkable and valuable symptoms. Hering added many clinical symptoms.

PAGE 1613

Homeopathic

Sticta pulmonaria is a remedy for coryza, bronchial catarrh, nervous and rheumatic disturbances. *Sticta pulmonaria* offers a set of symptoms like coryza, bronchial catarrh and influenza together with nervous and rheumatic disturbances. Coughing aggravates cough, the more he coughs, the more he wants to. Cough worse nights, comparatively free from it during day.

There is a general feeling of dullness and malaise, as when a cold is coming on, dull, heavy pressure in forehead, catarrhal conjunctivitis, etc. Rheumatic stiffness of neck. General feeling of dullness and lassitude as when a cold is coming. Nervous, sense of levitation of different parts. Painful dry mucous membranes. Diagonal pains. Hysteria, chorea after loss of blood. Influenza is better in open air.

Clinical

Allergies. Angina pectoris. Anus, pain. Asthma. Bronchitis. Catarrh. Clergyman's sore throat. Cold. Coughs. Diabetes. Diarrhea. Glands, swollen. Hay fever. Headaches. Housemaid's knee. Hysteria. Influenza. Laryngitis. Lung disorders. Measles, cough. Migraine. Milk, scanty. Neuralgia. Ozaena. Post-nasal catarrh. Pott's disease. Rheumatism. Seminal emissions. Sick headache. Sleeplessness. Syphilis. Tracheitis. Tuberculosis.

Causations

Ill effects of falls or hemorrhages.

Constitutions

It is especially suited to neuralgic, rheumatic, gouty individuals. **Planets:** Mercury, Saturn.

Modalities

Better from free discharges, open air. Pressure relieves. Worse at night, lying down. Worse sudden changes of temperature. Worse by touch, motion. Worse as day advances, lasting all day.

Symptoms

MIND

Feels as if she must talk, about everything and anything, whether listened to or not. Feels as if floating in air. (Data arborea, Lac-c.) Confusion of ideas, patient must talk. Lively, kicks her heels up.

Abdomen

Dull pains in the right hypochondrium. Feeling of fullness in left hypochondriac region. Rumbling as if full of yeast.

Back

Sore stiff neck, pains to shoulder. Restless hands and feet. Legs as if floating in the air. Rheumatism. Red spots on affected joints. Bursitis especially about the knee. Cold moist limbs. Profuse sweat on hands. Chorea like spasms.

Breasts

Absence of milk after delivery. Scanty flow of milk.

Chest

Pain from sternum to spine, worse motion. Pulsation from right side of sternum down to abdomen. Pain through chest from sternum to spinal column.

Ears

Acute neuralgic pains in mastoid apophysis, rather deep in.

Eyes

Burning in eyes and soreness of eyeballs. Burning of eyelids on closing lids or turning eyes.

Face

Darting pains in side of face and in lower jaw.

Female

Uneasiness in the pelvis. Menses more abundant and paler than usual.

Head

Heaviness, forehead. Dull headache with dull heavy pressure in forehead and root of nose. Catarrhal headache before discharge appears. Sensation as if scalp were too small.

Heart

Attacks of anxiety about heart. Dull, oppressive pain in cardiac region.

Kidneys

Profuse urination with sore painful bladder.

Limbs

Rheumatic pain in right shoulder joint, deltoid and biceps. Swelling, heat, redness of joints. Spot of inflammation and redness over affected joint. Pain severe and drawing. Chorea-like spasms, legs feel floating in air. Housemaid's knee. (Rhus-t., Kali-hp., Slag.) Shooting pains in knees. Joints and neighboring muscles red, swollen, painful. Rheumatic pains precede catarrhal symptoms.

Lungs

Bronchitis. Tracheitis, facilitates expectoration. Coughing is worse inspiration, towards evening and when tired. Incessant dry hacking cough prevents sleep. Dry, hacking cough during night, worse inspiration. Loose cough in morning. Cough after measles. (Sang.) Tickling high up in pharynx. Cough after influenza after whooping-cough. Cough barking, worse night and morning. Air passages numb.

PAGE 1614

Nose

Fullness at the root of the nose. (Nux-v.) Atrophic rhinitis. (Calc-f.) Painful dryness of mucous membranes. Constant need to blow the nose, but no discharge. Coryza which dries up soon, forming scabs difficult to dislodge. Hay fever incessant sneezing. (Sabad.)

Rectum

Diarrhea, stools profuse, frothy, worse morning. Frothy diarrhea in morning.

Sensations

As if she cannot keep her tongue still. As if stomach full of yeast. Throat and mouth burn as if scalded. As if hard mass collected in lungs. As if floating in air. The right side is more prominently affected.

Sleep

Sleepless from nervousness from cough after surgical operations.

Throat

Raw throat, dripping of mucus posteriorly. Dryness. Clergyman's sore throat.

Comments

Dewey conducted another proving on several persons which has further enriched the pathogenesis. Hale says: "It was first used for severe harassing cough," and such good results accrued that provings were made to ascertain its full value. It was found to cause severe coryza with violent sneezing intense headache and conjunctivitis. These attacks were preceded or followed by rheumatic pains and swelling of the small joints.

The catarrh of Stict. is for the most part obstructive and if there is discharge it dries quickly and forms crusts or scurf. Constant need to blow the nose, but no discharge comes on account of dryness.

In syphilis or any other disease where this condition is present, Stict. will be the remedy. A grand characteristic both of headaches and catarrh is a "dull, heavy pressure or stuffed feeling in root of nose."

The cough of Stict. is also dry. "Dry night cough" is a keynote, cough dry, worse evening and night, can neither sleep nor lie down, must sit up.

P. C. Majumdar cured two cases of whooping cough with Stict. 6x. The cough began just after sunset and went on until vomiting occurred and all the contents of the stomach were thrown off. Stict. will often cure coughs left by measles, whooping cough influenza.

Hard, dry barking coughs following colds.

In cases of tuberculosis and hemoptysis it is of great service. "Oppression at chest, sensation as if a hard mass on it. Sudden pain from sternum to spine, constant, worse on movement," are leading symptoms in such cases in addition to those of the cough.

Tuberculosis and rheumatism frequently occur in different members of a tubercular family and rheumatism is related to catarrh. Stict. meets all these conditions and it has like Bacil., "a deep-in headache."

Elias C. Price relates this case: Boy, 8, had acute rheumatism with inflammation and redness of one knee, ankle toes, wrist and fingers, valvular heart disease from a previous attack. Acon. and Sulph. failed to relieve. Stict. 1x was given every hour. Next day there was a considerable quantity of fluid in the knee-joint an aggravation by Stict. apparently, but otherwise the boy was better. Stict. was continued. Next day half the fluid was gone and the third day it was all gone and the boy was cured in nine days.

Price remarks that he had noticed one symptom so frequently present in the cases he cured with Stict. that he began to regard it as a characteristic although it was not in the provings: A spot of inflammation and redness on the affected joint like the hectic flush on the cheeks in tuberculosis.

In housemaid's knee, Stict. comes as near being a specific as a remedy ever can.

M. D. Youngman related a number of cases of catarrhal and pulmonary disorders cured with Stic., the indications being:

Harsh coughing, racking incessant, "unprofitable" cough of spasmodic type. Youngman considers it especially suited to neuralgic, rheumatic, gouty individuals.

Here is one of his cases: Mrs. H., 42, had an attack of bronchitis in January and when seen, on March 20th she had a harsh, racking cough with pain all through chest on coughing. Spongy state of mucous membrane of pharynx, which bleeds easily.

She has had several attacks of asthma, has hay fever every August, paroxysms of cough often end in convulsive sneezing, which she dreads because it is followed by asthmatic symptoms. "She takes cold in her head, which in a day or so goes down in her throat and thence into her chest." Every cold she gets does this. Stict., 1x gave relief in five days.

Hale says Stict. is indispensable in February, March and April in the American climate. O. Rogers prescribed Sticta for a patient with the cough of the remedy at the time she was nursing her seventh child.

She had always been annoyed because of a lack of milk, it had been occasionally suppressed. While taking Stict. the flow became ample and remained so as long as an occasional dose was being taken. Rogers subsequently verified this effect in a number of cases.

Another use of Stict. is in sleeplessness, which is due to nervousness or to cough. This is part of its action on the nervous system. Stict. is one of the remedies which produce the levitation symptom: the legs feel as if floating in the air, head as if floating off, as if the body and limbs did not touch the bed. Hysterical chorea coming on after profuse hemorrhage has been cured by Stict.

Stigmata maydis

(corn-silk)

Pharmacy

Stigm. Stigmata maydis. Zea mays. Corn-silk. Maize. Indian Corn. N. O. Gramineae, Tribe, Phalarideae. (1) Stigmata maydis. Green pistils. tincture: One part, by weight of the Corn Silk to two parts of alcohol. Fluid Extract. (2) Shucks. Decoction or tincture of the husks of Maize after the removal of the grain. Historical dose: Tincture and all potencies, tincture in ten to thirty drop doses in water.

Herbal

Two parts of Maize have been used in medicine, the pistils of Stigmata maydis and the husks (Shucks), but Clarke thinks it best to take them together. The grain of Maize in

bulk appears to be capable of generating a poisonous gas, as four men were suffocated, one fatally, on opening a cargo of maize for the purpose of discharging it in the London docks.

Corn silk has been used in (1) Irritable conditions of the urinary tract, ureters, bladder, urethra. (2) As a powerful diuretic in kidney disorders unconnected with cardiac

involvement. (3) **Heart** and urinary conditions combined. Corn Shucks as a decoction used for chronic malaria, teaspoonful doses freely. Dr. E. C. Lowe, England.

Planets: Venus.

Homeopathic

Stigm. has marked urinary symptoms. It has been used with success in organic heart disease with much edema of lower limbs and scanty urination. Enlarged prostate and retention of urine. Uric and phosphatic. Gonorrhoea. Cystitis.

PAGE 1616

Hansen has confirmed the value of Stigm. in 20 drop doses of the fluid extract in organic heart disease with dropsy, much edema of lower limbs and scanty urination. He mentions also as suitable cases:

(1) Kidney stones with nephritic ulcer and discharge of small stones, red sand and blood. (2) Chronic pyelitis from catarrh. (3) Chronic retention of urine with great tenesmus after urinating. (4) Suppression of urine with lack of solids and low specific gravity. (5) Bladder catarrh, tenesmus of neck of bladder, ammoniacal urine, much mucus. (6) Chronic gonorrhoea, prostate involved, painful urination.

Clinical

Albuminuria. Cystitis. Dropsy. Gonorrhoea, chronic. **Heart**, failure. Malaria. Kidney colic. Pyelitis. Urine, retained, suppressed.

Symptoms

Bladder

Tenesmus after urinating. Bladder catarrh. Gonorrhoea. Cystitis.

Kidneys

Suppression and retention. Dysuria. Kidney stones, nephritic colic. Blood and red sand in urine.

Comments

J. H. Cook gives an account of Stigm. in Med. Cent. He quotes the results of Dumont's investigation of its action on the heart: (1) It makes the heart's action slower and stronger. (2) Regulates its rhythm. (3) Its diuretic action is manifested first. (4) Its action is more powerful and evident in cardiac disorders with dropsy. (5) With the disappearance of the dropsy arterial tension increases and venous tension diminishes.

Cook gives this case: Mr. X., 63, florid, robust, temperature, had been many months under treatment with the following condition, traced originally to cooling off too rapidly when perspiring: Intense prostration intermittent pulse, dyspnea.

The urine contained much albumen, mucus and some blood, specific gravity 1010. Great tenderness over entire abdomen, especially in region of ureters. Under remedies he would

improve for a few days, when a slight chill would be followed by fever and the symptoms would come back in full force.

The microscope revealed pus cells and granular epithelial cells in abundance. Stigm. was now given, a teaspoonful of the fluid extract every four hours. In less than a week there was visible improvement. The constant calls to urinate ceased and the patient could go through the night without being disturbed more than once or twice.

The specific gravity of the urine increased and pus, blood and albumen disappeared. Only a little abdominal tenderness remained, which did not prevent the patient from attending to his business and enjoying life.

Another use of Stigm. was communicated to the profession by Dr. J. W. Pruitt. Pruitt learned it from the people. "Shuck tea" is a popular remedy for chronic malaria. Pruitt's son took a chill in the Arkansas river bottom. The chills were stopped with the usual remedies, Cinchona, Iron, Piperine, but every fourteen days would come back with increased severity.

Presently gastric symptoms set in with anemia and other symptoms of chronicity. "Shuck tea" was recommended by a lay friend and was taken for one day only. There was never a chill after. Pruitt thence forward used Stigm. largely and he found it was in the chronic cases only that it was beneficial.

Compare

(1) In bladder affections, Tritic., Sabal. (2) Kidney colic - Oci., Berb. (3) **Heart** - Dig., Crat., Stroph.

SOURCES

Clarke.

Stillingia silvatica

(queen's root)

Pharmacy

Still. *Stillingia sylvatica*. Queen root. Queen's Delight. N. O. Euphorbiaceae. Pine barrens from Virginia to Florida. Tincture of the root after flowering. Historical dose: Tincture and all potencies, tincture and first potency.

Herbal

Stillingia has long been a popular remedy for syphilis in the southern states of U. S. T. Y. Simons introduced it into medicine and Hale to homeopathy.

PAGE 1617

H. R. Frost, A. B. Nichols, J. M. Cunningham and others proved it, chewing the root or taking the tincture. One prover chewed the bark.

Homeopathic

The Still. proving shows an action closely parallel with that of syphilis, attacking the genito-urinary organs, throat, pharynx, larynx and trachea, mouth, head and bones. It has a popular repute in scrofula, skin affections, liver diseases and rheumatism. All of which the provings confirm.

One prover was cured of a pustular eruption during the proving. In chronic rheumatism Hale classes it with Phyt. and Kali-i. Chronic periosteal rheumatism, syphilitic and scrofulous disorders. Respiratory symptoms well marked. Torpor of lymphatics torpid liver with jaundice and constipation.

Clinical

Bones, diseases. Clergyman's sore throat. Elephantiasis. Headaches, syphilitic, catarrhal. Hemorrhoids. Hip-joint disease. Influenza. Larynx disorders. Liver disorders. Nodes. Periostitis. Psoriasis. Rheumatism. Scrofula. Syphilis.

Constitutions

Hydrogenoid constitution. **Planets:** Saturn.

Modalities

Better in morning, dry air. Warmth helps itching of legs. Worse in afternoon, damp air. Worse by movement. Worse from walking. Worse exposure to cold or to air.

Symptoms

MIND

Gloomy forebodings, depressed. Fear that something bad will happen.

Abdomen

Severe cramps in both hypochondria. Sharp darting in left hypochondrium, followed by passage of flatus. Borborygmi. Colic, periodical. Heavy pain in hypogastric region.

Back

Aching in back and down thighs and legs. While sitting pain in left lumbar region, darting forwards.

Bones

Bones, diseases, nodes on.

Chest

Oppression of chest. Darting pain in thorax. Raw feeling in chest whole length of sternum.

Ears

Burning in left ear in evening, next morning a vesicular eruption.

Eyes

Eyes inflamed and watery. Sharp darting pain over left eye. Lachrymation of both eyes after reading.

Face

Stinging darting pains in face with frontal headache. Periostitis of facial bones.

Female

Both ovaries pained very severely. Copious muco-purulent leucorrhoea with rheumatic pains.

Food

Appetite increased, then lost.

Head

Persistent dull headache in vertex. Sharp darting pains in right occipital protuberance. Bone swellings in head and forehead in latter size of hen's eggs.

Heart

Boring pains about region of heart with irregular pulse. Pulse weak and very irregular.

Kidneys

Dull pain in region of kidneys. Incontinence of urine. Deposits white sediment. Urine colorless. Urine milky and thick.

Limbs

Aching pains in bones of limbs and back.

Liver

Torpidity of liver with jaundice, great depression, constipation.

Lungs

Dry, spasmodic cough. Larynx constricted with stinging in fauces. Trachea feels sore when pressed. Croup. Cough deep and loose.

Male

Slight drawing up in right testes. Dull tearing pain in left testes. Gonorrhoea.

Mouth

Paroxysms of neuralgic toothache. Tongue coated heavily yellowish white. Tongue feels rough and sore. Scalded sensation on tongue with soreness in region of larynx.

Heat in mouth and fauces. Taste salty, bitter in morning. Increased flow of saliva.

Nose

Catarrhal discharge, first watery then muco-purulent. Influenza. Necrosis of bones of nose.

Rectum

Severe attack of hemorrhoids. Burning and tenesmus. Bowels loose and irregular. Stools copious, acid, frothy, bilious, papescent, white like curds, dysenteric. Constipation, stools delayed.

PAGE 1618

Sensations

As of a heavy substance pressing on brain. Tongue as if scalded. As if room were too warm.

Skin

Ulcers, chronic eruptions on hands and fingers. Enlarged cervical glands. Itching and burning. Exostosis. Vesicular eruption on ears. Scrofulous, venereal and other skin diseases. Ulcers with unhealthy skin. Leprosy. Elephantiasis.

Sleep

Unusual drowsiness all day with general malaise and headache. Very sleepy after eating.

Stomach

Regurgitation and vomiting of ingesta. Nausea with constipation. Sickness and salivation. Faint, empty sensation in stomach. Distress, griping, cramps in stomach.

Throat

Laryngitis. Hoarseness and chronic laryngeal disorders of public speakers. Smarting, stinging, dryness and rawness of fauces. Constriction of throat. Intense burning in fauces and throat.

Comments

Clarke has cured with Still. syphilitic cough of the hoarse, barking type. In one case of secondary syphilis the patient, who was taking Still. 1c, complained that the medicine made his legs and feet feel tired and his feet feel sore. Still. attacks the periosteum and produces pain in the bone.

Still. has removed nodes on the forehead, tibia and elsewhere and arrested decay of the nasal bones. Pain in the cranial bones and the headaches of syphilis. It is not confined to syphilitic cases in its action.

Pains are sharp, shooting, darting. The cartilages of larynx and trachea are sore and feel bruised. Dryness is a common feature.

Hale quotes a case of secondary syphilis treated by Preston, one of the provers. The patient, a man, suffered extreme torture from bone pains.

After receiving Still. he slept well. The immense nodes disappeared from head and legs and "from the most deplorable, down-hearted, sometimes almost raving from derangement, miserable, thin-looking object, he changed into a buoyant, joking, rotund-looking fellow."

Compare

(1) In syphilis, Syph., Med., Merc., Kali-i.

(2) Chronic rheumatism, Guaiac., Phyt.

(3) Nodes, Mang., Corydalis, Staph.

(4) Hip disease, Nat-s.

(5) Still. secondary or inherited syphilis, pains in and through hip, worse night, worse wet weather, Nat-s.

(6) the hydrogenoid constitution, pains Worse night rouse patient from sleep, better turning over in bed.

Boericke. Clarke.

Stramonium

(jimson weed)

Pharmacy

Stram. Stramonium. Datura stramonium. Jimson weed. Thornapple. Jamestown-weed. Stink-weed. N. O. Solanaceae. Grows in vicinity of cultivation on rank soil where refuse is deposited in all parts of the world. Tincture of fresh plant in flower and fruit. Historical dose: All potencies, Thirtieth potency.

History

According to Teste, the first to use Stramonium in modern times, was Stoerck, who was one of Hahnemann's predecessors. Stoerck first tried it in mental alienation, because it was supposed to produce "a marked and persistent disorder of the mental faculties."

The forms of mania specially mentioned by Teste as calling for Stram. are:

Nymphomania of lying-in women. Certain forms of religious mania in exaggerated and ridiculous scruple of conscience.

Fixed notion that some unpardonable sin has been committed which the patient is nevertheless unable to remember, that he is possessed of the devil. Hallucinations.

PAGE 1619

Hahnemann proved it and introduced it into the Homeopathic Materia Medica. In his introduction to the remedy he points out that, although it produces many symptoms, it does not in its primary effects cause actual pain. Hahnemann attached a good deal of importance of this.

Hahnemann says: "Stram. allays some spasmodic movements and restores suppressed excretions in several cases in which absence of pain is a prominent symptom."

Homeopathic

Stram. expends its force of action on the brain, producing marked and persistent disorder of the mental faculty. Though the skin and throat show some disturbance. Suppressed secretions and excretions. Sensation as if limbs were separated from body. Delirium tremens. Absence of pain and muscular mobility especially of muscles of expression and of locomotion. Gyratory and graceful motions. Parkinson's disease.

Secretions are suppressed, passes neither urine nor stool. Throat, skin and spinal nerves are affected as well. Increases the mobility of the muscles of expression and of locomotion, the motions may be graceful, rhythmic or disorderly of head and arms.

Trembling of limbs. Parkinson's disease. Tremors, nervous. Convulsions, spasms worse at night after masturbation. Paralysis of one side, convulsions of the other side or unilateral paralysis with twitching.

Chorea, epilepsy from fright. Hysteria, weeping, laughing with sexual excitement. Catalepsy, limbs can be moved by others. Tonic and clonic spasms alternately. Traumatic neuritis. General paralysis of the insane.

Delusions as to size and distance. Sensation as if limbs were separated from body.

Clinical

Alcoholism. Anasarca. Aphasia. Bedwetting. Burns. Catalepsy. Chordee. Chorea.

Delirium. Delirium tremens. Delusions. Ecstasy. Epilepsy. Esophagus, spasms. **Eyes** disorders. Fevers. Headache, sun. Hiccough. Hysteria. Injuries. Insanity. Lochia offensive. Locomotor ataxia. Mania. Meningitis. Nymphomania. Rabies. Sexual mania. Scarletina. Stammering speech. Starting. Strabismus. Strokes. Sunstroke. Tetanus. Thirst. Tremors. Trismus. Typhus.

Causations

Ill effects of shock, fright, sun, childbirth. Dog bites. High fever. Head injury.

Hydrophobia.

Constitutions

Stram. is suited to: Ailments of young, plethoric persons, especially of children, (chorea, mania, fever, delirium). **Planets:** Mars, Moon.

Modalities

Better from bright light, company, warmth. Worse from shining objects, mirror, surface of water. Worse from fright, cloudy days, suppressions intemperance touch. Worse in dark room, when alone after sleep, on swallowing. Worse by touch, by pressure. Worse sun. Worse looking at shining objects, water.

Symptoms

MIND

Hallucinations, fixed notions, terrifying delirium etc. Therefore it is a remedy of terrors. Cannot bear solitude or darkness, must have light and company. Dread of darkness and has a horror of shining objects. Fear and anxiety on hearing water run. Sight of water or anything glittering brings on spasms. Devout, earnest, beseeching and ceaseless talking.

Fearful hallucinations which terrify the patient, sees ghosts, vividly brilliant or hideous phantoms, animals, jumping sideways out of ground or running to him. Wildly excited, as in night terrors. Sees ghosts, hears voices, talks with spirits. Rapid changes from joy to sadness. Delusions about his identity, thinks himself tall, double, a part missing.

Religious insanity. Stupid, imbecile. Wife thinks husband neglecting her. Man thinks his wife faithless. Violent and lewd. Lascivious talk. Exposes the himself.

Anxiety when going through a tunnel. Active variable delirium, delirium tremens. Delirium with desire to escape. (Bell., Bry., Rhus-t.) Maniac, curses, tears ones clothes with teeth. Raving mania with cold sweat. Violent speech. Wants to kill people or himself.

PAGE 1620

Abdomen

Abdomen inflated, hard, distended. Contusive pain in abdomen during movement. Violent pains in abdomen, as if navel were being torn out. Hysterical spasms in abdomen. Swelling of inguinal glands. Borborygmi with fermentation in abdomen. Expulsion of much flatus.

Back

Neck stiff, cannot bend it backwards. Drawing pain in the back. Spine sensitive, slightest pressure causes outcries and ravings. Opisthotonos.

Chest

Constrictive oppression on chest with dyspnea. Pressure on chest, worse by speaking. Spasm in pectoral muscles. Red rash on chest.

Ears

Sensation as if air rushing out of ear. Deafness. Hallucinations of hearing.

Eyes

Fixed, sparkling, staring wide open. Half open in sleep. Pupils dilated. Diplopia. Lachrymation with headache, fever, otalgia. Squint in brain disorders during convulsions, worse terror, fear. Loss of vision, complains that it is dark and calls for more light. Night-blindness. Green vision. Hallucinations in which everything looks jumbled. An objects look black, crooked, small, large, Parts of the body seem enormously swollen. Small objects look large. Strabismus. All objects look black.

Face

Red, bloated, hot, circumscribed redness of cheeks. Blood rushes to face, distorted. Expression of terror. Pale face. Expression rapidly changing, now flushed, now pale, a sardonic grin, then expression of terror. Forehead wrinkled, frowning in brain diseases. Thinks face elongated. Lips, dry, glued together. Chewing motion. Lockjaw.

Female

Convulsions after childbirth. Puerperal, convulsions, mania with mental symptoms and profuse sweating. Nymphomania, lewd talking, sings obscene songs. Excessive menstrual flow, preceded by sexual excitement. Uterine bleeding with loquacity. Loquacity and singing during menses. Menses have strong smell as of semen. Hands constantly kept on genitals. Sobs and moans after menses.

Food

Aversion to all fluids. Food tastes like straw. Food taste bitter. Violent thirst. Great desire for acids, citric acid better. Lemon juice ameliorates.

Head

Headache with tendency to speak incoherently. Raises head frequently from the pillow and drops it again during unconsciousness, delirium, puerperal fever. Pain in forehead and over eyebrows, beginning at 9 a.m. , worse until noon. Boring pain, preceded by obscure vision. Rush of blood to head, staggers with tendency to fall forward and to the left. Meningitis from suppressed ear discharge. Headache from sun.

Heart

Angina pectoris. Palpitations. Pressure about heart. **Heart** disorders with constrictions of the chest and mental symptoms. Feeble, pulse irregular.

Kidneys

Suppression of urine, especially during typhoid, bladder empty. Loss of power of bladder in the aged, stream flows slowly, cannot make haste. Rigor during urination. Bladder empty.

Limbs

Chorea, spasms partial, constantly changing. Graceful and rhythmic motions. Convulsions of upper limbs and of isolated groups of muscles. Clasps hands over head. Hands open and shut. Wringing of hands. Staggering gait. Misses step of stairs while descending. Violent pain in left hip. Abscess of left hip joint with violent pain. Trembling of limbs. Inside of right thigh red and swollen. Hemiplegia with convulsions in unparalyzed parts. Heels numb, sometimes painful.

Lungs

Inspiration slow, expiration quick. The spasmodic cough of alcoholics, whooping. Nervous asthma. Cough worse looking at light, fire or bright objects. Cough with jerking of lower limbs, when sitting.

Male

Sexual passion exalted with indecent speech and action. Hands constantly kept on genitals.

PAGE 1621

Mouth

Dry, dribbling of viscid saliva. Stammering. Aphasia. Constantly spits saliva. Dribbling of viscid saliva. Grinding of the teeth. Risus sardonicus. Cannot swallow on account of spasm. Chewing motion. Fine red dots on tongue. Tongue, dry, parched, swollen, hangs out of the mouth.

Nose

Alae nasi white with a red face. Obstruction of the nose. Nasal discharge yellow, bad-smelling. Nose feels obstructed and dry, though she is able to breathe through it.

Rectum

Putrid, dark, painless involuntary diarrhea with a squint and pale face. Cholera infantum. Stools suppressed.

Sensations

As if spinning or weaving. As if objects were smaller than they really are. As if dizzy. As if he had no limbs. As if drunk. Head as if drawn backward. As if nose were shifted. As if pins and needles were in forehead. As if he was seeking something. As if bones were sawed through. As if front teeth would fall out. Teeth as if pressed together.

Skin

Burns and scalds. Effects of suppressed eruption in scarlatina with delirium. Crawling as of many bugs. Non-appearance of exanthemata. Shining red flush. Chronic abscesses, fistulae. Fiery red patches on skin. Abscesses and tumors with severe pain.

Sleep

Awakes terrified, knows no one, screams with fright, clings to those near him (child). Deep snoring sleep. Sleepy, but cannot sleep. (Bell.) Sleepless in darkness. Frightful dreams. Weeping in dreams. Laughs, screams starts during sleep. Comatose. Lies on back with thighs and knees flexed.

Stomach

Vomiting of greenish substance. Vomiting of mucus and green bile. Hiccough obstinate. Nausea. Watery vomiting with colic and diarrhea.

Temperature

Profuse sweat which does not relieve. Cold sweat during spasms. Violent fever. Heat over whole body with red face and perspiration. Heat with anxiety and redness of cheeks or else with thirst and vomiting. Retention of urine in any fever.

Throat

Dry with great thirst, yet dreads water, it chokes him. Spasms, twitching of larynx. Up and down movement of larynx as in swallowing. As if boiling water rising in. Voice hoarse and croaking, suddenly fails in higher tones. Swallowing, difficult, hasty.

Vertigo

Vertigo worse walking in dark or with eyes closed. Head bent backwards in vertigo, supports head with hands while bending or rising after sunstroke.

Comments

Stram. is an ill smelling plant and the discharges and secretions it causes are often foul and even cadaveric in odor. The delirium of Stram. is for the most part terrifying. It corresponds exactly to many cases of delirium tremens. Visions of animals enter largely into it.

In a case of severe pleuro-pneumonia of right side, supervening on scarlatina, the patient, a young man, said he saw a large black dog about the room.

This led Clarke to give Stram., which rapidly altered the whole case for the better including the pneumonia and resolved a situation of no little anxiety.

Stram. is also called for in congestions without actual inflammation, but with high mental exaltation and furious delirium and little or no fever without pain but with some coma.

J. Emmons Briggs relates this case of poisoning: Briggs had an urgent call to see James M., 4 in "convulsions." He found him lying on the bed in a state of wild delirium, requiring the constant combined efforts of two people to keep him in bed.

Face exceedingly flushed, expression becoming in rapid alternation pleasant and anxious.

Pupils widely dilated, iris scarcely visible, giving the eye a very brilliant appearance. Marked convergent strabismus, skin hot and dry, resembling scarlatina eruption.

Abdomen tense. The most alarming symptom was rapidly recurring convulsions with twitching of the arms and lower limbs. Clonic spasms and contractions.

PAGE 1622

Grasping at imaginary objects before the eyes, when expression frequently became anxious, as if the patient was trying to ward off imaginary foes. At times the mind was

very active and the patient talked rapidly and incoherently. Between the spasms laughter and crying frequently occurred.

The boy, it transpired, had been chewing a Thorn-apple. When he came home he seemed rather dazed and vomited. He then threw himself on the sofa and slept very soundly until he awoke in the convulsions. The boy recovered under Kali brom. in five-grain doses, though it was with great difficulty that he was made to swallow.

This difficulty of swallowing is a marked feature of Stram. and with the intense thirst, delirium and hallucinations completes the picture of many cases of hydrophobia. Another symptom indicating it here is "Worse by bright light, mirror or surface of water."

S. A. Jones relates the case of a little girl with brain symptoms for whom he had prescribed a remedy. The report was brought late at night that the patient was much worse. "She vomits," said the father, "if she even raises her head from the pillow."

The vomit was green. Jones found this under Stram. He gave Stram. and the next morning the case was entirely changed for the better. Acting on this analog, Jones also cured a "vomiting of green stuff always induced by bright light."

On the other hand, the Stram. patient is dependent on light and company, cannot walk in the dark (hence it is indicated in locomotor ataxia) and going through railway tunnels without a light in the carriage may cause fainting.

In addition to the absence of pain there is with Stram. (and in many mental cases) an extreme muscular mobility. This mobility affects muscles of expression and muscles of locomotion. The movements of Stram. are generally gyratory and graceful when they occur in the arms.

Some of the head movements of Stram. are characteristic: Continually jerks head up from pillow, head bent back, boring head into pillow. The twitchings of single muscles and the squint mark Stram. as the remedy for many cases of chorea. Moving fingers as if searching for something. Cries as if from sight of hideous objects.

Clarke found it correspond to about an equal proportion with Agaricus and when there is fright in the causation Stram. will almost certainly avail.

Stram. has a relation to the hip-joints and Stram. has cured both coxalgia and morbus coxa, (left). This is accompanied by very severe pain and is one exception to the "painlessness" of Stram. disorders.

The effect of Stram. on the secretions is to suppress them and this makes Stram. an excellent remedy in many cases of illness due to suppressed secretions menses, lochia, sweat, eruptions.

Stram. causes high fever with rashes, some scarlet like scarlatina, petechiae, spots on the arms like flea-bites, vesications and it corresponds also to burns and scalds.

The convulsant, spasmodic properties of Stram. are shown in the respiratory sphere in constriction of the chest, asthmatic symptoms and cough of the whooping cough type. The common practice of smoking Stramonium leaves for asthma is roughly homeopathic.

PAGE 1623

Compare

(1) Hyos. and Bell. It has less fever than Bell., but more than Hyos. It causes more functional excitement of the brain, but never approaches the true inflammatory condition of Bell.

SOURCES

Boericke. Clarke. Phatak.

Streptococcinum

(bacteria)

Pharmacy

Streptoc. Streptococcinum. Streptococcinum bacteria. Historical dose: All potencies.

History

Anti-febrile action, septic symptoms in infectious diseases. Chronic sore throats and streptococcinum infections. **Planets:** Mars.

Homeopathic

Streptococcinum is rapid in its action, especially in its effect on temperature. Subject with tears, weeping without reason. Intolerance to noise, light, least current of air caused by the moving of a person. Epileptiform attacks. Exaggerated obsequiousness. Chorea-like movements.

Clinical

Fevers. Infections.

Modalities

Better in the beginning of movement. Better in open air. Worse by consolation. Worse by humid weather.

Symptoms

MIND

Depressed. Obsessions. Thinks that he will become mad. Hopeless of his cure, hopeless of his condition. Tormenting thoughts and anxiety.

Abdomen

While lying down cannot bear the weight of hand on the abdomen. Pain in the appendix.

Back

Pain of the backbone. Acute pain on the clavicles. Sensation of vibrations in the vertebral column and in the limbs.

Ears

Auditory hallucinations, hears cry for help. Otagia specially if the person is lying down on the left. Intermittent puffs of wind in the ear. Otitis and mastoiditis.

Eyes

Troubles of vision with ocular hypertension. Ocular fatigue with the need of wearing spectacles. Visual hallucination, sees the room full of flies.

Head

Tenacious migraine with vomiting of bile. Pain of the whole head as if it is going to burst.

Heart

Cramping pain in the precordial region. Sensation of weakness of the heart. Pain of the point of the heart.

Limbs

Joint pains with hydro-arthritis. Muscular pain. Rheumatism of small articulations of the wrist, of the hand, with local redness, sometimes with hydro-arthritis. Paresthesia of lower limbs.

Mouth

Feeling of having salty lips. White tongue with the tip red, without papilla in the front and in the back part. Gums painful when chewing.

Nose

Serous nasal discharge, muco-purulent with nasal crusts. Sinusitis with headache.

Skin

Loss of hairs. Scarlatina. Exanthema. Vesicular and pustulous eruptions. erysipelatous patches of the limbs. Cellulitis. Fibrinous dermatitis, edema of the face.

Sleep

Agitated sleep. Dreams of violence, scuffles.

Stomach

Nausea with vertigo and vomiting of bile. Sudden pains in the esophagus after meals. Dull, deep pain in the epigastric region.

Throat

Adenopathy of the neck. Big, infected, purulent tonsils. Red angina. Persistent pain and redness of the throat. Acute and chronic laryngitis.

Vertigo

Vertigo while rising and while lying down.

SOURCES

Boericke. Julian.

PAGE 1624

Strontium bromatum

(bromide of strontium)

Pharmacy

Stront-br. Bromide of Strontium. Strontium bromatum. Trituration. Solution. Historical dose: All potencies.

History

Stront-br. often gives excellent results where a bromide is indicated. Vomiting of pregnancy. **Planets:** Moon, Venus.

Homeopathic

Stront-br. is anti-fermentative and neutralizes excessive acidity. Nervous dyspepsia.

Clinical

Dyspepsia. Gravel. Legs, swollen. Phlebitis. Varicose veins. Urine offensive.

Comments

Cooper gives the following experiences with Stront-br.: (1) A woman, 40, had tenderness of limbs and veins of legs show up and incline to inflame. Chronic cellulitis, left ankle inclined to swell, vertigo, at times darkness comes over sight, appetite not good, bowels regular, menses every three weeks, cannot keep awake in evening.

Great relief came from Stront-br. 3x, but after taking it for ten days, severe ardor urine with constant bedwetting day and night, set in, which yielded to Ferr-p. 6x. after failure with other remedies.

(2) Woman, 60, had left leg and left foot swollen, hard and tender, red and pitting. The right also but less in degree. Indigestion with pain after food and sickness after food. For seven or eight years has been rheumatic and has had sciatica off and on.

For two years, bowels confined, sleep very restless generally. Stront-br. 3x was given and in two weeks the legs had gone down very much and she felt altogether better. Urine had become clear, but though ravenous for food had to stop eating and felt more sick and the bowels were more confined. After this patient got quite well without further medicine.

(3) Stront-br. 30 gave great relief to a lady broken down by sorrow who could not digest food. (4) Stront-br. 6x produced in a woman, 70, the following symptoms: Urine thick and offensive and dark-looking with grains of red sand.

SOURCES

Boericke. Clarke.

Strontium carbonicum

(carbonate of strontia)

Pharmacy

Stront-c. Carbonate of Strontia. Strontianite. Strontium carbonicum. Trituration.

Historical dose: All potencies, sixth trituration and thirtieth potency.

History

Native Strontium Carbonate, a mineral named Strontianite, was first discovered in the lead-mines of Strontain in Argyllshire from whence it received its name. It occurs in massive, fibrous, stellated, rarely ortho rhombic crystals. The metal Strontium is dark yellow. Stront-c. varies in color from white to yellow and pale green. Stront-c. was proved by Nenning, Schreter, Seidel, Trincks and Woost.

Homeopathic

Stront-c. affects the circulation causing congestive feeling of tension. **Heart**, kidneys, marrow, ankles and right side are also affected. Rheumatic pains, chronic sprains and stenosis of esophagus. Pains make patient faint or sick all over. Chronic sequelae of hemorrhages after operations with much oozing of blood and coldness and prostration.

Arteriosclerosis. High blood pressure with flushed face pulsating arteries, threatened strokes. Violent involuntary starts. Affections of bones, especially femur.

Restlessness at night, smothering feeling. For the shock after surgical operations. Neuritis, great sensitiveness to cold.

Pains are fleeting, can hardly tell where they are, seemingly felt in marrow of bones increase and decrease gradually or make the patient faint and sick all over. Burning, gnawing. Violent involuntary starts of the body Immobility of one side.

Stront-c. has prostration or shock after surgical operation. Sense of paralytic weakness. Formication in limbs. High blood pressure, arteriosclerosis. Emaciation. Numbness. Soreness. Edema, especially about the ankles as a concomitant. Affections of bones especially of femur.

Chronic sequelae of hemorrhages. Rheumatic pains. Chronic sprains. Stenosis of esophagus. Neuritis, worse cold. Coldness in spots, on calves. Pain and itching alternate. Right side most affected. Pressure in stomach is better by eating and worse after a meal.

PAGE 1625

Clinical

Angina pectoris. Ankle, sprains. Anus, burning. Bedwetting. Bones, diseases. Cardialgia. Constipation. Cramp. Diarrhea. Emaciation. Feet, cold. Femur, decay. Headaches.

Heart disorders. Hemorrhoids. Hiccoughs. Hoarseness. Leucorrhoea. Menses, disorders. Phlebitis. Sciatica. Sprains. Sternum, pains. Strokes. Sycotic eruptions. Varicose veins. Vision disorders.

Causations

Hemorrhages, chronic sequelae. Injuries. Sprains. Shock. Surgery.

Constitutions

It is particularly suited to bone disorders of scrofulous children when associated with diarrhea. **Planets:** Mars, Saturn.

Modalities

Better immersing in hot water. Better from heat and light, sun, wraps, hot bath. Warmth, covering relieves. Worse change of weather from being quiet, when beginning to move. Worse from cold, uncovering, walking, sprains, bleeding. Least draft aggravates. Worse by touch, by rubbing, by scratching. Walking especially aggravates.

Stooping aggravates. Worse evening, night and early morning, 2 or 3 a.m.

Symptoms

MIND

Depression of spirits. Excessive forgetfulness. Inquietude and anguish. Apprehension as from bad conscience. Irritable, suddenly becomes angry, beats anything that comes in his way. Depression of spirits. Peevishness with tendency to fly into a rage.

Abdomen

Colic in umbilical region. Uncomfortable fullness and swelling of abdomen. Sticking in the abdominal ring.

Back

Pain, as of a fracture in loins and back. Drawing pain in back and lumbar region.

Chest

Pressure at chest in sternum. Constriction, pressive pain worse walking. Drawing pain in muscles of chest.

Ears

Tearing in front of right ear as if in the bone. Sticking in front of left ear in frequent paroxysms. Humming in the ears.

Eyes

Burning and redness of eyes. Photophobia, remaining after operation, especially when objects appear covered with blood. Green spots before the eyes in the dark. Pain and lachrymation on using eyes with dancing and alternation of colors of objects looked at.

Face

Flushes in face, violent pulsating. Red with burning heat or very pale, even time the patient walks. Face red, burns, itches.

Food

Loss of appetite. Food tasteless. Craving for bread and beer. Aversion to meat.

Head

Aches into upper jaw with vertigo and nausea. Headaches from nape of neck, spreading upwards, better wrapping head up warmly, (Sil.) Distensive pressure on head. Aching eyebrows. Supra-orbital neuralgia, pains increase and decrease slowly. (Stann.)

Heart

Heart feels smothered. **Heart** block. Dull intermitting pressure in precordial region. Violent beating of arteries and of heart.

Kidneys

Pale urine with strong smell of ammonia. Diminished secretion of urine. Increased secretion of a yellow, deep-colored urine. Nocturnal emission of urine.

Limbs

Rheumatic pain in right shoulder. Rheumatism with diarrhea. Rheumatic pains, especially in joints. Veins of hands engorged. Hands numb. Cramps in calves and soles. Ankles sprained or swollen. Chronic spasms especially of ankle joints. Sciatica with edema of ankle. Immobility of the limbs of one side only like paralysis. Gnawing as if in marrow of the bones. Icy-cold feet.

PAGE 1626

Lungs

Pressure, as of a load on chest. Pain in the left breast with oppression worse after meals. Dry cough, excited by irritation in trachea, worse at night. Dyspnea, when walking with heat and redness of face.

Mouth

Feels numb and dry on waking. Teeth as screwed together. Bad odor from mouth.

Nose

Itching, redness and burning of nose. Bloody crusts in nose. Quivering on one side of nose. Blowing of dark scabs from nose. Twitching of left side of nose.

Rectum

Diarrhea worse at night with constant urging, exhausting of yellow water with gripping, better towards morning. Burning in anus lasts a long time after stool. (Rat.) Hard, knotty stools, evacuated slowly with much effort, then burning in anus lasting for a long time. Periodical diarrhea.

Sensations

As if a load on chest. As if head were expanded from within. As if scalp were too tight. As if tendons of neck were drawn up. As if bruised in back and sacrum. As if all power had left right arm. Gnawing as if in marrow of bones. Symptoms as if in marrow of bones. Symptoms like phantoms difficult to locate.

Skin

Moist, itching, burning eruption, better in open air, especially warm sunshine. Sprains of ankle joint with edema. Violent perspiration at night.

Sleep

Retarded sleep. Jerking in body and starts when sleeping. Frequent waking at night, principally caused by a dry cough. Sleep with many fantastic dreams.

Stomach

Heartburn. Belchings after eating. Violent hiccough causes chest pains, cardialgia.

Pressure in stomach during digestion. Nausea with burning heat in face.

Temperature

Flushes of heat in face, with aversion to uncovering. Profuse perspiration at night, menopausal. Heat with aversion to uncover or undress.

Throat

Hoarseness and roughness in throat, which excites a cough.

Vertigo

Vertigo with headache and nausea.

Comments

Among the prominent symptoms were flushing in the face and violent pulsation of the arteries, congestion to heart, lungs and head. The distinctive feature about these states with Stront. is that they are better by warmth and wrapping up and worse by the cold. This also distinguishes the headaches of Stront. The headaches are boring, pressive and tensive. There are various expressions of the congestive state.

One of the tensive pains is peculiar: Tension from vertex to upper jaw, as if head were expanded from within and as if scalp were too tight, worse in evening when lying with head low, slowly increasing and decreasing, better from heat. The pressure appears in the stomach, it is better by eating and worse by walking. There is also pressure after eating. There is both diarrhea and constipation, the stools of both are accompanied and followed by burning in the rectum.

A. P. Bowie cured this case occurring after a tedious labor: Stools large and hard, expelled with great effort, followed by great pain in anus, burning, lasting a long time and compelling patient to lie down. Anus violently contracted after stool. Complains of coldness in spots on calves of legs.

Stront. 6c entirely relieved.

The diarrhea is worse at night and the stools are yellow. Walking worse all complaints: headache, leucorrhoea, Dyspnea, pressure in sternum.

The symptoms about the chest and sternum with the worse by walking, suggest angina pectoris and a similar but less serious state often met with in gouty patients. The tension is manifested in the nape, as if the tendons were drawn up, tensive drawing in dorsal and lumbar muscles.

PAGE 1627

In the arms there is venous tension: "the veins of the arms and hands are injected and tense with great prostration and ill-humor" suggesting phlebitis and Varicose veins.

Stront. has a relation to sprains and bone disorders. The femur is especially affected by it.

Stront. is particularly suited to bone disorders of scrofulous children when associated with diarrhea. The diarrhea of Stront. is worse at night is very urgent, can scarcely leave the vessel before having to return, better after 3 a.m. Stront. is indicated in chronic sprains of the ankle when edema exists.

C. M. Boger cured with Stront. after other remedies had failed, a sciatica accompanied by edema of left ankle. External soreness is a note of Stront., also numbness. Emaciation has been caused by it.

Strontium nitricum

(nitrate of strontium)

Pharmacy

Stront-n. Nitrate of Strontium. Strontium nitricum. Solution. Historical dose: All potencies, sixth trituration and thirtieth potency.

History

C. M. Boger had a case of passive congestion of the kidneys was completely relieved by Stront-n. in a woman at the menopause.

The menses became profuse, which were usually exceedingly scanty. **Planets:** Venus, Moon.

Homeopathic

Stront-n. has morbid cravings, headaches and eczema behind ears. Headaches. Kidneys, congestion. Menses, scanty.

Comments

Boger records the following case: (1) Miss D., 18, brunette, had dull pains over eyes worse by sunlight, motion, loss of sleep, sewing, reading.

Pains were better after stool, with headache, swelling of upper lids, worse in morning. Sometimes bad taste in mouth.

Menses irregular, profuse, dark. Feels tired and weak. Is addicted to eating cloves. In hot weather sweats profusely and easily about head and chest, staining yellow. Very susceptible to cold. Cough provoked by oppression of breathing and talking.

Formerly had catarrh, now has right-sided deafness. She had typhoid fever two years before and during the fever was allowed unlimited quantities of ice. Preceding the fever she had a post auricular eczema suppressed by salves, now is anemic and bloated. Urine contained epithelium, excess of chlorides, calcium oxalate and a trace of albumen (due probably to the clove habit).

Glonoin helped the case, but for a time only. Stront-n. was chosen because Stront. irritates the kidneys and Nit-ac. corresponds to the vasomotor disturbance besides having cravings for odd things. Stront-n. 6x was given and in a few days the headache vanished. At the end of a month the post-auricular eruption had reappeared. Five months later there had been no return of headache or palpebral edema, the craving for cloves had gone, the patient had taken on good flesh and color. The eruption had not all gone.

Strophanthus hispidus

(kombe seed)

Pharmacy

Stroph-h. *Strophanthus hispidus*. Kombe seed. Onage. Onage. Poison of Pahonias. N. O. Apocynaceae. Tincture of the seeds. Historical dose: Tincture and all potencies, tincture and 6x potency. In more acute cases, five to ten drops of the tincture three times a day.

History

Strophanthus is an ornamental, evergreen and a climbing shrub, native of Tropical Africa and Asia.

PAGE 1628

The mother tincture comes from the seeds of the plant which grows in regions with a tropical climate. It is used as an arrow-poison by natives of Africa. Among the alkaloids is strophanthin.

Strophanthus occasions no gastric distress, has no cumulative effects is a greater diuretic and is safer for the aged, as it does not affect the vaso-motors. Restores tone to a weak tissue, especially of the heart muscle and valves.

Especially useful in failing compensation dependent upon fatty heart. After the long use of stimulants, irritable heart of tobacco-smokers. Arteriosclerosis, rigid arteries of aged. The Homeopathic proving was conducted by Templeton on five provers, using 2x, 3x, 6c, 12c, 30c and by O'Hanlon on twelve provers, using 6c, 12c and 30c. **Planets:** Sun.

Homeopathic

Stroph-h. increases the contractile power of all striped muscles especially heart increasing the systole and diminishing the rapidity. Acts on the heart increasing the systole and diminishes the rapidity. It can be used with advantage to tone the heart and run off dropsical effusions. It has no cumulative action, safe for corpulent, aged persons with rigid arteries.

Precordial anxiety. Retro-sternal pain. Functional disturbances of heart from alcohol tobacco, tea. In small doses for weak heart, it feels enlarged. In mitral regurgitation, where edema and dropsy have supervened. (Dig.)

In pneumonia and in severe prostration from hemorrhage after operations and acute diseases. Hives. Anemia with palpitation and breathlessness. Exophthalmia goiter. Obese

persons. Nausea with special disgust for alcohol and so aids in treatment of dipsomania. Seven drops of tincture.

Arteriosclerosis. Twitchings of the muscles. Stitching pains. Undulating sensation in whole body. Throbbings. Rapid alternations of symptoms with slow pulse. Faintness.

Anemia with palpitations and lost of breath. Goiter, exophthalmic. Increased secretions. Abolishes the taste for alcohol.

Clinical

Alcoholism. Anemia. Cough. Diplopia. Dropsy, cardiac. Hemoptysis. **Heart** disorders. Levitation.

Causations

Alcohol. Tea. Tobacco.

Modalities

Better from rest. Better from lying down. Worse from exertion tobacco, tea, alcohol. Worse from emotions, exercise, standing.

Symptoms

MIND

Anxiety and fear. Fear of ordeals. Feels lifted up during sleep. Precociously talkative, children. Irritable. Worse from strong emotions.

Abdomen

Abdomen distended, painful, especially in the umbilical and inguinal regions. Rumbling and pinching at navel. Shooting pains in right hypochondrium. Colic. Stitches in region of sigmoid flexure. Acute entero-colitis. Colitis.

Back

Joint and muscular pains in the limbs, back and lumbar region with stiffness, muscular weakness, coldness at the limbs.

Chest

Pressive pain middle of right third rib on anterior half worse by pressure. Thoracic pain on left side. Constrictive, cramping pain behind the sternum, crushed, gnawing, needle-like sensation.

Eyes

Glimmering in vision. Pupils quivering, dilating and contracting alternately. **Eyes** brilliant. Impaired sight of left eye with nausea and faintness. Double vision.

Face

Flushed, red spots on. Lips scarlet.

Female

Uterine hemorrhage. Uterus heavily congested.

Food

Craving for coffee. Loss of appetite. Nausea with special disgust for alcohol. Loathing of food, followed by choking and vomiting after eating.

Head

Temporal pains with double vision, impaired sight, brilliant eyes, flushed face. Violent, pulsating headache, aggravated by movement.

PAGE 1629

Heart

Cardiac pain and dyspnea. Chronic, nervous palpitations and arrest of breathing.

Heart's action weak, rapid, irregular, due to muscular debility and insufficiency.

Sense of lively action. Mitral regurgitation. Stitches and twitches at apex beat. Pulse, rapid, alternating with slow, weak, small irregular. Violent palpitations, worse by emotion and exercise. Weak heart with aching or anguish.

Kidneys

Cystitis. Urinary tract infections. The kidneys become hyperemic. No urine passed for hours. Frequent urination. Urine increased secretion or scanty albuminous. Urine strong, odor is fruity or like horse urine, pale.

Limbs

Heaviness and pain in forearms and the fingers. Swollen, dropsical. Anasarca. Swelling of legs. Itching and stitching in both feet. Dorsum of foot painful and tense. Muscular and joint pains with stiffness and coldness of the limbs. The pains are aggravated by movement.

Liver

Pressure in liver region.

Lungs

Edema of lungs. Bronchial and cardiac asthma. Expectoration of bright red blood. Cough worse by lying down. Breathing deep, difficult, thirsty for air, feeling of dryness in the mucous membranes, aggravated by movement.

Mouth

Dryness of tongue and fauces.

Rectum

Infectious or toxic diarrhea. Diarrhea with burning and tenesmus in anus. Frequent diarrhea with violent colic but good appetite. Stool with burning and tenesmus in anus.

Skin

Hives, chronic, receding. Urticaria, especially more chronic forms.

Stomach

Cramping, acrid stomach ache with belching and nausea. Bulky feeling in the stomach. Nausea with special disgust for alcohol. Eructation and hiccough. Twitching in stomach. Burning in esophagus and stomach with loss of appetite and extreme gastric distress.

Temperature

Coldness of limbs. Temperature raised, skin dry. Profuse sweat.

Throat

Seems dry, constricted. Burnings, compelling empty swallowing. Burning in throat and esophagus to stomach, compelling empty swallowing.

Vertigo

Vertigo with swimming vision. Senile vertigo. Undulations in head.

Comments

Piedvache proved the tincture, but only with reference to the pulse. Gisevius proved Stroph-h. tincture, beginning with 5 drops increasing to 80 drops during the five days of his proving. Matthes proved Stroph-h. tincture in 10 drops doses.

Some well-marked symptoms were produced on two chemists from preparing the tincture. Other effects curative and pathogenetic have been observed on patients taking the drug. Stroph-h. disorders the digestion, causes burning in the esophagus and stomach, nausea, vomiting and diarrhea.

A. P. Skworzow gave to an alcoholic, 63, for weak heart and intermittent pulse in 7 drop doses three times a day, an infusion of Stroph-h. The first dose caused nausea and a repugnance to alcohol which proved to be permanent. The man entirely discontinued the habit. On this hint Stroph-h. was given to two other alcoholics with the same result of abolishing the taste for alcohol. It caused nausea and profuse sweating and the sudden withdrawal of alcohol was not attended with delirium.

A case of Clarke's illustrates the gastric and cardiac action of the remedy: W. G., 16, a delicate-looking boy, was admitted to hospital.

He having had rheumatic pains about him for three months and an attack of rheumatic fever two years previously. He had been laid up a month before admission and a week before was taken with cough, shivering and occasional vomiting.

When admitted he had a frequent, short, dry cough, worse lying down, had to be propped up in bed, had edema of feet, especially left. Tongue white, unable to retain any food for three days, no pain after food, but much flatulence, belchings giving much relief.

PAGE 1630

Heart greatly dilated, pulsation diffused, double mitral bruit. Dullness at bases of both lungs, moist rales, halfway up right lung. Expectoration of bright blood seven days. Stroph-h. tincture, one drop every four hours, was given.

Improvement in all the symptoms was immediate, sickness, cough, hemoptysis and dropsy all disappeared and the heart sounds had cleared up to a large extent when the boy went home, less than three weeks after admission.

Hamer mentions that Stroph-h. has cured "functional disturbance of the heart from alcohol tobacco and tea." This agrees with the relation of Stroph-h. to alcoholism and to symptoms of indigestion.

A writer gives his experience with Stroph-h.: A lady had constant outbursts of urticarial rash dating from exposure to an offensive effluvium from a dead whale cast on the sands. The attacks would recur after drinking a glass of table beer. Stroph-h. cured.

Any accompanying cardiac weakness would be an additional indication. The same writer considers Stroph-h. of great service in the anemia of young girls when palpitation and breathlessness are marked features.

An accidental proving on a girl of five was made through the mother giving twenty drops of the tincture by mistake. Some half an hour later this condition was found:

Face flushed, lips scarlet, eyes brilliant, temperature raised, skin dry tongue normal.

Pupils quivering, dilating and contracting every few seconds. Pulse 140, arteries

distended. **Heart** sounds vigorous, slight regurgitant mitral murmur. Intellect clear, precociously loquacious during the five hours the poisonous symptoms lasted. An Ipec emetic was administered. No urine passed for ten hours after the dose.

Compare

Boericke. Clarke. Phatak.

Strychninum purum

(alkaloid of nux vomica)

Pharmacy

Stry. Strychninum purum. Strychnine. An alkaloid obtained from several species of Strychnos. Nux Vomica, Trituration. Solution. Historical dose: All potencies, third to thirtieth potency.

History

The Liquor Strychnie is responsible for many of the poisonings, the powdered crystals, either pure or mixed in pills or rat-poison, for others. Strychnia itself is very sparingly soluble in cold water, (1 in 5760). A homeopathic proving of Liquor Stry. was made by Henry Robinson on two provers, a man and a woman.

The man took 900 drops in twenty-three days, the woman 445 drops in fifty-three days. These have furnished the most distinctive symptoms. Extreme nervous excitability.

Visions of an ugly face. Fits of laughing with light.

Swimming sensation in the head and giddiness involuntary, Idiotic-like chuckle, confusion of ideas, stupor and weariness were some of the mental symptoms.

The drowsiness was a well-marked feature and characterized some of the headaches. The headaches were frontal largely or momentary dartings like electric shocks.

Hale mentions the following uses of Stry. and its salts as observed by him and others:

PAGE 1631

(1) In the tetanic spasms of cerebrospinal meningitis. Stry. 6c.

(2) Amaurosis from atony of retina.

(3) Diplopia and night-blindness. Facial neuralgia and neuralgic headache, Stry-sulph., and in one case when all other Stry. preparations had failed, Stry-valer. cured.

(4) Spasms of esophagus in an hysterical woman, Stry. cured.

(5) Brain exhaustion of women in whom high nervous weakness exists. Strych Valer. 2x.

(6) Chorea, when the convulsions do not cease during sleep. Stry. 12c or 30c.

The direct "tonic" action of Stry. was shown in one of Robinson's provers, who had "unusually good appetite, she enjoys her food amazingly." Stry. is an antidote to Chloral, used in asphyxia from gas and chloroform and early stages of Opium poisoning. **Planets:** Moon, Mercury.

Homeopathic

Spasmodic rigidity is the key note of this alkaloid obtained from the seeds of Nux vomica. Its primary function is to stimulate the motor centers and the reflex action of the spinal cord. Strychnine stimulates the central nervous system, mental activities, special senses rendered more acute. Respiration increased.

All reflexes are made more active. Spasms of muscles, cramps from an undue reflex excitability of the cord, spasms of the bladder, etc. Stiffness in muscles and face and neck.

Opisthotonos. Tetanic convulsions with opisthotonos. The muscles relax between paroxysms, worse slightest touch, sound, odor. Influences more directly the spinal cord and is less appropriate in visceral derangements than Nux-v.

Tetanus. Explosive nervousness. The pains and sensations come suddenly and return at intervals. Tetanus with violent jerking, twitching and trembling are the characteristic symptoms which it produces. Tetanic convulsions with opisthotonos. Inability to take deep breath, fixation of chest walls. Athetosis. Spine is cold. Gushing sweat from head and chest.

The pains and sensations of Stry. come suddenly and return at intervals. Sudden palpitations. Darting, pinching lancinating, fulgurating, electric pains.

Clinical

Amaurosis. Aorta, pain. Aphonia. Asthma. Athetosis. Bedwetting. Bladder, paralysis, pains. Breasts, pains. Coughs. Cramps. Diaphragm, spasms. Emphysema. Exophthalmos. Eye disorders. Headaches. Hemiplegia. Influenza. Joints, stiffness. Laryngeal crises. Locomotor ataxia. Malar bones, pains. Neurasthenia. Night-blindness. Paraplegia. Proctalgia. Rheumatism. Scrotum, abscess. Spinal irritation. Tetanus.

Modalities

Better from lying on back. Worse morning touch, noise, motion. Worse by exertion, walking. Worse after meals.

Symptoms

Abdomen

Sharp pain in abdominal muscles, griping pain in bowels.

Back

Rigidity of cervical muscles. Sharp pain in nape and down spine. Back stiff, violent jerks in spinal column. Icy sensation down spine.

Ears

Hearing very acute, burning, itching and roaring in ears.

Eyes

Hot, painful, protruding, staring. Pupils dilated. Sparks before eyes. Spasmodic contraction of ocular muscles, twitching and trembling of lids.

Face

Pale, anxious, livid. Jaws stiffened, lower jaw spasmodically closed.

Female

Desire for sex. (Plat.) Any touch on body excites a voluptuous sensation.

Head

Restless. Over irritability. Full and bursting headache with heat in eyes. Vertigo with roaring in ears. Jerking of head forwards. Scalp sore. Itching of scalp and nape.

Limbs

Limbs stiff. Rheumatism with stiff joints. Violent jerking, twitching and trembling. Tetanic convulsions and opisthotonos, spasms provoked by slightest touch and attempt to move. Shocks in the muscles. Cramp-like pains.

Lungs

Spasm of muscles about larynx. Excessive dyspnea. Sharp, contractive pains in muscles of chest. Persistent cough, recurring after influenza.

PAGE 1632

Rectum

Very obstinate constipation. Feces discharged involuntarily during spasms.

Sensations

Feeling as if head and face were enlarged. Hence Nux-v. and Stry. are remedies for the after-effects of debauches. As if an iron cap were on head. Paralyzed feeling in left half of head and face. Scalp sore, as if hair had been pulled. As if nerves suddenly pulled out of teeth. As of a lump in throat. As if water dripped off right elbow, at intervals and off right shoulder. As if chopped in half at waist, at night.

Skin

Itching of whole body, especially nose. Icy sensation down the spine.

Stomach

Constant retching. Violent vomiting. Nausea of pregnancy.

Temperature

Cold chills down spine. Perspiration in a stream down head and chest. Lower limbs cold.

Throat

Dry, contracted, feeling of a lump. Swallowing impossible. Burning along and spasms of esophagus. Violent itching in roof of mouth.

Comments

Poisonings innumerable with Strychnine are on record, the symptoms being convulsions of a tetanic nature in the fatal cases ending in asphyxia. The spasms are intermittent and the least touch or movement is sufficient to induce an attack. Lying on the back is the only tolerable position.

Here is a case: "Lying on her back, body rigid, jaws set, arms and hands flexed, the thumbs nearly touching across the chest and the whole muscular system convulsed with short, jerky spasms.

Which would continue for about a minute and then remit, the muscles remaining contracted and as hard as wood during the intervals between the paroxysms."

The convulsions generally take the form of opisthotonos, cries, terror, hippocratic countenance and frothing at the mouth are common occurrences.

A lady to whom Clarke gave Stry. ph. 3x in five-drop doses twenty minutes before meals felt at once constriction of the throat and after each meal violent headache in forehead over the eyes. The choking sensations were a constant feature in provings and poisonings.

Gamper of St. Petersburg, experimented with Stry. nit. on healthy young hospital assistants and found that it increased the amount of gastric juice secreted, the general acidity and the quantity of free acid in the secretion. It hastened the absorption from the stomach and strengthened mechanical movements.

The effects continued some time after the administration was stopped. The action of Stry. on the rectum and genito-urinary organs was as pronounced as that of Ign. and Nux-v., the male prover had his left testicle and cord swollen and an abscess of the scrotum developed and discharged.

Meyhoffer experimented with Stry. on himself and two other persons, one of whom was a woman of lymphatic temperament. "It always brought on electric shocks, occurring whenever the prover was touched or whenever any one lightly shook the bed on which he or she was lying. This happened to all, only the woman (lymphatic and feeble) needed a stronger dose." This prover also had this curious symptom: Any touch on any part of the body causes a voluptuous sensation.

A suggestion of Cooper that many cases of persistent cough recurring after influenza are met by Stry. Clarke has found this to be correct. The influenza cough has in it a strong spasmodic and asthmatic element, whether dry or not and this seems to give one point of correspondence.

C. W. Lawson relates the case of a medical man who took continuously for two years, Stry. Hydrochlor., 5 to 10 minims, thrice daily with a little Sal volatile. He was at first benefited, but afterwards experienced a desire to take deep inspirations.

"He felt that to do so would overcome the inhibitory power over the lung, probably the action of the diaphragm."

One morning after a dose of Stry., he was taking such an inspiration and from that moment experienced the sensations complained of an inability to take a deep breath, fixation of chest walls compelling him to stoop, weakness on exertion, great confusion of thought and memory, occasional clay-colored feces, usually greater in amount than ordinary.

After six months the apex beat descended to the 6th interspace and headache and drowsiness became marked. He traveled for six months without benefit. All attempts to act on the heart with drugs increased the headache. Lawson then found the heart dilated, wide sub-costal angle, chest emphysematous, moving en mass.

After a full year of treatment with Hyoscyamus tincture at bedtime, it proved strikingly beneficial, drowsiness ceased entirely and improvement in all other respects followed.

"Gurgling noise in rectum with electric darts" is a symptom of one prover. Many pains center about the lips and eyes. Pains and chills occur in the occiput and nape and run down whole length of spine. Itching of the whole body and "violent itching in roof of mouth," which should prove a useful symptom. Jerkings, twitchings and shocks in all parts run throughout the pathogenesis.

The sensitiveness is shown in the increased activity of the spinal senses, the dread of touch, shrinking from drafts of air and touch anywhere excited a voluptuous sensation. Stiffness is a leading note of Stry. and Cooper gives "rheumatism with stiff joints" as an indication.

Compare

(1) Eucalyptus - neutralizes ill effects of Strychnine.

(2) Cicuta, Arnica (tetanus).

(3) Stry. ars. - Paresis in the aged, relaxed musculature. Prostration. Psoriasis, chronic diarrhea with paralytic symptoms. Compensatory hypertrophy of heart with beginning fatty degeneration. Stry. ars. - Marked dyspnea when lying down, edema of lower limbs, urine scanty, high specific gravity, heavily loaded with glucose. Diabetes. use the 6x trituration.

(4) Stry. et. ferr. cit. - chlorotic and paralytic conditions, dyspepsia with vomiting of ingesta, 2x and 3x trituration.

(5) Stry-n. - 2x and 3x. Said to remove craving for alcohol. Use for two weeks.

(6) Stry-s. - Gastric atony.

(7) Stry-val. - exhaustion of brain-power, women of high nervous weakness, 2x trituration.

Strychninum phosphoricum

(phosphate of strychnine)

Pharmacy

Stry-p. Strychninum phosphoricum. Phosphate of Strychnine. Solution. Trituration.

Historical dose: All potencies, third trituration.

History

Strychninum phosphoricum is useful in chorea, hysteria, acute asthenia after acute fevers. **Planets:** Moon.

Homeopathic

Stry-p. acts through the cerebro-spinal system upon muscles, causing twitching, stiffness, weakness and loss of power. Upon circulation, producing irregularity of pulse and upon the mind, producing lack of control, uncontrollable desire to laugh and disinclination to use the brain. Very irregular pulse. Tachycardia. Rapid and weak pulse.

An excellent remedy in anemia of spinal cord, paralysis, burning, aching and weakness of spine, pain extends to front of chest, tenderness on pressure in mid-dorsal region, cold, clammy feet, Hands and axilla covered with clammy perspiration. Atelectasis and break in the compensation of a hypertrophied heart, the beginning of fatty degeneration of the heart muscle. (Royal.)

Clinical

Atelectasis. **Heart**, disorders.

Modalities

Better rest and in open air. Worse from motion.

SOURCES

Boericke. Clarke.

PAGE 1634

Strychnos gaultheriana

(hoang-nan)

Pharmacy

Strych-g. Hoang-nan. Strychnos gaultheriana. Tropical Bind-weed. N. O. Loganiaceae. Tincture of dried bark. Historical dose: Tincture and all potencies, five to twenty drops of the tincture.

Herbal

The Strych-g. plant is indigenous to Tonquin, where it has a great reputation as a remedy for leprosy, hydrophobia, snake-bites and diseases of the skin.

The red dust of the bark contains the most active properties. The native method of preparing the medicine is by moistening the mixture of the three powders with a little vinegar and forming the paste into pills of about a centimeter in diameter.

When taken by a healthy person these pills cause: Fatigue, general indisposition, vertigo, tingling of the hands and feet involuntary movements of jaw.

When a person is bitten by a poisonous animal a dose of three or four grams is administered in vinegar and if none of these symptoms appear it is understood that the medicine is antagonized and the dose is increased until some of the symptoms manifest themselves, when the poison is considered to be destroyed.

The use of alcohol is forbidden whist a patient is taking this medicine. Vinegar appears to modify its virulence. In animals poisoned with it tetanic convulsions always begin in the hind legs and spread all over the body. Brain, liver, kidneys and lungs were found congested post mortem. **Planets:** Saturn.

Homeopathic

Strychnos gaultheriana improves nutrition generally, especially in constitutional syphilis. Tetanic convulsions beginning in legs and spreading over body. Glandular disorders.

Exhaustion with vertigo, numbness and tingling in hands and feet involuntary action of lower jaw. Pustules and boils, tertiary syphilis and Paralysis, Eczema, prurigo, old ulcers, leprosy, cancer of glandular structures and bites of serpents.

Removes fetor and hemorrhage in cancer, revives the healing process. Follows well after Arsenicum.

Clinical

Albuminuria. Boils. Cancer. Carbuncles. Eczema. Leprosy. Paralysis. Prurigo. Rabies. Syphilis. Ulcers.

Symptoms

MIND

Apathy. Lassitude indisposition to make mental effort.

Abdomen

Colic and diarrhea.

Head

Vertigo, headache.

Kidneys

Albuminuria. Mucous casts.

Skin

Malignant ulcers, pustular eczema, boils, carbuncles, leprosy.

Comments

In 1883 a proving of Strych-g. was made by seven persons and a few symptoms were produced. According to Hansen, prurigo, pustular eczema in parts well supplied with sebaceous glands (face, neck, genitals). Cancer of the glands and general malnutrition were also met by the remedy. Boils, carbuncles, constitutional syphilis. The dose of which is 5 to 30 drops of the tincture three times a day.

Compare

SOURCES

Boericke. Clarke.

Succinum

(amber)

Pharmacy

Succ. Succinum thal. Amber a fossil resin. A mineralized resin not to be confounded with Ambergris, Ambra. Trituration. Solution of the non-rectified oil prepared by dry distillation of Amber. Solution of Succinic acid. Historical dose: All potencies, Third trituration. Five drop doses of the oil.

History

The fossil resin known as Amber. Dr. Morris Weiner tested Succin. ac., which he prepared himself from Amber by dry distillation.

The fumes of the crude acid, he says, are inflammable and produce asthma, cough, sneezing, weeping, dropping of watery mucus from nostrils, pain in chest and headache.

PAGE 1635

On this indication he treated thirty persons suffering from hay fever and cured them all and saved them the necessity of making an annual exodus. He gave one or two grains of the 3x trituration. of Succinum itself diluted in twelve teaspoonfuls of water, a teaspoonful every two hours.

Burnett wrote in Diseases of Spleen, that the Succinum non-rectified oil is used as an organ remedy in spleen affections, especially when accompanied by nervous and hysterical phenomena. The crude oil is a thick brown liquid having a strong empyreumatic odor. It is a powerful local irritant and has been used with success as such in lumbago, rheumatism and sciatica.

Succinum enters into the composition of "Roche's Embrocation," and "Haarlem Oil," and has a popular reputation as a remedy for whooping cough, the directions being for it to be rubbed into the spine night and morning. **Planets:** Saturn, Moon.

Homeopathic

Succ. produces many nervous and hysterical symptoms. Asthma. Fear of trains and closed places. Affections of spleen. Hysterical convulsions in women (Burnett).

Symptoms of collapse, the patient aborted, but recovered.

Clinical

Asthma. Fears. Globus. Hay fever. Hiccough. Hysteria. Leucocythemia splenica. Spleen disorders.

Symptoms

MIND

Fear of trains and closed places.

Eyes

Lachrymation.

Head

Headache.

Lungs

Asthma. Incipient tuberculosis. Chronic bronchitis. Pains in chest. Whooping cough.

Nose

Sneezing, dropping of watery mucus from nostrils.

Stomach

Persistent hiccough. Violent vomiting.

Throat

Globus.

Comments

A tablespoonful dose, says Murrell, has caused persistent vomiting, diarrhea and symptoms of collapse and the patient aborted. These observations are of value in relation to Burnett's experience.

He gave the oil thus: To six ounces of Acorn-water are added half a scruple of the oil. They do not mix chemically, but by shaking each time a dose is taken the required division and potency is attained.

Burnett's keynote is: "Painful spleen disorders where there are convulsive attacks such as the hysterical and hypochondriacal often have."

Burnett relates in his book a most remarkable case of "chronic enlargement of the spleen with hyperesthesia, head pain, Dyspnea orthopnea, convulsions" in a young lady "towards the end of her teens."

After years of treatment, Burnett concluded from Rademacher's account of Succ. oil. that it might provide the remedy. Succ. oil was given in five-drop doses three times a day. In forty-eight hours the convulsive attacks ceased for good and all the phenomena slowly leucocythemia. A keynote of Burnett's is: "Fear of trains and close places." His dose is five drops of the oil three times a day.

Compare

(1) Do not confound with Ambra.

(2) Succinic acid. - Hay fever. Paroxysmal sneezing, dropping of watery mucus from nostrils, asthma. Inflammation through respiratory tract, causing asthma, chest pains, etc., itching of eyelids and canthi and nose worse drafts. Use 6c to 30c potency.

(3) Arundo, Wye., Sabad, Sinapis.

Sulfanilamidum

Pharmacy

Sulfa. Sulfanilamide. The base product is a para-amino-phenyl sulfamide. Historical dose: All potencies, 5c to 30c.

History

In medicine, Sulfanilamide is known in one form as Exoseptoplix. It was the active part in the decomposition of prontosil which was used in experiments by Domagk in 1935. The Homeopathic proving of sulfanilamide was conducted by Sutherland, who used 3x, 6x and the 200th potency. **Planets:** Moon.

PAGE 1636

Homeopathic

Sulfa. has a slowing down of all physical and mental functions. Halt in development and puberty comes late in the child. Myxedema. Fatigue, general weariness. Indefinable discomfort with giddiness or vertigo. Febrile condition with rash, aching, conjunctivitis, which may be accompanied by fever with shivering, pain in the joints increase in leucocytes with granulocytosis. Goiter.

General indefinable discomfort with apathy. Hypoglycemic conditions. Paresis and muscular atrophy of the feet and hands. Thyroid deficiency and congestion of the thyroid

gland. Cramping pains in the hypogastric region. **Heart** rhythmic anomaly, cyanosis and comatose condition. Cyanosis with violet or livid coloring of the lips, nose, ears, fingertips. Oliguria and kidney colic. Vesicular eruptions.

Clinical

Addison's disease. Audio-visual disorders. Cyanosis Delirium. Dermatitis. Myxedema. Schizophrenia. Thyroid deficiency.

Modalities

Better from hot compresses. Better from discharges.

Symptoms

MIND

Indolence, apathy, state of confusion. Idea association complaints. Concentration complaints. Alternating psychological condition: at times happy, joyful, then sad and dejected. Difficulty in determining contrasts and shapes. Attacks of delirium. Schizophrenia.

Mental backwardness. Clouded mental state. Cyclical moods. Loss of memory for graphic movements and for sounds and words.

Loss of memory with diminution in auditory acuity. Physical and mental apraxia.

Abdomen

Sensation of fullness. Pain in the hypogastric region. Cramping abdominal pains. Congestion of the liver with alternate constipation and diarrhea. Jaundice. Gastric and duodenal ulcer. Jaundice.

Blood

Anemia. Aplastic anemia. Chronic leukemia. Thrombopenia. Hemolytic anemia. Acetone elimination in the urine or excessive nitrogen in the blood. Agranulocytosis syndrome with fever, leucopenia, necrotic angina and light hemorrhaging of the skin and mucous membranes.

Chest

Pain and heat in the chest.

Ears

Pustules and papules on the outer ear. Buzzing in the ears, as if produced by a bell.

Bilateral diminution in auditory acuity. Deafness through atrophy of the auditory nerve.

MeniŽrŽs disease. Boils in the auditory canal.

Eyes

Chemosis of the left eye. Stye on the lower left eyelid. Eruption of yellow pustules on the edge of the eyelids. Cloudiness of the crystalline lens or capsule. Cataract.

Hemorrhaging of the retina. Optic neuritis.

Face

Acne of the chin.

Food

Hypoglycemic syndrome with condition of weakness, sweating, hunger pangs and tendency to faint with or without convulsions. Loss of appetite.

Head

Frontal or occipital headache increasing towards evening.

Heart

Rhythmic anomaly, especially in elderly people.

Kidneys

Chronic interstitial nephritis. Slow urination, urinary stream weak. Paresis of the bladder with retention of urine. Urine cloudy. Oliguria. Presence of porphyrin in the urine.

Hematuria. Uremia. Kidney stones. Kidney colic.

Limbs

Severe muscular pains. Pain in the right leg. Acrocyanosis with formication and numbing of the limbs of the legs. Acute rheumatism. Sciatica. Neuritic, especially sciatic pains.

Pain and weakness in the small muscles of the feet and hands. Progressive symmetrical muscular atrophy, beginning in the hands. Paresis or paralysis of the feet with muscular atrophy and absence of the Achilles' reflex.

Lungs

Dyspnea, difficulty in breathing deeply. Bronchial asthma.

Male

Inhibition of the production of spermatozoa. Male sterility.

Nose

Pustules in the left nasal fold. Sneezing. Boils.

PAGE 1637

Rectum

Alternate constipation and diarrhea.

Skin

Burns. Acne of the chin. Burning papular and pustular eruptions. Eruptions ameliorated by hot compresses and by discharges. Measles-type, urticarial eruptions. Dermatitis. Sycosis of the beard. Chronic eczema. Pityriasis rubra. Erythema. Pigmentation disorders of the skin. Vesicular eruptions on uncovered areas exposed to the sun. Dermatitis from photosensitization.

Stomach

Nausea, vomiting.

Temperature

Basal metabolism reduced.

Vertigo

Vertigo with nausea, ameliorated in the open air and by leaning forwards.

Compare

(1) Ars. - Anxiety and agitation, especially between 1 a.m. and 3 a.m. Burning pains. Edema of the lower eyelids. Thirsty for small amounts of iced water. Vomiting and diarrhea with severe prostration. Oppression. Scaly, burning eruptions and itching, worse between 1 a.m. and 3 a.m.

(2) Cresol - Asthenia with euphoria. Loquacious mood, talks non-stop. Paresis of the lower legs with ataxia. Hypertrophy of the muscles in the hands. Hypertension and oliguria. Hardening of the cartilages. Thickening and hardening of the skin. Itching, pigmented erythema of the skin.

(3) Cic. - Convulsions, contraction of the muscles of the entire body. Pupils dilated. Pustular eruptions with thick, yellow scabs.

SOURCES

Sulfonalum

(coal-tar product)

Pharmacy

Sulfon. Sulfonal. Sulfonalum. Diethylsulphone dimethyl methane. Trituration. Historical dose: All potencies, third trituration.

History

Sulfonal was at first regarded as one of the safest of hypnotics, but many cases of poisoning by medicinal doses have occurred and the schema is made up of reported effects produced on patients. **Planets:** Moon.

Homeopathic

Sulfon. is a coal tar product produces ataxic symptoms, staggering gait, anesthesia of legs with absence of knee jerks. The symptoms disappear slowly. Vertigo of cerebral origin, cerebellar disease, ataxic symptoms and chorea, present a field for the homeopathic employment of this drug. A Profound weakness, faint feeling and despondency. Loss of control of sphincter. Muscular incoordination.

Paralysis of body, better by cold water, and cold douches. Great prostration. Progressive paralysis affecting legs first then arms. Paralysis progressive sometimes with hyperesthesia and abnormal sensation.

Twitching of muscles, especially of face and flexors: worse by voluntary movement, but always present in sleep. Reflexes abolished. Epilepsy inveterate cases with over-excitability of the cortical substance. Fainted and vomited. Livid, especially the face. Cyanosis. Death by respiratory failure preceded by unconsciousness.

Clinical

Albuminuria. Chorea. Cramps. Cyanosis. Epilepsy. Headaches. **Heart** failure.
Hematorporphyrinuria. Locomotor ataxia. Paralysis, ascending. Ptosis. Reflexes
abolished. Tinnitus. Vertigo.

Symptoms

MIND

Mental confusion incoherence, illusions, apathetic. Alternation of happy, hopeful states
with depression and weakness. Extreme irritability. Stupidity. Unconscious with dilated
and fixed pupils and profuse sweat.

Abdomen

Spleen enlarged, hyperemic.

Back

Chronic leptomeningitis.

Ears

Tinnitus, aphasia, dysphagia, difficult speech.

Eyes

Pupils dilated and fixed. Ptosis, heavy look about eyes. **Eyes** bloodshot and restless.
Double vision.

Face

Livid.

Head

Headache and tinnitus aurium. Pain on attempting to raise head.

Heart

Heart failure and edema of lungs. **Heart**'s action feeble, occasionally
intermittent.

PAGE 1638

Kidneys

Albuminuria with casts. Scanty. Pink color. Constant desire to urinate, scanty, brownish
red. Dark brown urine. Urine very scanty, albuminous, almost solid when cooled.
Hematorporphyrinuria, urine oscillated between deep claret and light claret color.
Retention of urine, had to be drawn off, dark-colored. Urine cherry-color, later like dark
port wine.

Limbs

Ataxic movements, staggering gait, cold, weak, trembling, legs seem too heavy.
Restlessness, muscular twitchings. Knee-jerks disappear. Stiffness and paralysis of both
legs. Anesthesia of legs. Plantar reflex deficient. Paralysis of lower limbs. Cramps of legs
and single muscles.

Lungs

Congestion of lungs, stertorous breathing. Sighing dyspnea. Edema of lungs. Signs of
bronchopneumonia.

Male

Erythema on prepuce.

Mouth

Breath smells of onions. Tongue as if paralyzed.

Rectum

Diarrhea and vomiting. Great constipation.

Skin

Itching, bluish purpura. Erythema. Discolored patches like purpura on skin.

Erythematous measles-like eruption.

Sleep

Insomnia. Fidgety, wakeful, drowsy. Sleepiness and weariness with unsteady gait.

Stupor. Heaviness and drowsiness.

Stomach

Constant retching, vomiting and soreness over epigastrium. Vomiting, diarrhea and violent chills. Great disturbance of digestion with scanty urine.

Temperature

Violent chills.

Vertigo

Vertigo, unable to rise from seat.

Comments

Prominent symptoms of Sulphon. were: Stupor. Headache with noises in ears. Vomiting and diarrhea. Urine retained or secretion arrested, claret-colored, containing albumen, porphyrin. Ataxic gait and diminished or abolished reflexes point to locomotor ataxia.

Ascending paralysis has been observed. The heart is weak, fainting occurs and death takes place by heart failure.

Rashes have been noticed on the skin, purpura, erythematous, etc. One man observed uniform skin effects every time he took Sulphon., more intense the larger the dose. This occurred from 5 grains:

Patches of erythema appeared (1) first on inner side of first phalanx of right little finger, (2) next over proximal ends of metacarpal bones of left thumb and index, (3) on posterior surface of left forearm a little below elbow, (4) fourth on prepuce. The symptoms were better by cold douches.

Compare

(1) Trional - insomnia associated with physical excitement, vertigo, loss of equilibrium, ataxia, nausea, vomiting, Diarrhea, stertorous breathing, cyanosis, tinnitus, hallucination.

Boericke. Clarke. Phatak.

Sulphur

(sublimated sulphur)

Pharmacy

Sulph. Sulphur Sublimatum. Brimstone. Sublimed Sulphur. Trituration of "Flowers of Sulphur." A saturated solution of Sulphur in absolute alcohol constitutes the tincture. A trituration of amorphous Sulphur has also been used. Effects of "The Milk of Sulphur" or Precipitated Sulphur, i.e. , Sulphur prepared by precipitation from a solution of Calc-s. with hydrochloric acid, are included. Historical dose: All potencies from the lowest to the highest.

History

Sulphur is an elementary substance, occurring in nature as a brittle crystalline solid, burning in the air with a blue flame, being oxidized to Sulphur dioxide (Sulphurous acid). Sulphur is a product of volcanic eruptions, found free in nature and was used from ancient times to remove skin disorders.

The reputation of Sulphur as a remedy is perhaps as old as medicine. "As early as 2,000 years ago," says Hahnemann, "Sulph. had been used as the most powerful specific against the scabies.

PAGE 1639

The itch with which the workers in wool are so much affected, causes an intolerably agreeable, tingling, itching, gnawing as of vermin.

Some designate it as an intolerably voluptuous titillating itching, ceasing as soon as the parts are scratched and commencing to burn, which burning continues after the scratching. Sulph. frequently produces in healthy persons burning-itching pimples and vesicles resembling the itch vesicles and especially itching in the joints and in the night."

The specific power of Sulph. to cure itch was abused. It was applied externally as baths and ointments and the skin affection was not cured but repelled and a host of secondary disorders appeared in its place.

The domestic use of Sulph. as a "Spring medicine" is based on its anti-psoric properties. "It is one of the most popular diaphoretics of the day," says Milne, "few old women failing to use it when any eruption is supposed to be struggling through the skin."

The domestic use of Sulph. is interesting. In one form or other Sulph. is used in various countries for allaying pain, a piece of stick Sulph. carried in the pocket is much used in England to ward off rheumatism.

Natives of South America apply Sulph. in solid form to parts in pain and allow it to act for an hour before result is effected.

For lumbago and chronic rheumatic pains a bag filled with Flowers of Sulphur and applied heated to the part, immediately relieves the pain.

An experienced sea captain testified to the extreme frequency of rheumatism amongst his sailors, but, he added, when carrying cargoes of Sulph., he had never had a case of it (acute rheumatism) on board.

In the treatment of croup and diphtheria the local application. of Sulph. to the fauces has been highly spoken of by many practitioners.

Dr. Laugardiere of Toulouse, reported recently to the Academy of Medicine that he has discovered a cure for croup a tablespoonful of Flowers of Sulphur dissolved in a tumbler of water. After three days of this treatment his patients were rescued from imminent death and fully recovered.

Nettle rash is often relieved by a little Flowers of Sulphur and water and Sulph. mixed with sea-sand and rubbed over itch vesicles destroys the acarus at once. In the early days of vaccination it was found that the action of Sulph. on the frame was decidedly adverse to the receptivity of vaccine. According to Dr. Tierney, Dr. Jenner failed in vaccinating thirty soldiers, all under treatment by Sulphur.

Seeing that operatives in sulphur mines enjoy an immunity against ague when prevalent in surrounding districts and that, before going on hunting expeditions in malarious districts, men in Ethiopia submit themselves to fumigations with Sulph. and find it an efficient prevention of ague, the probability of Sulph. having a power of destroying the organisms in the blood of ague patients is certainly great and deserves investigation

(Cooper)]. Sulph. is a great resorbent and is frequently needed after acute illnesses which do not entirely clear up.

PAGE 1640

Homeopathic

Sulphur is a great homeopathic anti-psoric remedy. It causes irregular distribution of circulation, causing local burning, throbbing or congestion, flushes of heat, rush of blood to head, chest, heart. Its action is centrifugal from within outward having an elective affinity for the skin, where it produces heat and burning with itching, made worse by heat of bed.

Inertia and relaxation of fiber, hence feebleness of tone characterizes its symptoms. Flushes of heat, aversion of water, dry, unhealthy hair and skin, red orifices, sinking feeling at stomach about 11 a.m. and cat-nap sleep often indicate Sulphur.

Dirty, filthy people, prone to skin disorders. Aversion to being washed.

When carefully-selected remedies fail to act, especially in acute diseases, it frequently arouses the reactionary powers of the organism. Complaints that relapse. general offensive character of discharge and exhalations. Very red lips and face, flushing easily. Often great use in beginning the treatment of chronic cases and in finishing acute ones.

Redness of orifices or of single parts is another prominent feature due to irregular circulation, lips, ears, nose, eyelids, anus, vulva. Nutrition is affected on account of defective assimilation in spite of voracious appetite, the patient emaciates (especially children).

Child looks dried, a little old man, big head, big belly with emaciated limbs. It is often of great use in beginning the treatment of chronic diseases and in finishing acute ones or when the reaction is deficient, when the carefully selected remedy fails to act.

Mucous discharges and exhalations are acrid, blood streaked offensive and cause itching. Serous effusions or deposits are absorbed slowly. It has an elective affinity for skin where it produces heat and burning with itching.

Patient is unable to walk erect, stoop shouldered, unwashed, tall and lean, untidy and body offensive in spite of washing. Aversion to being washed, always worse after the bath. Dirty, filthy people prone to skin disorders. Complaints that relapse. Glandular swelling indurated and suppurating. Weak faint spells, frequently during the day after nursing or night watching with great sleepiness. Empty, sinking feeling. Sensation of fullness, roughness or numbness.

Epilepsy with a feeling that mouse is running up arms to back, before the fit. Child jumps, starts and screams fearfully. Ascending effects, rushes of blood, flushes of heat, vertigo etc. Ragged philosopher. As if swinging or standing on wavering ground. Coal miner's disorders. Chorea, chronic after suppressed eruptions.

Clinical

Acne. Adenoids. Alcoholism. Allergies. Amaurosis. Amenorrhoea. Anemia. Anus, prolapsed. Asthma. Atelectasis. Backache. Bed-sore. Belching. Bilioussness. Boils. Brain, congestion. Bright's disease. Bronchitis. Cataract. Catarrh. Chancre. Chest, pains. Chilblains. Chloasma. Colds. Constipation. Corns. Cough. Crusta serpigginosa. Dental fistula. Diabetes. Diarrhea. Epilepsy. Eruptions. Esophagus, constriction. **Eyes** disorders. Faintness. Feet, burning. Fever. Freckles. Ganglion. Glands, disorders. Gleet.

Globus hystericus. Gonorrhoea. Gout. Headache. Head, congestion. Hemorrhoids. Herpes. Hydrocele. Hydrocephalus. Hydrothorax. Hypochondriasis. Impotence. Influenza. Intermittents. Irritation. Jaundice. Keloids. Laryngitis. Leucorrhoea. Lichen. Liver, disorders. Lumbago. Lungs disorders. Mania. Masturbation. Measles. Memory, weak. Meningitis. Menstruation, disorders. Miscarriage. Molluscum. Nettle rash. Neuralgia. Nipples, sore. Nosebleed. Ophthalmia. Phimosis. Phlegmasia dolens. Peritonitis. Pleurisy. Pneumonia. Pregnancy, disorders. Prostatorrhoea. Rectal disorders. Rheumatic fever. Rheumatism. Ringworm. Scabies. Sciatica.

Skin disorders. Skin, itching. Sleep, disorders. Smell, illusions. Spinal curvature. Spleen, pain. Stomatitis. Taste, illusions. Tenesmus. Tonsillitis. Toothache. Trachea. Tuberculosis. Ulcers. Urticaria. Uterus, prolapsed. Vaccination. Varicocele. Varicose veins. Vertigo.

Warts. Worms.

Causations

Suppressions. Alcohol. Sun. Sprains. Chills. Over-exertion. Reaching high. Falls. Blows. Bed-sores.

Constitutions

Sulph. is suited to (1) Lean, stoop-shouldered persons, who walk and sit stooped, standing is the most uncomfortable position. (2) Persons of nervous temperament, quick-motivated, quick-tempered, plethoric, skin excessively sensitive to atmospheric changes. (3) Dirty, filthy people with greasy skin and long, straight, matted hair, prone to skin disorders. (4) Children who cannot bear to be washed or bathed, emaciated, big-bellied, restless, hot, kick off clothes at night, have worms. (5) Persons of scrofulous diathesis, subject to various congestions, especially of portal system. (6) Lymphatic temperaments, nervous constitutions disposed to hemorrhoids with constipation or morning diarrhea, diseases caused especially by suppressed eruptions. (7) Children, emaciated, old-looking faces, big bellies, dry, flabby skin. (8) Full-blooded persons with great irritability, restlessness and hastiness. (9) Old people. (10) People with hot, sweaty hands. (11) "Ragged philosophers," dirty-looking persons who are always speculating on religious or philosophical subjects. **Planets:** Saturn, Mars.

Modalities

Better dry, warm weather, lying on right side from drawing up affected limbs. Better from open air, motion, sweating, walking, dry heat. Standing is the worse position for sulphur patients, it is uncomfortable. Worse at rest, stooping, reaching high, warmth in bed, washing, bathing in morning, 11 a.m. , night from alcoholic stimulants, periodically.

Worse from suppressions, bathing, milk, heated, by over-exertion in bed, by woollens. Worse from atmospheric changes, talking. Worse periodically, menopausal, full moon, sweets. Worse looking down, crossing running water, vaccinations, suppressed hemorrhoids.

PAGE 1641

Symptoms

MIND

Often irritable, depressed, thin and weak, even with good appetite. Egotistical and obstinate. Intellectuals. Busy all the time. Hopeful dreamers. Strong tendency to philosophical or religious reveries with fixed ideas. Irritable. Dull, difficult, thinking, misplaces or cannot find proper words when talking or writing.

Absent-minded. Very forgetful. Aversion to do mental or physical work. Averse to business. Lazy hungry and always tired. Childish peevishness in grown people. Very selfish, no regard for others. Religious melancholy. Imagining giving wrong things to people, causing their death.

Foolish happiness and pride, thinks himself in possession of beautiful things, everything looks pretty which the patient takes a fancy to, even rags seem beautiful or immensely wealthy. Philosophical mania, wants to know who made this or that and how. Imagines himself a great man. Melancholy. Sadness. Tired of life. Strong impulsive tendency to suicide by drowning or leaping from a window.

Abdomen

Sore very sensitive to pressure. Stitches in region of spleen worse coughing or deep inspiration. Intestines feel as if strung in knots worse bending forward. Abdomen heavy, as of a lump. Very sensitive to pressure internal feeling of rawness and soreness. Movements as of something alive. (Croc., Thuj.) As if the fist of child. Colic after eating or drinking, obliging one to bend double worse sweet things. Bearing down against rectum. Colicky babies. Big belly, emaciated limbs in children. Eczema about navel. Colic after drinking.

Back

Curvature of Spine. Drawing pain between shoulders. Neck stiff. Muscles of neck weak, child cannot hold head. Boils on neck. Sensation as if the vertebrae glide over each other or crack on bending backwards. Aching between scapulae. Lumbar pains to stomach, walks bent from pain in the back, he can only straighten up after moving. Supports weight on hands when sitting. Coccyx pains during stools. Aching in small of back worse when urinating.

Breasts

Sharp burning in breasts. Nipples, cracked, around the base, smart, bum, bleed after nursing, pain extends to back. Cancer of breast or uterus. Breast and uterus develops imperfectly.

PAGE 1642

Chest

Burning sensation in chest. Oppression, as of a load on chest. Shooting pains in chest extending to back worse coughing, lying on back and deep breathing. Pain backward from left nipple. As of a band or load on chest. Red, brown spots all over chest. Heat, throughout chest. Sensation of burning or coldness in chest, extending to face. Feeling of weakness in chest, while talking.

Ears

Bad effects from the suppression of an otorrhea. Purulent offensive otorrhea, catarrhal discharge even eighth day. Ears very red in children. As if sounds do not come through the ear but through forehead. Whizzing in ears. Swashing as of water. Deafness is preceded by exceedingly sensitive hearing, catarrhal deafness.

Eyes

Painful inflammation of eye from presence of foreign body. Burning ulceration of margin of lids. Cutting as from sand. Heat and burning in eyes. (Ars., Bell.) Bursting pain in eyeballs. Trembling of eyes, quivering of eyelids. Chronic ophthalmia with much burning **and itching**. **First** stage of ulceration of cornea. Photophobia. Parenchymatous keratitis. Keratitis, cornea like ground glass. Retinitis caused by over use of eyes.

Obscuration of vision like black gauze or motes before eyes. Halo around lamp-light. Objects seem more distant than they are. **Agglutination** of lids. **Oily tears**. Styes and tarsal tumors. Eczema of lids. Trachoma. Opacities of vitreous.

Face

Pale, sickly and old looking. Circumscribed redness of cheeks. Freckled, spotted. Lips, bright red, swollen (upper), dry, rough, cracked, burning, twitching or trembling. Swollen veins on forehead. Acne. Mumps.

Female

Weak feeling in genitals. Offensive genitals with offensive sweat on thighs. Pudenda itches. Vagina and vulva burn, itch and sore, worse sitting is scarcely able to keep still. Sore feeling in vagina during sex. Amenorrhea. Menses too late, short, scanty and difficult, thick, black, acrid, making parts sore. Menses preceded by headache. Suppression of menses from excitement. Leucorrhea of yellow mucous, burning, excoriating. Bearing down in pelvis towards genitals worse standing. Puerperal sepsis with high fever, profuse sweat of whole body, tenderness of abdomen and drowsiness. Prolapse of uterus from reaching high. Cancer of uterus. Uterus develops imperfectly.

Food

Complete loss of appetite or ravenous appetite. Feels hungry, but when comes to the table, he loathes the food, turns away from it. Eats anything and everything. Aversion to meat. Desire for sweets, for raw food. Food tastes too salty. Milk disagrees. Great desire for sweets. (Arg-n.) Sweets disagree. Headache or feels tired if he does not eat often. Water fills the patient up. Drinks much eats little.

Head

Hot head with cold feet. Constant heat on top of head. (Cupr. Sulph., Graph.) Vertex, hot, throbs, heavy, sore. Heaviness and fullness, pressure in temples. Beating headache, worse stooping and with vertigo. Sick headaches recurring periodically, on every Sunday, preceded by photopsia. Fontanelles remain open too long.

Hydrocephalus with convulsions, red face and pupils dilated. Head bent forward when walking. Tinea capitis, dry form. Itching, scratching causes burning. As of a band about or pain deep in brain. Scalp dry. Hair, dry, cold, hard, falling off, worse washing. Sweaty scalp.

Heart

Palpitations, worse lying, at night in bed, going up an ascent. **Heart** feeling too large Pericarditis with effusion. Sharp pains go through chest to between shoulders. Pulse more rapid in morning than in evening.

PAGE 1643

Kidneys

Frequent urination, especially at night. Bedwetting, especially in scrofulous, untidy children. Itching, burning in urethra during urination, lasting long after. Mucus and pus in urine, parts sore over which it passes. Sudden call to urinate, must hurry. Great quantities of colorless urine, greasy particles upon it. Urination involuntary while passing flatus or on coughing. Painful ineffectual efforts to urinate, retention, even cold settles in the bladder. Stream thin intermits.

Limbs

Cannot walk erect, stoop-shouldered. Heavy shoulders. Heaviness paretic feeling in limbs. jerks one limb on dropping to sleep. Rheumatic pain in left shoulder. Rheumatic gout with itching. Swelling of the joints with hydro-arthritis. Joints stiff. Stiffness of knees and ankles. Sweat in armpits, smelling like garlic. Left arm numb, worse lying. Numb fingers. Palms, dry, burn, crack, peel, eczema on, warts on. Hot, sweaty hands. Tense hamstring (left). Cramp in calf (left). Soles, burn, wants them uncovered, at night, cold in bed, dry. Popliteae tight on stooping. Tremulous sensation in hands, when writing. Tuberculosis of the knee and hip joints. Ulcers around the nails. Whitlow with rapid swelling of the finger, redness, stiffness and excessive burning stitching. Involuntary contraction of hands as if about to grasp something. Unsteady gait. Ganglion.

Liver

Pain and soreness of liver. Stitches in region of liver. Gallbladder colic and chronic or relapsing jaundice.

Lungs

Pneumonia. Asthma preceded by colds. Difficult respiration, wants windows open, nightly suffocative air hunger. Dyspnea in middle of night, relieved by sitting up. Irregular breathing. Loose cough, worse from talking, morning, greenish, purulent, sweetish expectoration. Much rattling of mucous and heat in chest, worse 11 a.m. Pleuritic exudations. Cough, violent in two or three incomplete bouts, tickling as from 'down' in larynx. Greenish, sweetish and purulent expectoration. Violent cough with headache worse lying on back. As of rivet through upper third of left lung. Neglected pneumonia.

Male

Fetid sweat on genitals. Itching of genitals when going to bed. Organs cold, relaxed and powerless. Involuntary emissions. Seminal emission with burning in urethra. Sexual power weak, impotence. Exhaustion in the morning after seminal emission. Backache and weakness of the limbs after sex with sadness and irritability. Seminal emission on touching a woman. Semen, odorless, watery. Discharge of prostatic fluid after urination and stool. Hydrocele. Testes hang low. Induration of testes. Stitches in penis. Penis cold. Prepuce stiff, hard like leather with copious smegma, causes itches.

Mouth

Taste, sour, sweetish, foul, bitter in morning. Nursing sore mouth. Food tastes like straw or too salty. Aphthae, thrush. Lips dry, bright red, burning. Bitter taste in morning. Gums, bleeding. Swelling of gums, throbbing pain. Tongue white with red tip and borders. Tongue, dry, tremulous. Teeth, sensitive, tender. Jerking, shooting, throbbing pains in teeth. Grinding of the teeth. Saliva, profuse with nauseous taste.

Nose

Fluent burning coryza, worse outdoors stopped indoors. Frequent sneezing. Obstructed on alternate sides. Herpes across the nose. Pale red and scabby. chronic dry catarrh, dry scabs and readily bleeding. Nosebleeds, worse at night, on lying on right side. Polyps and adenoids. Tip of nose or alae nasi red, swollen worse cold. Sensitive to smell. Imaginary odors. Freckles and black pores on nose.

Rectum

Redness around the anus with itching. Morning diarrhea, drives out of bed with prolapsed rectum. Children afraid hold stools back on account of pain. Frequent, unsuccessful desire, hard, knotty insufficient. Diarrhea of infants with profuse sweating,

drowsiness, suppression of urine and the child wakes up screaming. Diarrhea, painless, hurried in early morning, changing, mushy, foul, painless, watery, grayish, frothy worse milk. Diarrhea alternating with constipation. Habitual constipation. Itching and burning of anus. Pain, urging in and itching in rectum. Hemorrhoids, oozing and belching. Hemorrhoids external and internal great bunches that are sore, tender, raw, bum, bleed and smart. Hemorrhoids during pregnancy. Odor of stool follows him as if he had soiled himself. Involuntary stools on sneezing or laughing with emission of flatus. Stools flat and thin.

PAGE 1644

Sensations

As if a band were tied tightly round forehead, round cranium. Vertigo as if swinging. As if bed were not large enough to hold him. As if one stood on wavering ground. As if hair on vertex stood on end. As if hernia would form. As if lungs came in contact with back.

Heart as if enlarged. Like a weight on shoulder. As if something heavy hanging on upper arm. Arms as if beaten. As of a mouse running up arms and back. Thigh as if broken. As if too short in popliteal space.

Skin

Eruptions almost of even kind. Eruptions alternate with other complaints, asthma etc. Skin as if denuded and sore. Unhealthy skin, breaks out, festers and would not heal. Dry, scaly, unhealthy, every little injury suppurates. Freckles. Itching, voluptuous, violent, worse at night, heat of bed, scratching and washing. Burning when scratched, painfully sensitive to air, wind, washing. Pimply eruption, pustules, cracks, hang-nails. Excoriation, especially in folds. (Lyc.) Feeling of a band around bones. Skin disorders after local medication. Itching, especially from warmth in evening often recurs in spring-time in damp weather. Crops of boils. Scabies. Cracks. Eczema. Ulcers. Creeping erysipelas. Excoriations, on folds. Suppuration with air bubbles. Varicose veins, ulcerate, rupture and bleed.

Sleep

Heavy, unrefreshing. Drowsy, then migraine. Sleeps in catnaps, slightest noise awakens. Drowsy by day, wakeful at night. Talks, jerks and twitches during sleep. Awakes with starts or screams. Sings during sleep or wakes up singing. Vivid dreams, remain impressed on the memory. Wakes frequently and becomes wide awake suddenly. Cannot sleep between 2 and 5 a.m.

Stomach

Belchings tasting like bad eggs worse eating or at night. Milk causes sour taste and sour belchings. Putrid belchings. Great acidity, sour eructation. Belchings on pressing on stomach. Burning, painful, weight-like pressure. Very weak and faint about 11 a.m. , must have something to eat. Vomiting of undigested food or sour vomiting. Nausea during pregnancy. Heaviness in stomach.

Temperature

Dry skin and great thirst. Chill spreading up back. Flushes of heat. Feels too hot. Frequent flashes of heat. violent ebullitions of heat throughout entire body. Heat with general throbbing, between scapulae. Sweat on single parts in axilla, hands and feet. Profuse sweat at night with sulphur odor. Night-sweat, on nape and occiput.

Sweat without relief. Sweat may occur on one side of the body only or on neck only.
Remittent fever. Septic, puerperal fever.

Throat

Aphonia. Deep hoarse voice. Burning, redness and dryness. Sensation, as of a lump, hair or splinter or as of a vapor rising in. Ball seems to rise and close the pharynx. External redness. Swollen as if. Dry, exciting cough.

Vertigo

Vertigo in forehead, worse when crossing a river, stooping with headache.

Comments

Hahnemann found in Sulph. the homeopathic counterpart of the peculiar constitutional weakness which tends to manifest in itch-like eruptions and which he named Psora.

PAGE 1645

Sulph. is the chief of the anti-psoric remedies. It is this property of Sulph. to divert to the surface constitutional irritants which renders it the chief of Hahnemann's anti-psorics. Sulph. has also an anti-psoric action independently of its power of "bringing out" rashes. The psoric poison may be present and active in a case of disease and "apparently well-indicated remedies may fail to act" in consequence.

In such cases one or two doses of Sulph. will frequently antidote, as it were, the psora and either clear up the case or open the way for the action of other remedies. In such cases there will almost certainly be some Sulph. indications present.

Sulph. is a potent anti-septic and is one of the most certain destroyer of scabies. The exact relation of acarus itch to psora and other itching eruptions need not be considered, but as

Sulph. has the power of repressing constitutional eruptions when locally applied, as well as the power of destroying the acarus, it is best to use other means (e.g. , Oil of Lavender) for the latter purpose and give Sulph. or other indicated remedies internally.

The symptoms of latent psora are set forth in detail in Hahnemann's Chronic Diseases. They are for the most part almost exact reproductions of the symptoms of Sulph. But while Sulph. is the chief of anti-psorics, it is only one of many and Sulph. is in no way limited in its uses to cases of latent or declared psora.

The leading features of the drug's action, which are sure guides in any case. (1) A key to many of the Sulph. conditions is to be found in an irregular distribution of the circulation: flushes of heat, rush of blood to head, chest, heart, plethora from suddenly suppressed eruptions, hemorrhoids, discharges, heat and burning sensation of all parts or coldness, sweating of many parts.

These irregularities may go on to actual inflammation with effusions and to fever of intermittent or other types.

Another manifestation of this is found in the redness of orifices and parts near orifices: red ears, red nose, red eyelids and red borders round eyelids: brilliant red lips, bright red anus in children, red meatus of urethra, red vulva. The orifices are not only red and congested, but they are sore and hypersensitive as well, the passage of all discharges or excretions is painful.

(2) The other side of this feeling of fullness is a feeling to emptiness. There is no medicine which has this symptom in a more extreme degree than Sulph. and there is no single symptom that is of greater value to the homeopathic prescriber than "Faint, sinking, all-gone sensation at 11 a.m. " The time need not be exactly eleven, though that

is the most characteristic time. People who "must have something between breakfast and dinner-time" are generally benefited by Sulph.

This ravenous hunger at 11 a.m. is often associated with other Sulph. symptoms, as heat at vertex, dyspepsia, portal congestion, constipation with ineffectual urging, hemorrhoids, constipation alternating with diarrhea. When the dyspeptic gets food and relieves his hunger he begins to feel puffed up, feels heavy and sluggish and is low-spirited, he scarcely cares to live.

The dyspepsia of Sulph. is often the result of suppressed eruptions. It is well known that drunkenness "runs in families," and the underlying disease of drunkenness is often psora. Sulph. both causes and cures craving for beer and spirits.

Gallavardin cured many apparently hopeless alcoholics with Sulph. 1,000c. The "sinking, empty, all-gone sensation" is a common feature in the dyspepsia of alcoholics. Dyspepsia from farinaceous food. Cannot take milk, vomits it at once, sour vomit with undigested food. Voracious appetite is a frequent symptom of scrofula and scrofula and psora are frequently convertible terms.

The child grabs at all food offered to it as if starved to death. Defective assimilation, hungry yet emaciated.

PAGE 1646

Stopped catarrh, nose obstructed indoors, better out of doors. The child looks dried up, a little old man, skin hanging in folds, yellowish, wrinkled, flabby. Head large in proportion to body. Lymphatic glands enlarged.

Defective assimilation. When scrofula exists without particular symptoms Sulph. will develop them. Allied to scrofula is tuberculosis in connection with which many symptoms of Sulph. appear: marasmus with hunger at 11 a.m. , sore, red orifices, flushes of heat. In tuberculosis of the lungs a keynote is "body feels too hot." The patient must have windows open no matter how cold the weather may be.

(3) "Worse by heat" is another keynote of Sulph. and marks it out as the remedy in a large number of cases, the worse is most noticeable by warmth of the bed. Whenever a patient says he is all right until he gets warm in bed, Sulph. must be examined, it will generally cover the case. (In some cases stove heat relieves.) The cases of rheumatism and sciatica requiring Sulph. will generally have better morning and worse at night in bed.

(4) "Worse at night" is scarcely less characteristic. Sulph. is related to both the sun and the moon, which makes it one of the most important of periodics.

Lippe cured with "a single dose of Sulph. at new moon" a case of menorrhagia, patient had not been well since her last miscarriage.

Skinner gave to a man who had paresis of the lower limbs a single dose of Sulph. 100,000c with instructions to take it on a certain date (when the moon was full). The man recovered almost suddenly.

Cooper has had some important preserve them from fever in India and one, an officer, by means of it kept his regiment of sepoys in health when many others were in hospital. One writer treated nine cases with the pilules and arrested the fever in twenty-four hours.

One of the cases was a particularly obstinate one and had been pronounced by the doctors to be complicated with liver affection.

Quinine had been tried before to Sulph. cured. In a case of "Charges fever" of West Indies, which had lasted three months, Cooper ordered a Sulphur bath as well as the

Sulph. pilules. That single bath seemed to alter the whole condition from being an unhealthy, anemic, bilious-looking man, the patient rapidly became the picture of health.

Cooper recalls the fact that workers in the Sulphur mines, though in malarial districts, enjoy a complete immunity from intermittent fevers. The power of Sulph. in acute inflammatory conditions is allied to its action in intermittent fevers. Sulph. is the chronic of Acon. in the effects of chills and if Acon. does not promptly solve the difficulty, Sulph. will be required.

Sulph. is a remedy of such universal power that it may be misleading to speak of it as more related to one side than to another. Taken altogether there are more symptoms on the left side than the right. It acts strongly on the left side of the chest: "Sharp stitching pains through left lung to back, worse lying on back, worse by least motion," is characteristic.

In a case of left pleuro-pneumonia following a violent hemoptysis, Sulph. 30c rescued a patient of mine from a condition which seemed desperate. Sulph. acts on the whole respiratory tract from the nose to the lung tissues. It causes a condition often met with in scrofulous patients, nasal catarrh where the nose is stopped indoors and free out of doors. All the features of asthma are produced in the pathogenesis and Sulph. has the alternation between skin irritation and asthma often met with in asthmatics.

Sulph., when indicated, will cause absorption of effusions from pleuritis, hydrocephalus or synovial. Clarke have frequently cured ganglion of the wrist with Sulph. given on general indications. In the rheumatism of Sulph. the affection begins below and spreads upwards.

It is the remedy for periodical headaches, headaches occurring every week, every month. Sick-headaches.

PAGE 1647

The headaches are accompanied by red face and hot head, are better in warm room, at rest, worse in open air, worse from stooping. There is also a headache on coughing. Clarke has cured a severe occipital headache worse on coughing with Sulph. 30c.

Among the characteristics of Sulph. are: (1) Aversion to be washed, always worse after a bath. (2) Complaints that are always relapsing (menses, leucorrhoea, etc.), patient seems to get almost well when the disease returns again and again. (3) Congestions to single parts: eye, nose, chest, abdomen, ovaries, arms, legs or any organ of the body, marking the onset of tumors or malignant growths, at menopause.

(4) Chronic alcoholism, dropsy and other ailments of alcoholics, they reform but are continually relapsing. (5) Sensation of burning: on vertex and smarting in eyes of vesicles in mouth and dryness of throat. First right then left in stomach in rectum in anus and itching. Hemorrhoids. Scalding urine like fire.

Heat in chest rising to face and skin of whole body with hot flushes in spots below scapulae. Burning soles, must find a cool place for them at night.

(6) Hot head with cold feet. Lutze finds that Sulph. 1,000c will make feet that have been cold for years comfortably warm. (7) Cramp in calves and soles at night. (8) Hot flushes during day with weak, faint spells, passing off with a little moisture. (9) Diarrhea: after midnight, painless, driving out of bed early in morning, as if bowels were too weak to contain their contents.

(10) Constipation: Stools hard, dry, knotty, as if burnt, large, painful, child is afraid to have stool on account of pain or pain compels child to desist on first effort, alternating

with diarrhea. (11) Boils: coming in crops in various parts or a single boil is succeeded by another as soon as the first is healed.

(12) Skin: itching, voluptuous, scratching better, scratching causes burning, worse from heat of bed, soreness in folds.

(13) Skin disorders that have been treated by medicated soaps or creams, hemorrhoids that have been treated by ointments. (14) Nightly suffocative attacks, wants doors and windows open, becomes suddenly wide awake at night, drowsy in afternoon after sunset, wakefulness the whole night. (15) Happy dreams, wakes up singing. (16) Everything looks pretty which patient takes a fancy to, even rags seem beautiful.

(17) Ailments from the abuse of metals generally. (18) Offensive odor of body despite frequent washing. (19) Red nose worse by cold: the colder the redder. (20) Cutting, stabbing pain in right eye. (21) Poor breakfast eaters. (22) Worried by trifles. (23) White, frothy expectoration. (24) Empty sensation in head, heart, stomach, abdomen.

When well-selected remedies fail to act or act too short a time because of the patient's feeble reactive powers, Sulph. will often build up the vital powers of the patient to effect the cure.

It will clear the way by removing the psoric miasm to permit other similar remedies on their indications to cure the patient.

Sulphur hydrogenisatum

(sulfuretted hydrogen)

Pharmacy

Sul-h. Sulfuretted Hydrogen. Sulphur Hydrogenisatum. Solution of the gas. Historical dose: All potencies.

History

Sul-h. is a colorless inflammable gas, having a sweetish taste and an exceedingly fetid smell resembling rotten eggs. It is extremely poisonous when inhaled. It is evolved when animal or vegetable tissues containing Sulphur decays.

It also occurs in mineral springs, being liberated by the reduction of gypsum or other sulphates through the action of a microbe. **Planets:** Mars.

Homeopathic

Sulph-hydrogen is one of the remedies which help "blood poisoning" especially when bad smells are encountered. Asphyxia, tetanus, delirium, low continued fever have been observed as resulting from the gas.

Clinical

Asphyxia. Asthma. Blood poisoning. Convulsions. Delirium. Fever. Headache. Mania. Tetanus. Typhoid fever.

Comments

J. Wigglesworth has recorded two cases of insanity, one certainly and both probably, due to inhaling the gas: R. H., 32, engine man at chemical works, had been kept at home with an attack of bronchitis for ten days. A few days after his return to work he became "gassed" (i.e. , accidentally inhaled Sul-h.).

This caused headache, stupor, prostration, compelling him to stay at home for a few days, when he became wildly delirious. He passed into a very excited state, shouting and gesticulating, said he was Jesus Christ.

He tried to bury his head in the floor and to raise his feet above his head. Three days later he was admitted to Rainhill Asylum and was there still very violent and excited, gesticulating and talking incoherently, chiefly on religious subjects. At the end of a month there was some improvement and he was discharged, recovered, five months after admission.

In the other case, that of a laborer at chemical works, Wigglesworth is not quite certain that Sul-h. was the poison inhaled. This patient was greatly excited, threw his arms about, shouted and laughed by turns, was excited and talkative. He remained permanently insane.

SOURCES

Clarke.

Sulphur iodatum

(iodide of sulphur)

Pharmacy

Sul-i. Sulphur iodatum. Iodide of Sulphur. Trituration. Historical dose: All potencies, third trituration.

History

Sul-i. was proved by Kelsall on himself and some others. Hale has used it in "obstinate skin diseases, notably barber's itch, for which it is almost a specific." The provings indicate this in "pustular eruption on upper lip" and "erythema on chin."

Sul-i. is also useful, Hale says in large and painful suppurating acne. Obstinate skin affections, notably in barber's itch and acne. Weeping eczema. Hale used the 3x trituration. internally and applied a cerate of one or two grains of Sul-i. to an ounce of Cosmoline. Psoric, allergic constitutions. **Planets:** Saturn, Venus.

Homeopathic

The marked features of Sul-i. are obstinate skin affections, painless enlargement of glands and infiltration of tissues with thickening and induration after inflammation.

Weakness, as from the influenza.

Prostration and sensitive to everything. Faint and sick. Raw burning heat internally with external coldness. Acrid discharges. Single parts, fingers etc. turn white and insensible.

Suppuration. Sul-i. favors reabsorption.

PAGE 1649

Clinical

Acne, punctata. allergies. Asthma. Barber's itch. Coryza. Ears, noises. Eczema, weeping. Gonorrhoea. Hay fever. Influenza. Kidneys, pain. Lichen planus. Lips, eruption. Parotid glands, hypertrophy. prostate disorders. Scalp, soreness. Spine, weakness. Stricture, urethral. Tongue, thickening. Tonsils, chronic hypertrophy.

Modalities

Better by expectoration. Better from cool air, standing, winter. Worse from exertion, even slight. Worse lying on right side. Worse before storms, night, stooping. Worse in morning, leaning forward, rising, ascending stairs.

Symptoms

MIND

Dread of exertion. Doubtful. Hurried, impatient, sad.

Abdomen

Mesenteric disease.

Eyes

Zigzag before vision.

Face

Acne. Suppurating pimples. Parotid hypertrophy after mumps.

Female

Irregular menses and a copious thick, burning, leucorrhoea worse before and after menses.

Food

Anorexia. Appetite increased in marasmus of children. Desire for acids.

Head

Headache better sundown. Hair seems erect.

Kidneys

Urine, scanty, purulent, brown sand in. Urine smells like raspberries. Stricture after gonorrhoea, painful urination, stream twisted. Burning at the end of penis, dull pain in prostate.

Limbs

Aching soreness below knees. Soles of feet ache, bum and sore, when standing.

Lungs

Breathing asthmatic, irregular, rattling and suffocative. Cough worse a.m. , spasmodic. Expectoration greenish, purulent, copious, viscid and yellow. Chest constricted, dropsy of pleura and eruptions on chest..

Male

Testes soft. Deficient erections. Prepuce cracked. Hydrocele of small boys.

Mouth

Raw, dry, wants to moisten it. Cold sores on lips. Teeth feel soft. Tongue is glazed, thickened after inflammation. Tongue thick. Parotid hypertrophied.

Rectum

Stubborn constipation. Bright yellow stools. Foul anal discharge.

Sensations

Hair feels as if erect. As if heat in heart. As if a band across forehead.

Skin

Moist eczema. Acne, suppurating. Barbers' itch. Lichen planus. Arms covered with itching rash. Hair feels as if erect. Itching on ears, nose and in urethra. Papular eruption on face. Boils on neck. Itching. Ulcers.

Stomach

Tremors in epigastrium on exertion.

Throat

Raw, dry, painful in swallowing. Uvula and tonsils enlarged and red. Swollen.

Vertigo

Vertigo worse stooping, binding of the hair, fasting, before and during menses.

Comments

Dr. Berlin treated with Sul-i. two cases of "weeping eczema" associated with varicose veins of the leg and pronounced itching. Also a child with eczema of arms. The keynote is: "dark red, swollen and sweeping eczematous surface which itches terribly." Sul-i. 3x trituration. was given.

Hansen mentions among the therapeutic uses of Sul-i. Thickness of tongue remaining after glossitis. Hypertrophy of parotids after parotiditis. Chronic hypertrophy of tonsils. Lichen planus, chronic and simple.

Bradford reports the following cases: (1) Burning at end of penis, dull pain in prostatic region, weakness across kidneys: frequent desire to urinate with slight flow, eats very little, does not go out of doors is much discouraged about himself. Sul-i. 3x cured.

(2) Violent attack of pain in kidney region with shootings down ureters, pain and weakness about kidneys, constant desire to urinate, urine thick and whitish with creamy sediment: Sul-i. 3x and 6x cured.

(3) Stricture after gonorrhoea, chordee, very painful urination, twisted stream. Yellow discharge: Sul-i. cured.

PAGE 1650

Sulphur terebinthinum

(terebinthinated sulphur)

Pharmacy

Sul-ter. Terebinthinated Sulphur. Sulphur terebinthinum. One part of purified Sulphur is dissolved by heating in one hundred parts of Turpentine. Dilutions. Historical dose: All potencies.

History

Sul. tereb. is referred to in the Hon. Robert Boyle's works. **Planets:** Saturn, Moon.

Homeopathic

A Sul-ter. 1x dilution cured a most obstinate case of St. Vitus's dance and has often relieved pain in chronic rheumatic arthritis, (Cooper).

Clinical

Chorea. Chronic rheumatic arthritis.

SOURCES

Clarke.

Sulphuricum acidum

(vitriol)

Pharmacy

Sul-ac. Sulphuricum acidum. Sulphuric acid. Vitriol. Dilution. Historical dose: All potencies, second to thirtieth potency. Sulphuric acid mixed with three parts of alcohol, five to fifteen drops three times daily for several weeks, has been successfully used to subdue the craving for liquor.

History

Vitriol of the Alchemists. Sul-ac., was a favorite remedy of the Middle Ages, being used extensively in dilution in the treatment of scrofulous, phagedenic, cancerous and venereal ulcers, as a gargle and mouth-wash for aphthae, ulceration of the gums and diphtheria. It was given as "Mineral Lemonade" in cases of lead poisoning This use Clarke has verified, giving water acidulated with the 3x.

The "Acid Soap" of Achard was prescribed as a dissolvent in scirrhus of the breast and nephritis, obstinate intermittent fevers, visceral obstructions, dropsy, jaundice, cachexia and "certain tumors of the feet."

Elixir of vitriol is a mixture of the Sulphuric acid, alcohol and water. It was a popular remedy for nervous weakness in women. Dippel, Haller and others each had an "Elixir," differing only in the proportions of the chief ingredients.

The elixirs were used in: Intermittent, putrid, malignant, contagious fevers, comatose and petechial fevers, scarlatina, confluent and malignant variola, dysentery, plague, leprosy, itch and other skin diseases, nocturnal emissions, suppression of menses and hemorrhoids, nephritis and gout, tuberculosis, chorea.

Grimmer states that patients needing this remedy are weak and exhausted. Yet mentally impatient and hurried and are prone to suffer from ulcerations both externally and internally, these ulcers readily tend to become gangrenous or cancerous.

Hemorrhages of dark blood from any of the orifices of the body are among the common complaints, hemorrhages from lungs, stomach, uterus and rectum frequently occur in the sickness of these patients. Inflammatory ulcerations and malignancy of the stomach occur in those who are chronic users of alcohol to excess.

PAGE 1651

Homeopathic

Sulphuric acid has the weakness or debility common to all acids. It is felt by the action of this one especially in digestive tract, giving a very relaxed feeling in the stomach. Craving for alcoholic stimulants. It affects the blood and blood-vessels, causing hemorrhages, violent of thin, black blood from all the orifices. Veins (of feet) distended. Purpura hemorrhagica. Removes long lasting black and blue spots with soreness and stiffness of the part after trauma, follows Arnica.

Tremor and weakness, everything must be done in a hurry. Hot flushes, followed by perspiration with trembling. Tendency to gangrene following mechanical injuries. Writer's cramp. Lead poisoning. Stomach pain and hypochlorhydria. Purpura hemorrhagica. Weakness is out of proportion to the disease from some deep seated dyscrasia. Trembling internal, wants to be held. Sour stomach.

Profuse acrid or stringy discharges. Parts feel stiff and tight. Pains increase gradually and end abruptly. As of a blunt plug being driven in. Great painfulness. Pains felt during sleep. Disappear on waking. Gnawing pains. Gangrene following mechanical injuries. Burning, darting pains. Shocks as from pain. Ulcers become red and blue and become painful. Writer's cramp.

Clinical

Acidity. Alcoholism. Alopecia. Aphthae. Backaches. Back, pain. Brain, concussions. Breath offensive. Bruises. Burns. Cancer. Cancrum oris. Chafing. Chilblains. Constipation. Corns. Diabetes. Diarrhea. Diphtheria. Dyspepsia. Erythema nodosum.

Esophagitis. Gangrene. Gastritis. Glossitis. Hair, loss. **Heart**burn. Hernia, inguinal. Hiccough. Hot Flushing. Impotence. Infertility. Injuries, mechanical. Intermittents. Irritation. Lead, poisoning. Liver disorders. Menopausal. Menorrhagia. Metrorrhagia. Myopia. Nightmares. Paralysis. Perspiration, great. Pneumonia. Pregnancy, sickness. Purpura. Rheumatism. Scurvy. Spleen disorders. Tuberculosis. Ulcers. Uterus prolapse. Vagina, prolapsed. Varicose veins. Warts. Wounds. Writer's cramp.

Causations

Burns. Mechanical injuries. Falls. Bruises. Concussion of brain. Chafing. Surgical operations. Sprains. Wounds.

Constitutions

Is suited to: (1) Old people, especially women. (2) Light-haired people. (3) Pains at menopausal. (4) When some deep-seated dyscrasia prevails, the child is weak with no other symptoms. (5) Sour babies. Sul-ac. is suited to cases where the weakness is out of proportion to the disease. Weakness which seems to come from deep-seated dyscrasia.

Suited to toppers, old persons especially women in menopausal years, weak children with no other complaint. **Planets:** Mars, Moon, Saturn.

Modalities

Better from warmth and lying on affected side. Rest relieves. Better from hot drinks, hands near head, moderate temperature. Worse from open air, alcohol. Cold aggravates, drinking cold water. Worse from injuries, surgical operations, sprains, concussion of brain. Worse from odor of coffee, menopausal. towards evening. Worse excessive heat or cold touch, pressure, lifting arms.

Symptoms

MIND

Must do everything in great hurry. Sullen, impatient, angry because things move so slowly. Fretful and irritable, over the slightest cause. Nervous fatigue and tendency to take fright. Vacillating and morose. Unwilling to answer questions, says yes or no with difficulty.

Constant crying or weeping. Seriousness alternating with buffoonery. No one pleases him.

Abdomen

Colic with sensation as if hernia would protrude. Feeling as if hernia would protrude, especially left side. Spleen enlarged, hard, painful, on coughing. Sinking sense in abdomen after stools.

Back

Weak feeling with dragging into the hips and small of back. Weakness of spine, cannot sit or stand. Large abscess on right side neck.

Chest

Great weakness in the chest with difficult speech.

Ears

Feeling as of a leaf lying before the ear. Tearing and shaking in right ear. Violent tickling. Rhythmical roaring in ears. Ringing of bells before ears. Humming in ears in evening.

Eyes

Intra-ocular hemorrhage, following trauma. Great chemosis of conjunctiva with aching and sharp pain. **Eyes**, smart, burn and lachrymation, while reading. Eyelids difficult to open. Feeling as of a lump in outer canthi, moves to inner canthi on closing eye and returns to outer on opening.

PAGE 1652

Face

Deathly pale or wrinkled. Feels as if the white of an egg had dried on it.

Female

Menses too early and too profuse. Distressing nightmares before menses or after menses. Erosion of cervix in the aged, easily bleeding. Flushes of heat, followed by sweat and a feeling of tremors all over the body during menopausal. Acrid, burning leucorrhoea often of bloody mucus. Gangrene of vagina after prolapse. Prolapse of vagina and uterus from weakness.

Food

Averse to smell of coffee. Craves brandy and fruits. Craving for alcohol. Desire for fresh food. Sweats after eating, especially warm food. Wine aggravates. Warm food causes sweat. Worse drinking cold water

Head

Concussion of brain where skin is cold, body bathed in cold sweat. Sensation as if brain was loose in forehead and falling from side to side. (Bell., Rhus-t.) Compressive pain in occiput, better by holding the hand near head. Thrust in right temple as if plug were pressed in. Electric like shocks in forehead, temples. Right-sided neuralgia, painful shocks, skin feels pinched. Pain of outer parts, as if there were subcutaneous ulceration, painful to touch. Hair, falls out, turns gray.

Kidneys

Pain in the bladder if urging for urinating is not attended to. Hematuria. Diabetes with lassitude, debility, despondency. Diminished secretion of urine. Slimy sediment in the urine.

Limbs

Cramp-like paralytic contraction in arms, hands. Fingers jerk while writing. Writers' cramp. Knees painfully weak. Ankles weak, cannot walk. Jerking of fingers during sleep. Jerking of the tendons.

Lungs

Respiration rapid. Bronchitis in children with short, teasing cough. Cough, then belchings or vomiting. Bloody expectoration during menopause. Larynx moves up and down violently and rapid motion of alae nasi during dyspnea better hanging down legs.

Mouth

Aphthae during protracted disease, especially in children with marasmus. Gums bleed easily. Offensive breath. Pyorrhoea. Destruction of teeth in diabetes mellitus. Bloody saliva from mouth. Ulcers spread rapidly.

Nose

Oozing of dark, thin blood worse odor of coffee of old people. Nosebleed in evening. Dry coryza with loss of smell and taste. Coryza: thin, lemon-colored discharge. Pimples on side of nose. Flow of water from nose.

Rectum

Diarrhea, fetid, black with sour odor of body and empty faint feeling in abdomen. Diarrhea, very foul, green, black or of hacked stools orange yellow from unripe fruit and oysters from least indigestion. Hemorrhoids with a oozing moisture. Hemorrhoids prevent stools. Rectum feels as if it has a big ball.

Sensations

As if brain were loose and falling from side to side. As if one side of head filled with smoke. As if a plug were thrust quickly into head. As from subcutaneous ulceration in scalp. As if white of egg had dried on face. As if skin of cheek and chin were pinched. As of want of elasticity of vocal organs. As if there were a lump in throat. As if menses would come on. As if hernia would protrude. As if rectum were torn to pieces during stool.

Skin

Bad effects from mechanical injuries with bruises and livid skin. Bed sores, abscesses. Ecchymosis. Petechiae. Purpura hemorrhagica. Livid, red, itching blotches. Hemorrhage of black blood from all outlets. Scars turn red and blue and become painful. Chilblains

with gangrenous tendency. Itching all over the body. Nodular urticaria. Carbuncles, boils and other staphylococcic and streptococcic infections.

Sleep

Retarded sleep and early waking. Sleepiness. Sleeplessness from mental excitement. Jerkings during sleep. Anxious dreams. Nightmares before menses.

PAGE 1653

Stomach

Weak, relaxed feeling at stomach worse after stools. **Heart** burn, sour belchings, sets teeth on edge. (Rob.) Drinks chill the stomach and rejected unless mixed with liquor. Relaxed feeling in stomach. Sour vomiting, hiccough of alcoholics, nausea with shivering. Coldness of stomach relieved by applied heat. Nausea with chilliness. Vomits mucous instead of food. Coughs, before vomiting during pregnancy.

Temperature

Hot flushes, then trembling or cold sweat worse after warm ingesta, worse upper parts, better motion. Drenching sweats. Disproportionate weakness during fevers like typhoid.

Throat

Sore. Stringy lemon-yellow mucous hangs from posterior sinuses in diphtheria. Looks white-washed. Liquids regurgitate, on swallowing. Larynx moves up and down violently.

Vertigo

Vertigo when sitting down, disappearing in the open air.

Comments

Hahnemann proved Sul-ac. and says that it has cured disorders characterized by: "tension in the eyelids in the morning, shortsightedness, hardness of hearing inguinal hernia, chronic looseness of the bowels, roughness in the throat, asthma, profuse menses, metrorrhagia, swelling of the feet, coldness of the feet".

Hahnemann's proving with homeopathic experience has confirmed many of the ancient uses of Sul-ac. and brought out characteristic indications. Weakness is a keynote to Sul-ac. The patient is weak and exhausted. Sul-ac. is suited to cases where the weakness is out of proportion to the disease. Weakness which seems to come from deep-seated dyscrasia. There is as well a sense of general internal trembling, as if trembling from head to foot, but without visible trembling.

Trauma is another indication for Sul-ac., it follows Arn. in bruises of soft parts, Con. In bruises of glands, Ruta. In bruises of bones. It also removes long-lasting black and blue spots with soreness and stiffness of the parts.

It is useful for inebriates who are "on their last legs," long after Nux-v. had ceased to help. Hering says the craving for liquor has been subdued by taking for two or four weeks, thrice daily, ten to fifteen drops of a mixture of one part of Sul-ac. With three parts of alcohol. The indications are: "Vomiting in morning, acidity in stomach, burning is esophagus and stomach, sour, acrid or foul belchings."

Sul-ac. has this characteristic: in spite of great thirst, water is not tolerated, unless qualified with alcohol it chills the stomach. This is a symptom with hydrogenoid patients. Sul-ac. has a keynote symptom in the mental sphere. Hurry Ñ hasty, quick, sullen impatient, angry because things move so slowly.

Like Sulph., Sul-ac. is periodic and has an important place in agues and periodic neuralgias.

Cooper with reason contends that many ague cases, supposed to have been cured with Chin-s., were really cured by the Sulphuric acid used in dissolving it.

"Moreover," says Cooper, "in all epidemic diseases influenza, cholera, small-pox, etc. Sul-ac. is often called for by the concomitant symptoms. In the neuralgia of influenza it has cured very severe pain over the whole left side of the head, face and neck, coming on from exposure to draft in the diarrheas of cholera times it certainly arrests mischief in the diarrheas of emaciated children it is often called for.

A chemist in Covent Garden used to use a lotion of Sulphuric acid, well diluted, for all the cases of itch that came before him and they were many. There is a keynote of Sul-ac. In respect to neuralgias which is of great service, the pains increase gradually and end abruptly, the most characteristic kind of pain is dull pressure as of a plug thrust in. There is external soreness and sensitiveness.

The hemorrhoids of Sul-ac. are external, sensitive to touch and accompanied by itching. Sul ac. is a great hemorrhagic, there is bleeding from every orifice, bleeding under skin (purpura).

PAGE 1654

The menses are too early too profuse and infertility may be a consequence of this, oozing of dark thin blood. Many sufferings of Sul-ac. seem to arise from the generative organs, especially of the female.

With Sul-ac. 30c, a dose every night, Clarke gave great help to a delicate woman who had nightmare, waking in a fright, before each menstrual period.

The local "weakness" of Sul-ac. may amount to prolapse of vagina and uterus.

Flushing is another feature (as at menopausal) and with the flushing there is sweating. Easy sweating is a note of Sul-ac. and the sweat affects mostly the upper part of the body. The body odor of Sul-ac. is sour and cannot be washed off. This is especially observed in

children. **Heart**burn with sour belchings that set the teeth on edge. Sul-ac.

Many symptoms appear on right side, but the left cheek and left parotid are most affected. Pain travels from left to right round hypochondria. Pains felt during sleep and disappearing on waking. Jerkings on falling asleep. Pain in bladder unless call to pass water is immediately attended to.

Compare

Sulphurosum acidum

(sulphur dioxide)

Pharmacy

Sulo-ac. Sulphurosum acidum. Sulphur dioxide. Sulphurous acid. Sulphurous anhydride. The remedy is obtained by dissolving sulphur dioxide in water. Historical dose: All potencies, 6c to 30c.

History

Sulphur dioxide is soluble in water, it produces an acid solution containing sulphurous acid. In this way, relatively weak solutions are obtained.

Sulphur dioxide irritates any mucous membrane with which it comes into contact and by becoming oxidized, it is transformed into sulphurous acid and then into sulfuric acid.

Acting on the upper respiratory tract, it is known even to create retro-sternal constriction and phenomena such as anoxia ischemia and myocarditis.

Gutman carried out a clinical study and taking as a base the results obtained, he drew up a clinical symptomatology, (1968). Julian completed Gutman's description with reference to the symptom data which result from acute and chronic poisoning cases.

History

Some forty years ago, when the germ theory of disease in its present form was in its infancy, Dewar of Fife, conceived the idea that Sulphurous acid was an innocent and at the same time universal germ destroyer and consequently universal remedy.

His views met with cordial acceptance and inhalations of Sulphurous acid given off from burning Sulphur became the fashion. Dewar's method was simple.

A few red cinders were put in a kitchen shovel, this was placed in the center of a room and flowers of sulphur sprinkled thereon. In a very short time every person in the room was sneezing violently, coughing and wheezing and running at the eyes and nose. Dewar also used the ordinary solution and a spray. Wounds, sore nipples, bruises were also amenable to its local use. Erysipelas, a local application of equal parts of the acid and glycerine. **Planets:** Mars, Mercury.

Homeopathic

Sulo-ac. has been used for chilblains, chapped hands, diphtheria, scarlatina maligna, cold in the head influenza. Sensitivity to infections. Also, asthma, bronchitis, croup, clergyman's sore throat, chronic tuberculosis, typhoid fever.

Predisposition to pulmonary tuberculosis. Chronic, purulent hyper secretion of bronchial mucus in the young without dilatation of the bronchi. Need for fresh air, vertigo.

Irritation of the nose, pharynx and larynx. Dyspnea, wheezing, coughing and retro-sternal constriction. Pulmonary tumors. Dyspepsia with ptyalism and gastric acidity. Keratitis and conjunctivitis.

PAGE 1655

Clinical

Acne rosacea. Allergies. Colds. Constipation. Croup. Diphtheria. Eczema. Epidemics.

Favus. Hands, chapped. **Heart**burn. Infections. Influenza. Nipples, sore. Pityriasis versicolor. Stomatitis, ulcerative. Tuberculosis.

Symptoms

Chest

Angina pectoris. Constriction behind the sternum.

Eyes

Irritation of both conjunctivae and cornea. **Edema of the eyelids.** Tension of the artery of the retina. Change in the reaction of the pupil. Dacryocystitis. Blepharitis.

Conjunctivitis. Superficial epidemic spotted keratitis. Herpes of the cornea. Chronic glaucoma. Choroiditis.

Heart

Rapid pulse, cold sweating. Accentuation of the second pulmonary sound. Systolic pulsation in the pit of the stomach. Inflammation of the coronary arteries.

Limbs

Chilliness at the limbs.

Lungs

Feeling of suffocation and cyanosed face. Wheezing and rhonchi widespread in the chest. Expectoration of dirty-gray or bloodstained mucous. Bronchiectasis. Emphysema, asthma. Chronic pulmonary tuberculosis. Chronic bronchitis. Oppression, sneezing and spasmodic coughing.

Mouth

Ptyalism, gingivitis. Brownish stains on the teeth, especially on the incisors. Dental caries. Ptyalism in pregnant women.

Nose

Burning sensation in the nose and discharge of a viscous liquid. Muco-purulent rhinitis. Nasal polyps.

Skin

Eruption of vesicles and edema. Brownish coloring of the skin. Eczematic eruption, very sensitive. Leucoderma. Urticaria.

Stomach

Acrid dyspepsia. Dyspepsia and hyperchlorhydria.

Temperature

Septic fevers of all kinds. Epidemic influenza, typhoid, Small-pox, plague, tuberculosis.

Throat

Burning sensation in the throat. Feeling of tightness around the throat. Lingering huskiness of voice. Scratching in the throat and chest.

Comments

Sulo-ac. doubtless shares the anti-septic properties of Sulph. The symptoms are from observations of the effects on workmen in mines from air contaminated with Sulo-ac. Milne sums up its virtues thus: "Anti-septic, disinfectant, a powerful deoxidizer and destroyer of vegetable life." As a gargle it is used in the strength of one to six. In parasitic skin disorders the B. P. solution is used and is effective.

Ringer says that ten to fifteen minims taken ten minutes before each meal will remedy heartburn in most instances.

It prevents flatulence and fermentations and that "the solution, either strong or diluted in varying proportions, speedily removes thrush."

This case touches a homeopathic characteristic of Sulo-ac. Ulcerative inflammation of the mouth. It has cured this in the potencies. The headache of Sul. ac. is better by vomiting.

C. Wootton tasted the acid with this result it at once stopped the mucous secretion of the bowels. The constipation was so severe that he was in misery for nine months, until he took Hydr., which cured. The use of Sulo-ac. as a hair-wash at a later time produced the same result.

Sumbulus moschatus

(musk-root)

Pharmacy

Sumb. Sumbul. Ferula sumbul. Musk root. Sumbulus moschatus. N. O. Umbelliferae. Tincture of the powdered root. Historical dose: Tincture and all potencies, tincture to third potency.

History

Sumbul, as its name, "Musk-root," implies, has an odor resembling that of musk. The resemblance is so close that Sumbul is used to adulterate musk. Sumb. was proved by Lembke, Cattell and others.

The symptoms are as like to those of Moschus as the physical resemblance would imply. Hysterical mood, easy fainting, nervous palpitation, are common to both. **Planets:** Moon.

Homeopathic

Sumb. is like Moschus it is the remedy for hysterical and nervous disorders. It affects heart causing nervous palpitations. The patient is nervous, irritable and sleepless.

Tendency to faint from slightest cause.

Sumb. has many hysterical and nervous symptoms and is of use in neuralgic disorders and anomalous, functional, cardiac disorders. Numbness on becoming cold. Numbness on left side. Insomnia of delirium tremens (fifteen drops of tincture). Sensation as if water dropped down spine. Asthma. A tissue remedy for sclerosed arteries.

Chorea, constant jerking of the head and limbs with protrusion of the tongue. As of a hot water flowing through part. Yellow tenacious discharges. Numbness, on becoming cold, on left side. Neuralgia. Early senility. Sclerosed arteries. Flushings, menopausal. The left side was more affected than the right.

Clinical

Acne. Asthma. Breasts, pains. Chorea. Diarrhea. Epilepsy. Fainting. **Heart**, disorders. Pneumonia. Hysteria. Neuralgias. Spermatorrhea. Throat, catarrh, spasms. Typhoid fever. Worms.

Modalities

Better from gentle motion, warmth. Worse from motion, menopausal, music, cold. Worse active exercise, left side. Worse after sitting. Worse by inspiration.

Worse by cold. Worse thinking of symptoms. Worse in morning. Music causes faintness.

Symptoms

MIND

Emotional and fidgety. Mistakes in writing and adding. Weeps and laughs by turns. Faintness from hearing music. Fear of becoming insane.

Abdomen

Full, distended and painful.

Back

Trickling along spine.

Breasts

Pulling like a string in right breast. Neuralgia around left breast and left hypochondriac region.

Face

As of a hair or cobweb on face. Neuralgia. Idiotic expression.

Female

Ovarian neuralgia. Abdomen full, distended and painful. Menopausal flushes. Sexual excitability. Screwing pain in left side of uterus.

Head

Dull in morning, clear in evening.

Heart

Nervous palpitations in hysterical subjects or at menopause, worse least exertion and thinking of it. As if heart beating in water. Neuralgia around left breast simulating angina pectoris. High blood pressure due to arteriosclerosis. Cardiac asthma. Aching in left arm, heavy, numb and weary. Pulse irregular.

Kidneys

Oily pellicle on surface of urine.

Limbs

Left arm, ache, heavy, numb, weary.

Lungs

Loses breath on any exertion. Asthma, cardiac, hysterical. Oppressed tightness in left chest, as if clogged.

Mouth

Tongue feels rough as if scraped.

Nose

Comedones. Tenacious yellow mucous from nose.

Sensations

Tongue as if scraped. Like a string pulling in right breast. Corkscrew pains in (left) uterus and appendages. Clogged sensation in left chest. As if heart beating in water.

PAGE 1657

Skin

Pale, cold. Internal itching.

Sleep

Dreams of falling of sex, followed by profuse sudden emission.

Stomach

Burning waterbrash. Belching of gas from stomach.

Throat

Choking constriction, constant swallowing, hysterical.

Spasm of pharyngeal muscles. Tenacious mucus in throat.

Comments

Hale gives the following indications for Sumb.: (1) Nasal and pharyngeal catarrh with nervousness, sleeplessness and tendency to spasms (especially in children), discharge of tenacious, yellow mucus. (2) Ascarides with bloated, drum-like abdomen and constipation, picking nose (cured with Sumb. 15c). (3) Oily pellicle in urine. (4) Pain in left uterine region.

(5) Asthma: catarrhal, spasmodic or cardiac. (6) Menopausal flushings. (7) Neuralgia: facial or ovarian in women of quick and lively nervous constitutions. (8) Neuralgia of the left hypochondrium, simulating angina pectoris with palpitation in nervous women. (9) Insomnia of chronic alcoholism.

Compare

(1) Asaf., Mosch.

(2) Mosch., Asaf., Melit., Med., Mez.

(3) Oily pellicle on urine, Sulph., Puls., Petr.

(4) Tenacious, yellow mucus, Hydr.

(5) Infra-breast pain, Act-r., Puls., Lil-t.

(6) Worse thinking of symptoms, Ox-ac., Pip. meth.

SOURCES

Castanea vesca

Sweet chestnut

(bach flower remedy)

Pharmacy

Sweet Chestnut. *Castanea sativa*. Flowering sprigs with both male and female flowers are boiled for half an hour. The water is strained and used as medicine. Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

Sweet Chestnut belongs to the group of Despondency and Despair as classified by Bach. The other remedies in this group are Crab Apple, Oak, Willow, Star of Bethlehem, Elm, Pine and Larch. **Planets:** Moon.

Homeopathic

Sweet Chestnut treats states of apathy and anguish. This remedy can be of service during physical agony when suffering seems to be unbearable and gnaws at the will to live. Physical side effects of deep depression. Morbid preoccupation and depression (Mustard). The inner reserves of strength have been drained.

Severe and prolonged physical suffering can undermine inner fortitude and create a Sweet Chestnut state.

From this agony, as well as from other severe hardships which have created deep, existential doubt and despair, can arise the suicidal wish, the ultimate wish to escape the unbearable state.

Symptoms

MIND

In the Sweet Chestnut state, the mind is stretched to its limits. Anguish. The torture reaches deep into the self, creating apathy, faithlessness, nihilism and despair. Religious despair with loss of faith. The "dark night of the soul".

A morbid preoccupation with death. After a loved one has died, some people are in need of this remedy. They cannot accept nothingness where once was life.

This remedy can also be indicated in a person free of anguish, but nonetheless suffering from lack of aspirations and meaningful purpose to the point of nihilism and negation of life's value. The perceptive focus in the Sweet Chestnut state is narrowed and imprisoned in the dark, nihilistic side of life.

This remedy is used for the treatment of depressive disorders (Mustard), especially when suicide is threatened and there is deep-seated despair.

PAGE 1658

The drained inner self is rather void of emotional life, as in darkness. Despair and despondency weigh heavily. For this reason, death may seem the only way out of a hopeless, empty situation. A sense of meaninglessness of life may lead to carelessness of attitude and despair.

SOURCES

Bach.

Bacillus sycoccus (paterson)

Pharmacy

Syc. Sycotic bacillus. A Bowel nosode. Historical dose: All potencies.

History

Sycotic co. from non-lactose fermenting cocci of intestinal tract.

Homeopathic

The Syc. keynote here is irritation, particularly in relation to mucous membranes. Its value in all catarrhal states of the respiratory tract, the bladder and the vagina, asthma, sinusitis. Bedwetting, cystitis, vulvo-vaginitis, leucorrhea, albuminuria, gastroenteritis.

Stools are excoriating, loose and offensive with urgent call to stool on rising. Cough occurs about 2 a.m. and is worse from change of atmosphere and symptoms generally are worse from damp. Of value in warty growths, enlarged lymphoid tissue of tonsils and adenoids, gland and the irritation of synovial linings in rheumatism, meningeal irritation, convulsions.

This nosode is very rich in mental symptoms, which are very similar to Gaertner Co. The element of fear is outstanding, but there is additional factor of irritation. This may be manifested by outbursts of temper, suggestive of remedy Lycopodium, is often complementary to this nosode. Mostly cold sensitive.

Clinical

Allergies, food. Alopecia. Amenorrhea. Anemia. Arthritis. Asthma. Backaches. Bedwetting. Conjunctivitis. Dysmenorrhea. Enteroptosis. Fibrositis. Headaches. Indigestion. Leucorrhea. Neuritis. Otorrhea. Sebaceous cysts. Warts.

Constitutions

The patients are pale, sallow, flabby and soft with long eyelashes, (Tub.) and sweat of the head. **Planets:** Venus.

Modalities

Worse from change of atmosphere. Worse from damp.

Symptoms

MIND

Nervous, tense. Cross, restless, weepy, depressed, shy, sensitive, fussy. Exhausted. Bites nails. Nervous irritability, quick tempered, outbursts of temper from resentment. Fears of dark and of being left alone, fear of animals and dogs.

Abdomen

Distended colon. Enteroptosis. Abdomen distended. Chronic irritation of whole digestive tract. Acute or chronic gastro-enteritis in the child.

Back

Backache, severe. Fibrositis, myositis. Stiff all over. Neuritis of head and neck. Sebaceous cyst back. Lumbo-sacral pain. Pain sacral-iliac joints. Hips stiff.

Blood

Anemia and hydremia.

Chest

Pleurisy. Intercostal neuralgia. Pleurodynia. Fibrositis of chest wall. Sudden pain at the base of right lung. Pain in left shoulder blade.

Ears

Deafness. Otorrhea. Excessive formation of wax. Itching of meatus. Cracks under ears.

Eyes

Conjunctivitis. Tarsal cysts. Photophobia, hemiopia. Pain in eyeballs. Vitreous opacities. Blinking of eyelids.

Face

Puffy in morning, especially under eyes. Acne rosacea. Erythema. Vesicular eruption on cheeks. Malignant growth right cheek. Facial neuralgia. Hair on face and upper lip. Twitching facial muscles.

Female

Amenorrhea. Uterine polyps. Leucorrhea profuse and bland. The vaginal discharge is offensive and fishy. Pruritis vulvae, vulvo-vaginitis, balanitis, ovarian cyst. Pain in left ovary at menstrual period. Genital warts and herpes. Metrorrhagia. Menorrhagia. Dysmenorrhea.

Food

Desires butter, fat, cheese, sweets, milk and salt. Aversion to egg, fat, milk, milk pudding, cream, salt, sugar, vegetables, tea, vinegar, cheese, meat, bread, potato and tomato. Aggravated by egg, nausea, vomiting, bilious attack and hay fever. Thought of egg in morning produces nausea. Upset by fat, onion and oranges Averse to breakfast. Nausea with smell of cooking.

Head

Irritation of meninges, sub-acute or chronic. Headache from infection of sinuses. Headache on left side. Throbbing better heat and rest, worse noise. Frontal congestive headache which lasts for many days.

Sick headache worse at menstrual period. Sweating of head at night. Alopecia. Painful dry scaly spots. Premature gray hair.

Kidneys

Irritation of mucous membranes from kidney to urethra. Albuminuria. Nephritis, pyelitis, nephrosis, cystitis. Frequency and urgency. Urine corrosive. Urinary tantrums. Kidney pain.

Limbs

Fibrositis, shoulders. Muscular rheumatism of arms. Arthritis fingers: pain generally better dry day and hot water. Fingers deformed, nodules on fingers. Fingers go dead, numb with spasm of the fingers. Prickly feeling in hands. Nails brittle. Rheumatism of knees. Ankles swollen and stiff. Soles of feet painful. Feet swollen at night. Big toe joint painful. Fidgety feet at night in bed. Feet and legs painful when walking as if walking on loose cobble stones. Feet and legs painful at night. Pes planus.

Lungs

Asthma and bronchitis, worse with damp and frost and better at the sea side. Wheeze and coughing at 2-3 a.m. Irritable cough of croupy nature at night. The Sycotic child waken at 2 a.m. with a cough of croupy nature. Cough until sick. Frequent bronchial colds. Bronchitis in winter. Chronic spasmodic persisting cough. Cough with tough sputum. Tracheitis.

Male

Impotency. Genital warts and herpes.

Mouth

Lips dry and cracked. Cracks in angles of mouth. Tongue sore, scalded, dry, fissured, furred. Herpes of mouth. Ulcers in mouth. Deep ulcers on tongue. Tongue dry, sticks to roof of mouth. Warts on tongue. Bad taste, sense of taste lost Pins and needle sensation on tongue. Salivation increased.

Neck

Fibrositis—neck, shoulders and back.

Nose

Nasal catarrh. Post nasal catarrh. Turbinates congested, sinus infection. Nose dry, crusting and burning. Polyps. Cracks in angles of nose. Nosebleed. Sense of smell lost. Hay fever. Vasomotor rhinorrhea.

Rectum

Distended feeling in rectum. Splinter pain. Prolapse. Anal warts. Constipation or looseness. Urgent call to stool as soon as rising out of bed. Loose offensive stool, excoriating (Med.). Liquid motion after every meal. Stool pale, crumbly, bad odor.

Skin

Sallow and oily skin. Warts large, flat and rugged. Impetigo. Cracks on finger tips. Cracks on heels. Nails brittle. Palmar dermatitis. Eczema on back of hands. Varicose eczema of ankles. Toe nails painful and brittle. Chilblains on feet. Paronychia. Herpes on face, neck and chest. Herpes groin. Varicellar eruption of limbs since immunization. Intertrigo breasts. Eczema of face in infants.

Sleep

Restless sleep. Night terrors. Nightmares. Perspiration of head and body during sleep. Insomnia. Wakes 2 to 3 a.m. Wheeze or cough. Can't sleep until 3 a.m. Dreams of dead bodies.

Stomach

Nausea. Anorexia. Burning pain in stomach. Eructation acid, bilious attacks. Pain and distention in the epigastrium. Flatulence. Nocturnal vomiting must empty stomach. Acidosis attacks. Nausea or sickness after eating eggs (Ferrum Met).

Throat

Goiter. Glands enlarged. Fibrositis neck and throat. Overgrowth of tonsils and adenoids and enlargement of glands. Tonsillitis, cheesy masses from tonsil. Quinsy. Throat feels raw, scorched, dry. Profuse mucus from throat in morning. Swallowing difficult, chokes easily.

PAGE 1660

Comments

This organism of the intestinal tract is related morphologically and clinically to the gonococcus bacteria. Hahnemann related what he called "the Sycotic Miasm" to the disease, gonorrhea, but this disease is only one form of catarrhal infection of the mucous membrane of the urinary tract.

The typical skin eruption of Syc. is warty growth. There are many non gonorrheal organisms associated with the symptom picture of "

Catarrh" and according to Dr. John Paterson the miasm "Sycosis" may be considered synonymous with "Catarrh". Gonorrhea is an infection of mucous membrane, but catarrhal manifestations (sycotic) are not at all due to gonorrheal infection.

Syc. 200c in nosebleeds of long standing in a girl without any apparent reasons, cured completely with a few doses at long intervals.

The exanthema of chicken pox has an effective remedy in Syc. Chronic and recurring cystitis. These patients have often had repeated courses of antibiotics which clear up the infection for a short time, only to relapse in a month or two. Usually they require other remedies in addition, particularly a constitutional prescription, but intercurrent doses of Syc. can be of great help.

Human "flu", cat "flu", fowl pest, foot and mouth disease and canine distemper are all the signs of Syc. Convulsions, meningitis or epileptic forms of seizures are to be found in the clinical picture and also chorea, though less frequently than in Dysentery Co. (Griggs)

Compare

Symphoricarpus racemosus

(snowberry)

Pharmacy

Sym-r. Symphoricarpus racemosus. Snowberry. N. O. Caprifoliaceae. Tincture of fresh ripe berries. Historical dose: Tincture and all potencies, 2c to 200c.

Herbal

Prof. S. Burdick investigated the medicinal properties of many plants hitherto unused by the profession, among others chanced to be the snowberry or *Symphoricarpos racemosa*.

He gave some of the drug to the first prover, an intelligent lady, who on feeling the marked nausea, which it soon produced, exclaimed: "Doctor, this is precisely like the morning sickness I always experienced during pregnancy."

Dr. Burdick became more interested, repeated the experiment with other provers, obtained almost uniform results, viz., a feeling varying from qualmsiness to intense vomiting. It was given to female provers only and merely tested far enough to verify that symptom.

Upon this clue Dr. Burdick gave it in the higher potencies to patients suffering from the vomiting of pregnancy with most satisfactory results. Indeed after a trial of many years, he has found it so far superior to other remedies that he now relies on it altogether with rarely any but entirely satisfactory results. **Planets:** Moon.

Homeopathic

Sym-r. is highly recommended for the persistent vomiting of pregnancy. Morning sickness. Nausea, worse from any motion. Nausea during menstruation. Averse to all food, better when lying on the back. Constipation. Gastric disturbances, fickle appetite, nausea, waterbrash, bitter taste. Smell and thought of food repugnant.

Clinical

Morning sickness. Nausea.

Comments

Burdick mentioned the drug in his course of lectures, so Moaffat bore it in mind waiting for a test case. Soon that came in the person of a young lady three months advanced in her first pregnancy.

PAGE 1661

She was suffering from a deathly nausea with vomiting and retching so prolonged and violent as to produce hematemesis. The smell or thought of food was repugnant in the extreme. An examination disclosed no malposition or apparent cause for the trouble, so he procured some Sym-r. 200c from Dr. Burdick and gave her one dose in the midst of a violent paroxysm. In a few minutes she stopped vomiting and said she felt soothed and quieted all over.

In half an hour the nausea began again, but a few pellets checked it promptly and she fell asleep. Once during the night she awoke distressed and took a dose, but slept again quite soon.

For a month or so she felt very well until after over-exerting herself she became nauseated once more, but it was promptly checked, nor did it return during her pregnancy.

The indications have been observed in cases of pregnancy with a feeling of qualmsiness with indifference to food. In more severe cases like the above, there is a deathly nausea, the vomiting is continuous violent retching, but it covers every graduation between these extremes. It does not seem to be confined to any particular morning aggravation, a prominent symptom is the disgust at the sight, smell or thought of food.

One case the patient was comparatively comfortable while lying on the back, but would be nauseated by the slightest motion of the arms, particularly raising them. The case was completely relieved by a few doses. And so the cases might be multiplied.

Thinking that if the irritation of pregnancy were thus subdued, that of menstruation might be as well in such cases of nausea or vomiting just before during or after menses with admirable results.

Symphytum officinale

(comfrey)

Pharmacy

Symph. Comfrey. Knitbone. *Symphytum officinale*. Healing Herb. N. O. Boraginaceae. Tincture of fresh root-stock collected before flowering and in autumn. Tincture of fresh plant. Historical dose: Tincture and all potencies. Tincture, externally as a dressing for sores and ulcers and itching of anus.

History

Symphytum has not received its names for nothing. *Consolida* is one of them and "Comfrey" is derived from *Confirmare*.

The glutinous juice of the root seems, according to Gerarde to have given the key to its action as a vulnerary. *Symphytum* may be considered the orthopedic specific of herbal medicine.

Common name, Knit-bone or Bone-set gives the indication for this remedy. The root contains a crystalline solid, that stimulates the growth of bone cells and epithelium on ulcerated surfaces.

"The roots of Comfrey stamped and the juice drunk with wine, help those that spit blood and heal all inward wounds and bursting. The same bruised and laid to in manner of a plaster, do heal all fresh and green wounds and are so glutinous, that it will solder and glue together meat that is chopped in pieces, seething in a pot and make it in one lump" (Gerarde).

Gerarde adds to the uses of *Symph.* quoted from him above that it eases pains in the back from violent motion as wrestling or from excessive sexual indulgence, even when spermatorrhea has been induced thereby. Arn. has an analogous use.

Peter Squire gives as the medicinal properties of *Symphytum*: "Astringent, mucilaginous, glutinous, useful to form cases for injured limbs. The black rind of the root is scraped off and the mucilaginous root is then scraped carefully into a nice even pulp.

This spread upon cambric or old muslin in wrapped round the limb and bandaged over, it shortly stiffens and forms a casing superior to starch, giving support and strength to the part."

PAGE 1662

Peter Squire knew a bone-setter who practiced fifty years ago and rendered himself famous for setting compound fractures with this root, which he kept secret and he never removed the bandage after the first dressing until the limb was well.

Sir Wm. Thomson of Dublin relates a case of malignant tumor of the face which had extended to the nose. Microscopical examination proved it to be round-celled sarcoma.

The patient, a man, was advice was refused at the time and was repeated by Felix Semon, who saw the man later. After still further delay Thomson performed the operation in the month of May, 1896.

A month later the growth began to show again increased rapidly, closed the right eye, was blue, tense, firm, lobulated, but did not break. Thomson declined to operate again. Early in October the man walked into Thomson's study well: "The tumor had completely disappeared from the face and I could not identify any trace of it in the mouth." The man had applied poultices of Comfrey root and the swelling disappeared. **Planets:** Saturn, Mars.

Homeopathic

Symph. is a bone remedy. It may be administered internally in the treatment of gastric and duodenal ulcers. Also in stomach pain and externally in anal itching. Injuries to bones, ligaments, joints, tendons and the periosteum. Acts on joints generally. Neuralgia of knee.

Symph. is of great use in wounds penetrating to perineum and bones and in non-union of fractures, irritable stump after amputation, irritable bone at point of fracture. Psoas abscess. Pricking pain and soreness of periosteum.

Injuries to bones, cartilages, periosteum with excessive pain. Painful old injuries. Fractures, broken bones. Pricking, stitching pains, remaining after wound is healed, worse touch. Non-union of fractures. Penetrating wounds to perineum. Deficient callus. Affects the joints. Arthralgia of knee.

External application disposes the swelling, due to injury or other growths. Psoas abscess. Sarcoma. Irritable stump after operations.

Bruises, sprains and inflammation of bones, diseased spinous processes. Psoas abscess. Facilitates union of fractured bones and lessens peculiar pricking pain, favors production of callous. Pricking, sticking, jagging pains. Sore breasts.

Clinical

Abscess. Backache. Bone, cancer. Bone fractures. Breasts, sore. **Eyes** injuries. Glands, enlarged. Gunshot wounds. Hernia. Menses, suppressed. Periosteum, painful. Psoas abscess. Sexual excess. Sprains. Stump, irritable. Wounds.

Causations

Broken bones. Injures to eye, bone, periosteum. Falls. Blows from blunt instruments. Sexual excess.

Modalities

Worse from injuries. Worse sexual excess. Worse by touch. Sitting causes pain about navel. Stooping causes weight in forehead. Walking causes pain opposite spleen.

Symptoms

Abdomen

Pains across epigastrium from one side to other, when sitting, worse about navel, griping pain.

Back

Backaches from excessive sexual indulgence or from wrestling from violent motion. Decay of vertebrae. Pain in back from a fall. Pott's disease from fall. Much used among herbalists in caries of spinal and other bones.

Breasts

Sore breasts.

Ears

Cannot hear well, feels as if ears were stopped up. Inflamed ears.

Eyes

Injuries to the eyes from blunt instruments, blows, knock, eyelids spasmodically closed.

Face

Injuries to face. Malignant tumor of right antrum. Inflammation of inferior maxillary bone, hard, red swelling.

Female

Menses stopped. Leucorrhoea.

Head

Headache in occiput in top of head in forehead, changing places. Pain comes down bone of nose. Inflammation of inferior maxillary bone, hard, red, swelling.

Kidneys

Structure of urethra.

PAGE 1663

Limbs

Psoas abscess.

Male

Testicles become painful and tender and prevent walking. Backache from excessive sexual indulgence with spermatorrhea.

Nose

Pain comes down bone of nose and sometimes down both sides of nose.

Rectum

Dysentery. Inflamed and bleeding hemorrhoids.

Sensations

As if upper lid passed over an elevation on closing eye. As if ears were stopped up.

Skin

Cold.

Stomach

Ulcers of the stomach. Pain about navel worse sitting.

Comments

Comfrey's therapeutic history is rich in amazing clinical cures of round cell sarcoma of the antrum and many cases of bone cancer. It seems to have special curative action on the periosteum and bony structures, facilitating the formation of callus in fractures, bringing about union even in compound fractures and in cases of slow, delayed union.

It has been curative in injuries to the eyeball by blows etc. and follows Arnica in such cases, also in injuries and bruising of the testicles. Backaches after strains and from sexual excesses.

Pott's disease, psoriasis and abscesses from a fall have found this a helpful remedy. One case of inguinal hernia has been cured with the topical application of the tincture of the root.

H. C. Allen refers to the following indications for *Symph.* given by Lippe: (1) When the bone or periosteum has been injured and the soft parts have recovered from the bruised

soreness under Arn., the remaining pain and soreness of periosteum may be promptly relieved by Symph.

(2) In traumatic injuries of bone or periosteum (as from a snowball or anything else on the face), Symph. was the only remedy Lippe has seen efficient. He cured many cases after others had used Arn. and failed.

Allen also gives the following cure reported by Fowler: Mrs. J. stepped on the edge of a scantling, which rolled and she turned her ankle. In a few minutes the ankle began to swell and become painful, pain increasing rapidly, so that in hour or two patient was in great agony. She declared her leg was broken, she "could feel the rough ends of the broken bones jagging into the flesh."

She could not bear any one to approach her for fear of being hurt. No discoloration whatever. Symph. promptly relieved, so that she went about her usual duties in forty-eight hours.

Allen regards pricking pain as a guiding symptom. Next to bone injuries in importance are injuries to the ball of the eye, as distinguished from injuries to the soft parts around. "I have long since ceased to use Arn. in injuries of the globe of the eye, Symph. having given such prompt and permanent relief" (H. C. Allen).

Croserio was one of the first to use Symph. in the potencies for fractures. "Injuries of the bones are healed most promptly with Symph. 30c internally, once a day." Wells gives these cases of his own:

(1) Boy, 14, broke bone of forearm at junction of middle and lower thirds, two years before. Had twice repeated the fracture by slight falls. Ends now slightly movable on each other, arm of little use. Three doses of Symph. ? made a perfect cure and the boy became robust and much better in health than he had ever been before.

(2) Boy, 8, fractured humerus near junction of condyles and shaft. Arn. 30c immediately arrested the spasmodic jerks of muscles of injured arm. Arn. was continued three days, by which time all traumatic fever had subsided.

Symph. 3c, one drop in half a tumbler of water, a teaspoonful morning and evening. The splints were removed the ninth day and the bone found consolidated. The cure was entirely without pain.

PAGE 1664

F. H. Brett cured himself of inguinal rupture by rubbing the part with tincture of the root. On another occasion a blow on the lower part of the back from a fall resulted in a secondary affection of the spine in the mid-dorsal region, a protuberance as if from a light dislocation appearing at the spot. Again Symph. was applied. The tenderness at the point subsided after three applications and in a few days the protuberance disappeared.

Brett mentions a case he had heard of: A diseased arm which had begun to mortify was dressed with a poultice of Comfrey root and this "drew off the mortified substance. The arm became sound again."

Cooper gives this experience of a patient of his: Just before her marriage she had a dangerous attack of scarlatina, leaving abscesses on both sides of the neck and great internal swelling, so that she could swallow only liquids and that with great difficulty. The external swelling extended from ear to chin and was hard and very painful.

Poultices of Comfrey root were applied. The pain was immediately relieved and her abscesses decreased rapidly until they were entirely absorbed without external opening so far as the patient could remark.

Compare

Boericke. Clarke. Phatak.

Syphilinum

(syphilis nosode)

Pharmacy

Syph. Syphilinum. Syphilis nosode. Lueticum. Historical dose: All potencies, The higher potencies and in infrequent doses.

History

The nosode of syphilis is mainly used on the general symptomatology with the family and personal history of the patient. Its nightly aggravation of complaints with extreme mental and physical restlessness together with its intense irritability, are striking indications for its use.

The nosode is frequently used to great advantage as intercurrent remedy in the course of treatment in chronic disease, prior to or following the apparently indicated remedy when the patient's response to that remedy is feebly or nil.

Homeopathic

Syph. has been used in cancer, tuberculosis, severe types of neuro-arthritis, mental disturbances or various forms of paralysis. It is useful in chronic cases when the reaction is poor and indicated remedy gives partial relief. Especially when there is hereditary tendency to alcoholism or a syphilitic miasm.

Syph. affects the nerves, mucous membranes and bones. Syphilitic disorders. Utter prostration and debility in the morning. Shifting rheumatic pains. Chronic eruptions and rheumatism. Ichthyosis. Pains from darkness to daylight, decrease and increase gradually. Ulceration of mouth, nose, genitals, skin. Succession of abscesses.

Great weakness with very few symptoms or utter prostration and debility in the morning, on waking. Ulcerations, stubborn. Dwarfed, shriveled up, old looking babies and children, bald head, pouting lips and big belly. Foul odor of the body.

Violent or linear pains. Succession of abscesses. Foul or green pus. Knots in muscles. Pains or other conditions worse and better gradually.

Crying infants, who begin crying immediately after birth. Slowly advancing hemiplegia. As of hot water in blood vessels. Bones, sore, decay, curvature. Exostoses. Glands enlarged. Hodgkin's disease. Pains in bones. Epilepsy worse after menses. Fetid discharges. Persistent pains in any part of the body. Cold pains.

Clinical

Abscess. Alcoholism. Anus, fissures. Aphasia. Asthma. Bone, disorders. Breasts, sensitive. Bubo. Constipation. Deafness. Deltoid rheumatism. Dentition. Diplopia. Dysmenorrhea. Epilepsy. Headache, syphilitic. Hoarseness, before menses. Insomnia. Iritis.

Leucorrhea infantile. Mouth, ulcerated. Myopia. Neuralgia. Night-sweats. Ophthalmia. Otorrhea. Ovaries disorders. Ozaena. Pemphigus. Psoas abscess. Ptosis. Rectum, stricture. Rheumatism. Sciatic pain. Sleeplessness. Spine, decay. Strabismus. Stricture. Sunstroke. Syphilis. Teeth, decay. Throat, ulcerated. Tibia, pains. Tongue, cracked, ulcerated. Ulcers. Whitlow.

PAGE 1665

Causations

Sun. Syphilis. Damp weather. Thunderstorms.

Constitutions

Syphilitic constitutions. **Planets:** Mercury.

Modalities

Better inland and mountains during day, continued or slow motion. Better from changing positions, high altitudes, applied heat during day. Worse at night, from sundown to sunrise, damp, extreme heat or cold. Worse full moon during thunderstorms. Worse in any position, motion, raising arms laterally, squatting. Worse winter, summer, seashore, protruding tongue.

Symptoms

MIND

Aversion to company. Sad and lamenting. Hopeless, despairs of recovery. Antisocial. Apathetic. Horrid depression. Impulse to wash hands. Nightly delirium. Fears the night and the suffering from exhaustion on awakening. Cross, irritable, peevish. Loss of memory, but remembers everything previous to his disease. Feels as if going insane or being paralyzed. Very nervous, laughs or weeps without cause. Does not want to be soothed. Syphilitic insanity.

Abdomen

Pain or distress deep in abdomen as if in omentum. Feeling of heat internally in hypogastric region. Pain in right groin followed by swelling of glands. Large painless bubo in right groin opened and discharged freely. Inguinal bubo.

Back

Neck feels short. Pain in the back in the region of kidney worse after urinating. Pain at coccyx with sensation as if it is swollen worse sitting.

Breasts

Sensitive to touch, feel sore during menses and other times.

Chest

Soreness of chest. Rattling in chest and throat. Oppression of chest to such an extent as almost to arrest breathing. Sensation of pressure under upper part of sternum.

Ears

Deafness without any obvious cause, nervous with cachexia. Calcareous deposit on tympanum. Abscess of the middle ear. Decay of ossicles in ear of syphilitic origin.

Eyes

Lids swollen. Amaurosis, atrophy of optic nerve. Spots on cornea. Chronic, recurrent, inflammation of cornea. Successive crops of phlyctenules and abrasions of epithelial layer of cornea. Photophobia, and **profuse lachrymation.** Pain intense at night. Ptosis. Ophthalmia, neonatorum. Glimmering vision. Vertical diplopia. Feeling of cold air blowing on eye. (Fl-ac.) Squint. Tubercular iritis. Diplopia, one image seen below the other.

Face

Pale, wrinkled, old looking. Twitching of muscles. Pain over eyes (right) worse protruding tongue. Paralysis of one side with difficult speech, mastication and twitching of eyes, lids.

Female

Menses having putrid meat-like odor. Yellow offensive, acrid leucorrhea so profuse, it soaks through napkins and runs to the heels with ovarian pain with itching of the genitals. Leucorrhea profuse, thin, watery, acrid with sharp, knife-like pain in ovaries. Habitual abortion. Ulcers on labia. Ulcers on the vulva with ovarian pain, sensitive to touch. Cutting pain in ovary during sex, at the moment of orgasm.

PAGE 1666

Food

Capricious appetite. Craves alcoholic liquors. Aversion to meat. Total loss of appetite for months. No food agrees or satisfies him.

Head

Stupefying headaches. Pain in bones of head. Deep crushing head pains across the base of temples. Linear pains from temples across or from eyes backward, cause sleeplessness and delirium at night. Beats head against the wall. Feels pulled back. Cerebral softening. Top of head feels as if coming off. Falling of the hair. Tubercles all over the scalp.

Heart

Pain from base to apex of heart. Large soft pulse. As if hot water flowing in the veins. Sharp pains in heart at night from base to apex (Med. has reverse). Valvular disease of heart.

Kidneys

Urine frothy, scanty, yellow. Nocturnal bedwetting. Passes urine better while standing. Urinates only once a day but profuse.

Limbs

Rheumatism of shoulder joint, at insertion of deltoid, worse from raising arm laterally or in front. Muscles contracted in hard knots. Itching eruptions about elbows. Always washing the hands. Affections of middle fingers. Bones pain as if sawed. Bilateral exostoses sore and painful. Shin bones painful better pouring cold water on them. Osteosarcoma in center of tibia. Sciatica, worse at night, better about daybreak. Cold pain in legs. Indolent ulcers. Redness and rawness between toes (Sil.) Soles painful with feeling of contraction worse standing on them. Cannot sit on low chair or squat.

Lungs

Chronic asthma, worse in summer during thunderstorms, at night, humid weather. Asthma with wheezing and rattling. (Ant-t.) Cough dry worse lying on right side, worse at night, windpipe sensitive to touch. (Lach.) Sharp pains from base of heart to apex at night.

Male

Nodular formation in testes, spermatic cord and scrotum. Chancres. Aching of genitals, cannot sit still.

Mouth

Ulcers smart and burn. Putrid taste, before epileptic fit. Excessive flow of saliva, it runs out of mouth when sleeping. Teeth feel sticky, as of a worm in. Teeth cupped in children. Feeling as if teeth, had all got out of place. Teeth decay at the edge of gums. Toothache better pressing them together, worse hot or cold things. Aphasia. Paralysis of tongue. Tongue, coated indented, deep longitudinal cracks along center, ulcers, smart and bum.

Nose

Decay of nasal bones, hard palate and septum with perforation. Ozaena. Ozaena offensive, thick yellow-green discharge. Painful to inhaled air. Sinuses, painful. Green lumps from posterior sinuses. Snuffles. Saddle across the bridge of the nose, (Sep.). Attacks of fluent coryza. Itching nostrils.

Rectum

Feels tied up with strictures. Enemas very painful. Fissures in anus and rectum, prolapsed. Obstinate constipation. Water from enema escapes with pain. Diarrhea, bilious, painless worse seashore, drives her out of bed about 5 a.m.

Sensations

A seething feeling as if hot water or hot oil running through all veins of the body, all night long. As if going insane or about to be paralyzed. Tongue feels as if paralyzed. A far-away feeling with apathy. Fluttering as of something alive in teeth. Palms and soles as if pricked by needles. As if throat tearing to pieces. As if top of head were coming off. As if teeth were loose. As of a nervous chill commencing in anus and running down legs. As if bitten by bugs.

Skin

Reddish-brown eruption with a disagreeable odor. Extreme emaciation. Swollen and blotched. Biting as from bugs. Wandering erysipelas. Conical crusts. Bullae. White or pock mark scars. Distorted nails. Coppery spots.

PAGE 1667

Sleep

Sleeplessness. Great restlessness at night, impossible to keep leg in one position. Absolute sleeplessness. Wakes soon after midnight and cannot sleep again until 6 a.m.

Stomach

Vomiting for weeks or months. Nausea. **Heart** burn with pain and rawness from stomach to throat-pit often with cough. Vomiting for weeks or months due to erosion from superficial ulceration of lining of viscous.

Temperature

Chilly. Sweats at night with exhaustion. Nervous chills preceded by pains in head. Fever dry, hot, shortly after going to bed, parted lips, great thirst.

Throat

Aphonia before the menses. Continuous pain in the larynx worse touch. Sore, right to left worse cold drinks. Chronic hypertrophy of tonsils with syphilitic taint.

Vertigo

Vertigo on looking up, seems to be caused by heat.

Comments

The widespread distribution of syphilis, acquired and hereditary and the virulence and persistence of the virus, give this nosode a high degree of importance in homeopathic practice. The leading features of the disease are the keynotes for the use of the remedy and

(1) first in importance is the night aggravates: Pains from darkness to daylight, begin with twilight and end with daylight. All symptoms worse at night. Terrible dread of night, on account of mental and physical exhaustion on awaking.

This night aggravation will be found in a large proportion of the cases needing Syph. in ophthalmia, the pains are worse at night and during the night the lids grow together.

Neuralgia and headache, asthma, coughs worse from sunset to sunrise, whether syphilitic or not, will be benefited by Syph. Sleeplessness is itself a leading indication for Syph., which vies with Sulph. as a sleep restorer.

(2) Next to the night aggravates is ulceration. This affects mouth, nose, genitals or skin.

The ulcers have grayish bases in the nose they produce the most offensive form of ozaena with discharge of fetid clinkers. In such cases I have found Syph. of the greatest service. Fetid discharges from the ear come in the same category.

(3) Abscesses with foul secretions. All the pus formations of Syph. are fetid. Succession of abscesses is one of the grand keynotes of the Materia Medica. **Eyes**, teeth and skin give other leading indications.

In ophthalmia neonatorum the lids adhere during sleep, pains worse 2 to 5 a.m. , pus profuse, better cold bathing. Iritis, syphilitic or rheumatic, has been cured with Syph.

Ptosis, sleepy look from drooping lids. Diplopia, one image seen below the other. Teeth decay at the edge of the gums and break off, are cupped, have serrated edges, dwarfed in size and converge at their tips.

The typical eruption of Syph. is copper-colored spots, but it covers many other forms including pemphigus. The glandular system is affected throughout and nutrition impaired, leading to extreme emaciation.

Burnett has recorded in his book on Delicate Children many instances of the power of Syph. to free stunted children from this constitutional blight.

Further indications for Syph. are: Pains worse and better gradually, are shifting and require frequent change of position. Leucorrhoea, profuse, soaking through napkins and running to heels.

The orifices of the body are all affected by syphilis. Syph. has a great sphere in rectal pain and constipation. "Obstinate constipation for years, rectum seems tied up with strictures, when enema was used the agony of passage was like labor."

H. C. Allen says: "Syphilitic or patients who have had chancre treated by local means and as a result have suffered from throat and skin troubles for years, are nearly benefited by this remedy at commencement of treatment unless some other remedy is clearly indicated."

PAGE 1668

Thomas Wildes gives his experience with Syph. The chancre increases for the first two weeks and then gradually fades away, not being followed by secondaries.

Craving for alcohol in any form. Hereditary tendency to alcoholism. (Bacchus and Venus are close allies).

Headaches in great variety he cured with it, aphasia, ptosis, paralysis of tongue, facial paralysis, hemiplegia, "persistent pains in any part of the body," catarrhal and nerve deafness, itching of nostrils, dark purple lines between alae nasi and cheeks. Itching scabby eruptions on face or breast, singly or in clusters, looking like herpes. Pain and pressure behind sternum. Epilepsy.

Wildes cured with Syph. 1,000c a book-keeper who for many months had a piercing, pressing, excruciating headache over right eye extending deep into brain. It was so severe, he was losing continuity of thought and memory.

Under Syph. every night the headache disappeared entirely in ten days and the mental faculties were fully restored, but in six weeks the whole eyebrow on that side broke out into a sickly, yellow, syphilitic eczema with a red, angry and oozing base extending under the arch to the lid from canthus to canthus up into forehead and down the side of the nose.

The cure of this was tedious, because, Wildes thinks, he did not stick to Syph., but changed the remedy. This man had syphilis a few years before.

In 1879 a lady, 26, extremely bright and intelligent, came to Wildes with a dreadful Ozaena. She had also curvature of the spine and congestion of right ovary. Always delicate from a child.

Syph. cured the ozaena and improved the health, but it "drove out a saddle to which the Sepia saddle is but a shadow" Ñ a furious inflammatory mass of syphilitic sores, scabs and eczema, red and angry with a fiery base extending from one malar prominence to the other, across nose up to eyes and forehead. This took eighteen months to cure. The ozaena never returned.

A boy, age 4, had an obstinate rash, a combination of prurigo and herpes, on chin, lips, cheek-bone, forehead and hairy scalp, on arms, chest, back, bends of joints and on the joints and on fingers and hands, nowhere profuse. In spite of authorities to the contrary, Wildes maintains that syphilitic rashes may itch and that prurigo is infectious and is one of the initial stages of leprosy.

This boy had a spot of eruption on the left thigh the size of the top-joint of a man's thumb. This was distinctly a leper spot. Syph. 1,000c caused the rash to come out strongly all over the body in patches, the face was one-third covered with a thick, yellow, scabby eruption.

The remedy was continued and the boy got well, wonderfully improved in health, no longer nervous, growing well, sleeping well, appetite good.

Girl, 16, had measles a year before which did not come out properly. A year and a half prior thereto subject to neuralgic headaches. Ailing about two years, very despondent, wants to die, headaches growing more violent.

During the headaches the temple veins stand out, has pains all over the body is very irritable, restless, walking about much of the time, does not wish to be soothed, violent on being opposed, has tremors and seems on the verge of convulsions, dazed, absent-minded and almost insane. Always washing her hands. She was formerly constipated, but now subject to "a kind of diarrhea."

Menses never have come on properly and for the past year have been very irregular, much delayed, scanty and always extremely painful. Often feverish. Sleep anxious, distressed and often wakeful and violently restless. The symptoms indicated Syph. and under this she steadily recovered.

A young lady contracted "leprosy-syphilis" from vaccination. She had an blood-boil on her arm which would not heal. Face broken out with a fiery rash. With Syph. 1,000c at bedtime she recovered rapidly. The arm healed quickly and her face became free from eruption.

PAGE 1669

Boy, 3, had cluster of yellow blotches on fingers and roots of nails, distorting the nails. The boy's father was epileptic. The boy was helped with Fl-ac. and cured with Syph., the nails becoming straight.

A number of linear pains have been observed in Syph. cases.

G. H. Carr relates this case: An old man had been troubled two or three winters with an intense cold pain in both legs, it came on every night on lying down and lasted all night, the only relief being by getting up and walking. Magnetic leggings had given most relief. Syph. 1,000c, one dose daily, was given.

He lost the pain for six weeks, when it returned in milder form. Syph. 100,000C was given and he had no more pains all the winter.

This medicine, he said "made his genitals ache so that he couldn't sit still." This lasted over a month.

Syph. 100,000c cured a lady of "asthma" that she had for twenty-five years, the attack coming on only at night after lying down or during a thunder-storm.

Swan says he gave crying infants, when they developed the propensity immediately after birth and did not cease, one dose of Syph. 100,000c and it was difficult to make them cry after that.

Yingling reports this case: Rev. D., 30, dark, free from venereal taint, had a constant dull, heavy ache above inner angle of right eye, very distressing with an occasional thrust as of an iron rod from the same spot through to lower part of occiput. This thrust was excruciating.

He was due to preach next day, but the pain quite incapacitated him, hence his appeal for help. Haggard look. Syph. 100,000c, one dose, was given. He was free from pain before he reached home, next morning was perfectly well.

Boericke. Clarke. Phatak.

Syzygium jambolanum

(jambol seeds)

Pharmacy

Syzyg. Jambol seeds. Syzygium jambolanum. Cumini. Jumbul. N. O. Myrtaceae.

Trituration of the seeds (fruit-stones). Tincture of the powdered fruit-stones. Historical dose: Tincture and all potencies.

Herbal

Syzygium jambolanum is a native of India. It has an edible fruit, the powdered stones of which have a popular use in India as a remedy for diabetes. Syzyg. has an immediate effect of increasing the blood sugar, glycosuria results.

The dose is five to ten grains of the powdered stones three times a day. Also, the tincture.

Planets: Jupiter.

Homeopathic

Syzyg. is a most useful remedy in diabetes mellitus. Dudgeon used Syzyg. in the lower homeopathic potencies with marked success, which has been repeated by many others. Hansen mentions as having been cured with Syzyg. "old ulcers of skin, probably of a diabetic foundation."

No other remedy causes in so marked degree the diminution and disappearance of sugar in the urine. Great thirst, weakness, emaciation. Very large amounts of urine, specific gravity high. Prickly heat in upper part of the body, small red pimples itch violently.

Clinical

Diabetes. Ulcers.

Comments

Dudgeon relates this case: A scientific man, 56, complained of "prickly heat" all over upper part of body and arms. The skin was covered with small red papules, which itched so intensely he could get no rest.

There was much thirst and great flow of urine, which he was obliged to pass every two hours, night and day, mouth very dry. Urine 1036, very saccharine.

Syzyg. tincture, mixed with three times the quantity of alcohol, was given of this two drops every three hours.

PAGE 1671

Tabacum

(tobacco)

Pharmacy

Tab. Tabacum. Nicotiana tabacum. Tobacco. N. O. Solanaceae. Tincture of the fresh leaves collected before the flowers are developed. Historical dose: Tincture and all potencies, 3x to 30c and higher potencies.

History

Tobacco, though widely used as snuff, for smoking and for chewing is used as medicine in homeopathy. Nicotiana tabacum received its specific name from Jean Nicot, French ambassador to Portugal, who was the means of introducing the tobacco plant into France about 1560.

When Columbus and his followers landed in Cuba in 1492 the practice of smoking tobacco was in common use among the natives throughout the island and also throughout the continent of America. On their return to Spain the practice rapidly spread throughout the Peninsula.

Sir Walter Raleigh and his companions introduced the practice into England in 1586. From that time the cultivation, manufacture and use of tobacco, either by smoking, snuffing or chewing, rapidly became popular. **Planets:** Mercury, Moon.

Homeopathic

Tabacum has a nausea, giddiness, deathly sinking, vomiting, icy coldness and sweat with the intermittent pulse, are all most characteristic. Complete prostration of the entire muscular system. Collapse. Seasickness, cholera infantum, cold, but wants abdomen uncovered.

Vigorous peristaltic activity. Diarrhea. Produces high tension and arteriosclerosis of the coronary arteries. Constriction of throat, chest, bladder and rectum. Pallor, breathlessness, hard cord-like pulse. Vagus, sympathetic, cerebro-spinal nerves and heart are prominently affected.

Tab. produces complete prostration and relaxation of the entire muscular system with free secretions, vomiting, profuse sweat, lachrymation, salivation etc.

Constriction of the muscles of hollow organs, throat, bladder, rectum, chest etc. Cramps, then paralysis of bowels, heart etc. Convulsions, head firmly drawn back. Jerking throughout the body. Trembling.

Tab. has marked anti-septic qualities, antidotal to cholera germs. Pains are worse from heat. Excessive emaciation especially of the muscles of back and cheeks. Gait slow and shuffling, unsteady, difficulty in ascending stairs. Angina pectoris with coronary sclerosis and high tension. Seasickness. Faintness. Tetanus. Paralysis of sphincters. Slides in bed. Coughing causes hiccough, stitches in pit of stomach. Symptoms come in paroxysms, are periodical. Gastralgia, enteralgia.

Clinical

Amaurosis. Anemia. Angina pectoris. Anus, prolapsed. Asthma. Backache. Brain, anemia. Brain-fag. Catalepsy. Cholera. Cholera infantum. Color-blindness. Constipation.

Diarrhea. Epilepsy. Esophagus, stricture. Freckles. Glands, enlarged. **Heart**burn.

Heartbeats. Hernia. Hiccough. Idiocy. Itching. Leg, jerking. Lip, cancer. Lung, disorders. Masturbation, effects. Meniere's disease. Morning sickness. Motion-sickness. Nausea. Optic neuritis. Pregnancy. Prostatorrhoea. Rectum, paralysis. Sea-sickness. Speech disorders. Strabismus. Strokes. Tetanus. Toothache. Varicocele. Vertigo. Vomiting.

Causations

Effects of sunstroke. Palliative for bee-stings and mosquito bites.

Modalities

Better when uncovering abdomen, walking. Better cold, open fresh air, cold applications. Better from weeping, vomiting. Worse from motion of boat, riding. Worse lying on left side, causes palpitations. Worse opening eyes, evening, extremes of heat and cold. Worse by pressure. Motion, even the least aggravates. Rising up aggravates. Worse indoors. Worse by stimulants. Music causes pains in ears.

PAGE 1672

Symptoms

MIND

Morose, sensation of extreme wretchedness. Feels very despondent. Discontented. Indifferent. Forgetful, slow perception. Confusion. Mental fag. Idiotic, epileptic idiocy. Silly talk. Feels as if someone were coming to arrest him or murder him.

Abdomen

Coldness in abdomen. Wants abdomen uncovered, it lessens the nausea and vomiting. Painful distentions. Incarcerated hernia. Pressure in hepatic region as from a heavy body. Horrible colic, must shriek with weakness. Intestinal obstruction. Strangulated hernia. Sinking feeling in epigastrium with dreadful faint sense. Retraction of navel, abdominal muscles contracted.

Back

Head drawn back in convulsions. Neck stiff. Emaciation of the muscles of back. Pain in the small of back worse lying, better while walking. Heat down spine.

Chest

Violent constriction of chest. Pain radiates from the center of sternum. Oppression of the chest with anguish. Sticking under sternum with inability to take a deep breath.

Ears

Burning heat and redness of the ears. Nervous deafness. Hyperesthesia to music and loud talking. Hearing music causes pain in the ears. Meniere's disease with feeling of seasickness.

Eyes

Dim sight, sees through a veil. Strabismus. Loss of sight on looking steadily at any white object. Amaurosis, muscae volitantes. Sudden loss of vision without lesion, followed by atrophy of optic nerve. Central color scotoma. **Retina retains the image too long.**

Face

Pale, blue, pinched, sunken, collapsed, covered with cold sweat. (Ars., Verat.) Deathly pale, blue, pinched, sunken. Covered with cold sweat. One cheek hot and glowing, other pale. Spasms of the lower jaw. Pain in maxillary joint worse laughing. Lips retracted. Emaciation of face. Freckles.

Female

In menopausal period and during menses, excessive sense of wretchedness. Morning sickness of pregnancy, nausea and vomiting, patient dreads least movement. Leucorrhoea of serous fluid, worse after menses. Severe itching of the whole body during pregnancy. Retarded and profuse menses.

Head

Periodical sick-headache from fatigue or excitement. Headache better in the open air. Tight feeling as from a band. Secretion from eyes, nose and mouth increased. Headache with nausea and vertigo. Excessive heaviness of head. Sudden pain as if struck by a hammer, worse while passing urine. Hair falls out.

Heart

Angina pectoris with nausea, cold sweat and collapse. Angina pectoris, pain in precordial region. Pain radiates from center of sternum. Tachycardia. Unsteady heart beat. Bradycardia. Acute dilatation caused by shock or violent physical exertion. Precordial oppression with palpitations and pain between shoulders. Violent palpitations, worse lying on left side. (Phos.) Twisting about the heart. Pulse thready intermittent, hard cord like, imperceptible.

Kidneys

Kidney colic, violent pain along ureter, left side. Kidney pain with cold sweat, deathly nausea. Paralysis of sphincters, urine dribbles. Bedwetting. Urine yellowish-red with increased secretion. Inflammation of the orifice of the urethra.

Limbs

Feebleness of arms. Finger tips fuzzy. Cramps in single fingers worse washing. Formication. Legs and hands icy cold, limbs tremble. Paralysis following a stroke. (Plb.) Gait shuffling, unsteady.

Lungs

Difficult, violent constriction of chest. Cough followed by hiccough. Cough dry, teasing, must take a swallow of cold water (Caut., Phos.) Dyspnea with tingling down left arm when lying on left side.

Male

Nocturnal emissions. Impotency. Hyperesthesia and neuralgia of penis. Frequent erections. Flow of prostatic fluid.

Genital organs flabby, no erections or little sexual desire. Varicocele. Masturbation and its consequences.

PAGE 1673

Mouth

Profuse salivation. Spits much with other complaints. Dryness of the mouth and tongue with violent thirst. Tongue feels swollen. Frothing from the mouth. Swelling of glands under tongue. Speech difficult. Weak interrupted speech. Drawling, monotonous style of reading.

Nose

Frequent sneezing. Secretion increased. Burning sensation and tingling in the nose. Diminished power of smell. Dryness and obstruction of nose.

Rectum

Constipation with rectum paralyzed, prolapsed. Involuntary watery or thick curdled stools like sour milk. Cholera infantum. Diarrhea, sudden, watery with nausea and vomiting, prostration and cold sweat, discharges look like sour milk, thick, curdled, watery. Rectal tenesmus.

Sensations

As if struck by a hammer on right side of head. As if a band round head. As if brains were being bored out. As if black dots filled visual field. As if ears were closed. As of a plug in esophagus. As if throat influenced by a hand. As if sea-sick. As if stomach were relaxed. As if chest too tight. As if a crowbar were twisted round heart.

Skin

Itching over the whole body. Itching as from flea or insect bites. Eruption of itching pimples or vesicles with yellow serum and red areola.

Sleep

Disturbed sleep at night with fright. Nightmares. Stupefying sleep at night. Insomnia with dilated heart with cold, clammy skin and anxiety. Urgent inclination to sleep, especially after a meal and towards evening with frequent yawnings.

Stomach

Sense of relaxation of stomach with nausea. (Ip.) Seasickness, terrible faint, sinking feeling at pit of stomach. Deathly nausea and violent vomiting, worse least motion, better uncovering abdomen.

During pregnancy with much spitting. Vomiting of fecal matter. Retching. Acidity. Incessant nausea, worse smell of tobacco smoke (Phos.) Gastralgia, pain from cardiac end extending to left arm.

Temperature

Chills with cold sweat. Icy cold skin. Heat down spine of one cheek internal. Sudden cold sweats with chill, angina pectoris, kidney colic etc. Coldness and shivering, sometimes with chattering of teeth. Chilliness after eating and drinking. Perspiration at night. Cold sweat in hands, on forehead and face.

Throat

Naso-pharyngitis and tracheitis, Hemming, morning cough, sometimes with vomiting. Hoarseness of public speakers. Violent constriction of throat in angina pectoris.

Vertigo

Excessive vertigo with copious sweat (cold) worse on opening eyes. Vertigo on opening eyes, sick headache with deathly nausea, periodical.

Comments

M. E. Douglass in the Homeopathic News of 1897 wrote about the "medicinal uses" of Tobacco and it seems that it is regarded as a perfect panacea by the Virginians for diseases of men and cattle.

One use he mentions is as a palliative for bee-stings and mosquito bites. A portion of a leaf is moistened with vinegar and applied to the part. This is interesting, as Ip., one of the antidotes of Tab., has a similar reputation. Strong tobacco-juice is the most effectual destroyer of the burrowing-flea, Chigoe.

For headache leaves of Tobacco are moistened with vinegar or camphor solution and applied to the forehead and nape. The pain is allayed and sleep induced. The local application over the pit of the stomach relieves nausea.

Douglass has used small doses of vinegar in acute symptoms of nicotine poisoning, either chewing or smoking with excellent results. Nothing, he says, relieves the sensation of constriction of the esophagus so quickly as vinegar.

PAGE 1674

There is violent rectal tenesmus and there is also paralysis and prolapsed anus. The bladder sphincter is paralyzed, there is debility of urine and bedwetting.

The power of Tab. to paralyze sphincters and also morbid constrictions accounts for its traditional use in cases of strangulated hernia and obstruction of the bowels, which has been confirmed in homeopathic practice. Kidney colic comes under the same heading.

The same pair of opposites, relaxation and constriction are seen in the weakness and paralysis on the one hand and the convulsions on the other. All shades of nervous tremors, faintings, cramps, jerkings and restlessness are noted and it is by its power of antidoting these conditions that Tab. holds its place in society.

This is a central nervous action and if too much indulged leads to degeneration of nerve tissue, as seen in tobacco blindness. Tab. also produces a condition like brain-fag inability to concentrate thoughts, this may even go on to a state of idiocy. Silly talking in boys.

The nutrition is profoundly influenced by Tab. and it probably retards growth in children. It produces a deathly sinking and craving at the stomach and it is no doubt by virtue of

this, acting homeopathically, that Tab. enables persons who cannot have proper meals to endure starvation better than they otherwise would.

Boger cured this with Tab. 100,000c: Backache persistent, worse lying down, better walking, history of angina-like attacks.

In cases of cholera, sea-sickness, sickness of pregnancy, kidney colic, strangulated hernia.

The keynote symptoms are: deathly nausea, pallor, coldness, icy cold surface, covered with cold sweat, vomiting violent, as soon as he began to move, better on deck and in fresh air. Terrible faint, sinking feeling at pit of stomach.

Terry cured a case of sea-sickness with heat along spine from nape down, cold sweat, then vomit.

He also cured a case of Meniere's disease with a feeling as if sea-sick. A keynote symptom of much importance in many abdominal cases is: better by uncovering abdomen. Child wants abdomen uncovered, it better nausea and vomiting. There may be coldness of the abdomen at the same time. Tab. produces a number of skin affections with itching.

Teste cured with it several cases of freckles, he repeated the remedy and gave it for weeks at a time:

"A country girl had her face and hands covered with freckles, two-thirds of which disappeared completely [under Tab.] in summer, the season in which they are most frequent and obstinate." Burnett told me that an infusion of tobacco is a popular German remedy for scrofulous glands. Cooper gives as an indication, "intermittent heart in old people."

C. W. was troubled with spasm of lower jaw, worse out of doors. No remedy did good until he remained one evening with two friends who were smoking and got himself well saturated with the smoke. That cured him. Slight subsequent returns were always removed by Tab.

J. W. Scott observed a case of epileptiform convulsions brought on by tobacco. For five months the patient had two attacks weekly and they grew worse in spite of treatment until the tobacco habit was discontinued.

Compare

- (1) Calad., Daph., Lob. and Plantago - cause aversion to tobacco.
- (2) Nicotinum.
- (3) Ars. - chewing tobacco.
- (4) Ign. - aversion to tobacco smoke.
- (5) Sep. - neuralgia and dyspepsia), Lyc. impotency.
- (6) Nux-v. - bad taste due to tobacco.
- (7) Phos. - tobacco heart, sexual weakness.
- (8) Hydrobromic acid, Camph., Verat., Ars.

Relations

Antidote: Vinegar, sour apples. Camphor in the physiological antagonist.

PAGE 1675

Tamus communis

(ladies' seal)

Pharmacy

Tam. Tamus communis. Black Bryonia. Ladies' Seal. N. O. Dioscoreaceae. Tincture of fresh root. Tincture of the berries. There are two species, T. communis and T. cretica.

Historical dose: Tincture and all potencies.

Herbal

The Greeks use the young suckers of both like asparagus, which they much resemble. T. communis is the Black Bryonia of our hedges. "The root is very great and thick oftentimes as big as a man's leg, black without and very clammy or slimy within, which having been scraped with a knife, it seems to be a matter fit to be spread upon cloth or leather in manner of a plaster of sear-cloth" (Gerarde).

Dioscorides, according to the same authority, says the fruit or berries take away sunburns and other blemishes of the skin and Gerarde adds that these "very quickly waste and consume away black and blue marks that come of bruises and dry beatings: which thing also the roots perform being laid upon them." **Planets:** Saturn.

Homeopathic

The fruits steeped in gin are a popular remedy for chilblains. The only use that Tamus has says of the root-plaster that it removes scars and deformities, softens harden tissues. (Thiosin.) Tam. draws forth splinters and heals broken bones, dissolves congealed blood. If laid on hip or knuckles or any other part where there is great pain, it takes away the pain speedily.

Clinical

Chilblains.

Boericke. Clarke.

Tanacetum vulgare

(tansy)

Pharmacy

Tanac. Tanacetum vulgare. Tansy. N. O. Compositae. Tincture of the fresh plant in flower. Potencies of the oil. Historical dose: Tincture and all potencies, tincture to third potency.

Herbal

The word Tansy is derived from immortality with its deep-yellow button-like flowers, a close companion of the Rag-wort (Senecio Jacobea) on our commons and in our hedge rows, takes a not unimportant part in giving color to the landscape.

In olden times puddings were made containing Tansy leaves and these puddings were called "tansies" also. "In the springtime are made with the leaves hereof newly sprung up and with eggs, cakes or tansies, which be pleasant in taste and good for the stomach. For if any bad humors cleave there unto, it does perfectly to concoct them and scour them downwards" (Gerarde).

Gerarde also says that the seeds kill and expel worms of every sort, the root is good in gout and being drunk with wine Tan. relieves pain in the bladder and dysuria when a man is only able to urinate by drops.

Hale mentions as having been cured with Tanac.: Amenorrhea, dysmenorrhea, menorrhagia, uterine cramps and metritis. In one instance it caused a large abscess of the labia majora. Hale says a crystalline acid identical with Santonin has been isolated from it. **Planets:** Moon.

Homeopathic

Tanac. has an abnormal lassitude, a nervous and tired feeling. "Half dead, half alive feeling" all over. It is of use in chorea and reflex spasms due to worms. Tanac. is said to be a specific against effects of poison ivy.

Tanac. induces all the cardinal features of rabies: convulsions, frothy, bloody mucus in the air passages, hallucinations, convulsions without loss of consciousness, opisthotonos, spasms of pharynx, larynx and the thorax. Abundant salivation, excitability, tendency to bite, hoarse cry, diminished sensibility and mobility, momentary paralysis.

PAGE 1676

Clinical

Abortion. Amenorrhea. Chorea. Dysmenorrhea. Epilepsy. **Eyes**, sclerotica inflamed. Hydrophobia. Labia, abscess. Paralysis. Strabismus (right inward). Worms.

Modalities

The symptoms were worse at night and at 4 a.m. Suddenness is a characteristic of a number of the symptoms.

Symptoms

MIND

Irritable, sensitive to noise. Mental fatigue, nausea and vertigo, worse in a closed room.

Abdomen

Dull pains in the right hypochondrium, sharp in left. Sharp sticking pains in whole umbilical region.

Back

Severe attack of lumbago all one evening. Constant dull ache in loins.

Ears

Stitches in internal ear. Ears seem to close up suddenly. Her own voice sounds strange in her ears. Roaring, ringing in ears.

Eyes

Sclerotic congested, dark purple glassy-looking. Eyes open, very brilliant, pupils equal, widely dilated, immovable. Pupils contracted. Slight inward squint, right eye. Lids agglutinated in morning. Dull aching in eyeballs.

Face

Features seemed fixed, giving an expression of deep solemnity. Fullness of head and face. Face dusky, flushed, cheeks bright red.

Female

Dysmenorrhea with bearing-down pains, tenderness, drawing in groins. Menses suppressed, later, profuse. Miscarriage in the early months of pregnancy.

Head

Heavy, dull, confused. Headache with least exertion. Weariness in head. Dull, frontal headache with cutting in temples.

Heart

Feeble heart-action and all signs of impending dissolution. Pulse increased in force and frequency, feeble.

Kidneys

Urine caused slight scalding. Constant desire. Marked diuresis, must rise in night to urinate. First suppression, then profuse flow. Urine is very fetid, high-colored increased.

Limbs

Numbness and sensation as though arms and legs were suddenly swelling. Prickling, coming and going, over limbs and along spine with flashes of heat. Cold numbness over limbs, going on to paralysis.

Lungs

Breathing laborious. Hurried, stertorous respiration. Frothy mucus obstructs the air-passages.

Mouth

Tongue white coated, feels rough. Mouth, blood-stained, frothy. Flat insipid taste.

Nose

Profuse secretion of mucus in nose with fluent coryza. Dryness of nostrils.

Rectum

Pain in bowels, relieved by stool. Desire for stool immediately after eating. Dysentery.

Sensations

As if something closed the ears very suddenly. His own voice sounds strange in his ears. As though arms and legs suddenly swollen. Sensation like a thrill all through body.

Stomach

Thirst. Constant belchings, tasting of the oil. Belchings of sour air at night. Nausea and vomiting. Faint and sick at stomach. Drawing cutting pains in epigastrium many times.

Temperature

Surface cool and moist. Feeling of warmth diffused over whole abdomen. Cold, clammy sweat.

Throat

Roughness of throat. Feeling in throat as if one could cough all the time. Unable to swallow.

Comments

Like Senec., Tan. has an action on the female generative organs and a large proportion of the observations with it have been on women who have taken it to procure abortion. Other effects are from its use as a vermifuge and in addition to these are provings by Burt and others.

In Russia Tan. has a reputation as a remedy for hydrophobia. M. Peyraud has even used Tan. as a substitute for Pasteurian "vaccinations," and reports success.

W. H. Pierson observed a woman who took two drachms of the oil to procure abortion. The attempt failed, but throughout her pregnancy she suffered from mixed tonic and clonic convulsions.

Frothing at the mouth, clenched hands, thumbs turned in, followed by exhaustion and a short coma.

PAGE 1677

Since then Pierson treated every case of epilepsy which came to him with drop doses of the fluid extract of Tan. four times a day and with marked success.

Tanghinia venenifera

Pharmacy

Tang. Tanghinia venenifera. N. O. Apocynaceae. Trituration of the seed. Historical dose: Tincture and all potencies.

Herbal

Tanghinia, the Tanghin or Tanquen of Madagascar is the only representative of its genus of Apocynaceae. The fruit of the tree is ellipsoid, between two and three inches long, having a smooth, purplish skin tinged with green, containing a hard stone surrounded by a thick fibrous flesh.

The part used as an ordeal is the seed, which is pounded and a small piece is swallowed by the person to be tried. Those in whom it causes vomiting escape. Those whose stomachs retain it are quickly killed and their guilt is held proven. **Planets:** Moon.

Homeopathic

Tang. has a general weakness, even complete paralysis is produced, death being preceded by spasmodic movements of fingers and toes. Numbness is a common symptom. The vomiting is intense and distressing and is accompanied by anxiety and weakness.

Great debility and anxiety with the vomiting. Numb feeling over whole body. Numbness of the hands. Staggers if attempts to walk is unable to support his own weight and falls down helpless and paralyzed.

Symptoms

MIND

Conscious to the last without delirium. Delirium occasionally occurs. Stupor. Lies as if asleep and when roused answers like a drowsy man and then relapses into former condition. Anxiety with the vomiting.

Clinical

Paralysis. Vomiting.

Limbs

Hands numb. Death preceded by spasmodic movements of fingers and toes.

Mouth

Numbness, tingling in mouth and fauces.

Rectum

Purging and urination (purging is a bad symptom and the worse the more urgent it is).

Stomach

Vomiting intense, distressing and repeated, first of contents of stomach, then of bile and mucus.

Vertigo

Giddy, staggers.

SOURCES

Clarke.

Tannicum acidum

(tannicum acidum)

Pharmacy

Tann-ac. Tannicum acidum. Tanninum. Tannic acid. There are two forms of tannic acid, Gallo-tannic acid, derived from nut-galls and Querc-tannic acid, derived from healthy leaves and bark of the oak. The former is the most used. Trituration. Solution in rectified spirit. One-half per cent solution. Historical dose: All potencies.

History

Tannin or Tannic acid of which Gallic acid is a derivative, has produced effects on healthy persons and on several taking it for diarrhea. Mostly used locally against excessive secretion of mucous membranes to contract tissue and check hemorrhage.

Planets: Moon.

Homeopathic

The chief effects of Tann-ac. were the production of a state of leathery dryness of mouth and intestinal canal, a condition like ileus and a very aggravated state of constipation.

Corrects fetor of the perspiration. Obstinate nervous coughs. Hematuria. Obstinate constipation. Pain in abdomen, sensitive to pressure.

Intestines can be felt like cylindrical enlargements. Weakness. Constipation. Ileus.

PAGE 1678

Symptoms

Abdomen

The intestines could be felt like cylindrical enlargements through walls of abdomen.

Ileus. Colic. Abdomen is sensitive to pressure but not distended.

Food

Loss of appetite. Thirst.

Heart

Palpitations.

Kidneys

Urine scanty, dark-colored.

Mouth

Tongue white, dry. Leathery dryness of mucous membrane of mouth and intestinal canal.

Rectum

Painless and bloody discharge from bowels. Obstinate constipation, lasted eight days, only dissipated on the ninth day by two drops of Croton oil. Foul stools.

Stomach

Vomiting. Obstinate vomiting of bilious substances. Painful sensation in epigastric region and abdomen. Violent pains in stomach.

Taraxacum officinale

(dandelion)

Pharmacy

Tarax. *Taraxacum officinale*. Dandelion. *Leontodum taraxacum*. N. O. Compositae. The mother tincture is prepared from the whole plant when in flower. Historical dose:

Tincture and all potencies, tincture, 3x to 30c potency.

Herbal

Taraxacum's chief traditional uses are as a remedy for jaundice, liver obstruction in dysentery involuntary emissions and in difficulties in passing water. The young leaves of the Dandelion are sometimes eaten in salads. They have a bitter chicory like taste, as also has the root.

Children eat the flowers, although they are supposed to cause bed-wetting. This has given rise to one of the popular names of the plant. Treasury of Botany writes: "the bright-yellow flowers of *Taraxacum* open in the morning between 5 and 6 o'clock and close in the evening between 8 and 9.

Hence this was one of the plants selected by Linneus to form his floral clock." The first provings were done by Hahnemann and his pupils. The symptom of the tongue looking like a map was observed by Langhammer. Hahnemann's provings brought out these leading symptoms: "Painless urging to urinate," and "frequent urging to urinate with copious discharge of urine."

Hahnemann points out that this with the thirst, may indicate *Tarax.* in some cases of diabetes. Hahnemann's dosage was a single drop of the tincture. **Planets:** Jupiter, Venus.

Homeopathic

Tarax. has caused pains in both splenic and liver regions and has cured jaundice with enlarged indurated liver. Affinity for the liver and bladder. A symptom in connection with disordered digestion, which has proved a good guide for *Tarax.* in some cases is the "mapped tongue." The tongue is coated white and clears off in patches, leaving dark red very sensitive spots.

Tarax. acts well in all disorders of the liver, sour taste, darting pains in outer parts. A bilious remedy. Heaviness in the liver region. *Tarax.* is for gastric headaches, bilious attacks with characteristically mapped tongue and jaundiced skin. Hysterical tympanites. Cancer of bladder. Flatulence.

Feeling of sickness and exhaustion inclined to sit or lie down. Stitching pains. Affections in left upper side, right lower side, back of foot, sole of foot. Hands and nose cold at 8 p.m. Cold finger-tips is a guiding symptom.

Muscular pains with shuddering and muscular prickling. Sensation of weakness and uneasiness throughout body with constant necessity to lie down or to sit. Copious,

frequent urination. Almost all symptoms appear while the patient is seated and are dissipated by walking.

PAGE 1679

Clinical

Ague. Bilious attacks. Cancerous conditions. Debility. Diabetes. Gallstones. Headache, gastric. Hepatitis. Jaundice. Liver disorders. Neuralgia. Night-sweats. Rheumatism. Tongue, mapped. Typhoid fever.

Modalities

Better from touch. Better from moving, when walking. Better in open air. Burning in throat is better by drinking. Worse while lying down. Worse from fat food. Worse while resting. The symptoms of Tarax. are worse at night.

Symptoms

MIND

Apathy, lack of reactions, little zest for work. Impatient and irritable. Memory weak. Depressive, morose, sad condition. Irresolution and dislike to labor. Constant muttering to himself. Shuns labor, but after beginning works well. Inclined to talk, laugh and be merry. Depression.

Abdomen

Stinging abdominal pains. Sharp stitches in left side. Sensation of bubbles bursting in bowels. Tympanities, hysterical. Pinching in abdomen. Pressive shootings in abdomen and sides of abdomen, in left side of the hypogastrium. Grumbling and movements in abdomen, as if bubbles were bursting in it.

Back

Tearing pain from ear down to neck. Sternomastoid muscle very painful to touch. Pressive jerkings and shootings in muscles of neck, (throat) and nape. Pressive and tensive shootings in back and loins, when lying down with obstructed respiration. Pressing, stinging in spine and sacrum with dyspnea. Vibration and quivering in right scapula.

Chest

Pressure at chest. Shootings in chest and sides of chest. Jerkings in muscles of sides.

Ears

Shootings in ears. Drawing pain in external ear. Stinging, rending pains in the ears.

Eyes

Pain in eyes, as if a grain of sand were in internal canthus. Aversion to light. Burning and stinging pains in the eyes. Burning left eyeball. Inflammation of eyes. Lachrymation and photophobia. **Nocturnal agglutination of lids.** Feeling of sand in the eyes.

Face

Purulent pimples on face, cheeks, alae nasi and (r.) commissures of lips. Sensation of heat and redness in face. Shootings and pressure in cheeks. Upper lip cracked.

Female

Menses suppressed.

Food

Loss of appetite. Bitter taste in mouth with natural taste of food. Salt or acid taste of food, principally of butter and of meat. Tobacco smoke is very disagreeable, causes heartburn and interrupts respiration. Great chilliness after drinking or eating.

Head

Heavy and numbing headache. Stinging pains in the head and face. Neuralgic headaches. Headaches due to liver disturbances. Vertex feels very hot. Sensation of great heat on top of head. Drawing pain in left temple while sitting, ceasing when walking or standing. Tearing pain in occiput. Headaches, as from contraction or expansion of brain. Lancinations in forehead and temples. Violent headache, felt only when standing or walking. Tension of scalp.

Kidneys

Frequent desire to urinate with copious urine. Urination painless urging. Frequent desire to urinate, pressure without pain with profuse emission. Bedwetting during sleep.

Limbs

Muscular pains with shuddering and prickling in the muscles. Dull, joint pains. Heaviness of the legs, ameliorated by walking. Pressive pains in loins. Very restless limbs. Finger tips cold. Jerking pain in calf (right) better on touch. Tearing pains in limbs. Limbs painful tenderness of all limbs when touched. Neuralgia of knee, better pressure. Toes burning.

Liver

Deficiency of the liver and the bladder. Chronic cholecystitis. Jaundice, gallstones. Pain in the region of liver and spleen. Liver enlarged and indurated. Hepatitis with jaundice. Sensation of heaviness in the liver region.

Male

Pain in testes. Permanent erections. Frequent pollutions, on alternate nights.

Mouth

Acid saliva in mouth. Salivation with sensation as if larynx was pressed shut. Tongue, coated, mapped. Taste, bitter, sour. Tongue covered with a white film, feels raw, comes off in patches, leaving red, sensitive spots. Tongue dry, loaded with a brown coating on waking in morning.

PAGE 1680

Perspiration

Sweat on falling asleep. Profuse night-sweats, mostly before midnight, when just going to sleep. Very debilitating perspiration, causing biting on the skin.

Rectum

Bilious diarrhea. Stools white. Inefficient urging to go to stool. Constipation following an abundant expulsion of feces. Diarrhea. Evacuations often, but accomplished with difficulty, even if stool is soft. Feces of the consistence of pap, followed by tenesmus.

Voluptuous itching in perineum.

Sensations

As if brain was constricted. As if teeth were set on edge. As if larynx were compressed. As if bubbles were forming and bursting in abdomen. As of rolling and gurgling in right scapula. As if limbs were bound or powerless.

Skin

Unhealthy, pimply, sycotic skins. Stinging on skin. Eruptions over body and limbs itching severely and appears to be a mixture of lichen and urticaria. Profuse night-sweats. Biting in skin with sweat.

Sleep

Sleepiness and going to sleep while listening to a scientific discourse. Sleepiness in daytime and yawning while sitting. Vivid unremembered dreams, frequent waking and tossing.

Stomach

Gastric bilious attacks. Nausea, as after an excess of greasy food. Bitter taste and belchings. Bitter risings, belchings and hiccough. Empty risings, especially after drinking. Nausea with inclination to vomit or vomiting from very fat food with anxiety and pressive headache, better in open air.

Teeth

Toothache with drawing pain in carious teeth, extending to eyebrows. Pressive pains in teeth. Teeth set on edge as from acids.

Flow of acid blood from decayed teeth. Bluntness of teeth. Hawking up of sour mucus, causing teeth to feel dull.

Temperature

Chill in open air. Chilliness after eating and drinking. Chilliness, shiverings, all over with pressive headache. Finger tips cold. Heat at night on waking, especially on face and hands. Heat without thirst in face in toes.

Throat

Hawking up of acid mucus. Sore throat with pressive pain, as from internal swelling. Dryness, shootings and bitter mucus in the throat.

Vertigo

Vertigo with giddiness and staggering when walking in the open air.

Comments

Cooper gives the following case: An old Indian officer, when in India, suffered much from gall-stones and was advised to take dandelion infusion every day. This he did and soon the symptoms left him and he remained free from them for over twenty years.

Some leading indications are: Gastric and bilious attacks, especially gastric headaches, the headaches are generally pressive. Pressure in lower occiput after lying down is characteristic. Debility, loss of appetite, profuse night-sweats, especially when convalescing from bilious or typhoid fever. Restlessness of limbs in typhoid. Sweat between toes.

Compare

(1) In gastric and bilious affections, Bry., Chel., Hydr., Nux-v.

(2) Mapped tongue, Ars., Nat-m., Ran-s.

(3) Restlessness of limbs with tearing pains, Rhus-t.

(4) Chel.- Tongue dry, yellowish with red edges, retains the imprint of the teeth. Epigastric pain, spreading to the lower corner of the right shoulder blade. Pressing sensation in the hepatic region.

(5) Bry. - Dryness of the mucous membranes, acute, stinging pains, aggravated by movement. Intense thirst, stubborn constipation.

(6) Nux-v. - Impatient, sleepy after meals, sensation of a weight in the stomach, constipation with empty urging.

Relations

Compatible: Ars. (night-sweats).

PAGE 1681

Tarentula cubensis

(cuban spider)

Pharmacy

Tarent-c. The Cuban tarentula. Tarentula cubensis. Mygale Cubensis. Aranea peluda. N. O. Araneidae. Tincture of whole spider. Historical dose: All potencies, sixth to thirtieth potency.

History

Hering states "The Mygale Cubensis, which may be called the Cuban Tarentula, also found in South Carolina and Texas is a larger spider of a dark brown color, less poisonous and covered with more hairs than the Tarentula Hispanica" . **Planets:** Mars, Saturn.

Homeopathic

Tarent-c. affects the cellular tissues. It is useful in septic conditions, when incubation is slow, but further progress is rapid with alarming prostration, atrocious burning or sharp stinging pains, board like hardness of affected part and copious sweat.

Tarent-c. is a remedy for pain of death, soothes the last agony. Restless feet. Intermittent septic chills. Bubonic plague, as a curative and preventive remedy especially during the period of invasion. Bubo.

Adapted to the most severe types of inflammation and pain, early and persistent prostration. Various forms of malignant suppuration. Itching, especially about genitals. Purplish hue and burning, stinging pains. Diphtheria with intense fever and numb aching pains. Carbuncles. Bluish abscesses, painful. Felon. Malignancy. Paralysis then convulsions. Gangrene.

Clinical

Abscess. Carbuncle. Chorea. Convulsions. Delirium. Diphtheria. Felon. Fever. Gangrene. Headache. Intermittents. Meningitis. Paralysis.

Modalities

Better from tobacco smoking. Worse from cold drinks, exertion, night.

Symptoms

MIND

Nervous restlessness. Anxiety. Delirium.

Back

Itches across kidney region.

Female

Pruritus vulvae.

Head

Headache. Fullness in head. Meningitis. Dull ache on top of head.

Shooting pain through left eye across frontal region.

Kidneys

Cannot hold urine on coughing. Retention of urine. Urine hot, thick.

Limbs

Hands tremble, turgid with blood. Fidgety feet. Unsteady gait.

Lungs

Spasmodic difficulty of breathing. Shattering cough, whooping cough.

Rectum

Diarrhea.

Skin

Red spots and pimples. Feels puffed all over. Carbuncles, burning, stinging pains. Purple discoloration. Gangrene. Abscesses, where pain and inflammation predominate. Scirrhus of breasts. "Senile" ulcers. Pungent burning.

Sleep

Drowsiness. Sleep restless. Sleep prevented by harsh cough.

Stomach

Feels hard, sore. Loss of appetite, except for breakfast. Tendency to vomit.

Temperature

Pungent heat of surface.

Vertigo

Dizziness after heat and hot perspiration.

Comments

The Tarent-c. bite is painless, the person is not sensible of it until next day, when an inflamed pimple is found surrounded by a scarlet areola from the pimple to some other part of the body a red erysipelatous line is seen, marking the line followed by the spider over the skin after biting.

This pimple swells, the inflamed areola spreads, chills and fever set in with copious sweat and retention of urine, the pimple becomes a hard, large. Exceedingly painful abscess, ending by mortification of the tissues over it and having several small openings, discharging a thick, bloody matter containing pieces of tissue, fascia and tendons. The openings by growing run into one another, forming a large cavity, at this period the fever takes the intermittent type with evening exacerbations.

In two cases in delicate children, the bite proved fatal, but the majority recover in from three to six weeks. The chief uses to which Tarent-c. has been put are: (1) Carbuncle, even to sloughing with great prostration and diarrhea.

PAGE 1682

(2) Intermittent fever with evening exacerbation. A keynote symptom is "atrocious pains."

A case of chorea in a girl of twelve is reported cured with Tarent-c. 6c. The movements were confined to the left side and occurred chiefly at night, when Tarent-c. was prescribed.

Compare

(1) Ars., Pyrog., Crot-h., Echi., Antr., Bell., Apis.

(2) in intermittents, Aran-d.

(3) Carbuncle, Anthr., Lach., Sil.

SOURCES

Boericke. Clarke.

Tarentula hispanica

(spanish spider)

Pharmacy

Tarent. *Tarentula hispanica*. Spanish tarentula. *Lycosa tarentula*. N. O. Araneidae.

Tincture of the living spiders. Historical dose: All potencies, sixth to thirtieth potency.

History

The name *Tarentula* covers a number of poisonous spiders, but in homeopathy, unless distinguished, it refers to *Tarentula hispanica*, *Lycosa tarentula*. Nunez is our chief authority. He instigated the proving and collected much outside information bearing on the action of the poison.

"Tarantella" is a dance named from the city of Tarentum. "Tarantism" is a dancing mania, set up in persons bitten by the *Tarentula* or in those who imagine themselves bitten. The cure is music and dancing. These symptoms give a keynote indication to this remedy.

Homeopathic

Tarent. affects the nerves which are highly strung, producing remarkable nervous

symptoms, hysteria, chorea, many times reflex from generative sphere. **Heart**, spine, respiration and right side are also prominently affected.

Nervous phenomena, hysteria with chlorosis, Chorea, dysmenorrhea, spinal irritability. Bladder tenesmus. Constriction sensation. Extreme restlessness, must keep in constant motion even though walking aggravates. Hysterical epilepsy. Intense sexual excitement. Formication.

Symptoms of Tarent. appear suddenly with violence. The patient is restless, fidgety, hurried in constant motion, though walking worse. Rolls on ground from side to side or strikes vehemently with his feet or rolls the head and rubs it to relieve her distress.

Quivering, jerking, trembling, twitchings. Joint pains. Headache with pain in uterus, throat with eye pains, face pain with stomach pain, pain in the ear with hiccough. Music causes excitement. Pains from sexual excitement. Tickling, burning, scorching and numbness are prominent sensations.

Tarent. has violent pains, neuralgias, as if thousands of needles were pricking. Deep septic conditions, abscess, evacuates pus rapidly. Noma. Emaciation worse face. Can run better than walk. Irregular movements. Numbness with prickling. Emaciation, as if the flesh fairly fell off the bones. Cancer, fibrous tumors.

Clinical

Angina pectoris. Bites, spider. Callosities. Chorea. Coccyx, pain. Cornea, opacity. Cystitis. Depression. Diabetes. Diphtheria. Dysmenorrhea. Fibroids. Headaches. Hiccough. Hysteria. Insanity. Intermittents. Kleptomania. Levitation. Locomotor ataxia. Mania. Meniere's disease. Migraine. Nosebleeds. Onanism. Ovaries, enlarged. Parkinson's disease. Physometra. Proctalgia. Pruritus pudendi. Quinsy. Septic diseases. Sexual mania. Spinal irritation. Spinal sclerosis. Tumors. Uterus, cancer, neuralgia. Vertebrae, tumors.

Causations

Ill effects of unrequited love, bad news, scolding, punishment, falls, sepsis.

Constitutions

Tarentula hispanica is suited to nervous, hysterical patients subject to chorea disorders to persons of foxy, mischievous and destructive tendency to chorea disorders when whole body or right arm and left leg are involved. **Planets:** Mars, Moon.

Modalities

Better in open air, music, bright colors. Better from pressure, rubbing affected parts. Better from relaxation, sweating, smoking. Better from riding in a carriage in the sun. Motion improves headache, aggravates uterine pains and pains in coccyx. Warm water improves. Rest aggravates. Worse periodically, yearly, at the same hour. Worse touch, cold, damp. Worse night, evening. Worse after menses. Sex aggravates. Worse motion, contact, noises, seeing others in trouble. Worse washing the head, hands in cold water.

PAGE 1683

Symptoms

MIND

Sudden alteration of moods. Destructive impulses. Aversion to colors, black, red, yellow, green. Dances up and down. Sensitive to music. Fits of nervous laughter then screaming. Suddenly changing moods, fancies or strength. Lacks control. Erratic. Impulsive. Moral depravity. Crafty, cunning. Selfish.

Destructive, destroys whatever she can lay hands on, tears her clothes etc. Foxy, cunning. Hateful. Adroit. Throws things away. When there are no observers, there is no hysteria, when attention is directed to her, she begins to twitch. Feigns fainting insensibility. Desire to strike herself or others.

Laughs, mocks, runs, dances, makes gesters and jokes. Cries and sings until hoarse or exhausted. Kleptomania. Angry with despair. Give to Tarent. to palliate the death pains and agony. Melancholy. Discontented. Mental symptoms better evening after eating. Averse to company, but wants someone present. Ungrateful.

Abdomen

Burning in hypogastrium with great weight interferes walking.

Back

Painfully sensitive spine touch excites pains in chest, heart etc. Coccygodynia better standing worse slightest movement touch. Tumors around vertebral column.

Ears

Snapping, cracking in ears, (right) with pain and hiccough. Noises, ringing as of bells worse on waking in the morning.

Eyes

Itching of the eyes with thick tears. Stitching in eyes as sand or thorn. Photophobia. One pupil dilated other contracted. The eyes are wide open spasmodically and staring. Sees ghosts, faces, flashes.

Face

Fiery red, bloated. Expression of terror. Wrinkled.

Female

Dry, hot raw, itching vulva and vagina, worse scratching. Menses early. Profuse menstruation with frequent erotic spasms. Pruritus vulvae after menses. Dysmenorrhea with very sensitive ovaries. Ovaries, sensitive to pressure. Profuse menses with erotic spasms. Violent nymphomania, worse sex. Sensation of motion in uterus like a fetus or

burning. Expulsion of gas from uterus. Cancer of cervix. Leucorrhoea of clear acrid, sticky lumps.

Food

Craving for sand or raw food. Aversion to meat, bread. Thirst for cold water.

Head

Intense pain, as if thousands of needles were pricking into brain Heavy pain in temples extending to face and neck with nausea and impatience. Violent crushing headaches as accompaniment. Wants hair, brushed, pulled or head rubbed. Meningitis. As if cold water were poured on head and body.

Heart

Palpitations, precordial anguish, sensation as if heart twisted and turned around. Twists around, takes sudden jumps. Trembling and thumping of heart as from bad news or fright. Diseases of heart worse by wetting hands in cold water. Chorea with arm symptoms.

Pulse, hard infrequent, irregular.

Kidneys

Urine foul with sandy sediment. Incontinence on laughing, coughing etc. Diabetes Mellitus. Polyuria.

Limbs

Cold moist feet and hands. Restless arms, keeps hands busy, picks fingers. Legs restless, impulse to walk. Chorea movements. Can run better than walk. Yawning with uneasiness of legs, must move them constantly. Festination.

Numbness of legs. Multiple sclerosis with trembling. Twitching and jerking.

Extraordinary contractions and movements. Weak legs, cannot plant them firmly, do not obey will. Kneeling difficult. Soles itching.

PAGE 1684

Lungs

Attacks of suffocation with crying, screaming and restlessness, must have fresh air, worse coughing. Cough, gagging, when expectorating, fatiguing, worse after sex, noise, better smoking.

Male

Extreme sexual excitement. Lasciviousness almost to insanity, worse sex. Prostatic ailments after masturbation. Seminal emission hot, bloody. Sensitive genitals. Indolent tumors of testicles.

Mouth

And teeth dry. Tongue drawn backward preventing speech.

Nose

Nosebleed better throbbing carotids and fullness in head.

Rectum

Stools, oily, black offensive, excited by washing head. Severe constipation, not relieved by purgatives or enema. Constipation with involuntary passing of urine on coughing or any effort.

Sensations

As if thousands of needles were pricking into brain. As if occiput were struck with a hammer. As of a hair in eye. As if lower teeth were going to fall out. As if heart turned

and twisted round. As of needles sticking into muscle of neck when touched. As of insects creeping and crawling.

Skin

Purplish. Ecchymosed spots. Cold spots or as of a cold matter flowing or dropping on part. Carbuncle. Deep abscesses. Helps evacuation of pus. Dry eczema (after the failure of Ars. and Sulph.) itching, as of insects creeping and crawling.

Sleep

Sleepless before midnight from excitement. Dreams sad with weeping.

Stomach

Gastric disturbances are accompanied by sympathetic pains in head, face, teeth etc. Bitter belchings, hysterical. Vomits all food eaten.

Temperature

Alternate chill and heat. General heat with cold feet. Septic fever. Sweat profuse, excoriating.

Vertigo

Vertigo, night, when descending stairs. Vertigo, worse carrying burden on head, then spasms.

Comments

Here are two illustrations from Clarke: (1) Girl, three months old, was bitten by a tarentula. She appeared at first uneasy, then exhibited Dyspnea and complained, showed signs of suffocation, vomited, was agitated and much convulsed. Music was played, movements of the limbs were set up, whence resulted profuse sweat, followed by sleep and complete recovery.

(2) Francis Mustel, a peasant, was bitten by a tarentula on the left hand, about the middle of July, as he was gathering corn. He went home with his companions but on the way fell as if struck by a stroke. Dyspnea followed and face, hands and feet became dark. Knowing the remedy, his companions fetched musicians.

When the patient heard their playing he began to revive to sigh to move first his feet, then his hands and then the whole body, at last getting on his feet he took to dancing violently with sighing so labored that the bystanders were almost frightened. At times he rolled himself on the ground and struck it vehemently with his feet. Two hours after the music began the blackness of his face and hands went off, he perspired freely and regained perfect health.

Every succeeding year at the same season the pain and attending symptoms returned, but less violently and they could always be averted by music. But if the imminent paroxysm was not averted in time, he was found by his friends struck down as at first and was restored in the same way.

These cases bring out some of the cardinal features of Tarent. (1) Dark red or purplish coloration and swelling of skin and tissue. (2) Apparent imminent choking. (3) Chorea movements, restlessness. (4) Better by music. Music at first excites then it subsequently relieves.

PAGE 1685

(5) Periodicity, deep action returning annually on the date of the bite.

The restlessness is particularly noted in the lower limbs with desire to cry: must keep moving about though walking worse all the symptoms. Many of the mental symptoms,

which almost exhaust the protean range of hysteria, were in connection with sexual disorders, sighing, yawning, laughing and crying, joking and profound melancholy.

The unceasing movements of twitching, jerking, dancing Ñ are the most constant features. There is hysterical hyperesthesia: the least excitement irritates, followed by languid sadness, great excitability of nerve endings, tips of fingers extremely sensitive, feels sore and bruised all over, worse moving about, spinal irritation, slightest touch along spine causes spasmodic pain in chest and heart regions.

Farrington gives among the mental symptoms: "When there are no observers there is no hysteria, when attention is directed to her she begins to twitch," and "cunning attempts to feign paroxysms of wild dancing."

The chorea of Tarent. is most marked on right side The neuralgias of Tarent. may be anywhere in the head they are of great intensity: "as if thousands of needles were pricking to the brain." They are worse by noise touch, strong light, better by rubbing head against pillow. "Better by rubbing" is a keynote Condition of Tarent. "Ends of nerves become so irritated that some kind of friction is necessary in order to obtain relief. "Constrictive headache with pain in uterus.

P. C. Majumdar reports this case: Girl, 18, had oppression of chest, suffocating sensation, continued jerking and movement of hands, foam at mouth, complete insensibility, profuse and delaying menses, very sleepy. Hysterical epilepsy was diagnosed. Ign. 30c did nothing. Tarent., 200c, brought her out of the fit and restored her completely in a few minutes. But Tarent. is not a hysteric remedy only.

C. M. Boger cured a case of irritative cough with Tarent. 30c: Mr. B., 41, sore all over, throat feels dry, cough lying down at night and in morning after rising, dry with tearing pain in chest, excited by pressure of phlegm in chest, feels short of breath for at least an hour after each coughing attack, only better from smoking. Bad taste evening. Three doses cured.

Diphtheria tonsillitis of an intensity to threaten suffocation, cystitis, septic and intermittent fevers have been successfully met in Tarent. on its indications.

In Med. Ad., a case of hyperesthesia of finger-tips is mentioned. The patient, a lady, 33, could not dress herself without gloves. The irritation caused at once a sensation in the teeth as if set on edge by a strong acid. The pain was not in the fingers. Tarent. gave relief after Asar., Gels. and Sul-ac. had failed.

Farrington relates a case of typhoid in a child cured by Tarent. The child rolled its head and bit its nightgown. Apis. and Agn. improved. Tarent. slightly aggravated at first, then rapidly improved.

PAGE 1686

Tartaricum acidum

(tartaricum acidum)

Pharmacy

Tart-ac. Tartaricum acidum. Tartaric acid. Trituration. Solution. Historical dose: All potencies, third trituration.

History

Found in grapes, pineapple, sorrel and other fruits. Tart-ac. is an anti-scorbutic anti-septic, stimulating the mucous and salivary secretions. **Planets:** Moon.

Homeopathic

Tart-ac. has an extreme weakness. In evening feels very tired, can scarcely drag himself along. General bruised sensation, especially of lower limbs. Convulsions just before death.

Clinical

Gastritis. Heels, pain.

Modalities

All the symptoms were better in open air. The pasty taste is better after eating.

Symptoms

Abdomen

Pain around umbilicus and region of loins. Pain in umbilical region. Pinching below navel with emission of flatulence, cold feeling in abdomen.

Face

Face instantly became red as fire and having exclaimed that he was poisoned, became speechless, died on tenth day (drank 2 oz. in solution). Lips, turn brown and black on their inner edges. Constant dryness of lips, must moisten them continually. Burning of lips.

Food

Excessive thirst. Very urgent thirst.

Heart

Very weak action of heart. Feeble pulse.

Limbs

Sharp pain in region of loins. Paralysis of thighs and legs. Tearing pains at soles, near the heel, which prevents him setting his foot on the ground after luncheon.

Lungs

Breathing accelerated, then laborious and slow.

Mouth

Teeth set on edge. Brown and dry tongue. Taste, pasty in morning, ceases on eating.

Rectum

Many stools during night. Stools like color of coffee grounds.

Sleep

Yawning and stretching. Frequent yawning.

Stomach

Dyspepsia with copious secretion of mucus. Belchings. Nausea. Vomiting is repeated and almost continuous. Continued vomiting with burning in throat and stomach. Vomited, deep green matter.

Temperature

General cold feeling, evening in bed.

Throat

Hoarseness and scraping in larynx. Burning sensation in throat and stomach as if on fire.

Vertigo

Confusion in head, dizziness.

Comments

A proving by Nenning and some poisonings have furnished the pathogenesis of Tart. ac. One of the most marked symptoms was intense burning in throat and stomach, feeling "as if on fire." Tongue brown and dry. Almost constant vomiting, vomited matter of deep green color. Feces coffee-ground color. Difficult respiration. Dullness and lassitude. Great weakness with diarrhea with dry and brown tongue. Pain in heels. (Phyt.)

Paralytic debility: "Weakness in the evening, can scarcely drag himself along." This should prove useful: "Tearing pain on the soles of the feet, near the heel, which prevents him putting his foot on the ground after luncheon."

Taxus baccata

(yew)

Pharmacy

Tax. *Taxus baccata*. Yew. N. O. Coniferae. Tincture of the fresh young shoots. Tincture of the berries. Historical dose: Tincture and all potencies, tincture to third potency.

History

The poisonous properties of the Yew have been recognized and disputed from ancient times. Gerarde says that in his school days he and his companions ate their fill of the berries of the Yew and slept not only under its shade, but on its branches without any ill effect. But there is plenty of evidence on the other side.

PAGE 1687

In the Med. Press, May 29, 1901, a patient of Mullingar Asylum died suddenly from eating Yew leaves. Some years ago a correspondence in the Times brought to light instances of the lethal effects of Yew leaves on cattle.

One correspondent, Mr. James Simmons of Haslemere, mentions an observation made by himself and others, that Yew leaves are more poisonous some time after they have been cut than when fresh:

"Yew cropped green from the tree has no fatal effect," and animals do not eat it fresh, they prefer grass, but if Yew has been cut and allowed to wither cattle will eat it in large quantities and in that state it is deadly poison."

"My people," says Mr. Simmons, "once buried some Yew cuttings deep in the dung of a farmyard, a number of large hogs dug it up, ate it and all died." **Planets:** Saturn.

Homeopathic

Taxus baccata is for pustular diseases of skin and night-sweats. Also in gout and chronic rheumatism. Pains in the knees, elbows and back. Slight tremor over whole frame.

Trembling. Convulsions. Fainting and collapse. Relaxation of muscles.

Clinical

Ciliary neuralgia. Cystitis. Digestion too rapid. Dysuria. Ear, polyps. Eruptions. Fainting.

Gout. Hair, loss. Headaches. **Heart** disorders. Kidneys disorders. Knees, abscess.

Lachrymation. Nose, eruptions. Rheumatism. Purpura. Spermatorrhea. Strangury. Vision, dim.

Modalities

Rubbing improves the itching of eyelids. Worse by pressure. Coughing causes headache. Deep breathing causes cough. Worse before and after each meal. Worse by application of liquids. Worse after sex.

Symptoms

MIND

Impatience, which unfits the patient for mental application. Delirium. Stupor.

Abdomen

Tension in abdomen, as if the stomach were overloaded. Squeezing and tension across abdomen. Aching in umbilical region. Borborygmi.

Back

Drawing pain in muscles of neck, (left). Sacral pains, which allow no rest either in a standing or sitting posture and which compel the patient to remain in bed. Incisive pain in sacrum. Constant pain in back. Pain in shoulder-blade, which subsequently removes to loins.

Chest

Oppression, when stomach is either too full or too empty or else with pain below xiphoid cartilage. Sharp pain in left side. Lungs engorged. Chest full and hot.

Ears

Polyps in the ears.

Eyes

Pupils widely dilated. Drawing with lachrymation and pressure. Itching of external angle of left eye. Burning itching in eyelids. Lachrymation of left eye. Vision dim.

Head

Supra-orbital and temporal pain on right side with lachrymation.

Heart

Irregular action of heart. Pulse rapid, slow, feeble, small, wiry, almost imperceptible.

Face

Puffy and pale. Looks ill. Face livid, convulsed. Lips are purplish, livid, black brown, especially upper. Frothing at mouth.

Food

Violent hunger. Frequent want to eat with activity of digestive functions.

Kidneys

Cutting pain at base of kidneys which allows him neither to sit still nor stand up and even prevents turning in bed. Urinary tenesmus. Frequent want to urinate with difficult emission in a fine stream. Strangury, urine red.

Limbs

Numbness of limbs and paralysis after several sweats. Sharp, transient, wandering pains. Lancinations in hand. Burning dryness of palms of hands. Dull pain in joints of fingers. Rheumatic pain in fingers. Abscess at right knee. Contusive and incisive pain, which hinders walking. Violent pinching in left calf. Tingling crawling sensation in whole left foot.

Lungs

Violent and fatiguing cough. Short cough after every meal, excited by full inspirations with oppression.

PAGE 1688

Male

Flow of semen without erection or sexual pleasure for several successive nights. Great excitement during sex. After sex, weakness and great oppression.

Mouth

Sensation of coldness in teeth. Burning pricking on tongue. Tongue excoriated, moist, tremulous. Mouth dry. Saliva hot, acrid. Saliva increased, extremely viscid, acrid. Bitter taste like that of Cinchona.

Nose

A round spot of a reddish-brown color, on the end of the nose with desquamation of skin.

Rectum

Hard, difficult, dry evacuations. Occasionally a stool which is soft or of a natural consistence. Diarrhea with insupportable tenesmus and burning at every evacuation.

Skin

Large, flat, itching pustules. Badly smelling and offensive night-sweats. Peculiarly offensive sweat with eruption of vesicles. Podagra. Erysipelas. All hairy parts become denuded. Black jaundice. Skin red. Body covered with pustules. Miliary eruption. Eruption of large pimples. Dry tetter causing much itching.

Sleep

Sleeplessness during whole night, yawning without inclination to sleep.

Stomach

Feeling of emptiness, must eat frequently. Violent hunger, soon after breakfast with general uneasiness and weakness in region of stomach. Aching, burning and pinching in region of stomach. Pain in pit of stomach and region of navel. After eating, cough. Feeling of pins and needles at pit of stomach. Nausea with accumulation of saliva. Retching. Vomiting ending in death. Vomit, tenacious, containing bile.

Temperature

Perspiration from least exertion with great prostration of strength. Profuse night-sweats. Commencing with shivering followed by dry heat of hands and feet. Offensive viscid sweats with itching and redness.

Comments

The symptoms of the Tax. pathogenesis are made up of poisonings by leaves and berries and also of provings by Gastier.

Fainting is a very prominent feature with Tax. and the fatal cases and in convulsions, collapse and syncope.

Death from Yew poisoning, says Cooper is remarkably painless. "Empty feeling" in the stomach was prominent and it was noted that the digestion was very rapid. "Must eat frequently" is a characteristic. Gastric catarrh is set up with vomiting of tenacious mucus. The saliva is increased and it also is viscid and there is viscid sweat. An intense action on the skin was developed and Tax. is indicated in pustular skin affection, the pustules being large, flat and strongly itching.

On the suggestion of Cooper, Clarke once gave a single dose of Tax. tincture in a case of ear polyps (bright red) with catarrh in a youth with the result that the polyps shriveled up to one-third of its former size.

The shooting pains in the toes suggest the use of Tax. in gout. The kidneys and bladder were much irritated and the heart disturbed. Tax. has been recommended as a substitute for Dig., being considered superior to the latter in having no cumulative effect.

Tela araneae

(spider's web)

Pharmacy

Tela. Tela araneae. Araneae tela. Spider's web. The Cobweb of black spider found in barns, cellars, dark places. Tincture or trituration. Historical dose: Tincture and all potencies.

History

The Spider's web has been used as a remedy from ancient times. Tela araneae has been experimented with on healthy persons. It very rapidly lowers the frequency of the pulse rate. In some it has produced:

PAGE 1689

"a calm and delightful state of feeling, followed by a disposition to sleep. The most delicious tranquillity, resembling the action of opium and followed by no bad effects."

Twenty grains given to an old and infirm asthmatic produced "slight but pleasant delirium." Muscular energy is increased, could not be kept in bed, but danced and jumped about the room all night.

In cases of febrile depression, deficient animation or indifference to surrounding objects, the exhibition of eight or ten grains of cobwebs was often followed by exhilaration: the eyes sparkled. The countenance assumed a temporary life and, though the course of the disease might not be changed or the danger averted, more respite was obtained than is gotten from wine, opium or anything else within my knowledge.

"In spasmodic disorders of various kinds in asthma in periodic headaches in general restlessness and muscular irritability, its good effects are often signal. The cobweb gives sleep, but not by narcotic power, tranquillity and sleep here appear to be the simple consequence of release from pain and irritation." **Planets:** Mercury, Moon.

Homeopathic

Tela araneae acts on arterial system. The pulse is full, strong, and compressible. Lowers pulse rate frequency. Cardiac sleeplessness increased muscular energy. Excitement and nervous agitation in febrile states. Dry asthma, harassing coughs, periodic headaches with extreme nervous weakness. Obstinate intermittents.

Masked periodical diseases, hectic, broken down patients. Symptoms come on suddenly with cool, Clammy skin. Numbness of hands and legs when at rest. Continued chilliness.

Clinical

Asthma. Intermittents. Sleeplessness.

Comments

Dr. Chapman writes of Tela araneae: "I have cured some obstinate intermittents, suspended the paroxysm of hectic fevers.

Overcome morbid vigilance from excessive nervous mobility and quieted irritation of the system from other causes and particularly as connected with protracted coughs and other chronic pectoral disorders."

Dr. Gillespie of Edinburgh, "cured an obstinate intermittent with cobweb after other means had failed."

Dr. Jackson writes: "I think I may venture to say that it prevents the recurrence of febrile paroxysms more abruptly and more effectively, than bark or arsenic or any other remedy employed for that purpose with which I am acquainted: that like all other remedies of the kind, it is only effectual as applied under a certain conditions of habit, but that the condition of susceptibility for cobweb is at the same time of more latitude than for any other of the known remedies."

"If the cobweb," says Dr. Jackson, "was given in the time of perfect intermission, the return of paroxysm was prevented, if given under the first symptoms of a commencing paroxysm, the symptoms were suppressed and the course of the paroxysm was so much interrupted that the disease, for the most part, lost its characteristic symptoms.

If it was not given until the paroxysm was advanced in progress the symptoms of irritation, viz., tremors, startings spasms and delirium, if such existed as forms of febrile action, were usually reduced in violence, sometimes entirely removed. In this case sleep. calm and refreshing, usually followed the sudden and perfect removal of pain and irritation.

Vomiting, spasms and twisting in the bowels, appearing as modes of febrile irritation, were also usually allayed by it, there was no effect from it where the vomiting or pain was connected with real inflammation."

The changes induced on the existing state of the system, as the effect of its operation, characterize it as powerfully stimulant:

PAGE 1690

(1) Where the pulses of the arteries are quick, irregular and irritated, they become calm, regular and slow. After the cobweb had passed into the stomach: the effect is moreover accompanied, for the most part with perspiration and perfect relaxation of the surface.

(2) When the pulses are slow, regular and nearly natural they usually become frequent small, irregular, sometimes intermitting. (3) Languor and depression characterize the disease, sensation of warmth and comfort are diffused about the stomach and increased animation is conspicuous in the appearance of the eye and countenance.

Dr. Jackson likewise effected perfect cures with it in some troublesome spasmodic disorders and gave it with the most marked benefit in dry, irritating coughs, usually termed nervous. In the advanced stage of tuberculosis it procured a respite beyond his expectation. He also found it useful in restraining a troublesome hiccough.

Remembering the fame of *Mygale avicularia* in chorea we may well expect this other spider to be of use "in some troublesome spasmodic affections."

Dr. Thatcher cites the following case from a paper of Dr. Jackson's: "W. Sands has been afflicted for many years a distressing asthma, which has proved fatal to his father and two sisters. The complaint being hereditary and aggravated by malformation of the thorax, no remedy gave any permanent relief, nor did change of climate procure any alleviation of symptoms.

For a considerable time back he has never been able to lie down in bed on account of a sense of suffocation, but is obliged to be supported half sitting by pillows and is seldom able to sleep.

He swallowed nearly a scruple of the spider's web, he swallowed it at bed time and to his utter astonishment enjoyed sound and uninterrupted sleep all night, a blessing to which he had been an entire stranger above six years.

Since he began with the cobweb thinks his health is improved, the cough has entirely abated, but whenever the remedy is omitted the complaint returns."

Dr. Oliver found that by the use of this remedy a patient laboring under organic disease of the heart and hydrothorax obtained great relief and refreshing sleep, who had not before slept for three nights.

Another, under similar affection, experienced uncommon relief from the same prescription. To one suffering much pain from cancer it afforded ease and comfortable sleep.

A patient in tuberculosis pulmonalis being affected with distressing agitation of mind and nervous irritation, it answered like a charm and soon induced great sleep like a moderate dose of opium.

Anshutz. Boericke. Clarke.

Tellurium metallicum

Pharmacy

Tell. Tellurium metallicum. Tellurium. An element. Trituration of the precipitated element. Historical dose: All potencies, 6x to 30c.

History

Tellurium occurs in the native state and in combination with gold, silver, lead and antimony. It resembles Sulphur and Selenium in its chemical reactions. Tellurium is an element situated between antimony and iodine in the Periodic Table and belong to group VI, between sulphur and selenium. It was discovered in a gold mineral by the Austrian Muller in 1782.

The proving was conducted by Hering in about 1850 on fourteen provers, using the low potencies. A new proving was established by Raeside in London. He conducted a Homeopathic proving on seventeen provers, eleven women and six men.

The provers took the remedy night and morning for fourteen days and it would seem that the potencies 6x and 6c produced the maximum symptoms. **Planets:** Saturn.

PAGE 1691

Homeopathic

The most notable feature of the Tell. proving was the irritation of the skin including skin of eyelids and ears of spinal column and of some nerves. A characteristic form of the skin irritation of Tell. is herpes circinatus and it has probably cured more cases of ringworm, especially of the face and body, than any other remedy.

Tell. has restlessness and pains all over body. Very sensitive back. Lassitude. Afraid, cannot bear to be touched on sensitive areas. Sacral and sciatic pains. Offensive discharges. Ringworm. Slow development of symptoms. (Rad-br.).

Persistent fetid body odor. Chronic fetid suppuration from the ear. Slight amnesia with frontal headache. Dryness of the skin and mucous membranes. Vesicular, burning, itching eruptions. Itching, urticarial or macular eruption. Heavy perspiration from the feet, extremely foul-smelling. Pain in the cervical, right lumbar and sciatic regions.

Clinical

Axilla, offensive sweat. Barber's itch. Cataracts. Conjunctivitis. Coryza. Eczema. Entropion. Eruptions. Eye inflammation. Foot-sweat, fetid. Gleet. Herpes. Hoarseness. Injuries. Levitation. Pityriasis versicolor. Post-nasal catarrh. Ringworm. Sacro-iliac, pain. Sciatica. Spinal irritation. Worms. Yawning.

Causations

Falls. Injuries. Eating rice causes vomiting. Eating and drinking improve sore throat.

Modalities

Better lying on back. Worse by touch, spine sensitive to touch. Worse while at rest at night, cold weather from friction, coughing, laughing, lying on painful side. Worse in morning, on being wakened and at night, eating causes drowsiness.

Symptoms

MIND

Neglectful and forgetful. Fear of being touched in sensitive places. Excitable, disposed to

MIND

fly into a passion. Rough and angular disposition. depressed. Forgetful and incapable of mental activity. Serene and gay, then impatient and irritable. Amnesia inability to fix the memory on immediate events. Depressive psychosis.

Abdomen

Fullness and oppression in hypogastrium, her dress must be loosened. Pressing first left then right side as from wind. When lying on left side, throbbing under right ribs and vice versa. Pinching in abdomen. Frequent spasmodic pains in bowels as from incarcerated wind, mostly from 5 to 9 p.m.

Back

Weak feeling in back. Pressing ache in scapula. Numbness in nape and occiput. Pain from last cervical to fifth dorsal vertebra, very sensitive to pressure and touch. (Chin-s., Phos.) Sensitive spinal column with coughing, straining and at night. Pain in sacrum. Vertebral pain going from the 7th cervical to the 5th dorsal vertebra. Afraid of any movement and of anyone approaching. Neck pain, spreading to the neck, shoulder and between the scapulae. Lumbar pain spreading to the right thigh, ameliorated by walking.

Breasts

Cutting around and in left nipple, through to scapula. Eruption about nipple.

Chest

Pain in the sternum, aggravated by deep breaths and by bending. Pressure in middle of chest under sternum, better in open air. Shooting in left chest, fifth rib. Feeling as if some fluid is pressing downward in of right lung.

Ears

Eczema behind ears with formation of thick crusts. Catarrh of middle ear. Discharge acrid, smells like fish-pickle. itching, swelling, throbbing in meatus. Fetid, irritating discharge, smells of brine from the ear, especially the left ear. Dull, throbbing pain in ears, day and night, thin, watery, excoriating discharge. Vesicular eruption on the eardrum, suppurating and perforating.

Deafness. Throbbing pain in meatus. Chronic mastoiditis. Buzzing, ringing in the ears. Ache in the left ear. Chronic suppurating otitis. Otitis after scarlet fever.

PAGE 1692

Eyes

Pustular conjunctivitis with eczema on lids and much purulent discharge from eyes. The eyelids are thickened and inflamed, with pustules, pale red, edematous and oozing. Deposit of chalky-looking white mass on anterior surface of lens. Cataract, following ocular lesions, aids the absorption of infiltrations in iris and choroid. Herpes conjunctivae, phlyctenules near edge of cornea, worse from crying. Feeling as if lashes of lower lid were turned in.

Face

Heat in face. Sudden flushes of redness over face. Distortion and twitching in left facial muscles, left corner of mouth drawn up when talking. Burning in lips. Ringworm on face, barber's itch. Pimples on face.

Female

Shooting deep in pelvis across to left. Menses too early in menopausal years. Pre-menstrual colic in lower abdomen. Menses painful and late. Long intervals between menses.

Food

Craving for apples. Craves fatty bacon, salt, bread during the evening, cold drinks. Hungry at night, wants an apple in middle of night. Thirsty for cold drinks. Longs for beer. After meals, great drowsiness. After eating rice obliged to vomit.

Head

Periodic headaches. Migraines. Feeling of heat in the head. Heaviness and fullness of head in morning. Pain in left side of head and in forehead above left eye. Sudden rush of blood to head. Congestion to head and nape of neck, followed by weakness and faintness in stomach. Brain feels as if beaten on slightest movement. Itching of scalp, red spots. Violent linear pain in small spot over left eye.

Heart

Dull pain in region of heart when lying on left side, better lying on back. Palpitations with throbbing through whole body and full pulse, followed by sweat. Palpitation with

sensation of thoracic constriction and pain. Pulse rate rapid. **Heart** irregular when lying on the back or right side.

Kidneys

Painful soreness in kidneys, extending downward like a weight, worse morning, making her irritable. Increased urination. High-colored, acid urine.

Limbs

Offensive sweat of armpits, smelling of garlic. Finger-tips feel dead on stretching hand. Rheumatism of right little finger, worse moving it. Sharp, quick pains in elbows, ankles and other parts. Aching all over, mostly in limbs, worse right side and in walking. Contraction of tendons in bends of knees. Weakness of the legs in the morning. Sciatica, right side, worse lying on affected side. Sciatica with sensitiveness of vertebral column. Bruised pain in hip-joints after walking. Feet sweaty, mostly on toes. Fetid sweat of feet.

Liver

Hepatitis and gastritis. Chronic cholecystitis.

Lungs

Coughing on laughing worse aching in small of back. Wakened by cough. Cough towards morning after a few days looser. Wheezing, scraping cough with mucus.

Emphysema.

Male

Herpes on scrotum and perineum. Secondary gonorrhoea. A drop of viscid fluid in meatus. Increased sexual desire, followed by long-lasting indifference. Erections all night.

Mouth

Dryness of the lips and mouth with raw, irritated areas. Ulcerations on the gums tongue, mouth, palate. Gums bleed easily and profusely. Tongue somewhat swollen, furred white, shows print of teeth. Breath has odor of garlic. Coldness of mouth and pharynx on drawing in air. Copious saliva. Tenacious mucus runs from mouth. Taste earthy, metallic.

Nose

Hawks from posterior sinuses dried yellowish-red phlegm tasting salty, mornings. Coryza, lachrymation and hoarseness, better in open air. (All-c.) Nose obstructed, must breathe through mouth. Head cold with running of a blood-streaked liquid accompanied by tears and hoarseness, ameliorated in the open air. Nostrils itch. Boils.

PAGE 1693

Rectum

Itching anus, rectum and perineum after stool. Passes very offensive wind. Passes with stool many threadworms. Stools soft at first, then hard. Spasmodic pains with urging to

stool. Copious stool with feeling of flatulence in bowels. Costive. Tetter on perineum, itching.

Sensations

As if in air on going to sleep. Brain as if beaten. As if lashes were turned in. As if air whistled through left Eustachian tube. As if strapped together in epigastric region. As if fluid wanted to discharge in lobe of right lung.

Skin

Itching of hands and feet. Herpetic spots, Ringworm. (Tub.) Ringworm on face, whole body, worse lower limbs, on single parts. Barber's itch. Stinging in skin. Ring-shape lesions, offensive odors from affected parts. Fetid exhalations. (Sulph.) Offensive foot-sweat. Eczema, back of ears and occiput. Circular patches of eczema. Small red pimples, very bright red and very sharply defined with minute vesicles upon them. Psoriasis. Skin dry, hot. Scrofulous eczematous eruption. Itching worse in cool air.

Sleep

Insomnia with unpleasant dreams. Wakes with a start during the night. Yawning and belching. Drowsy after a meal. Sleepless, restless turning from weariness and bruised feeling. At night pains all over. On going to sleep feels as if in air, quick drawing towards feet awakens him.

Stomach

Empty and weak feeling. Belching with taste of food eaten. Sensation of weakness, like faintness in the stomach after local congestion of blood to head and nape, also with chest symptoms.

Heart burn with warmth in stomach as from alcohol. Fullness in pit of stomach, must lie down after dinner. Constrictive feeling in stomach as if strapped together.

Temperature

Inner shivering and fever, fetid, repulsive sweating, forcing him to be alone. Chilly with pains. Sweat on face, on spots with increased itching of these places often throbbing through whole body, generally warm, while sitting in a cool breeze. Skin hot and dry, sensation as if overstrained, as if bruised, as if he had taken cold after severe exertion.

Throat

Hoarseness in morning with fluent coryza, a rough, pressing, tickling sensation in larynx. Painful dryness of fauces. In morning hawks from back of nose pieces of yellowish-reddish phlegm tasting salt. Rough, scratching sensation in throat, worse towards evening. Throat feels sore with a prickly, rough sensation evening and morning. Throat sore on swallowing, better after eating or drinking. Pain in throat extends into ear.

Vertigo

Vertigo, when going to sleep, morning after rising, worse walking, sitting up or turning head, better lying perfectly quiet.

Comments

Clarke cured with Tell. an Indian officer home on furlough whose body was covered over with a ringworm-like eruption.

The odor of the body and of the sweat is offensive and garlic-like. The prover had to sit apart from the rest of the class during a whole session on account of this. In parts where the skin forms openings, as the ear, the effect of Tell. is intensified.

The characteristic odor of the ear discharge is that of fish brine. The discharge is so acrid it blisters any part of the skin it touches. Tell. is one of the most important remedies in otorrhea.

Nash cured several cases of post-scarlatina otorrhea, using the Tell. 6c, higher potencies having failed.

Eyelids are inflamed and the vesicating property extends to the eye itself, setting up phlyctenular conjunctivitis.

Other parts of the skin affected by Tell. are the hair-roots, the breasts, the perineum and the anus. There is itching in the rectum after stool. Tell. has caused expulsion of threadworms.

PAGE 1694

Skin and nerves are closely allied and Tell. is a remedy in many neuralgic conditions, notably sciatica. The right side is most affected and these are characteristic

Many of the pains and symptoms of Tell. come and go suddenly. The ears are suddenly stopped. There are sudden rushes of blood to the head. Tell. has great sensitiveness to touch. This is shown in the neuralgic hypersensitive state of the spine.

Tell. has also a vulnerary action as shown in a case of Kent's. A boy, 4, slid down banisters and struck his head on a tiled floor. He became unconscious and a surgeon was summoned, who found him in that state and with a clear, watery discharge from the ear, which the surgeon pronounced to be cerebrospinal fluid.

This condition lasted three days and the case had been pronounced hopeless when Kent first saw the boy. Kent noticed that the discharge was acrid and reddened whatever part it came in contact with. One dose of Tell. was given. In two hours the child vomited, a sign of reaction and in two weeks was well.

Shelton relates three cases: (1) Widow, 50, had pain and soreness upper part of back for a long time. She shrank from the slightest touch on the part. The sensitiveness was so acute that when touched the pain extended into the occiput and all over the upper region of the back. Tell. 6c cured in eighteen days.

(2) Miss X., 45, had a fall, striking a severe blow on the sacrum. She suffered for some weeks from concussion with one point of great soreness in the sacral region, just above the spot where the blow was received.

She was kept in bed for some weeks and improved generally, but the painful spot remained and sensitiveness appeared over the back, especially its upper third. Tell. 6c cured all completely.

(3) Miss Y., 29, who had severe spinal meningitis ten years before, consulted Shelton for a burning, pressing pain at base of brain. He diagnosed the condition as meningitis.

The patient grew worse and gradually ptosis and then right and then left hemiplegia set in. Finally hyperesthesia of the back became so distressing that it was a question of finding any support that did not intensify the pain. She could not bear the slightest touch, complaining that it not only hurt her at the point of contact, but she felt it in the head and in remote parts of the body. Tell. cleared up the case.

There is a good deal of drowsiness with Tell., yawning after retching, drowsy after eating. Clarke once gave Tell. to a child for an eruption and cured it incidentally of constant yawning with which it had been troubled. The eruption improved at the same time.

Teplitz aqua

Pharmacy

Tep. Teplitz aqua. The mineral water of Teplitz in Bohemia. Contains in 16 oz. Nat. c. grains 2.28, Nat-m. 43, Nat. fl. Sil. 13, K. sulph. 43, K. mur. 1, Calc. 32, Sil. 31, etc.

Dilution. Historical dose: Tincture and all potencies.

History

The waters of Teplitz are chiefly in repute for the treatment of gouty patients, especially those suffering from atonic gout. The springs are alkaline and hot and the temperature forms a leading feature in their action. **Planets:** Saturn.

PAGE 1695

Homeopathic

The symptoms of Teplitz are from Perutz, who experimented on himself and several healthy individuals, together with symptoms by Hromada. Symptoms of Nat-c. and Nat-m. appear throughout.

Tearfulness, low spirits and irritability were noted and giddiness of much intensity. This symptom has been cured: "Giddiness, when she walks all the houses seem to move too."

Clinical

Amenorrhea. Bones disorders. Breast, tumors. Eruptions. Erysipelas. Flatulence. Gout. Hemorrhoids. Irritability. Leucorrhoea. Metrorrhagia. Nosebleed. Paralysis. Rheumatism. Sciatica. Scurvy. Speech, difficult. Spine, pains. Tongue, paralysis. Toothache. Ulcers. Vertigo.

Modalities

Better by friction. Better drinking cold water. The symptoms are worse at night (bone pains). Worse motion.

Comments

Some peculiar symptoms are: On moving head it seems as if something fell from one side to the other. Burning in stomach, better drinking cold water. Better from hemorrhoid bleeding.

Burning sensation in many parts. Hemorrhage, nosebleed, hemorrhoids with stool, metrorrhagia. Vesicles in mouth and on tongue. Vesicular erysipelas. Paralysis of tongue of limbs. Cold feelings: in upper arm in foot. Increased sensitiveness to cold.

Terebinthinae oleum

(turpentine)

Pharmacy

Ter. Terebinthinae oleum. Turpentine. Oleum terebinthine. Oil of Turpentine. The oil distilled from the oleo-resin (turpentine) obtained from various species of Pinus, purified by repeated rectification with water. Solution in rectified spirit. Ozonized Oil of Turpentine (prepared by exposure of the common oil to sun and air in a half-filled bottle and shaking from time to time).

Historical dose: All potencies, first to sixth potency.

History

Terebinthina was introduced to homeopathy by Hartlaub. The symptoms have been added from poisonings and overdosings from allopathic practice. According to Dr. Taylor, children are particularly sensitive to its action.

Illness caused by sleeping in newly painted rooms is due in great part to the turpentine. "A stimulant and tonic to the mucous membranes, especially of the bladder and urethra: it proves useful in leucorrhoea and gleet." This is Milnes' account of the use of Ter. as an internal remedy.

Homeopathic

Ter. has a selective affinity for mucous membranes of kidneys, bladder, respiration, bronchi, heart and blood. Terebinthinae oleum has a selective affinity for bleeding mucous surfaces. Tympanites and urinary symptoms very marked. Inflammation of kidneys with dark, passive, fetid hemorrhages. Bright's disease preceded by dropsy (Goullon). Unbroken chilblains.

Drowsiness and strangury. Coma. Even minor bumps cause bruises. Aching, soreness and stiffness of the muscles.

Hemorrhage of a passive, black offensive fluid oozing from mucous membranes. Affections of kidneys with rheumatism. Purpura hemorrhagica. Burning in various parts, tip of tongue, epigastrium, small of back, kidney, uterus etc. Exhausted, sensitive and tired. Disturbed sense of equilibrium.

Clinical

Albuminuria. Amblyopia. Asthma. Backache. Bladder, irritable. Brachial neuralgia. Bronchitis. Chilblains. Chordee. Chorea. Ciliary neuralgia. Coma. Cystitis. Dentition. Dropsy. Dysentery. Dysmenorrhoea. Enteric fever. Epilepsy. Erysipelas. Erythema.

Fibroma. Gall-stone colic. Glands, swelling. Gleet. Gonorrhoea. Headache. Hematuria. Hemorrhoids. Hernia. Herpes. Hypochondriasis. Injuries. Insanity. Intestines, ulceration. Iritis. Jaundice. Kidneys, disorders. Lumbago. Nephritis. Neuralgia, supra-orbital. Ovaries, pains, dropsy. Pityriasis. Purpura hemorrhagica. Rabies. Scabies. Scarletina. Sciatica. Spermatorrhea. Strangury. Stricture. Tetanus. Tympanites. Uremia. Urethritis. Urine, retention. Worms.

Causations

Ill effects of alcohol, falls, strains tooth extraction. Damp cellars.

Constitutions

Ter. is specially suited to: Children, dentition, nosebleed, worms. Bleeders. Nervous women with amenorrhoea and dysmenorrhoea, headache. Complaints of elderly people of people of sedentary habits. Chronic rheumatism and gouty complaints. **Planets:** Venus, Moon.

PAGE 1696

Modalities

Better from motion, stooping. Stooping improves. Motion improves. Worse from dampness, cold, night, lying, pressure. Worse by touch. Worse by pressure in region of bladder it causes convulsions. Worse lying on left side, better turning to right. Sitting aggravates. Pain in crest of ilium worse from motion and least jar. Walking in open air aggravates. Worse night, 1-3 a.m. Damp dwellings aggravates. Damp cellar causes diarrhoea. Damp weather causes neuralgia in legs. (Ter. is hydrogenoid.) Cold water better burning in anus. Better belching and passing flatus. Loose stool better nausea.

Symptoms

MIND

Difficult concentration. Intense irritability, children fly into temper during dentition. Coma. Tired and difficult concentration of thoughts.

Abdomen

Ascites. Dropsy, pelvic peritonitis. Bruised soreness. Flatulence. Enormous distention. Tympanities. Bleeding ulcers in the intestine. Bowels were drawn towards spine. Enterocolitis, hemorrhage and ulceration of bowels.

Back

Backache and soreness in kidney disorders. Burning pain in region of kidneys. Drawing in right kidney extending to hip.

Chest

Burning and tightness across chest.

Ears

Disturbed sense of equilibrium. Own voice sounds unnatural, humming as of a seashell. Loud talking is very painful. Otalgia. Sensation in ears as of striking of a clock.

Eyes

Blindness from alcohol. Opens eyes when swallowing in coma. **Eyes** dark red, face red on affected side. Ciliary neuralgia over right eye. Intense pain in eye and side of head. Amblyopia from alcohol.

Face

Pale, earthy, sunken. Hot flushes followed by sweat.

Female

Intense burning in uterine region. Metritis and puerperal peritonitis. Metrorrhagia with burning in uterus. Uterine diseases after wearing pessaries.

Food

Hunger and thirst with debility. Loss of appetite, great thirst. Desire to eat more after a satisfying meal. Diminished appetite. Aversion to animal food.

Head

Dull pain like from a band around the head. (Carb-ac.)

Heart

Pulse rapid, small, thready intermittent. Frightful oppression in precordial region. Warmth in heart while sitting in evening, obliged to yawn a great deal. Palpitations.

Kidneys

Nephritis after exanthemata with violent bronchitis. Burning, drawing pain in region of kidney, along ureters. Cystitis. Bleeding bladder. Constant tenesmus. Strangury with bloody urine. Scanty, suppressed urine, odor of violets. Urine, smoky with coffee grounds or thick, yellow, slimy, muddy sediment. Urethritis with painful excretions. (Canth.)

Pains alternate between navel and bladder, better walking.

Limbs

Hands feel swollen. Cramps in knees. Intense pain along the larger nerves, worse damp weather. Stands with feet apart, has no power of balancing the body. Muscles, stiff. Walks bent like an old man. Brachial or sub-scapular neuralgia. As if pitch forward while walking.

PAGE 1697

Lungs

Bloody expectoration. Difficult breathing, the lungs feel distended, hemoptysis. Bronchitis of children with drowsiness and retention of urine. Bronchial asthma or catarrh with profuse expectoration. Dyspnea.

Mouth

Aphthae from mouth to anus. Breath, cold, foul. Dentition. Tongue dry, red, sore, shining, burning in tips with prominent papillae. (Arg-n., Bell., Kali-b., Nux-m.) Tongue, smooth, glossy. Choking sensation in throat.

Nose

Passive nosebleed in children. Discharge of serum without coryza. Cold in head with sore nostrils with disposition to bleed.

Rectum

Fainting after every stool. Diarrhea, stools watery, greenish, fetid. Bloody stools. Diarrhea with tetanic spasms. Pain before flatus with and relief after stool. Hemorrhage from bowels. Worms, lumbrici.

Sensations

As if he would pitch forward on walking. As of a band round head. As if sand thrown violently in eye. As of a seashell sounding in left ear. In ear as of striking of a clock. As from hasty swallowing in epigastrium. As if he had swallowed a bullet, which had lodged in stomach.

Skin

General sensibility increased. Erythema, itching pustular, vesicular eruption, urticaria. Acne. Purpura hemorrhagica, advancing. Ecchymosis, dropsies. Scalatina. Chilblains with excessive itching and pulsative pains. Aching soreness of the muscles.

Sleep

Drowsiness with retaining of urine. Lethargy. Retarded sleep. Agitated sleep at night with tossing and frequent waking. Many dreams. Nightmares. Wakes frightened at night, looks ghastly and shrieks is nervous.

Stomach

Belchings rancid, flatulent, acrid. Nausea and vomiting with intense burning. Burning in epigastric region. Nausea better loose stool. Aversion to meat.

Temperature

Heat under the skin. Heat with violent thirst, dry tongue, profuse cold, clammy sweat. Cold sweat on legs. Typhoid with tympanites, hemorrhages, stupor, delirium. Prostration.

Vertigo

Vertigo with vanishing of vision.

Comments

Terebinthina is for acute and chronic nephritis. It's one of the main remedies that has protein in the urine or blood in the urine. After inhaling chemicals or exposure to chemicals and there is kidney damage.

Brunton gives these points: (1) Applied to the skin Ter. acts as an irritant and rubefacient, causing a sensation of burning and vesicles if applied for any length of time. (2) Inhaled it causes sneezing, tightness across eyes and Dyspnea.

(3) Given internally it causes burning in mouth and salivation in stomach, sensation of heat or cold, gastro-enteritis with vomiting and diarrhea, ulceration of intestines. The pulse is sometimes slowed, sometimes quickened.

Respiration is quickened and spasmodic, the chemical is partly excreted by the lungs and acts on the mucous membrane, lessening its secretion. The temperature sometimes rises, or falls. Voluntary movement is diminished, reflex action lowered, blood-pressure lowered and vessels dilated.

Ter. diminishes the quantity of urine, gives the urine an odor of violets, causes lumbar pain, burning in urethra, painful urination, hematuria.

Among the uses of Ter., Brunton mentions the treatment of gall-stone colic. For this it is given in ether in the proportion of one part of the Oil of Turpentine to three of Ether. Homeopaths have confirmed the value of this.

Burning is a constant note and gives the key to many cases calling for Ter. burning in gums tongue, tip of tongue, mouth, throat, stomach, rectum and anus, kidneys, bladder and urethra, uterus, air passages, chest and sternum.

PAGE 1698

The last was particularly noticed after warm drinks, the pain running along the sternum with the drink and spreading in the chest. Burning extends from kidneys along ureters.

Ter. is an irritative, sensitive remedy.

Cooper has found Ter. indicated in children (especially teething children) when they fly into passions. There is irritation of the meninges and often ascarides or other intestinal worms. In one case of maniacal fury in a man it did good. This irritability manifests itself in some cases of spasms and convulsions and Lippe observed a case in point.

A woman had made her feet sore by walking and applied turpentine to them. This was followed by a state like hydrophobia, she had spasms whenever she saw water or heard it poured or saw a bright object and also whenever she attempted to urinate.

Ter. is a great hemorrhagic and its hematuria is particularly characteristic: Smoky, turbid urine depositing a sediment like coffee-grounds. Dull pain or burning pain in region of kidneys, burning during urination are leading indications.

Ter. corresponds to many cases of albuminuria and hematuria after scarlatina and also to the consequent dropsy. This last may indicate Ter. in many disorders of the genito-urinary sphere. "Burning in uterus" is very characteristic. Peritonitis, metritis, metrorrhagia will probably need Ter. if the burning is present.

The hemorrhages of Ter. are passive, dark and fetid. Purpura hemorrhagica if there are fresh ecchymoses in great numbers from day to day. The hemorrhages may occur from any orifice.

Additional keynotes of Ter., which will be decisive if combined with others, are: (1) Smooth, glossy, red tongue, as if deprived of papillae. (2) Excessive tympanites. (3) Drowsiness. In capillary bronchitis, the child is drowsy. Stupor and great weakness are found in many

Ter. conditions, rendering it appropriate in cases of typhus, typhoid and uremic poisoning. "Drowsy with retention of urine." With the tympanites there is generally extreme sensitiveness to touch.

With cystitis, urogenital and rectal troubles there is a sensitiveness of hypogastrium and pains in symphysis pubis.

Pains go from left to right across bowels and then shoot upward. From being exposed to turpentine odor, a lady, 35, got pain as from pinchings in the throat with lifeless feeling in the tongue and dryness of the mouth, followed by pain in right eyeball, which extended back to same side of occiput (Cooper).

S. H. Roberts maintains Ter. has a specific effect in tonsillitis when applied externally. Marc Jousset gave Ter. 1x with marked benefit in two cases of bronchial asthma. He was led to give it in the first case by coincident hematuria, but this was not present in the second.

A young man who was badly poisoned by a low potency of Phos. got more relief from Ter. 3x than from any other remedy. Brunton says it is only Ozonized Ter. that is effective here. The preparation I used was the ordinary one.

Dr. Hering says the ozonized oil is recommended as a prophylactic in malarial and African fevers, a few drops being given daily on a lump of sugar.

George Royal gives these three cases illustrating the action of Ter.:

(1) Typhoid, third week in man 24. Extreme distention, with a rapid, small and compressible pulse. Cold sweat in lower limbs.

Ter. 6x two drops in water every half-hour. Oil of Ter. was applied locally to the abdomen mixed with lard and later in the evening, when there was already slight improvement, an injection containing turpentine was administered. This relieved the patient of a large quantity of flatus and next morning he was on the high-road to recovery.

PAGE 1699

(2) Pyemia after miscarriage at third month, brought on by patient herself. Enormous distention, lower limbs covered with cold sweat, lochia thin, scanty offensive. Ter. given

in another case brought about slow improvement for three days, when Chin. 30c was indicated and finished the cure.

(3) Teamster, 36, had severe nephritis after being out in cold rain. Constant desire to urinate, severe pain in back, down ureter to bladder, urine scanty, very high-colored. Temperature 102. Pulse weak, 130. Ter. 6x every half-hour and hot fomentations on kidneys greatly relieved. After three days he was able to leave his bed.

Royal considers cold sweat of lower limbs and rapid pulse with the distention, as leading indications. A keynote of Burnett's for Ter. is: "Pains in the bowels which causes frequent urination."

Sense of anxiety and utter prostration about epigastrium. Umbilical region as if covered with a round, cold plate. Sprained pains, contusive pains and rheumatic pains appear in the pathogenesis and notably pressure and drawing pains. These show the suitability of Ter. to the effects of injury and rheumatic conditions.

Compare

(1) Alumn, Sec., Canth., Nit-ac.

(2) Terebene 1x - chronic bronchitis and winter coughs, sub-acute stages of inflammation of respiratory tract. Loosens secretion, relieves tightened feeling, makes expectoration easy. Neurotic coughs. Huskiness of public speakers and singers.

(3) Cystitis when urine is alkaline and offensive.

(4) Ononis spinosa - Diuretic. Chronic nephritis, diuretic effects like Juniper, calculus, nosebleed, worse washing face.

Tetradymitum

Pharmacy

Tet. The Tetradymite. Tetradymitum. "Rare Tetradymite crystals from North Carolina and Georgia, contain about 60 parts of Bismuth, 33 of Tellurium, 6 of Sulphur and traces of Selenium and Iron." Triturations. Historical dose: All potencies.

History

Hering proved Tetradymite, taking about five grains of the first trituration. **Planets:** Mars.

Homeopathic

The most prominent Tet. symptoms were pains occurring in small spots, ulcerative pains about the nails and a sharp attack of urticaria from eating shell-fish. Pains in ankles, heels and Achilles tendons were also severe and these were worse rising from a seat.

Clinical

Achilles tendon, pain. Coccyx, pain. Nails, ulceration ingrowing. Urticaria.

SOURCES

Clarke.

Teucrium marum verum

(cat thyme)

Pharmacy

Teucr. Teucrium marum verum. Marum verum. Cat-thyme. N. O. Labiatae. Tincture of whole fresh plant. Historical dose: Tincture and all potencies, first to sixth potency.

Locally for polyps, dry powder.

Herbal

The Germander group of the Labiatae to which the Teucriums belong, had an important place in old herbal medicine and homeopathy has placed Teucr. on a firm foundation.

Stapf and others proved it.

Teucr. has removed a fibrous tumor of the eyelid, urethral granulations following gonorrhoea and also uterine fibroids. Worms and polyps suggest a tubercular taint and Clarke has used both Teucr. and Teucr. scorod. in tubercular cases.

PAGE 1700

Homeopathic

Teucrium has strong symptoms of worm infestions, irritation of anus and nose, were elicited and Teucr. has well justified the labor of the provers in this respect. No remedy meets more cases of threadworms than Teucr. Nasal and rectal symptoms marked.

The nasal symptoms have led to the use of Teucr. in nasal polyps. Guernsey gives this as guiding: "Polyps with stoppage of nose on side lain on, large red pimples under right nostril near septum, sore and smarting to touch."

Affections of children. Suitable after too much medicine has been taken. Over sensitiveness. Desire to stretch. A remedy of first importance in chronic nasal catarrh with atrophy, large offensive crusts and clinkers. Nasal polyps. Ozaena. Loss of sense of smell.

Clinical

Anus, itching. Colic. Eyelids, tumor. Fibroma. Hiccough. Ingrowing toenail. Nasal, catarrh. Polyps. Psoriasis. Rheumatism. Urethra, excrescences. Worms.

Causations

Concussion (brain). Injuries likely to set up tetanus.

Constitutions

Teucr. is suited to elderly persons and children. When too much medicine has produced an over-sensitive condition and remedies fail to act. **Planets:** Saturn, Moon.

Modalities

Desires exercise in open air, which does not fatigue. Worse by touch. Worse sitting. Worse stooping. Worse on side lain on. Moving improves. Disinclined for exertion. Worse evening and at night. Warmth aggravates. Worse warmth of bed. Wet weather aggravates.

Symptoms

Abdomen

Cutting pain after drinking beer or water. Colic with tearing drawings. Incarceration of flatus. Pressure in abdomen.

Expulsion of much flatus, having the smell of rotten eggs.

Back

Burning in left scapula. Rheumatic drawing and tension in back.

Chest

Chest loaded, with sensation of dryness in trachea. Squeezing pressure in lower part of chest, with anxious uneasiness, without affecting the breathing.

Ears

Hissing and ringing. Otalgia. Shootings and tearings in ears.

Eyes

Smarting in canthi, lids red and puffy, tarsal tumor. (Staph.) **Eyes** red and inflamed.

Female

Smooth pedunculate, pear-shaped polypus of vagina, protruding three inches beyond hymen.

Food

Hunger in morning and evening. Bitter taste in gullet after dinner. Appetite increased. Sensation of hunger, as if the food were unsatisfying and which hinders sleep. Cuttings or nausea with inclination to vomit after drinking water.

Head

Excited, tremulous feeling. Frontal pain, worse stooping. Strengthens brain after delirium tremens.

Limbs

Affection of finger-tips and joints of toes. Tearing pains in arms and legs. Pain in toe-nails, as if they had grown into flesh.

Lungs

Dry cough, excited by a tickling in trachea, as if dust had been inspired, which is worse by coughing. Moldy taste in throat when hawking up mucus, expectoration profuse.

Male

Sexual desire decreased. Drawing pain behind left side of root of penis, extending to left side of scrotum, became sore to touch. Pressive, drawing sensation from abdomen into cords and testes. Burning, pressing, biting in fore part of urethra when not urinating. Excrescences in urethra following gonorrhoea.

Mouth

Foul breath. Mouth clammy. Much mucus in mouth. Smarting as from pepper, first on left, later also on right side. Smarting in root of the tongue.

Nose

Catarrhal condition of both anterior and posterior nostrils. Mucous polyps. Chronic catarrh, Discharge of large, irregular clinkers. Crawling in nostrils with lachrymation and sneezing. Coryza with stoppage of nostrils.

PAGE 1701

Rectum

Itching of anus and constant irritation in the evening in bed. Crawling in the rectum after stool. Ascarides with nightly restlessness. Copious fetid evacuations of the consistence of pap. Frequent itching and tingling in anus, often after the evacuations. Swelling, itching, and creeping at anus as from ascarides.

Sensations

As if air forced through mucus in ear. As if right nostril were partly stopped. As if nail had grown into flesh of right great toe. Chill as from abdomen. Sensation as from flea bites.

Skin

Itching causes tossing about all night. Very dry skin. Suppurating grooves in the nails.

Sleep

Restless with twitching, choking and starting up frightened. Sleep retarded in evening. Unrefreshing sleep and difficulty in waking in morning. Agitated sleep at night, from excessive excitement. Vivid dreams and frequent starts.

Stomach

Vomiting of large quantities of dark-green masses. Constant hiccough, attended with pain in back. Hiccough on eating after nursing.

Temperature

Shivering and shaking, often with icy coldness in hands, and frequent yawning. Chilliness after eating, and when talking about unpleasant things. Heat worse in evening, with exaltation and great loquacity. Frequent feeling of flushing in face, without external redness.

Throat

Sore throat with shooting pain and impeded deglutition. Pressure or drawing and tearing in throat. Frequent necessity to hawk. Hawking up of much mucus of a moldy taste.

Comments

Clarke gave Teucr. tincture in five-drop doses three times a day to a man of 44 who had tuberculosis affecting the right lung with severe recurrent hemorrhages.

Teucr. helped him much and with other remedies he got quite well and has now been at his work for some years. But while taking Teucr. he noticed that he passed a large quantity of threadworms to which he was not at all subject.

C. M. Boger relates this case of cough: Patient had with the cough a moldy taste in the throat when hawking up mucus. Expectoration profuse. Rapid loss of weight and strength. Anorexia. A brother had died of tuberculosis four years before with very similar symptoms.

Teucr. 3x helped and 20x finished the cure.

Teucr. has the craving hunger of the anti-psorics and worm remedies, it prevents sleep at night. Nervous, irritable, sensitive. There are many rheumatic and gouty symptoms and scapular pains, both in the bones and joints. Limbs go to sleep with tingling when sitting.

Compare

(1) Teucrium scorodonia.

(2) Cina, Ign., Sang., Sil.

Relations

SOURCES

Boericke. Clarke.

Teucrium scorodonia

(wood sage)

Pharmacy

Teucr-s. Wood Sage. Teucrium scorodonia. Wood Germander. N. O. Labiatae. Tincture of whole fresh plant. Historical dose: Tincture and all potencies, 3x potency.

Herbal

Teucrium scorodonia is an extremely bitter plant with the smell and taste of hops, for which it has been substituted. Some have observed an alliaceous smell and Cazin says that it gives a garlicky taste to the milk of cows, goats and sheep which eat it. **Planets:** Mercury.

Homeopathic

Teucr-s. has been used in tuberculosis with muco-purulent expectoration. Also in dropsy orchitis and tuberculous epidymitis, especially in young, thin individuals with tuberculosis of lungs, glands, bones and uro-genitals.

Clinical

Bronchorrhoea. Testicle, tuberculosis. Tuberculosis.

Comments

Dr. Criquelion, tells how Dr. Martiny one day in the Ardennes, had occasion to examine a man of thirty who was apparently in the last stage of consumption and had a cavity in one apex. Martiny gave his opinion that he had not long to live.

PAGE 1702

A year later, being in the same district, he called at the house and inquired of a man whom he saw there, apparently in perfect health, what had become of the invalid. "I am he," was the reply. It was the fact, though it took some time to convince Martiny of it.

An old woman had recommended him to make a tisane of the Wood Germander which grew abundantly about there. He had taken it daily and got well. "A similar case," says Cooper, "was told me by a distinguished scientist.

Martiny introduced Teucr-s. into his practice and used a tisane of it with much success in bronchorrhoea and consumptive disorders with tuberculous elements and muco-purulent expectoration. Clarke has confirmed this, using the tincture in five or ten-drop doses two or three times a day.

Criquelion points out that Teucrium has been used as a subcutaneous injection in tubercular cases as a substitute for Koch's Tuberculin.

Criquelion had a patient, a farmer of scrofulous habit, high color, thick neck, who had for ten years an enlarged testicle the size of a quince, which he diagnosed to be tuberculous.

Teucr-s. 6c was given, one drop in four spoonfuls of water, a spoonful three-quarters of an hour before each meal. After three months the testicle was softer in six months it had almost returned to its proper size.

Compare

(1) Bac., Tub., Teucr., Helix.

Relations

Teucr-s. is allied to Marrubium vulgare (Common or White Horehound), a well-known cough remedy.

Also to Nepeta glechoma (Ground Ivy), which was formerly much used with snail-jelly for chest affections."

SOURCES

Clarke.

Thalamus

Pharmacy

Thala. Thalamus. Nerve-hormonal tissue from brain. Historical dose: All potencies, 3x to 30c.

History

Thalamus belongs to the group of gray nuclei around the encephalon. It is a large ganglion, even and symmetrical, situated in front of and outside the quadrigeminal bodies inside the striped bodies, laterally bordering the third ventricle, surrounded on its convexity by the caudate nucleus. It is egg-shaped and the distal end is large. Hardy conducted a clinical proving, but there is no homeopathic proving.

Homeopathic

Thala. has complaints of the psychological system: spasmodic laughter and crying, consciousness disorders inner sensitivity disorders. Patient misinterprets his illnesses. Pseudo-bulbar paralysis. Neuralgias, cervical and brachial, sciatica. Tabes. Painful stumps. Vasomotor disorders. Parkinson's disease. Pre-cancerous conditions, predominantly painful.

The pains indicated by Thala. are spontaneous, appear suddenly and then immediately reach their peak intensity. The painful sensation is much greater than the stimulus. Exaggerates the pain and makes out it lasts longer than it does. Violent attacks of paroxysm. Pains reside in one half of the body, predominantly of the limbs. Pain accompanied by sweating.

Thala. pains accompanied by phenomena of anguish, ill-defined feeling of uneasiness, painful discomfort. Paraesthesia in the female during the menopause.

Formication, painful numbness situated particularly in the arms and which keeps the patient awake. Tingling, which is always distal and which appears with no apparent cause.

Neuralgia of the left cervical region and arm with formication.

Clinical

Angina pectoris. Catatonia. Contractures. Cyanosis. Hebephrenia. Hyperthyroidism. Menopausal complaints. Neuralgia. Pains. Raynaud's syndrome. Vasomotor complaints.

Constitutions

Thala. has a psoric, syphilitic or tubercular disposition. The subject has a nervous, biliary and lymphatic temperament. **Planets:** Moon.

Modalities

Better by fresh air and movement. The pains are better at night. Worse by the cold, the heat. Worse from emotions, especially unhappy emotions.

PAGE 1703

Symptoms

MIND

Catatonic conditions. State of inertia, desire for solitude and peace, loss of initiative. The patient does not want to do anything. He sits in a corner, immobile. Condition of psychological strain, which causes the feeling of being ill at ease in his body. Hebephrenia.

Spasmodic laughing and crying without any real cause, expressed by involuntary, automatic contracture of the muscles in the face and by mimicry, which is either ill-timed or irrelevant or exaggerated.

Abdomen

Epigastric pain in a continuous transverse bar, not changed by eating, but aggravated by emotion. Pain is diffuse, badly localized. Accompanied by discomfort. Abdominal meteorism ameliorated by emission of wind. Abdominal pains with emission of soft stools.

Chest

He feels as though his thoracic cage were trapped inside an iron corset.

Ears

Hallucinations of hearing with feeling of strangeness and fright. Buzzing in the ears: sound of a bell in the fog or of a foghorn. Noises in the ears. Feeling of confusion in the ears.

Eyes

Sight becomes weaker on one side of the field of vision. Objects seem lost in a halo of light. Diminution of sight on one half of the field of vision.

Female

Frigidity. Libido disturbed: impotence, frigidity, sexual asthenia. Menopausal complaints with hot flashes, aggravated at night. Hyperthyroidism during the menopause with swelling at the base of the neck.

Head

Occipital headaches, worse on the left side, spreading to the entire left side of the body.

Heart

Angina pectoris. Vasomotor complaints. These vascular disorders are very often accompanied by pain: Pain in the left side of the thorax, which may spread to the arm, aggravated by physical exercise and capable of stimulating an attack of angina pectoris.

Limbs

Raynaud's syndrome. Cyanosis of the limbs with tingling and burning sensation. Movements badly coordinated for the upper as well as the lower limbs. Often drops things. Hands in a contracted state without total paralysis. Numbness of the hands with cyanosis and trembling. Spastic gait. Numbness of the feet with cyanosis, formication, swelling and edema of the ankles. Copious perspiration from the feet.

Lungs

Asthmatic dyspnea, the patient has difficulty in exhaling.

Male

Impotence with dwindling or libido and lack of orgasm. Sex painful with premature ejaculation.

Nose

Reduction in the olfactory sensitivity. Sensation of evil-smelling, unpleasant whiffs like sulphur. Smells are badly tolerated. Diminution of sense of smell. Ozaena.

Skin

Dermographia. Deformity of the nails, which are concave, ridged, breaking. Burning sensation on the skin, aggravated by heat and cold. Excessive sweating, predominantly on

one half of the body. Lesion caused by parasites, on the nails. Nails extremely fragile. Inflammation beneath the nails.

Stomach

Pains with nausea, worse after ingestion of food. Cramping stomach ache, accompanied by nausea and meteorism.

Temperature

Vascular complaints the skin is either very red or very pale, but always cold. Cyanosis and edema at the limbs, accompanied either by an increase in the local heat or, the opposite, by decrease in the heat.

Thallium met. + -act. (old abbr.)

Pharmacy

Thal. Thallium metallicum. Thallium aceticum. A Rare Metal. Trituration. Solution of the Sulphate. Historical dose: All potencies, 3c to 30c.

History

Thallium is a rare metal discovered by Crookes in 1861. He found it in the residue left from the distillation of Selenium and named Thallium, (a green shoot) from the green it gives in the spectrum. Thallium has been experimented with by Lamy and Marme. It is widespread in nature.

Thallium and its derivatives are toxic. The symptoms picture of Thallium were established in 1965-66 by Panos, Rogers and Stephenson, on seven male and nine female provers.

Combermale of Lille, used Thal. with success in the night-sweats of tuberculosis, but this treatment had the effect of causing profuse falling of the hair, so serious as to contraindicate its use. Huchard had patients become quite bald in several days. Hansen says Thal. relieves the violent pains of tabes dorsalis. **Planets:** Moon.

Homeopathic

Thallium is useful for most horrible, neuralgic, spasmodic shooting pains. Pains like electric shocks. Muscular atrophy. Tremors. Relieves the violent pains in locomotor ataxia. Paralysis of lower limbs. Pain in stomach and bowels like electric shocks.

Paraplegia. Night-sweats of tuberculosis. Polyneuritis. Dermatrophic lesions.

Thal. seems to influence the endocrine glands, especially the thyroid and adrenalin.

Hyperthyroidism symptoms.

Alopecia, hair loss following acute, exhausting diseases. Loss of body hair and hair of the head. Numbness or formication starting in the fingers and toes, extending up to lower limbs and down to feet and involving lower abdomen and perineum. Tremors. Muscular atrophy. Locomotor ataxia. Hyperemia, swelling and excessive secretion.

Muscular pains. Trembling. General emaciation with a lack of strength. Discomforts are of a periodic nature, recurring in strength, at the same hour and then disappearing again.

Emaciation, hypotonia, chilliness. Permanent state of jangled nerves. Trophic conditions of the nails.

Thal. has chorea-like movements. Neuritis. Trigeminal neuralgia. Spinal neurasthenia. Pseudo-bulbar paralysis. Intermittent paralysis. Pains in the legs, aggravated when lying on the affected side. Unable to find a position in the bed which eases the pain. Pain in the right knee on bending or stretching it. Pain in the sciatic nerve.

Clinical

Baldness. Conjunctivitis. Emaciation. Locomotor ataxia. Malaria. Muscular atrophy. Myelitis. Night-sweats. Paraplegia. Paralysis. Polyneuritis. Rheumatism. Sciatic pains. Tremors. Tuberculosis.

Modalities

Better from walking. Worse at night. Worse from contact. Worse from pressure.

Symptoms

MIND

Extreme anxiety for no reason. Growing impatience. Irritability. Hysterical symptoms with hyperesthesia and then hypoaesthesia. Extreme uneasiness with insomnia. Permanent state of jangled nerves of excitability and bewailing with weeping and shouting. Apathy. Depression.

Abdomen

Pain in intestinal canal. Retraction or depression of abdomen. Distention of the abdomen. Heavy flatulence, even after a light meal. Spasmodic pain in the stomach and intestines with abdominal pains.

Back

Formication on the back. Lumbar aching.

Blood

Attacks of hypertension with hyperthyroid phenomena. Bleeding from the capillary vessels. Atherosclerosis. Cyanosis. Increase of carbon dioxide in the blood plasma.

Chest

Painful, heavy feeling on the sternum. Retro-sternal pain in the esophagus.

PAGE 1705

Eyes

Very frequent conjunctivitis with **abundant production of mucus**. Muco-purulent discharge from the right eye, worse in the morning. Glittering spots in front of the eyes with formication on the face. Visual complaints with feeling of heaviness behind the eye. Purulent conjunctivitis. Dacryocystitis. Iritis. Blepharitis.

Female

Menses prolonged with black blood. Amenorrhea.

Food

Thirst. Voracious appetite. Loss of appetite.

Head

Alopecia. Hair falls off with great rapidity.

Heart

Diminished frequency of pulse. Pulse rapid with precordial constriction.

Kidneys

Involuntary passing of urine. Casts in urine. Acute glomerulonephritis. Dysuria. Proteinuria. Hematuria.

Limbs

Disorders of movement co-ordination. Chorea-like movements and rapid movements like convulsions. Trembling. Paralytic feeling. Sharp pains like electric shocks. Very tired. Chronic myelitis. Numbness in fingers and toes with extension up lower limbs involving lower abdomen and perineum. Paralysis of lower limbs. Cyanosis of limbs. Formication, beginning in fingers and extending through pelvis. Exaggerated reflexes and muscular atrophy.

Liver

Gallbladder distended. Coating of liver white and granular-looking.

Lungs

Slow and difficult breathing. Cyanosis. Dyspnea. Respiration difficult with pain all over the thoracic cage. Emphysema. Pleurisy. Pneumoconiosis.

Male

Impotence.

Mouth

Dental caries. Toothache. Lips dry with thirsty feeling. Bad breath, irritation of the mucous membranes in the mouth with excessive salivation. Gingivitis. Stomatitis.

Aphthae.

Rectum

Diarrhea, bloody stools. Constipation. Spasmodic, stubborn constipation, alternating with attacks of diarrhea and anal and rectal pains.

Skin

Acne. Folliculitis. Skin pigmentation disorders. Loss of hair on the body, (axillary and pubic). Skin sensitive in particular areas, especially on the soles of the feet. Dryness of the skin. Pustular formations. Trophic complaints of the nails, which are deformed. Inflammation beneath the nails.

Sleep

Sleep is light, wakes often. Great difficulty in falling asleep again.

Stomach

Acrid dyspepsia. Bitter belchings and bitter taste in the mouth. Feels nauseated but cannot vomit. Nausea and vomiting. Pain in stomach and bowels, terribly severe lancinations, following each other with the rapidity of electric shocks.

Temperature

Profuse sweating in cases of severe illness. Night-sweats of tuberculosis.

Thea chinensis

(tea)

Pharmacy

Thea. Thea chinensis. Tea. N. O. Ternstromiaceae, Genus, Camellia. Tincture. Trituration of Theine. Historical dose: Tincture and all potencies, third to thirtieth potency.

Herbal

The use of Tea has spread from the older civilizations of the East to the newer ones of the West. Tea contains an alkaloid, Thein, which is by some considered identical with caffeine and both tea and coffee are used to stimulate the jaded faculties.

PAGE 1706

The stimulation will enable persons to endure fatigue and get more enjoyment out of themselves than they could obtain by mere food. **Planets:** Mercury.

Homeopathic

Coffee and tea are different in their effects though they may be alike in their chemistry. The after-effect of all stimulation is reaction, unless it is kept off by a repetition of the stimulant as the effect of the last dose wears off. The sign that the first dose of Tea is wearing off is a nervous, restless, depressed, ill-tempered state, which is visible in persons who rely on tea, at about 5 p.m.

Excessive tea-drinking is a fruitful source of neuralgia and insomnia. Another symptom is an all-gone, sinking sensation at the epigastrium. Nervous sleeplessness, heart troubles, palpitations and dyspepsia of old tea-drinkers. Produces most of the sick headaches, Tabacum antidotal (Allen).

Thea is often noticed in persons who have sensitive kidneys that they can never take tea when they are going anywhere, because they are compelled to pass water almost immediately after.

Clinical

Delirium, tremens. Mania. Homicidal. Insanity. Insomnia. Megrim. Nervousness. Neuralgias. Paralysis. Sleeplessness. Suicidal.

Modalities

Better warmth, warm bath. Better from external warmth, applying hand or warm clothes to occiput. Worse at night. Worse on walking in open air. Worse after meals. Worse by cold water.

Symptoms

MIND

Nervousness and want of confidence. Peevish. Nocturnal fright, suicidal thoughts. Temporary mental exaltation. Ill-humored. Delirium with ecstasy, laughed incessantly, talked in rhyme. Delirium tremens. Disposition to quarrel at the most harmless speech.

Great nervous excitability with exaltation of intellectual faculties. Impulses to kill. impulse to jump out of the window. Mania. Suicidal and homicidal.

Abdomen

Borborygmi. After lunch, stitch below ribs in paroxysms. Intestines relaxed. Liability to hernia.

Chest

Oppressed and constricted. Fluttering in left side and feeling of suffocation.

Ears

Neuralgic pains in cartilage of ears. Hallucinations of hearing. Roaring in ears.

Eyes

Eyes are unusually bright. Dilated pupils. Neuralgia of eyes. Sight is dim, dark before eyes, fiery lines, sparks.

Face

Wild, distressed expression. Face is pale, with congested redness, flushed.

Female

Soreness and tenderness in ovaries. Menses delayed, scanty with severe cramp-like pains. Uterine bearing down from beginning to end of period.

Food

Very hungry, but little satisfies. Thirst, but every mouthful of cold water affects the head like a shock. Craves acids, lemons.

Head

Rush of blood to head. Sick headache radiating from one point. Sleepless and restless. Hallucinations of hearing. Cold damp feeling at back of head. Scalp tender can scarcely comb hair.

Heart

Anxious oppression. Precordial distress. Palpitation, unable to lie on left side. Fluttering. Pulse rapid, irregular intermittent.

Kidneys

Very marked increase of urine. Must pass water immediately after drinking tea.

Limbs

Paralyzed numbness of limbs. Joints of hands and feet tender. Nervous excitability in wrists, hands, and feet. Hand trembled violently.

Restlessness of feet. Neuralgic pains in outer hamstrings. Sensation as if the weight of a sheet even would crush toes.

Lungs

Edema of respiratory tract. Cough is dry, severe and bloody expectoration. Breathing increased in frequency and amplitude. Breathlessness on least exertion. Paroxysm of asphyxia.

Male

Erections. Unnatural excitement.

Mouth

Teeth frequently decayed. Tongue clean and pale. Tongue red, blistered, painful as if scalded. Whole mouth cavity dry and sensitive. Much viscid saliva. Bitter taste in mouth.

Nose

Dryness, soreness of nose. Nosebleed before menses. Sensation at root of nose as if nosebleed would occur.

Rectum

Swelling of lower end of rectum, with slight itching. Chronic relaxed bowels. worse by beer, better by port wine. Constipation.

Sensations

As if a foreign body in throat. As if on the verge of fainting. As if the stomach hung down relaxed in the body like an empty bag. As if the weight of a sheet on the feet would crush the toes. Cold sensations are prominent, cold, damp feeling at back of head with pain spreading thence to eyes, also dryness and swelling of mucous membrane.

Skin

Skin dry as if pores obstructed. Skin of finger-ends peels from excessive dryness. Eruption of red, indolent pimples. Itching, crawling, prickling in different parts.

Sleep

Sleepy in daytime, sleepiness at night with vascular excitement and restlessness and dry skin. Horrible dreams cause no horror.

Stomach

A sinking sensation at epigastrium. Faint, gone feeling. (Sep., Hydr., Olean.) Sudden production of wind in large quantities. Nausea, and vomiting after eating. Vomits bile, when pain at its height. Weakness about stomach.

Temperature

Intense coldness passing over whole head. Lowered temperature. Hands and face cold as marble. Excessive internal heat with flushes of heat on the surface, coming and going quickly. Disposition to perspire. Beaded with chilly moisture.

Throat

Scraping in larynx. Hoarseness. Diphtheria sore throat. Uneasy feeling in pharynx, as if obstructed by a foreign body. Painless swelling of mucous membrane.

Vertigo

Vertigo with darkness before eyes, sudden in open air.

Comments

The Thea symptoms are made up of observed effects of overdosing and some direct provings. In a woman who was addicted to eating tea, very pronounced delirium tremens resulted indistinguishable from that caused by alcohol, though there was no alcoholism in the case.

A woman who kept a pot of tea boiling on the stove and drank several bowls every day developed both suicidal and homicidal mania, impulse to jump out of the window, to cut her baby's throat and throw it downstairs, Thea 100,000c, Fincke, cured.

A friend of mine who had been many years in the East and was used to one story houses, on his return to this country had a curious impulse to jump out of the window, which he traced to tea-drinking and which disappeared when he left it off. The homicidal impulse appeared in the dreams of one prover (Teste), who was so far from being horrified by his dream-murders that the even took pleasure in them after awaking. The talkativeness of Thea is one of its chief allurements.

Among tea-tasters, who do not drink the tea they taste, but only hold it in the mouth a short time, yet long enough for the mouth to absorb some, there is sometimes developed

what is known as tea-tasters' paralysis, affecting mostly the lower limbs with loss of sensation of both upper and lower.

This case has been recorded: A man after drinking tea and pain in epigastrium going through to back with feeling as if he wanted to be sick and could not, better sitting down and stretching himself out. Thuj. 30c cured.

Guernsey gives these as indications for Thea: "Nervous sleeplessness, heart troubles. of old tea-drinkers, palpitations of the heart, can't lie down."

Compare

Theridion curassavicum

(orange spider)

Pharmacy

Ther. Orange spider. Theridion curassavicum. Latrodectus curassavicus. N. O. Arachnida. Tincture of the living spider. Historical dose: All potencies, thirtieth potency.

History

Theridion was introduced and proved by Hering in 1832. The spider is found in the West Indies, chiefly in the island of Curacao. It is about the size of a cherry-stone is found on orange-trees, velvety black when young with antero-posterior lines composed of white dots, on posterior of body there are three orange-red spots and on the belly a large square yellow spot.

Homeopathic

The Theridion spider is very poisonous. It produces a highly sensitive, nervous condition with weakness, trembling, coldness, anxiety, faintness and easily excited cold sweat. Venom of this orange spider produces hypersensitiveness of the nerves. Sensitive to noise, which penetrates the body.

It affects the teeth, causes nausea, chills and pains all over, strikes the painful parts etc. Nervous hyperesthesia. Noises seem to strike on painful spots over the body.

Ther. has affinity for the tubercular diathesis. Tuberculosis, stitch high up in left apex. (Anthr.) Where the indicated remedy does not hold long. Rickets, decay, necrosis.

Vertigo, sick headache, peculiar pain around heart region, tuberculosis florida, scrofula have all been treated successfully with this remedy.

Ther. causes spinal irritation. Affects the bones causing decay, necrosis. Rickets. Bones feel broken. Water feels too cold. Bounding internally, as of a child.

Burning pains. Sense of duality. Effects of sunstroke. Hysteria during puberty and at menopause. Infantile atrophy, glands enlarged with marasmus. Nodes on various parts especially buttocks. Tuberculosis. Seasickness. Left side most affected.

Clinical

Angina pectoris. Anthrax, sheep. Bone disorders. Decay. Menopause. Cough. Dysmenorrhea. Eye-teeth, pains. Fainting. Headache. Hysteria. Liver, disorder, abscess. Meniere's disease. Nausea. Necrosis. Nose, catarrh. Ozaena. Photophobia. Pregnancy, sickness. Rickets. Scrofulosis. Sea-sickness. Spinal irritation. Tetanus. Toothache. Tuberculosis. Vertigo.

Causations

Sea-traveling. Riding. Washing clothes.

Constitutions

Tubercular diathesis. **Planets:** Mercury, Moon.

Modalities

Better from rest in horizontal position. Warm water better nausea and retching. Warmth improves. Worse from noise touch, pressure, closing eyes, least motion, exertion, jar. Worse from cold, washing clothes, sunstroke. Worse on shipboard, riding in carriage. Worse noise, sex, left side. Worse stooping, rising, motion, exertion, going up or down stairs, walking. Worse by sex, the groin pains.

Symptoms

MIND

Restless, finds pleasure in nothing. Time passes too quickly. Startled by the least thing. Fruitless activity. Hysteria. Talkativeness and hilarity. Want of self confidence.

Abdomen

Violent burning in liver region. Abscess of liver. Pain in the groins after sex, motion and drawing up the limbs. Stinging pain on left side over anterior aspect of spleen.

Back

Sensitiveness between vertebra. Stinging pains. Spine is sensitive to pressure and jar, sits sideways in a chair to avoid pressure.

Chest

Stitches high up in chest, back through apex of left lung. Pain in upper left chest. (Myrt., Pix., Anis.) Pain in left floating ribs. Pinching in left pectoral muscle.

Ears

Least noise, even sound penetrates her whole body especially teeth. Rushing in both ears like a water-fall.

PAGE 1709

Eyes

Glittering vision, on stooping. Luminous vibrations before eyes. Blurred vision. Sensitive to light. Pressure behind eyeballs. Throbbing over left eye.

Face

Pale. Jaws immovable in the morning.

Female

Hysteria during puberty, at menopause. Menses suppressed.

Food

Constant desire to eat and drink but knows not for what. Craves oranges and bananas tobacco smoke, wine, acid fruits and drinks.

Head

Headache felt during sleep worse jarring with nausea and vomiting, at menopause. Head feels thick, thinks it belongs to another, that she can lift it off or she would like to remove it. Migraine. Headache worse after stool. Joyous during headache. Cannot lie down with headache. Pain worse anyone walking over floor.

Heart

Cardiac anxiety and pain. Anxiety about the heart, sharp pain radiates to arm and left shoulder. Pulse slow with vertigo.

Kidneys

Increased urination, at night, does not pass much during day.

Limbs

Burning in upper arm. Restless feeling in hands, wrings them. Stinging from elbow to shoulder. Lies or sits with feet crossed, cannot uncross them.

Lungs

Cough, jerks body together, head forward and knees upward. Too much air seems to enter the chest. Tuberculosis. Breathing difficult going up and down stairs, hysteria.

Male

Seminal emission during afternoon sleep. Gonorrhoea. Prostate enlarged, sense of a lump and heaviness in perineum, worse at even step.

Mouth

Remains open involuntarily, cannot close. Froth before the mouth with shaking chill. Teeth feel as if cold water is too cold. Mouth feels furred, benumbed. Lockjaw, morning on waking. Bites tip of tongue during sleep. Mouth as if furred, benumbed.

Nose

Pain over root of nose. Chronic catarrh, yellow-green, thick offensive, discharge. Discharge is yellowish and offensive. Ozaena. Post-nasal catarrh. (Puls., Thuj.)

Sensations

As if her head was another strange head. As if vertex did not belong to her. Like a pressing pain in root of nose and about ears. As of a veil before eyes. Like labor pains in lower abdomen. As if a child were bounding in body. As if something in esophagus were slipping towards epigastrium. As if bones were broken and would fall asunder. As if dying.

Skin

Stinging, stabs everywhere. Sensitive skin on the thighs. Itching sensations.

Stomach

Sea-sickness. Nausea and vomiting when closing eyes and on motion. (Tab.) Nausea worse least motion, looking steadily at one object from noise. Nausea and retching better drinking warm water.

Temperature

Shaking chill with foam at mouth. Internal coldness. Cold sweat easily excited.

Vertigo

Faints after washing clothes. Vertigo with nausea, worse stooping, kneeling. Vertigo with nausea and vomiting on least motion, worse when closing eyes.

Comments

Grimmer states "The orange spider poison can cure when indicated on the totality of its symptoms. Decay of bones, abscesses and cancer of the liver and lungs. It acts profoundly on the nervous system, producing extreme sensitivity to noise the vibration penetrating to the teeth."

There are two well-marked keynotes, one or other of which will be found in most cases calling for Ther.

(1) Extreme sensitiveness to noise, worse by least noise, "sounds penetrate the teeth." The sensitiveness extends to vibrations of any kind, jar of a step, riding in a carriage or in a boat.

The symptom also shows the relation Ther. has to bony structures as well as to the nervous organs they enclose: it meets cases of spinal irritation and also cases of disease of the spinal and other bones.

Decay, necrosis and scrofulous disease of bones have all been cured with it.

"In scrofulosis when the best remedies fail to relieve" (H. C. Allen).

(2) "Worse closing eyes." This applies to vertigo and symptoms of the head and stomach. This forms the indication in many cases of seasickness or sickness of pregnancy. The headaches are severe and affect the eyes, especially the left. The ears are highly sensitive. Hallucinations of sight and hearing, luminous vibrations and rushing sounds. Although there is "Worse closing eyes," there is also intolerance of light.

A kind of intoxication is induced, hilarity, talkativeness. "Time passes too slowly" as a well-marked symptom. Ther. has a peculiar cough: frequent, convulsive, head spasmodically jerked forward, knees jerked up to abdomen.

Chackravarti relates a case of headache cured with Ther.: Mr. B., 35, well built of bilious temperament, had for three months severe headache with nausea and vomiting like seasickness and shaking chills. Dullness and fullness in the head with throbbing beginning in occiput, preceded by flickering before the eyes.

Head feels large and heavy. The pains begin in the morning increase during the day and last until evening. Excessive irritation with loss of sustaining power. Worse from least overwork and motion, better by keeping quiet in horizontal position. Constipation, stools hard, small, dry. Ther. 3x was given, one drop in water twice daily. The pain was much better next day and was gone in less than a week.

Burning pains and itching are common and a stitch high up in apex of left chest has proved a guiding symptom for Ther. in the cure of cases of tuberculosis. "Burning in liver region" has led to the cure of abscess and even cancer of that organ.

Compare

(1) Aran-d. and Spiders generally.

(2) Hemicrania worse closing eyes, worse noise, Sep. (But Sep. worse from noise is less intense).

(3) Vertigo and faintness on closing eyes, Lach.

(4) Headache, nervousness, hysteria, Tarent.

(5) Stooping down, violent stitch high up in left chest, thence to back, Myrt-c. through to left scapula.

(6) Time passes too quickly (too slowly Cann-i., Arg-n., Nux-m.).

(7) Vertigo on closing eyes, Lach., Thuj. (on opening them, Tab., on looking up, Puls. Sil.).

(8) Headache, worse lying down, Lach.

Relations

Antidoted by: Acon. (sensitiveness to noises), Mosch. (nausea), Graph. (more chronic effects). Follows well: Sulph., Calc., Lyc. (scrofula).

PAGE 1711

Thiosinaminum

(oil of mustard-seed)

Pharmacy

Thiosin. Thiosinaminum. Rhodallinum. Mustard seed oil. Allyl sulphocarbamide. Derived from Oil of Mustard-seed. Rhodallin. Trituration of the crystals. Solution in alcohol. Historical dose: Tincture and all potencies, 2x potency, 2 grains twice daily.

Herbal

Thiosinaminum belongs to the same chemical group as Urea. The colorless bitter crystals are soluble in water, alcohol and ether. Thiosin. has been used externally and internally in cases of lupus, chronic glandular tumors and for dissolving scar tissue.

The mustard seeds of Sin-n. are of a reddish-brown color. Mixed with those of Sin-a. they are crushed between rollers and subsequently powdered and sifted twice or more often.

From the residue left on the sieve a fixed oil is obtained by pressure. The powdered mustard is mixed with a considerable quantity of wheaten flour and a small quantity of turmeric powder.

The term 'flour of mustard' is not quite accurate, as the mustard seeds themselves contain little or no starchy material.

The chemical ingredients are somewhat complex. Among them are a peculiar acid called Myronic acid, noticeable as containing a large proportion of Sulphur.

When mixed with water and a peculiar substance called Myrosine, (analogous to albumen), also found in mustard seeds, yields a volatile Oil of Mustard.

This has no separate existence in the seeds, but is formed artificially in the manner just stated. This oil is very acrid and has been used as a rubefacient. The fixed oil before mentioned as existing in the seed itself has little or no acidity and has been used as a purgative and vermifuge" (Treasury of Botany).

This remedy has been effective in curing adhesions, scars, lupus, and enlarged lymphatic glands.

Also stricture of rectum, deafness, tinnitus aurium, tumors of the uterus appendages. Thiosinaminum has been suggested by Dr. A. S. Hard for retarding old age. **Planets:** Saturn.

Homeopathic

Thiosin. is a dissolvent, externally and internally, for dissolving scar tissue, tumors, enlarged glands, lupus, strictures, adhesions. Ectropion, opacities of cornea, cataract, ankylosis, fibroids, scleroderma. Noises in ear.

Thiosin. has been used in keloids and for removing scar tissue. A remedy for Tabes dorsalis, improving the lightning pains. Tinnitus aurium. Gastric, vesicle and rectal crises. Sensation of heat and burning in affected parts. Bodily weight increased. Glandular swellings reduced.

Clinical

Adhesions. Deafness. Lupus. Lymphatic glands, enlarged. Rectum, stricture. Scars. Strictures. Tinnitus aurium. Tumors.

Symptoms

Back

Torn ligaments in the shoulder. Frozen shoulder.

Ears

Tinnitus caused by fibrous bands. Catarrhal deafness with scar thickenings. Sub-acute suppurative otitis media. Thickened eardrum. Deafness due to some fibrous change in the nerve. Formation of fibrous bands impeding free movement of the ossicles.

Female

Tumors of uterine tissues.

Food

Appetite increased.

Kidneys

Urine increased in quantity, no albumen or formed elements.

Lungs

Accelerated respiration.

Rectum

Stricture of rectum.

Skin

Distinct local reaction in lupus cases after a few hours. Urticaria. Lupus. Scar tissues.

Stomach

Appetite increased.

Vertigo

Arteriosclerotic vertigo.

Comments

Thiosin. is a major remedy for scar tissue and adhesions. Ringing of the ears. Tinnitus or deafness in elderly people from otosclerosis. The bones of the ears get calcium deposits.

PAGE 1712

Thiosin. also has vertigo, Meniere's disease. Torn ligaments, especially in the shoulder. Opacities of the cornea, cataracts. Scarred eardrums or eardrums that thicken and cause hearing difficulties. Internal adhesions of the uterus, adhesions after surgery. Strictures of the urethra and painful urination.

Dr. McCulloch and his findings are stated as follows: (1) It exerts a marked beneficial action on ear diseases accompanied by the formation of new connective tissue. (2) that this beneficial action is due to an increased pliability of this tissue. (3) that its administration should always be accompanied by mechanical measures.

(4) that better and more prompt results may be obtained in recent cases. (5) that it exerts a beneficial action on vertigo. (6) that better results may be obtained with it in the relief of tinnitus aurium than with any drug used heretofore.

C. H. Pennoyer relates this case: Mrs. C., 69, had been several years ill with gastric distress, sciatica, pains in hips down to knees, worse by motion.

Indigestion, flatulence of stomach and bowels, worse after eating. Pain in back. Inability to walk, much perspiration, depression of spirits and subnormal temperature. Her father had died at 69 of stomach trouble, mother at 58 of stricture of the bowel.

Examination showed stricture of rectum two inches above anus, there being a tense fibrous band forming a ring opening, which would not admit the index finger. Bougies and mechanical measures failed to relieve. Weakness was so great, patient would faint at stool. Under general treatment nutrition improved, but the local condition was unchanged.

A year later the stricture was slightly increased. Thiosin. was now given, grains ii. twice daily. The following year the patient was found much improved. Examination showed that the scar band had gone, the speculum could be introduced and the mucous membrane was normal in appearance.

Though not as elastic as a normal rectum should be. W. Spencer has applied this property of resolving scar tissues in cases of tinnitus aurium "where the ossicles are bound down and the function of the tympanic cavity so much impaired by fibrous bands or adhesions."

In such cases he has had encouraging success. Enlarged lymphatic glands have been reduced in the same way.

(shepherd's purse)

Pharmacy

Thlas. Thlaspi bursa pastoris. Shepherd's purse. Bursa pastoris. Capsella bursa pastoris. N. O. Cruciferae. Tincture of fresh flowering plant. Historical dose: Tincture and all potencies, tincture to sixth potency.

Herbal

"A native of Europe, it has accompanied Europeans in all their migrations and established itself wherever they have settled to until the soil" (Treasury of Botany). It does not refuse to grow in the poorest soils, but it luxuriates in the richest.

Burnett noticed that it flourished best in the neighborhood of dunghills and the odor of the tincture is much suggestive thereof. Some have seen in the seed-vessel the signature of the shape of the uterus and Burnett found in it an organ remedy of vast importance.

The tincture, he said is the best thing to give for menses that have been checked, for uterine hemorrhages he preferred the potencies. He has observed it cause sexual excitement like Cantharis. It aided Burnett in the cure of an inveterate case of gall-stones, the origin of which he traced to the uterus.

PAGE 1713

Shepherd's purse," says Gerarde, "stayeth bleeding in any part of the body, whether the juice or the decoction thereof be drunk or whether it be used poultice-wise or in both or any way else. In a clyster it cureth the bloody flux, it healeth green and bleeding wounds, it is marvelous good for inflammations new beginning and for all diseases which must be checked back and cooled."

Gerarde adds that the decoction will stop diarrhea, blood-spitting, hematuria and all other fluxes of blood. Effects of suppressed uterine disease. (Burnett.) **Planets:** Moon, Venus.

Homeopathic

Thlas. is an anti-hemorrhagic and anti-uric acid remedy. Albuminuria during pregnancy. Chronic neuralgia. Kidney and bladder irritation. Hemorrhage from uterine fibroid with aching in back or general bruised soreness.

Thlas. is a remedy for hemorrhagic and uric acid diathesis. Uterine hemorrhage with cramps and expulsion of clots. Craves buttermilk. Hemorrhages are profuse, periodic, blood dark, clotted. The toes are affected along with cramping pain in stomach. Aching between scapulae.

Clinical

Albuminuria. Colic. Dropsy. Dysentery. Dysuria. Fibroma. Fibroids, uterine. Gallstones. Gonorrhoea. Hematuria. Hemorrhages. Kidney stones. Leucorrhoea. Liver disorders.

Metrorrhagia. Miscarriage, hemorrhage after. Ranula. Strangury. Uric acid diathesis. Uterus, hemorrhages, cancer. Whitlow.

Causations

It removes the ill effects of suppression of hemorrhages or vaginal discharges from uterus.

Modalities

Symptoms are better bending over. Better from bathing, dampness, rapid motion. Worse every other month.

Symptoms

MIND

Impulse to walk far.

Abdomen

Pain between end of sternum and umbilicus like needles or an electric shock. Cramping pain better bending over. Gallstone colic, liver affection being secondary to uterine condition.

Back

Weakness between scapula.

Breasts

Milky water from right nipple.

Chest

Pulsative pain in left chest.

Ears

Deafness and pain in left ear.

Face

Eyes and face puffy.

Female

Metrorrhagia too frequent and copious menses. Uterine bleeding with violent uterine colic. Every alternate period very profuse. Leucorrhoea before and after menses, bloody, dark offensive, Stains indelibly. sore pain in womb on rising. Scarcely recovers from one period before another begins. Uterine fibroids with cramps and expulsion of clots. Sore pain in uterus, worse rising. Leucorrhoea, excites itching. Sexual excitement.

Food

Craves butter milk.

Head

Slight headache. Frontal pain, worse toward evening. Pain from above eyes up over head to nape. Scaly eruption behind ears. Sharp pain over right eye drawing eye upwards.

Kidneys

Chronic cystitis. Kidney colic and stones. Dysuria and spasmodic retention after forceps delivery. Often replaces the use of the catheter. Dysuria of old persons with dribbling. Hematuria. Frequent desire. Urine heavy, phosphatic. Accumulation of gravel. Brick-dust sediment. Urethritis, urine runs away in little jets. Albuminuria during pregnancy.

Lungs

Hoarse in morning with slight sore throat. Hemoptysis.

Male

Spermatic cord sensitive to concussion of walking or riding.

Mouth

Taste like bad eggs. Tongue white, coated. Mouth and lips cracked. Teeth sore on closing jaws. Gums sore, neuralgic feeling in teeth. Ranula, caused enlargement of submaxillary duct.

Nose

Frequent nosebleeds. Nosebleed after nasal operations. Especially passive hemorrhage. Free discharge of blood and mucus from left nostril. Dull pain at root of nose.

Rectum

Passage of blood.

PAGE 1714

Sensations

As of needles or shocks from a battery between end of sternum and umbilicus. As if neck and left shoulder would break with pain.

Stomach

Sick, faint feeling in stomach. Flatulence. Nausea. Cramping pain in stomach toes hurt as well as stomach.

Throat

Soreness of upper part of throat. Swelling of throat and face, worse left side. Tonsils swollen. Throat dry on swallowing.

Vertigo

Vertigo, worse rising.

Comments

Dudgeon reports a case which reverses this. He had treated a lady for jaundice from which she made a good recovery, but there came on a peculiar discharge after the menses flux. It was of brownish-green blood and was attended with obscure abdominal pains. The cervix uterus was swollen and soft but not ulcerated.

Dudgeon failed to cure this, but Rafinesque of Paris after trying other remedies, succeeded with Thlas. 6c had immediate good effect.

Rafinesque afterwards gave the tincture and then again the 6c and in a few weeks the cure was complete.

Dudgeon's article on Thlas. is the most complete we have. He quotes a case of Rademacher's showing the action of Thlas. on uric acid excretion.

A woman whom Rademacher had relieved ten years before of a large quantity of urinary sand, again presented herself, her abdominal cavity was full of water, extremely swollen and she was passing urine of a light red color with bloody sediment.

Thlas. tincture, 30 drops five times a day, was given solely with the idea of stopping the hematuria. But the result was a more copious discharge of urinary sand than ever before, the urine increased, the dropsy disappeared and the woman was cured.

Dudgeon's own cases are no less striking: (1) A lady, 76, had rheumatic muscular pains in various parts and the most abundant secretion of uric acid, which passed away with every discharge of urine.

Sometimes small stones formed and then there was much pain in their passage along the ureter, but generally it passed in the form of coarse sand, which formed a thick layer at the bottom of the utensil. This sand continued to pass after the cessation of the rheumatic pains, which lasted six or seven weeks. Puls., Pic-ac., Lyc. had no effect. Thlas. 1c diminished the sand to an insignificant amount.

(2) A gentlemen, 57 in addition to other dyspeptic symptoms had unusually large discharges of coarse uric acid, coming away in masses as large as a big pin's head but without pain. Thlas. 1x stopped this. (3) Lady, nearly 80, was suffering from the presence of a calculus in left ureter. She had previously passed much sand. Thlas. 1x caused a great discharge of sand and a speedy relief of her pain.

Dudgeon also refers to a case of Harper's illustrating the action of Thlas. on the bowels. An elderly lady had suffered for years from a copious discharge of mucus, pus, sometimes mixed with blood, sometimes nearly all blood, which passed from the bowels after each evacuation. She had been under high homeopathy, oxygen treatment and for a long time under Harper himself without effect.

When he gave Thlas. tincture in 5 drop doses and cured the case in a few days.

With Thlas. 1x Clarke saved a lady who had been curetted several times with small success from a further curetting, which was advised as being essential to the cure.

Thlas. stopped the hemorrhages, restored the periods to their proper term and the patient immediately began to recover her strength, which had been drained to the last degree.

There has been no return of the trouble.

Boericke. Clarke.

Thuja occidentalis

(arbor vitae)

Pharmacy

Thuj. Thuja occidentalis. Arbor vitae. N. O. Coniferae, Tribe, Cupresineae. Tincture of the fresh green twigs. Historical dose: Tincture and all potencies, tincture to thirtieth potency. Locally, for warts and excrescences, tincture or cerate.

History

Thuja was introduced to France from Canada in the reign of Francis I of France and it has now an honored place in most of our gardens and shrubbery. The native habitat of Thuja is not without its importance in relation to therapeutics.

It loves swamps, it is Hahnemann's typical anti-sycotic and Grauvogl's hydrogenoid. Thuja is one of Hahnemann's discoveries. Most of the remedies of his Materia Medica had been known in a fashion before his time.

Of the therapeutic properties of Thuja practically nothing was known until Hahnemann proved it.

The American Arbor Vitae is a "spiry ever-green attaining a height of from 20 to 50 feet, though generally not above 40 and a diameter of about 10 to 20 feet through the greatest

breadth of foliage." It abounds in the upper zones of North America from Pennsylvania northwards.

There it "often forms what are commonly known as cedar-swamps. It grows upon the rocky banks of rivers and in low, swampy spots, blossoming from May until June and maturing its fruit in autumn. The Arbor Vitae assumes a conical form with such true lines as to appear 'clipped,' thus forming one of our most valued high-hedge trees" (Millsbaugh).

Dr. Hahnemann found Thuja as an antidote to sycotic miasm. Old-school observers have found in Thuja an efficient hemostatic, locally applied, especially after tooth extraction. Homeopathic

Thuja acts chiefly on the mucous membranes of genito-urinary tract intestines, skin, mind, nerves, glands, occiput and left side. Acts on skin, blood, gastro-intestinal tract, kidneys and brain. Its relation to the production of warty growths, vegetations condylomata, spongy tumors is very important. Moist mucous tubercles. Bleeding fungus growths. Birthmarks. Venous stasis.

Thuj. has the formation of wart-like growths upon mucous and skin surfaces, fig-warts and condylomata. Has a specific antibacterial action, as in gonorrhoea and vaccination.

Sycotic pains, tearing in muscles and joints, worse at rest, better in dry weather, worse damp humid atmosphere, lameness.

Complaints from moonlight. Rapid exhaustion and emaciation. Left-sided and chilly medicine. Variola, aborts the pustule and prevents the suppurating fever. Vaccinosis, viz. inveterable skin troubles, neuralgia, etc.

Thuja is the remedy for soft, exuberant, fungoid tissue, polyps, condylomata, warts, pediculated, black, suppressed. Great prostration and rapid emaciation. The patient is exhausted and soft body feels thin and delicate, frail. Deadness of the affected part.

Discharges are foul, acrid, musty, rancid or of sweetish odor. Trickling in urethra. Burning, sticking, numbing, drawing or wandering pains worse warmth. Oily, stools, skin, sweat. Flesh feels as if beaten off the bones. Edema about the joints. Jerking of the upper part of the body of spinal origin, chorea.

Vaccinosis, never well since vaccination, neuralgia, skin troubles etc. Crying babies with a sycotic taint from the parents. Congenital inguinal hernia. Pains keep extending from original site. Neurasthenia, prostatic weakness. Rheumatism. Paralysis.

Suppressed gonorrhoea. Aneurysm by anastomosis, swelling of the blood-vessels. Stitching, tearing pains in the glands as if they were being torn to pieces. Sensation of lightness of body when walking.

PAGE 1716

Clinical

Abdomen, distended. Angina pectoris. Anus, fissure. Asthma. Balanitis. Bedwetting. Cancer. Catalepsy. Chorea. Clavus. Condylomata. Constipation. Convulsions. Diarrhea.

Dyspareunia. Dysmenorrhoea. Ear, polyps. Epilepsy. Epulis. **Eyes**, tumors, inflammation. Fatty tumors. Feet, fetid. Flatus incarcerated. Fibroids. Frontal sinuses, catarrh. Ganglion. Gleet. Gonorrhoea. Hemorrhage. Hair disorders. Headache. Hemorrhoids. Hernia. Herpes zoster. Ichthyosis. Intussusception. Joints, cracking. Levitation. Miscarriage. Morvan's disease. Mucous patches. Muscae volitantes. Myopia.

Nevus. Nasal catarrh. Neck, stiff. Onanism. Ovary, pain. Ozaena. Neuralgia. Nose, catarrh, polyps. Paralysis.

Pemphigus. Polyps. Post-nasal catarrh. Pregnancy, imaginary. Prostate, disease. Ptosis. Ranula. Rheumatism. Rickets. Sciatica. Seminal emissions, nocturnal. Sinusitis. Sycosis. Syphilis. Tea, effects. Teeth, decay. Tongue, ulcers, biting. Toothache. Tumors. Vaccination effects. Vaginismus. Warts. Whooping cough.

Causations

Ill effects of tobacco. Suppressed sycosis. Gonorrhoea, badly treated or suppressed. Vaccinations. Sunstroke. Sexual excess. Tea. Coffee. Beer. Sweets. Tobacco. Fat meat. Onions. Sulphur. Mercury, syphilis,

Constitutions

Thuja is suited to: (1) Hydrogenoid constitutions. (2) Strumous and sycotic pains. (3) Lax muscles, light hair, children. (4) Lymphatic temperament in very fleshy persons, dark complexion, black hair, unhealthy skin. **Planets:** Venus, Moon.

Modalities

Better on left side, drawing up limbs. Better from warm, wrapping, air, wind, free secretions, sneezing, better from motion, crossing legs. Pressure improves. Rubbing improves. Scratching improves. Worse from cold dampness. Worse at night from heat of bed, at 3 a.m. and 3 p.m., fat, coffee. Worse periodically, yearly increasing moon, moonlight. Worse during menses, urinating. Worse from chewing, stretching, sex, closing eyes. Worse by touch. Worse after breakfast after eating. Worse from tea, coffee, sweets, fat food, onions. Worse by sex. Worse increasing moon. Worse sun, bright light.

Symptoms

MIND

Hurried with ill humor, talks hastily, swallows words. Fixed ideas, as if a strange person were at his side, as if soul and body were separated, as if something alive in abdomen. (Croc.) Emotional sensitiveness, music causes weeping and trembling. Sadness. Aversion to life.

Dullness of mind. Cannot concentrate. Speech slow, hunts for words. Irritable, jealous, quarrelsome towards husband or mother.

Controls herself among strangers and doctors. Over-excited, angry or anxious about trifles. Cretinism. Mental depression after childbirth. Walks in circle in room. Thinks his blood is dirty or poisoned.

Abdomen

Distended indurations in abdomen. Flatulence and distention, protruding here and there. Rumbling and colic. Movements in abdomen, as if something alive without pain. (Croc.) Indurations in abdomen. Rumbling, flatulence, upper part drawn in. Soreness of navel. Cutting and squeezing in hypogastrium. Ileus. Cutting, squeezing in groins. Brown spots.

Back

Pulsation in the back. Pressing pain over kidney region. Atrophy of long muscles. Spine curved. Stands bent forward. Blood boils.

Breasts

Retracted nipples.

Chest

Stitches in chest, worse cold drinks. Chest pains take various directions. Skin of clavicles blue. Brown spots on chest.

Ears

Chronic otitis, discharge purulent. Polyps. Otorrhea, watery, purulent, putrid. Cracking in ears when empty swallowing. Noise in ear as from boiling water.

PAGE 1717

Eyes

Blood red, full of tears, stand open. Styes and tarsal tumors. (Staph.) Eyelids agglutinated at night, dry, scaly. Lids heavy as lead. Jagged iris. Ciliary neuralgia, iritis. Acute and chronic inflammation of sclera. Feels as if cold air were streaming out of the head through eye better when warmly covered. Photopsies, beyond visual field. Floating green stripes. Exophthalmos from tumors behind eyeball. Large, flat phlyctenules indolent.

Face

Pale, waxy, shiny, dark under eyes. Netted with spider-like veins. Boring in malar bones (left) better by touch. Skin greasy. Neuralgia from suppressed gonorrhoea or eczema of ear. Tumor on cheek. Warts.

Female

Menses too early too short. Menses is scanty, retarded. Warty excrescences on vulva and perineum.

Polyps, fleshy excrescences. Ovarian cysts. Ovaritis, worse left side, at every menstrual period. (Lach.) Severe pain in left ovary and left inguinal region. Profuse leucorrhoea, thick, greenish. Cauliflower excrescences bleeding easily. Venereal warts. Vagina, itching. Leucorrhoea, profuse, thick, greenish from one period to another. Erosion of cervix. Vagina very sensitive, prevents sex, (Staph., Plat.) Uterine polyps. Fetus moves violently, awakes her. Miscarriage at the third month. Recto-vaginal fistula. Sweaty genitals before menses.

Food

Complete loss of appetite. Aversion for fresh meat and potatoes. Aversion to onions and garlic. Cannot eat onions. Tea-drinking dyspepsia. Unable to eat breakfast. Desires cold drinks and salt.

Head

Left-sided headache. Pain as if pierced by a nail. (Coff., Ign.) Headache, worse sexual excess from tea, better bending head backwards. Neuralgia from tea. (Sel.) Tearing, jerking pain. Sweat smelling like honey. White scaly dandruff. Hair dry, split and falls out.

Heart

Anxious palpitations, on waking in the morning.

Kidneys

Pains from left kidney to epigastrium worse motion. Lithemia. Diabetes mellitus. Pain and burning felt near neck of bladder. Cutting squeezing in bladder and urethra. Bladder feels paralyzed, must wait for urination. Frequent urination with pain in other parts with profuse flow. Desire sudden and urgent, but cannot be controlled. Urethra swollen inflamed. Forward cutting in urethra on urinating. Feels as if a drop was running down urethra after urination. Sensation of trickling after urinating. Involuntary urination at

night, when coughing. Urine, burns, dribbles, foul. Urinary stream split and small. Foamy urine.

Limbs

Cracking in joints when stretching them. Muscular twitchings, weakness and trembling. Limbs feel as if made of wood or glass and would break easily. Limbs feel paralyzed.

Fingers cold, numb, as if dead, on waking at night. Crawling or inflamed finger or toe tips. Hip joints give way when walking. Knees restless. Painful brittle, crumbling, discolored, distorted. Coxalgia with tender soles. Foul, acrid foot sweat. Nails brittle, ribbed, soft. Ingrowing toe nails. Pain in heels and Achilles tendon. Ingrowing toe nail.

Lungs

Dry, hacking cough in afternoon with pain in pit of stomach. Short difficult breathing, worse from deep breathing and talking. Cough only during the day or worse as soon as he eats or drinks anything cold. Expectoration, easy when lying down, green, taste like old cheese. Asthma in children. (Nat-s.) Asthma worse night of sycotic children. In asthma if Ars. fails to cure, even though seems indicated, Thuj. and Nat-s will take up the work and complete the cure.

Male

Inflammation of prepuce and glans, pain in penis. Swelling of prepuce. Venereal warts. Excrescences of prepuce and glans. Balanitis. Herpes. Gonorrhea, scalding when urinating. Rheumatism from suppressed gonorrhea. Prostatic enlargement. Chronic induration of testicles. Offensive smelling genitals, sweetish smelling sweat on scrotum. Testes feel bruised, left drawn up. Chordee worse at night. Semen offensive. Prostatic enlargement and weakness. (Sabal.)

PAGE 1718

Mouth

Aphthae, ulcers in the mouth. Mouth becomes dry while chewing food. White blisters on side close to root, painfully sore. Sweetish taste with gonorrhea. Tip of tongue very painful. Frequently bites the tongue from swelling of it. Teeth, decay at the edge of gums, crumble, turn yellow. Gums, very sensitive and retract. Drinks fall audibly into stomach. Ranula, varicose veins on tongue and mouth. Pyorrhea alveolaris. Gnawing pain in teeth worse cold, tea and blowing nose.

Nose

Chronic catarrh, thick, yellow-green mucus, blood and pus. Blows thick, green mucous. On blowing nose, pain in teeth. Bloody scabs or briny odor in nose. Ulceration within the nostrils. Dryness of nasal cavities. Painful pressure at root. Nosebleed, worse after being over-heated.

Rectum

Gurgling in bowels, then painless watery grass green stools. Chronic diarrhea, worse after breakfast. Anus fissured, painful to touch. Anal warts. Moisture oozing from anus. Hemorrhoids swollen, pain worse sitting with stitching, burning pains at the anus. Stools gurgle or pop out, hard, oily, black, lumps. Stools mixed with gushing water, hurried, explosive, gassy, spraying. Perineum moist. Tenesmus of stool with rigidity of penis. Perineal fistula. Constipation with violent rectal pain, causing stool to recede. (Sil., Sanic.)

Sensations

As if a strange person were at her side. As if soul and body were separated. As if under the influence of a superior power. As if whole body were very thin and delicate, as if its continuity would be dissolved, as if frail and easily broken, as if made of glass. As if a nail were pressing into vertex. As if a nail were driven from within outward in vertex. As if abdominal muscles were being pushed out by arm of a child. As if a living animal were in abdomen. Legs as if made of wood when walking. As if lower limbs were elongated. As from flea bites.

Skin

Eruptions itch or burn violently worse cold bathing. Eruptions only on covered parts, worse after scratching. Polyps. Warts. Epithelioma. Nevi, birthmarks, carbuncles and ulcers, in anal-genital region. Dry skin with brown spots, dirty, hairy. Brown spots on hands and arms. Very sensitive skin to touch. Freckles and blotches. Perspiration sweetish and strong. Herpetic eruptions. Herpes zoster. Nails crippled, brittle and soft. Coldness of one side. Sarcoma. Tearing pains in glands. Glandular enlargement. Ulcers flat with bluish bottom. Foul pustules with sunken apices.

Luxuriant growth of hair on parts otherwise not covered by hair.

Sleep

Sleepless when lying on left side. Persistent insomnia. Dreams of death. Dreams of falling from a height. Nocturnal sleeplessness with agitation and coldness of body. Lascivious dreams without emission of semen with painful erections on waking.

Stomach

Noisy swallowing, loud belchings. Rancid belchings after fat food. Cutting pain in epigastrium. Flatulence, pain after food, sinking sensation in epigastrium before food, thirst.

PAGE 1719

Temperature

Shaking chill with yawning, worse urinating not better by heat. Chill, beginning in thighs. Heat rises into chest with icy cold hands, nosebleed or cough. Orgasm of blood in the evening with throbbing in the blood vessels. Sweats only on uncovered parts or all over except head, when sleeping, profuse, sour, smelling like honey. Sweat profuse on genitals, gushing, worse company. Sweat is foul, oily, pungent, sweetish, sometimes garlicky, staining yellow.

Throat

Polyps of vocal cords. Papilloma of larynx. Chronic laryngitis. Much mucous in throat hawked up with difficulty.

Vertigo

Vertigo as from motion of a swing, everything seems to jump, on closing eyes, looking upwards or sideways.

Comments

Hahnemann found in Thuja the antidote to the miasm of the condition which he termed Sycosis, meaning thereby the constitutional disease resulting from constitutional gonorrhoea and having as its characteristic manifestation excrescences, sometimes dry in the form of warts, more frequently soft, spongy, emitting a fetid fluid with a sweetish odor something like herring brine, bleeding readily and having the coxcomb or cauliflower form.

Teste remarks that in the period when the doctrine of Signatures prevailed the:

"Resinous callosities of the stems and leaves of Thuja might have seemed an indication that the plant was the specific for sycosis and warts." Teste dismisses this idea, but he asks whether resinous substances which have the power of modifying vegetable juices in a peculiar way may not affect the animal fluids in the same manner. He includes

Castor. in his Thuja group and gives an instance in which it acted on fig-warts. Castor is the product of an animal which subsists on the bark of resinous trees. Hering gives this as the action of Thuja on the fluids: "dissolution of fluids of the body, which become acrid, probably caused by Thuja perverting lymphatic secretions, disturbs digestion and sanguification".

This in the vegetative sphere: "A surplus of producing life, nearly unlimited proliferation of pathological vegetations, condylomata, warty sycotic excrescences, spongy tumors and spongy pock exudates which organize hastily.

All morbid manifestations are excessive, but appear quietly, so that the beginning of the diseased state is scarcely know."

Boenninghausen found Thuja both preventive and curative in an epidemic of small-pox. It aborted the process and prevented pitting. In veterinary practice Thuja has proved curative in farcy and in "grease." These facts open up another great branch of Thuja's simlilarity to vaccination.

On this subject no one has written more forcibly or lucid than Burnett. (Vaccinosis and its Cure by Thuja). "Arbor Vitae: nomen omen," says Burnett on his title-page. And in his hands Thuja has proved indeed a tree of life to numberless sufferers from the vaccination miasm. By "vaccinosis" Burnett means the disease known as vaccinia, the result of vaccination, plus "that profound and often long-lasting morbid constitutional state engendered by the vaccine virus." To this state Thuja is homeopathic and therefore curative and preventive of it.

Burnett makes the profound observation, which Clarke can confirm, that the vaccination does not need to take in order to produce the vaccination miasm. Also not a few persons date their ill-health from a so-called unsuccessful vaccination. So that vaccinosis may exist apart from vaccinia. The anti-vaccinosis action of Thuja is part of its anti-sycotic action therefore vaccinosis is a sycotic disease.

Burnett gives the case of an infant ten weeks old, whom he was called to see as it was supposed to be dying. He found it ghastly white and in collapse. There was nothing to account for this except that the baby had its wet-nurse changed two or three days before. The wet-nurse was questioned and declared herself quite well and looked it, but "her arm was a little painful." She had been revaccinated in the Marylebone Workhouse the day before she took charge of the patient.

PAGE 1720

Burnett found the vaccine eruption just turning into the pustular stage. He concluded that the infant was sucking in the vaccine poison with its nurse's milk. He gave Thuja 6c to both infant and nurse. The baby gradually improved the same day and next morning was, though still pale, practically well and the vaccine vesicles on the nurse's arm had withered.

Burnett quotes a case of vaccine rash in an infant following the vaccination of its mother, who was nursing it.

The effects of chronic vaccinosis are protean. Prominent among them are asthma, neuralgias, skin disorders, indigestion and constipation, warts and new growths of many

kinds. Emaciation, brain damage, epilepsy and blindness. Hyperactivity, Attention Deficit Syndrome and Autism.

In these effects a favorite method of Burnett's was to give a course of twenty-four numbered powders, only three or four of them medicated with Thuja 30c, one to be taken at bed time.

With the same prescription he cured many cases of paralysis, his indications being: Paralysis of left side of body, very chilly, worse in morning in wet weather and in cold. With these indications present he also found enlargements of the spleen to dissolve.

In the first case Clarke had treated homeopathically was one of new growths, a cluster of small warts on the forehead of a boy which had lasted eighteen months and followed the scratch of a cat. Thuja in small doses and Thuja tincture painted on cured permanently in three weeks.

A gentleman, about 50, consulted Clarke about a wart on the right side of his head. He was bald and the wart develop in the same locality at the same age and it has never left him. The patient had been twice vaccinated. Thuja 30c, twenty-eight powders, one in seven medicated, one at bed time. In one month there was much reduction, Thuja was repeated and in little over two months the wart was gone.

Burnett says Thuja is the remedy for fatty tumors, which he regards as sycotic in nature. Thuja not only produces symptoms of the secondary stage of gonorrheal and vaccine affections, it also produces urethritis and a variolous eruption. Dudgeon has reported acute urethritis with yellow discharge lasting altogether a fortnight as the result of chewing a Thuja cone.

Goullon cured a lady who had headache for a year, on waking felt as if a tight hoop enclosed of forehead, not passing away until noon. Eyelids heavy as lead. Thuja. 10x, one dose at bed time, permanently cured.

Robert Farley relates the case of two children, age 5, who had what he graphically terms "urinary tantrums." Two hours after being put to bed they would wake kicking, crying and refusing to answer a question. This lasted an hour or more. Asked if they wanted to urinate they would refuse to answer, strike at attendant or even say "No."

Finally it was found that if they were taken up and put on the closet they would urinate and then go to sleep readily. One of the children developed signs incipient inflammation of the left hip-joint. The totality led to the selection of Thuja., which was given in the 200c.

After the first night there were no more "tantrums," and in two months the child was perfectly well. This child's father had gonorrhoea, treated by injection, some years before the patient was born. But the other child's father had not had gonorrhoea. In the latter case, which was exactly like the former, the cure was immediate in the former case relief occurred on the second night.

C. W. Roberts found Thuja. in five to seven drop doses at bed time, control nocturnal seminal emissions better than any other remedy. "Nocturnal seminal emission" is an emphasized symptom.

PAGE 1721

Percy Wilde records the case of a young married lady who had a large epulis on the lower jaw, rapidly increasing in size, ulcerating on the surface, very painful and filling the mouth with an ill-smelling secretion. The entire tumor was removed by operation and

also the subjoined bone. Three weeks later the tumor was as large as before and increased daily. Thuj. 1x was now given.

The growth stopped immediately, ulceration ceased, the pain disappeared. In three weeks the gum was healthy and remained so permanently.

Villers relates a case of scalp tumor in a youth of seventeen. The tumor had existed two years and had somewhat the appearance of a bean. It was situated about the posterior edge of the parietal bone, was devoid of sensation and the hair had disappeared from it, making it very conspicuous.

Thuja 30c was given, a dose every twenty days. In four months the youth was almost cured in five months entirely so, the hair having grown again completely over its spot.

George Royal relates a case of persistent cough cured with Thuj. Miss X., 19, fair, had for three months a painless, dry cough. The irritation was only in the throat. There were six small growths at the back of the throat and one near the vocal cord. She never had a cough before. Has leucorrhoea green and excoriating, menses a little too early. Thuja 30c cured the growths and the cough in about three weeks.

R. B. Johnstone gives some indications for Thuj. in hernia: (1) Women of syphilitic history who have a tendency to left-side inguinal hernia after labor. (2) When babies cry much the umbilicus protrudes, growing red and sore, especially when the father has a syphilitic history.

(3) Left inguinal hernia in infants, child cries all the time and is only quiet when the left inguinal region is relieved from pressure or the thigh is flexed on the abdomen.

The left ovarian pains of Thuj. are remarkable. They are severe, sometimes burning, extend down thigh, any attempt at exercise and especially walking worse they occur with every menstrual period and are generally worse before and during the flow. The pain compels the patient to lie down, but lying on left side aggravates.

Burnett records a case of lichen urticatus in a boy of fourteen, which came into his hands after a long course of treatment, external internal and dietetic, at the hands of allopathic specialists without result. The rash came periodically in warm weather, patient literally tore himself because of the irritation. The rash was worse on the left (vaccinated side). Thuja 30c was given in infrequent doses. The spots continued to appear for a week and then disappeared. The skin remained clear in spite of the patient indulging in all kinds of previously forbidden foods.

Among the skin effects of Thuj. the marks and stains must be borne in mind. The skin is mottled and discolored, brown or red mottled spots, discoloration of the backs of the hands and feet.

Thuja is a strongly left-sided medicine, the left arm is usually vaccinated.

Compare

Thuja lobii

(red cedar)

Pharmacy

Thuj-l. Thuja Lobbi. Thuja Menziessi. Red Cedar. N. O. Coniferae. The mother tincture is prepared with the fresh leaves of Thuja Lobbi. Historical dose: Tincture and all potencies, 6c to 30c.

History

Thuja Lobbi or Red Cedar is a tree which is almost 50 meters high and which originates from Alaska.

From the heart-wood are separated out the Thuja plicines with antibiotic, as well as anti-fungal properties. These substances also exist in Thuja Occidentalis. There is no Homeopathic proving from this remedy. Dano conducted a clinical proving with it in 1934. **Planets:** Sun, Moon.

Homeopathic

Thuj-l. has emaciation and constipation. Chilly and the limbs are cold.

Symptoms

MIND

Anxious melancholy. Lack of will-power. Weeps and moans easily. Indifferent to everything except for his obsessions with his own suicide. Personality problems with those around him. Psychosis from anguish. Depressive neurotic condition. Hebephrenia. Indifferent with regard to himself and those around him. Obsessive thoughts of suicide.

Comments

If the development within the compass of homeopathic remedies is followed, according to Roy, Thuja Lobbi can be situated on the line: Aur., Sep., Thuja Lobbi. The tendency to suicide, which is characteristic of Aur. and the indifferent psychological disposition which characterizes Sep., can be anticipated in the development of a symptomatological picture for this remedy.

Compare

(1) Thuja Lobbi has tendency to suicide, (Aur.) and the indifferent disposition, (Sep., Ph-ac.).

Thymolum

(thyme camphor)

Pharmacy

Thymol. Thymolum. Thyme camphor. Labiatae family or to the Umbellifers. Historical dose: Tincture and all potencies, 6x to 30c.

History

Thymol exists in the essences of certain plants belonging to the Labiatae family or to the Umbellifers. It is a phenol made up of para-isopropyl-metacresol. Thymol can be extracted from them by combining with alkaline lye, (soda or potash).

It is used therapeutically as an intestinal anti-septic and as vermifuge against tapeworm.

The Homeopathic proving was conducted by Griggs, on eight provers, six of whom were male and two female, as well as one control, using placebo in 1940-41. The experiment began by using 3x for two weeks, 2x for the next two weeks and 1x for about ten days.

Planets: Moon.

Homeopathic

Thymol is a remedy having a wide field in genito-urinary diseases. It is indicated in pathological emissions, priapism and prostaticorrhea. Specific for hookworm disease. (Chen-a.)

The provings show an action limited to the sexual organs, producing a typical sexual neurasthenia. Thymol's general action on the stomach, genital organs and to a small extent, on the central nervous system.

PAGE 1723

General weakness with headaches. Constricting headache. Skin blue, cold. Spasmodic laryngeal cough. Glairy or membranous diarrhea. Excessive salivation with nausea. Frequent urination with compelling urging. Nightly seminal discharge. Pains in the dorsal and lumbar region, spreading to the buttocks. Blood-streaked leucorrhea.

Clinical

Colitis. Diarrhea. Enterocolitis. Fainting tendency. Hookworms. Laryngitis. Leucorrhea. Migraines. Neurasthenia. Sexual weakness. Whooping-cough.

Modalities

Better from eating. Worse mental and physical labor. Worse from tobacco.

Symptoms

MIND

Irritable, arbitrary, must have his own way. Craves company. Energy gone. Morose, sad, uneasy. Bewildered state. Uneasy feeling and agitation. Nervous agitation, loquacity, mental confusion.

Abdomen

Enterocolitis.

Back

Tired, aching throughout lumbar region. Worse mental and physical labor. Back pain during the headaches. Pain in the lumbar and sacral regions, spreading to the buttocks.

Ears

Buzzing in the ears. Sound like bells. Temporary deafness. Noises in the ears.

Female

Brown, blood-streaked, evil-smelling, watery leucorrhea. Menses thick, scanty, drawn-out. Pains before and during menses in the ovaries and uterus. Pain from hypogastric heaviness. Metritis of the cervix. Cancer of the uterus or cervix.

Head

Headache with sadness. Menstrual migraines. Constricting pain in the temples, in women, ameliorated when lying down or from external heat. Bilateral temporal headache and at the occiput.

Kidneys

Urinary burning and subsequent dribbling of urine. Urates increased. Phosphates decreased. Frequent urination with urging. Increased urination at night. Urine copious, proteinuria, hematuria. Pains in the kidneys, spreading to the buttocks. Retention of urine.

Limbs

Cyanosed Limbs. Numbness at the limbs. Chronic lumbar rheumatism.

Lungs

Irritating laryngeal and tracheal cough. Dyspnea. Whooping-cough.

Male

Profuse, nightly, seminal emissions with lascivious dreams of a perverted character. Priapism. Ejaculation with erotic dreams. Seminal discharge when going to stool. Nightly seminal discharge. Prostatitis. Adenoma of the prostate gland. Cancer of the prostate. Increased sexual desire.

Mouth

Salivation reduced when eating. Watery salivation with nausea. Ptyalism. Nauseating belchings.

Pulse

Pulse weak, slow or rapid.

Rectum

Hookworms. Diarrhea after constipation. Glairy or membranous diarrhea. Anal pain following diarrhea. Mucous, membranous stools, gray in color.

Skin

Skin blue and cold. Scarlet fever-like or pustulous exanthema.

Sleep

Awakes tired and unrefreshed. Lascivious and fantastic dreams. Erotic dreams.

Stomach

Acrid dyspepsia. Glairy belching with sensation of burning in the stomach, nausea and gastric heaviness. Nausea, ameliorated by eating. Vomiting.

Throat

Spasmodic laryngitis. Irritation of the larynx and trachea.

Compare

(1) Carbon Tetrachloride.

(2) Cantharis - Irritation and inflammation of the digestive, urinary and cutaneous mucous membranes. Intense burning in the digestive passages with frequent, compelling need to urinate.

(3) Merc. corrosivus - Burning pains in the pharynx, painful, frequent urination, urine comes drop by drop, diarrhea with tenesmus.

(4) Terebinthina - Irritation of the digestive and urinary mucous membranes with tendency to hemorrhage.

SOURCES

Julian.

PAGE 1724

Thymus serpyllum

(wild thyme)

Pharmacy

Thymu. Thymus serpyllum. Wild thyme. The Thymol is decomposed into Thymine a liquid essence isomeric with the essence of Turpentine and Thymic acid, a Stearoptene similar to Camphor. Historical dose: Tincture and all potencies.

Herbal

Thymus s. belongs to the Mint family, all the members have a marked action on the urinary organs and especially on the elimination of uric acid. Thymus contains a volatile oil Thymol, Tannin, a gum and woody fiber. **Planets:** Mercury.

Homeopathic

Thymol is a very powerful germicide, killing the germs of typhoid fever in thirty minutes. Respiratory infections of children, dry nervous asthma, whooping cough, severe spasms but little sputum. Ringing in ears with feeling of pressure in head. Burning in pharynx, sore throat worse empty swallowing, blood vessels distended, dark.

Clinical

Whooping cough.

Comments

Small doses of Thymus act as a sedative and contra-stimulant, the depressive action being preceded by a period of excitation.

Large doses dull the nerves and produce motor incoordination and sleep.

Animals poisoned by Thyme sleep standing and are insensible to the prick of a pin. They have muscular contraction and tremors, vertigo and turning movements. There is an increase of diarrhea, vomiting appears, prostration is extreme, the skin becomes cold and death sets in with all the symptoms of a depressant position and with complete anesthesia. These final symptoms are due to the Thymic acid, which is a camphor.

SOURCES

Anshutz. Boericke.

Thyreoidinum

(thyroid gland)

Pharmacy

Thyr. Thyroidinum. Sheep's thyroid gland. Iodothyrium. Thyroidin. Thyroid Extract. Glandula thyroidea.

A Sarcod. Trituration of the fresh or dried thyroid gland of sheep or calf. Potency of a liquid extract of the gland. Historical dose: All potencies, 1x to 30c potency.

History

Thyroidinum, also known as Thyroidea, The thyroid gland is an organopathic, taken from the sheep, ox or calf. A sarcod prepared from dried Thyroid gland. The thyroid has close connection with the heart, moreover it exercises a general regulating influence on the mechanism of the organs of nutrition: growth and development.

The homeopathic proving was established by M. Panos, R. Rogers, J. Stephenson in 1963-64, using the double blind method. The potencies 12x, 30x, 200c and 1000c were used. The symptomatology completes the work of Ghosh of Calcutta, which dates from 1963. Thyroidinum symptoms are made up of the toxicological and clinical sources, not the only proving symptoms.

Homeopathic

Thyroidinum affects the central nervous system, skin and left side. Thyroid produces anemia, emaciation, muscular weakness, sweating, headache, nervous tremor of face and

limbs, tingling sensations, paralysis. **Heart** rate increased, exophthalmus and dilatation of pupils.

In myxedema and cretinism its effects are striking. Rheumatoid arthritis. Infantile wasting. Rickets. Delayed union of fractures. In half grain doses twice a day over a considerable period said to be effective in undescended testicle in boys. Thyroid exercises a general regulating influence over the mechanism of the organs of nutrition, growth and development.

Thyroid weakness causes decided craving for large quantities of sugar. Great weakness and hunger, yet loses flesh.

PAGE 1725

Breast tumors. Cystic tumors of the breast, (2x trituration). Lack of breast-milk. Begin treatment early in pregnancy. Vomiting of pregnancy. Excessive obesity. Uterine fibroids. Amblyopia. Memory weak.

Thyr. dilates arterioles. Sensation of faintness after acute diseases, i.e. weakness. Easy fatigue, weak pulse with a tendency to fainting, palpitations. Psoriasis. Tachycardia. Cold hands and feet, low blood pressure, chilliness and sensitive to cold. Nocturnal bedwetting.

Metabolic disorders. Goiter. Myxedema with hair loss and cretinism. It has a powerful diuretic action in myxedema and various types of edema. Hystero-epilepsy. As of a cold wind blowing on the body. Rheumatoid arthritis. Edema. Tetany, worse cold. Low blood pressure.

Arrested development of children. Infantile wasting. Undescended testicle in boys. Acromegaly, delayed union of fractures.

A state of puffiness and obesity. Feels tired and sick, easy fatigue, wants to lie down. Fainting fits, tremors, nervous of face and limbs. Stabbing, splitting, clutching sensation. Choking. Rapid emaciation.

Convulsion in the nursing children, related to a febrile cutting of teeth.

Clinical

Abscesses. Acromegaly. Albuminuria. Amblyopia. Amenorrhea. Anemia, pernicious. Angina pectoris. Backache. Chilblains. Constipation. Convulsions, puerperal. Diabetes. Diarrhea. Diuresis. Dropsy. Dysmenorrhea. Ear, disorders. Eczema. Edema. Epilepsy.

Fainting. Fibroma. Fractures. Goiter, exophthalmic. Hair, loss. **Heart**, disorders. Hysteria. Ichthyosis. Idiocy. Leprosy. Mania. Milk, deficiency. Myxedema. Neurasthenia. Obesity. Optic neuritis. Paralysis, hands and arms. Paraplegia. Pityriasis rubra. Psoriasis. Puerperal fever. Rupia. Scleroderma. Syphilis. Tetanus. Tuberculosis.

Constitutions

Thyroidinum is suited to the phosphoric type who in general is a hyperthyroid, as well as to the carbonic type who in general is also a hyperthyroid. The subject has a nervous temperament. It belongs particularly to the psoric, tubercular and sycotic range of dispositions. **Planets:** Jupiter.

Modalities

Better after or during menses. Better in the evening. Better by rest. Better from lying on abdomen or reclining position. Worse in women before and during menses. Worse from

least exertion or stooping. **Heart** was worse lying down. Worse by cold.

Symptoms

MIND

Stupor, alternating with restless melancholy. Weeps, undresses. Homicidal tendency. Suspicious. Idea of persecution. Irritable, worse least opposition, goes into a rage over trifles. Grumbling, all the time. Laughing in a way peculiar to herself. Psychosis from anguish. Concentration difficult on studying. Depression on waking. Euphoria. Irritable before menses. Argues with family. Restless.

Abdomen

Rolling flatulence with gurgling, then loose gassy stool. Bearing and aching down through pelvis into anterior thigh. Flatulence, followed by diarrhea. Pain after eating. Acute cramping pains with cold sweating.

Breasts

Breasts tumors and cysts. Deficient in breast milk.

Chest

Anxiety about chest, as if constricted.

Ears

Sclerosis of ossicles. Difficult hearing. Pain on the right side. Pain in the left ear lobe.

Eyes

Exophthalmic goiter. Eyeballs prominent. Progressive loss of sight with central scotoma. (Carbon. Sulph.) Conjunctivitis and chemosis, itching with weeping. Irritation of the eyelids. Stinging pain in the right eye.

Face

Flushed. Lips, dry, red, burn with free desquamation. Eruption of acne, worse on the right cheek. Sensation of something heavy, which falls from the cheeks.

Female

Amenorrhea in young girls. Gnawing in the uterus. Vomiting of pregnancy. Uterine fibroids. Puerperal, convulsions insanity. Metrorrhagia. Tendency to miscarriage or premature birth. Endometriosis. Sterility. Puerperal psychosis. Vomiting of pregnancy. Uterine atony after giving birth. Pelvic congestion ameliorated by menses. Menses often too early. Amelioration of pre-menstrual discomforts by themenses.

PAGE 1726

Food

Desire for sweets and thirst for cold water. Aversion to greasy foods. Insatiable appetite, always wants something more interesting to eat.

Head

Feeling of lightness in brain. Persistent frontal headache, heaviness over eyes. Falling of hair. Fullness and heat. Headaches ameliorated after menses.

Heart

Severe heart pains. Ready excitability of heart. **Heart**'s action weak with numbness of fingers. Tachycardia. (Naja.) Palpitations, worse least exertion, hammering, beats felt

in ear. **Heart** pains radiate into axilla. Clutching, constricting pains, worse lying down, causing short breath. Hypertrophy after hard labor. As if blood were rushing downwards, through the body. Jumping sensation at heart. Large veins on arms and hands.

Valvular diseases of heart. Weak, frequent pulse with inability to lie down.

Kidneys

Burning along urethra increase of uric acid. Diabetes mellitus. Increased flow of urine, polyuria, some albumen and sugar. Bedwetting in weakly children who are nervous and irritable. Urine smells of violets. Frequent urination during the day. Pressing urge to urinate.

Limbs

Rheumatic arthritis with tendency to obesity, coldness and cramps of limbs. Aching pains. Trembling of limbs and entire body. Numbness, left fingers then right leg. Itching without eruption, worse night. Peeling of skin of lower limbs. Cold limbs. Left hand icy cold. Cold clammy hands. Abnormal growth of limbs due to excessive exertion. Edema of legs.

Liver

Cutting in liver, worse deep breathing.

Lungs

Breathlessness better lying in recumbent position. Dry, painful cough with scanty, difficult expectoration and burning in pharynx. Cough on entering a warm room from cool air. Asthma. Allergies.

Mouth

Tongue thickly coated. Bad taste in mouth. Tongue, metallic taste at tip. Swelling of the upper lip.

Nose

Dry indoors, runs outdoors. Rhinitis with sneezing and edema of the nasal mucous membranes. Pain in the sinuses. Tickling sensation with headaches and dry throat.

Rectum

Stools dark, fragmented with cadaverous or sulphurous smell, soft, watery.

Skin

Eczema. Psoriasis associated with obesity. Very dry skin. Itching without eruption, worse night. Eczema. Uterine fibroids. Brown swellings. Swelling of glands of stony hardness. Ichthyosis. Lupus. Peeling skin of lower limbs. Swellings. Symmetrical serpiginous eruptions. Jaundice with itching. Jaundice in the newborn child, accompanied by vomiting. Urticaria.

Sleep

Insomnia. Wakes for no reason. Difficulty in falling asleep.

Stomach

Nausea worse riding in car. Flatulence, much flatus in abdomen. Vomiting of pregnancy. Dyspepsia before menses. Pains, tenderness, aggravated by eating, ameliorated in the evening.

Temperature

Hot flushes, then chills or drenching sweats. Oily musty sweat.

Vertigo

Vertigo in the morning on rising. Vertigo on leaning forwards.

Throat

Larynx dry. Dry, congested, raw, burning, worse left side. As of a splinter stuck across the throat.

Comments

The action of Thyr. on the heart is most profound. Fatal syncope has occurred in a number of cases under "Thyroid feeding." Cyanosis was produced in many cases. Severe angina pectoris was produced by it in a patient to whom Burnett gave the 3x. The connection between the heart and the thyroid gland is very close, as seen in cases of exophthalmic goiter. Many cases of the latter affection have been cured with Thyr.

PAGE 1727

Dr. F. C. Skinner cured a case of dysmenorrhea in a goiter subject with Thyr. 1,000c.

In a case of valvular heart disease following rheumatism in a man, 24, Thyr. 3x, thrice daily, quickly relieved a squeezing pain at the heart with inability to lie down and materially hastened the patient's recovery.

In myxedema, cachexia, cretinism and similar conditions the thyroid gland is absent or defective and the idea of the Thyroid feeding is to supply a physiological want. A state of puffiness and obesity may therefore be regarded as a keynote indication for Thyr.

Clarke gave Thyr. 3x to a living skeleton of a child aged five and looking not more than two, who had been kept in a box in a cellar all his life until brought into hospital, when he weighed 14.25 pounds. Under Bac. 200c and careful feeding he gained .25 pounds per week.

When Clarke commenced Thyr. he put on weekly .75 pound and gained the use of his legs, being able to stand by holding on to a chair.

In a case of universal and very aggravated psoriasis in a schoolboy, fair, very chilly, cold, clammy hands and feet, Thyr. 3x and later 30c completely cured after a prolonged course.

An obese lady, age 60, developed diabetes. Clarke cured her completely of the diabetes with Thyr. 3x and 30c. She has now for many years been able to take any kind of food. Skin cases in great variety have been cured with Thyr. in substantial doses: Pityriasis rubra intense redness and scales of legs and also with intense itching, ichthyosis, syphilitic eruptions and scleroderma.

The nutrition of the bones in affected and acromegaly has been relieved and united fractures made to unite. Thyr. has increased the flow of milk in nursing women when the flow has been deficient. It has cured cases of tetany both operative and idiopathic.

The keynote in these cases appears to have been "Worse from spasms by cold.

Many cases of insanity have been cured with it including a case of puerperal insanity with fever.

H. O. Nicholson relates a case of toxemia of pregnancy: A woman, 32 in her third pregnancy, had a fit on October 3rd. Thyroid feeding was begun next day. Marked improvement followed. Edema of face and body diminished. On October 23rd patient was about her usual duties. On November 6 she was delivered of a healthy boy without any untoward symptoms.

Some curiosities have been noted in the action of Thyr. on the growth of hair. Myxedema patients lose their hair as a rule and Thyr. when successful restores the growth. But in some cases the opposite effect has been noted.

In one case of myxedema the hair had fallen off the head and face and a thick growth appeared on arms and chest. Under Thyr. the latter disappeared and the hair on the head and face grew again.

Among the effects of Thyr.: Optic neuritis and accommodative asthenopia have been observed. The pains of Thyr. are stitching, aching or heavy pains and tingling sensations. Thyr. treatment nearly always raises the bodily heat.

Compare

(1) Spong., Calc., Fucus, Lycopus.

(2) Iodothyrene.

(3) Thymus gland extract - arthritis deformans, metabolic osteoarthritis, 5 grain tablets 3 times daily. High potencies very effective cases of exophthalmic goiter.

SOURCES

Boericke. Clarke. Phatak.

Thyro-iodinum

Thyroidinum

Pharmacy

Thyri. Thyroidinum. Iodothyrenum. The iodine exists in organic combination and Thyr. contains 0.003 parts of Iodine to every gram. Trituration. Historical dose: All potencies.

History

Thyroidine is now more generally named Iodothyrene, but Clarke retains the former as more convenient.

PAGE 1728

Hoenigschmied says of it that it is present in only small quantities in the thyroid of sheep. It is completely free from albuminous substances, stable and directly assimilated. The general effects of the drug are increased secretion of urine and corresponding loss of flesh. **Planets:** Jupiter.

Homeopathic

Thyroidine is the active principle isolated from thyroid gland, a substance rich in Iodine and nitrogen, affects metabolism, reducing weight, may produce glycosuria. Use cautiously in obesity, for a fatty heart may not be able to maintain the accelerated rhythm. Milk contains the internal secretion of the thyroid.

Clinical

Goiter. Obesity. Urine increased.

Comments

Hoenigschmied gives some cases: (1) Laborer, 42, for several years had enlargement and induration of all lobes of thyroid, the enlargement causing compression of the structures of the neck, dyspnea, whistling respiration, hoarseness, short, dry cough, vertigo. Thyri., 5-grain tablets, one every evening, at the end of a week twice daily. After using twenty-five tablets the gland was smaller and softer, the previously hard and resistant nodules were elastic after two more weeks only remnants of the goiter remained.

(2) Man, 60, thyroid enlarged in all its lobes with a glandular cystic swelling in the right one, dyspnea, loud whistling breathing. Two, three and at last four tablets were given daily for two months, by which time the goiter had vanished, but the cyst was not changed.

(3) Man, 45, medium height, sedentary, suffered from obesity, vertigo, dyspnea, weariness. Pulse feeble, 76, functions normal, appetite and sleep good, weight 230 pounds.

With increasing doses of Thyri., up to ten tablets daily the weight steadily went down to 160 pounds, activity increasing in proportion. When the dose had reached four tablets daily the urine became very abundant, but was free from albumen.

The daily dose was increased one tablet every four days. At one stage Fowler's solution of arsenic, four drops in wine, was given as well to prevent Thyroid problems.

SOURCES

Clarke.

Tilia europaea

(linden)

Pharmacy

Til. *Tilia europaea*. Linden. The Common Lime. N. O. Tiliaceae. Tincture of fresh blossoms. Historical dose: Tincture and all potencies, tincture to sixth potency.

Herbal

The sap of the Linden contains sugar and the flowers an abundance of honey, which makes the tree particularly attractive to bees.

A tincture of the fresh blossoms was proved by the Austrian Society. **Planets:** Moon, Venus.

Homeopathic

The most striking characteristic is "an intense sore feeling about the abdomen and profuse warm sweat which gives no relief." This has led to its successful use in cases of peritonitis.

In addition to this are marked bearing-down symptoms in the whole genito-urinary and rectal regions, especially in the uterus and these combined with the others have indicated Til. in puerperal metritis and other disorders of the female generative sphere. Of value in muscular weakness of the eye, hemorrhage to thin, pale blood. Puerperal metritis. Disease of the antrum. (Hydr., Chel.)

Intense soreness of the abdomen, uterus. Bearing or dragging down pains in genito-urinary and rectal region. Bed feels too hard. Edema. Neuralgia. Rheumatism. The more he sweats the greater the pain. Hemorrhages of thin pale blood.

Clinical

Bedwetting. Dentition. Leucorrhea. Lichen. Neuralgia. Nosebleed. Peritonitis. Rheumatism. Toothache. Urticaria. Uterus, prolapsed.

Modalities

Better in cool room, walking about in open air, closing eyes, by coffee. Better from motion. Walking about in open air. Worse from sweating, drafts after sleep, sneezing. Worse in afternoon and evening in warm room, heat of bed. Worse talking, walking, stooping, cold water. Heat of bed aggravates the skin symptoms.

PAGE 1729

Symptoms

MIND

Love-sick. Dread of society. Melancholy, disposed to weep. Irritable. Disinclined to work.

Abdomen

Bloated abdomen, pains as from incarcerated flatulence, repeated noisy discharges of it, with much aggravates. Peritonitis. Soreness with warm sweat which gives no relief.

Back

Tearing from nape to top of shoulder. Stitching, drawing, and heat in right back between liver and kidneys. Heaviness in sacral and dorsal region.

Chest

Oppression. Whole chest weak, acute pressure and pinching under sternum. Throbs as from a dull stitch from thorax to back. Bruised pain and swelling. Tearing from left pectoralis major to axilla.

Ears

Stinging in ears.

Eyes

Sensation as of gauze before eyes. (Calc., Caust., Nat-m.) Binocular vision imperfect. As if a piece of cold iron pressed through right eye causing burning. As if a veil before eyes.

Face

Face pale, or flushed, frequent alternations. Cutting pains. Sensation of something alive under skin of face. Quivering of lips. Sprained pain in left jaw-point.

Female

Soreness and redness of external genitals. Intense sore feeling about uterus. Bearing-down pains with hot sweat, but without relief. Much slimy leucorrhea when walking. (Bov., Carb-an., Graph.) Soreness and redness of external genitals. (Thuj., Sulph.) Pelvic

inflammation, tympanites, abdominal tenderness and hot sweat which does not relieve. Puerperal metritis.

Head

Neuralgia (first right, then left side) with veil before eyes. Confusion with dimness of vision. Much sneezing with fluent coryza. Bleeding from nose.

Kidneys

Heavy dragging pain in urethra. Scanty urine. Constant painful pressure on bladder and urethra. Frequent, copious urination.

Limbs

Trembling, weariness, bruised feeling in limbs. Paralytic heaviness of arms, especially upper arm. Heaviness and painful lameness in left shoulder. Drawing in small spot left hip while sitting. Cramp in left sole. Ulcerative pain in ball of left great toe.

Lungs

Cough from tickling in throat. Tickling, scraping, irritating, provoking slight cough, especially in left side of larynx. Fine stitches in larynx, worse talking. Hoarseness.

Frequent sighing.

Mouth

Much mucus in mouth, causing fuzzy feeling, affecting speech. Taste bitter, bitter-slimy, pasty. Stinging pain in all the teeth, worse by cold water. Drawing pains in gums.

Nose

Much sneezing with fluent coryza. Nosebleeds, blood thin and pale, but coagulates quickly. Tickling of nose.

Sensations

As if a piece of cold iron pierced through right eye, causing burning. Burning as if a piece of ice were drawn over ear and face. As if something living were under skin of face. Tearing in anterior muscles of thigh, as if they were too short.

Skin

Urticaria. Violent itching and burning like fire after scratching. Eruption of small, red itching pimples. Sweat warm and profuse soon after falling asleep. Sweat increases as rheumatic pains increase.

Sleep

Sleepy, worse during pain. Yawning, sleepy, exhausted. Sudden wakings. Sleeplessness with restlessness, Bed seems too hard. Vivid frightful dreams, bathed in perspiration.

Temperature

Profuse warm sweat, soon after falling asleep without relief.

Throat

Burning in throat. Sensation of swelling of the palate, with desire to swallow, and hoarse voice. Tickling in palate causing cough.

PAGE 1730

Vertigo

Vertigo, with staggering, and like gauze before the eyes. Intoxication.

Comments

An intense facial neuralgia was developed in the proving and also a very aggravated condition of skin irritation with pimples of the lichen order.

There are a number of pains above the root of the nose, nosebleed of thin, pale blood which coagulated quickly. The left side was most affected. Great sensitiveness to draft of air was induced.

Compare

Titanium metallicum

Pharmacy

Titan. Titanium metallicum. Trituration of the copper-red crystals obtained from the slag at the bottom of a blast iron furnace, consisting of Titan. cyanide and Titan. nitride.

Titanium is found in the bones and muscles. Apples contain 0.11 per cent. of Titan.

Historical dose: All potencies potencies.

History

Titanium stands midway between Silicon and Tin in some of its relations and in other respects it is closely related to Iron, Chromium and Aluminium. The crystals proved by Sharp who took 2 grains of the first trituration. daily for a week. It was originally believed to be the pure metal, but were proved later to be the cyanonitrid. **Planets:** Moon, Venus.

Homeopathic

One symptom of the Titan. proving is remarkable: "Imperfect vision, the peculiarity being that half an object only could be seen." Another symptom, which Burnett has turned to good account in cases of sexual weakness is "Too early ejaculation of semen during sex."

Titan. has been used in lupus and tuberculosis processes externally, also in skin diseases, nasal catarrh, etc. Giddiness with vertical hemiopia. Bright's disease. Eczema, lupus, rhinitis.

Clinical

Hemiopia. Semen, premature ejaculation.

Compare

Tongo odorata

(coumarouna seeds)

Pharmacy

Tong. Tongo. Tonca. Tonka. Tonquin Bean. Coumarouna Seeds. Dipteryx odorata. N. O. Leguminosae. A tree in Guiana. Tincture of the dried beans. Historical dose: Tincture and all potencies, tincture and lower potencies.

Herbal

The fragrant seeds of Tongo is much used by perfumers. Dipteryx odorata, which yields it is a native of Cayenne.

The fruit is something like that of the almond-tree. Tongo was proved by Nenning.

Planets: Moon.

Homeopathic

In the proving Tong. produced "Risings with taste of bitter almonds." The chief uses of Tong. have been in migraine and neuralgic disorders.

Clinical

Hip, pain. Migraine. Neuralgia, face. Toothache.

Modalities

The symptoms are: worse by rest, when seated. Better by movement. Pressure improves. Tongo is useful in whooping cough.

Symptoms

Eyes

Trembling in right upper lid.

Head

Tearing pain in supra-orbital nerve with heat and throbbing pain in head.

Limbs

Tearing pains in hip-joints, femur and knee, especially left side.

Nose

Coryza, nose stopped, must breathe through mouth.

Vertigo

Confused, especially in the occiput with somnolence and a sort of intoxication.

Compare

Torula cerevisiae

(yeast plant)

Pharmacy

Tor. Torula cerevisiae. Saccharomyces. Yeast plant. Historical dose: Tincture and all potencies, pure yeast cake or 3c to high potencies.

Herbal

Yeast poultices were much used in skin diseases by the ancient Egyptian physicians, for eczema, boils and swelling.

Torula cerevisiae was introduced into homeopathy by Drs. Lehman and Yingling. *Torula* has not been proved, hence clinical symptoms only but many have been verified. *Torula cerevisiae* is a sycotic remedy, anaphylactic states produced by proteins and enzymes according to Yingling. **Planets:** Saturn.

Homeopathic

Tor. has soreness all over abdomen. Rumbling, flatulence. Sour, yeasty, moldy odor from discharges. Headache. Pains shift around. Sycosis. Tinea versicolor.

Symptoms

MIND

Irritable and nervous.

Back

Backache, tired and weak from elbows and knees down.

Head

Aching back of head and neck. Headache and sharp pains all over, worse from constipation.

Limbs

Hands cold like ice and go to sleep easily.

Nose

Sneezing and wheezing. Catarrhal discharge from posterior sinuses.

Rectum

Constipation.

Skin

Boils, recurrent. Itching eczema around ankles. Tinea versicolor.

Sleep

Disturbed with much restlessness.

Stomach

Bad taste. Nausea. Poor digestion. Belching of gas in stomach and abdomen. Sense of fullness.

SOURCES

Boericke.

= ancis-p. = **toxicophis pugnax** (old abbr.)

(mocassin snake)

Pharmacy

Toxi. *Toxicophis pugnax*. The Moccasin Snake. N. O. Ophidia. Trituration. Historical dose: All potencies.

History

Some effects of bites with this snake have been recorded. A peculiar feature of the cases was that the symptoms of pain and fever recurred annually at exactly the same period for many years with decreasing intensity each year.

In one case the pains spread to other parts after some years. Right leg became painful and swollen rapidly. For several years the pain was confined to the knee of the bitten limb

in a few years it left the knee and seized the hip and finally attacked the shoulder. Skin rather dry. **Planets:** Mars.

Homeopathic

Pain and fever recur annually after a bite from this snake. Pains will sometimes change location with disappearance of first symptoms. An unusual dryness of skin follows the bite.

Edematous swellings and periodical neuralgia. Pain travels from one part to another. Annual recurrence of symptoms with severe pain but without swelling, occurred at precisely the same time of year, decreased in intensity each year.

Clinical

Edema. Periodic neuralgia.

SOURCES

Boericke. Clarke.

Trachinus draco

(stingfish)

Pharmacy

Trach. Trachinus draco. Trachinus vipera. Sting-bull Sting-fish. Trituration of the poisonous fins. Historical dose: All potencies.

History

Some very serious effects have been recorded from wounds inflicted with the fins of Trachinus. Trachinus should be indicated in cases of acute blood-poisoning with intense pains. **Planets:** Mars, Saturn.

Homeopathic

Trachinus causes intolerable pains, swelling of the part and in some cases gangrene, fever, delirium and the symptoms of hydrophobia. Intolerable pains, swelling acute blood poisoning, gangrene. Swelling of whole body of wounded arm then of head and chest.

PAGE 1732

Stinging, burning, throbbing pain increasing to unendurable intensity lasting an hour and then decreasing. Violent burning pain extending from wound to chest.

Clinical

Asthma. Blood-poisoning. Neuralgia. Ulcers.

Symptoms

MIND

Raving. Hydrophobia. Anxiety. Fear of death.

Head

Violent headache.

Heart

palpitations.

Lungs

Paroxysms of suffocation.

Skin

Skin of whole body became yellowish green. Gangrenous blisters on arms.

Sleep

Sleeplessness.

Stomach

Violent thirst. Nausea. Green, bilious vomiting.

Temperature

Constant fever with irregular pulse. Cold, clammy sweat.

Vertigo

Dizzy.

SOURCES

Boericke. Clarke.

Tradescantia diuretica

Pharmacy

Trad. Tradescantia diuretica. N. O. Commelynaceae. Tincture of fresh leaves. Historical dose: Tincture and all potencies.

History

Mure proved Tradescantia which belongs to a genus of lily-like plants. **Planets:** Venus.

Homeopathic

Trad. produced disorder of the genito-urinary organs, urethral discharge and inflammation of the scrotum, also embarrassed breathing. Hemorrhage from ear and upper air passages, painful urination, urethral discharge, scrotum inflamed.

Clinical

Gonorrhoea. Hemorrhage. Orchitis. Vertigo.

Symptoms

Chest

Pain in left side of chest.

Kidneys

Whitish discharge from urethra. Pain when urinating. Stream thin. Urine is acid smelling, yellowish, copious, ash-colored sediment.

Lungs

Breathing is very painful, embarrassed, difficult. Sighing, as from want of air.

Male

Scrotum inflamed, painful and red.

SOURCES

Boericke. Clarke.

Tribulus terrestris

(ikshugandha)

Pharmacy

Trib. Tribulus terrestris. Ikshugandha. Historical dose: Tincture and all potencies, ten to twenty drops of the tincture three times daily.

Herbal

Ikshugandha is an East Indian remedy useful in urinary affections, especially dysuria and in debilitated states of the sexual organs, as expressed in seminal weakness, early emissions and infertile semen. **Planets:** Venus.

Homeopathic

Tribulus has kidney stones and sexual neurasthenia. Trib. meets the self-abuse of masturbation, correcting the prostate emissions and spermatorrhea. Impotence caused by overindulgence of advancing age or when accompanied by urinary symptoms incontinence, painful urination, etc. Prostatitis.

Clinical

Apathy. Dysuria. Impotency. Masturbation. Prostatitis. Sexual weakness. Spermatorrhea.

SOURCES

Boericke. Clarke.

Trifolium pratense

(red clover)

Pharmacy

Trif-p. Trifolium pratense. Red clover. Tincture. Historical dose: Tincture and all potencies.

Herbal

Red Clover is a blood tonic and blood purifier of the herbalists. Trif-p. has a reputation among eclectics in whooping cough and the coughs of measles and tuberculosis. T. C. Duncan and others proved it and elicited some very decided respiratory symptoms, dry, tickling cough, oppressed breathing with fever. One peculiar symptom was cough followed by hiccough.

Felter gives Red clover to persons disposed to cancer. He finds it retards the progress of cancerous tumors and improves the general condition of the patient.

Homeopathic

Trif-p. produces most marked salivation. Feeling of fullness with congestion of salivary glands, followed by increased flow of saliva. Cancerous diathesis. Feeling as if mumps were coming on. Crusta lactea, dry, scaly crusts. Stiff neck. Preventive for mumps and cancer. Retards progress of cancerous tumors before ulceration has taken place.

Clinical

Bladder, catarrh. Menopause. Diabetes. Dysentery. Fainting from bleeding. Fibroids, bleeding. Hemorrhages, childbirth. Menorrhagia. Metrorrhagia. Writer's cramp.

PAGE 1733

Constitutions

Cancer diathesis. **Planets:** Mars.

Symptoms

MIND

Mental breakdown. Loss of memory. Confusion of ideas, morning.

Abdomen

Gripping pains in abdomen and headache. Colicky pains all day.

Back

Neck stiff, cramp in sterno-cleido muscles, relieved by heat and irritation.

Head

Confusion and headaches on awaking. Dullness in anterior brain.

Limbs

Tingling in palms. Hands and feet cold. Tibial ulcers.

Lungs

Sensation in lungs as if breathing hot air. Air feels as if full of impurities.

Mouth

Increased flow of saliva. (Merc., Syph.)

Lungs

Coryza like that which precedes hay fever, thin mucus with much irritation. Hoarse and choking, chills with cough at night. Cough on coming into the open air. Hay fever.

Spasmodic cough, Whooping Cough, paroxysms, worse at night.

Throat

Sore throat with hoarseness.

Comments

Trif-p. has many symptoms of congestion. The head felt full of blood. The lungs felt full of blood. Sensation in lungs as if breathing hot air, as if air full of impurities. There was persistent headache on waking. Sleep was unrefreshing. The pulse was weak and intermittent, showing an action on the heart, later it was full and bounding.

Pharynx as well as trachea was irritated and there was: "Sharp pain through uvula causing tears to start." Dryness of trachea causing him to clear throat of some foreign substance. Secretion of urine increased. Dull, stupid feeling generally.

Farrington gives as characteristic: Hoarseness and choking spells at night with cough, the neck is stiff, cramps in sternomastoid muscle better by heat and friction.

Cooper says of Trif-p. that it causes salivation in horses and diarrhea if they eat much of it and that it cures mumps and disorders of the pancreas and salivary glands. Hale says it causes "heaves" in horses.

Another indication of Felter's is "scaly and ulcerated conditions of the tibial region of the old." The symptoms are worse in close room, better in open air. "When I became very warm with the fever my breathing stopped, lungs felt as if breathing hot air." Worse after sleep.

Compare

SOURCES

Boericke. Clarke.

Trifolium repens

(white clover)

Pharmacy

Trif-r. Trifolium repens. N. O. Leguminosae. Trituration or tincture of flower heads.

Historical dose: Tincture and all potencies.

Herbal

The proving of Trif-r. produced a specific action on the salivary glands. Hale says it produces marked salivation in horses. Feeling of fullness or congestion of all the salivary glands. Discomfort and even pain in glands followed by copious flow of saliva. One prover felt just as if she had mumps coming on. **Planets:** Mercury.

Homeopathic

Trif-r. is a prophylactic against mumps. Feeling of congestion in salivary glands, pain and hardening, especially submaxillary, worse lying down.

PAGE 1734

Mouth filled with watery saliva, worse lying down. Taste of blood in mouth and throat. Sensation as if heart would stop with great fear, better sitting up or moving about, worse when alone with cold sweat on face.

Clinical

Mumps. Salivation.

Trillium cernuum

(lamb's quarter, birthroot)

Pharmacy

Tril. Trillium pendulum. White beth root. Trillium erectum. Purple Trillium. Birthroot. Lamb's quarter. Rattlesnake root. Wake Robin. Three-leaved nightshade. N. O. Smilacaceae or Trilliaceae of the Liliaceae. Millspaugh considers T. erectum as the proper source of the homeopathic tincture. Tincture of the fresh root. Historical dose: Tincture and all potencies, tincture and lower potencies.

Herbal

According to Millspaugh T. pendulum is the white variety of T. erectum. The Treasury of Botany gives the names as synonymous. The symptoms of H. Minton, the original prover, are given in Allen under T. Cernuum. The chief uses of Trillium pendulum come to us from the eclectics, who learned some of them from the native Indians. The popular name Birth-root sufficiently indicates one part of its reputation.

Homeopathic

Trillium pendulum is a great hemorrhagic medicine. Chronic diarrhea of bloody mucus. Uterine hemorrhage. Threatened miscarriage. Cramp-like pains. Tuberculosis with purulent and copious expectoration and spitting of blood. Hemorrhages of all kinds with pregnancy. Hemorrhages after childbirth, menopause, from fibroid tumors, gushing, bright red.

Hemorrhage with great faintness and dizziness. Relaxation of pelvic region.

Clinical

Bladder, catarrh. Menopause. Diabetes. Dysentery. Fainting with flooding. Fibroids, bleeding. Hemorrhages. Menorrhagia. Metrorrhagia. Writer's cramp.

Constitutions

Tril. is suited to women who bleed after every labor pain, flabby subjects. **Planets:** Moon.

Modalities

Better by exercise in open air. Better from exertion in open air. Better from a tight bandage. Better bending forward. Worse sitting erect. Worse from motion, menopause, sitting erect. Worse after eating.

Standing or walking causes bearing down in pelvis. Motion aggravates hemorrhages.

Symptoms

MIND

Irritable. Melancholy with sadness. Repugnance to conversation. Anguish, agitation and tossing about, impossible to keep still.

Abdomen

Swelling of abdomen as in ascites. Much flatulence and grumbling.

Eyes

Feel too large and as if would fall out from their sockets. Vision blurred, everything looks bluish.

Female

Menses even two weeks. Uterine hemorrhages with sensation as though hips and back were falling to pieces, better tight bandages. Gushing of bright blood on least movement. Hemorrhage from fibroids. (Calc., ThalSpig., Phos., Ust.) Prolapsed uterus with great bearing-down. Leucorrhea is copious, yellow, and stringy. (Hydr., Kali-bi., Sabin.) Metrorrhagia at menopausal. Lochia suddenly becomes bloody. Varicose veins of pregnancy. Dribbling of urine after labor. Profuse long-lasting bloody lochia.

Head

Dull pain worse noise, walking, coughing, better bending forward. Pain in forehead, worse noise. Confused, eyeballs feel too large. Headache worse by least noise, walking, coughing.

Heart

Palpitations with great anxiety.

Limbs

Cramping pains in muscles of arms and calves.

Lungs

Cough with spitting of blood. Copious and purulent expectoration. Hemoptysis. Aching at end of sternum. Suffocative attack of irregular breathing with sneezing. Shooting pains through chest.

PAGE 1735

Mouth

Bleeding from gums. Bleeding after tooth extraction. Greasy feeling on tongue and gums. Very offensive taste, especially on rising in morning.

Nose

Profuse nosebleed. (Mill., Meli.)

Rectum

Chronic diarrhea with bloody discharge. Dysentery with passing of almost pure blood. Diarrhea thin, watery, tinged with blood, painless. Constipation succeeded by thin, watery, very offensive diarrhea.

Sensations

As if eyes too large, As if a crumb were in larynx. As if the chest was tightly bound and could not be expanded. As if hips and small of back were falling to pieces. As if sacroiliac joint were falling apart, wants to be bound tightly. As if bones were broken. Left side most affected.

Skin

Skin hot and dry, with itching and burning, worse by scratching.

Stomach

Sickness, excessive pain, cramp of stomach. Faintness and sinking at stomach. Heat and burning stomach rising up in esophagus. Hematemesis. Sinking in stomach with heat.

Temperature

Feverish during pain in abdomen, on the subsidence of which a profuse perspiration broke out.

Vertigo

Vertigo on rising in morning.

Comments

In hemorrhage, ante-partum and menopausal in fibroid tumors and in hemorrhages of all kinds Tril. has been found curative. Both the white and the purple varieties have been used.

Minton's proving of Tril. cernuum brought out the hemorrhagic property in the blood tinged diarrhea. One characteristic in connection with the hemorrhages of Tril. is faintness and sinking at the stomach, also cold limbs and rapid, feeble pulse. "Flooding with fainting" is a keynote.

Minton's proving brought out a symptom bearing on this: "Sensation of emptiness in abdomen." He had also extreme debility, palpitation and anxiety.

Tril. has been used as a local hemostatic in nosebleed and for bleeding after tooth extraction. The hemorrhages of Tril. are copious, either active or passive, usually bright red and profuse.

Restless tossing agitation, fear of being sick, great anguish were experienced by Minton.

The restlessness and exhaustion from hemorrhages are typified in this. Blue vision and craving for ice-water are other noteworthy symptoms. There is tendency to putrescence of fluids.

Compare

(1) Trillium cernuum - eye symptoms, everything looks bluish, greasy feeling in mouth.

(2) Ficus - hemorrhages, menorrhagia, hematuria, nosebleed, hematemesis, bleeding hemorrhoids.

Trinitrotoluenum

(t.n. t.)

Pharmacy

Trinit. Trinitrotoluenum. T.N. T. Trotyl. Historical dose: All potencies, thirtieth potency.

History

T.N. T. is a high explosive, obtained by nitrating toluene, a product of coal tar distillation. When the skin or hair is exposed to T.N. T. by contact a characteristic yellow or tawny-orange stain is produced, which lasts for some weeks. Indicated in graver forms of anemia (pernicious) and jaundice. Produces fatal toxic jaundice.

Symptoms found in ammunition workers handling T.N. T. who inhale and ingest it and also absorb some through the skin. They were compiled by Dr. C. Wesselhoeft and published in the December, 1926 number of the Journal of the American Institute of Homeopathy. **Planets:** Mars.

Homeopathic

The destructive action of Trinit. on the red blood corpuscles is responsible for the anemia and the jaundice with their secondary symptoms.

PAGE 1736

The hemoglobin is changed so it cannot act satisfactorily as an oxygen carrier and as a result we have breathlessness, dizziness. Headaches, faintness, and palpitations.

Undue fatigue, muscle cramps and cyanosis, also drowsiness, depression and insomnia.

Later stages of the poisoning produce toxic jaundice and aplastic anemia. The jaundice is the result of cellular destruction in contrast to obstructive jaundice. Faintness, dizziness, mental sluggishness, delirium, convulsion, coma. Face very dark.

Clinical

Anemia. **Heart**, disorders.

Modalities

Worse alcohol, falls after one or two drinks of whisky.

Symptoms

MIND

Depression. Aversion to company. Apathetic and cries easily. Mental sluggishness, delirium.

Food

Aversion to tea. Alcohol aggravates.

Head

Frontal headache and depression.

Heart

Palpitations, tachycardia and bradycardia. Intermittent pulse.

Kidneys

High colored urine, burning on urination, sudden desire incontinence and retention.

Lungs

Nose dry with stuffed sensation. Burning of trachea, choking weight on chest, dry, convulsive cough, raising mucous plugs.

Nose

Sneezing, coryza.

Skin

Tendency to hemorrhage under the skin and from the nose. Hands stained yellow.

Dermatitis, nodular erythema, vesicles, itching and burning, puffiness. Tired pain in back of knees.

Stomach

Bitter taste, much thirst, sour regurgitation, dull burning behind the ensiform, nausea, vomiting, constipation followed by diarrhea with cramps.

Compare

Triosteum perfoliatum

(fever root)

Pharmacy

Trios. Fever root. *Triosteum perfoliatum*. Feverwort. Wild coffee. Horse-gentian. N. O. Caprifoliaceae, Tribe, Lonicereae. Tincture of fresh root. Historical dose: Tincture and all potencies, 5c to 30c.

Herbal

The name "fever-wort" tells its traditional reputation. Hale says it is one of the ingredients of the "fever powder" of the eclectics. Talmadge, one of the provers, found it of great value in typhoid and gastric fevers. It produced acute rheumatic symptoms and an intense urticaria.

Triost. is an energetically acting drug and has been proved by Williamson, Neidhard, Gatchell and other experienced provers. The symptoms were established by Raeside on fifteen provers, (eight men and seven women) in 1959-60. Raeside used the 8c potency, at the rate of one dose every morning until the symptoms appeared. **Planets:** Mars.

Homeopathic

Trios. is traditionally prescribed as a febrifuge. Above all, it causes vomiting, gastric pains, generalized pains, fever with agitation and insomnia. It is a very valuable remedy in diarrhea attended with colicky pains and nausea, Numbness of lower limbs after stool and increased flow of urine, also in influenza.

Influenza with aching pains all over with heat in the limbs. Acute encephalitis in infancy, especially after diphtheria, measles, whooping-cough. Biliousness. Gallbladder colic. Sudden weariness around 2 a.m. and 4 p.m. Sensation of sleeping standing up.

Sensation of needles all over the body when hot. Generalized pain in the upper and lower limbs.

Trios. quiets the nervous symptoms. (Coff., Hyos.) Dryness of the mucous membranes of the lips, mouth and throat. Dry cough. Generalized itching, especially on the scalp and limbs of the upper and lower limbs. Erythema, eruption of flat, hard nodules, brown or purple in color, on the joints in the limbs.

Clinical

Asthma. Backaches. Breast pain. Encephalitis. Fevers. Headache, bilious. Herpes zoster. Infections. Influenza. Joints, stiff. Measles. Rheumatism. Scarlet fever. Typhoid. Typhus fever. Urticaria.

PAGE 1737

Modalities

Better from rest, fresh air. Better cold drinks and solitude. Worse early morning, 3 to 7 a.m. Worse Sitting up, rising from bed, turning in bed, lying. Worse after sleep. Worse drinking cold water. Worse from heat, movement, at night, on waking and in the evening.

Symptoms

MIND

Depression, irritability, difficulty in controlling himself. Euphoria, followed by a state of depression. Nervous and sleepy, cannot concentrate. Mental exhaustion. Feels isolated, better when alone. All mental activity requires a great effort. Irritated by noise and in the evening. In the evening, feels in a rage, difficult to control himself. Tends to quarrel bitterly, argumentative.

Abdomen

Epigastric pain spreading to the thorax and throat. Flatulence, after drinking milk. Enterocolitis. distended and full of gas. Colic, especially in the right iliac fossa and the hypogastrium. Sharp pain in the left side of the groin. Pain in the coccyx.

Back

Painful stiffness of the back.

Chest

Pressing pain in the precordial region when lying on the left side. This dull ache can be all over the thorax, but predominates in the retro-sternal region with thoracic constriction. Swollen glands in right axilla.

Ears

Constant earache in the left ear and discharge. Buzzing noises, worse when lying down. Itching around the ears. Otitis.

Eyes

Smarting and hot, painful, especially when closed. Left eye swollen, red and hot. **Eyes** water, difficult to focus. Eyelids irritated, especially the right side. Twitching of right eyelid in the evening. Blepharitis. Conjunctivitis.

Female

Irregular cycle, either late or early menses. Menses long and late. Menses painful, scanty. Menses scanty or menorrhagia.

Food

Loathing of food. Worse after drinking milk. Painful hungry feeling, aggravated around 11 a.m. and in the evening.

Head

Occipital pain with nausea on rising, followed by vomiting. Frontal headache. Dull pain, pulsating or pressing, located at the forehead, occiput or temples. Pressing headache at the left temple and occiput and on the right side of the forehead. Stinging, needle-like pain in the left orbital region. Painful tenderness of the scalp and hair when touched.

Heart

Angina pectoris. Arteritis of the coronary arteries. Pulse slow and weak.

Kidneys

Frequent urination. Smell of ammonia in the urine. Adenoma of the prostate gland. Cystitis. Pyelonephritis.

Limbs

Generalized pains in the upper and lower limbs. Stiffness of all joints, calves numb, aching in the bones. Rheumatic pain in back. Pains in limbs. Numbness of the lower limbs after going to stool. Burning, pulsating pains in the right axilla, where the glands are swollen. Cramping pain in the left shoulder and arm in the two lower limbs and in the fingers of the right hand.

Lungs

Dry cough, caused by irritation of the larynx after eating. Cough, especially in the evening, aggravated in a warm room. Sensation of choking, has to grope for breath. Bronchitis. Asthma.

Mouth

The mouth and lips are dry. Mouth like parchment, hot with paraesthesia of the lips. Fissure on the lower lip, painful ulcerated areas on the mouth, palate and lips. Sensation of a bitter taste, upper teeth painful. Tongue white and seems swollen.

Nose

Ozaena. Coryza with running nose, thick, green discharge with sneezing. Dryness of the nose and ears. Dull, continual aching behind the root of the nose. Painful right-sided sinusitis and hyperesthesia of the left side of the face. Spots on the nose. Nosebleed and smell of blood in the nose. Rhinitis. Sinusitis, spasmodic coryza.

Rectum

Stools watery, frothy. Proctitis. Hemorrhoids. Constipated. Relief is possible after great effort to pass stools, which produces small, hard stools.

PAGE 1738

Stools followed by diarrhea and nauseating wind. Rectal pains, stabbing, aggravated by pushing to evacuate, worse after passing stools. Rectal burning with anal itching, especially at night.

Skin

Itching welts. Urticaria from gastric derangement. Itching of the whole body. Itching, especially of the feet, scalp, palms of hands, where there is a dry eruption. Erythematous eruption on the calves, back, scrotum and on the inside of the thighs. Patches of brown on the skin. Peeling of the skin on the abdomen. Hyperesthesia of the skin, profuse perspiration, worse at night and from exercise. Itching eruption on the shoulders and

between the scapulae. Soles of feet itchy in the evening and in bed. Erysipelas. Erythema. Eczema. Urticaria.

Stomach

Acrid dyspepsia. Loathing of food, nausea on rising, followed by vomiting and cramps. Nausea, worse after meals, thirsty for cold drinks, which soothe.

Throat

Painful, irritated, especially at night and on waking. Pharynx red, causing a sensation of constriction. Tickling feeling causes coughing, the left tonsil is painful. Better by drinking cold drinks, even though swallowing is painful. Hoarseness, aggravated when speaking and in fresh air. Tickling feeling at the back of the throat with constriction, stifling feeling, causing a dry cough.

Comments

Talmadge says of the effect on himself: "Trios. acted promptly and emphatically, causing aching pains in nearly every part of the body, especially of lower limbs and head." The right side of the head was more affected than the left. The stomach was very much disordered. The vomiting and pain in the stomach were very severe. At the anus there was itching and exudation of mucus.

A peculiar concomitant of the evacuations was: numbness of the lower limbs after stool. Many symptoms came on in the early morning hours. One prover, though sleepy, could not sleep after midnight.

Triticum repens

(couch-grass)

Pharmacy

Tritic. Triticum repens. Couch grass. Agropyron repens. Cutch-grass. Quitch grass. N. O. Gramineae. Tincture of fresh plant. Historical dose: Tincture and all potencies, tincture or infusion by boiling two ounces in a quart of water until it is reduce to a pint. To be taken in four doses in 24 hours.

Herbal

Burnett tells how he learned of a herbalist the use of Tritic., the herbalist having cured with it a patient of Burnett's, a man suffering from dysuria. Burnett has found it no less valuable for women than for men.

"Frequently in dysuria from an inflamed state of the urethra, Tritic., ten drops in a little water, frequently repeated of prompt effect often giving complete relief in a few hours and if the ailment is primarily in the urethra the relief is an abiding cure, if from a tugging of the heavy womb, it is only relief."

Burnett gives this case: A widow, was suffering from a complete procidentia uterus and very bad hemorrhoidal bleeding. She wrote that she was driven almost mad with painful urination, the burning and straining were truly awful.

PAGE 1739

Tritic., as above, was ordered and brought a most grateful letter from the patient. She keeps a supply always at hand. **Planets:** Venus.

Homeopathic

Tritic. is an excellent remedy in excessive irritability of the bladder, dysuria, cystitis, gonorrhoea. Chronic bladder irritability. Strangury, pyelitis, enlarged prostate. Incontinence, constant desire. Frequent, difficult and painful urination. (Pop.) Catarrhal and purulent discharges. (Pareira.) Urine is filled with gravel and sediment which causes irritation of the mucous surfaces. Always blowing nose.

Trombidium muscae domesticae

(red acarus of the fly)

Pharmacy

Trom. Trombidium muscae domesticae. Acarus. Red acarus of the fly. N. O. Acarudea, Class, Arachnida. Tincture of the animals. Historical dose: All potencies, sixth to thirtieth potency.

History

Tromb. is a parasite found singly or in groups upon the common house-fly of a bright red color, nearly circular in shape. The alcoholic tincture, a brilliant orange in color was prepared from specimens, about 115 in number, collected in Frankfort, Philadelphia in 1864. The provings, under the supervision of Hering, were made with the 3x, 6x, 9c, 18c. and 30c potencies. Tromb. has cured dysentery with brown, thin, bloody stools and tenesmus. **Planets:** Moon.

Homeopathic

Trombidium has a specific place in the treatment of dysentery. Symptoms are worse by food and drink. Brown, thin, bloody stools, much pain before and after stools. Stools only after eating. Mucus discharge from nose while eating dinner.

Inability to keep quiet. Weakness. Felt better in evening, better in open air. Rising up causes fainting. Reading aloud causes toothache. Rheumatic pains in left shoulder, arm, knee, and region of heart.

Clinical

Anus, prolapsed. Diarrhea. Dysentery. Hip-joint, pain. Liver, pain. Nose, catarrh. Sciatica. Tibia, pain. Toothache.

Modalities

Warm drink improves toothache. Open air improves coryza. Worse by touch, pressure. Worse shaking head. Worse moving. Cold air worse toothache. Cold bath aggravates pain in abdomen. Worse eating or drinking. Worse after stool.

Symptoms

MIND

Talkative during day, disposed to be contrary. Constant disposition to gape. Inability to collect ideas. Absence of ideas. Loss of memory.

Abdomen

Much pain in abdomen before and after stool. Griping in hypochondrium in morning. Congestion of the liver.

Chest

Cutting to right of lower part of sternum. Sharp pain in lower part of chest. Throbbing all over chest from 9 till 11 a.m.

Ears

Shooting in ears in afternoon, worse swallowing or blowing nose. Itching in ears after rising. Burning in ears in evening.

Eyes

Redness of internal part of conjunctiva, similar to a pterygium. Lachrymation in open air. Itching at right inner canthus.

Food

Appetite lost.

Head

Oppressive headache. Dullness of head in forenoon. Head heavy, sometimes sharp pains in temples.

Lungs

Hoarseness. Hacking cough from irritation in throat.

Mouth

Tongue coated white.

PAGE 1740

Nose

Nose obstructed on rising. Fluent coryza in open air and on eating. Mucus discharge from nose, worse during dinner. Dryness of nose in evening, with scabs. Nosebleed in morning, afternoon.

Rectum

Burning in anus. Sharp pain in left side, shooting downward during stool. Urgent, loose, stools on rising. Stool only after eating. Brown, thin, bloody stools with tenesmus.

Sensations

As if there were no weight in ear, lightness. As from incarcerated flatus in abdomen. As if excoriated after tenesmus. As if everything were coming out of anus. As if hot air blowing over lower abdomen and thigh. As if abdomen needed support. As if three toes on left foot would be twisted off. As if her breath were leaving her.

Skin

Pimples on nape in evening. Itching in spots on chin and among whiskers, in evening, and about neck.

Sleep

Constant inclination to gape through day, in afternoon. Sleepiness. Restless sleep. Wakefulness after 4 a.m. , with restlessness. Lewd dreams.

Stomach

Belching after meals, tasting of ingesta. Vomiting after breakfast, thought it was from drinking coffee. Gripping in pit of stomach, worse after dinner.

Teeth

Aching in left decayed tooth, worse lying down, eating, talking, and cold air. Toothache better warm drinks.

Temperature

Chilliness at night, worse morning on waking. Fever in afternoon, with pulsation in arteries of head and aching on occiput and small of back.

Throat

Throat sore on right side.

Vertigo

Lightness of head. Dizziness, on every attempt to rise from bed, with faintness.

Comments

The grand keynote of Trom. is "worse by eating or drinking." The symptom may be in the nose, teeth or tonsils, this modality is characteristic. On this indication Clarke has cured some of the worst cases of diarrhea and also intestinal pains coming on when the patient eat or drinks. A keynote in diarrhea and dysentery is: "Much pain before and after stool, stool only after eating." Congested liver with urgent, loose stools on rising from bed.

During stool, sharp pain in left side, shooting downward. Skin symptoms were strong, especially itching of scalp and in whiskers. Fainting on rising up. Restlessness inability to keep quiet.

Tropaeolum majus

(indian cress)

Pharmacy

Trop. Tropaeolum majus. Indian Cress. Garden Nasturtium. N. O. Tropaeolaceae.

Tincture of fresh plant. Historical dose: Tincture and all potencies.

HERBAL

Tropaeolum is a native of Peru. It is called "Cress" and "Nasturtium" because the taste of the leaves was considered like the taste of cress and they have been used like cress in salads. The seeds make pickles and are used as a substitute for capers. **Planets:** Venus.

Homeopathic

A patient to whom Cooper gave Trop. noted that it made the urine extremely fetid in smell. On this keynote Cooper has relieved several cases of urinary difficulty, giving single doses of the tincture.

Clinical

Urine, fetid.

SOURCES

Clarke.

Tuberculinum bovinum kent

(tuberculosis nosode)

Pharmacy

Tub. Tuberculosis Nosode. The Tuberculinum Bovinum of Kent. Tuberculinum of Koch. This nosode is prepared either from tubercular abscess or from a glycerine extract of pure cultivation of human tubercular bacillus. Liquid potencies. Historical dose: Tincture and all potencies, thirtieth and higher in infrequent doses.

Tub. Tuberculosis Nosode. The Tuberculinum Bovinum of Kent. Tuberculinum of Koch. This nosode is prepared either from tubercular abscess or from a glycerine extract of pure cultivation of human tubercular bacillus. Liquid potencies. Historical dose: Tincture and all potencies, thirtieth and higher in infrequent doses.

History

Clarke does not find any appreciable difference between the action of Tub. and that of Bac. His own impression is that they are practically identical and that the one will answer to the indications of the other. The first provers were tuberculosis patients and only pathogenetic symptoms are recorded. Tub. 30c was used.

Homeopathic

Tuberculinum affects the mind, lungs, head, occiput, glands and larynx. It is indicated in kidney disorders in chronic cystitis. Valuable in the treatment of early stage tuberculosis. Patient always tired, motion causes intense fatigue, aversion to work, wants constant changes.

When symptoms are constantly changing and well-selected remedies fail to improve and cold is taken from the slightest exposure. Rapid emaciation. Great value in epilepsy, neurasthenia and in nervous children. Diarrhea in children running for weeks, extreme wasting, bluish pallor, exhaustion. Mentally deficient children. Enlarged tonsils. Skin affections, acute rheumatism. Very sensitive, mentally and physically. General exhaustion. Nervous weakness. Trembling. Epilepsy. Arthritis.

Chronic, enlargement of the glands, adenoids. Tubercular miasm. Relapsing states. Always tired, motion causes intense fatigue. Increasing exhaustion and lowered vitality. Rapid breakdown of health.

In tuberculosis where the symptoms are constantly changing and begin suddenly, ceasing suddenly or of obscure nature and well selected remedy fails to improve. Weakness, emaciation with good appetite. Patient catches colds easily on slightest exposure, which ends in diarrhea. Very susceptible to changes of weather.

Quiverings. Epilepsy. Neurasthenia. Very sensitive mentally and physically. Sensitive to music. Nervous weakness. Trembling.

Clothes feel very damp. Bruised pain throughout the body. Bones painful. Formication. Faintings.

Clinical

Acne. Albuminuria. Allergies. Appendicitis. Asthma. Bones, decay. Bronchitis. Catarrh. Chilblains. Chilly. Colds. Cornea, opacity, ulceration. Coughs. Dentition. Diarrhea. Dyspnea. Ear infections. Edema. Emaciation. Epilepsy. Erysipelas. Erythema. Glands

swollen. Hematuria. Hemoptysis. Headache. **Heart**, disorders. Hyperactivity. Influenza. Leprosy. Leucorrhoea. Lungs, disorders. Lupus. Mania. Menses, early. Nephritis. Neurasthenia. Night-sweats. Night-terrors. Paralysis. Pleurisy. Pneumonia. Throat, sore. Tuberculosis.

Causations

Tuberculosis.

Constitutions

Tubercular constitutions. Lax fiber, low recuperative powers and very susceptible to changes in the weather. Mentally deficient children. Adapted to light complexioned, narrow chested people. **Planets**: Mercury, Saturn, Moon.

Modalities

Better open air, cool wind. Worse from close room, motion. Worse by slightest exertion. Worse from noise, music, standing. Worse from before a storm, change of weather, damp, cold, drafts. Worse periodically, awakening, early morning and after sleep. Worse morning, much purulent expectoration, sickness and nausea, loss of appetite, thirst, fatigue. Worse from 10 to 3 p.m. Worse evening, night. Worse beginning to sleep. Worse after dinner.

Symptoms

MIND

Dissatisfied and restless, always wants a change. Desire to travel, does not want to remain in one place long. Wants to do something different or even to find a new doctor, weary of life. Reckless. Depressed, melancholy, hopeless. Anxious.

Whines and complaints with very little ailment. Contradictory behavior, changing moods. Fear of animals of dogs.

PAGE 1742

Averse to cats. Mania and melancholia. Irritable, especially when awakening. Fits of violent temper, wants to fight, throws anything at anyone even without a cause. Desire to use foul language, curse and swear. Sensitive to music. Every trifle irritates, worse awakening. Aversion to mental work. Confusion everything in the room seems strange.

Abdomen

Tabes mesenterica. Inguinal glands indurated and visible. Drum belly. Spleen region bulging out, stitching pain in sides after running.

Back

Tension in nape of neck and down spine. Chilliness between shoulders or up the back. Pain in the back with palpitations.

Breasts

Severe pain in breast at the beginning of menses. Breast tumors, benign. Retraction of nipples.

Chest

Heat in chest. Sore spot in chest. Pressure in chest. Sticking pain on both sides of chest in back.

Ears

Persistent offensive otorrhea. Perforation in ear drum with ragged edges. Tinnitus. Rushing in ears with heavy head. Sticking pain from pharynx to ears. Great aching in ears and teeth.

Eyes

Eczema of margins of eyelids. Sore bruised eyeballs worse turning them. Meningitis with squint.

Face

Old looking, edematous, pale. Aching in malar bones.

Female

Menses too early too profuse, long-lasting. Menses, soon after child birth. Dysmenorrhea, pains increase with the flow. Amenorrhea.

Food

Loss of appetite, especially in morning. Aversion to meat to all food. Desire for cold milk. Craves sweets. Thirst extreme, day and night.

Head

Intense pain, as of an iron band around head. Meningitis. Sensitive scalp. Periodical headaches. Deep violent head pains, tears hair or beats head with fist. Dashes against the wall or floor, worse motion. Shooting from over eyes (right) through the head to back of ear (left) or from right frontal protuberance to right occipital region. Brain feels loose.

Heart

Heaviness and pressure over the heart. Palpitations on taking a deep breath after evening meal.

Kidneys

Must strain at stool to pass urine. Bedwetting. Sticky urinary sediment.

Limbs

Hands and arms feel lame, unable to write or raise a cup or a glass. Finger tips brown. Sensation of fatigue in limbs. Cold feet in bed. Limbs feel weak or as if paralyzed worse dinner. Acute joint rheumatism. Pains in ulnar nerve.

Lungs

Asthma. Broncho-pneumonia in children. Hard, hacking cough, profuse sweating and loss of weight, rales all over chest. Cough, dry, hard, more during sleep, worse dyspnea with chill and red face worse evenings, worse raising arms. Pneumonia after influenza. Deposits begin in apex of lung. Expectoration thick, easy, profuse. Thick yellow or

yellow green sputum. Mucous rattle in chest without expectoration. Shortness of breath. Sensation of suffocation, even with plenty of fresh air, longs for cold air.

Mouth

Feeling as if the teeth were all jammed together and too many for his head. Teeth sensitive to air. Delayed dentition. Dryness, stickiness. Black blisters on lips.

Nose

Sweat on nose. Colds ending in diarrhea. Crops of small boils intensely painful, successively appear in the nose, green, fetid pus.

PAGE 1743

Rectum

Tearing in rectum on coughing. Early-morning, sudden diarrhea. (Sulph.) Stools, brown, foul, watery, discharged with much force. Chronic diarrhea with excessive sweat. Constipation, stools large and hard, then diarrhea. Diarrhea of children running for weeks with wasting, exhaustion and bluish pallor.

Sensations

As if the brain were squeezed with an iron ring. As if the teeth were jammed together and were too many for the mouth. Mucus in the throat of a tumor in the throat. Pressure in stomach going to throat as if the clothes were too tight. As if the clothes on the back were wet (Bac.).

Skin

Dry, harsh, sensitive, easily tanned, itching in cool air. Acne in tuberculous children. Measles, psoriasis, (Thyr.) Bran-like scales. Chronic eczema. Itching changes places on rubbing. Itching intense, worse at night.

Sleep

Insomnia and sopor. Nocturnal hallucinations, awakes frightened. Child wakes screaming with restlessness. Poor, wakes early. Night-sweats. Restless at night and screams in sleep. Dreams, distressing, vivid of shame, frightful. Awakes in horror. Shuddering sensation on falling to sleep. Overpowering sleepiness in daytime.

Stomach

All gone hungry sensation, (Sulph.) which drives one to eat. Belchings and sensation of fullness over stomach. Cramping pain in stomach. Nausea, vomiting. Nausea with pains in umbilical region with diarrhea.

Temperature

Loquacious during fever. Remittent fever. Profuse sweat. Sweat, easy, cold, clammy, on upper parts, on hands, worse coughing, stains yellow. General chilliness. Chilly, at beginning of sleep yet wants fresh air. Heat on cheek of affected side in spots. Flushes of heat worse eating. Burning in genitals. Wants covers on in all stages of fever.

Throat

Hoarseness better talking. Enlarged tonsils. Hawks mucus after eating. Adenoids. Dryness of the posterior sinuses.

Vertigo

Vertigo with obscuration of eyes. Vertigo is obliged to lean on something. Vertigo with palpitations, nausea. Vertigo with headache in morning after dinner.

Comments

Nebel has used Tub. in exactly the same way as Burnett and others have used Bac., on the indications Burnett laid down and with Burnett's results.

In 1892 Arnuphy began giving Tub. 6x and 8x trituration in acute and chronic tuberculosis cases, with encouraging success, but with at times undesired aggravations with 12x and 30x these were avoided.

In one case originating in influenza, both apices were affected, the right one breaking down and abundant pleuritic effusion on the left side. Six weeks' treatment with Tub. brought about recovery and seen a year later the patient was quite well except for retraction of the left side.

Arnuphy considers that Tub. is frequently the remedy for bronchitis, catarrhal pneumonia, lobular pneumonia, tubercular pleurisy, parenchymatous nephritis and influenza. He gives two cases of acute lobular pneumonia with characteristic symptoms and high temperatures quickly resolved by Tub.

One was in a boy of three who received the 12x, the other was a man, 78, being a sufferer from chronic bronchial catarrh. The latter was taken with influenza, pneumonia developed and he was in a very serious state. Tub. 30x made an almost immediate change for the better and recovery followed.

Arnuphy relates that in this case an abundant perspiration took place (the skin had been dry) during the night and he has observed this in all cases of pneumonia when Tub. acted favorably. Clarke has found Tub. 30c, 100c, 200c and 1000c the best general antidote to the chronic effects of influenza poisoning.

A curious use has been made of Tub. by Jauregg of Vienna in a case of insanity. Having observed that cases of insanity are always benefited by an attack of an acute infectious disease, especially if it is accompanied with high fever.

PAGE 1744

The idea occurred to him of utilizing the fever produced by Koch's Tuberculinic injections. He tried it on some patients and though the decidedly favorable symptoms soon disappeared after the fever subsided, still there was a steady clearing of the confused sensorium.

Insanity is very frequently a manifestation of the tuberculosis miasm and there is something more than a pyrexial power in Tub. Fatigue, faintness, profuse debility are frequent symptoms.

Great weakness in the limbs after dinner: this at times amounts to paralysis. The circulation is always disturbed, chills and flushes alternating. "Shivering when beginning to sleep" is a peculiar and interesting symptom, also "cold feet in bed," which is common in persons of low vital reaction.

Compare

(1) Bacil., Phos., Sil.

(2) Tub. Aviare, Formic acid. Stann., (3) Psor., Lach. Kalagua.

(4) Teucrium scoradonia - tuberculosis, garlicky odor of all secretions and breath.

Relations

Vaccinosis may block the way of action of Tuberculinum until Thuja has been given. When Tuberculinum fails Syphilinum often follows, producing a positive reaction.

Complementary: Bac., Phos., Calc., Chin., Bry.

SOURCES

Boericke. Clarke. Phatak.

Tuberculinum avis

(chicken tuberculosis)

Pharmacy

Tub-a. Tuberculinium Aviaire. Chicken Tuberculosis. Historical dose: All potencies.

History

Dr. Cartier gave an account of this nosode in his paper read at the International Homeopathic Congress, 1896. Tub. Aviaire acts most prominently on the apices of the lungs and it corresponds most closely to the bronchitis of influenza, which simulates tuberculosis, having cured several hopeless-looking cases.

It has also done excellently in some cases of bronchitis following measles. The bacillus of avian tuberculosis has been identified with that of human tuberculosis.

But the clinical properties of the two nosodes are not identical. **Planets:** Mercury.

Homeopathic

Tub. Aviaire acts on the apices of the lungs, has proved an excellent remedy in influenza bronchitis, symptoms similar to tuberculosis, relieves the debility, diminishes the cough, improves the appetite and braces up the whole organism, acute broncho-pulmonary diseases of children.

Itching of palms and ears. Coughs are irritating, incessant and tickling, loss of strength and appetite, (Hydr. to fatten patients after tuberculosis).

Clinical

Bronchitis. Colds. Influenza. Measles. Pneumonia. Tuberculosis.

Comments

Anshutz relates a case of a woman who entered the hospital suffering from influenza and who, a few days after a slight amelioration of her symptoms, was attacked with a pulmonary congestion, clearly localized in the top of the left lung and accompanied by all the clinical symptoms of tuberculosis.

Rales and moist crepitation, dullness, exaggeration of the thoracic vibration, expectoration, fever, perspiration, spitting of blood. Examination of the sputa showed distinctly the presence of Koch's bacilli. Anshutz gave her Tub. Aviaire and in three weeks all the symptoms had left. That woman left the hospital completely cured and a year later her health was still perfect.

Anshutz noted ten cases of influenzal bronchitis with incessant coughs, fever and expectoration, rapidly cured by Tub. Aviaire.

It seems that Tub. Aviaire does not act in diminishing the cough like an anodyne, but braces up the whole organism. The relief of debility and the return of appetite are the phenomena which was observed in conjunction with the diminution of the cough.

PAGE 1745

In contrast with Bacillinum, Tub. Aviaire has considerable cough and little dyspnea. It has an acute, irritating cough, such as one meets with in acute diseases or sub-acute disorders in young people.

A cough which fatigues and which leads to enfeeblement and loss of appetite, a suspicious cough.

Compare

(1) Bacil., Bac-t., Tub., Ars-i.

SOURCES

Anshutz. Boericke. Clarke.

Tussilago farfara

(coltsfoot)

Pharmacy

Tus-fa. Tussilago farfara. Coltsfoot. British Herb Tobacco. N. O. Compositae. Waste, sandy, clayey banks. Tincture of fresh plant. Historical dose: Tincture and all potencies. Herbal

Cooper states that Tussilago farfara is used to this day in the form of a confection for coughs. The leaves are mucilaginous and were much used in scrofulous disorders.

Smoking the dried leaves relieves coughs. **Planets:** Mercury.

Homeopathic

Tussilago farfara as an intercurrent medicine in tuberculosis of lungs. (Tub.) Coughs. A popular reputation in gonorrhoea.

Clinical

Coughs. Scrofula.

SOURCES

Clarke.

Tussilago fragrans

Pharmacy

Tus-fr. Tussilago fragrans. Petasites fragrans. Italian Tussilage. Fragrant Tussilage. N. O. Compositae. Tincture of whole plant. Historical dose: Tincture and all potencies.

History

Demesnes proved Tus-fr. taking three drops of the tincture on the tongue. After first causing a disagreeable, spiteful mood, it set up in a few days, an opposite condition, which lasted some time. A journey taken on the ninth day of the proving, which usually caused loss of weight, did not do so. **Planets:** Jupiter.

Homeopathic

Tus-fr. has a peculiar sensation induced was as if a morsel of food lay at the bottom of the cardia and would not pass. Stoutness increased and plethora was added, later on the abdominal protuberance permanently disappeared.

Clinical

Obesity. Plethora.

SOURCES

Clarke.

Tussilago petasites

(bitter-burr)

Pharmacy

Tus-p. Tussilago petasites. Petasites officinalis. Petasites vulgaris. Bitter-burr. N. O. Compositae. Grows on sandy meadows on the banks of streams. Tincture of whole fresh plant. Historical dose: Tincture and all potencies, 3x to 30c.

Herbal

Tussilago petasites grows in the Central and Northern Europe. Tussilago means "coughwort." It is "a genus of Compositae established for three or four species of Tussilago, which have the flower-heads partially dioecious in racemes, sometimes branching into panicles. The essential characters which separate them from the common Coltsfoot (Tussilago farfara) are very slight and the foliage is the same" (Treasury of Botany).

Tussilago petasites grows on river-banks that are little trodden on. The roots are an admirable medicine in the worst kind of fevers with boils or buboes" (Green's Herbal). It is a medicinal plant used as a diaphoretic in the Middle Ages. Its pharmacological action is sudorific, diuretic, emmenagogue and anti-asthmatic. It has been used for uterine cramps, coughs, hoarseness and urinary disorders.

In 1847 it was the object of a fragmented Homeopathic proving by Kuchenmeister and in 1960 of a pharmacological study by Karl Haas. A recent pharmacological study of the root extract revealed a product with anti-spasmodic action. **Planets:** Venus.

Homeopathic

Tus-p. has some action on the urinary organs and found useful in gonorrhoea. Affections of pylorus. Irritation of the urethra. Crawling in urethra. Gonorrhoea, yellowish, thick discharge. Erections with crawling in the urethra. Inflammation and pain of the spermatic cord. Pains in the frontal sinuses. Lumbar pain.

Clinical

Gallbladder colic. Gonorrhoea. Headache. Kidney colic. Lumbago. Night-sweat. Orchitis. Prostatitis. Pylorus disorders. Sinusitis. Spasmodic cough. Throat, sore. Tibia, pain.

Uvula, burning.

PAGE 1746

Modalities

Worse by pressure, (pains in pylorus). Worse standing, (lumbago). Drinking causes belchings. Worse from walking.

Comments

Kuchenmeister and five others took substantial doses. Most noticeable among the symptoms are: a lumbago of very great severity. Tightness of the chest. A headache shifting from one part of the head to another during two days. A pain about the pylorus. A urethritis with yellow discharge. The last has been confirmed clinically.

Hansen gives the indication: "Acute or chronic gonorrhoea, yellow or white, thick discharge." Crawling in urethra, jerking in spermatic cord and drawing in right testicle are additional symptoms of the proving

Rosenberg gives some experiences: (1) An extremely violent gonorrhoea, penis swollen, painful, emission of urine extremely painful, mixed with blood, patient feverish and restless. Tus-p. was given in water.

There was a great aggravation of all symptoms in thirty-six hours. The remedy was discontinued and marked amelioration followed. Resumed again, much diluted, rapid cure followed. The remedy was used externally as well in this case.

(2) Chronic ophthalmia, the result of gonorrhoea. "cured" with turpentine. Tus-p. restored the discharge and then cured. Rosenberg refers to a writer who says of the plant that if it is macerated in water, the water will not spoil even if kept for years.

Compare

(1) Tussilago farfara or Tussilago fragrans - pylorus pain, plethora and corpulency.

(2) Pain in pylorus - Tus-fr. is as if a morsel had lodged at bottom of cardia.

(3) Lumbago, Ant-t.

(4) gonorrhoea, Thuj.

PAGE 1747

Ulmus campestris

(slippery elm bark)

Pharmacy

Ulm. Ulmus campestris. Ulmus Fulva. Slippery elm. Red Elm. Moose Elm. N. O.

Ulmaceae of the Urticaceae. Grows in the mountains of Canada and Pennsylvania.

Pounded dried inner bark. Decoction of dried bark. Tincture of fresh bark. Historical dose: Tincture and all potencies.

Herbal

A decoction of the viscous inner bark of Slippery Elm is used as a poultice for painful inflammations. In a case in which the mucous membrane of the rectum was dry and extremely painful, Burnett relieved the sufferings with 20 drop doses of the tincture. The triturated bark gives much relief as a snuff in old vascular deafness with tubal obstruction, (Cooper). **Planets:** Mercury.

Homeopathic

Constipation. Deafness. Hemorrhoids. Herpes. Pain. Sore throats. Syphilis.

SOURCES

Clarke.

Uncaria tomentosa

(cat's claw)

Pharmacy

Uncaria Tomentosa. Cat's Claw. Una de Gato. Tincture from the inner bark. Historical dose: Tea, Capsules of powdered herb. Tincture and all potencies.

Herbal

Uncaria Tomentosa or Cat's Claw has been used by the Ashaninka Indians of the Peruvian Amazon. The inner bark and the root contain the same properties. The inner bark is preferred over the root, because stripping the bark does not kill the plant.

Cat's Claw is reputed to enhance immune function, increase energy and stamina. An ideal tonic for those who are mentally, emotionally and physically exhausted from overwork or excessive stress. Uncaria Tomentosa helps against viruses, radiation, chemical toxins and chemotherapy effects.

Clinical

AIDS. Arthritis. Asthma. Brain tumors. Cancer. Chronic fatigue syndrome. Circulation poor. Colitis. Crohn's disease. Exhaustion. Fibromyalgia. Prostate enlarged. Radiation poisoning. Ulcers. Virus effects. Weakness.

Comments

Hank age 53 had suffered from partial urinary blockage due to an enlarged prostate for over two years. After drinking three cups of Cat's Claw tea daily, using one teaspoon full of the powdered herb per cup. He reported that his symptoms dramatically diminished after three days.

SOURCES

Murphy.

Upas antiaris

Pharmacy

Upa-a. Upas antiaris. Resinous exudation of Antiarus toxicaria. Historical dose: All potencies.

History

Upas antiaris is used in Java as an arrow poison (Merrell). **Planets:** Mars.

Homeopathic

Upa-a. is a deadly poison to the muscular system. It suspends both voluntary muscular action and that of the heart without causing convulsions. It produces clonic spasms, violent vomiting, diarrhea, great prostration.

SOURCES

Boericke.

Upas tieuté

(upas tree)

Pharmacy

Upa. Upas tieute. Strychnos tieute. Upas tree. N. O. Loganiaceae. Tincture of the inspissated juice obtained from the root and bark. Historical dose: The tincture and all potencies, third to higher potencies.

History

The Upas of homeopathy is obtained from a Strychnos and must not be confounded with Antiaris toxicaria, the concocted juice of which forms the "Upas antiar" poison of the Javanese. S. tieute is a climbing shrub. Pitet made a courageous proving of it, carrying it to the length of producing tetanic symptoms. **Planets:** Moon.

PAGE 1748

Homeopathic

Upa. produces tonic spasms, tetanus and asphyxia. A large proportion of the symptoms occurred in the head and eyes. A remarkable headache was this: "Superficial drawing pain traverses left temple from before backward and ceases at outer angle of orbit, the part is hot and painful to touch."

The pains generally are pressive and lancinating. In the eyes there is pressure and feeling of a foreign body under the lids, severe pains in orbits inflammation of the conjunctiva of the lids, distorted vision.

Drowsiness is a feature in Upas. "Every morning weakness of the eyes with lachrymation, the lids being so heavy that they close involuntarily as if from drowsiness." Up. is chiefly a left-side remedy. There is pain in the left side of the throat as from a splinter on swallowing, pain in left sciatic nerve in left iliac fossa.

Clinical

Backache. Conjunctivitis. Eye, pains. Sexual excess. Tetanus.

Causations

Sexual excess.

Modalities

Better after rising, evenings after dinner. Better in open air (headache). Worse by touch, (pain in left iliac fossa). Worse pressure, (throat), by motion, by walking. Worse afternoon and evening. Worse morning.

Symptoms

MIND

Irritable. Disinclined for mental work.

Back

Dull backache, as after excessive sex.

Chest

Sharp pain throughout right lung toward the liver, stopping breathing.

Eyes

Dull sunken eyes. Pain in eyes and orbits with conjunctivitis. Styes.

Head

Dull headache deep in brain.

Heart

Violent palpitations, sensation of heaviness in stomach.

Male

Desire increased with loss of power.

Mouth

Herpes on lips. Burning on the tongue. Pain in mouth, as from a splinter. (Nit-ac.)

Sensations

As if the brain were rudely shaken. As after sexual excess. As if a foreign body in eye, as if sand in eyes.

As if a splinter in throat on swallowing. As if a foreign body in esophagus preventing swallowing. As if an iron hoop round waist preventing breathing.

Skin

Hangnails inflamed, itching and redness of nail roots. Numb hands, feet.

Comments

Sensitiveness is a keynote of the remedy. Irritability, crossness, moroseness increased sensitiveness to cold, the least irritation brought on spasms, pressing in throat causing feeling of suffocation.

Noteworthy symptoms are: Vertigo, ending in pressing headache. Twitching in brain and orbits. Pulsative headache with throbbing all over body. Smell of manure in nose. Sallow complexion was produced and severe symptoms were felt in the liver and from the right lung to the liver (cutting as with knives). Itching in patella. Aversion to meat and eggs, the very thought of them causes nausea. The tongue is coated white so thickly that it can be scraped off. Left half of face red and hot, right half pale and cold.

The sexual function was depressed, sex was followed by distressing symptoms and many of the symptoms were such as occur after sexual excess. Great exhaustion after convulsive seizures.

Compare

(1) *Upas antiaris.*, *Ox-ac.*

(2) *Upas* when *Bryonia* fails (typhoid).

Relations

Antidote: *Curare.*

SOURCES

Boericke. Clarke.

Uranium nitricum

(nitrate of uranium)

Pharmacy

Uran-n. Uranium nitricum. Nitrate of Uranium. Uranyl Nitrate. Solution in distilled water. Trituration. Historical dose: All potencies, third to higher potencies.

History

Uran-n. belongs to the Chromium group of elements. Uran-n. was proved by E. T. Blake, his monograph forms part of Hahnemann's *Materia Medica*.

PAGE 1749

Blake's proving was suggested by the observation of an old-school experimenter, Leconte, who found sugar in the urine of dogs slowly poisoned with Uran-n.

Blake was not very successful in producing sugar, but his proving is not any less valuable on that account and clinical use has filled out the picture. **Planets:** Jupiter.

Homeopathic

Uranium nit. causes glycosuria and increased urine. Is known to produce nephritis, diabetes, degeneration of the liver, high blood pressure and dropsy. Its therapeutic keynote is great emaciation, debility and tendency to ascites and general dropsy.

Backache and delayed menses. Dry mucous membranes and skin.

Uran-n. has excessive thirst, nausea, vomiting, excessive appetite, diabetes mellitus and insipidus. Great emaciation. Debility, tendency to ascites and general dropsy. Nephritis. High blood pressure. Burning in the stomach, gastric ulcer. Incontinence of urine. Burning in urethra while passing urine. Impotency with nightly emissions. Menses suppressed during diabetes. The left side was more affected than the right.

Clinical

Albuminuria. Anal, itching. Diabetes mellitus. Diabetes insipidus. Duodenum, ulcer. Bedwetting, nocturnal. Gastric ulcer. Impotence. Insomnia. Milk, secretion. Ophthalmia. Phosphaturia. Seminal discharges. Stomatitis. Stye. Urine, incontinence.

Modalities

Better from deep breathing. Worse at night. Headache, worse walking.

Symptoms

MIND

Ill-humor, not feeling well all day.

Abdomen

Flatus, abdomen bloated. Borborygmi. Sharp colic with tenesmus and raw feeling in rectum. Enteritis and peritonitis with meteorism and great prostration.

Back

Pain at lower angle of left scapula worse deep inspiration. Loins stiff.

Breasts

Excessive secretion of milk.

Chest

Intermittent pain, radiating from left side to ensiform cartilage, worse fasting.

Eyes

Styes in left upper lid. Edema of lower lids worse than usual. Lids inflamed, agglutinated. Shooting from right orbit to occipital protuberance in evening. Pain over left eye.

Female

During menses: vertigo, faint, flushing of upper part of body. No menstrual flow during diabetic attack, pale, anemic, craves raw ham and tea.

Food

Appetite lost during menses. Craves raw ham and tea.

Head

Head heavy on waking. Pain in forehead, over left eye. Neuralgia on posterior edge of left temporal bone.

Kidneys

Sore pain in bladder region in evening. Acute nephritis. Sugar in the urine. Urination profuse, painful, pale milky. Diabetes insipidus. Diabetes mellitus. Nocturnal bedwetting. Urine greenish and smelling fishy.

Limbs

White vesicles on arms and legs with red areolae, burn and itch.

Lungs

Bronchitis with copious mucous expectoration and much emaciation, chronic colds. Cough with purulent discharge from left nostril, lung infiltrated with gray tubercle.

Mouth

Painless ulcer with one elevated side in mouth opposite left anterior upper molar, worse evening. Acid saliva.

Nose

Itching in nose. Left nostril stuffed. Dry coryza.

Rectum

Urging in rectum and bladder, borborygmi, soft stool. Stool twice in one day.
Constipation. Anal itching.

Sensations

As if blood were flowing to head. As if he had taken cold with headache.

Skin

Epithelioma, lupus exedens, ecchymoses.

Sleep

Night restless with shivering and heat. Extreme languor, on rising from bed. Feeling as if he had taken cold.

PAGE 1750

Stomach

Belchings, tasteless, putrid. Indigestion in afternoon. Dyspepsia, flatus after food, acidity, pain. Recurring hematemesis. Stomach and duodenal ulcers.

Throat

Hawking of tenacious mucus. Contracted feeling in throat.

Vertigo

Vertigo, worse in evening.

Comments

Many cases of diabetes have been relieved or cured by Uran-n., usually in the lower potencies.

In a case of diabetes insipidus of mine in a young girl, Uran-n. 30c gave more relief than any other remedy. Excessive thirst, polyuria and dry tongue are the indications.

Glycosuria is by no means an essential part of the indications for Uran-n.

One case in a married woman was cured with 5 grain doses of Uran-n. 2x. Patient was weak and emaciated, vomited mucus mixed with blood and coffee-ground matter and passed dark, tarry stools, sensitive and tender over region of pylorus.

Urea pura

(carbamide)

Pharmacy

Urea. Urea pura. Carbamide. The chief solid constituent of the urine of mammals. White crystals. Trituration. Also tincture or solution of the nitrate, Urea Nitrica. A hydrogogue diuretic in the treatment of dropsies. 10 grains every 6 hours. Historical dose: Tincture and all potencies, third to higher potencies.

History

On general indications Urea has been used in medicine by both schools. Merck mentions that it is diuretic and is used in cirrhosis of liver, pleurisy, kidney calculus.

Burnett has used both Urea 6c and Uric acid 6c in gouty eczema, "where the gouty eczema has been the cutaneous outlet for the constitution."

Burnett gave Urea in gouty cases where the urine was thin and of low specific gravity, "it thickens the urine and gives great relief to the patient."

Urea acted as a nervous tonic in tuberculosis patients. **Planets:** Saturn, Venus.

Homeopathic

The failure of the kidneys to eliminate urea from the blood leads to uremic intoxication, delirium, convulsions and coma. Tuberculosis. Lumps. Enlarged glands. Kidney dropsy with symptoms of general intoxication. Gouty eczema. Albuminuria, diabetes, uremia. Urine thin and of low specific gravity. General uneasiness, felt ill, poisoned.

Clinical

Albuminuria. Diabetes. Dropsy. Eczema, gouty. Gout. Liver, cirrhosis. Tuberculosis. Uremia.

Symptoms

Abdomen

In right hypochondrium, a steady, dull sensation. Intolerable sensation in abdomen and burning of the skin.

Eyes

Itching and profuse watering of eyes.

Head

Head very dull, as if filled with a very heavy lump.

Kidneys

Constant urging to urinate, beginning at root of penis. Profuse diuresis with rapid diminution of dropsy. Albuminuria, bloody urine, general dropsy.

Comments

Allen cites from Mauthner two cases of kidney dropsy with symptoms of general intoxication in which Urea nit., grains ii., divided into three doses and given two hours apart, cured brilliantly.

Arthur Buch relates cases of tuberculosis cured, on the plan originated by Harper of Nottingham with Urea in 20 to 30 grain doses three times a day. Under the treatment, lupoid nodules disappeared, tuberculous glands disappeared, tuberculous joints improved.

PAGE 1751

No ill-effects of the treatment were noticed, "on the contrary, the action has evidently been in many cases that of a nervous tonic."

Villers examined the urine of an intensely neurasthenic woman, suffering from severe asthma and found 4.5 per cent. of Urea instead of the usual 2.5.

In order to find out the effect of Urea on the healthy he took for five days Urea 15x., five drops thrice daily. He was then compelled to stop by the severity of the symptoms.

He gave the same dose to a patient, a woman. She begged after a short time to be allowed to discontinue the medicine, as it affected her so painfully, causing constant urging to urinate, much sediment in the urine intolerable sensation in abdomen and burning of the skin.

Uricum acidum

(uric acidum)

Pharmacy

Ur-ac. Uricum acidum. Uric Acid. Lithic Acid. Trituration. Historical dose: All potencies, Third to higher potencies.

History

Uric acid has been used on inferential grounds in gouty conditions. Burnett gave it in 5th and 6th potencies. It is most useful in cases where deposits persist, it stirs them up and helps to eliminate them. With Ur-ac. 3x.

Mersch cured a case of lipoma situated on the left side between abdomen and breast, "as large as a man's head, only lengthened." Relief was almost immediate, the tumor disappeared in a month. **Planets:** Saturn.

Homeopathic

Uric Acid is useful in gouty eczema where the eczema has been the skin outlet for the constitution. Eczema gouty. Gout. Lipoma. Rheumatism.

Urinum

(human urine)

Pharmacy

Urin. Urinum Humanum. Human urine. Dilutions. Historical dose: Tincture and all potencies, third to higher potencies.

History

Urine therapy is practically as old as man himself. The Chinese treat wounds by sprinkling urine on them and the custom is widespread in the Far East. In the Brit. Med. Jour. of 1900 a number of instances of Western urine therapy were given. To these Cooper has made some additions. The cases are these:

(1) A youth for crops of boils which nothing could remedy was recommended to drink every morning for three mornings a cupful of his own urine. Then after an intermission of three days to resume and so on until cured. He was cured on the ninth day.

(2) "Blackheads" cured in exactly the same way. This patient drank it when fresh. (3) Chronic bronchitis much relieved. This patient was deaf and misunderstood the doctor's direction to bring some of his urine. He thought drink was the word and acted accordingly. (4) Ague. (5) Urticaria.

(6) For thrush it is a custom in Yorkshire to wipe the baby's tongue with its own napkin.

(7) For pimples and blotches the Natives of Barbados drink their urine and apply it locally.

(8) For ophthalmia in children it is the custom in Switzerland to bathe the eyes in the children's own urine.

Cooper mentions the case of a man who suffered very much from weak and inflamed eyes until he adopted this plan, which after a time cured him. Taken internally it is believed to stimulate the circulation and is valued as an active oxytocic. **Planets:** Venus, Saturn.

Homeopathic

Anasarca, generally more marked in upper than in lower parts of body. Heaviness, heavy for work, having neither his usual life nor warmth in him. Loses her breath if she walks quick is obliged to stop.

PAGE 1752

Clinical

Acne. AIDS. Albuminuria. Baldness. Boils. Cancer. Diabetes. Dropsy. Dysentery. Eczema, Gout. Leprosy. Liver cirrhosis. Ophthalmia. Skin disorders. Scurvy. Tuberculosis. Uremia.

Symptoms

Abdomen

Fluid in abdomen and in parietes of chest and belly.

Face

The face is very much swollen. Countenance pale, expression heavy and vague.

Head

Heaviness of head, worse on stooping.

Kidneys

Urine scanty, thick, deep brown and very offensive.

Skin

Acne. Eczema. Psoriasis.

Stomach

Little thirst.

Comments

Urinum is potentized human urine. urine can be used topically, internally and in homeopathic potencies. Urine is one of the most ancient remedies. In Ayurvedic medicine it's a major therapy. Pregnant woman's urine is very powerful medicine. The Chinese use urine therapy, it was used in ancient India and on and on and on. They still use it today to soften leather.

Urine softens, cleans and beautifies the skin. The soldiers in Germany would urinate in their boots so they wouldn't get sores and blisters on their feet from long hikes. It cures all kinds of blackheads, acne, pimples, eruptions, rashes by applying urine to the skin.

In Yorkshire they used to wipe the baby's tongue with its own napkin. In Barbados they drink their urine and apply it locally. In Switzerland they bathe their children's eyes with urine for conjunctivitis. The cattle breeders give teaspoons or tablespoons of human urine to the cattle and they win all the prizes for the nice hides and the healthy cows.

There are stories of cures of many types of cancer. Patients would go on urine fasts and do urine rubs over the body. The Chinese had a system where a pregnant woman would

drink her urine and it seems to stimulate easy labor. It's great for pre-menstrual syndrome. Infertility.

Urine packs for mastitis, sore throats, it was a universal remedy for many complaints.

Allen under Urea, gives some symptoms observed on a man who, for a skin affection, drank the morning the urine he had passed the night before. The symptoms were severe, consisting of general dropsy, scanty urine and excessive weakness.

Cooper also mentions that a celebrated breeder of cattle and horses succeeded in getting his animals' skin into an astonishing condition of fineness by giving them about a tablespoonful of old human urine with every meal. Kraft mentions that urine has been used as a remedy for croup.

S. Mills Folwer mentions the use of urine as a remedy for scurvy in the Civil War. In Andersonville prison the starving prisoners were dying by hundreds of scurvy and Mr. T. (who told the story) was one of the sufferers.

His legs were flexed upon the thighs and the thighs upon the body in such violent contraction that it was impossible to extend them an inch and any attempt to do so was attended with shocks of pain as from an electric battery. He could only move on his elbows and rump.

Within the stockade were growing two large turpentine trees. Of the pitch from these trees the patients would take enough to make their urine "clear and white as crystal." The urine voided was allowed to stand until it began to sour, which took twelve to twenty-four hours. The patients then took a "good swallow" four or five times a day. They felt the good effect of every dose. The treatment cured Mr. T. and all his companions in misfortune who adopted it.

PAGE 1753

These cures are to some extent analogous with nosode cures, as the patients drank their own urine, but Urinum, Urea, Uric acid are also medicines on their own account and rank with the Sarcodes.

The symptoms of uremia may be taken as a pathogenesis of Urinum for the use of the potencies.

Urea cured kidney dropsy and Urinum produced it. The skin action of Urinum is remarkable in connection with its use in the dressing of leather, no substitute having been found for it in this.

Compare

(1) Urea - probably urine owes its chief effect to urea.

Urtica urens

(stinging-nettle)

Pharmacy

Urt-u. Urtica urens. Stinging nettle. Urtica dioica. The Common Nettle, has similar if not identical properties. N. O. Urticaceae. Tincture of the fresh plant in flower. Historical dose: Tincture and all potencies, tincture and lower potencies.

Herbal

In Sweden nettles are regarded as a remedy for anemia and fresh nettles are cooked and eaten like spinach for the purpose or a nettle-tea is prepared from dry nettles. The juice of nettles with sugar is in vogue for hemorrhages of all kinds. Its use in gravel and urinary disorders is very old.

Gerarde mentions these other uses: (1) The juice inserted into the nostrils stops nosebleed, it is "good against inflammation of the uvula." (2) Pleurisy, pneumonia, whooping cough. (3) Antidote to Hemlock, Mushrooms, Quicksilver, Henbane, Serpents, Scorpions."

Being eaten, as Dioscorides says, boiled with periwinkles, it make the body soluble, doing it by a kind of cleansing faculty, it also provoke urine and expels stones out of the kidneys, being boiled with barley cream it is thought to bring up tough humors that stick in the chest."

"The leaves or seeds of any kind of nettle," says Gerarde, "do work the like effect, but not with that good speed and so assured as the Roman nettle" (*U. pilulifera*). "A bundle of nettles," says Cooper, "applied to a rheumatic joint or part, has long been a favorite country remedy.

A leaf of the nettle placed on the tongue and pressed to the roof of the mouth stops bleeding from the nose."

Gerarde mentions its antidotal action to snake-bites. It is the specific for bee-stings. An application of the tincture even on the most sensitive parts of the face or eyelid gives instant relief. In cases of stings about the eyes the application may have to be repeated every five minutes and a compress must be kept on all night.

From a pint of hot infusion of the herb, a woman who had no children for three years and a half and had nursed none of her children, had at first great swelling of breasts, which discharged serum, then copious milk.

Homeopathic

Urt-u. as its common name stinging nettle implies, it produces stinging or stingingÑburning pains. Urt. is one of the best remedies for burns of the first degree, used locally and given internally. Affects the breast glands, genitourinary organs, liver and spleen.

A remedy for lack of breast-milk and kidney-stones. Profuse discharge from mucous surfaces. Bee stings, (Apis) Bedwetting and urticaria. Spleen disorders. Antidotes ill-effects of eating shellfish. Symptoms return at the same time every year. Gout and uric acid diathesis.

Urt-u. has headache with spleen pain, rush of blood to head, soreness of abdomen,, dysentery, burning and itching of anus, edema, urticaria, rheumatic and gouty pains and fever were all evoked. Gout and Rheumatism associated with urticaria-like eruptions. Among the rheumatic pains a pain in the right deltoid muscle is very striking.

PAGE 1754

Favors elimination. Urine-like odor of the body. Uric acid diathesis. Hives, associated or alternating with rheumatism. Hemorrhages. Angio-neurotic edema. Neuritis. The right side very much affected, but also the left hypochondrium (spleen).

Clinical

Agalactia. Allergic reactions. Anemia. Bee-stings. Breast-feeding, disorders. Burns. Deltoid, rheumatism. Dysentery. Erysipelas. Erythema. Gout. Gravel. Hemorrhages. Hives. Intermittents. Leucorrhea. Menorrhagia. Phlegmasia dolens. Kidney colic. Kidney stones. Rheumatism. Spleen disorders. Throat, sore. Uremia. Urticaria, nodosa. Vertigo. Whooping cough. Worms.

Causations

Ill effects of burns, bee-stings, eating shell fish, suppressed milk, urticaria.

Constitutions

Gouty constitutions. Uric acid diathesis. **Planets:** Mars, Moon, Saturn.

Modalities

Better from lying down. Worse from snow-air, water, cool moist air. Worse from cool bathing. Worse yearly. Worse by touch. Worse lying on arm. Worse violent exertion (hemoptysis). Burning in skin is worse after sleep. Worse from application of water. Worse exposed to cool, moist atmosphere.

Symptoms

Abdomen

Chronic disease of large intestine characterized by large secretion of mucus. Soreness of abdomen, when lying. Tumor of liver. (Burnett.)

Breasts

Swelling of the breast with stinging, burning pains. Diminished secretion of milk after childbirth. Arrests the flow of milk after weaning.

Chest

Sore feeling as from a blow in left side of chest. Intermittent soreness in right chest during day. Hemoptysis from least exertion of lungs.

Eyes

Pain in eyeballs as from a blow, with feeling as if sand were in eyes. **Eyes** feel weak and sore.

Female

Uterine hemorrhage. Acid and excoriating leucorrhea. Pruritus vulvae with stinging, itching and edema.

Head

Headaches, worse over eyes. Headache with stitches in spleen. Dull aching in occiput and over eyes. Urticaria of scalp suddenly appearing.

Head

Stinging pain in right parietal bone.

Kidneys

Hemorrhage from bladder. Acrid urine causing itching. Gravel. Uric acid toxemia. Urine suppressed. Strangury, gravel, disease of bladder and kidneys.

Limbs

Rheumatic pain in arms and ankles, worse right arm. Continuous pain in deltoid. worse rotating arm inwards, could not put on the coat. Acute and chronic gout. Gout pain in ankles, wrists. Raised, red, itching blisters on skin of hands and fingers. Stiff soreness on inside of left knee. Rheumatic pain in both ankles.

Lungs

Hemoptysis after violent exertion. Whooping-cough. Not much frothy expectoration.

Male

Itching and stinging of scrotum, keeps him awake. Scrotum swollen.

Rectum

Frequent urging, small painful stool. Diarrhea. Intense itching of anus from pinworms. Hemorrhoids with raw burning in anus during and after stool. Ascarides with great rectal irritation. Stool scanty, a greenish-brown slime, with urging and tenesmus. Mucus mixed with white matter like boiled white of eggs.

Sensations

As from a blow in the eyeballs. As of sand in eyes. Muscles of right arm as if bruised. Burning, stinging, itching and soreness are the principal pains.

Skin

Burns and scalds. Sunburn with intense burning, itching. Vesicles. Burn confined to skin. Hives with rheumatism after shell fish with pinworms. Itching, raised, red blotches. Nettle-rash, worse even year same season. Urticaria nodosa. (Bov.) Urticaria, burning heat with formication, violent itching. Erythema with burning and stinging. Prickly heat. Consequences of suppressed nettle-rash. Rheumatism alternates with nettle-rash. Chicken-pox. (Dulc.) Angio-neurotic edema. Herpes labialis with sensation of heat and itching.

Sleep

Drowsiness when reading.

PAGE 1755

Stomach

Nausea with burning in throat. Vomiting from suppression of nettle-rash.

Temperature

General heat in bed with soreness over abdomen. Fever of gout. Tropical fever. Sweatiness, at night with vertigo with throbbing all over the body.

Throat

Burning in throat. Frequent hawking of frothy mucus causing cough, expectoration scanty, frothy.

Vertigo

headache with spleen pains.

Comments

Burnett may be said to have rediscovered Urt-u. as a remedy. The history of how he came to use it is one of the most fascinating passages of his works. Burnett's tincture is made of the small nettle, Urt-u., which is the correct one in homeopathy. Burnett had used Urt-u. a good deal in spleen disorders and found patients under its use often passed large quantities of gravel.

To a middle-aged maiden lady who had enlarged spleen and "who smelled so strongly of nettles that it almost nauseated me whenever it was my duty to examine her," Burnett gave Urt-u. While taking it she passed large quantities of gravel. But this did not attract much notice, as the lady was in the habit of passing considerable quantities of gravel with her motions.

Localized abdominal pain preceding such an occasion by a number of days. The painful spot, just under her spleen, she called her "gravel-pit."

Putting this and other points together, the fever action of Urt-u. among the number, Burnett concluded that Urt-u. was a remedy for acute gout, which would cut short the

attack "in a safe manner, namely, by ridding the economy of the essence of the disease product, its actual suffering producing material."

He usually ordered five drops of the tincture in a wine glassful of quite warm water every two or three hours. Under its action the urine became more plentiful, dark and loaded with uric acid.

Burnett remarks of the nettle that it springs up everywhere near human habitations. He has noticed it flourishing more by the side of ditches which carry off fluid sewage.

Thus possibly living to some extent on uric acid food. A very severe case of uremia was cured by him with Urt-u.

Burnett's discovery of its fever action was through the cure of a lady patient of his of ague, (which he had not succeeded in helping) by drinking nettle-tea on the advice of her herbalist.

Urt-u. was his sheet-anchor in cases of the fevers of the East India, Burma and Siam. This action of Urt-u., as well as its anti gout action,

Urt-u. causes fever as well as cures it and one of Burnett's patients was obliged to stop taking it: "It sets all my pulses beating, makes me terribly giddy, makes me feel as if I was going to topple (forwards) on my head and then a bad headache comes on and when I take it at night, it makes me very feverish."

When she took the dose in the morning she did not have the fever and Burnett says, "The fever of gout generally comes on at night." He has often cured vertigo with Urt-u.

J. L. Nottingham treated (1) Mrs. W., 38, tall, slender with auburn hair, for eczema vulvae with violent itching and burning. With swelling and thickening of labia, smooth, pale, dry appearance of the mucous surface, a dry, scaly, fissured appearance of labia majora and skin.

Thirteen years before, she had a sinus from the right ovary emptying into the uterus.

The husband had sycotic warts on the glans penis. Urt-u. 1x relieved all the symptoms and removed sexual excitement induced by the itching and uncontrollable desire to rub.

(2) Mr. N., 21, had swelling, stinging, burning of face, hands and feet with redness. Rubbing with finger-tip would leave a white line for some time.

When out in the cold, damp, snowy air, hands, feet and face became purple red, puffed and stinging cold, going into a warm room he had increased swelling, stinging, itching all over him, especially of hands and face.

Urt-u. relieved in twenty-four hours. In four days he returned home better than he had been for years.

The action of Urt-u. in causing flow of milk has been often confirmed. In the case given in Allen it caused swelling of the breasts and profuse flow of milk in a woman years after the birth of her last child. The periodicity is a point in the correspondence of Urt-u. to ague.

Compare

- (1) Apis, Medusa, Nat-m., Lac-c.
- (2) Ric. - diminished breast secretion.

Usnea barbata

(tree moss)

Pharmacy

Usn. *Usnea barbata*. Tree moss. Tree-hair. Old Man's Beard. N. O. Lichenes. Tincture. The fresh lichen is macerated in five times its weight of alcohol. Historical dose: Tincture and all potencies.

Herbal

Usnea barbata is a remedy in some forms of congestive headache, sunstroke. **Planets:** Sun.

Homeopathic

Usn. has a bursting feeling, as if temples would burst or the eyes burst out of the sockets. Throbbing carotids. Head began to ache, soon could feel the blood press into the brain with domestic attentions he got to sleep and woke next morning uncommonly well.

Pain over entire head or front head with feeling as if temples would burst or eyes burst out of sockets.

Clinical

Headache, congestive.

Comments

Anshutz writes: This appeared in No. 284 of the U. S. Med. Investigator signed. "M. D." In March 1878, I was cutting wood. I cut down a soft maple, the top was well loaded with moss. It attracted my attention, I viewed it closely. I ate a little, about the size of a hickory nut, as I trimmed up my tree. My head began to ache. I cut off one log and had to go to the house. I could feel the blood press to the brain. My wife worked over me and I got to sleep.

Next morning felt well, never felt better. I did not think of the moss I had eaten. I went on a visit and was gone five days. On my return I went to my tree. The first sight of it reminded me of my headache. I gathered some of the moss and made a tincture. I soon had a case of headache to try my remedy on, it stopped at once.

In the fall, about September, a load of young folks came to pick cranberries. Two of the young ladies had headache from riding in the hot sun. Both took the lounge. Now for my remedy. I put one drop of tincture in a goblet of water, gave a teaspoonful ordered another in fifteen minutes. The second dose stopped the pain.

A young married lady came on a visit to a relative - was having pains in her head. I was sent for, found her wild with pain. She said she had been subject to headache for five years, had got tired of doctoring. Gave her one drop in a cup of water, teaspoonful in twenty minutes, no more pain.

I put ten drops in a two-drachm vial of alcohol, directed her to take one drop when she felt her headache coming on. One year after she wrote her friend it had cured headache, sent thanks to me.

I could give many more cases where the pain is over the entire head or front head with a feeling as if the temples would burst or the eyes would burst out of their sockets.

I have always used the tincture. I have not noticed any other effect from it, would like to see a proving.

Ustilago maydis

(corn smut)

Pharmacy

Ust. *Ustilago maydis*. Corn smut. N. O. Fungi. Trituration. Historical dose: Trituration and all potencies, tincture to third potency.

History

Burt, who proved *Ustilago maydis* on himself and others introduced the remedy to homeopathy. It has been observed that pregnant animals feeding on maize affected with smut were very liable to abort. Roullin had noted that shedding of the hair and sometimes of the teeth, occurred in animals and men, that mules fed on it cast their hoofs and that fowls laid eggs without shells.

Ust. congests the uterus and produces hemorrhages, generally passive or in clots. It is in uterine hemorrhages, menstrual, post-partum and menopausal that Ust. has been most successfully employed. It has also relieved vicarious menstruation, bleeding taking place from the lungs and bowels and bleeding between the periods with left infra-breast pain.

Planets: Moon, Saturn.

Homeopathic

Ust. affects the female sexual organs, skin, hair and nails. The provings brought out a specific affinity for the reproductive sphere of both sexes and especially for the left ovary and uterus. Flabby condition of uterus, hemorrhage. Congestion to various parts, especially at menopausal. Crusta lactea. (*Viola tric.*) Excessively tired feeling. Bearing down, as if everything would come from her. Uterus as if drawn into a knot.

Congestive, passive or slow bleeding or in clots, blood, dark, but watery. Bleeding fibroids. Dark hemorrhages. As of a knot in uterus, bowels, throat etc. Loss of hair and nails.

Prostration from sexual abuse. Tumors have been seen to have disappeared after its use. Menses suppressed without cause. Warm room causes oppression and faintness.

Clinical

Agalactia. Alopecia. Cancer. Menopause. Dysmenorrhea. Fibroids. Galactorrhea. Headache, menstrual. Masturbation. Menorrhagia. Menstruation, disorders. Nails disorders. Orchitis. Ovary, disorders. Rhinitis. Scald-head. Tonsillitis.

Constitutions

Adapted to tall, thin women, at menopause.

Modalities

Worse by touch, (abdomen, eyes). Worse from menopause, motion. Colicky pains, better by constipated stool. Worse pressure (ovaries). Riding in carriage aggravates backache. Worse rising and motion, (menorrhagia). Walking aggravates frontal headache, pain in left groin, pain in loins. Swelling aggravates pains in tonsils. Open air causes lachrymation.

Symptoms

MIND

Great depression of spirits. Weeps frequently. Very sad, exceedingly, sleep restless. Could not bear to see or talk with any one. Irritability, worse being asked a question or to repeat anything. The day seemed like a dream.

Abdomen

Pain as if intestines were tied in a knot. Colic pains better by hard stools or constipation. Cutting in umbilical and hypogastric regions. Pain in right lobe of liver.

Back

Pain in back extending to extreme end of spine. Pain in lumbar region. Pain in region of right kidney. Sensation of boiling water flowing along the back. Bearing down in sacral region as in dysmenorrhea. Dull pain in lumbar region with great despondency and mental irritability.

Breasts

Pain under left breast, at margin or ribs, between periods, constant.

Chest

Aching, burning distress in sternum. Constriction with pain. Oppression along the sternum. Heat and pressure.

Eyes

Hot feeling on closing lids. Weakness of eyes. Lachrymation in open air. Lids **agglutinated** in morning. Vision of spots dancing to and fro.

PAGE 1758

Face

Sudden pallor in face when sitting and in evening. Burning of face and scalp from congestion.

Female

Vicarious menstruation from lungs and bowels. Uterine fibroids, bleeding. Hypertrophy of uterus, sub-involution. Cervix spongy, easily bleeding. Menses, half liquid, half clotted, bright red, worse slightest provocation. Profuse menses after miscarriage, discharge of blood from slightest provocation, bright red, partly clotted. Menorrhagia at menopause. (Calc., Lach.) Oozing of dark blood, clotted, forming long black strings. Foul, yellow or brown leucorrhoea. Post-partum hemorrhage. Profuse lochia. Ovaries burn, painful, swollen. Acute ovarian pain, worse left. Pains shoot down thighs. Uterus feels drawn into a knot. Bearing down pains when child nurses.

Food

Appetite, poor. Thirst at night.

Head

Sticky secretion matting me hair. Milk crusts. Vertigo with white spots before the eyes, at menopause with profuse menses. Nervous headaches from menstrual irregularities.

Heart

Palpitations. Sudden flying pains from the heart to stomach, arresting breathing.

Kidneys

Tenesmus of bladder and incontinence of urine. Urging, urine light-colored. No desire, but uneasiness. Urine increased, scanty, red, acid, high-colored.

Limbs

Muscular debility. Sensation of boiling water along the back. Clonic and tetanic movements. Muscular contractions, especially of lower limbs. Cutting in bones of right hand and foot. Rheumatic symptoms in arms, fingers and legs. Feet swollen in morning.

Male

Irresistible desire to masturbation. Erotic fancies. Emissions, even night and when talking to a woman. Spermatorrhea with erotic fancies and amorous dreams.

Mouth

Tongue coated in morning. Prickling in tongue with feeling as if something were pressing the roots upward with dryness of nostrils. Salivation: bitter, thin, bitter. Taste coppery in morning.

Nose

Boil in right nostril. Dryness of nostrils in forenoon with dry feeling in skin. Bright nosebleed, better pressure.

Rhinitis, bitter taste offensive odor noticeable to patient himself.

Rectum

Loose stool with pain and rumbling in abdomen. Light-colored diarrhea. Soft stool, black, dry, lumpy. Constipated.

Sensations

As if head were being lifted off. As if forehead would burst open. As if something were under root of tongue pressing upward. As of a lump behind larynx. As if intestines were being tied in knots.

Skin

Alopecia. Tendency to boils. Dry, hot skin. Eczema, copper-colored spots. Pruritus, sunburn. Psoriasis. Congested feeling in skin. Skin dry and hot. Painful, destructive disease of nails.

Sleep

Difficult falling asleep and then unpleasant dreams. Restless night with fever with troubled dreams. Sexual dreams without emission.

Stomach

Belchings of sour fluid of sour food. Cutting in stomach. Burning in esophagus at the cardiac orifice. Vomiting of blood, passive, venous, accompanied by nausea, better by vomiting.

Teeth

Sometimes looseness of teeth. Aching all day in decayed upper first and second molars.

Temperature

Abundant sweat. Pulse at first accelerated then enfeebled. Chills running up and down back. Heat at night. Internal heat with vertigo.

Throat

Left tonsil enlarged. Dryness of fauces with burning dryness in stomach. Feeling as if there were a lump behind the larynx, which produces constant inclination to swallow.

Vertigo

Full feeling. Nervous headache from menstrual irregularities. Aching in eyeballs with much lachrymation.

Comments

Hurndall relates the case of the small female dog which brings out many features of Ustilago action.

PAGE 1759

About a fortnight before he saw the patient she had aborted five fetuses, at about the fifth week of gestation. Since then there had been passive hemorrhage of dark clots.

Moreover, the female dog was a perfect specimen of alopecia, not having a hair of any sort on her body and only a little about the head. The cervix os of the uterus was soft, spongy. Great tenderness about the posterior parts when manipulating the hind-quarters.

Ust. 3x was prescribed, five drops three times a day. In two days the hemorrhage was completely arrested, tenderness reduced, spirits revived and general health improved. At the end of three months there was a nice coat of hair growing, which in due course became perfectly normal.

(bearberry)

Pharmacy

Uva. Uva ursi. Bearberry. Arctostaphylos. N. O. Ericaceae. Tincture or trituration of dried leaves and fruit. Tincture of fresh leaves gathered in autumn. Historical dose: Tincture and all potencies, tincture, five to thirty drops.

Herbal

A few experiments have been made with Uva ursi and these have seemed to accentuate its traditional reputation as an "astringent used to check excessive secretion of mucus, as in urinary and bronchial disorders and even in kidney stones." **Planets:** Venus.

Homeopathic

The Uva ursi indications are painful urination with burning sensation. Burning after the discharge of slimy urine. Slime passes with blood. In one cured case there were pains shooting through from hip to hip. The bladder symptoms are better lying on the back.

Urinary symptoms most important. Cystitis with bloody urine. Uterine hemorrhage. Chronic bladder irritation with pain, tenesmus and catarrhal discharges.

Pyelitis. Kidney stones. Dyspnea, nausea, vomiting, pulse small and irregular. Burning after the discharge of slimy urine. Cyanosis. Urticaria without itching.

Clinical

Cystitis. Dysuria. Hematuria. Urinary affections.

Symptoms

Chest

Uneasy tightness with a sensation of weight at the chest.

Face

Flushing.

Head

Slight vertigo and headache.

Kidneys

Frequent urging with severe spasms of bladder, burning and tearing pain. Urine contains blood, pus and much tenacious mucus with clots in large masses. Involuntary, green urine. Painful dysuria.

Nose

Fluent coryza with rawness.

Stomach

Weak, sick at stomach, sore all over as if bruised.

Throat

Hoarseness with pain in bowels, stopped up in throat, no appetite. Throat tickles, feels like coughing all the time, sore and bruised all over, cough, nose raw and burning, cutting and burning on urinating.

Comments

Uva Ursi is a good kidney tonic. It helps prevent the formation of kidney stones and tendencies toward bladder infections. One of the keynote symptoms is shooting pain from hip to hip. Another symptom is slimy urine.

Compare

(1) Secale, Cann-s.

(2) Arbutin - a crystallized glucoside of Uva, found also in Kalmia, Gaultheria and other genera of the family of Eriaceae, given in doses of 3 to 8 grains with sugar three times a day. Used as a urinary anti-septic and diuretic.

(3) arctostaphylos manzanita - acts on kidney and reproductive organs. Gonorrhoea, bladder catarrh, diabetes, menorrhagia. Tincture of leaves.

(4) Vaccinum myrtillus, Huckleberries - dysentery, typhoid, keeps intestines aseptic and prevents absorption and reinfection.

SOURCES

PAGE 1760

Vaccininum

(vaccine nosode)

Pharmacy

Vac. Vaccininum. Vaccinia. Vaccinotoxinum. Nosode from vaccine matter. Trituration of vaccine matter. Historical dose: Tincture and all potencies, sixth to 200c potency.

History

Vaccinosis, Small-pox and Grease of horses are inter-related diseases and the nosodes of each are available for the treatment or the prevention of manifestations of all three. The vaccine poison is capable of setting up a morbid state of extreme chronicity, named by

Burnett Vaccinosis. And it may do this without causing the primary symptoms: when the vaccination apparently does not "take."

There is another disease to which Vaccinosis is related and that is whooping cough. Some years ago an old-school observer vaccinated for some reason a child while suffering from whooping cough and the whooping cough vanished. He repeated the experiment in other cases and with such signal success that he wrote to the journals to recommend it as a routine practice in the case of unvaccinated children.

On the other hand, homeopaths have observed whooping cough immediately after a vaccination and have cured it with Thuj. 30c. **Planets:** Saturn.

Homeopathic

The symptoms of Vaccinosis are protean and are for the most part identical with the symptoms of the Sycosis of Hahnemann. Vaccinosis is a sycotic disease. Neuralgias inveterate skin eruptions, chilliness indigestion with great flatulent distention, are leading features of the Vaccinosis miasm. Whooping cough.

Vac. has skin eruptions, new growths, sycotic conditions. Restlessness. General malaise. Languor, lassitude. Tired all over with stretching, gaping feeling, unnatural fatigue. Child wants to be carried. Many persons faint when being vaccinated.

Clinical

Eczema. Keloids. Leprosy. Nevus. Nephritis. Small-pox. Sycosis. Tumors. Vaccinosis. Whooping cough.

Symptoms

MIND

Irritable, impatient, nervous. Crying. Ill-humor with restless sleep. Nervous, impatient, irritable, disposition to be troubled by things. Morbid fear of taking small-pox.

Abdomen

Stitch in splenic region. Abdomen is blown up with flatulence.

Back

Backache. Aching pain in back, worse in lumbar region, extending around waist.

Chest

Stitch in left side of chest, anteriorly, under short ribs. Stitches in right side under short ribs in front from right to left, then at corresponding place in left side, but from left to right, lasting five minutes, felt in liver and spleen.

Eyes

Tinea tarsi and conjunctivitis. Conjunctivae painfully sensitive. Weak eyes, feeling in forehead as if it were split. Inflamed eyelids. Redness of eyes and face with small pimples on face and hands. Keratitis after vaccination.

Face

Redness and distention of face, chill running down back.

Food

Appetite gone, disgust to taste, smell and appearance of food. Coffee tastes sour.

Head

Frontal headache. Forehead and eyes feel as if split. Inflamed and red lids. Frontal headache. Forehead felt as if it would split in two in median line from root of nose to top of head. Stitches in right temple. Eruption like crusta lactea.

Heart

Febrile action of heart and arteries.

Kidneys

Nephritis with albuminuria, hematuria and dropsy, developed eleven days after vaccination, child recovered.

Limbs

Severe pains in left upper arm at vaccination mark, could not raise it in morning. Rheumatic pains in wrists and hands. Keloids on re-vaccination marks. Tearing in left thigh downward. Soreness of lower limbs, as if heated or over-exerted. Legs ached immoderately, hardly able to get about.

A break-bone sensation and a feeling as if bones were undergoing process of comminution.

PAGE 1761

Liver

A stitch in hepatic region, at margin of last lower rib, axillary line.

Lungs

Short breath with aching in pit of stomach and pressure in region of heart. Whooping-cough.

Mouth

Tongue coated, dry yellow with papillae showing through coat. Dry mouth and tongue.

Neck

Swelling of neck under right ear, (parotid gland) with sensation like being cut.

Nose

Full feeling of head with running at nose. Bleeding at nose preceded by a feeling of contraction above and between eyebrows, soon after eating meat, menses rather profuse and too frequent, cured by re-vaccination.

Sensations

As if forehead were split. As if head or over-exerted in lower limbs. As if bones of leg were broken and undergoing process of comminution.

Skin

Hot and dry. Eruption like variola. Small pimples develop at point of vaccination with fourth dilution. Red pimples or blotches in various parts, most evident when warm. Eruption of pustules with a dark-red base and a round or oblong elevation, filled with pus of a greenish-yellow color, resembling varioloid, some as large as a pea, some less without depression in the center, coming with a round, hard feel in the skin (like a shot), very itchy.

Sleep

Waked in middle of night by pain in forehead and eyes as if split and stinging in temples.

Stomach

Aching in pit of stomach with short breath.

Temperature

Fever with heat, thirst tossing about, crying, aversion to food. Chill with shaking.

Comments

Garrison was consulted by a lady, 50 of tubercular family. She had consolidation of both apices, had been losing flesh for three months, severe night-sweats. Almost constant, hacking cough with considerable expectoration at times.

Vac. 200c, one dose. In a week she reported that she had not had a severe coughing spell since the dose and for the last three days hardly any cough at all. She received one dose of Vac. a week and at the end of six weeks returned to business.

If a child has a nevus it is the rule, when possible to vaccinate on the nevus. The inflammation and subsequent scarring destroy the growth. But that does not completely explain the cure: vaccinosis is causally related to the production of new growths.

Frolich relates the case of a child, 6.5, who had well-developed nephritis seven days after vaccination with calf vaccine. The first symptom was puffed eyelids, then pain and swelling of scrotum, on the fourteenth day the urine contained blood inguinal glands enlarged and tender, slight edema of legs. The urine contained blood and alumen for another month, when recovery took place. Other cases of this kind have been observed. The symptoms of the Schema are partly pathogenetic and partly cured.

Burnett says the worse time of Vac. is the early morning. One symptom is: "Waked in middle of night by pain in forehead and eyes as if split and stinging in temples."

Tingling burning in skin over whole body, most intense in skin of forehead and in lower and anterior portion of hairy scalp, which parts are tinged with a scarlet blush or efflorescence, similar to the immediate precursor of variola-like eruption.

Vaccinum 6c in water, for one day with strict diet, repeated after eight days, acted as preventive in six hundred cases. Treated a great many cases of variola and varioloid during last eighteen years. Some of them of the most desperate character and yet never lost a case when employing vaccine virus as a remedy.

Moreover, none of the cases so treated were ever troubled with hemorrhage or with delirium or secondary fevers or were ever disfigured with pitting.

PAGE 1762

Vaccinum 200c quickly relieved the severe symptoms of variola occurring in a child, age six months. Two days before appearance of eruption the child had been re-vaccinated (after an interval of eight days) on a nevus near right nipple.

Swallowing difficult through implication of tongue and fauces. Pustules, many of large size, scattered over scalp, face, body and limbs.

Vaccinium myrtillus

(bilberry)

Pharmacy

Vacc-m. Whortleberry. Bilberry. *Vaccinium myrtillus*. N. O. Vacciniaceae. It is a native of healthy and swampy mountainous regions. Tincture of fresh berries. Historical dose: Tincture and all potencies.

Herbal

Whortleberry is a close relative of Cranberry and the natural order is allied to the Ericaceae. Dr. A. H. Croucher in an article published in the Homeopathic Review many years ago, give cases of inveterate diarrhea cured by it.

His experience has been repeatedly confirmed. Clarke has always used it in the tincture, generally giving 5 drop doses every four hours. **Planets:** Moon.

Homeopathic

Vacc-m. is applicable to vaccinosis, malarial and dysenteric cases. Diarrhea. Dysentery.

Valeriana officinalis

(valerian)

Pharmacy

Valer. *Valeriana officinalis*. Valerian. N. O. Valerianaceae. Tincture of the fresh root.

Historical dose: Tincture and all potencies.

Herbal

Valeriana officinalis is usually found in moist hedge rows or on the banks of ditches and streams. The peculiar fetid odor of Valerians is probably due to the presence of Valerianic acid. It is especially agreeable to cats, who become, as it were intoxicated with it.

"Volatile oil of Valerian seems not to exist naturally in the plant, but to be developed by the agency of water" (Treasury of Botany). *Valeriana* first appeared in homeopathic medicine in Stapf's Additions, the article on it was written by Franz and Hahnemann and Stapf were among the provers.

Homeopathic

Valerian produces over-sensitiveness of the nerves, spinal, genitourinary. Affects the mind, muscles, calf, heels, Achilles tendon. Hysterical flatulence. Hysteria, over-sensitiveness, nervous affections, when apparently well-chosen remedies fail.

Pains are darting, tearing, move outwards, are felt here and there or come and go, jump from one place to another. Mental and physical dispositions change suddenly and go to extreme. Illusions of vision, hearing, smell or taste. Sense of floating of duality of a ball or plug.

Valer. has lack of reaction. Alternating symptoms. Agitation of all nerves, jerks, twitches, trembling. Restlessness, impulse to move, cannot keep still.

PAGE 1763

Weak, single parts, eyes, arms, wrists, popliteal etc. Globus hystericus. Slight injury causes spasms. Straightening out limb aggravates sciatica.

Sensation of a thread hanging down from esophagus. Red parts turn white. Slight injury causes spasms. Early bed-sores. Epileptic fits. Paralysis and contraction of limbs, hysterical. Constant heat and uneasiness. Bed-sores form soon in typhoid. Profuse sweat at night.

Clinical

Asthma, spasmodic, nervous. Bed-sores. Clairvoyance. Coxalgia. Headache.

Heart, palpitations. Heels, pain. Hypochondriasis. Hysteria. Levitation. Menopause. Neuralgia. Sensitive. Sciatica. Sleeplessness. Toothache.

Causations

Injuries, slightest injury causes spasms.

Constitutions

(1) Hysterical women who have taken too much chamomile tea.

(2) Nervous, irritable, and hysterical subjects in whom the intellectual faculties predominate and who suffer from hysteria and neuralgia. **Planets:** Moon, Mercury.

Modalities

Better after a meal. Better from changing position, walking about. Motion improves. Rubbing helps cramp in calf. Better after sleep, breakfast. Worse from rest, standing, excitement, evening, open air, draft of air. Worse from fasting, darkness, stooping. Worse by touch. Rest, sitting, standing aggravates. Worse noon, before midnight, cannot sleep before midnight. Worse open air, draft of air.

Symptoms

MIND

Hysterical spasms and disorders generally. Mental disturbances passing from one extreme of emotions to another from the highest joy to deepest grief from mildness to grumbling. Changeable disposition and moods. Feels light, as if floating in air. Over-sensitiveness. (Staph.)

Hallucinations at night. Irritable. Tremulous. Impatience, passes quickly from one subject to another. Erroneous ideas, thinks she is someone else, as if all around were strange and disagreeable. Wiggles or squirms about. Anger. Inclined to faint. Hysteria, dreads being alone and especially in the dark. Mad, raving, swearing. Sees imagines, animals, men.

Abdomen

Abdomen inflated and hard. Hysterical cramps. Spasms in bowels after food and at night in bed. Flatulence. Cramps after eating in bed at night. Draws abdomen in involuntarily.

Back

Lancinations in left lumbar region above hip, worse when standing and especially when sitting, than when walking. Rheumatic pains in the shoulder-blades.

Chest

Sudden stitches in chest and liver from within out. Eruption of small, hard nodosities on chest.

Ears

Otalgia with spasmodic drawings. Hyperesthesia. Earache from exposure to drafts and cold. Nervous noises. Illusions of hearing, imagined he heard the bell tinkle. Jerkings in the ears. Tinkling and ringing in the ears.

Eyes

Swelling and painful sensibility of eyelids. Myopia. Brightness and light before eyes in the dark room, vision sharp. Sparks before eyes. Objects seem too near eyes. Wild look.

Face

Pain appears suddenly and jerks. Muscles twitch. Cheeks red and hot in open air.

Female

Menses late and scanty. (Puls.) Neurasthenia of sexual organs.

Food

Voracious hunger with nausea. Hunger with nausea, as if from navel.

Head

Moving eyes aggravates headache. Headache, which appears suddenly or in jerks.

Fullness as from rush of blood to head. Pressive headache. Headaches, better moving about worse sunshine. Sensation of great coldness. Pressure in forehead. Bending head back aggravates pain in occiput.

Heart

Stitching in heart with quick, small and weak pulse.

Kidneys

During urination much straining and prolapsed rectum. Urine increased and more frequent in nervous women. Urine contains a white, red or turbid sediment.

Limbs

Rheumatic pains in limbs. Heaviness. Sciatica, pain worse standing and resting on floor (Bell.), better walking. Sciatica, worse stretching limbs, while standing. Pain in heels when sitting. Crampy pain, electric like shocks in humerus (left), wakes from sleep.

Constant jerking.

Tensive pain in the calves worse crossing legs. Cramps in biceps (right) while writing. Cramps of hands and feet prevent sleep. Pain from calf to heel. Legs feel light after walking.

PAGE 1764

Lungs

Choking in throat on falling asleep. Wakes as if suffocating. Spasmodic asthma, convulsive movements of the diaphragm. Obstructed respiration and anguish in chest.

Male

Creeping and drawing in penis as if it had gone to sleep.

Mouth

Rancid greasy taste. Nausea felt in throat. Bitter taste on tip of tongue. Tongue thickly coated. White blisters on tongue and upper lip, painful when touched. Toothache with shooting pain.

Nose

Violent sneezing.

Rectum

Ascarides. Hemorrhoid pain from worms. Loose evacuations. Painful borings in rectum. Bubbling pressure above anus in region of coccyx. Discharge of blood from anus. Thin, watery diarrhea with lumps of coagulated milk with violent screaming in children.

Greenish, papaceous, bloody stool.

Sensations

Pressure of hand or covering with hat causes icy coldness on vertex. As if flying in air. As if eyes would be pierced from within outward. As if smoke in eyes. As if a thread were hanging down throat. As if strained in right ankle. As if bruised in outer malleolus of right foot. Lightness in leg. Like lead in limbs.

Skin

Eruption of small nodosities, at first red and confluent, the white and hard. Painful eruptions. Skin too dry and warm.

Sleep

Sleepless with nightly itching and muscular spasms from excitement, worse on waking. Disturbed sleep with tossing and anxious and confused dreams.

Stomach

Cramps in stomach. Weak stomach and digestion. Belchings foul like bad eggs.

Heart

burn with gulping of rancid fluid. Nausea with faintness. Child vomits curdled milk in large lumps after nursing after mother's anger. Sense of something warm rising from stomach and causing suffocation.

Temperature

The chilliness generally begins in neck and runs down back. Fever composed of disagreeable heat only. Long lasting heat often with sweat on face. Sudden gushes of sweat, mostly on forehead. Body ice cold with nausea and vomiting. Heat predominates. Sensation of icy coldness. (Helo., Camp., Abies-c.)

Throat

Choking in throat-pit on falling asleep, wakens as if suffocating. Sensation as if a thread were hanging down throat with salivation and vomiting. Nausea felt in throat. Pharynx feels constricted.

Vertigo

Vertigo on stooping, feels light, as if floating. Head confused, as after intoxication. Intoxication and dizziness with absence of ideas. Whirling in head when stooping forwards.

Comments

When Franz wrote, it was the custom among ladies in Germany to take Valerian almost as frequently as coffee and to this practice he attributed no little of the nervous suffering than prevalent. "There is scarcely a remedy," he says, "which communicates its primary as well as secondary action to the organism with more intensity than Valer."

He instanced his own eye symptoms, which were both severe and remarkable and of them he says that, though he had never had any tendency to anything of the kind before, they were excited at intervals for four months afterwards, the cause being frequently unknown, showing the deep action on the organism.

"The many inveterate spasms of the stomach and abdomen. The incurable cases of hysteria and hypochondriasis. Moral disturbances, passing from one extreme of emotion to another. From the highest joy to the deepest grief from leniency.

Kindness and mildness to grumbling impatience, obstinacy and quarrelsomeness from a sinking of the vital forces. A painful craving for stimulants to the greatest liveliness and extravagance and vice versa,"

Tedious convalescence after nervous fevers, paralysis and contractions of the limbs. these in Franz's opinion, were much less owing to the original intensity of the disease than to the Valer. with which the patients had been dosed and they were only saved from worse effects by the fact that Valer. was frequently given in combination with one or more of its antidotes.

Some notes by Franz are important:

- (1) The first and most rapid effect of Valer., which precedes any after symptoms is an acceleration of the pulse and congestion of the head.
- (2) The symptoms of the upper and lower limbs alternate frequently.
- (3) The principal times of day when Valer. produces its symptoms are noon and early afternoon and the hours before midnight. The abdominal symptoms especially are felt in the evening.
- (4) Valer. causes several kinds of darting, tearing pains which come and go. Similar to these pains are those which appear suddenly. If we compare with these two kinds of pains the jerking pains which are scarcely felt in any other than muscular tissues and the cramping pains we have a very easy and natural indication of the grounds on which Tissot's recommendation of Valer. for epilepsy might be considered valid.

The eye symptoms of Franz were burning, smarting and pressure in the margins of the lids, which seemed sore and swollen.

There were also hallucinations of hearing and of sense. "Imagines she is some one else and moves to the edge of the bed to make room" was removed in one case.

"Anxious, hypochondriac feeling, as if the objects around him had been taken from him, the room appears to him desolate, he does not feel at home in the room, he is compelled to leave it." "As if in a dream."

The restlessness of Valer. is a very prominent feature: Nervous irritation, cannot keep still, tearings, cramps, better morning. Constant heat and uneasiness.

The digestion is disturbed. The taste caused by Valer. is as disgusting as its odor. Before dinner a taste of fetid tallow, early in the morning on waking the taste is flat, slimy.

Nausea begins in umbilical region, rising into pharynx.

Nash cured with it a severe case of sciatica in a pregnant woman on the symptoms, "pain worse standing and letting the foot rest on the floor." She could stand with the foot resting on a chair or lie down in comfort. Valer. is a leading member of the group of remedies which meet lack of reaction.

Hering says it meets "Nervous disorders occurring in excitable temperaments. In hypochondriasis it calms the nervousness, abates the excitement of the circulation. It removes the wakefulness, promotes sleep and induces sensation of quietude and comfort.

Sadness is removed in globus hystericus in all asthmatic and hysterical coughs. Nervous palpitations, profuse flow of limpid urine. Red parts become white".

Compare

- (1) Asaf., Ign., Croc., Castor.
- (2) Valer. - in neuralgia, gastric disturbance and great nervous agitation. Insomnia during pregnancy and menopause. Feeble, hysterical nervous patients.

Relations

SOURCES

Boericke. Clarke.

Vanadium metallicum

(the metal)

Pharmacy

Vanad. The Metal. Vanadium metallicum. Burnett used the soluble ammonium salt.

Trituration. Historical dose: All potencies, 6c to 12c potency.

History

Vanadium's action is that of an oxygen carrier and a catalyzer, hence its use in wasting diseases. Increases amount of hemoglobin, also combines its oxygen with toxins and destroys their virulence.

Also Vanadium increases and stimulates phagocytes. **Planets:** Jupiter.

PAGE 1766

Homeopathic

Vanadium is a remedy in degenerative conditions of the liver and arteries. Anorexia and symptoms of gastro-intestinal irritation, albumen, casts and blood in urine. Tremors, vertigo, hysteria and melancholia, neuro-retinitis and blindness. Anemia, emaciation. Cough dry, irritating and paroxysmal, sometimes with hemorrhages. Irritation of nose, eyes and throat.

Vanadium acts as a tonic to digestive function and in early tuberculosis. Arteriosclerosis, sensation as if heart was compressed, as if blood had no room in the aorta. Fatty heart. Degenerative states, has brain softening. Tuberculosis, chronic rheumatism, diabetes. Anxious pressure on whole chest.

Vanad. is a remedy for degenerative conditions of liver and arteries. Fatty degeneration of the heart and liver. Arteriosclerosis. Deeply pigmented patches on forehead in liver disorders. Profound weakness.

Clinical

Addison's disease. Anemia. Arteriosclerosis. Atheroma. Emaciation. Fatty heart. Liver disorders. Malnutrition.

Comments

Burnett tells how he came to use Vanad. through reading the result of some experiments on animals in which the Salts of Vanadium produced "true cell destruction, the pigment escaping, the liver being hit hardest."

Burnett had at the time a case of "fatty liver, atheroma of the arteries, much pain corresponding to the course of the basilar artery, large, deeply pigmented patches on forehead, profound adynamia."

Vanad. restored the patient, who was seventy and at eighty he was "hale and hearty."

Marc Jousset tells of experiments with salts of Vanad., chiefly the meta-vanadate of sodium, by Lyonnet and others. Animals poisoned by intravenous injections rapidly develop Cheyne-Stokes respiration with little or no action on circulation or blood.

These clinical observers gave Vanadates to two hundred patients, suffering from neurasthenia, tuberculosis, chlorosis, chronic rheumatism, etc. It produced in nearly all cases increased appetite, strength and weight. The amount of urea was also increased.

They regard Vanad. as "an energetic stimulant of nutrition," and probably an oxidant stimulating organic combustion. The dose was 2 to 5 mg. In twenty-four hours and only on three separate days in the week.

Compare

Vanilla aromatica

(vanilla)

Pharmacy

Vanil. Vanilla aromatica. Vanilla planifolia. Vanilla. Do not use the synthetic Vanilla extract. Historical dose: All potencies, esp. the 6c to 30c.

Herbal

Vanilla is supposed to stimulate the brain and sexual propensities. Various disorders of the nervous system and circulation are produced in workers with Vanilla. **Planets:** Venus.

Homeopathic

Vanilla aromatica is an emmagogue and aphrodisiac. Menses prolonged. It has been found effective in curing the skin disorders. Marked skin irritation resembling Poison-oak is sometimes produced by handling the beans, also by local use of vanilla essence in a hair wash.

Clinical

Menses prolonged. Poison-oak. Skin disorders.

SOURCES

Boericke.

PAGE 1767

Variolinum

(small-pox nosode)

Pharmacy

Vario. Variolinum. Small-pox nosode. Trituration of matter from small-pox vesicle.

Historical dose: All potencies, sixth to thirtieth potency.

History

The cardinal symptoms of small-pox are the keynote symptoms for the use of Variolinum. The backache of small-pox is about the worst backache known and Vario. has cured in my practice a number of bad backaches that nothing else seemed to touch.

Vario. was Burnett's chief remedy in shingles, it generally, as he expressed it, wiped out the disease, eruption and pain as well. It will also cure neuralgia left by herpes. Vario. has

aborted many cases of small-pox and has proved an efficient preventive against small-pox contagion and vaccinosis infection. **Planets:** Venus, Saturn.

Homeopathic

The Vario. nosode is prepared from Lymph from small-pox pustule. It has proved as an efficient preventive against small-pox and vaccinial infection. Vario. is used for bad effects of vaccinations.

Seems to be efficacious in protecting against, modifying and aiding in the cure of Small-pox. General aching in the muscles worse in back, occiput and legs. Calcareous deposits in the blood-vessels, spinal cord. etc.

These are cardinal indications for Vario. are: severe cold, chill, chilly creepings as if cold water were trickling down the back, violent fever with extremely hot skin with or without high pulse. Violent headache. Nausea. Pain in epigastrium. Pain in limbs as if in bones. Severe backache. There may be rash or there may not.

Clinical

Asthma. Backache. Chill. Eczema. Fevers. Headache, occipital. Herpes zoster. Neuralgia. Pustules. Shingles. Small-pox. Testicle, swelling. Ulcers. Vaccinations, ill effects.

Modalities

Worse from motion. Worse vaccinations.

Symptoms

MIND

Morbid fear of small-pox. Delirium with the fever. Fear of death, wild excitement and begging to know if he was to die.

Abdomen

Tympanities, pouting upwards, she looks pregnant.

Back

Pain as if back were broken. The symptoms are worse by motion. Terrible pains in back on right side of spine. Excruciating backache. Pains from back, shift to abdomen.

Breaking backache pain.

Ears

Deafness.

Eyes

Inflamed eyelids. Green vision, on rising.

Head

Crazy feeling in the brain. Headache with icy coldness of feet and hands. Pain in occiput.

Limbs

Aching in legs. Tired all over with restlessness. Wrists pain. Muscular rheumatism, worse on motion.

Lungs

Oppressed breathing. Cough with thick viscid, bloody mucus. Feeling of a lump in right side of throat. Asthma. Troublesome cough, with serous and sometimes bloody sputa.

Hawking up thick, viscid slime, smelling bad.

Male

Enlargement of testicle. Hard swelling of left testicle in consequence of a contusion.

Mouth

Tongue protrudes during sleep. Foul, metallic taste. Breath horribly offensive.

Sensations

As if a band tightly encircled head. Crazy feeling through brain. As if throat were closed.

As of a lump in right side of throat. Like streams of ice-water running down back.

Skin

Hot, dry. Eruption of pustules. As of bugs crawling under the skin. Eczema of palms.

Pustular eruptions, foul. Shingles and pain that follow. Ulcers look scooped out. Profuse, bad-smelling sweat.

Stomach

Even odor nauseates. Wants to regurgitate food. Vomiting of milk immediately after drinking it.

PAGE 1768

Temperature

As of cold water trickling down the back. Violent chill. Intense burning fever. Hot fever with intense radiating heat.

Throat

Throat very sore, redness of fauces. Painful swallowing. Throat feels closed. Pharynx and fauces deep purplish crimson, with gangrenous appearance. Sensation as if throat were closed. Sensation of a lump in right side of throat. Diphtheria with horrible fetor oris.

Comments

G. M. H. records this experience: Vario. 6c was given to the mother and children of a family, one of whose members was taken with small-pox and removed to an isolation hospital with his mother to nurse him.

The patient (who did not receive Vario.) was dangerously ill for a month. Neither the mother who nursed him nor any of the other children took small-pox.

Vaccine was sent by the Government and all the family were vaccinated, but it did not take with any of those who had taken Vario., although the vaccination was repeated.

Moreover, G. M. H. himself, who had taken a dose of Vario., submitted to vaccination, but "although four thorough inoculations were given, they healed up immediately and did not even itch or smart."

A school of two hundred children was "internally variolated" with Vario. (100,000c, Swan) on the evening of February 18th and the morning of February 19th. Of two school mistresses one was not at all affected, the other was two days in bed ill.

On February 21st many of the children were ill, by the 23rd all except forty were. The symptoms being the usual preliminary symptoms of small-pox and later Swan found pustules on many.

After the varioloid had passed off, but before the patients had recovered their vitality, twenty-three children were vaccinated without Swan's knowledge.

All but one took and had terrible ulcers on the arms and had to be remedied by Vac. (100,000c, Swan).

Compare

(1) Herpes, Mez., Rhus-t., Ars., Vaccin. the same action.

(2) Malandrinum - the morbid product of the grease of the horse, a prophylactic of small-pox and a remedy for the ill-effects of vaccination, chronic eczema following vaccination.

Relations

Antidoted by: Maland., Thuj., Ant-t., Vac., Sarr.

Boericke. Clarke.

Venus mercenaria

(american scallop)

Pharmacy

Ven-m. Venus mercenaria. American Scallop. Pelecypoda class, living along the Atlantic Coast of America, France and Southern England. The remedy is prepared from the mother tincture of the mollusc, plus an equal part of a trituration at 1/100 of the shell.

Historical dose: All potencies, 5c to 30c.

History

Ven-m., the American scallop is a bi-valvular mollusk. The proving after a suggestion by D. M. Foubister, was conducted by Raeside in 1961-62 on nineteen provers, plus seven controls during three terms, one dose morning and evening for fourteen days, using the following potencies: 30c - first term, 12c - second term. 6c - third term. The third term produced most of the symptoms.

Venus Mercenaria in one single dose of 30c or repeated once is a remedy both for attacks of migraine and for complaints based on migraine headaches.

Homeopathic

Venus Mercenaria is above all a remedy with cephalic action, for migraine headaches, accompanied by a host of digestive and urinary manifestations. Migraines of digestive origin. Increased frequency of urination.

PAGE 1769

The Ven-m. keynotes are: Frontal and occipital headache, predominantly on the right side, pains of a heavy sort, worse early in the morning and especially in the afternoon. Headache accompanied by vertigo, nausea, vomiting. Furred tongue, flatulence, diarrhea. Frequency of urination, especially during the day. Scalp and skin of the face and limbs itchy.

Predominantly right sided. Sometimes there is a pseudo influenza weakness with failing at 10 a.m. , extreme chilliness from 3 p.m. to 5 p.m. Sensation of contusion when pressure is applied.

Clinical

Allergies. Amenorrhea. Arthritis. Flatulence. Headaches. Mania. Migraines.

Schizophrenia.

Constitutions

Allergic, psoric and sycotic types, tending towards a cancerous state following severe self-intoxication. **Planets:** Moon, Venus.

Modalities

Better from movement. Worse on waking in the morning, especially in the afternoon.
Worse from noise.

Symptoms

MIND

Dull mood, state of indifference and lack of concentration. Exaggerated irritability from noise and people. Lack of co-ordination of thoughts. Sensation of boredom with fear of crying for no reason. Mania. Schizophrenia. Feels cut off from the world, traveling on a bus bores him. Drunk feeling in the morning.

Abdomen

Abdominal pains around 9 p.m. like menstrual pains. Muco-membranous enterocolitis. Flatulence and rumbling in the morning.

Back

Arthralgia and muscle pain with stiffness in the back and nape of the neck on waking.

Chest

Tender around the sternum.

Female

Menses painful, especially at onset, for 2-3 hours. Menstrual pain ameliorated by heat and lying down. Depressed on first day of menstruation. Amenorrhea.

Food

Desire for cold food, thirsty for cold water, ameliorated in the evening. Food tastes metallic.

Head

Frontal, dull headache, behind the eye to the right with nausea, especially in the afternoon. Occipital headache on the right side, also in the afternoon. Migraines of digestive origin. Frontal and occipital hemicrania of the right or left side with nausea and feeling as if the head were being held tightly. Headache, aggravated in the afternoon, by exercise, ameliorated by sitting quietly in the dark and in the late evening.

Heart

Short stabbing pain in the heart.

Kidneys

Persistent pain in the right kidney on waking up. Fleeting pain in the left kidney. Frequency of urination by day. Urine turbid, frothy with a fetid odor. Frequent need to urinate.

Limbs

Pain and paraesthesia of the limbs. Cramps, heaviness, itching of the arms and legs. These pains are ameliorated by movement. Pains in the hip, knee and ankle joints. Right knee swollen, hot and painful. Muscle pain. Arthritis. Arthrosis.

Mouth

Soreness of the left lower lip and corner of lips. Blister on the lips. Teeth sensitive to hot and cold, especially on the upper left jaw. Tongue coated, furred. Cold feeling in the mouth and throat.

Nerves

Incoordination of the mind and body when writing.

Rectum

Slight diarrhea or stubborn constipation with no desire to go to stool.

Skin

Itching eczema. Prurigo simplex. Itching of the limbs, ears, back and face. Urticaria on the left hand. Boils and eruptions on the face.

Sleep

Sleep disturbed, waking at 2 a.m. Dreams of spiders. Dreams of violence, ending in death. Dreams of death and disease.

Stomach

Dyspepsia. Stomach ulcer. Nausea after eating with headache and vomiting. Flatulence all day long. Pressing stomach ache with nausea, ameliorated after eating. Heaviness in the epigastrium, feeling of a stone in the stomach, aggravated by menses and at night.

PAGE 1770

Throat

Pain on right side, spreading to the ear, aggravated by swallowing with dryness, chill and swollen glands. Constriction in the pharynx and larynx. Boil on the neck.

Vertigo

Vertigo on rising after sitting for a long time, worse when ever tired, ameliorated by pressure.

Compare

(1) Calc. - digestive complaints with acrid-smelling stools, nausea and headache, chilliness.

(2) Iris Versicolor - headache around the right eye with gastric complaints, burning and heartburn.

(3) Lycopodium - meteorism, constipation, depression, aggravated from 4 to 8 p.m.

Relations

Carc. is its complementary remedy.

SOURCES

Julian.

Veratrinum

Pharmacy

Verin. Veratrinum. Veratria. An alkaloid obtained chiefly from seeds of Sabadilla and roots of Veratrum album. Trituration. Historical dose: All potencies.

History

Verin. is both a paralyzer and a great pain producer. It causes electric pains, sensation like electric streams in nerves, shooting pains like electric-shocks in veins, muscles and joints. Verin. causes tetanus, which Farrington distinguishes from the convulsive action of Nux-v. in that Verin. causes purgation and vomiting with the spasms and that general paralysis does not take place from exhaustion as with Nux-v., but from devitalization of the muscles. **Planets:** Moon.

Homeopathic

Veratrinum in large doses causes violent sneezing and great gastro-intestinal irritation, vomiting, purging and symptoms of collapse. The pulse being rapid, small and irregular and often involuntary muscular tremors come on. A peculiar creeping and prickling sensation in skin generally accompanies these symptoms.

Externally applied to the unbroken skin it has no marked action.

If rubbed on with some fat, it passes through the epidermis and acts on the true skin, causing first irritation and then paralysis of the ends of the sensory nerves and producing a prickly and creepy sensation, succeeded by numbness.

This effect is produced whether applied locally or taken internally. Its irritating action in the sensory nerves is also observed if it be inhaled through the nose, when it causes violent sneezing, which also occurs after absorption through the stomach, (Brunton).

Clinical

Colic. Diarrhea. Dysentery. Dysuria. Esophagus, stricture. Intestines, catarrh. Jaw, snapping. Neuralgia. Pain. Paralysis. Spine, neuralgia. Tetanus. Twitchings.

Comments

Twitchings, subsultus tendinum, fibrillary twitchings are marked. Startings and tremors occur in limbs previously affected by paralysis or pain. The pains are tingling, sparkling, prickling, burning. There is a drawing pain along the spine. Shocks in head. Twitching of facial muscles. Snapping, closure of lower jaw.

Sensations of oppression in head, suffocation of boiling water running over the back. As if a stream of warm air or drops of hot water issued from various parts. As if a frozen atmosphere round feet to knees or cold water poured on them.

One peculiar symptom is: "Dull pain afterwards burning in lower part of spinal column, followed by pain in bowels and prepuce, accompanied with jerking in lower limb."

Compare

(1) Sabad., Acon., Conium.

Relations

Antidoted by: Coffee mixed with a little lemon-juice.

Veratrum album

(white hellebore)

Pharmacy

Verat. White hellebore. White-flowered Veratrum. Veratrum album. N. O. Melanthaceae of the Liliaceae. Alps and Pyrenees. Tincture of the root-stocks collected early in June before flowering. Historical dose: All potencies, first to thirtieth potency.

PAGE 1771

History

In his Helleborism of the Ancients, Hahnemann showed that Verat. was the principal agent used at Anticyra and other places in Greece to produce the evacuations which were regarded as an essential of the "cure." Spring was deemed the most favorable season and autumn the next. Among the diseases in which the treatment was employed were "mental derangements, epilepsy, spasms of the facial muscles, hydrophobia, ptyalism of the pancreas, diseases of the spleens, goiter, hidden cancer," etc. (Hahnemann).

Homeopathic

Verat. profoundly affects the mind, nerves, abdominal, heart, blood, blood-vessels, respiration, vertex and digestive system. A perfect picture of collapse with extreme coldness, blueness and weakness is offered by this drug.

Post-operative shock with cold sweat on forehead, pale face, rapid, feeble pulse. Cold perspiration on the forehead with nearly all complaints. Vomiting, purging and cramps in limbs. The profuse, violent retching and vomiting is most characteristic. Surgical shock. Excessive dryness of all mucous surfaces. Violent mania alternates with silence and refusal to talk.

Verat. has some copious evacuations, vomiting, purging, salivation, sweat, urine with profound prostration, coldness, blueness and collapse are characteristic features. effects are violent and sudden. It is a great fainting remedy, faints from emotions, least exertion, slight injury with hemorrhage after stools, vomiting.

Cold perspiration on the forehead with all complaints. Cold, as ice, breath tongue.

Tonic spasms or cramps in chest, bowels, hands, fingers toes, soles of feet with diarrhea. Progressive weakness and emaciation in acute diseases, whooping cough, ague, etc. Sudden sinking of strength. Paralysis after debilitating losses.

Convulsions caused by religious mania or excitement, also of children. Excessive dryness of all mucous membranes. Burnings. Blood seems to run cold, blood sepsis, pyemia. Carphology.

Clinical

Amenorrhea. Anemia. Anguish. Anasarca. Angina pectoris. Asthma. Bronchitis. Cholera asiatica. Colic. Collapse. Coma. Constipation. Convulsions. Coprophagia. Coughs. Cramps. Deafness. Debility. Dehydration. Despair. Diarrhea. Dysmenorrhea. Eclampsia. Emphysema. Epilepsy. Esophagus, stricture. Fainting. Fevers. Gastric catarrh. Headaches. Head injury. Heatstroke. Hernia. Hydrocephalus. Hysteria. Influenza. Insanity, religious. Intermittent fever. Intussusception. Labor, constipation after. Lips, cracked. Liver, hyperemia. Lock-jaw. Lungs, edema. Mania. Measles. Melancholia. Meningitis. Menstruation. Neuralgias. Nyctalopia. Paralysis. Peritonitis. Pernicious fevers. Pneumonia. Pregnancy, imaginary. Ptosis. Rheumatism. Salivation. Scarletina. Sleep, whining. Spleen, swollen. Strokes. Sunstroke. Throat. Toothache. Typhoid fever. Vertigo. Water-brash. Whooping cough. Yellow fever.

Causations

Post-operative shock. Shock of injury. Ill effects of fright, disappointed love injured pride or honor. Suppressed rashes. Opium tobacco, alcohol.

Constitutions

Verat. is suited to:

- (1) the extremes of life children and old people,
- (2) lean, choleric or melancholy persons,
- (3) young people and women of a sanguine or nervo-sanguine temperament (of mountaineers. Tests),
- (4) people who are habitually cold and deficient in vital reaction,
- (5) persons of gay disposition,
- (6) of fitful mood,
- (7) anemic persons. **Planets:** Moon.

PAGE 1772

Modalities

Children feel better when carried about quickly. Better from warmth, covering, walking about, hot drinks, lying, eating meat, milk. Worse from exertion, drinking, cold drinks, fright during pain. Worse wet, cold weather, change of weather. Worse at night, before and during menses, before during after stools. Worse from touch, pressure. Worse injured pride or honor, opium eating tobacco chewing.

Symptoms

MIND

Melancholy, head hangs down, sits brooding in silence, wants to be alone. Melancholy with stupor and mania. Sits in a stupid manner, notices nothing, Sullen indifference. Amativeness. Haughtiness. Frenzy of excitement, shrieks, curses. Aimless wandering from home. Delusions of impending misfortunes.

Mania with desire to cut and tear things. (Tarant.) Prays, curses, shrieks in turn. Attacks of pain with delirium driving to madness. Cursing, howling all night. Delirium with violence, loquacity or lewdness during pain. Insanity. Remorse. Busy restlessness. Deceitful, never speaks the truth. Kisses everybody, before menses.

Despair about position in society, feels very unlucky. Sings, whistles, laughs. Runs from place to place. Malingering. Thinks herself pregnant. Nymphomania, embraces everybody even objects. Puerperal mania.

Religious mania. Talks about the faults of others or scolds. Anguish, fear of death. Despairs of her salvation. Imagines the world on fire. Swallows his own excrement. Imaginary diseases.

Abdomen

Sinking and empty feeling. Painful retraction of abdomen during vomiting. Sinking and empty feeling. Cold feeling in stomach and abdomen. Pain in abdomen preceding stool. Cramps, knotting abdomen and legs. Sensation as if hernia would protrude. (Nux-v.) Abdomen sensitive to pressure, swollen with terrible colic. Peritonitis. Intussusception. Reversed peristaltic action.

Cutting colic as if bowels were twisted in knots with cramps in limbs and rapid prostration. Epigastrium painful. Hot coals in.

Back

Neck so weak, child can scarcely keep it erect worse whooping cough. Pain crampy between scapulae better motion. Bruised feeling in sacral region.

Chest

Chest very much oppressed with pain in side during an inspiration. Sensation of fullness in chest, which induces frequent belchings. Spasmodic contraction of muscles of chest.

Ears

Shootings in ears. Pressure and constrictive sensations in ears. Alternate sensation of coldness and heat in ears. Deafness, as from obstruction in ears. Humming with sensitiveness to noise. Roaring in ears, especially when rising from a seat.

Eyes

Surrounded by dark rings. **Eyes** dull, clouded, yellowish. Lachrymation with redness. Lids dry heavy. The eyeballs are turned upwards. Pain, as if the eyeballs were bruised. Staring eyes, turned upwards without luster.

Face

Face very pale, blue, collapsed, cold. Features sunken. Deathly pale, on rising, bluish, pinched or distorted, frowning cold, terrified look. Cheek red (left), as if burnt. Tearing in cheeks, temples and eyes. Jaws cramp on chewing. Lock-jaw. Lips blue, hang down.

Female

Menses too early too profuse, suppressed. Menorrhagia with nausea, vomiting, diarrhea. Dysmenorrhea with coldness, purging, cold sweat. Faints from least exertion.

Nymphomania, before menses from disappointed love, unsatisfied passion in lying-in women. Eclampsia. Puerperal mania.

Food

Voracious appetite. Thirst for cold water, but is vomited as soon as swallowed. Craves ice water, wants everything cold or sour drinks, juicy fruits and salt. Averse to warm food. All fruits disagree causing painful distention. Gnawing hunger in spite of nausea and vomiting.

Potatoes and green vegetables disagree. Eating meat and drinking milk better.

Head

Cold sweat on forehead in all complaints. Violent pain driving him to despair, better cold. Sensation of a lump of ice on vertex. Headaches with nausea, vomiting, pale face, diarrhea, diuresis. Rubs forehead. Hair bristle, painful. As if cold wind blowing through head. Contracted features. Neck too weak to hold head up. Vertex itches during headache.

PAGE 1773

Heart

Palpitations with anxiety and rapid audible respiration. Tobacco heart from chewing. Intermittent action of heart in feeble persons with some hepatic obstruction. One of the best heart stimulants in homeopathic doses. (J. S. Mitchell.) Weak, cutting at. Visible palpitations with chorea. The pulse is intermittent, feeble, slow, thready. Blood runs like cold water through veins.

Kidneys

Urine, scanty, red brown. Thick, greenish, suppressed involuntary during cough.

Limbs

Brachial neuralgia, paralytic and bruising pain in arms. Fine burning in arms, right to left. Arms feel full and swollen. Tingling in hands and fingers. Soreness and tenderness of joints. Cramps in calves during stools. Sciatica, pains like electric flashes in legs, must sit up and let legs hang down out of bed. Difficulty in walking like paralysis from debility. Pains in feet or knees as if heavy stones were tied to parts, must move about. Feet icy cold.

Lungs

Rattling in chest. Much mucus in bronchial tubes, that cannot be coughed up. Coarse rales. Chronic bronchitis in the aged. (Hippozerin.) Air seems too hot. Asthma worse in damp cold weather better bending head back. Tickling down throat into lungs. Continuous violent cough with retching, worse cold drinks. Rattling in chest. Neglected whooping cough with complication. Barking cough with belchings, worse warm room. Involuntary urination with cough.

Cough on entering warm room from cold air. (Bry.) Hollow cough, tickling low down with blue face. Urine escapes when coughing.

Mouth

Dry in center not relieved by water. Salty saliva. Toothache, teeth feel heavy as if filled with lead. Grinding of the teeth. Tongue, cold, pale, cool sensation as from peppermint like. Speech lisping, stammering or as if tongue too heavy. Water tastes bitter. Taste peppermint like.

Nose

Icy coldness of tip of nose and face. Nose grows more pointed. Smell before nose. Nosebleed from right nostril, only at night in sleep.

Rectum

Diarrhea from drinking cold water in hot days. Constipation from inactivity of rectum with heat and headache. Constipation of babies and when produced by very cold weather. Stools large with much straining until copious and forcibly evacuated, followed by great prostration. Evacuations of cholera morbus and true cholera when vomiting accompanies the purging. Watery, green, odorless or colorless (rice water) stools or in large masses with straining, until exhausted with cold sweat. Cholera morbus. Cholera infantum. Stools, thin like ribbon, flat.

Sensations

As if pregnant or in throes of child-birth. As if he had a bad conscience or had committed a crime. As if in a dream. As if head would burst. As if heat and cold at same time on scalp. Hair as if electrified. As if something alive running from stomach into throat. As from ravenous hunger, pain in stomach. As of knives cutting bowels. As of hot coals in abdomen. Distress over heart and epigastrium. Sinking, empty feeling in abdomen. As of knives cutting bowels. As if she would have to fly away. Electric pains occur in various parts.

Skin

Blue, cold, clammy inelastic, cold as death. Cold sweat. Skin flabby and without elasticity. Wrinkling of skin of hands and feet. Skin feels scorched.

Measles, tardy and pale. Nettle-rash. Scarlatina in hot weather. Dry tetters.

PAGE 1774

Sleep

Awakes at night trembling. Starts as if frightened. Yawning. Nocturnal sleeplessness with great anguish. Sleep, long, uninterrupted, heavy too profound. Sleeps with the arms passed over the head. Dreams with frightened awakening and a fixed idea that the dream is true of quarrels. Dreams are anxious of being bitten by a dog and cannot escape of being hunted of robbers.

Stomach

Painful, burning at pit of stomach. Copious vomiting with nausea, aggravated by drinking and least motion. Vomits or belches froth. Violent retching. Hiccough after hot drinks. Nausea while eating, cannot get food down without retching. Vomiting worse drinking and least motion. Cold waterbrash. Anguish in pit of stomach. Great weakness after vomiting. Gastric irritability with chronic vomiting of food.

Temperature

Chill with extreme coldness and thirst. General coldness, icy, on vertex, nose tongue, mouth, limbs, sweat. Internal heat with cold surface, when drinking. Fevers showing external coldness only. Congestive chill with thirst.

Throat

Hoarse, weak voice. Loss of voice. Dry, scraping or roughness. When drinking water it seems to run outside, not going down the esophagus.

Vertigo

Vertigo, especially when walking. Vertigo with cold sweats on forehead with loss of vision, sudden fainting. Vertigo from opium eating from abuse of tobacco and alcohol.

Comments

The "evacuant" use of Verat. gives one of the keynote for its homeopathic use its discharges are copious, copious stools, copious vomiting, copious urine, copious salivation and copious sweat.

The discharges drain the tissues like cholera in which disease its pathogenetic effects render it one of the first remedies, ranking with Camphor and Cupr. in Hahnemann's trio.

The discharges exhaust the vitality as well as the tissues and cause vertigo, blackness before the sight, fainting, collapse: "Rapid sinking of forces, complete prostration, cold sweat and cold breath." "Skin blue, purple, cold, wrinkled, remaining in folds when pinched." "Face hippocratic, nose pointed." "Hands icy cold." "Face and legs icy cold."

This coldness is another of the keynotes of Verat. It is one aspect of the fever-producing power of the drug: "Coldness of the whole body." "Coldness running over whole body soon after taking it." "Feeling of internal chill ran through him from head to toes of both feet at once." "Continued rigor in back and over arms."

Very characteristic are: "Cold feeling in abdomen," Along with the coldness is blueness of face and limbs. Verat. is like cholera in that coldness predominates in its fever, but it has also "heat and redness of face and hands." With the fever there is apt to be delirium and prolonged sleep.

The delirium may develop great intensity and violence: "Fury: tears his clothing, bites her shoes to pieces and swallows the fragments, cursing, stamping, wants to run away, makes a great noise."

These and kindred symptoms seem to indicate Verat. In acute disorders attended with delirium and also in cases of mental alienation, which was prominent among the disorders treated with the drug by the ancients.

Hahnemann says of Verat. that it has the power "to promote a cure of almost one-third of the insane in lunatic asylums (at all events as a homeopathic intermediate remedy)". One of the symptoms taken by Hahnemann from Grading is this:

"He swallows his own excrement," which Goullon has verified: a child had a craze for eating its own feces or dung lying in the street. Verat. 2c. thrice daily, cured in a month.

PAGE 1775

The mania of Verat. may be of the exalted kind, religious or sexual. Imagines she is pregnant and will soon be delivered, nymphomania, puerperal mania, mania for kissing everybody have been cured by Verat.

Generally there will be collateral Verat. symptoms to confirm the choice: coldness, blueness, collapse, fainting, vomiting or diarrhea. Verat. is a great fainting remedy. There is fainting from emotions. from the least exertion from retching from stool. Sinking feeling during hemorrhage. The gastric conditions are characterized by extreme hunger, craving for cold food and refreshing things, thirst for ice-cold water. This last is very characteristic and appears in the chill and heat of fever.

The copious stools distinguishes Verat. from Camph. The evacuations are apt to be green, vomit, stool, urine. The characteristic diarrhea of Verat. is: frequent, greenish,

gushing, mixed with flakes, cutting colic with cramps commencing in hands and feet and spreading all over, prostrating after fright, worse least movement with vomiting, cold sweat on forehead during stool and prostration after. "Violent vomiting with profuse diarrhea" is a keynote of Verat.

The constipation of Verat. is no less characteristic: no desire, stools large, hard in round black balls from inactive rectum, frequent desire felt in epigastrium, painful of infants and children of women after confinement.

Verat. is a great pain producer and the pains of its neuralgias (dysmenorrhea, migraine) are often accompanied by diarrhea, vomiting, cold sweat, fainting or prostration.

E. F. Watts had this case: Mrs. C. had severe nervous headaches for years. Any over-exertion, as riding or working on hot days, would excite them. They frequently began in occiput, settling sometimes in one eye sometimes in the other. Spig. and Sil. gave no relief.

One day Watts noticed that the brow contracted and eyelids nearly closed with the intensity of the pain. Verat. was now given and relieved at once.

Gee cured this case with one dose of Verat. 200c: Mrs. L., widow, 43, had sciatica four years. Pain sharp, transient, darting upwards and downwards and from both sides to center. Heat, worse "the cooler the better." Cold sweat with the attacks. Headache from both temples to base of brain worse by heat. Vertex itches during attacks. Pain compels her to move about, but no better from motion.

The cramps of Verat. are part of its general convulsant properties. The convulsions of Verat. may be tetanic with lockjaw or epileptic. The eyes are particularly convulsed or the lids paralyzed. There may be vanishing of sight or sparks before the sight or night-blindness.

Dryness and burning are leading sensations as in other parts. Dryness is felt in nose, mouth, palate, throat. Verat. has a sharp action on the respiratory organs and has cured many cases of pneumonia when the mental and other symptoms of Verat. have been present.

A leading local symptom is tickling: Tickling deep in trachea and bronchials. "Tickling in chest, as if it would provoke cough in middle of sternum."

Verat. meets cardiac debility, following acute diseases, pulse thread-like, faints in morning, face red when lying down or sitting up, deadly pale, hands cold, clammy.

Compare

(1) Veratrinum - alkaloid from seed of Sabadilla - electric pains, electric shocks in muscles, fibrillary twitchings.

(2) Cholos terrepina - cramps in calves.

(3) Camph., Cupr., Ars., Cuprum ars. - intermittent, cold, clammy sweat.

(4) Narcissus poeticus - gastro-enteritis with much griping and cutting pain in bowels. Fainting, trembling, cold limbs, small and irregular pulse.

(5) Trychosanthes - diarrhea, pain in liver, dizziness after every stool.

(6) Agar-em. Agar-ph.

PAGE 1776

Relations

Antidoted by: (Poisonous doses) Strong Coffee, Camph. (pressive pain in head with coldness of body and unconsciousness after), Acon. (anxious, distracted state with coldness of body or burning in brain.), Chin. (other chronic disorders from abuse of

Verat. e.g. , daily forenoon fever.), Staph. (most cases. Teste). Antidote to: Ars., Chin., Cupr. (colic), Op., Tab., removes the bad effects of Opium and Tobacco. Follows well: Ars., Arn., Chin., Cupr., Ip., Camph. (cholera), Am. c., Carb. v. Bov. (in dysmenorrhea with vomiting and purging). Lyc. and Nux-v. in painful constipation of infants. Followed well by: Puls., Acon., Bell., Cham., Rhus-t., Sep., Sulph.

SOURCES

Boericke. Clarke.

Veratrum nigrum

Pharmacy

Verat-n. Veratrum nigrum. The Dark-flowered Veratrum. N. O. Melanthaceae. Austria and Siberia. Tincture of fresh leaves and succulent flower-stalks. Historical dose: All potencies.

Herbal

Cooper has given a few observations with Veratrum nigrum. The plant, he says, has much the same botanical characters as Veratrum album, but the flowers are dark-colored. It is native to Austria and Siberia. **Planets:** Mercury.

Homeopathic

Verat-n. has headaches, protracted menstruation. Tinnitus aurium.

Symptoms

Ears

Constant buzzing of left ear for two weeks with tenderness of meatus and intense sensitiveness of the head to the motion of an omnibus with beclouding of the brain and pain in nape of neck.

Female

Period continually returning, sometimes light-colored and slight in quantity and sometimes profuse with weak feeling in back.

Head

Constant headache when attempting to move or exert the brain (cured). Fierce headache threatening acute mania (cured).

SOURCES

Clarke.

Veratrum viride

(american hellebore)

Pharmacy

Verat-v. Veratrum viride. American hellebore. American White Hellebore. Indian Poke. N. O. Melanthaceae of the Liliaceae. Tincture of fresh root gathered in autumn. Historical dose: All potencies, fifth to sixth potency.

Herbal

Growing side by side, Verat. album and the Verat-v. are scarcely distinguishable when not in flower. Millspaugh, however, says that though much like Verat. alb. in its minor points, Verat-v. is strikingly different in general appearance.

Verat-v. having a much more pointed leaf, panicles looser and more compound, the racemes of Verat. a being more compact and as a whole cylindrical, those of Verat-v.

scattered, compound and craggy. Verat. a. flourishes in mountain meadows, Verat-v. grows in swamps. And wet meadows and along mountain creeks from Canada to the Carolinas.

Through this confusion an accidental proving of the latter has been included in the pathogenesis of Verat-v. The plants belong to different orders, though it must be admitted there is a close resemblance in their effects.

The root of Verat-v. The plants belong to different orders, though it must be admitted there is a close resemblance in their effects. The root of Verat-v. contains Veratrine and the other alkaloids found in the root of Verat. a., but in different proportions.

PAGE 1777

Burt proved Squibb's liquid extract of Veratrum viride, the Green American Hellebore and says he found no other preparation satisfactory.

Clinical

ly, it is known that such diseases as Tiegel's contracture, Thompson's disease, athetosis and muscular paralysis present a symptomatology quite like that produced by Verat-v. upon muscular tissue. (Hinsdale)

Homeopathic

Verat-v. produces violent congestive conditions, base of brain, medulla, lungs with nausea and vomiting and weakness. Stomach, heart and capillaries are also affected. Paroxysms of auricular fibrillation. Induces fall of both systolic and diastolic blood pressure.

Congestions, especially to lungs, base of brain with nausea and vomiting. Twitchings and convulsions. Especially adapted to full-blooded and plethoric persons. Great prostration. Rheumatism of heart. Bloated, livid face. Furious delirium. Effects of sunstroke. Esophagitis. (Farrington.)

Verat-v. has an uneasy sensation in the whole body. Zigzag of temperature. Twitchings and convulsions, here and there during sleep, jerking and trembling, threatened with convulsions. Muscular prostration, pseudo-hypertrophic muscular paralysis.

Congestive stage and early manifestations of hepatization in pneumonia. General pulsations. Erratic motion, staggering. Spasms with violent shrieks opisthotonus, before and after menses. Burning in different places tongue, pharynx, gullet of skin which is cold with prickling. Eclampsia. Uremia.

Sudden effects. Faintings, prostration, nausea. Numbness. As if damp clothing on arms and legs or clothes would not fit him, seemed as if they were scratching him somewhere. Effects of sunstroke. Reduces blood-pressure.

Children tremble as if frightened and on verge of spasm. Chorea, twitching, contortions, unaffected by sleep, froth about the lips. Continuous jerking of the head, sexual excitement. Lies with head low.

Suddenness: Sudden fainting, prostration, nausea. A keynote symptom is: Red streak down the center of the tongue. Verat-v. has a pronounced action on the esophagus, it causes a sort of ruminating action or reversed peristalsis. The least food causes vomiting. Numbness is prominent among the effects of Verat-v.

Clinical

Amaurosis. Amenorrhea. Asthma. Bunions. Carphology. Cecum. Chilblains. Chorea. Colds. Convulsions. Delirium. Diplopia. Diaphragmitis. Dysmenorrhea. Eclampsia.

Esophagus, spasms. Erysipelas. Headaches. **Heart** disorders. Hiccough.

Hyperpyrexia. Influenza. Malarial fever. Measles. Meningitis. Menses, suppressed. Muscle pains. Orchitis. Pneumonia. Proctalgia. Puerperal convulsions. Puerperal mania. Sleep, dreamfilled. Spinal, congestion. Spleen, congested. Strokes. Sunstroke. Typhoid fever. Uterus, congestion.

Causations

Sunstroke. Suppressed menses. Suppressed lochia.

Constitutions

Suited to full-blooded plethoric persons. **Planets:** Moon, Mars.

Modalities

Better from rubbing, lying with head low, eating. Better by pressure, (pain in head). Closing eyes and resting head helps vertigo. Worse from raising up, cold, lying on back after confinement, sunstroke. Motion aggravates, sudden motion causes faintness and blindness. Walking causes blindness. Lying down aggravates (headache, breathing). Worse going from warm to cold. Worse morning on waking, also evening.

PAGE 1778

Symptoms

MIND

Loquacity with exaltation of ideas. Quarrelsome. Delirium, furious, screams, howls, strikes incessant muttering. Mania, puerperal. Carphology. Fear of seeing her physician. Fear of being poisoned. Suspicious nature.

Abdomen

Pain above pelvis with soreness. Cutting at navel to groin. Pain in bowels runs into scrotum. Enteritis with high fever.

Back

Aching pain in back of neck and shoulders. Cannot hold the head up. Opisthotonus.

Chest

Burning in chest.

Ears

Deafness from moving quickly with faintness. Cold and pale.

Eyes

Vision of red spots, purple, on closing eyes, unsteady. Pupils dilated. Wild, staring during delirium. Blood shot.

Face

Face flushed, livid turgid, but becomes faint on sitting up. Convulsive twitching of facial muscles. (Agar.) Tension across malar bones. Chewing motions of the jaw.

Female

Menstrual colic before the appearance of the discharge with strangury. Suppressed menstruation with congestion to head. (Bell.) Rigid os. (Bell., Gels.) Puerperal fever, convulsions with mania or mania continues after convulsions have ceased.

Food

Very thirsty, drinks little which better for a short time.

Head

Head retracted, pupils dilated, double vision. Meningitis, basilar. Pain from nape of neck, cannot hold head up. Congestion intense, almost apoplectic. Hot head, bloodshot eyes. Bloated, livid face. Hippocratic face. Sunstroke, head full, throbbing arteries. (Bell., Glon., Usnea) Constant jerking or nodding of the head, (chorea), throbs on raising up. Aching on vertex and between eyes. Strokes. Pain up occiput with dim vision and dilated pupils.

Heart

Constant, dull, burning pain in region of heart. Valvular disease. Beating of pulses throughout body, especially in right thigh. Pulse slow, soft, weak, irregular intermittent. Rapid pulse, low tension. (Tab., Dig.)

Kidneys

Urine scanty with cloudy sediment. Cystitis with fever.

Limbs

Severe pain in joints and muscles. Violent electric-like shocks in limbs. Acute rheumatism. Cramps in legs, feet, soles, fingers toes. Vesicles on hands. Convulsive twitching. Pain about the condyles. Pulsation felt in thighs. Restless hands during delirium.

Lungs

Dyspnea. Congestion of lungs. Difficult breathing. Slow and heavy breathing, as of a load on chest. Pneumonia with faint feeling in stomach and violent congestion. Croup. Violent cough from very start. Pneumonia.

Mouth

Drawn at one corner. Taste like odor of semen. Odor from mouth like chloroform or ether. Foul. Mouth feels as if scalded. Tongue, white as if bleached, dry with red streak down center. Increased saliva.

Nose

Pinched and blue. Rapid and continued sneezing with warm biting feeling in mouth.

Rectum

Tenesmus and burning in rectum better during and after stools.

Sensations

Confused feeling in head as if head would burst. As if boiling water poured over parts. Tongue as if scalded. As if a ball rising into esophagus. As if stomach tightly drawn against spine. As of a load on chest. As if ankles distorted. As of galvanic shocks in limbs. As if damp clothing on arms and legs.

Skin

Erysipelas with brain symptoms. Erythema. Itching in different parts better rubbing. Hot sweating. Tingling and prickling in skin. Cold, clammy, bluish.

Sleep

Coma. Sleeplessness. Dreams of drowning or being on water.

Stomach

Gastritis. Nausea and vomiting. Smallest quantity of food or drink immediately rejected. Constrictive pain increased by warm drinks. Hiccough, excessive and painful with spasms of esophagus. Burning in stomach and esophagus. Vomiting, violent without nausea. Stomach seems to press against the spine.

PAGE 1779

Temperature

Hyperpyrexia or rapidly oscillating temperature with sweat. Cold clammy or hot sweat. Cerebrospinal, suppurative, acute rheumatic, fever. Fever high in the evening, below normal in the morning. Suppurative fevers with great variation of temperature.

Throat

Burning in gullet, esophagitis. As if a ball rising in.

Vertigo

Vertigo with nausea and sudden prostration, better closing eyes and resting head.

Comments

Hale was instrumental in introducing Verat-v. to homeopathy, using it in fevers and particularly in pneumonia. Burt made a heroic proving of the liquid extract and his infant daughter (twenty-one months) very nearly died from taking a few drops of the tincture from a phial. In two minutes she began vomiting. Coffee and Camphor were given as antidotes.

In five minutes her jaws were rigid, pupils widely dilated, face blue, hands and feet cold, no pulse at wrist. Abdomen and back were rubbed with Camphor, when she went into spasms with violent shrieks.

These spasms were frequently repeated, a hot path being most effective in relaxing the muscles. Vomiting ropy mucus kept up for three hours. Pulseless, hands and feet shriveled. After three and a half hours she slept quietly and soundly and next morning was well but a little weak.

D. McLellan was sent for in the middle of the night to see an old lady whom he found sitting up in bed gasping for breath and blue. Rapid congestion of the lungs had occurred. The attack had come on suddenly. Verat-v. quickly rescued the patient from a condition of imminent peril.

The congestive symptoms and also of nausea and vomiting, form one of the leading indications of Verat-v. in a great variety of cases. Sensations of fullness. "Head feels full and heavy, rush of blood to the head, face flushed, buzzing in the ears, chest constricted or oppressed as from a heavy load," point to the congestive tendency.

The localities most congested by Verat-v. are: Base of brain, chest, spine, stomach. Slowing of the heart's action is a leading effect of the provings (from its action on the heart muscle and cardiac ganglia Dig. on the pneumogastric) and Verat-v. has been used to "knock down" fever in the same way as Acon.

Nash points out that there is some risk in this. When Verat-v. was first introduced he used it largely and successfully in a number of cases, but in one case which appeared to be going on favorably, the patient died suddenly. This he attributes to the Verat-v.

In chorea Verat-v. has had many successes: "twitchings during sleep" was a characteristic of some cases. "Constant jerking or nodding of the head, jerking and trembling. Threatened with convulsions," are other leading symptoms.

In puerperal convulsions Verat-v. has only succeeded when nauseating doses have been given. In muscular and joint rheumatism it has been used locally as well as internally and in chorea an application to the spine of the tincture, diluted with spirit, has proved a serviceable adjunct.

Among other indications for Verat-v. are: Violent pains attending inflammation. Head full, throbbing of arteries, sensitive to sound, double or partial vision.

Clarke with the 30c, cured a man, 56 of these symptoms: Dim sight as if scales over it, numbness, pain in head as if a tight band were round it, rush of blood to head, sleeplessness. Dreaming about water is a characteristic which he has confirmed.

Compare

(1) Puerperal convulsions, Gels. has dull, drowsy state of mind.

(2) Verat-v., apoplectic condition between the fits, face red, eyes congested, violent convulsive twitches.

(3) Congestions, Ferr-p., Bell.

(4) Plethora, Acon.

(5) Chorea, Hyos.

(6) Pneumonia with engorgement, Sang. (Ver. v. more marked arterial tension).

(7) Scalded tongue, Sang.

(8) Tetanus, Nux-v., Hypericum.

Verbascum thapsus

(mullein oil)

Pharmacy

Verb. *Verbascum thapsus*. *Verbascum thapsiforme*. Mullein. Great Mullein. N. O. Scrophulariaceae. Tincture of fresh plant at the commencement of flowering. To prepare Mullein Oil, fill a bottle with the blossoms from the *Verbascum thapsus*, cork it tight and hang in the sun for four or five weeks. By that time there will be an oily liquid distilled. Mix with ten per cent of alcohol.

Historical dose: Tincture and all potencies. Mullein oil, locally, for earache and dry, scaly condition of meatus. Also for teasing cough at night or lying down. Bedwetting, five-drop doses night and morning.

Herbal

The Treasury of Botany says: The thick woolly leaves of *Verbascum thapsus*, the Great Mullein, have a mucilaginous, bitter taste and a decoction of them is employed in domestic practice in catarrhs and diarrhea.

The leaves are also used as emollient applications to hard tumors and in pulmonary complaints in cattle hence one of its popular names is Bullock's Lung-wort. It is also called Adam's flannel from its flannel-like leaves.

Among its traditional uses Gerarde mentions it as a remedy for hemorrhoids and as applications for itching hemorrhoids or anal itching. An ointment is made of the tincture.

Gerarde says that the oil of the yellow flowers is also curative in hemorrhoids. The flowers contain:

"A yellow volatile oil and fatty acid, free malic and phosphoric acids and their ate salts of lime, a yellow resinous coloring matter and the general plant constituents including an uncrystallisable sugar " (Millspaugh).

An oil is prepared from flowers known as Mullein oil which has been found useful locally in cases of deafness or earache. **Planets:** Mercury.

Homeopathic

Verb. has a marked effect on the nerves especially the inferior maxillary branch of me fifth nerve, ears, respiratory tract and bladder and left side. Has a pronounced action on the inferior maxillary branch of the fifth pair of the cranial nerves, on the ear and respiratory tract and bladder.

Catarrhs and colds with periodical prosopalgia. Quiets nervous and bronchial and urinary irritation and cough. Soothes nervous, bronchial and urinary irritation. Produces catarrhs and cold, spasmodic effects and neuralgias. Tearing, stitching, cramping squeezing, crushing, paralyzing pains. Many pain are intermittent.

Clinical

Anus, itching. Bedwetting. Colic. Constipation. Cough. Deafness. Ear pain. Hemorrhoids. Neuralgia. Prosopalgia. Urine incontinence.

Modalities

Better from taking deep inspirations. Worse drafts, change of temperature. Worse with even cold, 9 a.m. to 4 p.m. , twice a day, at same hour touch. Worse from talking, sneezing, biting hard (inferior dental nerve). Worse by touch, by pressure. Worse by stooping. Walking worse.

Symptoms

Abdomen

As of a lump or twisting around navel. Incessant gurgling and rumbling beneath left ribs. Inflation of the abdomen, violent and painful pressure on navel. Pinchings and gripings in abdomen.

Back

Lancinations in the back and shoulder-blades. Backache worse from pressure. Sharp intermittent stitches in left scapula.

PAGE 1781

Chest

Shooting in chest, sometimes with oppression and obstructed respiration. Stitches in the chest. Red nodosity near xiphoid cartilage, painful when pressed upon.

Ears

Earache. Oil of Mullein relieves earache. Deafness from getting water in, as in swimming or as if stopped by a valve. Numbness in left ear. Otalgia with a sense of obstruction. Dry, scaly condition of meatus (use locally).

Eyes

Pains in eyes, as from contraction of the sockets with burning in eyes. Sight confused, as if directed through a veil.

Face

Neuralgia affecting zygoma, temporo-maxillary joint and ear (Meny.), particularly of left side with lachrymation, coryza and sensation as if parts were crushed with tongs. Talking,

sneezing and change of temperature aggravate the pains, also, pressing teeth together. Pains seem to come in flashes, excited by least movement, occurring periodically at same hour in morning and afternoon each day.

Food

Mawkish taste with fetid breath. Hunger without relish for food. Insatiable thirst.

Kidneys

Constant dribbling. Burning urination. Increase with pressure in bladder. Bedwetting, at night, worse coughing.

Limbs

Cramp-like pain in soles, right foot and knee. Lower limbs feel heavy. Thumb feels numb. Neuralgic pain in left ankle. Stiffness and soreness of joints of lower limbs.

Stitching in the limbs.

Lungs

Cough, worse at night. Asthma. Soreness in pharynx, cough during sleep. Catarrh with hoarseness and stuffed chest. Frequent attacks of deep, hollow cough with sound like a trumpet, better deep breathing. Dry, hoarse cough worse at night. Cough, nervous without waking.

Male

Pollutions without lewd dreams.

Mouth

Copious accumulation of salty saliva in the mouth. Root of tongue brown. Tongue of a brownish yellow color, loaded with viscid mucus in morning and after dinner.

Nose

Profuse coryza from frontal sinuses with hot, burning, profuse lachrymation. Sensation of stoppage of larynx and ears.

Rectum

Many bowel movements a day with twisting about navel. Fearful diarrhea. Hemorrhoids, obstructing stools, itching and inflamed. Inflamed and painful hemorrhoids. Pain extends deep down, causing contraction of anal sphincter. Feces hard like sheep-dung and expelled with effort.

Sensations

As if everything would press out at forehead. As if left ramus of jaw were pressed against upper jaw. As if temples were pinched and crushed. As if ears were stopped up. As if nose and larynx were stopped up. As if something had fallen before ear. As if intestines were adherent to wall of abdomen and were being torn away. As of a twist around navel. As if cold water were poured over side of body from shoulder to thigh.

Sleep

Strong disposition to sleep after a meal. Disturbed sleep, at night with tossing. Short sleep at night, lasting only until 4 a.m. with anxious, frightful dreams of wars and dead bodies.

Stomach

Regurgitation of insipid serum. Empty or else bitter risings with nausea. Frequent hiccough. Aching of stomach. Sensation of emptiness at pit of stomach, which disappears with a rumbling below left ribs.

Temperature

Internal coldness of whole body of hands and feet, perceptible also externally. Shuddering, especially on one side of body, as if it were bathed in cold water.

Throat

Very severe pain in throat on swallowing. Hoarse, voice deep, harsh, sounds like a trumpet, "basso profundo." Sensation of obstruction in the larynx.

Vertigo

Vertigo when pressing one cheek while supporting the head. Vertigo sudden, as from pressure on whole head.

PAGE 1783

Comments

Cushing introduced this now rather well-known remedy to the medical profession in 1884. He writes of it as follow. The history of it is this: "My father's house was the home for all poor tramps, as well as ministers, etc. He fell into the river, got water in his ears and was quite deaf for months.

A blind man had called, heard loud conversation, asked the cause, etc., then said for kindness received he would tell us how to make something that would surely cure him and it was worth a thousand dollars in New York City.

We made the oil, put it in his ears at night and he was well in the morning. For years we kept a bottle of it and it traveled all around the towns and did wonders. That was when I was a youngster."

In Hering's "Hearing and Ears" notice the following: "In Germany flowers of *Verbascum thapsus* put in a dark-colored bottle, hung up in the sunlight, give in two or three weeks an oily fluid which has cured many old people and children."

In chronic dermatitis of the external meatus and drumhead or exfoliation after furuncle, it is excellent in chronic catarrhal inflammation of the tympanum In chronic suppurative disease of the tympanum or in accumulations of debris in the case of perforation, scarred eardrum.

It acts to dislodge accumulations, free the ossicles from pressure and thereby improves the hearing. This process goes on for months until the tympanum has thrown out an amount of debris that is surprising.

Verb. has cured a case of chronic inflammation of the eyes and a case of chilblains from which the patient had suffered during the winter, for about six years. The oil has been used as a dressing for burns.

A Mr. Kemmis had spent a large amount of money treating with various physicians for what they pronounced a rose cancer and without any relief. An Indian woman told him to use Mullein oil. He distilled it (as it is now prepared, by sun exposure) and for a short time bathed the cancer with the oil.

The growth of cancer was permanently checked, but it was not healed. Mr. K. lived, perhaps, forty years after the treatment was used and the cancer never again bothered him.

Hahnemann proved *Verbascum* and his proving confirms many of the old uses. It produced neuralgic pains of very great intensity, pressing and sharp and especially in the facial bones, navel and limbs and a peculiar cough. "Cough, deep, hollow, hoarse in sound like a trumpet," is Nash's description.

He has cured many cases and always used it low. It is more especially a night cough. It occurs in children during their sleep.

Some years ago Mullein was used as a popular specific for tuberculosis, the leaves being boiled in milk, which was then strained and given warm.

W. B. McCoy gives several illustrations. According to him Verb. (i.e. , the "oil") has a "soothing effect on the entire nervous system in many cases acting as a soporific." In summer diarrhea he gives one to four drops in two ounces of warm water, a teaspoonful every hour. In bedwetting or dribbling of urine one-drop doses in warm water three or four times a day.

Among his cases were those of two boys who had become deaf from getting water in their ears when swimming. They were cured by having three drops of the oil instilled "in each ear alternately night and morning."

O. S. Laws cured a youth of 16 of bedwetting with fifteen drops of the oils three times a day. The oil plainly acts on the indications of the proving and may be regarded as an alternative preparation to the official tincture. It might be called Verbasci oleum.

Compare

- (1) Rhus-a., Caust., Plat., Sphingurus - pain in zygoma.
- (2) in neuralgia, Plat. - pressure, Stann. - gradually increasing and decreasing.
- (3) Deep cough, Cor-r., Dros., Spong., Sulph.
- (4) Sheep-dung stools, Mag-m.
- (5) Cough from tickling in chest, Verat.

Verbena hastata

(blue vervain)

Pharmacy

Verbe-h. Verbena hastata. Vervain. Blue Vervain. Historical dose: Tincture and all potencies.

Herbal

Verbena in the form of a tea as a diuretic drink is used by Vannier to aid elimination in tuberculosis cases. In epilepsy it must be continued for a long time. **Planets:** Moon, Mercury.

Homeopathic

Verbena hastata affects the skin and nervous system. Nervous depression, weakness and irritation and spasms. Promotes the absorption of blood and allays pain in bruises.

Epilepsy insomnia, mental exhaustion. In epilepsy, it brightens up the patient's mental powers and helps the constipation. Vesicular erysipelas. Passive congestion, intermittent fever. One of the remedies for Poison-oak.

Clinical

Epilepsy. Insomnia. Mental exhaustion. Poison-oak.

Comments

Anshutz reports: An extract from a paper by Dr. J. N. White, Queen City, Texas, detailing at length the case of a five-year old boy, who after six weeks of whooping cough, developed epileptic symptoms, having as high as twelve spasms in twenty-four hours.

After two months of treatment with such remedies as Sol-c., Sulfonal, Hyos., Cann-i., Calomel, Zinc., etc. with no results, the case was given Verbena.

Another doctor was in consultation and we quote: I told my friend (the Doctor) that when he became satisfied with the zinc treatment, I wanted to try another eclectic remedy. (The Doctor was an allopath). He was perfectly willing and I put him on Verbena hastata tincture, twelve drops, every four hours, skipping the dose at midnight.

After we both took the case we decided, as there were no curative properties in the sulfonal, we would drop it and not use anything to control the paroxysms. Consequently the boy seemed to get worse to the parents, as now he would have several falling spells a day.

From the first dose of the Verbena hastata the boy began to improve. He would have contractions of the muscles of the arms and legs and look wild for a minute or more for the first week, but after that he never had another symptom. We kept him on the medicine, as above, for six weeks and now he takes twelve drops three times a day.

He has not had any symptom in over two months and all that wild vacant look is gone and he plays, eats, sleeps, etc., as if he had never been troubled with epilepsy.

SOURCES

Anshutz. Boericke.

Barbital

Pharmacy

Veronal. A dangerous drug made by the action of alcohol upon urea and contains the same radical that alcohol does. Historical dose: All potencies.

History

Veronal makes a man just as drunk as pure alcohol. Staggers, cannot stand up. (Dr. Varney.) **Planets:** Moon.

Homeopathic

Confluent, reddish spots, dermatitis, itching of glans and prepuce, circumscribed dermatitis patch on first metacarpal phalangeal joint.

Compare

(1) Chloralum hydratum.

Verbena officinalis

Vervain

(bach flower remedy)

Pharmacy

Vervain. Verbena officinalis. Bach Flower Remedy. The flowering branches are put in a bowl of sunlit water and left to the sun's action for several hours. Subsequently, the water is strained and used as medicine.

PAGE 1784

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

Vervain belongs to the group of Over-Care for Other's Welfare, as classified by Bach. The additional remedies of this group are Rock Water, Beech, Vine and Chicory. **Planets:** Moon.

Homeopathic

Vervain treats states of over-enthusiasm which lead to exaggerated attempts to convert others to one's own views. Escalating tension and excessive drive of willpower may take its toll on the nervous system or even lead to a nervous breakdown.

In the Vervain state, one may overlook the gradual depletion of reserves and disregard the many warning signals. Hyperthyroidism can be helped by Vervain. In manic and catatonic states, this remedy not only releases mental and emotional tension, but also helps to relax tightened muscles, (Cherry Plum, Impatiens).

Symptoms

MIND

In the Vervain state, the mind is convinced enthusiastically of certain ideals or ideas. Fervency and fanaticism, one loses sight of this truth. The person may be blinded to other opinions and choices.

This remedy is indicated in manic states within mental illness. Bipolar disorders and problems with impulse control (Cherry Plum, Holly, Impatiens). Obsessive-compulsive disorders. Delusions and psychoses with excessive fervency, ecstasy (Clematis) and mania.

Not only mental concepts and ideas but emotions as well may be carried to great height. Excitability, impressionability and quickly aroused motivation and fondness for others may stimulate and enrich. Excessive joy, exaggerated, unbalanced emotions of love and friendship. The negative emotions of disgust and rejection may assume fanatical character.

Hysterical mood swings can be carried to extremes by an underlying Vervain state. Political fanaticism and outbursts of violence. Self-righteousness is usually high.

SOURCES

Bach.

Vesicaria communis

Pharmacy

Vesi. Vesicaria communis. N. O. Cruciferae, Tribe, Alyssineae. Tincture of whole fresh plant. Historical dose: Tincture and all potencies.

Herbal

Vesicaria is a genus of Cruciferae, natives of the Northern Hemisphere, distinguished by the globose or obovoid inflated pouch with hemispherical valves and numerous seeds (generally four to six) in each cell. They are herbs, sometimes shrubby at the base with oblong or linear entire or ripened leaves and terminal racemes of yellow flowers.

(Treasury of Botany)

George R. Shafter says Vesi. is an old remedy much used in some parts of Germany for all forms of urinary and kidney difficulties, for gravel, for gonorrhoea, both in the male and female. **Planets:** Venus.

Homeopathic

Shafer's indication for Vesic. is a smarting, burning sensation along the course of the urethra and bladder with frequent desire to void urine often accompanied with a strangury. The conditions he has found particularly amenable to Vesic. are: Nephralgia, acute cystitis, irritable bladder, following acute cystitis, chronic cystitis.

Clinical

Albuminuria. Cystitis. Dropsy. Gleet. Gonorrhoea. Gravel. Hematuria. Kidney pain. Prostatitis.

Comments

George R. Shafter mentions these cases:

(1) T. S., age 67, suffering from kidney pain, for which he had received Morphine injections in former attacks. Vesic. in 15 drop doses every fifteen minutes, gave marked relief in two hours, which in six hours was complete.

PAGE 1785

(2) S. B., age 57 cystitis from cold, high fever, eating, burning pain on voiding urine, which was drop by drop. Vesic. tincture in 10 drop doses. cured in two days.

(3) Woman, age 39, pain in back, brick-dust sediment in urine, hands and feet swelling so she could hardly close her hands or walk. Vesic. tincture cured.

(4) Man, age 65, irritable bladder, had to rise twenty to thirty times in the night.

Vesic. tincture in 20-drop doses, relieved quickly and cured in six weeks.

(5) C. M., 89, chronic cystitis, passing large quantities of mucus, pus. The bladder was at first washed out with Boric acid solution, then Vesic. tincture 20 drops every two hours, were given. Improvement followed and in two hours the Boric acid washing was stopped and Vesic. given every four hours. This finally cured.

(6) Gonorrhoea with smarting and burning on urination and thick creamy discharge. Vesic. tincture a drachm every four hours, soon cured.

(7) Gonorrhoea, female after being treated for two weeks with injections, was cured in seven days with Vesic. tincture in drachm doses.

Cowperthwaite has succeeded in causing albumen to disappear from the urine even in cases of actual Bright's disease. He adds that "it is necessary to use only the imported [i.e. , European] tincture, 15 drops every four hours." (There are several Vesicarias native to North America.)

A. L. Davison treated Mrs. P. for general dropsy of a year's standing, was in uremic spasms when first seen, the kidneys having ceased to secrete urine. Vesic. tincture was prescribed, 15 drops in a teaspoonful of water every hour until urine was freely secreted, then three times a day. The second day the kidneys were pouring out urine and watery stools were passed. In a week all dropsy had disappeared.

Bancroft treated Mrs. T. for irritable kidneys and bladder with polyuria. After a time the urine became bloody with occasional thin clots.

Previously there had been for some months a thick, yellow sediment. Vesic. tincture, 6 drops four times a day and later 15 drops three times a day, taken persistently, effected a cure.

Halbert reports the case of Mr. H., a young man whose occupation involved much outdoor exercise and who contracted a chill and had lumbago in consequence. Under an "orificial" surgeon his rectum was operated on and the sphincter stretched.

Thereafter he had fever, rigors and acute prostatitis. Urination was painful and difficult and soon hematuria ensued.

The pain and nervous exhaustion were so extreme that he was put into hospital and for a time only relieved by injections of Morphine. The urine contained albumen, blood-clots, much pus. Urine was only passed by means of the catheter and defecation was extremely painful.

Vesic. 1x was given hourly and great relief followed. The painful tenesmus was alleviated and he was soon able to pass urine without the catheter. In three weeks he was able to go home.

Shafer gave Cact. and Thlas. in a case of dropsy from heart disease in a woman, age 48. These gave little relief. He then gave Vesic. in combination with the others. There was marked relief in twenty-four hours and in ten days the dropsy had disappeared.

Vespa crabro

(wasp)

Pharmacy

Vesp. Vespa crabro. Wasp. Vespa Vulgaris. European Hornet. Vespa Maculata. "Yellow-jacket," the American Hornet. N. O. Hymenoptera, Sub-order Vespidae. Tincture of the insects. Historical dose: All potencies, third to thirtieth potency.

PAGE 1786

History

The symptoms are mostly the results of stings. Berridge proved Vespa crabro 30c on three persons. Low spirits, pain in right ear, nausea with faint feeling and trembling, pain in left side of the neck on waking these were the strong symptoms experienced. Berridge demonstrated that the poison of the hornet and the wasp may answer to each other's indications.

He cured with Vesp. 100,000c. (Fincke) a symptom produced by Vespa vulgaris, namely, chemosis of the right eye.

Mr. X. age 66, had his right eye inflamed for six days. When seen there was redness of right lower lid, baggy swelling of conjunctiva partly covering the cornea when pressed upward, lachrymation of right eye worse in open air, right lids adhere in morning. Vesp. three times daily cured in a few days.

E. T. Blake cured with Vesp. left the following group of symptoms: Face swollen and puffy, skin transparent and blanched, scalding urine followed by itching, itching of right arm.

Blake also related the case of Miss C. J., who at the age of thirty-one was stung on the left thumb, through some calico and was never well after, dying at the age of thirty-eight. She was prone to constipation all her life and at twenty-three had "congestion of the left lung." Most of the abdominal, urinary, ovarian and uterine symptoms were hers. Among the latter was an irritable ulcer. **Planets:** Mars, Sun.

Homeopathic

Vesp. has produced stinging, burning pains, as if pierced with red hot needles. Skin and female symptoms marked. Indurated feeling. Vasomotor symptoms of skin and mucous membranes.

Convulsions, loss of consciousness, does not answer when spoken to, looks into space, has no recollection of the attack. Trembling, quaking with chattering of teeth. Nerve and muscular excitement. Stinging piercing deeply, as if a hook were pulled out. Sudden stinging and burning in cheek. Burning of the part, then swelling, red with burning pain. Sudden tearing.

Vesp. has cutting like electric shocks through all joints, arm, head and face swollen, eyes red and twitching, red lines along absorbents, itching over whole body insensibility, vomiting, pulse slow, heart's action scarcely perceptible. Feeling as if dying at night. Weakness with bedwetting.

Faintness, all day with trembling and nausea. Heat especially overpowers him. Feet were cold except in summer, when they burned uncomfortably.

Clinical

Abscesses, multiple. Alopecia. Bee stings. Bedwetting. Chemosis. Fainting. Flushing. Glottis, spasm. Indigestion. Edema. Ophthalmia. Ovary, pain. Quinsy. Tongue, swelling. Uterus, ulcerated. Vertigo.

Modalities

Better by bathing with vinegar, (Skin). Cold water applied, first better then aggravates. Better from cold washing of hands. Worse from hot stove or in a closed room. Worse by motion. Open air aggravates lachrymation. Worse after sleep. Worse after eating.

Symptoms

MIND

Terrible anxiety. Low-spirited. Insensibility. Unconsciousness with inability to move.

Abdomen

Uneasiness in abdomen.

Back

Pain in left side of neck, waking her at night, preventing her from turning it to left side, felt least when lying on back, best on right side. Pain in scapula (place of sting) with soreness.

Ears

Sticking deep in right ear. Purulent catarrh of middle ears.

PAGE 1787

Eyes

Injection of right conjunctiva. Chemosis of conjunctiva. Itching of right lid in evening with swelling afterwards pain in lid and ball, erysipelatous inflammation of lid, whole

side of face painful and swollen, almost complete chemosis of conjunctiva, it being raised up on the sclerotic membrane, more than half over eye to border of cornea, as if fatty matter were under it, caused by effusion of lymph, an abscess opened upon inside of upper lid about its center, later the chemosis became reddish. Inflammation of right eye with baggy swelling of conjunctiva.

Face

Pain in cheek (part stung) as if pierced with red-hot needles, suddenly awakening him from sleep and recurring periodically. Painful and swollen. Erysipelatous inflammation of lids.

Swelling of mouth and throat with violent burning pains. Face livid. Face smooth, dark red, bloated. Anxious look after a sting on tongue.

Female

Menstruation, preceded by pain, pressure, depression and constipation. Left ovary markedly affected with frequent burning, urination, sacral pains extending up back. Erosion around external os. Pain in left ovarian region. Menses: intermittent, sometimes brown, accompanied by pain and flatulence, preceded by mental depression, pain, pressure and constipation. An irritable ulcer surrounded os tincae. Irritation, worse in groin, passing into pudenda causes ulceration.

Head

Fainting and loss of consciousness. A violent heat came over him, felt sick, then turned giddy and spun round and round like a top until he fell, staggered to the house, got into a chair in a moment, fell out of it, almost fainting, dashed water into his face, at length was able to lie down on his bed. Headache. Face and head swollen and inflamed. Alopecia.

Heart

Aching in heart. Slow beating of heart, almost imperceptible. Pulse: rapid and small, rapid and feeble, rapid with violent beating of carotids.

Kidneys

Burning with urination, also itching. Marked tenderness to deep pressure in kidney region. Incessant bedwetting. Burning urination in women. Remittent dysuria with backache. Hematuria.

Limbs

Pain in shoulder in region of stings, axillary glands swollen. Sprained pain in left shoulder-joint on moving it, worse lifting arm or twisting it. Aching in hand and arm.

Lungs

Hoarseness. Voice lost. Spasm of glottis (after application of diluted ammonia to tongue), face pale, drops of sweat on forehead, arms thrown out to gasp for air, he got out of bed, sank back on bed, face livid, breath and pulse stopped. Dyspnea. Respiration hurried.

Male

Swelling of scrotum and penis.

Mouth

Tongue swollen and tense, swelling below chin, between that and hyoid bone, pain in a point in middle line of tongue, swollen, red, rounded, filled the mouth, immovable, could not speak, only mumbled, swallowing was painful and difficult. Swelling of palate with inflammation. Peculiar taste, as when a nest of wasps is disturbed, worse heat.

Sensations

As if a harpoon were sticking deep in and were drawn on. Cold, chilly sensation round sting. As if pierced with red-hot needles. As if about to suffocate. As if left shoulder-joint were sprained. As if a cutting instrument were piercing all joints like an electric shock. As if dying.

Skin

Erythema intense itching, burning. Boils, stinging and soreness, relieved by bathing with vinegar. Wheals, macules and swellings with burning, stinging and soreness. Erythema multiforme.

Sleep

Night restless. Sleepless all night.

Stomach

Belchings. Indigestion with flushing. Nausea in evening after coming indoors with weight in stomach with faint feeling and trembling. Vomiting with swelling of head. Cold feeling in stomach. Heat in stomach.

Throat

Swelling of throat, soreness, heat of throat. Hypertrophied tonsils which secreted a cheesy matter. Pharyngeal varicosis.

Vertigo

Fainting, loss of consciousness.

Comments

Vesp. is valuable in disorders of left ovary with tenderness, frequent urination, pain in sacrum extending up back. Dizzy, better lying on back. Fainting. Numbness and blindness. Nausea and vomiting, followed by creeping chills from feet upward.

PAGE 1788

Cramping pain in bowels. Axillary glands swollen with soreness of upper arms. Perspiration on parts laid on with itching.

W. Rowbotham was stung on the right cheek. Next day, about 4 a.m. , was suddenly awakened by burning, stinging pain in cheek, "as if pierced with red-hot needles," and soreness and smarting along the lymphatics. After bathing the face he got to sleep and was again suddenly awakened by the pain two hours later, which recurred periodically in paroxysm, throughout the day.

Burnett observed a case of sting on the tongue in a woman. The tongue entirely filled the buccal cavity. The patient's appearance was exactly like one suffering from severe synanche. The swelling was diffuse and deep-seated. There was not much redness.

Viburnum opulus

(cramp bark)

Pharmacy

Vib. Viburnum opulus. Cramp Bark. Water Elder. High Cranberry. N. O. Caprifoliaceae. Great Britain. The Gueldres Rose or Snowball-tree of our gardens is the cultivated and sterile variety. Tincture of the fresh bark. Historical dose: Tincture and all potencies.

Herbal

Viburnum opulus, a native of Great Britain is widely distributed over the northern parts of the continent and America. In America (says Hale) the wild species is called "Cramp bark," and the knowledge of its curative virtues in painful spasmodic diseases, like dysmenorrhea is derived from the Native Americans.

The tincture has a strong odor of Valerianic acid (as also has that of Vib. tinus). Hale derived his knowledge from herbal sources. He gives these indications and directions:

(1) In spasmodic dysmenorrhea he gives a few drops of tincture to 3x thrice daily for a week before the period, every hour when the pains set in or every fifteen minutes if the pains are severe.

(2) False pains preceding labor.

(3) After-pains, a dose after each pain.

(4) Cramps in abdomen and legs of pregnant women.

(5) To prevent miscarriage when the pains are spasmodic or threatening. Hale considers it acts like galvanism, he cured with it cases exactly resembling a series cured with galvanism by Neftel.

Homeopathic

The female symptoms most important. Viburnum is a remedy for general cramps. Colicky pains in pelvic organs. Conscious of internal sexual organs. Prevents miscarriage. False labor-pains. Spasmodic and congestive affections, dependent upon ovarian or uterine origin.

Violent spasmodic, nervous effects especially in the females dependent upon the ovarian or uterine origin. Pains make her so nervous, she cannot keep still.

Hemorrhages. Left sided symptoms. Sick feeling all over in pelvic complaints. Paralytic conditions after convulsions.

Clinical

After-pains. Cough of pregnancy. Cramps. Dysmenorrhea, spasmodic, neuralgic, membranous. Ears, painful. Epididymitis. Headache. Hysteria. Labor pains, false. Lumbago. Menstruation, painful. Miscarriages. Ovaries, pain. Paralysis. Uterus, cramps, bearing down.

Constitutions

Suited to tall, slender, dark or fair haired hysterical subjects. **Planets:** Moon, Mars.

Modalities

Better by pressure. Better in open air and resting, pressure. Worse from fright, before menses, coldÑsnow, air in close room. Worse lying on left side, lying on affected side in warm room, evening and night. Worse by sudden jar. Worse by motion.

Straining at stool aggravates headache. Stooping causes dizziness. Rising causes fainting, nausea and dizziness. Worse at night. Worse in close room.

Symptoms

MIND

Very nervous and irritable.

Abdomen

Excruciating crampy colicky pain or heavy aching in hypogastrium, better menses.

Sudden cramps and colic pains. Tender, worse pressure about umbilicus.

Back

Tired backache better pressure. Lumbago better walking with a cane pressed, arms across the back. Pains in the back end in a cramp in uterus or go down the thighs. Bruised feeling in back as after severe exertion.

Chest

Shooting over left sixth rib near sternum. Feeling of oppression over whole chest. In lungs sensation as if muscles of chest failed to act, causing dyspnea.

Ears

Stabbing in ears. Pains in bone waking at night. External ear sore as if bruised.

Eyes

Sore feeling in eyeballs. Sclerotica streaked with blood. Sensation of sand in eyes. Pain in right eye with congestion. Sore feeling on closing lids. Burning and lachrymation.

Heaviness of eyes.

Face

Flushed and hot. Face swollen and congested. Swelling about right eye with induration. Face and lips pale, dark circles under eyes. Lips dry.

Female

Menses too late, scanty, lasting a few hours offensive in odor with crampy pains, cramps extend down thighs. (Bell.) Bearing-down pains before. Ovarian region feels heavy and congested. Aching in sacrum and pubes with pain in anterior muscles of thighs (Xanth.), Spasmodic and membranous dysmenorrhea. (Bor.) Heavy aching feeling or excruciating cramps in pelvis, better from menses. Leucorrhea, thick, white, blood streaked worse during stools. Leucorrhea, excoriating.

Smarting and itching of genitals. Faint on attempting to sit up. Uterine hemorrhage. Consciousness of internal sexual organs. Frequent and very early miscarriage, causing seeming infertility. False Labor pains. Violent persistent after-pains. Pains from back to loins and womb worse early morning. Uterine pains extend around the pelvis often extending down the thighs. Pelvic organs turning upside down.

Food

No appetite. No desire to eat, stomach feels full. Indigestion, food lies heavy.

Head

Throbbing in head. Head dull and sluggish. Terrible crushing pain worse left parietal region with a sensation as if head opening and shutting. Severe pain in temporal region.

Head hurt by every cough.

Kidneys

Frequent urging. Frequent profuse urination during headache, menses, hemorrhages etc. Dysuria, spasmodic. Copious, pale, light-colored urine. Cannot hold water on coughing or walking.

Limbs

Cramps in calves, before menses. Stiff, sore feeling in nape of neck. Feels as if back would break. Sacral backache. Lower limbs weak and heavy.

Lungs

Suffocative spells at night worse cold, damp. Infantile asthma. Cough during pregnancy.

Rectum

Stools large and hard with cutting in rectum and soreness of anus.

Sensations

As if she could not tell where she was or what to do on awaking. As if she could not live, sick feeling at stomach. Emptiness, as if stomach hollow. As if body from waist to lower pelvis would collapse. As if urine continued to flow after urinating. As if menses coming on. As if pelvic organs were turning upside down. As if parts would be forced through vulva and she must support the part. Left side as if strained or bruised by over-lifting.

Skin

Tettery spots on cheeks, arms etc.

PAGE 1790

Sleep

Very restless sleep, felt sick all over. When asleep, sensation of falling and awakened frequently with a start.

Stomach

Constant nausea, relieved by eating.

Vertigo

Vertigo, feels as if falling forward. Vertigo worse descending stairs. Feels faint on sitting up.

Comments

The first Vib. provings were by H. C. Allen, assisted by eleven provers, male and female with the tincture and first and 30c dilutions.

Dr. Susan Fenton of Oakland, proved Vib. on six provers. One of the six took the tincture up to drachm doses without obtaining a single symptom. One prover was cured of a number of symptoms, but developed no new ones. All took potencies at first without eliciting any symptoms.

Taking the tincture all had these symptoms with variations: severe backache going through to the front or round the abdomen to uterus. Cramping pelvic pain. Temporal headache. Three had nausea with the pains. All had "sick feeling all over." One had omission of a period, two had menses too early.

The cured case was the following: Miss F., 25, housekeeper, medium height, rather slender, blonde, sanguine, was strong until she had severe pelvic congestion and was fifteen months under treatment and most of the time in bed.

In June, 1892, double oophorectomy was performed with great relief, but attacks of pelvic congestion with severe pain still persisted, at first every two to four weeks, later less frequently, causing impairment of general health and strength.

The symptoms were: excruciating pains through lower abdomen with bearing-down sensation and a feeling as if the body from the waist to lower part of pelvis would collapse, an indescribable sick feeling all over with severe aching in rectum, great depression of spirits, symptoms better when lying down.

Vib. tincture was taken in three-drop doses thrice daily. After taking it for three days she lost all her symptoms and felt "perfectly well for the first time in over four years".

It is evident that "sick feeling all over" in connection with pelvic complaints and "worse from movement, better by rest" are keynotes of Vib.

Viburnum prunifolium

(black haw)

Pharmacy

Vib-p. *Viburnum prunifolium*. Black Haw. An American species. N. O. Caprifoliaceae. Tincture of fresh bark gathered in October and November from trees grown in open situations. Phares. Historical dose: Tincture and all potencies.

Herbal

Hale quotes experiences showing a close resemblance between Vib-p. and Vib. with some additional uses of Vib-p. E. P. Fowler cured two cases of cancer of the tongue with the decoction of Vib-p. bark, used topically.

Phares thinks it perhaps "the best remedy in the world for tetanus." Phares also says of it, "Vib-p. is particularly valuable in preventing abortion and miscarriage, whether habitual or otherwise, whether threatened from accidental causes or criminal drugging" and he gives cases in support of each.

Hale used the tincture in threatened miscarriage, dysmenorrhea and spasmodic uterine pains.

It entirely antidotes the effect of Goss., which is much used for procuring abortion in some of the States, one pint of a strong decoction of the cotton-root being sufficient. Vib-p. when taken regularly completely neutralizes this. **Planets:** Moon.

PAGE 1791

Homeopathic

Viburnum prunifolium is a uterine tonic. Habitual miscarriage. Menstrual irregularities of infertile females with uterine displacements. Morning sickness. After-pains. Cancer of the tongue, obstinate hiccough.

Clinical

After-pains. Dysmenorrhea. Infertility. Menorrhagia. Menstrual disorders. Miscarriage. Morning sickness. Tetanus. Tongue, cancer.

Comments

Phares cases:

(1) Mrs. W. had never gone to full term, had several children at eight months, all of them dying one month after birth. Frequent pregnancies and hemorrhages had seriously impaired her health. When next pregnant Vib-p. was ordered and at the eighth month when pains set in vigorously with copious bloody discharge, Vib-p. was given freely and she went to term, giving birth to a healthy boy, who survived.

(2) Mrs. L., married eighteen months, had miscarried and suffered long and much in consequence. Being again pregnant, Phares gave Vib-p. tincture, a teaspoonful thrice daily. At the third month she was severely injured by a fall from her carriage.

Strong uterine contractions ensued, but were arrested by Vib-p., which had to be given freely for several days, the dose being gradually diminished. For nearly a week abortion was threatened whenever Vib-p. was too long suspended. The patient went to term and gave birth to a large boy.

Viburnum tinus

Pharmacy

Vib-t. Viburnum tinus. Laurustinus. N. O. Caprifoliaceae. Tincture of fresh leaves.

Historical dose: Tincture and all potencies.

Herbal

Viburnum tinus is the beautiful evergreen shrub known in our gardens as Laurustinus. Cooper has investigated it, giving always single doses of the tincture in cases analogous to those for which Vib. op. is given. **Planets:** Moon.

Homeopathic

Cooper has cured with Vib-t.: Pain in ovary with depression. He considers hypochondriasis an indication for Vib-t. Deafness with sufferings in lower segment of abdomen and dysmenorrhea, erosions about the os uterus. Cramp in diaphragm.

Horrible headache all over head, worse on right side with right-sided deafness, coming on at 7 and 11 a.m. and 4 and 7 p.m. with great sinking in pit of chest. Waking at 4 a.m. with horrid depression of spirits that lasts until noon with a weight on chest and back, has to hold herself up to breathe.

Clinical

Deafness. Diaphragm, cramp. Hypochondriasis. Ovary, pain.

Vichy aqua grande grille

Pharmacy

Vichy-g. Vichy aqua. Grande grille. Mineral springs at Vichy in France. Grande Grille springs, containing in 100 parts: Carbonic acid 4.418, Mur. ac. 0.344, Sulphuric acid 0.164, Sil. ac. 0.070, Phos. ac. 0.070, Arsenic acid 0.001, Ferric oxide 0.002, Sodium 2.488, Potassium 0.182, Calcium 0.169, Magnesium 0.097. Historical dose: Tincture and all potencies.

History

The springs of Vichy are alkaline, both hot and cold. Croserio proved Vichy, taking the water and triturations of the salt and dilutions. The springs are used in a large number of maladies, especially:

- (1) diseases of the digestive tract,
- (2) diseases of the liver with or without stones,
- (3) abdominal engorgements consequent on paludal fevers,
- (4) chronic engorgements of the uterus,
- (5) catarrh of the bladder,
- (6) gravel,
- (7) gout and rheumatism,
- (8) diabetes mellitus,
- (9) skin diseases (Constantin James). **Planets:** Saturn, Jupiter.

Homeopathic

Among the most prominent symptoms of Vichy-g. were stitches: stitches below mastoid in chest in right loin and in heart. Across the chest there was a sensation as of a bar impeding breathing.

PAGE 1792

Sinking sensation and sensation as if about to be sick. Burning flatulence. In the nose there were illusions of smell, corpse-like odor, odor of cucumbers. After sex there was excessive weakness as if from hunger.

Clinical

Bladder, catarrh. Constipation. Diabetes. Gallstones. Gout. Gravel. **Heartburn**. Indigestion. Intermittent fevers. Liver disorders. Neck, stiff. Rheumatism. Salivation. Skin disorders. Uterus disorders.

Modalities

Worse from cold from drafts of air. Worse after eating, when eating. Uneasiness is better by dinner. Worse when seated. Worse after sex.

Compare

- (1) Nat-m.
- (2) Stitching pains, Kali-c.
- (3) Bar sensation, Hematox., Ars., Ox-ac.

Vinca minor

(lesser periwinkle)

Pharmacy

Vinc. Vinca minor. Lesser Periwinkle. N. O. Apocynaceae. Woods and shady places.

Tincture of whole fresh plant. Historical dose: All potencies, first to third potency.

History

Vinca was proved by Rosenburg on four healthy persons, who took the tincture in 20 to 60 drop doses. It produced a deep impression on the organism and tissues. **Planets:** Moon.

Homeopathic

Vinc. has weakness and prostration accompanied many of the sufferings, the stool caused exhaustion, great debility accompanied the uterine hemorrhage.

There was "weakness as if he would die," inclination to stretch, trembling and tendency to start, especially on exciting the mind. Trembling in all the blood-vessels. Allied to this an empty, all gone sensation appeared in the stomach and chest.

A corresponding deep impression was made on the tissues: blood and blood-vessels, skin, hair and nails, bones.

Vinc. affects skin and hair and is effective for uterine hemorrhages. A remedy for skin affections, eczema and especially plica polonica, also for hemorrhages and diphtheria.

It is effective for uterine hemorrhages. Weakness and prostration, accompany many sufferings, weakness and faintness as if he would die.

Mental exertion causes tremulous feeling and tendency to start. A peculiar symptom was distention of abdomen after stool. "Toothache better in warmth of bed" is an unusual. The left side was most affected.

Clinical

Acne. Alopecia. Crusta lactea. Eczema. Favus. Neck, stiff. Nose, redness. Plica polonica. Seborrhea. Throat, sore. Uterus, bleeding.

Causations

Anger. Mental exertion.

Modalities

Worse after swallowing, anger, stooping, walking. Worse reading. Worse moving in open air. Drinking aggravates, liquids (especially beer) causes belchings, coffee causes nausea.

Symptoms

Abdomen

Distention after a stool. Abdomen full, tense but painless. Rumbling and gurgling with passage of much offensive flatus. Griping.

Back

Painful tension and stiffness of cervical muscles with an illusive sensation as if a weight were lying on them.

Chest

Pains in chest with sticking and dyspnea. Pressure on sternum with feeling of emptiness in chest. Stitching in sternum.

Ears

Ringing and whistling in ears with feeling of cold wind, especially the left.

Eyes

Itching and burning of lids, which become red. Eye dry, on getting snuff into it there was so little secretion he was obliged to wash it out. Foggy vision while reading, at times also while walking.

Face

Bloated face with pimples. Tearing in malar bones. Dry lips. Swelling of upper lip and corner of mouth.

PAGE 1793

Female

Menses, profuse, flowing like a stream without interruption with great weakness, at menopause. Menorrhagia, continuous flow, at menopausal. (Lach.) Bleeding fibroids. Passive uterine hemorrhages. (Ust., Trill., Sec.)

Food

Hunger alternating with loss of appetite before the hunger has been satisfied. Scarcely any thirst.

Head

Tearing pain in vertex, ringing and whistling in ears. Spots on scalp oozing foul moisture, matting hair together. Spots on scalp, oozing moisture, matting hair together. Corrosive itching of scalp. Irresistible desire to scratch. Plica polonica (matted hair). Bald spots covered with short woolly hair. Hair falls out and is replaced by gray hair.

Kidneys

Diminished secretion of urine. Urine pale yellow.

Limbs

Inclination to stretch limbs. Tearing pains in limbs. Arthritic tearing in bones. Swelling and stiffness of first joints of fingers with burning pain in the nails. Cramp-like drawing in feet and toes.

Lungs

Hoarseness. Tenacious mucus in trachea. Spasmodic cough with little tickling in larynx. Rapid respiration.

Mouth

Tearing in teeth better by warmth of bed. Aphthae. Increased secretion of saliva. Insipid taste in mouth to all food.

Nose

Becomes red on becoming least angry. Sores in nose. Frequent nose bleeding. Tip gets red easily. Moist eruption on septum. Stoppage of one nostril. Sores in nose. Seborrhea upper lip and base of nose.

Rectum

Urging to stool. Stool first hard, then soft. Stool exhausting with burning in anus.

Sensations

As if a hammer were beating from within outwards in vertex. cold wind in ears. As if something sticking low down in esophagus. As if a weight lying on cervical muscles. As if he would die from weakness.

Skin

Eczema of head and face. Corrosive itching. Great sensitiveness of skin with redness and soreness from slight rubbing. Pustules, itching, burning and offensive odor. Hair matted together. Weeping eczema intermingled with foul, thick, crusts. Corrosive itching.

Sleep

Frequent yawning. Sleeplessness and restlessness at night. Lascivious dreams.

Stomach

Empty belchings after drinking beer and generally worse from taking liquid. Nausea after coffee. Violent, bitter, copious vomiting of yellowish-green liquid. Gastric disturbance. Emptiness in stomach.

Throat

Cutting in lower esophagus, which provokes swallowing. Diphtheria. Ulcers. Frequent hawking. Difficult swallowing.

Vertigo

Whirling vertigo with flickering before eyes.

Comments

Vinca minor has a wide range in passive uterine hemorrhages.

This case is related in Ind. H. R. (ix. 113): Uterine hemorrhage, blood dark red, flow copious, uninterrupted with extreme debility. Chin. and Helon. failed to relieve, Vinca 1x effected a rapid and permanent cure.

Frequent nosebleed is another effect of Vinca. And there is a curious symptom in connection with the nose which it is well to remember: it "becomes red from the slightest cause, when the least bit angry." There are scabby eruptions about the nose and on the septum, which are part of the general skin effect of the remedy.

It causes corrosive itching of the skin provoking scratching, moist spots and burning in ulcers. The most characteristic effect is on the scalp, where it produces a condition having many features of crusta lactea, favus and plica polonica. Clarke has cured with Vinca "sore spots on the scalp" in a young lady. A number of symptoms were produced in the throat and esophagus.

PAGE 1794

C. M. Boger records this case: Women, 31, had a cutting sensation in lower part of esophagus while swallowing food and continuing after.

Empty faintness in stomach better by eating. Stomach sore to touch or pressure of clothing. Constipation from induration of feces. Hemorrhoids constantly sore, smarting after stool. Vinca 41,000 c (Fincke) cured.

Compare

- (1) Oleand., Staph.
- (2) peevishness with repentance, Croc. Crusta lactea, Med., Melit., Mez., Jug-r., Olean.
- (3) Viol-t. - with strong-smelling urine.
- (4) Lappa - glands swollen, axillary glands even suppurate.
- (5) Staph. - sickly children, pale face, dark rings round eyes.
- (6) Ust. - filthy eruptions, part of hair comes out, part matted.
- (7) Alopecia, Bacil., Phos.

SOURCES

Boericke. Clarke.

Vitis vinifera

Vine

(bach flower remedy)

Pharmacy

Vine. *Vitis vinifera*. The flowering clusters, shortly after the stamens have grown out, are put in a sunlit bowl of water and left to the sun's action for several hours. Subsequently, the water is strained and used as medicine. Only the wild vine is used.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

The remedy Vine belongs to Bach's group of Over-Care for Others' Welfare, with the further remedies of Rock Water, Beech, Vervain and Chicory. **Planets:** Moon.

Homeopathic

Vine treats the tendency to engage in dominant behavior. Over-ambitiousness accompanied by envy, frustration and worry can lead to the formation of gastric and duodenal ulcers.

Ambitiousness with pushing oneself and others may give rise to coronary heart disease.

Symptoms

MIND

In the Vine state, one is convinced of one's leadership qualities and assumes control over others. Peoples' opinions and wishes are disregarded. Dominance may lead to ruthlessness and violent abuse. Manipulations, schemes and tricks or flattery.

This remedy is of use in mental disorders when strong resistance to work for change. Vine can treat the tendency to abusive behavior and stubbornness. Passive aggressive personalities. The emotional life may be subjected to the goal-oriented attitude. One may also forget to tend to one's own needs.

In Vine cases, one may find states of haughtiness, ego-centeredness and self-aggrandizement. Tyrannism and exploit may grow out of this state. There may be condescension against others. The emotions of anger, impatience and exasperation may surface. The leader is cool and calculating. Reserved. There is a frustration, a sense of injustice, self-pity, rebelliousness and stubbornness. Dominance may be preceded by overt attempts to fight back.

SOURCES

Bach.

Viola odorata

(violet)

Pharmacy

Viol-o. Viola odorata. Violet. Sweet-scented Violet. N. O. Violaceae, an order most members of which contain Emetin. and under which Ip. is sometimes placed: allied to Cinchonaceae. Tincture of fresh plant in flower. Historical dose: Tincture and all potencies, first to sixth potency.

Herbal

The cure of Lady Margaret Marsha, age 67 of an affection of the throat pronounced to be malignant (apparently epithelia of tonsil) with an infusion of Violet leaves is on record. Boiling water was poured on the fresh leaves and allowed to stand twelve hours.

PAGE 1795

Compresses moistened with this were applied externally to the throat and covered with oil-silk.

Relief of pain, dysphagia and suffocative symptoms was immediate. The external swelling disappeared in a week, the growth on the tonsil in a fortnight.

Homeopathic

Viola odorata has a specific action on the ear. Affects especially dark-haired patients, supra-orbital and orbital regions, rheumatism in upper parts of the body when on the right side. Worm disorders in children. (Teucr.) Locally, for pain due to uterine fibroids. Also against snake-bites, bee-stings. Tension extends to upper half of face and ears.

Viol-o. produces great nervous debility. It has a marked affinity for the wrists, especially the right. Affects ears, eyes, and skin. Combined eye, ear and kidney symptoms. Worm disorders in children. Tension. Nervous activity, then sudden exhaustion.

Clinical

Cancer. Choroiditis. Cough, spasmodic, by day. Hoarseness. Hysteria. Neuralgias, supra-orbital. Otorrhea, suppressed. Palpitations. Rheumatism. Seminal emissions. Styes. Whooping cough. Worms. Wrists, rheumatism.

Causations

Suppressed discharges.

Constitutions

Cooper considers it suited to "dark-complexioned people of the Ferr. pic. type", Teste used Viola frequently, described the type as "a lymphatico-nervous temperament, a mild disposition, dry and cool skin." Many patients cured by him were tall and slender. Suited to tall, thin, nervous girls. **Planets:** Moon, Saturn.

Modalities

Bone pains better after rising in morning. Worse from cloudy weather, cold air. Worse music, puberty. Worse from suppressed discharges. Worse bending head backward and forward. Worse by day (cough). Worse from music.

Worse in a cold room, (hoarseness). Worse from dull wet days, (vision).

Symptoms

MIND

Inclined to weep without knowing why. Aversion to music, esp., violin. Childish behavior, despondent, refuses eating, talks in low soft voice.

Abdomen

Distention of abdomen.

Back

Tension in muscles of the neck. Jerking drawing in cervical muscles, near nape, extending down, worse lying on opposite side.

Chest

Oppression of chest, as of weight on.

Ears

Affections with pain in eyeballs. Otorrhea, recurrent from birth. Deafness. Shooting in ears. Aversion to music. Roaring and tickling. Deep stitches beneath ears.

Eyes

Cramp in eyes. Lids tend to close without physical sleepiness. Heaviness of lids. Eyeball feels compressed. Flames before eyes. Myopia. Choroiditis. Pain from eyes (left) to vertex worse cough. Illusions of vision, fiery, serpentine circles.

Female

Dyspnea during pregnancy.

Food

Craves meat.

Head

Burning in the forehead. Heaviness of head with sensation of weakness in muscles of nape of neck. Scalp tense, must knit the brows. Tendency to pain immediately above eyebrows. Throbbing under eye and temple. Acts upon frontal sinuses. Hysterical attacks in tuberculous patients. Headache across the forehead, above the eyebrows, must knit the brows.

Kidneys

Bedwetting in nervous children. Urine milky with strong smell.

Limbs

Shoulders cold. Trembling of limbs. Rheumatism of deltoid muscles and wrists (right) especially in females. Pressing pain in bones of fingers. Pressing pain in right carpal and metacarpal joints. (Ulmus) Trembling of limbs.

Lungs

Difficult breathing, anxiety and palpitations. Long lasting spells of cough during day time only with dyspnea. Torpor in the end of nose, as from a blow.

Dry, short, spasmodic cough and dyspnea, worse in daytime. Whooping cough with hoarseness. Dyspnea during pregnancy.

Nose

Tip numb, as from a blow.

Rectum

Itching at anus. Worms.

PAGE 1796

Sensations

As if everything in head whirled around. As if eyeballs were compressed. As if nose had been beaten and blood were pressing out. As if hard palate were dried up. As if a stone were lying on chest. Burning like a small, transient flame in spots here and there.

Skin

Dry with moist palms.

Sleep

Yawning and stretching without sleepiness.

Vertigo

Vertigo, everything in head seems to whirl around.

Comments

Viol-o. was introduced by Gross and proved by Hahnemann, Gross and Stapf. Gross says of his symptoms that they recurred equally in all positions, were mild, yet more definitely than from other drugs. Hahnemann had bruised pain in all the bones in the morning in bed after waking, better after rising. Stapf had relaxation of all the muscles.

The mind was greatly excited and disturbed and Viol-o. found its first uses in hysterical cases. Aversion to music, especially the violin is one of the peculiar symptoms.

A keynote symptom of Viol-o. is Tension: "Tension of the occiput and forehead,"

"Tension of the scalp of occiput even when not moving, though worse bending head forward and backward, painful, compelling him to wrinkle forehead, lasting several

days." There is increased activity and rush of ideas, generally confused: "Can only grasp half an idea, puts it in its proper place but cannot hold it."

Gross experienced the former and Stapf the latter of these. The following is from Gross: "Tension which at times extends to upper half of face, especially of nose, thence to forehead and temples, as far as ears, alternating with a similar sensation in occiput and cervical muscles."

Viol-o. has cured a number of cases of rheumatism, chiefly right-sided. It has a marked affinity for the wrists, especially the right. Ear disorders with pain about the orbits indicate Viol-o.

Compare

(1) Ulmus - formication in feet, numb, creeping pain in legs and feet, rheumatic pains above wrists, numbness, tingling and full soreness where the gastrocnemius gives off its tendon.

(2) Chenopodium.

(3) Aur., Puls., Sep., Ign., Cina.

(4) Cauloph. - in rheumatism of small joints.

Relations

Antidoted by: Camph. Compatible: in whooping cough, Cor-r. in worms, Cina.

SOURCES

Boericke. Clarke.

Viola tricolor

(pansy)

Pharmacy

Viol-t. Viola tricolor. Jacea. Pansy. **Heart**s Ease. N. O. Violaceae. Tincture of fresh plant in flower. Historical dose: Tincture and all potencies, lower potencies.

Herbal

The Pansy was proved by Hahnemann and his provers. It had an ancient reputation in asthma and epilepsy and especially in obstinate skin diseases. In Russia a decoction of Pansy is a popular remedy for scrofula. Schlegel of Moscow, used it with good effect in syphilitic affections, especially venereal ulcers.

Teste puts Viol-t. in two groups, whose types are Lyc. and Cham. Homeopathy has brought out some characteristics of Viol-t. which single out its cases.

Teste quotes from old observers the following as cured by Viol-t.:

- (1) Milk-crust in children at the breast, [or] recently weaned.
- (2) Milk-crust with violent cough and excessive oppression.
- (3) Impetigo of hairy scalp and face in children and adult females.
- (4) Favus and serpiginous crusts in children and adults with swelling and induration of cervical glands.
- (5) Large boils all over body in a scrofulous child.
- (6) Pustules and ichorous exanthema of feet.
- (7) Squamous spots on skin.
- (8) Rheumatism and gout, joint rheumatism with itch-like eruption round the joints.
- (9) Impetigo-like exanthema on forehead.
- (10) Ichorous ulcers with violent itching. **Planets:** Moon, Venus, Saturn.

Homeopathic

Skin, scalp and urinary organs are the chief centers of action of Viol-t. The principal uses of this remedy are for eczema in childhood and nocturnal emission accompanied by very vivid dreams. Combined urinary symptoms and skin affection. Nervous paroxysms after suppressed crusta lactea, eczema.

Eczema with urinary disturbances too copious urination or sudden arrest of secretion. Tinea capitis with frequent involuntary urination. Urine smelling like cat's urine is a keynote. The male sexual organs were much excited. Emissions with vivid dreams occurred, swelling, itching and pains in prepuce and glans with erections.

Viol-t. has a hot face and sweating after eating. Dyspnea after eating. Hands twitch and are clenched in sleep. Nervous paroxysms followed suppressed milk-crust. The axillae and clavicular regions were noticeably affected and stitches and burning stitches were prevailing pains. Lying causes anxiety about heart.

Clinical

Bedwetting. Crusta lactea. Dyspnea. Eczema. Flatulence. Gonorrhoea. Gout. Impetigo. Leucorrhoea. Ophthalmia. Orchitis. Plica polonica. Rheumatism. Ringworm. Seminal emissions. Syphilis. Throat, ulceration. Vaginitis.

Causations

Suppressed milk-crust, (nervous paroxysms).

Modalities

Open air helps headache, but causes chilliness. Aversion to open air. Worse in winter when walking in cold air. Worse 11 a.m. Worse by pressure on side opposite to painful side. Worse lying on non-painful side. Walking causes vertigo, stitches through chest and abdomen.

Sitting causes stitches in abdomen and groin, (standing better them).

PAGE 1797

Symptoms

Abdomen

Stitches and cutting pain in abdomen with urging to stool, followed by discharge of lumps of mucus and flatulence. Pressing, stinging in the diaphragm.

Back

Swelling of glands of neck. Spasmodic pain and contraction with pinching between shoulder-blades (with cutting, tingling and crawling in the skin).

Chest

Syphilitic ulcers on clavicles. Shooting in chest. Stitches in the chest, on the ribs, sternum and intercostal muscles.

Eyes

Pain in eyes, as if a hard body were between upper eyelid and eyeball. Smarting and incisive and itching shootings in eye. Contraction and closing of eyelids. Myopia.

Face

Hot and sweating after eating. Thickness and hardness of skin of face. Scabs on face with burning itching,

Female

Stitch in region of mons veneris, right side. Painful pustules on labia. Leucorrhoea with stitching pain in children in syphilis. Chancroid ulcers about breasts.

Head

Cracked, gummy crusts on scalp, exuding profuse tenacious yellow fluid, matting the hair together with swelling of cervical glands. Milk crusts. Heavy, pressing-outward pain. Eczema of scalp with swollen glands.

Kidneys

Copious, disagreeable odor. Urine offensive, smelling like cat's urine. Bedwetting.

Limbs

Joint rheumatism. Itching like eruptions round the joints.

Lungs

Stitches in left side of chest, worse during inspiration and expiration.

Male

Seminal emissions with vivid dreams, at stool. Swelling of prepuce, burning in glans. Itching. Involuntary, seminal emissions at stool.

Mouth

Tongue loaded with whitish mucus of a bitter taste. Accumulation of saliva in the mouth with sensation of dryness.

Rectum

Chopped soft stools. Stool with mucus and much flatus.

PAGE 1798

Skin

Eczema of childhood. Large boils all over the body in scrofulous children. Impetigo. Intolerable itching. Eruptions, particularly over face and head with burning, itching, worse at night. Thick scabs, which crack and exude a tenacious yellow pus. Sycosis.

Sleep

Inclination to sleep in afternoon. Disturbed sleep with frequent waking. Awakens frequently without cause. Sleep retarded by a concourse of ideas with difficulty in waking in morning. Vivid and amorous dreams.

Temperature

Chill or chilliness in forenoon and in open air. Dry, anxious heat at night in bed with red face. General heat, especially in face with anxiety, dyspnea immediately after eating.

Night-sweats.

Throat

Sore throat in evening. Swelling of cervical glands. Much phlegm, causing hawking, worse in the air. Swallowing difficult and very painful. Syphilis. Chancroid ulcers.

Vertigo

Vertigo and dizziness when walking. Head bewildered and perplexed.

Vipera berus

(german viper)

Pharmacy

Vip. Vipera torva. German Viper Snake. Vipera communis. Common Viper with other varieties, especially V. redi - Italian Viper. Pelias berus. N. O. Ophidia, family, Viperidae. Potencies of the venom. Historical dose: All potencies, twelfth potency.

History

The effects of bites by the Common Viper and related species have been collected and have furnished the data for homeopathic prescribing.

The venom of common German Vipera torva affects the blood and blood-vessels, leading to hemorrhage and inflammation of the vessels.

Allen relates this case: A gold beater found the veins of his right arm become exceedingly swollen and painful, so that he could no longer work or let his hand hang down. Vip. cured immediately.

A case quoted from Med. Adv. of varicose veins of the popliteal space with the sensation as though the leg would burst and a nervous, fidgety condition of the feet which kept them in constant motion, was cured with Vip. 30c.

The bursting feeling appears to be at the root of this characteristic. Swan said Vip. was a remedy for all forms of nosebleed. Vip. has a chronic and periodic action, the symptoms return annually for years. **Planets:** Moon.

Homeopathic

A keynote for Vipera in cases of phlebitis and varicose veins is "Worse on letting the limb affected hang down," as if it would burst with fullness. The region of the vessel affected is inflamed and sensitive.

Vip. has special action on kidneys and induces hematuria. Ailments of menopause. Cardiac dropsy. Bursting sensation. enlargement of liver. Edema of glottis. Paralysis, ascending, paraplegia of foot. Goiter. Multiple neuritis. Poliomyelitis. Menopausal disorders.

Vip. affects veins, causing inflammation and a hemorrhagic tendency. Inflammation of veins with great swelling. Viper causes a temporary increase in reflexes, paresis supervenes, a paraplegia of the lower limbs extending upwards. Resembles acute ascending paralysis of Landry.

PAGE 1799

Clinical

Bites. Goiter. Hemorrhages. Jaundice. Liver, enlargement. Menopause. Multiple neuritis. Nosebleeds. Paralysis. Phlebitis. Senility, premature. Tongue, swelling. Varicose veins.

Modalities

Worse from letting limbs hang down. Worse yearly, change of weather. The symptoms are worse by cold touch, by pressure.

Symptoms

Abdomen

Excruciating pain in the epigastrium worse pressure. Violent pain in enlarged liver extends to shoulder and hip, jaundice with fever.

Back

Sticking in kidneys. Pain in loins.

Chest

Veins of chest and abdomen thick and hard. Swelling of chest as far as umbilicus after bite on face. Oppression with anxiety with violent efforts to breathe and swallow.

Eyes

Eyes are dark yellow, red inflamed and watery, staring, sunken. Pupils are dilated or left dilated, right contracted. Paralysis of lids, dropped over eyes. Vision is dim, dim in left eye, lost in right.

Face

Excessively swollen. Face swollen. Lips and the tongue swollen, livid, protruding. Tongue dry, brown, black. Speech difficult.

Food

Appetite lost. Thirst with moist tongue, for cold drinks.

Female

Menopausal hemorrhage, flow red with dark clots, not profuse but continuous with prostration and faintness from nursing the child.

Kidneys

Hematuria. Ineffectual desire. Strangury. Involuntary urination. Urine is increased, suppressed, dark yellow, as in jaundice.

Limbs

Patient is obliged to keep the limbs elevated. When they are allowed to hang down, it seems as if they would burst and the pain is unbearable.

(Diad.) Blue lower limbs. Shuffling gait caused by paralysis of foot. Varicose veins and acute phlebitis. Veins swollen, sensitive, bursting pain. Severe cramps in lower limbs.

Liver

Violent pain in enlarged liver with jaundice and fever, extends to shoulder and hip.

Mouth

Scorbutic line on gums. Tongue swollen, brownish-black, protruding. Lips, blue, swollen. Speech difficult.

Nose

Nosebleed with vertigo, while nursing the child.

Skin

Livid. Skin peels in large plates. Lymphangioma. Boils, carbuncles with bursting sensation, relieved by elevating parts. Ulcers. Gangrene.

Stomach

Digestion slow. Pain in epigastrium, worse pressure. Nausea with shuddering with attack of faintness. Retching with suffocative sensation. Vomiting after milk of all food and drink.

Sleep

Disposed to yawn. Sleepiness and heaviness with inability to sleep and also almost constant necessity to change the position. Sleeplessness from pain. Restless at night.

Temperature

Chilliness with sweat with cold sweat with rigidity and clammy sweat, then fever. Temperature is diminished, resists cold badly. Fever of irregular type intermittent fever. Sweat: after vomiting.

Throat

Swelling like goiter. Edema of glottis. Closure of throat so that she could swallow only water and milk.

Comments

Vip. patients resist the cold badly. The parts may be paralyzed and ulcers and gangrene follow. Worse from letting limb or part hang down. A Sensation as if something ran up the thigh occurred in the bitten limb in one case. In one case there was sweat over the whole body except the bitten limb.

Leonard gave Vip.

(1) to a lady suffering from menopausal hemorrhage, flow red with dark clots, excessive to prostration and faintness. She had a small uterine fibroid. A few doses relieved and the excessive hemorrhage did not return.

(2) A lady nursing a child a year old was much prostrated by hemorrhage lasting several weeks, not profuse, but continuous:

Nosebleed nearly every day, weaning brought no relief. Chin. 200c did no good. Vip. 100,000c cured in three doses.

PAGE 1800

Compare

(1) Hemorrhage of fluid blood, Sanguisuga.

(2) Worse hanging down limbs, Calc., Alm., Am-c., Sabin., Thuj.

(3) Pelius berus, Adder. - Prostration and fainting, faltering pulse, skin yellow, pain about navel. Swelling of arm, tongue, right eye with giddiness, nervousness, faintness, and sickness. Compression of chest, could not breathe properly or take a deep breath, aching and stiffness of limbs, joints stiff, collapsed feeling, great thirst.

(4) Ser-ang. - heart and kidney diseases. Failure of compensation and impending asystole.

SOURCES

Boericke. Clarke.

Viscum album

(mistletoe)

Pharmacy

Visc. *Viscum album*. Mistletoe. N. O. Loranthaceae. Tincture of ripe berries. Tincture of bruised leaves. Tincture of whole plant. Historical dose: Tincture and all potencies, 3x to 30c.

Herbal

Viscum Album's active principle is viscotoxin, a mixture of acetylcholine and choline. *Viscum* is a chlorophyllous plant, which grown on various trees, (apple, poplar) and forms large bunches. It is gathered in August and September, before the fruit ripens. The leaves are then blanched and dried quickly in hot air and stabilized.

In the Middle Ages it was used as an anti-epileptic. Hypo-tensor and diuretic. Anti-tumors, by external use, as for papilloma, due to the necrotizing properties of the

viscotoxin. Viscine is most abundant in the mistletoe of the apple-tree, Visco-resin in that of the oak and acacia, excites the sexual appetite. The mistletoe of the hawthorn possesses like all the rest, but in a higher degree, the contractile properties of Secale on the uterus in uterine inertia. That of the oak has a remarkable anti-epileptic power on horses.

According to Laville, all mistletoes are useful in epilepsy and rabies. A breeder had a very fine stock which became epileptic at four or five years old.

He cured them with a tincture of the fresh leaves bruised in a mortar.

Two women took Visc. to procure abortion. Every muscle save those of the eyes became paralyzed, as did also the intestinal tract. They could not swallow and died of starvation in consequence, the bowels being obstinately constipated. The muscles of speech were also paralyzed.

The first homeopathic symptomatology was established by Proll, Stager, Schier and Black during the second half of the 19th century, using the mother tincture and low potencies. Proell made a proving of the tincture and the symptoms developed resembling an epileptic aura and petit mal, which had the additional epileptic feature of recurrence they recurred frequently for two years. **Planets:** Moon.

Homeopathic

Viscum album affects the nerves and female sexual organs. Lowered blood pressure. Dilated blood vessels but does not act on the centers in the medulla. Pulse is slow due to central irritation of the vagus. The symptoms point to rheumatic and gouty complaints, neuralgia, especially sciatica.

Epilepsy, feels a glow that rises up from feet to head. Chorea and metrorrhagia. Chorea from fright. Rheumatic deafness. asthma. Spinal pains, due to uterine causes. Rheumatism, tearing pains. Hypertensive albuminuria. Valvular disease with disturbances in sexual sphere. Symptoms like epileptic aura and petit mal.

Visc. has congestion in the head with headaches and vertigo. Rheumatoid condition ameliorated in fresh air and by the movement. Pruritus and paraesthesia. Nausea at the sight of the bottle containing the medicine to be taken. Feeling of lightness as if floating on air. The brain is swaying around the inside the skull. Burning cold under the right shoulder.

Visc. has a general tremor as if all muscles are in fibrillary contraction. Neuralgia. Spinal pains due to uterine causes. Gouty and rheumatic complaints. Blood would not clot and wounds would not heal. Bleeding of bright red blood from the uterus. Sciatica with otorrhea.

PAGE 1801

Clinical

Ankylosing spondylitis. Arteriosclerosis. Aura epileptica. Chorea. Deafness. Dupuytren's disease. Dysphagia. Endometritis. Epilepsy. Hypertension. Labor pains, slow. Lumbago. Menorrhagia. Metrorrhagia. Migraine. Neuritis. Orchitis. Osteoporosis. Otorrhea. Ovaritis. Raynaud's syndrome. Retained placenta. Sciatica. Spasmodic paralysis. Spleen pain. Throat, sore. Whooping cough.

Causations

Chill, Wetting. Fright. Suppression of menses.

Modalities

Better by counter-pressure. Better resting quietly. Better walking in the fresh air. Worse by slightest movement. Worse winter, cold, stormy weather. Worse in bed, movement. Worse lying on left side. Worse from becoming chilled while hot, suppression of menses. Worse by mental effort. Worse tobacco and heat.

Symptoms

MIND

Apathy, sadness, lack of optimism and lack of liveliness. Fear of telephones. Obsessive persistence of one thought or one unpleasant event. Irritable, sad, morose. Extremely sensitive to noise. Unable to carry out intellectual activities. Thoughts keep turning to past events, for hours on end. This condition alternates with: sensation of strength, optimism, gaiety, desire to undertake anything, full of ideas for the future. Hallucinatory psychosis. Restless, nervous, thoughtless, shakes with impatience.

Abdomen

Feels as if someone were dragging her down from the waist. Sore about waist. Violent rumbling and painful distention of the supra-umbilical region, ameliorated by expelling wind and leaning backwards. Colitis. Chronic pancreatitis.

Back

Feeling of a burning coal under the right shoulder is a key symptom. Lumbago from a chill, wants someone to press against the back. Stiffness and muscular pains in the nape of the neck, thoracic cage and back. Torticollis.

Chest

Angina pectoris. Nervous dyspnea with feeling of constriction in the chest.

Ears

Deafness from cold. Buzzing and stopped-up feeling in ear. Hypersensitive to noise. Whistling, buzzing. Hears heart beat. Sclerosis of the ears.

Eyes

Blue rings around eyes. Double vision. Mydriasis, ocular neuralgia, conjunctival irritation. Bad focusing, eyes weep through fatigue. Ocular neuralgia. Conjunctivitis.

Face

Facial muscles in constant agitation. Countenance suffused. Lips livid. Face hot and flushed.

Female

Menses too early, copious with bright red blood and very painful. Menorrhagia. Atonic, post-partum hemorrhage. Hemorrhage with pain. Blood partly clots and bright red. Menopausal complaints. (Lach., Sulph.) Pain from sacrum into pelvis with tearing, shooting pains from above downwards. Retained placenta. (Sec.) Chronic endometritis. Metrorrhagia. Ovarian pain, especially left.

Food

Felt starving at supper-time. Appetite ravenous.

Head

Feeling as if whole vault of skull were lifted up. Sudden throbbing in vertex. Headache, especially at the forehead, temples and parietal bone, can spread to the whole head. Dull, heavy aching, numbing and congestive, beating or hammering.

Heart

Hypertrophy with valvular insufficiency, pulse small and weak, unable to rest in a reclining positions. Palpitations during sex. Low blood pressure. Failing compensation, dyspnea worse lying on left side. Weight and oppression of heart, as if a hand were squeezing it, ticking sensation about heart. Inflammation of the coronary arteries.

Heart

beat irregular.

Agitation and fibrillation. Feeling of tightness of heaviness. As if the heart is being squeezed by a hand. Pulse accelerated or slow with fear of death. Palpitations in the chest, throat and upper part of the abdomen.

PAGE 1802

Kidneys

Urine milky after standing. Urinary tenesmus and copious urine. Bladder paralyzed. Involuntary passing of urine as a result of an irritating cough. Urine is turbid and evil-smelling. Bedwetting.

Limbs

Pains alternate in the knee and ankle with shoulder and elbow. Sciatica. Tearing, shooting pains in both thighs and upper limbs. Drawing, tearing pains in the arm. Cannot keep legs still. Chorea-like movements of the arms and legs. A glow rises from the feet to the head, seems to be on fire. Periodic pains from sacrum into pelvis, worse in bed with pains into thighs and upper limbs. General tremor, as if all muscles were in state of fibrillary contraction. Dropsy of limbs. Sensation of a spider crawling over back of hand and foot. Itching all over. Compressing pain in feet. Raynaud's syndrome. Walking, bending is painful. Burning sensation in the feet.

Lungs

Asthma. Dyspnea, feeling of suffocating when lying on left side. Spasmodic cough. Asthma, if connected with gout or rheumatism. Stertorous breathing. Bronchial asthma, connected with gout or rheumatism. Glottal spasms and rattles in the bronchi. Painful, frequent cough, scanty, gray or yellow sputum.

Male

Libido increased or diminished. Erection violent. Atonic discharge of seminal fluid. Cramping pain in the prostate. Disturbed libido. Violent, painful erection. Prostatitis.

Mouth

Dryness of the mouth. Lips cracked. Buccal mucous membrane is as if tanned. Teeth chattered. Mouth suddenly fills with saliva. Unpleasant taste on waking tongue coated to tip with ochre-yellow fur. Tongue sore.

Nose

Catarrh in the nose and pharynx. Catarrhal congestion of the mucous membranes with discharge of a watery or purulent liquid. Nosebleed. Purulent rhinitis. Polyps.

Rectum

Feeling of constriction of the anus with empty urging. Feeling of not having emptied the intestine completely after stool. Pruritus and burning of the anus with splinter-line pain. Bleeding hemorrhoids. Stools soft, watery or thick, frothy, stinking, explosive, bulky with nightly urging, forcing him to get out of bed. Stools hard and dry.

Skin

General itching and tingling with no apparent cause, ameliorated in the evening and by perspiration. Formication along the arms. Pruritus, senile and vulvae.

Sleep

Falls asleep late, wakes early. Sleeps, despite exhaustion and after drinking coffee.

Troubled dreams of war, bombardment.

Stomach

Gastritis. Nausea ameliorated by vomiting. Squeamish before breakfast and dinner.

Heart burn, cutting pain in the stomach, ameliorated by eating and belching. Heavy sensation: feeling of a stone in the stomach.

Temperature

General shivering followed by sudden hot flush towards the head and feeling of anguish.

Throat

Sensation of constriction around the neck. The feeling of a lump in the throat disappeared in one female prover. Throat dry, burning with sticky discharge.

Vertigo

Vertigo, persistent after epileptic attack. Sensation of lightness, as if floating on air. Severe attacks of vertigo totters and has to hold on to the furniture. Vertigo occurs on rising from movement, by moving the head quickly, tends to fall backwards. Vertigo never occurs when lying down. Vertigo when looking out of a window.

Comments

In a pamphlet on "Viscum Album" Dr. George Black of Torquay, has put together most of the facts relating to this plant including four new provings, by himself and three female provers.

PAGE 1803

Black removed with Visc. 3c the following:

(1) Lumbago from chill, tearing pain, wants something to press against it.
(2) Lumbago, right, extending to right buttock, worse by slightest movement.
(3) Pain in sacral region, unable to turn either side, worse slightest movement, "pain of a terrible clutching nature, as if her vitals were affected."

Cooper has given great relief with Visc. in "old spinal irritation pains." He names also "spinal symptoms due to uterine causes" as indicating it.

(4) Rheumatism, "the weight of my body on the joint causes it to be very sore," excessive perspiration.

(5) Sciatica associated with otorrhea. Burning pain from center of left buttock to inner ankle, heel as if red-hot coal applied, leg feels heavy as lead. In addition a number of cases of catarrhal deafness with noises in the ears were cured or greatly improved.

Belcher gave to a girl, 17, suffering from chorea, 5 drop doses of a tincture of leaves and berries. On the second day he was called to see her and found her suffering as if under the influence of an opiate.

A boy, 14, ate some berries, soon after began to feel giddy and then became insensible. He was found with suffused countenance, lips livid, conjunctiva injected, pupils slightly dilated and fixed, pulse slow and full, bounding, breathing slow, stertorous.

On pricking the soles the feet were quickly drawn up. Then, cold applications aroused him, when he began to talk incoherently, had spectral illusions and was inclined to be violent.

Black also quotes William Huber's experience with Visc.:

(1) Case of retained placenta with constitutional symptoms after miscarriage at sixth month. Expulsion rapidly effected by Visc. 3c.

(2) Man, 22, robust, fair took a chill from traveling in ice-cold wind. Got a drawing, tearing pain in left lower jaw, lasting some hours, succeeded by loud buzzing and stopped-up feeling, ending in complete deafness of that ear. Visc. 3c cured.

(4) Metrorrhagia following suppression from working in water.

(5) Sciatica left side. Visc. 3c cured.

(6) Rheumatism from wading ill-shod through great tracts of snow. Visc. 3c cured.

(7) Hydrothorax (right) from chill with shooting in spleen. Visc. 4c and 3c cured.

John Wilde made a tincture of the bruised leaves and gave 5 drop doses to a boy, 14, who had chorea affecting face and limbs. There was improvement in two days and in a few weeks a complete cure.

A boy, nine, strumous with tendency to skin disease, was affected with chorea after a fright. He was completely changed in expression, speech quite inarticulate, look idiotic. The movements continued at night and the boy was worn out for want of sleep.

Visc., 1 to 2 drop doses, did no good. The dose was then increased to 15 drops.

Improvement set in at once and a perfect cure was effected, the doses being diminished after a time because soreness of the tongue and redness of the conjunctiva were set up.

C. M. Boger relates this case: Persistent vertigo after epileptic seizures, lasting a month at a time. Visc. 100,000c cured. Huber used the 3x and 6x.

He considered it applicable to all kinds of rheumatism, acute and chronic, especially when characterized by tearing pains in cases occurring in winter, the result of exposure to sharp winds and in cases of rheumatic deafness.

Compare

(1) Sec., Conv., Bry., Puls., Rhod.

(2) Guipsine - active principle - exalts the hypotensive properties of Viscum.

(3) Hedera helix, Ivy - Intercranial pressure.

(4) Bryonia - Vertigo in the morning on rising, prickling pains, aggravated by movement, great thirst, dry constipation, menses copious with brown blood.

Compare

(5) Belladonna - Neuro-vascular congestion, fear of imaginary things, hypersensitivity and hyper-excitability of the senses, pulse strong, irregular, menses too early with bright red, hot blood.

PAGE 1805

Juglans regia

Walnut

(bach flower remedy)

Pharmacy

Walnut. Juglans regia. Female flowers are collected and boiled for half an hour. The female flower resembles a green bud with two fuzzy stigmas growing out of the top. After boiling, the water is strained and used as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

The remedy Walnut belongs to the group of Over sensitivity to Influences and Ideas, as classified by Bach. The other remedies in this group are Agrimony, Centaury and Holly.

Planets: Moon.

Homeopathic

Walnut gives protection from heightened impressionability. People in need of Walnut may show heightened sensitivity to radiation, such as coming from neon lights or computers. They may also overreact to smells and become nauseated easily, even seemingly harmless substances such as perfumes may give a headache or nausea.

In the treatment of allergies, this remedy gives the organism additional protection from being invaded and is recommended as a side-treatment.

Walnut may add increased physical stability during spinal manipulations, should the correction not hold, Heightened impressionability in face of the success and prestige of others may create over-ambitiousness, envy and frustration. This can lead to gastric and duodenal ulcers, (Vine).

Symptoms

MIND

In the Walnut state, the mind is overly influenced by impressions from the outside world. These may be in the form of trends or fads. The mind in need of Walnut is too easily impressed and swayed.

The Walnut state is present as a heightened sensitivity. Exaggerated attraction to sexual matters, even though it may just be mental preoccupation.

In delusions disorders when one feels obsessed or influenced by forces beyond one's control, (Aspen).

Emotions may get swayed by heightened impressionability. Impressions sink in and may create emotional disturbance from deep within.

SOURCES

Bach.

Hottonia palustris

Water violet

(bach flower remedy)

Pharmacy

Water Violet. *Hottonia palustris*. Several flowers are picked by the stalk and left floating in a bowl of sunlit water for several hours. The water is then strained and prepared as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

The remedy Water Violet belongs to the group of Loneliness, as classified by Bach. This group consists of only three remedies, the other two being Impatience and Heather.

Planets: Moon.

Homeopathic

Water Violet treats states of aloofness and haughtiness. Lack of spontaneity and lively involvement may lead to physical stiffness and rigidity. Internal retreating or raising above others may be reflected in a posture of haughtiness and aloofness.

Symptoms

MIND

In the Water Violet state, one raises the self above others. Reserved dignity. One perceives oneself as special, advanced, refined and perceptive. When involved in grief or being hurt by others, one finds reason to retreat and isolate oneself in self-protection and feelings of superiority.

PAGE 1806

This is the two-fold character of the Water Violet state, one feels superior and special, yet deep down is vulnerable and lonely.

In treatment of delusions disorder, grandiose type and narcissistic personality disorder when there is the tendency to feel haughty and eccentric, this remedy can be of service. In these disorders, usually an underlying insecurity, desire for attention and admiration and envy fuel the grandiose perceptions and aspirations.

In the quiet type, the emotional life may be subdued and stagnating, since active engagement with others is avoided or even considered as disturbing to the inner peace. This lack of involvement may be interpreted as disinterest, lack of spontaneity, or even apathy in face of social stimulation and amusement.

Isolation and removal stifle from deep within and leave the inner self empty and sad. Pride and eccentricity may alienate others. A Water Violet state emerges in those who have been severely offended or humiliated. One may choose to raise oneself above the offender, instead of accepting the negative appraisal.

SOURCES

Bach.

Aesculus hippocastanum

White chestnut

(bach flower remedy)

Pharmacy

White Chestnut. *Aesculus hippocastanum*. Individual flowers are picked and placed in a bowl of water which is left to the sun's action for several hours. The water is strained and used as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

The remedy White Chestnut belongs to Bach's group of Lack of Interest in Present Circumstances.

Together with the remedies of Clematis, Honeysuckle, Wild Rose, Olive, Mustard and Chestnut Bud. **Planets:** Moon.

Homeopathic

White Chestnut treats states of preoccupation and intense worry. Mental preoccupation's and worries often lodge in the forehead, where muscles tighten and worrisome lines begin to show.

Eyes may have a lack of clarity and serenity and some age-related failures in eyesight may be compounded by a chronic White Chestnut state.

Continued thinking and worrying can last into the night and create insomnia. Mental preoccupation which prevents falling asleep. Insomnia, as well as restlessness and not being able to go to sleep due to worry.

Irritable colon has been related to patients with a tendency to obsessive-compulsive dwelling on an emotional experience. Gastrointestinal symptoms, such as gastralgia, hyper motility, pylorospasm and ulcers, have been related to chronic "indigestion" in the mind.

Symptoms

MIND

In the White Chestnut state, the mind is preoccupied with worrisome, returning thoughts which cannot be ruled out and disturb mental peace and clarity. These thoughts circle around unresolved. Mental torture continues, fuelled by anxiety, helplessness and even despair.

Obsessions, fixations and persistent thought patterns. Delusions and chronic introspection. Automatic responses and compulsive thinking (Cherry Plum, Crab Apple, Pine).

Inability to shake off disturbing worries and anxiety. Frustration and exhaustion. Chestnut state, one may find oneself preoccupied and introverted as others are trying to communicate. The attention is diverted, the majority of the focus being turned inward. Disappointment and annoyance. Worried in a state of regret or self-reproach.

Wiesbaden aqua

Pharmacy

Wies. Wiesbaden aqua. The Spring at Wiesbaden in Prussia. Contains in sixteen ounces are Carbonic acid 6.416 cubic inches, Nitrogen 0.103 cubic inches of the following solids in grains, Nat. m. 52.49, K. mur. 1.119 Li. mur. 0.00138, Am. mur. 0.128, Calc. mur. 3.617, Mag. mur. 1.566, Mag. brom. 0.027, Calc. sulph. 0.692, Calc. phos. 0.0029, Calc. ars. 0.0015, Calc. carb. 3.210, Mag. c. 0.079, Ferr. c. 0.043, Mang. c. 0.004, Silicic acid 0.46, Alumina silicica 0.603, traces of Mag. iod., Stront. c., Cupr. c. Dilutions. Historical dose: Tincture and all potencies.

History

The hot, chlorinated saline springs of Wiesbaden contain 8.176 grams of solids to each liter and of these Nat-m. makes up more than seven grams. The baths, which constitute the chief part of the treatment, are extremely stimulating.

The baths, combined with drinking the water, generally determine at the beginning of the cure certain phenomena of saturation which disappear on temporary suspension of the

treatment. The most common of these is a saburral state of the stomach and a feeling of fullness and tension in the whole abdomen. **Planets:** Saturn.

Homeopathic

Gout and rheumatism are the chief disorders for which Wiesbaden is sought. Passive or atonic gout is the only kind for which Wiesb. is suited and these cases usually pass through period of aggravation before improvement sets in. Torpid and rheumatism are benefited, the douche being employed as well as the bath.

Wies. has paralysis, muscular and tendinous contractions, sprains in complete ankylosis, stiffness from old fractures, gunshot wounds which are slow to heal, are also benefited by Wiesb.

Clinical

Amenorrhoea. Angina pectoris. Body, odor of offensive. Constipation. Corns. Diarrhoea. Ear-wax, excessive. Glaucoma. Gout. Hair, rapid growth, loss, grows darker. Hemorrhage. Hemorrhoids. Hernia inguinal, femoral. Indigestion. Miscarriages. Nosebleed. Rheumatism. Infertility. Vertigo. Whitlow.

Modalities

Better by nosebleed. Better by hemorrhoid flux. Worse during menses. Worse from coffee, (frequent urination). Worse lying in bed, (vertigo).

Comments

"Abdominal plethora and portal obstruction are relieved." By the artificial congestion which they set up in the venous plexus of the rectum they have for a constant effect the disengorgement of the viscera under the diaphragm and the prevention of stasis in their parenchyma (Constantin James). Pelt observed the effects of drinking the water and excessive bathing.

Magdeburg observed the effects on eight very healthy persons. The stimulating, congestive and evacuant effects mentioned by James appear in the provings. Blood rushes to the face. There is vertigo when lying in bed and vertigo which causes falling. Hemorrhages occur from anus and nose which relieve other symptoms.

Fermentation occurs in the abdomen and there is great exhaustion after diarrhoea. Hemorrhoid flow occurs with better of abdominal plethora. In one case nosebleed occurred persistently for six weeks, at the end of which a weakness of vision bordering on blindness was cured. During the menses there is great weakness, also constipation.

A number of remarkable symptoms appeared in reference to the skin and nails. The hair grew rapidly and became darker. Nails also grew rapidly. Corns and callosities dropped off.

Berridge cured with Wiesb. 200c a Miss B., 21 of a soft corn between fourth and fifth toes of right foot. There was burning and shooting pain. With the sweat of Wiesb. there is itching. The sweat on the diseased parts made a brown stain. The urine stiffened linen.

Compare

Bromus ramosus

Wild oat

(bach flower remedy)

Pharmacy

Wild Oat. *Bromus ramosus*. The flowering ends are picked and placed in a bowl of water which is left standing in bright sunlight for several hours. The water is strained and used as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

The remedy Wild Oat belongs to the group of Uncertainty, as classified by Bach. The other remedies in this group are Cerato, Scleranthus, Gentian, Gorse and Hornbeam.

Planets: Moon.

Homeopathic

Wild Oat deals with lack of motivation and incentive. A depressive mood may permeate the mind and body. Lethargy, a lack of appetite and mental dullness may accompany the Wild Oat state.

This remedy has been used in the treatment of organic mental disorders and mental retardation, after head injuries, (Hornbeam, Mustard, Scleranthus).

Obesity, peptic ulcer, non-insulin dependent diabetes and drug abuse are some physical imbalances deriving largely from a lack of knowledge and a disinterest in taking care of the body. Wild Oat stimulates the intellectual understanding and lifts the desire to treat the body well.

Symptoms

MIND

In the Wild Oat state, the person is not sure as to his purpose in life and feels rather aimless. One may try different paths or occupations, but stays dissatisfied. Not fully motivated, nothing really seems to be quite right. The mind may be unsettled. Absent-minded. Lack of motivation and incentive. Lack of concentration. Boredom, lethargy and dissatisfaction.

In children, when disinterested in play or school, Wild Oat will stimulate the mind toward joyful interaction and receptivity.

Comments

In some forms of mental illness with organic dysfunction and retardation, this remedy will give incentive within the physical limitations of the disease. (Hornbeam, Mustard).

Emotions of frustration, joyless, aversion, dissatisfaction, meaninglessness, boredom and futility. Feelings of being not fully awakened or activated in one's potential.

Relations

Cerato, Scleranthus, Gentian, Gorse and Hornbeam.

SOURCES

Bach.

Rosa canina

Wild rose
(bach flower remedy)
Pharmacy

Wild Rose. Rosa canina. Sprigs with leaves and flower heads are boiled for half an hour. Subsequently, the water is strained and prepared as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks). This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

The remedy Wild Rose is part of Bach's group of Lack of Interest in Present Circumstances, together with the remedies of Clematis, Honeysuckle, Olive, White Chestnut, Mustard and Chestnut Bud. **Planets:** Moon.

Homeopathic

Wild Rose treats states of apathy and resignation. Mental/emotional apathy permeates the physical realm as well, leading to lethargy, listlessness, lack of energy and flat affect.

In sickness, when the fighting spirit is gone and recuperation is not proceeding, or even when death is threatened due to resignation, this remedy may assist greatly.

In mental illness, flat affect is a common occurrence and can be helped by this remedy, as in schizophrenic states, developmental disorders, psychosis, schizoid personality disorders.

PAGE 1809

The personality disorders are less severe states than schizophrenia. The schizoid personality showing more pronounced flat affect. Usually, social contact is reduced in these illnesses, emotional involvement low and assertiveness yielded to passiveness.

Symptoms

MIND

In the Wild Rose state, the mind has resigned to unfavorable conditions. The mind resorts to apathy and resignation. Helplessness and powerlessness are present. Resignation. Anger or frustration. During a sickness, the Wild Rose state is a state of disinterest in fighting for health. One gives up and may lose all incentive for life.

The typical Wild Rose state shows a retreat from involvement in unfavorable circumstances. This withdrawal from reality helps to safeguard emotions. The emotional capacity for joy and liveliness suffers as well. Outwardly, this stifled capacity for joy is visible in a disinterest in amusement and play, in a lack of hopes, wishes and dreams.

In the less complete Wild Rose state, powerlessness is experienced with anger and frustration. The emotions may vacillate between these two extremes. If conditions are insurmountable, however, a Wild Rose has a tendency to become chronically entrenched, such as in terminal illness and disability. The remedy still helps to uplift the mind and emotions.

SOURCES

Bach.

Wildbad aqua

Pharmacy

Wildb. Wildbad aqua. The Springs at Wildbad in Wurtemberg. The water contains in 16 ounces, Carbonic ac. grains 0.972, Nat. m. 1.808, Nat. c. 0.837, Nat. sulph. 0.291, K. sulph. 0.018, Calc. 0.738, Silicic acid 0.480, Mag. c. 0.079, Ferr. c. 0.002, Alumina 0.004 and traces of Mang. Dilutions. Historical dose: Tincture and all potencies.

History

In spite of its very slight mineralization, says Constantin James, the water produces very distinct effects in a graduated series. The first impression of the bath is delicious, this is succeeded by sensations more clear and distinct: a slight degree of excitement, at times luminous sparks before the sight, a finer (Puls.) blood seems to flow to the brain. "One would like to remain in the bath, but something unusual and strange warms you that it is time to get out." **Planets:** Saturn.

Homeopathic

Wildbad is chiefly for disorders of the spinal cord more than half the patients being paraplegic. Sensation as if the brain were over-filled. Gnawing, sinking, empty sensation. Pain as if sprained. Sensation of looseness in the joints, ankles loose, knees loose, the bones seem as if they did not fit. Teeth seem too long. In one prover the hair, which had been greasy, became dry and the beard became of a darker color. Desire to stretch.

Clinical

Bones, pains. Catarrh. Gout. Hair disorders. Indigestion. Knees, creaking. Nails, soft. Paralysis, spinal. Paraplegia. Rheumatism. Shoulder, rheumatism.

Modalities

Worse on waking at night. Worse lying down (throbbing and heat in occiput). Worse walking (pain in sciatic nerve, looseness of knees).

Compare

- (1) Uric acid in urine.
- (2) pain in right shoulder, Urt-u. Sang.

SOURCES

Clarke.

Salix lasiolepis

Willow

(bach flower remedy)

Pharmacy

Willow. *Salix vitellina*. Twigs with male or female catkins are boiled for half an hour. Subsequently, the water is strained and used as medicine.

Historical dose: Take two drops from the stock bottle into a one ounce dropper bottle, (add brandy or alcohol, if this bottle will be used for days or weeks).

PAGE 1810

This is the dosage bottle, take a few drops straight into the mouth or as needed in a little water or juice.

Herbal

The remedy Willow belongs to the group of Despondency and Despair, as classified by Bach. The additional remedies in this group are Crab Apple, Oak, Star of Bethlehem, Sweet Chestnut, Elm, Pine and Larch. **Planets:** Moon.

Homeopathic

Willow deals with states of resentment and bitterness with one's fate. Physical rigidity and worn features may speak of internal bitterness and resentment.

Chronically engaged in repression of aggressive impulses, especially in the founded Willow state which is held within, can result in a variety of psychosomatic illnesses, with the heart and intestinal region being affected the most.

Anger, if not released constructively and pushed within, can cause physical side-effects, such as colicky pains, tension headaches, or depression on all levels of the human being.

Psychosomatic diseases caused by over-compliance and suppression of emotions.

Bitterness, disillusionment and depression into the heart. **Heart** problems, tachycardia, irregularities in heart activity, hypertension. Hyperventilation. Chronic coughs and constipation (Chicory, Mustard) Skin lesions and intermittent insomnia.
Symptoms

MIND

In the Willow state, one feels burdened by an unfavorable and undeserved fate. One seeks to blame others or even fate itself for such misfortunes. Unfounded resentment is based on irrational perception and on emotionally swayed interpretation of events.

This remedy is of use in all mental disorders involving resentment and blame.

Malingering (Chicory), passive aggressive personality, antisocial and in disruptive behaviors (Holly). In cases of fixed ideas, delusions and even paranoia may express the Willow state.

Paranoia, as one feels persecuted and thwarted in one's destiny due to the fault of others, (Beech).

Emotions range from dissatisfaction and self-pity to self-righteousness, denial of reality, envy and lack of sympathy and compassion. Bitterness and dormant despair are felt.

Having missed true happiness, they also do not want others to experience such joy.

Sadness and disappointment. Despondency and despair may weigh heavily. Anger at being mistreated. Outrage and sense of injustice then turns into resentment.

SOURCES

Bach.

Wyethia helenoides

(poison weed)

Pharmacy

Wye. Wyethia helenoides. Poison weed. Alarconia helenoides. Melarhiza inuloides. N. O. Compositae. Tincture of the root. Historical dose: Tincture and all potencies, first to sixth potency.

History

Wyethia was introduced and proved with the fresh root or the tincture, on seven men and two women, by Selfridge. The first proving gave Wye. a definite and important place in throat disorders. Those symptoms make up the first pathogenesis.

Hale gives these cases from Selfridge: (1) Dry asthma in a lady, Wye. gave prompt relief in several attacks. (2) Chronic follicular pharyngitis with dryness of pharynx and burning

in epiglottis. (3) In a severe epidemic of influenza Hale found Wye. most successful.

Planets: Mercury, Sun.

Homeopathic

Wyethia has marked effects on the throat and has proven an excellent remedy in pharyngitis, especially the follicular form. Irritable throats of singers and public speakers. Useful also in hemorrhoids. Hay fever symptoms, itching in posterior sinuses.

These Wye. symptoms have been confirmed: Throat feels swollen, epiglottis dry and has a burning sensation.

Constant desire to swallow saliva to relieve the dryness yet affording no comfort. Swallows with difficulty. Prickling, dry sensation in posterior sinuses, sensation as if something were in nasal passages, an effort to clear them through the throat affords no relief. Burning sensation in bronchial tubes. Dry, hacking cough, caused by tickling in epiglottis.

PAGE 1811

Clinical

Allergic asthma. Amenorrhea. Asthma. Bronchitis. Constipation. Coughs. Depression. Diarrhea. Dysmenorrhea. Epiglottis disorders. Fatigue. Fevers. Hay fever. Headache. Hemorrhoids. Hiccoughs. Indigestion. Influenza. Itching. Leucorrhea. Nervousness, Ovaries, pain. Post-nasal catarrh. Salivation. Sneezing. Throat, sore. Uvula disorders. Weakness.

Modalities

Worse after eating. Worse by motion. Worse by exercise, it causes perspiration. Worse afternoon.

Symptoms

MIND

Nervous, uneasy, apprehensive of calamity. Depressed incapacitated for mental work, averse to company. Impatient and quarrelsome.

Abdomen

Pain and bearing down in abdomen, right side. Pain below ribs of right side.

Back

Glands right side of neck swollen and sore.

Chest

Sharp pain just below right ribs, deep-seated, followed by soreness.

Ears

Itching in right ear. Pain in left ear.

Eyes

Itching in left inner canthus.

Female

Pain in left ovary, shooting down to knee. Leucorrhea. Pain in uterus, could outline its contour. Menses commenced with intense burning pain

Head

Rush of blood to head. Sharp pain in forehead. Severe headache.

Limbs

Pain in back, extends to end of spine. Pain right arm, stiffness of wrist and hand. Aching pains all over.

Lungs

Dry asthma. Dry, hacking cough caused by tickling of the epiglottis. Burning sensation in bronchial tubes.

Mouth

Feels as if scalded, sensation of heat down esophagus. Itching of the palate.

Nose

Hay fever symptoms. Sensation as if something in nasal passages.

Rectum

Loose, dark, at night. Itching of anus and rectum. Constipation with hemorrhoids, not bleeding. Great constriction of rectum.

Sensations

Mouth as if scalded. Uvula as if elongated. Epiglottis feels dry and burning. Weight in stomach as if something indigestible had been eaten. Uterus feels as if it enlarged in order to contain all the pain.

Sleep

Wakes frequently and too early.

Stomach

Belching of gas, alternating with hiccough. Nausea and vomiting. Sense of weight in stomach, as if something indigestible had been eaten.

Temperature

Chill at 11 a.m. Thirst for ice-water during chill. No thirst with heat. Profuse sweat all night. Terrific headache during sweat.

Throat

Tendency to get hoarse talking or singing, throat hot, dry. Constant clearing and hemming. Dry, posterior sinuses, no relief from clearing. Throat feels swollen, epiglottis dry and burning. Difficult swallowing. Constant desire to swallow saliva. Uvula feels elongated.

Vertigo

Dizzy.

Comments

Wye. is a nonspecific hay fever remedy. The major keynote is itching of the upper palate. Kent used this as a prophylactic hay fever remedy. In the old books they use the word hay asthma. If you find a rubric or a group or remedies for hay asthma, you can cross out "hay" and put "allergic asthma." Asthma from allergies or they have a history of hay fever and it goes into the lungs. Now they have hay fever in the lungs produced by the decongestants and the hay fever treatments.

Other noteworthy Wye. symptoms are: Tough, ropy saliva. Pain over left ovary, shooting down to knee. In one case menses, which had been in abeyance since confinement a year before, returned with much pain. There is belching alternating with hiccough.

PAGE 1812

The following case was reported to Clarke: A boy had been kept awake many nights by a persistent, dry, hacking, nervous cough. Wye. 30c cured in one dose.

Compare

(1) Arum, Sang., Lach.

- (2) In throat affections, Arum. dracon., Caust., Hep., Stict., Rumex, Penth., Phos., Sulph.
- (3) Tough, ropy saliva and headache, Epipheg.
- (4) Sensation as if something indigestible eaten, Abies-n.
- (5) Scalded mouth, Ran-s.

SOURCES

Boericke. Clarke.

PAGE 1813

X-ray

Pharmacy

X-ray. X-rays. Dilutions made from vial containing alcohol exposed to X-Rays.

Historical dose: All potencies, 6c to 200c.

History

Absolute alcohol, irradiated by X-rays through a glass bottle. The stock comes from the potency 1c of this irradiated alcohol. Repeated exposure to X-rays, (Roentgen) has produced skin lesions often followed by cancer. Changes take place in the blood lymphatics and bone marrow. Its homeopathic action is centrifugal towards the periphery of the body.

The proving on X-rays was conducted by Fincke in 1897, on ten provers, using 6x. This was repeated by W. B. Griggs on two male and one female provers and published in the Homeopathic Recorder in 1952 using the 30c and 200c potencies. **Planets:** Saturn.

Homeopathic

X-rays have the property of stimulating cellular metabolism. Arouses the vitality, mentally and physically. The remarkable action of this remedy should be noted for syndromes of deficiency of certain elements present in the blood.

Anemia and leukemia. Distressing pain. Sexual glands are particularly affected. Atrophy of ovaries and testicles. Infertility. General debility.

X-rays brings to the surface suppressed symptoms, especially the psoric and sycotic due to mixed infections. Corresponds to burns, that refuse to heal. Unexplained weakness. Low vitality. Chronic fatigue and a sick feeling. Discharges, gray, white with jelly-like lumps. Psoriasis. Cancer patients submitted to treatment by radiation, X-rays, cobalt. Patients submitted for therapy by immuno-suppressors and all anti-tumor chemotherapy.

Clinical

Anemia. Cancer. Chronic fatigue. Emaciation. **Heart** problems. Hemorrhagic syndromes. Infertility. Leukemia. Mastectomy. Ovaries, atrophy. Psoriasis. Purpura. Radiation dermatitis.

Clinical

Sun, exposure. Testes, atrophy. Warts. Skin tumors. X-rays, poisoning.

Modalities

Better from hot applications. Worse in bed. Worse afternoon, evening and night. Worse open air. Worse from the cold. Worse from movement.

Symptoms

MIND

Sadness. Aversion to company. Irritable, desire to kill, especially before and during menses. Sleepy.

Abdomen

Abdomen distended with full feeling. Flatulence with ineffectual desire for stool. Heaviness and fullness in lower abdomen.

Back

Lame and stiff in back. Aching whole length of spine. Cramping pains in the back and lumbar region in the morning, on walking. Soreness in small of back.

Blood

Leucocytes decreased. Platelets decreased. Leukemia. Hemorrhagic syndromes. Hypochromic anemia. Hematoma, tendency to hemorrhage, purpura.

Breasts

Nerve pains after mastectomy.

Chest

Thorax painful, palpitations. Contraction of chest at night relieved by belching. Sensation of drops of water trickling down on inside of chest.

Ears

Sensation of fullness, noises in the ear, buzzing. Sore pain in cartilage of left ear when pressing it, later in right ear. Pressing outward in ears. Buzzing in right ear with pressure extending to temples. Intermittent noise as of deep steam-whistle in left ear.

Eyes

Painful to the touch. Bearing down of eyelids. *Eyeballs sore*. Sensation in right eye as if bulging. Eyelids heavy and sleepy.

Face

Dull pain in right upper jaw. Paralytic feeling in right cheek. Red, smooth eruption on right side of face. Stinging pains in different parts of head and face.

Female

Menses profuse or lacking. Menses dark green one day. Pain darting upward in region of left ovary. Flushes of heat, better afternoons and evenings.

Food

Anorexia, aversion to food. Desire for sweets. Can eat plenty but does not enjoy it.

PAGE 1814

Head

Sticking pains in different parts of head and face. Ringing in head. Sensation of fullness in the head. Pain in the forehead, occiput, temples, extending to the neck. Better by hot compresses on the forehead.

Heart

Extra systole on coughing or crying. Noises from the heart prevent him from sleeping on the left side. Pain in the precordial region.

Kidneys

Oliguria, tenesmus of the bladder. Retained urine. kidney colic with vomiting. Clutching pain from left kidney to bladder.

Limbs

Rheumatic pains. Trembling of the limbs. Generalized pains in the limbs, sciatic neuralgia. Sensation of electric current at the limbs.

Lungs

Cough in the morning with green sputum. Cough caused by palpitation during evening. Grayish expectoration.

Male

Lewd dreams. Sexual desire lost. Re-establishes suppressed gonorrhoea. Sterility.

Mouth

Tongue dry, rough, sore. Bad taste in the mouth. Teeth discolored, gray-green color.

Neck

Painful stiffness of the neck, on lifting the head from the pillow. Sudden "cricks" attack first one side of neck, then the other, worse on getting cold. Aching pains in left side of neck.

Nose

Nasal congestion, odor of sulphur vapor.

Rectum

Diarrhoea, constipation and anal itching. Stools green.

Skin

Radiation dermatitis. Chronic itching eruptions. Dry, itching eczema. Palms rough and scaly. Erythema around roots of nails. Skin dry, wrinkled. Painful cracks. Skin is discolored, pale, sclerous. Warty growths. Nails thicken. Psoriasis. Discolorations of skin. Nails ingrowing. Papular, vesicular, itching eruptions. hyperkeratosis of the skin. Skin cold.

Sleep

Sleepy with headache. Sleepy all the time with chronic fatigue. Sleepy, but unable to sleep for some hours after retiring.

Stomach

Nausea with a sick feeling. Nausea and vomiting with profuse sweat after immense stool. Sick feeling in stomach.

Temperature

Chills as soon as beginning to sleep, running up back, preventing sleep. Chilly while undressing in warm room. Chilliness on moving or from draft. Perspires easily. Night-sweats. Profuse perspiration on getting into bed, keeping him awake. Spells of fever, perspiration and weakness.

Throat

Throat painful on swallowing. The pharynx has gray-green mucus, discomfort and cramping pain on swallowing. Sensation of narrowness in the throat.

Comments

If Bernhardt Fincke had never given the homeopathic profession anything but his proving of X-ray, his name, would be held in grateful remembrance by posterity, for its possibilities in the cure of many of the most obstinate of chronic diseases appear almost limitless.

We are indebted to Dr. John B. Campbell, one the original provers, for the discovery of the great value of this remedy in rousing the reactive vitality of the system, both mentally and physically. Thus bringing to the surface suppressed symptoms of persons laboring

under a combination of the miasms of Hahnemann. This is true of the deep seated constitutional ailments, sycotic in character, which so often terminate in malignant disease, especially cancer.

When from the lack of presenting symptoms. When the predominant diathesis in consequence of which the best selected anti-psoric, Calc., Med., Psor., Sep., Sulphur, Syphilinum or Tuberculinum, fails to relieve or to rouse the overpowered vitality to a sufficient degree to throw off or bring to the surface the predominant toxin, the X-ray bids fair to be our curative remedy.

PAGE 1815

An X-ray burn, so-called, whether of the bone or skin is almost impossible to heal and despite the best efforts of the ablest practitioner, the best treatment known to medical science of the present day is often fatal.

Compare

(1) Carc. - Cancer patients, weak immune system.

(2) Electricitas - Sugar of milk saturated with the current. Anxiety, nervous tremors, restlessness, palpitation, headaches. Dreads approach of thunder-storms, heaviness of limbs.

(3) Magn-ambo. Magn-arct. Magn-aust.

(4) Merc. - Desire to hurt, even those dear to him, agitated, confused. Tongue covered with a yellowish coating and retaining the teeth imprints.

(5) Phos. - Bleeding of bright red blood, frightened, hypersensitive, afraid of the dark and of storms.

(6) Sec. - The limbs are cold with paraesthesia, hemorrhaging of black blood, aggravated by the heat, ameliorated by the cold.

Relations

Antidotes: Nux-v., Sulph. and the dynamic potencies of the remedy.

SOURCES

Boericke. Clarke.

Xanthorrhoea arborea

Pharmacy

Xanrhoe. Xanthorrhoea arborea. Historical dose: Tincture and all potencies.

Herbal

Xanthorrhoea has a reputation of being a good kidney tonic. **Planets:** Venus.

Homeopathic

Xanrhoe. has severe pain in kidneys, cystitis and gravel. Pain from ureter to bladder and testicles, pain in small of back returns from least chill or damp.

SOURCES

Clarke.

Xanthorrhiza apifolia

(shrub yellow root)

Pharmacy

Xanrhi. Xanthorrhiza apifolia. Shrub Yellow Root. Contains Berberine. Historical dose: Tincture and all potencies.

History

Xanrhi. has dilatation of stomach and intestines, atony, enlarged spleen. **Planets:** Moon, Saturn.

SOURCES

Boericke.

Xanthoxylum fraxineum

(prickly ash)

Pharmacy

Xan. Xanthoxylum fraxineum. Prickly ash. Xanthoxylum americanum. Toothache tree. N. O. Rutaceae. Tincture of fresh bark. Historical dose: Tincture and all potencies, first to sixth potency.

Herbal

Rafinesque was the first to investigate Xanthoxylum, which was known to him as "a great article in the Materia Medica of the Indians," who use the root bark in decoction for "colics, gonorrhoea, syphilis inward pains toothache, ulcers, etc. It is a great topical stimulant," he continues, "changing the nature of malignant ulcers." Xan. contains Piperin.

T. C. Duncan, recounting reminiscences of his boyhood, says: "There was another remedy that set my youthful mouth and stomach on fire and that was Prickly Ash. You wanted to open the mouth to let the cool air get in." This warmth is felt as a warm glow through the entire system with a sensation in the nerves as if gentle shocks of electricity were passing through the body.

Xan. belongs to the Rutaceae and like Ruta, has a vulnerary action, as Clarke discovered in this case: Miss X., 28 injured her right ulnar nerve at the elbow by repeatedly striking it against the edge of a bath while washing some articles. For two months she had to keep the arm in a sling. A few weeks after that the arm swollen. Some eight months after the injury he saw her. The pain centered in the ulnar nerve where it crosses the inner condyle of the humerus, though there was pain above and below as well.

Clarke gave Ruta 30c, which gave some relief to the pain and relieved a frontal headache to which the patient was subject. The arm becoming less well, Clarke gave Xan. 12c four times a day.

This made a distinct improvement in the arm and also relieved a dysmenorrhoea to which Miss X. was subject. After persistent treatment with various potencies of Xan. the nerve lost its sensitiveness and the patient could use her arm freely.

Homeopathic

Xanthoxylum exerts its influence on nerves, female sexual organs, respiration and left side. Its action is on the nervous system and mucous membranes. Paralysis. Hemiplegia. Painful hemorrhages, after-pains, dysmenorrhoea.

Indigestion from over-eating or from too much fluid. Sluggish capillary circulation. Neurasthenia, poor assimilation insomnia, occipital headache. Increases mucous secretion of mouth and stimulates the secretion from all glands with ducts opening in the mouth.

Neuralgic and rheumatic disorders offer a therapeutic field for this remedy, especially in patients of spare habit and nervous, delicate organization.

Xan. has paralysis of single parts, hemiplegia. Neurasthenic patients who are thin, emaciated, poor assimilation with insomnia. Pricking sensation, shocks as from electricity. Numbness of left side. Mucous membranes smart as from pepper. As if floor were soft like wool, on walking. Injury to nerves.

Grinding, shooting, radiating, sudden pains, neuralgia. Many pains are radiating, some are sudden, arouse from sleep and cause the patient to catch her breath.

Pains are excruciating, unbearable and are accompanied with red, hot face, but the heart pains causes pallor.

Clinical

After-pains. Asthma. Coccyx, pain. Dysmenorrhea. Earache. Fibroids. Headache. Hemiplegia. Hysteria. Jaw-joint, pain. Levitation. Menstruation, painful. Nerves injured. Nervousness. Neuralgia. Ophthalmia. Sciatica. Toothache. Ulcers.

Causations

Injury to nerve. Wetting, (getting feet wet). Suppression of menses.

Constitutions

Cullis thinks Xan. especially Suited to women of spare habit, nervous temperament and delicate nerves. Leucorrhoea with amenorrhoea he regards as a strong indication.

Neurasthenic patients who are thin, emaciated, poor assimilation with insomnia and occipital headache. **Planets:** Venus, Mercury.

Modalities

Better from drinking of ice-water better. Headache is better by cold water and in open air. Better from vomiting. Better lying down. Worse from sleeping, dampness, getting feet wet, suppressed menses. Worse by moving head suddenly. Neck pain is better by pressure and by throwing head back. Lying down improves. Pains are worse in morning, 4 a.m.

Symptoms

MIND

Nervous frightened feeling. Did not care if she lived or died. Mental depression.

Abdomen

Some pain in right side below ribs. Colic pain in right iliac region. Rumbling with soreness on pressure. Flatulence. Gripping pain on waking in morning.

Back

Very severe pain in cervical and upper sacral region. Back of neck numb. Dull pain from nape to right scapula.

Chest

Oppression of chest.

Ears

Ringling in ears. Loud noise in right ear, as of a valve constantly opening and shutting. Loud noise like a windmill in left ear. Dull pain in right ear. Darting pain under and back or right ear.

Eyes

Watering of eyes and nose. **Eyes** bloodshot with red margins and feel as if full of sand.

Lachrymation, pain in lid of right eye. **Eyes** twitched, pupils dilated. Dull, heavy,

grinding pain in left eye. Ophthalmia. Vision blurred, as if looking through blue lace. Objects seem a long way off.

Face

Neuralgia of lower jaw. Pain in right jaw-socket. Hot flushes over face and head. Face much flushed. Pallor even to lips with heart pains.

Female

Menses too early and painful. Ovarian neuralgia with pain in loins and lower abdomen, worse in left side, extending down the thigh, along genito-crural nerves. Neuralgic dysmenorrhea with neuralgic headaches, pain in back and down legs. Menses thick, almost black. After pains. (Arn., Cupr., Cham.) Leucorrhoea at time of menses.

PAGE 1817

Food

Very thirsty, drank much at a time. Unusually hungry. No appetite. Anorexia.

Head

Feels full. Weight and pain on vertex. Pain over eyes, throbbing pressure over nose, pressure in forehead, head seems divided, ringing in ears. Occipital headache. Sick headache with dizziness and flatulence. Throbbing headache, pain as if top of head would fly off. As if head is divided into two parts. As of a tight band around.

Kidneys

Urine at night and next morning scanty and high-colored. Profuse, light-colored urine, nervous women.

Limbs

Paralysis of left side following spinal disorders. Numbness of left side, impairment of motion. Hemiplegia. Pain in nape, extending down back. Sciatica, worse hot weather. Anterior neuralgia. (Staph.) Left arm numb. Neuralgic shooting pain, as from electricity, all over limbs.

Lungs

Shortness of breath. Constant desire to take a long breath, oppression of chest. Dry cough, day and night. Cough, slight hacking in spells, only in open air.

Mouth

Dryness of mouth and fauces. Pharyngitis. (Wye.) Ptyalism tongue coated yellow. Peppery taste in mouth, fauces and throat. Burning and dry feeling in mouth and tongue. Tongue seemed to alternately expand and contract.

Nose

Right nostril seems filled up, discharge of dry and bloody scales of mucus. Numbness throughout left side of body, division felt in nose. Dryness of both nostrils. Discharge of mucus from nose with congested feeling, as if it were about to bleed. Slight nose-bleed. Fluent coryza.

Rectum

Constipation in morning. Griping and diarrhea. Dysentery with tympanites, tenesmus, with inodorous discharges. Epidemic dysentery. Cholera in stage of collapse.

Sensations

As if top of head would be taken off by flashes of throb-like pain. As if bewildered with pain in back of head. Feeling of looseness or quivering of brain. **Eyes** as if full of sand. As if walking on wool. As if sunk deep in bed. As if body expanded.

Skin

Measles, dullness, bewilderment, drowsiness and want of sufficient development of the eruption. Old and indolent ulcers.

Sleep

Continued gaping, drowsiness. Hard and unrefreshing, dreams of flying. Sleeplessness in neurasthenics. A dream of suffocation woke her.

Stomach

Dyspepsia from excessive eating and drinking. Empty belchings with slight taste of ingesta. Nausea with headache. Nausea with sense of oppression at stomach. Feeling of fullness of pressure in epigastrium, fluttering. Intense burning and stinging in esophagus with slight nausea.

Temperature

Sense of heat all over veins with a desire to be bled, flashes of heat from the head to foot. Slight chill accompanied by death-like nausea. Frequent chills with pains in limbs, nausea. Typhoid fever in stage of collapse.

Throat

Aphonia. Hoarseness with husky feeling in throat, obliged to clear throat frequently. Throat dry, very difficult to talk. Peppery taste in mouth and throat. Feels hollow. Throat felt as if in a vice. Pain and soreness in right side of throat.

Comments

In one of Cullis' provers, Miss D. (there were six provers, three of them women, all took the tincture), the entire left half of the body became numb, the left half of the head being sharply divided in sensation from the other half.

PAGE 1818

These symptoms with the many head pains and fullness in the head, give the correspondence in hemiplegia in which Xan. has been given with success.

Two additional provings on women appear in C. D. P. In these provings 20 to 100 drop doses of the tincture were taken and symptoms of great severity were produced. Both provers had severe dysmenorrhea pains with increased and anticipating flow. This is the characteristic of Xan.

The symptoms in each case roused the prover from sleep with pain and suffocation, the pain being confined to head, heart, throat and pelvis.

Many of the pains were radiating from above right eye over head from right ovary down thigh and in other directions. Left-sided numbness was present in one, who also had symptoms of levitation and disordered sensation. In dysmenorrhea Xan. has a wide range.

Cullis, who had most success in cases of dysmenorrhea and amenorrhea, relates these cases:

(1) Miss A., 25, brunette, had menstrual irregularity since commencement, would go three, four or five months and then her sufferings were excruciating. When she came under treatment had no menses for two months. Xan. 1c was give, 5 drops thrice daily. Menses appeared in three days and were painless.

(2) Miss B., fair, nervous, had menses suppressed by getting feet wet, being then a week over time. Xan. 1x, 5 drops every three hours, brought on menses next day.

P. C. Majumdar cured a case of uterine fibroid with Xan. 3x: An emaciated, feeble, wrinkled woman, 56, widow, had been advised by allopaths to have an operation for tumor. Menstruation had ceased fifteen years before. It had always been profuse and painful and preceded and followed by leucorrhoea.

She had neuralgic pain in right ovarian region, a hard nodular tumor size of a small orange, painful on deep pressure.

Fetid, yellowish white discharge from vagina. Patient was nervous, depressed, lazy and sleepy even in the daytime. Appetite poor, disgust for food.

Xan. 3x was given night and morning. In a week the pain was better and discharge less.

In four weeks Majumdar found the patient a changed person. The tumor was much softer and reduced by half. In six months the tumor had gone and the patient was quite well,

Xan. having been taken intermittently all the time.

Xerophyllum asphodeloides

(basket grass flower)

Pharmacy

Xero. Tamalpais lily. Xerophyllum. Basket Grass Flower. Historical dose: Tincture and all potencies, sixth potency or higher.

History

Xerophyllum should prove curative in eczema conditions, poison-oak and early typhoid states, etc. **Planets:** Mars.

Homeopathic

Better application of hot water in morning, moving affected part. Worse application of cold water in afternoon and evening.

Clinical

Dermatitis. Dyslexia. Eczema. Flatulence. Leucorrhea. Poison-oak. Typhoid.

Symptoms

MIND

Dull, cannot concentrate mind for study. Forgets names. Writes last letters of words first, misspells common words.

Abdomen

Intestinal flatulence. In morning rumbling in bowels with desire for stool.

Back

Feels hot from sacrum to scapulae. Backache, extending down legs. Pain over kidneys.

Heat deep in spine.

Eyes

Painful, as of sand, smarting, difficult to focus for close work. **Eyes** feel sore, burn.

Face

Bloated in morning. Puffy under eyes.

Female

Bearing-down sensation. Vulva inflamed with furious itching. Increased sexual desire with ovarian and uterine pains and leucorrhea.

PAGE 1819

Head

Feels full, stuffed up, pain across forehead and above eyes. Great pressure at root of nose. Bewildered. Loss of consciousness. Pulsating headache.

Kidneys

Difficulty of retaining, dribbling when walking. Frequent urination at night.

Limbs

Muscular lameness, trembling. Inguinal glands and behind knees swollen. Pain in knees. Limbs feel stiff. (Rhus-t.)

Lungs

Posterior sinuses raw, discharge thick, yellow mucus. Sneezing. Trachea sore, lumps feel constricted.

Nose

Stuffed, tightness at bridge of nose, acute nasal catarrh.

Rectum

Constipation, stools hard, small lumps. Difficult, soft stools with much straining. Much flatus. Bearing-down pain in rectum.

Skin

Erythema with vesication and intense itching, stinging and burning. Blisters, little lumps. Skin rough and cracked, feels like leather. Dermatitis, especially around knees. Inflammation resembling poison-oak.

Stomach

Feels full and heavy. Belchings sour offensive, an hour after luncheons and dinner. Vomiting at 2 p.m.

Throat

Stitching pain upon swallowing.

Compare

PAGE 1820

Yohimbinum

(yohimbe bark)

Pharmacy

Yohim. Yohimbinum Coryanthe. Yohimbine. N. O. Rubiaceae. A crystalline alkaloid obtained from the bark of the Yohimbeha or Yumbehoa tree of the Cameroons.

Trituration. Historical dose: Tincture and all potencies, third potency or higher. Tincture in 5 to 10 drops.

Herbal

The natives of West Africa discovered a potent aphrodisiac in the bark of the Yohimbeha tree and from this an active principle. It is a powerful stimulant of the genital function in males. In animals Yohim. causes increased liveliness and cheerfulness, hyperemia of the conjunctiva, heat and redness of the ears and of the nose also in dogs.

Eulenburg used Yohim. in 10-drop doses of a 1 per cent. solution and "in cases of neurasthenic impotence with excellent result." Yohim. should be a homeopathic remedy in priapism and congestive states of the sexual organs.

Lambrechts relates the case of a young man, 28, "thin, anemic, nervous and partially impotent," who took a 5 mg. tablet one morning, another in the evening and a third the following morning. The symptoms were so severe that he discontinued the drug in spite of a certain amelioration of the sexual neurasthenia. Yohim. set up symptoms of fever, disordered the digestion, caused agitation and tremors and increased the action of the heart. **Planets:** Venus, Moon.

Homeopathic

Yohim. excites sexual organs and acts on central nervous system and respiratory center. An aphrodisiac, used in physiological doses, but contraindicated in all acute and chronic inflammations of abdominal organs. Homeopathically, should be of service in congestive conditions of the sexual organs. It causes hyperemia of the milk glands and stimulates breast-feeding. Menorrhagia.

Clinical

Aphrodisiac. Diuresis. Impotence. Menorrhagia. Neurasthenia. Palpitations. Priapism. Urethritis.

Symptoms

MIND

Intense agitation with trembling.

Abdomen

Flying heats in abdomen.

Back

Flying heat in back.

Face

Sensations of heat, heightening the color.

Food

Appetite almost completely disappeared.

Head

Agitation with flying sensations of heat in face.

Heart

Heart-beats more intense and more frequent, pulse, normally 80, became 108.

Flying sensation of heat in heart.

Kidneys

Urine clean abundant, foamy, no trace of albumen, had to rise three times in the night.

Urethritis.

Limbs

Hands trembled, he could scarcely write and his writing was illegible.

Male

Sexual neurasthenia with impotence. Strong and lasting erections in the morning without increase of desire. Enlargement of testicles and epididymis.

Mouth

Disagreeable, metallic taste. Copious salivation. Tongue covered with a yellow coat.

Rectum

Stools frequent, liquid, black and bilious. Intestinal hemorrhage. Bleeding hemorrhoids.

Sleep

Sleepless. No sleep all night. Thoughts of events of whole past life keep him awake.

Stomach

Nausea and eructation.

Temperature

Rigor intense heat, waves of heat and chilliness, tendency to sweat.

Compare

Yucca filamentosa

(bear grass)

Pharmacy

Yuc. *Yucca filamentosa*. Bear grass. N. O. Melanthaceae, Liliaceae. Tincture of root and leaves when not in flower. Tincture of flowers. Historical dose: Tincture and all potencies, tincture to third potency.

PAGE 1821

Herbal

Yucca was proved by Rowell and four others in the 30c. **Planets:** Jupiter.

Homeopathic

Farrington gives these Yuc. indications: Biliousness with pain going through upper part of liver to back. Bad taste in mouth. Diarrhea which contains an excess of bile. Much flatus passed by rectum. Frontal or temporal headache with frequent flushing of face. Face sallow.

As with many liver disorders, there is chilliness: cannot bear to be away from the fire. Bilious symptoms with headache. Tongue coated yellow and taking imprint of teeth. Dull ache in center of liver. Abdomen sensitive. Frequent passage of flatus and of watery, yellowish-brown stools. The tongue is usually a bluish white.

Clinical

Biliousness. Coryza. Diarrhea. Flatulence, odorless. Headache, temporal. Post-nasal catarrh. Throat, granular.

Modalities

The symptoms are worse by noise, motion, pressure. Gripping pain is better bending forward.

Symptoms

MIND

MIND

Despondent and irritable. Irresolute. Disinclined to study. wanders, uses wrong words. Unable to remember anything read. When others talking to him, hears but doesn't seem to understand.

Abdomen

Deep pain in right side over liver, going through back. Abdomen bloated after dinner and feels sore. Much flatus emitted, odorless. Rumbling. Colic. Crampy pains in abdomen after breakfast. Throbbing, painless, right side about twelfth rib.

Back

Constriction of neck muscles, seems to draw head backward. Tight feeling round neck, evening, had to take off collar. Severe pain in left scapula, at 9 p.m. Backache ever since she took the drug.

Chest

Constriction in whole chest and in heart. Pain in upper intercostal muscles.

Ears

Pain behind right ear, 6.30 p.m. Very sensitive to least noise.

Eyes

Dark rings under eyes. **Eyes** feel hot and inflamed. Itching and smarting left eye, left inner canthus. Dull pain over left eye.

Face

Pale, flushed, burning, yellow. Momentary aching in zygoma, recurring several times. Pain in jaw-joints.

Food

Appetite increased, food relished, lost.

Head

Headaches frontal, heavy, pressing, throbbing. Temporal arteries throb. Headaches as if top of head would fly off. Arteries of forehead throb. Sensation of cold air blowing on left side of scalp.

Heart

Constriction in heart. Momentary aching in heart region. Visible throbbing in arteries of hand. Pulse: full and heavy, a little irregular.

Kidneys

Irritable bladder, frequent urination. Round meatus circumscribed edematous red swelling, raw sensation. Burning when urinating. Urine increased, high specific gravity.

Limbs

Crampy pains in knees. Sore, crampy pains in muscle of back of left leg, just above ankle, as if sprained.

Lungs

Hard, rattling cough.

Male

Burning and swelling of the prepuce with redness of meatus. Gonorrhoea. (Cann-s.) Erections, all night long but no emissions, cannot study, mind runs on sexual subjects.

Mouth

Bad odor from mouth. Back of mouth dry. Taste as of rotten eggs. (Arn.) Yellow tongue yellow, coated, taking imprint of teeth. (Merc., Podo., Rhus-t.)

Nose

Nose red. In evening right side of nose constantly running, left dry. Profuse, bloody, watery discharge. Coryza. Sensation as if something hung down from posterior sinuses, cannot get it up or down.

Rectum

Stool yellowish brown with bile. Constant desire for stool. Sudden, violent tenesmus, followed by discharge of wind, which better the pain. Tenesmus after stool. Diarrhea following pains in abdomen. Stools are watery, copious, thin, yellowish brown with smarting at anus.

PAGE 1822

Sensations

As of something hanging down from back of sinuses. As if cold air blowing on left side of scalp.

Skin

Erythematous redness.

Sleep

Very sleepy in the evening. Restless night. Lewd dreams.

Stomach

Aching and sharp pains in stomach. Region of stomach sore and sensitive.

Temperature

Restless and feverish. Coldness of scalp, left side, as if cold air blowing on it. Coldness, cannot bear to be away from fire. Hot, feverish. Face sweats, evening.

Throat

Sensation as if something hanging down from posterior sinuses. Tonsils dark red, not sore. Pharynx seems covered with granules is dark red. Stringy, greasy-looking mucus back of throat.

Compare

(1) Constriction in heart, Lil-t.

(2) Biliousness, Bry.

Zea italica

(corn-silk)

Pharmacy

Zea-i. Zea italica. Corn-silk. Historical dose: Tincture and all potencies, tincture in ten to fifty drop doses in water.

Herbal

Zea italica possess curative properties in skin diseases, particularly in psoriasis and eczema rubrum.

Homeopathic

Mania for bathing. Impulse to suicide, particularly by drowning. Easily angered.

Appetite increased, voracious, alternating with disgust for food. **Heart**burn, nausea, vomiting, better drinking wine.

Compare

(1) Stigm.

SOURCES

Boericke.

Zincum aceticum

(acetate of zinc)

Pharmacy

Zinc-a. Zincum aceticum. Acetate of Zinc. Solution. Historical dose: All potencies.

History

Zincum aceticum was proved by Hahnemann and others. The only clinical uses of Zinc-a. are from Burnett. He used Rademacher's solution of Zinc in Acetic Acid and gave 5 drop doses three times a day in water to nurses and others who were compelled to work on an insufficient amount of sleep. Clarke has verified the great value of this. Another use to which Burnett put it was in erysipelas of elderly people. **Planets:** Moon.

Homeopathic

The most peculiar Zinc-a. symptoms were these: "Brain feels sore and as if sprinkled with salt." "Throat seems too tight and tongue too short." Shaking chill during and after vomiting. Empty, hungry sensation. Pain and paralytic condition of arms. In the provers it produced a pustular eruption on forehead and knee and the latter was attended with voluptuous itching.

Clinical

Diarrhea. Erysipelas. Gastritis. Night-watching, effects. Toothache.

Modalities

There was toothache is worse by touch. Worse in evening. Worse by motion. Worse walking in open air.

SOURCES

Clarke.

Zincum arsenicosum

Pharmacy

Zinc-ar. Zinc arsenicosum. Historical dose: All potencies.

Homeopathic

Zinc-ar. affects the lumbar region and lower limbs. Chorea. Profound exhaustion on slight exertion. Occipital pain. Blue vision. Burning in bladder. Numb right arm then left,

better when writing. Lumbar pain, worse from exertion, sitting, jarring or standing. Soles ache when tired better pressure. Worse from 10 a.m. and 3 p.m. Slight exertion.

Clinical

Nervous, disorders.

SOURCES

Clarke.

Zincum bromatum

(bromide of zinc)

Pharmacy

Zinc-br. Zincum bromatum. Bromide of Zinc. Zinc bromide. Solution. Historical dose: All potencies. Hale used the 3rd and 6th potencies.

History

Hale has used Zinc-br. on its double indications for teething children who suffer intensely from pain in nerves of head and face, pains which throw the children into a state of stupor alternating with wakefulness. **Planets:** Moon, Mercury.

Homeopathic

Chorea. Cramps. Dentition. Hydrocephalus.

SOURCES

Clarke.

Zincum chromicum

(chromate of zinc)

Pharmacy

Zinc-chr. Zincum Chromate. Chromate of Zinc. Trituration. Historical dose: All potencies.

History

Zinc-chr. acts upon ears, nose, throat and left side. **Planets:** Moon.

Homeopathic

Aching, gnawing, grinding, pain or wandering in shocks. Catching stitches that impede motion.

PAGE 1824

Modalities

Worse from motion, lying on the back or washing the head.

Symptoms

MIND

Aversion to work, cannot bring herself to it.

Abdomen

Can not tolerate her hands on abdomen.

Back

Gnawing and grinding below and above left scapula.

Ears

Throbbing behind the ears.

Eyes

Vision wavering.

Female

Dryness of vagina with sense of coming sickness, 10 to 12 a.m.

Food

Indefinite craving, knows not for what. Aversion to even thinking of food.

Head

Inward pressure in spot on bregma. Throbbing temples.

Heart

Cutting at apex, at night.

Limbs

Feet sore. Cramps of gnawing, grinding pain in toes, at night.

Lungs

Cough from tickling in throat-pit. Expectoration, sweet, loose, but had to be swallowed or tough with constant spitting spells.

Mouth

Taste metallic.

Nose

Bad odor within nose. Blowing of pus and blood and scabs.

Throat

Shooting from larynx (left) up through tonsils into ear.

SOURCES

Clarke.

Zincum cyanatum

(cyanide of zinc)

Pharmacy

Zinc-cy. Zincum cyanatum. Cyanide of Zinc. Zinc Cyanide. Trituration. Historical dose: All potencies.

History

The few symptoms of Kopp's proving show its suitability. Zinc-cy. produces the nervous and mental symptoms of Zinc Met. with great intensity. Zincum cyanatum has been chosen in consequence as the salt for use in convulsions and paralytic conditions in which Zinc Met. is indicated. **Planets:** Moon.

Homeopathic

Zinc-cy. has great physical agitation. General trembling from time to time. Chorea. Convulsions. Epilepsy. Hysteria. Meningitis. Parkinson's disease. Petit mal.

Symptoms

MIND

Great excitement. Bad temper. Great sensitiveness.

Face

Face suddenly changes color.

Head
Congestion to head.
Rectum
Constipation.

SOURCES

Clarke.

Zincum iodatum

(iodide of zinc)

Pharmacy

Zinc-i. Zincum iodatum. Iodide of Zinc. Zinc iodide. Solution in syrup. Trituration.

Historical dose: All potencies.

History

Zincum iodatum has been proved by American provers and some well-defined symptoms were produced. **Planets:** Mercury.

Homeopathic

Zincum iodatum has the following symptoms: Splinter-like pain in throat. Coldness in stomach and bowels with tendency to perspire. A cough from tickling in the throat and the more he coughed the worse the tickling became. A peculiar tingling in right side of face to vertex with tension in skin of the part. Undulating pain at border of right free ribs, extending to third rib on same side.

Clinical

Constipation. Cough. Throat, pain. Tuberculosis.

Compare

(1) Splinter pain in throat, Hep., Arg-n.

(2) The more he coughs the worse it tickles, Ign.

SOURCES

Clarke.

Zincum metallicum

(the metal zinc)

Pharmacy

Zinc. Zincum metallicum. Zinc. An Element. Zn. Trituration of the metal. Historical dose: All potencies, second to sixth potency.

History

Zincum metallicum belongs to the Magnesium group of metals, comprising also Cadmium and Calcium. It has long been known in the arts, especially in its combination with Copper, (Cupr.) in the manufacture of Brass.

PAGE 1825

Zinc was proved by Hahnemann and his associates and it appears among the remedies of his Chronic Diseases. Zinc poisons the brain and nerve and it corresponds to nerve-poisoning of various kinds.

Weyner relates the poisoning of cows pasturing near a cadmium mine, near which Zinc-smelting was carried on. These were some of the effects:

General emaciation, skin clinging tightly to the body, eyes pale bluish, drawn back into the orbits, horns and ears unequally warm, mouth hot and shiny and hanging down, at times dry, appetite undisturbed, rumination slower, dung grass-green, thin-flowing and fetid, at times cough.

As the disease progressed emaciation increased, the horns became rough, milk dried up and diarrhea increased until the animals could no longer rise and died of total prostration.

Homeopathic

Zinc corresponds to the poisoning of nerves and brain. Poisoning from suppressed eruptions or discharges. The provings picture cerebral depression. The nervous symptoms of most importance. Tissues are worn out faster than they are repaired.

Zinc causes a decrease in the number and destruction of red blood corpuscles. Defective vitality. Marked anemia with profound prostration. Great relief from discharges.

Convulsions with pale face and no heat. Chorea from fright or suppressed eruption.

Impending brain paralysis. Period of depression in disease.

Suppressed eruptions. In chronic diseases with brain and spinal symptoms, trembling, convulsive twitching and fidgety feet are guiding symptoms. Spinal disorders.

Twitchings. Pain, as if between skin and flesh.

Brain and nerves are fatigued, tissues are worn out faster than they can be repaired, causing depression and enervation.

Cannot throw things off, cannot develop exanthemata or discharges. Period of depression in disease. Marked anemia increasing weariness, worse eating with restlessness.

Zinc has an intolerance of wine, wine aggravates all symptoms. Poisoning by suppressed discharges and eruptions. Isolated effects, formication. One part numb another sensitive, one part hot, other part cold. Pain in spots, between skin and flesh. Trembling internal.

Convulsive twitching or jerking worse at night during sleep, spasms from spinal injuries. Fidgety feet and other automatic motions of mouth, arms and hands. Feels numb, all over, on lying down. Neuralgia after shingles better touch. Transverse pain, shooting pains.

Descending paralysis. Disabling bone pains. Chilblains, blueness of the surface. Bloody discharges.

Clinical

Alcoholism. Amblyopia. Asthma. Bedwetting. Brain-fag. Brain, paralysis. Breasts disorders. Breast milk, bad, suppressed. Cataract. Chilblains. Chin, eruptions. Chlorosis. Cholera. Chorea. Constipation. Cracks. Dentition. Diarrhea. Diphtheria. Dysentery. Dysuria. Earaches. Ear discharges. Eczema.

Eruptions, suppressed. Esophagus, spasms. **Eyes**, affections. Eyelids granular. Fatigue. Foot-sweat, suppressed. Gastralgia. Headaches, nervous. Heels, pains. Hernia, inguinal. Hiccoughs. Hydrocephalus. Hypochondriasis. Hysteria. Joints, cracking. Lips disorders. Lochia, suppressed. Masturbation. Memory, weakness. Meningitis. Mental weakness. Neuralgias. Nerve weakness. Nipples, sore. Nymphomania. Paralysis. Photopsia. Prostate, discharge. Ptosis. Rheumatism. Sleepiness. Sleepwalking. Spermatorrhea. Spinal irritation. Spine disorders. Spleen, pain. Strabismus. Suppressions. Tarsal tumors.

Throat, sore. Tibia, burning. Typhoid fever. Ulcers. Urinary, retention. Varicose veins. Whooping cough. Worms.

PAGE 1826

Causations

Ill effects of fright, grief, anger, surgery, night-watching, excessive study. Chorea from fright or from suppressed eruptions, worse during sleep, the feet especially affected. Ill effects from brain concussion, frost-bite, suppressions of eruptions, otorrhea, menses, lochia, milk.

Constitutions

Nervous constitutions. **Planets:** Moon.

Modalities

Better while eating, discharges and appearance of eruptions. Better from motion, hard pressure, warm open air, free discharges, menses, rubbing, scratching. Worse from exhaustion, mental or physical after eating. Worse from noise or touch. Worse after wine. Worse being heated. Worse from suppressed eruptions, menses, discharges. Worse sweet things, milk. Worse at menstrual period from touch, between 5 to 7 p.m. after dinner from wine.

Symptoms

MIND

Muddled. Brain-fag. Weak memory. Very sensitive to noise. Averse to work to talk. Fretful, peevish, cries if vexed or moved during sleep, (children). Child repeats everything said to it. Fears being arrested on account of an imagined crime. Melancholia. Lethargic, stupid. Paresis.

Easily startled, excited or intoxicated. Forgetful. Screams with pain. Sensitive to others talking and noise. Stares as if frightened on waking and rolls head from side to side. Weeps when angry. Thinks of death calmly.

Abdomen

As of a lump in liver region or at navel. Hypogastric flatulence. Hot, putrid flatus. Neuralgia of spleen. Jerking from groins to penis. Pain after a light meal with tympanitis. Gurgling and griping, distended. Flatulent colic with retraction of abdomen. (Plb.) Griping after eating. Reflex symptoms from floating kidney.

Back

Pain in small of back. Spine sensitive, cannot bear it touched. (Agar., Therid.) Burning along whole spine, worse sitting.

Tension and stinging between shoulders. Spinal irritation. Aching in spine, small of the back worse turning in bed, sitting and stooping. Dull aching about the last dorsal or first lumbar vertebrae, worse sitting. Tearing in shoulder-blades. Cutting pain in inter-scapular region better belchings. Dull aching pain about last thoracic or first lumbar vertebrae.

Weakness in lumbar region worse standing.

Breasts

Breasts painful, nipples sore. Breasts and genitals painful with suppressed menses.

Chest

Burning pressure beneath sternum. Constriction and cutting in chest.

Ears

Frequent acute stitches in children (boys). Itching better boring into it. Tearing, stitches and external swelling. Discharge of fetid pus.

Eyes

Pterygium, smarting, lachrymation, itching. Pressure as if pressed into head. Itching and soreness of lids and inner angles. Ptosis. Rolling of eyes. Blurring of one-half of vision, worse stimulants. Squinting. Amaurosis with severe headache. Red and inflamed conjunctiva, worse inner canthus.

Face

Pale, alternating with redness. Bluish, miserable. Lips, sticky, dry, cracked. Pale lips and corners of mouth cracked. Redness and itching eruptions on chin. Tearing in facial bones.

Female

Ovarian pain, especially left, can't keep still. (Vib.) Nymphomania of lying-in women. Menses too late, suppressed, lochia suppressed. (Puls.) Menses flow more at night. (Bov.) Female symptoms are associated with restlessness, depression, coldness, spinal tenderness and restless feet. Dry cough before and during menses. Complaints all better during menstrual flow. (Eupion, Lach.)

Food

Ravenous hunger about 11 a.m. (Sulph.) Great greediness when eating, cannot eat fast enough. Loss of appetite with clean tongue. Aversion to meat especially veal, sweets, cooked or warm food.

Wine aggravates, cannot stand smallest quantity of wine.

PAGE 1827

Head

Feels as if he would fall to left side. Headache from the smallest quantity of wine. Hydrocephalus. Rolls head, bores in pillows and grinds teeth. Occipital pain with weight on vertex. Automatic motion of head and hands. Brain-fag, headaches of overtaxed school children. Forehead cool, base of brain hot. Roaring in head. Starting in fright. Pressive pain on vertex, at the root of the nose, extending to eyes with weak vision worse warmth, better hard pressure, open air. Heavy aching pain in temples worse biting. Crashing in head, on falling to sleep. Occiput hot, forehead cold. Hair falls from vertex. Hair brittle, bristle, sensitive. Brain paralysis. Vertex bald with soreness of scalp. Headaches of overtaxed school children. Headaches from drinking small quantity of wine. Headache with dim vision worse heat. Meningitis. Hydrocephalus after infantile cholera or diarrhea.

Heart

As if a cap over the heart. Hard heart beat. Irregular spasmodic action of the heart, occasional one violent thump. Violent pulsations during heat.

Kidneys

Floating kidney. Reflex symptoms from floating kidneys. Can only pass urine if sitting bent backwards. Hysterical retention of urine. Involuntary urination when walking, coughing or sneezing. Bleeding after urination. Pressive cutting about kidneys. Unable to retain the urine unless the feet are in constant motion. Vicarious bleeding from suppressed menses.

Limbs

Lameness, weakness, trembling and twitching of various muscles. Pains in limbs on becoming heated. Chilblains. (Agar.) Weakness and trembling of the hands, when writing during menses. Eczema on hands. Feet in continued motion, cannot keep still. Large varicose veins on legs. Sweaty. Convulsions with pale face. Transverse pains, especially in upper extremity. Soles of feet sensitive. Steps with entire sole of foot on floor.

Toes, feel swollen, sore, tips ache. Bones of the feet feel broken. Stumbling, spastic gait totters while walking especially in the dark and with closed eyes. Lightning-like pain of locomotor ataxia, sweaty feet with sore toes. Formication of feet and legs as of insects crawling over the skin, prevents sleep, better rubbing and pressure. Hysterical contradictions, drawing the fingers out of shape. Burning in tibia. Paralysis of feet. Ulcerative pain in heel worse walking. Pain in deltoid worse raising arm.

Liver

Liver enlarged, hard and sore. Indurated sore liver. Squeezing, pressure and shootings in the hepatic region.

Lungs

Debilitating, spasmodic cough, worse eating sweet things. Child grasps genitals during cough. Asthmatic bronchitis with constriction of chest. Dyspnea, better as soon as expectoration appears. Dyspnea, worse flatulence better expectoration. Debilitating spasmodic cough, worse eating sweet things. Dry cough, before and during menses. Fumbles the genitals while coughing especially children.

Male

Easy sexual excitement, emission too rapid or difficult during embrace. Discharge of prostatic fluid without any cause. Grasps genitals with cough. Sadness after emission. Neuralgia of testes worse walking. Testicles swollen, drawn up. Erections violent. Emissions with hypochondriasis. Falling off of pubic hair.

Mouth

Grinds teeth. Bleeding gums. Echoes speech. Herpes in mouth from sea bathing. Bitter or bloody taste. Teeth loose. Gnashing of teeth. Bloody taste. Blisters on tongue. Difficult dentition, child weak, cold and restless feet.

Neck

Nape of neck feels weary and tired from writing or any mental exertion. Neck feels lame, then stupor.

PAGE 1828

Nose

Fluent coryza with hoarseness and burning sensation in chest. Sore feeling high up, pressure upon root. Swollen. Pain as from excoriation in interior of nose. Obstruction of nose. Redness of nose, remaining after freezing, tip of nose easily frosted.

Rectum

Hard, small, constipated stool. Itching at anus during stools. Ulceration of hemorrhoids. Cholera-like diarrhea in infants. Nervous diarrhea. Affections of brain from sudden stoppage of diarrhea, constipation in new born. Cholera infantum with tenesmus, green mucous discharges. Sudden stopping of diarrhea, which is followed by brain symptoms. Hemorrhoids drawn down better heat, worse walking. Stools, large, dry, difficult, followed by involuntary urination.

Sensations

As if she had a large goiter which she could not see over. As if hair bristled. Uneasy, as if he had committed a crime. As if he would have a stroke. As if scalp were drawn together. Pains as if between the skin and the flesh. Nauseating weakness as after smoking too strong tobacco. As if kidney would be twisted off. Wrist and foot as if sprained. As if soles swollen. As if tendons of right sole too short. As if ball of great toe frozen.

Skin

Itching of thighs and hollow of knees. Eczema in the anemic and neurotic of hands. Varicose veins, especially of lower limbs. (Puls.) Varicose veins of genital organs. Formication of feet and legs as from a bug crawling over the skin, preventing sleep. Retrocession of eruptions.

Sleep

Broken, unrefreshing. Cries out while sleeping, body jerks, wakes frightened, startled. Loud screaming in sleep without being aware of it. Jerks and starts on falling to sleep. Sleepwalking after suppressed emotions. Nervous motion of feet when asleep. (Kali-p.)

Stomach

Atonic dyspepsia, feeling as if stomach were collapsed. **Heart**burn is worse from sugar.

Hiccough, nausea, vomiting of bitter mucus. Liquids are vomited immediately after drinking. Burning in stomach. Sweetish rising into throat with sweet taste. Globus hystericus rising from pit of stomach. As if a worm crawling up to the throat from the pit of stomach, causing coughing.

Temperature

Frequent, febrile shiverings down back. Chilliness in the back, as if fever would appear. Cold limbs. Hands and legs become cold. Profuse sweat at night. Sweaty feet.

Throat

Hoarseness. Dry, constant inclination to hawk up tenacious mucus. Rawness and dryness in throat and larynx. Pain in muscles of throat externally while swallowing. Pain in fauces when yawning. Bitter taste in throat.

Vertigo

Violent vertigo with stupor. Vertigo deeply seated in brain. Vertigo as if he would have a stroke. Vertigo, as if the seat were undulating when sitting up in bed in morning.

Comments

The word "fatigue" covers a large part of Zinc's action, it may be nerve or brain-fatigue or it may be muscle-fatigue. Fatigue means that tissues are worn out faster than they can be repaired. This leaves them poisoned by waste products. Zinc meets the effects of brain-fatigue from over-study from night-watching. (Cocc.)

The common old-school use of Zinc ointment to suppress eruptions and Zinc injections to suppress discharges is based on fact: Zinc does suppress them and it transfers the morbid action to the nervous system, setting up a poisoning there and, conversely in homeopathic potencies Zinc can reverse the process. It can restore suppressed eruptions, can cure the consequences of suppressions and set free the reactive power in conditions of undeveloped disease.

Some of the keynote symptoms of Zinc will be present to give the clue. The most important of these are: "Incessant and violent fidgety feeling in feet or lower limbs, must move them constantly, cannot keep them quiet."

These movements may continue even during sleep. Another is: "Too weak to develop exanthemata or menstrual function to expectorate or urinate to understand to remember." Corresponding to these is: "Relief to all suffering as soon as menses begin to flow," or as soon as other excretory functions are restored. In asthma "the patient cannot expectorate, but as soon as he can he is relieved" (Nash).

General twitchings and trembling, according to Nash, are equally characteristic of Zinc. He records this case: Miss Smith., 20. had been ill for a week with headache loss of appetite and especially prostration. Over-study was the cause.

Under Gels. and later Bry., she was improving, when she threw off the bedclothes while sleeping and perspiring and took a chill. The bowels became enormously distended, profuse hemorrhage occurred (finally controlled by Alumen), a low form of delirium came on and prostration increased in spite of the cessation of hemorrhage.

This was the condition: Head retracted, with complete unconsciousness. Staring eyes rolled upward. Lying on back and sliding down in bed, twitching or rather intense, violent trembling all over so that she shook the bed," her hands had to be held constantly night and day by nurses, hippocratic face, limbs deathly cold to knees and elbows. The pulse was intermittent, uncountable, all signs in short of impending paralysis of the brain.

Two drops of Zinc 200c were mixed in two teaspoonfuls of water. One teaspoonful was worked, a little at a time, between the set teeth and the rest half an hour later. About an hour after the latter dose the patient turned down her eyes and said "Milk." Through a bent tube she swallowed half a glass of milk, the first nourishment she had taken for twenty-four hours.

From that time she improved steadily and received no more medicine for four days. Afterwards she had a dose of Nux-v.. Recovery was perfect.

Zinc has a strong action on the generative sphere, it excites both sexes and causes seminal losses and prostaticorrhea of the male and nymphomania and masturbation in the female. This may be associated with varicose veins or itching of the external genitals.

A notable symptom of Zinc and one which may indicate it in children and in delirious cases, as well as in disorders of the genitals themselves is that the patient is continually pressing on the pubes or applying the hand to the genitals.

With the emission there is backache, which is temporarily better by the emission and with the female sexual disorders there is also backache and spinal irritation. Dull aching in spine, worse when sitting. Burning pains all along the spine.

The Zinc burning pains, tension and constriction are also present. Neuralgia in malar bones with pressive pains. Pressure at root of nose as if it would be pressed in. The constriction is especially felt in the chest and is connected both with respiration and the heart. "Sudden, spasmodic, bursting sensation about heart, it appears to be beating regularly, when it suddenly seems as if it would burst through the chest."

Zinc affects the blood-vessels and corresponds to varicose veins of the labia of the thighs, running into the labia of the legs with fidgety feet. Numbness, tingling, formication and fainting spells are other nervous effects of Zinc.

It has an insatiable craving hunger and emptiness, notably at 11 a.m. , thirst quite as great and "hasty eating" and "hasty drinking" are among the keynote symptoms.

Intolerance of wine, wine aggravates all symptoms. This is noteworthy in states of nervous exhaustion, which usually crave stimulants. There is the aversion to wine.

PAGE 1830

Other characteristic aversions are: Meat (especially veal), sweets, cooked or warm food. Eating as well as wine-drinking worse the pain. There is a tearing headache, most in side of head, worse from wine, worse after dinner.

In meningitis there are sharp, sharp pains in the head, worse from the least stimulant. Pain may account for the anxious scream which accompanies the convulsions of Zinc. The child springs up in bed, gnashing teeth, eyes rolled up. A characteristic of brain disorders of children is "crossness in the evening."

On waking there is delirium as if frightened, knows no one. "Child repeats everything said to it" is another leading symptom. "Grits teeth" occurs in these conditions and will often give Zinc. a place in worm cases.

Among the symptoms indicating lack of power is "teeth fail to develop." The "fidgety feet" of Zinc is blueness of surface. Related to this is the tendency to chilblains, which are swollen and painful and easily made worse by rubbing.

There is sensitiveness to frost-bite, the tip of the nose is easily frost-bitten and the nose remains red long after it has been frost-bitten. The hands and feet are affected with inflammation, painful eruptions, cracks. There is also a "frost-bitten feeling" in the toes. All these point to a lowered state of vitality.

F. W. Payne reports this case of cataract: Right eye partially affected and left practically useless for vision with bruised, sore, smarting, burning, itching and stinging sensation, at intervals, suddenly, sensation as if pepper had been thrown into it, causing scalding lachrymation and spasm of the lids.

These spells were worse in evening. Burning dryness as if a stick under lid scratching eyeball. Flickering before left eye, blue and green rings, green halo round gas-jet at times. Slight irritation of conjunctiva and tendency of lids to adhere. Worse by warmth, on warm days, by artificial light.

Patient nervous, tremulous, impatient, worse by mental emotion. chorea jerking of individual muscles.

Zinc 200c, given occasionally, steadily improved the case. In six months right eye was quite clear and the left steadily gaining. Eleven years later vision was practically perfect, though some small streaks could still be found in the left lens.

Gerstel calls attention to the action of Zinc in fevers with inflammation of the brain. In these cases the seat of the inflammation was the meninges. He refers to a case of a child suffering from scarlatina who was in this condition:

"Entirely motionless, limbs icy cold, body cold, skin all over body bluish red, except the parts about the eyes, forehead and chin, which were white." Zinc was then given and the child gradually recovered.

In a case of typhoid in a man in whom mental symptoms had set in: "Muddled feeling in the head, an incapacity to relate anything and a sort of half-smiling loquacity."

Later on he had: "Staring look, almost hippocratic appearance, pale as wax, carphologia, subsultus tendinum, constant trembling of the hands." Zinc 2c saved the patient.

Boericke. Clarke. Phatak.

Zincum muriaticum

(chloride of zinc)

Pharmacy

Zinc-m. Zinc muriaticum. Chloride of Zinc. Zinc Chloride. Solutions in water or alcohol. Historical dose: All potencies.

History

The bulk of the symptoms of Zinc-m. are derived from poisoning cases. Chloride of Zinc is an active poison and a powerful disinfectant and being readily accessible in the form of "Sir Wm. Burnett's Disinfectant Fluid," has occasioned many poisonings, both accidental and suicidal. **Planets:** Moon.

Homeopathic

Most of the Zinc-m. symptoms are the usual effects of a corrosive poison, but some characteristic symptoms appear. One of them was the perversion of the senses of smell and taste: Things had a putrid smell and taste which were not putrid and feces had no odor at all. Quinine had no bitter taste and acids and alkalies had no acid or alkaline taste. Insipid things were most relished.

Other Zinc-m. symptoms were: "No natural appetite, but a morbid craving for something to allay the irritation at the stomach." "Vomiting of all food except boiled milk."

"Occasional attacks of tetanic spasms of right forearm and hand." "Emaciation, skin looked as if stretched tightly over bones of face and hands." "Bluish and blue-mottled skin."

"Sleeps on right side with legs drawn up, grinds teeth." Spasmodic twitchings of face and hands, sprains and convulsions were prominent features. De Noe Walker used a dilution of Zinc. m. as an application to fresh wounds and found it very effectual in securing rapid healing.

Clinical

Bright's disease. Chorea. Constipation. Convulsions. Cramps. Diphtheria. Dysentery. Emaciation. Hematemesis. Hiccough. Hydrocephalus. Smell, perverted. Taste perverted. Typhoid fever. Wounds.

SOURCES

Clarke.

Zincum oxydatum

(oxide of zinc)

Pharmacy

Zinc-o. Zincum oxydatum. Flowers of Zinc. Oxide of Zinc. Zinc oxide. Trituration.

Historical dose: All potencies.

History

An extensive proving of Zinc-o. was made by Wernek, Buchner and Michaelis. These symptoms have been included by Allen in the pathogenesis of Zincum and some of them will be found in the schema of Zincum. Jahr kept a separate record of Zinc-o. Clarke adds to his account. **Planets:** Saturn, Moon.

Homeopathic

The contracting, shriveling-up effect of Zinc-o. was marked in these provings. Among the more peculiar symptoms were: Undulating movement in some muscles. Contraction of the risible muscles and constant impulse to laugh.

Teeth blunted incisors feel soft and glued together. Hiccoughs, that are better after regurgitation of bile. Liquid stools which better all symptoms.

In the Zinc-o. provings the left lung was very markedly affected. There was coryza worse after a meal with difficulty to respiration and nasal secretion. Stoppage of the nose was much complained of. Anorexia better after a meal.

Farrington says that Zinc-o. is very like Con. in hypochondriasis and melancholy from masturbation, the difference being that Zinc-o. is irritating as well as weakening and depressing.

Clinical

Coryza. Debility. Deltoid, pain. Diaphragm, neuralgia. Elbow, pain. Hiccough. Hypochondriasis. Laughter involuntary. Sleeplessness.

SOURCES

Clarke.

PAGE 1832

Zincum phosphoricum

(phosphide of zinc)

Pharmacy

Zinc-p. Zinc phosphoricum. Phosphide of Zinc. Zinc Phosphide. Trituration. Historical dose: All potencies.

History

Ashburton Thompson gave pills, each containing 2/3 grains of Zinc-p. to two patients and both experienced a severe frontal headache with frequent stabs of pain backward, deep in the head to occiput.

Hale has used it on a combination of the indications of the elements and especially in brain-fatigue of business men. Hammond has cured with it nervousness and vertigo better lying down. In some patients the Zinc-p. 3c potency has caused sexual excitement and sleeplessness after 3 a.m.

According to Hale, Zinc-p. removes the mental depression and paralysis following cerebral congestion and strokes.

J. E. Baldwin reports this case: A lady in perfect health prepared a long report and read it to a large audience without undue excitement. Next day had some pressure in occiput to cervical spine, lasting four days. Feeling of fatigue with disinclination to any mental exertion.

Zinc-p. 2x cured in a few doses.

Zinc-p. 6x has also cured an irritable kidney with loss of memory in an old man.

Planets: Moon, Venus.

Homeopathic

Zinc-p. is a remedy for mental depression, fatigue. Brain fatigue of businessmen. Sexual excitement and sleeplessness. Nervousness. Paralysis. Epilepsy. Abuse of bromides. Forgetful indolent, apprehensive worse afternoon and night. Formication all over the body. Nervous vertigo better lying.

Clinical

Brain-fag. Delirium tremens. Headache. Herpes zoster. Impotence. Kidneys, irritable. Neuralgia. Paralysis. Sleeplessness. Tremors, mercurial.

Symptoms

Chest

Neuralgic pains and skin symptoms like those of herpes zoster.

Kidneys

Irritable kidneys with loss of brain-power even when calculus is present.

Male

Emissions with voluptuous dreams and intense nervous thrill. Erections with unusual voluptuousness and desire.

Sleep

Sleepless after 3 a.m. , "it wakes me at three and I feel as if under the influence of pleasant and quick music".

Stomach

Nausea and vomiting.

Vertigo

Vertigo, better lying down.

SOURCES

Clarke.

Zincum picricum

(picrate of zinc)

Pharmacy

Zinc-pic. Zincum picricum. Picrate of Zinc. Trituration. Historical dose: All potencies.

History

Hale gives this indication of Zincum picricum: "Cerebrospinal troubles of the weakness of character." Halbert reports: (1) A case of recent facial paralysis from cold cured by Zinc-pic. 3x and (2) Parkinson's disease in lady, 45, very greatly improved by the same.

Planets: Moon.

Homeopathic

Hugh Pitcairn gives these Zinc-pic. indications: Brain-fag and nervous exhaustion from over-worked brain or sexual excesses. Chronic occipital headaches, periodic. Headache occurring in Bright's disease. Threatened cerebral paralysis, especially in children.

Profound neurasthenia., when nervous exhaustion has passed beyond stage of weakness. Seminal emissions. Sexual mania.

Clinical

Bright's disease, headaches of. Exhaustion. Facial paralysis. Headaches. Nymphomania. Parkinson's disease. Priapism. Satyriasis. Seminal emissions. Sexual mania. Spinal weakness.

Comments

Hale gives this case: Mr. M., 36, a merchant. Above ordinary intelligence. Single: correct in his habits, but subject to seminal emissions since early manhood, occurring about 3 a.m. Every third night, leaving him very weak and debilitated, Worse every change of weather, especially in hot weather and before and during thunderstorms. Never masturbated.

PAGE 1833

Complains of loss of memory and energy, dull, heavy feeling in head, sticky, pasty mouth, dry throat, poor appetite. Belches torrents of tasteless flatus after eating, followed by relief and diarrhea.

At other times inclined to constipation. Languid, heavy feeling throughout body. Dull aching pain in back. Zinc-pic. 2x trituration. caused steady improvement, the emissions being reduced in frequency to one in six weeks.

Compare

(1) Fatigue - Pic-ac., Ferr-pic. and picrates generally.

SOURCES

Clarke.

Zincum sulphuricum

(sulphate of zinc)

Pharmacy

Zinc-s. Zinc sulphuricum. White Vitriol. Sulphate of Zinc. Zinc Sulphate. Solution. Trituration. Historical dose: All potencies.

History

A large number of poisonings with Zinc-s. are on record and these have furnished the symptoms of the schema. The use of Zinc-s. in solution as an eye lotion is founded on a

specific relationship and in homeopathic potencies it has cured corneal opacities. Obstinate keratitis in right eye goes away from a 3x lotion. **Planets:** Moon.

Homeopathic

Zinc-s. has anemia, tremors and convulsions. Prostration. Heaviness. Feeling as though her blood could scarcely struggle through her being. Titillation all over body with irresistible inclination to laugh. Trembling and convulsions.

Clinical

Convulsions. Cornea, opacity. Dysentery. Esophagus, stricture. Granular lids. Headache.

Heartburn. Laughter involuntary. Metrorrhagia. Prurigo. Tongue, paralysis.

Symptoms

MIND

Delirium. Great nervous anxiety and depression. Frightful visions during headache, saw her child with its head shattered (cured with the headache).

Abdomen

Inflammation of abdomen with retraction of umbilicus and terrible colic. Sharp, continuous colic. Pain in abdomen and especially in bladder region in groin.

Chest

Pains in chest with vomiting. Violent burning pains beneath chest. Sense of choking and constriction round chest.

Ears

Roaring in ears.

Eyes

Obstinate keratitis. Bluish rings round eyes. **Eyes** are heavy and dull, staring, fixed with peculiar bright luster, spasms with upper limbs. Lachrymation. Opacity of cornea. Diffuse opacity of each cornea goes away on using a lotion round both orbits externally. Pupils dilated.

Face

pale, sunken with cold limbs and convulsed pulse, leaden tint, contracted features.

Female

Has been given for metrorrhagia.

Head

Headache: violent with thirst. Burning, acute pain in head. Immediately felt as if a painful electric shock had gone through his head, he expected his brains would have burst through his skull.

Heart

Pulse: fluttering indistinguishable, dicrotic, almost lost, as in cholera.

Limbs

Trembling and cramps. Convulsive movements of upper limbs and eyeballs.

Lungs

Violent cough with bloody and purulent expectoration. Breathing: weak, slow, difficult.

Mouth

Tongue: moist, a little blanched, partially paralyzed. Tongue, mouth and lips greatly swollen. Gums swollen and red on outer edge. Irritation of whole buccal membrane. Very sour taste.

Rectum

Rectal tenesmus. Constant desire for stool. Purging and vomiting. Bilious diarrhea. Stools infrequent. After three months stools became bloody with sticking and cutting pains in both sides of abdomen and along colon. Obstinate dysentery with emaciation, pale, bloody stools, painful tenesmus and desire for food that failed to nourish.

PAGE 1834

Skin

Skin pale yellow. Deadly pallor, skin milky white. Blisters on neck discharge first bloody water, later thin, green, ill-smelling pus. Frightful prurigo of children affecting the back.

Sleep

Sleepy and stupid, wanted to sleep and die in peace.

Stomach

Thirst: intolerable and dry mouth. **Heart**burn. Vomiting and purging with cramps, severe pain and burning in stomach and extreme prostration. Burning heat in stomach with acute pain in epigastrium.

Temperature

Coldness. Shivering: violently, and slight quivering of lips. Skin and limbs cold and clammy. Fever followed by profuse sweat. Constant heat, preventing sleep. Burning heat of limbs. Profuse sweat. Hands covered with cold, clammy sweat, but to herself they felt hot and she tried to get hold of anything to cool them.

Throat

Inflammation, threatening suffocation. Tenderness in throat. Burning and constriction in fauces. Esophagus is so contracted he fears choking.

Vertigo

Dizziness.

Comments

Severe gastric and dysenteric symptoms were induced and Zinc-s. has cured many cases of dysentery. Farrington says it is chiefly in sub-acute cases that it is indicated, when the pains are confined to the sides of the abdomen, probably to the colon.

The peculiar Zinc-s. symptoms are: Burning, acute pain in head. Immediately sensation as if a strong electric shock passed through head, he expected his brains would have burst through his skull. Abdomen contracted.

She felt as if the blood could scarcely struggle through the veins. Titillation all over with an irresistible desire to laugh. A "milk-like pallor of the surface looks like a characteristic."

SOURCES

Clarke.

Zincum valerianicum

(valerinate of zinc)

Pharmacy

Zinc-Valer. Valerianate of Zinc. Zinc valerianicum. Zinc Isovalerate. Trituration.
Historical dose: All potencies, first and second trituration.

History

Zinc-Valer. is a favorite anti-hysterical medicine in old-school practice. There is one proving with substantial doses by C. B. Finney, which brought out a strong action on the genital sphere, the usual starting-point of hysteria.

Finney had the brain-fatigue symptoms of Zinc Met. and the gastro-intestinal disturbance. The abdominal pains waked him from sleep and he had to rise at 6:30 to stool, which was partly focal and partly fluid. Later he was constipated and had tenesmus.

Hansen gives "epilepsy without aura." Finney had "Sensation as if a very heavy weight on chest," and dull headache and stiffness of muscles of neck.

Hale quotes C. Dradwick as saying that a considerable number of patients having hemorrhoids, who were taking Zinc-Valer. for other troubles, had their hemorrhoids relieved by the remedy. **Planets:** Moon.

Homeopathic

Zinc-Valer. affects the nerves, ovaries and spine. Sleeplessness in children. Obstinate hiccough. A remedy for neuralgia, hysteria, angina pectoris and other painful affections, notably in ovarian disorders. Epilepsy without an aura. Hysterical heart-pain.

Facial neuralgia, violent in left temple and inferior maxillary. Painful nervous effects. Neuralgia. Oversensitive, nervous and sleepless. Hysteria. Obstinate hiccough. Epilepsy without aura.

Finney had distinct heart pains and Hale mentions angina pectoris as having been cured by Zinc-Valer. Other conditions named by him are: Prosopalgia, spinal neuralgia, sciatica, ovarian neuralgia, cerebrospinal meningitis and tubercular meningitis. Zinc-Valer. is indicated in hysteria with fidgety feet, hypochondriasis, groundless fear.

PAGE 1835

Clinical

Angina pectoris. Asthma. Brain-fag. Deltoids, pain in. Diarrhea. Emaciation. Epilepsy. Hemorrhoids. Hypochondriasis. Hystero-epilepsy. Priapism. Seminal emissions. Stiff-neck.

Modalities

Better from rubbing.

Symptoms

MIND

Excitable. Distressed mentally, mind all mixed up. Groundless fear. Dullness of mind and headache with erections. Great fullness of head with difficult thinking.

Abdomen

Mucous colitis. Crampy pains from flatulence in hypogastrium.

Back

Aching up.

Eyes

Tickling over left ear.

Face

Prosopalgia.

Female

Dysmenorrhea, pains down the thighs. Ovarian pain that shoots down limbs, even to foot during and after menses.

Head

Violent, neuralgic intermittent headaches. Becomes almost insane with pain, which is piercing and stabbing. Uncontrollable sleeplessness from pain in head with melancholy.

Limbs

Severe pain in neck and spine. Cannot sit still, must keep legs in constant motion. Sciatic neuralgia.

Mouth

Sour taste in morning. Smothers on attempting to eat.

Temperature

Chills after mental excitement or exertion. Cold parts burn as they warm up.

SOURCES

Boericke. Clarke.

Zingiber officinale

(ginger)

Pharmacy

Zing. Zingiber officinale. Ginger. N. O. Zingiberaceae. Tincture of dried rhizome.

Historical dose: Tincture and all potencies, first to sixth potency.

Herbal

Like most spices, Ginger has a specific action on the digestive organs, causing flatulence and other symptoms of indigestion, pressure in stomach as from a stone. Zingiber was proved by Franz and others and their symptoms make a full pathogenesis.

Farrington says ginger is not a safe food to give during kidney affections, as it has caused Bright's disease. Prolonged retention of urine or complete cessation of the function of the kidneys is an indication for Zing. **Planets:** Jupiter, Venus.

Homeopathic

Zingiber strongly affects the digestive, genito-urinary and respiratory systems. States of debility in the digestive tract, sexual system and respiratory troubles, call for this remedy. Complete cessation of function of kidneys.

Zing. cures diarrhea or constipation and helps with irritation of the colon. It is worse from eating bread and especially from eating melons.

Clinical

Albuminuria. Asthma. Breath offensive. Deltoid rheumatism. Diarrhea. Dropsy, Dysentery. Flatulence. Food, poisoning. Hepatitis. Nervous. Ozaena. Post-nasal catarrh. Seminal emissions. Spleen, pains. Urine, suppressed.

Causations

Complaints from eating melons or drinking impure water. Bad food or water. Melons.

Bread.

Modalities

Better sitting, standing. Better uncovering. Worse by touch. Worse lying. Motion worse. Rising worse. Laughing or talking aggravates headache. Worse evening and night. Worse in cold air, cold, damp air. Worse from bread from melons.

Symptoms

MIND

Cheerful, good-humored, a pleasing sensation in her system. Increased activity of brain. Forgetful, weak memory. Irritable and chilly in evening and during menses. Feet very uncomfortable and did not know what to do. Nervous and fidgety.

Abdomen

Colic, diarrhea, extremely loose bowels. Chronic intestinal catarrh.

Back

Stiffness of back of neck with headache and nausea. Back lame. Backache as from weakness, feels stiff.

Chest

Stitches in chest, pleuritic pains.

Eyes

Smarting and burning in eyes, sensitive to light with stinging pain in them, feeling as of sand in eyes. Pressure on eyes, worse on left.

Weakness of sight, dimness of cornea.

PAGE 1836

Face

Hot, red face. Exhausted look, blue under eyes, before menses. Dry lips and mouth.

Female

Painful menses, cramps. Menstruation too early and too profuse, blood dark, clotted. Irritable with menses.

Food

Complaints from eating melons or drinking impure water. Food or water poisoning. Much thirst, mouth dry. Headache and pressure in stomach after eating bread. Taste of food remains long, especially of bread and toast.

Head

Feels confused and empty in his head. Head feels too large. Hemicrania, sudden glimmering before eyes. Frontal headaches. Pain over eyebrows. Pain encircling head. Congestion of blood to head, especially temples. Itching on scalp, head and cheeks.

Heart

Violent stinging-pressing pain in left side of chest in region of heart.

Kidneys

Dull aching in both kidneys with frequent desire too urinate. Stinging, burning in orifice. Yellow discharge from urethra. Complete suppression after typhoid. After urinating, continues to ooze in drops. Increased secretion of urine. Urine thick, turbid, dark brown of strong smell. Retention of urine after typhus.

Limbs

Joints feel weak, stiff, lame. Dull, heavy, feeling in limbs with numbness. Cramps in soles and palms. Rheumatic, drawing pains. Painful swelling of feet. Soreness of heels after standing a long time.

Liver

Hepatitis. Liver pains, weakness.

Lungs

Painful respiration. Asthma without anxiety, worse toward morning. Asthma humid. Scratching sensation in throat, stitches in chest. Cough dry, hacking, copious morning sputa.

Male

Itching of prepuce. Sexual desire excited, painful erections. Emissions.

Mouth

Slimy, bad taste in mouth in morning. Mouth smells foul to herself, as from disordered stomach.

Painful sensibility of teeth with pressive, drawing pain in their roots.

Nose

Feels obstructed and dry. Intolerable itching, red pimples. Coryza, watery, sneezing, more in open air. Insupportable itching, tingling in nostrils. Dryness and obstruction in posterior sinuses with discharge of thick mucus. Ozaena.

Rectum

Diarrhea from drinking bad water with much flatulence, cutting pain and relaxation of sphincter. Constipation. Hot, sore, painful anus during pregnancy. Hemorrhoids hot, painful, sore. (Aloe.)

Sensations

As if head too large. Confused and empty in head. As if there were an obstacle in throat to swallow over. As of a stone in stomach. Empty feeling in stomach. A shock-like moving downward as from a dropping fluid in left loin. Pain as from weakness in sacral region. Pain as from over-work in left deltoid. As from over-strung muscles in bend of knee. As if going to faint.

Sleep

Sleepy and exhausted, coma. Sleepless, wakes at 3 a.m. , falls asleep again late in morning.

Stomach

Belching and diarrhea. Nausea, vomiting of mucus in alcoholics. Weak digestion, stomach heavy like a stone. Feels heavy like from a stone. (Nux-v.) Acidity of stomach. (Calc., Rob.) Heaviness in stomach on awakening with gas and rumbling, great thirst and emptiness. Pain from pit to under sternum, worse eating.

Temperature

Chilliness beginning in lower limbs, going upwards. Chilly in evening. Chilliness and sensibility in open air. Hot and chilly at same time.

Throat

Hoarseness. Smarting below larynx, breathing difficult. Dryness of throat and difficulty of swallowing, as from an obstruction with dryness of posterior sinuses. Increased mucous secretion, no fever.

Vertigo

Vertigo, limbs heavy. Motion sickness with nausea.

PAGE 1837

Comments

In asthma, Farrington gives this indication: Asthma of gastric origin, attacks come in the night towards morning. Patient must sit up to breathe, but despite the severity of the paroxysm, there is no anxiety. The nasal mucous membrane is affected as markedly as that of the lungs. Ozaena and post-nasal catarrh are among the symptoms.

Zizia aurea

(meadow parsnip)

Pharmacy

Ziz. *Zizia aurea*. *Thaspium aureum*. Meadow parsnip. *Carum aureum*. N. O.

Umbelliferae. Tincture of root. Historical dose: Tincture and all potencies.

Herbal

The Meadow Parsnip is a common plant indigenous to the United States on the moist banks of streams and in open wet woods, where it flowers in June and July. Rafinesque speaks of it as vulnerary, anti-syphilitic and sudorific (Millspaugh).

Marcy proved Ziz. on himself and some others and symptoms of poisoning have been added. Marcy considered Ziz. especially suitable in brain affections, catarrhal, asthmatic and pleuritic diseases in ovarian neuralgia.

Exhilaration with increased physical strength was noted, but a slight amount of exercise caused fatigue. The spasms and convulsions of the *Umbelliferae* were elicited. The generative organs in both sexes were excited. **Planets:** Moon.

Homeopathic

Ziz. has spasmodic movements of the muscles of face and limbs. Chorea, twitching during sleep. Hypochondriasis, desire to commit suicide. Increased strength with inclination for exertion. Aspect of grave and chronic illness. Whole body white and puffy. Edema of face and ankles.

Spasms, swooning convulsions and fainting fits, ending in death in three hours.

Convulsions, epilepsy. Spasms of face and limbs. Surface of body sensitive to touch.

Clinical

Asthma. Brain disorders. Catarrh. Chorea. Convulsions. Depression. Dropsy. Epilepsy. Hypochondriasis. Hysteria. Influenza. Leucorrhoea. Menses, suppression. Migraine. Ovary neuralgia. Pleurisy. Styes.

Modalities

Pains fixed, worse by movement, noise, light, contact, worse evening. Worse by touch.

Pressure causes pain in intercostal muscles, on stomach causes nausea and faintness.

Worse lying, stooping, motion, coughing.

Symptoms

MIND

Exhilaration like intoxication, followed by strong desire to sleep. Laughing and weeping alternately. Depression followed by exhilaration. Irritable, low-spirited indifferent. Nervous irritability and a state of depression. Paroxysms of self-dissatisfaction with weeping. Indolence with contentment. Behavior quiet with much apparent suffering and sadness.

Back

Pain in posterior margin of scapula, aching, smarting, stinging with aching in small of back when at their worst. Dull pains in loins, worse by movement. Smarting burning in small of back.

Chest

Severe pains in pleurae. Bruised feeling in muscles of chest. Pressure causes pain in intercostal muscles. On and around xiphoid cartilage pain and tenderness to touch. Dull, aching pain under right scapula. Severe shooting from front of thorax to scapula. Sharp pains from sides and chest to both scapula. Severe stitching pains accompanied by feverish symptoms. Pleuritic stitches worse by coughing or deep breath.

Eyes

Redness of both eyes. Pain affects right eye most. Shooting pains through orbits. Sharp pain through right orbit, worse moving eyeballs, stooping or stepping. Eyelids **agglutinated on rising by yellowish muco-purulent secretion**. Styes, right lid. Styes middle of upper lid, very painful.

Sensitive to light.

PAGE 1838

Face

Face: pale and puffy. One cheek red, other pale. Boring pains in cheek-bones. Dull pains in jaws. Painful tenderness in lower jawbone, an inch below root of ear.

Female

Increased vascular and nervous excitement. Leucorrhoea: bland, acrid, acrid at first, later copious and bland. Profuse menses one day, followed by acrid leucorrhoea. Menses appeared in due time but ceased after twelve hours. Sudden suppression of menses.

Food

Craving for acids and stimulants. Appetite: diminished, lost. Thirst.

Head

Rush of blood to head and face with feeling of fullness. Sensation of tightness round head. Intensely painful, sharp headache over right eye, Puls. better first days, not later, fully developed seventh day, must lie still in dark room, worse evening (the usual headache is worse morning), associated with backache, worse by coughing. Severe pain in right temple with nausea. Pressure on top of brain. Dull pain in occipital region, extending down neck muscles.

Limbs

Lameness in muscles of both arms from shoulder to elbow. Pricking sensation in right arm with steadily diminished sensibility of the part. Dragging sensation in both hips. Unusually tired feeling in legs after slightest exertion.

Lungs

Roughness in upper part of larynx when inspiring or coughing. Larynx raw from coughing. Trachea sensitive to touch. Dry cough with shooting pains in chest. Tight cough from deep breath from dryness of larynx. Short, dry cough with severe stitching in right side and sense of suffocation. Breathing oppressed, cannot keep lying down.

Asthma.

Male

Involuntary emission two nights in succession. Excitement. Lassitude and prostration after sex, which had existed a long time, was completely removed in the proving.

Mouth

Tongue, red and unusually sensitive to cold and warm drinks, covered with whitish fur, yellow fur on tongue and oppressed respiration, broad, furred in middle, red at tip and sides. Mouth dry. Taste: bitter, bilious.

Nose

Nasal catarrh with sneezing and coughing from first inhalation. Nasal discharge of thick mucus. Right nostril congested, sore with injection of pharynx and conjunctiva.

Skin

Itching pimples on forehead, wrists and legs.

Sleep

Drowsiness with sense of fatigue. Sleep prevented by pains. During sleep: spasmodic twitches, talking, unpleasant dreams.

Stomach

Nausea. Vomiting: acid, bilious, immoderately. Stomach sensitive to touch, pressure causes nausea and faintness.

Temperature

Chilliness and heat alternating with faintness, nausea, pain in right temple, redness of eyeballs, dry and red tongue and thirst for cold water. Chilliness accompanied by spasmodic twitchings of muscles of face and upper limbs, followed by fever. Fever with headache, pain in back, thirst. Fever with stitching pain in chest. Some sense of heat and fullness in both cheeks. Redness and heat of cheeks. Hot flushes in face and head followed by perspiration.

Throat

Mucus increased. Slight redness of tonsils and palate with soreness. Inflamed pharynx.

Vertigo

Giddiness, swimming, light-headedness.

Comments

Ziz. is indicated in uterine disorders characterized by increased nervous and vascular excitement. The menses are profuse and followed by acrid leucorrhoea. Burning, smarting

MIND

backache. Spasmodic movements of face and limbs. first exhilarated, then depressed, finally indifferent. The restlessness of Ziz. runs into chorea and the chorea has this distinguishing feature, that the movements continue or are even worse during sleep.

PAGE 1839

Connected with the uterine congestion there is migraine, the region of the right eye being most affected. There was rush of blood to the head. Flushed cheeks, hot head, visible pulsations of carotid and temporal arteries, coldness of hands and feet, drowsiness and irritability.

Among peculiar symptoms are surface of body paler than natural, white, puffy appearance of whole body. Laughs and weeps alternately. One cheek red. Craves acids and stimulants.

Compare

(1) One cheek red, Cham.

(2) Uterine congestion, backache indifference, Sep.

(3) Chorea in sleep, Tarent.

(4) As if in a dream, Ambr., Anac., Calc., Cann-i., Con., Cupr., Med., Rheum., Valer., Verat.

(5) Laughing alternately with weeping, Calc., Ign., Merc., Nux-m., Puls., Stram.
